

AND ROUNDUP—16TH CONTINUOUS YEAR

CISCO—Pop. 12,900; 1,614 feet above sea; 5 lakes of good water; 172 blocks brick sts.; All schools; 3 rail inlets; no mosquitoes; no malaria or typhoid of local origin.

VOLUME XLVI.—NO. 32.

CISCO, TEXAS, THURSDAY, FEBRUARY 16, 1928

FIRST SECTION—TEN PAGES

\$1.50 PER YEAR

TEXAS

By WILL H. MAYES, Austin.

TEXAS BUILDING INCREASES—Texas is growing. Building and engineering contracts let in January totaled \$16,633,900, the largest amount ever recorded in January, but only 7 per cent over that of last year.

The growth is nicely distributed. Thirty-eight per cent of the January construction was for residences; nineteen per cent was for industrial buildings; seventeen per cent was for commercial buildings; fourteen per cent was for public works and utilities. The rest was well apportioned among minor building projects.

The industrial review issued by the F. W. Dodge Corporation reports projects under contemplation but for which contracts have not been let, to the total of \$40,564,900. These figures do not include farm and country building, nor places not requiring building permits. They speak mightily for the present development of Texas.

CORPUS CHRISTI LEADS—For the week ending Saturday Corpus Christi nearly doubled every other city in Texas in building contracts let, the total for that city being \$226,380. San Angelo came next with \$481,650, with Houston, San Antonio, Fort Worth and Dallas following in the order named.

The large cities of Texas hardly regard Corpus Christi and San Angelo as being in the "city" class, but it is going to pay these "uptity" cities to keep their eyes closely on some twenty of the smaller cities that could be named.

MEXICO FAVORS BOX BOLL—It is learned that Mexican influence is backing the Box bill which would place Mexico and Canada on the same footing as European countries as to immigration to this country. The reason for that, and there is a reason, is that Mexico is anxious to hold its present population and to use it in the development of its numerous irrigation and development projects in competition with this country, which in South and West Texas, at least, must depend largely on Mexican common labor.

COTTON MILLS AND CREAMERIES—Bankers, merchants and farmers in Wood county have started out to secure two cotton mills in the county as the goal of their activities for 1928. They have appointed a committee to work out their plans. It remains to be seen whether the committee will function efficiently or not. If it does, in all probability Wood county will have a cotton mill or two by the time the year's cotton crop is ready for market.

Shelby county's cotton was not quite so high, but it was acute. Within the period of one week stock was subscribed to secure two \$40,000 creameries, one at Center and another at Timpan, and soon after the stock was subscribed contracts were let for the buildings. With the right kind of follow-up efforts to keep the creameries active, Shelby county farmers will soon have enough idle money in bank to get cotton factories.

REDUCTION COTTON ACREAGE—Fifty or more Texans will attend the cotton acreage reduction meeting at Jackson, Miss., Feb. 20. In the meantime the pink boll worm has started an acreage reduction movement in Texas by appearing in some seven cotton growing counties in West Texas. Working together the two forces will likely bring about a farm diversification movement that will soon rebound to the good of the state. It is hard on those directly hit by the boll worm army, but as a diversification Mr. P. Boll Worm is a success.

FRISCO MAY EXTEND—San Antonio and San Angelo started Frisco officials with the volume of freight shipments that could and would be turned to that system to induce it to build in the gaps to have a connected line from Corpus Christi through San Antonio to San Angelo, with a direct north line through Brownwood and Cisco to its northernmost Texas connections.

If you care to look at a map you will at once see the wonderful possibilities of such a system and be impressed with the comparatively small amount of road that will have to be built. The wonder is that it hasn't been done before.

The surprise came in the large revenue that could definitely be promised the system, which, as expressed by President Morrow of the Gulf and West Texas road, is so large that "I don't see how the Frisco can turn it down."

THE WEATHER—East Texas—Cloudy and local rains. Colder in northwest portion tonight, and freezing in north portion.

West Texas—Cloudy with rain in southeast portion. Colder in southeast tonight.

LOCAL JURIST FOR APPEALS COURT JUSTICE

Cisco has another citizen offering this week for one of the most important offices within the gift of the people of this district. He is Burette W. Patterson, well known jurist and former member of the legislature. Mr. Patterson can lay claim to being a genuine native of Cisco, having come here when the town was first laid out, and he has called this home for the greater part of the time since. He came with his parents from Arkansas to Brecken-

BURETTE W. PATTERSON.

ridge in 1878, and removed to Cisco in May, 1881, when the town came into being. Here he spent his school and young manhood days, graduating from the Cisco high school in 1889. He then received literary training in Baylor university in Waco, and graduated from the University of Texas law school in 1893. He was licensed to practice law by the supreme court of Texas in June, 1893, and by the supreme court of Oklahoma in August, 1917. He has continuously engaged in the practice of law in Texas and Oklahoma since that time, and he is well and favorably known.

Since 1881, with the exception of the period from 1910 to 1919, which he spent in Pauls Valley, Okla., Mr. Patterson has been a resident of Cisco. He was a member of the Texas legislature in 1923, but declined to offer for re-election. It is conceded by all that Mr. Patterson is well qualified to perform the important duties devolving upon an associate justice of the court of civil appeals of the eleventh supreme judicial district, located at Eastland. That his candidacy will meet the approval of a large number of the voters of this district is certain. He is a strong man, offering for an important office, one he is well fitted by training and experience to fill satisfactorily.

Colored Man Fined On Wife's Complaint

Leo Wilson, Cisco colored boy, was arraigned in the corporation court this morning on a charge of disturbing the peace, and upon his plea of guilty was fined \$50 and costs, aggregating \$61.70. It is reported that the domestic relations of Leo and the wife of his boss had not been as tranquil as that anticipated when the pair stood before Hymen's altar and took upon themselves the vows to love, honor and obey "till death do us part," for it is said that this is not the first time that Leo has appeared before the bar of justice in the corporation court, growing out of the domestic infelicity. But the immediate cause of Leo's trouble seems to have originated in one of the family affairs during which Leo attempted to enforce his inherent right of obedience from his spouse, and when she rebelled he proceeded to chastise her, which resulted in his arrest and conviction, with the accompanying stiff fine as recited above.

OWSLEY NAMES GEORGE HIS CAMPAIGN MANAGER

DALLAS, Feb. 16.—Ballard W. George of Corsicana, has been appointed general organization manager for Alvin Owsley in his campaign for election to the United States senate on the democratic ticket, it was announced here.

ONE DEAD IN PLANE FALL; ONE INJURED

DALLAS, Feb. 16.—Mrs. E. C. Aldridge, of Wewoka, Oklahoma, arrived here this morning to take home the body of her son, Jerry, killed in an air plane crash at Love field last night. Verne Mallers of Brownsville is in a serious condition from injuries received at the same time.

COLEMAN CO. SHOWING ON OIL HORIZON

COLEMAN, Feb. 16.—A new shallow oil pool lying between the Dibreil pool and the Amerada-Burkett field in northeastern Coleman county is in prospect with the A. R. Forester et al No. 1 Cora Davenport, 325 feet from the south and east lines of the north-east 404 acres in the W. T. Dunlavy survey, No. 259 standing more than 100 feet in oil after drilling sand from 913 to 929 feet.

Oil men believe a three or four quart squire in the sand will complete the new well six miles southwest of the Burkett field for a 15 to 20 barrel pumper of 44 gravity oil. The well is a result of three tests drilled in that section. Several years ago a well nearly one mile southeast of the producer encountered 300 feet of the sand at the 900 foot level, but was dry. Later a well just southeast of the Davenport No. 1 encountered a bare showing in the sand and then following moving to the location 400 feet north found the sand which may be an edge of a more fertile area.

Rough correlations indicate that the sand is the same as that found in the Roth & Faurot No. 1 Stevens southeast of Coleman. At the time the well is placed on the pump on the Davenport property Forester and his associates will likely move further north and west, drilling several wells feeling out the trend of the formations or the extent of the sand in that area.

Program For Meet of Young Women

The Y. W. A. meets at the First Baptist church this evening at 6:30 o'clock. The following program will be given:

Topic of the lesson—"True Patriotism."

Hymn.

Devotional—"Missionary Spirit," Matt. 9:35-39. Mrs. C. H. Van Eman. Prayer.

Vocal solo—Miss Marie Glenn.

"A True Patriot and Laker of True Patriotism"—Letha Maude Eager.

"Failing Our Children"—Opal Bryant.

"Failing Our Brothers"—Pearl Bryant.

"Hindrances to True Patriotism and the Motive of Our Patriotism"—Louise Karkalis.

Hymn—"Jesus Calls Us."

Sentence prayers or consecration to the task.

Every one is urged to be present and on time.

BOX CAR BURGLARS GET AUTO CASINGS

Box car thieves made a haul at Rising Star Saturday and Sunday. Cisco police were informed Wednesday night, when officers at that place reported a freight car had been entered and ten automobile casings carried away. Cisco police were given a description of the casings stolen with make and number of each.

INCOME TAX DEPUTY COMING HERE FEB. 29

It is announced by the First National bank that G. H. Hayward, deputy income tax collector, will be in Cisco and located at that bank on February 29, for the purpose of assisting tax payers in making correct returns. There will be no charge for the service, and it is hoped that all who feel the need of help will call on Mr. Hayward at that time. It is important, both to the taxpayer and the government, that the returns be correctly made out.

HICKMAN'S PAL IN THOMS SLAYING

Welby Hunt, right, Hickman's companion in the slaying of Ivey Thoms with his father, left, as they appeared before Judge Hardy when he set the case for February 15, at Los Angeles. (International Newsreel)

LOBO QUEENS DANIEL BAKER GIRLS TONIGHT

Tonight the Lobo Queens will play the girls from Daniel Baker college of Brownwood, the game to be played in the Cisco high school gym, starting at 7:30 o'clock. Both teams have enviable records, and are calculated to put up a stiff fight for the decision at tonight's game. The locals, fresh from two winnings over Ranger high school, will enter the play tonight with full assurance and confidence, yet there may be a slip, as the Brownwood lassies are said to be well coached and skilled players.

TWO KILLED WHEN TRAIN CRASHES CAR

PORT WORTH, Feb. 16.—J. R. Hazlewood, 64, and W. H. Lancaster, 31, both of Handley, were instantly killed when a Texas & Pacific passenger train demolished their automobile at Handley, 8 miles east of here, this morning.

Personal Injury Case is Settled

EASTLAND, Feb. 16.—Mr. and Mrs. James T. Pickel, El Reno, Okla., who were slightly injured last Sunday night when their car struck a protruding manhole on North Marston street have signed a personal liability agreement with the city. It was understood that the city would pay for the cost of repairing the car and also pay for the hospital expenses incurred. Mrs. Pickel was carried to the hospital after the accident suffering from a badly hurt knee and bodily bruises.

SHERIFF OF DAWSON CO. HERE WEDNESDAY NIGHT

Sheriff Joe Ray, of Dawson county, spent Wednesday night here, having in custody a prisoner whom he is taking back to Lamesa today to answer a charge of theft of a saddle. The prisoner was locked in the city jail for the night. Mr. Ray formerly lived in Cisco, where he was constable at one time, and was greeting many friends at the city hall this morning.

