FIRST SECTION—TEN PAGES

NUMBER 43

## TEXAS

By WILL H. MAYES, Austin.

**ARANSAS PASS HARBOR.**—Congress having appropriated \$500,000 for improvement of the harbor at Port Aransas, the work is under way and will be rushed to completion. The channel will be deepened from 25 feet to 35 and widened to 400, with provision for extending the width to 600 feet if found feasible by the engineers. The Humble Oil and Refining company will spend some \$2,000,000 at the port, as soon as the channel work is completed, to facilitate the handling of oil there. This company has a pipe line extending from the West Texas oil field to the coast that is said to represent an investment of \$28,000,000. All of which indicates that Port Aransas may soon rival Port Arthur as an oil concentration and refining point.

**MEXICAN ZINC SHIPMENTS.**—Galveston will soon be competing with Tampico in the shipment of Mexican zinc and lead. European points, according to announcements made by officials of the Santa Fe system. This zinc and lead will be shipped in vast quantities from Mexico through El Paso to Amarillo, where it will be smelted and then re-shipped to Galveston for exportation. This will be made possible by better rail facilities from Northern Mexico to Amarillo, then to Tampico and the petroleum and gas development of the Amarillo section. Although the distance is greater from the zinc and lead fields via Amarillo, this is offset by the cheapness and abundance of fuel and by the faster facilities for delivery at shipside at Galveston. Vice president Houghton of the Santa Fe says: "We are working on the matter and I have not the slightest doubt that it will go through." Railroad officials are notably slow to talk until they know exactly what they are saying.

**AMARILLO HELIUM PLANT.**—The Bureau of Mines has closed a contract for operating a helium extraction plant at Amarillo, using as fuel natural gas from the Potter county field. This helium will be available in the near future for a supply for the operation of airships. Producing helium in a pure state involves the reduction of the temperature of natural gas to 200 degrees below zero by use of methods developed for production of liquid air. At this temperature the only gas remaining is the helium product, the other constituents having become liquid. When drawn off the helium is stored under high compression in steel cylinders.

**HELPING BUS BUSINESS.**—On an uncontested application before the railroad commission, Texas railroads have been allowed to increase the rates to parties of 25 and over from one and a third fare for the round trip to one and a half fare. This should be pleasing news to bus operators and to the manufacturers engaged in selling large busses to schools and ball teams of various kinds.

**SOUTH TEXAS BULLETIN.**—The South Texas chamber of commerce has found it necessary to so enlarge its bulletin that it sends out to member chambers of commerce and other interested parties that it is now being printed instead of mimeographed. In its new form, the bulletin not only contains much more matter of an interesting kind, but it is far more attractive.

**SCHUMANN-HEINK'S GIFT.**—Nearly every Texan Legionnaire knows Madame Schumann-Heink, the noted singer, lovingly called "Mother" by them. "Mother Schumann-Heink" has given her \$200,000 estate in San Diego county, California, to be used as a haven for sick and disabled veterans and their families. In making the gift, she said that it was to show her love for the "boys" who played "taps" for her two sons who lost their lives in the World War, one fighting for Germany and the other for America. Every veteran of the World War will appreciate the tender and genuine sentiment that prompted this gift.

**LEADING LEGION RACE.**—In the national race for American Legion membership in advance of the national meeting at San Antonio, Texas is leading the other states so far, with 23,000 members. This is 100 per cent greater than last year at this time. Wisconsin is second in membership.

**PERSISTENCY REWARDED.**—Persistent effort nearly always pays reward, even though it may be in a good cause. Two men recently escaped from the county jail by cutting a through an eight inch concrete wall with spoons. It is believed that they were several months in the hole. When their efforts persistency is most valuable quality.

# CANADA RUSHING AID TO BREMEN

## Highway 23 Is on Road Program

### PEOPLE ASKED TO DONATE THE RIGHT-OF-WAYS

The widening and retopping of highway 23 from Cisco to Rising Star is included in the program for the improvement of Eastland county roads, Commissioner Birt Britain said Saturday. The highway commission has announced that it would furnish state aid for the improvement of the roads provided Eastland county would obtain the necessary increase in right-of-way. The commission must have an answer by April 24. It wants to begin the work at the earliest possible moment. "The desired width for all highways, except the Bankhead, is 80 feet," Commissioner Britain said. "The width for the Bankhead is 100 feet. This matter should not be delayed. If Eastland county is to secure this aid and road improvement much of the land for increased right-of-way must be donated. Or rather it must be considered as an investment by the land holders." The improvement on highway 23 will begin at Rising Star, go through Romney and into Cisco. It will be topped with permanent material. Eighteen inch curbs will be placed at each side of the parking.

"The commissioners are appealing to the loyalty of Eastland county people to make this improvement possible," Commissioner Britain said. "This is an opportunity for Eastland county to obtain a first-class system of roads. There is no county funds to pay for right-of-ways." The Cisco chamber of commerce is cooperating with the court in meeting the terms of the highway commission. The court has obtained the services of A. F. Taylor, who will obtain the necessary right-of-ways. The Cisco chamber has employed Walter Ray to work with him. Various committees are also working with Mr. Taylor.

**ONE ARREST MADE IN MILAN BOMB OUTRAGE**  
ROME, April 14.—An important arrest has been made in connection with the Milan bomb outrage where many persons were killed in supposed attempt on the life of King Victor Emmanuel. Romeo Tranquilla was arrested at Como today with map showing spot where bomb exploded in his possession.

**WARDLAW OPENS CAMPAIGN AT CENTER, TEXAS**  
CENTER, Texas, April 14.—More than 6,000 persons heard Louis J. Wardlaw open his campaign for the governorship here today. Mr. Wardlaw stressed economy in government and promised if elected to reduce state expenses.

**For Vice-President**  
Mrs. Meta L. Berger of Milwaukie, wife of the Socialist Congressman Victor Berger, is being boomed for the vice-presidential nomination on the Socialist ticket.

### Earthquake Kills Several Persons; Inflicts Damage

LONDON, April 14.—Several persons were killed in a severe earthquake in Ishiklar, Bulgaria Saturday an exchange from Vienna says. Considerable property damage was done.

### APPOINTMENTS OF MISS RAMEY FOR NEXT WEEK

Miss Ruth Ramey, county demonstration agent, and Miss Helen Smith, district demonstration agent, on their return Saturday from Rising Star, where they attended the meeting of the County Council of Women's clubs, announced her work for the coming week. "The County Council was held at the North Star club room, at the home of Mrs. Lee Burkhead, near Rising Star," Miss Ramey said. "These meetings are held regularly once each month, and some contest is always staged. Saturday the contest was in button-hole making, and a nice crowd was in attendance, considering the inclemency of the weather. Miss Swift was with me at this meeting, as she arrived Thursday, and has been a wonderful inspiration to the club women and girls, since her arrival." Miss Ramey announced the following program for the coming week: Monday, with the Elm club; Tuesday, with the Rising Star club; Wednesday, with the Brooks club; Thursday, with the Nimrod club; Friday with the New Hope club.

### SCOUT TROOP NO. 2 WENT ON HIKE FRIDAY

Troop No. 2, Cisco Boy Scouts, enjoyed a pleasant outing at Pop Rock hill, just west of the city, Friday evening. The troop hiked to that point in charge of Scoutmaster Maddox and Assistant Scoutmaster Russell. Arriving at their destination the scouts passed the time in playing games—follow the leader, baseball, relay races. After the games all had ravenous appetites for the wieners roast that was served. After refreshments the scouts returned to their games—antelope race, capture the flag, chain tag—closing the outing with the Scout closing ceremony. The team under Assistant Scoutmaster Russell were winners in the baseball game. Scouts in the party were Jack Burleson, Haywood Kinsey, Leonard Latch, Kedar Miller, Clendon Peiffer, Rayford Richardson, Mark Stamps, Jr., George Taylor, Turner Van Eman, Charles Shepard, and Judson Russell, a prospective scout.

### CISCO PARTY RETURN FROM WASHINGTON

The points for the teams stood as follows: Cisco, 38; Stephenville, 19; Strawn, 18; Mineral Wells, 17; Breckenridge, 16; Ranger, 15; Eastland, 12; Desdemona, 8; Caddo, 7; Rising Star, 5; Gordon, 2; Bunion, 2. A list of the winners in the events follows: Pole vault—1, Lovera, Strawn; 2, Commons, Breckenridge; 3, Brown, Gordon; 4, Carey, Breckenridge; 9 feet, 6 inches. Broad jump—1, Tully, Ranger; 2, Keyes, Cisco; 3, Lovera, Strawn; 4, Rogers, Mineral Wells; 19 feet and 6 inches. Discus throw—1, Smith, Mineral Wells; 2, Downing, Breckenridge; 3, T. Human, Ranger; 4, Black, Desdemona. Distance, 115 feet and 6 inches. Shot put—1, Hollar, Cisco; 2, Smith, Mineral Wells; 3, Black,

### CHIMPANZEE CARVING WINS PLACE

Miss Peggy Reid, 16-year-old high school student, is the first youngster of school age to gain a place at the National Academy of Design Sculpture exhibition. Her carving of a chimpanzee shown above brought her the honor.

### Lobo Team Wins Interscholastic District Track-Field Events at John Tarleton College Saturday

Weather, suitable for sports of the indoor variety only, prevailed Saturday, but the district track and field meet was run off according to schedule at the John Tarleton college at Stephenville, and the Lobos won by making a total of 23 points. This total is very low, but the Lobos were minus several of the men who qualified for the district meet by placing in the county meet. Staton, Little, Kellogg and Smith were not able to participate. Stovall, captain of the Lobo team, was hurt, but ran a pretty race to win the quarter mile, and then ran as anchor-man on the Lobo relay team. Bryan and Stovall ran a thrilling race to win the relay for the first time in years. Ranger had the relay cup as a result of their victory in that event last year. The cup becomes the permanent property of the team that wins it three times. Ranger had won the cup twice, and made a desperate attempt to win it Saturday but H. Pippin, Keyes, and Stovall ran a thrilling race to cop the event. Bryan won first in the half-mile run and finished the Lobo relay team with a lead after taking the baton several yards behind the leading team. Keyes won second in the board jump, fourth in the quarter and third in the javelin throw, besides running on the relay team. Ezrell won third place in the mile run. Frost Hollar won the shot put with a heave of 42 feet and 5 1/2 inches. The points in the meet were scattered among several teams. The competition was keen and the usual thing of one or two teams piling a huge total was lacking.

**Cisco Leads With 28 Points**  
The points for the teams stood as follows: Cisco, 28; Stephenville, 19; Strawn, 18; Mineral Wells, 17; Breckenridge, 16; Ranger, 15; Eastland, 12; Desdemona, 8; Caddo, 7; Rising Star, 5; Gordon, 2; Bunion, 2. A list of the winners in the events follows: Pole vault—1, Lovera, Strawn; 2, Commons, Breckenridge; 3, Brown, Gordon; 4, Carey, Breckenridge; 9 feet, 6 inches. Broad jump—1, Tully, Ranger; 2, Keyes, Cisco; 3, Lovera, Strawn; 4, Rogers, Mineral Wells; 19 feet and 6 inches. Discus throw—1, Smith, Mineral Wells; 2, Downing, Breckenridge; 3, T. Human, Ranger; 4, Black, Desdemona. Distance, 115 feet and 6 inches. Shot put—1, Hollar, Cisco; 2, Smith, Mineral Wells; 3, Black,

### Round-The-World Jaunt is Ended By French Aces

PARIS, April 14.—The French aces, Dieudonne Costes and Joseph Lebris, completed their around-the-world journey by air and steamer this evening when they landed at 6:10 o'clock after crossing the Pacific to Japan by boat. They flew to France by stages. Ten thousand persons were on hand to give them an ovation when they landed at the air field.

