

MRS. RICHARD M. STYLES

## Deann Buske Weds Richard M. Styles

Miss Deann Buske, daughter of Mr. and Mrs. G. B. Buske, became the bride of Richard M. Styles, son of Mr. and Mrs. M. M. Styles of Lubbock, at the First Baptist Church at 8 p.m. Saturday.

The double-ring ceremony was read by Rev. Louis Cobbs, director of the Baptist Student Center at Texas Tech at Lubbock. He was assisted by Rev. Bill Mark, pastor of the New Deal Baptist Church.

Proceeding the ceremony selections of violin music were played by Mrs. Gerald Horton of Lubbock accompanied by Mrs. Dennis Oliver of El Paso at the organ. Don Lewis, soloist, sang "O Perfect Love" and "The Ring." Deniese Magness sang "Whither Thou Goest" as the bride presented her mother a red rose. Traditional wedding marches were played by Mrs. Oliver. Lewis sang "The Wedding Prayer" following the ceremony.

The bride, given in marriage by her father, wore a gown of imported rose point Chantilly lace over taffeta.

The fitted bodice was accented by a scalloped portrait neckline. The voluminous skirt was enhanced with crisp taffeta ruffles which cascaded into a chapel train.

Her three-tiered veil of silk illusion was attached to a bow of taffeta dotted with seed pearls. The bride's only jewelry was a mother-of-pearl necklace presented to her as a gift while she was doing missionary work in Hawaii.

She carried a lace-covered Bible topped with a cascade arrangement of white orchids highlighted with phalaenopsis orchids. The Bible was presented to her in a white Bible ceremony from the Friona YWA.

Attending the bride as matron of honor was her sister, Mrs. Philip Weatherly, Lila Gay Buske, another sister, was maid of honor. Bridesmaids were Deniese Magness of Friona, Patty Burke of Sundown, Evelyn Ray of Friona and Mrs. A. J. Edmondson of Lubbock.

Honorary bridesmaids were

Mrs. Raymond Maines of Lubbock, sister of the groom; Jacquelyn Magness of Friona; Becky Wilson of Lipan; and Sallye Lemon of Lubbock, cousin of the groom.

Lydia Buske of Friona, cousin of the bride, was junior bridesmaid. Flower girl was Debbie Maines of Lubbock, niece of the groom. Serving as ring bearer was Ricky Maines of Lubbock, nephew of the groom.

Bridal attendants wore identical dresses of orchid taffeta. Brief sleeves and scooped necklines accented the fitted bodices. The bouffant skirts were waltz length and designed with unpressed pleats to emphasize the fullness. Matching bows of taffeta complemented their ensembles.

Honorary attendants wore white dresses similar to those worn by the attendants. Flowers for the attendants were flown in from Hawaii and made up by friends of the bride.

Bobby Styles of Lubbock served as his brother's best man. Groomsman were Joe Lemon, Leon Harp, Andy Edmondson and Jerre Bradshaw of Lubbock and Dennis Oliver of El Paso.

Ushers were Derry Harding of Levelland; Dale Hodges of Lubbock, cousin of the groom; Philip Weatherly of Friona, brother-in-law of the bride; and Lonnie Brownlow of Abernathy. Kim Buske, brother of the bride, was junior groomsman.

Mrs. Buske, mother of the bride, wore a melon green dress with a scooped neckline accented by soft folds of material. The bouffant skirt came together in the back with rows of lace topped by a flat bow. Matching melon green accessories completed her costume. Her corsage was a white orchid.

The groom's mother, Mrs. Styles, wore a rose lace and crepe dress. Lace buttons highlighted the waist length jacket and the skirt was designed with soft folds. Her accessories were black patent. She also wore an orchid corsage.

A reception in the church parlor followed the ceremony. Guests were registered by Mrs. Gay Jordan of Lubbock. Others in the houseparty were Mrs. Marjore Magness and Miss Marsha Dowdy of Lubbock, Mrs. Joe Bob Hampton of Phillips, Mrs. William Hamilton of Lorenzo, Miss Sharon Nichols of Happy, Miss Doris Johnson of Odessa, Miss Kitty Black, Mrs. Charles Baldwin, Mrs. A. L. Black, Mrs. Noyle Wood and Mrs. Paul Fortenberry all of Friona.

For a wedding trip to the west coast Mrs. Styles wore

a two-piece melon green peau de soie dress designed and made by her mother. Her accessories were bone and rust colored and she wore a white orchid corsage.

Mrs. Styles is a 1955 graduate of Friona High School and received her B. S. degree at Texas Tech Monday night. During her college years was an active member of the Student Council and was recognized in the All College Recognition Service for leadership on campus.

She also held several offices in the Home Economics Club and Weeks Hall Dormitory.

After June 15 Mr. and Mrs. Styles will be at home at 2422 Silver Street, El Paso. Styles is a graduate of Lubbock High School and Texas Tech and is presently serving as an Army Guided Missile Instructor at Fort Bliss. As a student at Tech he served on the Supreme Court and was an active member of the Baptist Student Union and Saddle Tramps.

## Whites Return Wednesday

Mr. and Mrs. Monroe White returned late Wednesday after spending two weeks visiting in the homes of relatives and friends in Arkansas, Oklahoma and Missouri.

At West Plains, Mo., they attended a White family reunion. Others present included White's two sisters, Mrs. Kay Bailey of Ravenden Springs, Ark. and Mrs. Nannie Turley of West Plains; and two brothers, Sam White of Elizabeth, N. J. and Dee White of Perkins, Oklahoma.

On the return trip they visited in the Dee White home and in the home of Grover Westfall, a brother of Mrs. White, at Perkins, Okla. Then went to Tryon, Okla. where they visited another of Mrs. White's brothers, Ira Westfall.

Mr. and Mrs. Jimmy Cox and daughters, Vicki and Judy, of Plainview visited in the homes of Mr. and Mrs. Waymon Wilkins and children, Mr. and Mrs. Sonny Weaks and Mrs. Ethel Adams last week.

Mrs. W. C. Hutchins Jr. and daughter, Janice, of Albuquerque visited in the home of Mr. and Mrs. Kenneth Houlette and children during the weekend. Joyce Houlette accompanied Mrs. Hutchins and Janice to Plainview for a visit in the home of Rev. and Mrs. E. E. Houlette.

## Sixteen Hear Book Review

Mrs. Kenyth Cass gave a review of the book "A Shirt-tail To Hang To" by Beth Day at the Tuesday morning meeting of the Kolvwia Circle of the Woman's Society of Christian Service of the Friona Methodist Church.

Mrs. J. L. Shaffer, in whose home the circle met, was the hostess. Following the review Mrs. Arthur Drake directed the closing prayer.

