CISCO DAILY NEWS

Eastland County—Area 926 square miles; population 70,000; cotton, fruit, poultry, natural gas and oil; Cisco is headquarters for operators of the greatest shallow oil field in the world.

VOLUME VIII.

CISCO, TEXAS, MONDAY, JUNE 20, 1927.

NUMBER 90

WOMAN TO TRY OCEAN HOP

OLD HOME TOWN

W. J. Leach reported to police Monday that a light gray coat had been stolen from the porch at his home, 1000 West Tenth street, some time Sunday. The coat had a Shrine pin in its lapel, he said.

Chief of Police G. E. Bedford was wanted in two different courts Monday. He was summoned as a witness in the trial of "Teedy-Eye" Johnson at Baird, where his murder case had been transferred from Eastland county, and also at Eastland where trial of Kinney Bramble of Cisco, charged with theft over \$50 in the theft of the safe and contents from the Magnolia Filling Station here, was due to come up.

"Please kill my classified ad, offering a house for rent," said Mrs. H. E. Pyle, of 907 West Sixth street. "It only ran one time, but I have had so many seekers that it takes all my time to answer them. People surely read the paper."

Clyde Hamners former Interstate operator for the Daily News is back from attending the Texas Press association convention in El Paso, which is just this side of the Rio Grande river from Juarez, Mexico. He is nursing a bad case of hoarseness. Some of his friends say he got that way hollering "More Beer," but one or two of the editors returning through Cisco said the attack of laryngitis resulted from a private session in a certain hotel room in which he cried "I'll raise you" too many times for the good of his own voice and the welfare of some of his editorial friends.

Appointment of Mark Marshall of Chico, Wise county, as chief supervisor for the bus division of the state railroad commission, came as pleasing news to a number of Cisco people who know Marshall well. They declared he is a successful business man who is capable of giving the state able and efficient service in the newly created position he will occupy. They declared he is a man of keen business judgment and of broad mind, and impartial in all his dealings. Commissioners Terrell, Gilmore and Smith were being commended here on the wisdom of their choice.

EVANGELIST SAYS CURE WAS MIRACLE

A crowd estimated at 2,000 persons heard Rev. E. L. Wilkerson, evangelist, preach at the East Twelfth street Baptist church Sunday night. The feature of the evening was his recounting his "miraculous cure." The evangelist declared the doctors had given him up, and that he had not been able to eat anything for 24 days. He said he had been praying almost constantly when he was conscious and that suddenly the pain left him. He got up, took a bath and went home from the hospital, he said. The doctors declared his cure as miraculous as those in the days of Christ, the preacher concluded.

Extradition Hearing Set For Thursday

AUSTIN, June 20.—Acting Governor Barry Miller today set Thursday for hearing on a requisition of the governor of California for extradition of Harry Springate to answer charges there of grand larceny and embezzlement. Compton is said to be in custody at Dallas and Springate at Brownsville. Men are fighting extradition proceedings of illegal arrest.

SHOWERS AID CORN, LAWNS ON TWO DAYS

A heavy shower, measuring a quarter of an inch, fell here Sunday afternoon, coming on the heels of a high wind that cooled the atmosphere considerably. Another shower fell early Monday morning, making one-tenth of an inch. Cisco seems to be in the eastern edge of the rain belt, points east of here not sharing in the Sunday rain, while Baird and other points west got a good downpour.

The rain will be of particular benefit to corn, which is in a state that requires much moisture, while it will also aid other growing crops. Lawns in the city have benefited greatly from the recent rains, and most of them are green and beautiful.

LEGION WILL HOLD MEETING HERE TONIGHT

John William Butts post of the American Legion will hold what is expected to prove an important meeting tonight when details for carrying out the popularity contest being sponsored by the Legion will be discussed. J. T. Elliott, in charge of the contest, has announced that he has an important announcement to make to the members concerning the event, and that he wants a full attendance of members.

