Call to Potato Growers To meet Next Saturday

The Messenger has been requested by John Luce, J. E. Hollingsworth, W. D. Granberry and others to announce a meeting in Grapeland next Saturday afternoon at 2 o'clock at the court house for the purpose of this section.

Every farmer who expects to plant sweet potatoes for the market next spring is urged to attend this meeting. It is pointed out by those issuing this call that it will be useless for the farmers to raise potatoes without getting together so they can make arrangements to market them. So you are earnestly requested to attend this meeting.

DALY'S NEWS

Daly's, Oct. 17.—Cotton is nearly all picked now and some are busy getting ready to start breaking their weed land for another year.

Mrs. Jack Spence and Fields Beeson were in our midst Sunday.

Everybody try and come to Sunday school next Sunday. We want to reorganize, so let's every one be present and come every Sunday.

Mr. and Mrs. Hugh Richards visited the latter's parents, Mr. and Mrs. W. C. Lasiter last Saturday and Sunday.

Mr. and Mrs. Edgar Lasiter visited the former's parents, Mr. and Mrs. W. C. Lasiter, a few days last week.

Husband Can Pay Wife's Poll Tax and Vice Versa

At the election held last July for Constitutional amendments, the one amendment which carried provided, amongst other things, that husband and wife may pay poll taxes for each other. That is, a wife may go to the tax collector and, without any formality, or oath, pay the poll tax for her husband.

It is very important to note also that it has been held that all women within the poll tax paying age, as formerly prescribed for men, are subject to the payment of poll tax whether they have been assessed or not. Women should keep this in mind, and if they expect to have any part in next year's political activities, at any ballot box at any election of precinct, school, city, county, district or state, or to sit in any political convention or caucus prescribed or recognized by law, they must pay their poll taxes before the 1st day of Feb. 1922.—Troup Banner.

SOME SMILES

"What are you anyway?" asked the wife contemptuously during the quarrel, "man or a mouse?"

"A man," returned her husband bitterly.

"If I were a mouse I'd have you up on that table right now, yelling for help."—Country-Gentleman.

"The trouble" remarked the dentist cheerfully, as he probed away at the aching molar with the dental doorflicker, "is evidently due to a dying nerve."

"Well," groaned the victim, "I suppose you can do what you want to with me, but you might at least show a little respect for the dying."—Legion Weekly.

She was a rather elderly woman of dusky hue of the kind who looks upon all members of

the white race in a friendly, confidential way. And she was arrayed in deepest mourning from head to foot. Also the look upon her face was entirely in keeping with her melancholy array. It certainly seemed that she was dressed up within the last inch of her mournful feelings. But such, alas! was not the case. For finally she halted before the counter she was seeking—the underwear counter. And this is the conversation that ensued:

"Honey," she addressed the young woman clerk, "is you got any black underwear?"

"No, auntie," replied the salesgirl, "but I have some very nice white ones. Won't they do?"

"No, honey," replied the woman with just a touch of sorrow. "No, they don't do. When I mourns, I mourns clean down to de skin."—El Paso Times.

While making a visit to New York, a man unmistakably from the country was knocked down in the street by an automobile. A crowd instantly surrounded him with condolences and questions.

"Are you hurt, my friend?" kindly asked a gentleman, who was first among the rescuers, as he helped the stranger to his

feet and brushed the mud and dust from his clothes.

"Well," came the cautious reply of one evidently given to non-committal brevity of speech, "it ain't done me no good."—Harper's.

After Mr. Brown had raked his yard he took the accumulated rubbish into the street to burn. A number of neighbors' children came flocking about the bonfire, among them a little girl whom Mr. Brown did not remember having seen before. Wishing, with his usual kindness, to make the stranger feel at ease, he beamed upon her and said, heartily:

"Hello! Isn't this a new face?"

A deep red suffused her freckles. "No," she stammered, "it ain't new. It's just been washed."—Harper's Magazine.

A rural ducky in Georgia of little experience in traveling presented himself to the ticket agent at the railway station and inquired the price of transportation to Macon "Three dollars and forty cents," said the agent.

"Oh!" exclaimed the ducky, "dat shore is high! I'd rather walk." And off he started. He had not proceeded very far when the train came along whistling as it neared the station. "Yo' needn't whistle for me," muttered the darkey as he trudged along. "I made yo' an offer onced and yo' wouldn't take it. So yo' kin go on, train I ain't agoin' wif yo'."—Sovereign Visitor.