Refreshments were served to Mesdames W. M. Stewart, Will Osborn, Arthur Drake, Dick Rocky, Howard Ford, H. R. Cocanougher, Kenyth Cass, Guy Latta, Floyd Brookfield, Hugh Blaylock, Roy Slagle and Wayne Stark.

Also three guests, Mesdames A. S. Curry, Ella Sulser and Bill Baxter.

## Losing Team Treats Winners

Members of the losing team in a Sunday school contest at the Assembly of God church were hosts at a family supper at the American Legion Hall Thursday evening.

After a supper of fried chicken, potato salad, doughnuts and home made ice cream, the older members of the group visited and the young people played games.

Those present were Mr. and Mrs. Kenneth Williams, David and Jerry; Mr. and Mrs. Irvin West and family; Jimmy Chesher; Mr. and Mrs. J. L. Stowers and Ineta; Mrs. A. M. Johnson, Alton, Philip, Tommy Gene and Billie Rae; and Don Green;

Also Gary Eskew; Mr. and Mrs. Eldon McCormick and Alton; Mr. and Mrs. L. A. Judkins, Jackie and Ruby; Mr. and

## Club Meets In Sims Home

A flower arranging demonstration was given by Stella Shirley at the Wednesday meeting of the Friona Home Demonstration Club in the home of Jo Nell Sims. Carol Hardesty gave a council report.

After the program and a brief business meeting refreshments of punch, coffee and cookies were served by the hostess. Those present were Joyce Wilkins, Tiny Taylor, Phyllis Sanders, Marlene Drake, Juanita Drennan and Carol Hardesty;

Also Christine Williams, Anna Lee Sims, Elwanda Campbell, Stella Varner, Stella Shirley, and one new member I. V. Day. The next meeting will be in the home of Velma Jones.

### Raised Roof Lifts Morale

One of the most perplexing problems facing home owners with small houses on small lots is expansion to meet the needs of their growing families.

All too frequently, lots are too narrow to permit additions on either side, and rear yard space is too precious for expansion in that direction.

Many families are finding the answer today by building upward--actually adding another story to their single-

story ranch homes and bungalows. Today's home building materials and techniques have made this a fairly simple and economical procedure.

One example of what can be done is shown in the drawings. The owner of this home added not only two bedrooms and a bath in the new second floor, but enlarged kitchen-dining facilities on the first floor as well.

In this case, the owner selected a light pastel shade of asphalt shingles for the addition as well as for the old roof. This provided a measure of heat reflection for greater summer comfort in addition

to a new color "key" on which to base new paint colors for the sidewalls and trim.

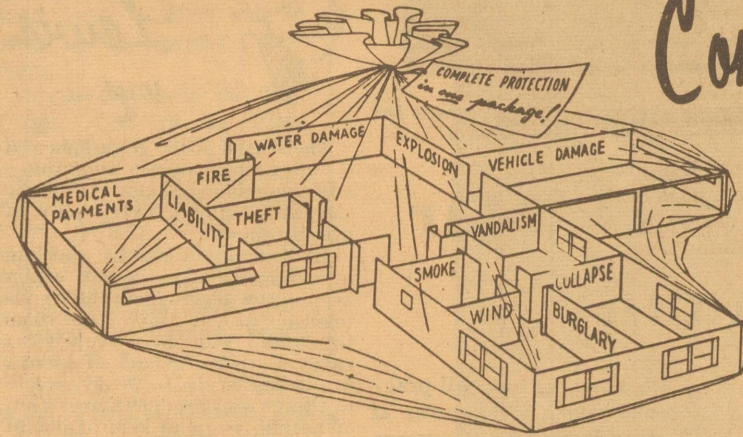

The overall result was a home with more than enough space for the entire family, plus a house that was increased in resale value far beyond the total costs of remodeling. In addition, its improved appearance gave a lift to the entire neighborhood.

## Neil Osborns Visit Relatives

Mr. and Mrs. Neil Osborn and son, Thomas, of Hope, Ark., are visiting in the homes of Mr. and Mrs. Sloan H. Osborn and Mr. and Mrs. Claude Osborn this week. The men are brothers.

Other recent guests in the Sloan Osborn home were Burt and Bill Osborn of Amarillo. Burt and Bill visited their grandparents while their parents, the Charles Osborns, made a trip to Houston to make arrangements to move down there.

Charles Osborn will enroll in the dental school there the first of September.

Sally, daughter of the Sloan Osborns and a student at Texas University, is spending the summer with her parents.

### WOULD BE A HELP

Next-door-neighbor: "I can hear your hi-fi as though it were in my room."

Jerkins: "Then, would you care to help me pay off some of the installments?"

A clerk was handed a pay envelope which, by error, contained a blank check.

The astonished clerk looked at it and moaned: "Just what I thought would happen. My deductions have at last caught up with my salary."

... The preacher finished his sermon with "All liquor should be thrown in the river," and the choir ended by singing "Shall We Gather at the River?"

### HIGHLIGHTS AND SIDELIGHTS --

## Another Session Seen for Solons

AUSTIN, Tex.-- First called session of the 56th Legislature will end automatically June 16. It would be hard to find anyone around the Capitol who would bet on the state's money problems being wrapped up by that date. Senators began their work on the tax bills sent them by the House with an air of deliberate calm. They even waited 48 hours before beginning hearings to give everybody time to ready his presentation. (This is the "tag" rule whereby if one senator "tags" a bill, it cannot be heard except with 48 hours notice.)

Main issue was a bill to raise new revenue for 1960-61 spending needs. Gov. Price Daniel appeared personally before the Senate State Affairs Committee in behalf of H. B. 7. This is the House-passed bill to tax natural gas, interstate corporation franchises, utilities, liquor, cigarettes, autos, etc. Governor Daniel stoutly defended the bill on all counts, but said he would not "feel hurt" if the Senate wanted to make some changes. Industry spokesmen and chamber of commerce representatives told the committee the bill would drive business away from Texas. "Our customers," said one com-

pany man, "will not pay a premium for a 'made in Texas' label." Others complained that H. B. 7 not only would tax the same groups that have been hit before, but would hit some from several directions at once. Governor Daniel's reply to those arguments is that business should bear a portion of the tax burden to keep from dumping it all "on the family budget," as in a general sales tax.

**HARD GOING**--Governor Daniel's abandoned property bill, killed during the regular session, made it back to the House floor, but only after a committee had attached crippling amendments. As introduced, the bill would have allowed the state to take over property or bank accounts unclaimed for seven years. Committee changed the waiting period to 15 years. This cut the estimated first-year take from \$20,000,000 to \$3,000,000. This is one of the bills recommended by the governor to pay off the \$65,000,000 deficit that accumulated during the 1958-59 biennium. House Taxation Committee killed outright Rep. Jerry Sadler's proposal to levy a one per cent gross receipts tax away from Texas. "Our customers," said one com-

Governor Daniel vetoed nine of the some 500 bills passed during the regular session.

