CISCO—Pop. 13,500; 1,614 feet above the sea; 5 lakes water; 5 rail exits; 6 paved highway exits; 127 blocks of brick streets; 2-1 public schools and Randolph college; no mosquito; no malaria or typhoid of local origin.

VOLUME IX.

CISCO, TEXAS, MONDAY, MAY 14, 1928.

NUMBER 64

TEXAS

By WILLIAM MANES
Austin.

WACO HOLDS BAYLOR.—By agreeing to pay \$1,000,000 to match another \$1,000,000 to be raised by Baptist churches over the state, Waco will be allowed to retain Baylor University, according to a settlement reached between the Baptist Educational commission and the Waco chamber of commerce. The \$2,000,000 is to be contributed over a period of seven years and Waco can at least feel secure as to the Baylor location during the time in which the money is being raised and paid in.

TEXAS MAY RETALIATE.—A leading Texas insurance company has been refused permission to do business in Pennsylvania on the ground that "enough companies are already operating" in that state. Insurance Commissioners of Cousins of Texas is now considering refusing 27 Pennsylvania insurance companies permission to do business in Texas, probably giving the same excuse for his action. Other states whose companies have been denied permits to operate in Pennsylvania for the same reason are considering like retaliatory measures. Texas can well afford to be independent of Pennsylvania insurance.

MOHAIR PRICES SOAR.—Uvalde has marketed an accumulation of spring mohair at slightly more than 76 cents for mature hair and 86 cents for kid hair, the highest prices paid since 1914, when mohair sold for 88 1-2 cents a pound. The growing of mohair has lately become a great industry in Texas and there is still room for unlimited expansion with the demand steadily increasing.

ONION SHIPMENTS GROW.—At the last report, 4,043 cars of onions had been shipped from the Winter Garden and Laredo districts of Texas for the season, as against 3,551 cars to the same date last year. Practically every shipping point in all the section to the Southwest of San Antonio shared in the wealth resulting from this business. Cooperative marketing and distribution have placed onion growing in Texas on a profitable basis.

YOAKUM TOMATOES.—Yoakum has begun marketing its tomato crop—about 15 days later than last year, because of the late spring. The seed were planted about the middle of January and transplanted into the field about a month later, escaping serious damage from the late frosts. The crop is good, two growers expecting to market about 15 cars alone.

DEER LIKE TOMATOES.—A farmer near San Benito reports that the deer are eating his tomato crop. The protection afforded deer by the state game laws has resulted in such an increase in that section that they have become gentle enough to prey on the tomato crop and other young truck crops, of which they are very fond.

FREDERICKSBURG INCORPORATES.—Fredericksburg, a city of some 4,000 which has long prided itself in being the largest unincorporated town in the United States, has at last been forced to fall into the progressive margin of the day and incorporate for better co-operation in all forward movements. The movement met with strong opposition from the conservatives, who thought that as the place had done so well without incorporating for so long a time, it could continue to do so.

IMPROVED STATE PARK.—The improvement wrought at the Rio State Park between Pearsall and Dilley with the labor of a force of state prisoners from Huntsville has been so successfully accomplished that possibly the other state-owned parks may be improved in the same way. The 50-acre tract that was a wilderness has been converted into a lovely playground, with the underbrush cut away, roads built, bridges constructed, and orderly landscaping bringing nature's finest work into beautiful view.

SAVE-A-LIFE CAMPAIGN.—Governor Moody has designated May 19 to June 9 by official proclamation as a "save-a-life" period, during which all owners of motor cars are urged to have car brakes, lights, horns, steering gear, windshield wipers, mirrors and other equipment inspected as to safety. The purpose is all right, and will result in good if the garage "inspectors" do not take advantage of the movement to frighten car owners into buying unnecessary equipment. Many have not forgotten how the headlight law cost them large sums for absolutely needless headlight equipment.

THE WEATHER.—East and West Texas—Tonight and Tuesday, local showers, cloudy, cooler.

RAIN SOAKS ALL CISCO COUNTRY

Nationalists Are Defied by Japan

CONTINGENT IN CHINA IS BEING STRENGTHENED

TOKIO, May 14.—The Japanese government today defied the demand of the Chinese Nationalists that Japanese troops be withdrawn from the Shantung peninsula. Japan is continuing to reinforce its Chinese contingents and hundreds of troops are leaving daily for China.

Methodists Refer Resolution.—**KANSAS CITY, May 14.**—The general conference of the Methodist Episcopal church today avoided direct action on the Chinese-Japanese crisis by referring to a committee a resolution that the conference urge President Coolidge to use his office to avert any conflict between China and Japan because such a conflict might lead to another world war.

BREMEN RELIEF OFF TODAY IF WEATHER GOOD

ST. JOHNS, New Brunswick, May 14.—Weather conditions permitting, it was expected that the second relief expedition to the beleaguered monoplane Bremen on Greenly island would take off from here today for St. Georges, New Foundland. Lieut. Muir Fairchild has virtually recovered from an attack of appendicitis suffered upon his arrival here Saturday but physicians deemed it inadvisable for him to continue the flight.

2 DROWN WHEN BOAT CAPSIZES IN LAKE WORTH

FORT WORTH, May 14.—Funeral arrangements were being made today for Charles Albert Wheeler, Jr., 31, and J. Hill Cayce, 32, Fort Worth business men who were drowned late Saturday night when their fishing boat capsized in Lake Worth. Their bodies were recovered Sunday. Three fishing companions escaped with their lives by holding to the boat and pushing it to the shore of a small island after the engine was detached.

LOWDEN RACE HAS SET HIM BACK \$60,000

WASHINGTON, May 14.—Former Governor Frank O. Lowden of Illinois, has spent \$50,000 in his campaign for the Republican presidential nomination, he told the senate presidential campaign funds committee today. This was in sharp contrast to 1920 expenditures in which he was reported to have spent \$414,000.

PRETTY POPPY PATCH IS PLEASING PICTURE

The patch of poppies, at the corner of E. Avenue and Seventh street, is a pleasing picture for one to admire when passing along that way. Joe Wilson is the owner and planter of this poppy patch, and the blood red blossoms are now in full bloom. This little space is neatly fenced, and besides the poppies, roses and other flowers grow and bloom in the enclosure. This corner in the street adds to the appearance of that section of the city.

WEST TEXAS OPPORTUNITY

To the Citizens of Eastland County: The western half of Texas has never had a representative in the U. S. senate. Why? In practically all states there is an unwritten law that the two senators must come from different halves of the state. I am the only candidate from the western half of Texas. I have represented in congress two different districts, embracing 69 counties, running from Mineral Wells to El Paso. I know our problems. If West Texas will stand behind me, and let me use my time campaigning East Texas, I will get enough votes to elect me. I will highly appreciate it if my friends will organize their precincts for me, and also if they will write all of their friends scattered over Texas in my behalf. Gratefully yours,

THOMAS L. BLANTON.

SENATE PROBE INTO BIG TAX IS GIVEN O. K.

WASHINGTON, May 14.—The Lefollette resolution authorizing a senate investigation into the circumstances surrounding the action of the treasury department in the levying of a \$10,000,000 additional tax assessment against Senator James Couzens of Michigan was approved by the senate judiciary committee today.

