PLANES HUNT MISSING FLYERS

West Texas Meet Today Starts Water Fight

Captain Erwin Plans to Hop Off Today in Zig-Zag Course To Honolulu Hunting 2 Ships

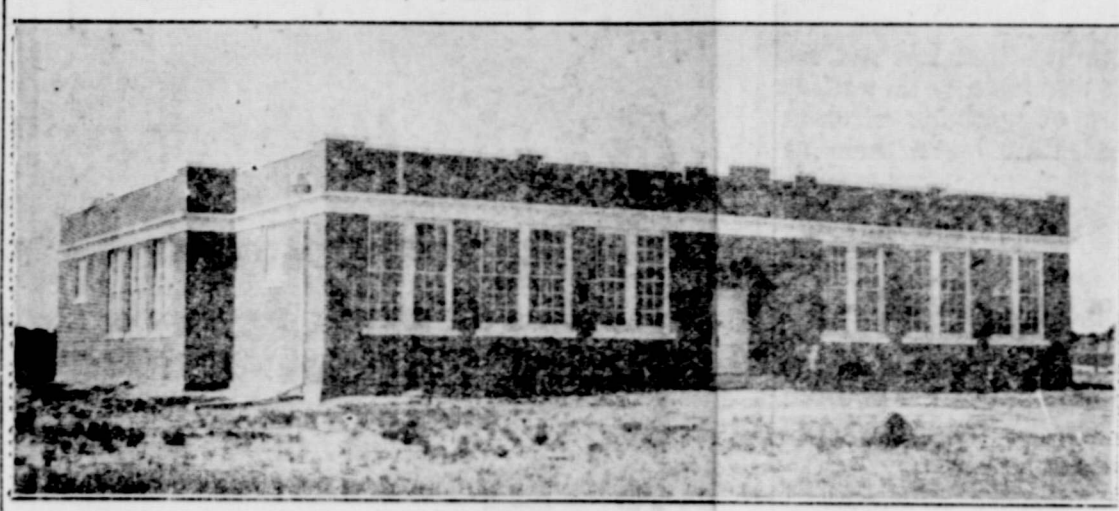

OLD HOME TOWN

J. O. Ashinghurst of Cottonwood shopped in Cisco Wednesday. He says they are not needing rain especially, though a good rain would cause people to sow fall turnip patches. He said: "Cotton is fairly good. I think the hot weather is hindering the boll weevil in his work on the cotton. Showers now would aid the weevil and cut the crop short. Feed is very good, maize is very heavy and cane patches are yielding much feed. A few people have planted cane for syrup and this is now being made up. The quality of syrup already made is exceptionally good and sells readily for 90 cents to \$1.25 per gallon."

FARMER RIGHT TO USE WATER EMPHASIZED

ABILENE, Aug. 18.—Determination of West Texas to fight to retain its water rights for the use of farmers and municipalities was the keynote of the open forum meeting sponsored by the West Texas chamber of commerce here today. Speakers at the morning session declared the fight was on. Among the speakers was Judge C. L. McCartney of Brownwood, and Dean T. U. Taylor of the engineering department, University of Texas. Both McCartney and Taylor insisted that no fight was being waged on the state board of engineers or on the Syndicate Power company of Dallas, but that justice was being sought. Resolutions it was indicated will be passed overwhelmingly were that the state board be not censured for the permit granted, but that they be asked to rescind the permit and reopen the matter. At the afternoon session the resolution was to come up for adoption. Dean Taylor declared this was the most momentous water meeting in Texas history and ended his speech dramatically by singing: "The Eyes of Texas Are Upon You," the crowd leaping to its feet and joining in.

Scranton's Handsome New High School

The new brick high school recently completed at Scranton to replace a building which was destroyed by fire. An effort may be made to make this a consolidated high school to serve the whole territory southwest of Cisco.

San Marcos River Pollution Brings Charges by State

AUSTIN, Aug. 18.—Charges of pollution of the San Marcos river and its tributaries was filed against the Golden State Oil Co. today. C. C. Cox, manager of the oil company, was named in the complaint, which was filed by J. R. Smith, chief of the natural resources division of the state game department. Smith, who returned today from the Luling oil field, declared conditions there were very bad. "Waste oil is permitted to flow into streams, causing pollution," Smith said.

New Scranton High School May Inspire Consolidated District Where Model System Will be Used

Scranton's recently completed new high school building, built of brick and of attractive architecture, may prove the inspiration that will lead to making it a consolidated high school, serving a wide area southwest of Cisco. This is the belief of Pete Brummett, well known Scranton citizen, who recently gave his views on the subject. Scranton, Mr. Brummett said, is situated in the midst of a densely populated section, and is surrounded on all sides by small rural schools. It is his plan to have these schools join in with Scranton and create a real school system. Scranton's new building might serve as the high school, and the present schools would be used as ward schools, teaching subjects up to the high school grades and then sending the larger children to the consolidated high school. Scranton, Dan Horn, Nimrod, Atwell and one or two other school districts could well afford to join in the plan, he asserted, since by uniting their resources, the schools could employ the very best teachers available, both for high school and grammar grades. This would result in keeping at home many of the children of high school age who go elsewhere to school, adding expense to their schooling, Mr. Brummett said. This plan is in operation at several points in Texas, particularly in the Fairview school district in Wichita county. A well developed system of schools has been obtained there, with an excellent faculty and good buildings afforded. A "teachery" or rooming and boarding house for all the teachers in the schools is operated by the school district, and busses carry pupils from the more distant points to the schools.

STATE HOLDS CLUB FORMED FOR GAMBLING

AUSTIN, Aug. 18.—Quo warrant proceedings were instituted in the 53rd district court today seeking to cancel the charter of the Hollywood Country club of Galveston, charging it was organized for gaming purposes instead of for golf. W. N. Arnold, an attorney of the attorney general's department, joined the club in order to obtain evidence on which the suit is based. Gateway Calhoun, assistant attorney general, filed motion with Judge G. R. D. Drell of Galveston to have the operator of the Hollywood Dinner club cited for contempt for permitting gaming after the club had been closed.