PATRIARCHAL DEGREE BE GIVEN DESDEMONA

RANGER, Feb. 16.—On Monday night, Feb. 20, the Ranger Canton will confer the patriarchal degree on a class at Desdemona. On last Monday night the Canton conferred the same degree on a nice class of candidates for Ranger Canton No. 36.

KANSAS CITY, Feb. 16.—Eddie Foy, well known vaudeville artist and comedian, died suddenly here this morning from angina pectoris.

DEFICIT MAY RESULT SLOW TAX PAYMENT

WASHINGTON, Feb. 16.—With federal income tax collections for March estimated at 10 per cent less than last year, a deficit is threatened in 1929 if the two hundred and ninety million dollar house tax reduction is adopted by the senate, treasury officials announced today.

LEE DEPARTS SATURDAY TO JACKSON, MISS.

Col. R. Q. Lee, named by Governor Moody as a delegate from Texas at the governors' conference, which convenes in Jackson, Miss., next Monday will leave Cisco Saturday for that city to be present when the conference is called. This conference of the governors of the southern cotton producing states, and other representatives from the several commonwealths, will undertake the herculean task of solving the problem of over-production of the South's staple crop by inducing the cotton planters to curtail their cotton acreage.

Just whether any feasible plan will be evolved yet remains to be seen, but it is pointed out by the friends of Colonel Lee that in his selection the conference will have the benefit of the advice and counsel of a man who has given the subject much serious thought, a man of sound judgment and wide experience, both as a farmer and business man.

CISCO P. T. A. HEARD REPORT OF STATE MEET

The High School Parent-Teachers association held an interesting session at the high school auditorium Wednesday afternoon at 3 o'clock. The meeting was presided over by Judge Eugene Lankford, president of the association, and interesting talks were made by Mrs. Fred Moellendick, Prof. G. W. Colliam, instructor of the high school band, Supt. J. J. Youngblood and other teachers. The teachers stressed the importance of the parent-teachers association from the teachers' viewpoint, while Professor Colliam told of the advantages of music to the children, and the inspiration music gives to higher motives. Mrs. Moellendick's talk was most interesting, as it was a concise report of the proceedings of the Parent-Teachers conference held in Houston. Mrs. Moellendick was so clear in her statement of the proceedings that one could vision the entire proceedings on the "floor of the convention" from her story of matters that transpired.

"The duty of parents to their children," formed the subject of Superintendent Youngblood's talk. He stressed the importance of proper rearing of children, and stated that the parental duty was being superceded, in a large measure, by the courts of the land. That proper parental training would lessen crime in the country, was brought out in Mr. Youngblood's talk.

Others who made talks brought out the fact that parents could be of material assistance to the teachers by home instruction, both in helping the children with their studies as well as inculcating a higher standard of life. The trend of all the talks made deplored the lack of interest shown in the parent-teachers meetings. It was said there appeared to be a tendency to subordinate the intellectual training to that of the physical development of the pupils of the schools. The fact of a student winning highest scholastic honors rarely gets public recognition, but athletic achievements are given the widest publicity, it was pointed out.

PLANE DAMAGED WHILE GLIDING CLEAR OF CAR

RANGER, Feb. 16.—F. J. Huff, licensed airplane flyer, and former buddy of Chas. A. Lindbergh, and his flying buddy, S. L. Underwood, damaged their plane Tuesday afternoon about four o'clock when it turned over after landing on the municipal air port. Ranger, Huff had landed the plane once and decided to land on the municipal field. He flew over the field once and seeing that it was clear he dropped. When nearing the ground a car was seen on the runway and it was necessary to throw one wing over in order to miss hitting the car. When this was done the plane turned over. The plane is damaged to the extent of approximately \$250. Parts have been ordered and the plane will be ready Sunday to take up passengers. Both Huff and Underwood are licensed drivers and their plane had recently been licensed and inspected by government officials. Huff received a severe cut over the left eye as a result of the crash.

VERDICT NEAR IN HILL CASE; LAWYER DEAD

OTTAWA, Ill., Feb. 16.—A verdict is reported near in the trial of Harry Hill, the streetcar conductor charged with matricide. A pall of gloom settled over court today as the result of the accidental death yesterday of Representative Lee O'Neil Brown, chief defense counsel.

'FOX' LAWYER MAKES APPEAL TO HIGH BODY

LOS ANGELES, Feb. 16.—An appeal to the California supreme court from conviction and death sentence of William Edward Hickman, confessed slayer of little Marion Parker, will be filed today, it was announced, this morning by Richard Cantillon, associate defense counsel.

Oil Committee Follows Trail Of Liberty Bonds to Prove Payment of Republican Debts

WASHINGTON, Feb. 16.—A winding trail is being followed today by the senate oil investigating committee to show that Harry F. Sinclair gave the Republican national committee \$75,000 worth of the Continental Trading company's mysterious \$3,000,000 Liberty bond fund for payment of the 1920 campaign debt.

SWEETWATER READY FIGHT COTTON PEST

SWEETWATER, Feb. 16.—Sweetwater has started its efforts towards caring for the large crowd that is expected to attend the pink boll worm conference, which is to be held in the city auditorium here February 25, at 10 a. m. A special committee for this occasion has been appointed by Joe H. Boothe, president of the city board of development, which will assist in the entertainment, housing, special information and other matters. The committee is composed of C. R. Simmons, chairman, L. D. Terry, J. H. Beal, Jr., J. H. Doscher, Carl Rasmund, Roy Costepens, W. H. Jobe and John L. Ross.

An appeal has been sent out to all agricultural and commercial organizations, newspapers, county agents, business men and agricultural men throughout the country requesting that they assist in giving this meeting state-wide publicity so that the greatest good may be accomplished by having a representative present. Through an erroneous report the Dallas and Abilene papers stated Tuesday that the meeting was to be held on February 15 instead of February 25. In consequence several persons arrived in Sweetwater Wednesday for the meeting.

Broadway Highway Motorcade in April

EL PASO, Feb. 16.—The organization meeting of the Broadway Highway will be held at Memphis, Tenn., April 20 and 21, it is announced. Motorcades will leave New York and San Diego, arriving in Memphis for the opening day of the meeting. Col. Ed Fletcher of San Diego, has advised H. L. Boney of this city that ten cars will leave San Diego April 13. Other cars will be added to the motorcade enroute, joining with the El Paso delegation here.

WINDS BULFF FLIERS WHO WANT RECORD

PORT WORTH, Feb. 16.—Cross winds again delayed the endurance flight of Al Henry and Joe Hart, the Oklahoma aviators, in their monoplane, "Fort Worth." Everything is in readiness, and the start only awaits favorable weather conditions.

COACHES WILL WITNESS CORNER STONE OPENING

RANGER, Feb. 16.—Blair Cherry, mentor of the Ranger high school Bulldogs, and Tricky Ward, coach of the junior college athletes, will be invited to attend the opening of the cornerstone of the Eastland county courthouse—to assist Matty Bell, Texas Christian University coach, in overseeing the opening. Both Cherry and Ward are former members of the Horned Frogs of Texas Christian University. The three will be special guests of the Eastland board of city development to see if the legend of the Horned Frog is true. The cornerstone will be opened in about a week, is the opinion of those wrecking the building.

SEVEN FOOT NEGRO JAILED AT PALESTINE

PALESTINE, Feb. 16.—Seven feet of man is now lodged in the Anderson county jail here and is finding his style somewhat cramped. The door in the cell is about six feet high; his bunk is the regulation six feet six inches long, and the windows are so low that he has to bend over to look out.

LEST YOU FORGET MEETINGS TONIGHT

Good Will Rebekah lodge, 7:30 p. m., at Odd Fellows hall.

Cisco Commandery No. 47, 7:30 p. m., at Masonic Temple.

MAY REQUIRE BUS DRIVERS BE CAREFUL

AUSTIN, Feb. 16.—School bus drivers throughout the state will be required to stop at all railroad crossings, if the recommendations of State Superintendent of Public Instruction Marrs are followed. Marrs today sent all county superintendents the suggestion that this procedure be adopted for the sake of safety, and urging the dismissal of all drivers who fail to comply with the instructions.

ASKS VERDICT NOT GUILTY IN JACKSON CASE

INDIANAPOLIS, Feb. 16.—Counsel for Governor Ed Jackson, on trial for conspiracy to bribe, today asked for a directed verdict of not guilty, on the claim that no concealment of the \$10,000 bribe had been proved.

SEVEN INJURED IN WRECK ON SOU. PACIFIC

NAVASOTA, Feb. 16.—Seven members of a wrecking crew were injured in a Missouri Pacific train wreck four miles north of here today. L. G. Norton, derrickman, is in a serious condition. All of the injured were taken to the hospital at Palestine. The cause of the wreck is unknown. The crew was enroute from Houston to Taylor at the time of the accident.

SUNDAY SCHOOL TEAM TO PLAY BAGGER FIVE

The basketball team of the Young Men's class of the First Baptist church, being coached by W. E. Chapman, athletic director of the high school, will play the Randolph Badgers in the high school gymnasium Tuesday night, the game to start at 7:30.

This Sunday school team is made up of several ex-Lobos, one man from the Texas Tech and one from Georgia Tech, so there is every evidence that this quintet will be able to give the Badgers a lively battle. The public is invited. No admission will be charged.

GOULD DONATED TO HOUSTON FAITH HOME

HOUSTON, Feb. 16.—A check for \$10,000 has been received by Faith Home, an orphanage, as a gift from Edwin Gould, New York capitalist. Mr. Gould has made contribution to the home in the past, and last week dropped in on the children without warning. He remained at the home throughout the day playing with the tots. Gould's last gift was for \$5,000. Accompanying his check was a letter in which he asked that the money be used to purchase the site proposed for a new location for the home.

THE CISCO AMERICAN

and Roundup—44th Continuous Year

SUBSCRIPTION \$1.50 PER YEAR IN ADVANCE

Entered at the Postoffice in Cisco, Texas, as second class mail matter.

A. B. O'FLAHERTY, President and General Manager W. H. LA ROQUE, Advertising Manager H. D. LOCKE, (Phone 752J) Circulation Manager

WHAT WE PAY OFFICIALS

Very few states pay their high officials enough salary. The salaries of governors in Southern states range from \$3,500 to \$6,000 a year, Texas paying more than any other state.

The case of Governor Moody of Texas is not exactly typical. He is a young man, inherited no money and what he had been able to earn in his short career was probably absorbed in his campaign.

He cannot maintain his expenses with \$6,000 a year, and there are just two courses left him—one choice to go in debt, the other to accept donations or graft, and he does not choose to do either.

No southern governor lives on the salary of the office, but in most cases the man elected governor is a man of some age and has accumulated some means. He is thereby enabled to serve the state and pay a part of his own expenses.

The demands upon the supreme bench members are not so numerous, and it is expected of them to live quietly and unobtrusively, but they cannot save for a rainy day on the salaries they get, and any man fit to serve would run from \$15,000 to \$50,000 a year.

But none of the state officials are paid sufficient salaries in accordance with their duties and responsibilities. They are nearly all paid the same salaries as men received 25 years ago, notwithstanding the cost of living has more than doubled in that time.

It would not be a mistake if all the legislatures of Mississippi, Arkansas, Texas and Oklahoma passed laws tomorrow to double the salaries of all state officials.

Such an action would have the double effect of causing high class men to aspire to such offices in all cases, and would discourage any temptation that might come to a state official to accept favors or graft.

