Second School Mass Meeting Held Last Monday Night

For the second time within the past two weeks, the citizens of Grapeland school district met in mass meeting at the Star Theatre Monday night to further discuss school matters.

At a previous meeting a citizens committee was appointed to work in conjunction with the school board to make plans and arrive at the cost of erecting a new high school building. This committee made its report at the Monday night meeting. It was their opinion that a building could be erected and equipped at an approximate cost of \$25,000. Plans were submitted for the proposed building, which will be two stories with a basement and a large auditorium. After the committee made its report, petitions were circulated asking the school board to order an election for the issuance of bonds in the sum of \$25,000 and to authorize an increase in the tax rate not to exceed \$1.00 on the one hundred dollar valuation.

It is thought that both propositions will easily carry. The board will order the election in the next few days, and 20 days' notice is all that is required.

Did the Klan Write It?

The Messenger received an article, money enclosed to pay for publishing same, purporting to come from the Ku Klux Klan but as it was not written on the Klan stationery and did not bear the official seal of the order, we doubt its authenticity. But if the writer will call at the office and convince us it is from the Klan we will print it or refund the money.

Insure your children's health with a good raincoat and pair of rubber overshoes. Get the best at The Darsey Co.

Dog Show—Battle Royal (Colored.)

6 to 7 o'clock supper on ground.

Night program consists of Fox Hunt.

There will be a fee charge for lunches, but the price will be very nominal, in fact, as cheap or cheaper than you can prepare and bring your lunch. Profit made from selling lunches will be used to help defray the expense of the fair.

There will be no entry fee charged except for baby show, gun shoot and horse races. All this money will be used as premiums in the events.

Demonstration Held

The Cash Grocery Co. held open house last Friday and gave a demonstration of Rice Hotel products. Coffee and cake was served. Two baskets of fruits and vegetables of Rice Hotel quality were given away, Mal Whitaker receiving one and Edgar Willis the other.

## ROCK HILL NEWS

Rock Hill, Oct. 16.—Most of the farmers have their crops all gathered and today is the time set to turn hogs out.

Our school began last Monday, Oct. 9. Our teachers are Ellis Duitch and Mrs. Virgil Musick. We feel very proud of our first week's work and believe we are going to have a splendid school.

Messrs. Newton Streetman and J. L. Nichols and Misses Alice Taylor and Ethel Kiser attended the Association at Weldon last week. They report quite a bit of dengue fever in that section.

Richard Streetman, who is teaching school at Ash, suffered with the dengue fever the past week.

Mr. and Mrs. H. M. Streetman are on the sick list at this writing.

Sunday school was called in Sunday afternoon and most of the people attended the funeral of Mrs. Molly Williams at Antrim.

Sunday school will begin next Sun-

day at 1 o'clock promptly and afterwards we expect to spend the remainder of the day in singing. Everybody is invited to come and bring your book.

## Mrs. Williams Dead

Mrs. Mollie Williams died very suddenly Saturday morning at the home of her daughter, Mrs. Jess Roberts, in south Grapeland. Death is thought to be due to paralysis.

Mrs. Williams was 62 years of age, and prior to moving to Grapeland a few years ago, resided in the Antrim community. Intermment took place in the Antrim cemetery Sunday afternoon. Mrs. Williams had been for many years a member of the Missionary Baptist church.

She is survived by three daughters, Mrs. Jess Roberts, Mrs. Willie Foreman and Mrs. Willie Allen.

Renew your subscription.

## LIBERTY HILL ITEMS

Liberty Hill, Oct. 16.—This community is rejoicing over the completion of our new school building, which is a credit to us. The school began this morning with Miss Bumgarner and Miss Powers. Our third teacher has not arrived.

A larger crowd than usual attended Sunday school yesterday, which was very encouraging to the superintendent and teachers. We hope every one will come and bring some one with them.

Dick Wilson Sr. has been very sick but is some better at this writing.

Messrs. Dave Ruby, Chas. Moore and Will Mooney visited friends and relatives in this community yesterday.

Mrs. Arthur Holcomb, who has been visiting in Alto the past week, has returned home.

Mrs. Clyde Story, who visited home folk in Ratcliff last week, has returned home.

Messrs. Mote Scarbrough, Jack Gale and Jim Tims made a business trip to Crockett Monday.

## UNION DOTS

Union, Oct. 16.—Sam Caskey and family, also Misses Mattie and Vannie Blanche Driskell spent Sunday with Monroe Weisinger and family.

Miss Mattie Driskell spent last Wednesday night with Miss Nellie Caskey.