### MOORE'S DAIRY RECORD SHOWN SCRANTON FOLK

Considerable interest was manifested in the first sweet cream route to be established out of Cisco, which will begin operation Friday, April 20, when thirty-one farmers and members of their families were present at the community meeting at Scranton Friday night. The route will pass through Scranton community where a number of farmers are buying separators and otherwise getting ready to sell sweet cream. Several of those present expressed the opinion that this route, which will provide a year-around market for sweet cream at 10 cents per pound above the sour cream price, as quoted in the daily papers, will be well patronized. M. W. Holland, field editor of Farm and Ranch, spoke on some of our economic ills, pointing out the record of W. M. Moore, a Dallas county farmer, whose income for the past year was about \$9,000 from a 200 acre farm. Charts were exhibited showing some of Moore's per hour income from each crop. Mr. Holland stressed the necessity of figuring incomes from farms by the per-hour method, and utilizing as many days of labor as possible during the year. His figures show that the average Texas farmer, in the black land district of Central Texas, works only 150 days, which, along with too much cotton and too little feed, is responsible for their present financial condition. Others on program were County Agent J. C. Patterson, Home Demonstration Agent Miss Ruth Ramey, Miss Helen Smith, district home demonstration agent, Miss Viola McKenzie, home demonstration agent of Stephens county; George W. Briggs, secretary Eastland chamber of commerce; R. L. Poe and E. H. Varnell, of Cisco.

### STATE DEPUTY VISITED LOCAL PYTHIAN LODGE

Cisco Lodge, No. 196, Knights of Pythias, was visited at the meeting Friday night at their castle hall by Judge John W. Mackey, special deputy grand chancellor of Texas. At this meeting the second rank was conferred on candidates, when a large number of the knights were present. Judge Mackey said he found the lodge in a fairly prosperous condition, with much enthusiasm manifest among those attending, but hardly as active as he would like to see it. "However, there was some indications that more interest in the lodge is being taken since my last visit to Cisco," he stated. Judge Mackey said he had recently visited the Breckenridge lodge, where he found a live, working bunch. "Breckenridge is in the race for the 1929 meeting of the grand lodge, and matters look favorable for that town being named at the next meeting of the grand lodge at Austin May 8 to 9." "Those present at the meeting of Cisco lodge Friday night informally endorsed Breckenridge for the meet," he concluded. The deputy grand chancellor will visit the Strawn lodge next, which he stated would probably be recognized.

### While Fast Boat Forces Its Way Through Icy St. Lawrence, U. S. Ace Hops From Quebec in Snow

MONTREAL, April 14.—Crashing through the ice in the Gulf of St. Lawrence on its mission of rescue, the Canadian government boat, Montcalm, was more than half way this afternoon to Greenly Island, Labrador, where the trans-Atlantic flyers and the Junkers plane, Bremen, are stranded. The Montcalm was expected to complete the 280 mile voyage early Sunday. The ice-breaker plans to bring the German-Irish trio of airmen out of their isolation to a waiting world sometime Monday. While the Montcalm was fighting the ice in the gulf, Duke Schiller, Detroit aviation ace, was staying his way to the isolated flyers. He was flying through heavy snow. He took off from Quebec. Schiller is in a Fokker flying boat belonging to the Canadian Trans-continental airway. He took off near noon today.

### Lindy's Plane is Forced Down on Arizona Highway

WILLIAM, Ariz., April 14.—Giving the slip to a crowd that had gathered to see his new monoplane, Col. Charles Lindbergh flew away from here only to bring his plane down on the Grand Canyon highway, six miles from here. His new plane had encountered propeller trouble and he took this means of escaping the crowd while he waited for a repair crew.

### CISCO FIRST IN CHORAL CLUB SINGING MEET

Cisco is preparing to extend a most cordial greeting to the delegates on the arrival of the Broadway of America motorcade here Monday afternoon, when local people planning to make the trip to the big transcontinental railway convention will join the motorcade and proceed to Memphis. Owing to the limited time the motorcade will be in Cisco it will be impossible to extend the delegates the usual Cisco welcome, but the entertainment committee, named by the directors of the chamber of commerce, requests every person who can leave home to be down town in the afternoon to greet our visitors, and spend them on their journey to the most important meeting of the kind ever held in the South. The committee will distribute descriptive matter among the delegates, telling of some of the interesting matters of Cisco, including Lake Cisco, Williamson dam, the state fish hatchery, Humbletown, the most pretentious and best arranged oil camp in Texas, and Cisco, the center of the greatest shallow oil field of the world, while the Lobo band will furnish music during their stay. At least one car will join the motorcade at Cisco. J. M. Williamson will head the Cisco party, accompanied by Judge Eugene Lankford, J. T. Elliott and J. E. T. Peters. Arriving with the party will be the Baird delegation, including Judge B. L. Russell, Col. T. E. Powell, Bob Norrell and H. O. Tatum. Delegates from Clyde will also be in the party.

### MEMORIAL HE RATLIFF WILL BE TRIED ON SECOND COUNT

Marshall Ratliff, under sentence of death for the murder of G. E. Bedford, will go to trial April 23 at Anson for the murder of G. W. Carmichael. Both men were killed Dec. 23 during the hold up of the First National bank. Ratliff is also under sentence of 99 years in the penitentiary for robbery with firearms. He will appeal the death sentence. Notice of the appeal was given Friday when his motion for a new trial was denied by Judge W. R. Chapman of the 104th district court and Judge George L. Daverson of the 91st district court at Abilene who sat together on the case. According to Ratliff's attorneys, Lee Cearley of Cisco and J. K. Baker of Coleman, the appeal will be based upon 18 errors before the trial court. "The defense will contend that the county attorneys made an improper argument, Cearley said. DELEGATES TO STATE SUNDAY SCHOOL MEET TO BE CHOSEN

Delegates to the State Baptist Sunday School convention to be held at Corsicana next week will be named Sunday morning at the First Baptist church. Rev. A. C. Miller, the pastor, said a representative from every department of the Sunday school would be sent if possible. The convention opens on Tuesday and lasts through Thursday. It is announced that Corsicana has made preparations to care for a large crowd. Many prominent Southern Baptists are on the program, which is said to be one of the best ever prepared for a Sunday school convention.

### Safe at Home

Miss Edna May Wilbur, daughter of the Secretary of the Navy, who returns to her teaching post after being rescued from a narrow ledge 2,000 feet above the Yosemite Valley.

The News is on sale afternoons and Sunday mornings as follows: Cross Plains: City Drug store, Smith Drug Store. Rising Star: City Drug store. Obituaries and Cards of Thanks, 10c per line; classified, 2c per word.

"There are six things Jehovah hateth; yea, seven are an abomination unto him: haughty eyes, a lying tongue, and hands that shed innocent blood; a heart that deviseth wicked purposes, feet that are swift in running to mischief, a false witness that uttereth lies, and he that soweth discord among brethren."—Prov. 6:16-19.

COURTROOM EFFICIENCY

A remarkable thing happened in the beginning of the new trial of Harry F. Sinclair, in Washington, in the Teapot Dome case. It is a thing full of hope for American courts. The public expected the usual delay over impaneling a jury, with the lawyers on both sides using their challenges lavishly, engaging in acrimonious argument, emphasizing unimportant technicalities, jockeying for every imaginable advantage, obstructing progress and wasting time according to the usual procedure in hard-fought cases. There was none of that. The judge quietly took matters into his own hands, questioning prospective jurors and choosing the jury himself, and silencing the disputatious lawyers every time they showed signs of obstruction and eloquence. As a result, a jury was obtained from the first panel of 64 men, and it took only three hours and five minutes to obtain it. From all indications, the trial will proceed to its end ay, in so far as the judge is a conspicuous example of public justice the same procedure that would be used as an example, too, of the he chooses to use it. Our n with evils, most of which gal profession, because it could remedy them. Judges nd, without any new legislate and simplify court prote justice. The bar, through t and ethics of its membership, could accomplish a

invented a way to make oud, which seems unnecessary now. Books should keep

IN FOGS

is said to have been suctors at the Farman factory possible for flyers to land safely in the dark or in a dense fog. It is only necessary for the aviator to know that the ground beneath him is safe for landing. The Farman head pilot who first used the device in actual flight sat in a dark fuselage, circled up to 1,000 yards, then dropped quickly until his instruments warned him that he was near the ground. He rose and dropped several times, testing them further, then made a safe landing, all without seeing the landing place. The new instruments registered at all times the exact height. It is said that with this instrument Commander Byrd's expedition could have made a safe landing instead of crashing in the sea. There remains the little matter of knowing the ground beneath is safe for landing; but that, too, will probably be worked out some time. Meanwhile, one more victory has been achieved over darkness, rain and fog, those perils which have baffled many brave and skillful flyers in the past.

CENTRAL-AMERICAN TROY

T. A. Willard, the storage battery man, has been studying and supporting Mayan archeology for 28 years, and has written a book about it. Now he has struck a new lead and is going to write another book. Apparently it is to be a sort of Iliad in prose. He has gathered a Helen-of-Troy tale from the manuscripts of the Tiger Priests, supposedly duplicates of the ancient records the Spaniards destroyed. According to those old chronicles the Maya nation, with its proud capital at Chichen-Itza, fought a great war over a woman, and thence dated its downfall. It sounds much like the famous Helen story. That may have been the case. But any fair-minded person who has been around a bit, in life and history, will have noticed man's incurable disposition to blame his misfortune on woman. Mayan downfall might also have been caused, to some extent, by a form of religious worship which consisted largely in throwing girls into a "sacred well" for crocodiles to eat.

SHORT DINNERS

Americans who like to eat and run will be encouraged by the news from Mayfair, London. Dinners are to be shorter. Fashionable hostesses agree to

that, by way of reacting from dinners so long as to leave no time for dancing. One used to go to a dinner to dine. Now, it seems, one goes to a dinner to dance. Or to hear speeches. Or maybe have a little card game afterwards. This London change is harking back to blunt King Edward, who was a bon vivant but nevertheless refused to sit at a dinner table longer than one hour. An hour really ought to be enough to eat a meal. People who can eat longer than that probably eat more than is good for them. Or they are wearied by hard chairs and the long-continued strain of dining-room manners. It's all right if there is good talk. But good conversation is rather rare nowadays. Good speeches, with good cigars, are something else. People pretend to be bored with sitting around a table listening to oratory, but mostly they really like it. At least, the middle-aged do.

Personal Opinions

By W. H. ALBURN.

FLOWING GOLD.

