CISCO, TEXAS, TUESDAY, MARCH 27, 1928.

NUMBER 30

## TEXAS

By WILL H. MAYES, Austin.

**TEXAS - SOUTH AMERICAN LINE.**—The steamship service between Galveston and the South American coast the last of April will open up a vast trade territory direct with Texas and the Southwest. The shipping board estimates that from 2,500 to 3,000 tons of freight will be available some of it coming from as far north as Chicago. The United States does about \$600,000,000 in traffic with the east coast of South America, much of which has heretofore been handled through New Orleans, but a large part of which will be diverted to Galveston. There is likely to be a demand for Texas textiles that can not be met with the limited number of cotton mills in the state. Flour, lard, lumber and many other manufactured products will find an increased sale. Wichita Falls now ships the bulk of automobile trucks, that part of South America and this trade should increase in volume. Texas should get ready as soon as possible to supply all of South America with manufactured cotton goods.

**CONGRESS SHOULD PAY COSTS.**—The Texas Cotton Association, in session at Galveston, recommended that the federal government pay all the costs of the cink boll worm fight in the non-irrigated zone of Texas. This is based on the fact that the worm, unless controlled, will become a pest of national scope, that Texas is not responsible for the infestation, and should not have to pay to combat it.

**YELLOW PINE PAPER.**—Dr. Hugh P. Baker, of the trade association service of the United States Chamber of Commerce, expresses the belief that Texas has a future as a producer of wood pulp, stating that recent research has shown that probably good white paper can be made from yellow pine of the kind grown in East Texas. This is another strong argument for the conservation of the vast pine forests of Texas.

**MEXICO AIR MAIL ROUTE.**—The determination of the air mail route from New Orleans through Houston to the City of Mexico will be left to the Mexican government. The three possible routes named by the United States post office department are from Houston to Antonio through Corpus Christi, or through Corpus Christi to Brownsville or Laredo. Houston has expressed a preference for the Brownsville route. Should the route go through San Antonio it would connect there with the Dallas-San Antonio route from Chicago. Perhaps Mexico may want both routes. Mexico is ambitious and is developing.

**BUILDING PLAINS RAILROAD.**—The Fort Worth & Denver South Plains railroad will have its line into Lubbock by April 15, it is announced, the line already being completed into Lockney. Originally only one was contemplated, but another line is being built from a junction near Lockney to Plainview and Dimmitt, and a third is going to Silvertown. Lubbock looks like a "city of destiny," as it will soon be the hub for eight railroads in all directions, and railroads when backed by citizenship like that at Lubbock, soon convert towns into cities.

**COLORADO RIVER DEVELOPMENT.**—Martin J. Insull, president of the Middle West Utilities company, is quoted as saying that if no additional agitation is raised in Texas against the development of the Colorado river by his company, it will proceed with its projected plans which call for an expenditure of some \$25,000,000. There has been no feeling of opposition to this development, the only protest being against the utility company using all the water of the river shed, but as that has been settled, all parties will wish Mr. Insull and his company well in the great undertaking which will be a great contributing factor to the growth of Texas.

**EAGLE PASS AIRPORT.**—The war department is seeking the cooperation of Eagle Pass in establishing an airport in that city and will send a representative there to assist in developing the plans. While the large cities of Texas are alive to the necessity of securing airport sites as early as possible, the smaller cities and towns seem a bit slow in recognizing that there is an immediate need for caring for airplane business.

**WINKLER OIL PRODUCTION.**—Winkler county is still a disturbing element in oil production, having made a new production peak record of 193,838 barrels in twenty-four hours. That is entirely too much for a baby oil field, but Winkler claims that the lucky youngster can't easily be controlled.

# RATLIFF TO PLEAD SELF DEFENSE

## Cisco Agricultural Expert Praised

### SUPERVISORS OF STATE AND NATION HERE

Cisco was visited Monday by C. L. Davis, state supervisor of vocational agriculture at Austin, who was accompanied by Robert D. Maltby, agent federal board for vocational education, of Washington, D. C., who came here to check up on the work of E. H. Varnell, vocational agricultural teacher in the Cisco high school. They came here from Ranger where they conferred with Ranger school and chamber of commerce officials relative to securing a vocational instructor for the Ranger schools. Messrs. Davis and Maltby were taken in charge by Mr. Varnell and Secretary Peters of the Cisco chamber of commerce, and driven to points of interest about Cisco, and also visited some of the projects under Mr. Varnell's supervision.

The department of vocational agriculture of the state is affiliated with the federal board for vocational education. Mr. Maltby is agent for twelve southern states, including Texas. So the Cisco vocational instructor is under federal as well as state supervision.

Both Mr. Davis and Mr. Maltby expressed themselves as highly pleased with the work accomplished by Mr. Varnell since his coming to Cisco. "When a man can sell himself to the business men of a community and to the farmers of the county, it speaks well for his work," Mr. Maltby said. "We realize Mr. Varnell's work is comparatively new in the Cisco country, but for the length of time he has been on the job we think he has accomplished much. We were delightedly surprised with your splendid school system, and we found Mr. Youngblood, the school superintendent, well equipped for the work. He is doing a wonderful work in raising the school standards to meet the needs of community education."

Both Mr. Davis and myself were most favorably impressed with the community progress manifest in Cisco. We think you have a wonderful little city, and we were particularly impressed with the optimistic spirit of Cisco people. This is our first visit here, and every impression of your city was favorable. A striking feature was the clean and sanitary condition of the streets, and the extensive street pavement that has been made in Cisco. While many of the smaller cities have gone in for more extensive paving, few towns in Cisco's class can boast of so many paved streets, and their well kept conditions," were other comments of Mr. Maltby.

Visit Other Towns. These gentlemen departed last Monday evening, going from here direct to DeLeon, where they are today, and will visit Dublin, Stephenville and other towns in this part of the state. Their itinerary includes all of this section, and thence they will visit South Texas, College station and other towns in the two weeks trip they have planned.

In speaking of Varnell's work here Mr. Davis said that inasmuch as the vocational work was under the supervision of the federal government, the state department and the city schools, it was necessary that all should be under a mutual understanding. "We want the sons of farmers to take this course, and we want them to put into practice what is taught them in the schools. Anything that has to do with farming will suffice. A small orchard, a sow, chickens or cattle will do for a farmer, boy to study and put into practice the course that all vocational agriculturists have to teach," Mr. Davis said.

