Consolidated with Cisco Daily News and Cisco American and Round-Up, November, 1937

Entered as Second Class Matter December 11, 1934, at the post office at Cisco, Texas, under Act of March 8, 1879.

J. W. SUTTON and TED READ Publishers

Published Daily except Saturday and Monday at Cisco, Eastland County, Texas, by Free Press Publishing Corporation, incorporated under the laws of Texas. Editorial and publication offices at 304-306 D. Avenue, Cisco, Texas.

Subscription Rates \$3.00 per year by mail (outside Cisco) in Eastland, Stephens and Callahan Counties, Texas. In other Texas Counties, \$5.00.

Per year in advance (Cisco, by mail) \$5.50 Per week (by carrier) 15c

SAFETY IN WINTER

Believe it or not, it's twice as hard to stop your car on ice when the temperature is barely freezing than it is when the thermometer registers zero!

This information was given out by R. B. Roaper of Houston, president of the Texas Safety Association, as he discussed the winter hazards program which the Texas Safety Association and the Texas Department of Public Safety is now conducting in cooperation with the National Safety Council.

"Temperature plays an all important part in breaking distances and possible traction on snow and ice," Mr. Roaper said. "As the temperature rises, ice (and, to a lesser degree, snow) becomes much more slippery. For example, at 20 m.p.h. when the temperature is 32 degrees F., stopping

WINNING THEIR LAURELS—Hector Constance, of Trinidad, right in top photo, the world's ninth ranking welterweight, is giving Chicago's Johnny Brown a pummeling during their bout in New York. They fought to a 10-round draw. Below, Rudy Garcia, right, of California, scores with a right to the jaw of Bobby Bell, of Youngstown, O., in New York, during their featherweight bout. Bell won this bout with a unanimous upset decision.

PARKA SPACE—And plenty of it, it would seem, as three-year-old Chris Thompson, of East Hill, N. Y., bundled up in a parka at a New York airport. The lad was there to see his grandparents off to Nassau, and it looks like Chris was wishing he could accompany them to a warmer climate.

Mrs. J. D. Hall has returned home after a week's visit with relatives in Abilene, Dallas, Fort Worth and Saginaw.

Do It Yourself Plant Boxes Important in Design of New Homes

Working drawing for window box can be adapted to any length.

Planting boxes play an important part in the design of contemporary homes. They are used in many ways to contribute an ornamental touch to the often severe lines of functional architecture. In constructing all such boxes the needs of the plants to be grown in them should be considered. They should be sturdy, because the soil which they must hold is heavy. The material of which they are made must be capable of withstanding constant moisture. Most important of all is that they provide quick drainage for excess water which will come from rain and the garden hose. Window boxes, which have been widely used for the last century in Europe and this country provide experience, both in constructing the container and in selecting the plants to be grown. Window box plants can be grown satisfactorily in a box at least 10 inches wide and 8 inches deep, with its length to fit the space allotted. A box of these dimensions is large enough to hold the roots of annual flowers, and small foliage plants. If larger subjects are to be grown, proportionately larger root space should be provided. Concrete and metal boxes are satisfactory; but the do-it-yourself hobbyist can easily build them of wood. White pine or cypress are preferred because of their moisture resistant qualities, and no boards less than 1-inch thick should be used. The diagram herewith shows how to put the boards together and provide brackets to support the box, where needed. Think of the plant box as a decoration of the house. It should be painted to match the house color or trim. The flowers should be chosen to furnish a contrasting, yet harmonious color accent. There is a wealth of suitable varieties from which to choose. Rich potting soil, must be used for window boxes. Because there is so little of it to feed the flowers, it should be well fertilized. For annual flowers, at least six hours of sun a day is necessary and this requires a south exposure. The best subjects are those of dwarf or trailing habit, the latter drooping festoons of bloom from the boxes. Petunias of the balcony type are excellent, as are the tall nasturtiums, the giant morning glories. Dwarf petunias, marigolds, ageratum, calliopis, annual pinks, lobelia, dwarf morning glories, phlox, and zinnias can be grown. Boxes which spend most of the day in shade offer a special problem. If the shade is that of a building, perhaps only foliage plants can be grown.

CUTTING A CAPER—This is serious business, however, as Buddhist teacher trainees dance for guests at a dinner in Rangoon, Burma, during a Buddhist conference. The graceful movements of the dancers are completely unlike those of western dances.

A PROGNOSIS

Eggs are too cheap, our poultry farmers are not making any money. Many farmers are selling their entire flocks. In fact I think that is the thing to do. The egg market will continue low until about May, then start up. This is just history repeating itself. When farmers do not make a profit, they cut output, making prices climb again the FOLLOWING SEASON.

