## JONES LAW BOOSTS PRICES OF BOOTLEG LIQUOR

### Offenders of Dry Statutes Look to Jury Box for Protection From Drastic Provisions of New Measure

(Copyright, 1929, by United Press.)  
**NEW YORK, March 9.**—Bootleggers of the nation fear the drastic provisions of the new Jones law and liquor beneficiaries will be much higher in price and more difficult to obtain, a nationwide United Press survey indicated today.  
 Dealers in liquor who had been content to pay nominal fines and go on with their business are closing up shop in large numbers now that they face the Jones law penalty of imprisonment for five years or \$10,000 fine. However, a hope exists among the fraternity that juries will hesitate to convict under the new law and the first cases are being awaited with interest.  
 Perhaps the most noticeable results of the Jones law so far have been in the national capital at Washington and at Buffalo, N. Y.  
 In Washington the price of alcohol has been increased from \$11 to \$20 a gallon; gin has gone from \$2 to \$5 for bottles containing a fifth of a quart; rye has doubled in value, being quoted at \$6 a pint for the former \$3 quality.  
 The United Press correspondent in Buffalo reported that speakeasy patrons were being met by juries' announcements from the bar-tenders: "We're closing up. The Jones bill has us locked."  
 It was estimated that hundreds of saloons there had closed since Saturday. Many of them had been running wide open within a few blocks of the federal building and prohibition headquarters.  
 An interesting sidelight on the border situation was the announcement from the collector of port, Fred A. Bradley, who had been struggling with the knotty problem of stopping liquor from being

brought into the United States from Canada at Fort Erie and Niagara Falls, that casual smugglers would not be prosecuted under the Jones law.  
 California bootleggers are adopting a "watchful waiting" attitude, intending to keep their operations limited to a known and trusted clientele until the effects of the Jones law can be judged. In San Francisco a wariness on the part of bootleggers, with a probable rise in prices, was reported. Several liquor selling resorts had closed their doors.  
 New York City seemed to be undisturbed, the only difference noted being an increased number of conferences between bootleggers and their attorneys. The dealers want advice on the prospects of evading the harsh provisions of the law.  
 Police Commissioner Grover Whelan of New York City has said the metropolitan area is "liberal" in prohibition matters. He has been clearing out a number of speakeasies as public nuisances but unless a wave of Jones law convictions sets in, the new law is not expected to make a noticeable difference here immediately.  
 A significant development was the absence of all reference to the Jones law when the March federal grand jury was sworn in in Brooklyn.  
**LEAGUE MEETING SET.**  
**GENEVA, March 9.**—The League of Nations council decided today to hold its June session at Madrid.  
 Mr. Coolidge can make a fortune by writing a single book—"Things I Would Like to Have Said While President."

### HOOVER ENDS FIRST WEEK IN WHITE HOUSE

**WASHINGTON, March 9.**—President Hoover completed his first week in the white house today, a week as crowded with action as any initial week of any peacetime administration. There is general agreement his administration has started auspiciously.  
 As he delivered his inauguration address, there thundered in his ears the echoes of revolution in Mexico. He has acted quickly to aid the existing government there, and watches for any change which would require further action by this government.  
 This problem was newly created for him. Today, at the end of the week, he turned his attention to an old problem, farm relief, discussing with Senator McNary, of Oregon, chairman of the senate agricultural committee, details of the program he will submit to the extra session.  
 Other actions of the crowded first week were:  
 1. Calling congress into extra session April 15.  
 2. Enunciating clearly beyond any doubt his determination for a "supreme effort" to enforce the prohibition laws, outlining the scope of the proposed investigation of law enforcement, and making it plain this investigation will not consider the question as to whether there should be a change in the law.  
 3. Tackling the difficult problem of southern patronage in conferences with leaders from the south, and informing them that their organizations will be encouraged, but that they must be clean, and Democrats who fought side by side with them must receive recognition.  
 4. Eliminating any "spoils system" from his administration by

### YOUNG WOMAN BATTLES TWO HOLDUP MEN

**LYNN, Mass., March 9.**—Miss Alice Larkin, 28, a private secretary, fought two holdup men here today in an unsuccessful attempt to save a \$3,000 payroll. After obtaining the money at the point of a gun, the two young unmasked bandits leaped into a large sedan driven by a confederate and sped away toward Boston.  
 Miss Larkin had just arrived in front of the plant at the Dietz Leather company after visiting a bank to obtain more than \$3,000 which was to comprise the company's payroll.  
 As she was about to alight from the automobile, a young man, revolver in hand, pulled open the door and demanded the money, which was contained in a leather bill fold.  
**SHOT WIFE.**  
**JACKSON, Miss., March 9.**—Because his wife put out the cat against his orders, Herbert Crane shot her through the breast, according to information given police. Crane was held in jail on charges of assault with intent to murder and Mrs. Crane was in a critical condition in a hospital.  
**FATALLY STABBED.**  
**DALLAS, March 9.**—After being stabbed twice with a knife through the heart, Louis Renteria, 25, crawled four blocks in search of aid and then dropped dead.

### UNDER LIQUOR CHARGES, LAS VEGAS, Nev., March 9.

Mayor Fred Hesse, Police Commissioner Roy Neagle and 17 asserted liquor dealers must appear in Carson City on March 18 to answer to charges of conspiracy to violate dry laws. The group was taken into custody last night and indictments returned by the Carson City grand jury.  
**NEW COMMANDER.**  
**MANAGUA, Nicaragua, March 9.**—Col. Douglas MacDougall of the United States mining corps, will take over direction of the Nicaraguan national guard from Lieut. Col. Elias R. Beadle today. MacDougall, who will have the rank of general temporarily, arrived yesterday afternoon. Beadle will go on a foreign tour.

