NUMBER 58

TEXAS

By WILL H. MAYES, Austin.

TEXAS TEXTILE PROPHECY.—Texas eventually must become the leading textile center of the United States. That statement was made in Dallas this week by Gordon Bunker Texas Bliss, Fabrya Co. of New York. Mr. Bliss is a member of the group of New England textile and financial men now touring Texas under the auspices of the Texas Industrial commission to make a first hand study of the opportunities for textile manufacturing in this state. The statement represents the views of practically every capitalist and manufacturer who takes the time to make a study of Texas conditions. It will have more weight than if made by a Texan, for it is an unbiased view of a financial leader who has taken the time to study conditions as they exist over the entire country. Let's get the thought impressed upon every Texan's mind: "Texas eventually must become the leading textile center of the United States." Then, let every Texan do his part to bring that eventually right up to the present time. It would be well to adopt a well known advertising motto: "Eventually, why not now?"

Mr. Bliss was not satisfied to make a mere flattering prediction, but he proceeded to tell the reasons for the faith within him, and he did it in a few concise sentences: "Occupying a Texas Bliss, such a large geographical area and with developing outlets to markets, both in radius of the center of distribution of this country and port facilities to Europe and the Orient, it is altogether logical that business men in textiles look toward Texas as the next important step to be considered." Texas grows about one-third of the American cotton crop and this country produces not less in any short crop year than 60 per cent of the entire world production of cotton. We know that just as the major cotton producing section of this country has shifted from the Southeast to the Western belt, due to weevil damage and soil depletion in other sections, we look upon Texas as a great empire with a comparatively small population and a section which is economically destined to make tremendous progress during the next quarter century."

FAVORABLE IMPRESSIONS.—This is Mr. Bliss's first trip to Texas and he is seeing so much and hearing so much more that he admits he has had so many favorable impressions that he has "had time to think it all out." As he and his party continues through the state and see a small part of the vast acreage planted to cotton and studies the immense port developments of recent years and still in progress at Port Arthur, Galveston, Houston, Corpus Christi, Point Isabel and other points, they will be even more enthusiastic about manufacturing possibilities not only in cotton but in many other lines.

WOOLEN MILLS NEEDED.—What Mr. Bliss said about cotton manufacturing applies with as great force to woollen goods production. Texas has become the great wool and mohair producing state of America, and the industry has only fairly started in the last few years. There are hundreds of thousands of acres in the state that will soon be stocked with sheep and goats and these acres are in a country and a climate in every way adapted to the business. The annual wool clip in this state is now about 25,000,000 pounds and the yearly increase is at least 20 per cent. As pointed out by citizens of the leading sheep growing section of the state, there is now a great economic waste in paying freight on raw wool to the factories in Boston. Approximately two-thirds of the weight of raw wool is grease and dirt. The saving in freight at \$2.25 a 100 pounds on approximately 17,000,000 pounds of grease and dirt in the wool would amount to about \$420,000. Hydro-electric developments under way on Devil's river, near Del Rio, and being planned in connection with the big irrigation project at Eagle Pass, assures an abundance of power and all the water needed in connection with the manufacture of woollen goods in that part of the state. Other power and water projects throughout the state are of proportions to assure manufacturers of an abundance of power and water at reasonable rates.

GAS TAX REVENUES.—Unless something is done in the way of remedial legislation the gas tax rate will drop automatically from 3 cents to 2 cents on September 1. This tax is now producing a revenue close to \$20,000,000 a year. Gas consumers have made very little complaint about paying it, especially as they have felt that they have been getting returns in the way of better roads. Whatever complaint has been heard has not been as to payment of the tax, but as to how and by whom it should be expended—whether by state, county or city.

CISCO DELEGATES LEAN TO SMITH

Big State Road Bond Issue Asked OF 36 MEMBERS

At Least \$300,000,000 for Texas Highways Is Recommendation of Highway Commission Chairman

By R. S. STERLING, Chairman, State Highway Commission.

More than a year's service as chairman of the state highway commission has convinced me finally that the solution of the Texas road building problem is a statewide bond issue. In fact, I have been of this opinion for a long time, and was the first to advance the idea that I shall suggest, as a remedy for the ills of the present Texas highway system. I have, heretofore, with- held outright espousal of the plan, until I could test my views by a thorough first-hand study of the situation. A year of practical contact with the problem has confirmed and strengthened my conviction. My proposal is to vote a statewide bond issue of from \$300,000,000 to \$350,000,000, to be retired over a period of years, with revenues from the gasoline tax; to use as much of the money per year on highway improvements as can be spent efficiently and economically; and to reimburse all counties for money they have spent on state roads, so that they can use it to build lateral roads. The bond issue would finance a program which would put all the more important highways in good condition in five or six years, and continue the process of perfecting with the utmost possible speed.

There is no other way to get the highways of this vast state improved and linked up into a connected, correlated system in time for this generation to enjoy them, than a method whereby enough funds can be raised to do the work rapidly and connectedly. With present resources and methods, it would take 30 or 40 years to complete the existing system of state roads, comprising more than 20,000 miles; to say nothing of the hundreds of miles of others that are becoming more and more urgently needed as the state grows, space, and are clamoring for designation. Under the present system, the highway commission must distribute its aid only to counties that offer their part of the financing. This makes it impossible to close the gaps and link up even all of the most important routes, for some of the counties can not or will not vote bonds for their share.

By the same token, this system is unfair to the poorer counties—those that cannot afford the necessary bond issues; and it permits the richer counties to get more than their just share of state and federal aid. Likewise it takes from the counties money for state highways which rightly should go toward building their local and lateral county roads. Some counties, in their laudable zeal for good highways, have voted bond issues which they will find it sorely difficult to meet, unless they are given such aid as my plan contemplates, for local road building. Coming generations will reap the same benefits from the highways that we will enjoy; even more, for we are in the painful throes of metamorphosis, suffering all the hardships and inconveniences of unfinished building. So it is only fair for the future citizenship of Texas to pay their part of the cost, and at that, they will get a better bargain than we—as we are building roads now that will undoubtedly last 50 years or more. At all events, this plan would place no added tax burden upon them, as will be explained.

Constitutional Amendment Asked.—Indeed, the tremendous advantages of having good roads as quickly as possible will soon pay for them. Lack of good roads has been the greatest deterrent to settlements in Texas during the past decade, and a particular drawback to our farmers in marketing their products. But for that great handicap Texas might now be enjoying the same phenomenal growth which good roads made possible in California. Smooth connected highways will bring homeseekers, settlers, industry and trade swarming to Texas. Those incoming forces will not only contribute a large share of the taxes to pay for the highways, but will bring wealth that will soon more than pay for them. A constitutional amendment will be necessary before the statewide bond issue can be effected. Such an

amendment I believe will carry over-whelmingly, when the people understand what it means. And why shouldn't it?

Here, briefly outlined, are the particulars of the program I propose: Vote a bond issue of \$300,000,000 to \$350,000,000, on the express condition that the state will refund the counties for money they already have spent on state highways since the beginning of the state highway department; not the exact amount spent but an amount proportional to the appraised value of the roads at the time the program goes into operation. For instance, say a county has contributed \$1,000,000 toward building \$3,000,000 worth of state roads in that county. When the appraisal is made those roads will be, say, five years old, and will have depreciated in value through natural wear and tear, so that their actual value will be only \$2,700,000. Well, then, the county will receive back then the full \$1,000,000 it contributed, but that amount minus the one-tenth depreciation or \$900,000.

Would Reimburse Counties.—The plan is to make those reimbursements in yearly installments to all counties that have spent money; the counties to use the funds for improving their lateral roads. So it really would amount to state aid for county road building.

According to the best information I have been able to procure, through a compilation of all available records, the counties of Texas have contributed less than \$50,000,000 on state highways since the time the state highway department began its present system of financing.

By thus rebating the counties by degrees over a period of years, the state would have enough of the money left on hand to carry on a program as great as it can efficiently handle, to get the primary highway system built as speedily as it is possible and properly can be done.

That speed, under present conditions, would be limited by the amount of road material available in the state. It would not be wise to create such a demand for those materials all at once that they would become scarce and higher.

TURN TO PAGE 6, COLUMN 4

HOLLYWOOD'S OLD MURDER CLEARED UP?

FOLSOM PRISON, Calif., May 5.—J. C. Barrett in a confession to Warden Court Smith today claimed to have been the slayer of William Desmond Taylor, noted movie director whose murder in Los Angeles six years ago has remained a deep mystery. Barrett completed a four year term for grand larceny on March 28. He also confessed that he murdered a nurse whom he called Evelyn while holding up a doctor's office in Louisville, Ky., on Christmas eve, 1921.

LOS ANGELES, May 5.—J. C. Barrett, Folsom Prison convict who today confessed to the murder of William Desmond Taylor, made a similar declaration two years ago to Ed C. King, chief detective for the district attorney's office, said Barrett's previous confession that he had been hired by two motion picture actresses to murder Taylor was discredited at a grand jury investigation, King said.

BAIRD LIONS GET CHARTER FOR NEW CLUB

The presentation of the charter to the Lions club at Baird last Thursday night was featured by a banquet given by the club, when W. H. LaRoque, president of the Cisco Lions club, made the presentation. Besides President LaRoque those from Cisco attending the banquet were Mrs. LaRoque and Mr. and Mrs. Clayton Orn.

Two months ago the Cisco Lions instituted the Baird club with a membership of eight, but the club has steadily grown until the membership numbers 22 active members. Cal. C. Wright is the president of the Baird club, and C. V. Morgan is the secretary.

A splendid talk was made by Clayton Orn during the banquet, and several of the Baird Lions responded to toasts.

AMARILLO, May 5.—The Henry Lyman ranch, composed of 5,700 acres, and one of the oldest in the Panhandle, has been purchased by Julian Bivins, son of Mayor Lee Bivins of Amarillo.

Capt. N. F. Payne Spanish-American War Veteran and Prominent Cisco Insurance Man, Dies Here Saturday

Capt. N. F. Payne, prominent and popular local insurance man and Spanish-American war veteran, died at his home, 1095 West Broadway, Saturday evening about 6 o'clock, after an illness that extended over several months.

While realizing that Captain Payne was seriously stricken, his many warm friends were shocked and deeply grieved when his passing was announced. Several months ago he left Cisco for Washington, D. C., where he was treated in the government hospital, and returned here recently unimproved, but until a week ago was able to be down town and gave little indication that his malady was of such a serious nature. Except those most intimately associated with him few were aware of the seriousness of his condition. The funeral services will be held at the residence this afternoon at 3 o'clock under the auspices of the Cisco lodge No. 1379, Benevolent and Protective Order of Elks, of which he was past exalted ruler and a life member. Rev. B. C. Boney, chaplain of the Cisco lodge, will officiate. Burial will be in Oakwood cemetery.

