AMUNDSEN BODY FOUND, RECOVERED

100 Boy Scouts to Go to Camp

30 FROM CISCO TO MAKE TRIP TO LLANO SITE

Every preparation is being made for the Boy Scout encampment at Camp Martin, on the Llano river, said J. T. Maddox, executive of the Cisco Boy Scouts. "We expect to have about 100 Scouts in camp with 30 from Cisco. The pioneer Scouts go ahead of the main body, which will leave Cisco early July 4, to arrive at the camp about 11 o'clock. Every town will furnish its own transportation, and those who can take their sons to the camp, or who will convey a bunch of the Scouts, are requested to report to Charles G. Gray, chairman of transportation for the Cisco Scouts, just how many they can handle.

"We expect to have a Scout band at the camp, and all Cisco Scouts who play in the band met at the First Baptist church Sunday afternoon and went to Eastland for rehearsal with the band before embarking for the camp. Refreshments were served the band boys during the rehearsals.

The Scout executives have signed up for the full time of the encampment and others for part time. The fees for the encampment are \$10, which includes tents and cots, but the Scouts must furnish their own equipment. I have been informed by Scout Executive Quill that the mess hall has been completed, and the pioneer Scouts, the advance guard, will have all in readiness by the time the other Scouts arrive.

A. J. Campbell, director of the Eastland and Olden bands, is conducting the organization of the Scout band, which he will take to the encampment and remain there with the band throughout the encampment. The organization was perfected Sunday with the assembly of all band Scouts at B. V. P. U. hall at Eastland. It is Campbell's purpose for the band to play in the towns they pass through Wednesday while en route to the camp."

AIR ENDURANCE MARK IS AIM OF GERMAN FLIERS

DESSAU, Germany, July 2.—Johann Ristiez and Wilhelm Zimmerman, German aviators, hopped off at 3:45 o'clock this morning in an effort to break the world's endurance record of 58 hours and 36 minutes, now held by Italian fliers. They are flying a Junkers plane, a sister ship of the trans-Atlantic monoplane Bremen.

Hysterical in Court

Mrs. Eva Hessel Gordon became hysterical in a Boston court when she was found guilty with her two sisters of receiving money stolen from the Eastern Steamship Company. The trio faces a term in prison.

MRS. AL SMITH PRESENTED WITH LIVE DEMOCRATIC EMBLEM

Picture shows Arthur Smith, son of democratic nominee for president, holding three-day-old Texas burro which was presented to Governor Smith by proxy after his nomination. Mrs. Smith, standing beside her son, shows her biggest smile during the demonstration for her husband.—International Newsreel Photo

2,500 WITNESS WATER EVENTS AT LAKE CISCO

A record breaking crowd of 2,500 people witnessed a varied and interesting program of water events held Sunday afternoon at Lake Cisco in connection with the formal presentation of Miss Frances McGinnis as "Miss Cisco," who will represent Cisco at the Brownwood water carnival opening tonight and running through Wednesday.

The program officially started with a junior boys swimming program. Wesley Harrell and Bill Berry, local junior life savers, demonstrated methods of approaching a drowning person with the emphasis placed on speed.

One of the several features of the program was the one act pantomime staged by Jack Farley and Quincy Lee. The crowd of interested spectators received a thrill when a young rube looking fellow attempted to walk the bridge rail. Frightened by an authoritative command from one of the life guards he lost his equilibrium falling into the water at an angle of about 45 degrees backwards. Not being a swimmer of good form he decided to drown. His call for help was answered by a white and decorated faced life-saver who apparently had some difficulty locating the drowning country boy. Using reversed methods of the regular life saving technique the subject was brought to shore, and there resuscitated in an entirely different manner followed by the more experienced life guard.

Final Tribute Paid by Cisco and Huge Throng of Friends to Judge Hayden; Eulogized at Services

Cisco buried Judge Walter Hayden Sunday. The tenement from which his immortal soul—the real man—had taken its flight into that unknown land, was tenderly consigned to the earth from whence it came, but this esteemed citizen, loyal friend and devoted husband still lives in the hearts of those who loved and esteemed him.