## KLEIMAN'S

Point for Point Feature for Feature and now at its New lower Prices -

### JUST TRY TO MATCH THIS VALUE

It is easy to prove Oldsmobile's outstanding value to your own complete satisfaction, if you will examine it, drive it, and match it point for point with other cars in its field.  
 Just look at the 1929 Oldsmobile. Its perfection of line—its individuality—its smart new style—all form a magnificent tribute to Fisher designing genius. And you know that Body by Fisher stands for sturdy construction and painstaking craftsmanship as well as beauty.  
 Oldsmobile's interiors are expressive of fine car quality in their richness, restfulness, and luxury of appointment. What is more, you will find many comforts and conveniences unusual in a car of Oldsmobile's class... such as four Lovejoy hydraulic shock absorbers—gasoline

gauge and temperature gauge on the dash—adjustable steering wheel—and the new adjustable driver's seat, introduced by Fisher.

When you drive the car you will discover exceptional performance... swift getaway, brilliant speed, and ample power for any task. You will marvel at its easy steering, easy parking and matchless road-ability.

And typical of its quality, Oldsmobile's big 62 horsepower high-compression engine incorporates progressive engineering features rarely found in any but high-priced cars—such as pressure-lubricated piston pins.

The way to know automobile values is to make comparisons. Come and see this finer Oldsmobile. Take a drive. Check it feature for feature with any other car. Just try to match its value!

Germany in Record Cold Spell

Germany has just experienced its most frigid weather in 200 years. Above, ships frozen solid in the canal at Holtenau. Below, the passengers on a trans-ocean vessel forced to leave for shore by a ladder over the side. In some cities the temperature fell to 49 degrees below zero.

GIRL SPENT 17 YEARS AT SEA; PENS MEMOIRS

NEW YORK, March 9.—The sea, which has brought forth so many strange tales, has now given the story of a girl who spent the first 17 years of her life aboard a sailing schooner which roamed the south Pacific. Jean Lowell, not yet out of her twenties, is the girl and the story is her autobiography. Under the title of "Cradle of the Deep" it will be published tomorrow by Scribner and Schuster and is the "Book of the Month Club" selection for March. "My life at sea began when I was 11 months old," Miss Lowell writes. "Father had brought me down to the schooner, a tiny, bundle wrapped in a blanket. I was so small I would have been lost in his bunk, so father and Stitches—the sailmaker—made a diminutive hammock of canvas. This hammock was swung from bolts, one sunk in the wall above the middle of father's bunk and the other into the stanchion at the foot of the bunk on the outside. The rolling of the ship rocked the hammock more steadily than the most indulgent mother."

of the South Seas and then sail back to San Francisco. Miss Lowell walked her first steps hoking to the rail of the poop deck of the ship off Easter Island; her first words were an imprecation against the wind; her baby clothes were made by the ship's sailmaker; and when, nearly a young lady, she wore her first skirts she had to learn how to walk in them. At the age of six she jumped overboard in mid-Pacific and went swimming after a sea horse which she covered. She received her coat of tar and feathers with the other uninitiated sailors at the hands of Old Neptune upon her first crossing of the Equator. She nearly died from scurvy. She suffered the terrible tortures which the sea meets out to the sailmen when they are becalmed and run out of water. She learned to swear—four minutes without a break and to spit a curve in the wind. Took Turn at Wheel. But what was more she took her turn at the wheel before she was in her teens and could steer as true a course as any sailor. She pulled on the lines and she went aloft to set and take in sail. She had her duties the same as every sailor aboard the ship and at times her father relied heavily upon her. But in the course of this 17 years as the only woman among a company of deep sea sailors, life had the her many peculiar turns. With no mother to guide her, her father taught her from his Bible the lessons of life. He guarded her carefully from any realization of her sex. Finally when love came violently into her life, the sailor who was the object of her affections left the ship, driven by his feeling of unworthiness for the hand of the captain's daughter. In the course of her narrative Miss Lowell tells the story of the wreck of the ship "Star" of Alaska when 110 men were lost, the

great tragedy of her father's life. He was master of the Star and it was after it was gone that he left the north, bought the Minnie A. Caine and never again returned to the Arctic where his earlier years as a sailing master had won him wide repute. She saw her father with a rifle save his ship by shooting through the funnel of a water spout, thus breaking it, when in a few minutes more it would have treated the Minnie A. Caine in mid-ocean exactly as does a cyclone treat a barn in mid-America. She went ashore at Atafu, one of the tiny islands of the South Sea, and there was the guest of the chief at the Dance of the Virgins, where the native girls select their mates from among the eligible males. PITCHERS IN SHAPE. NEW ORLEANS, La., March 9.—When the regulars of the Cleveland Indians arrive here next week, they will find the pitchers in good shape for practice. Sixteen hurlers are gathered under the eye of Manager Peckinpaugh and all appear ready for action. Johnny Mills, formerly with the Pirates, has recovered from the neuritis which troubled his salary when he was in the National league. ELEVATOR VICTIM. DALLAS, March 9.—Caught in a moving elevator, Junius B. Mayo, 70, retired real estate and loan broker was crushed to death at the hotel where he lived last night. The accident occurred when Mayo tried to enter the elevator as the operator was closing the door and had started upward. Texas' largest tree is a giant live oak part of Real county. The spread of its branches is 100 feet.

VIVID DREAM; WIFE FINDS HIM TRUSSED

LANSING, March 9.—Ralph Schlutenhofer, alone and sleeping while his wife was down town shopping, dreamed a vivid dream—he aches for this story. Big, rough men were tying Schlutenhofer up, they wound yards and yards of rope about him, gagged him and tossed him from bed. Mrs. Schlutenhofer returned home to get her husband's lunch—he sleeps days. She found him, trussed with the entire length of a clothes line, gagged and with his mouth heavily plastered with adhesive tape, struggling on the kitchen floor. She removed the binding and telephoned police. Nothing in the home was found disturbed. Schlutenhofer said he had awakened just before his wife's return, and now claims a new record—that of the world's soundest sleeper. American Telephone & Telegraph Company, Bell System 15th Dividend. The regular quarterly dividend of Two Dollars and Twenty-Five Cents (\$2.25) per share will be paid on Monday, April 15, 1929 to Stockholders of record at the close of business on March 14, 1929. H. BLAIR SMITH, Treasurer.