POLICE SEEK MUTILATORS OF CONVICT

SAN FRANCISCO, May 14.—The police today were engaged in a widespread search of all hospitals in the quest of a physician and patient who, it is believed, carried the secret mutilation of the body of Clarence Kelly, who was hanged at San Quentin a few days ago. The mortician discovered that the glands and other vital organs were missing.

BRECKENRIDGE TO BE LEGION HOST MAY 19-20

The Cisco post of the American Legion will have a good representation at the district Legion meeting of the 17th congressional district, next Saturday and Sunday, May 19 and 20, at Breckenridge. C. E. Yates, adjutant, said Monday. Those who contemplate attending the district meet are requested to notify either Adjutant Yates, at the Blease Motor company, or Commander Bible, at the Cisco Motor company, as it is necessary to designate the number from each post that will attend the meeting to enable the Breckenridge post to provide proper entertainment, Yates said.

BLANTON'S SPEAKING DATES FOR THE WEEK ANNOUNCED

ABILENE, May 14.—The following speaking dates have been announced by Congressman Tom Blanton, candidate for the United States senate: May 14—Robert Lee, 10 a. m.; Sterling City, 3 p. m.; San Angelo, 8 p. m. May 15—Sherwood, 11 a. m.; Rankin, 3 p. m.; Fort Stockton, 8 p. m. May 16—Alpine, 11 a. m.; Marfa, 3 p. m.; Van Horn, 8 p. m. May 17—El Paso, 8 p. m. May 18—Pecos, 8 p. m. May 19—Munahans, 11 a. m.; Odessa, 3 p. m.; Midland, 8 p. m. New York policemen who had confessed 40 robberies was a mounted officer. Crime was in the saddle that time.—The Omaha World-Herald.

CHINESE LEADERS AT TSINAN

MAYHEW FIRST TO TAKE BATH IN LAKE CISCO

With no intention of violating the city ordinances against bathing in Lake Cisco, the source of Cisco's water supply, Commissioner A. L. Mayhew involuntarily became amenable to prosecution after his plunge in the lake where the water was about 20 feet deep Saturday afternoon. But the fact that it was ascertained that the bath was involuntary caused Mayor Williamson to refuse to accept the complaint of Water Superintendent Scott against Commissioner Mayhew for polluting the waters of Lake Cisco. Mayhew claims the honor of being the first bather in the lake for 1928.

SIX ARRESTED HERE SUNDAY; GO TO ABILENE

In compliance with a request from Abilene early Sunday morning to arrest a party of six, traveling in a car with a Pennsylvania number, Cisco police arrested Tom and Claude Bush, two Nelson brothers and two others in cafes and hotels here. The six were delivered to Abilene officers who came for the men at noon Sunday. They were charged with theft of a watch and barber tools from W. M. Stokes. The watch was found in Tom Bush's possession, most of the barber tools were located in a room occupied by Bush, police said. It is alleged that the six, with Stokes, were driving from McCamey, and all were drinking, and when Stokes became intoxicated they ejected him from his own car near Abilene, taking his watch and tools. They were taken back to Abilene to stand trial on the charges filed against them by Stokes, the officers said.

CAROL IS TOLD TO BE ABSENT BY THURSDAY

LONDON, May 14.—M. Jonsseu, at whose home in Surry, Prince Carol of Roumania, has been visiting, today failed to have the home office revoke the deportation order against Carol. He was told that Carol will have to leave England before Thursday.

9 DROWN WHEN FISHING BOAT IS OVERTURNED

Greenville, Mo., May 14.—Nine persons were drowned in Moosehead Lake here today when a boat from which they were fishing was overturned. A tenth man swam ashore but was so exhausted that he was unable to give the names of the drowning victims or his own.

Pulitzer Novel Prize

Thornton Wilder, aged 30, teacher at French at Lawrenceville Academy, is announced as the winner of the Pulitzer prize for the American novel which best portrayed American life and the highest standard of manners and manhood.

Precipitation to Benefit Crops; Rainfall General in West Texas; Many Are Endangered by Deluge

Following intermittent showers of several days rain began to fall in the Cisco country Saturday night about 10 o'clock, which continued most of the night and into Sunday, resulting in a rainfall of six-tenths of an inch, according to the rain gauge at the city hall. There was little or no runoff from this precipitation, however, and lakes and other water reservoirs were not heightened by this rain. However, it placed a good season in the ground, which will be beneficial to growing crops and ranges in the Cisco country. Reports from outlying districts indicate the rainfall was as heavy elsewhere as here. Parties traversing the highways as far south as Coleman Sunday report the rainfall was even heavier further south than here.

Commencing at Abilene Friday evening when a deluge inundated the streets of that city, practically all of West Texas was visited Saturday afternoon and night by the first rain in many months. Most of that section had been in the throes of a drought whose severity was beginning to cause much alarm as all crops were retarded for the want of moisture, and for several months the Texas & Pacific railroad has been hauling train loads of water daily from Lake Cisco for railroad uses on the western division. The local officials of the Texas & Pacific were not informed today whether the rains will have any effect on the road taking water in the future from Cisco, but the road loaded out five cars Monday for the western division.

While no drownings have been reported from any source, yet several rescues from high water were made in different places in West Texas. At Abilene an aged man was swept off his feet Saturday while attempting to cross the street. He was unable to regain his footing but was rescued by those seeing his predicament.

At Big Spring two and one-half inches of rain soaked that section of West Texas, washing out 100 feet of the Texas & Pacific tracks. In Jones Valley, west of Big Spring, the "tent colony" was isolated by high water and the population of more than 300 was trapped by the high water before their danger was realized, necessitating rescue parties to bring out the women and children, as most of the men were away at work when the storm broke. A child was born while the storm was on and the mother was carried from her automobile tent to a local hospital. When the rescue party arrived another mother was wading through water to her waist carrying her 10-month-old twins, one under each arm. Another mother with her eight children had taken refuge in their car and when reached the water was running through the floor. No lives were lost but tents, bedding and all the belongings of many of the campers were destroyed. The women of the Federated clubs are caring for those in need.

The Panhandle section reported a situation of about three inches during the precipitation, and from all parts of the state reports indicated that Texas has sufficient moisture to start off all crops that have been retarded by lack of rain. At Rio Grande a seven and a half inch rain caused the Rio Grande to rise to 23 feet, 17 feet above normal. Ballinger reported the Colorado river out of banks west of there, breaking the main line of the Oklahoma Natural Gas corporation and leaving Rowena, Miles and San Angelo without fuel.

BLANK CARTRIDGE PISTOL WOUNDS CISCO HOTEL MAN

Frank Ramond, of the Mobley hotel, is nursing a badly injured finger as the result of the accidental discharge of a blank cartridge pistol. The weapon, a toy, about two inches long, belonged to one of the hotel guests. Ramond, while examining it accidentally discharged the miniature weapon, resulting in his finger being so badly powdered that it was necessary to have a surgeon perform a minor operation to remove the powder.

