AND ROUNDUP—FORTY-SIXTH CONTINUOUS YEAR

CISCO — Pop. 13,500; 1,614 feet above sea; 5 lakes of good water; 172 blocks brick sts.; 41 schools; 5 rail inlets; no mosquitoes; no malaria or typhoid of local origin.

VOLUME XLVI.—NO. 41.

CISCO, TEXAS, THURSDAY, APRIL 19, 1928.

FIRST SECTION—TEN PAGES

\$1.50 PER YEAR

TEXAS

By WILL H. MAYES, Austin.

TEXAS HIGHWAY SURVEY—While the present highway commission has made good progress in the development of the highway system of Texas, there is a feeling that definite plans should be made for road development covering a period of years, pretty much as the cities are working toward outlining city plans. There is too much haphazard, hit-or-miss work, where plans have not been made to cover the whole state, in the opinion of those who make a study of the economics of highway construction. William T. Wheeler, general manager of the Texas Highway club, advocates, as the first step, a thorough survey and classification of the entire highway system of the State under direction of the State highway engineer, with the aid of district engineers. After the survey is made, he would have the department promote the building throughout the state according to the greatest apparent public need and where the roads will contribute to continuous, connected systems.

REVOLVING BOND ISSUE—Mr. Wheeler suggests a revolving state highway bond issue as the solution of the financial needs, an issue of considerable magnitude, but not to exceed \$150,000,000, the bonds to be repaid by the gasoline tax. Doubtless some such measure will be introduced in the next session of the Legislature. The people who pay the bills in the way of taxes are anxious to have greater uniformity in road building and better continuity in the roads.

BROADWAY HIGHWAY—The motorcade in San Diego to Texas attracted much attention and was the recipient of much hospitality while in Texas. The Broadway would be a continuous roadway of the highest type of road construction and would in time doubtless become the most traveled roadway in America.

BROWNSVILLE - MATAMORAS BRIDGE—Difficulties between contesting bridge companies over the right to erect a bridge across the Rio Grande at Brownsville having been satisfactorily settled through the arbitration of one company by the other, the War department has approved the plan and location, and work has begun on the structure—something that has been much needed for a long while.

HIGH-PRICED LEASE—The payment of \$320,000 for a lease of 420 acres of oil land one mile distant from proven territory 15 miles Southeast of Big Spring indicates that oil development in that section is but slowly started. The lease is one mile from several 3,000 barrel oil wells.

GALVESTON BUS LINE—Galveston-Houston interurban road is seeking a permit to operate motor bus service between those two cities, and wants to have it in full operation before the Democratic National convention in June to aid in handling the large traffic expected between the two cities. Galveston expects to handle a large part of the overflow crowd from the convention city.

MEDINA VALLEY SALES—Two hundred prospectors from 26 states—the first excursionists of the season, to that section—bought \$250,000 worth of Medina Valley lands. They will spend three times that amount in improving and developing their lands. Forty thousand acres of irrigable land in this rich valley will soon be settled by working home buyers and will be bringing its quota of wealth to Medina and Atascosa counties, and in this development all Texas will have a share. Irrigation is rapidly turning thousands of acres of our lands that have almost been waste into fruitful gardens and orchards.

TEXAS WEATHER NOT BAD—Returning to their homes from a business trip to New York and arriving when the Texas folks were complaining of the "wretched weather," a party of Cisco citizens merely commented: "Beastly weather was encountered in every place we visited." Texas weather is bad only by comparison with the good weather to which we are accustomed.

510 FOR A TURKEY EGG IS PAID AT DALLAS

DALLAS, April 19.—Ten dollars for a turkey egg.

That's the price customers pay for Martin-Lane Turkey Farms, of Dallas, located six miles from Dallas, for the purchase of a turkey egg. The new price is due to the grand champion King of yearling mammoth prize gobblers of the year on the grand champion at both Texas and this year.

Laney farms recent-ly won eggs to territory to Seattle.

FRUIT CROP BE HEAVY.—HAGEMAN

Road Program Nears Completion

RIGHT-OF-WAYS FOR HIGHWAYS SECURED TODAY

Cisco will complete its work today of obtaining additional right-of-way along the county highways.

Ranger, Eastland, Gorman and Carbon have already completed their share of the work, it is reported.

The right-of-way along the Bankhead highway will be increased from 80 feet to 100 feet and from 60 feet to 80 feet along highway 23.

When the right-of-way is obtained the state highway department will widen and retop the roads.

It is expected that the work will require the expenditure of \$1,000,000 by the state.

Cisco must finish its share of the work, if not today, then by Saturday. Deeds for the land must be in the hands of the highway commission by April 24.

The Rising Star road is just about completed. This work was done by E. B. Gude and A. L. McWhorter.

Old Roberts and Will Triplett will work east on the Bankhead highway, while F. E. Harrell, Guy Dabney and A. E. Taylor will work west.

In Ranger it is said that in that town business houses will be moved back in order to obtain the necessary land for the right-of-way.

Local leaders consider this one of the most important projects that has faced Eastland county in a long time and they are anxious to let nothing stand in the way of its successful conclusion.

FARMER SAYS FROST DAMAGE TO HIS GRAIN

Mr. and Mrs. Ben Waters, who live southwest of Moran, were shopping in Cisco Thursday. They report some damage to grain from the recent cold and frosts. Corn has been bitten down twice but they still think it will come out and make a crop. They have not had as much rain as has some sections, and farming and general growth of crops have been hindered.

Pastures are green and the grass is making rapid growth. Cattle are doing well, and since his section is concerned largely with cattle growing almost equally in importance to that of raising field crops, this is going to be of material aid to farmers in financing themselves during the year.

Moran farmers believe in purebred cattle and many of her people patronize the fat stock show at Fort Worth each year, carrying off premiums and selling their young stock at fancy prices. Thus it may be seen that a good grass year is of vital importance to their farming operations.

Most of the feed crops are either just coming up or else being planted now, so it is too early to make any predictions as to the outcome.

RUSSIAN BOY WEIGHS 216 POUNDS AT AGE OF 9

VLADIMIR, Russia, April 19.—The peasant mother of 9-year-old Peter Krilov, who weighs 216 pounds has gone on a shirt making strike. She has placed an order for half a dozen Russian blouses, size 20, with the government Textile Syndicate, because, she said, she can't buy them big enough at any store and is tired of the prospect of "sewing shirt for her elephant all her life."

Peter, the son of a poor farmer O. P. Krilov, in the village of Lidkova near here, is the heaviest lad in Russia and probably in the world. He is five feet ten inches tall, and gained 40 pounds last year. He weighed only 5 1/2 pounds at birth and physicians feared he would never be strong.

RAY JUDIA WAS BURNED WHILE AUTO BLAZED

The Blue Star Remedy to relieve Eczema, Itch, Tetter, Ringworm, Poison Oak, Pimples, Dandruff, Sore on Children, Cracked Hands, Sore Blistered Feet, Red Bug bites and all itching skin diseases. It penetrates the skin, kills the germ, stops the itching at once and restores most cases to a healthy condition. Blue Star Soap may be used as a cleanser before applying Blue Star Remedy. All Drug Stores.