CHEMICALS OF LIFE IN BLOOD. The three chemicals which play leading roles in keeping us alive, blood specialists have decided, are hemoglobin, chlorophyll and a phosphorus compound, still virtually unknown. This trio gives the blood-stream its power. Hemoglobin, the red blood chemical, supplies iron to the vital current. Green chlorophyll, which tints plants, absorbs excess carbon dioxide gas from the air. The mysterious phosphorus compound forms the central nuclei of living cells, says Popular Science Monthly. It has been suggested that this phosphorus chemical is the one with which all animal life began. TREADMILL TRAINS POSTMEN. Teaching postmen how to walk may seem paradoxical, but teaching them to walk hygienically is a positive boon to them and to a public they serve, according to a Chicago foot specialist, Dr. J. C. Rutenka, who recently gave lessons to 60 letter carriers in Norfolk, Va. Using a treadmill, says Popular Science Monthly, the postmen were instructed to "keep the feet straight ahead—don't toe cut—take brisk, snappy steps—swing the arms freely—stand erect." They also were shown the correct posture for rapid walking. Hoet Mon! Scotsmints! 39-36

COCKTAIL IS ATTACKED BY NOTED MEN

LONDON, March 9.—Following Viscount Astor's recent attack on feminine enthusiasm for the seductive cocktail two more assaults have been launched—one by Prof. W. E. Dixon of Cambridge, and the other by Sir Gilbert Barling, dean of the medical faculty of the University of Birmingham. "The beastly modern habit of cocktail drinking," is Sir Gilbert's description of the cocktail habit, and he continues: "It is one of the most pernicious things introduced into the life of this country. The people who drink cocktails are in the majority young women. Cocktails are particularly bad because the worst time to take alcohol is when the stomach is empty." "Professor Dixon in 'The British Journal of Inebriety' takes a more moderate view of the cocktail, but nevertheless condemns it. The action of the cocktail, he points out, unlike that of ordinary alcoholic beverages, is immediate, but its duration is transient, being

limited to 15 or 20 minutes at the most. "This form of drinking," Professor Dixon states, "is particularly pernicious for young people of either sex, who form a large percentage of cocktail drinkers. They drink them partly to lose their shyness and partly in a spirit of bravado. "Not only does it impair their stomachs, but cocktail drinking helps to promote the habit of excessive drinking more than any other type of beverage." DEAD MEXICAN. FORT WORTH, March 9.—The body of Domingo Ramirez, 36-year old Mexican missing from his home for two weeks, was found in the Trinity river Friday. In investigation disclosed that there was no evidence of foul play and that Ramirez had been ill some time prior to his disappearance. Southwestern Bell Telephone Company Thirty-fifth Dividend. The regular quarterly dividend of one dollar and seventy-five cents per share on Preferred Stock will be paid on Monday April 1, 1929, to stockholders of record at the close of business of Wednesday, March 20, 1929. R. A. NICKERSON, Treasurer.

The PERFECT POWDER Harmonizes Invisibly

HAVE you ever longed for a powder which would lend a flattering soft tone to your skin, freeing it of shine, yet not giving it a made-up look? Dorothy Gray's Jacquemont Face Powder is extra-fine; it clings for hours; it is delicately fragrant—and it is made in four subtle shades.

# HOOVER'S IDEAS SOUGHT FOR NEW FARM RELIEF MEASURES

## Chairman McNary of Agriculture Committee of Senate Talks With President Before Starting Draft

By PAUL R. MALLON.  
WASHINGTON, March 9.—Chairman McNary of the senate agriculture committee went to the white house today to get President Hoover's idea about farm legislation before he sits down to write the new relief bill. McNary will begin a draft of the new measure at once. He will embody the plan Mr. Hoover laid down in the presidential campaign and will submit it to the new chief for ratification before he calls his committee together about March 25 to prepare the measure for the senate. It will be the first introduced in the senate and McNary thinks it will be ready for action the first

day of the special session, April 15. As announced by the United Press yesterday, the bill will be taken up in the senate at the first order of business while the house is working on the new tariff bill. **FARM BUREAU PLEDGES AID.** CHICAGO, March 9.—The American Farm Bureau federation pledged itself to co-operate 100 per cent with President Herbert Hoover's farm relief program. Directors of the organization, meeting here, voted unanimously to voice approval of Mr. Hoover and his efforts at farm relief.

## DEEP SAND AT CROSS PLAINS TO BE TESTED

CROSS PLAINS, March 9.—Although a few deep tests have been made in the Burkett area and a small amount of production obtained, drilling operations have been confined mostly to shallow tests because of the numerous shallow sands and pools that have been discovered in this district. A campaign of deeper drilling has started and a test of the lower sands is promised. T. B. Slick is drilling at an approximate depth of 1,900 feet on his W. R. Roberts No. 1, which will be carried through the Caddo line it being found near 2,300 feet in this locality. The test is located two miles southwest of Burkett in the D. J. Holt survey being 1,470 feet from the south and 1,170 feet from the west lines. Two and one-half miles to the east of Burkett, the Canyon Oil & Gas company is spudding on the Berry Wesley land located in block No. 2 of the A. White survey and being 1,428 feet from the east and 150 feet from the north lines. A location has been made by the same company about two miles southwest of the Wesley test on the Keller heirs 285 acre tract.

