CISCO, TEXAS, THURSDAY, APRIL 5, 1928.

FIRST SECTION

Commission Plan

TEXAS

By WILL H. MAYES, Austin.

TEXAS CENTENNIAL MOVEMENT—Nearly four years ago a movement was started toward a great centennial celebration that would properly and adequately commemorate the first one hundred years of history and progress of our great state. A committee of one hundred citizens, two chosen from each of the senatorial districts, and the others named by Governor Neff at the request of the organization, held several meetings at which the Centennial movement was discussed from almost every angle. About two years ago the committee invited Jesse H. Jones, of Houston, noted builder and Democratic party leader, to take the leadership of the movement as director general. Since then little has been heard about it, and many had concluded that the proposal had been dropped because of the admitted failure of so many great expositions in recent years.

JONES' GREAT IDEA—Instead of forgetting it, or laying it aside for more urgent matters, Jesse Jones has been studying the matter almost constantly from every angle, and at a recent dinner at Fort Worth, at which he was the honor guest, revealed his plans and dreams, which went beyond the vision of the most ardent advocate of the movement. He realizes that to make such a celebration all that it should be to reflect the greatness of Texas, and at the same time avoid financial loss, something must be done wholly different from anything that has ever before been undertaken, and on a much larger scale. As he says, "The day of the World Fair, the hootchy-kootchy and the midway pliancée, once so popular, has passed." Texas must have something both different and better.

STATE-WIDE EXPOSITION—The movement, he suggests, should be practically state-wide in its scope, its financial support, its showing of the greatness of Texas. Briefly stated, and as a basis for study and further suggestions, he recommends: A demonstration at San Antonio to commemorate the Alamo, its erection and fall, the grounds to be left a great state park that Texas could afford to create and maintain.

At or near Houston, a reproduction of the battle of San Jacinto and a pageant of the prominence and importance of that event.

At Goliad, perhaps, a fitting shrine in memory of the brave Fannin and his massacred comrades.

Near Matagorda Bay, something to commemorate the landing of LaSalle and his crew when they discovered Texas in 1685.

At or near Nacogdoches, a memorial portraying the early days of Texas settlement.

At Austin, something especially fitting and appropriate for the capital of our great state, perhaps largely educational in character and centered around the historic and educational progress of the state.

At A. & M. College, a great demonstration farm and engineering laboratory, showing agricultural and industrial progress.

In the Rio Grande Valley, something to show the possibilities of the greatest garden and fruit region in America.

Near Dallas or Fort Worth, an exposition of the agricultural, mineral, industrial and live stock interests on a glorified scale.

In the Panhandle, or the great western part of the state, a panorama of the wonderful changes from plains to intensive development.

ITS GREAT SCOPE—Such a celebration would entail a mighty effort, a heavy co-operation, and the financial support of every part of Texas, but it would be worth the cost in attracting the attention, the admiration, and the interest of the people of all sections. As Mr. Jones expressed it: "It will involve the employment of the best historians and the best artists, the best sculptors and the best scenario writers, as well as the earnest attention of leaders of all lines of enterprise and business, industrial, livestock and agricultural."

FINANCIAL SUPPORT—Such a gigantic undertaking would require the strongest financial support of every section of the state. Mr. Jones has confidence that, on the people of all sections endorsed the movement with support, the state will be able to match dollars with them, that the same financial resources would be given by the local government.

COOLIDGE OPPOSES FL

Depew Succumbs to Pneumonia

RAILROAD DIRECTOR DIES AT 93

NEW YORK, April 5.—Chauncey Mitchell Depew, chairman of the board of directors of the New York Central railroad and former United States senator and prominent Republican leader, died of bronchial pneumonia at 4:30 o'clock this morning. He was 93 years of age. His death took place when he fell into a deep sleep, from which he never emerged.

MEETINGS IN CHURCHES GAIN IN INTEREST

First Methodist Church
"Running From God" was the subject used Wednesday night by Reverend J. T. Ferguson, evangelist conducting a meeting at the First Methodist church; this service was said to be one of the best conducted since the beginning of the meeting. Reverend Ferguson took the story of Jonah as a background for his message. The congregation requested that he remain through the week, conducting service each afternoon and night.

Reverend Ferguson announced that he would speak tonight on "God's Love for a Lost World." This is one of the outstanding messages of the evangelist, and everyone is invited to be present, according to Reverend P. T. Stanford, pastor of the church.

Services are held each day at 2 p. m. and 7:45 p. m.; junior-intermediate service at 4:15 p. m. and senior young people's services at 7 p. m. Friday night the evangelist will take "Profit and Loss" for his subject. The business men of the city will be the guests of the church.

First Christian Church
Revival services at the First Christian church will continue throughout the week. Interest is increasing. "An Absolute Necessity" will be the subject at 7:45 this evening. Special music is rendered at each service, and congregational singing has a part. Reverend Thomas Lenox extends an invitation to all to attend the meeting.

BITTLE NAMED SUCCESSOR TO SUPT. BATES

P. B. Bittle, at present superintendent of the Big Spring public schools, has been elected superintendent of the Eastland public schools. W. Z. Bates, superintendent of the Eastland schools for the past six years, was not an applicant for reelection. Concerning Mr. Bittle, Superintendent J. J. Youngblood of the Cisco public schools stated this morning that he knew him quite well, and that he considered him a splendid school man, and an excellent gentleman. "Eastland is to be congratulated upon being able to secure such a valuable school man for superintendent," Mr. Youngblood stated.

Others elected by the Eastland school board are Joe Gibson of Abilene, athletic coach and Mrs. Gibson, teacher of music in the West Ward school. Gibson was formerly assistant coach at Abilene high school.

Candidate for County Attorney

JOE H. JONES

HARDWARE MEN NAME C. G. GRAY VICE CHAIRMAN

Charles G. Gray, of the Gray Hardware company, attended the convention of the hardware and implement men of the 21st district of Texas, which convened in Breckenridge Tuesday night. The convention was featured by a banquet at the Y. M. C. A. building in that city. Eugene Thompson, district chairman, presided, and a very interesting program was rendered. Mr. Gray was on the program for a talk on "Sporting Goods." Others who made talks at the convention were Frederick Pfaff, field representative of the Texas Hardware and Implement association; H. D. Johnson, of Graham, and others. Mr. Gray was elected second vice chairman of the association. The other officers were W. C. Caldwell, chairman; H. D. Johnson, first vice chairman. The next meeting will be held at Mineral Wells.

STORMS TAKE HEAVY TOLL IN THREE STATES

KANSAS CITY, April 5.—Two are dead and several hundred families temporarily homeless today as the result of storms and heavy rains over widespread areas in Arkansas, Kansas and Oklahoma last night. Mrs. Anna Green, Topeka, died from injuries when a high wind demolished her suburban home and a 12-year-old boy was fatally burned in Lincoln, Arkansas, when mountain forest fires spread over a wide area fanned by high winds. Shawnee, Oklahoma, reported that torrential rains drove nearly a thousand persons from their homes along the Canadian river. Damage throughout the area is expected to reach a half million dollars.

SAY ATTEMPT TO IMPLICATE IS "PIFFLE"

WASHINGTON, April 5.—Lauding public careers, Governor Smith, William G. McAdoo and Senator Thomas J. Walsh today branded as piffle the attempt of Senator Robinson of Indiana to link them with oil scandals.

GORMAN, April 5.—The organization of a Boy Scout troop at Gorman has been perfected with Rev. Earl W. Goss as scoutmaster. Twenty-six boys registered as scouts. W. G. Winters, W. D. Robertson and J. H. Cooper compose the troop committee, the first named being chairman and therefore automatically becomes a member of the county executive board.

Chamber of Commerce Official Finds That Bulk of Tourist Travel Is Headed East

"By observing the passing cars over the Bankhead highway one is impressed with the difference in travel going east as compared with the traffic westward bound," said Secretary Peters, of the Cisco chamber of commerce after his return from Ranger Wednesday. "While going to Ranger from Cisco I made it a point to count the cars, noting whether they were from Texas points or from states other than Texas. The same observations were made as I returned to Cisco from Ranger. While going to Ranger I counted five cars with out-of-state license plates, and 38 with Texas numbers. These cars were going west. Coming back I counted 22 cars with other states' license plates and 34 with Texas numbers that were going east. The count revealed that in this 20 miles I met 43 passenger automobiles going west and 56 going east. This indicates that the bulk of the tourist travel is headed east at this time. Just what is the significance I cannot say. Perhaps it just happens so, or it may be the season of the year.

"But while we are talking of tourist travel I am reminded that every town on the Bankhead highway spends considerable money each year, through their chambers of commerce, for highway maps, road signs, strips and other publicity that is practically thrown away, so far as the material benefit to the towns derive from this expenditure. If all the chambers of commerce in this section of the state, on the Bankhead highway, would make up a budget and properly advertise the attractions, advantages and resources of the towns through which the highway passes, using such meritorious advertising medium in the sections where this tourist travel originates some material results would be perceptible," Mr. Peters said.

"It has come to the knowledge of many in Cisco that the towns on the

north loop of the Bankhead highway are seeking to eliminate that route in the final designation of the Broadway of America. This is not the case. In fact if either is trying to hog this designation, the towns on the loop are more guilty than those on the main line. The movement to secure the north loop as the designated route originated in the towns on that route. The main line towns have become active for the sole reason that should only one of the two routes be designated, they would be in possession of data that would show the advantages of the main line. The towns on the north loop were first to give out the information that the United States chamber of commerce was frowning on dual designations, and taking that cue the towns between Metcalf and Abilene got busy, and are preparing data to present to the convention at Memphis, and to be used with the motorcade to the convention, setting forth the advantages of the main line, should only one route be designated.

Wednesday afternoon representatives of the chambers of commerce of Baird, Cisco, Eastland and Ranger met at the latter city to compile certain information in our possession to be used as publicity matter for the motorcade and the Memphis convention. These towns are simply alive to their own interest. Naturally should only one route be designated as the permanent route, the towns on the main line would prefer to see the main line so designated. If it was assured that both routes would be designated, these towns would be satisfied as matters now stand.

"It appears now that every town between Metcalf Gap and Abilene will be represented in the motorcade that will pass through Cisco April 16, and Cisco is urged to have a big delegation join the motorcade for the Memphis convention of the Broadway of America," Mr. Peters concluded.

DR. G. V. CARTER BURIED AT OLD FAMILY HOME

L. A. Carter of Cisco was called to Abilene Sunday by the death of his father, Dr. George W. Carter, aged 76 years, who passed away Saturday night at 10 o'clock at the home of his daughter, Mrs. E. M. Overshiner, in that city. L. A. Carter of Cisco and his two sisters, Mrs. Overshiner and Mrs. A. M. Warner of Abilene accompanied the remains to Carter, Washington county, Arkansas, for burial in the family burying ground at that place.

Dr. Carter was an old time physician, as was his father before him, and practiced his profession in his native county of Arkansas for 52 years prior to October 6, 1924, at which time he retired and came to Abilene to make his home with his daughters, Mrs. Overshiner and Mrs. Warner. He and his father practiced medicine in the same county before the elder physician passed away.