### Chamber Directors To Meet Tonight on Big Business

The regular directors meeting of the Cisco chamber of commerce will be held at the chambers this evening at 7:30 o'clock. Secretary Peters requests all directors to be punctual, that the business before the meeting may be dispatched promptly.

### MYERS FAVORS ESTABLISHMENT CISCO AIRPORT

"Every progressive town should have an airport," said C. T. Myers, of the New Domain Oil Co. "I am glad to see the News has taken up the matter, and I hope you will stay with it until Cisco can boast of the best airport in West Texas. We can hardly underestimate the importance of a landing field to Cisco. The airport should be of the most approved type, with all obstructions removed, properly lighted and marked so that fliers can land without danger of accident to themselves or their planes. My son, who is in the service, frequently makes a visit home in his plane, and each time the utmost care has to be used in making the landing, as the only place where a plane can land is out south of the city, where there is an open space. But the land there has grown up in weeds and grass, and a landing is fraught with more or less danger. There is a possibility of a stamp or stake being hidden from sight in the tall weeds, and should a plane strike one of these hidden obstructions there is a probability of serious injury to the plane, and possibly to the flier."

In addition to a modern airport the tall buildings in Cisco should be marked to guide the aviators. Often I see fliers circling over the city for some time before getting their bearings. Evidently they are trying to locate themselves, and once they ascertain they are over Cisco, then they know how to proceed. If the word "CISCO" was painted on the taller buildings in large letters, these could be seen by the fliers, and if they did not care to stop here, would be of material assistance to aid them in their air journey. These signs would send out a definite purpose and would be marked to guide the aviators. These signs would also serve as an advertisement to the city that would be reported by aviators over the country.

"I am not informed as to the dimensions of an airport, but one should be large enough to allow the fliers to take off under most any weather conditions, and should be kept clean and free of all obstacles," Mr. Myers concluded.

### CHILD ROUNDUP FOR SUMMER BEGINS SOON

Those parents who have children entering school for the first time next fall, will remember to bring them to the city hall rest room either on Wednesday or Thursday for the free examination which begins the Summer Roundup campaign. A second examination will be given in the fall. If the child has no way of coming to the city hall a car will call for him and bring him home after the examination. Where transportation is needed, please call the chairman of the transportation committee, Mrs. B. G. Dowell, at 781W.

### STORM TAKES HEAVY TOLL IN GEORGIA

CANTON, Ga., March 27.—Mr. and Mrs. William Millwood, son Allen, 16 years old, daughter, Estelle, 14 years old, and Ossie Heath are dead. Eleven others were seriously injured. They were in the wake of a tornado that swept Cherokee county last night, according to reports received here today.

### COMMISSION GETS PLANS FROM LOREE

WASHINGTON, March 27.—The new plan of L. F. Loree, president of the Delaware and Hudson Railroad company to link the three southwestern railroads, the Katy, Cotton Belt and Kansas City Southern into one single system was placed before the Interstate Commerce commission today. The details will not be made public before the stock market closes today.

### BYRNES JURY IS COMPLETED EARLY TODAY

SAN ANGELO, March 27.—The jury to try Newton Byrnes, the murderer of Myrna Juergens, 14 years old, was completed at 10 o'clock this morning. Court then recessed until 1:00 o'clock this afternoon without hearing the defense plea. Myrna's body with that of her mother, Mrs. W. J. Juergens, and her grandmother, Mrs. Rose Schirra, was found on March 11, semi-decomposed and mutilated in the Juergens bungalow here. Byrnes was arrested that night at Sulphur Springs and confessed the next day.

Byrnes does not seem to be interested in his trial and has the appearance of a man that is bored. W. J. Juergens, father of the victim, is attending court and seems to be very much interested in the proceedings.

The jury is composed largely of farmers and stockmen. Quite a few could not qualify because of being opposed to the death penalty. It will not take a great while to try the case. The confession of the lad will be introduced in evidence early in the trial.

### TWO CHICAGO HOMES BOMBED; TO BE PROBED

CHICAGO, Ill., March 27.—United States District Attorney George Johnson today promised to make a federal investigation into the bombing of the homes of United States Senator Charles S. Deneen and Judge John A. Swanson about midnight last night.

Swanson is Deneen's candidate for state's attorney of Cooke county in opposition to the present incumbent, Robert E. Crowe. The porch and a large section of the front of Deneen's home was torn away. But the senator's sister Florence, and her maid escaped unhurt.

### ISSUES DEFIANCE

WASHINGTON, March 27.—Senator Charles Deneen of Illinois issued a defiance to his enemies when he reached here this morning. He told the International News Service, "the bombing of my home last night was the work of the organized and protected criminal classes of Chicago, who in their desperate efforts hope to regain control of the city and Cooke county."

### MOVE LIBRARY TO CITY HALL TO BE CLOSED

The Cisco Library, which has been fostered by the Twentieth Century club since its organization several years ago, and maintained by that ladies' club as the only library in the city to which the public has access, is being moved today and Wednesday from its present location at West Seventh street and G avenue to the city hall. The Daily News is requested to state that the library will be closed until after Wednesday, and those owing fines will not be compelled to pay for this week. The library will be located in the room just north of the ladies' rest room, opposite the city clerk's office.

This bringing the library down town will be of great convenience to the patrons of that institution, as it will be more accessible to the reading public.

### Privacy in Bath

Dr. Furse, Bishop at St. Albans, doubts the value of modern inventions when he reflects that television threatens man's final place of privacy—his bath. The Bishop is 6 feet 2 and weighs 124 pounds—a big man in more ways than two. (International Newsphoto)

### DELEGATION WILL GO TO DUBLIN MEET

It is indicated that Cisco will have a very credible representation at the regional meeting of the West Texas chamber of commerce at Dublin tomorrow, said Secretary Peters. "But I can't tell you or how many will be in the party, but hope, everyone who can, will make the trip. Those with cars having vacant seats will please call the chamber of commerce and let me know how many they can carry. By filling all cars that will go we can increase the representation considerably. The chamber of commerce will furnish badges for all who go. The start will be made from the chamber of commerce Wednesday morning at 8:30 o'clock," Peters said.

### SUITS FILED \$1,500,000 2 CONCERNS

AUSTIN, March 27.—Upon recommendation of Comptroller Terrell, two suits asking for approximately \$1,500,000 were filed in the fifty-third district court today against the Texas Gulf Sulphur and the Freeport Sulphur company. The first is a New York concern and the latter is a Freeport corporation. These suits represent occupational taxes and penalties from June 13, 1923, to January 1, of this year. The state alleges the companies insisted upon payment of only a flat rate of \$10 per ton, while the state claims \$18 per ton on the market value of the product.