The News Boiled Down

A slight decrease in unemployment in September is reported by the Department of Labor.

The nation's gross public debt increased \$1,778,000 in September, being \$23,924,008,000 on September 30.

Flashless gunpowder, making possible night firing without illumination, is one of the recent developments of the army ordnance corps.

The United States Supreme Court convened October 3 for the fall term. William Howard Taft was sworn in as chief justice.

Major-General Wood retired from active service in the army on October 5, to accept the governorship of the Philippines. He had been in the service thirty-six years.

The chair used by Theodore Roosevelt at his desk in the White House has been presented by President Harding to the Roosevelt Memorial Association.

President Harding and the members of his cabinet will march as an escort of honor when the body of the unknown American soldier is carried from the Capitol to Arlington Cemetery on November 11.

Millions Now Under Arms

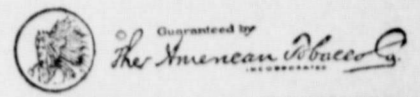

No less than 6,000,000 men in the world are soldiers actually under arms. These are figures gleaned for the coming Conference which will study the problem of limiting arms. China has the greatest number of soldiers, about 1,370,000. France has nearly as many, 1,034,000. The British Empire is next, with 740,500. The United States, with its reduced Army of 150,000, stands only thirteenth. Japan has 300,000.

The forthcoming great Conference in Washington has been called to consider how the pitiable waste of spending huge sums of money for armies can be avoided. The tremendous waste of the world's man-power as well, is shown by the above figures.

To get rid of worms in children give them White's Cream Vermifuge. The little sufferer improves at once and soon becomes healthy, active and robust. Price 35c. Sold by Smith & Ryan.

Young Folks Here Is Your Opportunity.

Pick scraps of time from the waste-basket, turn them into dollars; earn while you learn by taking a money-back-guaranteed General Business Course, General Banking Course, General Railroad & Telegraphy Course, or one of our most thorough and practical courses of Bookkeeping Shorthand & Typewriting, Business Administration & Finance, Telegraphy, Commercial Law, Business Arithmetic, Salesmanship, Advertising, Commercial Lettering or Business Penmanship, By Correspondence thru the Extension Department of the Tyler Commercial College.

We secure satisfactory results or refund tuition. Our Correspondence courses include the same subjects as given with a personal course, with the privilege of entering College for personal work at any stage of your course, without paying additional tuition. In other words, the Correspondence instructions are absolutely free if you enter for personal work. Many find it to their advantage even when they intend to take personal work later to first enroll for the course by correspondence and utilize their spare moments until they are ready to enter, since it costs nothing extra. This often saves them a couple of months time and board in school on their personal work, and enables them to leave college and accept a good position two months earlier. Another advantage of the correspondence course is that we give three month's free use of a standard typewriter with the full Shorthand course. Many of our students have attained a speed of from forty to fifty words per minute thru our system of touch typewriting during the three months and have at the same time carried on their other work. Telegraphy instruments and supplies are furnished with our course of Telegraphy, and a thorough course of Salesmanship is given with Bookkeeping.

We use our original copyrighted methods. We make every subject practical and interesting from start to finish. Every lesson receives prompt personal attention and a personal reply. We have taught hundreds of students successfully and know we can teach you or we would not guarantee to refund your money. Why continue to waste your spare moments? Turn them into knowledge and make them earn you dollars. Take advantage of the wonderful opportunities for trained young men and women in the business world today. You cannot afford to let your spare moments pass when there is such a need for capable office help. For full particulars and large free catalogue, address the

JUST RAMBLIN'

By REKUL

JUDGE Bishop stood up

IN the courthouse

AND told the world

THAT his county—

HENDERSON—was a mecca

FOR bootleggers and whiskey

MAKERS. From what he

SAID you'd think those

PEOPLE had reduced the thing

TO a fine art and all

THE lawyers, merchants,

DOCTORS, preachers, bankers—

THE whole kapoodle—had

QUIT their business

AND gone to making booze.

HE said conditions were

SUCH that he had rather

SEE a saloon well

REGULATED by law on every

CORNER than to see such

A state of affairs as

EXISTS. Judge, don't you

KNOW there "ain't no sich

ANIMAL" as a saloon well

REGULATED by law?