The boom in stocks is spreading far. American prosperity is the cause. American money is not only flowing in a vast stream into the national roulette game on Lower Manhattan, but is spilling over into London and Paris, and may yet flood the stock exchanges of all the world. As our surplus funds flow into foreign investment and speculation, foreign security prices naturally rise. In Germany the tendency is increased by expectation of large American payments for alien property seized during the war.

Our wealth may end by watering and fertilizing foreign business generally, so that all mankind will rise up and bless us. Or it may lead to evil inflation and subsequent reaction, getting us in worse than ever.

PUBLIC SMOKING.

A branch of the W. C. T. U. is getting after public smoking. It sends this letter to its council: "Believing smoking in restaurants is a greater nuisance than it is in trains, street cars and other public places where it has been prohibited, we respectfully request the passage of an ordinance forbidding smoking in public restaurants."

Smoking in restaurants is often a nuisance. So is smoking in homes. And the extent to which this peculiar indulgence is carried is sometimes a nuisance even in a Pullman smoking room. But the women in this case are engaged in a futile reform. They might better concentrate their efforts on bootleg liquor in the home.

LUMBER SLOGAN.

"Certified by centuries of Service" is the slogan for which the National Lumber Manufacturers' association paid \$5,000. And if you ask this writer, it isn't worth the money. Why? Too long. And it doesn't explain itself. Alone, it means nothing. The second prize of \$2,000 was awarded for the slogan, "Wood: Use It; Nature Renews It." That's awkward, but it does mean something. And it makes people think about wood.

It may make some think in a contrary direction, though. Does nature, today, renew the timber that we are using up in this country? Or will it, if the lumber men sell all they want to? Every industry naturally wants to do all the business it can. But while the lumber dealers are dressing the selling end, who is taking care of the other end, and making sure of preserving the nation's remaining timber resources? Medford, Mass., reports a man-hole cover stolen. Somebody must have needed a spare tire.—Philadelphia Bulletin.

LIVING BY PRAYER.

Miss Catherine Conley of New York, who boasts of 104 years, has earned her living by prayer for 60 years. She prays not for herself but for others. Or, possibly just a little prayer now and then for others to order her prayers, but no more. And she says she has had remarkable suc-

cess. The beneficiaries pay her small fees.

"I've prayed for women who wanted good husbands," she says. "For people to get jobs as cooks, and for others to become well. I've prayed, in fact, for about every thing under the sun. But I can't do much now, because I can't get up at 6 o'clock in the morning any longer."

The early prayer, one might infer, is like the early bird, though modern psychology upholds the lay practice of praying at bedtime.

ROYAL GRATITUDE.

Mayor Laughlin of Niagara Falls displayed unusual gallantry in action when Queen Marie of Romania was touring this country. There was a more or less public breakfast given the queen at the Falls, and attended by many leading citizens, without any clear understanding as to who should foot the bill. When the city council balked at paying it, Mayor Laughlin promptly paid it out of his own pocket, avoiding embarrassment alike for his city and the queen.

There is a pleasant echo of that gracious act in the mayor's receipt of a decoration conferred on him by the late King Ferdinand. Evidently the Queen heard about it, and told the King, and so the mayor's good deed returns to him after many days. The lesson will not be lost. Our democratic Americans hereafter will be all the more eager to spend money on visiting royalty.

OTHER EDITORS.

Remember girls, in seeking your model husband, there are two oil Bluffs Nonpariel. Now is the time for a good Red Menace or something, to come to the aid of the party with a domestic oil scandal on its hands.—Detroit News.

The Dominion Bureau of Statistics has announced that American tourists spent \$15,771,000 in Canada last year, and even Pussycat Johnson would have to admit there aren't that many post cards in Canada.—New York Evening Post.

The Bishop of St. Albans is needlessly alarmed, we feel, over the possibility that television will invade the privacy of his bathroom. While tastes at their present level there will be little or no public for bathing husbands.—The New Yorker.

Well, we see the federal Prohibition bureau is already sending trusted men to Kansas City and Houston to prepare to protect, if possible, the great political conventions that are going to declare for strict-law observance and enforcement from patronizing the bootleggers.—Ohio State Journal.

A Democrat's idea of good prospects of winning in a presidential year is a ghost of a chance.—Ohio State Journal.

Two Executed For Brutal Murder of Russian Woman

KNIAJEVO, Siberia, April 14.—Two of eleven youthful hooligans from 16 to 20 years of age have been executed by a firing squad for the brutal criminal assault on a woman. The other nine rowdies were sentenced to from three to ten years imprisonment at hard labor. The youth confessed to waylaying the 45-year-old wife of a peasant on a lonely road soon after dark as she was walking to Kniajevo village with a pail of milk. She was bound and gagged, and after the attack thrown into a snow bank by the side of the road. Her husband found her two hours later when he started search with a neighbor fearing foul play.

ALBANY MAYOR VISITS DALLAS, MCARTY SAYS

Richard McCarty, editor of the Albany News, tells the following story of the visit to Dallas by Albany's mayor. "Mayor G. B. King and Judge Tom Blanton, Jr., made a trip down to Dallas this week, attending to court matters. After winding up of their business, just like country boys they sallied forth to see the sights in the city, and while tramping up and down the great white way, accidentally Mayor G. B. King while looking up at the skyscrapers stepped on a nail, same piercing his foot, shoe leather and all, making a pretty bad wound, so the Mayor is confined to his home, and will be for a few days nursing his sore foot. "Funny about country boys, it's easy to get 'em out of the country, but mighty hard to get the country out of the boy, the blandishment of Main street, the great passing throng, the whistle of the traffic cop, the jangle of the street cars, white lights, show windows, pretty city maids obscure their vision, and they fall to watch their step, hence rusty nails find an easy victim. Seriously, we do hope that Mayor King will get along all right, and will be back on the job soon, working at the law business and passing judgment on the derelects."

## West Ward School Building to Be Abandoned at Once

### Pupils to Report to Building Monday to Be Given Quarters; Old Edifice Must be Replaced

The West Ward school building will be abandoned at once. This was decided at a meeting of the school board Friday night. Pupils will report at the school Monday and be assigned to quarters elsewhere.

At the meeting the following were present: F. D. Wright, W. J. Armstrong, J. E. Spencer, W. W. Wallace, Dr. F. E. Clark and H. H. Drumwright, trustees; J. J. Youngblood, superintendent; and S. J. Vaughan, secretary. R. S. Glenn, architect, and W. W. Johnston, building contractor, were visitors.

The board discussed at length the recent report of E. S. McCoy, state building inspector, who condemned the building as unsafe. Mr. McCoy recommended that the building be abandoned for school purposes after the present school term, but it was the decision of the board at last night's meeting not to wait until the end of the school term, but to do it now.

The action of Dr. F. E. Clark, which was seconded by W. J. Armstrong, that the building be abandoned as a school house, and that the matter of providing class rooms in the other buildings be left in the hands of Superintendent Youngblood, who was authorized to make the necessary repairs and alterations to take care of the school.

Mr. Youngblood stated that to accommodate all the grades of the West Ward school it will be necessary to double some of the lower grades and have the classes in Y-relays. He stated by commencing an hour earlier those having morning relays, could complete the day's work by 12:30; those taking the afternoon relays could take up the work at 1:30, and complete the work quite a while before sundown. These details were left for Mr. Youngblood to work out.

No decision was reached regarding the building plans of the board, as President Wright stated that it was a matter that each of the trustees should give careful thought, as well as seek the advice and counsel of those capable of throwing any light on the subject. But it could be seen that every member of the board realized that it was absolutely necessary to rebuild the West Ward building, and none even considered repairing the structure. The statement was made that the board could not afford to permit the use of the building another day. Even to attempt to hold classes in that portion that was pronounced safe would demoralize the school, it was feared.

R. S. Glenn, architect, said that the building would be safe if torn down to the first floor. He said the salvage would amount to very little, probably \$5,000. None of these suggestions were considered, but will likely be gone into when it is decided to rebuild.

President Wright stated that he had not investigated the power of the district to issue additional bonds, but it was said that the property values of the district were ample to permit a bond issue sufficient to build, provided the rendition of property was what it should be. It was stated that the property values in the school district was less than \$7,000,000, while there was more than \$20,000,000 carried in fire insurance risks on property within the city limits of Cisco alone.

### ASTRONOMERS HUNT SKY FOR EIGHTH PLANET

CHICAGO, April 14.—Astronomers are training their telescopes upon the heavens in search of a new planet, believed to exist outside the orbit of the planet Neptune.

The fact that some mysterious force has pulled the planets Uranus, Neptune and Saturn from their normal orbits has led astronomers to believe that an undiscovered heavenly body is traveling through the skies relatively close to them.

An exhaustive search of certain portions of the sky has been made by Professor Edwin B. Frost of the Yerkes Observatory of the University of Chicago.

Every inch of space is being photographed with high powered lens and sensitized plates in an effort to find the new planet, if one exists.

Professor Frost is sustained in his belief by William H. Pickering, former Yale University professor, that such a planet, slightly smaller than the earth, exists near Neptune or Uranus. On the supposition that a planet may be found nearer the sun than Mercury, that area, too, is being photographed.

In an interview regarding the age old question of human life upon planets, Professor Frost pointed out that the general public has been misled. Human life can exist more properly on Venus than upon Mars, the earth's closest neighbor. Mercury is subject to rapid climatic changes that would test the hardiness of the "Earthians," but Venus, basking nearer the sun, would have a warm, moist climate, with a large rainfall.

Little is known of the planet Venus because its surface is usually covered with a heavy cloudy atmosphere through which telescopes have been unable to penetrate. But from what is known of its orbit and the physical properties of its soil, gleaned from spectroscopic analysis, it is believed life on it is on the earth could exist upon Venus without visible discomfort.

The new planet, if found, could not support human life, as its atmosphere would be thinner than that found at the highest altitudes attained by aviators here, and because of the intense cold which would approach close to the "absolute zero" many degrees below the coldest natural temperatures ever recorded upon the earth.

### SCENIC HIGHWAY PLANNED FOR BIG BEND COUNTRY

AUSTIN, April 14.—Plans are being made in the Big Bend country for a drive to secure a scenic driveway along the Rio Grande river in Presidio and Brewster counties, which could include all of the big bend of the river.

The Alpine chamber of commerce is backing the proposal, and the highway department has been "approached" to sound out the commission's attitude toward helping finance such a project.

### WE WILL PLANT YARDS

And guarantee everything to grow. This can be done by new planting process. Shrubs in bloom can thus be transplanted. Ask about it. Cisco Floral Nursery Co. 40143

### EASTLAND GUN CLUB RESUMES WEEKLY SHOOT

EASTLAND, April 14.—James Horton registered highest score man in singles and tied W. A. Martin for high score in doubles at the Eastland gun club weekly shoot Wednesday afternoon. Pete Parker shot second in singles and Coley Harrell came second in doubles. Forty-three and 42 high scores in singles and 22 and 21 were high scores in doubles.