Among these was the "de novo" bill which would have provided for an entirely new trial when decisions of state agencies were appealed to the courts. Governor Daniel said it would have disrupted oil and gas conservation procedures of the Texas Railroad Commission.

Also turned down was a bill to create a Fort Bend County water district. Governor Daniel said it was in conflict with state-wide water planning. Rep. Jimmy Day of Brookshire, sponsor, made a critical speech on the House floor, contending the governor had signed a bill just like that one two years ago.

Another vetoed bill would have provided for repayment to persons who have paid fines or served sentences for crimes of which they were not guilty. Governor said the intent was good, but with no limitations in the bill, the taxpayers had no protection.

**ONE SOLUTION**--Many observers believe that much of the current legislative trouble--the slow start, delays, bickering between members and last-minute do or die legislation--would not happen if the office of Speaker of the House were an elective post. Certainly this would eliminate the factions that exist in the Lower House.

Evidence of the desirability of such a plan is found in the office of the Lieutenant Governor, who performs identical functions in the Senate. Both officers have apartments in the Capitol Building, but only the Lieutenant Governor is elected by the people.

Selection of the House Speaker is made by the House members themselves. This delays the start of nearly every session. Furthermore it provokes many bitter battles, divides the House, and creates deep wounds that never heal. Also, much time is wasted during sessions

A bluefish, pound for pound, is one of the fightingest salt-water fish that swims. Anglers who have had experience with him agree that it is difficult to find his match on light- or medium-weight tackle. It is not difficult to see why the bluefish has so many fans, for he has provided a million thrills to members of his avid fishing fraternity. The big question is: How long will he continue to do so?

An interesting aspect of the occurrence of bluefish along our northern Atlantic shores is that a succession of good fishing seasons has always been followed by a number of lean years, reports Robert D. Hall, Salt-Water Fishing Editor of Sports Afield Magazine. Just what causes cycles of abundance among bluefish is an ocean mystery that only Father Neptune can tell us, and thus far he has kept this secret well.

The periods between the time when bluefish are plentiful and scarce show such a wide variation in years that it is extremely difficult to predict the duration of the present run of blues. A prognosticator may be a genius when his prophecy comes true and a fool when it is false. How-

ever, it certainly looks as if we have seen the peak of the present run of bluefish and future seasons seem dark.

Let's look back about eight years to when the present bluefish cycle began. The first year that blues appeared along our coast after a number of blank and unsuccessful seasons the fish were of such small size that there is good reason to believe they were fish that were born that same year. Each following season we have seen a steady growth in the size of the fish taken until recently they have reached well over an average of 10 to 12 pounds. Many caught have tipped the scales over the 17-pound mark. As the fish grew in size, the schools thinned out and fish were not as plentiful as in earlier years. If we follow this line of reasoning, we may deduce that we have reached the peak of this bluefish cycle and can now look for a sharp decline.

Mr. Clyde C. Taylor, assistant laboratory director of the Fish and Wildlife Service at Woods Hole, Massachusetts, writes: "The opinion that a peak in a bluefish cycle has been passed appears a sound one in view of past cyclic fluctuations of this species. In the late summer and fall of 1951 great numbers of bluefish about two pounds in weight appeared in the Woods Hole area. Each year since good catches of progressively larger fish have been caught. It seems that this unusually abundant year class has now about completed its lifetime in the fishery, with no equally abundant year class appearing in the intervening years. Unless new recruits in the two-pound class appear this season, the outlook is for poor fishing of a very large fish."

As bright an answer to a foolish question as was ever given was delivered by a lady on a printed questionnaire that her new doctor asked her to fill out.

The question was, "Do you have trouble making decisions?" And the answer was "Yes and no."

Rep. Jerry Sadler of Percilla reminded the House that House members had in previous session gone in droves on various lobby-arranged flights. He made the suggestion, of Biblical origin, that the House "get the beam out of its eye before we try to get the mote out of a brother's eye."

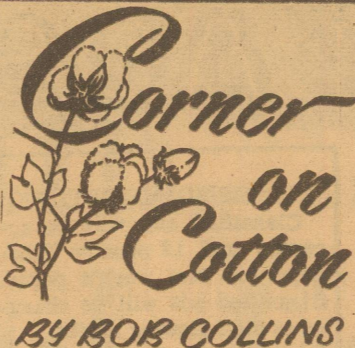

House voted 71-52 with Rep. R. H. Cory's (Victoria) suggestion of "not meddling in the Senate's affairs."

**STUDENT FEES DEBATED**--House members considered a bill to require students in state-supported colleges to pay an activity fee of up to \$30 a semester.

Fee would cover such things as health services, parking privileges, tickets to athletic and cultural events, book rentals, subscription to campus publications, etc.

Students now pay about \$12 less on a voluntary basis. Rep. W. S. Heatly Jr. of Paducah, sponsor, said all the college presidents favored the bill. It would make an estimated \$2,000,000 available for higher education.

Opponents declared it moved in the direction of putting educational opportunity on the basis of ability to pay.

**ORDINANCE NO. 322**  
An ordinance by the City Council of the city of Friona, Texas to amend ordinance number ninety-four (94, passed by the board of commissioners on the 10th day of August, 1953, and declaring an emergency; Now, therefore, be it ordained by the city council of the city of Friona, Texas, that hereafter Section Five (5) of said Ordinance 94 be amended; Therefore, Section 5 of said ordinance is hereby revoked, cancelled, rescinded and that said Section 5 shall henceforth read as follows:  
Section 5 - Then when the property served is made a part of, or brought within the City Limits of the City of Friona, Texas there shall be no refunds or reimbursements, what-

soever, by the City of Friona, for the cost of such water and/or sewer mains with appurtenances.

The fact that the present ordinance, being Ordinance No. 94, is inadequate for the regulation of the extension of water and sewer mains outside of the City limits creates an emergency and public necessity that the rule requiring all ordinances be read at three meetings before final passage be suspended and said rule is hereby suspended and the ordinance shall take effect immediately after its passage and publication.

Passed and approved this 1st day of June, 1959.  
R. L. Fleming, Mayor  
ATTEST:  
Albert L. Field, City Manager  
36 3tc

**SMITH, SIMMONS --**  
for sale.

Bob Zetszche of Friona was awarded a 1953 GMC bus for his bid of \$431.60; Andrew Wilson was awarded the 1950 Ford bus for his bid of \$351.25.

The other vehicle, a 1952 Ford bus, was kept by the district as the board felt that the bids on the vehicle didn't approach the value of the bus. It will be used as a "spare" next year.

After more discussion board members voted to put up for sale the six lots on the north end of the property on which the football field is located.