TOMLIN DRUG CO.

Dr. William Edward Mancill Today Celebrates His 90th Birthday; He is Hale, Hearty and Active

Who'll help me across the river That river is like Egypt night, As on its brink I stand. But He can make it crystal bright. By wave of His omnipotent hand. And when I reach that blissful plain, And I its glory see, I'll shout and sing redeeming grace. For Jesus died for me.

meets them on his daily walks about town.

Dr. Mancill left his Alabama home and came to Texas December, 1870. Having boarded a steamer with his wife and two children at Mobile, he landed at Galveston on the 18th day of that month. Leaving Galveston the Mancills came to Kosse, then the terminus of the H. & T. C. railroad, and from Kosse they came by farm wagon to Bosque county, locating at a point eight miles below Clifton, on the Bosque river. He moved his family to Cisco the latter part of September, 1881, after spending nearly five years in Stephens county, 12 miles west of Breckenridge, at Belle Plains crossing on Sandy creek, where he practiced medicine. He continued to practice his profession after coming to Cisco until about 20 years ago, when he retired from active practice.

Until two years ago, Dr. Mancill lived at the original homestead he purchased when he first came to Cisco, though the memorable Cisco cyclone demolished the original building but a new home was erected on the same site. With approaching old age, and being alone, Dr. Mancill was induced to sell his home and live with his son, R. W. Mancill.

A sketch of Dr. Mancill's life would be incomplete without mention of his war record. He enlisted in the Confederate army in July, 1861, and was assigned to company "B," 18th Alabama regiment, J. T. Brady was his captain, E. C. Bullock was regimental colonel, General Gladden, killed at the battle of Shiloh, was brigadier general.

With the death of General Gladden, his many friends on his right and left, and though a score of years past man's allotted life, is still hale and hearty, and goes at will about the city assisted only with his walking cane, and this he uses as much as a hand-piece as he does as a staff. He is happy, healthy and hearty. Only his eyesight is failing, but he still can see well enough to distinguish his friends readily as he

CHICAGO, April 18.—Suburbs of Chicago have opened battle on the invasion of apartment houses. Mile after mile along the north shore of Lake Michigan apartment "towers," thin, high buildings, have sprung up and extended to the city limits and beyond. As the result, alarmed at the inroads of modern "cliff dwelling" buildings, the quiet suburbs have sprung into rebellion with protests to the city zoning commission. Plans are being developed for a tight barrier against "flat" apartments and "apartment hotels." Eighty zoning officials, representing towns from Waukegan, northwest community, to Michigan City, far southeast in the famous Dunes district, have mapped out a plan of campaign.

G. W. Fry, Progressive Head of West Texas Utilities Co., Was Visitor in Cisco Today

J. P. WOOTEN SUCCEMBS TO PARALYTIC STROKE

News from Abilene this morning stated that J. P. Wooten, who has been critically ill in his home in that city for several days, passed away last night. Several days ago Mr. Wooten suffered a stroke that completely paralyzed his right side, which was the cause of his death. In mentioning Mr. Wooten's illness the Daily News stated that he was "head of the Wooten Grocery Co." H. O. Wooten is the head of the grocery company, and J. P. Wooten, his brother, was the directing head of the Wooten Motor Co., of Abilene.

HUGH S. WHITE SUBMITS TO SURGICAL OPERATION

Hugh S. White, manager of the Southwestern Motor Co., is a surgical patient at the Scott & White sanitarium, at Temple, where he submitted to a surgical operation Monday, according to information reaching Cisco Wednesday afternoon. Mr. White rallied from the effects of the operation in fine shape and was reported to be doing nicely.

COLORED PAIR WANTED GET "PASTED TOGETHER"

EASTLAND, April 19.—"We want to get pasted together," said an Eastland colored man as he and his dusky bride-to-be shyly entered the office of Justice of the Peace Jim Steele in Eastland Wednesday morning. Drawing his marriage license from his pocket and handing it to Justice Steele, the ceremony was soon performed.

MASONIC MEETING Cisco lodge No. 558, A. F. & A. M., will meet tomorrow night at Masonic Temple for work in the entered apprentice degree, according to Fred Crist, Worshipful Master of the lodge.

ROTARY MEET WAS HIGHLY CONSTRUCTIVE

Today was Rotary Magazine discussion day at the Cisco Rotary club. Many were absent as delegates to the Rotary convention at Lubbock and on business matters elsewhere. Singers Reid and Boney were missed but Paul Woods and Pansy Crawford covered themselves with plenty of glory and the meeting was a thoroughly constructive one. Miss Alberta Parsons presided at the piano.

Rotarian Simmons of Eastland and Lion W. H. LaRogue of Cisco were guests today. Bob made short talks. Miss Letha Maude Eager, assistant secretary was also present.

Responding to the program, discussing recent Rotary articles, short and interesting talks were made by Frank Harrell, Raymond Williams, E. P. Crawford, J. M. Williamson, C. G. Gray and P. W. Campbell. Mr. Campbell, now a resident of Abilene, talked very interestingly of a recent trip of himself and Mrs. Campbell to Chicago, Washington and New York. He visited Rotary International headquarters and was greatly impressed by what he learned of work being done and contemplated at the head office.

Mr. Williamson told of his trip to Washington and New York in the interest of a federal building for Cisco. He stated that he thought everything was working smoothly and that he hoped to be able to make a report later that would be pleasing to every Rotarian, as well as all citizens.

President A. B. O'Flaherty was chairman for the day.

SCHOLASTICS FOR 1928 TERM OF RANGER 1,817

RANGER, April 19.—The scholastic census just completed in Ranger shows there are 1,817 children of scholastic age in the Ranger independent school district, according to E. A. Rinsold, tax collector. Show the state make payment of \$15 each scholastic, Ranger will receive \$27,255 aid for the next school term. Every year, however, some mistakes are found in the census and the total number is usually diminished somewhat. The state department is now paying on 1,747 students, which was the total of last year's verified census. When payment is completed Ranger will have received \$26,205 from the state department.

29 x 4.40/21 \$11.45

CLEAN UP CAMPAIGN WILL UNDER WAY

Cisco's clean-up campaign was well under way Thursday, according to Dr. John H. Brice, city health officer. The entire town will be inspected, Dr. Brice said. The work began Wednesday.

"I am not finding as many violations of sanitary ordinances as I expected," Dr. Brice said, "and where they are found the folks promised to clean up immediately. I have made no arrests and probably will not so long as I have cooperation."

QUITS OIL BUSINESS TO SELL MILK AND CREAM

ELECTRA, April 19.—Because of the drop in oil and drilling contracts, L. B. Stevenson, drilling contractor, has turned his suburban home into a poultry and dairying farm.

After the drop in the oil business, Stevenson bought a cow. She provided a surplus of milk, which he sold. The profits were so good, Stevenson decided to go in the business on a large scale.