It is high time the states cease to expect men to serve them faithfully and efficiently, just for the honor of serving. "The workman is worthy of his hire," whether he works for a state, nation, county, municipality, corporation or individual.

A DANGEROUS LUNATIC

Edward Hickman found to be sane by a Los Angeles jury, is crazy, and he's a dangerous lunatic.

Under the California law, however, he is sane—he knew right from wrong. That is enough.

Not only he knows right from wrong, but he knows the consequences of the awful crime he committed, he knows the rope will strangle him or break his neck and end his career.

His is not the sort of insanity that justifies him or excuses him for crime. He had and has the power to reason and make deductions.

The verdict of the jury is the verdict of the country, and it is hoped will be the verdict of the supreme court.

The very fact that Hickman committed such atrocious crime marks him as abnormal, no normal or sane man could have done what he did.

It is too often the case that men commit murder in this country and then set up an insanity plea and finally go free.

Of course we know no poor demented person, void of reason and incapable of knowing right from wrong, should be punished for any crime, because they are not more responsible than a baby would be.

But the almost unanimous public verdict in the Hickman case is that he knew what he was doing, should pay the extreme penalty for his crime, and that given a fair chance of escape he would do it again. He suffers no remorse, and no feeling in the matter except the feeling for himself. He is not too insane to suffer and not too insane to be responsible to society for the crime he committed.

EAT LIVER AND LIVE

The support of a million quacks and frauds in this country now an in the past, is due to that intense desire of every living man to add yet a little span to his life—to enjoy health and stay here a few years longer.

No sooner a man or woman begins to feel the pains and aches that usually follow declining life they look for "cures," for "panaceas" for this and that, and thousands of poor helpless afflicted human beings

ings are being preyed upon by makers of nostrums and belts and health appliances.

It is true as gospel that "all a man hath will he give for his life." And no matter what we may charge to the discredit of the medical profession, we must credit it with having shown the human race the way to long life—and that way is to guard the food we eat, exercising in the open, breathe plenty of fresh air and drink plenty of fresh water—if a youth will follow the advice he will live to a good old age.

But we cannot expect to violate the rules for 40 years and then correct the condition by adopting health measures.

Years ago, our grandmothers knew that liver was a healthy food; they knew nothing of vitamins and had no opportunity to find out. Of late years we have regarded liver as a food for fish, cats and dogs.

Now comes the medical discovery that the liver of calves, sheep, chickens and geese are full of vitamin "A" which builds up the red corpuscles and makes the rich red stream of blood that cures "pernicious anemia," a disease that has been baffling medical skill for more than a generation and growing more dangerous and deadly all the time.

A liver that once sold for a dime and often given by meat dealers to good customers to feed to their cat or dog is now being sold in southern cities for from 50 to 75 cents per pound—and higher than any other meat. This is due to the fact that doctors are telling well people to eat liver for their health, and telling sick people to eat liver as an aid in restoring health, and even the price of that is going to put it out of the reach of the poor. Still it is better to pay all they have out for food rather than spend it on nostrums and "cure-all." Please pass the liver.

Human Interest Editorial

By Wickes Wamboldt

GOOD OLD HOGG

Do people's names interest you? Are there names that you like to hear? Are there names that soothe you? Are there names that make you laugh? Are there names that make you sad? Do some names impress you as clumsy and others as graceful?

Now there is the name Hogg. There is nothing aesthetic about it. It is short and sturdy. No one would give it a place in the halls of artistry. But it has large possibilities. I like it and I like to hear it pronounced "Hawg."

Whenever I meet a man whose name used to be Hogg, but who now calls it Hoag or Hogue or Haug, I feel he has overlooked something, that the filling has been left out of the pie and the stuffing out of the sausage.

Hogg is terse and blunt and to the point. It lends itself beautifully to publicity purposes. For instance, last summer I picked up a newspaper from Florida. A number of guava shippers were advertising their fruit. One of them was Ashtabula Hogg. The cognomens of the other guava shippers have slipped from my memory, but the name of Ashtabula Hogg has stuck.

Out in the Northwest there is a merchant by the name of Amos Hogg. But Amos is smart enough to call himself A. Hogg. And everybody in the town talks about it.

Who can help but admire the daring of that doughty politician by the name of Hogg who christened his three children Heza, Ura, and Imo.

Hogg would be a great name for a hotel. The average traveling man would stop there so he could tell folks to address him care of the Hogg House.

And what a name for a fountain pen, the Hogg Pen. And as an appellation for a flivver you couldn't beat it. Think of the effect of a billboard describing the Hogg Car. There are chaps who would buy the machine to be able to say that they were driving a Hogg. There would not be anything for Henry to do but take the manufacturer of such a car into partnership or go broke. They could put out a little farm tractor for rooting up the ground and call it the Hoggson.

Internal parasites, or worms, except tapeworms, can be overcome, he says, by feeding two pounds of good grade tobacco dust to each 100 pounds of mash.

Although not a perfect ration, poultry raisers have had splendid results with chicks as well as turkeys with 25 pounds of ground grain and like amounts of bran shorts and cottonseed meal.

Never Fails! Never Fails! To Drive Worms From Children WHITE'S CREAM VERMIFUGE Destruction to the Worms Harmless to the Child Price 35c per bottle. Sold by Tomlin-Young Drug Co.

SPORT REVIVAL READY; REPORT OF WRESTLERS

CHICAGO, Feb. 15.—Mid-western wrestling promoters are preparing for a revival of the mat game.

They see in the world's heavyweight title contest to be staged in St. Louis February 20 between Ed "Strangler" Lewis and Joe Stecher, both claimants of the title, an opportunity to again popularize the big toe and arm sport.

Chicago promoters declare the match is "entirely on the square" and that one of the main objects of the title bout is to attract interest in the long-neglected sport. The impresarios are planning to carefully note the public's reaction to the St. Louis contest and a revival of wrestling in Chicago and the middlewest generally is predicted.

A Long Dispute The heavyweight wrestling title has been in dispute since 1925 after Wayne Munn the giant Nebraska-tossed Lewis from a Kansas City ring. Lewis claimed he was fouled but Munn was recognized by many

as champion. Later in the same year Stanislaus Zbyszko, the ancient Polish grappler, defeated Munn in Philadelphia. In May of 1925 Lewis defeated Munn in a match at Michigan City, shortly after Stecher had defeated Zbyszko in St. Louis.

Stecher, who has claimed the title since the St. Louis contest, has been wrestling for more than 14 years and during that time has suffered only two defeats. Earl Caddock won from Stecher in 1916, in Omaha and Lewis defeated him in a New York match eight years ago. "Strangler" has been active in wrestling for ten years and like his opponent in the forthcoming bout has only been beaten twice. He lost the disputed bout to Munn and Zbyszko won from him in 1921 in New York.

Lewis is a master of the deadly head lock and will probably rely on this hold in the St. Louis meeting, while Stecher will employ the body scissors formula in which he is an expert.

Chicago wrestling fans are picking Lewis to win. They figure he will wear down Stecher in a long, drawn-out contest and eventually triumph with his famed head lock.

EXPERT TELLS HOW TO CARE FOR TURKEYS

SAN ANGELO, Feb. 16.—While ranchmen are preparing for their turkey crops, leading turkey men are advertising against roup, internal parasites and malnutrition.

Doc Brown, Tom Green county agent, recommends that the raisers vaccinate all their birds when they are about the size of quail. Malnutrition, Brown says, often is caused by the lack of green feed or laying mash during the Spring when the turkeys are laying.

Internal parasites, or worms, except tapeworms, can be overcome, he says, by feeding two pounds of good grade tobacco dust to each 100 pounds of mash.

Although not a perfect ration, poultry raisers have had splendid results with chicks as well as turkeys with 25 pounds of ground grain and like amounts of bran shorts and cottonseed meal.

MARKET FOR DAIRY PRODUCTS WILL FOLLOW COWS

Movement Over Country Turning Largely to Dairying; Cisco Sure of Demand For Milk and Cream

DAIRYING TO FORM STUDY FOR FARMER

WILLS POINT, Feb. 16.—Dewitt Huchabee, county agent, has announced a series of dairy schools to be held in Van Zandt County beginning February 20. They will be held in the various communities covering the entire county in one week.

Among those on the program are C. M. Evans, agricultural agent of the Texas and Pacific railroad; D. T. Simonds, secretary of the Texas Jersey Breeders association; J. Lynn Thomas, dairy specialist of the A. & M. College; J. W. Jennings, livestock specialist of the East Texas Cotton Company; and Mrs. Brandon, county home demonstration agent.

Scranton Holds Arbor Day Fete

Arbor Day program was rendered by the Scranton high school Friday, which the people from the entire countryside attended. An enjoyable occasion it proved to be. The program was fostered by John Andrews, school superintendent, and the ladies of Scranton. Many of the patrons of the school were present, and assisted in making the occasion a success. In the matter of planting the trees and assisting with the work of beautifying the grounds. Many trees were planted on the grounds and along the driveway.

At the noon hour a dinner was served by the domestic science girls, who assisted the ladies of the community in entertaining the throng gathered for the festivities. The road was graded by the road overseer, driveway around the school leveled, and gravel spread for the walks.

A little program by the third, fourth and fifth grade pupils, concluded with the recitation by the united classes of the "Tree Poem."

Trees were donated by the school presenting four; Mrs. John Andrews' music class, one tree; Rotary and Lions clubs of Eastland, one tree each; better homes committee, two trees; Wolfe's nursery at Stephenville, one tree, and the Cisco Floral company, one tree.

It's just as well to withhold mean thoughts until tomorrow, but kind thoughts had better be expressed today.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Cromulsion, an emulsified crocetin that is pleasant to take. Cromulsion is a new medical discovery which breaks up the mucus and kills the inflamed membranes and inhibits germ growth.

Cisco farmers were told by C. M. Evans, agricultural agent for the Texas & Pacific railroad, about the big milk plant that was being erected at Marshall, and what it would do for the farmers of that section. It seems that the counties around Marshall is preparing to furnish the raw product for the milk plant—except the people of Harrison county, where there seems to be a dearth of dairy cows, and the Marshall Messenger is appealing to the financial men of that town to come to the rescue of Harrison county farmers in the matter of assisting them in financing the purchase of a sufficient number of cows to build up the dairying interest of Harrison county, and thereby boost Marshall.

Eastland county is just entering the dairying industry—not sufficient headway having yet been made to even hope for the location of a milk plant here, but when there are a sufficient number of dairy cattle in the Cisco country the market will be established through the erection here of a milk plant or the inauguration of milk routes to take all the cream that may be produced. But first, the cows must be secured, and, as suggested by the Marshall newspaper, financial assistance may have to be extended the farmers to enable them to purchase the dairy cows. On this subject the Messenger says:

"There is one thing we must consider very carefully about this milk plant that is to be established in Marshall. It is clear beyond doubt that the plant will be a success, so far as the stockholders are concerned, for the milk is going to be forthcoming. The counties adjacent to Harrison are taking a great interest in the matter and will furnish a great amount of milk. But what is Harrison county going to do? Marshall of course desires to build all the section within its trade territory, which includes these adjacent counties, but the especial desire is that our own county shall take the lead in this great project that means so much. Our farmers are interested but many of them will need financial help in securing the needed cows. I am glad to know our chamber of commerce is working on a plan to meet this situation. This phase of the matter is vital and it must be solved if our county is to reap the full advantage of this dairy movement."

