The Gay Philosopher

By J. W. S.

THE PRESS got a number of inquiries yesterday about a report of an airplane crash in the Putnam area. Checking into the matter, we couldn't get beyond the report stage. And that is still the situation.

As we understand it, a T&P train crewman reported by radio to the Cisco depot at about 1:30 a. m. Wednesday that he had witnessed a ball of fire, resembling a plane crash, fall west of Putnam. Highway patrolmen were alerted. The CAA got on the job, too. But nobody could find a sign of a wreck. And the CAA didn't know of any missing airplanes.

A truck driver also saw the falling object. And he reported it to Cisco policemen, who sounded a radio alarm. Guess it was a falling star or something.

SOME FRIENDS of ours are having trouble with "thumping" water lines under their house. Often, the lines start a thumping noise that eventually gets on your nerves. They've had the lines drained and checked but can't seem to find the trouble.

If you know how to handle a situation like this, give us a call and we'll pass along the information.

THERE'S A NOVEL fireplace scene down at the Savoy Cafe that you will want to see . . . Home Supply has a snow scene that is attractive . . . Understand the CoC has acquired a couple of hundred Christmas trees to put up and down the streets in the business district . . . As decorations go up around town, both in the business district and the residential areas, we'd appreciate a call so we can call it to the attention of everyone.

MR. CLELL REED, the tail-twister of the Cisco Lions Club, doesn't think you can enjoy a meal at a luncheon club without first singing "America." At the meeting yesterday, several Ciscoans, including O. L. (Bill) Lee, Jim Webster and Carlos Turner, and four Eastland Lions - Everett Plowman, Cecil Moore, James Reed and Norman Guess - came in late, so the tail-twister had them stand and sing "America" before they could eat. Makes your food taste better, he says.

SEE BY THE papers where the Cisco Country Club plans to invite some new members into the organization. A country club and golf course are very definite assets for any community, and they merit the consideration and support of the citizens. As the young folks grow up, they need the facilities of a country club.

Stockholders of the country club are the owners of one share of the club and its assets. They pay the sum of \$100 for a share. And the club has land and improvements worth between \$20,000 and \$25,000. Its debts are negligible. From an investment standpoint, it doesn't seem bad to us.

The club has a plan, too, for associate members. They don't have to buy a share of stock, and about the only difference is they don't get a vote or voice in the club management. And some people don't like to talk anyhow, so this should appeal to a good many.