Negro Granted 30-Day Respite

AUSTIN, June 20.—Governor Moody today granted a 30-day stay of execution to Pete McKinney, negro scheduled to die in the electric chair July 15. The stay was requested by officers of Fort Bend county including the sheriff and district attorney on the grounds that McKinney is not absolutely of sound mind now.

Junior Epworth Classes Under Way

The Junior Epworth League summer class of the First Methodist church started with a good attendance Monday morning. Tuesday morning the class meets at 9 o'clock and for the remainder of the week at 9:30 o'clock, in order to cooperate with the chautauqua program.

Coolidge Wires His Praise to Veterans

EL PASO, June 20.—Maimed men of the world war from all parts of the country assembled here today for the national convention of the Disabled Veterans' association. President Coolidge sent a message from his summer home in the Black Hills in which he praised the work of the organization.

TAKES TOOTH FROM LUNG OF GALVESTON WOMAN

PHILADELPHIA, June 20.—Arriving here Saturday on a fast train from the west, Mrs. H. I. Davis of Galveston, Texas, was taken to the Jackson clinic at the Jefferson hospital, where a tooth was removed from her lung by means of a bronchoscope. The first attempt was successful.

KING SURRENDERS BELGIUM TO ROTARIANS

King Albert of the Belgians wending his way through a crowd to the Kurssal Casino at Ostend, where he formally welcomed American Rotarians to the world convention of the organization, and gave them the freedom of his kingdom. Arrow indicates the king.

CHAUTAUQUA TENT BEING PLACED HERE

Erection of the tent for the Cisco chautauqua was begun Monday in preparation for opening of the entertainment Wednesday afternoon. The tent is large and will accommodate a crowd of goodly proportions. It is being pitched on the vacant property at E avenue and Broadway.

Children who will take part in the Junior work of the chautauqua met for the first time Monday morning with Miss Alma Lynn, advance agent for the chautauqua. They spent an hour playing games and enjoying contests. Miss Lynn announced that the children will hold a parade through the downtown section Tuesday morning, meeting at the chautauqua grounds at 10:30 o'clock. She asked that the children come in costumes of whatever kind they choose, and that they all bring "something to make a noise." Miss Lynn announced that Mrs. George Fee of Cisco, who formerly was in chautauqua work, will take charge of the Junior work during the chautauqua, and that she will be cashier, also.

Barry Miller Acts As Texas Governor

AUSTIN, June 20.—The first official act of acting Governor Barry Miller today was to approve the \$10,000 bond filed by J. C. Anderson, newly selected state health officer. Governor Moody has gone north with a group of Texas boosters.

VETERANS TO BE FETED ON WEDNESDAY

All Confederate veterans and their wives of this vicinity will be entertained at U. D. C. park in south Cisco by the Daughters of the Confederacy Wednesday evening at 5 o'clock. It is announced. The park has recently been cleared off and put in an attractive condition for the entertainment. A special program is being arranged, including a concert by old fiddlers. It was announced that all who do not have a way to get to the park should telephone 56 and a way will be furnished.

Putnam Child Is Buried at Carbon

Funeral services were held at Carbon Sunday in charge of Rev. Thomas Lemox for Raymond Harold Harvel, two-year-old son of Mr. and Mrs. Harvel of near Putnam. The child died Saturday following an illness of several days.

Coach Chapman Back From Knute Rockne's School With Cheerful News For Cisco Football Fans

Coach W. R. Chapman returned home Sunday from Dallas where he attended a coaching school conducted by Knute Rockne, noted Notre Dame football coach, and brought back with him news of a cheering nature for Cisco football fans. Awaiting him on his return was a letter from Wilbur Brian, 200-pound backfield man, stating that he would be in Cisco "100 per cent strong" next fall to work out for a place on the Big Dam Lobos team. Brian started to work out last fall with the Lobos, but an injury forced him out. However, he attended the spring term of school here, and wrote that his parents were going to move here from Caddo before school starts.

