CISCO, TEXAS, TUESDAY, FEBRUARY 8, 1955

The Gay Philosopher By J. W. S.

A GOOD MANY people were der shook the countryside out southwest of Cisco. Mr. Franklin Myrick, who lives out hat way, figured the lightening hit near their place. He was scouting around over the weeknd and found a big tree that was

The tree was split up badly, he aid. Huge pieces of it were knocked a hundred feet away. Franklin shuddered when he thought about what would have happened if the lightning had hit a house.

A WANT-AD in Sunday's Dallas News amused us. It read as follows: "Skeptical parent of 9year-old wants to hear from dis-illusioned parent regarding purchase of cornet. Give make, age, condition and what you hope to style salvage from your dream."

FORMER CISCOAN Henry M. Bulbrooks and family of Fort Worth visited Sunday with Mrs. Rudolph Kamon here. Mr. HMB, tho is a chemist with his own ndustrial laboratories in Fort Worth, grew up southwest of Cisco and he enjoyed a tour of the area, showing old landmarks to his wife and three children. He was raised here and left at 17 for Rice Institute in Houston

Mrs. Kamon reports that she as never seen anyone enjoy a our of his old home country like Mr. HMB did.

MRS. L. L. SMITH of Lubbock, emerly of Cisco, found an item n last Sunday's Lubbock newswilliams of Cisco and she sent Dr. Ward To Talk s a clipping, as follows:

14,000,000 Reasons-

that's a lot!

That's almost as many V-8 engines as Ford has built over the past 23 years. And it's more V-8's than all other manu-

As the tempo of the American traffic stream has been stepped up and automotive design has advanced, more and more manufacturers have joined the swing to V-8 engines ... the swing that Ford started way back in 1932.

Over the years, the Ford V-8 has been consistently advanced to keep pace with the ever advancing need of owners for more efficient and more responsive power. Now, in 1955, Ford offers two mighty V-8 engines that

are the outgrowth and peak achievement of the world's greatest reservoir of V-8 experience . . . which is Ford's! Both of Ford's great V-8's for '55 give you Trigger-Torque power; which means that you get the power you need,

when you need it, at all driving speeds. What's more, these Ford engines are ultra-responsive. You can get the "Go" you

want in as little as 7/100 of a second. Naturally, this split-second responsiveness you get from Ford V-8's makes all driving more fun. And it's mighty important to safety, too. For, as you know, the ability to get out of a tight spot quickly is a safety-must in today's traffic.

We invite you to Test Drive a Ford V-8 and see how much the extra responsiveness of Trigger-Torque power can mean to you. When you do, you'll want to own a Ford V-8 ... the only engine in its field that's backed up by the roadproof of over 14,000,000 owners.