JOE DICKSON IS A VISITOR.—Joe Dickson, former superintendent of the state fish hatchery at Cisco, but now located at Wichita Falls hatchery, is spending several days here conferring with Supt. B. B. Wright, of the Cisco hatchery. His many friends warmly greeted him on his first visit, since he was transferred. Mr. Dickson says he is building a splendid plant at Wichita Falls.

KITRELL IS SMITH WORKER.—W. H. Kittrell, Jr., formerly of Cisco, but now living in Dallas, has been chosen as the secretary of the Texas Smith for Governor club, with headquarters at Dallas. Will Kittrell is well known here, where he spent his boyhood days, and is a son of Mr. and Mrs. W. H. Kittrell, Cisco.

GIRL INHERITS ESTATE.—ST. LOUIS, Mo.—Miss McNeil Cobb, an instructor of English in a school here, has inherited the New Zealand estate of her great uncle, Benjamin Sherpe, valued at one hundred thousand dollars.

PRESSURE ON CAROLINA DAM IS RELIEVED

GREENVILLE, S. C., May 5.—Fear that the giant dam at Table Rock Cove would give way and pour 6,000,000 gallons of water into the verdant Saluda valley was considerably diminished tonight when heroic measures taken this afternoon by engineers relieved pressure on the breaks.

Engineers this afternoon opened the flood pipes and hope was entertained that the danger had passed. After the flood pipes were opened the flow of water from the dam was increased, swelling the Saluda river slightly beyond its banks. Should latest measures fail the entire valley will be inundated if the huge quantity of water is unlashd at once, officials said.

ST. LOUIS, Mo.—The Henry Lyman ranch, composed of 5,700 acres, and one of the oldest in the Panhandle, has been purchased by Julian Bivins, son of Mayor Lee Bivins of Amarillo.

Country clubs are being manifested by players of both teams and the match this afternoon promises to be a thriller from start to finish. The Cisco course has been trimmed and groomed during the past two weeks for this occasion and is in excellent condition for tournament play. All greens have been placed in excellent shape and fairways mowed. At each tee a tee box with roof has been erected which adds considerably to the course.

Albany won from Cisco at Albany two weeks ago today and Cisco golfers are playing with their backs to the wall and from all accounts, they will give a good account of themselves this afternoon. Whether Cisco gets on the air mail route or not, it is a dead certainty that it will have a landing field eventually. The time isn't far off when landing fields will be as essential to a city as paved roads.

Eastland County G. O. P. Vote to Go for Hoover; Callahan, Stephens and Shackelford Likewise in Line

Herbert Hoover will get the votes of the Eastland county delegation to the state Republican convention in Dallas May 22, F. A. Blankenbecker, Cisco Republican leader, said yesterday after hearing reports from virtually all county precincts. The vote at the county convention in Eastland Tuesday will be almost unanimous for the secretary of commerce, Blankenbecker said. The delegates to the Republican convention in Shackelford, Stephens and Callahan counties also will be almost unanimous for Hoover, Blankenbecker said. Blankenbecker, Guy Dabney and J. S. Stockard were elected delegates at the West Cisco convention at the city hall at 4 o'clock. The alternates will be H. A. Bible, W. J. Leach and H. E. Bennett. W. W. Wallace will be the dele-

WOMEN'S CLUBS ARE STRONG

WOMEN'S CLUBS are strong in the development of negro and Mexican music, and is assisting in many towns in the establishment of choral organizations. It is an established truth that "A tune a day, keeps the gloom away" and a more contented and happy community is always found where music is sung and appreciated.

DISSOLUTION OF PARTNER SHIP.—On and after March 3, 1928, Cisco Paint & Paper Co., composed of J. G. Rupp, Y. C. Woodfin and F. D. Pierce, has been dissolved and will be operated in the future by F. D. Pierce, who has assumed all the indebtedness of the partnership and will collect all bills owing the same. —P. D. PIERCE.

Immediate Census of Milk Cows Within Thirty-Five Mile Radius of Cisco Is of Supreme Importance

The establishment of a mammoth milk plant to consume the sweet cream that should easily be produced in this territory is the paramount issue confronting the farmers and business men of the Cisco trade territory.

The Daily News thinks that all energies available should be concentrated toward the consummation of this project to the exclusion of all other undertakings not already so far launched as to make their neglect fatal to their completion. The News also thinks that the secretary of the chamber of commerce should immediately proceed with a census taking of all cows in a radius of thirty or forty miles.

Of course, it is understood that perhaps the secretary would not take the actual count in the territory adjacent to other towns in this prescribed district, but he should be able to interest the secretaries of chambers of commerce or civic clubs of those towns as to their own interest in the matter to the extent that their cooperation in the census taking would be gladly given. For instance, Baird's chamber of commerce or Lions club, both of which are live organizations, being, as they are, composed largely of the same men, would see at once that it would add to the prosperity of their own trade territory if they could find a near market for a large quantity of butter fat each month at a handsome price.

Breckenridge, Moran, Albany, Putnam, Baird and Cross Plains are surrounded by rich farms and fine pasture land that would be ideal for the dairying industry. Different kinds of hay and much roughage suitable for ensilage could be raised.

The complete network of good roads traversing this section would make the gathering of cream an easy matter. Cottonwood, Clyde, Rising Star, Carbon, German, DeLeon and Desdemona are sections that would be able to produce all the legumes necessary to supply the hard land districts that might not be able to produce them.

The finest peanut hay in the world went begging in these sections last year at 25 cents per bale.

Soy beans and cornfield peas are very prolific in any of this territory when planted.

Feed can be produced and stored in silos sufficient to feed many more cows than this territory can hope to command during the next few years. The routes should extend through Eastland, Ranger, Olden and take in Strawn. The Hico creamery has routes extending more than sixty five miles, perhaps longer. One extends into Comanche county that is more than the above distance. And nowhere in Texas can a better system of highways be found than in our own section. So it would seem that all of these towns should eagerly join

us in a system of development that would be of mutual advantage in bringing much wealth to our respective rural populations.

Not only should Cisco make a count of actual cows now on the farms of these various sections, but we should cause each farmer to state how many cows he would add to his herd, provided a market was assured and a plan was provided whereby he could receive financial aid in the purchase of this additional stock.

Through the enterprise of E. H. Varnell, an approximate count of cows in a radius of eight miles of Cisco has been made and shows a result of about 3,000.

From 13,000 to 15,000 cows would most certainly interest a concern the size we would like to attract. And it may readily be seen that such a district as we have suggested would provide a far larger number than this.

Then, add to this count of actual cows the expected increase resulting from an assurance of a stable market, and one can see that this census should immediately command the attention of such concerns as those mentioned above. Thus it appears that the matter of cows should not be a serious obstacle in the way of immediate advancement, since a careful census will very likely develop the fact that we already have sufficient milk cows to at least make a start. And there must always be a starting place. Pasture and feeds are matters

us new reason for satisfaction in the wisdom of the British-American statesmen who a century and a half ago definitely separated church and state.

GAS TAXES

The tax of two or three or four cents a gallon paid by the motorist at the service station seems little, but is mighty. Such penny-collections throughout the country last year brought in \$259,000,000. Of this amount \$182,000,000 was spent on state highways. It made up nearly one-fifth of all the money paid to build and improve roads in this country, and was the backbone of such expenditure.

Victory of the Chinese Nationalists first over Bolshevism and then over the northern war lords in Peking is the result of American insistence on letting the Chinese manage their own affairs.

DANGEROUS INDIFFERENCE

A newspaper writer names indifference as the outstanding threat to the stability of our government. It is to him a more serious menace than any of the familiar bugaboos such as red propaganda and sex plays. It permits the "white lying and technical innocence" which are too often substituted in place of thorough honesty and fundamental right-doing.

MINIST. IS APPRECIATIVE

Cisco Daily News, Cisco, Texas. My Dear Friends: Allow me to congratulate you on the full page given to religious matters in The Cisco American of this week. I understand that it is your policy to run, each week, for the next twenty-six weeks, a full page add on some general religious theme.

DO YOU REMEMBER?

Little Theresa Weddington has made an unbroken record in the Cisco public schools, and has not missed a day or been tardy in the past four years. Miss Theresa is a bright little Miss, the only daughter of Mr. and Mrs. R. F. Weddington. She is nine years old and is exceptionally bright.

GARAGES AND HOMES

It is found that the American people last year built more garages than dwellings. Which is interesting, but not very important. There is no use in going out of the way to criticize it. Automobiles need homes; their owners already had homes. More to be deplored is the fact that there was more money spent in this country last year for apartment houses than for single family houses.

ENGLISH PRAYERS

The newly revised prayer book of the Church of England is approved again, with few changes, by the vote of the church authorities, and now goes back to parliament. It is expected that the house of lords will approve it again, then it will go to the house of commons, which will reject it again. Then they will all be where they were before, only more so.

Valuation of Building Permits During April \$28,700

Large Part of Construction Is Being Done Without Recording; Five New Homes Listed in Month

PRES. ROBERTS ENDORSED BY CISCO C. OF C.

At a called meeting Thursday evening of the directors of the chamber of commerce, the hearty cooperation of the body was extended Randolph college in its various activities under the administration of President T. T. Roberts in the adoption of the following resolution:

"Be it resolved that the Cisco chamber of commerce has the utmost confidence in the ability and integrity of Dr. T. T. Roberts and the management of Randolph college, and feel sure that with the cooperation of the citizenship of Cisco, and friends of the school, it will, in a few years, grow into a school of which any town or denomination will be proud."

Other matters disposed of included the selection of Mayor J. M. Williamson to represent Cisco at a city planning conference to be held in Fort Worth next Monday.

Judge Eugene Lankford made a detailed report of the Cisco delegates' activities in organizing the Texas forces for both the routing and official personnel of the Broadway of America motorcade at the Memphis convention, which showed that the Cisco delegation got all it went after.

J. E. Spencer, another member of the Cisco delegation, reported for the committee that made the inspection of the milk plants in three different states, which was the most comprehensive and instructive report of the daily industry yet made before that body. Mr. Spencer was given the closest attention by every one present.

Other matters of importance were taken up and considered of a constructive nature which are now in the formative state that will be mentioned when the projects have been more maturely developed.

Those present at the called meeting were President Guy Dabney, A. D. Anderson, H. S. Drumwright, J. T. Elliott, Dr. Charles Hale, W. K. Johnston, A. B. O'Flaherty, W. W. Wallace, J. M. Williamson, L. A. White, C. R. West, T. J. Preston, E. H. Yarnell and J. E. T. Peters.