Mr. and Mrs. Homer Denman spent Sunday at the home of Will Brannen. Miss Georgia Burrow entertained the little folks with a birthday party Saturday afternoon. All report a nice time.

There will be a pie supper at the Union school house Friday night, Oct. 20. Also a cake walk. Every one is invited to come and bring your pocket book. This will be for the purpose of getting play ground equipment. Every one come and enjoy yourselves.

Byron Keen and family left Wednesday, October 11, for Buffalo Gap where they will make their home.

Our school started Monday, Oct. 2, with a good attendance. The teachers are Will Brannen and his two daughters, Misses Maybelle and Pauline.

THE MESSENGER'S AMERICANIZATION SERIES

LIBERTY AND DISDIPLINE

Americans are more familiar with the benefits of discipline in fact than conscious of them in theory. Anyone who should try to manage a factory, a bank, a railroad, a ship, a military company, or an athletic team, on the principle of having every employee or member of the organization take whatever part in the work, and do whatever way seemed best in his own eyes, would come to sudden grief and be mercilessly laughed at. We all know that any enterprise can be successful only if there is co-ordination of effort, or what for short we call team play.

Experience has taught us that the maximum efficiency is attained where the team play is most nearly perfect, and therefore, the subordination of the individual to the combined action is most nearly complete. Then there is the greatest harmony of action, and the least waste by friction or working at cross purposes. But everyone is aware that such a condition does not come about of itself. Men do not fit into their places in a team or organization spontaneously. Until they have become experts they do not appreciate the relation of their particular work to the plan as a whole; and even when they have become familiar with the game or the industry, they are apt to overestimate their own part in it, or disagree about the best method of attaining the result. Everyone likes to rule, and when Artemus Ward suggested that all the men in a regiment should be made Brigadier Generals at once to avoid jealousy, he touched a familiar weakness in human nature. Believers in the principle of liberty assert that a man will put forth more effort, and more intelligent effort, if he chooses his own field, and works in his own way, than if he labors under the constant direction of others. The mere sense of freedom is stimulating in a high degree to vigorous natures. The man who directs himself is responsible for the consequences. He guarantees the result, and stakes his character and reputation on it. If

after selecting his own career he finds that he has chosen wrongly, he writes himself down a fool. The theory of liberty, then is based upon the belief that a man is usually a better judge of his own aptitudes than anyone else can be, and that he will put forth more and better effort if he is free than if he is not.

Both these principles, of discipline and of liberty, contain much truth. Neither is absolutely true, nor can be carried to its logical extreme, for one by subjecting all a man's actions to the control of a master would lead to slavery, the other by leaving every man free to disregard the common welfare would lead to anarchy.

We have learned in this stress of nations that men cannot fight without ammunition well made in abundance; but we do not see that the crucial matter in civilization is the preparedness of young men for the work of the world; not only an ample supply of the best material but a product moulded on the best pattern, tempered and finished to the highest point of perfection. Is this the ideal of a dreamer that cannot be realized; or is it a vision which young men will see and turn to a virile faith?—Lawrence Lowell.

Kill the '23 Boll Weevil in '22!!

Read the 20 statements given below.

1. Weevil infestation in spring starts from the few weevils that pass the winter.
2. The weevils, developing late in the fall, are the ones most likely to survive the winter.
3. Many weevils will survive the winter in fields where cotton stalks together with grass, weeds and other refuse material offering shelter are allowed to remain.
4. Great numbers successfully pass the winter in dead grass along the fences, ditches and other waste places.
5. The weevils eats only cotton.
6. The weevil breeds only in squares and bolls.
7. The weevil can live for

several months without food while hibernating and inactive.

8. It does not become inactive until the first killing frosts.

9. Previous to the first killing frosts, it can live for only six days without food.

10. Killing cotton growth early prevents new weevils breeding and permits only the older ones to enter hibernation.

11. Very few of these older weevils have sufficient vitality to pass the winter successfully.

12. Killing cotton growth early removes the food of the weevil. If the growth of cotton is entirely killed as early as two weeks before frosts, practically all weevils will starve before going into winter quarters.

13. Destroy cotton growth early, if possible, by October 1st.

14. Merely chopping or clipping the stalks off will not answer, the stumps will throw out new growth ideal for weevil food.

15. Kill the plant entirely and prevent new growth by setting a plow shallow and turning out the plants, or by some equally effective means.

16. Do not burn crop refuse on the fields. Texas farms need this returned to the soil humus. Merely killing the plants as stated in No. 15, will, in most cases, secure the benefits aimed at.

17. Burn the trash along fences, ditches and other such waste places, in mid-winter, and thus destroy the individuals hibernating there. (See Nos. 4 and 16.)