Daisies Won't Tell - but Our Mirrors Will

There are some things even your closest friend won't tell you. "How does my new hat look?" often brings a "Good" when it should be "Good Grief." But our mirror will tell you the gospel truth—and when you realize that one hat can look better than another just as one horse can run faster than another—you really should seek these headquarters for the quarters you are going to hire for your head.

Miller - Lauderdale "The Man's Store"

Warranty of more tire mileage at cost per mile

thing which affects tire mileage is in good working order. Brakes must be equalized; wheels must be in alignment; rims must be "true"; and without bent flanges; tires must contain the correct amount of air. A tire that is cut must be immediately repaired, so that the cut will not spread

BIDS WILL BE OPENED MON.

AUSTIN, April 19.—Bids will be opened April 23 by the State Board of Control for awarding of contract for 1928 automobile number plates and chauffeur badges, it was announced by Roy I. Tennant, member of the board of control.

The specifications call for 1-200,000 automobile plates marked "front," and the same number marked "rear". The contract will also include 200,000 front and rear plates for commercial motor vehicle plates, 20,000 trailer tractor plates, 30,000 motor bus plates, 4-000 motorcycle plates, and 15,000 chauffeur badges.

The automobile plates will be made of a black body, with letters, figures and borders of orange. The commercial plates will be of orange body with letters, figures and borders of black, as will also the trailer and tractor plates. The motor bus plates will be of maroon and white as will also the dealers' plates and motorcycle plates.

AMERICAN AND ROUNDUP GETS NICE COMPLIMENT

A bouquet of rare fragrance was handed to the Cisco American and Roundup by one of our rural subscribers Wednesday, when the subscriber, in writing to the paper, said: "The paper is simply fine, and is getting better all the time. We almost fight when it comes. All want it first." The American and Roundup sincerely appreciates such compliments for it is not often that a newspaper receives a bouquet of such beautiful foliage and rare perfume.

BOY IS KILLED BY FALLING WALL CHICAGO, April 19.—Stanley Knak, 7, was killed and ten were injured when a seven foot wall surrounding a public school collapsed, burying them beneath it.

mountainous enough, in character and achievement, to deserve a mountain for a monument. It is just as well, though, to go a little slow in such matters. People are seldom good judges of contemporary greatness. Perhaps a good rule would be not to attempt any monumental tribute of this kind until the man commemorated has been dead for half a century.

BAD PURE ALCOHOL

Dr. George Bigelow, health commissioner of Massachusetts, writes in the Boston Medical and Surgical Journal, regarding the results of analyses of bootleg liquor: "So far as Massachusetts is concerned, such factors as wood alcohol, methanol, furfural and other extraneous substances have been very much exaggerated, and what is killing people now is what killed them back in the days of the high alcoholic death rates of 1916 and 1917, and before, namely ethyl alcohol, 'grain alcohol' or 'good pure' alcohol." That is a timely reminder that there were days of high alcoholic death rates before prohibition and that "good pure" alcohol was quite a trouble-maker and killer in pre-war days and pre-war drinks.

MEXICAN ELECTION

Interest in the national election in this country obscures the fact that Mexico, too, is going to have an election this year. Its constitution calls for quadrennial elections like ours. The main difference is that whereas the result is problematical in the United States, it is pretty well agreed what will happen in Mexico. General Obregon will be elected again. That will be a neat job in getting around the Mexican constitution, which forbids the holding of two consecutive terms by any president. Obregon became president in 1920, at the end of ten years of revolution and uncertainty. He dutifully retired in 1924, after setting the stage for the election of Calles, as President Roosevelt did Taft in 1908, only more so. Now Calles at the end of his four years has been setting the stage for Obregon again, as it was prophesied he would when he took office. This friendly alteration hardly harmonizes with the spirit of the Mexican constitution. It is much, however, for the letter to be obeyed in a country just emerging from its revolutionary period. Obregon and Calles deserve credit for stepping out when, by the exercise of military force, either of them might remain in office indefinitely, as President Diaz did in the pre-revolutionary years. They have both made good presidents, on the whole, despite obvious mistakes and lamentable controversies with the church and foreign nations. Reconstruction has been in progress for eight years, and there is no evident reason why it should not continue at accelerated pace after the coming election.

THIRTY YEARS ON BROADWAY

Broadway is not entirely given over to the lure of the bright lights, a recent "heartening anniversary," as the New York Christian Advocate (Methodist) terms it, goes to show. For thirty years—much longer than the life-span of some of the gaudy temples of pleasure—Dr. Charles E. Jefferson has been pastor of the Broadway Tabernacle, Congregationalist, and the anniversary was observed by Dr. Jefferson and his congregation, but without the pomp and blare of trumpets usually associated with a celebration on Broadway. Nevertheless, the Advocate points out, his anniversary "comes as a tremendous encouragement to those who believe in the vital ministry of the Gospel and the Church to our day." Here is a man who has stood on Broadway for thirty years, amid all the commotion and distracting influences of his environment and engaged in a ministry of ever-widening influence. "In the midst of vaudeville on every hand," continues this neighborly observer, "he employed no vaudeville methods. The only sensation connected with his ministry was the exhilarating sensation of an experience of God in the hearts of those quickened by his preaching." Dr. Jefferson's own ideals and views of his task are given in this quotation: The Advocate takes from his anniversary sermon:

"A real church on this corner need never die. But it must be

to go outside of the Bible to stimulate your minds and feed your hearts.

"You can not build a church by choir. No church is saved by its choir. Only personality draws. Only sacrificial love draws. And I, if I be lifted up, will draw. So said the Man who best knew the secret power of drawing. "Only a Christlike personality incarcerated in a group of people who have been baptized with the Spirit of Christ, and who have been fused into a compact mass of life by devotion to a cause which is rooted in the mind of God, this is the only power under heaven which can keep the Tabernacle alive through the next thirty years."

OTHER EDITORS.

Some one suggests sending missionaries to Chicago, but perhaps the missionaries had better be consulted about that—Wichita Earle. One theory is that after paying the expenses of delegates to all the conferences, the nations won't be able to afford any first class wars.—San Diego Union.

IRON SLAVES

Modern civilization, primarily economic, is measured by the mechanical energy it uses. Statisticians of the interior department give some amazing figures of the power utilized in this country. In the year 1922 our power-generating equipment, including every source of useful energy except pleasure automobiles, was 230,000,000 horsepower. Including automobiles, it reached the immense total of 684,000,000 horsepower. Today the total is much higher. So we are using, just to ride around in motor cars, twice as much horsepower as is used in industry, agriculture and rail and water transportation. What does this mean in terms of human service? If we merely had human slaves instead of iron slaves, we would be employing, away back five years ago, 60 able-bodied slaves for every man, woman and child of us—nearly 300 slaves per family. This is a fortunate age. "Civilization," says a philosopher, "has always been based on slavery." We have more slaves than any previous society or nation that ever lived. They are slaves that serve, but do not suffer.