End the Pains of Rheumatic Joints

Swollen, twingy, pain tormented joints are usually caused by rheumatism.

To bring comfort and relief, thousands rub in Joint-Ease, a soothing emollient that druggists everywhere have a big demand for.

For lumbago, sore, lame muscles, burning feet, neuritis, sciatica and chest colds its comforting influence will be appreciated. It's not expensive—only 60 cents a tube. You can always get Joint-Ease at Moore-Shepard Drug Co.

BONDED TRUCKS

Throckmorton's Dream Comes True at Railroad Celebration; 15,000 Join in City's Jubilee

Throckmorton's place in the sun at last has been attained—it is connected with the outside world by railroad. With all the pomp and ceremony that a western town can marshal the first "iron horse" of the Texas & Pacific was welcomed into that city Friday. The pent-up exuberance with which that town and section have looked forward to the day of days was turned loose when the train arrived with its hundreds of visitors and the occasion was one which will remain forever in the memory of Throckmorton's sons and daughters.

The celebration was a homecoming, too, for Throckmorton. Many of the 15,000 persons who joined in the festivities were former residents of the county who had come from distant parts of the state—and some from outside of Texas. The day was a union of the old west and the new. The new was represented by the railroad; the old, in spirit, at least, by the pioneers and sons of pioneers who greeted it.

The parade from the station to the heart of the town, a distance of a quarter of a mile, was one of the most colorful ever seen, and again typified the old West. More than 100 men on horses led the parade.

The entire retinue of the Swenson and Davis ranches being on hand. The horses were blocked according to color.

Four men, mounted on whites, led followed by 10 men on iron grey, and then came a group of silver duns. After that came the paint ponies, a score of them followed by sorrels, blacks and blaze faces. Cattlemen said it was one of the finest exhibitions of horse flesh of the range they had ever seen.

Indians in the full panoply of war rode in the parade. There were 32 of them, Kiowas and Comanches. Then there were bands, and bringing up the rear, men, women and children, afoot and in automobiles.

After the addresses of welcome, responses and talks by a number of candidates and railroad officials, the thousands of visitors were served dinner at the barbecue pits near town. Twenty-eight beehives were barbecued and more than 1,200 gallons of coffee served from a 350-gallon pot once used as a dipping vat.

EASTLAND HAS COLORED CHOIR OF 36 MEMBERS

EASTLAND, May 5. — A recent organization musically in Eastland is the A. M. E. sing song with Blanche Thomas, of Cisco, as director and pianist. Thirty-six voices are in the chorus and programs have been given in the city hall at Cisco and here in Eastland. The girls all wear white dresses and the men blue serge suits. Great interest is being developed among the colored people in musical lines by this organization and they are receiving fine training.

To add to the programs they have soloists and readers. They are specializing in jubilee songs and their favorite selections are "I Want to Stand Right on the Shore," "You

Better Run, Run, Run," "Four and Twenty Elders Down on Their Knees," "Swing Low, Sweet Chariot" and "Lift Up Every Voice."

It is interesting to know that this musical organization is working in this town, as the Texas Federation of Women's clubs is stressing the development of negro and Mexican music, and is assisting in many towns in the establishment of choral organizations. It is an established truth that "A tune a day, keeps the devil away," and a more contented and happy community is always found where music is sung and appreciated.

DISSOLUTION OF PARTNER SHIP.

On and after March 3, 1928, Cisco Paint & Paper Co., composed of J. G. Rapp, Y. C. Woodfin and F. D. Pierce, has been dissolved and will be operated in the future by F. D. Pierce, who has assumed all the indebtedness of the partnership and will collect all bills owing the same. —F. D. PIERCE

BLITCH FINDS NEWS AND STRAWBERRIES POPULAR

"I had no idea so many people read the Daily News so carefully until I was convinced of this fact the next morning after the paper said such nice things about my strawberries," J. B. Blitch stated in speaking about the matter.

"The next day after the paper was published I began to get phone calls from my old strawberry customers and many others wanting to know how many boxes I could supply them. In fact, these calls were so numerous I was convinced of two things: That the strawberry industry will prove a paying business and that the people certainly do read the Daily News. I am seriously thinking of increasing the yardage I now have in strawberries and go into the business extensively. I am convinced that there will be no dearth of customers of the fact is known that the berries can be had, and another fact that has finally percolated through my cranium is that the customers will find it out if their attention is called to it through the Daily News," Blitch said.

MILK HAS MORE "KICK" IN IT THAN ANY OTHER DRINK!

Does that sound strange? It may, but it is nevertheless true. There is more substantial nourishment in milk than in any other food drink. Healthy people drink milk because, in addition to its fine taste and its thirst-quenching power, it helps them to keep healthy. Sick persons are advised by physicians to drink milk in order to regain their strength.

Yes, milk has a "Kick" to it; and unlike other drinks with a "Kick," builds up the bodily tissues rather than tending to break them down. Be sure it's pasteurized.

West Texas Utilities Company

Eastern Manufacturers Have Their Eyes on the South

High Cost of Transporting Raw and Manufactured Products Two Ways, Is Becoming Apparent to Textile Heads

AMILENE, May 5.—Economic conditions are undergoing radical changes the country over and New England states appear to be losing much of their economic value as textile manufacturing centers; as a result, these manufacturers are turning more and more to the south, the source of supply of their raw products, as the most feasible location for textile mills.

This was the impression gathered by G. W. Fry, president of the West Texas Utilities company and member of the Texas industrial committee, during a tour last week of the largest Texas cities in company with a party of New York and Boston financiers and textile manufacturers and members of the commission.

"Textile manufacturing in the New England states seems to be losing much of its value and attractiveness, due to the many changes which economic conditions are undergoing the country over," said Mr. Fry.

"Labor conditions, high cost of transporting raw and manufactured products from and back to the source of supply, industrial expansion of the South, development of the electrical industry as a source of cheap power—all of these and numerous factors are making it appear that it is no longer economical for textile mills to center in New England."

"It is because of these factors and the economic changes they are bringing that the industrial committee was able to interest these men sufficiently that they would take of their time and money to visit Texas and view its resources and the possibilities of textile mills located in the state. They went away favorably impressed with Texas."

"The industrial committee was appointed by Gov. Dan Moody to inspect leaders in eastern industries in Texas as a possible location for factories. The tour made last week by the group of Boston and New York financiers and manufacturers was arranged by the committee, representatives having been sent east to invite them to visit Texas."

"The itinerary included only Fort Worth, Dallas, Waco, Austin, San Antonio and Houston, the return to Dallas being made Saturday. While West Texas was not included in the tour, Mr. Fry and other members of the commission believe the visitors will return next fall at which time he plans to arrange for them to visit this section."

"The members of the committee

hope to be able to get these men and others to return to Texas during the fall months when the cotton season is in full swing—picking well under way and gin and oil mills running. Then they will obtain a more vivid picture of Texas as a source of supply. It is our hope, too, that we will be able to arrange for them to visit West Texas and see this country at that season of the year."

The Fort Worth chamber of commerce joined in entertaining the visitors and gave West Texas much valuable publicity, Fry declared.

Members of the party were: Gordon Banker, New York, of Bliss, Fabian and company, one of the largest textile concerns in the East; Phillip Tucker, president of Phillip Tucker and company of Boston, investment bankers; W. R. Evans, president of the Boston Five Cent Savings Bank of Boston—reported to have more than \$100,000,000 on deposit—and financially interested in textile mills; John F. Bannon, president of the Defiance Bieschery company, Barrowville, Mass.; and F. Winchester Dennis, vice president of Old Colony Trust company, Boston.

The West Texas Utilities company is preparing a 40-page book, made up almost entirely of pictures of scenes in the 102 communities in which the company operates. More than 4,000 copies of this book will be distributed among eastern financiers and manufacturers as evidence of the progressive strides being made by West Texas.

PROLIFIC ROSES THRIVE IN CISCO ROSE GARDENS

Compliments of Mrs. J. D. Mann, the Daily News is in receipt of two bunches of beautiful white roses, grown in her gardens at her residence, 206 West Eighteenth street. The blossoms were, in fact, two natural bouquets, as they grew on only two stems. Pure white and perfectly formed were 16 full blown blossoms on one stem, while the other contained 13 blossoms and buds. It is not unusual to see three or four blossoms on one stem, but one seldom sees so many growing in a cluster that each would form a bouquet of the number these specimens contained.

NEW TEACHING FACULTY NAMED FOR EASTLAND

EASTLAND, May 5.—The following teachers have been elected by the Eastland school board for the 1928-29 school year, which will constitute the teaching faculty of the Eastland schools, with a few vacancies yet to be filled:

Superintendent—P. B. Bittle, of Big Spring. (Superintendent W. Z. Bates, who had been superintendent for six years, was not an applicant for re-election.)

High school—R. L. Speer, principal, re-elected; Joe Gibson, coach and teacher of mathematics; Mrs. W. Z. Bates, English and history; G. C. Smith, mathematics; Miss Belle Wilson, history; Miss Ivy Wilson, Latin; Mrs. W. D. R. Owen, English and history; Miss Ima Ruth Kelly, English and declamation; Mrs. Dean Beard, Spanish; Miss Clarice Gardner, commercial branches; Miss Clara Simer, English; Miss Simer has been teaching at Caddo.

South Ward—E. E. Layton, principal, re-elected; M. F. Hines, assistant principal; Mrs. L. R. Hogan, music; Mrs. R. L. Speer, Mrs. E. E. Layton, Miss Verna Johnson, Miss Reva Seaberry, Miss Nancy Mary Sue Rumph, Mrs. T. L. Amis, Miss Sallie Bowlin, Miss Ruth Coles.

West Ward—Howard R. Boles, of Mineral Wells, principal; Mrs. Joe Gibson, music; Mr. Duncan, Miss Alvey, Miss Lois Nelson, Miss Kellum, Mrs. Van Geem, Mrs. Allen Mabee, Miss Blankenship, Miss Moon, Mrs. Herrick and Miss Robinson.

It was stated by the secretary of the board that T. L. Carleton, principal of the West Ward school, was not an applicant for the place for another year because of having a better executive position awaiting him.

W. O. MOORE

Vast Cavern in Roaring Springs Canyon Found by U. S. Park Man; Tunnels and River Are Explored

DENVER, Col., May 5.—Does the Grand Canyon National Park of Arizona contain the world's largest cave as well as its mightiest canyon?

Members of the United States National Park service here are asking themselves this question following discovery of a vast cavern in Roaring Spring Canyon located on the north rim.

Roaring Spring to all intents and purposes is a series of the type of cliff spring common in Southern Utah and Northern Arizona—springs which simply gush from small openings in the rock surfaces of cliffs. But one of the openings of Roaring Spring was large enough to admit a man.