If you want to make egg profits in '55, start a good flock of pullets in February. Have them laying in July, and you will make money. Our Leghorns were bred by Dryden of California. He has been breeding chickens for 40 years, and makes improvements every year. You cannot buy better Leghorns at any price. Come see us before you buy.

We are introducing a new cross-bred chicken this year that lays a pure white egg, and plenty of them, the L. G. C. They will lay as many eggs, as large eggs and live better than any of these widely advertised bred-like-corn lines (low-line, middle-line or high-line), and sell for half the price. Do not believe what I say, or what these high pressure radio advertisers claim, but let me send you to customers who have tried both, and then make up your mind. If we can be of service to you, come see us.

SOCIETY AND CLUBS

AND NEWS OF INTEREST TO WOMEN

Sharan Missionary League Meets Sunday

Alvin Lenz was hostess in home Sunday afternoon, Jan. 16, when members of the M.L. of Grace Church met for their monthly meeting. J. G. Elser, the newly elected chairman, opened the meeting with all singing a hymn and prayer by Rev. Elser who also led the mission lesson entitled "The Phillipians and New Year for Christ."

The short business session followed. Various committees reported the projects for the next months were accepted. Roll was answered with Bible readings. Refreshments were served following the meeting to the following members and guests: Messrs. Frank Ziehr, Max Witt, Anna Lanham, R. H. Dunning, Zander, Marie Fricke, F. W. Abel, Fred Wende, John Elser, Stroebel, Alvin Lenz, O. J. Elser, Rev. Elser, Mrs. Jacobs daughter, and Mrs. Mary and daughter.

Delta Kappa Gamma Chapter Has Meeting

The monthly meeting of the Upsilon Chapter of Delta Kappa Gamma was held Saturday afternoon, January 15, at the Federated Club house with Bernice Carter, president of chapter, in charge. Hostesses for the meeting were Gorum Glascock, Mrs. Kate Oiga Fay Ford. Following the business session, Public Relations Committee presented an interesting symposium "Delta Kappa Gamma—Reservoir of Power and Good." Members of the committee Miss Louise Snoddy, Mrs. Bernice Carter, and Mrs. Ethel Johnson of Eastland. The hostesses then served refreshments of coffee, doughnuts and salted nuts from a decorated table to the following members: Miss Nettie Thornton, Miss Verna Johnson, and Mrs. Ethel Johnson, Eastland; Miss Isadore Grimes and Miss Alda Nordyke, Baird; Mrs. Jewel Swanzy and Evelyn Hollis, Clyde; Mrs. Katharine Allen and Mrs. Lois Buchanan, Gorman; Mrs. Gladys Hunter and Miss Anna McNeal, Ranger; Mrs. Anna Mae McNeal, Mrs. Frances Tyson, and Mrs. Veda DeBusk, Cross Plains; and Mrs. Irene Hallmark, Mrs. Alice McCannies, Mrs. Berta Hazelwood, Mrs. Bernice Carter, Mrs. Minnie Hill, Mrs. Josephine Clements, Mrs. Jennie Slicker, Mrs. Gorum Glascock, Mrs. Miriam Bledsoe, Miss Louise Snoddy, Miss Olga Fay Ford, and Miss Mayme Estes, all of Cisco.

County P-TA Council Has Meeting Friday

The Eastland County P-TA Council held their regular meeting Friday morning, January 14, at the home of Mrs. Calvin Harris in Ranger. Mrs. Bryan Hale, of Stephenville, district chairman of the committee on Character and Spiritual Education, spoke on the value of study courses. Members attending the meeting from Cisco were Mrs. D. N. Morrison, Mrs. W. B. Cates, Mrs. Norman Rawson, Mrs. O. B. Shirley, and Mrs. W. L. Darr.

Scranton Teams Divide Twinbill With Desdemona

Friday night at their gym, Scranton divided a twin bill with Desdemona in two of the closest games ever played on the Scranton hardwoods.

The Scranton and Desdemona girls began the program with Desdemona taking the conference contest by a three point, 42-39, margin. Following that game the Scranton boys won a narrow three point victory over the Desdemona High School boys. That game ended 40-37.

In the girls game Willowdene Sawyer of Scranton made 19 points but trailed Nabers of Desdemona who took game honors with 23.

In the boys game Leroy Nabers of Desdemona was high scorer with 17 points. Lyndell Reese of Scranton was high for his team with nine. One of Desdemona's regulars, Bobby Koonce, was out of the game due to a leg injury received a week ago in a game with Olden.

'BRELLA BELLA—A matching parasol lends a note of semple. The dress, with full skirt, interesting shoulder detail and the new, elongated torso line, is done in printed cotton plisse. A solid color, jumper-cut bodice completes the unusual outfit.