18. A farmer cannot prevent weevils coming to his cotton in the spring that another person has wintered.

19. Big things are accomplished only by cooperation.

20. Organize a whole community for the fight.—From the Extension Service, A. & M. College of Texas.

WANETA LOCAL NEWS

Waneta, Oct. 16.—We are still needing a good rain. Everybody is through picking cotton and some are beginning to make syrup this week, but the syrup crop will be short.

The Grapeland Basket ball team came out Friday afternoon and played our boys. The score was 48 to 26 in favor of Grapeland. The teachers and school girls served cake, hot chocolate and lemonade. There was a large crowd present and all had a nice time.

Will Lively and family spent Sunday with W. H. Lively and wife.

Several from here have been attending the Methodist meeting at New Hope the past week. The meeting was conducted by Bro. Goodman of Guiceland.

John Rich and family returned home last Friday night from a three week's visit in different parts of West Texas.

Albert Wilson and wife visited Buddie Scarbrough and family Sunday.

Grace Moore spent Sunday afternoon with Miss Mary Ramey.

Charlie Moore and parents moved from here last week to the place vacated by Jim Moore in the New Hope community. We hated to see these good people leave.

Our school is progressing nicely. Think we are going to have a good school this term.

Class Legislation

Tendency toward class legislation seems to be growing to an alarming extent.

Politicians are often intimidated and driven by the threat of numbers and the voice of the rabble to enact class legislation to the subversion of the constitution.

Such legislation is a direct blow at the foundation of this government. Every such law is an attack on the fundamental doctrines of the constitution.

The operations of such laws increase crime and make justice a toddling, senile fool.

Behold the legislative comedy and judicial tragedy in your laws, recently enacted, which exempt various skilled and unskilled workers from their operations! This awful farce will go on, of course, until virtually all groups will be exempted. Then, where will your boasted equality before the constitution and the law come in?

You have enacted thousands of laws to govern, direct, circumscribe, control, harass, and punish the business man. Why such criminal partiality? Is he the only criminal on earth?

In many states you are exempting the murderer from hanging. And in some states they are advocating pardons and pensions for traitors and anarchists.

Awake, constitutional loving, patriotic citizens, and demand that all criminals, whether preachers or plumbers, farmers or fakers be punished to the full extent of all violated laws.

Leads in Postoffices

According to an announcement of the postoffice department Pennsylvania leads all the other states in the number of post-offices. The number in the four leading states is as follows: Pa., 2987; Ky., 2568; N. Y., 2289 and Tex., 2288. It was supposed that this country has the largest standing army of postmasters in the world.

W. D. GRANBERRY, Cashier

The man who said "money is only stored-up labor" had looked deep into the affairs of man.

He voiced a truth which we all unconsciously knew—but which is particularly significant at this season of the year.

Harvest season means Fair season. Man exhibits his products gleaned from a bountiful nature—and then, he stores it away to sustain him during the cold and stormy months.

There are many, many methods of storing the harvest away. Maybe in bin,—granery or cellar or—it can be in money—the easiest or most profitable way if deposited in a reliable bank.

For there it will earn an added interest.

Let it earn while it awaits your cold day call.

—THAT IS THRIFT.

Nervous Break-Down

MRS. ANNIE LANGE, of R. F. D. 1, Burlington, Tex., writes as follows regarding her experience with Cardui: "Some time ago I had a nervous break-down of some kind. . . I was very weak and so nervous. I had fainting spells and suffered a great deal, but more from the weak, trembly, no-account feeling than anything else. I knew I needed a tonic, and needed it badly. I began the use of Cardui to see if I couldn't get some strength, as I knew of other cases that had been helped by its

use. I soon saw a great improvement, so I kept it up. I used seven bottles of Cardui, and can say the money was well spent, for I grew well and strong. Am now able to do all my housework and a great deal of work besides."

If you are weak, run-down, nervous and suffer from the ailments peculiar to women, it is very likely that Cardui will help you, in the way it helped Mrs. Lange and has helped thousands of others, during the past 40 years. Ask for, and insist on, Cardui.

First Guaranty State Bank vs Reuben Etheridge to foreclose lien, judgement for Bank.

Criminal Docket

The regular Criminal Docket will be called Monday, October 23rd. The following cases have been set:

Ed Mansell, murder, set for November 2nd and a venire of 75 men ordered. Walter Comer, rape, set for October 27th. Charlie Martin, murder set for October 27th, and venire ordered. Rice C Russell, murder set for November 6th and a venire of 125 men. This case is here on a change of venue from Harris County, the defendant being charged with killing his brother-in-law in the court house in Houston. At a former trial in Houston, Russell was given the death penalty, but on appeal, the case was reversed. W. D. Caywood, disposing of mortgaged property 2 cases, dismissed by District Attorney Wm Hayes, murder, set for November 10th and a venire of 50 men ordered.