These lots are 50 foot fronts, 150 feet deep and will be advertised for bids. The bids will be opened at the next regular meeting of the board slated for the night of July 7, 1959.

Kelley reported to the board on several funds including the activity, transportation, cafeteria and school budget funds.

These reports, plus the tax assessor's report were accepted by the board.

Letters of resignation of Huffman and Dempsey Watkins from their positions as head football and basketball coaches, respectively, were read and approved.

The board granted permission for the repair of the roof on a teacherage and discussed

the new bus barn.

The barn will be accepted from the contractor following several items concerning the roof.

Members present at the meeting included Clyde Weatherly, Cordie Potts, D. C. Her-ring, Hoyt Smith, John Ray, Arthur Drake and James Mabry.

**RENNERS RETURN**

Mr. and Mrs. Rudolph Renner returned Sunday afternoon from Shattuck, Okla., where they had attended funeral services for an aunt of Mrs. Renner's, Mrs. Gottfried Bender, and an uncle of Renner's, L. L. Appel.

**NEW MAIL SERVICE--**

m. East bound service will be from Clovis, where the west bound and east bound highway post offices meet.

McLellan further advises that local mail is not covered by the highway post offices. Local mail is mail going to Black, Summerfield, Lazbuddie and the rural routes. He went on to say that more efficient service could be given if large bundles of statements or letters had rubber bands placed around them.

By the time you have money to burn--the fire has gone out.

**FRIONANS RETURN**

FROM TRES RITAS 1-18sl Mr. and Mrs. Nelson Welch, Bob, Mikie and Monte Sue; Mr. and Mrs. Steve Struve, Kay, Carol and Sheila; Mr. and Mrs. J. B. Taylor, Dianne, John and Jimmy; Mrs. Lucy Welch; Cynthia Ann Caffey, Gayle Knight and Willie Grace Griggs of Friona and Shelley and Allison Brown of Midland spent several days last week at the Welch cabin near Tres Ritas.

Shelley and Allison Brown, daughters of Mr. and Mrs. Joe Brown, are guests in the home of their grandmother, Mrs. Lucy Welch. The group returned home late Friday.

# Graves By Highway Intrigue Motorists

14 PAGES VOLUME 25, NUMBER 36 SECTION II

Mrs. Carrie Collier and Mrs. Mae Saunders of Ringling,

Oklahoma, and James Ray Collier of Artesia, N.M., were Monday night guests in the home of

Mr. and Mrs. David Moseley. Mrs. Collier is Moseley's sister.

Vega, Texas, Farmer Reports—

## Higher Quality, More Uniform Grain Sorghum Seed Yields

C. G. Richardson, owner and operator of Richardson Seed Co., produces and sells high quality, high germination grain sorghum seed. In four years, Mr. Richardson's company has earned an enviable reputation for selling uniformly productive seed.

Mr. Richardson says: "We watch all of the things that will give us higher quality seed. For example, we have a clean farm, free of weeds. We use the latest and best cleaning and handling equipment.

"And," he continued, "we use Phillips 66 Ammonia as our source of nitrogen fertilizer. We've found that Phillips 66 Ammonia gives us sturdier, healthier plants, with more uni-

form and higher quality seeds."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin . . . yields of sorghum grain or ensilage are increased . . . profits on wheat and small grains are increased through higher grain yields and improved forage . . . more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia . . . it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

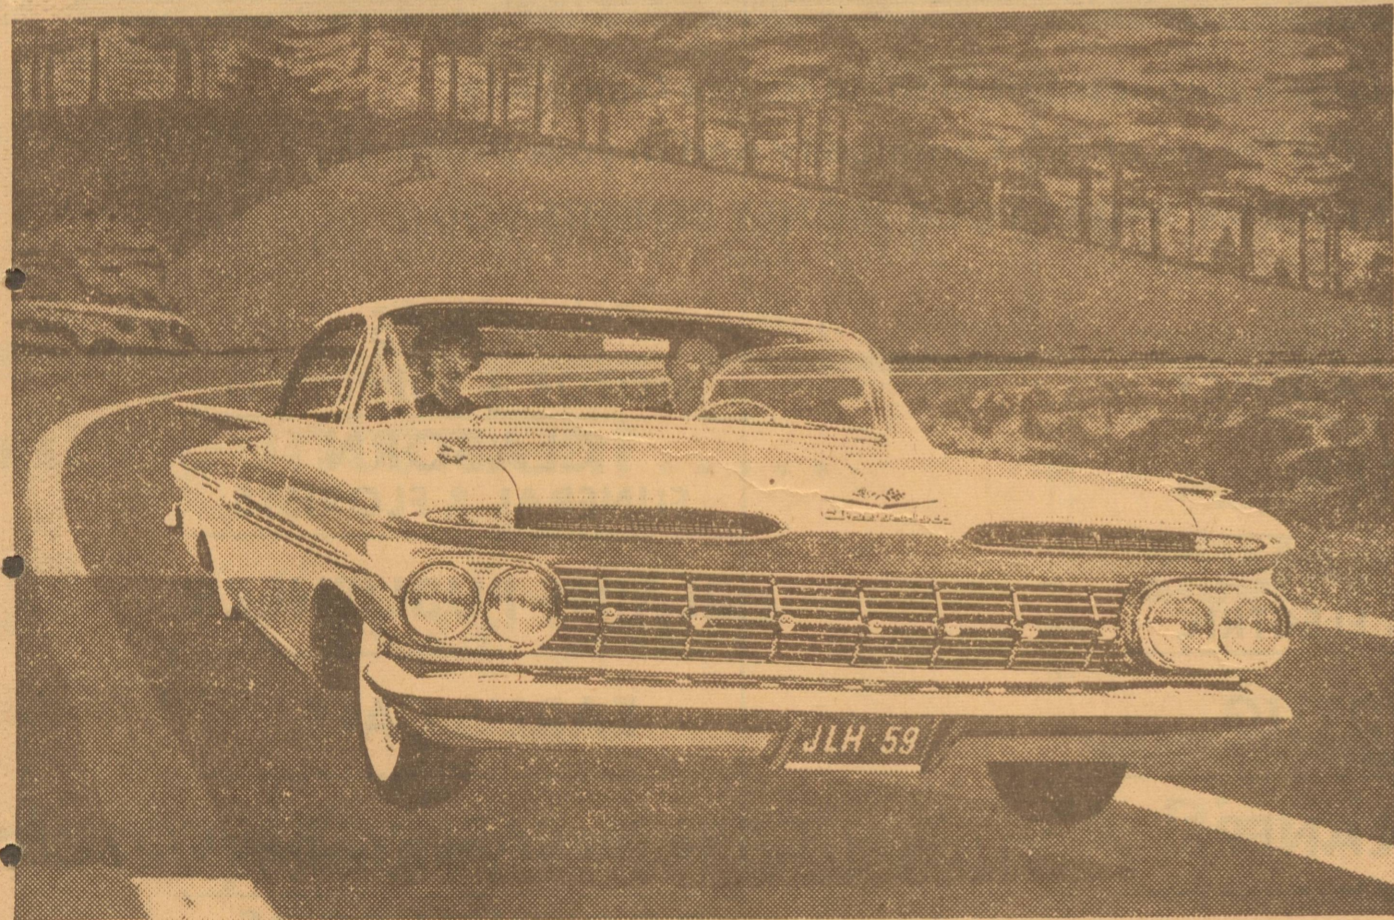

Order Your Supply of Phillips 66 Agricultural Ammonia Today!