SPRING REIGN—Tweed still is tops as fashion's favorite and this black and white wool-and-nylon makes a handsome, back-interest coat which can be made by the woman who sews her own. The style can be used for a tweed coat-dress, suitable for wear now and without a coat on the first days of spring.

TO SING HERE—After her singing triumphs in Europe, soprano Mattiwilda Dobbs is shown arriving at a New York airport. She'll sing her first New York recital, then Miss Dobbs will begin her first coast-to-coast tour under Sol Hurok's management.

Do It Yourself

Cold Frame Basic Need for Home Garden Success

Working Drawing for Building Cold Frame.

The most valuable 18 square feet in any garden area is that which is covered with a cold frame. And the smaller the garden, the more rewarding will be this ancient device.

It began as a pit, some thousands of years ago. Today it is an enclosure, partly below ground, with a protective covering which admits daylight. Glass is rapidly being supplanted by various substitutes, which are lighter, and unbreakable.

A cold frame is useful the year around. There is no way you can use the few square feet of garden space required for it, to better advantage.

Anyone who can drive a nail, and operate a saw, can build a cold frame. The boards can be cut this winter in the basement or garage, and put together in a short time as soon as possible to work outdoors.

Since inexpensive electric heat will turn a cold frame into a hotbed the manure heated hot-

bed is seldom seen. Heat is not needed for most of the uses to which a cold frame can be put; and being without objectionable dirt or odor it can be placed near the house, where steps will be saved.

A location in the full sun all day is required for best results and shelter from cold winds is beneficial. The sash should incline toward the south. Heavy boards of cypress, white pine, or redwood are preferable, since the frame will often be wet and must resist decay.

The illustration is a practical working-drawing of a standard one-sash cold frame. Standard glazed sash is 3 by 6 feet; but a frame can be made of any convenient dimensions, if sash of a suitable size is available. Sash covered with transparent plastic materials will be much lighter than glazed-sash, and also will allow ultra-violet rays to pass through to the plants.

Pay Dividends

Ben Franklin gives you some expert advice about Payroll Savings

"What though you have found no Treasure, Diligence is the Mother of Good Luck."

Ever wished you had \$1,000, \$5,000 or more? Today, it is actually easy to save such large sums—through the Payroll Savings Plan. Here's how: you just name a sum to your company's pay office. Each payday, that amount will be withdrawn from your pay, and invested for you in one of the world's finest investments, U. S. Series E Savings Bonds!

"Little Strokes fell great Oaks."

See how quickly your savings grow, because Savings Bonds earn good interest—3% when held to maturity. Sign for as little as \$5.00 a week and in 9 years, 8 months, you'll have \$2,850 cash.

"Have you somewhat to do To-morrow, do it To-day."

Start making your dreams come true right now. Sign up for Payroll Savings today. Or, if you're self-employed, invest in Savings Bonds regularly when you bank. If you want your interest as current income, ask your banker about 3% Series H Bonds which pay interest semiannually by Treasury check.

"Remember what Poor Richard says: Many a Little makes a Mickle."

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

SHE'S NO TRESPASSER—Although Mehitaba, a cat, is ambushed by a lot of poodles, they don't scare the nine lives out of her. The animals are performers with a touring ice show and were in Philadelphia when Mehitaba got surrounded.

STATE SCHOOLS PLAN TO STUDY WEST TEXAS EROSION PROBLEMS

ARILENE, Jan. 18. — Officials of Texas A & M College and of Texas Technological College agreed here this week to study an intensified research effort for solution of wind erosion and related problems of West Texas land.

In a meeting called by the West Texas Chamber of Commerce, D. W. Williams, vice-chancellor of the Texas A & M College system and Dr. E. N. Jones, president of Texas Tech, said that their cooperative effort in agricultural research could be expanded.

J. C. Porter of Wichita Falls, co-chairman of the agriculture and livestock committee of the WTCC, explained that the meeting had grown from conferences on the wind erosion problem between WTCC and Tech officials at which Jones had pointed out that "the best resources of the State should be brought to bear to solve it."

H. N. Smith of Temple, state conservationist of Soil Conservation Service, said that in 76 West Texas counties there are at present six and one-half million acres from which top soil can blow this spring if the usual winds and dry weather of the past few years continue.

Midgets Lose In Finals Of Gorman Tourney to Dublin

The Cisco Junior High School Midgets lost their first game of the 1954-55 season Saturday night when they were defeated in the finals of the Gorman grade school basketball tournament by Dublin by a score of 29-28.

The Dublin team, led by two 17 year old eighth graders, Daniels and Beverly, took an early lead and held on all the way to take the tournament championship. They were leading 18-2 at the end of the first period and 21-11 at the half-time intermission. The score at the end of the third period stood at 24-26. In the final period the Midgets staged a rally but were unable to overcome the big lead. They outscored the taller opponents 19 to five in the final period.