MOUNTAIN MONUMENTS

The unveiling of the giant bas-relief of General Lee on Stone Mountain, near Atlanta, marks the beginning of a new era of sculpture. Several projects in imitation of this Gargantuan feat are already urged, or under way, in other parts of the country. Mountain after mountain may take on the features of national or sectional heroes or commemorate historical events. In former times such work might have been impossible. Now we have the machinery and power, in addition to the artistic urge and skill. Looking upon such monuments in distant ages, when our race shall have been run, the beholders will certainly think "there were giants in those days." There are men

search to use it. There are dear churches with heavy endowments. They have piles of gold, but no life. There is no life in them because they are lacking in love.

"If you ask me what gives in the keenest satisfaction as I look back over these crowded years, my reply is that I am happy to think that I have never cheapened or vulgarized the Broadway Tabernacle pulpit. Broadway love stunts, but I have never performed one. Broadway years for a sensation but the Broadway Tabernacle pulpit has declined to be sensational. There are enough cabarets and vaudeville shows on Broadway without a church adding to their number.

"I have never shortened my sermons to please the fancy of a sermonette-loving age. I preach long sermons, because I deal always with large themes. No petty subjects have had a place in this pulpit.

"It is a source of satisfaction to me that I have never neglected the Bible. Through thirty years the Bible has held the central place in all our Tabernacle thinking. My joy has been to unfold the ideas of prophets and apostles and of the Prince of Glory. It has never been necessary for me

might not have started anything.—Chicago Daily News. On the whole it's wiser not to start making a pal of the boy till after the boy finishes with periphrastic Latin conjunctions and quadratic algebraic equations.—Arkansas Gazette. Borrowers would be a great deal happier if bankers were as anxious as singers to hold on to notes.—Louisville Times. VAUDEVILLE DANCER PLUNGES FROM FIFTH STORY WINDOW FORT WORTH, April 19.—Mrs. W. H. Bradford today received a notice that her son Wayne, 20, a vaudeville dancer, was killed in a plunge from the fifth story of his Los Angeles hotel last night. Police there are investigating as indications point to foul play.

BOROZONE is NOT a liniment

It is the new antiseptic every one should have ready for use when needed for cuts, wounds, burns, etc. It soothes and heals. Liquid and Powder. Sold by Tomlin-Young Drug Co.

Heals Eczema In 7 Days or Less

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds, but boils, abscesses and ulcers that are discharging are almost immediately relieved and cleanly healed.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped; the eruptions dry up and scale off in a very few days. The same is true of barber's itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moore's Emerald Oil in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible. Moore-Shepard Drug Company can supply you at any time.

Rheumatic Agony Goes in 5 Days With Little Green Capsules

This little notice tells you how to conquer your merciless rheumatic enemy in a new and different way—a knockout way. Every hour the first day you take one little green capsule for just ten hours—then relief comes.

The second day, take one every two hours for 14 hours—Then take 4 little green capsules every day until every last little twinge and every bit of tenderness is gone and your rheumatic troubles have ceased.

The little green capsule now so much in demand from coast to coast must have a name so it is known in every worthwhile drug store in America as Allenru Number 2.

For your own protection insist on Allenru Number 2. Moore-Shepard Drug Co. or any reputable druggist in America will be glad to supply you.

Friday Music Study club meets at the home of Mrs. H. V. Price in Humboldt.

The Merry Wives Forty-Two club will meet with Mrs. L. A. White, at 3 p. m.

Selection of officers of the Eastland county Red Cross at the chamber of commerce at 2 p. m.

The Berean Sunday school class will be entertained at the home of Mrs. Sherman Roberts, 208 West Ninth street, with Mrs. A. L. Lankford, assistant hostess.

Abilene Man Entertains At Green Lantern.

There was a delightful dinner at the Green Lantern tea room Tuesday evening, when G. W. Fry, president of the West Texas Utilities company of Abilene, entertained a few friends, honoring his uncle and aunt, Mr. and Mrs. O. F. Pfeif, of Milwaukee, Wis., who have been with a party of tourists traveling through the western states and the Hawaiian Islands.

Mrs. R. H. Reese Hostess To Marigold Bridge Club.

The members of the Marigold Bridge club enjoyed a most pleasant afternoon when they met at the home of Mrs. R. H. Reese on West Ninth street. A profusion of cut flowers made the rooms very attractive. The hostess served candy and punch throughout the afternoon.

Kappa Bridge Club Met Wednesday Afternoon.

Mrs. Bob Smart entertained the members and guests of the Kappa Bridge club Wednesday afternoon at her home on West Tenth street. Mrs. C. H. Fleming and Mrs. A. H. Richardson were awarded the prizes for the club and Mrs. F. M. Skates and Mrs. S. W. Ward the prizes for the guests.

Humble Bridge Club Met Wednesday Afternoon.

Miss Mayme Davis was hostess to the members and guests of the Humble Bridge club Wednesday afternoon at her home in Humboldt. A variety of spring flowers were placed artistically in the rooms.

presented with a lovely luncheon cloth. Mrs. C. C. Moore won the second high prize and was given a set of lavender crystal water glasses. Mrs. E. J. Anderson was awarded the high guest prize which was a lovely rose Marie sandwich tray. The hostess, assisted by Mrs. Lee and Mrs. Stover, served a delicious two-course plate. The guest list included Messames W. J. Armstrong, Roy Stover, E. J. Anderson, M. D. Panchall, Jr., Statler, Fielding Lee, C. L. Mount, H. N. Pardee, O. C. Cope, John Ducker, Bob Carswell, Jack Kelly, Reggie Henderson, W. W. Wallace, Jake Almond, C. C. Moore, Mike McGannon, F. D. McMahon, A. C. Elter and Joe Hanrahan.

SINCLAIR NOT CALLED TO THE WITNESS CHAIR

WASHINGTON, April 19.—The defense rested suddenly this morning without placing Harry F. Sinclair on the witness stand as expected in the oil magnate's conspiracy trial. A 150,000 word deposition taken from Albert B. Fall at El Paso two weeks ago was not introduced. The defense presented a half dozen character witnesses including Peter Finley Dunne, creator of "Mr. Dooley."

That Baby You've Longed For

Mrs. Burton Advises Women on Motherhood and Companionship. "For several years I was denied the blessing of motherhood," writes Mrs. Margaret Burton of Kansas City. "I was terribly nervous and subject to periods of terrible suffering and melancholia. Now I am the proud mother of a beautiful little daughter and a true companion and inspiration to my husband. I believe hundreds of other women would like to know the secret of my happiness, and I will gladly reveal it to any married woman who will write me."

DR. MANCILL CELEBRATES 90 YEARS OF LIFE

(Cont'd from page One)

at his home in Alabama at the time General Lee surrendered to General Grant at Appomattox.

Dr. Mancill was married January 31, 1865, to Miss Martha E. Brazel, who was born in Chambers county, Alabama, May 1, 1842. She died several years ago. To this union three children were born—Robert W., William and J. Waddie Mancill, the two latter now deceased.