More car than this Impala Sport Coupe is hard to find at any price.

clings to curves like a cat on a carpet!

the travel-lovin' Chevrolet

Nothing else but a dyed-in-the-wool sports car like the Corvette can take a turn with such solid assurance!

It's easy to see where Chevrolet gets its road sense. With big coil springs at every wheel, a firm, wider stance and all of its pounds distributed with painstaking care, Chevy's born with it.

The only thing that may be hard to understand is how it can offer the ride it does, along with so many other luxury-car virtues, and still compete in the low-price field.

We use the word *compete* only in the sense of price. For with a ride as special as Chevy's, real competitors are hard to come by. There's a world of difference between Chevrolet's coil springs at all

four wheels and the leaf springs that most other cars still use. Take a Chevy down a snaky back road and you'll feel the difference in the sure way it holds through curves and shoots over rough spots with hardly a ripple.

This one's really made to travel and loves every minute of it.

Stop by your local authorized Chevrolet dealer's and sample Chevy's road sense!

BY DONALD WATKINS  
Hardly a day passes that at least, a few people traveling on highway 60 headed toward Clovis don't stop in Farwell and inquire about two graves located in a maize field.

These graves are situated about 1 1/2 miles North of Texico on the west side of highway 60 just inside the Texas state line. They are about 100 yards from the highway are fenced separately and there is a cedar tree growing inside one of the grave plots.

When one considers it is unusual for a cultivated field in this day and time to have graves in them, when one further considers that there is no cedar tree within a radius of 40 miles in any direction, one can understand the possibility of exciting tales being told about them.

One of the most prevalent tales concerns two unnamed cowboys in the employ of the famous XIT Ranch. These cowboys happened to be courting the same young girl with matrimony as their objective. For awhile things went along smoothly but as the courtship deepened, trouble between the ranch hands developed. The legend tells that the trouble was heightened by the girl, in that she was rather egotistical and enjoyed the deep rivalry between the two cowpokes.

As time passed the trouble between the ranch hands reached the breaking point and the inevitable clash took place.

They met just outside Texico, amply fortified by stimulants from the nearby taverns, and in true western style, drew their guns on one another. But neither cowboy was destined to win the hand of the young lady. Fate was not that kind, as she had given both the cowpokes the same speed and accuracy with their six shooters. They shot each other and the local gentry from nearby buried them where they fell.

Like most legends, this may be hard to believe, but also like most legends, events and places support it. The old Escarbada Headquarters, one of the divisions of the XIT is just a few miles north of the scene. The position of the graves in relation to one another and the nature of the old west cowboys all add weight to this legend.

There are more legends concerning these graves but they are not related as often as the one about the cowboys. One of them tells about a wagon train moving westward and being attacked by Indians. The

graves contain the victims of that Indian attack.

Still another is that of an old prospector and his Indian guide being killed by marauding Apaches, found by immigrants and buried.

People may not believe any of these stories about the graves; they may even laugh at them, but it is a well known fact that many a car is stopped on the highway while people go look at the headstones just to kinda make sure for themselves.

## IN THE COURTS

The following cases were tried before Judge Thelma Jones in City Court during the week ending June 2:

Ed Lowry Mitchell, speeding, 60 mph in 35 mph zone; Ruben Polloves, no driver's license; Clarence D. Campbell, no driver's license; Darwin G. Bagley, no license plates; Mrs. J. R. Bartlett, improper parking; Odis O. Houston, driving on wrong side of highway; Boyd A. Jones, digging out on pavement; Hampton G. Loftis, cutting corner and illegal turn; Winette Beaton, speeding, 45 mph in 30 mph zone; Bill Hudson, drunk in public place; Edward Lee Fine, no driver's license; Thornton M. Dickey, failure to turn without safety, causing accident.

### JP COURT

The following cases were tried before Justice of the Peace Thelma Jones during the week ending June 9:

Jesse L. Reasoner, turning without safety causing accident.

WHAT ARE THEY DOING ALL ALONE?—These two graves have always caused many folks to stop and investigate just what are two graves doing in the middle of a field northeast of Farwell on Highway 60.

## Charles E. Watson Recent Graduate

Charles Edward Watson, grandson of T. J. Crawford of Friona and son of Mr. and Mrs. A. C. Watson of Tucumcari, N. M., received a B. S. degree in physics from New Mexico State University at Las Cruces May 30.

There were 209 members of the class. Dr. Donald C. Mayer, executive secretary of the board of educational finance of the State of New Mexico delivered the commencement address. Mr. Crawford, Mr. and Mrs. Watson and Doris and Dave Watson attended the exercises.

Watson is working this summer for the physical science laboratory at New Mexico State University. This fall he will enroll as a graduate assistant at Florida State Uni-

versity at Tallahassee to continue his studies.

Dave Watson, another son of the A. C. Watsons, is also a student at New Mexico State University. He is classified as a junior majoring in physics and is working this summer for the physical science laboratory of the college.

Mrs. Watson will be remembered here as Dorothy Crawford.