The funeral services, conducted by Rev. Acker C. Miller, pastor of the First Baptist church, were held at the residence at 10 o'clock, and every foot of space in the residence and lawn was occupied by those who know and loved him, each anxious to pay last tribute to one whom he had known and loved in life. The minister paid a glowing tribute in his eulogy of the life and character of Judge Hayden, while the casket containing his mortal remains reposed in front of the improvised altar, hidden from view by banks of floral offerings, silent but beautiful emblems of hope, friendship and love from friends of Cisco and other cities. So great was the demand for floral tributes that it was said the florists of Cisco and Eastland disposed of the contents of their greenhouses without being able to fill all orders. So numerous were the flowers that banked the last resting place of Judge Hayden that a large truck and several automobiles were required to carry the flowers from the home to the cemetery.

At the conclusion of the services the body was escorted to the grave by one of the largest corteges seen in Cisco, so many were those who came to pay their last tribute to their friend and fellow-worker, for among the mourners were many from a distance, as representatives from practically every oil company in the Oil Belt counties were in attendance, and all sent floral offerings. The employees of the Humble company of Breckenridge, Desdemona and Rising Star joined their fellow-workers of Cisco in honoring the memory of their friend and comrade. Among those from a distance were H. K. Arnold,

F. K. STAMEY IS BURIED AT SIPE SPRINGS

A large number of friends and mourners filled the auditorium of the First Methodist church Sunday afternoon, for the last rites for the late Frank Kistler Stamey, who died Friday afternoon after an illness of several months. Rev. P. T. Stanford conducted the services, and paid a beautiful tribute as he reviewed the life and deeds of this worthy pioneer and upright man, whose whole life had been practically spent in Comanche and Eastland counties, where he was loved and esteemed by all who knew him well.

His latter days spent in Cisco were those of a retired gentleman, and, by reason of his seclusion due to his impaired health, he had not entered actively into local affairs, but spent most of his time with his family. But in his more active days he was prominent in the progress of the community in which he lived, and took an active part in all progressive movements.

That he was a man of character and uprightiness is demonstrated by the splendid family of men and women, children of his rearing, for no man can leave to the world a greater heritage than a family of splendid men and women to take their place in the business, social and religious circles. These who bear his name will perpetuate his memory in the world from whence he has gone, and their lives will speak in louder praise than any eulogy of press or pulpit.

MOODY NOT TO JOIN BOLTERS OR 3RD PARTY

AUSTIN, July 2.—"Certainly I will not. I'm a Democrat," Governor Dan Moody declared today when asked whether he will attend a conference scheduled for Asheville, N. C., July 11 by ultra-dry with a view of forming a third party or bolting the Democratic ticket.

The governor is preparing a statement concerning the platform adopted by the Democratic national convention in which he will stress the construction he placed on the prohibition plan.

The party is pledged to enforcement and not to modification of the Volstead law," Moody said.

NEPHEW OF EARLY SENATOR OF TEXAS IS DEAD AT 85

NACOGDOCHES, July 2.—John Rusk, 85, nephew of Senator Thomas Rusk, died here today. His father fought in the battle of San Jacinto and was sheriff of this county when it extended as far west as Dallas.

40 MINERS ARE ENTOMBED BY DAM BREAKING

MOUNT CARMEL, Pa., July 2.—Forty miners were reported entombed at the Locust Springs colliery of the Philadelphia and Reading Coal and Iron Co. near here today when a dam burst in the workings.

2 ARE KILLED AS INTERURBAN STRIKES AUTO

DALLAS, July 2.—Mr. and Mrs. H. B. Goodman, each 60, of Galveston, were killed today when their new sedan was demolished by a Fort Worth-Dallas interurban. Goodman was killed instantly and his wife died a few minutes later. The auto burst into flames after the collision.

\$2,000,000 BIDS FOR GOODS FOR STATE OPENED

AUSTIN, July 2.—Bids for purchase of \$2,000,000 worth of groceries, dry goods, hardware and drugs for 17 eleemosynary institutions were opened here today by the board of control. Bids were submitted by 126 firms and individuals. The contracts, which will be for a six months' period, will be awarded as soon as the bids are tabulated.

LINDBERGH AND MEXICAN ACE HOP OFF TOGETHER

DETROIT, July 2.—Colonel Charles A. Lindbergh, who arrived here late Saturday to take his scheduled part in the air Olympics, left the Ford airport today with Captain Emilio Carranza, Mexican ace. It is believed they are headed for a field near Toledo where Lindbergh abandoned his plane Saturday.