## RAILROAD BUS APPLICATION IS FORBIDDEN

AUSTIN, March 9.—The motor bus division of the railroad commission today denied the Missouri Pacific Transportation Co., a subsidiary of the Missouri Pacific railway, a permit to operate a bus line between Navasota and Crockett in competition with another bus line already in operation. J. D. Morgan was issued a permit to operate between Crockett and Bryan, Hudson & Barrett were authorized to operate between Roans Prairie and Madisonville. Hearings have been set for March 23 at Amarillo and for Wichita Falls on March 27 to consider applications affecting motor bus operation in those sections.

## \$48.85 RAISED AT NIMROD PIE SUPPER

Total receipts of \$48.85 was realized by the Nimrod school from the pie supper and auction sale held by that school last week according to H. C. Elliott, principal. The most of this was raised from the sale of merchandise contributed by Cisco merchants. The thanks of the school for the interest and gifts of the Cisco merchants was expressed by Mr. Elliott. Intense cold in Europe has made the wild animals tame and course has made the tame ones wild.

**FUTURES STEADY.** NEW YORK, March 9.—Cotton futures were steady in early trading today with further heavy profit taking coming from the south, commission houses and the continent. Weakness at Liverpool was explained as due to heavy selling by Indiana and the continent. There were further reports of possible bad weather and rains were reported in many sections. Digesta-Pep for digestion. Scott's Emulsion. 39-36

### Actress to Wed Nobleman

Lord Inverclyde and his bride, June, the actress who has abandoned a stage surname, photographed aboard the White Star liner Majestic on which they returned to England from New York.

## EARLIER MAIL FOR RISING STAR GRANTED

RISING STAR, March 9.—Postmaster S. J. White a few days ago received notice that the petition for an earlier mail north had been granted and the new schedule announced, effective Thursday. The mail which will put the mail going north out of Rising Star at 12:00 o'clock instead of 2:55 as has been the case. Mr. White stated Wednesday that letters or other matter mailed at the local office by 11:30 each day would make the mail. Advantages of the new schedule is that mailboxes are made at Cisco which will put outgoing mail into the larger cities. It is also and will be especially beneficial to those wishing to patronize the air mail. A petition has also recently been dispatched to the postoffice department at Washington requesting a Sunday morning mail from Cisco giving full seven day service from that point. A Sunday service would deliver the daily papers and other mail here early on Sunday morning, whereas all Sunday mail is now routed over the Katy reaching Rising Star late in the afternoon.

### Gov Proposed Constitutional Amendment for State Bond Issue to Be Before Solons Again Debated

March 9.—Whether the constitutional amendment for a bond issue of \$175,000,000 to come before the legislature at its next session, will be brought up again at this time, was the subject of a debate in the senate today. The 160 votes necessary to pass the proposal are expected to be brought up once on a motion to reconsider. That will be Monday. Bond advocates say they can continue to win each day until the vote is taken. Speaker H. B. ...

amendment. Bond advocates claim they can show that raising interest on the road bond proposal can be brought up repeatedly there are a host of other constitutional amendments that can be brought up the same way. Chief worry of the bond advocates is about keeping the vote in favor of the bond issue. Little hope of a quorum being maintained to the end of the session next Thursday is expressed and it takes a full quorum, all voting for the bond issue to submit it. If the proposal fails to get the 160 votes at this session it can not be revived for two years because constitutional amendments can be submitted only at regular sessions.

### OIL NEWS OF SOUTHWEST

SEMINOLE, Okla., March 9.—The greater Seminole area production was up 682 barrels for a total of 24,332 barrels of crude oil on the gauges Thursday, while the St. Louis area, south of Shawnee, decreased 7,760 barrels to a total of 36,340 barrels. The total production from the two areas was 392,712 barrels from 1,759 wells.

HOUSTON, March 9.—The Sun Oil company's No. 1 Caraway, on the Independence structure north of Brethman in Washington county, came in from a depth of 1,200 feet with an initial flow estimated at 1,500 barrels. No. 3 Elwan completed at 1,231 feet is being placed on the pump. Sun now has six producers in this section.

### TWO MIDLAND PAPERS SOLD AND MERGED

MIDLAND, March 9.—The Midland Daily Telegram and the Midland Reporter have been merged and commencing Sunday will be published daily by the Midland Publishing company, which has applied for a charter. It was announced here today. T. Paul Barren, who has published the Reporter in Midland for the last four years, will be president and editor. Business manager, O. C. Watson, former owner of the Telegram, sold his interests outright to the new company. The papers will be controlled by Wilbur C. Hawk and Gene A. Howe of Amarillo, who now control the Amarillo Globe-News, the Atch-

son, Kansas, Clebe, and the Falls City, Nebraska, Journal. The Reporter-Telegram will be issued daily in the afternoon except Saturday, and on Sunday morning, from the plant of the Telegram. "An anti-nocking lamp" law in Japan requires that all autos be fitted with a dome light which must be illuminated when driving at night. New light on an old subject!

### COUPLE SPEND ANNIVERSARY IN JAILHOUSE

MINNEAPOLIS, March 9.—Aunt and Minnie Anderson who were sentenced to the jailhouse together for drunkenness celebrated their silver wedding anniversary in their familiar cells among their friends. Judge Manley Prosen, An-

one above with me," he said, "we always go together." John Larson, bailiff, who remembered when the Andersons were married 25 years ago, nodded at the judge, "yes, they always go together." Then when a police woman informed Judge Prosen that Mrs. Anderson had also been guilty of the drunkenness charge, the court increased the sentences to 90 days and sent the husband and wife off to the workhouse together. The longest railroad tunnel in America, eight miles through the Cascade range, 100 miles east of Seattle, was opened for train operation in January by the Great Northern railway. The tunnel cost \$1,000,000 and electrification and other improvements involve total expenditure of \$25,000,000.