Bill Denzen of South Dakota entered and came back out with a tale of a cavern which caused an exploration party consisting of Denzen, Mack Jackson of Toquerville, Utah, and Paul Swain of Salt Lake, to be organized.

Two Miles of Tunnels
Carrying gasoline lanterns and an adequate supply of fuel, they penetrated a labyrinth of tunnels for a depth of two miles from the opening, and finally were stopped by a large underground river running through a vast cavern. The river is so large and so deep that

Every day more than 7 million find in an ice-cold Coca-Cola one little minute that's long enough for a big rest. Every bottle sterilized.

Over 7 million a day

IT HAD TO BE GOOD TO GET WHERE IT IS
Coca Cola Bottling Co.

further exploration will have to be made by boat. "As far as the lantern's rays would penetrate," reported Jackson, "the cave was filled by the river, and they both got bigger and bigger as far as we could see. The river is too deep to wade, and too swift to swim, so the only way anybody can go any further will be in a boat. The inside of the cave is very beautiful. Crystallized limestone formations, and thousands upon thousands of stalactites and stalagmites fill the various tunnels or hang from the walls and roof."

"The first tunnel runs back for

about half a mile, and then branches to the left in a smaller tunnel about 200 feet long. This short tunnel runs into a junction point with three others. The big stream comes down one of these, and divides three ways into the others.

"There are some places where the walls and roof have craved off and it is hard to get through. There is another place where we straddled a creek about two feet wide and 20 or 30 feet deep, and walked along two small ledges, one on each side.

Find a Big River
"Then we came into this big room that is filled by the big river, and couldn't go any further. We were in the cave about four hours.

"There are sandbars in all the creeks made of different formation than the limestone of the cave. This shows that the water comes a long way. We thought there might be a big underground lake back under the mountains somewhere that supplied this big river in the cave."

Whether the cave will ever be fully explored is problematical at

the present time. A boat would have to be carried in in sections, and put together at the point described by Jackson, as the tunnels are not large enough to carry in a complete boat.

It is said to be doubtful if the National Park Service will permit an exploration of this sort for the reason that Roaring Spring furnishes the water supply for Grand Canyon Lodge on the North Rim, consequently no chance of contamination can be taken.

NASH

The NASH ADVANCED SIX COUPE with Rumble Seat \$1775 S.o.b. factory

One of the most popular Coupes of the year NASH Styled-NASH Priced

When you buy the Nash Advanced Six Coupe you buy style and individuality as distinctive and original as the creations of the most expensive custom body builders.

But because this Coupe is produced in a factory where great volume prevails, you do not pay a custom price.

Listen to the favorable comment you hear on all sides, concerning this smartly turned out car. Then drive it and learn that its performance also matches the ability of higher-priced cars.

Notice the smoothness and quietness and extra power of the famous, precision-balanced, 7-bearing, valve-in-head Nash motor.

Steering ease is another attraction. Nash is noticeably easier on the arms that steer and park the car.

And there's no getting away from the fact that Nash 2-way 4-wheel brakes provide extra safety and require less care than the single-action brakes on other cars.

You get more than you pay for, when you buy a Nash. It's finer motoring, at a lower price. We have the Coupe on display. Come in and see it.

EASTLAND NASH COMPANY

Marriage as Simple as Daily Food, Bishop Lathrop Says; 'Loose Talk' Blamed as Cause of Much of Rift

MEMPHIS, Tenn., May 5.—"Marriage is naturally and entirely as simple as daily food," said the Rev. Charles N. Lathrop, of New York, discussing the present day problem of marriage and divorce in America. "No group of people bother about food unless there is none and a famine impends, or unless they have too much or the wrong kind of food like the mussels last year on the Pacific coast which caused a widespread stomach ache."

Approaching the problem in a more serious vein, Mr. Lathrop, who as secretary of the Social Service Department of the Episcopal church, presided at the meetings of the Episcopal Section of the National Social Service conference which assembled here Wednesday.

"Behind the whole subject of marriage lies the deeper question of the goal and purpose of human life. As long as people differ on this subject so long must they differ in considering all human activities. A Christian society must be different from any other society because it has a different goal and purpose."

Laying Down Rules
"It behooves Christians to remember that in a discussion of marriage, and in a discussion of all other social objects, they have no right to lay down obligations for non-Christians, or contact with Christians."

Mr. Lathrop, a native of California, was a life long friend of Theodore Roosevelt and had charge of Belgium Relief in Malines during the world war.

"In my judgment," he continued, "there is altogether too much loose talk. Count Keyserling has come and gone and the learned count sums up his experience in our country as showing that we are woman-managed and run. And that gentle soul, Judge Lindsey, finds that after all marriage, in so many ways, pays."

"Then there are behind them a whole army who appear in the magazines with their own opinions. This hubbub over marriage suggests to me a disease in our society. When we begin to talk about cures we have two cures as in medicine, those who are going to cure marriage by more marriages, and those who feel that marriage must last 'till death do us part."

"One of the chief causes of this confusion lies in the failure to realize that groups are discouraging on the happy life or the good life of 'self-realization,' without recognizing that the various definitions of these differ utterly."

Causel Confusion
"Part of the confusion comes too from the fact that if a person will keep one foot in and one foot out of the ecclesiastical territory, he can in that way place himself in a position of a critic; then he has a real career and can get his articles in the magazines and newspapers. If both feet are in, the average person considers him a sort of human ruminant, chewing the cud of tradition, placed in his stupid orthodox. The happiness of the cow has much to be said for it; but there are at least possibilities of an intellectual alertness even on the part of an orthodox person. He may see something in evolution even in the evolution of marriage, without trespassing beyond his ecclesiastical meadow. His conception of happiness and self-realization is definitely on the basis of eternal."

"The fact that marriage is permanent suggests that the real purpose of marriage is the raising of a family. Married life means sacrifice through love and because of love. To maintain this real relationship both husband and wife must stand ready to relinquish any right that stands in the way of the goal they are trying to attain—perfect children brought into existence and nurtured by husband and wife in a perfect permanent love relationship."

3 SCHOOLS IN CALLAHAN O. K. CONSOLIDATION

BAIRD, May 5.—At a recent election held in the rural school districts of Erath, Hart and Colony, in Callahan county, for the purpose of consolidating the three districts the proposition carried in each of the three districts.
The county school board will order an election immediately for seven trustees in the newly created district and an election will also be ordered in the near future by the county judge for the purpose of issuing bonds for the erection of a brick school building and auditorium of sufficient size to care for the needs of the district. Transportation trucks will be put in service for the delivery of children from Hart and Erath districts.

This consolidation will result in a high school of eleven grades with an enrollment of between 175 and 200 scholars.
The taxable valuation in the consolidated district will be around one million dollars, with a tax rate of 75 cents on the \$100 valuation, the present rate now voted in each district.

FLOATING CITIES FORESEEN FOR OCEAN FLIGHTS

DES MOINES, Iowa, May 5.—A string of "floating cities" at regular intervals of 400 miles is the vision of the future Atlantic Ocean as seen by Harry Cooper, vice president of the Iowa Flying club.

While the plan to make trans-Atlantic flying feasible by means of landing stages at intervals is not new, Cooper has worked out his idea in detail and made diagrams and drawings of the possible ocean depots of the future.

"Landing fields or stages across the ocean seem to be the only practical solution of trans-Atlantic flying," Cooper declared in explaining his plan. "From past performances we know that the chances of a plane traveling from New York to a city in continental Europe is just about ten to one, and then only when precious time has been wasted in waiting for the best possible flying conditions."

Make Crossing Easy
"We cannot expect inter-continental air traffic to come to the front so long as these difficulties have to be faced. Therefore, landing stages at spaced intervals seem to be the proper solution at this time."

With the ocean spanned with the floating airplane stages there would be but little hazard in an air trip to or from Europe, Cooper contends. At each stage mechanics would be maintained to service the planes as they came in, and oil and gas supplies would be kept on hand. His plans also calls for the stationing of high powered speed boats at each stage which could be rushed to the aid of a disabled plane should it fail to arrive on schedule after leaving one stage for another.

Powerful beacon lights also would be erected on each stage to guide the planes by night," Cooper said. "With a lane thus marked across the waters day and night flying would be almost as safe as ordinary airplane hops from one city to another."

Service Shops
In addition to the ordinary service which would be maintained at each landing stage, Cooper's plan also calls for restaurants and a hotel where travelers might stop off. The landing stage would be sufficiently large to land the biggest of planes from any direction. Cooper's diagram shows it erected 100 feet above the ocean surface, where it would be out of reach of the waves even in terrific storms.

WEEKLY REPORT 11TH COURT OF CIVIL APPEALS

EASTLAND, May 5.—The eleventh court of civil appeals handed down the following rulings this week:

Cases Affirmed—John Couger et ux vs. E. P. Castello, from Palo Pinto county.

Cases Reversed and Remanded—Hall Music Co. vs. Jim Robinson, from Taylor county. D. S. Kirk vs. E. C. Tucker, from Taylor county.

Cases Reformed and Affirmed—Stephenville Mutual Life Insurance Co. vs. Joseph P. Grant, from Erath county.

Cases Reversed and Remanded—West Texas Utilities Co. vs. Bernice Gilbreath, from Eastland county.

Motions Submitted—Chas. O. Austin, commissioner, vs. S. F. St. John et al. for rehearing. Neely Braly vs. West Texas Produce Co. et al. to affirm on certificate.

Wichita Valley Ry. Co. vs. Arthur V. Williams, for rehearing. West Texas Utilities Co. vs. Bernice Gil-

breath, to advance and reverse and remand cause.
Motions Granted—Stephenville Mutual Life Insurance Co. vs. Joseph P. Grant, for rehearing. Associated Oil Co. et al. vs. Briggs Owens, for rehearing and application to file record. West Texas Utilities Co. vs. Bernice Gilbreath, to advance and reverse and remand cause.

Motions Overruled—Associated Oil Co. vs. Briggs Owens, to affirm on certificate. Mrs. Hattie Miller vs. R. J. Estep et al. for rehearing. P. H. Buck vs. W. D. DeShazo, for rehearing. G. O. Creswell vs. The Dixie Company, for rehearing.

Cases Submitted—City of Cisco vs. Lucile Dowdy Varner, from Eastland county. Mrs. Wm. Laneris et al. vs. Panhandle & Santa Fe Ry. Co. from Fisher county. R. F. Haworth vs. Texas & Pacific Ry. Co. from Taylor county. Pere Edwards vs. Dillingham & Alexander, from Stephens county.