## Mrs. G. Bender Buried Thursday

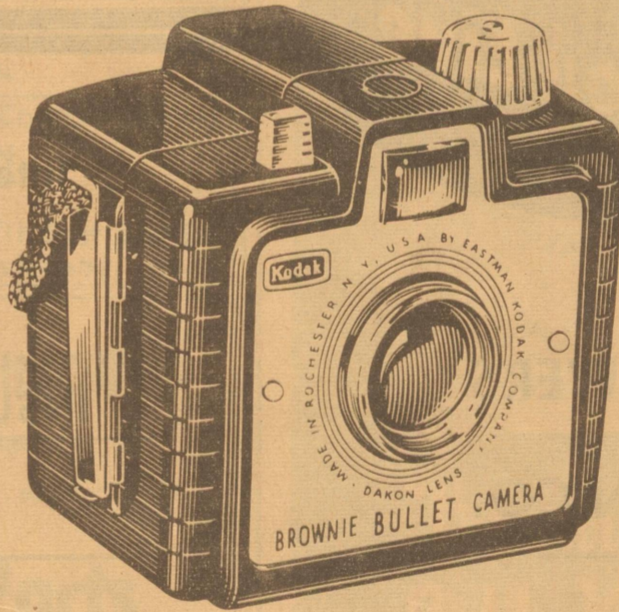

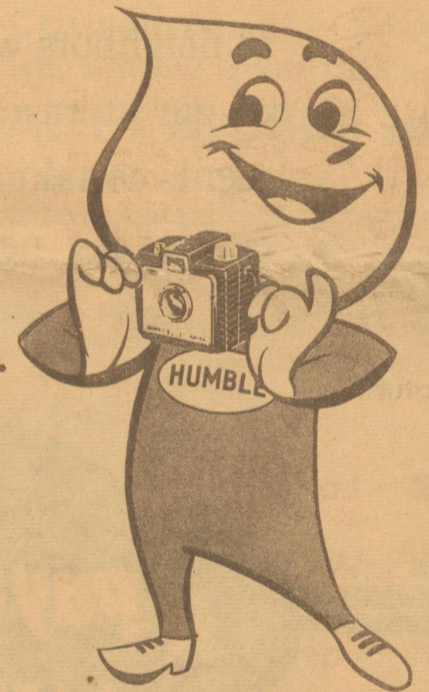

Mr. and Mrs. Karl Bender and Deniese were called to Shattuck, Okla., Tuesday due to the death of Bender's mother, Mrs. Gottfried Bender of Higgsins.

Mrs. Bender, a longtime resident of the Oklahoma Panhandle area, was buried at Higgsins after funeral services were conducted at the Seventh Day Adventist Church Thursday afternoon.

Mr. and Mrs. Bender returned Friday afternoon.

all members to attend and invites anyone who is interested to assist if possible. She says, "All help will be appreciated by members of the auxiliary."

# Want a Kodak Camera?

Here's your opportunity! An individual Kodak Camera plus a roll of film for every member of the family.

Stop at the Humble sign in your neighborhood and make any kind of purchase: pre-vacation travel service, gasoline, motor oil, tires, washing, lubrication—anything.

The driveway salesman will provide you with a validated proof-of-purchase coupon that entitles you to buy one Kodak-made Brownie camera plus your first roll of film for only \$2.50.

You must send a separate, validated proof-of-purchase coupon for each camera you buy at this low price, but there is no limit to the number of cameras you may purchase. Offer expires July 31, 1959.

Send your validated coupon and \$2.50 to Camera, P. O. Box 1244, Houston 1, Texas and your camera will be in your hands promptly. Humble guarantees delivery.

Take advantage of this generous offer. The children especially will appreciate an opportunity to take their own cameras on this year's vacation trip.

This Happy Motoring Kodak Camera plus your first roll of film is yours for only

# \$2.50

# Study the Facts of Life (economic)

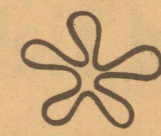

A community such as ours is built . . . and maintained . . . and prospered by the trading that goes on within it; not by the dollars which we allow ourselves to be persuaded to send off or carry off to some other community.

- Our schools . . . our churches . . . most of our homes and jobs or businesses . . . the number and sort of neighbors we have . . . the ability of our stores and service establishments to take care of our daily and emergency needs . . . all of these

depend upon local trade . . . money spent here at home.

- One of the cold facts of life (economic) is that the prosperity and better life which our dollars naturally help to pay for in the community where they are spent can be far more valuable than the goods or service those dollars buy for us.

- But an equally undeniable fact of life is that we don't share in the enjoyment of these more important things paid for by our money . . . unless we spend it at home.

Buy . . . where your trade helps to support your way of life

## "A Wonderful Trip" Agent Says of Tour

It was sure a wonderful trip," county agent Joe Jones says of his visit to Italy, just completed. The Farmer County agent represented the Grain Sorghum Producers Association at several functions in Europe this spring, designed to educate the people there to utilization of grain sorghums in their feeding ration.

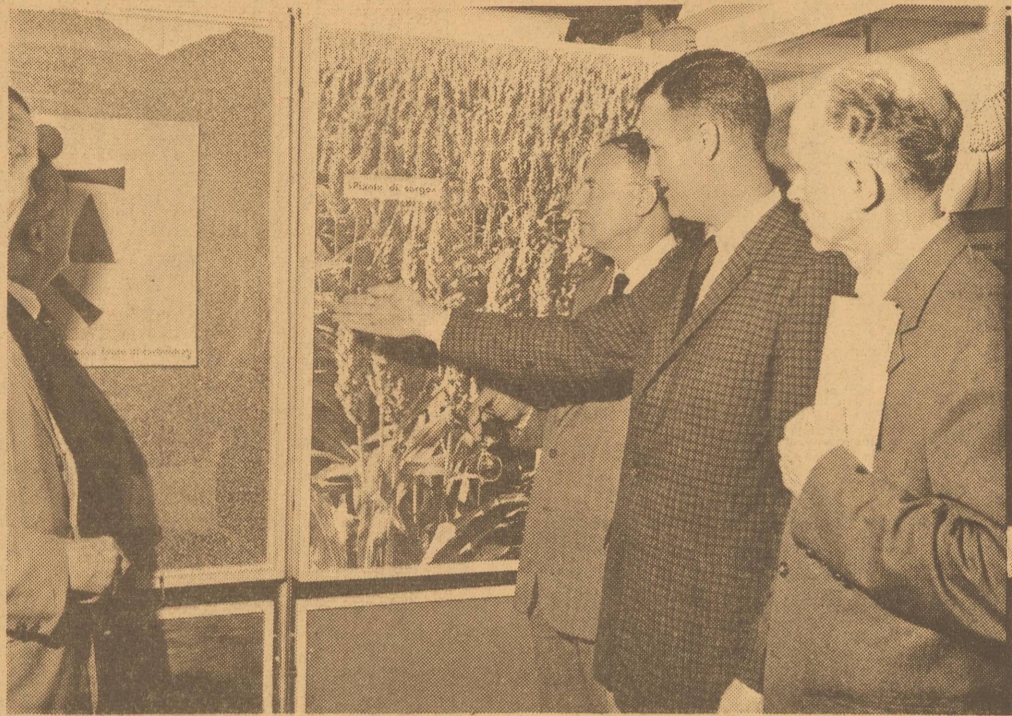

Italians were interested in what the U. S. representatives had to say on the subject, says the agent, and he reports that the most frequently asked question of him dealt with feeding rations and formulas, weights, gains, and times required to finish animals.