DEFIANCE of law by saloon

KEEPERS is what brought

ABOUT prohibition. Then in

THE next breath the Judge

SLAMS the Ku Klux Klan

FOR their pernicious

ACTIVITIES and said they

VIOLATED federal, state and

MUNICIPAL laws and

OUTRAGED society.

WHAT'S the matter with

THE strong arm of the

LAW Judge? Can't it

REACH out into the

JUNGLES of Henderson

COUNTY and bring the

CULPRITS to the bar

OF Justice?

ONE thing I've noticed

ABOUT the Kluxes is

THAT they have caused

SOME district judges

TO get busy and

CHARGE the grand

JURIES with dynamite

AND that where they

ARE active in helping

LOCAL officers enforce

THE law things have

GROWN better right

OFF the bat. And

TO a man up a tree

IT looks like the

KLUXES or somebody

OUGHT to get busy

IN Henderson county.

THEY say the Ku

KLUXES have an

ORGANIZATION in

GRAPELAND and I

GUESS they have for

WE have a still on

"EVERY corner"—but they

ARE dead ones.

FOR reading this

STELLAR stuff

I THANK YOU.

THURSDAY, OCT. 20, 1921

The only railroad that will not be affected by the strike is Henry Ford's. You just can't down old Henry.

The big railroad strike has been called for October 30, promising to tie up every railroad in the nation. It takes public sentiment to win a strike. But if the railroad men want to break their necks, we say let 'em do it; the quicker the better.

Those who are going to plant sweet potatoes for the market next spring should attend the meeting next Saturday afternoon at 2 o'clock at the courthouse. Get together, gentlemen, and put this thing over big. It will mean some extra spending money.

The combined average costs of publishing a newspaper has gone up over three hundred per cent since 1914, and the net result of it has been that over four thousand papers have ceased publication and discontinued business since then. This is because the products have not been raised in price commensurate with the raise in expense.

Our taxes are something awful, but Germany's are much higher. An income tax has to be paid there on 2,000 marks, about \$20 of our money. If the income is \$5,000 the government takes sixty per cent of it. In addition to all this it take thirty per cent of any capital one may have on hand—and there are not tax exempt securities there to hide behind. Nothing is so bad but what it might be worse. Pay your poll tax.

Brief and Pointed

Some dutchman has said that if you eat sauerkraut twice a day you will live to be 100 years old. We'd sooner die.

Nowadays if a fellow don't agree with his neighbor he is a reactionary and an obstructionist and lucky if he is not a liar and a porch climber.

And now another prominent actor has married his fifth wife. When he meets them all on the golden shore what a razzle-dazzle he will get.

MAYER BROTHERS

OUR FLAG

Old Glory has now been unfurled for more than a hundred years, and has never trailed in the dust. She has played in the breeze of every clime, causing every nation of the earth to respect and reverence the country for which it stands. Its birth was brought about by a people who were struggling for liberty. Today it stands for this above every other thing, as those noble heroes who fought under its banner during its infancy

have long ago crossed to that shore from whence no traveler ever returns, but their spirits yet live in this flag which stands for the right and freedom of all men. If there be a man in all the plains, valleys and hills of this fair land of ours, whose heart does not swell with pride, beat faster in admiration, bow in reverence and shout in praise of the American flag, mark him well, for he is an enemy of all our noble traditions. Every child from its earliest

infancy should be taught to honor and respect our flag. Every school should possess one that should be in a very conspicuous place in the school building, and on all holidays it should be unfurled to the breeze somewhere on the campus where all may know that our future American citizenship is here being trained. That this flag we so dearly love might today be playing in the liberty loving breezes of our land, cost the lives of some of our best and noblest men.

They willingly gave up their lives that all future generations might be free. This should cause us to stop and think. There is no greater sacrifice that a man can make than that of dying for another. These men willingly died so that the people of today might be free, happy and liberty loving people.—Polk County Enterprise. Old faded clothes can be made to look like new by dyeing. Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

H. D. Whitehead, who resides near Pennington, passed through Grapeland Monday morning enroute home from Lamesa, in Dawson county, where he had been looking at the country and to hunt a location. He liked the country fine and says he thinks he will remove there. While in Lamesa, he was the guest of John Killion, a former citizen of this community. He said Mr. Killion had a beautiful home, was well fixed and doing well.

