# Midgets Win By 38-37 For Title

NUMBER 52

The Cisco Junior High Midgets and the Cross Plains girls won the championship trophies in the annual Cisco Junior High School basketball tournament held at the junior high school gym Thursday, Friday and Saturday. The Albany boys and the Woodson girls took the consolation honors in their divisions.

The Midgets went to the finals by defeating Moran 58-37 in the pening game and by winning a narrow 38-37 victory over Cross Plains in the semi-finals. They took first place by ousting Olden 40-35 in the championship game

Saturday night The Cross Plains girls defeated Rising Star and Moran to enter the finals against Baird Saturday night. They won over Baird in the final game 33-20.

In the Midget-Olden championship game Saturday night Milton King led Cisco in scoring and took game honors with 15 points. Other Midget players and their points were as follows: Robert Bostick, 4; Ronnie Bostick, 8: John Adams, 3: Johnny Choate, 8; and Jerry Anderson, 2.

A complete rundown on the tournament follows: Thursday night - Cross Plains girls over organized into three conferences, Rising Star girls 31-14; Cross B, A and AA. Last year 721 Plains boys over Rising Star boys chools fielded teams.

A State championship tourna- girls 45-35 and Cisco boys over ment for Conference AA bi-dis-trict winners will be held in Aus-— Albany girls over Olden girls tin on June 1, 2 and 3. ## A Famous American Ship

The EDWARD SEWALL, 1899-1936, was the last of the great steel American windjammers. She was a true champion of the seas in the finest traditions of the American Merchant Marine. She fought nature, as defended by the raging white horses of Cape Horn's worst gales. She fought man, as represented by the all-conquering steamship. Her traditions of service and seamanship are ably carried on today by the men of our American Merchant Marine.

### FLUFFED FRANKS

Don't let a food budget get you down. Some of the tastiest dishes can be the most economical, too. Instead of serving "hot dogs" the next time your food allowance is running low, use the same frankfurters as a basis for this nourishing dish. (Six Servings)

5 medium-size potatoes 1½ teaspoons salt cup margarine cup hot milk 1/4 teaspoon pepper 6 frankfurters tablespoon prepared mustard Margarine pats

Cook washed, peeled potatoes with salt in 1 cup boiling water until they can be pierced easily with a fork. Drain and mash. Add margarine, hot milk, and pepper. Beat until smooth and fluffy. Split Beat until smooth and fluffy. Split frankfurters lengthwise, cutting almost but not quite through, so they can be flattened. Spread cut surfaces lightly with prepared mustard. Pile mashed potatoes into each frankfurter, leaving tops rough. Place filled frankfurters on baking sheet or shallow pan. Set under broiler or into moderately hot oven (425° F.) until potatoes are lightly browned and frankfurters heated through, about 12 to 15 minutes. When brown, press one or two margarine pats into top of potato on each serving.

For other tasty and nutritious kitchen-tested recipes, write the National Cotton Council, P. O. Box 76, Memphis, Tenn., for your free copy of "Make It With Margarine," an attractive new booklet in two

# No gasoline-no, not a single onehas higher octane than New 1955 GULF NO-NOX

Always remember: Octane alone is not enough. Only a gasoline that burns clean can make its full octane power really work for you mile

That's why, instead of trying to fight harmful deposits with so-called "miracle additives"inside your engine-Gulf believes in preventing them from forming in the first place; removes the cause-the "dirty-burning tailend" of gasoline, at the refinery, to bring you new NO-NOX.

Just look at the plates in the photo above, and see what a difference Gulf super-refining makes!

## but octane alone is not enough

That's why new Super-Refined Gulf NO-NOX is specially made to burn clean-to protect your engine-to give you thousands of extra miles of full engine power.

Fill up with new Super-Refined Gulf NO-NOX and feel the difference, right from the start, in full engine power that lasts! You'll get:

- · More complete engine protection than with socalled "miracle-additive" gasolines.
- Extra gas mileage in the short-trip, stop-and-go driving motorists do most.
- · Stall-proof smoothness . . . instant starts . . . fast, fuel-saving warm-up.
- · No knock, no pre-ignition—even in today's highcompression engines.

### This is GULF'S PLEDGE to the motoring public

· We at Gulf make this promise to America's motorists. We will not permit a single competitor - no, not a single one - to offer a gasoline superior to our own superb No-Nox.

· It is our sincere belief that No-Nox is the finest gasoline on the market today, and no matter what others do or say we will keep it the

finest - in power, in performance, in engine

• This is not a boast, not a claim. It is a pledge to you, the motoring public-a pledge backed by the resources - and the integrity - of the Gulf Oil Corporation.

New 1955 GULF NO-NOX

It's super-refined ... to burn clean!

The '55 gasoline for all high-compression engines

### 27 Texas Firms **Given Contracts By Government**

DALLAS, Feb. 22. - A total were awarded 39 unclassified Federal government contracts for supplies and materials totaling \$7,324,033 during the fourth quarter of 1954, according to figures

TUES. - WED. - THURS. All Speakers In Good Order

Call Attendant if Your Speaker Goes Out

just compiled here by the U. S. Department of Labor.

Biggest single contract on the list was one for more than \$2,-550,000 which went to a Pampa firm for forgings for the Army. Ten of the list of contracts for Oc tober, November, and December were with Dallas firms, for a total of \$2,403,087, according to and West Texas cities and towns Field Office Supervisor James L. Herriman of the U.S. Department's Wage and Hour and Public Contracts Divisions here.

Performance on all such govrnment contracts must be in accordance with the Walsh-Healey Public Contracts Act which sets basic standards for work done on government contracts exceeding \$10,000. It requires certain minimum wages, restricts child labor, prohibits convict labor, and requires safe and sanitary working

POUND

Coffee advertised for 27¢ a pound today would send you flying to the store. But back in 1940 that was not an unusual price for it.

Today, even your electric service bill is higher, because you are using a lot more of it. \*Actually, the average price you pay per kilowatt-hour has gone down, but you have added more electrical appliances to make your job easier, your life more pleasant.

How many work-saving appliances have you added - a refrigerator or a range, perhaps. Possibly an automatic washer, dryer or a food freezer. More than likely an air conditioner.

\*Actually, in homes served by WTU, the average cost of a kilowatt-hour is 22% LESS than it was ten years ago.

West Texas Utilities
Company
