VOLUME IX.

CISCO, TEXAS, TUESDAY, APRIL 10, 1928.

NUMBER 40

TEXAS

By WILL H. MAYES, Austin.

RECLAMATION PROJECTS.—It is hard for the mind that is unaccustomed to large figures to grasp the significance of the reclamation projects under way and planned in Texas. Within recent months bonds have been voted totaling \$17,000,000 for such undertakings. To reclaim 11,500 acres of land on the Trinity river between Dallas and Oak Cliff, \$9,500,000 in bonds will be issued. Most of this land will be used for railroad yards and industrial purposes and some for residences. It will add many millions of wealth to Dallas. Fort Worth has voted an equal amount for a flood control project and to supply a large amount of water for domestic and industrial purposes. Cameron and Hidalgo counties will complete this summer a flood control plan comprising about 150 miles of levees to cost about \$3,000,000 and to protect some 600,000 acres of land. Matagorda and Wharton counties are completing a flood control project to cost more than \$1,000,000. These are just a few of the large reclamation undertakings, but in the last few years there have been many others running from a few hundred dollars to nearly a million in cost.

INTERNATIONAL HIGHWAY.—The Petroleum Highway is a proposed roadway running from Tulsa, Oklahoma, through Texas to a point at or near Presidio. At an enthusiastic meeting held at Alpine, attended by some 250 representatives of towns along the route, and including a delegation from Ojinaga, Mexico, the statement was made that many of the counties through which the road will pass have their plans well under way. It was also stated that such a route as is proposed would run within an hour's ride of 70 per cent of the Southwest's oil production, thus greatly facilitating travel between oil centers. The Mexican delegation, which was accompanied by a 30 piece band, gave assurance that the State of Chihuahua, Mexico, would extend the highway into Mexico, making it an international roadway.

JUST LOOK AT MASON.—Chambers of commerce, look at the annual report made by the Mason chamber of commerce! The receipts for the past year were \$7,374.64, every cent of the membership dues being collected. More than \$2,700 of the amount is still in the bank and all debts have been paid. Pledges for \$4,680 for the next year were made before the annual meeting. Two hundred and fifty people attended the annual banquet including visitors from Fredericksburg, Llano, Menard, Brady and San Antonio. Much of the year's expenditure was for fire prevention, including \$1,100 for a night watchman, thus lowering the fire insurance rate of the town. Other items were \$500 for the support of a band, \$500 for a county farm agent, and \$729 for a poultry show. Mason is not on a railroad, but is anxious for railroad connection and has subscribed \$10,000, to which more will be added to get a railroad outlet. If any other town in Texas can make as good a showing as Mason this column would be glad to publish it to the world.

CORPUS CHRISTI BUILDING.—Corpus Christi building permits for the first three months of 1928 totaled \$2,505,178. Other projects under way, including improvements of the Port of Corpus Christi, make a grand total of approximately \$6,500,000 of construction work in progress or planned for the immediate future. Among other building enterprises a new \$600,000 hotel is to be built. Corpus Christi "has arrived."

GIRLS' CLOTHING CONTEST.—About 600 girls from Texas high schools in which training in home economics is given will enter the ninth annual clothing contest, to be held at the Gunter Hotel, San Antonio, April 26 to 28. These contests, which are held under the auspices of the Home Economics Division of the State Department of Education each year, have been instrumental in creating a wonderful interest on the part of high school girls in making their own clothing. Much of the clothing entered in the contest would reflect credit on professional dress-makers and designers.

COTTON BELT IMPROVEMENTS.—The Cotton Belt railway line from Tyler to Mt. Pleasant is to be practically rebuilt. Bids have been asked on the \$2,000,000 worth of construction work. Wherever possible, ties are to be removed and rails reduced to better handle increased tonnage and to facilitate faster freight and passenger schedules from Tyler to the coast. This is another indication of progress so evident in all

JACKSON MURDERED BY UNKNOWN

Citizens Want Bankhead Widened

Modernizing of Highway Will Mean Big Saving in Life and Property and Attract Tourists

The state highway commission's plans for widening and straightening the Bankhead highway through Eastland county were endorsed at a meeting of representatives of Cisco, Eastland and Ranger at Eastland yesterday afternoon. Harry Brelsford, president of the Eastland chamber of commerce, presided, and County Judge Ed Pritchard detailed the plan proposed by the state commission.