BURL ANGLER CHAMPION

NO BIGGER BASS WAS CAUGHT AT LAKE CISCO THIS WEEK THAN THAT REPORTED PREVIOUSLY AS HAVING BEEN LANDED BY BURL POWELL. HIS CATCH WEIGHED 5 1/2 POUNDS.

Peasant Party Leader

Thousands of Rumanian peasants, as the Peasant Party, are led by Julius Maniu. They are demanding that the Regency dismiss the present Bratianu government, which they claim is not representative of the will of the people. (International newsreel.)

CONSUMPTION OF COTTON IS OFF IN APRIL

WASHINGTON, May 14.—The census bureau's report today showed that 325,156 bales of cotton were consumed during April, compared with 618,279 for the same month in 1927.

TRAIN STRIKES RACING AUTOS; EIGHT KILLED

ERIE, Penn., May 14.—Clare Hays, his wife and four small sons, Ward Thomas and his son, William, are dead and a ninth person is believed dying as a result of two speeding automobiles crashing into a Pennsylvania railroad near here today. Five others were injured.

RAILROAD MAY BUY PATENT OF T. J. ARLEDGE

T. J. Arledge, local ecologist, has been notified to come to Birmingham, Ala., in connection with his patented switch point lock for railroads. He was requested by the Louisville & Nashville railroad to have some of the locks made in the L. & N. shops in that city, which will be tested out, and if satisfactory will be adopted on the L. & N. system. Mr. and Mrs. Arledge will leave here May 23 for Birmingham, where he will direct the manufacture of a sufficient number of these locks for the demonstration. Speaking of his invention, Mr. Arledge said that these locks prevent accidents caused by injury or damage to switch stands. Had this lock been on the switch points when the Texas & Pacific switch stand was tampered with, the disastrous accident at Dothan a few years ago, would not have occurred, he said. Several lives were lost and thousands of dollars in property damage resulted from that wreck.

SINCLAIR LEWIS MARRIED TO NEWSPAPER EDITOR

LONDON, May 14.—Sinclair Lewis, famous American author, was married here today to Dorothy Thompson, an American newspaper writer.

"Thus saith the Lord, stand ye in the ways, and see, and ask for the old paths, where is the good way; and walk therein, and ye shall find rest for your souls; but they said, we will not walk therein."—Jer. 6:16.

OFFICIAL HUSBAND CATCHER

An irate wife said to the writer recently—not the writer's wife, another fellow's irate wife—"I think that every city should appoint a new kind of officer—something like a dog-catcher—who would go around with a net and scoop up the worthless husbands and put them to work on farms or in factories and give their wages to their starving families. That would be a whole lot better," she added vehemently, "than having these no account male bipeds coming home drunk, or doped, or just in a mean temper, and chopping up their wives and children with axes, wouldn't it?"

Every burg already has one or more officials whose business it is to round up and incarcerate husbands who love their families unremittently. All the wife has to do if the man she took for better since she couldn't have done worse, fails to support her and the children, is to trip lightly down to the police station and swear out a warrant for him. But the average unprovided-for wife will not do that. She would rather get a job in a laundry or in the five and ten. Therefore if every municipality should appoint a scrawlaway husband-catcher he would not have much to do; unless he scouted around and worked up business by visiting the homes and asking the lady of the house, "Is your husband supporting you?" That would be a nice paternal attitude.

But paternalism in government is a thing that should be viewed askance; for it is but a short step from paternalism to despotism. Once the government, national, state, or city, gets into the habit of poking its nose and its fingers into folks' personal affairs, the Lord only knows where the thing would end; our federal government is now showing an ominous tendency to get nebbly. Sometimes an attempt to correct a trouble creates a worse trouble.

To return to the delinquent husband, Seattle at one time did—and maybe does—assume the initiative in the matter of making husbands pay and pay and pay. For instance: The police went to one home and arrested the head of the house and carried him down, because they had heard that he stayed home all day fitting in front of the fire smoking his pipe of clay, while his wife supported him. It wasn't long before the wife appeared at police headquarters, and she was another irate wife, but for another reason.

"You let my husband go!" she demanded furiously.

"But he won't work," protested the Chief of the Bluecoats. "He isn't supporting his family."

"Listen here, You!" exploded the woman angrily, "I hate housework; but I like to go out and earn money. My husband likes housework; but he hates to go out and earn money; so we swapped jobs; he took my job and I took his. Now you turn my husband loose so he can go home and get my dinner. And I'll thank you to keep your nose out of our business."

If a city should install an official husband-catcher he would have so much trouble with the wives of the good-for-nothings he tried to line up that he'd quit his job in a week.

RADIO'S LONG REACH

This year radio will elect a president. There is eminent support for that statement of General James G. Harbord—a radio authority who knows his political Washington.

President Coolidge believes radio is in large measure responsible for his popularity; and the white house view is that if radio can popularize a president, it can elect one.

John W. Davis, Democratic nominee for president in 1924, looks upon radio as one of the decisive factors four years ago.

Beyond a doubt, the most important political event of the last four years has been the development of radio and the "radio network," writes Earl Reeves in the June issue of Popular Science Monthly.

In 1924 a really comprehensive radio campaign was impossible. Broadcasting stations were scattered and without central organization for program purposes. Receiving sets were fewer, and such speeches as were broadcast frequently hit only the ear of an experimenter in his workshop, entirely missing most of the voters.

But now the radio set has been brought into the living room, accepted by the women; and the radio chain has been perfected. You can link up three big

networks today and broadcast at once through sixty of the biggest stations. If you are important enough and clever enough, your voice will be heard through receiving sets in five million homes. It is even possible, with interesting enough material and with the price—something between \$20,000 and \$25,000—to keep this colossal radio ear cocked in your direction for an hour at a time.

Stunt broadcasts, in which the chains were used simultaneously, have resulted in claims that 7,000,000 radio sets and 35,000,000 listeners were reached. But the big commercial stations prefer to use a base figure of 6,000,000 sets. It seems fair to say that there are within range of the sixty chained stations at least 5,000,000 sets, a probable 10,000,000 voters!

Roosevelt lives in memory as our most strenuous campaigner. But, standing quietly in the white house, Coolidge probably has spoken directly to more persons than "T. R." ever addressed in all his active and joyous campaigning career.

The stumping campaign of James M. Cox, candidate for president in 1920, was figured at a million and a half listeners. At that rate he would have to campaign through a quarter of a century to meet from the rostrum and train platform the equivalent of a single Coolidge radio audience!

PARACHUTE DEVELOPMENT

When ten soldiers dropped simultaneously with ten parachutes from a moving airplane, they proved that at least that many passengers could leave a crippled plane quickly and safely in the air. At the time, some one suggested that further development of this safety device ought to lead to a parachute that would bring both plane and passengers safely and gently to earth. Already there is something which tends in that direction. At the Wright Field in Dayton, Ohio, the other day, an army air corps engineer tested a device of his own. It is a huge parachute capable of sustaining 10 or 12 persons. In the tests made, this parachute gradually lowered to the ground from an elevation of 2,500 feet a 1,600 pound aerial bomb. It is nearly four times as large as the regular parachutes now used by army fliers. It will be attached to a big collapsible basket to be carried in the floor of the transport plane. A dozen passengers can jump into the basket and be carried clear of a disabled airplane within five to ten seconds after the order to abandon the craft is given. That looks like a most useful device and is obviously several steps nearer a parachute that will save plane, passengers and crew.