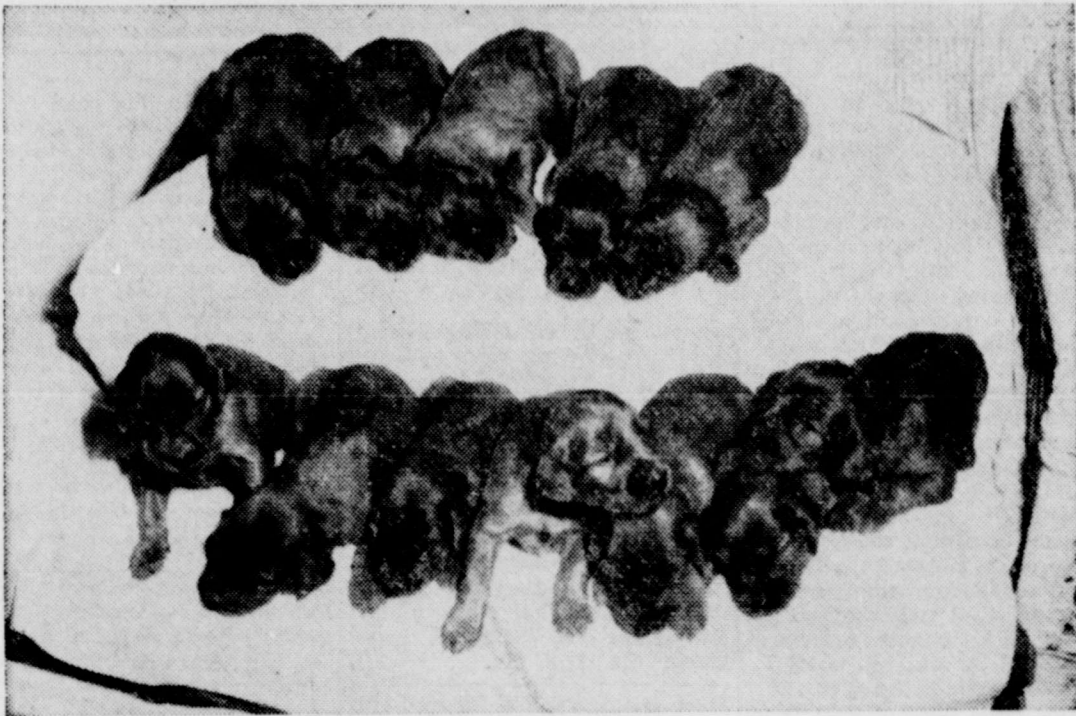

Mrs. F. E. Harrell and Mr. W. J. Foxworth are heading up a membership committee that is being organized. If you're interested in joining the club, they have all the answers to any questions you might want to ask.

They're having a family night party at the club Friday night. It will begin at 7 p. m. and members have been asked to bring a dish of food and, if they like, to invite guests. A game hour will follow the supper, which is always outstanding.

They always seem to work out just right - the club supper menus. Nobody knows what others are bringing, but we've never seen it that there wasn't plenty of everything to make a well balanced meal. Once only two couples showed up due to a lot of conflicting things. One couple brought a fried chicken, and the other brought potato salad and a loaf of bread. And they enjoyed it.

Judge Eugene Lankford, who has been a patient at Graham Hospital for several days, is now at home.

Cotton Harvest Is Being Pushed In Irrigated Areas

AUSTIN, Dec. 2. — Mechanical harvest moved in cotton fields throughout northwest irrigated areas in the full week of open, windy, chilly weather and gin yards in that area were over-run with loaded trailers. As sorghum combining rolled along toward completion in that area, additional tonnage was necessarily piled on the ground.

In the plain country, particularly the northern low rolling plains, dust storms were already starting. Strong, drying winds sapped the already short surface moisture and where vegetative cover was lacking, kicked up dust storms. Some dryland wheat on the high plains was still holding up but over much of that country wheat prospects were deteriorating in the powder dry soil. In the low plains some acreage remained to be planted and that which was just coming up urgently needed rain to get roots established.

Progress of commercial vegetable in the lower valley was very satisfactory with planting of additional crops, mainly cabbage, carrots and lettuce active. Peppers are plentiful but movement has been slow. A light carlot movement of tomatoes was started in the valley. Production is late however, and even with favorable weather throughout December, supplies will probably fall short of earlier expectations.

Active harvest of beans and other tender vegetables continued. Small grain pastures in northern blacklands, eastern and southern counties were still supplying considerable green feed but lack of moisture in the south and cool temperatures in the north has slowed growth. On the high plains some dryland wheat was still being grazed but was supplying very little feed. Cured grain feed was very short over the entire state and supplemental feeding was increasing in central and western counties.

On the high plains stalk fields continued supplying considerable feed but fields were about eaten out in other areas. The fall movement of feeder and stocker calves and yearlings was about over with many farmers and ranchmen shaping up to carry remaining stock through the winter. In the hill country many ranchmen were busy taking care of deer hunters.

AUTO ACCIDENT RATE CLIMBING EACH YEAR, LIONS CLUB TOLD

Texas and the nation are building more and better highways and driving better automobiles, but they continue to kill and injure more people each year in traffic accidents, Glen Covington, safety engineer for Lone Star Gas Company, told members of the Cisco Lions Club in a talk at the weekly luncheon meeting Wednesday.

Mr. Covington appeared as the guest speaker at the invitation of Lion L. M. Cawley. During the first 10 months of 1954, a total of 1,965 Texans died in auto mishaps and another 78,103 persons were hurt, Mr. Covington said. The year's total auto accident deaths in Texas is due to be 2,067, with 90,483 hurt.