### Shepard Family From Abilene Arranging Home

Mr. and Mrs. P. P. Shepard have arrived in Cisco, and are arranging their household effects today in the "Electric Home," 705 West Seventh street, where they will be comfortably domiciled as soon as they can get their furniture arranged. Mr. Campbell is the new Cisco manager of district B. of the West Texas Utilities Co., succeeding P. W. Campbell in this position. Cisco accords Mr. and Mrs. Shepard a most cordial welcome.

### MOODY, USES KNIFE CUTS COLLEGES

AUSTIN, March 27.—Governor Moody announces the trimming of all requests for deficiencies by state institutions in order to stay within the \$200,000 limit. The principal sufferers were the state teachers' colleges which had requests cut one-third.

**THE WEATHER**  
East Texas—Cloudy and warmer; northwest unsettled; tomorrow warmer.  
West Texas—Cloudy and warmer in east and north.

### COAL PROBERS MAY CALL ON HENRY FORD

WASHINGTON, March 27.—Members of the senate coal investigating committee indicated today that they would call Henry Ford to testify. Henry Ford now operates mines in West Virginia and Kentucky, and pays his men eight dollars a day, while the adjacent open-pit mines have a five dollar a day top salary.

### POLICE HOLD TWO LADS ON WAY TO WEST

Two boys on the sea of adventure were landed into the port of police headquarters today, when Gus Hammond, 15 years old, and Clifford Morehead, 18, were taken up on E avenue near the city hall. The boys are being held pending instructions from their parents at Mabank, where the boys said they lived. They told the police that they were enroute to Lamesa, where Clifford said he had an uncle. Both admitted they were without funds and were shabbily dressed.

Gus Hammond, the younger of the pair, said his step father was named J. A. Sexton, and that he left home because of being mistreated by the step father. He shed copious tears when the police talked to him about going back home, and stated he would not go unless compelled to do so. The only thing incriminating discovered about the two boys was the police took several bunches of keys from them. These were of various patterns, and there seemed to be a key for most any lock.

### COUNTY HOME AGRICULTURAL AGENTS HERE

Miss Ruth Ramey, county home demonstration agent, and J. C. Patterson, county farm agent, stopped over in Cisco this morning enroute to Eastland from Dothan, where they held meetings of the girls and boys clubs at that place just before their arrival here. Miss Ramey gave a demonstration in making utensils holders and sewing bags. The boys were given a demonstration in tarracing by Mr. Patterson.

This demonstration finishes up the work of Miss Ramey for this week. Next week will be devoted to holding demonstrations with women's clubs of the county. Tuesday she will work with the women's clubs at Okra; Wednesday she will visit the Rising Star club; Thursday she will be with the women of Scranton, and Friday the club at Peak will be visited. Miss Ramey said she had nothing scheduled for Saturday of next week.

### ROTARY CLUB VACANCIES ARE FILLED

Mr. and Mrs. P. P. Shepard have arrived in Cisco, and are arranging their household effects today in the "Electric Home," 705 West Seventh street, where they will be comfortably domiciled as soon as they can get their furniture arranged. Mr. Campbell is the new Cisco manager of district B. of the West Texas Utilities Co., succeeding P. W. Campbell in this position. Cisco accords Mr. and Mrs. Shepard a most cordial welcome.

**MOODY, USES KNIFE CUTS COLLEGES**  
AUSTIN, March 27.—Governor Moody announces the trimming of all requests for deficiencies by state institutions in order to stay within the \$200,000 limit. The principal sufferers were the state teachers' colleges which had requests cut one-third.

### SUPERVISORS OF STATE AND NATION HERE

Cisco was visited Monday by C. L. Davis, state supervisor of vocational agriculture at Austin, who was accompanied by Robert D. Maltby, agent federal board for vocational education, of Washington, D. C., who came here to check up on the work of E. H. Varnell, vocational agricultural teacher in the Cisco high school. They came here from Ranger where they conferred with Ranger school and chamber of commerce officials relative to securing a vocational instructor for the Ranger schools. Messrs. Davis and Maltby were taken in charge by Mr. Varnell and Secretary Peters of the Cisco chamber of commerce, and driven to points of interest about Cisco, and also visited some of the projects under Mr. Varnell's supervision.

The department of vocational agriculture of the state is affiliated with the federal board for vocational education. Mr. Maltby is agent for twelve southern states, including Texas. So the Cisco vocational instructor is under federal as well as state supervision.

Both Mr. Davis and Mr. Maltby expressed themselves as highly pleased with the work accomplished by Mr. Varnell since his coming to Cisco. "When a man can sell himself to the business men of a community and to the farmers of the county, it speaks well for his work," Mr. Maltby said. "We realize Mr. Varnell's work is comparatively new in the Cisco country, but for the length of time he has been on the job we think he has accomplished much. We were delightedly surprised with your splendid school system, and we found Mr. Youngblood, the school superintendent, well equipped for the work. He is doing a wonderful work in raising the school standards to meet the needs of community education."

Both Mr. Davis and myself were most favorably impressed with the community progress manifest in Cisco. We think you have a wonderful little city, and we were particularly impressed with the optimistic spirit of Cisco people. This is our first visit here, and every impression of your city was favorable. A striking feature was the clean and sanitary condition of the streets, and the extensive street pavement that has been made in Cisco. While many of the smaller cities have gone in for more extensive paving, few towns in Cisco's class can boast of so many paved streets, and their well kept conditions," were other comments of Mr. Maltby.

Visit Other Towns. These gentlemen departed last Monday evening, going from here direct to DeLeon, where they are today, and will visit Dublin, Stephenville and other towns in this part of the state. Their itinerary includes all of this section, and thence they will visit South Texas, College station and other towns in the two weeks trip they have planned.

In speaking of Varnell's work here Mr. Davis said that inasmuch as the vocational work was under the supervision of the federal government, the state department and the city schools, it was necessary that all should be under a mutual understanding. "We want the sons of farmers to take this course, and we want them to put into practice what is taught them in the schools. Anything that has to do with farming will suffice. A small orchard, a sow, chickens or cattle will do for a farmer, boy to study and put into practice the course that all vocational agriculturists have to teach," Mr. Davis said.

**TEXAS LINES SHOW SLUMP IN REVENUE**  
AUSTIN, March 27.—The greatest slump in revenue of Texas railroads for one month was revealed today when the railroad commission issued comparative figures for January of this year and last year. The net operating income this year was \$1,485,837 as compared with \$1,602,261 a year ago. The decrease is 51.88 per cent.

