

EASTLAND CO.—Area 925 square miles; population 125,000; cotton, fruit, poultry, dairying, natural gas and oil; Cisco is headquarters for operators of the greatest shallow oil field in the world.

CISCO DAILY NEWS

CISCO—Pop. 13,500; 1,614 feet above the sea; 5 lakes water; 5 rail exits; 6 paved highway exits; 127 blocks of brick streets; A-1 public schools and Randolph college; no mosquitoes; no malaria or typhoid of local origin.

VOLUME IX.

CISCO, TEXAS, TUESDAY, MARCH 20, 1928.

NUMBER 25

TEXAS

By WILL H. MAYES, Austin.

POPULATION OF TEXAS.—The Census bureau estimates that Texas will have a population of 5,487,000 on July 1, 1928. The official census of 1920 placed the number at 4,963,228. The increase in eight years has been nearly 18 per cent. From 1910 to 1920 the actual growth of the state's population was 19.7 per cent. Based upon the bureau's calculations, if the present ratio of increase is maintained, the growth from 1920 to 1930 will be 21.4 per cent, or 1.7 per cent greater increase than from 1910 to 1920. Texas has abundant room for three times its present population, but that number can not be supported by agriculture alone, or even by agriculture and the attendant commercial interests. The state must turn its attention to manufacturing at a rate proportionate to its area and its needs for the best development.

AUSTIN PARK PLAN.—The Austin city commission is considering submitting to a vote of the people a plan for a park and city beautification that will cover a period of five years and will cost \$1,000,000. Austin is naturally one of the most beautiful cities of the entire South, but has done little to improve nature's rich gifts. A million dollars sounds like a large sum of money, but it is only \$20.00 each for Austin's 50,000 citizens, and certainly the capital of the best state in the union can afford such a sum to make it a place that will delight all the people of Texas.

CORPUS CHRISTI IMPROVEMENT.—Curtis Berglund, noted sculptor employed to work out a plan for the beautification of the Corpus Christi waterfront, has submitted a report of plans that will cost approximately \$1,100,000. The plans and estimates are based on a tour of Florida coast cities, and provide for a re-erected concrete wall five and one-half feet above high tide, with ornamental lights, a boulevard, esplanade, parks and other features of the most modern bay fronts. Corpus Christi realizes that while it is destined to be a city of importance, its development along desirable lines will be much more rapid and satisfactory, if it gives early heed to its beautification. An ugly, neglected seaport city is one of the most unattractive spots imaginable.

PARKLESS CITIES.—Recently I had occasion to spend several days in one of the best small cities of Texas, a place of some 18,000 people, in which I did not find or hear of a spot that could be designated as a public park. It is one of the old towns of Texas, a shop and factory city, a well kept, clean place, a busy trade mart, but with nothing approximating a park other than the crowded, noisy, bustling courthouse "square." There are any number of Texas cities and towns like this, places that in their early days did not realize the need of parks, since there were so many "open spaces" all about. Conditions have changed, the "open spaces" are valuable property now and are fast closing up, and parks and playgrounds are needed. If such places would remain attractive residence cities, if they would draw others to them, they should lose no time in providing and improving ample parks.

INCREASE BORDER PATROL.—Congressman Claude Hudspeth of the El Paso district, has introduced a bill in congress providing for 500 additional immigration inspectors for the Mexican border and places that patrol for the enforcement of all laws on the border. This measure provides for \$2,000,000 in addition to the appropriation heretofore made for control of the Mexico-Canadian borders, and has the approval of the department of labor under whose control the work would be directed.

CONTROLLING WILD GASSER.—Experts from the gas division of the state railroad commission will assist in controlling the gas wells that have been running wild for some time in San Patricio county. So immense has been the waste from this gas field that it is said Texas is in danger of losing one of its greatest natural resources, one that would provide a cheap fuel for industries which would be established in connection with the commerce through the nearby port of Corpus Christi.

PINK BOLL WORM BILL.—Congressman James P. Buchanan is seeking an appropriation of \$5,000,000 from the federal government with which to combat the pink boll worm in Texas. George B. Terrell, Texas commissioner of agriculture, estimates that twice that amount will be needed. It is evident that the government is impressed that speedy and vigorous action must be taken.