PONTIAC 6 SPORT PHAETON, 5 PASSENGER, COMING OUT

Complying with an insistent demand for a sport type body of larger seating capacity on the new series Pontiac six chassis, the Oakland Motor company is now building a smart five-passenger sport phaeton, says L. W. Hilgenberg, local dealer. This latest Pontiac Six model embodies the same rakish swank of line and contrasting color which has brought the sport roadster into such high favor, particularly with the younger generation. The low graceful sweep of the new body reflects the artistry of the Fisher craftsmen. Extending back from the high narrow radiator, the hood line drops to a long panel of mahogany cream, contrasting effectively against the paquot blue of the body. The hood louvers are edged with the same cream that while the black moldings above and below the color panel also are reworked by cream stripings. The same treatment is followed on the paquot blue wheel spokes. The beauty of the new model is enhanced further by brilliant nickel fittings and Spanish leather upholstery. Nickel plating is used on the rim and supports of the one-piece windshield. The new model is priced at \$775 f.o.b. factory.

Chrysler "62"

NEW LOWER PRICES

1065

AND UPWARDS

ONLY CHRYSLER ENGINEERING CAN GIVE YOU SUCH GREAT FEATURES

NO OTHER car, in its particular price range of \$1065 to \$1235, comes within leagues of what the Great "62" offers in performance, in quality, in style, and in value.

For no other enjoys the benefits of the unique intimate association with the production of such fine cars as the illustrious "72" and Imperial "80."

As a result, Chrysler "62" is the only car to offer you the combination of these features at such low prices:—rubber shock insulators—instead of metal shackles; self-equalizing hydraulic 4-wheel brakes; 7-bearing crankshaft with interchangeable shimless bearings; saddle spring-seat cushions; balanced front wheels for utmost safety in driving at higher speeds; etc., etc.

Examine the Great "62" with utmost care. Ride in it. Drive it. Only in this way can you learn just how far superior it is—not only to cars of equal price, but to cars costing many hundreds of dollars more.

MORE TRUTH THAN POETRY

Consider your suit—the one you wear often and rough. There may be grime visible on collar and cuff. A lot of grease from your car quite likely is there. A nasal inspection presents an odor quite rare. Now, what a cleaner can do to that suit is magical. So, don't resort to destruction that's tragical.

Former Army Aviator to Attempt Flight in Bird Fashion by Huge Wing-Flapping, Motorless Device

NEW YORK, May 5.—Men and bird can fly alike without the aid of mechanical motors, according to George B. White of Story Point, Long Island, who left New York recently for St. Augustine, Fla., where he is to attempt to prove his theory.

"Everyone knows that birds fly and no one has proved that man cannot imitate bird flight," said White, who was a former army aviator. "Birds are the most efficient of all flying machines, flying with a very slight percentage of the power, relatively, that is used to drive an airplane. A hawk swoops down and picks up a pigeon, an eagle drops from the clouds and bears up a lamb, but despite this added weight and their relatively small power both are still able to fly."

Long Research

For six years White has been engaged in research into the problems of mechanically approximating the flight of birds. At the beach in St. Augustine where he

now is, he will attempt to make the first successful bird-like flight in the history of the world in his new flying machine, a foot-propelled, wing-flapping, motorless ornithopter.

The machine resembles, in all details, a huge bird is wholly transparent, non-inflammable celluloid, weighing but five pounds, has a tensile strength of 10,000 pounds per square foot, is hinged at the body and moves up and down vertically.

343 Feet Flown in 1893.

Hargrave, a British experimenter, is said to have been the only person who ever actually accomplished an actual wing-flapping flight. He flew 343 feet in 1893.

At Cocoa Beach, Fla., last fall White is said to have flown eight-tenths of a mile in a previous model of a motorless flying machine.

"I am going down to St. Augustine Beach which is a broad, level expanse, since take-off in a hilly country might leave some doubt

UNION OF TWO CHURCHES HAS O. K. FROM ONE

DALLAS, May 5.—Resolutions favoring the combining of the Congregational and Christian churches, the outlawry of war, elimination of imperialism by the United States in China and the omission of the Eighteenth amendment from political controversies were adopted in the final session of the two-day Texas conference of the Congregational churches here Friday. About 45 ministers and delegates represented the 7,000 members of the Congregational church in the state.

The resolution on the Eighteenth amendment is being questioned and criticized in these days as to its being either just or wise, and certain influences would wish to make it a political issue in this presidential campaign. We express our conviction that the addition to the constitution was both regular and legitimate in its adoption and we will support every honorable method by which it may be fully and completely enforced.

After pointing out that the governing bodies of both Congrega-

HUGE MESQUITE TREE GROWS IN YARD IN CISCO

One of the largest mesquite trees probably that can be found in West Texas is growing in the Gomer Williams yard, on West Fifth street. The trunk of the tree, ten feet six inches from the ground, measures seven and one-half feet in circumference, according to Henry Bolinger, who took the measurements. Mr. Bolinger says the tree is of uncertain age, probably may have sheltered some historical character in days that are gone, as he says it was quite a large healthy specimen at the time of his coming to Cisco, and he was one of the early comers. The tree was topped a few years ago, which seems to have

al and Christian churches favor "actual organic union between the two," the resolution advocating combination states:

"We believe the traditions, ideals, polity and devotion to the principle of Christian liberty held by the members of the general convention of the Christian church to be essentially in accord with our own, and their fellowship includes 1,644 churches, 112,795 members, together with the institutions of educational and missionary service . . . and we hereby express our hope that the good work may proceed until all difficulties may be overcome and a happy union effected between the bodies concerned."

Georgetown has completed its quota of subscribers for natural gas which will be furnished through pipe lines owned and operated by Lone Star Gas company, Round Rock, Hutto, Taylor, Granger, Bartlett and Holland will be served by the same line.

High Blood Pressure

Agmel, Vital Raw Food From Mexico, Now Used by Thousands

For centuries fresh Agmel, sap, called Agmel, has been a great natural remedy of Mexico. Scientists have long studied it. Scores of books and treatises have been published on Agmel's many medicinal uses. For years European and American physicians have sent patients to Mexico to drink Agmel because the fresh sap quickly spoils and cannot be exported. Results are medical history.

Now Agmel sap is concentrated into a delicious raw syrup called Agmel. Keeps indefinitely. Has world-wide use. It is arsenic-free, absolutely unchanged except for removal of water without cooking. Rich in lime, important mineral, vitamins A, B, C, beneficial natural yeast, and agavine, an easily assimilated natural sweet. Nothing added. It is non-alcoholic.

Thousands add Agmel to diet for high blood pressure. Every sufferer should investigate. Free 24-page booklet and letters from physicians and users at your drug store. Imported only by Agmel Corp.

STUDEBAKER

The Great Independent

Announces A New Record for stock cars under \$1400

Better than a mile a minute for 5000 miles

The Dictator \$1195 to \$1395

F. O. B. FACTORY

BY traveling 5,000 miles in 4,751 consecutive minutes, the Studebaker Dictator has established a record unequalled by any stock car under \$1400—comparable to the existing world record of 5,000 miles in 4,559 minutes made by the Studebaker Commander last fall.

And not one, but two Dictator Roadsters, fully equipped, each traveled 5,000 miles in less than that number of minutes. The run was made under the supervision of the Contest Board of the American Automobile Association. Before and after the run, the cars were checked by the Technical Committee and were pronounced strictly stock models.

FACTS regarding this run

Date: April 20-23, 1928.

Place: Atlantic City Speedway.

Cars: Two stock model Dictator Roadsters.

Distance: 5,000 miles covered by each car.

Average Speed: One Dictator averaged 63.138 miles per hour—5,000 miles in 4,751 minutes; the other 61.312 m.p.h. Each car covered 5,000 miles in less than 5,000 minutes.

Sanction: Run made under sanction and supervision of the Contest Board of the American Automobile Association. Officials of A. A. A. checked cars before and after the run and pronounced them strictly stock models in every respect.

CLAIMS vs. FACTS

Automobile advertising is full of extravagant claims of performance. But Studebaker offers you definite FACTS supported by the certificate of the highest motoring authority. Under A. A. A. supervision The Commander has made a record never approached by any other car on earth (25,000 miles in less than 23,000 minutes). The

Erskine and The Dictator have made records unequalled by any other stock cars at or near their prices.

The high quality of materials, the precision workmanship, the rigid inspections and the engineering genius in the Studebaker Dictator are proved not only by its ability to travel 5,000 miles in less than 4,800 consecutive minutes, but also by the fact that any Dictator can be driven 40 miles per hour as soon as it leaves the assembly line at the factory. The engine and chassis dynamometer tests which Studebaker gives The Dictator are an exclusive Studebaker practice in cars of this price class.

We invite you to inspect The New Dictator which is offered in 10 body models at \$1195 to \$1395 f. o. b. factory. Backed by Studebaker's 76-year reputation for quality and value, The Dictator offers champion performance at a low One-Price price.

Values in Four Price Fields	
President Eight	\$1985 to \$2485
The Commander	1435 to 1625
The Dictator	1195 to 1395
The Erskine Six	795 to 965

All prices f. o. b. factory

Join the 10-2 & 4 "CLUB"

DOC HIMSELF (NOT A MOVIE)

drink a-bite-to-eat

at TEN-TWO & FOUR O'CLOCK

PURPOSES and BY-LAWS:

Purposes: (1) To repeal thirst; (2) To promote pleasure; (3) To spread goodwill; (4) To keep energy up.

Membership: Is limited to those aged not less than 5 nor more than 99 years; and to those of the white, red, yellow, black and brown races.

Dues: Are a nickel a throw, payable in cash at the bar as each drink is served.

Meeting Places: Club chapters are maintained at every soda fountain, hamburger stand or bottle bar in the city; same are designated by charter scroll or sign.

Rules: Only one rule must be strictly observed, i. e.; to "drink-a-bite-to-eat" at 10, 2 and 4 o'clock each day.

PRIVILEGES and BENEFITS:

- To go "A. W. O. L." at 10, 2 & 4 without dirty looks from the Boss. (Show your card for Okey.)
- By special dispensation, card-holders, may drink not only at 10, 2 & 4 o'clock during the day, but also at hours 11, 12, 1, 3, 5, 6, 7, 8, 9 and 11 o'clock day or night (let your thirst be your guide)
- Permits "overweights" to satisfy sweet tooth without penalty of extra pound of flesh. (Gentlemen prefer both blondes and brunettes . . . slender.)
- Permits tired business men to entertain stenos without explaining to wife.
- Permits late night drinking without loss of sleep.
- Permits youngsters to drink all they want, can't hurt 'em.