The radar equipment of the highway patrol is doing a good job in cutting down speed, Mr. Covington said. The knowledge that their speed can be checked by radar is causing many drivers

Winter Fires Are Often Fatal For Elderly People

AUSTIN, Dec. 2. — "Tragedy season" for the aged may be here again, manifested in the form of one or more catastrophic fires in convalescent or nursing homes, State Health Officer Henry A. Holle said today.

"It is only natural that dangers of destructive fire in homes caring for aged people rises in direct proportion to temperature drops during fall and winter months," Dr. Holle pointed out.

"Full time use of heating and electrical equipment in these homes, plus the fact that ambulatory patients who smoke are forced inside during cold weather, calls for greater fire precautions." Dr. T. E. Dodd, in charge of nursing home licensing activities at the State Health Department, said every nursing home administrator should insist that local fire department personnel make regular inspections of their premises and operations at least every thirty or sixty days, "even though we require each licensed nursing home in Texas to be approved for fire safety."

Dodd added: "In addition to carrying out all suggestions made by the local fire department, each nursing home administrator should have a definite plan that has been practiced and perfected to meet all emergencies caused by a fire.

"Such a plan should be worked out in cooperation with the fire department and all members of the nursing home staff should know their duties and assignments and be ready to act at any time."

The Moran Luncheon Club served one hundred guests at the regular yearly Thanksgiving turkey dinner last week. The luncheon was served by Mrs. Jim Strickland and Mrs. Roe Scott of Sedwick, and their group of ladies.

McCannies and Paul Brashear of Cisco; Mrs. Joe P. Self and Rev. Joe P. Self, who was guest speaker, from Albany; Miss Clausell of the Albany News, together with 15 regular guests from Albany and a host of local citizens of Moran enjoyed one of the finest dinners ever given.

This week, Dec. 1, Mrs. Lucien Brooks and Mrs. Olen Smith were to serve a fried chicken dinner.

Mrs. Callihan and Mrs. Jacob Stephens and children of Throckmorton spent the weekend in Sweetwater with Mrs. Bildeback and family.

Eugene Green returned home Friday after two months staying in Fort Worth with relatives.

Mr. and Mrs. W. B. McCargo of Kermit are visiting his brother, George, at their ranch home for a few days.

Coach Lackland and wife are going to visit in Dallas over the weekend. While there they will see the Notre Dame vs. S.M.U. football game.

Rising Star High School won two games from the Moran girls and boys last Thursday night at Rising Star. This was the season opener for both teams. Rising Star will return their game to Moran, playing here on the night of Dec. 9. Moran will play Olden in their next game. Coach Lackland says prospects are good for a fine basketball club and hopes to see large turn-outs to see them play.

Pfc. Jackie Bartee of the U. S. Marines spent the weekend with his parents, Mr. and Mrs. Buck Bartee and other relatives.

Coaches L. L. Lewis and Joe Stephenson have a number of top players to begin the season. They had not worked out their starting team Thursday.

Several lettermen have returned to the squad this year, and a number of stars from several teams over Texas have joined the team.

Don Slatton, lanky Olden star who will play a lot this year, will probably not see much action during the first few games because of an ankle injury.

The team this year will be built around returning lettermen Burnell Stevens, Bob Lloyd, Sam Scoggins, Joe Ed Palmore, Ray Westmoreland and Dean Madison. Others likely to see much action this season are Wayne Speegle, Don Jobe, Dan Jobe, Slatton and several others.

Next week the Wranglers leave on a trip to West Texas. Monday night they play in Odessa, and Tuesday night they play Howard County Junior College in Big Spring. Their first home game is on December 11 when they play the Wildkittens of Abilene Christian College.

The jackpot for the Friday night show will be \$70.

Lobo Quintet To Play At Coleman On Friday Night

The Cisco High School Lobo cagers, who opened their 1954-55 season Tuesday night with a victory over the De Leon Bearcats, will go to Coleman Friday night for a game with the strong Coleman Bluecat quintet.

The Loboes looked sharp Tuesday night in their first contest. They showed a lot of hustle, and should develop into a smooth working team as the season advances.

Both the "A" team and the "B" team will see action on the program at Coleman Friday. They will be accompanied by Coaches Charles Williams and Lynn Glass.