88th Court Session In School Building

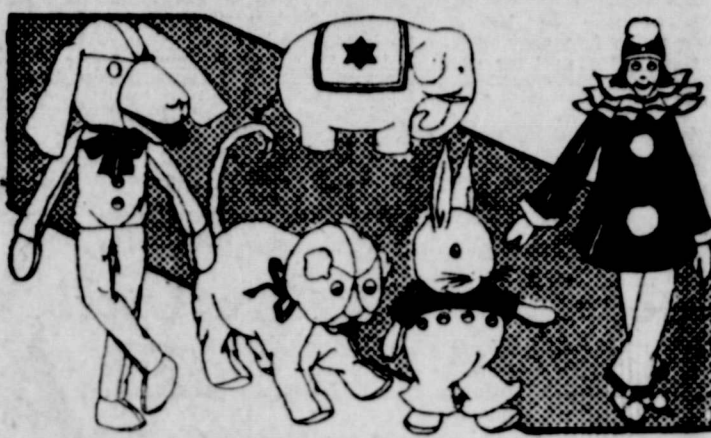

EASTLAND, Feb. 14.—The first jury held in Eastland county in 30 years—in a building other than the old courthouse—convened Monday before Judge Elzo Been of the 88th district court. The courtroom is now on the second floor of the old high school building, in the auditorium study hall. Incidentally there is considerably more room than in Judge Been's former courtroom. There are seats for approximately 300. The judge's bench is on the rostrum. Newspapersmen will be comfortable in the courtroom as every seat is equipped with a desk. These desks were of course, for the students. The distinction of being the first defendant tried outside the old courthouse goes to Velma Craft, colored, 16 years old, who is accused of forgery.

Suits Filed For Court Litigation

EASTLAND, Feb. 13.—The following cases are of recent filing in the district clerk's office for litigation in the district courts of Eastland county: Earl Hamilton vs. Texas and Pacific Ry. Co., damages; in re liquidation Guaranty State Bank, Olden; D. L. Lewis vs. American Insurance Co.; C. F. McClelland vs. Moody corporation; J. W. Thomas vs. J. S. Knott; James Willard vs. Ida Willard, divorce; Tom G. King vs. J. H. Ainsworth; J. D. Erad vs. G. Erad, divorce; Geo. T. Moon vs. Anna Moon, divorce; J. B. Morrison vs. C. B. McBride; Lucile Ament vs. E. K. Ament, divorce.

As long as she can fascinate the men, no woman really worries about her age. Every man has to waste a certain amount of time on "committee work."

"ELEPHANTS 'N' EVERYTHING"

If you have never thought of the numerous possibilities of an empty flour sack, look at the determined elephant shown above, or the "long legged" dog beside him. Of milder disposition but equally popular with the younger members of the family are the lumbering puppy and the beany who seems to have had his early training in a military school. While Pierre, in his new role as animal keeper, makes friends wherever he goes.

Shackelford Sale Of Herefords 17th

ALBANY, Feb. 16.—The Hereford breeders association of Shackelford county will hold their eighth annual show and sale here February 17. The association is composed of 24 of the leading Hereford breeders of the county. It is said.

These men have sponsored every pure bred cattle movement of Shackelford county and are believed responsible for the good herds found on the ranches in this section. Show day will find many herds here from out of town. There will be representatives from herds of Gist, Keith and Colbert.

Much Terracing Is Done in Mitchell

COLORADO, Feb. 16.—Community terracing schools are being held throughout Mitchell county by County Agent W. S. Foster, and farmers are becoming greatly interested in this work. Already several thousand acres of lands have been terraced in Mitchell county, but 50,000 acres more should be terraced, according to a survey completed by Foster.

Brown County Wolf Club is Functioning

BROWNWOOD, Feb. 16.—O. L. Coleman of the United States bureau of biological survey was in Brownwood Monday for a meeting of the newly organized Brown County Wolf club of which L. A. Nunn is president. The Wolf club meeting was held in the district court room Monday afternoon at 1:30. Plans for a concerted drive on all predatory animals of the county were discussed and in part formulated. The Brown County Wolf club is a part of the recently organized Heart of Texas Wolf club and is working in harmony with that organization in the eradication of all wolves and other predatory animals from the county.

SACRED HARP SINGING BE HELD HERE SUNDAY

The Sacred Harp singers will hold a song fete at the Twelfth Street Methodist church in Cisco next Sunday afternoon, commencing at 2 o'clock. The Cisco class will be in charge of the singing, and Sacred Harp singers from Putnam, Dothan and other places are expected. Every one in Cisco is invited, especially those who have never heard this class of music.

Even at its worst, life is amusing if you have a sense of humor and a sound body. No man looks twice at a woman who is sensibly dressed.

Long Horn Band Includes Cisco On West Texas Tour Next Month; Orchestra Is Important Feature

AUSTIN, Feb. 16.—On March 19 fifty University of Texas youths, ranging from freshmen to seniors, will leave Austin under the directorship of Burgett Pharr for the ninth annual tour of the famous Longhorn band, one of the foremost musical organizations of its kind in the United States. The band has again selected Northwest and West Texas for its tour this year, having gone to that portion of the state two years ago and being received with much enthusiasm.

Although a definite itinerary has not been mapped out for the tour as yet, the band in all probability will visit the following towns: Belton, Corsicana, Denton, Cisco, Abilene, Coleman, San Angelo and Midland. About ten days in all will be taken up by the tour. Mr. Pharr, the capable director, is finding much difficulty in weeding out the most competent group of musicians from the 150 aspiring candidates reporting for rehearsals. Aside from the 35 most capable boys picked for the band proper, another task is confronting the director of the university orchestra, a new feature of the tour this year, in picking 30 of the best concert workers for the orchestra work. The band will be assisted by a group of premier entertainers picked from the university campus, although more emphasis is being laid on the band and orchestra presentations this year than ever before. A program catering to the lovers of higher class music is being arranged this year, together with a mixture of lighter numbers and light vaudeville skits which will be sandwiched in between the heavier numbers.

The university orchestra, which is being carried on the tour for the first time this year, is an organization working in connection with the Longhorn band and is being taken on the tour to replace some of the vaudeville acts which heretofore had an important place on the program. Mr. Pharr felt that too much emphasis had been laid on the lighter vaudeville work, and he is trying to present only the highest type of concert work this year. Fewer but better vaudeville acts will be on the program, he stated.

BRIGGS HOTEL COMING DOWN; IS LANDMARK

CHICAGO, Feb. 16.—They are tearing down Chicago's famous Briggs House at 188 West Randolph street, for many years one of the city's leading hotels and for almost three-quarters of a century headquarters of mid-western officials and politicians.

Built in 1852, it was long a show-place of Chicago, with its huge red plush lounges in the lobby, immense leather armchairs and decorations, at the time, considered the dernier cri in artistic effect. Abraham Lincoln once made his headquarters at the Briggs House. It was in a dingy, rather gloomy room, even at its best, known as Parlor A, where Lincoln received word that he had been nominated for the presidency of the United States.

A few blocks away from the site of the ancient hostelry, which is to be replaced by a Chicago club building, the square red banner of the auctioneer flutters. Here has been carted the well-rubbed, age-stained furniture of the old hotel. Quaint desks with twisted legs; dressers, all aglitter with marble and mirrors, and bedsteads, almost ten feet high, make up the selections of the auctioneer. A prize among the antiques, is a hatrack, studded with old-fashioned pegs.

LON SMITH AT HEARING AUSTIN, Feb. 16.—State Rail-

ASTHMA

No cure for it, but welcome relief is often brought by VICKS VAPORUB

Fuel and Lubrication Make It Go!

Yes Sir, the fuel and lubrication are the things that make the car go. If you have gasoline that renders you the maximum amount of fuel for the quantity used, and that's always ready to start your motor when the ignition is turned on, there is no need for worry on that account. Proper lubrication will keep it going.

We have these things and then we offer you a quality of service second to none. Our service is free. Try us.

RAMSEY'S AUSTIN NURSERY

Austin, Texas

RCA-Radiola 17

Require Neither Batteries Nor Battery Eliminators

It operates directly from the lighting socket by means of the new "AC" Radiotrons. That is one of the reasons why Radiola 17 is the year's outstanding achievement in radio. Simplicity of operation, sturdy construction and excellent tone quality are outstanding features of this new receiver. Tuning is accomplished entirely by one knob. In addition there is only a "volume control" to regulate the output and a switch to turn the current on and off.

In Radiola 17, the owner finds all of the refinements that recent developments have contributed to the radio art. In compact cabinet, beautifully finished in mahogany, contains all the mechanism necessary for operation. Over the tuning control, there is a small electric light which not only illuminates the station selector but also serves as an indicator that the current is on or off.

NEW AIRSHIP PROMISED TO CROSS OCEAN

(By International News Service)
LONDON, Feb. 15. — A baby airship, that can be foisted up when not wanted, or can, at the end of a journey, be attached to mooring mast brought along in a lorry is due to fly from England to America this summer before R-100 is ready.

The airship is not built yet but Lincoln Sutton, managing director of British Airships, Ltd., says: "This ship will be flying in June, and at that time I hope to be in it over the Atlantic. We want to be the first absolutely all-British airship to land in Canada. The airship will be of a semi-rigid type. It will take only four months to construct."

A feature of the airship is that the linen used for the envelope will be dipped in a bath of metal which, it is claimed, will make a tremendously strong, impervious to lightning, fireproof and weatherproof. The vessel will cost \$1,500,000.

It is designed to carry thirty people, apart from a crew of six or ten men. Its range would be 1500 miles and would enable it to cross the Atlantic by making a call at the Azores.

DOTHAN

Mrs. Trammell of Breckenridge, is visiting her daughter, Mrs. M. E. Bowen, who has been ill for several days.

Mr. and Mrs. W. E. Crawford and children of Cisco, visited Mr. and Mrs. J. P. Jones Sunday.

MAT FANS ARE TO GET THRILL FRIDAY NIGHT

BRECKENRIDGE, Feb. 16. — Holding in his possession an iron-clad contract, together with appearing both Howard Cantonwine and Nick Velloff to wrestle at the city hall auditorium Friday night under American Legion auspices, promoter Gus Hansen is getting ready to present fans here with an evening's entertainment seldom witnessed in West Texas. Cantonwine, 217 pounds of muscle and brawn, hails from Des Moines, Iowa, the same state which has produced many of the nation's leading pit-men and mat-men. Howard is looked upon by some of the country's sport writers as possessing championship qualities; already he has convinced many toponath mat men that he is not to be taken lightly, especially when going over the "no time limit" route with them on the canvas. Renato Gardini, Italian heavyweight titleholder; John Persek, Nebraska tigerman; Jim London, Greek star; Joe Stecher, Ed Strangler Lewis, and others have agreed that the youthful Iowan mat artist must be given plenty of space for work, and due consideration insofar as his wrestling abilities are concerned.

The interest of the fans on the outside of the Cantonwine-Velloff match can be readily seen by glancing at the big advance sale of tickets in Breckenridge and neighboring cities. Ranger, Cisco, Eastland and Albany fans who saw the past two shows are expected to increase their numbers this week. Many reservations for choice seats have been made the early part of the week from out of town. Escorted ladies will be admitted free.