PORTUGUESE ASK U. S. TO SAVE SLAYER

WASHINGTON, Aug. 18.—The Portuguese government through the charge d'affaires here has made representations to this government in behalf of Celestino Madeiros, the convicted murderer, who is scheduled for execution with Sacco and Vanzetti, it was admitted today. The president of Portugal has addressed a communication to President Coolidge pointing out there is no capital punishment in Portugal and that the Portuguese people would not understand if Madeiros is electrocuted.

OAKLAND AIRPORT, Aug. 18.—In an effort to find "The Golden Eagle" and the "Miss Doran" airplanes which are believed to have been forced down at sea in attempting to win the Dole prize for a flight to Hawaii, those planes which failed to get away yesterday were preparing to take to the air today. Among these was Captain William P. Erwin and his navigator, Alvin Eichwald, who planned to get away on a sweeping zig-zag course to Honolulu in which they hoped to locate the missing planes. Charles W. Parkhurst, pilot of the "City of Peoria" which was disqualified in the Dole flight, announced he would start a 1,000-mile flight in search of the missing contestants. Meanwhile, warning to ships across the Pacific flight line was being broadcast by radio stations, asking that search for the planes be pressed. Mechanics worked on Erwin's plane all night and soon after daylight had completed installation of a radio sending and receiving set purchased from Major Livingston Irving's plane. While preparations were being made to get Erwin into the air, Griffin, pilot of the "Oklahoma," announced that Kenneth Bodecker, motor expert of the Wright Motor company, had promised to get a new whirlwind motor for him today. Griffin was forced back when he started from the airport. The new motor is on the way to the field, Griffin said, and can be installed in three hours. He will attempt to get off this afternoon in a rescue cruise.

where in the Pacific five of the flyers have gone down, dampened their spirits. James Dole, who gave the prize, was among the anxious watchers. With the arrival of dawn, the search of Hawaiian waters for traces of the two missing planes got under way with renewed intensity. Both planes were equipped with flares, but no report of seeing them had been received. Both the Golden Eagle and the Miss Doran are well equipped with signaling devices and food supplies.

ALL VESSELS JOIN IN HUNT FOR FLYERS. SAN FRANCISCO, Aug. 18.—Between California and Hawaii, all coast shipping agencies threw their full services into an effort to locate the two missing Dole planes. Radio stations along the shore frequently quizzed the ships at sea, urging vigorous search for the flyers. Commercial vessels augmented a squadron of naval vessels which are already making a search of the course to Honolulu. The irplane carriers, the Langley and the Aroostook, were hurrying to the course, bearing ten planes which will be launched at sea for the search. Six army planes from Crissey field will also take off for the search. The fact that the two planes were last seen off the Farallones Island near the Golden Gate inspires the army planes to believe they may be able to find the planes.

39 WAR VESSELS JOIN IN SEARCH FOR PLANES. WASHINGTON, Aug. 18.—Thirty-nine war vessels are scouting the Pacific ocean in search of the two lost planes. The ships are strung out over a great area from San Francisco to a point near Honolulu and are making the search under direction of Admiral Jackson, in command of the battle fleet, aboard a destroyer 600 miles from Hawaii. The airplane carrier Langley carries 28 land planes, enabling her to make a widespread search. The Aroostook carries four planes.

ANXIETY FOR MISSING DIMS JOY OF WINNERS. HONOLULU, Aug. 18.—With two of the Dole planes believed down at sea, Art Gobet, pilot of the Woolaroo and Martin Jensen of the Aloha, winners of the \$25,000 and \$10,000 prizes for first and second in the 2,400 mile race, had no heart for their honors today. The welcome of all Hawaii could not compensate them for their anxiety over Annie Pedar, Miss Mildred Doran and Vilas Knop, in one plane and Jack Frost and Gordon Scott in the Hearst Golden Eagle. Anxiety was felt everywhere over the island, dampened the jubilation that had been felt for the flight. No one, however, was more concerned than William F. Malloska, Flint, Mich. oil man, and banker of the Pedar-Doran flight. Malloska, confident that the Miss Doran would win the race, came to Honolulu to personally welcome them. Today, however, he was a broken man. He stood watch on Wheeler field from early morning till late last night. As no word came, Malloska wilted into despair. In terrible contrast to the happy meeting of the giant throng that crowded Wheeler flying field yesterday streaming thousands, were the small groups of solemn faced watchers who gathered on the field today. The thought that some-

NEW RUMOR OF NUNGESSER IS BEING TRACED

WASHINGTON, Aug. 18.—The U. S. Coast guard today ordered the destroyer Shaw to proceed from New London to a point about 150 miles from Cape Charles where incoming passengers reported a broken airplane wing floating on the water. The wing was reported to be white tipped, as was Captain Charles Nungesser's plane "White Bird."

First Radio Court Action is Filed

WASHINGTON, Aug. 18.—The first criminal action by the newly created radio commission was ordered today against Station KWKH of Shreveport, La., charged with disregarding wave length assignment.

WEATHER FORECAST Cisco and vicinity: Tonight and Friday, generally fair.

Cold Storage Plant and Warehouse For Cisco Boosted By George Fee; Airport Also Arouses His Interest

"Cisco is an ideal location for a large cold storage warehouse, and I should like to see steps taken to organize some sort of company or corporation to construct one here," declared George E. Fee, assistant cashier of the First National bank Thursday. "A cold storage plant here would be a great boon to the farmers of this section, making it possible for the Bankhead association to store poultry products at times of low prices and hold them until better prices are obtained in the fall. It would also make possible development of a great dairy industry here, and would mean more than any other one thing to the full-rounded development of our country and dairying possibilities. That there is good money in a cold storage plant and warehouse is exemplified by the great plants now in operation over the coun-

CISCO ATTENDING WATER CONFERENCE

Among those attending the Abilene meeting are Mayor J. M. Williamson, R. Q. Lee and J. E. T. Peters, secretary of the chamber of commerce, who were armed with resolutions passed by the Cisco chamber of commerce endorsing the stand of the West Texas chamber of commerce on the water question.

CISCO CHURCH STARTS MEET ON SATURDAY

An open air revival is to begin at the Cisco church of Christ, corner of Eighth street and H avenue, Saturday evening. It was announced today. The meeting will continue through August 31. C. J. Robinson, evangelist from Fort Worth who conducted a successful revival at the church here last year, will return to be in charge of this year's revival, preaching at 10:30 p. m. and 8:15 p. m. The song service will be in charge of J. E. Meroney of Ranger.