REBELS AND MARINES IN SHARP FIGHT

MANAGUA, Nicaragua, March 20.—A sharp fight between two United States marine corps airplanes and a band of Sandinistas estimated at from 50 to 200, occurred Monday afternoon near an abandoned mine about 20 miles northeast of Managua and 20 miles southeast of Jalapa.

HONOR MEDAL TO BE GIVEN TO LINDBERGH

CURTIS FIELD, New York, March 20.—Colonel Charles A. Lindbergh hopped off at 10 o'clock this morning for Washington, where he will receive the congressional medal of honor from President Coolidge. He was accompanied by three passengers.

Man Says Woman Accidentally Shot
LUBBOCK, March 20.—Coy Abbott, 20-year-old farmer living near Brownfield, about 65 miles southwest of here, told Lubbock officers Monday afternoon that he had accidentally shot his 18-year-old wife Sunday night. Abbott's wife died at a hospital here Monday afternoon.

REPUBLICANS FIGHT OVER DELEGATIONS

FORT WORTH, March 20.—Charging that Creager's tactics in working for a Republican delegation from Texas instructed by Hoover, "borders on national scandal," C. C. Littleton, leader of the faction opposed to Creager, issued a statement today calling on Texas Republicans to stand for organization "free from domination."

CATTELEMEN IN SESSION TODAY IN AMARILLO

AMARILLO, March 20.—The problem of direct marketing of livestock as it affects the producers of the Southwest was the principal topic discussed at the meeting of the executive committee of the Texas and Southwestern Cattle Raisers' association here.

3 TRAPPED IN BOSTON FIRE; OTHERS HURT

BOSTON, March 20.—Trapped on the top floor of an apartment house here, Walter Donahue, 34, his sister, Elizabeth, 35, and his mother, 65, burned to death today. Six others were seriously injured. The fire forced 250 persons to the street.

Ranger Rifle Club Given Affiliation

RANGER, March 20.—Official notification of the affiliation of the Ranger Rifle club, which was the name selected for the volunteer police force marksmen, with the National Rifle association of America was received Monday by Mayor C. Hickey, secretary of the Ranger chamber of commerce.

Moody to Drill West of Menard

SAN ANTONIO, March 20.—Moody Oil corporation has erected an 84-foot derrick for a test 16 miles west of Menard, in Menard county, and will start drilling at once.

SPUDDERS BUY ABILENE CLUB

WICHITA FALLS, March 20.—J. Alvin Gardner, president of the Wichita Falls Spudders, Saturday announced the purchase of the Abilene franchise in the West Texas League. Les Tullos will manage the Spudder farm at Abilene.

REFUSES OIL COMMITTEE AID

Successful in dodging "Teapot Dome" subpoena servers, J. E. O'Neill, who is known to be "somewhere in Europe," is shown here with his wife and daughter Mary. Wanted for some time to give testimony in the oil investigation in Washington, O'Neill has steadfastly refused to make known his whereabouts. It is believed that he is in hiding in a lonely monastic retreat in the hills above the Mediterranean.

Conditions in Coal Mining Camps Calculated to Undermine Faith in Government; Conference is Asked

WASHINGTON, March 20.—Fannie Hurst, novelist, has called upon President Coolidge to call a conference of operators and miners and the public to end the soft coal strike and agree upon remedial legislation. She summarizes her investigation of the coal fields before the senate coal investigating committee by declaring conditions "a cancer undermining the faith of the strikers in the government."

CISCO POLICE BELIEVE LAWS ARE ENFORCED

Cisco people must be observing the Voltseed and Dean laws 100 per cent in Cisco. For the local officers have reported no discovery of roasting ear juice or home brew in the environs of the city for the past week. This evidence of "law enforcement" is further accentuated by the fact that the police destroyed about one dozen punch boards found in a local cafe in the wagon yard district Monday.

LIEUT. KILLED WHEN PLANE STRIKES POST

SAN ANTONIO, March 20.—Lieutenant William Williams of the air corps reserve, was killed when his plane crashed into a telephone post here today.