Dr. Mancill was made a Master Mason in July, 1895, and is one of the oldest Masons in West Texas. Until the infirmities of age prevented he took an active interest in Masonic affairs.

Now that this venerable physician is facing the setting sun of life, it was a pleasure for his friends to be his guests in the serene and yellow leaf of life, and offer their congratulations on this his 90th birthday anniversary, and to wish him yet many happy returns of the day. As the feast was finished, and as a fitting finale of this birthday celebration, there was read a poem of

the honoree's own composing, which is symbolic of the passing of time. It follows:

THE WEST INCLINE As I travel down the west bound road of time, and notice the changes, as time goes by—

The seconds to minutes and hours fast, To days and weeks soon grow To months and years so rapidly pass, I hardly see where they go.

As I came down the west incline, Seems just the other day, I passed mile post four score and nine.

And came on down the way, And as I travel down the slope, The sun is getting low, My frame is more inclined to stoop, My steps more short and slow.

Still walking down this life-time way, Toward the setting sun, I see it clearer every day, My work is almost done.

My eyes refuse to give clear sight, My ears to catch clear sound; So one by one, they take their flight, Of late years I have found.

I know my time is growing short; My race is almost run, I feel my strength is giving out, Just like the sinking sun.

Now, here I stand, at four score and ten; Which few men live to see; But God has been my Gracious friend, And granted this boon to me.

Now when I reach that final end— Where soul and body sever— I will meet my Saviour, truest friend, Who'll help me across the river.

That river is like Egyptian night, As on its brink I stand, But He can make it crystal bright, By wave of His omnipotent hand.

And when I reach that blissful place, And I its glory see, I'll shout and sing redeeming grace, For Jesus died for me.

STOP THAT ITCHING

Use Blue Star Remedy to relieve Eczema, Itch, Tetter, Ringworm, Poison Oak, Pimples, Dandruff, Sores on Children, Cracked Hands, Sore Blistered Feet, Red Bug bites and all itching skin diseases. It penetrates the skin, kills out the germs, stops the itching at once and restores most cases to a healthy condition. Blue Star Soap may be used as a cleanser before applying Blue Star Remedy. "A Foot of Comfort Means Miles of Pleasure"

"RED HAIR" IS A LAUGHABLE FARCE COMEDY

Clara Bow's personality is a representative one. She is the American girl of today, vivacious, care-free, warm hearted, capable of sustaining her own place in her own sphere and choosing through understanding the paths she shall follow. It is this quality in Miss Bow which has won so many hearts for her and "Red Hair" reveals this personality in its highest and purest expression. The picture is more than laughter-provoker. It is distinctly a study of American life, its customs and thought.

Lane Chandler, who plays opposite Miss Bow, is excellently cast for the part. He is typically American.

young and strong. He brings to "Red Hair" the spirit of youth and, in addition, he gives to his part, a splendid interpretation which bespeaks a native talent and a far-reaching power. Nor does he fail to respond in kind to the humorous and laugh provoking situations which Miss Bow knows how to handle so well. Several sequences of "Red Hair" are done in technicolor, revealing the warmth and beauty of a summer seaside resort. It reveals Miss Bow in an interesting study. Her red hair, heretofore hidden from screen audiences because of the unsatisfactory medium of black and white, is a revelation worthwhile seeing. The color process also uncovers Lane Chandler as a brilliant red head, probably the first leading red haired man in moving pictures.

ST. LOUIS MAN BUYS RUGS IN 37 COUNTRIES

LONDON, April 19.—Reputed to be the greatest rug collector in the

world, James Ballard, of St. Louis, for rare rugs. During his treasure hunt he has traveled 500,000 miles, visited 37 countries, and spent most of his life in Europe and Asia searching for rare rugs.

Daisies Won't Tell - but Our Mirrors Will

There are some things even your closest friend won't tell you. "How does my new hat look?" often brings a "Good" when it should be "Good Grief." But our mirror will tell you the gospel truth—and when you realize that one hat can look better than another just as one horse can run faster than another—you really should seek these headquarters for the quarters you are going to hire for your head. Miller - Lauderdale "The Man's Store"

Remember IT'S "SODA" not luck!

THE whole South now knows the story of the 1927 Cotton Champions... every one of them big users of Chilean Nitrate of Soda. It's Soda, not luck, that makes these record crops year after year.

Texas Champion Says:

"Some may think that the 300 pounds per acre of Nitrate of Soda that I used as a side-dressing on my 5 acres that produced 6,922 pounds of lint cotton, which won first prize in the Dallas News Cotton Contest, was too much. But I consider that this much or even more Nitrate of Soda in addition to 800 pounds of 12-4-4 per acre before planting can be used with excellent results on my type of soil, and there are millions of acres like mine in east Texas. I am also in the dairy business as well as that of growing cotton, and I find that to get the maximum production from my cows, I must feed them properly. This is also true of the cotton and I find Nitrate of Soda to be the most profitable plant food."

JOHN W. McFARLANE Texas Champion 1927 Palestine, Texas

Take a tip from your state champion. Side-dress your cotton liberally with Soda. The more Soda, the more profit per acre... and why not have more real money to show for this year's work?

New Fertilizer Pamphlet... FREE

Our new pamphlet "Side-Dressing Cotton and Corn" Shows how to make more real money. Tells how to use Soda after planting. It is free. Ask for Pamphlet No. 10 or tear out this ad and mail it with your name and address.

A Guarantee of more tire mileage at less cost per mile

We positively know that these tires have more quality and mileage built into them at the factory. That's a matter of better materials, workmanship and design. Our service, performed by experienced tire men, enables you to get all these in-built miles out. Just put two and two together—top quality plus real service—and you are bound to get full mileage as a result. When we say SERVICE we mean more than just carefully applying the tire. Our service lasts through the life of the tire—any time you drive in our men are on the job to inspect tires, rims and wheels and make sure that everything which affects tire mileage is in good working order. Brakes must be equalized; wheels must be in alignment; rims must be "true"; and without bent flanges; tires must contain the correct amount of air. A tire that is cut must be immediately repaired, so that the cut will not spread and cause loss of thousands of miles of service. Slow leaks in valves are adjusted. Missing valve caps, rim nuts, lugs and bolts are replaced. Our service work guarantees more mileage at less cost. Begin today, to save tire money. Come in and get your tires at the price you want to pay.

Table with 4 columns of tires: Firestone, OLDFIELD, COURIER, AIRWAY. Each column lists tire sizes and prices.

SOUTHWESTERN MOTOR CO.

Mrs. E. O. Decker of the Moran Country Raises Fryers and Has Made a Fine Success of Venture

Mr. and Mrs. E. O. Decker, of the Moran country, were shopping in Cisco Wednesday. Mrs. Decker is raising fryers for the market this year. She was quite successful last season, selling more than 1,000 chickens at an average of \$1.00 each.

