A PROGNOSIS Eggs are too cheap, our poultry farmers are not making any money. Many farmers are selling their entire flocks. In fact I think that is the thing to do. The egg market will continue low until about May, then start up. This is just history repeating itself.

We are introducing a new cross-bred chicken this year that lays a pure white egg, and plenty of them, the L. G. C. They will lay as many eggs, as large eggs and live better than any of these widely advertised bred-like-corn lines (low-line, middle-line or high-line), and sell for half the price.

SCOUTS OBSERVE 45th BIRTHDAY

OFFICIAL BOY SCOUT WEEK POSTER

Boy Scout Week, Feb. 6 to 12, marking the 45th anniversary of the Boy Scouts of America, will be observed throughout the nation by more than 3,660,000 boys and adult leaders. Since 1910, more than 22,750,000 boys and men have been members.

New Plan Helps Farmers Pay Conservation Costs

Recognizing that before a complete job is accomplished conservation on a particular field may require several steps taking more than a year to complete, the Agricultural Conservation Program has been modified to permit payment for partial completion of certain practices.

U.S.D.A. Photo Prize winner in a New England Green Pastures contest stands knee deep in a field of alfalfa, clover and grasses, explaining his operations to the judges.

Each of the nation's 540 Local Boy Scout Councils were asked to name one Scout or Explorer for the honor of meeting President Eisenhower. First consideration was outstanding achievements in conservation, then Scout and school records, appearance and ability to speak.

The farmer must agree to complete the remaining parts and secure approval of the county committee. He can spread the cost of the necessary steps over more than one year.

When clearing of the right-of-way is necessary in establishing a drainage system, this could be done the first year and the actual ditch construction the second. Where protected outlets or waterways have to be established before terracing the outlets could be prepared one year and the terraces the following year.

This package idea allows a farmer to budget the cost of his time, labor, equipment, and seed for ground cover to include his own share and the ACP cost-share over more than one year. He may collect the ACP cost-share on parts of the job as they are completed.

THE BIG TEST . . . In a series of color transluents and animated copy panels, this dramatic Fisher Body exhibit in the GM Motorama of 1955 shows how Fisher Body engineers conduct a roll-over test at the General Motors Proving Ground.

The first picture shows a driverless 1955 Chevrolet Bel Air as it is towed toward a ramp at approximately 50 miles an hour. The second picture shows the car rolling over. In the third picture the car starts its second roll. The final picture shows the car right side up just before being driven away.

Damage to sheet metal, of course, is inevitable, but the primary purpose of the test is to study the strength of the basic body structure.

State Capitol NEWS

By VERN SANFORD
Texas Press Association

AUSTIN — Veterans' land scandals got the veterans' land last week.

Four witnesses refused to testify.

The senate investigating committee took other testimony behind closed doors, silent so far as the public was concerned. And, the House veterans' affairs committee stymied its own public investigation in a tangle of technicalities.

A House committee member, Rep. Bill Elliott of Pasadena, Ruffin in refusing to testify.

charged "organized pressure" to block further investigation of the issue.

Speaker Jim Lindsey had sent a separate House investigation resolution to a different committee, state affairs.

Ex-Land Commissioner Bascom Giles, head of the Veterans' Land Board until Jan. 1, invoked the Constitution and refused to testify as to his business dealings with several persons named in testimony about block deals.

C. O. Hagan and C. P. Earnest, principals in much of the land-sale testimony, followed L. V. Ruffin in refusing to testify.

Hearings started in both houses of the Legislature on a long list of bills to "clean up the insurance mess."

Sen. Searcy Bracewell told a Senate committee his bill to firm up capital requirements was "tough." The committee put it in a tenderizing sub-committee for three weeks.

It would raise minimum requirements for future legal reserve life companies to \$25,000 capital and \$125,000 surplus, all in cash or bonds. Smaller existing companies would continue, but would be limited in size of policies and re-insurance. Those who reached the minimum. Those with investments of minimum capital and surplus in office buildings or real estate mortgages would have three years to convert to cash.

The House Insurance committee heard the three state insurance commissioners and others propose corrective measures, including state regulation of the sale of insurance securities.

Attorney General John Ben Shepperd asked for legislation "to prevent another Duval County."

Speaking to 200 publishers at a Texas Press Association convention in Austin, Shepperd revealed that his legal skirmishes with Boss George Parr disclosed many shortcomings in Texas laws.

He recommended 13 bills, and asked the editors to help effect passage.

Most of the bills would tighten control over county funds and call for annual published reports of expenditures.

Tax proposals continue on the penny basis set by Gov. Allan Shivers' program. His two-penny gasoline tax hike, good for \$60 million a year, was introduced earlier by Rep. Charles Murphy of Houston.