Attendance at the club's weekly shoots is increasing with each event and along with the increase in attendance is an increase in interest. Just as soon as the members have had time to get a little more practice some contest shooting is to be arranged. The membership in the Eastland club includes some of the best shots in the state, in fact a number of them have carried off state and district honors on more than one occasion. Following are the scores for Wednesday's event:

50 targets—James Horton, 43; "Coley" Harrell, 37; "Len" Hightower, 41; "Pete" Parker, 42; Curtis Kimbrell, 38; Gold, 38; Airey Bundy, 38; Horace Oldham, 39; Harvey, 19; W. A. Martin, 41.

24 targets—W. A. Martin, 22; Cottingham, 14; "Len" Hightower, 20; "Coley" Harrell, 21; James Horton, 22; Gold, 14; Curtis Kimbrell, 11.

### PUBLIC RECORDS

EASTLAND, April 14.—The following instruments have been filed for record in the county clerk's office:

Assignment, F. E. Rose to Ind. Oil & Gas Co., part of Washington Mitchell survey, \$10.

Assignment, Warren F. George to Lone Star Gas Co., lot 10, league 2, McLennan county school land, \$1.

Abstract of judgment, Pike Kramer vs. Robert D. Gordon, \$578.52.

Warranty deed, C. M. Van Geen et al to Charles Kellum, part of block E-2, Eastland.

Assignment, C. M. Van Geen to National Bond and Mortgage Corp., see deed records, \$1,000.

Assignment, W. E. Burke to U. W. Mills & Co., see orig. inst., part of blocks 8, 5, 9, 4, 13, 14 and 12, Hodges Oak Park addition to Ranger, \$1.

Warranty deed, B. B. Lonsacre et ux to I. A. Haley, lot 7, Tebb's & Neal's subdivision, lot 1, block 107, Cisco, \$3,100.

Warranty deed, O. W. Roderick et al to R. W. Edwards, southeast quarter section 34, block 2, E. T. Ry Co. survey, \$2,240.

Deed of trust, R. W. Mancell et ux to R. Q. Lee, lot 5, block 45, Cisco, \$5,000.

Release of judgment, Waples-Platter Grocery Co. to B. W. Martin, see judgment records, \$57.07.

Deed, O. W. Roderick et al to R. W. Edwards, southeast quarter of section 34, block 2, E. T. Ry Co. survey, \$560.

### PARIS JURYMEN ASK FOR INCREASE IN PAY

PARIS, April 14.—Paris jurymen are contending that they deserve more than 40 cents a day for their labor. In a recent petition to President Flory, they assert that it is no longer possible for them to serve on the jury for a mere ten francs per day. This wage was set in 1920 and since that time all wages have increased at least threefold.

They argue that this law wage has a bad psychological effect upon them and prevents them from giving forth their best efforts to the cause of justice.

### TORNADO UNWELCOME VISITOR TO OKLAHOMA

The tremendous force of the tornado which wrecked these autos which were swept off struck Oklahoma City is graphically shown by the road into the river.

### DUCHESS, 62, WILL LEARN TO FLY

LONDON, April 14.—At the age of 62 the Duchess of Bedford, wife of the 11th Duke of Bedford, is

learning to fly. The duchess thinks flying is the most exhilarating of all sports, and has recently acquired a small airplane, which Captain Barnard, a famous civilian pilot, is teaching her to fly. She uses the front lawn of her husband's magnificent residence, Woburn Abbey, as a taking-off ground.

"For me," the Duchess says, "flying has been the thrill of a lifetime. There is none of the dust and dirt of ordinary traveling when you go by air."

Meredith & Grant, Ella Webb et al No. 6, section 67, University lands, Shackelford county, 230 feet south of the No. 5 well. Meredith & Grant, Ella Webb et al No. 7, section 67, University lands, Shackelford county, 300 feet east of No. 5. Tannehill, Kiser & Flemming, J. B. Matthews No. 2, section 27, T. E. L. survey, Shackelford county. R. J. Moberly No. 1, section 61, block 12, T. & P. survey, 520 feet from the south and west lines. Lees Combs et al Broyles et al Broyles estate No. 1, section 16, A. L. survey, Shackelford county, 150 feet from the north and west lines. T. R. Griffith and Jack Thurman, J. M. Cudington No. 1, section 1368, T. E. L. survey, Stephens county, 450 feet from the east line. Dixie company John E. Chesley No. 1, section 48, Robert A. Pace survey, Stephens county, 650 feet from the north and east lines.

Randolph Summer School To Begin In Cisco May 28

The summer session at Randolph college begins May 28 and will continue for six weeks, closing July 7. Below is the calendar: May 28—Registration. June 14-15—Mid-term examinations. July 4—Holiday. July 6-1—Final examinations. Classes will meet five days a week, each class being one hour and thirty minutes in length. A student may take six semester hours of work, which will count toward graduation of a teacher's certificate just as work done in the regular session. A full list of courses has not yet been made up. As far as the teaching force permits, all courses will be offered for which there is sufficient demand. Summer school has its advantages. Students who have failed in a course, or who for any reason have failed to make a full year's work, may attend summer school and make enough work to finish with their classes. Teachers who do not care to miss a year's teaching may attend summer school and take work to raise or renew their certificates, and at the same time be working toward their degrees. There are many such teachers in the vicinity of Cisco who could take advantage of this arrangement and live at home or be near enough that they might visit home over the week ends. Prospective teachers may take part of the work entitling them to a teacher's certificate. There are many who have some college credits, but not enough for a certificate, who will find it possible to take the necessary work during summer school and thus be in a position to teach next year. Work necessary to secure the diploma. Less Combs et al Broyles et al Broyles estate No. 1, section 16, A. L. survey, Shackelford county, 150 feet from the north and west lines. T. R. Griffith and Jack Thurman, J. M. Cudington No. 1, section 1368, T. E. L. survey, Stephens county, 450 feet from the east line. Dixie company John E. Chesley No. 1, section 48, Robert A. Pace survey, Stephens county, 650 feet from the north and east lines. Matriculation fee (for new students only), \$2.50. Tuition for term, \$25. One course only, \$15. Library fee, \$2. Room rent (6 weeks), \$10. Board (6 weeks), \$35. Those desiring additional information should write E. Buford Isaacs, dean and registrar.

COLEMAN AND BROWN CO. OIL DEVELOPMENT

BROWNWOOD, April 14.—Baker & Hodges have taken two 40-acre leases on the Eubanks farm, in the south extension of the Cross Cut field, with contract to drill a well on each. They are 1,400 feet south of the Cranfill & Reynolds well on the Eubanks, which was brought in about ten days ago. Cranfill & Reynolds are drilling their No. 1 Keller and their No. 2 Eubanks, offsets to their Eubanks No. 1. This well, which came in with a production of about 700 barrels daily, is now after ten days production making 400 barrels daily. C. H. Bailey and Ballard & Underwood have spudded in their No. 1 Lawson. They are 2,000 feet north of the Hickman pool in the Blake field, in which Gilman & McMurray and other operators have been bringing in good production lately. The Henshaw No. 8 Bush in the

Clark-Buffalo pool on the Jim Ned north of Thrifty has been completed for a 200 barrel producer. This makes three wells brought in by Henshaw in that field within the last week. Nos. 5 and 6 having been completed for a production of about 60 barrels each. Nos. 7 and 8 are drilling. The Henshaw No. 1 Cross, in the same field, is also drilling, offsetting the Baker & Hodges production on the Cross. The Henshaw No. 9 Bush is a north offset to the Baker & Hodges well. Baker & Hodges have spudded in their No. 2 Cross, west of their No. 1. The A. A. Cameron and Jones & Simon No. 1 Baker in Coleman county, about a mile from the Brown county line, is cleaning out and setting casing at 300 feet, with about 50 feet of cavings in the hole. The Sni-Locke Petroleum company and Wentz Oil corporation No. 1 A. E. Keeler, northeast of Thrifty and southeast of the Hutcheon-Curry pool, had 20 feet of good looking Fry sand at 1,050 feet. The sand had a good showing of oil and gas but went into water. The water has been shut off and the well will be drilled to 1,250 feet. It is felt sure that a commercial well will be made of it.

MANY DRUNKARDS CAUSES MOSCOW ALARM

MOSCOW, April 14.—The drunkard menace in the Soviet capital is assuming alarming proportions. An official report of that 75 per cent of the time and effort of the 4,000 cops is taken up by the endless process of arresting and hauling drunks to police stations. Six recuperating clinics have been ordered opened for alcoholics. About 300 persons either unconscious or violent from liquor, can be handled at one time, thus relieving the police station of an enormous amount of work. On payment of fine of from 2 to 5 rubles drunks will be given medical treatment with baths, massages and oxygen injections.

DEVELOPMENT PAST WEEK IN SHACKELFORD

ALBANY, April 14.—Many new completions the past week in Shackelford county are contained in the weekly scout report of development in this field. Several wells have been spudded and a number of new locations made, as revealed in the following report from the field: Tannehill Oil Co.'s J. B. Matthews No. 1, section 27, E. T. survey, produced in the first 12 hours after being drilled to 1190 feet, 450 barrels of oil. This well is a direct offset to the east of their discovery well in section 34 of the same survey. The sand was found at 1134 and the bit had not penetrated the formation when drilling was suspended. The same company's No. 2-34 Matthews, in the same section as their discovery well, has been completed and placed on pump. The well had an initial production of 170 barrels at 1133 feet, the total depth of the hole. The sand was picked up at 1144 feet. The Matthews No. 1-33, section 33 of the E. T. survey, is drilling at 745 feet. The Amerada Petroleum corporation has completed its Alexander No. 1, section 2, block 14, T. & P. survey, for a 30 barrel well. Frank Dugue has completed his J. B. Matthews No. 1, section 29, T. & P. survey, for a 100 barrel well at 1192 feet. Hope Petroleum company R. A. Davis No. 10, has been completed as a 70 barrel well at 1307 feet from a sand between 1490

and 1502. Roeser & Pendleton Cook B-6-64, section 61, E. T. survey, was completed at 1363 feet for 42 barrels from a sand between 1352 and 1360 feet. Sentinel Oil company E. L. Anderson No. 1, section 63, L. A. L. survey, has been completed after a shot of five quarts between 737 and 747 for eight barrels, on pump. Skelley Oil company has completed their J. B. Matthews No. 2, section 24, E. T. survey, for an 80 barrel well. Production is accompanied by 20 barrels of water. Treat Oil & Gas company's Matthews No. 1, section 33 of the E. T. survey, has been completed for 100 barrels. Cattlet et al T. W. Alexander No. 1, section 580, T. E. L. survey, has been completed for an initial production of seven barrels from a sand between 897 and 907, the total depth of the hole. Costen et al Davis No. 2, section 13, block 12, T. & P. survey, has been completed for an initial production of 17 barrels from a sand between 1475 and 1485, the total depth of the hole. Davis No. 1 Shut Down Gilman & McMurray Davis No. 1, section 13, block 12, T. & P. survey, has been shut down for orders at 1189 after encountering a gas sand between 1484 feet, at that depth from which an estimated flow of two million cubic feet is obtained. J. P. Harris No. 2, Matthews, section 38, S. P. survey, will be placed on pump at 1027 feet; the well is standing 800 feet in oil. The formation was topped at 1021 feet. Phillips & DeWitt Davis No. 1, section 20, block 13, T. & P. survey, has shut down for orders at 1,800 feet, after passing a showing of oil in a sandy shale between 1,740 and 1,755 feet. Boehn et al Davis No. 1 is spudding. Callahan Nail No. 2, section 150, E. T. survey, is shut down for six inch casing at 1423

### Marine Musicians Will Publish Famous Drinking Songs that Have Lived with the Passing Years

WASHINGTON, April 14. — The world's most famous folk songs—drinking songs, or marching songs, as they are some times called—are to be collected and published by the marines.