RUSTLESS

Only a few years ago industrial engineers were speaking longingly of the possibility of "rustless steel." They pointed to the enormous waste of millions of tons of iron and steel rusting away every year, like so much fuel burning to ashes. Rusting metal is imperfect in use, and ultimately a total loss. Now five American steel companies are producing "rustless iron," described as "a low-carbon steel, high in chromium content." The demand is growing rapidly, and supply follows demand. Kitchen utensils and instruments and equipment of many kinds for many purposes can now be obtained, proof against corrosion. Progress would be far more rapid except for patent difficulties. But patents will expire. Then we may enter literally upon a "rustless age," fulfilling the dream of metallurgists, with metal for all purposes possessing the strength of steel with the smoothness and non-corrosiveness of nickel or platinum.

EASTERN LOCUSTS

Locusts again threaten the Holy Land—such locusts as the prophet Joel described when he wrote: "The appearance of them is as the appearance of horses; and as horsemen, so do they run. Like the noise of chariots on the top of mountains do they leap, like the noise of a flame of fire that devoureth the stubble, as a strong people set in battle array. They run like mighty men; they climb the wall like men of war; they march every one in his way, and they break not the ranks." Kansas can sympathize with that picture. In olden times a plague was met with prayer and miracle. Now such faith may be lacking, but man has a substitute. In fact, two substitutes—science, and cooperation. To fight the locusts, and with them the dreaded cattle plague, Egypt, Syria, Iraq, Transjordan and Turkey, countries which never cooperated before, are sending representatives to a conference at Damascus to make plans for the campaign and assemble materials and machinery. It is worth a plague or two to obtain such action.

THE PYRAMID OF GIZEH

To the Daily News:

Will you kindly permit a little space for the subject of paramount importance, namely, what the Pyramid of Gizeh has to reveal? Isaiah 19-19 says: "I have placed in Egypt a pillow, which shall be a witness." By "inch measurements of a chamber 200 feet above the surface" was revealed that "August 5, 1914, a world wide catastrophe should occur," and on that date was war declared by England against Germany. It also stated that the catastrophe would end November 11, 1918, which was the day of the armistice. It also foretells that partial peace among the nations would continue till "May 29, 1928," this month.

Then another great catastrophe, to continue eight years to September 16, 1936, and grow in intensity; to wind up with "Armageddon." That about three years after the beginning Christ would come and raise the dead saints and change the living to return with them at the end (September 1936), and to set up His Kingdom on earth.

The earthquake in Palestine, July 11, 1927, was also foretold to the day by the same measurements.

The world war came to the day prophesied; peace the day predicted; the earthquake in Palestine was "on time," watch for the catastrophe May 29, 1928. Not long to wait.

In the closing years of the 19th century, one Professor Dimbleby, English astronomer, computing by "The conjunction of the sun, moon and earth, which occurs to the minute every 360 years," said: "The last conjunction will be April 28, 1898, at 10 o'clock, p. m., and 30 years from that time, (1928) would end the 'Gentile age,' and bring in the dispensation of the fullness of time."

This would seem to be in accord with the dates of Pyramid measurements.

Paste these dates up for reference.

QUICK REFERENCE CLASSIFIED ADS

There is a Place for Everything and Everything in Its Place

—These inexpensive advertisements are a "Clearing House" for most everything, such as Buying, Selling, Renting, Restoring Lost articles, Finding Help or Employment and Securing New Patronage for your business.

CLASSIFIED ADVERTISING RATES AND REGULATIONS

ALL CLASSIFIED advertising is payable in advance, but copy MAY be telephoned to the Cisco Daily News office and paid for as soon as collector calls.

RATES: Two cents per word for one time; four cents per word for three times; eight cents per word for six times; twenty-five cents per word for one month, and sixty-five cents per word for three months order.

CLOSING HOUR: Copy received up to 10:00 a. m. will be published the same day.

DISTRIBUTION: A one time ad will be printed in at least 2,223 copies; a 3-month ad will be printed in 14,309 papers which includes the American and Roundup of a total interest of 71,545. A month's ad includes 62,000 papers with 310,000 reader interest. A 3-month ad mounts up to 166,000 papers or over a million reader interest.

TELEPHONE: 60 and place your copy with understanding that payment will be made at once, collector will call the same day or day following. Copy is received any hour from 8:00 a. m. until 5:00 p. m.

For Sale

FOR SALE—Dining room suite 409 West Second street. 62-64

LOTS FOR SALE.....41

FOR SALE—Twelve lots just east of hall park; fine location; Cisco is not dead yet; lots for sale on College Heights; some locations there looking over Cisco. In the last few days everything has increased in price, in oil lands, leases, town property and rent; everything in Cisco district; almost impossible to buy any country property now; oil is looking up; renewed drilling activity; if you want to buy anything and have any money, money talks, see me. I may find what you want. JESSE PENN, Cisco, Texas. 65

RANDOLPH COLLEGE MEN TO STATE CHURCH MEET

Dr. T. T. Roberts, president of Randolph College, and J. T. McKisick, faculty member, will leave tonight for Greenville to attend the state convention of the Christian churches of Texas, which will open Tuesday night. Dr. Roberts will deliver the educational address Friday, the closing day. McKisick also is on the speaking program.

STATE LEGION SESSION PLANS NEARLY MADE

TEXARKANA, May 14.—Plans are rapidly nearing completion for the state convention of the Texas Department of the American Legion to be held here August 27-29. District conventions of the have been or will be held as follows:

Waco, May 13, 11th district; Commerce, May 20, 4th district; Breckenridge, May 19-20, 7th district; Center, May 17, second division convention, composed of second, sixth, seventh and eighth congressional districts; New Braunfels, June 10, 14th district; Brenham, June 24, tenth district; Fort Worth, June 21-22, fourth division convention; Pampa, August 11-12, fifth division, consisting of 15th, 16th and 18th districts.

\$75,000 WOULD REPLACE DORMITORY AT TERRELL

AUSTIN, May 14.—The Terrell state hospital dormitory which was partially destroyed by fire, can be replaced for \$75,000, according to estimates of the board of control. This figure is based on replacing of the structure instead of rebuilding. To build a new building that would serve the same number of inmates as the old structure would cost approximately \$250,000 the board estimated.

The dormitory housed 256 patients. Half of them was taken to the institution at Wichita Falls and half to the Rusk hospital.