Moody to Drill West of Menard

SAN ANTONIO, March 20.—Moody Oil corporation has erected an 84-foot derrick for a test 16 miles west of Menard, in Menard county, and will start drilling at once.

1927 COTTON EXCEEDS 1926 BY 5,000,000

WASHINGTON, March 20.—There were 12,777,565 bales of cotton ginned from the 1927 crop, as compared with 17,755,000 in 1926, the United States census bureau reported today.

PETERS URGES CISCO PEOPLE ATTEND MEET

Cisco people interested in Broadway of America highway, who contemplate to join the motorcade to Memphis April 16, are urged by Secretary Peters, of the Cisco chamber of commerce, to meet at the chamber of commerce headquarters Wednesday afternoon at 6 o'clock.

PROGRAM FOR P. T. A. MEET WEDNESDAY

The committee has arranged an interesting program for the meeting of the High School Parent-Teachers association for Wednesday at 3:30 o'clock in the auditorium of the High school building.

Four Jurors Chosen In Mut Watson Case

Constable C. S. Looney was at Brownwood yesterday afternoon, where he conveyed an attached witness from Winkler county to testify in the Mut Watson case, now on trial in that city.

Negro Voices to Be Heard at City Hall

Under the auspices of the African Methodist church of Cisco, a choir of 30 negro voices will be heard in concert at the city hall tonight, and Leonard Witt, farmer of Elkton, near here, was in a Brownwood hospital Monday with a pistol wound received, he said, while playing with the weapon. He is expected to recover.

WARDLAW FILES FOR CANDIDATE FOR GOVERNOR

FORT WORTH, March 20.—Louis J. Wardlaw, Fort Worth attorney and stockman, today filed his formal application as a candidate for governor on the Democratic ticket, subject to the July primaries. He is the first to file. Wardlaw mailed to Chairman D. W. Wilcox, of the state democratic executive committee \$100, as required under the provisions of the Terrell election law.

Short Pest Fund May Mean Session

AUSTIN, March 20.—Action of the federal horticultural bureau in recommending a 50 per cent cut in the proposed \$5,000,000 federal appropriation to combat the West Texas pink boll worm infestation, may force Governor Moody to call a special session of the legislature, it was indicated today.

NEW T. & P. TERMINALS OPENED AT FORT WORTH

FORT WORTH, March 20.—The Texas & Pacific railroad company opened its new \$5,000,000 "West Yards" and switching terminals in Fort Worth today. The next improvements to be made in Fort Worth by the Texas & Pacific will be to lower the grade between the terminals and the West Yard, it is stated.

FARM RELIEF BILL GETS APPROVAL

WASHINGTON, March 20.—Sponsors of the McNary-Haugen bill scored another victory today when the house agriculture committee approved the equalization fee section of the measure 13 to 8.

Robber Suspects Are Denied Bond

Burford and Tim Ingram, charged with robbery with fire arms in connection with the robbery of D. L. Allen at Nimrod recently, were denied bail in a habeas corpus hearing before Judge Elzo Been, in the 88th district court in Eastland yesterday afternoon. It is understood that they will appeal to the higher court in an effort to secure their freedom. The Ingrams are represented by Judge J. Lee Cearley.

Father Unaware

Here is Lord Inducap, wealthy English shipowner and father of Elsie Mackay, believed to be lost with Captain Hindmille in their attempt to fly the Atlantic. Lord Inducap is in Egypt and was not aware of his daughter's plans.

Coffee

like this—makes the whole day joyful

A cup of good hot coffee first thing in the morning starts the day off right—wakes you up—makes you feel like facing your task with a smile.

Housewives who appreciate the value of serving good coffee insist on Morning Joy Coffee. This wonderful blend of choice coffees from the world's producing regions is scientifically roasted and vacuum packed in one of the finest coffee roasting plants in the country. The delicate aromas and flavors, which reveal the difference between Morning Joy Coffee and ordinary coffee, are preserved until it reaches your table.

Why be satisfied with ordinary coffee, when you can get Morning Joy coffee? Ask your grocer.