Mrs. Decker says it is necessary to learn the business and then it comes rather easy. However, one must be prepared with a good brooder house and well equipped brooders. She uses an oil lamp and most of her equipment is home-made, but made from modern approved plans. Her first efforts were rather discouraging, losing almost half of her first purchase of 100 baby chicks, but she hunted the cause and now rarely loses more than 2 per cent and usually this loss is caused from weak hatchings.

She has her chicks custom hatched and gets them in lots of one or two hundred at a time at intervals of one week during the hatching season, which ends about July 1.

Mr. Decker says grass in the pastures is showing up fine and stock should do well where the pastures have not been too crowded. Grain is making rapid growth and with the large acreage which seems to have been planted this year the yield in his section should be very heavy, provided of course, the proper rainfall continues.

SWEETWATER IS AROUSED TO DAIRY NEEDS

Sweetwater is thoroughly aroused to the importance of the dairy industry, according to the Sweetwater Reporter, which tells of a recent trip of a special committee to Hico and other dairy centers. A report of R. M. Simmons, member of this committee, tells of the things seen on this trip, and the prosperous conditions of the farmers in the sections visited. At Hico they met the manager of the creamery, a Mr. Cleas-

son, whom Mr. Simmons quotes in his report. His plant, the report says, has proven quite an asset to the Hico country by furnishing a stable market for both whole milk and cream the year around, and has promoted the dairy industry to a point where the farmers engaged in this business are very prosperous. Quoting Mr. Simmons the Reporter says:

"Mr. Cleason told us of any number of farmers who had been head over heels in debt and had finally had to resort to the dairy business whether they wanted to or not, as the banks and merchants had already cut off their credit. These same farmers with small herds of four or five dairy cows, some chickens and a few hogs, have paid their debts, have money in the bank and are entirely independent."

"From Hico we went to Temple, where we visited a number of farmers who have gone into the dairy business and who are making a success of it."

Dairying on Shares

"We talked to one man who told us that he had ten registered cows. This man has turned his head over to another man who looks after them, does the feeding, milking, pays all the bills, etc., and at the end of each month they divide the profits. The owner of the herd told us that his one half of the profits from these ten cows, after all expenses were paid, amounted to five per cent per month on his investment, or 60 per cent per annum."

"We also visited Dr. A. C. Scott's dairy and saw what is supposed to be the finest herd of dairy cows in the state of Texas. We were very much impressed with the advice that we received from all of the farmers with whom we talked. They were all unanimous in advising us to tell our farmers that what they needed was registered stock and their further advice was that we assist our farmers to build up their herds by organizing 'bull circles' and importing the very best grade of bulls that we can buy."

"From Temple we went down to Round Rock and spent several hours at the cheese factory there in discussing the plant and the operation of the plant with the man who is in charge of it, an experienced cheesemaker from Wisconsin, as well as

with Mr. Nelson, one of the owners of the plant.

"Around Round Rock we also found the farmers enthusiastic over the results that they have obtained since going into the dairy and chicken raising business. Every farmer with whom we talked, as well as the president of the bank, told us that in the past two years conditions in that section have changed entirely. The farmers have money to spend every month and those who have as many as five cows figure that the money they get from their cotton crop is clear to them."

Sum Information

"In summing up the information that we obtained at the various places visited, it is our conclusion that at this time an intensive campaign should be put on to induce the farmers of Nolan county and the south half of Fisher county to go more extensively into the dairy business and also to make an effort to increase the production of the cows that they already have," Mr. Simmons' report concluded.

FIRE BURNING FOR 69 YEARS SOON TO BE OUT

Fire which has slowly eaten its way through the interior of the anthracite mine of the Lehigh Coal and Navigation company at Summit Hill, Pa., for the past 69 years will soon be extinguished, according to Frank Hall, deputy secretary of mines.

Hall, who has been with the mine department for 43 years, made this prediction in the face of facts which show that practically every known method of extinguishing mine fires has been used in the mine and has proved fruitless.

He said he based his belief on new methods which are now being used in the burning mine. Present plans call for construction of a solid concrete wall several hundred feet thick, across the shaft of the mine, he declared, adding that it was believed that this huge mass would be more effective than any other method that had been tried, and would finally prove successful.

Engineers have estimated that the stubborn creeping blaze has destroyed several million dollars worth of coal during the years it has been smoldering. Hall has been one of the most active persons in studying the wilderness with which the fire has defied all

efforts to check it, but he believes that the new concrete wall will cause its extinction.

According to Hall, the fire started when a workman who attended one of the large stoves, which were formerly placed at the bottom of the slopes for the comfort of the miners, accidentally shoveled a pile of hot coals into a wooden mine car and went to another part of the mine. The coals ignited the mine car and the flames spread to supporting timbers, finally igniting the coal.

THE MEANING OF '4-H CLUB' IS EXPLAINED

"Aside from the initiated, few really understand what is meant by the '4-H clubs,' as used in the demonstration work of the counties," said Miss Helen Swift, district home demonstrator, while inspecting the work of Miss Ruth Ramsey in Eastland county last week. "The '4-H' is symbolic of 'Heart, Head, Hand and Heip,' and is the ritualistic opening service in club work, repeated by the members in full as follows: 'I pledge my head to clearer thinking; my hands to more efficient service; my heart to truer loyalty and finer sympathy; my help to more efficient living; in service to my home, my community, my country and my God.'"

"It may be interesting to know that Texas is one of the few states that still retain 'Home and God' in their rituals," Miss Swift stated. "Texas has been imperturbed to omit these, but the extension service of A. & M. maintains that they are essential and have no idea of omitting them from the rituals."

Speaking of the work being done among the club women and girls by Miss Ramsey in Eastland county, the district demonstrator said: "It is really wonderful, and much good is bound to result. With the large membership of the clubs, naturally it is impossible for her to give each a demonstration in all matters, but she is reaching all the members through the county councils. There she gives the demonstrations, and the delegate from each club repeats these demonstrations to her home club."

Miss Ramsey is now looking after 200 club members in the 16 clubs in the county—eight women's clubs and eight girls clubs—each with a membership of 100." Miss Swift concluded.

ALL POTATO SLIPS SHOULD BE CERTIFIED

E. H. Varnell, agricultural vocationalist, has issued a warning to farmers to beware of sweet potato slips that are not state certified. A law for their certification was passed by the last legislature and does much to keep down sweet potato weevils, nematodes, gall worm and a number of other diseases. A part of the law reads: "Any person or persons who shall sell or offer to sell, or transport from any part of the state to another or into the state any plants or plant products declared by the commissioner to be carriers of dangerous insect pests or plant diseases, except under such rules and regulations as may be provided therefor by the state commissioner, shall be deemed

guilty of a misdemeanor, and upon conviction shall be fined in any sum not exceeding one hundred dollars, for each thing sold, transported, and each act in violation hereof shall be considered a separate offense. Provided that when any plants, plant products, things or substances, prohibited shipment or sale or distribution by any of the provisions of this act, shall be transported in violation hereof, the commissioner or his authorized agents shall be authorized to cause the same to be destroyed or returned to the owners thereof, at the option of the owner. Said commissioner or his authorized agents shall make known by telegraph or letter, as he may deem necessary, such fact of such illegal shipment and give a reasonable time for reply thereto, and if such reply is not made, then such infested or contaminated plants or plant products, things, or substances shall be destroyed in such manner as to protect the agricultural and horticultural interests of this state."