About six months ago Dr. Carter suffered a stroke of paralysis, which was the ultimate cause of his death. His survivors are his widow, Mrs. Winnie Carter, and the following children: Mrs. E. M. Overshiner and Mrs. A. M. Warner of Abilene; L. A. Carter of Cisco; Dr. N. D. Carter of Robstown, Texas; Von Carter of Muskogee, Oklahoma; Witt Carter of Fayetteville, Arkansas, and Ral Carter of Springdale, Ark.

Bodies Recovered After Storm Sweeps Canadian River

SHAWNEE, Okla., April 5.—The bodies of Mrs. Joseph Campbell and Charles S. Lewis were recovered from the Canadian river after the flood following a 7-inch rainfall last night.

State Inspector Inspects Building West Ward School

S. R. McCoy, of Austin, state building inspector with the state board of control, was in Cisco Wednesday at the request of the Cisco school board, and made a thorough inspection of the physical condition of the West Ward school building. He left for Austin Wednesday evening, with the understanding that he would make a report in writing and return it to the school board, probably within a week.

BRECKENRIDGE WATER WORKS BRING MILLION

ABILENE, April 5.—C. M. Caldwell, Abilene capitalist, went out of the state business Wednesday when he collected his share of \$1,000,000—the price paid to him and B. S. Walker for the Breckenridge water system. Caldwell and Walker put in the system in 1921 at a cost of a million, and in six years it returned them \$500,000 in dividends. The system was purchased by Howe, Snow & company, bond brokers of New York, through Charles H. Smith & company, Engineers, Inc., of New York, who engineered the deal. The new owners promptly formed a Texas corporation, the Breckenridge Water company, and announced that the present operating personnel, headed by John Z. Martin, will be retained.

Breckenridge found itself without a water supply in 1920 and petitioned its two leading citizens, Caldwell and Walker, to build one. With a ten month time limit to work on, the parties piped water into the city in five months, by January of 1921, from Crystal Falls, on the Clear Fork of the Brazos, 10 miles from the city. The water is lifted 100 feet with pumps. Two dams were built on the stream, with a large storage reservoir, Lake Grand, near the city. The present supply is adequate for 18 months for 25,000 people. The water is cleaned in a filter plant with a capacity of 1,500,000 gallons daily. Last year the Breckenridge plant netted its owners \$89,000. The sale was arranged November 5, 1927, when the New Yorkers put \$25,000 in escrow in the First National bank of Fort Worth. They finally closed the deal on an all-cash basis.

SERGEANT OF POLICE SHOT IN CHICAGO

CHICAGO, April 5.—Police Sergeant John Chiska was probably fatally shot by one of three gunmen whom he stopped to question today. The gunmen escaped.

Scout Training Course In Cisco At 7:30 Tonight

Guy Quirl, Boy Scout executive of Eastland county, will be in Cisco tonight, where he will hold a scout leaders' training session at the Rotary-Liens club rooms at 7:30. Mr. Quirl said that those who attend tonight's session will be able to make up their attendance to secure a certificate, as a minimum attendance of four of the five sessions is required before a certificate can be granted.

The applicants for scout leadership will be put through the regular scout program. Those who desire to promote scout work in Cisco are cordially invited to attend these courses. Sessions are being held in Cisco, Eastland, Ranger and Rising Star.

Dallas Sheriff Is Near Death

DALLAS, April 5.—Sheriff Allen Seale is near death here as the result of a major operation performed this morning. Physicians doubt his recovery.

March 29, was highly enjoyed by the young people of Dothan were in the audience. Mr. and Mrs. Merritt, Mr. and Mrs. Homer Ledbetter and Mr. and Mrs. John R. Merritt, of Brownwood, attended the funeral of Grandma Snoddy here Saturday. Many from Scranton attended the track meet of the county inter-scholastic league held at Eastland last week.

Your Children

COLORADO, April 5.—Sheriff R. E. Gregory, two deputies and a negro janitor are in serious condition in a local hospital as the result of an explosion of a 30-gallon cask of confiscated liquor late yesterday. They were preparing, under federal orders, to ship the liquor to a hospital.

NEARLY INCH OF RAIN FELL LAST NIGHT

Nearly an inch of rain, accompanied by high wind and some hail, fell in Cisco Wednesday night. The rain gauge at the city hall registered eight-tenths of an inch this morning. Those who were awakened thought the rain was a deluge, so hard was the precipitation. The wind was a miniature storm. So far as reported the storm did no damage in this immediate vicinity. Considerable damage is reported in other sections of the state.

County Singing Convention At Morton Valley

Elbert Ezzell requests the American and Roundup to announce that the Eastland County Singing association will convene at Morton Valley next Sunday, April 8. Splendid quartets will be on the program, as well as solos, trios and duets as special features. The congregational singing promises to be the best yet enjoyed by the association. The district singing convention will be held at Mineral Wells Sunday, April 19. There are 19 counties embraced in this district. This singing is an annual event, Mr. Ezzell said, and it is expected that several thousand will be in attendance.

Remember Us Homeless To Receive Aid

COLEMAN, April 5.—At a meeting of the Y. M. C. A. and local Red Cross chapters this morning arrangements were completed to care for those rendered homeless last night when a twister swept through a 15 mile stretch in the south and east parts of Coleman county. No outside aid will be asked. Captain Karl Wallace, national guardsman, agreed to furnish tents and blankets for the homeless. A committee appointed by the chamber of commerce left today to tour devastated areas and render aid. The greatest damage was done near Santa Anna, where 15 homes were destroyed. Mr. and Mrs. Barnett were seriously injured. Five Mexicans were less seriously hurt.

Remus telegraphed.

"The first thing I will do upon obtaining my freedom, will be to return to my home in Cincinnati where my mother is waiting for me and then dig in and successfully arrange my financial affairs."

"Remus' wealth at one time was incalculable. His gigantic bootlegging business grossed between \$100,000,000 and \$150,000,000 in 1920 and 1921, according to his own estimate, and yielded him a personal profit of \$5,000,000 or \$7,000,000. How much money he possesses today Remus does not know. Most of his holdings, the majority interest in a dozen distilleries, his \$300,000 mansion on Price Hill, Cincinnati, sixty or more homes he bought in a Cincinnati subdivision, the "Remus Building" in downtown Cincinnati, and other property, has been tied up since he was put behind the bars at Atlanta federal prison for violating the prohibition law. Remus has charged that his wife, whom he killed, squandered a great deal of his money while he was in prison.

"I will complete the writing of a book which I have started," Remus' telegram also stated. "The book will relate my experiences in life and particularly during the periods of my incarceration in the various penal institutions and the Lima state insane hospital. I know I will experience a new born feeling after my release from this hell hole of the earth.

"I will be forever through with the liquor business. You may be sure.

"Dodge does not interest me in the least."

It was Franklin L. Dodge, a former agent of the United States department of justice who had achieved outstanding success as a dry sleuth, whom Remus blames for most of his troubles. He claimed that Dodge not only "hoodwinked" him but stole the affection of his wife while he was behind prison bars. All of Remus' charges were emphatically denied by Dodge.

cause." This explanation, however, will bear a little thinking about. Husbands, good and bad, intelligent and inefficient, are mostly making more money, earning a better living for their families, than they used to. Figures prove that—"real wages," measured in what they will buy, are higher than ever. If so many husbands' incomes, then are not "adequate," it must be because standards of living are higher. Husbands, wives and children all expect more than they used to. So the wives go out and help earn it. That helps along the family income and raises the family standards. But at a big cost. When husband and wife both work outside the home, it comes harder on the wife, because she still does the housekeeping. The husband has one job, the wife has two. Then children—there are fewer of them, and they are not so well cared for. Family life suffers, and society suffers.

INVADING ENGLAND

The American tourist invasion of England this year is expected to break all records. Steamship and travel agencies say there is an unprecedented demand for passage. London hotels are flooded already with applications for accommodations as far ahead as August. England welcomes the invasion, too, and hopes to reap much of the profit that has formerly gone to France. Better get busy then, if you're going over and don't want to swim across and sleep in Hyde Park. But there may be more comfort, and no less interesting, to do your touring in America this summer. Roads and hotels are better than ever, and the scenery is guaranteed to satisfy. Domestic transportation lines and hotels may be crowded, too. Very well. Take the family bus, and perhaps a tent. And if you don't like crowds, make your own route. There is a special pleasure in finding for yourself, and reporting afterwards, fascinating places that your friends have never seen or heard of.

BUSINESS BEFORE COLLEGE

At the age of 19, Raymond Koger of Bridgeport, Conn., began his business career as a clerk in an investment banking house. Since then he has risen to the position of assistant treasurer. Now, at the age of 27, he has \$250,000, made in the investment field, and a wife. He is retiring. To retire at the age of 27 is rather surprising, but Koger's other plans for the immediate future are no less so. He has announced his intention of preparing for entrance to Harvard. He has reversed the usual procedure of college education, business career, and marriage, and it seems to have worked all right for him. But not every high school boy that goes to work has a quarter of a million before he is thirty, or even enough to support a family and pay college expenses at the same time. And too often the inclination for college is gone at the end of eight years. It will be interesting to know what Mr. Koger takes up for his hobby or chief interest when, at the age of 31, he has won his diploma. Won't he start on a new business career?

College youngsters are noted for their cynicism, so no one should be worried when one of them calls his country "the land of the spree and the home of the crave."

A WET DEMOCRAT

Cal. Thompson was a Democrat Who said he'd never think Of letting any autocrat Tell him he couldn't drink. When Volstead put the kibosh on His liker an' his beer, Cal swore he'd show that errin' son He'd drink without a fear. Cal said his vote would count as much As any dry galoot's. He'd drink an' vote to beath the Dutch, Or he'd die in his boots. Cal done his best for one short year Before it got his goat. But where Cal went there ain't no beer. An' Cal ain't got no vote. RESOLUTIONS OF RESPECT

Whereas it has seemed fit by our Heavenly Father to remove from our worthy brother, W. G. Vandiver. Be it resolved that in the departure of Brother Vandiver to that home that awaits us all, the lodge has lost a true and faithful member to the precepts of our beloved order. And be it further resolved that while we will miss him from our councils and the active interest he manifested, we humbly submit to the Divine will who knoweth what is best; And further resolved that a copy of these resolutions be presented to Sister Vandiver with our heartfelt sympathy in this trying hour and that a copy be also placed in the minutes of the lodge and published in the Cisco Daily News. Respectfully submitted, COMMITTEE.

Took Soda 20 Years For Gas—Stops Now

For 20 years I took soda for indigestion and stomach gas. One bottle of Adierka brought me complete relief.—J. B. Hardy. Adierka relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adierka give your stomach and bowels a REAL cleansing and see how much better you feel. It will surprise you! Tomlin Drug Co.

THAT INDUCES GUESTS TO ROLONG THE DINNER

There are dinners where food literally holds the fort alone. Silently everyone bolts what is placed before him, bent on rushing through the meal and out of the dining room. Such dinners are ordeals for everyone present. But at the perfect dinner, an easy flow of entertaining conversation discloses the real enjoyment of guests, and the pride and ease of the hostess. The food might be the same, its the setting that makes such a tremendous difference. You will find guests lingering over every course with such furnishings.