Chapman also announced that Ernest Jenkins, for three years a star on the Leonard high school football team, has arrived in Cisco and expects to work out in football in the fall. Jenkins played end with the Leonard eleven, and is also a good center at basketball. He is expected to make a valuable man for the Lobos, replacing, if necessary, Andrus, who played these same positions in basketball and football the last year. Andrus' parents have moved to Abilene, but he is still eligible for the Lobos eleven next fall should he choose to return here.

Chapman said there are several other excellent prospects who may come to Cisco next fall. These boys, who would be eligible at almost any West Texas school, are as yet undecided as to where they will go, although favoring Cisco. Abilene had been attracting considerable attention, but since a change in coaches has been made for next fall, it has been pointed out to the prospects that Abilene is unlikely to make much of a showing this fall, since a new coach always has a difficult task his first year at an institution getting a line on his material and introducing his own system of playing. For that

BYRD PLANS HOP OFF AT NIGHT HOUR

NEW YORK, June 20.—Commander Byrd today said he hoped to hop off from New York for Paris Tuesday or not later than Wednesday. He plans to hop off about 6 o'clock in the evening instead of at dawn as done by Lindbergh and Chamberlin. He said that starting at night would enable him to land in Europe during the day time.

MANY CROSS LAKE BRIDGE HERE SUNDAY

The Lake Cisco bridge was thrown open to traffic for the first time Sunday afternoon, and several hundred automobiles took advantage of the event. The highway leading to the bridge had been closed since the bridge had been completed, owing to the lowering of a water main. This work has now been completed and the roadbed graded, thus opening up the highway across the lake. However, the road is not yet open to Moran and Albany. Right-of-way for the highway across the Groves land, a distance of a mile and a half, has not yet been secured, and the road has not yet been graded there. An effort is being made this week to get the right of way, so that the road can be opened by July 22, the date of formal opening of the highway and Lake Cisco projects.

The Lake Cisco Bathing Beach was not opened as planned Sunday, the engineers being afraid the concrete at certain points in the pool was too green to withstand the great pressure of the water. The workmen were released earlier than usual Saturday, when it became known the pool would not be opened, and so all the concrete was not set. A small portion of floor, the various steps, a wall at the lower end, and footings for the huge roller coaster slide were yet to be poured Sunday. A force of men were at work Sunday clearing out the pool. The floor is being swept and it is likely a fire truck will be taken out to the pool to sweep the floor before the water is turned in.

TAX CUT NOT TO BENEFIT SMALL PAYER

WASHINGTON, June 20.—Congress will hand the American people a Christmas present in the form of about \$300,000,000 next December, treasury officials predicted today. While the definite announcement is possible before Secretary Mellon returns from Europe in the fall, it is certain a substantial cut is due. Under Secretary Ogden L. Mills and a corps of experts will study the tax situation during Mellon's absence, and will have a report on which the secretary will base his annual report to congress by September. While the small taxpayer will get little direct benefit from the cut, the whole country will benefit through a reduced overhead of all business, it was said. The government will find itself with more than \$800,000,000 than it needs for current use, all of which will be devoted to reduction of the public debt and therefore, cutting interest.

Putnam Revival Holds Interest

L. P. Kopp of Cisco, district evangelist for the Christian denomination, is conducting a revival meeting at Putnam this week. A number of Ciscoans attended services there Sunday, and a special effort to take a large crowd there Tuesday night will be made. The meeting is reported as progressing satisfactorily, with large crowds nightly. Mr. Sparks of Snyder, son of a minister, is in charge of the singing, and is said to have created especially great interest among the children who have formed a children's choir.

Noted Russian Aviatrix Will Fly From New York in Three Weeks; to Have Rome as Final Destination

NEW YORK, June 20.—A woman—Madam Phillip, Russian aviatrix—plans to fly across the Atlantic ocean within three weeks, she said today. Rome is her goal and she will fly alone. "What a man can do, a woman can do. I am confident I can make it," she said. Madam Phillip became widely known through her Berlin to Paris flight in 1913 under her maiden name of Luba Galanschikoff.