**WINKLER OIL PRODUCTION.**—Winkler county is still a disturbing element in oil production, having made a new production peak record of 193,838 barrels in twenty-four hours. That is entirely too much for a baby oil field, but Winkler claims that the lucky youngster can't easily be controlled.

er delegates at the conference waved aside the Russian proposal as "too idealistic." That is an unfortunate phrase. Nothing can be too idealistic. Only ideals must be sought by practical methods. And it is a legitimate criticism that in the present state of the world, such a sudden, complete reversal of national policy in the matter of self-defense is not practical. Nevertheless, though the proposal was turned down by 23 of the 25 nations represented, including our own, it has had a good effect. It has forced upon the world, more vigorous than ever, the idea of peace. It has driven nations to think out more clearly whether it is possible to banish war and, if so, by what processes. "Building up a will for peace and a confidence in peaceful methods for the settling of international disputes," said Ambassador Gibson, speaking for America, "would have the effect automatically of reducing the needs and wants of armament." The nations must disarm mentally and spiritually before they disarm physically. Yet the thing works both ways. By progressive cutting of armies and navies, the peaceful mood is strengthened. Peace gospel and arms reduction should go hand in hand.

Personal Opinions

By W. H. ALBURN.

DEEP STUFF

Personality, says a mental authority, is something like a cake of many layers, and the top layer is our conscious self. What we know as "I" might be defined then as the frosting on the mental cake. Or maybe the meringue. Or the whipped cream. Or possibly the figure's wrong, possibly "I" am the mayonnaise on the salad. Often one's mind seems much like a combination salad. It's good to be assured that there's more mind down below, but humiliating to learn how little use we make of it. The psychologist says "we use our brains less than 15 per cent of our waking time." The rest of the day we're "in the thrall of automatism and day dreams." We just let our minds run on automatically.

WASP PLANES

England is said to have a remarkable aircraft. It is a rocket like single seated fighting plane capable of climbing almost straight up in the air five miles in 10 minutes. The "interceptor fighter" they call it. It is "just one big roaring engine, to which are attached a wasp waist fuselage and knife like wings." It is tricky to operate, but a deadly weapon. The pilot is expected to carry a small, light machine gun and go aloft to attack a city or army or military depot against air attack. The plane itself may be launched as a missile, against a hostile airship, the pilot dropping in a parachute a moment before the collision. One of these wasps would cost probably a couple of thousand dollars, and risk one man's life. What would it do to a dirigible costing three or four millions, and carrying 100 men?

VILLAGE SECRETARY

Something said to be unique in municipal government is proposed in a thriving Ohio village, in framing a new charter. It is an executive secretary employed by the council. He would give all his time to the job, acting as town clerk, finance director, auditor and in other capacities. The mayor would be retained, but relieved of a great deal of detail and probably have his salary reduced accordingly. This executive secretary would be, in many ways, a small edition of city manager. The plan works well in many private institutions and some public ones. It might work just as well in the way here outlined.

A RUN-AWAY AUTO

The hero who used to stop a run-away horse just before the frightened creature trampled on some one has his modern successor. In Houston the other day a motorist was stricken with illness and collapsed while driving his car. The car swerved toward a sidewalk where 15 or more children were playing. The policeman at the nearest street intersection saw the car lurch and ran toward it. As it crossed the curb he jumped on the running board, reached through the window and shut off the motor. The car then stopped and respect the motor car is less which can be frightened when, through carelessness a moving automobile is unthinking, prompt action a

PUBLIC OWNERS

The United States Line operated, consisting of five an operating profit for last year developing into quite a business men, though, will before dropping the subject. What was the capitalization figured on? Did the Fleet Corporation allow for a normal return on the investment? Did it consider depreciation? Or was it satisfied, as some critics say, to count as profit all the excess of current operating income over current operating expenditure? The Panama Canal makes money regularly now, but seems to make more than it actually does, by ignoring the capital invested. The government based on the lower Mississippi showing a profit on the same question arises.

RUSSIA'S PROPOSAL

If Russia's proposal had come from any other have succeeded, but would considerably. A British bluntly reminded the Russian to proffer peace with the meddler with their poliganda in the domestic cause such activity was ce

continuous, 24 hours a day, the growth was "astounding." Similar results, almost as remarkable, have been obtained by scientists with other plants, and also with chickens. The value of light, for life of all kinds, for man's works and man himself, has never yet been half appreciated.

WORLD COURTS

Many court organizations, including the Federated Churches in some of our largest cities, are taking up the question of American adherence to the World Court. The Gillett resolution, under consideration in the senate committee on foreign relations, furnishes the present incentive. The committee is receiving letters from church groups urging the further exchange of views between the United States and the members of the court. The feeling is that such an "exchange of views," aiming to clarify the American position and see what the other nations think about it now, would at least do no harm. Many people, in and out of the churches, will agree with that.

Those unemployment lists must include political candidates.

It really ought to be a cinch for Al Smith, for at this rate, when the presidential election day rolls around next fall, the Republicans can't be home to vote because they'll all be down in Washington testifying before the Senate Teapot Dome committee. — Chicago Tribune.

Since Taking Black-Draught This Man Is Eager For His Meals and Feels Much Better.

Harrisburg, N. C.—Mr. M. F. Pink, of this place, says: "It must have been fully twenty-five years ago that I began taking Black-Draught regularly. It wasn't so long after I married.

"I was in town one day, and while talking to a friend I stooped over to pick up something. When I straightened up, I felt dizzy. I spoke to him about this and how I had not felt like eating.

"My friend told me to take some Black-Draught. I knew my mother had used it, and so I bought a package. When I got home, I took a good, big dose, and the next night, another. In a few days I felt much better. I was hungry and the dizziness was gone.

"A good many times I have had this dizziness and a bad taste in my mouth, or headaches, and then I take Black-Draught and get better. I do not have to take it very often. We buy from five to seven packages a year."

Theford's Black-Draught has been found to relieve sick headaches in thousands of cases that were due to constipation. Containing no mineral drugs, it acts gently, yet promptly. Try it. AC-193

MORE TRUTH THAN POETRY

The house that's run down, be it mansion or shack Shows that its owner for money does lack. So, an unkept suit its story will tell That its owner is likely a ne'er-do-well. Can you afford to let yourself look that way? Send us your suit for a clean and press today.