The Bankhead right of way now is sixty feet wide. The state commission wants a right of way 100 feet wide through Eastland county, and will pay the cost of paving the road some three feet wider and building the additional shoulders if the county provides the required right of way. It is recognized that it will be impossible to secure the 100 foot through the cities mentioned above, but if the custom of parking automobiles in the center of the streets is abandoned, the state commission will be satisfied.

Judge Pritchard made the statement that the proposed plan was not one for the distant future, but that the highway commission, expected to complete the work this year. He said the county court of Eastland county wanted and must have the full cooperation of the people along the Bankhead, and that they would expect the chambers of commerce of Cisco, Eastland and Ranger to aid in every way possible if the offer of the highway commission is accepted. He added that it would be necessary to take up the right of way question with property owners at once, as the commission will expect a definite answer to its proposal by the next meeting of the body, April 24.

Following the remarks of the county judge, the project was unanimously endorsed by the citizens present. Joe Weaver and Jack Lewis, of Eastland; Aaron Mayhew and J. E. T. Peters, of Cisco, made spirited talks in which they stressed the importance of the plan to modernize the Bankhead and predicted united support and full cooperation of the people of the three cities and all others along the highway.

Present at the meeting and voting full cooperation with the county and state officials in the proposal were Joe Weaver, Jack Lewis, T. L. Overby, Harry Brelsford, George W. Briggs, John W. Turner and Earl Bender, Eastland; W. D. Conway, Wayne C. Hickey, V. V. Cooper and Andy Anderson, Ranger; Aaron Mayhew, Burt Britain, J. E. T. Peters and A. B. O'Flaherty, Cisco; W. M. Burns, Gorman.

Her Sons Were Slain

This is the first picture of Mrs. Iva Reed Chisholm, employed in a London hospital; her two little sons, George and Edgar, were led to death at East Chicago, Ill., by their father, now married to a second wife. The father, held for causing the boys to be drowned, blamed the constant nagging of his second wife for the gruesome deed.

\$5 Per Capita Given to State Schools From Funds Held

AUSTIN, April 10.—Another apportionment of five dollars per capita of the available state school fund, based on the 2,270,000 scholastics was announced here today. The apportionment aggregates \$8,850,000, leaving only two dollars per capita still to be apportioned. This will be done in May or June. The prompt payment of the apportionment was made possible by the low cost of school books, Superintendent Marrs said.

BIG PRODUCER INDICATED IN GORDON'S WELL

Indications are this morning that Col. Robt. D. Gordon is about to stage a come-back in the oil game, and retrieve his fortunes after many vicissitudes of following the fickle fortunes of the oil game, according to information which reached Cisco this morning, when it was reported that the Reagan No. 1, in the Gordon pool on the Ramsower tract, nine miles northeast of Cisco, had encountered a gas flow estimated at ten million cubic feet at the 1940 to 1965 foot levels, with good oil showings.

The gas pressure is reported to be so strong that it was impossible to run the boiler, and the boilers are being moved back to drill through the present sand to the deeper pay from which the larger wells in the Gordon pool are producing. It is reported that the Reagan No. 1 is logging similar, but better, than the discovery well of the Ramsower field, which was drilled in by Colonel Gordon about two years ago, which has produced approximately \$225,000 worth of oil and gas since it was brought in.

MAYOR MAYHEW DEALS JUSTICE IN CITY COURT

Another young man, who claimed that he shipped on a steamer from Savannah, Ga., to San Diego, Cal., and was making his way back home. He was sent to Lake Cisco to await word from his father, whom he said would send him money to come home. He was told that he would be released if money was sent to purchase his transportation.

CUSTOMS UNCOVER ARMS SHIPMENT

P. Tractvik, seated right in the picture, is shown being questioned concerning thousands of rounds of small arms ammunition which were found in his cabin aboard the freighter "Lempira" at New York. The customs officers who made the raid believe that the shipment was intended for sandino in Nicaragua.

Railroad Employees Receive \$50,000,000 More Annually in Salaries Than Paid Year Ago

PITTSBURG, April 10.—Railroad employees received \$50,000,000 more in salaries the past year than during 1927, an estimate released by the bureau of railroad economics reveals. These computations are based upon a study by the bureau of the hours worked and wages paid employees for the year. The number of railroad employees is steadily falling off, the bureau finds. During the first six months of 1927 there were nearly one per cent less men employed than for the same period of 1926, while during the last six months of the year the decrease was even more noticeable, resulting in a decline of four per cent from the previous year. The average number of men employed throughout the year the bureau found to be 1,764,000, compared with 1,805,700 during 1926 or an average reduction of about two per cent for the year.

