By J. W. S.

WE'VE ALL BEEN reading about the new national budget that has been submitted to the congress. It provides for \$62,000,000 to be spent during the next fiscal year. The forecast indicates that the following year will require a little less.

Here's what will happen to each dollar collected by the government this year: 65 cents will go to pay for national security, including military services, aid to allies, atomic energy and stockpiling; 24 cents will go to charges assessed by law, such as interest on the public debt, veterans benefits, grants to states and so forth. All other federal expenditures will cost 11 cents, rounding out the dollar.

Here is where the budget dollar would come from: individual income taxes, 48 cents; corporation taxes, 26 cents; excise sales taxes, 5 cents; custom and other taxes, 5 cents; borrowing, 4 cents. It costs a lot of money to be the strongest nation on earth. The bill for the military alone runs over 40 billion per year. The President said in a speech the other day, "Never in our peacetime history have we been so well prepared to defend ourselves as we are now."

The president also said: "Our present growing prosperity has laid foundations . . . a growing prosperity will result in increasing revenues and should make possible both a balanced budget and lower tax rates in the future."

GLAD TO SEE Mr. J. H. Latson, Jr., back home. He has been at west building houses and the like and says he figures to stay here now. Mr. JHL, who is one of our favorite golfers (because he can beat him), thinks the best golf course he ran across was at McCamey. There, they let you use your ball anywhere on the airway or in the rough. Local rules, he says.

THIS WEEK IS "Pay Your Poll Tax" week in Texas, according to our mail. The governor has proclaimed the event, and the purpose is to emphasize the importance of everybody qualifying as voters. The deadline for paying your poll tax is Jan. 31. And you won't be able to take part in any of the several elections scheduled during the year if you don't have a poll tax.

ACCORDING TO The Ranger Times, an extra gang of T&P Railway workers is on the job there to replace the steel rails. Some 10 men are working on the project, which calls for replacing the 12 pound rails with 132 pound rails, replacing faulty cross ties and doing such work as may be needed on the road bed.

The 110 workers and their families live in special railway cars that are parked conveniently. It's costing the T&P about \$30,000 a mile to do the work, and the payroll for the crew runs over \$30,000 a month. When the extra gang finishes working in the Ranger area about April 1, they'll move to Cisco to complete a 139-mile project from Fort Worth to Baird.

SAW MRS. ED Wende in town this morning. She's up and looking well after undergoing an operation recently. She had just received a big box of orchids from Hawaii. The orchids were sent by her sister, Esther Prange, who lives in California and who used to live in Hawaii.

THEY WERE VERY pleased over at the City Hall this week as Mayor G. C. Rosenthal was back in his office. He drove his own car to town, visited up the street for a time, and spent an hour in his office. His doctor has suggested that an hour's work at the office would do him good.

As you know, Mr. Rosey was a mighty sick man for several weeks and all Cisco is pleased with his splendid recovery.

## Social Security Agent Will Visit Cisco Next Week

Beginning in January, farm operators should begin to keep accurate records of the money received from the sale of all farm produce, according to Raleigh R. Tuley, Jr., Manager of the Abilene Social Security Office. The social security law has been changed to bring farm operators under coverage of social security beginning in 1955.

Should the farm operator have a gross income during the year (should his total sales) amount to \$1800 or less, he may report 1/2 of this gross income for social security purposes without figuring his net profit. If his gross amounts to more than \$1800 a year, he may report his actual net profit or \$900, whichever is larger. He reports this income tax when he files his income tax return each year, beginning in 1956. Thus he buys the same protection for himself at old age, or for his family in case of his death that other people have been buying since 1937.

If you have questions about this or any other social security matter, see the representative of the Abilene office who will be in Cisco on Jan. 26, Feb. 9, March 2, 16, and 30, and can be located at the Chamber of Commerce at 2 p. m.

## Lobo Queens To Play Games Here Thursday Night

The Cisco High School Lobo Queens have scheduled two games with De Leon's girls teams at the community gym here Thursday night.