Promptly upon opening court Monday morning, October 16th, Judge Bishop excused the jury for the week, no jury cases having been set

LIVELYVILLE ECHOES

# Buy Shoes that are as Good as They Seem to be

When you spend your money for shoes—get shoes that you know are good. Two shoes made by different manufacturers may look exactly alike and sell for the same price, yet there will be a tremendous difference in the amount of service each will give. Some shoe makers still persist in using paper and other substitutes for leather in the manufacture of their shoes and the man or woman who buys them, is the sufferer. It takes leather to stand the wear and tear of hard winter service and leather shoes cost no more than the other kinds. You don't have to guess about the shoes you get at our store—they're all leather

WHEN THINGS GO WRONG

When things go wrong as they will be certain to do many, many times in the best regulated and happiest lives, it does no good to anybody to fret about it. There is a homely old saw which illustrates a great truth: "The horse that frets is the horse that sweats."

Nothing will turn out just as you had expected it would, and you must be ready to take things as they come. What is the need of making everybody miserable because your new dress does not fit you as it should fit, or because you missed the train, or because it rained for the picnic, or because so-and-so was not so cordial as you thought they ought to be—in short, what earthly good does anybody gain by fretting about anything?

It is easy to preach, but it is not always so easy to practice, but if you keep constantly before you the indisputable fact that fretting never yet righted a single wrong, or made one human being happier or better, you will fall into the beautiful habit of making the best of everything.

We will have to come to it sooner or later. Houston county must have better roads.

Negroes are said to be distilling an intoxicating beverage from cotton seed. May be it's a new kind of cotton gin.

An anarchist agitator says there is a slow fire burning under America. Maybe that accounts for the exceptionally warm September and October we've been having.

Those bitter anti-Germans who insisted that the Kaiser must be punished will be interested to learn that he is going to marry a widow with five children.

You can kill the boll weevils, or at least greatly lessen their power of destroying cotton, by following the advice of the A. & M. College. Read the article printed elsewhere in this issue and get busy.

An Iowa man who has chewed tobacco for 82 years swore off on his 94th birthday. Probably figured that he'd better conquer the habit in his youth before it got a grip on him.

It is entirely unnecessary for the European papers to deny that Austria has a coalition government. It is perfectly obvious that Austria has no government at all.

We shouldn't look upon obstacles as disappointments. It is the dam that makes the stream a water power. Clear sailing in any enterprise does not develop your best abilities. Likewise, to be able to resist strong temptations develops strong characters. If we are never tempted our power of resistance becomes weak and often fails to serve us at the most critical time.

Retiring from public service at the age of 65 in order that he might gain some of the hopeful enjoyments of the declining years of his life, who can deny that Associate Justice Clarke of the Supreme Court is not wise in his decision? He says he wants time to read books, travel and to serve his neighbors and some public causes, things he had not time to accomplish during his busy career on the bench. Also it may be construed that Justice Clarke is establishing a precedent that when public officials attain that age in service they should step aside for the younger men.

Come to the FAIR!

Uncle John's Josh

THE POLITICIAN WHO AIRS HIS VIEWS SO LOUDLY - USUALLY HAS VIEWS THAT NEED THE AIR.

Richard Lloyd Jones tells About Ants, Elephants and Us.

ZOOLOGISTS, who, in simpler language, are the bug-ologists, after microscopically observing the habits and conduct of ants for years, bring us the interesting information that these busy little workers in the humbler world are by their own voluntary action the most moral of all living creatures.

The ant, they tell us, is so intelligent that we are justified in trying to describe its existence by a kind of allegorical comparison with human life.

Busy as are these minute little creatures, their females are scrupulously clean. Several times each day they better their appearance with combs and brushes. The mothers are the only ones that are allowed to eat all they want. All others, by their established law, must abstain from over eating and drinking.

Soldier ants protect both the young and those who care for the young. The mother ant is treated with all the deference of an empress.

The ants limit their sleep to just that which is their need of rest and they destroy the drone and all those who would attempt to over-indulge in leisure or luxury.

They have architects and engineers. They build houses and bridges to conform with definite plans. They have their agriculture and horticulture and have been observed to domesticate as many as 584 different kinds of creatures.

Wonderful is the story of the ant. Some of our scientists who are better zoologists than sociologists quote the old Hebrew saying of thousands of years ago, "Go to the ant, thou sluggard, consider her way," and suggest that there is much in the ant the man might well try to emulate.