In a difficulty late Saturday afternoon between U. M. Brock, cashier of the Guaranty State Bank, and Frank Taylor, prominent farmer. Mr. Brock was struck over the head with a piece of wood, causing a pretty bad wound. He was rushed to his home by friends and his wound dressed. As this is written he is getting along nicely and will soon be able to resume his duties at the bank. Mr. Taylor gave bond in the sum of five hundred dollars to await the action of the grand jury. The trouble arose over a business transaction at the bank.

TRINITY RIVER RIPPLES

Reynard, Oct. 17.—Mr. and Mrs. W. F. West visited the Dallas fair last week.

J. L. Chiles was a Grapeland visitor and heard two of Bro. Maness' wonderful sermons; says he does not think he can be excelled.

We are sorry that B. R. Eaves took our last week's article as serious as he did. Now, of course, we have no love for Abe, or even respect, but will say we have more patience with a negro that will bootleg than we have a white man. One man says we did him a great injustice in not telling who the white man was, for he might have got a little of it. If he will have just a little patience we'll tell him the first time we see him.

Dr. Hill was called to the home of J. L. Chiles yesterday; nothing serious, or even sickness, but an affliction and needed a physician.

Mrs. George Allen, Mrs. Tom Marshall and Mrs. P. L. Fulgham were all visitors at the Chiles home Sunday.

We are indebted to our teacher for the following school notes: Hope to have more in future; School is getting along nicely. Examinations have been held and the students made a good showing. The new books have arrived.

Mrs. John Gray Dead

Mrs. John Gray died at her home in this city Saturday night about 12 o'clock. Her death was sudden and was a great shock to her many friends. An operation was performed in hopes of saving her life, but to no avail.

Prior to her marriage to Mr. Gray, who is section foreman for the I. & G. N., she was Miss Jewel Turner, and taught school in various sections of the county.

Her remains were laid to rest Monday in the Ephesus cemetery, near where she was reared, and where her parents, Mr. and Mrs. Joe Turner, now reside. Services were conducted by Rev. Mr. Anderson, of the Ephesus community.

Test Player's Speed

Why does "Babe" Ruth, famous baseball player, make so many home runs? He has recently broken all records for home runs in a season. Tests made at Columbia University seem to show that Ruth's nerves and muscles work with a speed 10 per cent greater than the average. The baseball player sat beside an electric light and watched for it to flash. As soon as he saw the flash he pressed a button. The time between the flash and the pressure on the button was recorded exactly by a delicate instrument. It was shorter by nearly 10 per cent than the average time made by other men who took the test. It is this speed with which his muscles answer impulses from the eye nerves that makes it possible for "Babe" Ruth to hit the ball squarely and send it flying to the outer field for his many home runs.

THE MESSENGER'S AMERICANIZATION SERIES

The Foundation of the Republic

Not long since I made a trip to Washington, and as I stood on Capitol Hill my heart beat quick as I looked at the towering marble of my country's Capitol, and the mist gathered in my eyes as I thought of its tremendous significance, and the armies, and the Treasury, and the courts, and congress and the president, and all that was gathered there. And I felt that the sun in all its course could not look down upon a better sight than that majestic home of the Republic that had taught the best lessons in liberty.

Two days afterward I went to visit a friend in the country, a modest man, with a quiet country home. It was just a simple, unpretentious house, set about with great big trees, encircled in meadow and fields rich with the promise of harvest. The fragrance of pink and hollyhock in the front yard was mingled with the aroma of the orchard and the garden, and resonant with the cluck of poultry and the hum of bees. Inside was quiet, cleanliness, thrift and comfort. Outside there stood my friend—master of his land and master of himself. There was his old father, an aged, trembling man, happy in the heart and home of his son. And as they started to their home

the hands of the old man went down on the young man's shoulder's, laying there the unspeakable blessing of an honored and grateful father, and ennobling it with the Knighthood of the Fifth Commandment. And I saw the night come down on that home falling gently as from the wings of an unseen dove, and the old man, while a startled bird called from the forest, and the trees shrilled with the cricket's cry, and the stars were swarming in the sky, got the family around him and, taking the old Bible from the table called them to their knees, while he closed the record of that simple day by calling down God's blessing on that family and that home.

And while I gazed the marble Capitol faded. Forgotten were its treasures and its majesty, and I said: "O, surely, here in the hearts of the people are lodged at last the strength and responsibilities of this government, the hope and promise of this Republic."—From the Orations and Speeches of Henry W. Grady, by E. D. Shurter.