HIGH SIGNS

10 o'clock, ten fingers; 2 o'clock, two fingers; 4 o'clock, four fingers. All "D. I. Spensers" and "Cap Pullers" will recognize the sign. It also helps deaf and dumb

OFFICIAL BADGE

Wear this badge, to the inquiring wonder of every friend you meet. Great stuff with the switchboard operators and cigar girls.

MEMBERSHIP CARD

Cards and badges will be issued at fountains and bottle bars. Serves as a "pass" for going "A. W. O. L." and permits drinking at any hour day or night. In a pinch can be flashed as a "privilege card" before hard boiled cops.

It's here folks! the big day you've been waiting for. Cold, zippy, Dr. Pepper right over the soda fountain or bottle bar. March right up . . . pay your money . . . and name your drink. Name Dr. Pepper and you'll be a confirmed member of the 10, 2 & 4 Club for life.

Everybody's joining! Every member's happy! For here's a drink that hits the spot, and makes the spot stay hit. Girls and men need one at ten. Another's due, when clocks strike two, and just at four you need one more.

Wise ones never miss these hours. They say 3-a-day, keeps energy up. We say it's nourishment . . . not kick that does it. You N-E-E-D a little bracer at mid-meal hours. Dr. Pepper gives it to you in pre-digested form . . . pure nourishment that is quickly assimilated into the blood. That's why you feel distinctly refreshed after drinking.

Pure as distilled water; sparkly as a bubbling spring; luscious as mingled juices of fruits, essences and extracts from Orient and Tropic and all the world. Tart but not sour . . . sweet but not sticky . . . bitey but not sharp. Drink all you want. Let the children have their fill. It can't hurt you or them. Everything in it is good for you so drink to your thirst's content.

OF A SOCIAL NATURE

Social Calendar

Coming Events
Monday
The young people of the First Methodist church will give a banquet in honor of the high school graduates at the church at 7:30 o'clock.
Delphian club meets at the home of Mrs. J. E. Chesley on West Eighth street.
Wednesday
Wednesday study club meets with Mrs. J. E. Tichenor at her home on West Seventh street.
Mrs. Nina Phillips will entertain the Y. H. T. Bridge club with a 1 o'clock luncheon at the home of Mrs. R. C. Hayes.
Thursday
Mothers' club will meet at the recreation hall in Humboldt.
Friday
Twentieth century club meets at the city hall at 8 o'clock.
Mrs. G. B. Lundy will entertain the members of the Entre Nous Bridge club.
Saturday
The Amicus club meets at the Green Lantern tea room at 8 p. m.
Church Societies Meet Tuesday
The Baptist W. M. S. will meet in circles as follows, with all meetings at 4 o'clock except Circle Seven, which meets at 3 o'clock.
Circle One meets with Mrs. J. L. Kennedy, 500 West Fourth street.
Circle Two meets with Mrs. J. J. Butts, 711 West Sixth street.
Circle Three meets with Mrs. J. B. Farmer, 1101 West Seventh street.
Circle Four meets in the Men's Bible Class room of the church.
Circle Five meets with Mrs. R. Q. Lee, 1206 L avenue.
Circle Six meets at the ladies parlor of the church.
Circle Seven meets with Mrs. J. R. Burnett with Mrs. C. O. Meeks, hostess.
The South Circle of the First Methodist church will meet at the home of Mrs. D. C. Saddler on West Tenth street with Mrs. H. E. Pye, hostess.
Circle One of the First Methodist church will meet with Mrs. G. P. Miteham.
North Circle of the First Methodist church meets with Mrs. L. E. Vaughan.
The Woman's Missionary society of the First Christian church will meet in circles as follows: Circle One with Mrs. Rex Moore; Circle Two, with Mrs. Thomas Lenox; Circle Three, in basement of the church; Circle Four, with Mrs. Ray Godfrey.
First Industrial Arts Club
Met Thursday Afternoon
The members of the First Industrial Arts club met Thursday afternoon at the home of Mrs. Paul Connally on West Sixth street, with Mrs. W. A. Cox, assistant hostess.
Mrs. J. D. Barker called the meeting to order and 20 members and three guests answered to roll call with a quotation about "Mother." After disposing of several business matters, the following program on "Mothers" was given: Mrs. G. M. Stephenson, paper on "Mothers of Illustrious Men;" Mrs. Joe Wilson, a paper on the "True Tales of a Pioneer Mother;" Mrs. J. W. Betts, reading, "Tributes to Mothers." The hostesses served a salad course

to the members and guests. The meeting adjourned to meet in a social, May 17, at the home of Mrs. E. J. Poe with Mesdames B. E. Morehart, J. W. Triplitt, Ruby Miller and Mrs. Poe as hostesses.
Mrs. Hyler Lee Hostess
To Blue Bonnet Bridge Club
Mrs. Hyler Lee entertained the Blue Bonnet Bridge club Wednesday afternoon at her home on West Sixth street. The house was decorated artistically with sweet peas and ferns. Mrs. F. A. Blankenbecker was awarded the high score prize in the game. The hostess served a very attractive ice course to the following members and substitutes: Mesdames J. H. Moyer, W. T. Graham, Frank Blankenbecker, Paul Woods, Cleve Johnson, Henry Benham and Ed Elliott of Moran. The following officers were elected: President Mrs. J. H. Moyer; secretary and treasurer, Mrs. A. E. Willig.
Music Study Recital
Thursday Evening
Professor G. C. Morris conducted a student's recital Thursday evening at the home of Dr. and Mrs. G. M. Stephenson on West Twelfth street. The main topics for the evening's study were "Development of Beauty and Tone" and "Accuracy in Reciting." Those present were: Mesdames E. L. Graham, Louise McFarley, Frank Nickel, Misses Eunice Cooles, Ella Andros, Ora Howell, Hazel Orr of Putnam, Caroline Schneider, Mrs. Donald Kinnaird of Eastland.
Music Study Club
Give Luncheon
The members of the Music Study club entertained with a 1 o'clock luncheon Friday at the home of Mrs. S. E. Hittson. The house was decorated with a profusion of roses, carrying out the color scheme of pink, lavender, green and yellow. Each guest was given a menu to fill out, which was very clever. The table was lovely with a mandarin spread and a center piece of pink rose buds. The lunch was served in different colored May baskets, which were most attractive. After the main course, green ice cream and pink individual cakes were served. There were two very clever contests participated in, along a musical line. Mrs. P. P. Shepard and Mrs. J. H. West were the two most successful ones, and were presented with lovely prizes. Those enjoying this unusual affair were: Mesdames O. T. Maxwell, J. D. Barker, J. W. Love, Philip Pettit, Ben McClinton, Jack Kelly, Dewey Neal, P. P. Shepard, J. H. West, C. O. Pass, P. R. Warwick, H. I. Stock, W. V. Hoyt, J. R. Burnett, John Land H. E. Barnett, J. C. Pearson and S. E. Hittson.
Hymn-Singing Program
At Presbyterian Church
A hymn-singing program will be held at 3:30 o'clock this afternoon at the Presbyterian church, to which the public is invited. Dr. Morris will play an organ prelude, the Baptist male quartet will sing and Rev. A. C. Miller will speak on "Music."

Texas Day Program Given By Twentieth Century Club
The Texas Day program given by the members of the Twentieth Century club at the Presbyterian church with Mr. and Mrs. Crowell of Dallas as honor guests was most successful. Mrs. Phillip Pettit, president of the club presented Mr. Crowell in a most gracious manner. Grace Lee Crowell is one of Texas' outstanding women poets, having had her poems published in most of the monthly magazines, as well as in book form. This program consisted of her original poems. Mrs. Crowell was presented with a lovely basket of pink rose buds. Mr. Crowell, who writes for a number of Texas papers and is also a poet, read several of his original poems. There was a large attendance including ladies from Ranger, Eastland and Rising Star. Mr. and Mrs. Crowell will be presented in a program at Abilene today.
First Methodist Cradle Roll Department Has Party
Mrs. John Shertzer and Mrs. J. Youngblood entertained the members of the Cradle Roll department of the First Methodist church and their mothers, Friday afternoon at the home of Mrs. Youngblood on West Ninth street. The youngest baby present was Maurine Reagan daughter of Mr. and Mrs. Harrell Reagan. Several contests were held for the mothers and kodak pictures were taken of the children. The hostesses then served refreshments to nine mothers and nine children present. The officers of this department are Mrs. Youngblood, superintendent; Mrs. Gober, assistant superintendent; and Mrs. T. E. Brown, secretary and treasurer.
Twilight Musical to Be Given Next Sunday
Sunday, May 13, at 6 p. m., a twilight musical will be given, consisting of voice, organ, violin and piano music, under the direction of Grover C. Morris at the First Presbyterian church. The program will be announced later. Those taking part will be Mesdames G. M. Stephenson, E. L. Graham, Frank Nickel, Donald Kinnaird of Eastland, Louise Madewell, Grover C. Morris, Misses Hazel Orr of Putnam, Ora Howell, Ella Andros, Elizabeth Simmons and Eunice Cooles.
Visitors Honored With Dinner and Theater Party
Misses Nannie Lee Boyd, of Palestine, and Zena House, of Benjamin, former students of Randolph college, who have been in Cisco this week attending the Spring Festival of the college, were honor guests of Misses Alberta Parsons and Leta Dea Sizemore at theater party at the Palace Saturday night, and a supper at the Club cafe after the show.
Rising Star to Be Host Today to B. Y. P. U.'S
Several cars of young people from the First Baptist church will motor to Rising Star this afternoon when a district B. Y. P. U. meeting will be held. The William Carey union of the Cisco First church, is to give a playlet which was written by their leader, Mrs. J. L. Kennedy. The entire program for the meeting follows:
2:30—Song service, led by Carroll Louder of Moran.
2:45 to 3:00—Sentence prayers.
3:00 to 3:10—Devotional, led by East Cisco church.
3:10 to 3:15—"The Challenge of Our Churches," Miss Louise Karkalis, of Cisco.
3:15 to 3:25—Intermediate program, Mrs. J. L. Kennedy, of Cisco.
3:25 to 3:35—"Opportunity for B. Y. P. U.," Moran B. Y. P. U.
3:35 to 3:40—Special song, First church of Cisco.
3:40 to 4:00—Business. Adjournment.
These district B. Y. P. U. meetings are held once each month, and every Fifth Sunday the three districts hold a combined meeting. P. B. Glenn, of Cisco, is president of the Cisco district, and Miss Leta Eager is leader of the north zone. The following churches compose the Cisco district, with the names of the leaders for each union:
Pueblo, Mrs. R. L. Cole; Corinth, New Hart; Dothan, Arlin Birt; Mitchell, Lewis Coffee; Nimrod, Cecil McBeth; Union, Ben Williams; Long Branch, J. T. Poe; Pleasant Hill, H. N. Baldere; Sabinno, Miss Callie Brown; Moran, Carroll Louder; Pioneer, Lillian South; Rising Star, Mrs. R. Neil Greer; Okra, R. F. Potts; Hodnet Grove, A. H. Morris; East Cisco, J. C. Pelfrey; Cisco First church, P. B. Glenn.