As would be expected, the agent noted many differences between the farms of Italy and those of this part of the world. Most of his tours were made in the valley of the Po River, which runs southward through the central part of the boot-

shaped country. Wheat, corn, and other crops familiar to all Americans are grown in Italy the same as here, he says, but under different conditions. Most of the farms are small, and few farmers seem to be owners of the land they till. Mechanization is not widespread.

Jones describes the economic well-being of farm people as "fair," saying that most of them live in modest but comfortable circumstances. All of the people he saw appeared to be happy, he says. Hunger and privation was no more common in the parts of Italy he visited than here.

Jones was gone for a month on his tour. He flew from New York to Paris, then to Milan and then to Rome. He toured the country with a party of six, and considered his visit a very

"THIS REMINDS ME OF HOME" County Agent Joe Jones is saying to these four men, who are equivalent of county agents in Italy. The picture at the right bears the Italian label, "plants of sorghum." Grain is in the picture at the left.

"NOW, THIS IS WHAT WE GROW A LOT OF IN FARMER COUNTY" Joe Jones tells some visitors to the fair. The men are Italian farmers who expressed an interest in the feed grain. The tank in the lower right hand corner of the picture contains soybeans.

educational experience.

Not only were rural areas visited, but Jones took in such things as an appearance of Pope John in Vatican City, museums, and historic sights such as the Coliseum and St. Peter's Cathedral. "There are more statues to more people in Rome than any place I've ever been," commented the agent.

The old distinctions between farm and city are rapidly disappearing, says Reagan Brown, extension rural sociologist. Rural nonfarm people now outnumber farm people by a ratio of 5 to 3 and it appears certain that more non-farm folks will live in the rural areas in the future.

### THE HAPPY HOMEMAKER

BY JUNE FLOYD

Since polishing silver is one of the tasks most homemakers we know do not enjoy doing, perhaps some of you would like to try a new idea for using charcoal. Wrap a piece of charcoal in tissue paper and place inside the silver chest.

We haven't tried it, so have no idea whether it will work or not, but if it will, there's

## Grain Sorghum No Sweat

With all the other woes the Farmer County area farmers have had during the past week, there's a little ray of sunshine. It's that the rough weather prob-

ably won't affect the grain sorghum crop adversely--in fact, chances are it will improve the outlook. Early stands have been dam-

aged, and some have been lost, but there is plenty of time for recovery, and, in fact, there is plenty of time for re-planting of almost any variety farmers may choose.

Agricultural advisers have suggested for the past few years that irrigation farmers have had the tendency to plant their crops too early, and the rough weather is sure to result in retarded developments and later plantings.

Also, soil moisture levels will be more than ample for getting the crop up and off to a good start. Couple with the fact that warm weather is here to stay and that the plants will grow rapidly, making weed control less of a problem, and you can come up with that ray of sunshine.

certainly little excuse for any of us spending much time polishing silverware.

A problem that many homemakers have is making variations from the canned vegetable supply. No doubt a number of you have a copy of Kerr's new leaflet, "Taste Thrills By Canning and Freezing." However, for the benefit of those who do not, we are printing several recipes that are designed to make use of home canned foods.

#### BERRY FLOAT

- 3 tablespoons butter
- 1 cup sugar
- 1 1/2 cups flour
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon salt
- 1 egg, slightly beaten
- 1 teaspoon vanilla
- 3/4 cup milk
- 1 quart canned berries (drain and save juice.

Cream butter and sugar until light and fluffy. Sift dry ingredients together. Combine beaten egg and vanilla with milk, add dry ingredients alternately with milk mixture, beating until smooth and creamy.

Pour into baking pan. Spread drained berries over the top. Bring the berry juice to a boil and carefully pour over the berries. Bake at 35 degrees until well done, about 3 minutes. Serve hot or cold with whipped cream.

#### FRENCH PEAS

- 1 tablespoon butter
- 1 quart canned peas

And This Year - With Late Planting - Setting Early Fruit Will Be More Important Than Ever

Make More and Better Cotton Earlier with Early Season Insect Control

**EARLY SEASON CONTROL PROGRAM (Insecticides Listed at Random)**

INSECTS	INSECTICIDES		Amount of Spray Concentrate Per Acre	REMARKS
	DUSTS	SPRAYS AND POUNDS OF TOXICANT PER GAL.		
Cutworms and certain armyworms	A. 10% DDT B. 20% toxaphene Apply dusts at 15 to 20 lb. per acre.	A. DDT (2 lbs. per gal.) B. Toxaphene (6 lbs. per gal.) C. Toxaphene-DDT (4 lbs.-2 lbs. per gal.)	1/2 to 1 gal. 1 1/3 to 2 qt. 1 1/3 to 2 qt.	Examine seedling cotton for presence of these pests. Apply treatment as needed.
Thrips and cotton fleahoppers	A. 2 1/2% dieldrin-40% sulfur B. 2 1/2% aldrin-40% sulfur C. 2 1/2% heptachlor-40% sulfur D. 2 1/2% endrin-40% sulfur E. 10% toxaphene-40% sulfur	A. Dieldrin (1.5 lbs. per gal.) B. Aldrin (2 lbs. per gal.) C. Heptachlor (2 lbs. per gal.) D. Endrin (1.6 lbs. per gal.) E. Toxaphene (6 lbs. per gal.)	1/2 to 1 pt. 1/2 to 1 pt. 1/2 to 1 pt. 1/2 to 1 pt. 1 to 1 1/2 pt.	Begin treatment when cotton is in the 4-leaf stage or earlier if necessary. Two to 4 applications may be needed, but regardless of number, stop treatment at least 30 days before the bollworm usually appears. UNLESS FLEAHOPPER OR BOLL WEEVIL INFESTATIONS ARE EXTREMELY HEAVY. This period allows sufficient time for beneficial insects to build up as an aid to bollworm control. Use maximum dosage recommended if overwintered boll weevils are present. Sprays are more effective and economical than dusts for controlling insects on young cotton. One-half pint of malathion (5 lbs. per gal.) or parathion (2 lbs. per gal.) may be substituted for the second early season treatment to control thrips and the BROWN COTTON LEAFWORM.
Boll weevils, thrips and cotton fleahoppers	A. 2 1/2% dieldrin-40% sulfur B. 2 1/2% aldrin-40% sulfur C. 2 1/2% heptachlor-40% sulfur D. 2 1/2% endrin-40% sulfur E. 20% toxaphene-40% sulfur	A. Dieldrin (1.5 lbs. per gal.) B. Aldrin (2 lbs. per gal.) C. Heptachlor (2 lbs. per gal.) D. Endrin (1.6 lbs. per gal.) E. Toxaphene (6 lbs. per gal.)	1/2 to 1 pt. 1/2 to 1 pt. 1/2 to 1 pt. 1/2 to 1 pt. 1 pt. to 1 qt.	Apply dusts at 7 to 10 lbs. per acre at 7-day intervals. Apply sprays at 7-day intervals.
Cotton aphids	A. 1% parathion B. 5% malathion C. 1% methyl parathion	A. Demeton (2 lbs. per gal.) B. Parathion (2 lbs. per gal.) C. Malathion (5 lbs. per gal.) D. Methyl parathion (2 lbs. per gal.)	1/2 pt. 1/2 pt. 1/2 to 1 pt. 1/2 pt.	Apply as needed. Apply dust at 10 to 15 lbs. per acre when air is calm.