In the semi-final finish bout, two burly negroes will settle a dispute which has been hanging fire between them for a long time. Several fast preliminaries have been arranged on the same program.

SCRANTON

Miss Alta Mae Peavy of Dan Huron, attended church at Scranton Sunday night.

Mrs. Andrus entertained the Glee club at her home Saturday night. Calvin Morris is reported ill.

Miss Grace Davidson of Callahan was the weekend guest of her mother and father, Mr. and Mrs. Ben Davidson.

Mr. and Mrs. Marice Spraws entertained the young people of Scranton Friday night. Everyone reported a nice time.

The Scranton community met last Friday and spent the day working on the school grounds.

Ellis Farmers Make Money On Onions

WAXAHACHIE, Feb. 16.—Showing how farmers of Collin county have made a financial success of farming aside from growing cotton, Lewis Knighton of Farmersville was in Waxahachie this week supervising the planting of large onion beds.

Several cars were planted to both white Bermuda and crystal varieties, several hundred thousand slips being sent here from South Texas. It is said that Ellis county soil is similar to Collin County's, and that up to \$200 an acre can be derived from onion growing. Knighton was brought here by W. A. Canon, vice president of the Citizens National bank, an old friend, and hundreds of persons were interested spectators.

MAKES MONEY ON CHICKENS AND DAIRYING

CLARENDON, Feb. 16. — W. T. Lowe living two miles south of Clarendon, reports that without a single bale of cotton last year and practically none the year before, he has made more money than ever on chickens and cows. Lowe gives the following figures for January: From 222 hens during the month he received 276 dozen eggs, which were sold at an average of 35 cents a dozen, bringing \$96.60. Expenses for feed, labor and other items amounted to \$26.40, giving him a profit of \$70.20. According to Lowe, this is a monthly average of his business for the past year. In addition to the chickens, Lowe milks five cows, selling part of the products. This example is

Lamesa Buys Six Taft Ranch Bulls

TAPT, Feb. 16.—County Agent C. B. Martin, Lamesa, recently made a trip to Taft Ranch Jersey Farms here and purchased six young bulls and seven young cows for his county. The bulls were grandsons of Masterman of Oaklands, Xenia's Sultan and Dairy-like Majesty. Taft Ranch Jersey farms ship-

ped recently to Matador, Baron's County Agent M. P. Leaming for W. I. Rushing and J. D. Morris and are among the best bulls that have ever been shipped from Taft. Try an American classified ad.

Infant

FULL GROWN IN TWO SHORT YEARS

Such headlines in a news item would be startling, but only two years ago Cisco Acorn Store was the chain store infant of the business world. Today it has taken its place in the front ranks of the leaders in the world of retail merchandising full grown. It is doing a man size job of serving Cisco and this rich growing territory.

Fostered by a parent already past the half century mark, this business infant started life directed by the guiding hand of a parent organization, which for more than 50 years has been supplying the needs of the nation's buying public. Cradled in the lap of this colossal parent whose guiding arms reach from the Canadian border to the Gulf of Mexico and from the east coast to the Pacific ocean; whose far seeing eyes have, for fifty years and more, searched out the right paths to successful merchandising, this infant of yesterday received a start in business life given to no other retail organization. Guided and directed by such parental wisdom, with its footsteps started so early down the broad path of service to successful merchandising, it is no surprise that in two short years this infant grew to full maturity and has taken its place in Cisco as a leader in serving Cisco and Cisco's trade territory.

W. B. COLLIE CANDIDATE CO. COURT AT LAW

W. B. Collie, popular and capable incumbent of the office of district clerk, has the following to say in announcing his candidacy for the office of judge of the county court at law:

To the Public:
In announcing my candidacy for the office of judge of the county court-at-law, I desire to express my gratitude for the loyal support given me by the people of Eastland county in my first campaign for district clerk and in electing me to a second term to that position. The confidence shown in me is deeply appreciated and it has been my fervent, sincere endeavor to repay this confidence by fulfilling the trust you have reposed in me to the very best of my ability. I am now asking promotion at your hands.

During my administration of the district clerk's office, it has been my constant purpose to conduct it in a business like manner for the benefit of Eastland county, and at the close of each year I have turned over to the county treasurer a

WILBOURNE B. COLLIE

surplus of several thousand dollars above all expenses of the office. This has been accomplished because I have employed an absolute minimum of deputies at salaries as low as competent employees could be secured, and for the further reason that the fees of the office have been diligently collected.

While in the service of the public I have observed the trials of hundreds of cases in the county and district courts. This opportunity for observing the processes and procedure of our courts is, I think, of great value in qualifying me for the position of judge of the county court-at-law. Furthermore, the office of district clerk is a position that requires considerable study of law, and knowledge of technical questions. In addition, I might state that I have used much of my spare time in studying all the branches of law. If I am your choice for the position of judge of the county court-at-law, it will be my conscientious desire to try with fairness all cases and to maintain impartially the rights and privileges of all persons appearing before the court. The county court should try all cases over which it has jurisdiction and thereby relieve the congestion in the district courts.

As district clerk, I have tried to discharge fully every duty. I am now asking advancement. If through your ballots you allow me to realize this ambition I assure you, with a heart filled with loyalty to my fellowman and devotion to duty, that you will never have occasion for regret.

WILBOURNE B. COLLIE.

RUTH SNYDER LEFT ESTATE OF \$12,000
NEW YORK, Feb. 13. — Disposition of an estate valued at approximately \$12,000 was provided in the will of Mrs. Ruth Snyder, recently electrocuted for the murder of her husband, filed for probate. Jewelry valued at \$1,000 and other personal property was left in trust for Mrs. Snyder's daughter, Loraine, and the residue of the estate was left to Mrs. Snyder's mother, Mrs. Josephine Brown.

DEVELOPMENT INCREASES IN DISTRICT NO. 8

Reports to Omar Burkett, deputy oil and gas supervisor of district No. 8, shows continued new development, as is evidenced by the several who have filed intentions to drill in the following statements:

Burt No. 1 Overall, Coleman county, completed at 2502 feet.

P. T. A. Organized at Dothan Friday

Patrons interested in the Dothan school, aided by the county superintendent, Miss Beulah Speer, organized a parent-teacher association there last Friday. It was a very enthusiastic meeting, according to Miss Wilma Mason, one of the teachers, the secretary-reporter for the association. Another meeting will be held Thursday night of this week, when it is confidently expected that the membership will be greatly augmented. There were 11 members registered at the organization.

The following officers were elected: Mrs. E. L. Hazelwood, president; C. P. Drake, vice president and program committee chairman; Mrs. Luke Pippen, 2nd vice president and membership committee chairman; Miss Wilma Mason, secretary-reporter.

LEGAL NOTICES

NOTICE OF PUBLICATION OF FINAL ACCOUNT

The State of Texas:
To the Sheriff or any Constable of Eastland county, greeting:
Whereas, R. A. St. John, guardian of the estate of Cordia Johnson, a non compos mentis, has filed in the county court at law for Eastland county, Texas, his final account and exhibit of said estate, together with an application to be discharged from said guardianship, you are hereby commanded, that by publication of this writ once each week for three successive weeks in a newspaper regularly published in the county of Eastland, you give due notice to all persons interested in the account for final settlement of said estate, to file their objections thereto, if any they have, on or before the March term, 1928, of said county court, commencing and to be held at the court house of said county, on the 12th day of March, A. D. 1928, when said account and application will be considered by said court.

Witness, R. L. Jones, clerk of the county court at law for Eastland county, Texas.
Given under my hand and seal of said court, at my office in the city of Eastland, Texas, this 7th day of February, A. D. 1928.
R. L. JONES,
Clerk of the County Court at Law (Seal) for Eastland County, Texas.

Vocational Students From Four Schools Meet Here Saturday; Are Guests of City at Dinner Party

Forty-nine boys, students in the vocational agriculture departments of four public schools in this section spent Saturday here in stock judging contests under the direction of E. H. Varnell, and other teachers of vocational agriculture. It was declared to be one of the most successful meets of the kind ever staged in this section of Texas.

In the morning boys were divided into groups, according to the classes they proposed to judge, and taken to nearby farms where the stock was secured for their inspection. Frank Harrell, north-west of Cisco, furnished the sheep and hogs; Buck Myrick, just south of the city, furnished Jersey cows from his dairy herd; Vin Gamble had a bunch of fat Hereford steers; Prof. E. B. Isaacs, of Raleigh college, supplied exhibition Rhode Island Red chickens; R. L. Poe, exhibition White Leghorns, and Frazer White Leghorn Farm produced utility White Leghorns for the boys to place.

It was noon before the judging was completed, then the boys and the men who were directing the contest were guests of the Cisco chamber of commerce at dinner at the Alexander Hotel, and it was a great feed. Plates were laid for 60 people, and every one of them were used. E. H. Varnell acted as toastmaster, but he lost no time in unnecessary remarks for the time was short. Mayor Williamson officially welcomed the boys to Cisco, and expressed his pleasure at having them, and also for the privilege of being of service in the extension of their education. He was followed in the after dinner addresses by W. M. Finson, of the Texas Cotton Seed association; and he by Charlie Taylor, of Dublin. Mr. Taylor is the outstanding boy live stock judge not only of Texas, but of the South, having won \$200.00 in prizes and two scholarships by his work as judge, while yet a senior in high school. Those prizes were won in the stiffest competition at the National Dairy show at Memphis, Tenn., last year. An entertainment feature was

TWO STORES ARE ROBBED AT PUTNAM

man, was along in the capacity of adviser and enthusiast, he having long since passed the stage of these students.

Mr. Varnell and Mr. Peters, two of the leading lights in the affair, and the men largely responsible for the success of the meet, expressed themselves last night as being well pleased with the manner in which the contest passed off. The boys were also highly pleased with the day, and doubtless already looking forward to the time when they may again be the guests of Cisco in a similar affair.

The following boys participated: Dublin—E. J. Hughes, Basil Harris, Edward Gilbreath, Troy Tatum, Cecil Clendenen, J. B. Hancock, Joe Liles, Hubert Thomas, Paul Hilburn, R. L. Hickey, Richard Stout.

DeLeon — Paul Pearson, Paul Holleman, Bob Glover, Jack Pearson, Roy Nabors, Murry Toland, Woodrow Jackson, Taylor Dabney, Edwin Brown, R. V. Singleton, Doyle Preston.

Comyn — Conner Steel, Bryon Doggett, Blake Morrison, Thurman Rucker, Frank Turner, Webb Cook, N. C. Spicer, W. C. Floyd, Lowry Eastley, Clyde Thompson, Sam Willis, Lee Hand, Vernon Kirkland, Moody Haggard.

Cisco—Arlin Birt, Bert Ezzell, Glen Kinard, Hale McCannles, A. C. Poe, Bill Phippen, Clarence Penn, Clinton Peiray, N. L. Taylor, Floyd Thurman, Joy Watson, Cesbron Yeager.

The averages and final scores of the boys participating in the live stock judging held here Saturday under the direction of E. H. Varnell and other vocational instructors, were figured Monday afternoon. J. B. Hancock of Dublin, was the high point man of the contest, securing 246 out of a possible 300 points. He was closely pressed by N. L. Taylor of Cisco, and Doyle Preston of De Leon, who tied for second place with 242 points. Floyd Thurman of Cisco was third with 233 points.