The "B" teams of the two schools are to begin the program at 6:30 p. m. The Queens and the De Leon "A" team will meet at 8 p. m.

The Queens have shown a lot of improvement as the season progresses and have a good chance of winning the district. In conference play they have a win and a loss to their credit, and in 12 games played so far this season have won five and lost seven. Five of the seven losses have been by four points or less.

Coach Lynn Glass had not decided on his starting lineups Wednesday.

## New Cold Front Due To Bring In Rain Thursday

A new cold front, following on the heels of the a "blue norther" which touched off rain showers Monday night and dropped the mercury to a low of 23 degrees Tuesday night, is due to reach this area around noon Thursday bringing with it rain and colder weather.

The cold front, described as similar to the one that passed through Monday, was heading toward Texas from the west and was due to hit Thursday. Increasing cloudiness was forecast for Wednesday night and Thursday, and the cold front was supposed to trigger the rain.

A heavy frost and thin ice were evident Wednesday morning as the mercury dipped to 23 degrees. It was supposed to warm up some today and tonight before the new cold weather hits.

The little lass is wearing a hoop skirt like those worn by older glamor girls who pose here for the cameras of tourists and help enhance the scenery with their physical charms.

## Do It Yourself

### Gardening with Seed Costs Less, Grows More

Easiest and most economical method of growing annual flowers and vegetables is to sow seeds directly in the garden where the plants are to grow.

With most varieties a single packet of seeds will grow several times as many plants as even a large garden has room to mature, and the cost of the seeds is a fraction of the sum required to purchase seedlings plants.

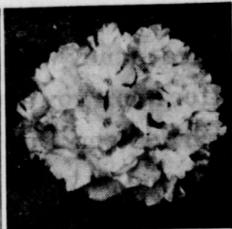

With some varieties, however, there is an advantage in setting out well developed plants as soon as the weather is safe, in order to reap a harvest days or even weeks earlier than would be obtainable from sowing direct in the garden.

These varieties should be started in a greenhouse, hot-bed, cold-frame or in a seed-box placed in a sunny window in the home. By growing your own plants you will not only save a good deal of money, but you can select the varieties you grow from a complete list without being limited to those which local plant growers may offer.

Varieties which gain most from an early start under protection are those which cannot be sown outdoors with safety until all danger of frost is over; and those which take exceptionally long to germinate and develop.

Slow germinators among the flowers include petunias, 20 days; snapdragons, 20 days; salvia, 15-20 days; gillardias, 20 days; heliotrope, 15 days. Asters, verbenas, and Unwin dahlias germinate in 10 days or less, but mature so slowly that unless started early they flower in late summer or early fall. Pansies for spring flowering should be started in cold frames in July for bloom the following year.

A long list of annuals can be sown either in the garden, or in seed boxes. Many experienced gardeners start such seed in boxes because it enables every seedling plant to be placed in the border exactly where it is desired. There is no thinning out and no waste of excess seedlings. The seed boxes can be kept where it is convenient to water them, and the plants moved to the garden as needed to replace bulbs or perennials which have ceased to bloom.

In contrast to annual flowers, there is little or no advantage in starting vegetables in seed-boxes, except for those varieties which produce an earlier harvest, when sown several weeks before they could be planted outdoors. Among these are the tender and slow growing tomato, pepper and egg-plant; the hardy cauliflower, which must mature before hot weather, and the slow growing celery, cabbage, leeks and Spanish onions, all of which do well from plants started early and set out in the garden.

## When Grandpa came to visit

It always became an extra-special day when Grandpa came to visit. Remember? There was always something extra-nice for us in his pocket. And only Grandpa had a big railroad watch with the magic ticking that never failed to intrigue us.

Maybe that's why we remembered the things he told us so well. Like when he took a coin out of his pocket and slipped it to us when Mother and Dad weren't watching and whispered, "Put this away for a rainy day." It was so hard not to spend it—but we put the money in our bank and waited. And one day we were happy we had.