British Make Counter Proposal To U. S. Naval Reduction Program; Both Sides Seek Big Advantages

VIENNA, Austria, June 20.—The two American airmen, Clarence Chamberlin and Charles A. Levine rode through the streets of Vienna in state today. Accompanied by United States Minister Washburn, the two fliers went to the government palace where they were received in audience by Premier Seitel, who gave them a warm greeting in the name of the Austrian government. Mayor Seitz of Vienna entertained the fliers at an official dinner tonight, and President Hainisch will entertain them with a luncheon some time this afternoon. The president will present each of the fliers with a golden medal for service.

VIENNA IN TRIBUTE TO AMERICANS

VIENNA, Austria, June 20.—A concrete proposal designed to eliminate the last vestige of naval competition of the great powers was laid before the Geneva arms conference today by the American delegation. The plan, boiled down was that the 5-5-3 capital ship ratio be extended to cover all remaining classes of fighting craft. The American proposals were immediately followed by British and Japanese suggestions. Great Britain suggested a 11-point program about reduction in weight and armament of capital ships. If the American plan were adopted and if the limit of cruisers were fixed at 300,000 tons and destroyers at 250,000 tons, the United States would have to scrap approximately 62,000 tons of vessels of either the cruiser or destroyer type, or 80,000 tons of vessels now being completed.

MANY HEAR HANKS TALK ABOUT CROSS

With all the seats taken and many cars parked around the place of worship, L. L. Hanks delivered an interesting sermon Sunday night at the Church of Christ revival now in progress. "The Thief on the Cross" was the subject, and the preacher explained with simplicity an apparent contradiction of the scriptures. Services will be held tonight at 8:15 o'clock, and the pastor will answer questions on the Bible asked him from the congregation. The subject for tonight will be "Heartfelt Religion." The services will continue through the week, tomorrow night's subject being "What the Scriptures Teach Regarding Instrumental Music."

\$200,000 Road Contracts Due

AUSTIN, June 20.—Contracts involving expenditure of more than \$200,000 will be awarded today by the state highway commission for completion of road projects in Galveston, Taylor, Hardeman, Hill and Willacy counties. This morning was spent in tabulating bids.

Coolidge to Spend Summer At Work on New Farm Aid Measure Planned to Pacify Westerners

RAPID CITY, S. D., June 20.—President Coolidge, according to all indications, will leave the Black Hills of South Dakota this fall with the draft of a farm relief bill in his pocket which will satisfy a large number of farmers of the west. Summering here in the heart of the region that fought so hard for the McNary-Haugen bill with its price fixing features, the president apparently has already won over many leaders of this section. The first Senator Norbeck, South Dakota political leader, who voted for the McNary-Haugen bill. The president's summering here will probably make it difficult for him to oppose the Coolidge bill at the next session of congress. President Coolidge will probably confer here with a large number of agricultural leaders.

The industrial east and south are regarded as "in the bag" by the Coolidge managers insofar as the 1928 convention is concerned. It is this region that has to be won over and to do they believe. Congress agricultural relief is expected to come in for a big play before summer is over.

THE FRENCH ATTITUDE

France takes an American aviator to her heart and makes a respectable demonstration of good will toward America. France is making elaborate preparations to welcome the American Legion and convince our war veterans that she admires them and appreciates fully the war contribution made by them and their country.

STANDARD DRIVES

"The Dodge Drive is Different." Remember that line which used to appear so handsomely on billboards and in newspapers? And what is the Dodge drive now? In the new cars the drive will conform to the method used by most other cars.

WE KNOW A FEW MORE, TOO

Mr. Mencken of the American Mercury is all worried because the dull and mechanized newspaper of today has made of the journalist a white-collared slave. "A racy and original personality was once his chief asset; it is now as dangerous to him as it would be to be a Cistercian brother."