The scoring in the final game of the tournament was about even among the Midgets. Milton King and Dallas Elder made five points each and Robert and Ronnie Bostick, Johnny Choate and John Adams made four each. Beverly was high scorer for the game with 15 points.

The Midgets advanced to the finals by winning over Comanche and Lingleville. In the Comanche game Johnny Choate was high point player with 11 points for the Midgets. Ronnie Bostick made nine, Milton King seven and Robert Bostick three. The Midgets took the game by a 38-22 score.

Robert Bostick was the top scorer in the Lingleville game when he made 14 points as the Midgets won 34-26. Johnny Choate made 16, Ronnie Bostick and Dal Elder made four each and Milton King made two.

The Cisco girls lost their first game of the tournament to Eastland by a score of 11-6 and lost their first consolation game to Olden by a 22-21 score. In the Eastland game Dortha Riffe made three of her teams six points.

Janice White led the Cisco girls in scoring in the Olden game with 14 points. Fredda Plumlee made four and Dortha Riffe one. Other Cisco girls playing were Frances McKeen, Beth Smith, Joan Liesenbee, and Lavonne Harrelson.

Tuesday night (tonight) the Midgets and girls will play three games at Moran. The Midget "B" team will play the Moran "B" team at 6 p. m. and the girls will play at 7 p. m. The Midgets play at 8 p. m.

Thursday night the Midgets and girls go to Comanche for conference games with the Comanche junior high school teams. They will not return to the local gym until February 19 when they meet Comanche in a conference contest.

In the Gorman tournament the Dublin boys won the championship trophy and the Midgets brought home the runner-up trophy. Cross Plains won the consolation trophy. In the girls division Gorman won the championship and Cross Plains was runner-up. Carbon won consolation.

Smith appointed George M. Morris of the SCS staff to work with the two colleges and with Dr. Rex Johnson of the U. S. Agricultural Research Service in an informal "agricultural research and education committee" to study a plan for research on wind erosion and related problems. Dr. Don Ashdown will represent Texas Tech on the committee which will be headed by Dr. R. D. Lewis of Texas A & M College system's Agricultural Experiment Station.

Representing Texas Tech at the meeting were Dr. G. E. Giesecke, vice-president; Dean W. L. Stangel of the division of agriculture; Dr. A. W. Young, Dr. Marshall Pennington, Jones and Ashdown. Williams and Lewis represented the Texas A & M College system.

From the West Texas Chamber of Commerce were Al Muldrow of Brownfield, co-chairman of the agriculture and livestock committee; J. S. Bridwell of Wichita Falls, past president; Fred Husband, executive vice-president and general manager; Loyal Walker, manager of the agriculture and livestock department; Frank H. Kelley of Colorado City, past president; and Porter.

Johnson represented the U. S. Agricultural Research Service and Smith represented the Soil Conservation Service.

SIX-FOOTER — Six feet of scarf, gaily striped to brighten winter's darkest day, spells warmth for co-ed and career girl alike when thermometers take a nose-dive. Reminiscent of flapper days in the '20s, it can be worn in town or the country, where the king-size scarf comes in handy.

TV PROP LIBRARY—Off for shelving like a book is a window prop being stored in the new NBC-TV prop library of two workmen in New York. The network has constructed an enormous storage space to house every conceivable stage and costume item a script might call for. In this way, items can be easily hauled out for use in the future.

WINTER CLEANING—When Congress opened in Washington, the Capitol Building was all epic and span for its members. Two Senate secretaries, Jennie O'Neill, left, and Ellen Wyvill appear to be brushing the building with whisk brooms, but they're quite a distance from the Capitol. It's the camera angle that is making them do the sweeping.

OVERHANCED—Neil Johnston (6) of Philadelphia and Nat Clifton (8) of the N.Y. Knickerbockers each got a big hand on the rebounding basketball during their game in Manhattan. The Warriors' George Dempsey (5) got taken out of the play by the sweep of Clifton's left arm. In the background are Dick McGuire, left, Knicks, and Bob Zawoluk (15), Warriors.

WINTER SCENE—Strolling sun-seekers are jamming the promenade along the shore in Nice, France, these days. However, they're dressed a bit different from the summer crowds; overcoats are much in evidence right now.

For dependable insurance call 166 and one of the following agents will call and explain our policy.

Odell Rains - A. W. Snider - Silas Cl

PHONE 166 - CISCO - 9th AT AVE

It's All in Knowing How —

... that enables one to do a good job. It may be as simple as riding a bicycle, fighting fires or nursing the new baby — all easy jobs if we know how to do them. So is with our job, that of making your abstracts. The product you get here has behind it 32 years of practical experience, prepared by a trained personnel and with best of modern equipment. On this basis we solicit business in 1955.

EARL BENDER & COMPANY