Other scientists tell us to consider the elephant.

The Hindoo tells us that he gets good work from that giant creature only so long as he is good to it. Should he abuse or offend it, he would lose the elephant's willingness to work and he might lose his life by incurring the elephant's ire. To appease the elephant, the Hindoo always feeds it before he himself partakes of food.

That gentleness and generosity do much to gain good work, is the moral lesson the scientist hands to us as the result of these observations.

But who wants to be either an elephant or an ant? Who would want to emulate their ways, interesting and perhaps intellectual as they appear to be?

The elephant has none of the generosity for which the scientific observer pleads. The elephant says, "Feed me first or I am likely to get mad and kick the daylight out of you." There is nothing in that sort of a spirit worth emulating.

The ant is good to its own but it wars on every other creature that it cannot subdue and use. There is nothing so very big and magnanimous about that. What is more, outside of the grotesque trick elephants in the circus ring, no scientist has ever called upon us to see or hear an animal symphony, nor have they shown us an animal-made picture or gracefully formed statue. Has any one ever yet seen an elephant pause in rapture before a gorgeous sunset?

What eye at the microscope has ever seen an ant lay down its work upon its hill to hark to the song of the lark? Whatever are man's imperfections he is not only the research student, the truth seeker, but what is finer, he is the great appreciator. To be able to appreciate the wonders of the world—that in itself is living the higher life.

FAIR NOTES

The time is drawing near—only one week away. Get ready.

The Lawpa Fair at Augusta opens today and runs two days.

Charley Haltom says the slow mule race is going to furnish the fun.

Come to the fair October 27-28 and learn what your neighbor is doing.

The fair opens Friday morning, October 27, with a big street parade at 10 o'clock.

The poultry exhibit ought to be good. There are lots of good chickens throughout this community.

Mrs. S. E. Traylor and Mrs. W. E. Keeland want your old curios and heirlooms for the old curiosity shop. They will be taken care of and safely returned.

All farm product exhibits should be brought in Thursday, October 26, in time to get them in place for the opening Friday morning. Live stock and poultry can be placed early Friday morning.

Horse and Mule Races

C. L. Haltom is in charge of the races for the fair next week. He is exceedingly anxious to make this one of the attractions of the fair. If you have a good running horse or a slow running mule, see Mr. Haltom at once and make arrangements to enter them. The first race will be held Friday afternoon and the final between the four best horses will be held Saturday afternoon.

To get rid of worms in children give them White's Cream Vermifuge. The little sufferer improves at once and soon becomes healthy, active and robust. Price, 35c. Sold by Smith & Ryan.

TRINITY RIVER RIPPLES

Reynard, Oct. 16. Everything down this way is dry through and through except a few cotton bolls and late corn. The tension has been slackened a bit along cotton gathering. However, the water supply is plentiful except for the saw mill boys. They have built a dam and will have an abundance of water as soon as it rains. All signs are good for rain in a few days, and all farmers will soon be ready to go into business again.

C. C. Smith and P. L. Fulgham visited the Holstein farm one day last week and both purchased some fine hogs, and Mrs. Fulgham and daughters have purchased some fine chickens and we wish them success and commend them for the progressive step.

Our school is getting along fine and we commend our teacher in her effort to install a drinking fountain and other needed supplies, but it is a job to get some folks out of the old rut, and yet most folks like something new and sensational, unless it be a sure enough moss-back.

Mrs. G. B. Kent and Hazel spent several nights with G. B. on the farm.

Tom Clinton spent Saturday and yesterday in our midst.

Mrs. Tom Kent has the sympathy of all in the death of her father, and now she is real sick but we hope not serious. Her mother and Mrs. Kent are both with her and they make a good team and am sure nothing out side a trained nurse can equal

them. However, Mrs. Denton's health is not good.

Mr. and Mrs. West attended the wind up of the Dallas fair.

P. L. Fulgham had kin folks from Palestine a few hours yesterday evening, Clarence Everett and wife, Mrs. Pet Franks, Mrs. Eva Fulgham and little daughter, Mary Herbert.

Can't close without saying something about the Fair, am a fair man, and I am going to try and get all to go.

To remove bilious impurities in the system and be made internally clean and healthy, you need the fine tonic and laxative properties of Herbine. It acts quickly and thoroughly. Price, 60c. Sold by Smith & Ryan.

Clewis represents one of the best dye works in the state.