But while the total number of men employed for the year showed a decrease of approximately two per cent, the aggregate compensation paid employees for the period did not keep pace with the downward trend, according to the report. The comparative salary figures for the two periods show \$2,990,000,000 for 1926 and 1927. While the aggregate shows a decrease, it was only a decrease of one per cent. Hence, the report concludes, the average compensation per employe was on a higher level in 1927 and continuing further, points out that increases over the past four years have brought the average for 1927 salary to approximately \$1,673. The average compensation for the previous year was \$1,655. "Bearing in mind the reduction in the average working day, it seems fair to conclude that increased wage rates were responsible for not less than \$50,000,000 of the wage bill of the railways for 1927, as compared with the corresponding wage rates for the previous year."

Railway operations were able to show 15.2 per cent more efficiency in 1927 than during the five year period 1920 to 1924, according to an index of railway efficiency also prepared by the bureau of railway economics. "The highest point was reached by this index in February, 1927, when the index stood at 118.1, that is, the efficiency for that month on a level of 18.1 per cent higher than during

Nancy Price, Noted Actress Was 'Boy' on Drifter in War

LONDON, April 10.—Nancy Price (maiden name, worked on a drifter for six months during the war, disguised as a boy, it is now revealed. Trained from girlhood to understand the sea and its ways, Miss Price is a skilled yachtswoman. When war broke out she was determined to use her experience in the service of her country. Without telling anyone of her intentions, she cut off her hair, assumed male attire and took employment as a ship's boy on a drifter. It is a remarkable fact that for six months she was able to carry out her job without anyone on the drifter, except the skipper, realizing she was a girl. She took her turn at the wheel, stood her watch and did the cooking.

MRS. J. E. LUCE CISCO PIONEER GOES TO REST

Mrs. Luce was born July 10, 1838, and came to Cisco with her husband many years ago, the two being among the earlier inhabitants of this city, where they were well known by all of the earlier citizens. The two had lived at the present Luce homestead since their first arrival here, until the death of Mr. Luce August 17, 1925. Mr. and Mrs. Luce were childless, but are survived by several nieces and nephews living in other states, and only Mr. Jackson, who lives at Bartville, Penn., is known here. Those living in Cisco are Mrs. Gladys Whiteman and Howard Hanahan.

Austria Plans to Float \$100,000,000 Loan in America

WASHINGTON, April 10.—The treasury today requested congress to subordinate the United States government's lien in Austria in order to permit that nation to float a new \$100,000,000 loan here for rehabilitation of railroad and telegraph lines.

FORMER MANAGER FOR ARMOUR PLANT IS DEAD

FORT WORTH, April 10.—W. C. Summers, 51 years old, who resigned as general manager here for Armour's packing plant, March 10, because of ill health, died today.

FROST DANGER TO SPRING CROPS ENDS; SKIES CLEAR

FORT WORTH, April 10.—Rising temperatures and clear skies have eliminated all danger to fruits and vegetable crops today.

MICHIGAN HERO TO STAY IN HIS ARGONNE GRAVE

NILES, O., April 10.—The body of Private Daniel Jones, of Niles, member of Company G, 59th infantry, will remain buried near the Argonne where he was killed in battle Oct. 4, 1918, at the request of the soldier's mother, Mrs. Mary Jones, who has just learned of the discovery of Daniel's grave in France. Jones' body lies in an isolated spot in Bois de Faye Meuse, France. Identification was made by means of a dog tag around the war hero's neck.

THE WEATHER.—West and East Texas, generally fair, rising temperatures.

Get Color Harmony Into Your TRIAL IS BEGUN

WASHINGTON, April 10.—A tale of graft, corruption "reaching to very roots of the government" was unfolded today in criminal branch No. 2 of the district supreme court as the conspiracy trial of Harry F. Sinclair, oil magnate, actually got under way. Owen J. Roberts, government special counsel, addressed the jury outlining the transaction whereby Sinclair obtained the Teapot Dome lease from Former Secretary of the Interior Albert B. Fall, and charged a \$253,000 bribe motivated the deal. Daniel Thew Wright, Sinclair counsel, told the jury the naval reserve was being drained from adjacent wells. He said Fall, Denby, Sinclair and President Harding were interested in saving oil for the navy.