12 STILL ALIVE IN AERIAL RACE

DETROIT, July 21.—With seven of the 12 balloons in the Gordon Bennett international race reported down, there appeared today little chance for those still aloft to beat last year's record of 800 miles. Mild winds and a low pressure area hindered their progress. The United States army bag piloted by W. E. Kepner was the only American bag still aloft; Germany and France still have two each aloft.

THE WEATHER.

West Texas: Tonight and Tuesday partly cloudy.

LLANO CO. — Area 925 square miles, population 125,000, cotton, wheat, poultry, dairying, natural gas and oil; Cisco is headquarters for operators of the greatest shallow oil field in the world.

VOLUME IX.
Texas and Texans
By WILL H. MAYES
Austin.

WHAT CAUSES GROWTH? — Menard Messenger asks "What's causing Menard to grow?" question can be answered in word, "Activity." Activity is all growth. The inactive soon loses power to function. Menard became inactive a number of years ago, but finally awoke to the fact that it was dying. The town decided to improve conditions and went earnestly and energetically to work to do it. Menard is now among the most progressive little cities in Texas. If Menard isn't growing better, it is solely because of its inactivity.

PROVING DAIRY HERDS. — Ever creameries, cheese factories or milk products factories of Menard are established there is immediate improvement noticeable in the dairy herds. This is true all over the state. Menard had no sooner secured a milk products factory than the business began to assist the farmer in proving the milk cattle of the country. Round Rock with its factory has awakened all Menard county to a keener interest in greater milk production. Interest has extended to Menard and Milan counties. The cheese factory, established in Menard, is already creating a demand for cows capable of supplying more and better milk.

POULTRY INDUSTRY, TOO. — Menard interest increases in poultry. It is invariably followed by improvement in the poultry industry. Poultry thrives on the products of the dairy. It is easy to care for the best strain of chickens as the farmer. It is no more expensive to raise a large turkey than a runt. Cuero the farmers are said to raise in doubt as to which are the best of the dairy cows, poultry or the pigs. This is a question hard to beat.

MARCO WATERWORKS. — Examples are far-extending. As ago Taylor decided to build his own waterworks and to supply his own water. With the well water by about ten to San Marcos sent a delegation Taylor to see why and how. San Marcos, not to be outdone, has voted 398 to 30 for a \$100,000 bond issue for construction of its own adequate waterworks. San Marcos has as good a water supply as can be found anywhere in the state in greatest abundance.

MILLIONS IN IRRIGATION. — There are 649 acres under irrigation in projects already planned in Southwest Texas. The Rio Grande Valley has some 350,000 acres under irrigation. In many more years have passed since the stream in West Texas that has been given to power companies will be supplying the valley with water for irrigation, and to the companies will be selling the surplus water for irrigation. In Texas is also alive to the need of irrigation and already thousands of acres under irrigation. It is impossible to estimate the future water-wealth of the state that has so long held its breath.

WATER SHORTAGE. — A lack of water, weights and measures, recently bought gasoline in Antonio stations and these have short measures. The inspector was kind enough to attribute the shortage to the business rather than to the men. It is strange, however, that so many cases the carelessness resulted in gain to the seller and loss to the buyer. It is possible to check up closely on the supply stations with the aid of the state inspectors. Secretary of the San Antonio Automobile League has given out a list that indicate that gasoline in Texas pay annually for more than \$3,000,000 worth of gasoline they do not get.

BURNET COUNTY PROSPECTS. — The Marble Falls Messenger in a brief statement why Burnet county people are prospering. It is because they always have more than they need to buy. Ship granite, wool, mohair, poultry, turkeys, cotton, cedar, sand, gravel and a host of other things that go to make a large and constant source of income—greater than the people need to spend for the things they buy. Every prosperous man of Texas is doing the same thing. Editor Faubion merely lists the items that Burnet county is doing just as well in furnishing other things the world wants.

UNDER GAS CELEBRATION. — Burnet town has a right to be getting gas and should celebrate the event. Therefore turned out en masse, with band, and speech making, looking demonstrations, and to show how it felt about it.

"Cowardice and shyness, hate and disgust, distrust, discouragement, jealousy, class consciousness and self-pity." These are negative and destructive. What are the positive and constructive mental forces to be invoked against them? Courage, confidence, frankness, friendliness, unselfishness. And the greatest of these is courage. Given it, the rest usually follow.