PUREBRED JERSEY CALVES BOUGHT BY LIONS CLUB

MARSHALL, April 19.—Twenty-five of the 41 purebred Jersey calves recently selected by representatives of the Lions club to be distributed to the 41 boys and girls of the Lions Calf club over the country arrived in Marshall Tuesday morning.

The remaining 16 calves will arrive here Thursday, from near Baton Rouge, La., the first lot having been purchased at Fort Worth.

The calves will be distributed to the boys and girls who have signed up for them, or who file their application within the next few days, following an all-day program at the fair grounds where the calves are being kept, said Harry Agnor, chairman of the distribution of the calves, Tuesday afternoon. A luncheon will be given for the boys and girls, and for their parents, according to the plans.

Purchase of these calves was made possible by the members of the Lions club in underwriting

notes at the State National bank. All financial arrangements were completed Saturday, excepting those who sign up during this week who will have completed their arrangements by Friday afternoon, Mr. Agnor said. The calves, all between 5 and 14 months of age will be drawn for, the price to be at cost.

Prominent dairymen will be present at the program Saturday to instruct the members of the Calf club in the care, feeding and judging of the calves. Announcement of the various prizes to be awarded at the Fair this fall for the best kept, trained and cared-for calves will also be made Saturday.

CREAM BUSINESS AT BERTRAM GROWS FAST

BERTRAM, April 19.—One cream station here has paid out approximately \$17,000 to the cream producers of the county in the past 12 months and the business is growing fast. From 10 to 12 cans of cream are shipped out every day except Sunday.

Vivid New Style

—reflecting advanced design throughout

The Sport Landau Sedan • Body by Fisher

With its modish, metropolitan lines—its high, narrow radiator and magnificent new Fisher bodies—the New Series Pontiac Six introduces a vividness of style never before achieved in any low-priced six.

Yet for all the admiration this fashionable beauty has excited, it means most to buyers because it so clearly reflects advanced design throughout this great new Six.

Just as no other low-priced six offers bodies by Fisher and the remarkable long life for which the Pontiac Six is famous, so does none

other offer the famous G-M-R cylinder head, the new cross-flow radiator and all those other recent developments which contribute so vitally to finer performance and greater owner satisfaction.

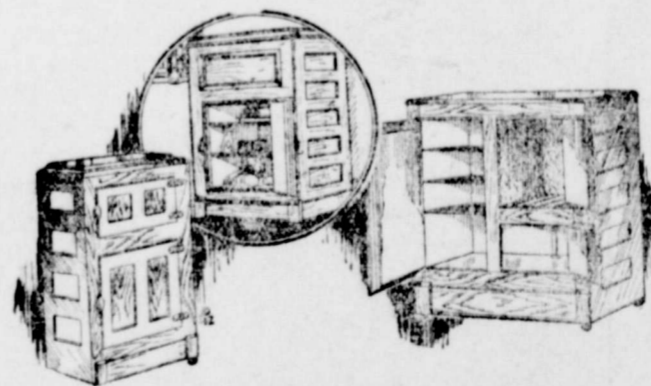

You cannot study the New Series Pontiac Six without sensing that it represents the truly progressive spirit in automotive design. You cannot drive it without marveling at its smoothness, snap and amazing roadability. And you cannot buy it without sharing the feeling of all other owners that here is the world's finest low-priced six!

2-Door Sedan, \$745; Coupe, \$745; Sport Roadster, \$745; Phaeton, \$775; Cabriolet, \$795; 4-Door Sedan, \$825; Sport Landau Sedan, \$875; Oakland All-American Six \$1045 to \$1265. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the liberal General Motors Time Payment Plan.

Marshall Ratliff is Promised Eternal Reward if He Declares He is a Christian and Repents

ABILENE, April 19. — Marshall Ratliff, condemned to die for the murder of G. E. Bedford, Cisco chief of police, killed during the holdup of the First National bank of Cisco December 23, was assured Wednesday of "eternal reward" in return of his declaring himself a Christian man, and setting out to prove it. A short sermon was preached to Ratliff, peering from a barred window on the third floor of the county jail, by Rev. S. J. T. Williams, evangelist, standing on the ground beneath.

on to Hubbard City to open a revival meeting. Mr. Williams called on Sheriff H. T. O'Bar to seek permission to visit Ratliff in his cell. The revivalist has had long experience with condemned men — for many years was superintendent of the Star of Hope Mission of Houston, an institution famous for its work with the down-and-out.

The sheriff regretfully explained that his "no visiting" rule would have to apply to all. He said he had been persistently annoyed by people wanting to see Ratliff, and, as a self-defense measure, had been forced to put on the ban. He invited the evangelist, however, to make his talk from outside of the jail.

Fellow prisoners told Ratliff a man was below, wanting speech with him. With Lee Smith's assistance Ratliff pried open the third floor window with a broom handle. Williams called out: "Hello, fellows, how are you?" "Oh, pretty good," answered Ratliff.

"Which of you is Marshall Ratliff?" the revivalist asked. A hand went up, and a voice: "This is me."

Said Mr. Williams: "I am glad to know you. I am not a lawyer, only a preacher, and I have a lifetime interest in condemned men. I have seen lots of them pass through the one-way door in San Quentin and Sing Sing, and I have seen lots more of them saved. Boys, I talked to 1,742 men in San Quentin prison. There was one man who had done 18 years, the last six years in solitary confinement. He made a public profession of religion that day—and today he is in the tailoring business in San Francisco and doing fine."

"I have nothing material to offer you, Marshall, but if you become a Christian man and set out to prove it, then I can assure you of the highest reward obtainable—a reward that is eternal."

The talk ended. The revivalist promised to write Ratliff and Smith every day and keep them in stamp money. The whole jail population had been listening attentively, but none more attentively than Marshall Ratliff.

Forced To Sleep in Chair—Gas So Bad

"Nights I sat up in a chair, I had such stomach gas. I took Adlerika and nothing I eat hurts me now. I sleep fine." — Mrs. Glenn Butler.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Tomlin Drug Co.

BAPTISTS IN FIFTH SUNDAY MEET APRIL 26

3:30—"Why an Associational B. Y. P. U.?"
General discussion—Led by Admiral.

CISCO CHOSEN FOR NEXT MEET PRESBYTERIAL

ABILENE, April 19.—The Fort Worth Presbyterial at the concluding session Wednesday afternoon selected Cisco as the 1929 meeting place.