May Fly Our Way

M. De Droyat, French flier, is reported preparing for a trans-Atlantic flight in return for Colonel Lindbergh's visit to Paris. De Droyat and Lindbergh became good friends while the latter was abroad.

Fills Unexpired Term

City Federation Met Monday Afternoon

The City Federation met Monday afternoon in the ladies' parlor of the Presbyterian church with the president, Mrs. O. T. Maxwell, presiding over the regular routine of business. Reports were given concerning the Longhorn band which the City Federation sponsored March 22. The program was then turned over to Mrs. Philip Pettit, who was leader for the program, and the Twentieth Century club gave the following interesting program: Mrs. C. H. Fee gave a splendid talk on "Applied Education." One interesting feature of this talk was the essay read by Jessie Mae Griffin. The Twentieth Century club had offered a medal for the best essay on "How I Can Make Cisco More Beautiful," and the prize was awarded Jessie Mae Griffin. Mrs. G. M. Simpson gave a paper on "American Citizenship." Mrs. Wm. Reagan conducted a round table discussion on parliamentary law, which was most interesting. The club adjourned to meet in May with the First Industrial Arts club having charge of the program. The subject will be "Public Welfare."

THE TRAGEDY OF MANY LIVES IS CONSTIPATION

Guard against it in time

This evil scourge ruins thousands of promising men and women. It saps vigor, it kills initiative. It wrecks health and happiness. Sleepless nights, dragging feet, headaches, pain-dulled eyes, follow in its wake. Frequently it leads to lasting and serious disease.

Yet there is safe, prompt relief. Kellogg's ALL-BRAN is guaranteed to relieve constipation. To surely prevent it. ALL-BRAN is 100% bran—100% effective. Doctors recommend it. Two table-spoonfuls daily—chronic cases, with every meal.

Don't you agree it is better to cure constipation with this healthful cereal than to try dangerous pills and drugs? Or uncertain parturient products? Delicious with milk or cream—fruits or honey added. Use it in cooking too. Sprinkle it to soups. Sold by all grocers, served everywhere. Made by Kellogg in Battle Creek.

IN AIR TO AID CHICAGO FLIERS

By FRANCIS L. ARMSTRONG International News Service Staff Correspondent

CHICAGO, April 10.—Two aerial beacons, each the largest of its kind in the world, will light the way of aviators seeking Chicago. Also the new Morrison hotel, 638 feet in the air, Mayor Thompson's Lindbergh Light will be constructed shortly.

Chicago's "Two-Gun" Election On Today: 35,000 Guard Polls

CHICAGO, April 10.—A force of 30 men from the city detective bureau is combing Chicago and suburbs for traces of Titus Haffa, Thompson ward leader, who was reported kidnaped on the eve of Chicago's "two-gun election" today. The Democratic and Republican primaries are being held to choose candidates for United States senator, governor and the usual run of state officials, while the county officers are being chosen in the same election. The police have 35,000 special guards and regular police mobilized here to preserve order. Fair weather prevails and a large number of votes is expected.

Move Launched to Combine Two State Democratic Groups to Aid Candidacy of Senator Walsh

SAN ANTONIO, April 9.—Frank C. Davis, former chairman of the state Democratic committee, announced today that he is preparing to call a conference of representatives of the "Harmony Democrats" and the "Constitutional Democrats" in an effort to combine the two factions behind Senator Walsh's campaign for the presidential nomination. The meeting, he said, would be held in Fort Worth or Houston, the date to be announced later.

Davis said that he found a state-wide and growing sentiment in favor of Walsh and that Texas Democrats are becoming convinced that the Montana senator is destined to lead us in 1928, just as Wilson was destined to lead us in 1912.

In his statement Davis said: "A thousand of the most eminent Protestant churchmen of the country, including a half-dozen bishops of the Methodist church, have voiced their admiration of Senator Walsh and their purpose to support him loyally in the event of his nomination at Houston. American Protestants who are Democrats will vote and work for Walsh. Can Catholic Democrats do less, or will they do less?"