Yes, Grandpa was wise and his advice was sound. And though it's even more difficult not to spend extra money today, we realize how necessary it is to provide for the future—ours and our children's. That's why eight million of your neighbors are putting something aside each payday—for a "rainy day"—on the Payroll Savings Plan.

Why don't you sign up and tell the people in your pay office how much you want to save each payday? They put that amount aside for you. When enough accumulates, they buy and turn over to you a U. S. Series E Savings Bond. And Bonds now pay 3% interest for as long as 19 years and 8 months! Get the Bond habit now!

If you want your interest as current income, ask your banker about 3% Series H Bonds that pay interest semi-annually by Treasury check.

AUSTIN — Cigarettes and gasoline are to be the prime tax targets of the 54th Legislature.

In his message to the Legislature, at a joint Senate and House Session, Governor Allan Shivers put his finger on those two items as the answers to Texas' financial problem.

He suggested a two cent per gallon boost in gasoline taxes and a one cent per pack increase in the cigarette tax.

The former would add \$45 million to the highway fund and \$14.5 million to the school fund. The latter would bring in an additional \$16.5 million to the general fund.

Gasoline now carries a state tax of 4c per gallon. Cigarettes are taxed 4c per pack.

Also recommended by the governor was an increase to \$50 in the tuition charge made by state colleges to Texas students. Present fee is \$25, for Texas residents. The \$150 charge assessed out-of-state students would not be changed.

Shivers also asked for better water laws, insurance laws, crime, and juvenile delinquency measures, and congressional and judicial redistricting.

First signs of opposition to increased taxation have come from Rep. Waggoner Carr of Lubbock.

Carr, who may be voicing the opinion of other conservative legislators, says that much of the needed money could come from trimming present state expenses.

State Comptroller Robert S. Calvert estimates the state's general fund, now slightly more than \$9 million may hit bottom temporarily in February, and put the state on a general fund deficit for a short time.

If the state goes in the red, it will be the first time in 12 years. Calvert estimates that there will be only \$10,344,000 in the

fund by the close of the fiscal year, September 1.

Rep. Jim T. Lindsey of Texas-Kana is the new Speaker of the House.

He was elected unanimously the first day of the 1955 session as lawmakers wasted no time getting down to business.

First official act of the 54th Legislature was to order a complete look into the Veterans' Land Program.

Investigations were resumed a day later by the Senate General Investigating Committee.

A Feb. 15 completion deadline is set.

Dennis Wallace, a 20-year employee of the State Land Office, is now acting executive secretary of the Board. He took over temporarily upon resignation of Lawrence C. Jackson.

Col. J. Earl Rudder, land commissioner, has announced the resignation of two other key employees: U. S. McCutcheon, first assistant executive secretary, and H. Lee Richey of Austin, appraiser for the South Texas area.

Two conservatives head important House committees in the Texas Legislature. They will have a lot to say about finding and spending \$135 million for state operations.

Rep. Max C. Smith of San Marcos was re-appointed chairman of the House appropriations committee.

Rep. Stanton Stone heads the revenue and taxation committee.

Members of the Texas Prison Board will not ask the Legislature for more building funds although they admit construction is needed.

Chairman French Robertson said that prison population is at an all-time high, that facilities are needed, but that cost would be tremendous.

A new law providing for women jurors will be presented the Legislature by Rep. DeWitt Hale of Corpus Christi.

Hale would eliminate the qualification that a juror must be a county householder or state freeholder.

He will also ask for exemptions for nurses, expectant mothers, mothers of young children.

A "disguised" fair trade bill may be introduced in the Legislature, says a former House member.

It will be masked as a curb to "discount houses" but will basically be a measure to keep merchants from cutting manufacturers' prices.

No state fair-trade bill has ever been enacted in Texas. Unfair