ACTION TAKEN ON BUS LINES OVER TEXAS

AUSTIN, March 20.—The state railroad commission granted permits to R. M. Hudson to operate a motor bus line between Huntsville and Brenham, to W. R. Painter and the Union Bus company to operate between San Antonio and Uvalde, and denied application of J. C. McGuirk to operate between Sherman, Denison and McKinney, in orders announced Monday.

Mayers of Denison, Sherman and Van Alstyne protested the McGuirk application, which was heard in Sherman February 1, and the applicant failed to file certain data about the route requested by the commission, the denial order said.

Painter, who has been operating 6-round trip runs between San Antonio and Uvalde, was awarded four runs, starting at 7 and 11 a. m. and 3 and 7 p. m. from each point, and the Union Bus company, filer of the rival application, was allowed three schedules, leaving each terminal at 8 a. m., 1 p. m. and 5 p. m.

Hudson was given the Huntsville-Brenham route in preference to the other applicant, C. T. English, operator of the Houston-Huntsville line. Both were found to be financially responsible and acceptable, but the commission found that Hudson is more closely associated with the patrons of the line and accordingly was given the preference.

OFFICERS HUNT 3 ESCAPED MEN IN WEST TEXAS

MIDLAND, March 20.—Bloodhounds Monday night were aiding sheriffs of many West Texas counties in their search for C. C. Baze, Teague Lawler and F. A. Duncan, who escaped from the jail here Sunday after they had overpowered a guard who had brought them some food.

Baze was being held on a complaint charging murder in the shooting to death of two Mexicans in an alleged bank robbery attempt at Stanton, Texas.

The trio overpowered Deputy Sheriff D. E. Covington, forced him to walk about two miles north of Midland with them, here they trussed him and left him.

Lawler was under a 99-year sentence for robbery by firearms, and Duncan had been sentenced to two years for forgery.

Pool Near Thrifty Gets Two Producers

BROWNWOOD, March 20.—Two producers were added to the Clark-Buffalo oil pool north of Thrifty Thursday night with the bringing in of the Clark-Buffalo Oil corporation's No. 6 on the Brown county

tract, and the Peckham & Deiminger No. 2 P. J. Bush.

This makes five producers out of six wells drilled by the Clark-Buffalo Oil corporation on the 11 acres belonging to Brown county, and completes the drilling on that lease. The No. 5 was a failure.

The Clark-Buffalo No. 1 J. M. Perry is drilling at around 1,000 feet and the rig is being moved onto location for their No. 2 Perry, which is a south offset to their No. 6 Brown county. George Lamb has spudded in a well on a 20-acre lease on the Perry tract, 1,000 feet southeast of the Clark-Buffalo No. 1 Perry.

ELECTION NOTICE

As provided by the statutes of the state of Texas and the charter of the city of Cisco, I, J. M. Williamson, mayor, hereby call a general city election to be held in Cisco, Texas, April 3, 1928, for the purpose of electing three commissioners to fill the expired terms of A. L. Mayhew, R. W. Manell and J. V. Heyser.

The polls will be opened at 8 o'clock a. m. and close at 7 o'clock p. m., at the city hall in the city of Cisco.

I hereby appoint Fred Davies, as manager, of said election.

J. M. WILLIAMSON, Mayor.

San Angelo Sells City Hall Site

SAN ANGELO, March 20.—Sale of the San Angelo city hall and fire station for \$115,000 has been announced by E. V. Spence, city manager. The building was erected in 1911 at a cost of \$15,000 and the site

obtained by the city in an exchange deal was valued at that time at about \$5,000.

The San Angelo Building company, purchasers, has announced that the building will be razed and the site occupied by mercantile or other business buildings. The site is north of the St. Angelus hotel.

Bids on the general contract for the city and auditorium building, to cost approximately \$275,000, will be received March 31.

NO ROAD TOOLS BOUGHT

AUSTIN, March 20.—The highway commission did not act Monday on any recommendation for purchase of new machinery, its members said.

Previous information from the department had been that requests for another equipment buy would be presented the commission when members arrived.