## THE PARMER FARMER

by W. H. Graham Jr.

Aside from our concern for the financial loss to the farmers, the storms of the past two weeks have brought some thoughts to our mind that we would like to share with our readers.

We have seen severe weather, in a part of the world supposedly isolated from things like hurricanes, monsoons, and the like, affect practically all of five million acres of irrigated cropland on the High Plains. Probably one-fourth of this five million acres has been obliterated so far as early spring crops are concerned. We have no assurance that these weather conditions will not revisit us—not just once or twice, but many times as the growing season advances. This has never happened before, but we are beginning to realize that it could, and the consequences of such a great natural disaster to the economy of this

part of the Southwest would be almost incalculable. No, we don't like to think such thoughts, but there are times when it doesn't hurt a person to consider just what would be the state of affairs if he should "fear for the worst" and that should come to pass. Are the farmers of the irrigated Plains secure enough to be able to withstand such a terrible assault by nature? Frankly, we doubt if more than 25 per cent of them would be able to weather such hard times themselves. Perhaps 50 per cent of the farmers might be able, on the strength of their characters and previous experiences as good risks, to secure enough credit to stay in business. But that other 25 per cent—we doubt if they could manage to remain afloat. These are our own estimates, and they are rudely made. They may be terribly inaccurate, but the thought has been occurring to us that, considering the widespread practice of stretching things so thin just for crop production credit, could be a terrible boomerang if such a natural catastrophe should ever occur. It's probably a heck of a time to talk about laying away something for a rainy day, when few farmers are hoping to do much better than just make a living this year, but those are the facts of life.

did not use these practices whenever the need arises. The winds have been pretty high recently, we will admit, but they are nothing to compare to the velocity and duration of the winds that are customary for the Plains in February through April. Yet we have seen some of the worst sandstorms of the year whistling along over puddles of water in fields so wet a man couldn't walk in them! Every farmer understands how this happens, but to the folks (such as this writer) who don't ride a tractor in front of a "sand fighter" every week, it's hard to comprehend what is going on. It just doesn't seem natural for the land to blow the way it does. Which all goes to say that the Plains has come a long way since the "dirty 30's" when only a vague notion about how to resist wind erosion by mechanical means existed. Farmers now know how to tie their land down with a plow. The way the Plains is exposed to the hazard of wind erosion, this is certainly a good thing, because we have seen convincing proof that water alone won't do the job, in spite of all the credit we give these days to irrigation for ending the Dust Bowl in the area.

### Three County Youth Attend 4-H Roundup

One of Texas' best known roundups will be at Texas A&M College this week. It is the State 4-H roundup and an estimated 2,000 4-H members, adult leaders, county extension agents and others interested in this youth organization will attend. Girls going from Parmer County are Janice Hillock, Farwell and Barbara Rea from Bovina. Their demonstration is on Dairy Foods and was given Wednesday morning at 8:00 a. m. Gary Foster is the only boy from Parmer county who is attending the roundup. His demonstration is on tractor driving. The big day was June 10 when state winners in 25 judging and team demonstration contests were named. Those participating in the contests have won that opportunity by first being county winners and then by taking first or second place honors in their respective districts. Several of the state winners will have the opportunity of representing Texas in national contests later in the year. The first general assembly, featured an address by

Dr. Kenneth McFarland, educational consultant and lecturer for General Motors, Topeka, Kansas. No roundup is complete without a chuckwagon and barbecue and the 4-H one was scheduled as the opening feature of the second evening's program. A general assembly followed the barbecue. in smaller bowls to sweeten any room in the house.

Do you reach for something cold to drink on these hot summer afternoons? Delicious, frosty cold milk is your best choice, both flavor-wise and nutrition-wise, according to extension foods and nutrition specialists. Be sure it's ice cold. . . But don't put ice cubes in it for that will dilute it and spoil the flavor. The easiest and the best way to make sure your milk is in your refrigerator during the summer months. When you pour milk into the frosted glasses, it will be really cold and delicious. A glass of milk is refreshing any time during the day. Try drinking it when you stop to rest in the midst of your housework. It serves as a quick energy pick up, and is loaded

with food nutrients. An 8-ounce glass of whole milk has 170 calories, about one-thirteenth of the needed daily caloric requirement, but it is high in other food values. You get a third of your daily calcium requirement, more than one-fourth of the riboflavin, and more than one-sixth of the protein requirement. Milk is your best source of calcium, the mineral that keeps bones hard. Why not begin getting in the milk-drinking habit at mealtime and between meals, too. Most people like plain milk at mealtime, but for between meals try adding a scoop of ice cream or a little sweetened, crushed, fresh fruit. Whether you're enjoying plain milk, or a dressed up version, you'll find milk tastes better these hot summer days when it's served in a frosty, cold glass.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

House Bill 16, a bill to change the method of allocating funds for farm to market roads in Texas, is considered detrimental to the future of this important section of Texas roads. Farm Bureau is fighting, and urging its members and others interested, to write or call or wire their representative to vote and use their influence against passage.

Walter Winchell, in 1955, wrote the following: "Labor and farmers plan to be married in 1960. This is the year labor leader Walter Reuther will run for the presidency. If he wins, they tell me that will be the end of the Democratic Party. Farm Bureau is doing all in its power to stop the proposed (by labor leaders) marriage."

Since there will be some beautiful girls wondering, we will tell you that the directors agreed, at their last meeting, to not have a Parmer County Farm Bureau Queen Contest

this year. They feel that the field of queen events has increased to such an extent that other methods of recognition may be found that would be more acceptable to the public. They are continuing their financial assistance to FFA, FHA and 4-H groups when request is made. The 4-H contribution has already been made for this year.

The Texas Department of Public Safety has released this factual statement: Accidents, deaths, etc., for motor vehicles during 1958, in 42 per cent of the cases reported, involved a drinking driver in one vehicle or the other. So if you drive, don't drink. And if you think penalties provided for drinking drivers should be applied more than they are, talk to your county judge about it.

There are 23 million people on U. S. public payrolls. Too many? Over one fifth of all income tax money in the U. S. is collected and turned over to foreign countries. Do you like this?

"Look not thou upon the wine when it is red, when it giveth his color in the cup, when it moveth itself aright." Prov. 23:31