The digestive millenium will be here when restaurants standardize and simplify their food and their patrons stand for it. One kind of pie, for instance, ought to be enough. What kind? Why, apple, of course!

WISE DECENCY.

Much comment has been aroused by the award, to an orthodox Jewish student at Wisconsin University of a prize for "Christian conduct." It is explained, reasonably enough, that to be a good Jew is to be fundamentally a good Christian—that is, not as regards theological faith, but as regards character and conduct. It might be said with equal accuracy that good Buddhist or Confucian morals resemble Christian morals. The student himself makes a striking remark on this subject of morals. "If I have a good moral character," he says, "it is because my parents and my religion have taught me the wisdom of not having an immoral character." In other words, it's wise—it's sensible and practical—to behave oneself decently. Crooks who think themselves "wiser than the sons of light" cannot understand this, because they lack intelligence.

The sartorial difference between men and women is that women wear their summer clothing in winter and men wear their winter clothing in the summer.

SMALL FORTUNES.

France has an inheritance tax, like the United States, only a more thorough one. And it is surprising what the French records show. In 1926, the last year reported, taxes were paid on 403,990 estates, and only 1,135 of those estates exceeded \$50,000. Only three of them amounted to more than \$2,500,000. There are few millionaires in France except franc-millionaires—a franc being worth about four of our cents. France is not a poor country, however, being fortunate in the way her wealth is divided, and especially in the number of real estate owners.

The motor tourist never really enjoys his vacation until he stops kicking about detours.

OILING THE BROILERS.

Most well-raised babies get cod liver oil in their bottles nowadays. This includes chicken babies. And as for apartments—they raise 'em in regular skyscrapers, with artificial heat and all. Some of these sky-scraper brooders go so far as to have electric heat. Eggs are now put into incubators in December. They are hatched in January and February. The chicks are heated on the outside, vitaminized with cod liver oil on the inside, and are ready for the broiling ovens by Easter. And if they are slightly—very slightly—flavored with cod liver oil, shall the eaters care? Not if they are young enough. The new generation is rapidly acquiring a taste for it.

THE REPTILIAN AGE.

The reptilian vogue grows. The streets of American cities are crawling with the skins of alligators, lizards, boaconstrictors, pythons and cobras. They are on the feet of women. They blossom out on handbags and appear in a dozen other forms. Never, since the geological era 10,000,000 or 20,000,000 years ago when reptiles dominated the earth, has there been such a situation. The difference is that the crawlers are dead now, and mankind—or rather womankind—does the dominating. Which is as it should be, according to the prophecy that the offspring of Eve should bruise the serpent's head. There is a sort of horrible beauty about this form of art, too, though it doesn't appeal to everybody. It's a taste that has to be cultivated, especially among men. Its utility is unquestionable. It was a great day for conservation and efficiency when tanners and manufacturers discovered that reptilian hides could be made into durable leather, and the fashion-dictators nobly played their part in the economic scheme. On the whole, it's a good thing. Keep it up a few decades, and the world will be pretty well rid of reptiles, that is, unless the conservationists insist on game laws to preserve the snakes, and enterprising farmers start "snake ranches."

PEI PING.

It used to be that a geographical name, especially when it was the name of a famous city. Russia changed that when she boldly rechristened St. Petersburg, first as Petrograd and then as Leningrad. Many another city of less note, in Europe and America, had its name changed during the World War. Now China follows the example, taking liberties with the name of a capital city which has borne it for a thousand years or more. Peking becomes Pei Ping. The only real difference seems to be in the last syllable. The old name meant "North Capital." The new name means "North Peace." It is bestowed in recognition of the peace the Nationalist conquest has brought, or thinks it has brought, to China.

Coolidge goes fishing and lets 'em fight it out, and a lot of other citizens will do likewise.

MENTAL HEALTH.

"I think she needs a mental housecleaning," remarked the doctor, after talking to a patient sick in body and mind. The real trouble was obviously in her mind. "Mental health," observes a member of the California department of education, "is no longer concerned chiefly with feeble-mindedness, nor with defective or disordered mental conditions. Its chief concern is to establish in normal or nearly normal people mental habits which will lead to self-direction and self control for social ends." What mental conditions are bad for health? The authority lists a few:

Johnny Farrell's Victory Triumph For Iron Nerve

New Open Champ Must Get a Snicker at Memory of His Old Critics

By JAMES Y. KEENE International Illustrated News Sports Editor

New York.—Johnny Farrell must have indulged in a few furtive snickers the other day when folks kept coming up to tell him what a great fighter he was. He had come from behind to tie Bobby Jones, the great Atlanta. In the play-off he kept within a single stroke of a ferocious par all the way for thirty-six holes and his first championship. He showed his iron nerve by sinking the winning putt after an overzealous photographer had broken his concentration.