CISCO SCHOOL VALUES GROW BY \$322,859

Cisco independent school district taxable values show an increase of \$322,859 over those of last year, according to figures compiled by S. J. Vaughan, business secretary of the city school board. Total values for 1927 reached \$8,701,430, as compared to \$8,408,571, the figures showed. Of the 1827 total, \$6,221,121 was on the rendered roll while \$570,309 was unrendered.

BATTLE CREEK BRIDGE BEING OPENED TODAY

Several Ciscoans went to Moran Thursday to attend formal opening of the new bridge just completed across Battle Creek, serving the people of Pueblo. The bridge was built by the county commissioners' court, members of which were expected to be present at the opening. Guy Dabney, president of the Cisco chamber of commerce, was on the program for an address. Others from Cisco who went were Alex Spears, cashier of the First National bank, and R. L. Poe, a director of the chamber of commerce.

Editor Speers of Breckenridge American and son, George, were in Cisco Wednesday on business.

ROTARY TOLD ESSENTIALS FOR BUSINESS

Dr. J. C. Curran, head of a business college in New York and lecturer of note, spoke to the Cisco Rotary club Thursday noon on improving one's business. Dr. Curran's talk created such an impression that arrangements were made to have him deliver a longer address at the city hall here next Tuesday night. Dr. Curran emphasized courtesy, thoughtfulness and consideration of the customer as three essentials to a successful business career.

TOWN PLANS BIRTHDAY

PERRYTON, Aug. 18.—Perryton will celebrate her eighth birthday anniversary on August 22 and 23, when she will be host to thousands of visitors and citizens of Ochsler county. An elaborate program of entertainment is being worked out. Miss Beulah Mae Alexander of Breckenridge is visiting her cousin, Miss Etta Mae Gunn.

THIRD BALE OF COTTON SOLD HERE

Opening of the deep water section of the Lake Cisco Bathing Beach will take place here Sunday. Manager P. G. Berry of the Lake Cisco Amusement company announced Thursday. Deep and fancy diving will feature the day, using a 52-foot diving tower which is now in course of construction. Construction work on the lower part of the pool is now practically completed, with only a part of the north wall and some flooring to be laid. This is expected to be completed in time for turning the water in Saturday night in order that the opening may be had on Sunday. The new section of the pool, in course of construction since the first part was opened about July 1, ranges in depth from 6 to 12 feet, with the greater part of this section 12 feet in depth. A big spillway has been built at the lower end of the pool, making it possible to have fresh water running through the pool at all times. The entire pool will be filled with fresh water for Sunday's opening, and arrangements for carrying for a large crowd are being made. The first part of the pool already opened is 400 feet long, and the lower section will be 200 feet long, thus completing the 700-foot swimming pool and making it the largest in the world, according to bathing beach experts.

State Will Erect Distance Markers

AUSTIN, Aug. 18.—Several thousand markers, or signposts, will be erected along Texas highways at a cost of near half a million dollars, according to plans announced by R. S. Sterling, of Houston, chairman of the state highway commission. The commission spent part of a day's session in studying designs and types which may be installed. Each marker will furnish travelers with such information as to the distance to various towns and the routes which may be taken, Sterling said.

Lake Cisco Bathing Beach Being Completed This Week; Deep Water Will Be Formally Opened Sunday

Amusement Co. Capital Raised

AUSTIN, Aug. 18.—F. D. Wright of Cisco, attorney for the Cisco Amusement Co., has filed an application with the secretary of state for an amendment of the charter of the company increasing its capital stock from \$15,000 to \$100,000. The amendment will be approved as soon as certain details have been adjusted, it was stated by Judge R. J. Randolph, assistant secretary of state.

Nanking Threatened With Bombardment

LONDON, Aug. 18.—The commander of the northern army on the Yangtze front has sent an ultimatum to the Cantonese demanding surrender of Nanking today and threatening bombardment in event of refusal, according to a Central News dispatch from Shanghai.

You Can Now Eat Cheaper Than in 1926

WASHINGTON, Aug. 18.—Retail prices were four per cent lower in July, 1927, than in the corresponding month in 1926, the bureau of labor statistics announced today.

Americans Warned Against Chinese

WASHINGTON, Aug. 18.—A warning to Americans not to return to the interior of China, as many of them are reported contemplating, was issued this afternoon by the state department.

Oil Field Worker Killed in Crash

NOCENA, Aug. 18.—Pending instructions from relatives in Philadelphia, the body of Jack Henderson, killed in an automobile wreck last night was being held by an undertaker today. Henderson was employed as field boss by the E. L. Smith Oil company. He was alone in his automobile at the time.

WOODWARD MAY SEEK PLACE OF BLANTON

AUSTIN, Aug. 17.—Politicians who declined the use of their names "at this time" said Tuesday that State Senator Walter C. Woodward of Coleman likely will run for congress next election.

They said his candidacy virtually is assured if Thomas L. Blanton, incumbent from the district, decides to try for United States senate. Mr. Blanton already has announced that he is contemplating such a move.

Friends of R. Q. Lee of Cisco have offered him as a candidate for the place if Blanton does not run for re-election.

REV. STUCKEY GETS DIVORCE AT AMARILLO

AMARILLO, Tex., Aug. 17.—Following a hearing in chambers late yesterday, a divorce was granted Rev. Lewis N. Stuckey, pastor of the Park street Methodist church here, from his wife, Mrs. Jewell Stuckey, it became known today. The case had been called for Monday, but the nature of the testimony expected to be developed during the trial was such as to cause Judge G. G. Edwards to postpone the hearing. The pastor had charged his wife with adultery.

Stuckey has held pastorates of leading churches in Cisco, Abilene and other Texas cities. The court made no disposition of Stuckey's adopted child, but Stuckey declared this morning he believed he would be awarded custody. The child is at present with Mrs. Stuckey's sister on a ranch. Mrs. Stuckey's plea for alimony was denied, but the common property of the couple was divided. Rev. Stuckey accused his wife of improper relations with other men and she retaliated with charges of harsh and cruel treatment and physical imperfections.