Under orders issued by Major General John A. Le Jeune, chief leatherneck of the world's hardest boiled military service, the marine corps historical section has undertaken to preserve in its official archives the printable verse of the internationally known marine Hymn—

"From the halls of Montezuma to the coast of Tripolce, We fight the country's battle on land and on the sea."

Le Jeune has issued orders for the assembling of all the verses and version extant. An official document giving the history of the song since it was but four stanzas back in '93, is being compiled by Major T. C. Fegan, who has himself contributed a few sprightly ballads to the present galaxy of nearly half a hundred.

**Idea From Nicaragua**  
Le Jeune conceived this idea during his recent inspection trip in Nicaragua, where he heard the newest Sandinista variations of the old Gilbert and Sullivan tune from Iolanthe.

Fegan has gathered the ballad songs and snatches from marine corps veterans in all parts of the world. Among the collection are an outline history of the Chinese rebellion, dirt from Culebra Cut in Panama, geisha songs from the Bund, and the Devil Dog chats from Cantigny and Belleau Wood. Here also, allusions to the sang singsong air, the graphic flashes from the great mosquito offensive in Cuba and the sanitation fight in the swampy marches of the Caribbean tropics. Intermingled are the marines' reactions to the last of the head-hunters in the Philippines and the wanderer's bed time songs from the bleak and dismal steppes of Alaskan railroad days and the defense of Vladivostok.

Every clime and every campaign has enriched this vast unwritten history of marine tradition. The food they eat the clothes they wear are here appraised in the short and simple language men built for soldiers and then possessed by the spirit of adventure.

**Origin of Songs**  
The oldest marines, according to Fegan, remember the song first as having been somehow woven together by a balmy fellow in the Boston Navy Yard about 1893. In the beginning there were four verses.

Only four verses, the history goes on, were taken to China in 1900. But there, where American forces mingled with the troops of half a dozen powers, the song like the Little Recruit in Parlez Vous, grew and grew. The less effective Teutonic inflections were dropped from the German contributions when the forces returned to the states, but the pointed German sentiments remain in the text today in pristine simplicity and obviousness. So it was with the French—save possibly the obviousness.

Former Secretary of the Navy Daniels is immortalized in some of the 1915 verses for his celebrated General Order No. 99, which made the navy better dry over night.

Verse about the marine who lost his way one night in Port au Prince will not be printed, but there are indications that some cynic outside the service may make copies of them before they are officially destroyed.

### OIL CONCERNS TO CONSIDER CONSERVATION

AUSTIN, April 14.—Representatives of approximately 50 oil companies operating in the new Winkler county field will meet here Friday with the State railroad commission for a hearing on proposed rules to curb the reported waste and overproduction in the field.

The commission has been informed that there exists "extraordinary waste of crude petroleum and natural gas" in the Winkler field.

The Friday hearing is the outgrowth of a statewide conference on the oil situation in general and subsequent conference in which the situation was narrowed to the new field.

Proposed rules to be considered as a means of enforcing state oil and gas conservation laws include provisions for a strict check on each company's production by 15-day periods, and for division of each section into 40-acre tracts, each of which would have an allotted production by proration.

Other rules would prohibit operators from putting wells on air or gas lift, or "shooting" wells without approval.

### American Chair To Be Located London School

LONDON, April 14. — For the purpose of establishing a Chair of American History in the University of London, where a lectureship already exists, a London committee has been formed to cooperate with the committee formed in New York in 1926 in furtherance of the movement.

The object of the movement is to raise a capital sum of \$150,000 the income from which will be used for the salary of the professor and to some extent for the provision and maintenance of a library of American history in connection with the chair.

Lord Loch, well known in British literary circles, has been chairman of the committee.

### PLANE CRASHES ABROAD TAKE 12 LIVES IN WEEK

LONDON, April 14. — Aviation has started early this year to take its toll of human lives in Europe. Within one week, the most disastrous in the history of aeronautics, twelve lives were lost.

To this number Great Britain sacrificed three of her foremost and renowned air pioneers; the Hon. Elsie Mackay, beautiful daughter of one of the richest men in England; Captain W. G. R. Hinchliffe, a distinguished war and commercial pilot; and Flight Lieut. Kinhead, one of the most brilliant high-speed pilots in the world.

The Mackay-Hinchliffe was the most secretive and romantic in the history of aviation. For hours after they hopped off from an ice-coated flying field it was not known where they were heading.

For two days it was not confirmed that Miss Mackay was aboard the plane. Even Mrs. Hinchliffe did not know where her husband was going.

### Viscount's Daughter

Of middle height, dark and vivacious, and known to her friends as a woman of steel nerves, the Hon. Elsie Mackay was the third daughter of Viscount Incheape, the shipping magnate. She possessed everything a young woman could desire. One of the best dressed women and best dancers in London society, she was an expert horse-woman and had achieved fame in the English movie world, where she was known as Poppy Wyndham.

As for Hinchliffe, he was considered one of the most skilled pilots in the United Kingdom, and won fame during the war, when he fought his way through a squadron of enemy planes to destroy two observation balloons, behind the enemy's lines. He also took part in four successful attacks on enemy aerodromes, and was credited with destroying many enemy planes. During one battle his left eye was shot out by a machine gun bullet.

Imprisoned within the cockpit of the fastest flying machine in the world, Flight Lieut. Kinhead, dived to his death into the waters of the English Channel at a speed estimated to have been over 300 miles an hour.

### Air Force Ace

He was an "ace" in the Royal Flying Force, and it is believed that his death was due to the fumes from the fuel of his engine, which consisted of a mixture containing ethyl lead. It has been revealed that he complained of feeling sick during his "test" flights, and that he did not like the smell of the petrol fumes.

Among the other victims of air disasters during that fatal week were: four French aviators; five English airmen and one woman; one Australian. The woman was Lady Barbary, a distinguished aviatrix and pioneer of flying in East Africa. She was really an American woman, her husband having dropped his title in 1920, when he became an American citizen. She met death when her plane, in which she was instructing a friend crashed to the earth, killing both instantly.

See the New Summer Hats being shown for the first time. Mrs. Chas. Curry, at residence, 604 H Avenue 40-43

### "BABY MINE" IS "ONE BIG LAUGH"

Twins, triplets and a blueberry pie—a middest masquerading as a baby and two college boys in love—with trimmings—these are among the queer and heterogeneous elements that blend into one of the laughs of the season — "Baby Mine" — Metro-Goldwyn-Mayer's second Karl Dane-George K. Arthur co-starring play, now being shown at the Palace theater.

"Rookies" was a classic in comedy—but "Baby Mine" goes a few steps further in the gentle art of rib-tickling. For one thing, the team of Dane and Arthur—the "Big Bertha of Laughland" is augmented

by a hilarious howitzer, so to speak in the person of Charlotte Greenwood—she of the scissor-like nether appendages and the semaphore arms. It is the first appearance in pictures of the famous stage star of "So Long Letty," "Canary Cottage" and others. The lanky comedienne is a veritable riot of laughs.

### MRS. COOLIDGE LEAVES HER MOTHER'S BEDSIDE

WASHINGTON, April 14. — Mrs. Calvin Coolidge today returned to the White House following three weeks visit at the bedside of her mother, Mrs. Lemira Goodhue, Northampton, Mass. Mrs. Goodhue is reported better.

## EASTLAND NASH COMPANY

R. E. SIKES, Manager, Eastland, Texas.

# Fifty Farmers Attended Rising Star Dairy Meeting

## Body Went on Record as Favoring Early Establishment of a Cream Route; Meet Again Next Saturday

About 50 farmers of the Rising Star community attended a dairy meeting in that city Thursday afternoon, according to J. C. Patterson, county agent, who attended the meeting, together with Miss Helen Swift, district demonstration agent; Miss Ruth Ramey, county demonstration agent; E. H. Varrall, agricultural vocationalist, and E. T. Peters, secretary of the local chamber of commerce.

This meeting was held to take preliminary steps for the organization of a cream route, similar to a route recently formed to operate out of Cisco. A majority of those present favored the establishment of a route, provided it could be made profitable. Committees were named to consider the proposition and report back to another meeting next Saturday. Mr. Patterson said.

During the meeting talks were made by the demonstration agents and others. Miss Swift stated that she was greatly interested in dairying as dairying required less labor and was not only essential in keeping the milk and cream sweet and pure, but all manner of food materials were better kept, and that meant better living.

The district demonstrator came Thursday and remained in this county with Miss Ramey, for the remainder of the week.

"My work is now along and south of the Texas & Pacific road," Miss Swift said. "I am pleased with the wonderful work Miss Ramey is doing among the women and girls in Eastland county, where I notice there has been a great improvement. The work is most interesting for it makes producers instead of mere consumers of the girls."

See the New Summer Hats being shown for the first time. Mrs. Chas. Curry, at residence, 604 H avenue. 40-43

## PRAIRIE OIL EMPLOYEES GET SERVICE PINS

EASTLAND, April 14.—In appreciation of long tenure of service, the Prairie Oil & Gas company is presenting 350 veteran workers of that organization with service pins, 45 of which are jewels. The pins are very ornamental and such that any person should be proud to own even did they not carry a value independent of their intrinsic worth.

For 10 and 15 and 20 years of service, the company gives solid gold pins, having a sunflower in the center and a numeral indicating the years of service. The Prairie Oil & Gas company's names is around the margin. Above 20 years service the pin contains a ruby, above 25 years the pin contains an emerald, and above 30 years it contains a diamond. All employees receiving jewel pins are invited to Independence, Kansas, where they are to be guests at a banquet and the pins are handed to them. The service pins are sent to the recipients.

Three officials in the company's land department, headquarters at Eastland, received 10-year service pins. They are John M. Mouser, who in another year and a half will receive a 15-year pin; W. K. Jackson and E. D. Coady. In the producing department, headquarters at Ranger, three men received jewel pins for more than 20 years service. They are J. T. Gray, O. T. Glover, each 24 years, and J. H. Hinson 30 years. One man in the tankage department at Ranger, H. S. Copus, has been with the company 39 years and will receive dia-

## GANGSTER MUST PAY WITH LIFE

Charley Birger, former outlaw gang leader in Southern Illinois, moved another step nearer the gallows as his motion for a rehearing was denied by the Supreme Court at Springfield, Ill. mond jewel pin. Gray, Glover, Hinson and Copus left for Independence Friday to receive their pins.

**TERRELL ELECTION LAW HAS BEEN REVISED**

AUSTIN, April 14.—A revision and bringing down to date of the Terrell election law has just been completed by Assistant Attorneys General Galloway Calloun and H. Grady Chandler. Copies in pamphlet form are now ready for distribution to anyone desiring a copy, it was announced by Attorney General Claude Pollard.