OFFICERS ELECTED.
ABILENE, April 19.—In addition to selecting Cisco as the next meeting of the Presbyterial of the Fort Worth district of the Southern Presbyterial church, Election of officers for the coming two years, reports of district chairmen and addresses by Mrs. O. V. Colvin, of Fort Worth, and Mrs. Alex Gray, of Itasca, were features of the Wednesday morning session of the annual convention which closed its three-day meeting here late Wednesday.

Mrs. R. E. McDonald, of Stamford, was elected vice-president of the body; Mrs. R. M. Tadlock, Jr., Fort Worth, was re-elected recording secretary; Mrs. Paul Hoppe, of Abilene, was named historian, and Mrs. W. P. Watson, of Cisco, was chosen treasurer to succeed Mrs. Hoppe, who has been serving in that capacity.

Cause secretaries elected were Mrs. David Vickers, Sweetwater secretary of Assembly's home missions; Mrs. M. L. Baker, Haskell young people's and Sunday school extension work; Mrs. B. M. Fair, Cleburne, Christian community service.

Hold-Over Officers.
Officers of the Presbyterial, whose terms do not expire until 1929, are: Mrs. R. B. Rawls, Fort Worth, president; Mrs. J. A. Templeton, Fort Worth, corresponding secretary; Miss Minnie Barton, Itasca, secretary of spiritual life; Mrs. F. D. Pierce, Cisco, foreign missions secretary; Mrs. H. E. Sherrill, Haskell, secretary of Synodical and Presbyterial missions; Mrs. C. J. Roots, Grandview, secretary of Christian education and ministerial relief; Mrs. H. A. Turner, Stamford, secretary of literature.

1929 are: Mrs. R. B. Rawls, Fort Worth, president; Mrs. J. A. Templeton, Fort Worth, corresponding secretary; Miss Minnie Barton, Itasca, secretary of spiritual life; Mrs. F. D. Pierce, Cisco, foreign missions secretary; Mrs. H. E. Sherrill, Haskell, secretary of Synodical and Presbyterial missions; Mrs. C. J. Roots, Grandview, secretary of Christian education and ministerial relief; Mrs. H. A. Turner, Stamford, secretary of literature.

Members of the nominating committee were: Mmes. R. L. Haynie, Stamford, chairman; Mrs. Gary Smith, Sweetwater; Mrs. Z. A. Hudson, Graham; Mrs. T. R. Walker, Cleburne.

Of unusual interest at this meeting were the reports of district chairmen, many of them illustrated by posters emphasizing outstanding work of the local authorities.

Chairmen reporting were: Mrs. Frank Kirk, Abilene, district No. 1; Mrs. R. E. McDonald, Stamford, No. 2; Mrs. C. B. Hockaday, Graham, No. 3; Mrs. T. S. Hall, Thurber, No. 4; Miss Elith Bowman, Fort Worth, No. 5; Mrs. Alex Gray, Itasca, No. 6.

Mrs. Colvin's address was on "Woman's Summer School of Missions" and Mrs. Gray talked on "Our Responsibility of Leadership Training."

Dr. Henry Sweets of Louisville, Ky., executive secretary of Christian education and ministerial relief, who was the principal speaker at the opening session of the convention.

ing school at the Stillman Institute at Tuscaloosa, Ala. Members of the cast were Miss Edith Bowman, Fort Worth; Miss Stella Hovey, Fort Worth; Mrs. J. M. McLean, Throckmorton; Mrs. Frank Davis, Itasca; Mrs. C. W. Boney, Cisco; Mrs. M. L. Baker, Haskell; Mrs. R. M. Tadlock, Fort Worth, and Mrs. C. E. Ashmore of Fort Worth.

MAN CONFESSES THE HALL-MILLS MURDER

EL RENO, Okla., April 19.—Elwin F. Allen, 28, was being held incommunicado in the county jail today following his amazing confession last night that he slew Rev. Edward W. Hall and his paragon, Mrs. Eleanor Mills, near New Brunswick in 1922. In a signed statement he declared a distant relative of the Hall family gave him \$5,000 and an automobile to kill the couple who "disgraced their families." New Jersey authorities are checking the story.

EARTHQUAKE KILLS 25; INJURED MORE THAN 60

LONDON, April 19.—At least 25 were killed and more than 60 injured in an earthquake which rocked Bulgaria last night, according to Central News dispatches from Sofia.

To make a white house stay white

HOW to make a white house stay white is a problem Cook's have solved by perfecting Armocote Super-White—the remarkable semi-paste paint that has been proved by scientific test and years of use to be the whitest, most durable, solid-covering paint possible to manufacture. Exposure to the sun causes it to bleach to an even more dazzling white; so that a building painted with Super-White stays white for years.

Super-White has more spreading and hiding power than any other paint and consequently holds tints better. Because of its clear and intense whiteness, it may be attractively tinted in a wide range of clear, beautiful shades, such as cream, ivory, yellow, tan, blue and green.

Something You Should Do this Morning--

by
A. D. ANDERSON

When you go out this morning to rub up the nickel, or wash the June bugs off the windshield, just pause for a minute before you back out of the garage. LOOK AT THOSE TIRES! If they look the least bit under-inflated or otherwise in need of attention, wheel right over to our Service Station.

IT'LL ONLY TAKE A FEW MINUTES for ordinary inflation and inspection. We'll do all the work and you can't pay us a dime for that attention. Because we figure our job is to save you money on tires. WE BEGIN WHEN WE OFFER YOU Goodyear Tires. All genuine firsts, and brand new—fresh from the factory at Akron. WE PRICE THEM HONESTLY. And sell them to you, your neighbor, and everybody else at exactly the same price. No fooling or kidding about special discounts, or anything of the sort. YET GOODYEARS, and Goodyear-built Pathfinders, cost no more than the "unknowns." For example, we offer genuine Pathfinders, made by Goodyear, at these prices:

30x3 1-2 (clin.)	\$ 8.15	29x4.40	\$ 9.45
30x3 1-2 (ss.)	\$11.20	31x5.25	\$16.00
32x4 (ss.)	\$14.85	33x6.00	\$19.15

(Other sizes priced proportionately)
Remember those prices, too! And by all means help yourself to our service. Come on over!

WOMEN'S CLUB COUNCIL HAS MEETING SAT.

The County Council of Women's clubs was held Saturday afternoon, beginning at 2:30 o'clock, at the North Star club room, at the home of Mrs. Lee Burkhead, near Rising Star. Miss Ruth Ramey, county demonstration agent, who attended the meeting, was accompanied by Miss Helen Smith, district demonstration agent.

Spent in Cisco on their return Miss Ramey said: "The County Council of Women's clubs held regular meetings monthly, where the demonstration agent gives a demonstration, and one member from each club repeats this demonstration before their respective clubs. By this means we give the work to all members who are not privileged to attend the county council, as it is impossible for the demonstration agent to visit and give these demonstrations to all the clubs.

"The county button hole contest will be held about the middle of June when there will also be a household linen contest. Each club member is making some article for the home, in which colors and decorations are not permitted. The object in omitting these is to teach the members to make linen for the household as attractive as possible with the least work and expense. No prize or reward is offered in the linen contest, but the winner