Texas Weather In July Below Normal

HOUSTON, Aug. 17.—It might not previously be accepted as a fact, but July weather in Texas was 2 of a degree below the state normal, according to H. L. Danzer, field meteorologist, who has just finished computing average temperatures, rainfall and related matters in connection with the monthly weather report.

The monthly mean temperature, the record shows, was 82.7 degrees as indicated by figures at 172 recording stations. The highest monthly mean was 88.2 at Fort McIntosh and the lowest was 75.6 at Dalhart. The warmest place on any one day in July was 110 degrees at Clarendon on July 19 and the lowest on any day in July was 52 degrees at Denton on the fourth. The monthly range within the state was 5 degrees and the greatest daily range was 43 at Clarendon on the fourth.

Precipitation, however, was .16 of an inch greater than the state normal and average 2.77 inches for the month at 216 reporting stations. The greatest monthly amount was 9.52 inches at Honey Grove while there was none at Floresville. Carrollton led in amount of rainfall in 24 hours with 6.52 inches on the fifteenth.

Fifteen days were clear, the weatherman found, 12 were partly cloudy and only four were cloudy while wind blew hardest at Dallas and at Houston where it attained a velocity of 54 miles per hour on the first and eighth respectively.

STEPHENVILLE TO WAGE FIGHT UPON WOLVES
STEPHENVILLE, Aug. 17.—Efforts are being made to organize Erath county for concerted action in ridding the section of predatory animals that prey upon sheep, goats, turkeys and chickens here. Representatives of the United States department of agriculture and bureau of biology have been in Stephenville conferring with business men and farmers in regard to this work.

By E. H. VARNELL
Cisco Vocational Agriculture Expert

Fifty products from one farm, each of them bringing at least a small income, is the record of U. G. Kinard, seven miles southwest of Cisco, during the past year. In this assortment we are including field, garden and fruit crops. Some of these are very small but each crop produces something of some value, something for which many of us pay cash. In fact, Mr. Kinard estimates that if he had to buy everything he has produced for his family needs during the past year a salary of at least \$8 or \$10 per day would have been required. For the past several years Mr. Kinard has followed the practice of growing his family food supply, and feed for his livestock, in addition to several money crops. It is his idea that the one crop system is very poor and that the average farmer will never succeed if he tries to buy everything he needs from the proceeds of one or two crops.

For the past several years Mr. and Mrs. Kinard have kept from three to six cows, from which they have sold many pounds of butter. "During our best month we sold 136 pounds of butter from five cows," stated Mrs. Kinard. "Our average for the past several years has been from 15 to 20 pounds per week. We sold over 400 pounds during these months, two years ago," she further states.

Mrs. Kinard has produced some 300 chickens which constitute quite a lot of their food supply and add considerable money income. When the prices for fryers is not satisfactory they are canned for future use. Several meat hogs each year and canned beef add further to the home meat supply. The beef is canned as steak, roast, chill and soup stock. Chickens are fried or canned with chicken soup. In fact, the steam pressure canner and sealer has played a large part in cutting expenses on this farm. They have paid for themselves time after time. They have a splendid reserve supply of food stored in their cellar. This supply, at the present time, includes the following: Canned peaches, peaches, jellies, cucumber pickles, corn, tomatoes, mixed pickles, chow-chow, best pickles, dewberries, sorghum syrup, English peas, grapes, juices of grapes, berries and plums, kraut, blackeye peas, plum butter, grape and berry jam, tomato preserves and catsup.

For his money crop Mr. Kinard has 20 acres of cotton, several acres of cane to be made into syrup, and several small truck crops. He expects to make from 100 to 200 hundred gallons of syrup and has tomatoes, melons, etc., to sell from time to time. Mr. Kinard was the first president of the Cisco Livestock Marketing association and has sold most of his surplus livestock through the association. He is a firm believer in diversification.

GOLDTHWAITE BUILDING NEW CHEESE FACTORY

GOLDTHWAITE, Aug. 17.—The first unit of a series of contemplated cheese factories to be established over Texas is under construction here. Ground has already been broken on the factory site, which was donated by the city, and work is being rushed to completion. The plant is being built by the Texas Cheese and Butter company, of Fort Worth, at the cost of four thousand five hundred dollars. The factory will perform all the operations necessary for making common cheese, except the curing process which requires 90 days and which will be done at a central storage plant at Brownwood.

GRASS LAND NOW VINEYARD

COMANCHE, Aug. 17.—An acreage set almost solid in Johnson grass, and which had seen no cultivation for three years in succession, is now producing \$90 worth of grapes to an acre for a Comanche county farmer. In August, 1925, J. B. Alcorn, with a handful of cuttings and a heart full of hope, set the vines which were to become the basic stock of his vineyard, five miles east of Comanche. By the spring of 1926, he had 4000 vines on fourteen acres of land. Today those vines are well fruited with grapes and promise at least 50 bushels per acre in yield. Four hundred and fifty bushels in orders have already been booked, and daily inquiries from buyers are received in addition.

17-YEAR-OLD TEXAN TEACHES IN COLLEGE

ALPINE, Aug. 17.—A college instructor at 17 is the record of Horace W. Morelock, Jr., son of President H. W. Morelock of the Sul Ross college here. Young Morelock first attracted attention when he finished high school at 13 years of age. He received his bachelor of arts degree this spring from Sul Ross college and is instructor at South Texas Teachers' college at Kingsville. The town claims that he is the youngest 1927 college graduate and perhaps the youngest graduate in the Lone Star state of all time.

Normal human blood is too thick to be drawn through the mosquito's small piercing tube. They must first inject a thinning fluid. In that way disease germs are set aloft in the blood stream—bacteria of burning fever and crippling disease. There is also the danger of streptococcal infection (blood poisoning) from scratching the bite. Mosquitoes must be killed. Health authorities advocate Fly-Tox. GRAND OINTMENT MAKES PIMPLES AND BLOTCHES GO

Ever since the introduction in this country of the wonderful Black and White Ointment, and Skin Soap, skin specialists say that such troubles as pimples, blotches, bumps, rash, tetter, eczema, "breaking out," etc., are becoming fewer every year. Wide distribution of Black and White Ointment, and Skin Soap, has made it possible for millions of people to get the benefit of this wonderful, quick effect in clearing disfigured skin and making it smooth and good to look at. Dealers everywhere say they are selling faster than anything of a similar nature they have ever handled, and they attribute this popularity to the low prices at which the year sold, as well as their dependability. The 50c size Ointment contains three times as much as the 25c size.—Adv.