The various coaches will introduce the football players from the three schools, and a film of one of the Lobo football games will be shown.

J. L. Stafford, new Boosters Club president, will make a short talk.

The club decided this year to have a banquet entirely different from the ordinary in that there will be no guest speaker.

Advance ticket sales indicated an almost capacity crowd for the banquet which is scheduled for 7 p. m. The menu will consist of turkey and dressing and all the trimmings. The food will be prepared and served by J. D. Yardley of the Spot Cafe.

The arrangements committee and the decorating committee was at work Thursday morning moving in the tables and chairs and decorating the tables.

Al Anderson, a member of the program committee, will serve as master of ceremonies for the program, and will announce the various numbers.

Those who have not purchased tickets during the advance sale may purchase them at the door.

TEXANS TO RECOMMEND FARM PROGRAM AT NATIONAL MEET

A national farm program designed to eliminate surpluses and discriminatory acreage controls will be recommended to the American Farm Bureau Federation, according to A. Z. Myrick of Cisco, president of the Eastland County Farm Bureau.

The plan was approved at the Texas Farm Bureau's convention in Galveston, Myrick said. It will be up for consideration by the AFBF at its national convention Dec. 12-16 in New York City.

Under the Texas plan, acreage control would be set up on the basis of a farm's total tillable acreage. The present law places controls on the individual commodities. According to the plan, the percentage of acres to be retired from production would be determined by the over-all over-production of all agricultural commodities in this country.

According to President Myrick, the percentage of acres responsible for surpluses, estimated at 5 to 15 per cent of the nation's total cultivated acreage, would be taken out of commercial production. In other words, if the percentage amounted to 10 per cent, then each farmer would be required to divert 10 per cent of his tillable acreage from production.

Under the proposed plan, a system of price supports would be instituted to encourage the shifting of production from crops in surplus supply to crops in short supply, Myrick explained.

The Texas Farm Bureau believes that its plan, if administered fairly, would enable farmers to earn full parity prices for their crops with a maximum of freedom in their operations. Since the government would be concerned with policing only a small percentage of acres on each farm, the cost to the taxpayers would be much less than the present farm program.

Traditional Holiday Pies Have Interesting History

It's pumpkin pie and mince-pie time again! These traditional favorites in America since before the War for Independence now are being featured by bakers throughout America, to grace the tables in millions of homes at the Holiday Season.

The exact origin of mince pie has been lost in antiquity, but it is known that the pie's ingredients once symbolized the gifts of the Magi and its shape, originally oval, represented the cradle of the Christ Child.

Shortly after the Pilgrims arrived in the New World, failure of the grain crops resulted in a shortage of flour for pastry. However, their craving for bakery delicacies was satisfied because of the never-failing pumpkin crop which the Indians had taught them to raise. Pilgrim women used pumpkin flour to make pastry goods and the filling also was made from the pumpkin after it had been cooked and sweetened with sugar and honey.

For many years before, a variety of gourds similar to the American pumpkin was cultivated and eaten throughout Europe. An early English recipe called for the "Pom-pion" itself to be stuffed with apples.

It was not until the sea trade, on which the early colonists depended, was free to bring in the spices of the West Indies and the Orient, that the pumpkin pie began to taste anything like it does today. And it was the early Pennsylvania Dutch cooks who are credited with developing the flat pie as we know it now and with making the greatest improvements in all types of pies.

4-H Youth Wins Award in Texas

FOREMOST among 4-H Club members in Texas is a Hale Center teenager who has a high rating in the National 4-H Girls' Record award program.

Her all-around outstanding record in home economics has brought high honor to Sharon Thompson, 16, of Hale Center. She has been named State winner in the 1954 4-H Girls' Record program, and was presented with a trip to the National 4-H Club Congress in Chicago by Montgomery Ward.

During her seven years in 4-H this program is conducted under the direction of the Cooperative Extension Service.

work, she completed Electric, Dairy Foods, Food Preparation, Canning, Frozen Foods, Garden, Poultry and Clothing projects. Sharon won a county Garden medal, first place in the county Dress Revue and county year pin. MEET TWO SUCCESSFUL DAIRYMEN! "Since adding TEXO Booster 54 to the ration, production has held up even in severe weather changes." JOHN R. MARTIN and SON, Lewisville, Texas.