JOHNNY FARRELL

Johnny can remember when the boys weren't quite so generous in their encomiums. When it was quite the thing to dismiss him as one of the fast-headed brigades. But generosity has been with Farrell all the time. He gave a great exhibition of it last Spring in winning the LA Goree tournament at Miami Beach. He had to beat 65 on the last round to win—and did it. Even the fact that the man he had to beat had shot the first nine in an incredible 30 didn't shake him. The records show that Farrell has been competing in the open since 1926. He scored 315 in his debut, putting in successive rounds of 80-77-78-58. His name was forty-fifth on the list that was topped by Ray, the giant pipe-smoking, lumbering Briton. In 1926 Farrell came within a pin head's width of winning. He shot

the first round in 71, the second in 74, and the third in 69. And then, with the championship in his pocket, he blew the works on the last round with a 78, and once more the boys nodded their heads and repeated that he'd never make it because something was lacking. In 1926 he finished in a triple tie for third place with 76-79-69-73—297. Jones was the winner. Last year he limped home in a three-cornered tie for sixth place with 81-73-78-76—308. This year, to win, he scored 77-74-71-72—294. It was two strokes higher than his best previous record for the open, but it was good enough to get him home in front.

Texas and Texans

CONTINUED FROM PAGE 1

the turning of natural gas into the mains. A large part of the people of Scurry county were on hand to help. Snyder has become noted for doing things of a worth-while kind in a worth-while way. Just now it is intensely interesting in the movement to get a road from Roswell, New Mexico, to Snyder as a part of a proposed line to the Gulf at Corpus Christi.

THE WHEAT HARVEST.—About the most interesting picture in Texas just now is the wheat harvest in the Panhandle where thousands of harvest hands, harvesting machines, and threshing machines are busy getting the golden grain ready for market. Fully 25 per cent of the wheat fields in the upper plains are under cultivation this year for the first time. The yield is so abundant that the railroads are having trouble in getting and distributing freight cars in a way to handle the crop to best advantage.

COTTON PESTS PLENTIFUL.—County farm agents in Central and Southern Texas report that boll weevils, cotton fleas and other pests are appearing in unusual numbers in the cotton fields and that unless farmers are alert they will suffer great loss from them. The acreage in Texas is reported about 1,000,000 in excess of last year, but the late planting because of cold, together with the activity of weevils and fleas, threatens to make the production under that of last year.

POLK COUNTY DIVERSIFICATION.—Polk county around Livingston has awakened to the value of diversification through organized effort at growing tomatoes, cucumbers and potatoes. Experiments conducted this year have been largely in the nature of farm schools under competent management and they have been most satisfying in their returns. Cucumber shipments have brought profitable returns from 80 acres of tomatoes and 75 acres of cucumbers. Next year cabbage will be added to the list of large acreage production. Restoration of much land thought to have been "worn out" from constant cotton cropping is one of the expected results of the movement.

ERIN PLEASED BY AL SMITH'S NOMINATION

CORK, Irish Free State, July 2.—The Cork Examiner Sunday said: "Irish folk in whatever corner of the globe they are located will be stirred by the news that Governor Smith has been nominated by the Democratic party as candidate for the white house. The American Declaration of Independence began by declaring all men free and equal and entitled to equal rights equal rights before the law without regard to race or creed, yet for a century and a half Americans have upheld an unwritten law in regard to the president's faith. 'Every Irishman, no matter what his faith is, will wish him success.' We save you \$\$\$ on building materials. Cisco Lumber & Supply Co. Tenth and Katy Track 52-102

500 NEW SUBSCRIBERS IS GOAL FOR CONTEST THIS WEEK

Quota of Five for Each Circulation Worker; 600,000 Extra Points for Each Subscription with Chance to Double

The one hundred workers in the Cisco Daily News and Weekly American and Roundup Country wide subscription campaign will be asked to secure 500 new subscribers for this week. Five hundred subscribers is a lot of subscribers to be booked in one week. However, when the number is proportioned among the workers there would be only five subscribers for each one to secure for the week.