GORMAN HIGH ANNOUNCES ITS FACULTY

GORMAN, Aug. 18.—The faculty for Gorman public schools has been completed and most of the teachers are available for the opening of school. The tentative date has been set for September 12 and with nothing in the way school will open on that date. The faculty is mostly teachers who have taught here for one or more years and are all well known to our folks. B. E. Glamery, superintendent, J. M. Mason, principal of the high school, and Misses Adelle Welch, Della Wall and Denn Meyer and C. O. Brazz, athletic coach, comprise the high school faculty. The grade faculty is: J. H. Cooper, principal, and Mrs. Moorman and Mrs. Robertson, and Misses Fannie Locker, Ila Welch, Viola Dover, Bettie Mae Jackson, Joe Foote and Alma Hughes. Their places have not all yet been assigned but most of them know what they will have to handle the coming year.

BANKHEAD POULTRY ASSOCIATION INVALUABLE

SNYDER WANTS AFFILIATE WITH EASTLAND CO.

R. T. Jones, truck farmer, dairyman, chickens and turkeys, who lives at Snyder, Comanche county, was in Cisco last week in the interest of having his community club join the Bankhead Poultry association of Eastland county.

Mr. Jones says his club can command some 2,000 hens and can meet with all requirements of the association. He says this alignment will about double the price they have been able to get without this membership. They are selling their eggs for about 12 cents per dozen, while he finds the Bankhead is paying its members 21 cents.

This community has also organized a Sweet Cream club, which sells its output to a creamery at Hico. Before this organization was effected, these farmers were selling their butter and sour cream independently and without very much return. They formed their club, bought ice boxes and secured the cooperation of the ice plant at Comanche, which sells them ice at 50 cents per hundred weight. A truck brings them the ice to Snyder and takes back a load of sweet cream to the ice plant, which is the assembly place from which Hico creamery takes the output. This cooperative plan has already, in a short time, had the effect of turning more farmers' attention to the dairying business, which consumes what had always been a feed surplus for which there was no market. They feel that this has resulted in a double good for them. Aside from the profit arising from the sale of sweet cream, it enables them to market their feed through their cows.

Now that they have solved this problem, they have turned their eyes to their poultry problem. The news of the success of the Bankhead had reached Snyder and so now Mr. Jones is very anxious to align their club with it, so that they may reap their share of its rewards.

"All communities must have their organizations else they will never be able to secure markets," said Mr. Jones.

DAN HORN

Mrs. O. N. Lasater and some returned to their home at Hornsby Tuesday after a ten day visit here with relatives and friends.

Miss Thelma Maxwell of Okra visited her uncle, J. G. Stuteville here last week.

The protracted meeting which began at the Mitchell church Friday night, August 12, is continued on through this week. Bro. Alexander is doing the preaching, great interest is being taken in this revival. Quite a few from Cisco, Nimrod and the surrounding community are attending.

Mr. and Mrs. Jake Morris visited Mr. and Mrs. J. D. Speagle and grandma Oliver Friday.

Among those who were guests of Mr. and Mrs. Ellis Pass Sunday were Mrs. W. A. Lasater and children, Mrs. R. C. Pass of Cisco; Mrs. O. N. Lasater and boys, Rev. and Mrs. John Moore and children and Mr. and Mrs. S. B. Baird.

Willie, Maurice, Clinton, Keith, Mildred and Rastus King of Paris, Tenn. spent last week with their grandmother, Mrs. W. M. Wood.

OLDEN

Claud Leclair is home from his two weeks' visit in Westbrook.

Pastor J. N. Stone of Sweetwater is holding a meeting at the Church of God with W. V. Barnett and wife of Fort Worth as his assistants.

Mr. and Mrs. M. A. Lewellyn motored to Fort Worth Sunday on business.

Loez Lewellyn is leaving Wednesday for Haskell, Texas, where she will spend about two weeks with relatives.

Mrs. W. C. Crone, who is in the Eastland sanitarium, is improving nicely, and also the little son, Billie Lee.

Mr. and Mrs. Hubert Russell are Olden visitors this week.

Mrs. F. M. Cox left Tuesday for her home in McCamey.

Tom Lee Fox left Sunday for a few weeks vacation in McCamey.

Mrs. Allen Ellison and daughter, Ruby, are expected home today from their visit in Coleman.

DOTHAN

Mrs. Ray Blackstock has returned from a visit to her mother at Gatesville.

C. W. Bostick was in Willis Point last week on business.

Clifford Yeager has returned from a trip extending over several states.

Mrs. Ketchum and her daughter and son-in-law are visiting Mrs. Fannie Mundy.

Mr. and Mrs. Allen Carey spent Sunday with Mr. and Mrs. J. F. Jones.

Reeds constructed of cast iron plates with a slightly corrugated surface are being tested in France.

MARY HAD A LITTLE LAMB

Thomas A. Edison made his first radio speech on the fiftieth anniversary of his invention of the phonograph. And into the air, from Llewellyn Park, N. J., he spoke again the first words to be registered on a talking machine; the first verse of the nursery rhyme about Mary and her little lamb!

CHEVROLET

Consistent Progress and Proved Design—have resulted in the most **Amazing Quality** in Chevrolet History!

The vast resources of General Motors and the tremendous manufacturing facilities of Chevrolet have made possible this amazing quality at amazing low prices.

GENERAL MOTORS

The Chevrolet Motor Company is a unit of the General Motors Corporation—the greatest automotive organization in the world. Utilizing the vast resources and engineering facilities of this organization, Chevrolet enjoys, to the fullest extent, these manufacturing advantages—a fact that is largely responsible for Chevrolet's amazing values.

PROVING GROUND

The General Motors Proving Ground, comprising a tract of 1245 acres, is located at Milford, Michigan—forty miles northwest of Detroit. The entire tract is crisscrossed with roads of every type—from a concrete speed track, to deep-rutted clay lanes. There are hills that vary in steepness from a slight inclination to 24%. Fleets of Chevrolet cars are under constant test at the Proving Ground—driven day and night under every conceivable condition of road and load.