LAST week the New York police arrested a man and rushed him off to Bellevue Hospital to have his sanity looked into because he broke a whiskey bottle on Broadway, stood before the mirror in a shop window, proceeded to undress himself and started to shave—naked as the day he was born. They hustled him into a taxicab and in five minutes the crowd had vanished into the moving city throng. In the great city of Calcutta, if a native made a sudden dash for a suit of clothes, put them on, and stood in front of a window to rub some hair tonic on his face wooing a beard, they'd hustle him into a "ghurry," the Indian form of taxicab, and have his bean looked into. Geography is a strange study. East is east and west is west, and as you see the thing so it is—that is, so we insist it is, but is it?

poem by UNCLE JOHN

The Senatorial candidates have struck their smartest gait, an' hawk their wares on busted crates, all up an' down the State.

Contendin' voices rant an' roar, to warn us of our danger. . . . Nobody's honest any more CONFLICK—the Golden Rule's a stranger!

I reckon if we don't elect a rabid politician, we needn't ever much expect to better our condition. . . . And so—each candidate declaims in hate against the other, without a-callin' any names—that he's the Devil's brother.

I reckon that it's nip and tuck between contendin' forces—but I would sooffer pass the buck, than hear their crime-discourses.

Why can't we have two honest men, to run against each other—who'd serve the people now an' then, an' treat 'em as a brother?

It seems to me, that politics has got so awful rotten, that we'd be in a better fix with all of it forgotten!

Yours truly, Uncle John.

# HISTORY WAITS TO NAME FIRST WOMAN SENATOR

Georgia Governor Names Mrs. Felton but She Cannot be Seated. Hard-  
wich in Race to go to Washington Himself

## First Woman U. S. Senator is 87

Mrs. W. H. Felton, of Cartersville, Ga., appointed by Governor Hardwick to the U. S. Senate, is mighty proud of her honors. She is now 87 years old and is the widow of Dr. W. H. Felton who was a member of Congress for many years. Mrs. Felton successfully managed many of her husband's campaigns.

(Special to The Messenger)

By Robert Fuller

Atlanta, Ga., Oct. 15.—The First Woman U. S. Senator is not yet an actuality. "In name only" seems now to be the situation in which an elderly and noble Southern woman finds herself. She likely will never be sworn in—nor will she ever appear on the floor of the Senate. She has been handed an honor, but the string attached to it is so tight that history will have to wait before it can inscribe the first woman's name upon the Senate roll.

When Governor Hardwick, of Georgia named Mrs. W. H. Felton, 87 years old, of Cartersville, Ga., to the Senate seat vacated through the death of Sen. Tom Watson, women voters of this state and the nation rejoiced and praised the act which they felt was another step for suffrage. But their joy was short lived, when events showed plainly that ultra and selfish motives had been at work.

No one here doubts the splendid nobility of Mrs. Felton. She is a fine, high-minded noble-

spirited and patriotic woman. Her husband was for years a congressman from Georgia and she was his helper—in his campaign and at home.

### Governor a Candidate

The motive in naming her was not long in becoming apparent. Immediately after making a great fuss over naming Mrs. Felton, Governor Hardwick offered himself as a candidate to fill the Watson seat. The Senate is adjourned until after the November election when Georgia will elect by law a senator to fill out the unexpired Watson term. So there is no way Mrs. Felton could be sworn in—unless the Senate come here to her. There is no way she could even once occupy a senatorial seat—as there will be no session until a new senator has been elected by law.

Gov. Hardwick's naming of Mrs. Felton was not an appointment to serve. He merely named her as a legal filler of an appointment, not even as a sworn in officer.

### Women Criticize Harwich

The criticism which has come

from the women voters of the United States has caused Gov. Harwich to state that he will have Federal authorities here administer the oath. But would the honor go to one who is sworn in as a pure stunt hundreds of miles away from the august Senate chamber—and during a recess of that branch of our government?

Governor Hardwick may be elected to don the toga of the late Senator Watson. He may go to Washington ahead of Mrs. Felton as he planned, but his effort to make a "dayless" senator the "First Woman" is asking a great deal of future historians.

## Texas History and People Who Made It

### Austin's War Circular

On September 19, 1835, Stephen F. Austin issued a circular from San Felipe to all Texans advising war with Mexico. Prior to this time Austin had assumed the role, at least in a measure, of pacifist, and endeavored to hold in leash some of the more fiery spirits who were clamoring for war.

### Austin's Second War Circular

Stephen F. Austin sent urgent appeal to all citizens to seize arms in defense of Texas against Mexico, on September 22, 1835.