Dublin also won the highest rank in team work, scoring 223 points out of a possible 300. De Leon was second with 216 points; Cisco third with 215 points, and Comyn fourth with 191 points.

In the various stock classifications, the winners were as follows: Hogs, Murry Toland, De Leon; sheep, Hubert Thomas, Dublin; beef steers, Paul Pearson, De Leon; dairy cows, J. B. Hancock, Dublin; poultry, Jack Pearson, De Leon. Cisco did not participate in the poultry judging.

Winners in the poultry judging contest were as follows: Dublin (4 boys), 524 points out of a possible 600; first, Comyn (6 boys), 475; second, De Leon (8 boys), 433; third,

C. & N. E. Contracts For Bridge Steel

BRECKENRIDGE, Feb. 14.—Contracts for the steel work on the four large bridges built on the extension of the Cisco & Northeastern from Breckenridge to Throckmorton were let in Dallas Monday. The falsework and piers on these bridges are in place and the track laid across that over Hubbard Creek and the Clear Fork. The steel gangs crossed the county line into Throckmorton county last Thursday. Monday they were about 1 1/2 miles beyond the line.

Texas has a large industry in the manufacture of plaster, wall board, cement, roofing, flooring, etc., from gypsum.

Scranton Resident Undergoes Operation

J. H. D. Fleming, aged 76 years, and one of the leading citizens of Scranton, is in the Baptist sanitarium at Waco for a major operation. His old friend, J. E. T. Peters, of this place, carried Mr. Fleming to Waco Sunday, they being accompanied by Oscar Harwell, son-in-law of Mr. Fleming. A preliminary operation was performed this morning. It was stated, and the major operation will be undertaken just as soon as the patient is in proper condition, probably in about a week.

All of us possess vast stores of energy on which we never draw except in a crisis.

Breckenridge Men Land 7-Foot Shark

POINT ISABEL, Feb. 14.—Three anglers from West Texas and Oklahoma landed a 7-foot shark Wednesday evening after an hour's fight with rod and reel off Padre Island jetty.

F. W. Holder of Breckenridge hooked the shark while fishing for red fish. After fighting him for an hour he got him to the beach with the assistance of his companions, C. K. West of Breckenridge and George D. Wyatt of Manitaw, Okla. The shark weighed 150 pounds and was seven feet long.

Under the surface of Texas lies an extraordinary variety of clays suitable for all branches of the ceramic industry, including brick of several grades, pottery, tile and statuary.

Tobacco Grower

Randolph Basketeers Going Good These Days; Kittens Go to Abilene Tonight; Brownwood Mnday Night

Basketball has taken a sudden spurt out at Randolph college. Last night the Badgers defeated the Ranger Junior college team by a score of 30 to 23, and the same teams are scheduled to play again on Thursday night of next week in the college gymnasium here. Coach Garrett says that his men are improving rapidly, and are in shape to meet the best of them in this section of the state. The college has a splendid court, and the games here are worthy of a larger patronage than has been given for the past few games. However, part of that can be attributed to the lack of publicity, few knowing of the games scheduled. The Daily News has arranged for information to be furnished it in the future, which will enable publicity being given all games and other activities at the college.

Kittens Are Active
But the Badgers are not monopolizing the spot light at Randolph college. The Badger Kittens, the girls' team, are coming into their own. The Kittens have a game scheduled for Saturday night with

the girls from Weatherford college of Weatherford, which promises to be one of the snappiest seen in Cisco this season. The game will be called at 7:30, and it is hoped there will be a large delegation of Cisco fans present in addition to the college students. If you enjoy good basketball, go out and help the Kittens to win from this Weatherford aggregation.

Tonight the Kittens will journey to Abilene, where they will meet the girls' team of McMurry college. Then Monday night they go to Brownwood for a game with the girls team of Daniel Baker college. The coach feels sure that the Randolph girls will give good accounts of themselves in these games.

Transportation is desired for the teams and fans to Abilene tonight. Anyone who will take one or more of them, is requested to phone the college as early this afternoon as possible.

It is proposed by Coach Garrett to enter both Randolph college teams in the A. A. U. meet in Dallas, the girls to play there on March 8, 9 and 10, and the boys on March 3, 4 and 5.

STYLE HINTS

By ALICE LANGELIER
International News Service Staff Correspondent

PARIS, Feb. 16.—Paris is putting lace on the smart afternoon frocks, giving them a delightful feminine touch which is quite welcome after the reign of masculine modes. Sometimes only the merest trifle is used but if it is beautiful lace, as it should be, and put on in the correct manner, the result spells satisfaction. Brilli makes three small motifs of ecru lace on a black tulle ground from a rounded yoke below the round neck of a charming black crepe satin frock. And the sleeves have elbow-deep flaring very discreet, and at the same time, cuffs of this ecru lace which is very elegant. There is also floating panel

of the lace falling below the hemline.

Lace ruffled cuffs or lace ruffled collars are also smart and dainty. The laces are invariably delicate and fine patterns and go far toward refreshing an old frock.

Crepe Georgette dance frocks are prettier than ever with lace flourishes. One in mulberry shade has a bloused waist with trimming in a round collar of ecru lace and an ecru feather flower on the shoulder. The upper tiers of the shirred georgette skirt have curved ruffles of the lace at the front and back and the lower ones have it at the sides.

Little lace jackets make very elegant frocks of plain ones. They are cut like a dinner jacket fasten with one button at the waistline and can be removed at will. Cheruit is showing one in brown lace with a bronze thread running through the pattern.

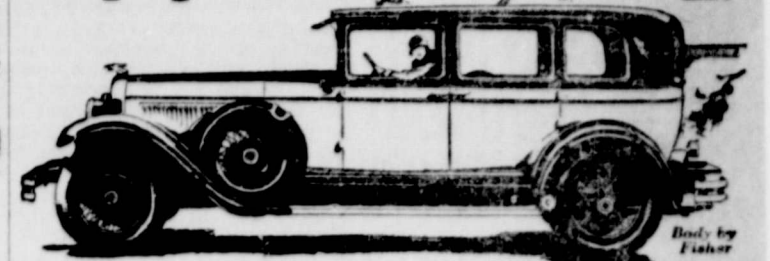

EASTLAND WOMAN HURT WHEN AUTOS COLLIDED

EASTLAND, Feb. 16.—Mrs. I. Moldave was cut off the face and bruised, and her little son sustained a cut lip, when the Buick sedan which Mrs. Moldave was driving was crashed into by a roadster about 7 o'clock Tuesday evening at the Bankhead highway and Connellee street intersection. The sedan caught fire, but the flames were quickly extinguished. Mrs. Moldave was driving across Connellee street when the road-

ster came from the west and made a left-hand turn, crashing into the sedan. The driver said he was blinded by the dust and a bright light of a car behind him reflected into his eyes from his mirror. Mrs. Moldave and her son were taken to the Payne & Brown sanitarium and given surgical attention, after which they were taken home.

We have a good supply of the most beautiful hardy roses, suited to this section of the state. Clyde Nursery, Clyde, Texas. 25114

Smarter. More Dashing Than Ever.. with Special Sport Equipment

The Landau Sedan with Sport Equipment, \$1375.

Six massive, oversize tires on six trim wire wheels. A couple of "spares" cradled smartly forward alongside the sweeping hood. A trunk rack behind to hold luggage enough for a week-end trip or a summer's tour... and the All-American Six is jaunty, more dashing than ever before... Style... Beauty... Swank. An air of fleetness, snap and drive. An appearance that reflects its smooth and silent flow of power. A certain pulse and assurance that result from All-American principles of design and Fisher body craftsmanship... Add to this distinctive exterior the extra measure of rakishness... the ultra-smartness that sport equipment provides at slight extra cost. The result is a degree of custom-modishness never before offered in any car approaching the All-American Six in price.

PRICES: 2-door Sedan, \$1045; Landau Coupe, \$1045; Sport Roadster, \$1075; 4-door Sedan, \$1145; Cabriolet, \$1155; Landau Sedan, \$1265.

New Series Pontiac Six, \$745 to \$825. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

"A Foot of Comfort Means Miles of Pleasure"

OF A SOCIAL NATURE

The Week's Calendar

Friday
Entre Nous Bridge club meets with Mrs. Walter Leach.
Twentieth Century club meets at the city hall.

Saturday
The County Federation of Women's clubs will meet at the Presbyterian church at 2:30 o'clock.
Miss Ester Hale and Mrs. R. H. Reese will entertain with bridge at the home of Mrs. Reese.

Missionary Society
Met With Mrs. Wilson.

The South circle of the Methodist Missionary society met Tuesday, February 14, at 3 o'clock at the home of Mrs. E. A. Wilson in Humboldt, in a Bible study lesson. The meeting opened by singing "Blessed Assurance," and a prayer by Mrs. W. A. Cox. The roll call was answered by reading the 103rd Psalm responsively. During the business session the treasurer reported \$88.65 in the bank. The Social Service superintendent reported for the month of January—visits to the sick and strangers, 173; bouquets, 23, and one funeral wreath; garments given away valued at \$35; cash donations to needy, \$4.85; and baskets valued at \$12. Mrs. Pye had a big box of mitts on display and explained to the ladies that they were for sale, the proceeds to go to the beginners department of the Sunday school. There were several dollars worth sold at once and all who care to buy mitts can get them by calling Mrs. George Winston. Mrs. Zed Erwin read and discussed the life of Jesus, from Mark 6 and Luke 2, after which Mrs. W. A. Cox commented on the lesson. The meeting closed with prayer by Mrs. P. T. Stanford. The members enjoyed a social hour while the hostess, assisted by Mrs. Miller, served a delicious plate of pear salad topped with whipped cream and cherries with cake to 23 ladies and two children.

Wednesday Study Club
Met With Mrs. Reese.

The members of the Wednesday Study club met at the home of Mrs. R. H. Reese on West Fifth street Wednesday afternoon. The meeting was called to order and the secretary, Mrs. J. L. McMurray, read the minutes of the previous meeting. Several matters of importance were disposed of, after which the program was turned over to Mrs. Reese, the leader for the afternoon. The topic of the program was "English and American Styles in Furniture." The following members gave most interesting as well as beneficial papers: Mrs. John Ducker, Mrs. Marshall McCrea, Mrs. J. L. McMurray and Mrs. J. E. Tiehenor. There were 14 members present. The meeting adjourned to meet February 29, with Mrs. Louise Karkalla at her home on West Ninth street.

Y. H. T. H. Bridge Met
Wednesday Afternoon.

The members of the Y. H. T. H. Bridge club were entertained at the Green Lantern ten room Wednesday afternoon. The valentine color scheme was carried out in the decorations, tallies and refreshments. Mrs. E. E. Jones had the high score, and Mrs. Charles Robart the consolation. Very attractive refreshments were served to the following: Messdames Roy Stover, Hoyt Agnew, R. C. Hayes, Bob Gilman, James Bates, H. I. Stock, E. E. Jones, Charles Robart, Nina Phillips, Will Cunningham, William Freeman and Miss Grace Gilman.

Dallas Guest
Honored Monday Afternoon.