A quota of new subscribers that each worker is expected to secure will be sent out in Tuesday's mail by letters to each worker. Six hundred thousand extra points will be given for each new year subscription to the Daily News or to the Weekly American besides the regular points for each subscription. The workers also secure their quotas will be given double points. 600,000 extra points will also be issued to each worker for all new one year subscriptions that have been sent in by the workers since the campaign started. These points will also be doubled for the workers who secure their quotas.

The race for the most points is still a very even one. The few subscriptions that the workers will be asked to secure this week will give the man opportunity to build up a higher number of reserved points and those who have the lead at this time can maintain their position until the final close of the drive which is two more weeks after this week, and win the prize that will go to those who have the most points.

CANDIDATE FOR U. S. SENATE AT RANGER JULY 5

Mrs. Minnie Fisher Cunningham, candidate for the Democratic nomination for United States senator, will speak in the American Legion hall at Ranger at 3 o'clock Thursday afternoon, July 5, in the interest of her candidacy. It will be her only appearance in Eastland county at this time but it is probable that she will speak at several places in the county later, including Cisco.

Mrs. Cunningham's platform deals with the leading questions before the country today. Prominent in her platform are plans for prohibition, farm relief, tariff revision downward and the League of Nations.

Her platform is as follows: She is for prohibition and strict law enforcement. She is opposed to secrecy in government whether it originates in the ku klux klan or executive sessions of the United States senate. She is for a revision downward of the tariff.

She is for farm relief and believes that there are many ways to secure it if really sincere effort is brought to bear on the problem. For instance, much can be done for farm relief through tariff adjustment, through increased and improved transportation facilities, through extending service to the farmer in every way. The city man is now served as a matter of course. She is for a reduction in taxes and believes that the tax experts of the United States chamber of commerce have assembled facts which congress and the president would do well to consider. She is for an adequate flood control program based on scientific engineering principles applied to the problem. She is for a water power program framed with an eye single to the development of these great natural resources for the public good. She is for a foreign relations policy which will have in mind the whole citizenship of the United States and their genuinely friendly feeling toward the people of the world. She is for a revision of the treatment we are accorded Central and South American countries. She is for full cooperation with the League of Nations as the most workable machinery yet devised through which nations may cooperate to adjust their differences and preserve the peace of the world. She is for the use of the tremendous world power of the United States to insure world peace.

STOP THAT ITCHING
Use Blue Star Remedy to relieve Eczema, Itch, Tetter, Ringworm, Poison Oak, Pruritus, Dandruff, Sores on Children, Cracked Hands, Sore Blistered Feet, Red Bug bites and all itching skin diseases. It penetrates the skin, kills out the germs, stops the itching at once, and restores most cases to healthy condition. Blue Star Soap may be used as a cleanser before applying Blue Star Remedy. PRODUCTION IN YATES FIELD IS REVISED HIGHER

SAN ANGELO, July 2. — The Yates oil field in Pecos county has a potential daily production of 2,575,949 barrels, according to hourly gauges of 367 wells taken the past week, which furnish part of the basis of revised pipe line prorations which went into effect Sunday. Under this revised proration runs will be increased from 60,000 to 65,000 barrels daily.

A new field record was set in the tests by California company's No. 10 Yates, lease one, which flowed 5,196 barrels in one hour. In making the record No. 10 Yates flowed through three 6-inch lines over 149 pounds back pressure into eight 1,000 barrel tanks.

OBREGON AGAIN WILL BE PRESIDENT

Handolph college; no mosquitoes; no malaria or typhoid of local origin.

EIGHT PAGES TODAY

NUMBER 100

General Unopposed in Quiet Voting Sunday; Will Control Congress and State Legislatures, Returns Show

MEXICO CITY, July 2.—General Obregon Sunday was elected president of Mexico for a six-year term commencing December 1 and which he has indicated he will continue substantially the policies of the present president, Plutarco Elias Calles. General Obregon was the only candidate whose name was on the ballot.

The day passed quietly in Mexico where the most complete preparations were taken to maintain order.

General Obregon's headquarters were declared that there was no doubt that Obregon supporters would control the senate and chambers of deputies and the state legislatures for which also were held elections for which also were held Sunday.

It is expected that the regular session of congress will be known for several days and figures will not be announced until the regular session of congress opens.