SWANS

Recent news about swans going over Niagara Falls to their death was the first intimation many Americans have had that there were any wild swans left in this country, or on this continent. They are seldom seen or heard. There used to be plenty of them, but a few years ago they were almost extinct. They probably would have been altogether extinct by this time if it had not been for two things. There is now a migratory bird treaty between the United States and Canada which gives these beautiful birds legal protection; and Jack Miner, the Canadian naturalist, has maintained a winter feeding station for them at Kingsville, Ont. Otherwise there would not have been enough to furnish that melancholy sacrifice at Niagara Falls. Miner recently reported 3,000 of the birds arrived at Kingsville. He says there are ten times as many of them as there were ten years ago. Thus another charming representative of American wild life is kept from going the way of the carrier pigeon.

England learns slowly that spending money to provide work for the idle is better than paying them unemployment doles.

WORKING WOMEN

There are 2,000,000 married women in this country working to provide necessities of life for their families. And according to Mary Anderson, head of the woman's bureau of the department of labor, it isn't for such necessities as radio sets and fur coats, either. "Very few women," she says, "choose to carry two jobs for the pleasure of it. Only about 2 per cent of the employed married women work for luxuries or a career." Women are in American industry to stay. They take employment naturally when they leave school. They usually quit the job when they get married, but one-fourth of them start again. "Failure of husbands to make adequate income is the

Cisco City Government Follows Mayor-Commission Plan

Municipal Policy Brings Executive and Legislative Functions Close Together

The slightly modified form of mayor-commission type of city government which has been in operation in Cisco since 1919 has been found to be of outstanding importance, due to the fact that the mayor and commissioners determine the policy of every city department while sitting in conference; in the unmodified form of mayor-commission government the policy of each department is usually left in the hands of that department's head, without benefit of decisions made collectively by the commissioners and mayor in regular meeting.

In municipal government here all executive functions of every department are determined collectively by the commissioners and mayor in regular meeting, according to Mayor J. M. Williamson, who is serving his fourteenth year as mayor of Cisco. Only the street commissioner takes independent executive action in the functions of his department. After a policy has been formulated for a specific department, the head of that department and Mayor Williamson attend to all executive functions involved. In this capacity Mr. Williamson's duties are closely related to those of a city manager. The fact that a mayor is more likely to have much greater interest in the civic welfare of his city than a city manager would have, has been given as a foremost reason for the superiority of the mayor-commission type of city government over the city manager form in a city the size of Cisco. Also, it has been pointed out, the mayor is elected by popular vote, whereas a resident of another city or even of another state may be hired as city manager.

Present Officials.
According to Mayor Williamson, the old council form of city government began operating in Cisco in 1883, continuing up to 1919, when the present system went into effect. Under this system three commissioners are elected every even-numbered year and two are elected each odd-numbered year. In Tuesday's election the three following incumbents were re-elected: J. V. Heysler, police commissioner; A. L. Mayhew, finance commissioner; E. W. Mancill, water commissioner. Crigler Paschall is street commissioner and L. A. White is commissioner of sanitation and public health. Mr. White is also chief of police at present. The commission will be reorganized in May, at which time the department heads may be interchanged.

Reform in Functions.
The type of reform which has been given most attentive consideration in government is probably that which seeks to bring closer and closer together the

workings of executive and legislative functions. According to Professors Ogg and Ray, "perhaps three-fourths of all contemporary discussion of government reform centers in this general problem." Particularly has this type of reform wrought well in municipal government, beginning as it has with the commission form and extending less rapidly, however, to the manager type.

Importance of Commission Form.
That the commission form of municipal government possesses merit is shown by the fact that many cities in forty-three states adopted some form of commission government during the decade following 1907, usually taking as a model the Des Moines plan. Of the cities that have adopted a commission form of government only about twelve have reverted to the mayor-council form.

These cities, and all others working under the commission plan, have derived much gain therefrom. Most important, there has been a strong coalition of administrative and legislative functions of city government, a fact that has been mentioned as a reform consideration. Again, responsibility or the lack of it may be centered directly upon the commission. Business matters may be adjusted adequately and accurately and without loss of time; and, in fact, much of city government is merely routine business. A city commission is of course a single-chamber body and therefore not clumsy and slow in its deliberations as is a bicameral body. It may be stated broadly that better and more efficient men have been induced to serve on the commissions since their adoption. And last, in cities of commission government tax rates have usually been reduced.

Senators Heflin and Ransdell Clash Over Clayton Action

WASHINGTON, April 5.—Despite a clash between Senators Heflin, Alabama, and Ransdell, Louisiana, William L. Clayton virtually completed Wednesday the statement it has taken him nearly ten days to present to the senate cotton slump investigating sub-committee. He had only a few pages of his sweeping denial of the market manipulation charges left to read at adjournment.

Cross examination of Clayton by the committee and by Arthur R. Marsh, New York cotton broker, his accuser, is to follow.

Judging by the amount of interruption to which the Houston merchant has been subjected during the reading of his direct statement, however, Senator Ransdell suggested today it might take a month to complete his appearance.

The Heflin-Ransdell row grew out of Clayton's refusal to disclose details of the financial standing of his firm until directed to do so by Senator Smith, South Carolina, committee chairman. Representative Rankin of Mississippi has been attempting to get into that subject for two days, saying establishment of motive for the alleged "joining in the bear raid" on the cotton market by Clayton's firm in 1927 was his object if there had been a motive and if the firm participated in such a raid as Marsh charged.

Senators Smith and Ransdell saw no advantage to the committee's search for what caused the 1927 slump in going into Clayton's financial status. Senator Heflin suggested that cotton spinners might have been financing his operations to force down the price of cotton.

Clayton promptly denied that implication "under oath."

Senator Ransdell supported his refusal to disclose financial details of his firm and that led Heflin to say that some people, "including some people in the senate, wanted to shut off the investigation."

STEERS SELL HIGH.
MANSFIELD, April 5.—R. E. Ragland of this community recently shipped a car of fine steers, averaging about 1,280 pounds and bringing 12 1-2 cents per pound on the Fort Worth market for all kinds of stock, and many carloads are shipped from here each year.

DON'T GET UP NIGHTS.
Nature's Danger Signal Relieved by Tenn. Man. Wants Others To Know.

J. L. Church, Doreville, Tenn., says: "Had to get up 10 to 12 times each night. Burning was almost unbearable. Passed much blood and pus. Had no lasting relief until taking lithiated buchu (Keller Formula). I feel 100 per cent better. My friends say 'How much better you look.' Will tell or write my experience to anyone."

Lithiated Buchu cleanses the bladder as epsom salts do the bowels. It is not a patent medicine. The formula is on the bottle. The tablets cost 2c each at drug stores. Keller Laboratory, Mechanicsburg, Ohio. Locally at Dean Drug Co.—Adv.

BIRTH CONTROL INFORMATION IS ADVOCATED

CHICAGO, April 5.—Birth control information should be given out by the family doctor, like information on how to cure Johnny's cold, or what kind of a diet to use for reducing.

Dr. William A. Pusey, former president of the American Medical Association, advocates such a policy as a means of improving the race, he told the Chicago Forum.

The question of birth control has been stirring medical circles in Chicago recently. Race suicide, according to Dr. Pusey, will not result from information scientifically offered by the medical profession.

SCRANTON

Presiding Elder C. O. Shugart preached at the Methodist church at Scranton Sunday night to a large congregation. Elder Shugart is always interesting and helpful.

Miss Grace Davidson has returned home from Callahan county where she has been teaching one of the public schools in that county.

Miss Nellie Anglin, of Cisco, spent the week end with her parents, Mr. and Mrs. Dee Anglin.

Mrs. Drue Sprawls and children and Mr. and Mrs. Will Jobe were dinner guests Sunday of Mr. and Mrs. Maurice Sprawls.

Mrs. Harvey Mitchell, who is a patient in an Eastland hospital where she recently underwent an operation, is reported to be doing nicely.

Mrs. Drue Sprawls has returned home from a recent visit to Tulsa, Hot Springs, of Cisco, spent the week end with his parents, Mr. and Mrs. Will Slatton.

Buel Davidson, of Abilene, spent

the week end with his parents, Mr. and Mrs. Ben Davidson.

Little Eldon Gattis is ill with pneumonia.

Miss Ruth Sprawls and Miss Bruce Reynolds were guests at the Morgan home for dinner Sunday.

Britton Phippen, of Dothan, attended religious services here Sunday.

Mrs. Roy Speegle, who was seriously injured some time ago, has sufficiently recovered to be out again. Her many friends were glad to see her at the church services Sunday.

Miss Bruce Reynolds left Monday for Baird where she has accepted a position in the telephone exchange.

Mr. and Mrs. Pearce Shackelford, of Putnam, were in Scranton Sunday afternoon.

The black face minstrel show put on by the people of the Dan Horn community Thursday night,

March 29, was highly enjoyed by the Scranton people. Several of the young people of Dothan were in the audience.

Grandma Snoddy died Friday night, March 30, and was buried Saturday afternoon in the Scranton cemetery.

Many from Scranton attended

the track meet of the county interscholastic league held at Eastland last week.

Mr. and Mrs. Merritt, Mr. and Mrs. Homer Ledbetter and Mr. and Mrs. John R. Merritt, of Brownwood, attended the funeral of Grandma Snoddy here Saturday.

Diversified Farm Program to be held for School Pupils at R. Q. Lee Farm

Tomorrow afternoon, April 6, there will be a meeting and stock judging contest in which the pupils of the rural schools above the age of ten years will participate; all rural schools of the county are eligible to take part in this contest, which will be held at the R. Q. Lee diversified farm, three miles southeast of Cisco. The meeting is being sponsored by E. H. Varnell, agriculturist vocational of the Cisco high school, who will be assisted by Miss Ruth Ramey, county home demonstrator, and J. C. Patterson, county agent. The program will begin at 1:30 o'clock, when it is expected there will be from 100 to 200 rural school pupils present to take part in the judging contests that will be held. The Banner Ice Cream company and the Coco Cola company will furnish cream and soda water to the school children during the afternoon.

Lee On Program
The program will include brief talks by R. Q. Lee, Miss Beulah Speers, county school superintendent; J. J. Youngblood, superintendent of Cisco schools; J. E. T. Peters, secretary of the Cisco chamber of commerce, and others prominent in school work and agricultural pursuits. Miss Ramey will give a demonstration in canning chickens; J. T. Stevail, of the Bankhead Feed Mill, will discuss the proper manner of selecting hogs; J. C. Patterson will discuss the selection of seeds; E. H. Varnell will speak on the selection of dairy cows. The subjects of these discussions will be subjects of the contests by the school children. The

school pupils will be told the merits and defects of the subjects discussed, and how to distinguish the pure from the spurious; then the children will go into the judging contests, at the conclusion of which prizes will be awarded to those making the highest scores. It is also expected to have the girl pupils participate in a poultry culling contest, some of the girls taking part in the culling while others participate in the canning demonstration conducted by Miss Ramey.

While at the Lee diversified farm the children will be taken on tour of inspection of the buildings, the farm, the stock and poultry, and the system of marketing the products of this farm will be explained. While all rural schools are eligible to participate in the program, the following schools are expected to be represented by a majority of the pupils, who will be headed by the teachers: Bedford, Miss Birdie Courtney, teacher; Reagan, Mrs. Frank Hensley, teacher; Friendship, Mrs. Lee Easter, teacher; Dothan, C. P. Drake, teacher; Bluff Branch, Miss Pearl Donaway, teacher; Cottonwood, Miss Velma Johnson, teacher; Dan Horn, E. B. Brummett, teacher; Scranton, J. Andrews, teacher; Reich, J. L. Bisbee, teacher; Nimrod, Carl Elliott, teacher; Romney, Miss Lanelle Hanks, teacher; Griggs, Miss Wanda Fay Rasmussen, teacher; Grapevine, Miss Andie Robertson, teacher; Mansum, C. B. Edridge, teacher; Hassell, Miss Mildred Yeager, teacher; Sabanno, Miss Dona Matthews, teacher.