Banquet to Be Given C. H. S. Graduating Class

CISCO SENIORS TO BE HONORED MONDAY NIGHT

The graduating class of the Cisco High school will be guests at a banquet Monday evening, at the First Methodist church, sponsored by the Young People's department of the First Methodist Sunday school. Members of the committee state arrangements are being made for about 200 young people. In addition to the graduating students of the High school, the entire faculty has been invited as honor guests at the banquet, and they have signified their intention of being present. There are between 50 and 60 members of the graduating class. A very entertaining program has been arranged. Clayton L. Orn will act as toastmaster. Dr. J. W. Hunt, president of McMurray college, will deliver an address. Dr. Hunt needs no introduction in Cisco. Being in close touch with young life, he knows what to say and how to say it in order to keep the attention of a student audience; and his humorous, constructive talk will be very entertaining to the students and give them a broader vision of life. The Blue Bonnet Trio will furnish the music for the evening. Mrs. J. H. Moyer and Jack Stottler are also on the program, and a quartet from McMurray College will sing. A special effort will be made to have present all the students of

Cisco who are between the ages of 16 and 21. The committee is anxious that the adult citizenship of Cisco cooperate with the young people and buy as many tickets as possible to give to their friends who desire to attend. The tickets are being sold by the members of the Young People's department, or they may be purchased at the Corner Drug store until Monday noon, at which time the committee is expected to make its report.

STYLE HINTS

By ALICE LANGELEIR
International News Service Staff Correspondent.
LINGERIE BLOUSE IS TRIMMED WITH PLEATS
PARIS, May 5.—Let your blouse make rather than mar your costume, is Dame Fashion's latest edict to smart women now looking for the inevitable accompaniment of the tailored suit. The blouse can completely change the whole look of a costume, giving it an entirely different appearance according to whether it is of lingerie, or silk, of light color or a dark one. The lingerie blouse is generally of "chemise" cut trimmed with

small pleats, open stitched or piped. A certain amount of fancy is allowed. There may be a stiff collar or a deep V-opening. Long sleeves are ornamental at the wrists with buttons, pleats or ruffles. Blouses in crepe de chine or tulle are soft in line, with the collar often becoming a simple scarf knitted at the shoulder and the draped belt matching it tied in a bow at the side. One in lavender blue is very attractive trimmed with pleats and strips of stitching somewhat darker than the material of the blouse. The blouse which is patterned is often seen this spring with a plain ensemble, giving a bit of brilliancy to the extremely modest costume. Perhaps the most frequent patterns are stripes with polka-dots.

CALLAHAN COUNTY'S WOLF CLUB BAGS 29 ANIMALS

BAIRD, May 5.—The Callahan County Wolf club during the month of April and the first month of its existence paid bounties on 29 wolves. These animals came in from practically every section of the county. The number that have been presented show there is a large number of the animals in the county and according to reports of the people who have brought in the scraps practically in every case they have

NEW ENDURANCE RECORD IN SEAPLANE IS ESTABLISHED

PHILADELPHIA, May 5.—Thirty-six hours and five minutes they took to the air in the naval seaplane PB-2. Lieutenant Zeus Boreck and Arthur Garvin ended their endurance flight this morning after breaking the world's record for a seaplane by seven hours and 20 minutes.

CHURCHES

FIRST PRESBYTERIAN.

Sixth street at H avenue. Friends meet here. Do not be a hermit in Cisco if you have a desire to be contented here among us. No better place will you find for making friends than at church. We have Sunday school at 9:45 a. m. and you will find potential friends in every part of it. The lesson this morning is on "Greatness Through Service." Be with us, won't you? At 10:30 the children's story will be told; pipe organ music will be heard. With Dr. C. C. Morris at the organ, Mrs. Ben McClinton and the choir will sing; and Rev. B. C. Boney will deliver the inspirational message of the morning. At 3 in the afternoon the Music Study club is having its annual hymn singing service here. You are cordially invited by them to participate. At 8 p. m. in the organ with Dr. Morris, master hand, at the keys will be heard in "Serenata" by Moszkowski, and later in "Oratory in A" by Dubois; the choir will sing "Bless the Lord," and the minister will preach on the theme "Compensation." He has sent for 15 certificates of transfer since May 1. Why not get that membership where it should be here where you live?

FIRST METHODIST.

On Broadway. This is "Father's Day" and "Nationality Day" at our church. Every father and his family is invited to hear J. J. Youngblood at 9:45 a. m. on "Jesus Standard of Greatness." All classes and departments meet promptly on time. Seven Mexican girls from Thurber, with Miss Drago, will sing at the close of Sunday school. At 11 a. m. subject, "Father," sermon by pastor. Ten Mexican girls will sing Mexican national anthem and "America." 3 p. m. Epworth Junior society. 6:45 p. m. Senior League. 7:45 p. m. colored choir will sing the following numbers: "The Master's Call," "He Is Mine," "Spirituals," "Heavenly Sunshine," "Look Away to Heaven," "Were You There?" "Sing Low Sweet Chariot," "One Day He'll Make It Plain," "Watch and Pray." Rev. P. T. Stanford will preach. Theme, "The Value of a Soul." This church opens wide its doors and in the name of Christ bids you welcome.

FIRST BAPTIST.

E avenue at 9th. Sunday school promptly 9:45. You are one minute late at 9:45. You will find here the most congenial group

led by live officers and informed teachers. The Adult department is growing—gain of 15 last Sunday. Begin second week of special meeting today. Morning service at 11 o'clock at which Baptist male quartet will sing a group of songs; the pastor will speak. Young people go to Rising Star for district meeting this afternoon; return for their meeting at 6:30. Evening service at 8 o'clock. Special music offered and great congregational singing. We offer no entertainment; the show can beat us at that. We only seek to bring you the God of love who will strengthen you in your weakness, comfort you in your sorrow, and keep you in every temptation. We cordially invite you to our services.—ACKER C. MILLER.

CHURCH OF GOD.

F avenue at Eleventh street. "Without Me Ye Can Do Nothing" will be the pastor's subject for the morning service. Herein is contained the cause of failure and the secret of success. For that person or body of persons who would bear fruit for God there is no substitute for Christ, the vine, its indispensable. Your life is a failure, so far as the accomplishing of real and lasting good is concerned, unless Christ, rules in your heart. You will find Christ at the church. GO TO CHURCH. Sunday school begins at 9:45. Everybody should be in their places on time. Young People's meeting at 6:45. Evening service, 8 o'clock. Subject, "God's Needs." What can He who supplies all our needs be in need of? Come to these services, praying that your soul may receive a blessing and you will not go away disappointed. A glad hand awaits you at the church where everybody feels at home.—JOHN W. BATTORF, Minister.

CHRISTIAN.

Services today at the First Christian school. The Bible school 9:45 a. m., preaching at 10:45 by the minister, subject, "In Christ, Christian Endeavor; Juniors at 3 o'clock and Seniors at 6:45. Let all the Young people be in attendance, a good program in store. At 7:45 the minister will deliver a lecture upon the subject, "Midnight on the Congo," or "In Dark Africa." This will be illustrated with 70 colored slides. The devotional program will be in charge of the Young Woman's Missionary circle. Bring a friend with you, a welcome for all.

CONVENTIONS BROADCASTING PLANS BEGUN

CHICAGO, May 5.—While Republican and Democratic forces are lining up for a finish fight at Houston and Kansas City, at the national conventions, a complicated communication system is being perfected to assure adequate connections. Telephone and radio manufacturing experts here are rushing to complete plans which will make the conventions the most widely broadcast in history.

Special Hook-Ups. From Washington, urgent requests that a flood of special "hookups" be completed as soon as possible are coming from prominent political candidates, according to Western Electric officials. Four main phone and carrier systems are being constructed from Kansas City. One involves a special series of carrier current lines to St. Louis, another special trunk link with Minneapolis, a third a new wired "hookup" between Denver and Salt Lake City, and a fourth an installation terminating at Oakland, on the shores of the Pacific. All sections of the country demand close connections by wire with the conventions. Politicians who do not attend the conventions will sit in their homes and offices and "pull the strings" over special lines to Kansas City and Houston. Plans of publicity experts of the two conventions will be reflected in added telephone, telegraph and radio facilities running to ninety of America's leading cities.

Three prominent centers will be used as local points for distributing convention gossip to smaller towns and villages in their vicinity. Radio's Part. Radio is expected to play an im-

CONGRESSMAN SWEET KILLED IN PLANE CRASH

The wrecked plane in which Representative Thaddeus Sweet of New York was killed after a forced landing at Whitney Point, N. Y. Lieut. Bushrod Hopkin, pilot of the plane, was injured in the crash. The representative was hurrying from Washington to Fort Ontario, where he was to participate in the opening ceremonies of a new power plant. (International Newsreel).

Cisco District Methodists to Hold Conference Tuesday and Wednesday in De Leon

The Cisco district conference of the Methodist church will be held Tuesday and Wednesday at De Leon. Several counties with around 35 pastoral charges are comprised in the district. Rev. C. O. Shugart, Cisco, presiding elder, will preside at the sessions. An attendance of 200 is expected. The session will open at 10:30 Tuesday morning. B. J. Pittman will welcome the visitors on behalf of the Business Men's club of De Leon and R. L. Scott for the church. Responses will be made by visiting delegates. Rev. W. B. Andrews, former Breckenridge pastor, will speak on the superannu-

PRESBYTERIAN MEN BANQUET FRIDAY NIGHT

Friday evening the men of the First Presbyterian church met in a banquet and social evening. Twelve visitors from the First Presbyterian church of Abilene were guests. E. P. Crawford was toastmaster. President H. C. Henderson of the Bible class welcomed the guests. A banquet of chicken with trimmings was served by Circle 1 of the Ladies auxiliary. A well rendered reading, O. Henry's "The Gift of the Magd," was listened to from Mrs. J. H. Meyer, and "At Dawning" was sung by Rev. B. C. Boney. Dr. C. C. Morris played several selections on the pipe organ before the banquet and was accompanied for the musical numbers of the evening. Dr. T. S. Knox, minister of the Abilene church, spoke on the men's work, appealing for organization of this element in every other phase of endeavor saying, "This group who lead the chambers of commerce, service clubs, and other civic organizations, have been in the church unorganized. Where it has been organized it is wielding an influence unparalleled in accomplishment." Judge Ellis Douthett said: "The man in every community who has the highest respect and love of the community is the man who has been willing to meet his responsibility in the community, not the mere selfish accumulator. If you wish to go forward set upon the community's work in your church." E. S. Stephens, George L. Minter, W. R. Lence and others spoke. The class had 40 men present. From Abilene others present were W. D. Minter, J. M. Hardie, J. E. Walker, T. N. Ramsey, D. B. Shriver, Ross Hall, Jr., and C. W. McDaniel. The membership present voted to organize for the Men-of-the-Church work, and new officers will be elected at the meeting of the Bible class Sunday morning at 9:45.