General Obregon's return to the presidency will be a relief to the people of Mexico, who have long been weary of the political situation which existed prior to his return. He is expected to bring with him his political supporters and then to travel over Mexico and possibly in the United States before taking office December 1.

Observers here believe that the present era of good will between the United States and Mexico will be prolonged by Obregon's accession.

We save you \$ \$ \$ on building materials. Cisco Lumber & Supply Co. Tenth and Katy Track. 52-102

Hero of Hold-up

Eight bandits robbed the Home Trust Co. of Kansas City of roughly \$26,000 in cash and currency, then were forced to flee before the onslaught of J. E. Thurtchley (above), one of the bank officials, who bombarded them with tear gas bombs. The robbers fled in a fast automobile after firing a fusillade upon their pursuers.

15 Political Speeches by Al Smith with National Radio Hookup May Take Place of Old Campaign Tour

ALBANY, July 2.—Governor Alfred E. Smith probably will not make more than 15 political speeches during his two months' campaign for the presidency.

The governor himself is not making any definite announcement of his plans until after his conference with the Democratic national committee in New York on July 11, but the political "dope" has crystallized sufficiently so that a fairly accurate forecast of the nature and extent of the campaign could be made.

The feeling of Smith supporters generally is that the old idea of a political campaign as a long series of speeches in as many places as possible is a thing of the past, driven out chiefly by the advent of radio broadcasting.

Probable Itinerary

"No man," they say, "can make speeches for 60 nights hand running, or for half that number, without repeating himself over and over, and that will not go with the radio audiences."

So the tentative plan is that the

governor will give about 15 speeches in strategic parts of the country, of which will be different and all of which will be broadcast on a national radio hookup. That will not more than two speeches in one week during the campaign which is expected to be open about Labor Day.

"What profiteth it," said one person close to the governor, "if a man gain all else and lose his health?"

The probable itinerary of the governor's campaign, as near as it can be forecast at this early date, is as follows:

One speech at New York City, one in New Jersey, three in the New England states, one each in Detroit, Chicago, St. Louis and Denver, and the rest somewhere in the border states and on the west coast.

Waves at Crowds

The time between these engagements will be spent in resting on trains and in hotels and it is no believed that there will be any impromptu addresses.

Talks will not be made from the

OPENS FRIDAY

Holiday

TWO DEAD, TWO NEAR DEATH IN AUTO ACCIDENT

WICHITA FALLS, July 3.—Eight hope for the recovery of Margaret Perryman and Leonard Smith, employees of the Wichita state hospital, was voiced by physicians today. They were injured in an automobile accident at Lake Wichita yesterday when G. W. Benson and Kate Hezland, also hospital attaches, were killed.

Christian Leaders of District to Have Diversified Program of Work and Play at Camp on Lake

The Cisco Christian encampment begins at the Weddington camp grounds, at Lake Cisco next Friday. This encampment will continue till July 15, during which will be held the annual convention of the second district, July 11 to 13. Judge J. M. Reiger is president of the encampment.

Special speakers who have been secured for the encampment include H. O. Pritchard, secretary of the national educational board, Indianapolis; E. M. Waits, president Texas Christian University, Fort Worth; J. Leslie Fennell, president state educational board, and pastor of Magnolia Avenue Christian church, Fort Worth; Paul Packard, pastor Highland Heights Christian church, Wichita Falls; Floyd A. Bash, pastor First Christian church, Wichita Falls; E. D. Salkeld, pastor First Christian church, Abilene.

Much of the religious work of the church will be taken up during the encampment, among which are courses in religious education, to be conducted by Mrs. Bessie Hart, of Abilene; the young people's conferences, directed by J. E. Montgomery, of Graham; illustrated stories, by A. L. Haley, of Abilene; studies of evangelistic methods, by Rev. Paul Packard, of Wichita Falls; the pastor's problems, by Rev. Bash, and a series of addresses by Secretary Pritchard.

But the encampment will not be all work as there will be intermissions for recreation. As the encampment will be held at Lake Cisco there will be diversions sufficient to make the stay at Weddington camp grounds one of pleasure as well as intellectually and religiously profitable. These diversions will include swimming, boating, fishing and inspecting the many places of interest at Lake Cisco. In this class there are the state fish hatchery, the zoo, the deer park, roaming over the picturesque landscape where nature has been lavish in its scenery and natural attractions, and other points of interest.