To Protestants I should like to say that Tom Walsh and Edward Doherty were boys in Wisconsin together; they were intimate friends; they made their confessions to the same priest; they were members of the same Democratic party. Doherty, the record shows, sought, put in its mildest form, to use the government for Doherty's selfish interest. Did Walsh condone his personal friend's derelictions? The stalwart and incorruptible Montana senator pointed on Doherty as quickly and as fiery as an eagle would protect its honor. Walsh was protecting the honor of the nation he swore to defend when Montana sent him to Washington. I cite these facts as

additional proof that every American can trust him always. "We have the God-given opportunity to forever wipe from our country any thought of religious intolerance while at the same time putting in the white house a Democrat who needs no platform to assure either friend or foe the things for which he stands and which both know he will perform. For one I am committed gladly to that end. And Texas and the nation will be stirred before we finish."

CISCO GROCERS ENDORSE HOME DAIRY PROJECT

Dairying, highways, Cisco and Cisco-made bread were some of the subjects discussed at the meeting of the grocers' department of the Retail Merchants' association at the chamber of commerce E. B. Longacre, secretary of the Retail Merchants' association, presided.

J. E. T. Peters, secretary of the chamber of commerce, was the first speaker. He gave the grocers the details of the plan to widen the Bankhead highway through Eastland county, and urged them to support the chamber of commerce in the campaign to obtain the right of way for the road. The grocers agreed that Cisco would benefit from the project and all agreed to give it their fullest support.

E. H. Varnell, agricultural agent, told of the plan for a 46 mile milk route to be started April 29, and explained that from that time on the creamery here would produce sweet cream butter alone, buying the farmers' whole product and storing

TO WED KING OF BULGARIA

The sour cream for sale to other creameries that produce sour cream butter. The grocers agreed to buy the local sweet cream product and recommend it to their customers.

The grocers agreed also to boost Cisco-made bread in an effort to overcome the invasion of bread from other cities. Plans for a cold storage plant here, to enable grocers to keep supplies of fresh vegetables and fruits fresh, were brought up, but were deferred for later action.

FIRST BAPTIST REVIVAL TO BEGIN ON APRIL 29

The congregation of the First Baptist church announces a revival

meeting to begin Sunday, April 29, with the home forces in charge. This decision was reached in the monthly business meeting of the church last week. At this meeting, also, it was voted to hold a Sunday school training school during the week of April 23 to 28. This week of training will be for all present officers and teachers of the school and for any other workers who are interested in improving their knowledge and efficiency in the educational work of the church, it is announced.

NO PINK STOCKINGS NOW PARIS, April 10.—Gloves and stockings will be of a much browner beige this spring than that which has been in vogue for some time. There is no longer the faintest hint of pink or flesh color in either one.

"Sensational Flights" Defended by Commander Byrd, Who Maintains Efforts Accelerate Progress

By JAMES L. KILGALLEN
International News Service Staff Correspondent.

NEW YORK, April 10.—"Sensational flights" are defended by Commander Richard E. Byrd who is now engaged in planning an expedition to the South Pole next fall in a tri-motored monoplane. In his first book, called "Skyward," which has just come off the press, Byrd refers to spectacular flights as "the italics in the story of the progress of aviation."

"Such flights accelerate progress," he writes, "for when the flight is decided upon no necessity produces inventions and developments which in the ordinary course of events, would tend to be slow and uncertain."

Byrd makes it plain in his book that he believes that aviation is only in its infancy. He foresees by 1936 a passenger plane with four or five engines housed in the wings—out of air resistance.

"It is conceivable," he says "that high altitude exploration may soon be combined with high speed flying."

He is of the opinion that 500 miles an hour is in sight. He believes the 100-hour reliable engine is at hand.

Byrd justifies spectacular flights as necessary to the progress of aviation and of civilization itself. He says that the accidents that occur in such ventures should not be held against the development of commercial aviation.

"Commercial aviation, as I have tried to point out, can today be made safe as a railroad train," Byrd writes. "The pioneer risks his life to bring the unknown into the column of the known. I have always believed that no matter how hazardous an endeavor may be, it is justifiable if the end sought is human knowledge and augmented progress."

Byrd described all of his flying experiences, including his Greenland trip, his flight with Floyd Bennett to the North Pole and his trans-Atlantic hop with Bert Acosta, Lieut. G. O. Norville and Berni Balchen. He reveals for the first time that nearly ten years ago he began agitating for a trans-Atlantic flight and that at that time he first suggested the flight be made with navy equipment. He says it was largely through efforts made by Walter Camp, with whom he first discussed the project that high navy officials began consideration of the plans which culminated in the flight of the NC-4.