Mrs. Hyler Lee entertained with bridge honoring her guest, Mrs. Harry Slack of Dallas, Monday afternoon at the Green Lantern tea

room. The rooms were decorated very artistically with the red and white color scheme predominating. Mrs. A. E. Willig was awarded the high score prize and Mrs. A. D. Anderson the consolation. Mrs. Slack was presented with a lovely gift. A very attractive salad plate was served to the following guests: Messdames Harry Slack, J. F. West, A. P. Loskamp, C. B. Williams, L. Wightman, A. D. Anderson, Homer McDonald, A. E. Willig, F. A. Blankenbecker, Miss Madeline Shepherd and the hostess.

DAVISSON NO. 3 GOOD DOUBLED IN PRODUCTION

The G. A. Davisson No. 3 well, on the Good land, in the Ramsower field, which came in last week had doubled its production, it was reported here this morning, after the well had been drilled five feet deeper in the sand. The well came in for a production of about 1000 barrels per day, and after the bit had penetrated five feet deeper in the pay, it was reported this morning as making 90 barrels per hour, or slightly over 2600 every 24 hours.

This well is in the Gordon pool in the Ramsower field, discovered by Col. Robert D. Gordon, one of the pioneer oil men of Eastland county. It was Colonel Gordon's faith in Eastland county, and his tenacity in the oil game that is responsible for the discovery of the Ramsower field, as he started operations there after men of less determination had condemned the field as worthless, when several wells had been drilled with production of insufficient quantity to operate, as the wells were abandoned before reaching the Ramsower sand, the objective reached when Colonel Gordon brought in the discovery well.

Colonel Gordon still retains the confidence of the oil fraternity, and is preparing to drill the Reagan No. 1, which is one-half mile south of the Root gusher, previously reported.

The Good No. 3 gives the Davisson interests three good producers in the Gordon pool with plenty of acreage yet undeveloped. The Ramsower field is located nine miles northeast of Cisco, and about an equal distance from Eastland, but the fact that it promises to be one of the best producing fields in Eastland county is glory enough for the entire county.

Ranger Girl Entry In Beauty Contest

RANGER, Feb. 15.—Miss Oreta Smith, daughter of Mr. and Mrs. John Smith of Ranger, has recently been chosen to represent the Kappa Alpha Theta sorority in the beauty contest being conducted at the University of Texas. Miss Smith is a senior at the university. However, this is her first year to attend the institution. She was a student at the College of Industrial Arts prior to entering the university and made the beauty section of the school annual while in school there.

The contest for places on the "Blue Bonnet Belles" page of the Cactus, the university annual, is conducted each year in the sororities and dormitories of the university.

Try an American classified ad.

banks that withdrew from the guaranty fund system was seeking to force the banking commissioner to pay the withdrawing banks their pro-rata of the guaranty fund, rather than to pay this fund to the depositors of the failed banks. It is believed that a determination of this question will settle the right of the depositors to be paid in full before the withdrawing banks received a refund from the guaranty fund. This question will probably be decided by the supreme court within 60 or 90 days, whereas, it is probable that a suit filed by the depositors in the district court would be in litigation from one to three years.

The attorneys for the depositors were advised by the counsel for the banking commissioner on Friday that the consent and approval of the attorney general to pay the creditors of the commercial state bank of Cisco a dividend from the cash assets had been obtained, and that the depositors could be advised that a dividend of around 25 or 30 per cent of the principal amount of their claims will be paid about March 15, or sooner, if the clerical work in connection therewith can be completed.

Mr. Meyers and his attorney also conferred with the assistant attorney general who represents the state banking board and the banking commissioner. After conferring with him it was concluded that rather than file an original suit in the district court of Eastland county for the recovery of the deposits in full, it would be better for the depositors to file a plea of intervention in a mandamus suit now pending in the supreme court, where the representative of one of the

NEGRESS HELD FOR PLAINVIEW OFFICERS

Willie Mae McMahan and Florence Jones are two dusky damsels of uncertain avoirdupoise and antecedents, were languishing in the city jail this morning awaiting the arrival of officers in Cisco from Plainview to convey them back to that city to answer to the charge of theft. The two women were arrested here at the request of Plainview officers.

West Texas Club Women Called To Meet in Abilene Saturday; New Organization in Prospect

ABILENE, Feb. 15.—Mrs. M. B. Herring, president of the City Federation of Abilene, announced Tuesday night that a mass meeting of club women throughout West Texas has been called for Saturday morning at 10:30 o'clock at the Hilton hotel.

Mrs. O. T. Anderson of Olney, who was chairman of a meeting held at Haskell, January 27, to protest the action of the executive committee of the General Federation board in removing Mrs. J. U. Fields of Haskell from the office of Texas Local Biennial chairman, will preside at the meeting and Mrs. Fields will speak.

While the definite purpose of the mass meeting has not been announced, it is assumed that steps will be taken towards the formation of a West Texas organization for club women.

Mrs. Fields herself is known to favor such an organization. "While I do not favor withdrawing from the state federation, yet I am heartily in favor of a West Texas organization for women," she said.

Mrs. Anderson's Statement. In a statement to the News

Tuesday night, Mrs. Anderson said: "The general federation board stands in the situation of reversing its own action of January 15, 1927, when, in accordance with section 2, article XI of the by-laws of the general federation authorizing the board of directors to arrange for the appointment of a committee from the place of meeting which shall act in concert with the directors in arranging for these meetings, the only authority given to the national board by the constitution, it was voted, upon motion of Mrs. Maggie Barry of Texas that the executive committee permit the Texas federation to deviate from the precedent of having the chairman of the local biennial board located in the entertaining city. This vote followed a discussion in which the Texas members present were told that the selection of a Texas local biennial chairman was a matter for Texas action and not the general federation."

"Nothing can be found in the by-laws of the general federation to warrant or give precedent for

"No Precedent."

"Nothing can be found in the by-laws of the general federation to warrant or give precedent for

the general federation board's action twelve months later, when, on January 13, 1928, it voted to declare Mrs. Fields' place vacant. "She was given no opportunity for a hearing by the general federation board. Her status in the Texas federation is exactly the same as it was when her appointment was ratified by the Texas federation convention in El Paso, November 1927, and she has continued her work as chairman along the plans for the biennial which she drafted and which are being used in the preparation for the biennial convention in San Antonio by clubwomen in every district of the state. But Mrs. Fields' friends are active in every

district and the telegrams of protest going to the general federation headquarters will not stop until the general federation board admits its mistake and injustice to Mrs. Fields."

In order that the discussion may be carried into the noon hour if necessary, arrangements have been made for a luncheon to be held at the Hilton hotel immediately after the formal meeting. Each woman is to provide her own plate, the charge to be 75 cents, according to announcement by Mrs. Herring.

DIVERSIFYING FOUND TO PAY SLATON MAN

SLATON, Feb. 16.—"It pays to diversify. That's my experience," says G. N. Gentry, Slaton farmer, living five miles northwest of the city, in the Posey community. Gentry does not farm on a big scale, but he makes more clear profit than many farmers who cultivate much larger tracts of land. He has a 100-acre farm. His record for 1927 follows:

Forty acres in cotton produced 22 bales, valued at \$2,200. Forty acres in feedstuff, 17 acres in milo maize, 5 acres in corn, 7 acres of sudan, 3 acres of wheat, 8 acres of sorghum, 3 acres of peas, beans, watermelons, cushaws and other vegetables, and one acre devoted to a garden and orchard gave Gentry what he considered a well balanced farm program for the past year. All of these crops produced well.

Eight or nine tons of maize were sold, bringing \$150. An equal amount of maize was kept for feeding purposes on his farm. Besides, he has 100 bushels of corn and 4,700 bundles of sorghum. The sudan crop was used for grazing during the year. The wheat crop, planted last fall, now needs rain. The yield of peas was very bountiful, some being sold and plenty left for home use. Gentry keeps two Jersey cows, two good hogs and a flock of 75 hens. The hogs furnish the family's meat supply and eggs and cream or butter are sold regularly. Produce sales pay an average of half the grocery bill the whole year through, Gentry says.

Convinced that it pays well to practice diversification, Gentry will follow the plan again in 1928, he says. His farm products in 1927 had a total value of about \$3,500. This farmer is a fair example of what diversification is doing throughout the Slaton territory.

EGG PRICE EFFECTS HATCHING AT MILLS

MILLS, Feb. 16.—The hatching season is considerably delayed in this section this year in the opinion of H. H. Frey, breeder of White Leghorns. Last year most pulpy raisers got an early start and many young chickens were hatched in February and March. Frey thinks the exceptionally high egg prices this winter are responsible for the delay this year. Producers have been receiving 45 cents per dozen for their eggs on the local market and many preferred to wait for lower prices before holding back their egg hatching purposes.

OLD CATTLE BRANDING REPLACED BY TATTOOING

AUSTIN, Feb. 16.—Borrowing an idea from the Isle of Jersey blooded cattle now are being tattooed with indelible ink instead of being branded at the Texas State Teachers College at Canyon, where Jersey cattle raising is a specialty. The tattoo mark, made by applying indelible ink just below the skin surface in the ear, is permanent and not as susceptible to obliteration or alteration as the old branding method used on the western ranges.

DON'T GET UP NIGHTS

Nature's Danger Signal Relieved by Tenn. Man. Wants Others to Know J. L. Church, Doeville, Tenn., says: "Had to get up 10 to 12 times each night. Burning almost unbearable. Passed much blood and pus. Had no lasting results until taking Blighted Buchu (Keller Formula). I feel 100 per cent better. My friends say 'How much better you look!' Will tell or write my experience to any one."

Lithiated Buchu cleanses the bladder as epson salts does the bowels. It is not a patent medicine. The formula is on the bottle. The tablets cost 2c each at drug stores. Keller Laboratories, Mechanicsburg, Ohio. Locally at Dean Drug Co.—Adv.

MANY ATTEND FUNERAL OF OLD CITIZEN

The funeral of the late William T. Hutton, held at the First Baptist church Friday afternoon, was attended by a large concourse of friends and acquaintances, for few in this section were more widely known than the deceased. The casket, as it reposed in front of the altar, was literally covered with flowers, floral tributes of their esteem. The services were in charge of Rev. I. W. Lawrence, pastor of the East Side Baptist church, of which Mr. Hutton was one of the leading members. Mr. Lawrence was assisted by Rev. Acker C. Miller, pastor of the First church, while the funeral sermon was preached by Rev. George W. Parks, of Roscoe, an old friend of the deceased.

The services concluded, a large procession followed the remains to the grave where loving friends tenderly consigned the body to the earth. The pall bearers, selected from many of Mr. Hutton's staunch friends, and friends of the family were as follows: Active—Guy Dabney, B. W. Patterson, W. L. Stephen, J. D. Hall, E. B. Gude and D. A. Pelfrey. Honorary—John F. Patterson, Dr. W. E. Manell, J. C. Harris, D. D. Lewis, J. M. Howard, G. H. Kinsey, Connie Davis, R. L. Poe, R. A. Siler, Frank Reed, R. F. Weddington, R. Q. Lee, D. L. Rogers, C. H. Fee and S. L. Yeager.