He'll Circle Globe

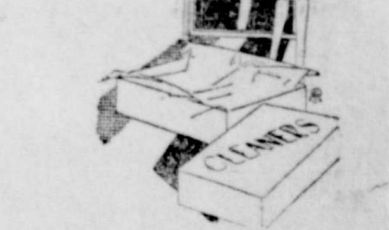

The Spanish aviator, Franco, is now preparing for an airplane trip around the world. He hopes to complete the trip in six weeks, using an Italian-built monoplane.

FRENCH ENTRY WINS HONOR IN BALLOON RACE

DETROIT, July 3.—The French balloon "Blanchard" with Charles Dollfus pilot and Georges Cormier, aide, is believed to have won this year's Gordon Bennett race. They landed at Walnut Grove, N. D., approximately 475 air line miles from here and 15 miles farther than the American army balloon piloted by Captain W. E. Kepner.

OF A PERSONAL NATURE 700 NEW SUBSCRIBERS

1,000 BOTTLES OF HOME BREW SEIZED IN RAID

Quota of Five for Each Circulation Worker; 600,000 Extra Points for Each Subscription with Chance to Double

The one hundred workers in the Cisco Daily News and Weekly American and Roundup Country wide subscription campaign will be asked to secure 500 new subscribers for this week. Five hundred subscribers is a lot of subscribers to be booked in one week. However, when the number is proportioned among the workers there would be only five subscribers for each one to secure for the week.

A quota of new subscribers that each worker is expected to secure will be sent out in Tuesday's mail by letters to each worker. Six hundred thousand extra points will be given for each one year subscription to the Daily News or to the Weekly American besides the regular points for each subscription. The workers who secure their quotas will be given double points. 600,000 extra points will also be issued to each worker for all new one year subscriptions that have been sent in by the workers since the campaign started. These points will also be doubled for the workers who secure their quotas.

The race for the most points is still a very even one. The few subscriptions that the workers will be asked to secure this week will give the man opportunity to build up a higher number of reserved points and those who have been ahead at this time can maintain their position until the final close of the drive which is two more weeks after this week, and win the prize that will go to those who have the most points.

CANDIDATE FOR U. S. SENATE AT RANGER JULY 5

Mrs. Minnie Fisher Cunningham, candidate for the Democratic nomination for United States senator, will speak at the American Legion hall at Ranger at 3 o'clock Thursday afternoon, July 5, in the interest of her candidacy. It will be her only appearance in Eastland county at this time but it is probable that she will speak at several places in the county later, including Cisco. Mrs. Cunningham's platform deals with the leading questions before the country today. Prominent in her platform are planks for prohibition, farm relief, tariff revision downward and the League of Nations.

brew, with about 100 gallons of the fluid in bulk, were the result of several raids staged by the city police Saturday in their pre-Fourth of July roundup at several negro houses in the city limits. The bulk brew was emptied into the sewer and the bottled beverage was poured out and the containers broken there were tubs and bags of broken glass at the rear of the city hall that

had contained the fluid of joy intended for the celebration of America's natal day. A house rented by Albert Hall in the negro section of Cisco, and a servant's room on West Fourth street were the scenes of the raids, police said. Aaron Mollett, Albert Hall and wife pleaded guilty to vagrancy in the city court Sunday and were fined \$25 and costs; James Williams and Jack McBride, who also

entered pleas of guilty, drew fines of \$50 and costs. All were negroes. THREE ARRESTED AFTER WILD DRINKING PARTY Felix Boland, deputy sheriff of the Scranton community, rounded up a trio of drunks Saturday night, against whom charges of drunkenness and fighting were filed in Justice McDonald's court Sunday morning. Officers said the one man and two women were holding drinking party at a house in Atwell community. One of the men is alleged to have been badly manhandled, being knocked down with a beer bottle twice stamped by the man. The complaints also charge the two women with fighting. The beaten woman was placed in jail at Eastland.

"Cream of the Crop"

LUCKY STRIKE CIGARETTES
"IT'S TOASTED"

Paul Robeson

Celebrated Master of Ceremonies

"Lucky Strikes, I find, thrill the taste without irritating the throat. Since I changed to Lucky Strikes several years ago, upon the suggestion of my doctor, I no longer like raw tobaccos."

No wonder more and more doctors—20,679 to be exact—approve the toasting process.

"It's toasted"
That's your pleasure—your protection!