ILLINOIS MAN WILL ATTEMPT ATLANTIC HOP

ROCKFORD, Ill., April 5.—Early in June a new attempt to conquer the treacherous Atlantic by air will be made by Bert Hassell, veteran Rockford aviator, who will fly a Stinson-Detroiter equipped with a Wright Whirlwind motor.

Hassell plans to make the flight in two jumps, the first from Rockford to the rugged edge of Greenland and thence over the ice floes to Stockholm.

The flight is to be financed by public subscription. School children daily are donating their pennies. Bill Smith, the grocer, Pete Cummings, the sarageman, are donating their kits. So far in more than \$7,000 has been subscribed.

To St.
The purpose of the flight is to point out the feasibility of a commercial air line to Europe over the northern part of the ocean and to promote greater interest in aviation. The plane now under construction in Detroit is of standard make with enlarged compartments for fuel. Enough gasoline will be carried to insure a flight of 36 hours duration. Hassell recently went to Mt. Evans, Greenland, to the University of Michigan research station conducted there by Professor W. H. Hobbs to procure valuable data concerning his proposed flight.

Fuel and oil are to be shipped to the station which Hassell will pick up for the Atlantic hop. His route from Rockford will be northeasterly, over Detroit, the Great Lakes, Canada, Hudson Bay, across inland Labrador to the Davis strait and thence to Greenland.

On Iceland Route
He plans to take off for Stockholm flying by way of Iceland. His longest water jump will be from Iceland to the Scandinavian peninsula. This route, although considered dangerous because of lack of well

established steamer lanes, will carry him over numerous fishing fleets in the event any of these unknown dangers overtake him as they have others who have tried in vain to duplicate Col. Lindbergh's achievement. Hassell is a veteran flyer and has piloted planes since the days when a few wooden sticks and a piece of canvas mounted over them constituted an airplane—airplanes they were then called.

Big Increase Shown in Oil

TULSA, Okla., April 5.—The gap between West Texas and Seminole fields widened during the week ending March 31, when the former gained more than 11,000 barrels daily average production of crude oil and the latter decreased 3,705 barrels, the Oil and Gas Journal reports.

West Texas was not the only area to show an increase during the week, however, as the total weekly increase in the United States was 21,174 barrels. The California fields had increases of approximately 14,000 daily average production of light crude and 1,500 barrels increase in heavy gravity crude.

Increases were also shown in the Texas Panhandle, where the daily average jumped from 71,260 barrels on March 24, to 74,220 barrels last week; the Kansas fields, which increased from 111,370 to 114,070 and the Gulf coast area, which gained about 2,000 barrels.

The total production for the United States during the week was 2,422,410 barrels daily. The week ending March 24, the total daily production was 2,401,263.

A tonic that gives results quickly. Puts "pep" into you. Price 50c per bottle. Sold by Tomlin-Young Drug Co.

FEEDING TEST PROVES SORGO BEST ROUGHAGE

WASHINGTON, April 5.—Results of experiments conducted in the use of various rough feeds for cattle, conducted through co-operation between the state and national agricultural departments at Big Spring, Texas, have just been announced. These, it is declared, show that sorgo, which can be grown on the range lands of West Texas, is a better roughage than cotton seed hulls. It is pointed out that cotton seed hulls are a common roughage in Texas. In feeding experiments in three successive winters these were fed in comparison with sorgo silage and sorgo fodder. The concentrates in each experiment were milo heads and cotton seed meal.

In each of the three tests sorgo silage and sorgo fodder proved to be more efficient than cotton seed hulls in fattening the calves used for testing the value of the roughages. The calves fed cotton seed hulls did not finish as well, did not make as large gains, and did not return as good a profit as those fed on either sorgo silage or sorgo fodder. The difference between the net returns from the calves fed silage and those fed fodder was slightly in favor of the silage.

Although nominally a technical bulletin, the 24-page pamphlet should prove of value to livestock feeders and farmers in the Southwest. Most everybody is busy these days plowing and planting and getting in readiness for the summer's work. We are beginning to need rain. L. O. Langitz and family visited relatives at Carbon Sunday. A. Roll 'em with P.A., Buddy!

JUST get yourself some Prince Albert and the makin's papers. That's all there is to it on the work side. The rest is pure pleasure. The fragrance tells you it's going to be good. Then you make one and light up. The first pull tells you the aroma wasn't fooling. Cool and refreshing as hill-top air. Mellow and mild as a harvest moon. Mild, but satisfying as no other home-rolled cigarette ever was. P.A. is crimp-cut. It stays put in the paper as you roll. It's even-burning and cool-smoking all the way down. By the way, P.A. goes great in a pipe, too. Try it!

OCB
The world's premier papers
Yes, the papers are important. Buy OCB papers in the handy book and you have the finest that can be made—the product of the celebrated Bollore Mills in France, which make them expressly for R. J. Reynolds Tobacco Co. For better home-rolled cigarettes, OCB papers. 150 leaves, 5c, where you buy your P.A.

Big Dam Fighting Lobos Win Sweeping Victory in the County Track and Field Meet at Ranger

The Cisco High School Big Dam Fighting Lobos won the Eastland county track and field meet by the most decisive majority in years, with a total of seventy-six points to thirty-five for Ranger, which team took second place, twenty-four for Eastland for third place. Rising Star and Gorman tied with six points each. To amass this total of points the Lobos won seven first places, nine second places, six third places and two fourth places.

Summary
100-yard dash—First, Jones, Eastland; second, Bedford, Cisco; third, Weaver, Eastland; fourth, Burns, Ranger. Time, 10.4 seconds.
220-yard dash—First, Bedford, Cisco; second, Burns, Ranger; third, Slatton, Cisco; fourth, Weaver, Eastland. Time, 23.8 seconds.
440-yard dash—First, Stovall, Cisco; second, Keyes, Cisco; third, Tully, Ranger. Time 51 seconds.
Only four were entered so fourth place did not count.

Half mile run—First, Bryan, Cisco; second, Seay, Ranger; third, Langston, Cisco; fourth, Raines, Eastland. Time 2 minutes, 6 seconds.
Mile run—First, Ezzell, Cisco; second, Burleson, Gorman; third, Trammell, Ranger; fourth, Wagner, Rising Star.

120-yard high hurdles—First, Cut-three, Rising Star; second, Smith, Cisco; third, Smith, Eastland; fourth, Little, Cisco. Time 17.3 seconds.
220-yard low hurdles—First, Jones, Eastland; second, Stovall, Cisco; third, C. Smith, Eastland; fourth, Rainer, Eastland. Time 37 seconds.

Relay was won by Ranger. Time, 3 minutes, 36 seconds.
Shot put—First, Hollar, Cisco; second, Slatton, Cisco; third, Coker, Gorman; fourth, Love, Ranger. 41 feet, 5 inches.

Pole vault—First, Jones, Eastland; second, Little, Cisco; third, Stovall, Cisco; fourth, Waters, Cisco. 10 feet, 6 inches.
Discus—First, Hollar, Cisco; second, Slatton, Cisco; third, Hinman, Ranger; fourth, Scott, Gorman. 97 feet 7 inches.
Javelin throw—First, Hammett,

Ranger; second, Keyes, Cisco, third, Kellogg, Cisco; fourth, Glenn, Ranger. 141 feet, 6 inches.
Broad jump—First, Tully, Ranger; second, Bedford, Cisco; third, Kellogg, Cisco; fourth, Hammett, Ranger. 20 feet, 1 1/2 inches.
High jump—First, H. Phippen, Cisco; second, Hammett, Ranger; third, Chambliss, Cisco; fourth, Tully, Ranger. 5 feet, 8 inches.

"OPTIMISTIC" SUGGESTED AS HOTEL NAME

Interest continues to grow in regard to Cisco's new hotel. Mrs. J. Strickland, 208 West Tenth street, suggests "The Optimistic" as a suitable name for the new building. "My reason for choosing this name," says Mrs. Strickland, "is this: The building of the hotel at just this time proves the trend of our fair city more than anything since the building of the dam. Isn't that what we need to do—look forward and push?"

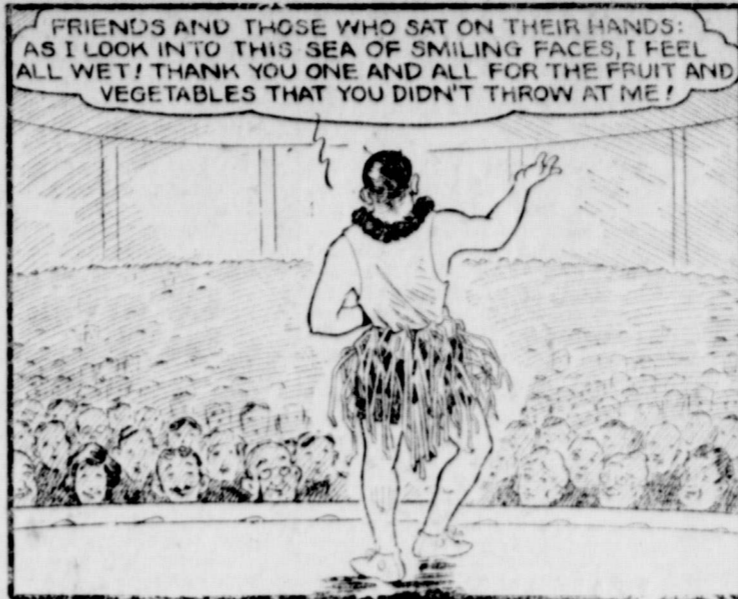

COMING THREES SELL FOR \$85 AT STILES

STILES, April 5.—The S Ranch one of the largest ranches in Reagan and Iron counties, sold 4,000 steers recently for spring delivery. The coming threes were sold to Case Brothers of Missouri at \$85 and the coming twos to Litchum Brothers of San Angelo at \$80.

Modern, Well Equipped Creamery is Great Blessing to the Farm and Just as Valuable to City

A short time ago the Marshall (Tex.) News picked up a news item and reproduced it. It was from the Winston County Journal published near Starkville, Miss., and referred to a pay day by the milk plant in the town. We reproduce part of the article:

"On last Wednesday the sum of \$110,000 was paid out to dairymen around Starkville for milk bought during the month by the Southern Condensery.

"It is said that over 500 visitors from other counties and from Louisiana, Arkansas, and Alabama were in Starkville for the purpose of witnessing the sight of this pay day of the Borden company and were amazed at the spectacle.

"From early morning until late at night the streets of Starkville were thronged with people and merchants just mopped up. Every business house in the city was congested with traders.

"The banks were taxed to their limit, cashing checks, receiving payment on notes and other business in which these dairy people figured.

"This condition is only cited to show what prosperity comes to a dairy section. Just visualize \$110,000 per month being paid out on one item alone and figure the prosperity it would bring to every industry here."

"This milk plant at Starkville," continues the Marshall newspaper, "was established two years ago and has brought a marvelous era of prosperity to that county and the adjoining territory. This pay day was for November, which is one of the best favorable for milk production, and yet, this would mean a distribution of \$1,200,000 to the farmers of one county alone, during the year.