The Terrell election law was written in 1905 by Judge A. W. Terrell, of Austin, then a member of the legislature. The first annotation in pamphlet form was made in 1914 and there has been on revisions since.

The new revised edition contains all amendments to the law adopted since 1914. It is for free distribution, provided 10 cents to cover cost of mailing is sent.

## GHOLSON'S NO. 1 JONES WELL IS FLOWING 200 BBL.

RANGER, April 14.—Flowing at the rate of 200 barrels a day, the Tom Jones No. 1, belonging to John M. Gholson et al, Ranger, today marked the most valuable addition to the Duffer pool in the past year. The well is located in the Duffer pool, about five miles southeast of Ranger. It is an offset to the Gulf Production company's well on the same lease, being 230 feet from the lease line and 780 feet from the Gulf well to the southeast. It also offsets the Gulf lease on the Jones on the east. The well was reported making around 200 barrels this morning from a depth of between 3,475 and 3,490 feet. It gives an extension to the southeast of the famous Duffer pool. The new well is the best producer southeast of this famous pool, and is the best producer that has been brought in since the four wells were drilled by Gholson and others on the Duffer lease.

## NEW PLANT WILL MAKE ICE FOR CROSS PLAINS

CROSS PLAINS, April 14.—The Texas Water Utility Co. has just completed a 30-ton ice plant here, with new and modern machinery and equipment throughout. They will start delivering ice from the plant this week. Barry Bros. Storage plant here and their ice factories at De Leon, Gorman, Rising Star and Comanche have been acquired by the Texas Water Utility company and the storage plant here will be used to handle cream through arrangements with Armour & Co. It is stated, Everett A. Roberts of Dallas is here as manager of the company's factory and properties.

**PARIS PROFESSOR, 59, ADVERTISES FOR WIFE**

PARIS, April 14.—A well known Parisian newspaper recently printed the following "marriage offer."

"Professor of ancient languages, mathematics and music, age 59, seeks young woman-teacher, not more than 25 years of age, able to establish a happy marriage and language institute. Kindly write addresses plainly. Signed 'Hippocrate X.'"

OF A SOCIAL NATURE

The Week's Calendar

Coming Events

Monday
Delphian club meets at the home of Mrs. S. E. Hittson.
The Priscilla club will be entertained at the home of Mrs. W. W. Moore. All members call the hostess for acceptance, please.

Wednesday
Humble Bridge club meets with Miss Mayme Davis at her home in Humboldt.

Thursday
The First Industrial Arts club will not meet this week.

Friday
Music Study club meets at the home of Mrs. H. V. Price in Humboldt.

Church Societies Meet Tuesday
The entire Missionary society of the First Methodist church will meet in a Missionary Voice program at 3 o'clock at the home of Mrs. G. P. Mitcham, 406 I avenue.

Circle Four of the Baptist W. M. S. will have charge of the Mission Study program at the church. All circles will meet at the church at 3 o'clock.

Mrs. Don Sivalls will be hostess to the Episcopal guild at her home on West Sixth street.

The First Christian church circles will meet as follows: Circle One will have a tacky party at the home of Mrs. W. S. Braye. Circle Two will meet at the home of Mrs. J. E. Carpenter, 208 East Fourteenth street. Circle Three will meet with Mrs. M. E. Holcomb, 401 West Ninth street. Circle Four will meet with Mrs. Truman Jacobs.

Delphian Club to Meet Monday Afternoon
The members of the Delphian club are urged to be present Monday afternoon at the home of Mrs. S. E. Hittson, 1012 West Twelfth street, with Mrs. J. H. West, hostess. A splendid program is being planned. Mrs. Ben McClinton will give the "Ed King" by Schubert. Webber Schumann and Schubert will be discussed during the program. This is hoped to be one of the most interesting programs of the year.

Entre Nous Bridge Club Meet Friday Afternoon
Mrs. J. D. Lauderdale entertained the members and guests of the Entre Nous Bridge club Friday afternoon at her home, 1005 West Sixth street. The rooms were made more attractive with a variety of cut flowers and pot plants. Mrs. Baby Miller was awarded the high score prize in the game. The hostess served dainty refreshments. The following guests: Mesdames Leon Maner, Nick Miller, Roy Huffmeyer, Paul Connally, G. B. Lundy, J. E. Carpenter, George Atkins, Baby Miller, W. J. Leach, Mrs. W. J. Leach will entertain the club at her home 1000 West Tenth street, April 28.

U. D. C. Chapter Met With Mrs. D. E. Waters
Mrs. D. E. Waters entertained the members of the U. D. C. chapter Friday afternoon at her home on West Fifteenth street. There were seven members answering to roll call. During the business session further plans were made in connection with beautifying the U. D. C. park. The U. D. C. chapter has in the last few months made a play ground at this park and has planted shrubbery and a variety of flowers, making it one of Cisco's most attractive parks. The remainder of the afternoon was devoted to the study of the lesson. During the social hour the hostess served angel food cake and ice cream to the following members: Mesdames W. F. Watson, Augusta Mason, W. P. Pulley, Price, F. M. Hooks, O. W. Shepherd, H. C. Dinkins of Terrell. The club adjourned to meet at the home of Mrs. W. P. Pulley, 405 West Second street, for their next regular meeting.

Mothers' Club Met Thursday Afternoon
The members of the Mothers' club met Thursday afternoon at the recreation hall in Humboldt, with the president, Mrs. Fred Moellendick, having charge of the regular business session. After dispensing with the business matters the following program on "Better Home Week" was given. Mrs. P. R. Warwick gave a splendid paper on "How to Make Your Home More Attractive." Mrs. Moellendick gave a paper on the following subjects combined: "Sketch Music, Reading Aloud, and Other Recreation." Mrs. J. F. West and Mrs. W. W. Wallace gave very interesting papers in connection with the subject "Better Home Week." There were nine members answering to roll call.

McDonald Hostess to Bridge Club
Mrs. Homer McDonald was hostess Thursday afternoon to the members of the 1920 Bridge club at home, 700 West Fifth street. Color scheme of green and red was carried out effectively with blossoms and fernery. Mrs. Afton Burke won the prize and Mrs. Leon Moellendick the consolation prize. The following were present: Mesdames

George P. Fee, A. E. Willis, Henry Drumwright, A. D. Anderson, Afton Burke, Belle Stamps, L. H. McCrea, C. B. Williams, L. A. Maner, A. C. Green, Nick Miller, Alex Spears, Jack Kelly, Hyler Lee, Oscar Cliett, M. C. Williamson.

Baptist Circle Met With Mrs. Kunkel
Circle Seven of the Baptist W. M. S. met at the home of Mrs. H. L. Kunkel Tuesday afternoon. The meeting was opened with a short prayer by Mrs. R. T. Porter. After the business meeting Mrs. J. R. Burnett taught the Bible lesson, which was taken from the book of First Chronicles. The hostess served dainty refreshments to 12 members, two guests and one new member. The circle adjourned to meet at the church Tuesday, April 17, in a Mission Study program. During the social hour Mrs. James Wright gave two vocal numbers and Miss Mattie Lee Kunkel gave a piano solo.

Eastern Star Study Club Met With Mrs. Sherman Roberts
Mrs. Sherman Roberts entertained the members of the Eastern Star Study club Friday afternoon at the home of her mother, Mrs. J. D. Barker, 208 West Ninth street. The meeting was called to order and several important business matters were disposed of. After spending several hours in the secret study of the order the hostess served dainty refreshments.

Twentieth Century Club Met Friday Afternoon
The Twentieth Century club met in regular session on Friday afternoon with the president presiding and 16 members responding to roll call. The course of study for the next year was discussed and the essay was chosen. This will be a most interesting subject as much material can be obtained. The chairman of applied education who is doing a splendid work among the negro children in cooperation with the teacher of the school, announced the winner of the medal offered for the best theme on "How to Make My Town More Beautiful." A report from the librarian of the public library, which is sponsored by the Twentieth Century club, was read. Much interest by the reading public was shown by this report. Cisco is to be favored with a visit from two Texas poets, Mr. and Mrs. Crowell, whose poems are now being widely read and appreciated. They will appear in a program of their own production, the date to be announced later. The public is most cordially invited to hear these talented artists. The corresponding secretary announced the district meeting to be held in Abilene April 19-21. At the conclusion of the business session Mrs.

Alfred Irby presented a paper on "The New Romanticism as Found in Yeats' and Noyes' Poems." The round table discussion was led by Mrs. E. P. Crawford, assisted by Mesdames G. B. Kelly, C. H. Fee, Guy Dabney, J. B. Burnett. The club adjourned to meet in two weeks in a Texas Day program.

National Music Week to Be Observed in Cisco
May 6 to 8 is National Music Week, and Cisco will have the pleasure of observing this season with a community sing on the first day of that week. For months the Cisco Music Study club has been planning for a gathering of all those who enjoy singing at some time during National Music Week. It has been decided to hold a "Hymn Singing" on Sunday afternoon, May 6. Old hymns and new ones, all by American composers, will be used, and a brief story of how each hymn came to be written will be told. Everyone in Cisco is invited to attend and to sing. You are asked to watch the Daily News for further announcements of this interesting program.

GOVERNORS TO ATTEND GOOD ROADS PARLEY
DES MOINES, Ia., April 14 — The sixteenth annual convention of the United States Good Roads association will meet in Des Moines May 28 to June 1 with one of its principal objectives promotion of sentiment in the interest of an addition to the president's cabinet as a secretary of highways.

The program of the association also embraces consolidation of all road building activities of the federal government under the bureau of public roads.

Eleven governors already have accepted invitations to attend the convention, several of whom will appear on the program. Many of the state executives will head large groups of delegates who plan to journey to Des Moines in motor caravans.

The governors who have notified Major J. A. Routree, Birmingham, Ala., director general of the association, who has established headquarters here for the convention, of their acceptance are:

Ben S. Paulen, Kansas; J. E. Erickson, Montana; Arthur G. Sorlie, North Dakota; Flem D. Sampson, Kentucky; John G. Richards, South Carolina; Adam McMullen, Nebraska; Bibb Graves, Alabama; H. H. Horton, Tennessee; W. J. Bulow, South Dakota; Harvey Parnell, Arkansas and John Hammill, of Iowa.

Approximately 40 per cent of all illnesses were found not only temporarily disabling but caused confinement to bed. Eighty percent persisted three days or longer and sixty per cent, eight days or longer. Less than five per cent were of one day or less duration.

"Illness was far more frequent under 10 years than at any other time of life," the Public Health summary says. "The average individual is most free from illness in the age period 15 to 24 years.

Thereafter sickness becomes more frequent, more severe and more frequently fatal as age advances."

Plagues Diminish
Paradoxically, those infirmities, which cause the most illness, cause the fewest deaths. Respiratory diseases and disorders account for 60 per cent of the illness, but only 2 per cent of the deaths, whereas diseases of the heart and circulatory system, which cause only 2 per cent of the total community illness are responsible for 24 per cent of the deaths.

"Public health has as yet barely touched the task of preventing the conditions which manifest themselves in physical and mental impairments, in inefficiency and illness and in postponable death," the report concludes.

"Plague and pestilences have been diminished, infant and child mortality from infectious and intestinal disorders are conquered and healthful living is being established more and more firmly as a popular ideal, but aside from these the prevention of disease remains the outstanding problem yet to be solved."