12 GREAT FACTORIES

Chevrolet cars are manufactured in 12 great factories, located at strategic shipping points throughout the country. Every factory is equipped with the most advanced modern machinery known to engineering science—performing every manufacturing operation with scientific precision and maximum efficiency.

Today's Chevrolet embodies the most amazing quality in Chevrolet history—the result of 14 years of consistent development and improvement.

In carrying out this policy of consistent betterment, the Chevrolet Motor Company has profited immeasurably from its close association with the General Motors Corporation—the world's greatest producer of automotive products.

The General Motors Research Laboratories, under the direction of the most famous scientific staff in the automotive industry—

- the General Motors Proving Ground, the greatest outdoor testing laboratory in the world—
- the General Motors engineering staff—
- the vast General Motors resources—

—all have been constantly utilized in making Chevrolet the world's finest low-priced automobile!

Regardless of the car you may now be driving, regardless of when you expect to purchase your next automobile—come to our showroom and see today's Chevrolet.

One inspection of its custom beauty, one ride at the wheel of your favorite model—and you will know why thousands of automobile buyers are investigating the market each day... and turning to Chevrolet!

SIBLEY WELL MAKES RANGER SPIRITS SOAR

RANGER, Aug. 15.—A revival of the oil fraternity in Ranger has been quite noticeable in the past week. This is due to some great extent to the coming in of two splendid producers in the Sibley tract, 8 miles south of Ranger, Sibley No. 4 of the Mook-Texas company, and Sibley No. 2 of the States Oil corporation, one making around 1650 barrels daily and the other a little better than 800 barrels, an to some encouraging reports from the Gordon pool northwest of Ranger, where the Ramsayer No. 4 touched the pay last week, and is making both oil and gas in strong paying quantities.

It is also due to the fact that general conditions look better. A number of locations have been made in this and adjoining counties in the last week or ten days and others are contemplated.

There are four new locations in the Sibley pool. The Panhandle company has made a location on the South Hightower, some 200 feet west of Webb No. 2, which came in a month ago for a 55 barreler at a depth of 1199 feet.

About one and one-half miles north of the Gordon pool Moorman-Tharpe No. 1 is showing some gas at 1700 feet.

The Texas Fidelity Oil corporation is drilling around 1000 feet on its deep test well on the Lipe near Lacasa and the Prairie Oil & Gas company made a location in the Proctor ranch north of Caddo Prairie in moving in on the lease and the well will be drilled by Donley & Chastain of Ranger.

H. L. Singleton, representing the Shaw interests, was in Ranger Friday and that company is preparing to make a location 12 miles southeast of Ranger on the Allen ranch. About 14 miles southeast of Ranger a rig is up on the Cage ranch.

OIL DRILLING

R. H. Lightfoot, Mrs. M. E. Cleveland No. 2, section 19, abstract 684, Brown county, Kraber survey, total depth 1680 feet; small producer, 5 to 10 barrels in gray lime from 1946 feet to 1673 feet.

Amerada Petroleum Corp., John W. Harris No. 142, section 9, J. Sanders survey, Coleman county, intention to shoot, and statement after shooting.

Ira Rhinehart, Tom French No. 1, section 50, B. B. B. & C. Ry Co. land, Callahan county, intention to plug; total depth 1343 feet.

Valley Oil Co., H. H. Ramsey No. 6, section 31, D. & D. A. land, Callahan county, intention to plug; total depth 790 feet.

The Teas Co., Roy Hickman No. 21, section 883, Thomas Benson survey, Brown county; 1320 feet, dry.

Humble Oil & Refining Co., Roy Hickman Nos. 20 and 21, Thomas Benson survey, Brown county, total depths 1222 feet and 1218 feet, 20 barrels and 9 barrels, respectively.

Milham Corp., Warren Estate No. 1, David Thomas survey 801, Callahan county, intention to plug.

White Eagle Oil & Refining Co., J. O. Hall No. 1, section 1, T. P. Ry Co. survey, Callahan county, plugging record; well plugged.

The Texas Co., Roy Hickman No. 20, section 783, Thomas Benson survey, Brown county, plugging record, well plugged. Roy Hickman No. 21, section 783, Thomas Benson survey, Brown county, well record. Roy Hickman No. 19, section 783, Thomas Benson survey, Brown county, well plugged. Mrs. Fannie Lowe No. 85, block 622, George Stubblefield survey, Brown county, well record.

County School Board to Meet

The annual county school trustees meeting will be held in the eighty-eight district court room Saturday, August 20, beginning at 9:30 a. m.

These meetings have been held regularly for the past three years and have grown in attendance each year.

William Eilers from the state department of education, Austin, will address the trustees. Dr. Cron, president of the Eastland school board, will make the opening address. G. C. Daniels, chairman of the county school boards will make a talk on the conditions of rural schools. R. F. Holloway of Ranger will talk on cooperation of the independent and rural schools.

NOTICE!

GORMAN BOY FOUND SHOT; DEATH HOVERS

GORMAN, Aug. 17.—Arland Clements, about 20 years old, son of Walter Clements, farmer, residing four miles east of Gorman, was found about 6:30 Tuesday morning at the home of his parents suffering from the effects of a gunshot wound in the region of the heart. An empty 22-caliber rifle, which showed signs of having been recently fired, was found nearby.

Young Clements was rushed to the sanitarium at Gorman where physicians and surgeons are making every effort to save his life. Little hope is entertained for his recovery, however.

The principal of the Junior high school in Marion, Ohio, in order to avoid the necessity of running from room to room when he wishes to make an announcement, has had the entire building wired and equipped with loud speakers.

Breckenridge Girl Killed in Car Smash

BRECKENRIDGE, Aug. 17.—Frieda Ray Dalley, 3-year-old daughter of Mr. and Mrs. F. C. Dalley of Breckenridge, was killed in an automobile accident on East Walker street here Monday night. The child's throat was badly cut by broken windshield glass. Mrs. Dalley, mother of child, and Bob Dalley, 20, are in a hospital suffering from injuries sustained in the accident. Helen Dalley, four years old, escaped uninjured.

The accident took place when another roadster collided with the roadster in which the Dalley family was riding.