EX-RANGER IS HELD IN KILLING AT VICTORIA

VICTORIA, May 5.—Alvin Marshall, 27, farmer, was shot and killed on the streets here this afternoon. T. B. Stowe, former Texas ranger, surrendered to authorities immediately after the shooting. In a statement Stowe said the shooting was the result of family trouble. This will be illustrated with 70 colored slides. Marshall was the son of Mr. and Mrs. John Marshall of Hope, Lavaca county. He was unmarried.

War Ace Killed

Major John L. Fancher, commander of the 41st division air unit of the Washington National Guard and World War ace, was the victim of an accidental bomb explosion at the Wenatchee, Wash., Appie Blossom Festival.

What Is A Station-to-Station Call?

IN telephone parlance, a station is a telephone. A station-to-station long distance call is one where a connection is established between your telephone and a desired telephone in a distant town, and not between you and some particular person in the distant town. Every local call you place is really a station-to-station call—you talk to whoever answers the called telephone.

To use this service, if you know the distant telephone number, give it to the long distance operator; if you do not know the number, give the operator the name and address of the party whose telephone you wish to reach, and let her know that you are willing to talk to anyone who answers at the called telephone.

Station-to-station calls cost about 20 per cent. less than those where you ask to talk to a particular person.

R. Q. Lee Is Praised by Railroad Commissioners at Throckmorton's Celebration as Builder of Empire

R. Q. Lee, Cisco, founder and builder of the Cisco & Northeastern railroad, was praised by Lon Smith and C. V. Terrell, members of the Texas railroad commission, at the celebration at Throckmorton Friday of the extension of the railroad to that city. Terrell referred to Lee as a man of vision and brains, with the courage of his convictions, and that the cities of Cisco, Breckenridge, Woodson and Throckmorton were under many obligations to his builder.

Mr. Smith further stated that not only this immediate section, but all of West Texas and the entire state were to be congratulated for having in their midst such an outstanding citizen as R. Q. Lee. The Texas railroad commission has supported Mr. Lee from the beginning of his railroad enterprise. Commissioner Smith said, "not only in the initial construction of the Cisco & Northeastern, but both myself and Commissioner Terrell appeared before the interstate commerce commission with Mr. Lee and supported him at every hearing of that body in his efforts to obtain a permit from the interstate commission to extend the road into Throckmorton."

The advent of the Cisco & Northeastern into this splendid and wonderful region will open up practically a new empire in Texas, which for all these years has been virtually cut off from the outside world by reason of not having railroad connections. These fertile lands, splendid cattle ranges and oil fields will cause men of enterprise to seek homes and make investments now that the railroad is an established fact.

Mayor Neely, in his introduction of Lee, was highly eulogistic when he referred to him as "a real builder, who saw the fields of waving grain and acres of cotton; the herds of fat cattle grazing on the ranges of Throckmorton; he visioned the splendid possibilities for the future of this section, and to this vision is Throckmorton indebted today for the splendid railroad that will enable the products of Throckmorton county to be shipped to the marts of the world."

Mr. Lee, in his brief address, complimented the citizenship of Throckmorton county, its fertile lands, livestock and natural resourcefulness, and predicted a rapidly developing and prosperous commonwealth now that his dream of a railroad to penetrate that virgin field had become a reality. He stated that he was proud of the small part he had taken in making it possible for the building of the Cisco & Northeastern railroad into Throckmorton, and assured the people of that county of his hearty cooperation in every enterprise that they might inaugurate.

During the day Commissioners Terrell and Smith held a conference with the oil and gas supervisors of West Texas who were present at the celebration, which

33 NEW WATER METERS PUT IN DURING APRIL

There were 33 new water meters installed in Cisco during April, according to the records of the city secretary's office. This is slightly under the number of new meters installed during March. The new water patrons, the majority of whom are new citizens, are as follows:

- W. I. Howell, 409 West Seventeenth street; G. W. Weatherby, 1105 D avenue; W. C. Greer, 108 West Fourteenth street; J. T. Stovall, 901 West Tenth street; W. A. Mosely, 610 East Eleventh street; B. W. Anderson, 610 East Tenth street; G. B. Lundy, 600 West Ninth street; Mrs. J. E. Bishop, B avenue and Tenth street; R. M. Heffner, 307 West Eleventh street; H. N. Balderse, Eastland highway; Green Little, 1104 West Seventh street; J. T. Stevenson, 703 West Tenth street; Viola Norwood, 202 East Seventh street; Paul Miller, 409 West Fifth street; H. B. Hackelman, 1702 D avenue; Mrs. Paul Morgan, Breckenridge Road; J. L. Skidmore, 105 West Twenty-third street; Mrs. H. M. Milam, 1265 F avenue; Fred C. Osborn, 504 West Seventh street; C. S. Horn, East Twentieth street; Lee Scott, East Eighth street; C. E. Kilpatrick, 409 East Seventh street; Ernest Lacy, 1101 West Fourth street; Burette Hill, 610 East Eleventh street; Clarence Hall, Duncan apartments; H. D. Hardy, Duncan apartments; T. G. Harris, D avenue and Fourteenth street; J. F. Bassett, Hill View Service Station; Lillian Shelton, colored town; J. A. Mayhew, 405 East Fourteenth street; M. J. Pendleton, Spears addition; V. L. Thompson, West twenty-third street; John F. Groce, 504 West Ninth street.

CISCO FOLKS SUMMERING AT WEST COAST RESORTS

J. H. Erwin will return today from El Paso, to which place he accompanied Mrs. Erwin en route to resorts on the west coast, where she will spend the summer months. Mr. and Mrs. Erwin were also met at El Paso by their daughter, Miss Edith Maxine, who has been in California for some time. Mr. Erwin returned to Cisco, while the ladies continued their journey west. They will be absent about three months, and will spend the time at Los Angeles, Long Beach and other west coast resorts.

Included Omar Burkett, Cisco; J. Kilgough, Eastland; W. J. Carden, Breckenridge; Lon Martin, Electra; and Walter Geron, of the oil and gas division of the railroad commission at Austin.

AT LEAST \$300,000,000

CONTINUED FROM PAGE 1

price. Should this plan be projected, an essential preliminary move would be to see that plenty of rightly priced materials were made available, and that the costs were kept down to normal. As long as we do not place a premium upon materials, the competition which the work will attract will insure the lowest possible costs.

On the whole, I feel sure that the highway department could efficiently and economically spend between \$40,000,000 a year on state road building to begin with; besides the necessary regular amount for highway maintenance, and that received a federal aid.

Continue Present Fees. Maintenance financing, under this program, should continue to come from registration and weight fees on motors, as it does now.

It is to be considered that the mileage ratio of hard-surfaced roads is increased, the cost of maintaining the state system of highways is decreased by inverse ratio. In other words, while a gravel road requires expensive maintenance—virtually amounting to frequent rebuilding—the road requires very little maintenance after it is paved.

Hence, the sooner a road is paved, the less will be its cost in the long run. An asphalt topping pays for itself in two or three years, by the saving in maintenance expense. And therefore the paving of 10,000 miles of roads at once should save the state more money than the interest on the statewide bond issue will amount to by the time it is paid out.

"Well, all that sounds very nice," the sovereign taxpayer may say, "but who is going to pay the freight on this tremendous debt?"

As stated, my plan contemplates meeting the obligation with funds derived from the gasoline tax. But will that tax be boosted from its present rate of three cents per gallon, up to 5 or 6 cents?

Gas Tax Not to Be Hiked. Surprising as it may seem at first blush, the tax would not be hiked at all. On the contrary,

an even lesser tax than the 3-cent rate which now provides about \$12,000,000 of current highway revenues per year would take care of a \$300,000,000 30-year bond issue taking into consideration the constant rapid increase in gasoline consumption and the even greater increase to result from the multiplied traffic which good roads would bring forth.

It would call for no increase in the ad valorem tax, but rather, in effect, would tend to lower the ad valorem by allotting the counties this rebate money with which to build their lateral roads.

Of course there are lots of details, provisions, stipulations, regulations and safeguards that must be determined and presented definitely in order to put the program into effect; but they are all incidental. There is nothing in the plan which can not be worked out to the entire satisfaction of all Texas, as it has been worked out in other states.

To Rely on Legislature. The legislature of Texas, in its wisdom, can be relied upon to construct and assemble the legal machinery of the program so that it will operate to the best interest and protection of the people. And until it is put into operation, the present system will be continued in effect without change on the part of the state, and without need of any interruption whatsoever in the highway progress of counties.

In other words, whether the plan should be adopted or not, its promulgation offers no valid reason for alteration of any highway plans in Texas one way or another in anticipation of future developments of the program.

This program offers the salvation of the Texas highway situation. It means the building of roads through all counties where they are needed—not through just those that happen to be wealthy—and at the same time giving back the money the counties have spent on state roads, so that they can improve their local roads. It means building the Texas highway system as a unified, connected

FIRST PRESBYTERIAN CHURCH SIXTH STREET AT H AVENUE. BRUCE C. BONEY, MINISTER.

APPROACHABLE- The day has gone when a man felt that bank officials were a race apart, and should be approached with fear and trembling. You'll find the officers of this bank are real human beings—and they extend you a cordial invitation to consult them at any time, on any matter where they may be of assistance. This is the Bank that Service is Building FIRST NATIONAL BANK CISCO, TEXAS MEMBER FEDERAL RESERVE SYSTEM

This Business Is Like the Watch You Wear Remove the main spring from your watch and it will no longer function. Quality is likewise the mainspring of this business, which would soon cease to function if quality were removed from its code of practice. "Quality merchandise or no other" has always been our motto and it always will be. There is something else in business besides making money by selling merchandise of an inferior grade. We offer such Standard Quality Merchandise as Hart Schaffner & Marx Clothes Edwin Clapp and Bostonians Shoes Manhattan and Perfecto Shirts Stetson and Borsaleno Hats Munsing and Mansco Underwear Phoenix Hosiery Cheney and Phoenix Ties Hansen Gloves All the lines you find in this store are of such known quality as these, we say, buy quality instead of price.