LIVELYVILLE LOCALS

Livelyville, Oct. 27—The continued dry weather has been very favorable to the folks having cotton to gather; however, most all is now picked, the children are off to school and things are looking very much like late instead of early fall. Some hogs have been killed the last few days, owing to the drop in temperature. Sweet potatoes are being dug and ribbon cane will soon be ready for the syrup mill. The cane crop is short here.

As the news from this place has not appeared in the paper for the last two weeks, we will extend belated congratulations to Guy Lively and his bride. Better late than never, you know, Guy.

SOFT AND ELABORATE

If the fashion reporter were compelled to point out the outstanding style features in new fall hats she would be apt to say "soft" and "elaborate." Three representative models in the picture include a wide-brimmed hat, with soft crown, of panne velvet, a small hat of duvetyne adorned with flat rosettes of narrow ribbon, and an off-the-face model of duvetyne embroidered with white beads.

A New York woman refused to sell a lot adjoining her home for \$750,000 because if she sold the property her cat would have no place to play. Here is a woman after our own heart, and when she passes on we will gladly chip in to raise a monument over he remains. Every person who owns a cat should furnish the cat a play park and see that the cat plays there. Several cats have been making a play park out of our back fence for several nights, and we do not hesitate to say that a cat game is not conducive to sleep or to the building of a sweet disposition.—Honey Grove Signal.

No Science "Bunk" for Voliva

In a recent address, Wilbur Voliva, overseer of Zion City, Ill., reiterated his statement that the world is flat and has no motion. Moreover, he has offered a reward of \$1000 to anyone who can prove that the world is a sphere or moves. Voliva's scientific "deductions" are based on medieval theories long since discarded and disproved but to which he clings with fanatical tenacity—not having a type of mind that accepts science or is moved by facts.

"As a mathematician and student of God," he says, "I laugh when they tell us the sun is 93,000,000 miles away. What fool would put up a light 100 miles away to light the parlor?" Of course there is no answer to such an argument, but most people admit the sun is near enough for all practical purposes, and that as a rule in July and August it is almost too near.

Voliva has pulled Newton's theory of gravitation all to pieces. "There is no such thing as gravitation," declares the Einstein of Zion City. And then he proceeds to demonstrate his disbelief with a book, a toy

balloon, a brick and a feather. "I throw this book and this brick into the air. Why don't they keep on going up?" Voliva asks. "They go up as far as the force behind forces them and they fall because they are heavier than air. I cut the string of the toy balloon. It rises to a certain height and then comes down. I blow a feather and it finally comes down. They all go as far as I throw them—and that's all there is to the 'law of gravitation.'" Thus Voliva decisively repudiates all we have learned from investigators and discoveries like Galileo, Columbus, Newton and numerous others.—The Pathfinder.

IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all.

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish.

"I was . . . nervous and easily upset.

I couldn't rest well at night and was . . . just lifeless.

"I heard of Cardui and after reading I decided I had some female trouble that was pulling me down. I sent for Cardui and began it . . .

"In a very short while after I began the Cardui Home Treatment I saw an improvement and it wasn't long until I was all right—good appetite, splendid rest, and much stronger so that I easily did my house work.

"Later I took a bottle of Cardui as a tonic. I can recommend Cardui and gladly do so, for if more women knew, it would save a great deal of worry and sickness."

The enthusiastic praise of thousands of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it.

To Enforce Immigration Law

The population of this country was increased by 552,000 immigrants during the last fiscal year ended June 30. The effect of the new immigration restriction law was shown by the fact that in June the arrivals numbered only 17,000, as compared with over 50,000 in May. Officials declare that there are organized efforts to break down the law by spreading misinformation which brings floods of immigrants to our shores in excess of the monthly quotas. President Harding says the hardships worked by the new law are the fault of dishonest shipping agents "who have brought innocent immigrants to this country in spite of warnings."

Every Bale Will Be Needed

Congressman Hatton W. Sumners, of the Fifth Texas District, in an interview appearing in Farm and Ranch, among other things said:

"Professional manipulators will play the future markets up and down. Let them gamble their heads off. The time will come within the next twelve months when every bale of American cotton will be called for by legitimate consumption demand. Spot cotton holds as strong a trade position at this time as it has held since the days immediately following the Civil War. Nobody but the people of the South can destroy that position."