### Battle of Salado

Seven days after General Woll's sensational capture of the city of San Antonio, including the district court and its officers which was in session, he was signally defeated at Salado Creek when news reached Colonel Matthew Caldwell at Gonzales of Woll's exploits in San Antonio, he started with several companies of Texans to its relief. The two forces met at Salado Creek, six miles from San Antonio. Many Mexicans were killed and wounded. A company of Texans, numbering fifty-three, under command of Captain Nicholas Dawson, coming to join Caldwell, were cut off, surrounded by Woll's soldiers and all of them were either killed or captured. After this defeat General Adrian Woll abandoned San Antonio and returned to Mexico with some sixty or more prisoners. The battle occurred September 18, 1842.

### Captain Gillespie

Richard Addison Gillespie was a native of Kentucky. He came to Texas in 1837 and engaged in merchandising. Like all of the early pioneers he enlisted in service, and fought in the battle of Plum Creek in 1840. He became a lieutenant in Tom Green's company of Rangers in 1841 and joined the Somervell Expedition in 1842. He was seriously wounded in an Indian fight in 1844. Joining Hay's regiment in 1846, he was elected captain. Gillespie greatly distinguished himself at the battle of Monterey by leading a charge, capturing ten Mexican guns. He was killed leading a charge on the Bishop's palace, Monterey, September 22, 1846. His name is preserved in the county of Gillespie, named after him.

GEMS FROM PENS OF DEANS OF SCREEN'S BRIGHT SATIRE IS CONSTANCE TALMADGE'S LATEST

"In Search of a Sinner," at Star Theatre, Is Story About Too-Good Husbands

Epigrammatic screen plays are few and far between. But John Emerson and Anita Loos succeeded in adding a worthy example of this type to the month's screen library when they collaborated on "In Search of a Sinner," the new Constance Talmadge production that will begin a one day engagement at the Star Theatre Friday.

Probably more clever word-matter appears in "In Search of a Sinner," both in conversation and description, than in any photoplay of the current season. More laughs are forthcoming from the titles of the play than the usual light screen comedy gets from its most active scenes.

Georgianna Chadbourne is the character about whom Emerson-Loos, centered the play. She is a widow of twenty, her late husband being of a "saintly" nature, and entirely too good to live. She wears mourning for the exact period stipulated by social standing and on the emancipation day—kicks off the ties and heads for New York.

Once firmly entrenched in the apartment of her brother-in-law, Jeffrey, and his wife, she lays plans to look up all the wicked men in the "city without a soul" and if one of them is wicked enough to marry him

In all malarial countries the popular remedy is Herbine. People find it a good medicine for purifying the system and warding off the disease. Price, 60c. Sold by Smith & Ryan.

## Dad, Mother, Ironized Yeast for Rheumatism

Do You Realize What Ironized Yeast-Vitamines Will Do for Rheumatism and Lumbago?

Do you know that vitamines and iron are part of your very life? Do you know that the tissue-and-blood factory in your body needs these two materials, and needs them badly? Do you know that if your body factories does not get enough of these, that

"Whoop! Rheumatism Pains and Aches All Gone. Ironized Yeast is Surely Wonderful!"

queer poisons, joint poisons, muscle poisons, acid poisons are formed instead of the healthy flesh and the rich blood you used to have in days gone by? If you hobble in your gait, if pains distort your body, if bending over is an unbearable agony, if dull pains make you breathe heavily and usually do not crumble at the roughness of the way—smile sweetly, there is a rainbow ahead. Things are different now than they used to be, in the days of liniments, salves, complicated drugs, and all that—remember? The happy secret today is ironized yeast, one of the greatest body-and-blood builders of all time. Begin taking Ironized Yeast today. Beware of imitations and substitutes, because Ironized Yeast is not a mere combination of yeast and iron, but is yeast ironized, which is a substance all by itself. There is only one Ironized Yeast in all the world. Sold at all drug stores at \$1.00 a package and containing 60 tablets, each tablet sealed. They never lose their power. Mfg. only by Ironized Yeast Co., Atlanta, Ga. Say goodbye to rheumatism from now on!

### HIGH SCHOOL GOSSIP

Mulkey Owens and Louise Hague were absent from school Monday.

George Adair, Ray Norman Dave Nunn Leaverton and Gradon Shaver attended the state fair at Dallas last week and they are now busy telling about it to those that were not able to attend.

We were all "C" sick last week. (Got our report cards.)

Guy Ed Brewton lost his ancient history map book last week and there hasn't been any peace since.

Manly Jones was nearly asleep in the study hall one afternoon when Otho Brook's went to him and said, "You had better wake up or Miss Henderson will"—Just then Miss Henderson went to him and said, "Wake up, Manly."

Manly replied thinking it was Otho. "Oh, shut-up or I'll soak you one in the eye."

Wonder what the result was? "Oh, Death where is thy sting!"