"The Starkville milk is not nearly as favorable for milk production as is this land of grass and running water here in Harrison and adjoining counties. The co-operation of all our people—bankers, merchants and farmers—will bring not only prosperity to our city, but will enhance the value of every acre of land within 50 miles of Marshall."

"To that hint the bankers, businessmen and farmers of Marshall, Harrison county responded. The Texas Milk Products company was organized and will open the middle of April. Another organization has since been formed to finance the purchase of pure bred cattle to be sold to farmers on the partial payment plan. Marshall is on the way to become a rival of Starkville—and to pass that Mississippi town, if that well-known Marshall spirit is kept up.

A Blessing To Good Complexions

Protect your beauty in all kinds of weather with this new face powder—MELLO-GLO. Does not give the skin a dry feeling; does not clog the pores; is not affected so much by perspiration. Stays on longer. So pure and fine. MELLO-GLO is made by a new French process. It's truly wonderful. Moore-Shepard Drugs.

Sheep Add to Farmer's Income

ARLINGTON, April 5.—J. B. Collins, farmer five miles south of Arlington, is adding to the farm income by "running" a few sheep along with other farm activities. Just now he is getting ready to shear his flock of 100 well bred sheep. Collins anticipates getting about 7 pounds of wool from each sheep, making a total of 700 pounds, which he has contracted for the tidy sum of 38 cents per pound. Aside from the sale of wool, he has about 60 lambs from his flock, which he expects to place on the market when they are 1 year old.

"I Was Sick—This Simple, Natural Food Made Me Well"

"MY STOMACH made me miserable. I dragged around only half alive because of constipation. Agmel changed this. Now I forget I have a stomach. Constipation is gone. I'm full of pep. And I did not diet—just used Agmel with hearty, well balanced meals."

L. B. CUETIS, Hollywood, Calif.

Agmel is not a medicine, but a natural raw health food from Mexico—the sap of the Maguey plant unchanged except for the removal of water without cooking. Rich in vitamins, minerals, yeast, tastes delicious. Non-alcoholic. Maguey sap used centuries in Mexico. Now world famous. Thousands praise it—see letters and other free literature at drugists.

Free Agmel Literature at CITY DRUG COMPANY And All First Class Drug Stores

Husbands Ask Judge to Tell Wives to Do More Cooking

KENOSHA, Wis., April 5.—A group of "starving" husbands testified pleading to a judge here to send back their wives to do the cooking caused a jury disagreement in a murder case.

A jury composed of six men and six women debated sixty-eight hours over the fate of Frank Dichara accused of slaying Luigi de Conti because the latter was alleged to have been too friendly with his wife.

Six husbands at canned beans, sardines and the delicatessen store products for more than two days. In a body then they appealed to Judge E. B. Beiden to send them back to their wives. Judge Beiden, probably something of an epicurean himself, agreed and the jury was dismissed.

One Woman Sells \$2,200 Worth of Poultry Products

Proof that there is money in poultry in spite of the present low prices of poultry products can be found in the records of Mrs. G. C. Watson of Profitit whose success with a farm flock of White Leghorns has made her outstanding among Young county poultry raisers.

During 1927, Mrs. Watson sold from a flock of 450 hens \$2,220 worth of market eggs together with several hundred dollars worth of live poultry and hatching eggs. As a larger part of her feed was home grown the net profit for the year amounted to around \$2,000. Not in the least discouraged by the poultry outlook for 1928, Mrs. Watson has 1400 eggs hatching and is adding housing facilities to take care of 700 hens this year.

Mrs. Watson attributes her success in the main to her remarkably high producing flock, her hens averaging 250 eggs per year. Such production can be obtained only by starting with the very best and keeping it up by the use of males from the very best matings together with continual, rigid culling. Lights are used during the winter months and help materially to keep the production up during that period.

Every American who goes abroad comes back wondering at the nerve of Europeans who call us money-grabbers.

PEDIGREE HENS' RECORD WON BY MISS EASTLAND

Thirty-one eggs in 31 days—this was the record of Miss Eastland, a pedigreed Rhode Island Red hen of the Bellhurst farms.

Miss Ranger and Miss Cisco tied with 27 eggs in March. Miss Gorman produced 26 eggs and Miss Rising Star 25.—All these hens are pedigreed. They were obtained from Joplin, Mo., and are Queen's Strain.

Their eggs command a royal price. They do not decorate the platter with crisp bacon or savory ham. They are too expensive to eat. They are used for hatching. Such an egg costs \$5 or when hatched out, the baby chick costs \$10.

Try a bottle of Snipes Red Head-ache Remedy for all kinds of pain. Sold by Corner Drug Store.—Adv.

Texas-Kansas Sign Armistice on Storm Records

TOPEKA, Kas., April 5.—An armistice has been signed between the states of Kansas and Texas, with regard to their tornado and storm records.

Governor Ben S. Paulen, of Kansas, received an almanac, published by a Dallas newspaper, in which a picture entitled "a Kansas Tornado" appeared. Taking exception to this, the Kansas governor gained statistics from Washington, which revealed that of five southwestern states, Texas was ranked third in the relative amount of damage done by cyclones while Kansas was rated fifth.

These statistics were dispatched by Governor Paulen to Governor Dan Moody, of Texas, and to the publishing house, with a demand for an explanation.

"If these statistics are correct," Governor Paulen wrote, "it occurs to me that you are stretching a point very greatly when you label any tornado in Texas a 'Kansas Tornado.'"

The almanac publishers immedi-

ately assured Governor Paulen that the matter would be straightened out at once.

The figures obtained by Governor Paulen gave Missouri the greatest estimated damage for 1927 with a loss of \$30,965,000; Arkansas was second with \$4,138,000; Texas was third with \$4,052,000; Illinois, fourth with a loss of \$3,194,000; and Kansas last with \$1,730,000.

Taking an eight year period for the same states, Texas was first with \$71,192,000, while Kansas was third with \$5,280,000.

They can't harm Cook's Varnish

Radio Fans: Tune in on "The Cook Painter Boys," Stations W.D.A.F., Kansas City Star, every Tuesday night from 9:30 until 10 o'clock, Central Time.

VARNISH is the "beauty finish"—the finish that "sets off" the natural beauty of wood trim, floors, furniture, linoleum.

Naturally, when you select a varnish, you want one that will stand use and abuse. If you are wise, you will select Cook's Armocote. Repeated tests under severe conditions have proved it the most durable and lasting varnish made. Even though the children track water on it, Armocote Varnish will not be injured. It is not affected by hot or cold water; it will not mar nor scratch white. It is elastic and durable.

It flows readily, is easy to use. It dries with a smooth, lustrous finish. And it dries quickly—just free in four to six hours, hard over night. It can be polished to a high lustre that will wear for years. You may buy it clear, or in five attractive colors that stain and varnish with a single application.

Distinctly a high type of interior finish, Cook's Armocote Varnish deserves the honor of beautifying and protecting your floors, your furniture, your linoleum and your interior trim—wood, plaster or metal. Buy it with full confidence in its quality. We shall be glad to show you panels finished with the many attractive stains and clear varnish.

Cream Route to Be Established

Dairy Interests Given Boost By 46-Mile Cream Route to Begin Operating April 20

By E. H. VARNELL
Vocational Agriculturist With Cisco
High School.

The first sweet cream route into Cisco will begin operating Friday, April 20. The route will be 46 miles in length and will pass through 10 or 12 rural communities. The general course of the route will be from Cisco over the Rising Star highway through the German community to Nimrod; from Nimrod to Seranton; to Putnam; to Dotman and return to Cisco. It is possible that Atwell and Cottonwood communities will also be reached if there is sufficient production to justify the route.

This route should mean a great deal to any person within a mile or two of it who wants to market sweet cream. The route will be operated every day of the week, including Sunday, by a thoroughly reliable local citizen who will charge 5 cents per pound, buttermilk basis, for hauling the cream. Cream will be sold to the Cisco Creamery company, of which Mr. Preston is manager, at 10 cents per pound above the sour cream price as quoted in the daily papers. This will leave the producer a net profit of 5 cents per pound above sour cream prices and will insure him a year-around daily market, at his own front door in many cases. By entering the cream daily a very high quality sweet cream butter can be manufactured, which should find a ready sale in Cisco, as this town ships in from 50,000 to 70,000 pounds of creamery butter annually. Cisco citizens will be very glad to pay for high quality butter and at the same time provide a splendid market for local producers. The route will be operated along

the same general plan as a rural carrier operates, beginning at 7:30 a. m. and operating on schedule. Each producer along the route will have two or more cream cans with his number painted plainly on them so that when a can of cream is picked up an empty can may be left in its place. In the beginning cans may be left setting by the roadside (near a mail box if possible) at any point along the route, or left at Nimrod, Seranton, Putnam or Dotman stores. It is expected that a great deal of cream will be brought to these points, where merchants are gladly providing free space for cream cans. When the route is fully developed boxes will be provided along the route in which the cans may be set. Daily statements as to the amount of cream received and its test will be placed in all empty cans, and checks mailed to all producers weekly. Cream marketed in this manner should prove more profitable to the producer than when it is marketed in the usual manner as sour cream, or when it is made into butter, because of the saving in labor and expense of marketing.

The idea of sweet cream routes in Texas is not new, several communities, namely Kingsville, Fallurus, Cuero and others having successfully operated sweet cream routes for a number of years. With our good roads, and cheap means of transportation there is no very good reason why the people of Cisco should not be fed sweet cream butter, and producers around Cisco given the benefit of a more desirable market. Cisco needs the high quality butter. Farmers around Cisco need the market. Let's put it over.

By the time the Scotch joke is exhausted, which should be within a few years, the world will be ready for Pat and Mike again. It's too much to expect a new joke, and Henry Ford seems to have gone back on us.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

INCREASE SHOWN BY TEXAS OIL ACTIVITY

AUSTIN, April 5.—Oil activities in Texas are still on the up-grade from the January situation, which marked the lowest ebb in some 12 months, it was disclosed here in a report from the oil and gas division of the state railroad commission. Applications to drill wells in March climbed to 777 from 646 in February and 527 in January. Producing wells for March numbered 370, an increase of 48 over February, 96 over January, and the 42 gas wells showed more than a 50 per cent increase over February. Applications to shoot and plug increased correspondingly. From the new field in Winkler county, applications to drill during March totaled 58 and 39 producing wells were brought in. Efforts to stop "over-production and waste" in the Winkler field are pending before the commission. Thirty-two producing wells were brought in in Brown county, but 34 proved dry and 29 were plugged. There were 82 applications to drill.

MULCH PAPER AND MILCH COWS

THERE were two Irishmen, one a farmer and one a postmaster, both of whom had a brogue you could cut with a spade. One day the farmer came into the postoffice and inquired:

"Have you a letter for Mike Howe?"

"No," said the postmaster indignantly, "of course I've no letter for your cow."

But What About Mulch?

All of this may seem far removed from mulch paper, but it really isn't. You see, not so far in the future Mike Howe's cow may be eating a new food made possible only by this durable tar paper which the pineapple growers in Hawaii use to help the crop grow.

For miles and miles in Hawaii during the planting season, machines will be seen laying strips of black paper along the dark red ground. Workers follow the machine, punching holes in the paper and inserting the pineapple slips. During the growing season the paper repels the efforts of weeds and conserves the precious soil moisture.