VICIOUS TEAS

They are having a dreadful time with tea in Tunis. The natives have become so addicted to the beverage that they are giving wild tea parties often lasting all night. According to a French authority, their excessive indulgence in this supposedly mild beverage is wrecking the drinkers' nervous and digestive systems, impoverishing their blood, producing a general enfeeblement, causing eye troubles and diminishing the birth rate.

BETTERING DIPLOMATIC SERVICE

The problem of the United States diplomatic service remains unsolved. Promoting career men in the service has been the recent practice and is generally recognized as a decided improvement over the older method of giving those important jobs to politicians. But the career method has its faults, too, for which a remedy is now sought.

of the main areas of diplomatic interest would provide the necessary foundation knowledge of local customs, conditions, modes of thought and racial characteristics. But the selection of the men who must make important decisions must often be made among men with larger experience than the professional diplomat seems to acquire.

THREE CROSSINGS

There is a community which has three dangerous grade crossings within a small area. One of them is guarded by semaphores, bells and lights. It has had no accidents in 18 years. The second used to be the scene of numerous accidents. Two years ago a semaphore and bells were installed, and there have been no accidents since then.

The president should pin a medal on the chest of the man who has discovered that an automobile muffler will work on a saxophone.

CUTE LITTLE MURDERS

A woman threw down her newspaper the other evening and declared despairingly: "Isn't it awful! All these murders! Do you suppose the world was always so bad as this?"

Plans For Motorcade Being Laid Finally

Complete and final plans for the West Texas chamber of commerce motorcade to the resort section of the Davis Mountains and to the scenic spots of Eastern New Mexico will be made here early this week in a conference between Manager Homer D. Wade of the regional organization and its publicity manager E. H. Whitehead.

Gas Plant Burns Down At Gordon

RANGER, June 20.—The Lone Star Gas company's plant at Gordon, Texas, 10 miles east of here, was destroyed by fire about 11 o'clock Saturday night. The cause of the fire has not been determined. The loss is estimated at more than \$10,000.

Then and Now

Years ago one Walter Haagen became interested in golf as he passed a link on his way to pitch for a Rochester, N. Y., ball team. Thereupon baseball lost a good pitcher, and golf gained Walter, now Haagen. Pictures show him when he first came into prominence in 1914, when he won a national open title, and as he looks today, a \$100,000 a year professional. He has held every pro golf title in America and England, but today, experts say, he's past the climax of his career.

Years ago one Walter Haagen became interested in golf as he passed a link on his way to pitch for a Rochester, N. Y., ball team. Thereupon baseball lost a good pitcher, and golf gained Walter, now Haagen.

FOUR MAKE BOND IN TEXAS MASKER CASE

MARSHALL, Texas, June 20.—The four men arrested here Thursday in connection with the flouting of four white persons early Saturday night were released from the county jail, having made bond in the Justice Court.

Cain Anderson is free under \$1,500 bond in each of four charges.

D. Osborne, tenant on Anderson's place, was released on \$250 bond. He was charged with carrying a prohibited weapon.

Ohio Bruhn and Tom Weems were liberated under bond of \$1,000 in each of four cases.

Four charges of violation of the anti-mask law have been lodged against Anderson, Bruhn and Weems.

The grand jury will be in session through Tuesday at least, in continuation of a careful investigation of the floogings.

Adjutant General Robertson has telegraphed that the rangers sent here to assist in the case will continue their work here until he calls them in.

\$110,000 HOTEL WILL BE BUILT AT MENARD

SAN ANGELO, June 20.—Erection of a three-story brick veneer hotel will begin at Menard within a short time, according to information received here. The structure will be located on the main street, facing the American Legion park. The hotel is to be erected by Mrs. H. F. Green of Mineral Wells. She is the daughter of W. P. Bevans, pioneer Menard county ranchman and banker. Citizens of Menard subscribed a bonus of \$18,000 toward the construction of the building. It will cost in the neighborhood of \$110,000.