FROM NINTH TO FOURTH PLACE IN SIX MONTHS!

### What TWIN IGNITION Does

THE New Nash Twin-Ignition motor has two big aircraft spark plugs for each cylinder, instead of the ordinary single plug, as you can see in the simplified diagram above. Both plugs fire simultaneously. The gas vapor is ignited at two points instead of the usual one. One effect is quicker combustion, which produces more power, more speed, much faster acceleration. Another result is, more uniform combustion, which helps to create the very noticeable smoothness and rhythm of Nash motor performance. And still another result of Twin Ignition is more efficient combustion, which prevents wasted fuel. With Twin Ignition, instead of single ignition, higher compression is practical, and the same Nash motor produces 9½ more horsepower, 5 miles an hour more speed, and 2 extra miles from every gallon of gasoline you buy.

### GOOD TIME GUY—"Butter And Eggs."

By Frank Smiley

HERE ARE THE GANGSTERS WHO KIDNAPED GUY AT HIS WEDDING. HE IS STILL UNCONSCIOUS!

I'M LOOKING FOR A MAN WHO NAMED GUY GREEN—WHAT HAVE YOU GOT IN THAT SACK?

WHO? OH, US? OH, YOU MEAN THE SACK YOU MEAN WE'VE JUST BEEN OUT IN THE STICKS AND PICKED UP ABOUT 150 POUNDS OF BUTTER AND EGGS!

THAT WAS A CLOSE SQUEAK—I'M GLAD I DIDN'T HAVE TO LIE TO THAT COP. MY CONSCIENCE WOULD HURT ME.

HE COULDA PINCHED US EASY—THE CASE WAS IN THE BAG!

A FINE OIL CAN YOU ARE! SAY, THE PHANTOM DIDN'T WANT YOU TO ADOPT THAT PUNK—JUST KIDNAP HIM AND COLLECT FROM THAT COOKEY DAME!

SAY, LISTEN, I'M GONNA TELL YOU SOMETHING—DO YOUR BEST TO UNDERSTAND IT!

SINCE I SHOP-LIFTED THIS BUM, HE'S HAD REWARDS OFFERED FOR HIM! DID IT EVER OCCUR TO YOU THAT MAYBE ONE OF YOUR MUTTS COULD ACCIDENTALLY FIND HIM WANDERING AROUND ON THE STREETS AND COLLECT THAT DOUGH?

# CISCO WATER DEPARTMENT NEAR SELF SUSTAINING BASIS

## With Low Rates and Business Plan of Operation Local System Is One of Best to Be Found in Southwest

The biggest individual project connected with the city of Cisco, and certainly one of the most important, is its water system. The provision of a safe, adequate and dependable supply of water is no small task even in sections of the country where the rain fall is heavy or natural bodies of water exist for exploitation. In a section which has a comparatively small rainfall and which has no natural lakes of any consequence the problem requires what is often Herculean energy to provide solution.

Cisco has brought about an answer to this problem in a way that has attracted widespread admiration. Williamsen Dam and Lake Cisco have been the objects of a great amount of publicity and a corresponding general interest, mainly because of the magnificent proportions of the project, and there has been, frankly speaking, some amount of skepticism in evidence. But now that the tremendous value of the project has become clearly and generally realized such skepticism has existed has been transformed into admiration for the capable handling of an urgent problem and the brilliant foresightedness that brought about the inception and finally the realization of a splendid civic dream.

Outside of indebtedness occasioned by Cisco's water system the civic debt of this city is light. And at this time the problem of handling the water department's indebtedness is rapidly approaching a status where it will become a very simple matter.

Within 14 years the revenue from the water department of Cisco has been built up from a point where a deficit in operating costs of \$1,000 occurred to where during last year a gross of approximately \$80,000 was returned, representing a wide margin over expenses. Statistics available at the city hall reveal that during the past two years—1927 and 1928—an average gross income of \$72,482.84 was obtained from the water department. Actually, 1927 showed receipts of approximately \$65,000 and 1928 of approximately \$80,000.

Constantly Improved. Operating expenses for the two years totalled \$51,479.10 or slightly more than \$25,000 annually for the period. This cost includes both

been able to produce revenue where it would be able to carry the entire financial burden and it is entirely reasonable to expect that this will have been attained within the next few years. When that point is reached the handling of the indebtedness of the city will be a comparatively simple problem.

It is noteworthy that this has been accomplished with one of the lowest domestic water rates in the section. The rate for water for domestic consumption in Cisco is 37 1/2 cents per 1,000 gallons with a minimum of \$1.25 per month. Added to this is a minimum sewer charge of 50 cents, a garbage charge of 25 cents and a meter rental of 25 cents which brings the total per month to \$2.25.

The city has proceeded on the policy that a low water rate assisted by an ad valorem tax to supplement water revenues to the point where the indebtedness may be taken care of each year, would be more beneficial than a higher water rate and no ad valorem tax. Under present conditions and with the rapid increase from the water system it will be but a short while until no ad valorem tax supplement will be necessary. By having increased the water rate by one-third it would not be necessary now but low utility rates after an advantage that was believed to effect whatever gain would be realized from the opposite expediency.

It is the opinion of Mayor J. M. Williamsen and officials of the water department that the revenue

from the department within the next four years will reach \$125,000 annually including fishing license receipts, ~~and other~~ ~~character~~ ~~therefrom~~.

**Self-Sustaining.**

This will enable the department to be placed upon the desired self-sustaining basis readily. Most city municipal plants figure upon obtaining only enough revenue to cover operating and maintenance costs, and the fact that the Cisco department is rapidly approaching a status where it will be able to take care of its own indebtedness and pay a liberal return upon the investment at a rate comparable with the lowest, is certainly commendable of the system upon which it is operated.