The six childless presidents of the United States were Buchanan, Washington, Madison, Jackson, Polk and Harding. Buchanan was the only bachelor.

Dr. Ghormley Says:

Seven people out of every ten need glasses, but 7 out of 10 do not wear glasses. The wearing of glasses merely signifies the superior intelligence of the wearer, who recognizes a condition and avails himself of the scientific advancement of the age in which he lives. HAVE YOUR EYES EXAMINED.

GROSVENOR FIELD RIVALS TRY POOL

Development in the new field south of Grosvenor and northeast of the Fry field continues active, with new locations being made and rigs moving in.

Forest oil corporation, whose No. 7 M. L. Smith, is the largest well in the field thus far, has its No. 8 Smith drilling at 600 or 700 feet, and No. 9 is spudding in. Forest corporation is also starting wells on the Davis and Moore tracts, northeast of the Smith, both these sections offsetting the Texas Co. well now drilling on the Davis.

Phillips Petroleum Co. is raising up on the Spelman tract, offsetting M. L. Smith tract on the east, and half a mile east of production.

E. L. Smith oil company and the Smilock Petroleum company have moved in on the southwest corner of a 60-acre M. L. Smith lease, and are also drilling in the northwest corner of the south 50 acres of the Algie Moore tract.

Among other operators now drilling or moving in, in addition to addition to Selby Oil & Gas company with its production on the Ellis, are Sinclair Oil & Gas company, Roxana Petroleum corporation, Cranfill & Reynolds, and Rex Tex Oil company and Py-Tex Oil company.

SPEEDING UP THE MAILS!

Five hundred miles at sea mail is to be dropped on the liner Leviathan on August 21. Lieutenant Clarence H. Schildhauer will attempt the feat as a test of the practicability of speeding up the mails in that manner. He's shown taking off in his FN type navy plane.

Abilene Gridsters Open Training Work

ABILENE, Aug. 17.—Under the capable tutelage of Captain Altman Smith more than a dozen prospective candidates for the Abilene high school Eagles football squad are limbering up every evening behind the "old school house" at 9:15. Captain Smith suggests that all those who can should come out and get the "feel" of the elusive pigskin before the actual training season starts.

The program in the evenings consists of punting and passing with several old regulars and many new men taking part. While it is to be determined how the material will line up for the coming season indications are that Abilene will have another good team entered in the league this year.

SUDAN GRASS AIDING CHILDLESS DAIRY MEN

CHILDRESS, Aug. 17.—Idle pastures are being converted into Sudan grass fields for milk profits in Childress county. Dairy farmers of this region have learned that one acre of Sudan grass equals about 20 acres of native grass as a milk producing food, and are sowing the

For 9 Years Gas Ruined Her Sleep

"I had stomach trouble 9 years, and gas made me restless and nervous. Adlerika helped so I can eat and sleep good." — Mrs. E. Touchstone. Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.—Tomlin-Young Drug Co. Adv.

plant to make their pasture yield the greatest return. At the present time it is being planted in rows and cultivated during the growing season. The increase in Sudan acreage here is concurrent with the impetus given to dairying in this region.

Star Parasite Remover

Given in water or food kills chickens and turkeys of intestinal worms, disease parasites, blood-sucking Lice, Mites, Fleas, Blue Eggs; improves their health, reduces disease, increases egg production. Eggs hatch better with stronger young chicks.

Tomlin-Young Drug Co.

Football paid the University of Pennsylvania \$314,950 during the 1926 season.

EGGS EGGS

If your hens are wormy or sapped by blood-sucking Lice and Blue Bugs they will lay very few eggs; will be weak and subject to disease. Give them Star Parasite Remover in their water or feed; it will rid them of these pests. Improve their health and reduce disease and increase egg production or money back.

CISCOANS TO CONFER WITH ROAD BOARD

The road situation as regards to Cisco and Eastland county will be discussed at a conference with the state highway commission at Austin shortly after September 1. It was announced at a meeting of the chamber of commerce directors Tuesday night. Division Highway Engineer J. B. Early of Abilene was in Cisco Tuesday and agreed to attempt to make an arrangement with the highway commission for the Cisco committee, it was said. Details regarding completion of Highway 23 will probably be taken up, and some definite program for carrying out the work will be formulated. President Guy Dabney, W. J. Armstrong and W. W. Wallace were named as a committee to go to Austin for the conference.

ENCAMPMENT ARRANGEMENTS NOW COMPLETE

Arrangements for holding the Christian encampment at Lake Cisco the two weeks beginning Saturday night are practically complete. It was reported to the directors of the chamber of commerce Tuesday night. The land has been cleared, necessary buildings have been erected, and tents are reported en route to care for the meeting place and the campers. Lights are already available and water is to be piped to the grounds before the encampment gets under way. A cafeteria is to be conducted by the Lake Cisco Amusement company at a nominal price, and concessions in price have been made to the campers for use of the swimming pool.

HIGHWAY BODY TO KEEP FUND DETAILS

AUSTIN, Aug. 17.—"Every dime" spent by the State Highway department after Sept. 1 will be accounted for and listed separately, charged to its proper fund. Commissioner Gene Johnson said today. He said the new system of auditing, which includes eight high speed tabulating machines capable of subtraction, addition, multiplication, division, listing and sorting, will eliminate all "leaks" and will keep a minute record, available at all times on a minute's notice of every phase of highway expenditure.

The department, Johnson added, has a balance of about \$7,000,000 despite its numerous heavy expenditures and at all times will keep a "good balance."

A NEW CAR whose Reliability, Power and Style Mark it All-American

Reliability? Look at the longer, heavier frame of the All-American Six—the big new engine, transmission and clutch—the longer wheelbase (117") and larger tires—all the result of pitiless testing on General Motors' great American proving ground!

Power? Get behind the wheel! Thrill to the pull of the biggest engine used in a six of Oakland's price. An engine whose might no hill can tax—whose smoothness and steadiness are the result of a 7 1/2 lb. counter-balanced crankshaft with Harmonic Balancer, a new type of combustion chamber developed by General Motors' research staff, and Oakland's famous rubber-silencing principle.