In telling of his plans to fly over the South Pole, Byrd cites the difficulties, financial and otherwise, faced in an endeavor of this character.

"Of the toil and the anxiety that now go into the organization of a big expedition the public hears but little," he writes. "Of the anguish the leader must suffer in this preparatory phase none can know who has not been through it."

"It cost Columbus \$2,115 to discover America. It cost the world \$200,000,000 and hundreds of lives to discover the North Pole. I don't intend to argue that either was worth more or less than it cost, but the overhead of Polar work hasn't gone down since the date of Peary's discovery."

"My North Pole expedition in 1926 was made just about as cheaply as possible. We spent hours and hours trying to get things done economically. Yet it cost in cold cash about \$140,000. Nor does this take in a very large sum represented by men and material which were given at cost or donated."

"Our trip to the South Pole will cost about \$450,000. As we have to be ready to winter on the Antarctic barrier and cover about 24,000 miles in the round trip from New York the cost rises much beyond that of a North Pole trip."

FAMED MUSICIAN SECRETLY WED

Although they have been married for several years, Josef Hofmann (inset), famous pianist, and his second bride, Betty Short (right), guarded the secret until recently. The musician's divorce from the first Mrs. Hofmann became known at the same time. Both affairs were shrouded in secrecy to avoid casting a cloud over the debut of Josefa, Hofmann's daughter by his first marriage. Three-year-old Anton Hofmann (left), son of the present Mrs. Hofmann, is said to be the image of his celebrated father at that age.

End the Pains of Rheumatic Joints

Swollen, twiny pain tormented joints are usually caused by rheumatism. To bring comfort and relief, thousands rub in Joint-Ease, a soothing emollient that druggists everywhere have a big demand for.

For lumbago, sore, lame muscles, burning feet, neuritis, sciatica, and chest colds its comforting influence will be appreciated. It's not expensive—only 60 cents a tube. You can always get Joint-Ease at Moore-Shepard Drug Co.

WORKERS who feel lazy, languid, "blue" or discouraged should take HERBINE
A Tonic that gets results quickly. Put "pop" in your. Price 60c per bottle. Sold by Tomlin-Young Drug Co.

Texas Prison System Restored to Self-Sustaining Basis

Cost of Operation Greatly Reduced in 1927; Income From Products Exceeds All Expense

AUSTIN, April 10.—Governor Dan Moody believes brighter days are ahead for the state's prison system, following his receipt of the report made by Chairman R. H. Baker of the prison board.

He termed the report "exceedingly gratifying," and said that one of the important points he noted was that the operation costs were reduced nearly a quarter of a million dollars through the introduction of business methods and practical economies.

"It is also gratifying to see that the cost of operation was less than the income of the system from the sale of its products," Moody said. "I do not minimize the efforts put forward in the reformation of the prisoners, but Texas, has for so many years been losing money and paying taxes to offset the deficits of the prison system, that I am gratified that in the first year of this administration, the system has been restored to a self-sustaining basis.

"Under normal conditions next year should do even better, because the system has eliminated three of the farms which over a period of seven years have constantly lost money to the people of Texas.

"On January 1, 1927, the system owed over \$2,000,000, and in the past large appropriations have been made to pay its debt. If the record of 1928 can be kept up, and should be with good business methods, the system will never again fall so deep in the financial hole. I am pleased with the results of the budget plan."

TWIN BEACONS IN AIR TO AID CHICAGO FLIERS

By FRANCIS L. ARMSTRONG
International News Service Staff Correspondent.

CHICAGO, April 10.—Two aerial beacons, each the largest of its kind in the world, will light the way of aviators seeking Chicago.

Also the new Morrison hotel, 638 feet in the air, Mayor Thompson's Lindbergh Light will be constructed shortly.

The Roanoke Beacon, a gigantic vertical beam, will be erected 520 feet above the street on the Roanoke building, according to an announcement just made by Walter Greenbaum, Chicago broker and aviation enthusiast.

The plan for the Roanoke beacon has been approved by the department of commerce at Washington, according to Greenbaum, and specifications for the Lindbergh Light will be submitted to the department and to the bureau of lighthouses shortly.

Work Begins Soon

Work on the Roanoke beacon will begin in June, and the light will be ready for use in July, according to present plans. The beacon, to rise on a steel tower 45 feet above the Roanoke building, will throw a single shaft of red light into the sky.