The following comparison is interesting in connection with the above statements:

From June 1, 1916, to April 30, 1919,—three years—total receipts of Cisco water department	\$47,117.64
For the same period, total expense for operation and maintenance	30,146.29
For year ending April 30, 1922, total receipts	46,929.83
For same year, total expenses	35,926.29
For year ending April 30, 1923, total receipts	45,640.73
For same period, total expenses	33,760.10

The higher expenses for 1922 were occasioned by the fact that in that year the entire sewer system and distributing system in the city was remodelled.

## GRIEF STRUCK TOWN BURIES BLAST VICTIMS

SCRIBNER, Neb., March 9.—While a grief stricken and stunned village prepared today to bury its dead, Mayor Ranslem was endeavoring to fix responsibility for the dynamiting blast that has taken a toll of six lives and injured about thirty-five.

The death list was brought to six last night with the deaths of William F. Strube, 34, garage owner, and Assur Schoeneck, 25, truck driver. Four others were either killed outright or died soon after the explosion late Thursday night of ten cases of dynamite in the burning barn of Carl Holland, county supervisor. The dynamite had been intended for use to blast ice in the Ekhorn river near here.

**CONDEMNED ESCAPES.**

POTTSVILLE, Pa., March 9.—Elazar Miguel, Cuban, sentenced to be electrocuted at Rockview penitentiary for the murder of his sweetheart, escaped from the Pottsville jail today after shooting a guard in the leg.

## FORMER "MISS AMERICA" IS GIVEN DIVORCE

RENO, Nev., March 9.—Fay Lanphier, "Miss America" of 1920, was granted a divorce here from S. M. Spiegel, Jr., of Chicago, who she charged threw things at her and slapped her.

A large crowd which waited in the courtroom to hear the suit was disappointed by hearing taking place in the seclusion of a judge's chamber. Miss Lanphier was hurried into and out of the courthouse through a back door.

**STEAMSHIP LATE.**

HOBOKEN N. J., March 9.—The United States line ship President Harding docked a day late today from Bremen, Southampton and Cherbourg after encountering a severe storm which according to passengers washed away a lifeboat. Judge Franklin Lindsay of Waco, Texas, European representative of the American Cotton Shippers' association, arrived on the vessel to attend a cotton conference in Washington, D. C., March 16 and a similar meeting in Texas later in the month.

**YOUNG MARVEL WINS.**

ST. AUGUSTINE, Fla., March 9.—Helen Hester, youthful golf marvel of New York, defeated Glenna Collett, national champion, two up in a semi-final match of the Florida east coast golf championships here today.

Triplets have been presented to her owner by a fine Jersey cow at Weimar, all living and in good health.

Additional nuisance taxes should be imposed upon those who demand them.

## A Question for Every Tire Buyer

When claims conflict—when all tire manufacturers use the same arguments—when every sales scheme has been tried on you—when you have discovered by experience that "the road test" is THE ONLY TEST, ask yourself this vital question:

### WHY DO MORE PEOPLE BUY GOODYEARS THAN ANY OTHER KIND?

Goodyear has been supreme for ten years. Goodyear makes far more tires than any other tire builder.

Goodyear Tires out-perform others on the road. Goodyear does not cut prices or quality. A fair price is asked for the concentrated effort of the world's greatest rubber manufacturer.

Goodyear Service is friendly, expert, interested. It insures you full mileage.

Why has the largest group of car owners in the world bought over one hundred million Goodyear Tires? We have the answer. Let us give it to you.

### Greatest Opportunity for Texas to Display Advantages to Leaders of Business Offered by Rotary Meeting

DALLAS, March 9.—The greatest opportunity which Texas and the southwestern states have ever had to bring their advantages as a location for business and industries before a large group of American business leaders, will be afforded when the twentieth annual convention of Rotary International is held in Dallas May 27-31, according to Lester Dawsley, chairman of the Dallas Rotary Club's Hosts Club committee.

The host club committee, and a score of its associated committee organizations, have been at work for nearly a year, making complete preparations for entertaining the delegates, numbering from 10,000 to 15,000 who will come not only from every important city and town in America, but from a score of foreign countries.

Pointing out that the entire southwest will enjoy the opportunity to show the Rotarian visitors its advantages, Dawsley called attention to the fact that the visitors will enter Texas en route to Dallas from all the gateways, north, east, south and west, and that in addition to this, thousands of the visitors will be enabled to obtain a close-up view of the southwest as a result of dozens of circle tours and excursions which are being arranged to precede or follow the convention.

A tour of the Latin-American countries immediately adjoining Texas on the south is one of the features being planned for the visitors.

Particular significance to residents of the southwest is seen in the holding of this convention in this territory at this time, in view of the potential development of trade with southern republics, upon which the program of better international relations, fostered for years as part of the creed of the Rotarian organization, is expected to have a decided effect, according to Chairman Dawsley.

Indications already are that the largest delegations ever to visit a Rotary convention will come from the Latin American republics.

Delegations from European countries will assemble in England, sailing from Southampton and other British ports in the Mauretania, and other trans-Atlantic liners which have been chartered especially for the trip.

A carnival of nations, in which delegations from the various foreign countries will appear dressed in native costumes, is another striking feature arranged for the session.

Another interesting innovation will be a series of more than 100 group gatherings, wherein the delegates engaged in particular lines of industry or business will meet men in the same line from every state, and from foreign countries, and discuss common problems of their lines.

The largest Japanese delegation in history will come to the convention, headed by a former Texasan, Kiochi Fukushima, a former Dallas cotton man, who carried the Rotary movement back to his native country eight years ago, when he was recalled to hold an important post with the Mitsui bank of Tokyo.

The Rotary conventions are invariably financed entirely by the Rotary organization, the host city being asked to contribute not one penny toward the convention expenses. It is estimated the delegates will spend from \$1,000,000 to \$1,500,000 in Texas during their 5-day convention, and on numerous circle tours throughout the state.