Paulette and Groce have just opened up a Hat Shop at 1401 D Avenue. We are showing the latest styles in ladies' and children's hats. 62164

POLITICAL

The Cisco Daily News is authorized to announce the following candidates for office, subject to the action of the Democratic primary election in July:

Congress Seventeenth District
 E. Q. LEE
 T. PERKINS
 Associate Justice of Court of Civil Appeals of Eleventh Supreme Judicial District at Eastland, Texas
 BURETTE W. PATTERSON,
 Judge Commissioners' Court
 R. L. POE
 CLYDE L. GARRETT
 WILBURNE B. COLLIE
 Legislative Representative
 OSCAR CHASTAIN
 Co. School Superintendent
 H. A. REYNOLDS
 MISS BELLAH SPEER

OF A SOCIAL NATURE

Twentieth Century Club

Met May 11, City Hall. The members of the Twentieth Century club met May 11 at the city hall with Mrs. J. R. Burnett in charge of the regular business session. Fifteen members answered to roll call with memory work from "Amy Lowell" and "Poets of the Anthology." After a brief business session the following program on "The Poetry of Imagism" with Mrs. T. J. Dean, leader, was given: Mrs. J. B. Cate gave a paper on "The Merits and Defects of Imagism in Poetry." Mrs. J. H. Moyer read Amy Lowell's poem "Patterns." Mesdames Alfred Irby, T. J. Dean, Ben McClinton, J. L. Shepherd and C. B. Williams took part in the discussion. The club adjourned to meet Friday, May 18, at 4 o'clock, at city hall.

Amusu Club Met Saturday Evening

The members of the Amusu club met Saturday evening at the Green Lantern tea room. Several tables were placed for bridge, while the other guests enjoyed dancing. Angel food cake and coffee were served to the following guests: Mr. and Mrs. Joe Hanrahan, Mr. and Mrs. W. G. Hanrahan of Fort Worth, Mr. and Mrs. A. C. Elter, Mr. and Mrs. Hardy of Eastland, Mr. and Mrs. White of Eastland, Mr. and Mrs. G. H. Fincher, Mr. and Mrs. Joe Burnham, Mr. and Mrs. Charles Yates, Mr. and Mrs. Roy Stover, Mr. and Mrs. James Bates, Mr. and Mrs. Lewis Starr, Mr. and Mrs. K. A. Schmidt, Mr. and Mrs. Hoyt Agnew, Mr. and Mrs. Frank Murphy, Mr. and Mrs. Will Cunningham, Mr. and Mrs. Herr, Mrs. Mac Anderson of Rising Star, Miss George and Joe Adams.

Sunday School Class Had Picnic Party

Mrs. C. E. Scott's Sunday school class of the First Methodist church enjoyed a picnic at Lake Strickland Saturday afternoon. The class met at the church and enjoyed a hay ride to Lake Strickland. After spending several hours in playing different games a delightful feast was spread on the ground. There were 17 members present with Mrs. B. E. Morehart and Mrs. Tomlinson as guests.

Eastern Star to Meet Tuesday Evening

There will be a meeting of the Eastern Star at the Masonic hall Tuesday evening at 7:30 o'clock. Annual election of officers will be held.

CROSS PLAINS LIONS PLAN TO GET CITY HOTEL

CROSS PLAINS, May 14.—Realizing that the town of Cross Plains should have a modern brick hotel because of the city's location, its present business and future possibilities, the Cross Plains Lions club has undertaken the task of securing such a hotel before many more months will have passed.

A hotel committee has been appointed to either raise funds here or consider propositions of out-of-town hotel men. A report of the committee will be made at the next regular meeting of the club Tuesday at noon. It has also been announced that a group of hotel men will be present to obtain information as to the need of a modern hotel in Cross Plains.

Cross Plains is located equidistant from Baird, Cisco, Coleman and Brownwood, is in the heart of a wonderful farming district, and has oil fields scattered about it in almost every direction. Transient people, visitors, oil men and salesmen usually prefer driving over to one of the neighboring towns where better facilities and accommodations are afforded. The Lions realize that this trade should be kept at home and that a modern hotel will be an asset to the town and the owner at all times regardless of depression and are determined to see that the town soon has a hotel.

PETTY JURY FOR 88TH COURT FOR COMING WEEK

Following is the personnel for the petty jury of the 88th district court for the week beginning Monday: A. M. Gilbert, Carbon; R. S. Glenn, Cisco; B. O. STYLE HINTS

By ALICE LANGELIER International News Service Staff Correspondent.

EVEN PYJAMAS HAVE FEMININE TREND

PARIS, May 11.—Even pyjamas have taken the feminine trend this spring. No longer severe enough to please Suffragettes, smart couturiers are including them in all their fluffly collections for June brides.

The pyjamas, will be worn forever, according to the French dressmakers. Women used to think they could get along with negligees and tea-gowns and things like that, but the pyjamas has given something better.

For the season, it is just the thing. By starting the season in colored pyjamas, one can avoid the blistering sunburn which is as painful as it is ugly, and acquire only a smart light coat of tan gradually and comfortably.

In place of the strictly tailored variety with stiff looking lapels and mannish pockets, there are soft, graceful affairs of crepe, satin, chiffon or taffeta. Worth is showing stunning models in the softest of colors and satins. Very often the trousers are of silk or satin with a jacket of filmy lace or chiffon falling in a wispny train at the back or side. There is no hint whatsoever of masculinity about them. Flowered patterns are popular coming with jackets of a plain color.

Mary Nowitzki, who has contributed much to the variety and persistence of the pyjama mode, is showing one model with the trousers and coat of green silk, wide and graceful in line. The sleeveless blouse under the coat is of white silk and the triangular applique on coat and blouse is of a brown ground print with a small figure. Very often she combines

three and even four colors in a single pyjama suit. A charming three-piece set consists of a straight blouse with long sleeves and flat V neck. Both blouse and bouffant trousers are of white satin. A short detachable skirt, cut slightly circular, is made of Parma violet satin.

WEEKLY REPORT 11TH COURT OF CIVIL APPEALS

EASTLAND, May 12.—The 11th court of civil appeals Friday handed down the following report of the proceedings for the past week:

Cases Affirmed—Citizens National bank of Abilene, vs. J. M. Campbell, from Taylor county. J. F. Goodwin, et ux., vs. W. R. Hedrick et al. from Jones county. Gulf Refining Co. vs. First State bank of Stamford, from Jones county.

Cases Dismissed—Olmstead's Reciprocal association vs. Lena Coe, from Stephens county. Motions Submitted—Perc Edwards vs. Dillingham & Alexander, to dismiss, S. H. Prim vs. J. C. Latham, et al. for rehearing.

Motions Granted—Neely Braly vs. West Texas Produce Co. and J. P. Webster & Sons, to affirm on certificate. Cases Submitted—Jeff Taylor vs. Henry James, et al. from Taylor county. Cisco Mutual Life Insurance association vs. Oma Lee Ferguson, from Eastland county. T. A. Pinkerton vs. Eliza Kempner, from Haskell county.

Cases for submission May 13—Mrs. Candis Roberts Stuard vs. R. A. Vick, administrator of estate of J. B. Stuart, from Taylor county. Republic Insurance Co vs. Fletcher Grant, from Taylor county. C. A. Meyers et ux vs. B. S. Walker, from Stephens county. W. A. Scott vs. G. W. Waldrop & Co., from Taylor county.

Coming down town in the evening is a game. Everybody who finds a parking place wins.—The Toledo Blade.