Nearly Every Person Must Call The Doctor at Least Once Each Year Your Health Survey Reveals

WASHINGTON, April 14.—In the typical American community an average of 937 out of every 1,000 people suffer illness of some sort every year, the United States Public Health Service declares.

Surgeon General Hugh S. Cumming has recently completed a report on a two-year study of illness and disease in a selected small city in the East.

The healthiest period in human life, the conclusions reveal, is the decade between 15 and 24 years of age. After 25, both the incidence of illness and the percentage of fatalities increases constantly with advancing age. The highest frequency of illness in the entire span of life is between the ages of 6 and 10 years, but here the ratio of fatalities is extremely low.

Many Have Colds
Almost half of all the tabulated cases in the selected community classified as "colds and bronchitis."

Into this category fell 418.6 cases annually for every 1,000 population. Other classifications, with the ratio per thousand:

Table with 2 columns: Disease Name, Ratio per thousand. Includes: Influenza and grippe (142.2), Digestive system (96.5), Tonsillitis (63.7), Puerperal causes (46.9), Nervous disorders (44.1), Accidents (39.5), Measles (34.2), Whooping cough (22.6), Rheumatism; lumbago (21.6), Heart disease (13.3), Hay fever, asthma (3.8)

Approximately 40 per cent of all illnesses were found not only temporarily disabling but caused confinement to bed. Eighty percent persisted three days or longer and sixty per cent, eight days or longer. Less than five per cent were of one day or less duration.

"Illness was far more frequent under 10 years than at any other time of life," the Public Health summary says. "The average individual is most free from illness in the age period 15 to 24 years.

Thereafter sickness becomes more frequent, more severe and more frequently fatal as age advances."

# Gardens, Orchards and Flowers Escape Jack Frost

## Present Unseasonable Weather Seems to Have Done Little Permanent Harm to Growing Crops in Cisco Country

With a weather forecast for slightly warmer temperature and perhaps rain in this section, those with gardens, orchards and tender flowers were very optimistic at a late hour Saturday.

Thus far fruit has escaped damage and very slight damage has been done to young vegetables. Reports show a few tender beans and some tomato plants have been nipped in certain low sections during the cold snaps of the Easter season.

Old heads, who observe the weather and its caprices, are of the opinion that the ending of this astronomical disturbance will end our danger from winter weather. And they see some fine growing weather ahead for us during the next few weeks.

They say that with the good season in the ground now resulting from the show rains of the past week, and with a promise from the weather man for sunshiny days ahead, a splendid growth of all vegetation should be expected during the remaining days of this month.

Many people report Irish potatoes, beans, lettuce, radishes, English peas, pepper and tomatoes doing nicely. Berries, grapes, roses, shrubs, pecans and young trees are putting on leaves and are making rapid growth. Fruit trees, especially peaches and plums are literally loaded with young fruit. If the prospects are correct, we may expect an abundance of fruit in the Cisco Country this year, which fact will be a blessing, indeed. Some report very scanty crops of strawberries up until now. This may have been caused by the unusually dry winter and early spring. It is suggested that alternate watering and mulching would have offset this and made possible tulle maturity and more abundant fruit. Of course this would not have been practical except in the city and certain favored rural sections.

Watermelons are now being planted and preparations for much truck marketing later are being completed.

It has been suggested that the low prices of eggs this spring will result in a big poultry crop. Low egg markets always stimulate the hatching of young chicks among the farmers.

With a big fruit crop we now knock on wood, a big melon crop, lots of frwers, plenty of truck to sell along with the cream and butter from the cows, added to the Irish potato crop which will go on the market the latter part of next month, money should be much easier than at any time since last August.

Meanwhile, building will help the unemployed in towns, while much road construction contemplated over the county, should help Eastland county labor.

All of these things show that there is no time for hesitation. Aggressive push, constructive planning for bigger things ahead should put Cisco and all Eastland county over in a big way during 1928.

## WEEKLY REPORT OF 11TH COURT CIVIL APPEALS

**EASTLAND** April 14.—The following proceedings were had in the court of civil appeals for the eleventh judicial district for the week ending Friday, March 13.

**HARVARD GETS BONES OF ANCIENT MONSTER**

CAMBRIDGE, Mass., April 14.—A prehistoric plesiosaur, one of the large marine reptiles that inhabited the inland seas of the United States many years ago, has been acquired by the Harvard University museum of zoology.

The new Harvard specimen of a plesiosaur, one of the limited number discovered in the United States, was unearthed in a cretaceous deposit in Kansas. The other exhibits of this dweller of the mesozoic age are that on exhibit at Harvard came from Europe.

## CHURCHES

**CHURCH OF GOD.**

F. Avenue at 11th street. Rev. J. T. Wilson, president of the Warner Memorial University being established in Eastland will speak at the morning service. He will talk in the interest of the university. Sunday school starts at 9:45. If you like to belong to a growing institution join the Church of God Sunday school. Young people's meeting at 6:45. Evening service 7:45. The subject will be "The Internal and Visible; the External and Visible Evidence; that we are Saved." Do you know you are saved? Is it possible to have such knowledge? Where would you be if Christ were to come now? Be sure and hear this sermon. JOHN W. BATDORF, Minister.

**FIRST BAPTIST.**

E. Avenue at Ninth. In the Sunday school at 9:45, you will find a class and a separate class room for every age up to 17; then in the young people's and adult departments, you will find congenial groups. Friends will greet you and conduct you to a class. Come and share with us in the hearing of the word of God. If you care only to be entertained, go to the show for that; but if you want to be helped, come to the church and hear a simple but vital message from the God of love who will strengthen you in your weakness, comfort you in your sorrow, and keep you in every temptation—this is the mission of this church and its pastor who will speak at 11 a. m. and 7:45 p. m. The young people come together at 6:30 promptly and after their programs in five separate groups they have a great assembly together at 7:30. Our goal for today is 100. You have a place to fill in life—come and find it.

**FIRST CHRISTIAN.**

A pentecostal program begins at the First Christian church today. Special attention will be given to the work of evangelism in all de-

partments of the church. The Bible school will meet at 9:45 a. m. Preaching at 10:45 by the minister. Subject, "God's Challenge to the Church." Executive order of worship. Anthem: "The Lord is My Shepherd." Music by Montgomery, Christian Endeavor, Junior will meet at 3 p. m.; Seniors at 7:45 p. m. All the young people are cordially invited. Preaching at 7:45. Devotional period of 30 minutes. Congregational singing. Duet by Mrs. J. B. Cate and Professor Reid. "The Banner of the Cross." will be the subject of the sermon.

**FIRST METHODIST.**

"Divine Healing." A number of well known preachers practice, preach and teach divine healing. Do you believe in it? Does God heal through human instrumentality? This subject will be discussed Sunday evening, program begins at 7:45. 9:45 a. m. Sunday school. We are expecting a large class of men to hear J. J. Youngblood. Subject, "The Meaning of the Transfiguration." 11 a. m. theme, "The City Four-square." Rev. 21:16. Baritone solo, "Rounded Up in Glory." Mr. Jeff Duncan. 3 p. m. Epworth Junior society. 6:45 p. m. Senior Epworth league. Regardless of the weather the house will be comfortable. Come along, your week will be happier by having attended Sunday school and church, 407 West Broadway.

**BRIGGS ACCEPTS NEW POST IN PANHANDLE**

George W. Briggs, secretary of the Eastland chamber of commerce, has resigned and has accepted the place as secretary of the Pampa chamber, he announced while in Cisco Friday. He expects to take his new place about May 1.

Since joining the Eastland organization, Mr. Briggs has done much for the upbuilding of this section. Many friends will regret his leaving.

## A TREATY TO RENOUNCE WAR BEING STUDIED

WASHINGTON, April 14.—The United States has submitted to the governments of Great Britain, Germany, Italy and Japan the proposal of Secretary of State Kellogg for a world-wide treaty renouncing war as an instrument of national policy.

With the approval of France, the American ambassadors at London, Rome, Berlin and Tokyo presented the respective governments all the correspondence which has passed between France and the United States relative to the suggestion of Foreign Minister Briand of France, that France and the United States sign such a treaty between themselves.

The Briand proposal was made last June. Kellogg suggested the principal be extended to all nations.

"The government of the United States desires to see the institution of war abolished and stands ready to conclude with the French, Brit-

## OFFICERS AND DIRECTORS OF BAIRD C. OF C.

BAIRD, April 14.—The new directorate of the Baird chapter of commerce consists of Ace Hickman, B. L. Russell, T. P. Bearden, H. H. Shaw, W. S. Hinds, Jas. C. Asbury, T. E. Powell, W. B. Jones, C. B. Holmes, E. Cooke, L. L. Blackburn, Bob Norrell, W. C. White, J. R. Black, J. Rupert Jackson, H. M. Dudley, C. V. Morgan, H. Schwartz, and W. E. Melton.

The director announce the following officers to direct the affairs of the commercial body for

the ensuing year: Ace Hickman, president; B. L. Russell, first vice president; T. P. Bearden, second vice president. The retiring president is H. E. Shaw.

## TEXAS TOWN GETS LARGE CEMENT PLANT

PORT ARANSAS, April 14.—Literally millions of tons of mud shells will be purchased from the state of Texas and used in the manufacture of a patented, water-proof cement, under a contract entered into with the state by California, Wyoming and Texas interests.

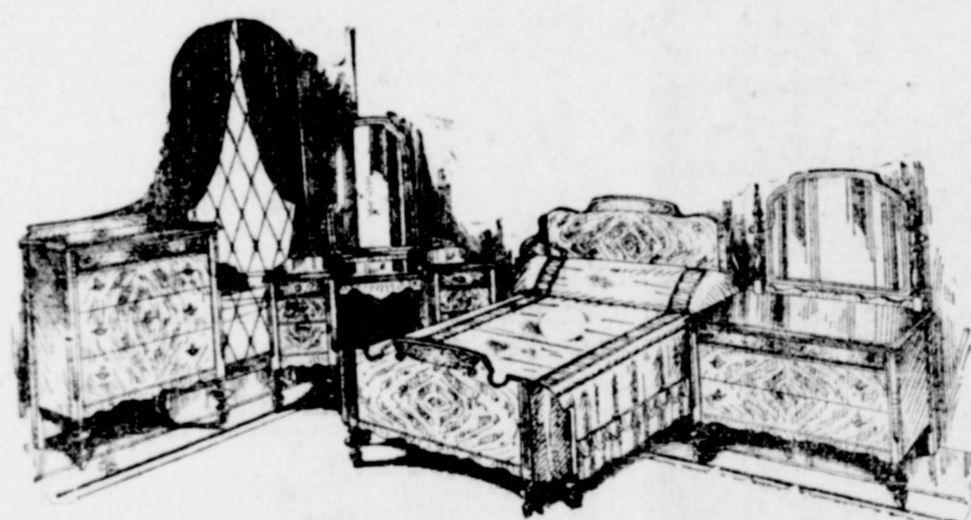

Industrial sites with a total frontage of 2,000 feet on Harbor D and, just inside the government jetties at Port Aransas and on the ship channel which leads to Corpus Christi, have been acquired and a large plant will be built here at once to manufacture the product for export.