#### NEW CHARTERS

AUSTIN, March 9.—The following charter has been issued by the secretary of state: Dallas Engineering Corp., Dallas; capital stock \$3,500; incorporators, B. Sonntag, Harry H. Knight, J. S. Bisson.

#### In Unusual Feat

### OPERA STAR TO SING HERE IS AMERICAN GIRL

Miss Rosalinda Merini, who is to appear here May 6 under the auspices of Randolph college at the college auditorium, is an American girl, born in Freehold, N. J., the only daughter of a Russian father, descended from one of the old aristocratic Russian families and of an Italian mother, with a beautiful voice, she was brought up and educated in the U. S. Her father, a well known physician, was determined that his daughter in spite of her beautiful voice which even in her childhood gave promise of its present development, should not go on the operatic stage, but should take up another profession. He insisted that she enter the University of Pennsylvania as a student in the medical school. For two years she suffered there hating the work and wishing all the time that she might be free to follow music, her only desire.

Underwood-Downes. Jane Fauntz, 17-year-old Chicago girl who won national championships in the low springboard diving and 100-yard breast strokes. The fact that the two events were so difficult and that they were both won in the course of an hour made the performance particularly remarkable.

#### BABIES NORMAL

The age of parents at the time of a baby's birth have no bearing upon the normality or lack of it in the individual, nor does it make any difference whether one is oldest or youngest in a large family. Dr. Madge Turriow Macklin, of the University of Western Ontario Medical school, recently reported as the result of extensive observation of 111 pairs of twins. If heredity caused defects in one twin, it would operate the same way with the other of the pair, but defective individuals often have normal twin brothers or sisters, she found. According to popular Science Monthly, Dr. Macklin also declares she has exploded the theory that worry and shock to the mother before birth has any effect upon the offspring.

#### He Must Have Lost!

Else why the sad, soulful expression on the face of Buster, entered in a special show for Boston bull terriers at Chicago?

### MONTANA DEALS LENIENTLY WITH WOMEN SLAYERS

BUTTE, Mont., March 9.—Women contemplating murder might well believe that Montana is an excellent state in which to carry out their plans.

Perhaps the old Western spirit, prevailing in this state to an astonishing degree, shows its effects on juries. Perhaps the northwestern "wide open spaces" reserve the old chivalrous feeling toward women who kill in Montana are well versed in the matter of drawing sympathy from juries.

Whatever the cause, Montana, lately, has been an excellent commonwealth for women killers. Three in a row have gone to trial for killing men. Two were acquitted. A third drew a two-year prison sentence.

The cases which drew the most widespread interest was that in which Elaine Harrington, young blonde, figured. She was charged with having shot and killed a negro, allegedly her paramour. The shooting climaxed a long period of association with the negro, Miss Harrington, the daughter of a lay

preacher, was formerly an ardent Sunday school worker. She was acquitted of the crime.

A white man received the charge of both barrels of a shotgun in his chest. The gun was fired by a negro woman. She surrendered voluntarily, but maintained that the gun had been accidentally discharged. She was sentenced to two years "to be given time to devise methods of being more careful with loaded weapons."

Mrs. Pauline Will, of Auburn, Wash., was recently freed of a charge of killing Robert Crago, her son-in-law in Helena. She admitted that she fired the shot that struck Crago between the eyes, but swore that she shot in defense of her daughter, who was, she alleged, being threatened by Crago, wedding a stove poker. The shooting climaxed a family argument.

With these three cases fresh in their minds, Montanians are beginning to wonder if, by chance, this haven for women killers, or, if the frontier attitude, placing little importance on a shooting or two, continues to crop out to the support of feminine trigger artists.

Two of the newer additions to the list of 21,000-odd uses of gas are a hair dryer for women bathers, which does the trick in a few minutes, and an air heater and accessories, including a recirculating system which dries paper, mache speakers for movietone theatrical work.

# RANDOLPH COLLEGE KITTENS ARE SOUTHERN CHAMPIONS

## Cisco Team Wins Brilliant Victories in A. A. U. Tournament at Dallas to Take Coveted Title From Favorites

The Randolph college Kittens basketball team, today are champions of the South with their first defeat of the Employers Golden Cyclones in a game that ended the Southern A. A. U. open meet at Dallas last night.

The score was 37 to 33. It was a closely fought all the way, a game that thrilled a packed auditorium with climax at the juncture of the former west Texas high schoolers fought their way to a merit-victory over the best of veteran teams that the south could produce.

At the half the score stood 22 to 14 in favor of Randolph. At the end of the third quarter the Kittens had increased their lead to seven points, holding the long end of a 32-25 score. At the end of the game the count stood 37 to 33, a margin of four points.

Ruby Mansfield was high with 12 points. Doris Bates made 12 points for the Kittens. Other stars were Velma Fulford and Edith Qualls, centers.

The winner of this southern meet is invariably wins the national open to be held this year at Wichita, Kansas. The Kittens have won this tournament and will defend it.

The most startling upset of many Southern A. A. U. girls basketball tournaments was furnished at Dallas Friday night when the Randolph College sextet of Cisco rose unexpectedly to down a national champion team and take the lead in the tournament which determine a southern champion. The Schepps Aces was the team which the Randolph girls defeated to 35.

Says the Dallas Journal: "The Aces never could get going. They could not get going because of the superb play of Thelma Russell, star guard of the Randolph College, whose defensive play was a thing of beauty. She blanketed the wizard shooters of the Aces—who suffered their second defeat in six years—and never permitted them to take liberties. While Miss Russell was holding them at one end of the court, her mate, Miss Mansfield, was ringing 24 points to be high scorer. Miss Carrie McLeroy was high for the Aces, with 18 points.