Miss Berryman entertained the Sophomores in her room last Thursday after school. The reading of Lancelot and Elaine was the feature of the entertainment. A profitable time was reported by all who attended.

Bennie Watt's and Bessie Kennedy were absent last week on account of sickness.

The boys went to Waneta and played Basket ball last Friday and were victorious by a score of 48 to 26

The GrapeLand boys have a game matched with Lovelady on the 27th. Everybody come and yell for GrapeLand.

The boys will go to Augusta Friday during the fair and play the Waneta team.

The girls organized their basket ball team last Monday and will be ready to play during the fair on the 27th and 28th.

Starley Boykin had dengue fever all last week. He returned to school Monday.

### Storage of Sweet Potatoes

It is possible to store sweet potatoes for four months with losses from shrinkage and decay as low as seven and a half per cent, according to the department of agriculture. Thousands of small sweet potatoes storage houses built according to principles worked out by the department are in successful use in the South. Experiments showed that sweet potatoes stored in crates lost more through shrinkage than those in bins. Those in bins, however, decayed a little more than those in crates. When stored in bins under uniform conditions the "Southern Queen" variety showed the least decay, the "Porto Rico" and "Nancy Hall" were about equal, and the "Big Stem Jersey" decayed the most of these four varieties.

## A Seasonable and Timely Showing of Winter Underwear

About this time of year it feels fine to get into an inviting warm suit of winter underwear such as we are showing. It is a heavy knitted garment, but of soft twill, and we have reduced it specially for early selling at **\$.150**

You can buy these suits with long sleeves and higher neck. We know you will be delighted with the soft snug fit.

The highest form of thrift is to buy the things you need at prices that mean a saving to you. This line of women's and children's knitted underwear offers that kind of a thrift opportunity.

Children's Union Suits priced at **50c to 90c**

Ladies' Union Suits priced at **\$1.25 to \$2.00**

## Good Morning, Kiddies! A Warm Morning to you

Send them off to school, cozy, warm and happy in a suit of warm knitted underwear.

### PERCILLA NEWS

Percilla, Oct. 16.—Since our last writing the health of our town and community, as far as we know, has been about the same as usual, although our intermediate teacher, Miss Ruth Branch was sick enough during the past week to cause a little break in our school, but today finds her back on the job again.

Contrary to our expectations, we have not had as much dengue fever to the present as we have had the "moving fever." It now seems that all citizens have become rich and are going to move to the larger cities. Well, if you want to live in some large city and are not financially able, why all you like is just to come to our community and stay one or two years. Now don't take this as altogether an exaggeration. We are no gambler, but if our town can not show more of its citizens, including boys and girls, who have secured good jobs in the cities and more positions as teachers in the public schools of the State than any other town of its size in the State, why we will give the K. K. K. a feast on rabbits the next day following the next Houston county's fox hunters convention.

A Mr. Bray, who resides some where in this county, was here one night last week and made us a talk in the interest of the farm labor union. His speech was mighty good and well received by those present, but owing to the general stir and a supposed meeting of the K. K. K. the same night there were not many out.

Those moving to Palestine the past week were Charlie Hendricks and family which, we understand is to be followed by Walter Clark and family this week.

Miss Elizabeth Sullivan, who has been on an extended visit to her sister, Mrs. Artie Harris of Gallatin Cherokee county returned the past week, accompanied by Mrs. Harris and Mrs. Buddie Fitchett, of Palestine who is also her sister.

Mr. and Mrs. Willis Whitaker departed Sunday on a visit to Port Arthur, where the latter has a sister Mrs. Robert Sadler.

Most of our citizens are beginning to select their best chickens and primp their babies for the Augusta fair next Thursday and Friday.

Nothing better than Ruth flour at \$1.90. Fancy patent at \$1.75 at Howard's.

### W. M. S. Notes

The W. M. Society held their regular meeting on Tuesday afternoon at the home of Mrs. Geo. E. Darsey. Fourteen members were present. Mesdame J. R. Richards and Rena Dockery of this place and Mrs. Geo. S. Stott of Shreveport were our welcome visitors.

The society was opened with prayer by Mrs. B. C. Anderson.

After business session the Bible lesson was enjoyed by all. Great interest was shown in hearing the different reports from the "capsule" ladies and we hope to keep the interest growing among our church members.

The hostess served delicious banana cream with wafers as refreshments.

Mrs. Roy Brewton entertained the society on Friday afternoon with another "busy bee" quilting. A large majority of the members were there to do their part to the quilt and surely did so as two were completed at an early hour in the afternoon.

The hostess served refreshing lemonade and loaf cake.