President of Federation of Women's Clubs Directs Largest Feminine Organization in World; From War Work to Park Service

Mrs. John Dickinson Sherman, president of the General Federation of Women's clubs, has the distinction of presiding over the largest organization of women in the world, the Federation embodying more than 14,000 member clubs, including 58 groups of English speaking women in foreign countries. Mrs. Sherman is a ninth generation American, being a direct descendant of John Whitney, who came over with the first of the Puritans, and settled in Watertown, Mass., in 1635. She was born in New York state, and later lived in Chicago, where in 1887 she married John Dickinson Sherman, a well known journalist, who passed away in March, 1926. They had one son, John King Sherman, who was in the air service of the World War and now makes his home in Estes Park, Colorado. Immediately following her election to the presidency of the General Federation of Women's clubs at the Los Angeles biennial in 1924, Mrs. Sherman announced that the keynote of her administration would be the American Home and that the work of that newly created department and of the several other departments of the Federation would be directed toward raising the standards of life in the American home, the community and the nation. Mrs. Sherman inaugurated the nation-wide home equipment survey to determine the amount and kind of working machinery in the American home, the final objective being the reduction of labor in the household and the placing of housekeeping on a sound economic basis. In this project, which has made available information on 8,000,000 homes, Mrs. Sherman has the endorsement of President Coolidge, Secretary Hoover, Secretary Jardine and Secretary Work. Active in Park Work. The "National Parks Lady," was

MRS. JOHN DICKINSON SHERMAN, PRESIDENT GENERAL FEDERATION OF WOMEN'S CLUBS.

a title held by Mrs. Sherman before she became head of the federation. She was one of the most potent influences in the creation of Rocky Mountain National park, of which she was the only woman director of the national park garden commission. Mrs. Sherman has been for many years a recognized authority on park service in 1916 and doing the work from which grew the national conference on state parks. During the war she served the

federal government as special assistant director of the United States garden army, under appointment of Secretary of the Interior Franklin K. Lane, and was the only woman director of the national park garden commission. Mrs. Sherman has been for many years a recognized authority on park service in 1916 and doing the work from which grew the national conference on state parks. During the war she served the

its tenth edition, has been highly endorsed by Elihu Root and other jurists. She is a contributor to a number of the nationally known magazines and other publications. She is a member of the Daughters of the American Revolution and acted as parliamentarian for the national congress at two sessions.

Experience is Wide.

Mrs. Sherman is cosmopolitan, human and full of understanding. She thinks clearly and has a rare inherent sense of justice; experience has given her the "both sides of a question" and nature has endowed her with the rare gift of impersonal judgment. The keenness of her understanding, the logic of her decisions and the kindness of her heart, have been praised deservedly by all who have profited by conference with her. Her wisdom and discernment, combined with rare executive ability, and a close and constant contact with government officials and national affairs, makes her particularly fitted for the post of leader of this large and influential organization, whose aim is to build up in every community an organized and informed group of women who are actively engaged in promoting projects for the betterment of life.

That Mrs. Sherman's judgment, cooperation, approval and opinion is sought by large and influential bodies is shown by the following impressive array of organizations with which she is connected:

- Interested in Many Movements. Honorary member and member of the board of trustees of the National Park association. Member of the executive committee of the National Conference on Outdoor Recreation. Member of the board of the National Forestry Week association. Member of the committee on the relation of Electricity to Agriculture. Member of the Executive committee of Better Homes in America. Member of the board of directors of the American Forestry association. Member of the "Natural Conservation and Wild Life committee. Member of the education com-

mittee of the Chamber of Commerce of the United States of America. Retiring chairman of the Women's Joint Congressional Committee, an organization representing 22 national organizations of women. Member of the advisory council of the National Broadcasting company. Member of the United States commission for the celebration of the 200th Anniversary of the Birth of George Washington.

Member of the National Education committee of the National Outdoor Recreation Conference. Member of the national awards committee of the American Chemical Society in their prize essay contests. Judge of achievement award of Pictorial Review.

Member of public relations committee, conference on Street and Highway Safety. Member of committee on general conditions affecting distribution of the National Distribution Conference.

Member of the United States Correlating Committee for the Protection of Nature.

PUBLIC RECORDS.

EASTLAND, May 14.—Public records of Eastland county for the latter part of last week included: M. Grant, W. P. Chism et ux., to Chas. T. Bates, see deed records, \$10. Designation of homestead, Joe Clements et ux. to public, part of lot 2 block 114, Cisco. Circulation Drive Interest Is Growing

NOMINATIONS RECEIVED FOR MANY WOMEN

The county-wide circulation drive for the Cisco Daily News and the Weekly American and Roundup with ladies who reside at points outside of Cisco, is gaining a country-wide interest, there being nominations received from almost every town and rural route in surrounding territory.

A total of 100,000 points is given for entering the name and the free coupon is good for 10,000 points and there is no limit to the number of coupons that can be given to any one worker. The readers of the papers are saving the coupons and the end of this week will find the drive fairly well organized in the different sections.

The names of the ladies who have been selected to conduct the drive, the territory being divided into two districts, will be published in the American and Roundup this week. The points for the nomination and coupons that have been given to each entrant will also be published.

In order to have your name among the first published list be sure that same is in the News office by Wednesday of this week. Clip the nomination blank in this paper, also the free coupon, fill them out and send them to the Daily News office at Cisco. Subscription and other blanks will be sent with instructions how to make the start on the campaign and secure the most points and win one of the many valuable prizes that are offered.

The opportunity to get a good lead in the drive this week is offered to the ladies who will secure enough subscriptions to make up a \$10 club. Three months to the Daily News with the Weekly American at \$2 will get 40,000 regular points and count on the \$10 club. Six months to both papers, \$3, will secure 100,000 regular points and count on the \$10 club. One year for both papers, \$5, will get 250,000 regular points and will apply as half of the \$10 club. One year to the Weekly American and Roundup, \$1.50, will secure 30,000 points and apply on the \$10 club. The Daily News is \$4 a year without the Weekly and secures 225,000 regular points and the amount will apply on the club.

The extra points given for making up the \$10 club, for this week, 1,500,000 points, with a limit of one \$10 club for the extra points that any worker can secure for the week. The subscriptions can be secured and sent in one or more at a time. The papers will be started as soon as the subscription is received which will give the worker the opportunity to get the points for the subscriptions and for the free coupons that appear in every issue of the Daily and Weekly papers.

Those who send in the names of their friends who do not take the Daily or Weekly may have sample coupons sent out and by securing the coupons that go out in such papers a great many points can be obtained in this way. The most points win and not the most money in this drive.

Start your campaign this week. Very few ladies started last week and the opportunity to get one of the new Chevrolet cars or any of the other valuable awards was never better.

UNCLE OF MRS. COLLINS IS DEAD AT GRANBURY

Mrs. J. J. Collins was notified today of the death of an uncle, Millard Jones, at Granbury at 4:20 o'clock Monday morning. Mr. and Mrs. Collins will leave Cisco Tuesday morning to attend the funeral which will be held at Granbury at 3 o'clock Tuesday afternoon.