Pineapple Versus Sunflower

What has this, again, to do with cows? Well, when the pineapples are shed for canning there is a by-product called pineapple pulp or bran. It consists of the cores and outer coats.

For a long time no one knew what to do with these until someone got busy and made a chemical analysis of them. "I believe this would be good food for cattle," he said. So the bran was prepared, and tests have recently been made of it by the Washington State College Agricultural Experiment Station.

"No," said the postmaster indignantly, "of course I've no letter for your cow."

From Wonder to Enthusiasm

At first the cows showed a tendency to sniff dubiously at the exotic pineapple bran, but after a few days they got decidedly enthusiastic, and in a short time they would almost moo their delight when the new food was put in their mangers.

It all goes to show that cows have their feelings just as people do. Who will forget the first time he ate an olive? Then contrast it with one's present attitude towards that delicacy. More people all the time are eating pineapple, and perhaps the time will come when milch cows will be broken hearted if the daily ration fails to contain a few pounds of the food that has been made possible by mulch paper.

DOTHAN

Brother Wiseman of Abilene Christian college preached here Sunday morning and night.

Bun Short, who has been working at Cross Plains for sometime, returned home Sunday.

Miss Flossie Bostick of Spur arrived Monday for a visit with her sister, Mrs. L. C. Camp.

Mr. and Mrs. E. H. Varnell were in Dothan Monday evening on business.

The school won several places at the interscholastic league meet, winning second place with their exhibit.

Miss Irene Lisenbee of Cisco spent Sunday afternoon with Miss Velma Clark.

Some of the people of this community attended the Sacred Harp singing at Pleasant Hill Sunday.

Messrs. John O'Dowd and Cliff of Abilene Christian college spent Sunday in the L. D. Donaway home.

Miss Mildred Jones is visiting her sister, Mrs. W. E. Crawford, of Cisco this week.

Mrs. Roy Blackstock and daughter, Delta, returned home Sunday.

Lack of Wild Indians Is Disappointment to Famous Dutch Artist

WICHITA, Kas., April 5.—While Jacques Aa, young painter and globe trotter of Amsterdam, Holland, does not altogether dislike this city, he nevertheless was vastly disappointed with it, he declared while visiting here. Aa, who is making his first tour of the United States, was informed when he arrived in New York, that this city possessed an abundance of hostile Indians and wild cowboys, he said.

Reaching here, the young artist spent several days searching vainly for a specimen of the celebrated Redskin, or wild and woolly broncho buster, only to be informed that he would have to enter the state of Oklahoma to see the first residents of this country, and that he likely would have to search some time in order to see them in native costume.

Strawberry shortcake—we always have it. Mission Cafe, Putnam, Texas. 39-37

MRS. LELIA RAY GIVEN 5 YEARS BUT SUSPENDED

BELTON, April 5.—Mrs. Lelia Ray, wife of Aubrey Ray, convicted bank robber, was given a 5-year suspended sentence by a jury in district court here Wednesday on a plea of guilty to theft of an automobile on the night of November 2, 1927. The machine was said to have been used by the men who robbed the bank at Grove, Coryell county, on November 3. Ray recently was recaptured by officers from the Texas penitentiary at Huntsville. Ray was returned to Roby, where he was given sentences of 90 years each in two cases, charging robbery of banks at McCauley and Sylvester. Robert Peck received the same penalties in these two jobs and Burnie Burdett was given five years for robbery of the McCauley bank.

Probation may not be an issue as some of our public men maintain, but it's certainly an argument.

Try our special dinner; its good. Mission Cafe, Putnam, Texas. 39-37

Ford and Glenn to Appear Two Days at Palace Theater

"Uncle Joe" Cannon, of congressional and black cigar fame, was quite a radio fan, according to Ford and Glenn Rowell, the "Lullaby Boys" of Station WLS, who are to appear at the Palace theater here for two days, beginning Sunday. While passing through Danville, Ill., recently, Ford and Glenn took the opportunity to call on Illinois' famous figure in congress. They visited with the aged statesman for over an hour, during which they sang for him several songs, including "Lullaby Time" and the little prayer, "Now I Lay Me Down to Sleep." "Uncle Joe" came back with several interesting stories of his life. On leaving, the boys were presented with some of the black cigars, without which "Uncle Joe" never appeared in public in his 96 years' service at Washington. There is something about Ford and Glenn that has appeal that is distinctively different from any other one might come in contact. They are not the stereotyped stage mannerism that is boring, the sing-song, three-a-day chant of the professional legitimate stage folk. They speak easily and at times almost casually. Their confabs are directed as much to themselves as to their audiences. They play as they go along, they revel in their art and bask in the sunlight of one another's personality, and withal they have just as pleasant a time as those who poke their change through the ticket wicket.

GENEVA GETS U. S. PACT

GENEVA, April 5.—The Swiss legation at Washington has called the Swiss federal council that the state department has transmitted to it a draft arbitration treaty. It is supposed here that the draft is based on proposals made by the United States to France and that similar proposals are being communicated to other states.

C. H. Clark Defeats Fulwiler to Become Breckenridge Mayor

In Tuesday's municipal election C. H. Clark was elected mayor of Breckenridge, defeating C. H. Fulwiler by 67 votes. Mr. Fulwiler formerly lived in Cisco, where he conducted the Fulwiler Motor company, predecessor to the Womack Motor company. The total vote cast was 1,452. Clark received 765 and Fulwiler 688. Clark succeeds Breck Walker, who was not a candidate for re-election. J. P. Chastain and Grady Camp were elected commissioners, defeating E. J. Benton and T. Edgar Johnson. The new officers were due to take the oath of office within five days.

The tobacco store Indian may not have been art, but he showed you where you could buy a good five-cent cigar.

"A Foot of Comfort Means Miles of Pleasure"

MYSTERY BURN MAY BE FATAL TO C. E. TURNER

RANGER, April 5.—Cool Turner, 28, is in the City-County hospital with little chance of recovery, from injuries inflicted by burns late Tuesday afternoon in an explosion about eight miles north of Ranger, just across the Eastland county line in Stephens county. Turner is burned from his knees to his neck and both arms are severely blistered. The physician in attendance stated this morning that Turner was in a serious condition as the result of the burns.

The explosion occurred on the farm where Turner was residing but the cause of the explosion was not made public. A Ranger doctor was summoned to the farm house and found Turner suffering greatly. He was rushed to the City-County hospital after medical treatment had been administered and his injuries dressed.

Members of the Turner family said that he "had been scalded" but would not say in what manner he received the burns. Turner or his family have made no further statement relative to the explosion that may cost Turner his life. Reports from the hospital stated that Turner was resting as well as could be expected.

Illuminated Archway Memorial For Ace

PHOENIX, Ariz., April 5.—As a memorial to Frank Luke, Jr., Arizona's distinguished war ace, an illuminated archway will be erected at the entrance of the new stadium of the Phoenix Union Hill school by the Frank Luke, Jr. Post of the American Legion. The archway will cost \$2,500 and will be of marble, stone and brass.

Luke was awarded the Congressional Medal of Honor for his exploits which ended only when he was brought down behind the German lines.

NOTICE, DEMOCRATS

A meeting of the executive committee of the Democratic party of Eastland county is hereby called to meet in the city hall at Eastland Saturday, April 7, 1928 at 2 p. m. At this meeting arrangements will be perfected for the holding of presidential precinct conventions on Saturday, May 5. Vacancies in the executive committee, if any, will be filled at this meeting.

Ohioan Held At Bay Will Continue Conquest

INJUNCTIONS cannot wither, indifference cannot stale his love for Ruth Aikman, who does not love him and wants none of his attentions, Edward Fosse, the big "bee and honey" man of Marion, said today.

He sadly contemplated his rudely interrupted romance with Miss Aikman. For fifteen years Fosse has tried to win Miss Aikman. He has written more than one thousand love letters, many of which she says she has destroyed without reading.

He changed his attendance from the Lutheran to the Methodist Church in order to be nearer her several years ago. He tried to show at church services how much he loved her, until his letters of admission to the church were withdrawn, only to be reissued about a year ago. But still she spurns him.

In fact, Miss Aikman has been granted an injunction restraining him from "paying undue attention or annoying her." Fosse is disappointed at Miss Aikman obtaining the injunction, but he is not disheartened.

The big bee and honey man stayed away from church yesterday to comply with the court order.

Saturday noon, while she

EDWARD FOSSE (International News)

was at lunch, he went to the Marion State and Savings Bank, where she is employed as a cashier, and drew out his savings. He did it, he said, so that he could not be arrested for contempt of court by staying at her.

Fosse expects to comply with the court order to the letter. He still believes that if he had an opportunity to talk to Miss Aikman he could persuade her to accept him.

MRS. COOLIDGE AT BEDSIDE OF MOTHER

NORTHAMPTON, Mass., April 5.—Mrs. Calvin Coolidge spent two and a half hours Wednesday at the bedside of her mother, Mrs. Lemira Goodhue, who is ill at the Dickinson Hospital here. In the forenoon Mrs. Coolidge visited the hospital for more than an hour and her afternoon visit lasted for an hour and a half.

Dr. J. E. Hayes, Mrs. Goodhue's physician, gave notice today that

daily bulletins in his patient's condition would be discontinued for the present, due to the fact that there has been little variation from day to day. At the hospital tonight it was said that Mrs. Goodhue had spent a comfortable day.

You've got to hand it to the radio broadcasting industry for persuading the public that it has something for nothing.

Try our tried chicken, every day. Mission Cafe, Putnam, Texas. 39-37

DEAR FRIENDS:

"Easter is a joyous season all over Christendom and is marked by the giving of gifts second only to the Christmas. Naturally these gifts should be of a kind that are enduring and which may be kept for years by the recipient."

I escaped that out of a book—pretty good, isn't it? And it's the truth, too.

But there's something I got by nosing around the store that is suitable for Easter Gifts, such as Diamond Bar Pins, Green Wrist Watches and that Super Plate Inlaid Holmes & Edwards Silverware.

You'd be surprised at the number of things Mr. Locke has for Easter Gifts, Wedding Gifts and other kinds of Gifts. You'll always find something beautiful and appropriate at this store.

Ford Theater, Where Lincoln Was Shot, May Be Museum

WASHINGTON, April 5.—Ever since the United States purchased the old Ford theater, where Abraham Lincoln was assassinated in 1865, it has served as office space for overcrowded departments of government.

Now congress is asked to appropriate funds to preserve its fast-decaying walls and interior, and to provide for the housing in the theater of the valuable Oldroyd collection of Lincoln souvenirs, now installed across the street in the house where Lincoln died.

The author of the measure is Representative Henry H. Rathbone of Illinois, grandson of Mr. Rathbone, who was in the box with the President and Mrs. Lincoln on the night the president was shot, and who carried the wounded man across the street.

War Department favors. The war department, which has used the Ford theater since it was bought by the government, has indicated that it will be ready to

vacate the building by June 30. The records and patent bureau also has been using the theater for its offices.

If the Rathbone bill does not pass, the theater will be turned over again to the buildings commission, for assignment to any other federal department or bureau which needs office space. E. F. Concllin, special assistant to the public buildings commission, says that neither the war department nor the commission has money enough to put the historic building into suitable condition.

The Oldroyd souvenirs of Lincoln are already a possession of the government.