The heart of the average adult is 3 inches long, 3 1-2 inches broad and 2 1-2 inches thick; it is the strongest organ and does the most work.

PECOS LEASE SOLD BY OTT TO MATADOR

SAN ANGELO, March 20.—The Matador Oil corporation of Amarillo has purchased from Dr. Emil Ott, Rudolph Grossenbacher and others of San Angelo, the lease on 40 acres in the southwestern part of the eastern Pecos county field for \$100,000, half cash and half oil.

The deal is the largest in the field since the Pure some time ago sold to the McMann its leases on section 25, block 194, G. C. & S. F. railway company survey, and section 104, T. C. railway company survey.

The 40 acres which changed hands is the southeast quarter of the northeast quarter of section 24, block 194, G. C. & S. F. Ry Co. survey,

and offsets acreage held by the Red Bank, Mazda-Savoy and Roxana, the first two of which are productive. Wells in the area, while shut in, are estimated good for 1,000 to 2,000 barrels daily.

John W. McGee, president of the Matador, has announced that four tests will be drilled on the 40 acres at an early date.

Surveys for the locations already have been made. Mrs. Emil Yates

Ott, daughter of Mr. and Mrs. Ira G. Yates, invested \$500 in the lease with this sale and a previous transaction and will receive \$20,000, she having held a one-fourth interest. The discovery Pecos well was brought into her father's lease.

It takes on the average eight-tenths of a pound of coal to deliver one kilowatt of energy to the switchboard.

STOMACH SPELLS Oklahoma Lady Gives Interesting Account of Long Use of Black-Draught In Her Home.

Sageyah, Okla.—"I have taken Black-Draught ever since I was a child, and can recommend it as a splendid medicine for family use," says Mrs. Cora Maberry, of this place. "My mother used it, and after I had a home of my own, I continued to use it, as I thought it was especially good to give the children."

"My children did not mind taking Black-Draught, and so when they got upset with stomach spells, or were constipated, I gave them Black-Draught tea."

"If I found that they were taking cold, I was quick to start giving them Black-Draught, as it helped them to throw off the impurities which caused the trouble."

"My children are all grown now and have homes of their own, but I still keep Black-Draught in the house and use it myself when I wake up in the morning feeling dull and 'headache', and have a bad taste in my mouth."

"Black-Draught is a simple remedy for constipation, and I prefer it to others because it is purely vegetable. I always feel better after I have taken a course of it."

In use over 87 years. NC-197

Prevent Flu—Check All Colds the Modern Way

Family in Cisco Urged to Be Careful

While grip and influenza are so prevalent local people are urged to use this modern way of checking little colds before they become big.

Have a jar of Vicks VapoRub on hand ready for instant use at the first sign of every cold. When rubbed on throat and chest, or sniffed up the nose, Vicks releases its ingredients in the form of medicated vapors which are breathed in direct to the infected parts.

In addition Vicks acts like a positive and thus helps the vapors inhaled to break up the congestion.

To prevent colds lowering the vitality and thus paving the way for flu and pneumonia, they should be treated direct and instantly—as you would an infected finger.

Now is a good time to have that Diamond mounted in one of our beautiful White Gold Mountings to wear with that new Bracelet Watch. We mount them while you wait.

- 2.—Large top opening. Aluminum top and cover. Easily cleaned.
- 3.—Beautiful, trim appearance. Washes sixty pounds of clothes per hour.
- 4.—Eight position — reversible swinging wringer. With large semi-soft rolls.
- 5.—Adjustable legs. Can be set at most convenient height.
- 6.—Attractively priced, with easy monthly payments.

West Texas Utilities Company

Terrible Struggle For Life by S-4 Officers and Men Manifest When Boat Was Opened Monday

BOSTON, March 20.—The torpedo room of the submarine S-4 in which six men lived for 72 hours after the vessel was sent to the bottom in a collision off Provincetown December 17, has given up its story.

Naval officers entered the compartment after the submersible had been drydocked at the Boston Navy Yard, and, from the dismal evidence found therein, pieced together a tragedy on which the interest of a nation was centered for three days last winter.