Eastland Baptist Congregation Is Without Pastor

EASTLAND, March 27.—Rev. W. T. Turner, of Waco, who recently was called to the pastorate of the Eastland Baptist church, has requested an extension of time in which to consider his acceptance, and no pastor has yet been employed to take the place recently vacated by Rev. W. J. Nelson, who resigned the first of the year to accept the pastorate of a Baptist church at Taylor, officials of the Eastland church announced. Turner and Mr. Turner indicated that he will be ready to commence his ministry here next Sunday should he decide to accept the pastorate of the Eastland church.

Coming Events

Tuesday Mrs. E. M. Howard will be hostess to the Episcopal guild at her home in Rising Star.

Wednesday Study club will meet with Mrs. M. C. Williamson at 4 o'clock at her home on West Seventh street.

Y. H. T. H. bridge club meets with Mrs. Roy Stover at her home in Humbletown.

Friday Twentieth Century club meets at the city hall at 4 o'clock.

Saturday The Amuse Dance club will meet at the Green Lantern tea room.

D. A. R. Luncheon

Monday

The Charles Crawford Chapter of the Daughters of the American Revolution met Monday in a luncheon at the Presbyterian church. The table was decorated with pink flowers and fernery, with the silver appointments. Plans were laid for the following members: Mesdames F. D. Pierce, J. A. Bearman, Alex Spears, E. J. McDaniels, John Elkins, Frank Harrell, Philip Pettit, M. C. Williamson, Jack Kelly, Homer Slicker and J. H. West. The regent, Mrs. Frank Harrell, conducted the regular routine of business, after which the following interesting program was given. Mrs. J. H. West gave a very interesting talk on "Excitement—a False Stimulant." Mrs. Jack Kelly read a paper on "The Education of Our Girls, a Rising Standard." Mrs. Philip Pettit led the round table discussion, which was "Cause of Crime and Faults in the Law." The meeting adjourned to meet the fourth Monday in April.

Call for Help To Aid in Pageant

All Y. W. A. girls and all others who will help in the pageant are urged to be at the First Baptist church this evening at 6 o'clock.

Garden Club Met At the City Hall

The members of the Garden club met Monday afternoon at the city hall in a very enthusiastic meeting. Mrs. R. Q. Lee, president of the club, presided over the business meeting. After disposing of several important matters a splendid pro-

gram was given on seeds and bulbs. At the last meeting Mr. Ely gave a very interesting and beneficial talk on the different kinds of soil, which led up to this program on seeds and bulbs. Mrs. R. Q. Lee gave a most thorough explanation of the different seeds—"How and When to Plant Them." The round table discussion included talks from each one present on bulbs. The club is striving to beautify the city and to make each yard more attractive. There was a large number present. This club urges that property owners keep the trees trimmed near the sidewalk and also to cooperate with the Garden club in killing out the Johnson grass in the parkways.

Country Club Party

The country club of commerce and industry offered to stand behind the venture. It is determined to take such action, it will be in the form of a suit filed in the federal court directed against the state of Oklahoma.

It is expected that the secretaries of several surrounding states, including Kansas, will lend all possible assistance to the association's undertaking, as it is generally admitted that the license law is unfair to all of Oklahoma's neighbors.

The prescription cost me nothing. I ask nothing for it. I will mail it if you will send me your address. A postal will bring it. Write today.

PAUL CASE, Dept. S-226, Brockton, Mass.

OCTOGENARIAN IS HONORED WITH DINNER

W. F. Elkins, father of John Elkins, Mrs. John C. Sherman and Lee Elkins, of Cisco, was 81 years old March 14, and this event was celebrated March 18 at Comanche, when his daughter, Miss Minnie Elkins, assisted by her friend, Miss Iva Hart, county treasurer of Comanche county, gave a dinner in honor of this Cisco octogenarian. Mr. and Mrs. John C. Sherman and Lee Elkins accompanied their father to Comanche where there was a family reunion when Mr. and Mrs. W. L. Elkins, of Cojeman, joined the family circle, making it complete with the exception of Mr. and Mrs. John Elkins, who could not be present.

W. F. Elkins has made his home with his daughter, Mrs. John C. Sherman, of this city, for the past seven years. He was born in Concord, N. C., March 14, 1849, came to Texas in 1871, and located in Bryan and later in Calvert one year, after which he moved to Comanche, from which place he came to make his home in Cisco. Though now in his eighty-second year Mr. Elkins enjoys splendid health, and is wonderfully preserved for a man of his years. He is robust and vigorous, as straight as an Indian, and only for his failing eyesight is practically in as good physical health as he ever was.

EASTLAND BOY SCOUTS CAMP SITE CHOSEN

EASTLAND, March 27.—The summer scout camp for the Eastland county Boy Scouts has been secured near Mason, according to reports from the locating committee which consists of Alex Clark, president of the Eastland county Boy Scout council; J. M. Perkins, chairman of the camping committee, and Guy Quirl, scout executive.

This committee visited a number of desirable sites before making its final selection, which is at the junction of the Llano and James rivers, about nine miles south of

Mason, and six or seven miles off the highway. The site selected, the committee reports, is most desirable, easy accessible, well watered and has plenty of hiking grounds.

The water at this place ripples over a pebbly bottom and is deep only in places which afford the finest kind of swimming holes. The streams have plenty of fish in them. Within a stone's throw of the camp site are three large, flowing springs, which will furnish an abundance of pure drinking water. The mountains of Mason county abound in interesting relics of Indian days and the boys may be able to find flint arrow heads and other things of interest.

Mr. Perkins will make a report on camp site to the Boy Scout executive committee, which has been called to meet at 7:30 o'clock next Wednesday evening in the Eastland chamber of commerce.

PLANTS NEED NITROGEN FOR PROPER FOOD

Nitrogen is one of the most important elements in plant food and it is the fertilizer most generously applied, either in the form of stable manure or in chemical or commercial fertilizers. Nitrate of soda is the component of the chemical fertilizers and one of the quickest acting.

Nitrate of soda, as a general rule, should not be applied to heavy soils. There seems to be little doubt, as proved by experiment, that it has a tendency under such soil conditions to harden the soil, destroying the texture and making it difficult to work. The application of lime does not seem to remedy this condition, which scientists have explained in technical terms, which do not greatly concern the gardener, who is chiefly interested in results. Fertilizers of an acid nature, such as acid phosphate, although it has a strongly acidifying tendency, have a good effect. Nitrate of soda is most effective in soils of good texture and those of a light character. Nitrate has another beneficial ac-

tion aside from furnishing the plant nitrogen in quickly available form. The sodium, although not of direct value to the plant, helps to release insoluble potash in the soil. In light soils this action is so effective that it relieves the garner of the necessity of applying potash fertilizers.