Announcement I am opening a General Repair Shop, and will buy and sell Second-Hand Furniture. See us first.

30 WEST GIRLS AT BELTON COLLEGE

BELTON, June 20.—West Texas is the home of thirty-three girls who banded themselves together at Baylor College in the fall of 1926 so that they might become acquainted and acquaint others with that great prairie land.

The girls from the cow country chose Helen Watson, Fort Stockton, president; Marguerite McColin, Haskell, vice-president; Altha McAdoo, Fort Stockton, secretary and treasurer. Pictures of the West Texas Club members are in the Blue Bonnet year book of Baylor College.

Other members are: LeVone Baker, Breckenridge; Gussie and Wanda Watson, Ozona; Estella Robertson, New Castle; Willie Mae Reid, Ruth Rainey, Ruby Grant and Willie Mae Barber, San Angelo; Eula B. May, Sybil and Virginia Myers, Olney; Edna Bennett, Fort Stockton; Edna Poes, Pecos; Maurine Alvis, Roby; Louise Rankin, Abernathy; Lola Lander, Mertzon; Elyrs Sparkman and Bernice Lewis, Coleman; Thelma Lee and Helen Norman, Vera; Sutherland, Marfa; Viva Humphreys, Tulaha; Bessie Mae Humphreys, Cleburne; McDonald, Kerrville; Charlene Densguy, Christoval; Marjorie Whiteaker and Melba Sue Bledsoe, Haskell; Argye Mary McCandless and Christine Hearn, Eastland; Glenn Richardson, Cisco.

PICTURES WILL SHOW GIRLS OWN FAULTS

Austin, June 20.—Among the new equipment planned to be installed in the woman's gymnasium of the University of Texas for use during the coming long session will be a silhouette graph, according to Mrs. Jennie Schaeffer, head of the department of physical training for women during the summer session.

The silhouette graph will be used to take posture pictures of women students, said Mrs. Schaeffer. Heretofore, one of the instructors in the department has sketched posture pictures of the girls from their shadows. With the new machine, however, pictures may be made much faster and more accurately.

Posture is an almost all-important factor in the physical well-being of a girl, according to Mrs. Schaeffer, but until she sees an actual picture of herself it is extremely difficult for her to correct her faults. Classes in corrective work are given in the physical training department, and after the pictures are made, the girls are assigned to the class which will best correct their defects.

117 Attend School Held By Rockne

DALLAS, June 20.—One hundred and seventeen athletic coaches and prospective athletic coaches representing colleges and high schools in Texas, Arkansas, Oklahoma, Missouri, and Louisiana attended the two weeks coaching school which closed at Southern Methodist University June 18. Kante Rogne of Notre Dame and Walter Meanwell of the University of Wisconsin conducted the school, which, according to Dr. R. N. Blackwell, business manager of S. M. U., is but the first of a series to be held annually.

Five members of the S. M. U. champion football team, including Gerald Main, John Roach, Ross Love, Stanley Dawson and Chris Cortemeglia, were used in making up a demonstration eleven.

Berlin to Frisco Flight Proposed

BERLIN, June 20.—Plans for a Berlin to San Francisco flight with a brief stop at New York were announced today by Herr Koencke, a German pilot. Koencke plans to fly an all-metal plane driven by two Wright motors and will carry a radio operator and two passengers, as well as a considerable quantity of mail. The route planned is a southern one over the Azores.

Women, You Need Strength

Beaumont, Texas.—"When I was visited to try Dr. Pierce's Favorite Prescription, after all the other remedies which I had used for feminine weakness had failed to benefit me, I was just about past going. But I suffered so much. I began taking the 'Favorite Prescription' and in a short time was feeling as well as I ever in my life, and I am still enjoying it."—Mrs. Mary J. Hall.