Rep. W. G. "Cotton" Kirklin of Odessa introduced the other Shivers' bill, the one-cent gas deduction tax bill. He figured it would bring in \$33 million a year.

Social Security Disability Claim Can Now Be Filed

"We are now ready to accept applications from disabled workers to have their earnings records declared frozen under the 1954 Amendments to the Social Security Act," R. R. Tuley, Jr., social security district manager, Abilene, announced today.

Tuley pointed out that persons who — have been totally disabled for 6 months or longer, and who — worked in jobs covered by the social security law for as many as 5 years out of the 10 years before they were disabled should get further information about this new provision in the Social Security Act. By applying to have their social security earnings records frozen while they are disabled, they may prevent loss of future benefits.

Some people now receiving disability insurance payments were eligible for long periods before they reached age 65 and are still disabled. They, too, can benefit from the new law if they had the required amount of work under the law before they became disabled.

Tuley emphasized that the law protects the social security rights of a person who is suffering from a prolonged total disability, but does NOT pay cash benefits to him before he is 65.

The address of the Abilene social security office is 308 Post Office Building. If a disabled person is unable to call at the office, or meet a representative at one of the regular itinerant stations in the 16 county area serviced by the Abilene office, he may telephone or have someone else call for him. Tuley concluded.

And, Rep. Jerry Sadler of Percilla dropped a penny-a-glass, \$3.30 per barrel, beer tax, estimated to produce \$16 million a year.

All faced an ultra-conservative revenue and taxation committee. From Rep. Jack Bryan of Buffalo came a proposal to place a three per cent gross receipts tax on establishments engaged in storing or parking motor vehicles.

Approved by the House of Representatives, was a bill to increase the pay of state officials. If acceptable to the senate, the pay scale will go to \$25,000 for the governor; \$20,000 for the attorney general; secretary of state, \$15,000; and the land commissioner, treasurer and comptroller \$17,500.

Senator A. M. Aikin Jr. of Paris and Rep. Barefoot Sanders of Dallas are sponsoring a plan to provide \$45 million for new school building construction. It would let school districts vote higher bond issues, up to 10 per cent of the assessed property values.

Two representatives, John T. Cox of Temple and Jack Welch of Marlin, have submitted a bill seeking the death penalty for second conviction under the Narcotics Code, and permitting conviction on uncorroborated testimony of an accomplice.

Sen. Doyle Willis of Fort Worth has a bill to close beer taverns on Sunday.

A bill to limit the building of lodges in state parks was introduced by Rep. Ben Atwell of Dallas.

Sen. Kilmer Corbin of Lubbock wants to make Democrats out of Democrats. His bill is to prevent Texans from voting in the Democratic primaries and then voting Republican in the general election.

March Of Dimes Fund Is \$1,563

The March of Dimes drive has raised a total of \$1,563.82 in Cisco since the campaign opened early in January, it was reported today by Mrs. Peggy Gallagher, treasurer. The drive has been extended to February 14.

Additional receipts are due to increase the fund. Still to come in were funds from the coin collectors in local stores, reports from churches and other groups.

General Chairman W. E. (Dizzy) Dean has expressed the hope that the city's total contribution will amount to at least \$2,000. Those who wish to contribute were invited to mail check to Mrs. Gallagher.

Ranger Golf Tournament To Be Held May 21-22

HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highways—they're rolling up bigger sales than ever in history—topping the popularity that has already made Buick one of the "Big Three."

In Price, too, it is one of the "Big Three"

THE 1955 BUICK SPECIAL delivers locally for less than some models of the 2-Door, 6-Passenger Sedan, Model 48 (Illustrated), so-called "low-price three." COME IN AND CHECK!

Most people still don't believe it. But it is true.

And when you look into the facts, you'll find these two solid truths:

Buick is one of the "Big Three" in sales volume—and hotter this year than ever before. And Buick is one of the "Big Three" when it comes to prices which make such popularity possible. The price tag we'll show you proves it.

So why not get what a Buick has to offer, if you are in the market for a new car?

You find that the dollars you pay for Buick buy you a lot more automobile—and the sheer satisfaction that comes with bossing a brawny traveler of this caliber.

You find it in the record-high V8 power that gives life to this spirited performer. You find it in the soft and level and cruiser-steady ride that comes of all-coil springing and torque-tube stability. You find it in the extra roominess, the extra frame strength, the extra tread width, the extra silencing—all part and parcel of every Buick.

We could tell you about the little things, too. Things usually charged for as "extras" in other cars, but yours as standard equipment at no extra cost in every Buick. Things like direction signals, oil-bath air cleaner, full-flow oil filter, automatic lighting in glove and trunk compartments—and so on.

But—you get the idea. This is a buy, this '55 Buick—a great buy—and a thriller from the instant you press its gas pedal. Come in this week and check things for yourself, won't you?