Nitrate has often been criticized as a "soil scourge." Like other strong plant foods containing only one element, if used repeatedly, it depletes other plant foods in the soil and this loss must be made up by supplying potash and phosphates. In using nitrate it is well to bear in mind three points: Do not use it on heavy soils, especially clay; use it in conjunction with potash and phosphates; and use it only with crops that need it and can make use of it. It is a fertilizer to encourage leaf growth. A pound to a square foot of ground is the usually prescribed amount. Commercial fertilizers have a balanced ration of nitrate, potash and phosphates and, in the long run, are safer for the inexperienced gardener to use because he cannot go wrong with them.

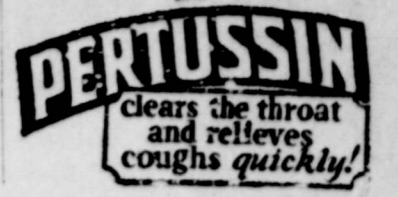

PROTRACTED MEETING IS DRAWING BIG

There was a splendid audience at the First Christian church Monday night at the revival now under way there. Thomas Reid was in charge of the music and lifted the congregation to a high inspiration in the congregational singing. His solo, "Does Jesus Care," was most inspiring.

Reverend Mr. Lenox spoke on the subject, "Thou Art Weighed in the Balance and Found Wanting." Only four weights were used: "Thou Shalt Have No Other God," "Thou Shalt Not Take the Name of the Lord Thy God in Vain," "Remember the Sabbath Day to Keep It Holy," and "Honor Thy Father and Mother."

The minister administered a heavy rebuke to Sunday violation and profanity. "Every man needs Jesus with him when he is weighed," the minister said. The members of this congregation are attending and loyally supporting the meeting in a wonderful way. The ministerial club of Randolph college attended in a body last night. Tonight Mr. Lenox will take for his subject "Satan's Greatest Avenue." The minister and congrega-

tion extends a cordial invitation to all to attend these meetings.

# PORT ARANSAS IS LARGEST OIL PORT IN WORLD

PORT ARANSAS, Texas, March 27.—The largest oil port in the world, in point of tonnage exported, is being developed here by the Humble Pipeline company and the Humble Oil & Refining company, subsidiaries of the Standard Oil Co. of Texas, whose \$15,000,000 pipeline systems serving the prolific West Texas oil fields terminate at this point.

With the pipeline and ship loading facilities inadequate to handle the 200,000 barrels per day out of West Texas, for which it is under contract, the Humble has shipped across the bar at Port Aransas in the last 16 months, ended January 31, 1928, 1,363,257.66 tons of crude petroleum. In the month of February, 1928, the Humble shipped 187,129.99 tons.

**Dredging to Gulf**  
Because of the unusually deep draught of vessels employed as oil tankers the Humble has been able to load only 80 per cent capacity at its wharves in Port Aransas. Plans here, afterwards topped off at some other Texas port where deeper water was available.

As a result construction of an emergency line to terminate on the gulf coast of Mustang Island was begun some weeks ago. Fearing pollution of the gulf waters from spillage and consequent danger to marine life hereabouts, state officials obtained an injunction and halted this work.

As a result the Humble has abandoned the sea line and is concentrating on Harbor Island, just inside the government jetty at Port Aransas, where maximum deep water will be available by dredging a short distance to the deep gulf waters.

**System of Loops**  
The Humble also has nearly completed a system of "loops" on that sector of its oil pipeline system from Lytle, near San Antonio, to this point, which will boost the capacity of this line 40 per cent. The Humble pipeline from West Texas, also has been tied in at this point, entailing the combination to the designation of "trunk line."

A refinery, which when completed, will have a capacity of 50,000 barrels of crude per day is now under construction by Humble Oil & Refining Co. at Ingleside Station, on the government channel, near here.

## Negro Prisoners In Tarrant Jail Make War on Cats

DALLAS, March 27.—The sixth floor of the county jail here is no place to keep cats. Officials from time to time have put cats there but by the time, in fact, with consistent regularity, they have disappeared.

"The cats are thrown out the window just as fast as they come along by negroes on the sixth floor," said Jailer Gorman. Mice are preferred to the omens of evil, according to the negroes.

**WANTED**  
Plain and fancy sewing; children's clothing a specialty. Mrs. I. H. Stiles, 802 West Twelfth street. Phone 491W. 37-39

## Coming to Cisco Dr. Mellenthin

Specialist  
In Internal Medicine for the past fifteen years.

DOES NOT OPERATE

WILL BE AT  
Daniels Hotel  
Saturday, March 31

ONE DAY ONLY

No Charge for Consultation

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the state of Texas. He does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach, liver bowels, blood, skin, nerves, heart, kidney, bladder, bed wetting, catarrh, weak lungs, rheumatism, sciatica, leg ulcers and rectal ailments.

Below are the names of a few of his many satisfied patients in Texas who have been treated for one of the above named causes:  
Mrs. Alfred Pfeil, Fredericksburg  
Mrs. I. M. Pond, Amarillo  
Mrs. Fritz Wilke, Albert  
Mrs. W. R. Thomas, Athens  
A. A. Krause, Yoakum  
Mrs. Nora Hillboldt, Cat Springs  
Mrs. M. A. Martin, Lorenzo  
Mrs. J. S. Mitchell, Farmerville  
Remember above date, that consultation on this trip will be free and that his treatment is different.

Married women must be accompanied by their husbands.  
Address: 211 Broadway Bldg., Los Angeles, California.

## WOULD LINK SMITH-SINCLAIR IN OIL

Senator Robinson (right) of Indiana and Senator Nye (left) of North Dakota brought heated answers from Governor Smith of New York to "leak" insinuations that he extended favors to Harry F. Sinclair in return for campaign contributions. Senator Nye virtually apologized for the attack.

## MISSISSIPPI PUTS BAN ON NEW TRIALS

JACKSON, Miss., March 27.—Free love, companionate marriage and trial marriages may be prohibited by law in Mississippi and couples trying these modern methods of wedlock arrested and sent to prison.

A bill, now before the house would make trial marriage, free love and companionate marriage a felony and punishable by a long prison term.

Representative Kelly Hammond introduced the bill in the state legislature this week.

"These things have not yet invaded Mississippi but we Mississippians should not take a chance on these theories coming to our state."