PRESBYTERIAN CHURCH ADDS 10 MEMBERS

The Mother's Day program at the First Presbyterian church was opened by Dr. C. C. Morris at the pipe organ playing Schuman's "Album Leaf." Miss Ella Andres effectively sang "Mother," and the choral choir "Wake the Song of Jubilee." The minister, Rev. B. C. Boney, used the theme "A Mother's Religion," dwelling on the thought that, as exemplified in Hannah's love for Samuel, a mother's love is so great that no pain has been found strong enough to break it; no sacrifice too great for it to make; and nothing on earth exceeds its joy when happiness or success attend its object, yet her love for her God has ever made her willing to give her dearest to Him. M. E. McCown received the Goral tribute as the oldest mother present, being eighty and a half years old.

Ten additions to the local church bring the number to 25 since the year of personal evangelism started April 1. Those uniting Sunday were Mr. and Mrs. J. B. Garrett, Mr. and Mrs. G. C. Tidale, Mr. and Mrs. H. D. Hardy, Misses H. E. McCown, Chas. E. Brown and F. C. Reiman, and Mr. J. C. Ross. It was announced that the children's day exercises at the Sunday school long, 9:45, would be the only period of worship at the church next Sunday; the high school baccalaureate sermon at 11 and Randolph College baccalaureate sermon at 2 will be attended instead of other services.

JACK RABBIT HUNT NEAR HAMILTON SUCCESSFUL

HAMILTON, May 14.—A recent rabbit hunt on the Spruill ranch in Hamilton county, netted 162 jack rabbits, five crows, four hawks and one owl. The hunt was organized for the purpose of waylaying Jack rabbits which have been doing heavy damage to crops.

Another hunt has been planned for May 19 which is expected to be a community affair. The "drive" will be under the direction of Capt. George Crigg.

"GENTLEMEN PREFER BLONDES" DIG AT MEN

Readers who think that Anita Loos' book, "Gentlemen Prefer Blondes" is an epic of the American gold-digger are right, but those who think it is an indictment of her have missed the point entirely.

"Gentlemen Prefer Blondes" which Paramount produced and which is at the Palace tomorrow, is a great "woman's picture." Every woman who sees it is going to enjoy seeing the male characters of the picture yield to the glib, innocent-seeming flattery of the little defenseless girl, who has no weapons but her sharp wits.

For it is the utter foolishness of the male sex that Miss Loos ridicules. It was there, hidden sometimes but there nevertheless in every line of her book, Malcolm St. Clair and his splendid cast got the same spirit into the picture. Lorelei, like those famous policemen of the north, always gets her man, with her ulterior motive his pocketbook. It is not exaggeration, either. Miss Loos has simply hit on the fact that most men are simply waiting

around for some clever little gold-digger to pluck them.

A scientist says a great many animals laugh. Chief among them, we suppose, is the blind pig. — The Louisville Times.

NOMINATION OR SELECTION BLANK

The Daily News and American and Roundup Subscription Drive.

I nominate Mrs. Miss.....

Address.....

Selected by.....

Only one nomination or selection blank will count for the 100,000 points for any one worker. Fill out the lines and mail or send at once to the Circulation Department of the Daily News. Names of those making nominations will not be divulged, upon request, under any circumstances.

COUPON FOR FREE POINTS

Daily News and American and Roundup Subscription Drive

GOOD FOR 10,000 POINTS

NOT GOOD AFTER MAY 26, 1928.

FOR.....

Address.....

Fill out properly, mail or send, to The News Office on or before expiration date. No points can be transferred after being received at the office. Coupons must be trimmed carefully, pinned together, and it is only necessary to write the name and address on the top coupon with the added number of coupons which appear in every issue. The date that the coupons will be good for will be changed each week so that same will be good for ten days or two weeks from the time published.

14th Prize, Two 3-piece Steel Carving Sets, One for Each District. Extra quality steel. Hard black star handles. Steel sharpener. Silver plated caps.

15th Prize, Two Kitchen Sets, One for Each District. Six-pieces. Paring knife, spatula, meat fork, slicer, butcher knife and meat cleaver. Cocobola wood handles. Blades of high grade crucible steel.

CASH AWARDS of ten percent for subscriptions secured by workers who do not receive one of the above prizes in both districts.

Pennsylvania, New York to Control G.O.P. Nomination

Hoover Is Leading G. O. P. Field with 380 Votes of 545 Needed to Get Majority; Lowden Next, 200

WASHINGTON, May 14. — Less than one month from today, on June 12, the Republicans foregather at Kansas City to nominate a candidate for the presidency.

Most of the 1,089 delegates have been chosen. Only a handful of the states are yet to select their representatives for the quadrennial drama. Many of the delegates have been instructed or committed, but a survey of the field discloses that at Kansas City, as elsewhere in other years, the uncommitted and "doubtful" delegates hold the whip-hand.

Herbert Hoover is within striking distance of the nomination. The most reliable tabulation available in Washington gives him 380 and he can probably count upon 80 others from the friendly states of New Jersey, Texas, Alabama, Wyoming and Florida. But this leaves him still nearly 100 votes short of the 545 majority necessary to nominate.

Next in line is Frank O. Lowden of Illinois. The same table accords the grain belt candidate approximately 200 delegates. The balance of the field, made up of favorite sons and dark horses, is strung out far in the rear.

The big delegations from New York and Pennsylvania, controlling 166 votes between them, hold the whip-hand in the situation at present, and little doubt is expressed here that these leaders, practical politicians all, are going to Kansas City with their whip-hands intact.

Substantial confirmation of this was seen when the 79 delegates from the Keystone state met for organization in Philadelphia Saturday. They were uncommitted but Andrew Mellon, state boss, said that Hoover was the "best fitted."

Between now and the convention there will be considerable jockeying and conferring among the party leaders and the candidates' managers. It may even be that the nominee will be settled within that span of time through agreement or coalition. Present indications are, however, that such will not be the case, and that the Republicans will go into the convention with the issue still in doubt and New York and Pennsylvania sitting in the saddle.

DOG CATCHER 91, DREAMS OF DAY BACK AT WORK

FORT WORTH, May 14. — Dad Barton, 91, dog catcher of this city for 18 years, is ill but dreaming of the day when he will again drive his bay mare, hitched to his old-looking dog wagon, and accompanied by his pet Boston Bull, in search of stray canines.

It is not considered probable that "Dad" will ever be able to work again but he insists he will be back within "a month or so." His outfit, for nearly a score of years a familiar sight on the streets of the city, has been superseded by a "diver" and John Grimm has taken up the task of running down stray dogs.

Dad took pride in his work, and was popular with the Fort Worth police force. He could be frequently seen at police headquarters, humming some old air, his jaw working over and over "chews" of tobacco and whittling contentedly on his wooden leg.

It is estimated that the veteran dog-catcher has driven more than 140,000 miles in his work of catching vagrant canines.

BUSINESS CHANGE
E. D. Anderson, formerly with the C. O. Pass Chevrolet Co., has bought the interest of Lee Pritchard in the general agency business of Pritchard & Roberts, at D avenue and East Seventh street, and the firm is now Anderson & Roberts. Pritchard retires from the business.

You can tell a man's class by the size of the debts he worries about.—The Rochester Times-Union.