The six bodies were found and one of them, that of Lieut. Graham Newell Fitch of Washington, D. C., was identified. In other parts of the ship two other bodies were recovered, completing the roster of death. The entire company of 40 men perished when the coast guard destroyer Paulding rammed and sank the S-4. During the salvage operations 32 bodies were taken from the hull.

Further Search to Be Made.

Evidence of a desperate fight for life was seen in devices by which the imprisoned men had striven to shut out the water leaking into their chamber from the battery room adjoining. The watertight door between the compartments had been closed and dogged tight. A lead maul had been used to batter down the dogs, and a large pincushion was wedged against the door.

A glass deadlight in the door apparently had let water in and to stop this leakage the men had

placed a piece of rubber above the glass and secured it with a wooden block.

The preliminary search of the torpedo room today revealed no written records or diaries. Further search will be made by a naval board of investigation when the interior of the vessel is in better condition.

The bodies of Lieutenant Fitch and his five men were found on deck, which was covered with gray mud and four inches of water. Investigating officers said it was apparent that the men but one had awaited death quietly in their berths, conserving their energy that they might consume as little as possible of the precious air.

Ladder Gripped With Hands.

The exception was one man found at the foot of the torpedo hatch later, gripping the ladder with his right hand. The body of another man lay against this one, with the head resting on its chest.

Lieutenant Fitch's body was lying on its back on the deck under the work bench, which is on the starboard side forward, just about the torpedo tubes. The head was pointing aft and the feet forward. The officer was identified by his naval academy class ring and sweater and his cap. He had been wearing khaki trousers and a submarine coat. One of his arctic shoes was still on a foot; the other lay near the body.

Three other bodies lay under the

WORK STUDENT IS NOT ALWAYS THE BEST ONE

MINNEAPOLIS, Minn., March 20.—The old popular belief that the student who works his way through school is the best student and the most likely to succeed in life was spoken by University of Minnesota faculty members.

Dean Royal N. Shumway, in charge of student work and the man who checks up on students and expels them when they fail to come up to standard, declared that more often the student who works his way uses that fact as an excuse for bad scholastic work.

Dean Shumway told of one co-ed worker, working as a fad, who waited on tables in a campus eat shop during the luncheon hour, and

then drives away in an expensive car to tell her friends what a good time she had serving soup and apple pie.

He almost declared that students who are working tend to make martyrs of themselves and become recluses and egotistical.

STYLE HINTS

By ALICE LANGELEIER
International News Service Staff Correspondent.

PARIS, March 20.—The hat is synonymous with cap these days, and judging from the latest ones which are more close-fitting than ever, the modistes seem to be fervent advocates of the short hair fashion.

They frame the wearer's face so well and have so little to break their regularity, that they appear to be a part of the hair itself. One of them recently seen at the Auteuil races has a patent zip fastener down the front to allow the fair wearer to re-

JUDGE ANDREWS LAID TO REST AT STAMFORD

STAMFORD, March 20.—Funeral services for W. T. Andrews, 68, who was found dead in his bed at his home Sunday morning, were held at Highland cemetery here Monday afternoon. All circumstances point to the fact that he had been dead more than 30 minutes when found.

He was one of the ablest jurists in Texas and was for years the attorney here and over Texas for the Swenson interests, a company which has millions invested in cattle and lands.

Andrews would have been 69 October 18. Dr. F. S. Groner of Dallas, and Rev. W. C. Moffett conducted the services at the First

Baptist church, of which Andrews had long been a member.

He leaves a wife, two daughters and three sons, Mrs. J. P. Brewington of Waco, Mrs. J. G. Harris of Sweetwater, W. T. Andrews, Jr., of Spur, J. R. Andrews of Stamford, and H. G. Andrews of Stamford, all of whom are here.

Andrews had been prominently connected with many of Stamford's business enterprises.

Three United States presidents fought in the Revolutionary war; Washington, Monroe and Jackson.

MORE TRUTH THAN POETRY

Many are the germs that amble as they please,
And walk down the avenues of grease,
Or stop at times and chew at a spot or a stain
While their children cavort in the fibres raising Cain.
So there can never be too much stressing
That suits need frequent cleaning and pressing.