## STOP THAT ITCHING

Use Blue Star Remedy to relieve Eczema, Itch, Tetter, Ringworm, Follicle, Oak, Impigo, Dandruff, Sores on Children, Cracked Hands, Sore Blistered Feet, Red Bug bites and all itching skin diseases. It penetrates the skin, kills the itching, stops the itching at once, and restores most cases to a healthy condition. Blue Star Remedy may be used as a cleanser before applying Blue Star Remedy. All Drug Stores.

## To One to Whom Luxury Is Always a Lure

The bedroom, more than any room in the house, should be aptly expressive of one's individual tastes. If luxurious comfort and beauty are your particular delight, by all means let your bedroom furnishings. There you will enjoy to the utmost the glorious finish and decoration of the beautiful woods that fashion the pieces of this most charming suite.

Would waking in the morning in a room gorgeously arrayed in furnishings as lovely as those illustrated here give your whole day a brighter and more satisfied feeling? Would closing your eyes on such beauty at night produce relaxation that only contentment can bring? There's loveliness here that signifies refinement and splendor, a rare mingling not easily attained.

# North and South "Broadway Loopers" Clasp Hands

## Representative From Breckenridge, Caddo, Albany, Baird, Strawn and Eastland Get Together in Cisco

In response to a call issued by Secretary Cooper, of the Breckenridge chamber of commerce, representatives from Breckenridge, Caddo, Albany, Baird, Eastland and Strawn met with representatives of Cisco in the Cisco chamber of commerce Friday afternoon to discuss Broadway of America matters.

C. H. Brown, president of the Breckenridge chamber, was called to the chair and presided at the meeting. Mr. Brown stated that owing to certain newspaper stories that had appeared in towns on both loops of the Bankhead highway the impression seemed to have gotten abroad that each of these routes would attempt to get the designation at the approaching Memphis meeting, and that the Cisco meeting had been called for the purpose of effecting an understanding among all towns concerned.

"Breckenridge," he stated, "favored the dual designation as it now stands," and he asked for the cooperation of the towns on the south loop.

Many of those present talked on the proposition. Secretary Peters explained that the activity of the towns on the north loop had caused those on the south loop to get busy.

"It is not our desire to hog the designation," Peters explained, "but just a matter of self preservation, should a dual designation be frowned upon at Memphis. At all the meetings of representatives of Clyde, Baird, Cisco, Eastland, Rango and Strawn there was no disposition to exclude the north loop, but only to look after the interest of the south loop."

Peters' position was endorsed by Harry Ebersford of Eastland, H. O. Tatum, of Baird, and others, and all favored a double designation when the matter comes up at Memphis, should it be brought up. The result of these talks was that what might have been a "rough house" meet ended in a regular love feast, with the adoption of a resolution for representatives of all towns of both routes to go to Memphis pledged to support and work for the designation as it now stands. Perfect harmony prevailed when the meeting adjourned after passing the following resolution:

"Representatives of the chambers of commerce of the communities of the north and south loops of the Bankhead highway being assembled, wish to express to the directors and officers of The Broadway of America our appreciation of the courtesy and favor shown our section of Texas in designating both roads of the loop in the Bankhead highway as official routes in the Broadway of America and that they use their influence, should the occasion require it, to see that the dual designation be not disturbed."

### TWO FLORIDA YOUTHS TO TRY FOR OLYMPICS

MIAMI, April 14.—Two real threats to the welter weight wrestling champions for Olympic honors will come out of the South this year.

Francis Hauser, Neenah, Misc. youth and Evan Lindstrom, Miami, both students at the University of Miami, walked off with the welter-weight and light-heavyweight wrestling championships respectively, in the Florida state trials at Gainesville. Both will leave soon for the national tryouts at Grand Rapids.

### Baby Contest Will Be Continued Till Saturday April 28

The baby contest, being put on by the Walton studio, which was to close Saturday, has been continued for one more week. "This was made necessary on account of the inclement weather that has prevailed while the contest was on, as many of the mothers desired to have nude pictures of their babies made, which has been impossible during the kind of weather that we have been having recently," O. R. Walton said. He is advertising this extension in today's issue of the Daily News.

### AUTO COLLIDES WITH HOUSE ON NORTH RANGER

RANGER, April 14.—A frame house belonging to Constable Ted Hamilton, located at 408 Saraw road, Ranger, was damaged about 12 o'clock Thursday night, when a car said to belong to M. L. Castleman of Cisco, crashed into it.

Castleman and two companions in attempting to round the curve on the highway near the home missed it and crashed into the frame dwelling, which is located just below the road. The front porch of the house was knocked off and the foundation was shattered. One of the walls was split from front to rear. The house was occupied by Mr. and Mrs. J. D. Christian, who were asleep at the time. No one was hurt. The car was a Hudson coupe, and was not badly damaged. A clock in the house, which was on a table, was found Friday morning under the floor.

### STEERING WHEEL BROKE

Mr. Castleman, who has apartments at Mrs. A. A. Williams' home, on West Twelfth street, was called Saturday morning, and Mrs. Castleman stated that the accident was caused by the steering wheel breaking, making it impossible for the auto was not badly damaged. Mrs. Castleman said, and all damages to the house had been settled.

### WIVES OF MURDERED CONSULS GET PENSIONS

MOSCOW, April 14.—Pensions of \$75 a month have been awarded the families of five Soviet consuls and vice-consuls slain last December by Chinese Nationalist troops after a raid on the Soviet consulate in Canton. A sixth official who was also killed had no dependents.

The slain consuls Hassis, Ukroloff, Popoff, Ivanoff and Makaroff were dragged through the streets after Communists were driven from control of Canton and shot down in a public square. Two of the widows each have two children and a decent subsistence on \$75 monthly will be difficult.

## County Attorney Sparks Thinks Jackson Family Was Murdered; Was Misquoted in News, He Says

J. Frank Sparks, county attorney of Eastland county, believes the Jackson family was murdered. Mr. Sparks made this statement after he had been quoted in Friday's Daily News as giving an opposite opinion. He has made the following statement:

"Gentlemen: My attention has been called to a headline and news article appearing on the front page of your issue of Friday, April 13, in which I am quoted as saying that Will Schluter will not be indicted, and that I would recommend that he be released. I am further quoted as saying that the evidence so far has not developed a single fact connecting Schluter with the murder and arson and that I am more inclined to accept the theory that this was a case of murder and suicide, though this is merely an opinion—'but up to this time all clues have led up a blind alley.'"

"Your representative called me by telephone Thursday night and asked if I had anything I could give him on the Jackson case, and I replied that I did not; that Will Schluter was still in custody, but

that he might have to be released in time, but the grand jury was continuing their investigation against him. Your representative, whose name I did not get, suggested that probably I was inclined toward the theory of suicide. I replied that I am more inclined to accept the theory that this was a case of murder than suicide."

"Thus it is seen that your publication is exactly the opposite to what I really said and exactly opposite to my idea concerning the tragedy in our county. I trust that the misquotation by your paper is entirely due to a misunderstanding of our telephone conversation. I want it distinctly understood that, in my opinion, my acquaintance with the family, the physical facts surrounding the tragedy, all the surrounding circumstances and the well known character of Mr. Jackson, precludes any theory of suicide. This is undoubtedly the consensus of opinion of all participating in the investigation."

"No further statement in reference to Schluter is necessary or proper, but the investigation will continue, and no one will be released as long as there is a probability of any connection with the tragedy."

I trust that in fairness and in justice to those most closely affected by your publication on last Friday, you will make it convenient to give this statement equal prominence in your next issue with your publication of the article of the 13th."

J. FRANK SPARKS.  
**BRECKENRIDGE LEGIONNAIRES**

The national headquarters of the American legion since last November. The last award is what is known as the Community Service award, a citation issued for meritorious service performed to the community in which the post is located. ## GENERAL ELECTRIC Refrigerator

### It brings with it economy, good health, convenience!

When the General Electric Refrigerator comes into your home it brings with it a great deal more than merely perfect refrigeration. It brings foods preserved in healthful soundness. It brings the economy of no wasted food—the convenience of fewer trips to market. It brings an opportunity for preparing tempting new dishes. It brings independence from all outside sources of ice supply. It brings time for greater leisure.

The General Electric Refrigerator is remarkably simple. All its mechanism is enclosed inside a single hermetically sealed casing. It has no machinery under the cabinet—and none in the basement. It never needs oiling. It has no drain-pipes, belts, fans or stuffing boxes. It uses very little current to make all the ice you need and give you scientifically correct refrigeration. It is unusually quiet. And it is made and guaranteed by General Electric.

## THIRD ATTEMPT TO WRECK SHIP IS A FAILURE

WEYMOUTH, England, April 14.—The third attempt by a movie firm to blow up the three-masted schooner Amy, in the English channel, in order to complete their "Q" ships film, has again failed because, according to seafaring men, she is either haunted or has a charmed life.

Seamen said it was unlucky to remove her old figure-head which shows a woman clasping a bunch of flowers and which is now on view at a neighboring hotel.

"No vessel will ever sink without her figure-head," say the old salts.

The Amy was towed out into the channel accompanied by naval vessels from Portland. Naval officers charted the position where she was to be blown up, several miles south of Shambles Lightship.

The trouble began with the electric leads between the Amy and the tug parting twice. The schooner's decks and sails were then soaked with kerosene and flames were laid.

The crew abandoned her. But still she refused to burn.

A submarine afterwards cruised around to make sure that all fires were out. The demolition crew were told to return to the schooner but they refused. There was nothing for it but to tow the Amy back to Portland.

## Paris Lamp Posts To Be Exchanged For Arc Lights

PARIS, April 14.—Paris will soon be more deserving than ever of its celebrated title "the City of Light." Its antiquated, rosy-hued gas lamp-posts, many of which are still lighted at dusk by picturesque Frenchmen wearing long blue blouses and strange hats, are doomed. Thousands of the latest modern electric ones are going to replace them before the summer is over if the plans of the city government can be worked out.

Narrow little streets which hardly merit more than the name of "alley" such as "the street of the fishing-cat," "the street of the one-eyed man" or the one of the bad boys" will beam with the electric lamps, as well as some of the chic quarters which have long needed them.

## Turkestan Girls Are Being Sold To High Bidders

SUMARKAND, Turkestan, April 14.—Girls 11 and 12 years of age are being sold in marriage to the highest male bidder under the Mohammedan law of parental jurisdiction in open defiance of the recent Soviet decree forbidding the marriage of girls under 16 and without their consent.

A simple ruse is being used by mothers to evade the law, police discovered. Heavily veiled girls above the legal age of consent are hired for small sums to make the trip to the Soviet license bureau with the men parents who have chosen to marry their immature daughters.

The decoy girls give the names of the real brides four and five years younger than they and so through the two-minute ceremony only to leave their "husbands" a few minutes later. The bridegroom then goes to the home of his parents-in-law and joins his child bride. Police found girls who acted as decoy brides ten times in one week and earned a neat amount of pin money. Their fee is merely put on "the bill the bridegroom has to pay for wedding expenses in addition to the price of the bride, which varies in proportion to her beauty.