Bit of History. Representative Rathbone's grandfather was seated just behind the president on the night of April 14, 1865, as Lincoln and his party watched the play, "Our American Cousin," from a box at the left of the proscenium. As soon as he heard the shot he jumped to his

feet and shouted down to the stage directions for capturing the actor John Wilkes Booth, who had fired and then jumped from the box. Then he bore Lincoln across the street to the house, where he died in the early hours of the next day.

protecting the Mississippi river from further disasters are not specifically set forth.

The bill makes it impossible, in the president's judgment, to say how much flood control will cost. He recalls that even Senator Jones, author of the bill, admitted that

the final expense would be far above \$700,000,000.

All in all, as Mr. Coolidge views the situation, nothing has occurred causing him to change his views as already expressed in his annual message and subsequently in the press.

COOLIDGE CRITICIZES JONES FLOOD BILL

WASHINGTON, April 5.—President Coolidge feels that the Jones flood control bill approved by the senate and now before the house is open to criticism because the expenditures it would authorize for

QUALITY AT LOW COST

SADLER'S OWN COMPANY HERE FOR ONE WEEK

On Monday night, the Harley Sadler company plays under the auspices of the police relief fund will open a week's engagement in Cisco, presenting a repertoire of the best plays, and vaudeville from the big circuits.

It is now carrying 40 people, including a 16-piece band, and a 15-piece orchestra.

In the larger cities the Harley Sadler company plays from 6 to 10 weeks' engagements. During the past two years they have played 12 weeks in Houston, eight weeks in Dallas, 10 weeks in Waco, 12 weeks in Amarillo, 6 weeks in Fort Worth, and shorter runs in Abilene, Lubbock, San Angelo and other West Texas towns.

The equipment is carried in two 80-foot baggage cars, and the scenery, stage settings, and electrical effects of this company represent an investment of several thousand dollars.

The big tent is double sided-walled, absolutely waterproof.

Among the plays to be shown during the week are "Children of Today," "I Want The Moon," "The Sheik," "Why Wives Worry," and "The Hoosier Bootlegger." These are all new royalty plays and are guaranteed never to have been played in Cisco before.

Reserved seats may be secured at City Drug company from 10:30 to 5 p. m. each day. Telephone your order in for seats and they will be kept for you.

Joe Jones Enters Co. Attorney Race

Joe H. Jones has entered the race for county attorney. For two terms, Judge Jones presided over the county court at law and was a faithful and efficient officer. Four years ago he waged a vigorous campaign for district judge and polled a tremendous vote against one of the most popular judges in Eastland county. Since that time Judge Jones has been engaged in the practice of law with Judge Jna. B. Littler, ex-judge of the court of civil appeals, and has also been connected with the management of an abstract company of which he is one of the owners.

Judge Jones would make a vigorous prosecuting attorney, temperate with a judicial fairness and high regard of individual rights. He was born and reared in Eastland county and has a strong following in all parts of the county.

Gorman is his home city but since 1920 he has resided in Eastland. Judge Jones is an energetic campaigner and will make an effort to meet every voter personally before the July primary. His announcement follows:

"To the Citizens of Eastland County: In announcing my candidacy for county attorney, I desire at the outset to endeavor to express my deepest gratitude to the people of my native county for the splendid support they have bestowed upon me in other campaigns and—if called by the mandate of the citizenship to the office to which I aspire—my best efforts will be given at all times in discharging the duties of the position so that none will have cause or occasion for regret at their choice.

"The enforcement of the laws without fear or favor is a time-honored doctrine of the great Democratic party and to this principle I give the fullest endorsement.

"The thoughtful man, viewing the situation can hardly fail to be impressed by the fact that indictments are being returned faster than cases are being tried with the result that there is an ever-increasing accumulation of cases. It is the appalling disregard for law is to be halted, then greater headway must be made in the trial of criminal cases. The county attorney can be of assistance to the district judge in dispatching the business of the courts. It is only fair to an individual—if he is not guilty—that his name be speedily cleared of the cloud that an indictment casts over a reputation; and it is only fair to the state of Texas that an individual—if he is guilty—be given a speedy trial so that he may sooner be placed behind prison walls, thereby making safer the lives and property of law-abiding citizens.

Economy can be achieved by not trying numerous cases against the same individual who pleads guilty and receives a concurrent sentence when one trial would serve the purpose just as well.

"The doors of the county attorney's office should be open to the public every day, and especially during office hours, with a member of the department there to accord a hearing to any citizen.

"The grand jury should at all times have available the services of the county attorney or some member of his department to give assistance and counsel.

"In conclusion, I wish to state that my decision to become a candidate for county attorney was made only after much consideration. The cordial expressions not only of many loyal supporters of the past but by many who were not favorable in other campaigns is appreciated more than I can find words to express.

"If you see fit to elect me, I will try to be the county attorney of all of the people, respecting the

rights of the humblest as well as the highest, and giving my best to the program of law enforcement at all times.

"I will appreciate your consideration.

Your friend,
JOE H. JONES.

LEGAL NOTICES

CITATION BY PUBLICATION

The State of Texas.

To the Sheriff or any Constable of Eastland County—Greeting:

You are hereby commanded to summon W. M. Hill by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the county court at law for Eastland county, to be held at the court house thereof, in Eastland, Texas, on the 2nd Monday in May, A. D. 1928, the same being the 14th day of May, A. D. 1928, then and there to answer a petition filed in said court on the 12th day of March, A. D. 1928, in a suit, numbered on the docket of said court as No. 4683, wherein West Texas Utilities Company, a corporation, is plaintiff, and W. M. Hill is defendant, and said petition alleging:

That suit is instituted on account alleged to be due plaintiff for certain goods, wares, merchandise and power amounting to the sum of \$331.12.

That said amount is past due and unpaid.

Wherefore plaintiff prays the court that defendant be cited to appear and answer this petition and that he have judgment for his debt, interest and cost of suit and further relief, special and general in law and equity that he may be justly entitled to, etc.

Heredit, fail not, and have before said court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Eastland, Texas, this 12th day of March, A. D. 1928.

R. L. JONES,
Clerk, County Court at Law, Eastland county.

SENATE GROUP COMPROMISES ON TAX SLASH

WASHINGTON, April 5.—Reduction of the corporation tax from 13 1/2 to 12 per cent was voted Wednesday by the senate finance committee which is considering the \$289,000,000 house tax reduction bill.

The house bill provides for reduction to 11 1/2 per cent. The finance committee decided this should be raised to 12 per cent in the light of recommendations presented yesterday by the treasury department.

Democratic members of the committee favored reduction to 11 per cent, but were forced to accept the higher figure.

A motion by Senator Barkley, Democrat, for reduction to 11 per cent was defeated, 11 to 9, by a strictly party vote. Another by Senator Simmons, North Carolina, Democrat, to 11 1/2 per cent was defeated similarly.

Senator Edge, New Jersey, Republican, made the motion for reduction to 12 per cent, which was adopted, 12 to 6.

Chairman Smoot said the committee was unanimously in favor of tax reduction at this session of congress, but it refused to go on record favoring any particular total.

He said, however, that he favored \$200,000,000 and Simmons, ranking minority member of the committee, advocated at least \$250,000,000.

The committee will resume consideration of the bill tomorrow.

EGG-LAYING RECORD BY EASTLAND HEN

EASTLAND, April 5.—"An egg a day will keep hunger away," is the slogan of one Eastland county hen. Miss Eastland, a pedigreed Rhode Island Red, on the Bell-Hurst farms, the modern chicken ranch owned by Joseph M. Weaver, oil millionaire of Eastland, has a record of laying 31 eggs during March.

The owner of Bell-Hurst farms is patriotic in naming his hens, there are in his flocks, besides Miss Eastland, a Miss Ranger, Miss Cisco, Miss Gorman and Miss Rising Star.

The records of these hens, as announced by the owner of Bell-Hurst farms, are as follows: Miss Eastland, 31; Miss Ranger and Miss Cisco, 27 each; Miss Gorman, 26, and Miss Rising Star, 25. Just why Cisco should not do better than the Miss Ranger for second place in this contest is not stated, as any thing named "Cisco" generally excels in Eastland county.

GAME WARDEN SENDS 6 DEER TO CISCO LAKE

There are nine deer out at Lake Cisco now. Six of these are new arrivals for the game preserves, sent here by the game fish and oyster commission. S. B. Wright, superintendent of the state fish hatchery said this morning. These animals were sent out for the game preserves the past week, four were sent from Kerr county and two from Laredo. Temporarily the deer were placed in the zoo with the three already there. The zoo received these three deer about two years ago.

Superintendent Wright stated that he was having poor luck fishing for bass in Lake Cisco, as the fish were not biting very well. Due, he thinks to the prevailing high winds of the past week. "We must have about 200 more brood bass to stock the hatcheries," Mr. Wright said, "but we have not been having much luck the past week, but think they will begin to bite better since the shower this morning, unless the wind should begin to blow again. I have an experienced man, sent out by the fish, game and oyster commission, to assist in getting these brood bass." He said. These fish are caught with a hook and line, and those suitable for the breeding pools are saved, the others are cast back into the lake. Trammel nets also are used, but bass are wise, as well as game fish, and are hard to snare in nets," Mr. Wright explained.

NOTICE, DEMOCRATS

A meeting of the executive committee of the Democratic party of Eastland county is hereby called to meet in the city hall at Eastland Saturday, April 7, 1928, at 2 p. m. At this meeting arrangements will be perfected for the holding of presidential primary conventions on Saturday, May 5. Vacancies in the executive committee, if any, will be filled at this meeting.

Ford and Glenn at Palace Sunday

Fighting Loboes Ready for Spring Grid Tilt With Haskell High School Friday

The last scrimmage before the football game with Haskell Friday was held by the Loboes Wednesday afternoon. The scrimmage was featured by the running of Eddieman, King and Bedford. Brian showed up well in the line and the defensive work of Wesley Smith at end was good. Kellogg at quarter showed up well. Pinkerton, center may not be able to get in the game Friday, since he has an injured leg.

An additional feature to the game Friday will be a girls' track meet held between halves. The girls have been working out daily and a lot of rivalry is being shown. The meet will be an inter-class affair for girls.

The starting line-up for the Loboes in Friday's game is still in doubt but will probably be as follows: Left end, Christian; left tackle, Swink; left guard, Slatton; center, L. Miller; right guard, McCanlies; right tackle, Caldwell; right end, Meadows; quarter, Kellogg; right half, Little; left half, Bedford; full, Eddieman. There will be many changes in the line-up and if the weather is warm probably all of the Lobo squad will get in the game. Below is a list of the Loboes out for the team with their positions and weights. The game will start Friday evening at four o'clock at Chesley Field.

Center — L. Miller, 164 pounds; Pinkerton, 170; Latson, 120. Guard — McCanlies, 162 pounds; R. Miller, 150; Wagman, 183; Condit.

Dinner and Program of Entertainment Given On Putnam Parents' Day

PUTNAM, April 5.—The annual parents day of the Putnam school was well attended, there being about 60 present besides several visitors. Dinner was served on the campus to all present. Putnam maintained her reputation for serving good dinners by the quality and quantity of this dinner.

From 1 to 3 p. m. the parents and school pupils were assembled in the building where a discussion of the best achievements and the future of the school took place. After a talk by Superintendent Renfro, many of the parents made talks, expressing pleasure with the progress of the school and promising the teachers hearty co-operation in making the school better from year to year.