That Baby You've Longed For

Mrs. Burton Advises Women on Motherhood and Companionship

"For several years I was denied the blessing of motherhood," writes Mrs. Margaret Burton of Kansas City. "I was terribly nervous and subject to periods of terrible suffering and melancholia. Now I am the proud mother of a beautiful little daughter and a true companion and inspiration to my husband. I believe hundreds of other women would like to know the secret of my happiness, and I will gladly reveal it to any married woman who will write me." Mrs. Burton offers her advice entirely without charge. She has nothing to sell. Letters should be addressed to Mrs. Margaret Burton, 2701 Massachusetts, Kansas City, Mo. Correspondence will be strictly confidential.—Adv.

Mr. and Mrs. Everett Davis and children and Miss Sarah Taylor

FREED FROM THE MEDICINE HABIT

Kellogg's ALL-BRAN brought welcome relief

Sufferers from constipation will be interested in Mrs. Van Horn's letter below. She wrote us, voluntarily, to express her appreciation for the wonderful results ALL-BRAN brought.

June 17, 1927
"I feel as if I must write you a few lines to let you know what a wonder food your ALL-BRAN is and what it has done for me and many others I have told about it. I have been using it for one year and have a movement every morning. Before I was taking medicine every three or four days. Now, I never take any. Many thanks to ALL-BRAN. I can't praise it too much."

Sincerely,
Mrs. E. W. Van Horn,
2125 S. 5th St., Philadelphia

Don't let constipation sap your health and strength. Headaches, dizziness, blotched complexion are only a few of the evils it causes. It is responsible for more than forty serious diseases.

Guard against it—now. Kellogg's ALL-BRAN is guaranteed to bring relief. Just eat two table-spoonfuls daily—chronic cases, with every meal. ALL-BRAN is a ready-to-eat cereal—100% bran. Delicious and healthful with milk or cream, or with fruit or honey added. Keeps on package. Sold by all grocers. Made by Kellogg in Battle Creek.

Robert Holloway of Brownwood, spent yesterday in Cisco with friends.

Mr. and Mrs. P. P. Sheppard of Stamford, are spending today in Cisco.

Mr. and Mrs. G. W. Fry of Abilene, visited friends in Cisco today.

"MOTHERHOOD" FILM AT IDEAL THURSDAY "Motherhood," the first picture to bring to the screen a dramatic

discussion of the modern problem of maternity, will have special showings at the Ideal theater on Thursday. Nobody under sixteen years of age will be admitted.

The picture was made by Blue Ray Production, Inc., with the cooperation of the Knickerbocker, Bellevue and Allied Hospitals of New York City, and of leading members of the medical profession, who acted in an advisory capacity in the screening of hospital scenes. Back of these there is a well-knit, engrossing story of two women; one who hails the approach of her child as the supreme achievement of life, and the other one, obsessed by harrowing fears, who attempts to destroy the coming life, rather than to give up her social and athletic activities.

The story, by Lita Lawrence, has produced a storm of discussion. It brings vividly to the fore the accusation of race suicide that was made a generation ago by Theodore Roosevelt against native Americans, and squarely presents the question whether native stock has the survival courage of its ancestors.

"BEAU SABREUR" Gary Cooper, the handsome and virile, plays Henri de Beaujolais, a role that gives him opportunity to show his great acting talents, his romantic appeal and his fine personality. You remember Cooper in "Arizona Bound," "Nevada," and before those "Children of Divorce." He's a big-timer now, if there ever was one.

Noah Beery is the genial bluffer, the Sheikh El Hamel, Beau Brummel of the Sahara, who appears so terrible until a certain time and is then made out to be just a human being after all. Beery needs no introduction, but it might be well to state that in "Beau Sabreur," his characterization is a laughing knockout.

Evelyn Brent is the charming Mary Vanbrugh of the Wren story, an actress whose appearances in starring vehicles and in "Underworld" have made her many, many friends. Here is not one of those namby-pamby portrayals, for the role calls for that of a fearless girl who will brave anything, even desert Touaregs, for the man she loves. This is Evelyn Brent's best work.