SCHWAB, STEELMASTER, TURNS TO LIFE ON FARM

Charles M. Schwab, mighty steelmaster, is thinking of retiring from business to occupy himself on his 1,200-acre farm at Loretta, Pa., and is getting the place in order. Photos show the lawn before the mansion, and Mr. Schwab guiding a tractor. The chairman of the board of the Bethlehem Steel Corporation calls his farm, "Impergrun."

Former Ciscoan, Back From China Tells Wierd Tales of Celestials; Says War With Orient Be Massacre

T. F. Wiesen, connected with the Cisco chamber of commerce in 1920, left Sunday afternoon for Fort Worth after a visit with K. H. Pittard. Mr. Wiesen has but recently returned from China where he is employed by a large American corporation, and is on his way to New York to confer with officials of the company before returning to China next September. Mr. Wiesen went to China as a school teacher, but gave up this work after, he said, he became discouraged at the conduct of schools there. The students, he said, are bolshevistic in nature, rebelling at the slightest provocation.

He related some wierd tales regarding the Chinese. At one time, he said, a school child became tangled in a huge fly wheel of an engine, and was battered to a pulp before the machine could be stopped. Instead of being terror stricken, the other pupils began to laugh merrily. Wiesen, greatly surprised at their behavior, asked why they were laughing at such a tragedy. "We're just glad it wasn't us," came the reply.

The Chinese as a whole are what Americans would call "dumb," Wiesen said. He declared that in the event of war between the United States and China, it would not be a war but would be outright murder. "It would be just like making a rabbit drive and knocking the rabbits over with sticks," he declared. "Some American can whip a whole army of Chinamen. They believe that they should not kill a person who does not fear them, but if a person runs from them, they consider it their duty to kill him."

Wiesen said China is the greatest country in the world for graft. Everybody grafts, from the lowest coolie to the highest official, he declared. "They don't call it graft."

Most Nurses Use New Face Powder

MELLO-GLO, the new wonderful French Process Face Powder, is preferred by nurses because of its purity, and they say it does not make the skin dry and drawn. Stays on longer, keeps shine away, and is very beneficial to the complexion. You too will love MELLO-GLO when you use it. Corner and Elliott Drug Stores.

FACES DEATH TO SAVE LIVES OF THREE HORSES

BORGER, June 20.—Out of the panhandle oil field comes a strange bit of heroism. Three brothers, J. B. J. M. and J. W. Anderson, teaming contractors, were moving a sheet iron-roofed house with trucks

Twin Brothers Dual Captain

Donald and Douglas Hyde, Appleton, Wis., twins, are both track stars so they've been elected joint captains of the team at Lawrence College for 1928. They participate in the same events and finish closely together, making it hard for the judges.

and six horses. Just before dusk they started under the high line from Electric City to Borger, carrying a current of between 12,000 and 15,000 volts. The sheet metal roof scraped the wires. Three horses were electrocuted and the current was so strong it burned their hoofs into the ground and melted the lead chain. One brother was knocked from the trucks.

While the sparks still were showering from the dead animals, J. B. Anderson ran in and unhooked the chains, releasing and saving the lives of the other three horses. None of the brothers were injured except for a violent shock.

CONTRACT FOR MIDLAND HOTEL WILL BE AWARDED

MIDLAND, June 20.—Contract for the new Scarborough hotel of 150 rooms and 150 baths will be let June 30. The bids were opened on June 21 to accommodate several bidders. Work will be pushed night and day to complete the hotel to handle the oil men who contemplate living in Midland.

Dr. Ghormley Says:

Seven people out of every ten need glasses, but 7 out of 10 do not wear glasses. The wearing of glasses merely signifies the superior intelligence of the wearer, who recognizes a condition and avails himself of the scientific advancement of the age in which he lives. HAVE YOUR EYES EXAMINED

Ford Celebrates With Three Most Famous Automobiles

Production of Fifteen Millionth Ford Car Marks Another Chapter in American Motor History.