LOCAL PILOT "EXPLORES" LITTLE SANDY

Harry Edwards, of the Humble Oil and Refining company, with headquarters in Houston, thinks a lot of Cisco and gets a real kick out of his frequent visits here. However, the next time Mr. Edwards goes fishing on Lake Cisco he proposes to furnish his own pilot and at the same time see that the aforesaid pilot is equipped with a compass and all the tools usually carried by an experienced deep water mariner. Here's what it's all about:

The other day, after Mr. Edwards had concluded the business that brought him here, Dr. E. L. Graham and F. A. Blankenbecker asked that he join them in a fishing cruise on Cisco's big lake. Dr. Graham—who spent last year in Europe, you know—assured Mr. Edwards that he was perfectly familiar with the big lake and its many tributaries and was, in fact, about the best pilot this side of the Mississippi.

Well, to cut a long story short, Edwards "went along." After they had been out several hours, and had landed a number of fine bass, "Doc" insisted that he just must show the Houston man what he designated as "one of the prongs of the Little Sandy," which empties into the lake. And so, with all the "blissful" "gasoline baby" out of the expansive waters of Lake Cisco and into the narrow confines of "one of the prongs of the Little Sandy."

And right then the once light-hearted Edwards began to lose track of time, all idea of direction and considerable faith in human nature. And the "Doc" was in the same plight as to direction. When the launch "stumbled" into Lake Cisco proper some hours later, Edwards

was a "worn" man, the "Doc's" Leicester Square mustache was drooping miserably and Blankenbecker had abandoned all hope of again seeing Herbert Hoover.

Mr. Edwards, who has gone to Mineral Wells to recuperate, is positive of one thing:

"If Doc" Graham explored but one prong of the Little Sandy, then a centipede has but one leg."

Daylight saving at least offers a splendid field for argument for the individual who is afraid to venture into the equalization fee or the merit of one thing.—The Indianapolis.

Grandfather Told Father and "Dad" Told You

KELLER NO. 2 PROMISES TO BE PRODUCER

CROSS PLAINS, May 14.—Indications are that Cranfill & Reynolds No. 2 Keller will be a small producer since ten feet of the sand has been drilled and there is but a very small amount of oil in the hole. It is located 300 feet south of the O. L. Keller No. 1 and is diagonal offset to the J. B. Eubank No. 2 in the Eubank pool three miles south of Cross Cut. The well is temporarily shut down but will be shot within the next few days. Although practically no gas was in the sand, it is thought that a light shot will loosen the sand enough to cause the oil to rise higher in the hole and will give a small pumper when cleaned out. Baker & Hughes missed the pay in their test one-half mile to the south of the J. B. Eubank tract. Baker & Hodges started this test thinking that they were on their own lease but discovered that they were on a lease belonging to Cranfill & Reynolds after they had drilled 1,000 feet. An agreement was reached wherein it was to be completed by Baker & Hodges on a contract basis.

CHAUTAQUA BY LIONS WILL OPEN TONIGHT

The Breckenridge Lions club is "all set" for their feature tonight to open the Cisco Lions chautauqua at the high school building at 8 o'clock. They have a 21 piece cast, consisting of musical numbers, orchestra, comedy and other entertaining features. The "Terrie Wenees" who have visited various neighboring cities, and who never fail to bring the house down, are a part of the entertainment for tonight, according to telephone messages from Breckenridge. Nick Miller, chairman of the executive committee, says that reports from the various towns participating are indicative of "big treats" for those who attend each night. So far as he has been able to find out, the Lions of Breckenridge, Eastland, Ranger and Abilene are going after the \$50 prize offered for the best program from the visiting towns. Cisco Lions give their program Friday night but will not compete for the prize. This does not mean that this feature will not be a good one, however. The local talent under the direction of Lion Negro are determined to uphold the good name of Cisco with a program unsurpassed by any neighboring club. The entire proceeds for the five night series go toward a fund for building a gymnasium and public auditorium.

"FOUR LEAKS FROM THE BIG DAM"

Scene from a part of Ranger's Lions Chautauqua program at Cisco, Tuesday evening, May 15.

ANOTHER GARNER STORE TO BE OPENED AT HAMILTON

Garner-Alvis company announced a few months ago that they were to close out their store in Lampasas, but at that time were unable to state just what disposition would be made of the Lampasas stock. They have now decided to move their store to Hamilton, and V. E. Curry, local manager announces that the Lampasas store will be closed on the 12th of May and moved as soon thereafter as possible. They have leased a building in Hamilton and will move as soon after the 12th as possible. The building will be remodeled for their occupancy. The Garner-Alvis Co. is a live, wide-awake institution and Hamilton is to be congratulated upon having them added to their business institutions. Mr. Curry will have charge of the management of the store in Hamilton—Lampasas Leader.

John H. Garner, proprietor of the John H. Garner store in Cisco, is the head of the Garner-Alvis Co. and the firm has several branch houses in West Central Texas.

Walsh is a fine investigator, but only Bryan had adjectives enough to take proper advantage of the present situation. — The Birmingham News.

MULE INJURED BADLY BY AUTO PUT TO DEATH

Ira Hooker, of the Pleasant Hill community, lost a valuable mule about ten days ago. The mule supposedly was run down by a passing auto which broke one of its legs, making it necessary to shoot the animal. Mr. Hooker and family were in Cisco the night the mule was injured. Two mules were left in his horse lot, and the one apparently jumped out and was hit by a car. He said he had just purchased the mules from a neighbor, N. J. Kinzaid for \$400. They were so well matched that he harassed them and had a photograph made. That night the accident occurred before he had ever placed them in service.

WOLF BOUNTY AROUSES CALLAHAN'S TRAPPERS

CROSS PLAINS, May 14.—The payment of a bounty on all wolves killed in Callahan county has set many individual trappers and hunters to work and the task of exterminating these animals is well under way. Since the announcement of the bounty a few weeks ago, a total of 47 wolves have been killed. During the past week County Agent A. M. Cooper reported that 13 hides were brought in one day. The Callahan County Wolf club is highly pleased with the interest assumed by hunters and regard it as a matter of a few years until this predatory animal will be exterminated in the county.

IMMENSE ONIONS AND LETTUCE GROWN HERE

There's nothing little about the way Mr. and Mrs. H. B. Paulette of Cisco grow things in their garden. Just to show that the Rio Grande valley has nothing on this part of Texas in producing vegetables they brought to The News office some onions and lettuce grown in their garden. The onions were about five inches in diameter and a slice from any of them would cover a slice of bread easily and to spare. The leaf lettuce was a good 15 inches in diameter and had the appearance of a huge bouquet.

IVAN DANIELS MANAGER OF BRECKENRIDGE HOTEL

Ivan Daniels, son of Mr. and Mrs. George Daniels, of Cisco, has recently been named manager of the

Burch hotel at Breckenridge, with the opening of that hostelry Mr. Daniels accepted the position of general manager, and when the manager's position became vacant a few days ago he was promoted to it.

Mr. Daniels is an experienced hotel man, having served the Daniels hotel here, and has been assistant manager of a leading hotel in the East.

DROWNED BULL FROGS TOO YOUNG TO SWIM

Tom Whitehead was here from Midland Monday, and reported that a two-inch rain fell in the Midland country, the first in several months. In fact Whitehead said that many of the bull frogs, of the 1928 hatch, that had not learned to swim, were drowned by the precipitation.