## Max Elser Out After Accident of February 1

The many friends of genial Max Elser are glad to greet him on the streets again after his confinement to his room since February 1, following the accident that befell him when run down by an auto on D avenue. Max was seriously injured in his spine in this accident, and most of the time of his confinement it was necessary for him to remain in bed. But he is now able to take his meals at his favorite dining place and the same old smile greets his friends, who are greeting his friends.

## BODY FOUND IN WELL NOT IDENTIFIED

BAIRD, March 27.—Sheriff Hughes, of Calahan county, is making inquiry of the officials in adjoining counties in an effort to ascertain identity of a man found in a well in this county. These inquiries are for any person that may have been missing. Nothing around the well where the body was found indicated the method of the man's death, or why it was placed in the well. The body indicated that the man had been dead for more than a month, and owing to the decomposed condition officers are unable to tell whether the body was that of a white man or negro.

## ENGLAND PLAYS NO FAVORITES FOR PASSPORTS

JERUSALEM, March 27.—An official announcement that Palestine citizens enjoy no preference in the United Kingdom, but must comply with the regulations applying to all aliens to be barred at the port of arrival in England, has come as a rude shock to Palestinians who fancied themselves citizens of the Empire.

Encouragements for this belief was furnished in the Palestine passport resembling in many respects the ordinary British traveling document, with words, "British Passport" printed in bold type on the cover and the name "Palestine" printed in conspicuously small type underneath.

A travel document not honored by the government whose auspices it was issued can be of no great value, Palestinians maintain.

## DIAMOND JOE'S FUNERAL WAS COSTLY ONE

CHICAGO, March 27.—The funeral of "Diamond Joe" Esposito was the most magnificent and costly ever held in Chicago.

All that was mortal of the famous "Diamond," who had been called the Robin Hood of Chicago's Little Italy, reposed in a \$10,000 silver-bronze casket inlaid with pure gold. Before the mile-long cortege be-

gan its march to Holy Name church, Diamond Joe's gun-like hair formed the glittering center of a veritable acre of flowers. Never in Chicago's long record of elaborate funerals—excepting those of the Gangsters Geana and O'Banion—has there been such a fortune in flowers.

Packed in every room in the Esposito home, the imposing array of floral pieces overflowed into the yard and onto the premises of Diamond Joe's neighbors. Many thousands of dollars—it would be difficult to hazard an estimate were spent on flowers.

Diamond Joe, who was shot down in typical gangster fashion by three assassins, numbered his friends by the thousands.

## BOOTLEGGERS PROFITS ARE SHOWING LOSS

CLEVELAND, March 27.—Bootlegger's profits, at least in Cleveland and vicinity, are dwindling.

Whereas three years ago, the federal storeroom here in which seized liquor is kept, seldom contained less than 1,000 cases and 25 or more barrels of whiskey, today only a mere fifty or so, cases could be found in government custody in the whole northeastern Ohio district.

The authority for this statement is H. D. Lingenfelter, chief deputy United States marshal here.

"Formerly when raids were made," Lingenfelter declared, "agents brought liquor in by truckloads. Now they bring it in two or three pints at a time, usually taken from hangers-on, who make it their business to serve speak-easy customers from pocket flasks instead of openly as before."

Present events presage the passing of "big time" liquor traffic, Lingenfelter believes.

"Deniers have become wary," Lingenfelter said, "due to losses and as a result of small amounts of liquor are confiscated. However it is noticeable that they are financially unable to lay in large stores."

"Few people realize the great expense under which bootleggers work. They must pay good prices for liquor they handle, in addition to protection from hi-jackers and

## CHICAGO HOOP TOURNAMENT OPENS APR. 10

By FRANCIS F. HEALY  
International News Service Staff Correspondent

CHICAGO, March 27.—Fierce battles are waged daily in all parts of the country for the honor of participating in the national inter-scholastic basketball tournament to be held here at the University of Chicago, April 3.

High school teams who are entered are: Rutland, Vt.; Purdy High school, Selmer, Tenn.; Vienna, Ga.; Spartanburg, S. C.; Miami, Ariz.; New Hanover High school, Wilmington, N. C.; Mortimer Jordan High school, Morris, Ala.; United States Indian school,

Albuquerque, N. M. and Austin, Texas.  
All of the teams are state champions with the exception of Miami which was runner up in the Arizona championship.  
Teams still considering the offer are: Bienville, La.; Englewood High school of Chicago; Pine Bluff, Ark.; Andrew Jackson High school, Jacksonville, Florida; St. Paul, Neb.; Franklin, N. H.; Butte, Mont.; North Central High school, Spokane, Wash., and Oak Park III., high school.

## DISTURBED SLEEP Relieved for Wisconsin Lady. Wants to Tell Others. Bladder Irritation the Cause.

# World Not Going to Dogs, God Can't Be Pushed Out, Declares Retired Teacher

NEW YORK, March 27.—Observation of college life for thirty-three years leads a college professor emeritus, Albert Perry Brigham and Colgate university, to believe that the decadence of religion as charged is not based on fact.

"The world is not going to the dogs, as some like to believe," he says. "It is not easy to push God out of the world. If sanity fades, like the radio it comes back in full melody and strong tone. Many fine groups are working for the higher and good things of life. The goodness in every heart somewhere does the rest."

Were it not for the women the average man would be in danger of becoming a failure, according to Professor Brigham, who says:

"The average man is trained in the ways he should go, first by his mother, then his wife takes a hand, his daughter is no bad third and soon the granddaughter carries on. An unmarried man can't claim much of anything in the way of personal development."

"Some men become fools for women. Many men make good and reasonable mates for them and a few are made heroic by knowing and loving them."

The professor confessed he has spent much of his life writing books for boys and girls to worry over instead of spending their time in the open. His philosophy is "Work is victory."

The professor is an eminent geologist and geographer and ranks as an authority on man and nature in the United States. He will be a speaker at the convention of the Y. M. C. A.'s in the United States opening in Sacramento, California, April 14. The 2,000 delegates will represent 600,000 membership in all parts of the United States.

He will lecture by invitation at Oxford University on "The United States of America" the title of his latest book which has put geography among the best non-fiction sellers.

## OKLAHOMA TAX ON AUTOS TO BE CONTESTED

WICHITA, Kan., March 27.—There is a lurking possibility that the state of Oklahoma will declare "war" on the state of Oklahoma and that a number of other states surrounding the Indian state will come to the assistance of Kansas. The difference revolves about an Oklahoma law, recently enacted, which forces all who enter the state via the gasoline route, to purchase a state motor vehicle license.