There is no money in gambling in cotton with the market going one way all the time. It is manifestly impossible for manipulators to make a profit unless given the opportunity to manipulate. Therefore producers of cotton may expect to see some violent fluctuations, but as Congressman Sumners says: The mills can not spin futures," and in the end they must call for the real staple. Shaking out the little fellows

is real sport for the big speculator. He has to do it for his own protection. By constantly pushing the market up, or letting it go up under its own momentum, a large per cent of persons are encouraged to buy futures. When enough are in to make a large total, the market is sold down and the suckers lose their money.

Do not watch the future market, but keep your eye on the demand for spots. Keeping just a little behind the demand will prove much more profitable than keeping just ahead of it.—Farm and Ranch.

GRAPELAND HIGH SCHOOL NOTES

Elizabeth Leaverton, Editor

The following poem was written by Gertye Mae Shaw, a Junior in the high school, about Miss Kenley, our history teacher:

Just watch those pupils smiling!
They seem so happy and gay,
It's all about Miss Kenley
Who knows how to rule the day.

Some folks may think she's
dangerous

Just at an outside glance,
But she is such a dear thing
If you only give her a chance.

She knows how you should study,
And which way is the best,
But still a greater thing she
knows

IS how to give a "test."

She spends her time in working,
Unlike the most of us,
There's never one spare moment
For her to raise a fuss.

YOU can tell when she's tired or
worried

By the smiles that almost fade;
But wait just a moment—it's
over

Like sun shine chasing the shade.

The fairies all know and love her,
And help her her burdens to
bear;

They know when she's in trouble
And take from her all care.

SHE has raught but kind affection

Down deep in her loving heart,
And may I hope that with her,
We'll never have to part.

A "pep" society was organized last week with Dot Clewis and Wingfield Lively as Senior yell leaders and Lucile Howard and Mayo Murchison as Junior leaders. We had a great "pep" meeting Friday morning and if yelling means anything we will surely win. Any way, we hope to help our teams win the games by putting lots of "pep" into the yells. Change a Handicap Into an Advantage

Why are Northern and Western lands richer than Southern? Largely because Northern soils (1) suffer from washing in summer, and (2) have their fertility locked up in winter. In frozen soils the

vegetable matter is not decaying and nitrogen is not leaching out.

On the other hand, with our warm, open winters in the South, the soil-fertility is not locked up. The leaching or draining off of fertility goes on constantly. The consequence is that our average Southern farmer when he breaks his land in spring finds it poorer than it was when he finished harvesting the previous fall. This is not true of the Northern farmer

But there is an old proverb that "the hair of the dog is good for the bite." And this is precisely the case with regard to this matter of the South's winter climate and its relation to soil fertility.

The warm, open winters do cause our fertility to leach out when we have no cover crops on the land, and therefore make us lose as compared with the Northern farmer whose fertility is locked up by freezes. But there is another side of the picture.

All that the Northern farmer can do in winter is to hold on to the fertility he has. On the other hand, when we Southern farmers put cover crops on our

soils we can not only hold the fertility we already have—which is all the Northern farmer can do—but we can also greatly increase soil fertility which the Northern farmer cannot do.

In other words, here is the situation: (1) Without cover crops, our warm winters make our soils poorer than Northern soils. With cover crops this very same condition will make our soils richer than Northern soils.

Without cover crops, the favorable winter climate which God gives your farm has been agriculturally a handicap. With cover crops you can easily make it an advantage. Why not do it? —The Progressive Farmer.

"How's this?" asked the lawyer. "You've named six bankers in your will to be pallbearers. Of course, it's all right, but would't you rather choose some friends with whom you are on better terms?"

"No, judge, that's all right. Those fellows have carried me so long they might as well finish the job."—The American Legion Weekly.

NEW QUICK WAY TO PUT ON FIRM FLESH

Thousands of weak, thin, pale and sickly people are now putting on solid flesh and regaining rugged health and strength in an entirely new way.

This way is by taking vitamins into the systems. Vitamins are a mysterious living substance, found to be absolutely necessary for perfect daily health. But most of our foods are lacking in them—that is why so many of us become thin and run-down.

Yeast has been found to contain billions of vitamins and is bringing incredible results in putting good flesh and muscle on thin people. No need to eat yeast cakes—simply take Ironized Yeast tablets, containing iron and highly concentrated brewer's yeast, the most efficient form of yeast. Pleasant to take—brings quick results.