"In dry lot feeding, a supplementary source of Vitamin A and mineral is a must. We've found that TEXO Booster 54 gives us just what we want at low cost. We've been feeding 125 head about 1/2 lb. per day per cow with silage and mixed feed. Since adding TEXO Booster 54 to the ration, production has held up even in severe weather changes and is now averaging about 33 lbs. per cow per day," say John R. Martin and Son, your TEXO neighbors in Lewisville, Texas.

As Mr. Martin points out, TEXO Booster 54 is a low cost source of Vitamin A and minerals in a dairy ration—but, take it from me, that's only the beginning. TEXO Booster 54 is just as effective for beef cattle and sheep. In fact, there isn't a feed in the store that has more uses and more advantages than TEXO Booster 54.

IT'S THE LAW in Texas. A public service feature of the State Bar of Texas.

John Brown and Bill Smith desire to operate a business together. Should this be done as partners or as a corporation? The answer to this problem involves many legal questions.

Perhaps the most important factor is that the business or personal acts of either John or Bill may be binding upon the partnership. The corporation, however, can act only through its officers and agents, and then only within the limitations granted by the articles of incorporation.

As members of a partnership both John and Bill are liable for all of the debts of the business. In the case they have business losses, the creditors of the partnership could take all of the assets of the partnership, and all of the personal assets of either John or Bill, or both (except a few exempt by law), in order to satisfy the partnership debts.

On the other hand, if they form a corporation the creditors may go only against the assets of the corporation so that the most that either John or Bill can lose is the amount they have invested in the business. The creditors could not touch the personal property of either John or Bill.

Upon the death of John or Bill, it is necessary to liquidate the partnership but in the case of a corporation the operation of the business is not affected by the death of either. The firm continues as the same business with the heirs of the one who dies substituted as the owner of the stock.

Of primary interest to John and Bill is the amount of income taxes they have to pay. As a partnership, each includes on his individual income tax return his proportionate share of the income as shown on the partnership return. This is because the partnership is not recognized as a taxable entity.

The corporation is recognized as a taxable entity, so it pays a tax on the amount of its net income, after deducting the salaries of John and Bill and other expenses.

If, over a period of years the earnings of the corporation exceed reasonable salaries for the two owners, these earnings will be distributed to John and Bill in the form of dividends. The funds with which the dividends are paid have already been subject to tax in the hands of the corporation, but are again taxed on the individual returns of John and Bill when distributed.

The income tax advantage or disadvantage of a partnership as compared with a corporation depends on the net income from the business, the salaries John and Bill receive, the amount of their other income, and the requirements of the business for liquid funds.

In the event either of the owners is interested in planning his estate to reduce taxes at the time of his death, he can do it more easily through a corporation than a partnership.

Local OES Chapter Holds Supper Party

The Order of Eastern Star met Tuesday night, Nov. 30 at the Masonic Hall for a covered dish supper honoring Mrs. Hazel Campbell of Eastland, deputy district grand matron, Order of Eastern Star of Texas.

Guests were greeted by Mrs. Hazel Turknott, worthy matron of the Cisco Chapter, and escorted to the dining room where the invocation was given by I. D. Strawn. Seated at the guest table were the honoree and her husband and Mr. and Mrs. Strawn, and Mr. and Mrs. Carl Gorr. The tables were decorated with cut flowers.

Following the meal, the meeting was called to order by Mrs. Turknott, and the pledge of allegiance was led by Mr. Gorr, the worthy patron pro tem. Mrs. Campbell then brought her message to the group.

Mrs. Gorr presented Mrs. Campbell a gift from the chapter in appreciation for her work in the Eastern Star. Mrs. Turknott presented Mrs. Campbell a gift in appreciation of her friendship. Several talks were made for the good of the order and the meeting closed in regular form.

Approximately 40 members and visitors attended.

Mrs. Alex Spears has returned from a visit in Dallas with her daughter, Mrs. W. C. Marshall, and family and in Sherman with her son, Charles Spears, and family.