Secretaries of a half dozen surrounding states, or their representatives, held a "council of war" in Kansas City, several weeks ago, in a united effort to have Oklahoma abolish the law.

They were unsuccessful, and Oklahoma representatives, invited to the conference, failed to attend.

Many industries in this city, and a number of others along the Kansas-Oklahoma line, from time to time, are forced to send trucks and other vehicles into the state to supply customers there. Recently, a truck belonging to the Yellow Cab company of Wichita was dispatched to a point just

across the line in Oklahoma, and before the driver could return his truck, he was forced to pay \$61.75 for an Oklahoma license.

A group of companies, vitally interested in auto taxation, have formed an organization known as the Kansas Auto Taxpayers' association.

Planning Suit  
The Yellow Cab Co. is planning to bring suit to test the constitutionality of the Oklahoma law, and the Kansas Association, along with the local chamber of commerce has offered to stand behind the venture.

It is determined to take such action, it will be in the form of a suit filed in the federal court directed against the state of Oklahoma.

It is expected that the secretaries of several surrounding states, including Kansas, will lend all possible assistance to the association's undertaking, as it is generally admitted that the license law is unfair to all of Oklahoma's neighbors.

## IMMIGRANT LAD RETURNS HOME WEALTHY MAN

KANSAS CITY, March 27.—A seventy-year-old bank president, who came to the United States from his home in Germany, when he was fourteen-years-old, is planning to return to his European home for the first time.

Peter W. Goebel, president of the Liberty National bank, of Kansas City, who as a boy worked his way first to New York, and then by gradual stages to Kansas City, has applied for a pass port to sail May 19, for a three months' tour of Europe.

Mr. Goebel will visit Nassau, Germany, his birthplace. A brother, Christian Goebel, resides there, and they have not seen each other for more than fifty-five years.

Before sailing, Mr. Goebel will go to Washington, to attend a meeting of the Federal Advisory Council, of which he is a member.

## FEW MARRIAGES TURN OUT GOOD OVER PERSIA

TEHERAN, March 26.—Only five marriages in a hundred in Persia turn out to be happy, forty per cent end in divorce, and 55 "exist on sufferance."

In the opinion of a local writer who furnishes this estimate in the absence of authentic statistics, these unhappy marriages are due to the low standard of the education women who, he says, are incapable of managing homes.

This slur is countered by women who say their lords and masters are to blame for the unhappy homes throughout Persia. It is the men, they say, who "are often guilty of moral turpitude, using their homes as resting places where they can reestablish them-

selves in order to commit new depravations."

Divorce is an easy matter in this country, so easy that it is hardly worth while incurring the expense of the marriage ceremony with its rounds of hospitality to sisters, cousins, aunts and friends.

If the estimate of 40 per cent in Persian marriages ending in divorce is correct, the far-famed haunts of the would-be divorcees in America such as Reno and Hollywood will have to look to their laurels, observes the local writer.

## CALIFORNIANS OUTWIT HOLDUP CHINESE DRIVER

BOMBAY, March 27.—Conducted by Mr. and Mrs. Donaldson of San Francisco, a party of distinguished Californians had an exciting adven-

ture in Cambodia, French Indo-China, recently, when they were held up at the point of a revolver by the driver of the automobile in which they were riding.

The party, which is on a world tour, started from San Francisco on October 15 last. Already they have visited Honolulu, China, Japan and various points in India, where inland excursions have been made.

At Cambodia the party chartered an automobile for an inland tour and they had journeyed several dozen miles when they proposed a return to their ship.

The driver demanded an exorbitant fare for the return journey. Unfamiliar with the ways of the East, they were, however, sufficiently versed in the ways of the world to refuse the extravagant charge demanded by the driver.

He, however, reinforced his argument at the point of a revolver which he drew from his pocket im-

mediately on seeing the hesitancy displayed by his fares.

It was then that a young woman in the party acted courageously and immediately, rising from her seat in the rear of the car, she opened her handbag and made as if to take from it the money demanded. Put off his guard the man for the moment lowered his revolver.

In a flash she swept the weapon from his hand, with the result that disarmed, his courage rapidly oozed

away, and he offered to drive them back to the ship without any charge.

The ship was rejoined without any further incident, and the driver went away with his legitimate fare for the return journey.

HE ISN'T CONSTIPATED ANY MORE

Thanks to Kellogg's wonderful ALL-BRAN

Mr. Grimslade wrote, of his own accord, to tell us how much he valued ALL-BRAN in relieving constipation.

June 1, 1927

"Just a few words to let the company know what Kellogg's ALL-BRAN has done for me. I was constipated for several years until I went to eating your PEP and ALL-BRAN. I am now rid of constipation and it is all due to the use of your product, and I will recommend it to anyone that is bothered with constipation."

Yours truly,

H. M. GRIMSLADE, 1122 Laguna Ave., Los Angeles

Constipation is a dreadful thing. It undermines health. It steals happiness. Throbbing heads, aching backs, spots before the eyes, bad complexions are just a few of its telltale symptoms.

Don't let it get in its deadly work on you. Protect yourself now. Kellogg's ALL-BRAN is guaranteed to prevent and relieve constipation. A health cereal—ALL-BRAN is 100% bran. Doctors recommend it. Delicious with milk or cream, or with fruit or honey added. Eat two tablespoonfuls daily—chronic cases, with every meal. Use in cooking. At all grocers. Made by Kellogg in Battle Creek.

## Invalid Earl

Nearing his eightieth birthday, the Earl of Balfour is confined to his home in Freetown, Scotland, with an acute attack of laryngitis. Physicians have ordered several necks rest for the cabinet member. (International Newsweek)

## FEDERAL CASE FILED AGAINST INGRAM BOYS

Burford and Tim Ingram, who are held under grand jury indictments for complicity in the robbery of the store of L. D. Allen at Nimrod on the night of March 7, when it is alleged, they called Allen from his home under the pretext of wanting medicine for a sick relative, have yet a rocky road before them. Postmaster Triplitt said today. "They are held under bond for this alleged holdup, but have yet to answer the federal charge of robbery of a postoffice. I have been informed that agents of the postal department will push the federal charge when the state is satisfied. Should they be released on habeas corpus by the court of criminal appeals, it is stated they will be arrested on a federal warrant, according to information that has reached me." Mr. Triplitt said. The Ingram brothers are alleged to have forced L. D. Allen to open his safe from which they extracted \$50 of his private funds and those belonging to the Nimrod postoffice, where he is postmaster.