EVERY day is a big day in the life of Henry Ford, but three of his days in particular have been tremendously important historically to all the rest of the world. There was that day away back in

Yesterday and today in motor car history. Lower picture shows the three most famous Ford cars—the first built, built by Henry Ford in 1903, the first Model T, built in 1908, and the fifteen millionth Ford. In insert, Henry and Edsel Ford.

the early 'nineties, when he chugged forth upon the streets of Detroit with his first "horseless buggy."

There was the day in 1908 when he introduced the first of the Model T Fords.

Then there was that day—just a few days ago—when, with his son Edsel at the wheel, he rode the fifteen-millionth Ford automobile off the assembly line at the great Highland Park plant.

est associates foresaw that the long line of descendants of that first Model T Ford would revolutionize automobile manufacture, and perhaps more than anything else in the development of paved roads, and place the automobile within the reach of almost every family in America.

supervised the assembling of the fifteen-millionth motor and stamped upon the motor block the number "15,000,000."

When the entire car had been assembled, Henry Ford and his son Edsel, who is president of the Ford Motor Company, drove it from the Highland Park plant to the administration building of the company at Dearborn. There it was met by Mr. Ford's first automobile, the old "horseless carriage" and by the first of the long line of model-T Fords.

The true significance of the first of these three days was apparent to no one at the time. To be sure, the noisy jerky little horseless carriage was the first automobile Detroit had seen and, for that matter, one of the first three the world had seen. But to observe it was just a curious sort of freak vehicle—a toy. Even Henry Ford himself had not yet dreamed of the tremendous development of automobiles that was to follow in its wake.

Likewise, he was unaware of the importance of that day in 1908 which saw the advent of the Model T Ford car. Automobile manufacturers were multiplying by that time; the automobile already had passed the plaything stage and was showing promise of becoming a factor in transportation. But only Henry Ford and a few of his close

But on that late spring day in 1927, when the fifteen-millionth Ford car came off the assembly line, the whole world knew it was a day of days in the history of the automobile and of American industry and life in general.

On the day before, the Ford Motor Company had issued an official announcement that a new Ford automobile "superior in design and performance to any now available in the low-priced, light car field" would be introduced during the present summer. The announcement meant that the fifteen-millionth Ford marked the beginning of another long line which may play an even greater part in providing improved transportation for the masses.

While news and motion-picture cameras clicked, Henry Ford drove his little gas buggy of the early 'nineties around the area where the three most-famous motor cars in history had met. Also he talked in his characteristic manner to newspapermen and others who had gathered.

Mostly he talked of that little old first car.

On the day before, the Ford Motor Company had issued an official announcement that a new Ford automobile "superior in design and performance to any now available in the low-priced, light car field" would be introduced during the present summer. The announcement meant that the fifteen-millionth Ford marked the beginning of another long line which may play an even greater part in providing improved transportation for the masses.

The completion of the fifteen-millionth car was the occasion for a celebration in the Ford organization. Eight of the men who helped to build the first Model T motor and who are now executives of high rank in the organization,

himself. However, the tentativeness was without the general's advice and consent.

And he is going to run again. Oh, dear, this is so sudden on us demagogues and everything!

The Russian party in power has reduced the majority against it by two more unfortunates.

Temple, Texas, rules that bees are a nuisance inside the city limits. Handsome is as handsome's buzz, so to speak.

Chang Tso-lin is referred to as the ex-ambid. The ex is complimentary croix de guerre.

NEW Feed Mill

The Bankhead Feed mill is now in operation, manufacturing all kinds of Poultry Feed, under the name of "Bankhead Poultry Feed."

Our products are made to maintain the quality of Eastland county poultry, which has made this county the "Egg Basket of Texas." We want every poultryman to try our products, remembering that we are an Eastland county institution, owned and financed by Eastland county capital. Our prices will be in line with those of competitors.

We are able to manufacture feed for farmers or poultrymen according to any order or specification. The Cisco Grain Co. are distributors for the Cisco territory. See them for prices.

We cordially invite your inspection of our mill. "Open House" all the time.

Yours for the better development of Eastland county resources.