The various rooms were well decorated with the work of the students done during the year. The library of Putnam school is one of which any high school might be proud. It contains 1500 volumes, including seven sets of encyclopedias. The librarian is Miss Artie Cook, a former graduate of Putnam school. She has proved herself very efficient.

The debating teams entertained those who came at night, girls debating in opposition to the boys. Harold Bray and Loye Jobe won out of the girls, Era Everett and Vernon Robinson. These teams represented Putnam school in the inter-club league contests.

The following were present: Mr. and Mrs. R. L. Buchanan, Mrs. H. W. Grisham, Mrs. J. P. Wingo, Mrs. G. W. Jeter, Mrs. S. M. Kell, Mrs. Gus Brandon, Mr. and Mrs. W. H. Norred, Mrs. F. P. Shackel-

ford, Mrs. W. E. Moreland, Mrs. Mary Guyton, Mrs. N. Warren, Mrs. O. D. Allen, Mr. and Mrs. C. E. Boren, Mr. and Mrs. W. P. Everett, Mrs. M. M. Little, Mr. and Mrs. D. E. Renfro, Mrs. E. E. Sunderman, Mr. and Mrs. J. T. Carson, Mr. and Mrs. Guynes, Mr. and Mrs. L. E. Brock, Mrs. John Cook, Mrs. J. A. Yarbrough, Mrs. Green, Mrs. Hampton, Mrs. Armstrong, Mrs. McCollough, Mrs. George Kelly, Mrs. Purvis, Mrs. Williams, Mrs. Hurst, Mrs. Smith, Mr. and Mrs. Claude King, Mrs. Clyde King, Mrs. Adolph Brandon, Mrs. Peek, Mrs. I. R. Robinson, Mr. E. P. Robinson, Mr. and Mrs. George Brown, Mr. and Mrs. Will Buchanan, Mrs. Lena Jobe, Mr. and Mrs. Baker. Those from Abilene were Mr. and Mrs. Lenroth, Mrs. Thornton and Miss Maggie Belle Nail.

PERSONAL

Mrs. F. E. Thompson has been spending a few days with her brother, Joe Shackelford, in Cisco. Mr. and Mrs. Frank Cunningham have gone to Loving, Tex., where Mr. Cunningham has contracted for several weeks' work.

Miss Mary Massa of Cross Plains spent the week end with Mrs. C. R. Cook.

Claude Cunningham of McCamey spent the week end with home folks. F. W. Snyder of Brownwood was calling on old friends in Putnam Wednesday.

Mr. and Mrs. R. C. Turner have moved to Loving, Texas, where they will reside for several weeks. J. A. Sharp, proprietor of the Mission cafe made a business trip to Eastland Tuesday.

MOVIES NOW POSSIBLE BY TELEPHOTO

NEW YORK, April 5.—The realm of sport news was opened to the movies Wednesday with the first demonstration of transmitting moving pictures over regular telephone wires.

Ten feet of film taken this morning in Chicago was put on the wires in that city and received at the seven other telephoto offices of the American Telephone and Telegraph company simultaneously.

These other stations are at New York, Boston, Cleveland, Atlanta, St. Louis, Los Angeles and San Francisco.

The pictures were transmitted at the rate of seven minutes for each foot and a half of film, the 10-foot strip, with some intermission between pieces, being sent in something less than two hours.

Commercial application of the telephoto movies was expected to affect chiefly the news reel companies, which in the past have had to depend on airplanes and trains for distribution of their pictures.

The cost of the new service will be approximately \$50 a foot of film sent from anyone of the eight telephoto offices to all the other seven.

Today's film, a close-up shot of a movie actress taken as she alighted from a train in Chicago, was taken in at all telephoto offices in New York. To demonstrate the practical application of the process the negative was developed immediately and given a private showing in a Broadway theater.

Telephotography of still pictures has become a commonplace, but not until yesterday was the field opened to the movies.

HOLLAND IS NOW DRAINING ZUYDER ZEE

CAMBRIDGE, Mass., Feb. 5.—Dr. Cornelius Lely, renowned engineer and inventor of the va plan to drain the Zuyder Zee and claim a new land from the sea for Holland, arrives here short on a lecture tour. Dr. Lely will deliver two lectures on Holland fight with the waters.

During the middle ages, large areas of Holland were washed in the sea and much of the Zuyder Zee was at one time land. In 1886, Dr. Lely was commissioned to study the problem of reclaiming the land lying under the Zuyder Zee. Five years later he presented his plan, but the Dutch government did not decide to undertake the great task until 1911.

The work is now well under way. This great engineering feat includes the construction of approximately twenty miles of the largest sea dykes in the world, which will separate the Zuyder Zee from the North Sea, making the latter an inland lake.

The dyke is under construction from the shores of North Holland to Freisland, the island of Weiringen being a connecting link. That part of the dyke between Holland and the island, a distance of more than a mile, has been built. The remaining section, nineteen miles long, will take about eight years to construct.

In the dyke will be two locks and thirty sluices. These are for releasing the waters which are carried to the sea by the Yesse river, one of the branches of the Rhine.

When the huge task is completed Holland will have reclaimed more than 500,000 acres of land which is expected to be valuable for agriculture. This land will accommodate 500,000 people and relieve to a great extent the overpopulated condition of the country.

Seek to Repeal Grain Grading Act

WASHINGTON, April 5.—R. A. Wilkinson of the Minnesota Wheat Growers' association told a senate agricultural subcommittee Wednesday that the most enthusiastic supporters of the Federal Grain Grading act have now become the most active in opposing it, on the ground that grading rules laid down by the department of agriculture are against the producers.

Wilkinson said he represented 12,000 grain growers of the Middle West who were in favor of the Shipstead bill to repeal the act.

The committee was told that under rules of the department, the quality of wheat is not taken into consideration in grading except under rules of scientists, which are not understood by the average farmer.

Philo B. Miles of the Peoria, Ill., board of trade said that the act "has worked fine for the consumer, but against the grower." He said that the grain grading standards were too rigid.

PRODUCING WELL IN CHALK FORMATION

SAN ANTONIO, April 5.—Joe Bruner's No. 1 Davis, one mile north of Luling, Caldwell county, is a well in the Austin chalk. It has been cored and deepening and getting a little better production. It was completed some months ago at 2,557 feet and made some oil. Recently it was decided to deepen it and the deepening process has improved it.

Bruner and his California associates are now proceeding carefully on the well, taking no unnecessary chances. It is the biggest well ever completed in the Austin chalk in Texas and practically the only commercial well so completed. It swabbed 30 barrels daily for two days. It has since cored some additional depth and got more pay formation.

Oil from the Bruner well is running between .38 and .39 gravity at temperature of about 84 degrees Fahrenheit.

SENATE GROUP COMPROMISES ON TAX SLASH

WASHINGTON, April 5. — Reduction of the corporation tax from 13% to 12 per cent was voted Wednesday by the senate finance committee which is considering the \$289,000,000 house tax reduction bill.

The house bill provides for reduction to 11% per cent. The finance committee decided this should be raised to 12 per cent in the light of recommendations presented yesterday by the treasury department.

Democratic members of the committee favored reduction to 11 per cent, but were forced to accept the higher figure.

A motion by Senator Barkley, Democrat, for reduction to 11 per cent was defeated, 11 to 9, by strictly party vote. Another by Senator Simmons, North Carolina Democrat, to 11% per cent was defeated similarly.

Senator Edge, New Jersey, Democrat, made the motion for reduction to 12 per cent, which was adopted, 12 to 6.

Chairman Smoot said the committee was unanimously in favor of tax reduction at this session of congress, but it refused to record favoring any particular rate.

He said, however, that the committee was divided on the question of whether to reduce the rate to 11% or 12%.

The committee will consider the bill on Friday.

Armstrong was awarded the high club prize and Mrs. John Ducker the consolation prize. Mrs. H. N. Pardee was awarded the high guest prize. The hostess served ice cream frozen in the shape of Easter lilies, served with cake and Easter candy. The following guests were present: Messrs. James W. Wallace, A. C. Elmer, Ted Mullinix, Jake Almond, George Simpson, Reggie Henderson, H. N. Pardee, W. J. Armstrong, F. D. McMahon, Mike Mc-

CISCO INVITED TO GALVESTON BEAUTY MEET

The managing director of the Galveston chamber of commerce reminds the Cisco body that two beauty events to be held in June will turn all eyes to Texas. One is the great national Democratic convention which meets in Houston June 26, and the other, a theatrical attraction, is the International pageant of beauty, which will be staged at Galveston June 27 to 30. To this event fifteen foreign countries are going to send their ambassadors of beauty to compete with the winners in the state contests conducted throughout America, for the title of "Miss Universe" and a prize of \$10,000. The Galveston chamber of commerce manager says we want to be represented by every major city in this event that attracts world wide attention and publicity. "That means," the Galveston manager writes, "our entry list will not be complete without Miss Cisco."

HOME TOWN CONTEST TO BE FEATURE

The West Texas chamber of commerce at the annual convention in Fort Worth will stage the "Home Town" oratorical contest again this year, and the members of the West Texas body are asked to have entrants in the contest. E. H. Whitehead, publicity manager of the chamber, says substantial trophies and prizes will be awarded this year, including the Thomas Etheridge cup. Leon Shields, of Coleman, has offered a cash prize of \$100 to the winner for the third time. Other prizes include scholarships of the West Texas Teachers' college at Canyon, Texas Technological college at Lubbock, Texas Christian university at Fort Worth, Brantley-Draughon Business college at Fort Worth, and the International Business college at El Paso. Winner of second place will be awarded \$50 in cash; third place, \$25; fourth place, \$15; fifth place, \$10. C. M. Caldwell of Abilene offered \$50 to be distributed equally among the ten high losers.

Start Tonight to Comfort Your Swollen, Painful Rheumatic Joints

Yes; it's true — the world progresses.

All you have to do nowadays to help relieve the pain and agony of swollen, inflamed joints is to squeeze a half inch of a comforting, soothing emollient from a tube.

Then rub it thoroughly on the offending part for a minute or two or until it penetrates and disappears on its errand of mercy.

Then read the evening newspapers and go to bed.

The chances are that your misbehaving knee joint will lose its "rustiness" while you are dreaming about the high fences you used to leap when you were a youngster.

ation

and his assistant, Stanley McCracken, but they were not discouraged. The Cisco force is now soliciting Easter greetings, and all friends and patrons of the telegraph force are asked to come to their rescue by sending greetings for Easter to their friends and relatives in other cities. The show window at the Cisco office has been decorated attractively in Easter symbols, the work of Mrs. Murphy, who remains in Cisco while Mr. Murphy is absent, and is working with the office force to win the contest.

Cisco Negro Wins Freedom From Jail By Singing Hymns

Verily music hath charms to soothe the savage breast," and Sam Kelly, a Cisco negro, found that negro melody of a religious trend is not a bad method of gaining his freedom when charged in the courts with violation of the liquor laws. Sam was arraigned Tuesday in the

88th district court on a charge of selling liquor, and while Judge Beene proclaimed a recess to allow the sheriff to secure additional jurors, the voice of Sam rang out in rich melody as he sang "Old Time Religion," in the hope that prison bars would be opened for him in modern times like Paul and Silas, who were released in ancient days. At any rate Sam was acquitted of the charge against him after the jury had been secured, empaneled and considered the evidence.