Out of town friends and relatives attending the funeral included the three sons of Mr. Hutton, Wiley C. Hutton, Des Moines, New Mexico; W. T. Hutton, Jr., San Angelo; and R. A. Hutton, Austin. Others were Mrs. Sallie James, Mrs. Dick Kitts, Mrs. Henry Hutton, Mrs. Rotenberry, Mrs. Ernest Boswell, Mrs. R. A. Tarvin, Hamilton Hutton, Sherman Hutton, Harry and Tom Clark, of Port Worth; Mr. and Mrs. C. M. Hutton, Mrs. Jess Cockrell, Onus Hutton and Fred Ward of Breckenridge; Mr. and Mrs. A. M. Hearn, L. Garrett of Eastland; Mrs. M. J. Lanier of Seymour; Mr. and Mrs. Joe Hearn of Carbon; Mr. and Mrs. T. E. Gilbert of Gorman; Albert Wagley of Wayland; Zoie Wagley and Tom Clark of Moran.

Chevrolet Sets Production Pace

Production at the Chevrolet Motor company factories throughout the United States is running at the greatest clip on record, according to C. O. Pass, local Chevrolet dealer, who recently returned from Dallas where he attended the annual Southwest dealer meeting. More than 600 dealers and banker associates attended the meeting which took the form of the most comprehensive sales presentation ever staged in the automobile industry. All addresses were illustrated in the form of playlets, depicting the proper procedure to be followed in the successful operation of a retail automobile business.

The meeting was held under the direction of D. E. Ralston, assistant general sales manager, who declared in the course of the day that Chevrolet production for the first three months of the year would exceed 330,000 units if the present schedule is carried through. Assisting Mr. Ralston in the conduct of the meeting were Felix Doran, Jr., regional sales manager at Dallas; R. W. Losey, Dallas zone sales manager, and the following officials from the central office in Detroit: D. G. Frazier, service promotion manager; W. G. Lewellen, assistant sales promotion manager; Gustaf Ek, assistant commercial car manager; D. U. Bathrick of the used car division; and J. E. Rogers of the dealer accounting and management division.

Following the afternoon meeting the dealers and bankers guests of the Chevrolet Motor company at an elaborate banquet in the Baker hotel. The meeting was the twelfth of a series of 43 similar sessions that are being held this winter and spring from coast to coast.

RAIL EMPLOYE ALSO OPERATES INCUBATOR

SAN ANGELO, Feb. 16.—Charles B. White, who works for the railway here during his daylight hours, has a happy hobby which gives him a lot of pleasure and at the same time brings him in some extra money. He is operating a 10,000-egg incubator, doing custom hatching, having bought it from the Rock Hill Poultry farm which over a period of five years sold about a half million chicks. It disbanded last spring. White has about 1,200 hens and is getting about 800 eggs daily.

PEANUT CROP MORE THAN BUYS FARM

KOSSE, Feb. 16.—"Uncle Bud" Pope, who lives one and a half miles east of Kosse, has cleared enough money on one peanut crop to more than pay for his farm. The crop of 24 acres amounted to 970 bushels, selling for \$2 per bushel. He made 960 bales of hay at \$1 per bale. He paid \$1,500 for the farm.

MERKEL WINS TITLE

ABILENE, Feb. 16.—Merkel High school won the right to represent Taylor county in the district basketball meet at Colorado this week by defeating the Potosi team here Wednesday, 15 to 10. Cade, with 14 points. The game was for the county championship.

Don't Crowd, Girls! Here's Perfect Man!

WILLIAM EVERETT DERRYBERRY (International Illustrated News)

ATTENTION, GIRLS! If you're looking for the perfect man during leap years, you don't have to go any further than William Everett Derryberry, star athlete and student of the University of Tennessee.

"A man whose like we have never seen before," was the version of the judges in selecting Derryberry over 15 other candidates to receive the state's Rhodes Scholarship.

- Here's why: 1. He was a star halfback at the university for three years; 2. All his grades have been "A"; 3. He's the best student Tennessee ever had; 4. He swims, plays baseball, basketball and golf far above the average; 5. He sings, plays in the band, directs a church choir and is a member of the Knoxville Y. M. C. A. cabinet. Upon finishing his work at Oxford, Derryberry intends to become a professor of English.

Quitaque Produce Business Growing

QUITAQUE, Feb. 16.—J. R. Castleberry, manager of the Quitaque Produce company, states that during the months of November and December he paid out \$4,784.40 to the turkey raisers of Briscoe county. He says during the month of January he bought and shipped over 100 cans of cream that would average about 100 pounds to the can, or about 10,000 pounds of cream. He has been paying from 40 to 42 cents per pound for cream for the past three months.

Castleberry has been managing the Quitaque Produce house for nearly two years and he says there has been from 50 per cent to 75 per cent increase in business during that time, due to the fact that farmers realize there is much money to be made in the dairy and poultry industry.

two or three good cows and from 100 to 200 good laying hens they could very easily pay all expenses of the home. The cotton crop would then be clear profit.

Marketing School On at Floydada

FLOYDADA, Feb. 16.—A cooperative marketing school, similar to the ones in 1927 and 1928, is on in Floydada for a week beginning last Monday.

Judge L. Gough, Amarillo, president of the Texas Wheat Growers' association, is in charge. Mrs. Phoebe K. Warner, Claude, will be one of the speakers and Frank R. Phillips, head of the vocational agriculture department of the Teachers' college at Canyon, will be another. T. O. Walton, president of A. & M. college, may be here for one day. He says if farmers would keep Try an American classified ad.

DOWNING GETS 2-YEAR TERM IN PENITENTIARY

ABILENE, Feb. 16.—Jim Downing, youthful former attendant at the Abilene State Hospital for epileptics, was convicted of murder in the district court here Wednesday and sentenced to two years in the penitentiary. He was charged with beating to death Joe Marze, 54-year-old patient.

The jury deliberated about an hour and a half after the state closed its case at 2:30 p. m. Marze, who died of abdominal injuries, was alleged to have been stamped upon and beaten when he objected to taking treatment for an infected mouth. Downing admitted taking Marze out of the ward dining room into a smaller room, in which he said he and Marze were alone for a brief period.

One of the state's witnesses, a patient testified he saw Downing strike Marze, then kick him as he lay on the floor.

Galloway Calhoun, assistant attorney general, who has been assisting in the prosecution, left late Wednesday for Austin. He was accompanied by Dr. H. H. Harrington, member of the state board of control, who was a witness for the state.

"I can fix that leaky roof for you; reference given. Phone 314. I Lamb. 34-13

Business exists to serve customers, and unless it does that it fails.

13 ON TRIAL IN N. C. FLOGGING OF WHITE MAN

RALEIGH, N. C., Feb. 16.—Thirteen men are scheduled to face trial in Wake superior court here the week of February 29, charged with the sensational flogging in December, 1926, of Dolly Jones, country storekeeper, and Sam Green, his negro helper.

According to Solicitor Leon S. Brassfield, who will head the prosecution, it is very likely that due to the brevity of the special term of court, the 13 defendants will be trial all at once, instead of singly. Such a procedure was to have been followed here recently when 16 men were to have faced trial on flogging charges, but gained acquittal when the grand jury refused to indict them a second time after a flaw was detected at the last minute in the first indictment against them.

Call Special Term The special term of court was called by Governor McLean mainly for the trial of the flogging cases, and it was expected that they will take precedence over everything else on the court docket.

Two defendants in the Jones-Green flogging case have been tried separately and both gained speedy acquittals after the jury, trying them had listened for the better part of a week to voluminous testimony and lengthy summations. Those acquitted were Leland Rogers and G. A. Belche, county road camp supervisor. The men scheduled to go on trial

this month are: Dr. J. R. Hester, prominent Knightdale physician; Clyde Weathers, a deputy sheriff; Lothario Stell, Eddie Robertson, Wiley O'Neil, Jr., John Hammerick, Beanie Weathers, Paul Hester, Paul Robertson, J. T. Ramsey, Leroy Hester, John Hester and Charlie Hester, Jr.

32 Flogging Cases

With the disposal of these cases, the Wake county court docket will be virtually cleared of flogging cases, which at the beginning of the year totaled 32. Three men also stand indicted for the flogging of a farmer who was cleared of an immorality charge in court.

The wholesale indictments for floggings that had occurred in Wake county over a period of four years, virtually under the shadow of the North Carolina state capitol, resulted from a long investigation by the grand jury.

Thus far, however, a conviction has never been obtained.

TEXAS FARMS SHOWING IMPROVED CONDITIONS

AUSTIN, Feb. 16.—With few exceptions, general conditions on the approximately half a million farms and ranches in Texas, range from fair to good, according to H. H. Schutz, government statistician here.

"As a result of diversification," Mr. Schutz finds from reports of his scores of correspondents scattered over the state, "reduced cost of production and a higher price received for most crops and the financial condition as a whole in the rural districts is better than in the past few years."

FIGURES SHOW PROFITS FOR DAIRY PLANT

Dick Brown, who has a nice place a few miles out southwest of Rising Star, was among the crowd of interested farmers who attended the dairy meeting held last Thursday night, and being of a modest disposition Dick did not "Get up in Meetin' and Talk," but went home and dug up some figures on his own cows which prove without doubt that the industry is a paying one, even if operated on only a small way.

To begin with last year Dick had three good cows which he milked for nine and one-half months at which time he added another good one to the herd milking her for the rest of the year. Dick has sold nothing but the butter, but has kept an accurate record of the amounts produced and the sales which he is kind enough to furnish the Record and which follows:

Table with 2 columns: Month, Amount. January, 75 1-2 pounds, \$38.50; February, 65 pounds, \$27.50; March, 66 1-2 pounds, \$32.65; April, 77 pounds, \$34.30; May, 53 pounds, \$27.00; June, 79 pounds, \$33.40; July, 60 pounds, \$28.90; August, 70 pounds, \$33.90; September, 129 pounds, \$55.75; October, 157 1-2 pounds, \$72.87; November, 137 1-2 pounds, \$61.35; December, 122 pounds, \$56.05. Total, \$502.17.

It will be noted that the pounds per month were considerably increased beginning with September when he added the fourth cow.

Mr. Brown also kept an accurate account of his expenses and found that it cost \$5.25 per month to feed each cow making a total of expense of \$187.07 for the herd for the year, which taken from the gross receipts leaves him a net profit of \$315.10 for the year.

This does not take into consideration the fact that he had left all the buttermilk for home use and chicken feed. — Rising Star Record.

Why not have a garden this spring? It does not need to be a large space in order to have nice fresh vegetables, neither does it require a large outlay of money. We have a large assortment of garden tools at very moderate prices.

Table with 2 columns: Item, Price. Spading Fork \$1.35; Nice Rake .75; Garden Hoe 1.00; Total outlay \$3.10.

\$1,875 PER DAY INCOME FROM OIL FOR ROOT Two golden gushers in the Gordon pool are pouring out an income of approximately \$1,875 a day for C. M. Root, Eastland operator, according to the Eastland Tribune. This is at the rate of \$78 every hour or \$1.30 a minute. The combined output of the Thorp Nos. 1 and 2 is approximately 1,600 barrels—the No. 1, which came in Nov. 14, is now making 500 barrels and the No. 2, which was completed a week ago, is producing around 1,050 barrels. Value of the gas the wells are making is more than sufficient to pay the operating cost of the wells. Mr. Root, who has drilled big wells in Kansas, Oklahoma, California and Texas, has now one of the greatest potential blocks of acreage he has ever owned. He has 1,900 acres in a block in the Gordon district. The total size of his leases in that territory is 2,000 acres. Experienced observers estimate the value of his holdings at several million dollars. An important well is being started by Root on the Stokes three quarters of a mile northeast of the Thorp well. The Stokes has started drilling. Root &