Style? Instinctively your eyes will look for that famous emblem "Body by Fisher"—for here are

HOOVER MAY QUIT TO START HIS CAMPAIGN

WASHINGTON, Aug. 18.—Rumors that Herbert Hoover soon will retire as secretary of commerce to make an open campaign for the Republican presidential nomination were revived Tuesday by the publication of an alleged "inside story" of the cabinet split over the administration's Latin-American policy.

A circumstantial account of the friction between President Coolidge and Hoover, which set Washington buzzing with gossip last spring, was given by Basil Manly, director of the People's Legislative Service in the People's Business, official organ of the organization.

After detailing the alleged steps in the development of Hoover's opposition to the Coolidge-Kellogg policy in Mexico, which led up to the president's announcement on April 15 that even if Secretary Kellogg resigned Hoover would not be appointed to succeed him, Manly concluded:

"Whether Hoover can or will remain in the cabinet after President Coolidge returns to Washington is a question that only time can answer."

With the president's much-debated statement that he did not "choose" to run in 1928, Hoover was promptly hailed by politicians and part of the press as the choice of the administration and the primary league of Coolidge's political strength.

If Hoover has the backing of Mr. Coolidge, politicians point out that he would be foolish to withdraw from the cabinet as his position would provide the backbone of his support for the nomination.

Subsequent developments, however, have failed to bear out the statement that Hoover is the president's choice as his successor. In fact, reports from Rapid City indicate that Mr. Coolidge has no intention of backing any of the aspirants for the nomination, much less Hoover.

If it is true that Hoover is still at odds with his chief over the Latin-American policy and that he can expect no support from the administration, but on the contrary is likely to find the president behind a rival candidate, capital politicians predict Hoover's resignation in the fall.

Under such circumstances, it is pointed out, Hoover's only chance would be to cut loose from the administration and go into the field and round up delegates to support him in the convention.

BROWN COUNTY FAIR HAS BIG OPENING DAY

BROWNWOOD, Aug. 18.—The greatest fair ever held in Brown county was opened Tuesday. Attendance was between 5,000 and 6,000 and it now seems certain that all former attendance records will be smashed.

The four-day horse racing program got under way in the afternoon when six races were run. About sixty of the best race horses in Texas are here.

Tuesday night saw the coronation of Lois, of the House of Coston, as the Queen of the 1927 Brown county exposition. She is sponsored by the Brownwood Lions club in the season ticket selling contest and in that way was chosen Queen.

Texas Bud Snell, one of the best rodeo men in Texas, gave his first exhibition Tuesday night.

Live stock and poultry exhibits are better than in years, both in number and in quality. Some of the finest specimens of baby beavers ever shown here are on exhibit. Several hundred fine birds are to be seen in the poultry building.

ELY AND JOHNSON ARE OFF FOR WESTERN TRIP

AUSTIN, Aug. 18.—State Highway Commissioner Walter Ely of Abilene and Cone Johnson of Tyler will leave within the next few days for a vacation trip of two weeks, during which time they will go through New Mexico and Colorado. Although the trip is strictly for pleasure, some business will be mixed with pleasure as the two commissioners study the different types of roads to be found on that route in other states.

GALVESTON GAMBLING PALACE IS PADLOCKED

AUSTIN, Aug. 18.—"Roseland," alleged gambling palace at Galveston and \$10,000 worth of gambling equipment seized, Attorney General Claude Pollard was informed today by his assistant, Galloway Calhoun, who initiated the action on information secured by a state special agent.

Injunction was issued by District Judge Dibrell of Galveston, who some time ago enjoined "Hollywood" another resort there at the instance of the attorney general.

Omaha Indians donated the land for the first college in Nebraska.

MISS GARY

Anna May Owen, a vivacious brunette, is "Miss Gary." Judges selected her to represent the Hoosier city in the Atlantic City Beauty Pageant. (International Illustrated News.)

EASTERWOOD OFFERS ERWIN A NEW PRIZE

DALLAS, Aug. 18.—"For the sake of Dallas and willing to waive Beaumont stop, first Oklahoma hop from San Francisco, in attempted Dole flight, and for third and last time offer you \$25,000 for hop to Hongkong, China, with stops at Honolulu and Tokyo, and will require only 250 hours' time. Other original terms of contract hold good."

"W. E. EASTERWOOD." This telegram was sent Wednesday by Colonel Easterwood to Captain William P. Erwin at Oakland Airport, near San Francisco. "The original offer for \$25,000 for a Dallas to Hongkong flight still stands," the Colonel said. "If Erwin makes the trip from San Francisco and anybody wants to enter the original contest starting from Dallas there will still be \$25,000 for him if he can meet the terms. The new offer to Captain Erwin is just a little side show of my own."

Colonel Easterwood said the fund for the hop from San Francisco would not be handled by the National Aeronautical association, being just a little private agreement between himself and Lone Star Bill.

BEDFORD

The singing school conducted by Homer White closed Thursday with a number of visitors present, including Mrs. Stevens of Eastland; "Father" Green of Yellow Mound and his sons and daughters who are visiting him, and the Misses Speed of Yellow Mound. At the adjourn-

ment of the class, a choral club was organized to meet every first and third Sunday evening at the school house, with Homer Smith as leader.

Avon, Charlie and Georgiann Sprull are visiting their cousins close to Dublin this week.

Mr. and Mrs. Earl Smith and Earl, Jr. of New Mexico, are visiting their parental home.

Mrs. Mart Dulin has as her guests this week her two brothers and a sister, Miss Dabbs, of Brownwood.

MANGUM

Mangum and surrounding communities have been greatly blessed with fine rains of late.

The revival here is in progress and Bro. C. D. Howard is doing the preaching. The result so far is that many have been won to Christ.

Dr. Ghormley and family attended church here Monday night.

Miss Frances Kirby of Weatherford is visiting her cousins, W. E. Ellison and family.

D. W. Switzer was a business visitor in Eastland Tuesday.

Mr. and Mrs. Johnson of Eastland were callers in the Mr. and Mrs. D. W. Switzer home Monday night.

MRS. MOODY RETURNS HOME FROM HOSPITAL.

AUSTIN, Aug. 18.—Mrs. Dan Moody was able to leave the hospital late Wednesday after a week of rest and treatment for a slight ailment. Her return to the executive mansion was coincident with the return to Austin of her husband, who has been spending several days at Palacios with the Texas National Guard, which is in camp there and of which he is the commander in chief.