The Roanoke beacon, according to its designers, will penetrate fog which often drifts in from Lake Michigan, and will be visible for at least 100 miles on a clear night. An auxiliary beacon will be pointed toward the proposed lake front field to direct the fliers after they have reached the city.

Neon tubes, arranged in 24 units, will supply the light for the vertical Roanoke beam which will be, literally, a 45 foot tower light.

There will be no conflict between the two beacons, members of the Mayor Thompson aero committee said.

"The Lindbergh Light will be a white, revolving light visible for 200 miles," one member of the committee explained. "The Greenbaum beacon will be stationary and red, giving it fog penetrating qualities.

"In fact, under these plans Chicago will have two splendid airplane beacons, each the largest of its kind in the world, and they will make Chicago one of the safest cities in the country for night flying."

For Night Flying

Construction of suitable beacons for night flying was felt necessary here because of the fact that Chicago is becoming one of the country's largest aerial terminals.

Mail and commercial planes are landing here on night trips constantly. Because of the dangers involved in flying over Lake Michigan, it was explained, huge beacons pointing out the location of the city from a great distance have become necessary.

The two lights, when built this summer, will constitute a big step in development of the city as an airport, it was understood.

As soon as plans for the Lindbergh Light are approved by the department of commerce, the city is

LONE STAR GAS EMPLOYE HURT IN CAR WRECK

RANGER, April 10.—L. M. Bunton, employe of the Lone Star Gas company, was in the City-County hospital Monday as the result of an automobile accident that occurred about midnight Saturday.

The injured man was found lying unconscious by the side of the Breckenridge highway by Fred Paul, also an employe of the company. His car was turned over in the ditch nearby.

Bunton said that he left home about 11:20 Saturday night to go to work at the plant No. 3. He said a car appeared in front of him and the lights blinded him. His windshield was covered with mist and he looked around it to find that the car was right in front of him. He said he applied the brakes and his car skidded, which was the last thing he remembered.

Bunton regained consciousness early Sunday morning. He is suffering from a severe gash on the chin and a sprained wrist and shoulder. Bunton is an oiler for the Lone Star Gas company.

FARM HAND SEEKS WORK

Will Gregory, who recently moved to Cisco with his family from Spring Place, Ga., is wanting to get work for himself from some farmer. If any farmer wants to hire a farm hand let him communicate with Mr. Gregory through the Cisco chamber of commerce or through Mr. E. H. Varnell, Cisco agricultural expert.

expected to appropriate \$20,000 for machinery to generate power, and construction of the light will follow immediately.

LEE RECEIVES INVITATIONS OF FARM FOLK

R. Q. Lee is in demand at many farmers meetings that are being held over the district, as invitations to attend some agricultural function reaches his headquarters here nearly every day, it was stated this morning by those in charge of his office. Mr. Lee stated he will accept as many of these invitations as possible where they do not conflict with his other engagements. He is especially in demand at dairy meetings. These are always agreeable to the congressional candidate, as dairying is one part of his campaign program, he stated. On his diversified farm dairying is one of his projects that he is most interested in.

24 INTENTIONS TO DRILL FILED WITH BURKETT

Following is the report of development in the oil fields of the Cisco district as made to Omar Burkett, deputy oil and gas supervisor:

Don't Let People Say "HE LOST HIS NERVE"

New Discovery Makes Weak, Uncontrollable Nerves Strong and Steady in Two Weeks or Money Back Says Moore-Shepard Drug Company.

The mighty energizing power of Lifetone Tablets shows so quickly that often one package is all that is needed to turn rundown nerve shattered men and women who lack confidence and ambition into strong, vigorous people.

Men who possess buoyant vitality never lose their nerve in emergencies, but on the other hand are always full of confidence and the joy of living.

Start to get rid of nervousness and increase your vitality today; take two Lifetone Tablets after each meal and two at bedtime for two weeks.

Then if you feel that any claim made in this special notice is untrue—if your nerves are not much steadier than before; if you do not feel more ambitious, more vigorous and keen minded, Moore-Shepard Drug Co. or the pharmacist who dispensed the tablets to you will gladly hand you back just what you paid for them. 72 tablets for \$1.00.

NERVOUS HEADACHE

Kentuckian Tells How Taking Black-Draught Relieved His Pains and How Well He Feels Now.

Waynesburg, Ky.—How a few doses of Theodor's Black-Draught brought relief to a man who had been suffering from frequent spells of severe headache, is told below in the statement of Mr. Charles P. Todd, of Estesburg, near this place.

"I was suffering with nervous headaches. About once a week I would have these headaches, and have to quit work, and go to bed for about twenty-four hours. I would have pains in my neck, and right behind my right ear.

"A merchant at Estesburg saw me one day when I was suffering, and told me to try taking Black-Draught, which I did.

"I took a package home that night, and took a few doses. It relieved me. From that time on, I would take Black-Draught as soon as I felt like I was going to have one of those headache chases—and they wouldn't come on.

"Every few weeks, I take three or four doses of Black-Draught, and I feel so well, and do my work, and don't lose any more time with headache.

"I haven't had a headache in six months."

Costs only one cent a dose. Get a package today. NC-189

B.S. WALKER, OIL MAN, BANKER, CRITICALLY ILL

FORT WORTH, April 10.—Breckenridge S. Walker, multi-millionaire oil man, banker and capitalist, is critically ill at his home, 1433 Pennsylvania avenue. He has been unconscious since Sunday. High blood pressure was given as the cause of illness.

Walker's daughter, Miss Pansy Walker, was queen of the pageant of the Southwestern Exposition and Fair Stock show last month. His former partner in many oil matters, C. M. Caldwell, who now lives at Abilene, and J. J. Perkins, Wichita Falls, business associate of Walker for several years, were here last night. His nephew, H. Carlton Walker, Breckenridge, was here also.

Broadway of America Secretary Endorses Widening of Bankhead Route Through Eastland County

After the meeting endorsing the widening of the Bankhead Highway at Eastland yesterday, those present attended a second meeting, at which C. W. Taylor of Las Cruces, N. M., was the speaker. He is secretary of the Broadway of America Highway association, and passed through Cisco to Eastland on the way to the meeting of the association in Memphis. In a very nice speech he told those present that the widening of the highway would be of great assistance in attaining the designation of "Broadway of America" for the road. He asked how many carloads of delegates from this county might be expected at the Memphis meeting. He was told about two carloads each from Cisco, Eastland and Ranger. Mr. Taylor then said that Harry Chandler of Los Angeles had told him that the motorcade would contain fully 150 cars by the time it reached El Paso.

After the speech by Mr. Taylor, those present organized an Eastland county branch of the Broadway of America Highway association, with all those present charter members, each paying a 50-cent fee to aid the organization of the branch. Cyrus W. Frost of Eastland was elected president; J. M. Williamson of Cisco, vice president and Walter Murry of Ranger, secretary-treasurer.

A resolution was passed authorizing the secretary of chambers of commerce in Eastland county to enroll applicants for membership in the association, who are willing to pay the 50 cent fee. The names of the charter members follow: Joe Weaver, Jack Lewis, Ed Pritchard, T. L. Overby, Harry Breisford, George W. Briggs, John W. Turner and Earl Bender, all of Eastland; W. D. Conway, Wayne C. Hicker, V. V. Cooper and Andy Anderson, all of Ranger.

Birt Britain, Aaron Mayhew, J. E. T. Peters and A. B. O'Flaherty, all of Cisco; W. M. Burns of Gorman.

290 Autos to Visit Cisco. The Broadway of America motorcade, when it shall have reached Cisco on the afternoon of April 16, will have gained such volume that it will be one of the biggest caravans of cars than ever passed through West Texas, said C. W. Taylor, secretary of the Broadway of America highway association while in Cisco Monday. Mr. Taylor, with Mrs. Taylor, are enroute to the transcontinental highway convention, which convenes in Memphis, Tenn., April 20-21, as the advance guard of the motorcade which will pass through Cisco April 16. They are making the trip by automobile, over the proposed route that is expected to be permanently designated at the Memphis meet. He stated it was his purpose to arrive on the scene a few days in advance that he might prepare for the coming of the western delegation.

"We left San Diego last Tuesday afternoon, and are stopping at important points along the route, impressing the towns upon the importance of joining the motorcade as it passes along. I find much enthusiasm manifested for the motorcade in every town through which we have passed," Mr. Taylor said, "and it is my opinion that at least 200 cars will be in the throng when the motorcade reaches Cisco, and that at least 500 cars will be in the caravan from the west. I have been informed that there will be 750 cars in the eastern motorcade.

The Memphis convention will eclipse anything of the kind previously held. Admiral McKean, in charge of the naval station at San Diego, has been ordered by the navy department at Wash-