"So impressive was Miss Russell's play that when she went out of the game in the closing minutes on personal fouls the gallery stood and cheered her."

The Randolph College team represents an aggregation of high school stars the like of which has rarely before been collected into one college organization. They are young girls but recently of high school days and combining the cream of three state high school girls' championship sextets. Those teams represented Cisco, Breckenridge and Dublin.

From Cisco's state champion team came Doris Bates, Edith Qualls and Velma Morrison; from Breckenridge state champions came Ruby Mansfield, Thelma Russell and Lessie Mansfield; from the Dublin championship team came Velma Fulford. Another player of much promise is Kathleen Darnell, of Sweetwater.

The Randolph girls were due to play Employers' Casualty company's Golden Cyclones at nine o'clock Saturday night for the championship.

This May Be Art— Finding their New York studio too warm, Ethel Sager, Beatrice Whitney, Margaret Severn, Charlotte Saks and Edwina Cavanaugh, wearing the masks of the dance drama, "The Sixth Sense," dashed into Central Park's snow for a rehearsal.

## SAFE CRACKERS GET BIG LOOT AT ELDORADO

ELDORADO, Ark., March 9.—Safe crackers visited Eldorado again last night, looting one of the largest downtown department stores of approximately \$2,000 in cash, checks and merchandise. Police were unable to find any trace of the robbers.

Two shots of nitroglycerin forced the door of the safe of the Eldorado Dry Goods company some time after 10:30 o'clock last night. Approximately \$1,500 in cash and checks was secured from the safe, and clothing valued at \$500 was taken from other departments. Entrance to the store was gained through a rear window.

## NEW TALKING PICTURE AT PALACE SOON

"The Home Towners," which will appear at the Palace theater next Tuesday to run three days, is one of the most delightful comedies ever screened. If others had the fright, light and airy required by the present craze for crooked plays, "The Home Towners" is peopled by the sort of folks we know—not one with even a symptom of crookedness. It was a great stage success and it is Colman in his most genial, breeziest vein. "The Home Towners" will give you one of the merriest evenings to be imagined. The adaptation was made by Addison Burkhardt and Murray Roth.

The all-star cast includes Richard Bennett, Doris Kenyon, Robert McWade, Robert Edson, Gladys Brockwell, John Miljan, Vera Lewis, Stanley Taylor, James T. Mack and Patricia Caron. Bryan Foy directed.

"The Home Towners" triumphs completely—partly because it is so American, or, better yet, so universal. They are people we know. The Colman gift for clever and natural characters and for ludicrous situations has never been more perfectly demonstrated than in "The Home Towners." A Warner Bros. 100 per cent. all talking picture.

## SAFE CRACKERS GET BIG LOOT AT ELDORADO

ELDORADO, Ark., March 9.—Safe crackers visited Eldorado again last night, looting one of the largest downtown department stores of approximately \$2,000 in cash, checks and merchandise. Police were unable to find any trace of the robbers.

Two shots of nitroglycerin forced the door of the safe of the Eldorado Dry Goods company some time after 10:30 o'clock last night. Approximately \$1,500 in cash and checks was secured from the safe, and clothing valued at \$500 was taken from other departments. Entrance to the store was gained through a rear window.

## JOHNSTON TRIAL ENDS FOURTH WEEK

OKLAHOMA CITY, Ok., March 9.—The fourth week of the Governor-suspend Henry S. Johnston impeachment trial came to a close today with direct testimony of the executive-defendant ringing in the ears of the senate court.

The unprecedented occasion of a high governmental official testifying in his own impeachment trial was resumed today as Johnston again took the stand to attempt to refute charges that his administration was corrupt and incompetent.

He is expected to finish his testimony today and be prepared to meet the bitter attack of prosecution lawyers in cross-examination.

The cross-examination which will last probably a day or more, will be the real test Johnston

## OIL NEWS OF SOUTHWEST

SEMINOLE, Ok., March 9.—A telling effect of the recent ration orders in the Seminole fields had an inning yesterday when a decline of 12,100 barrels was registered. With the exception of the Maud pool the decline was general.

Total production was 282,162 barrels from 1,449 wells. Little river being the biggest loser with a drop of 4,797 barrels. Earlsboro had a loss of 3,386 barrels.

The St. Louis area south of Shawnee gained 675 barrels, production from 314 wells being 99,125 barrels.

The gauges for yesterday: Little River 79,718; Earlsboro 55,896; Mission 35,342; Bow Legs 34,692; Seminole City 32,820; Maud 35,009; Seabright 8,715.

The word "Texas" comes from the Spanish pronunciation "Tejas," the name of an Indian tribe encountered by the Spanish in 1499.

## Lobos Place Third in State Basketball Standing; George Van Horn Is Named Captain of All-State Team

**ALL STATE FIRST TEAM.**  
J. Tomkins, Athens, and Bacous, Estelline, forwards; Sumner, Athens, center; George Van Horn, Cisco, and Haren, Denton, guards.

**SECOND TEAM.**  
Price, Corsicana, and D-d-d, Denton, forwards; Borchardt, Denton, center; O. C. Ray, Cisco, and Johns, Athens, guards.

Cotton Phippen of Cisco received honorable mention.

isco's Big Dam Lobos may not gotten all the "bacon" at the interscholastic league high school tournament at College Station Friday and Saturday but they are coming home with a sizeable amount of it. In addition to winning a place in the meet, the Lobos placed a man on the all state basketball quintet selected by a committee of noted college and high school coaches. George Van Horn of the player selected. He was named by some of the most brilliant work that has been seen on a tournament floor in many seasons. He was elected to a position on mythical five by unanimous vote of the committee and with the ratification by that committee that was the most valuable guard of the team. He was named captain of all-state five.

isco won third place by defeating Estelline last night in a thrilling game that ended 25 to 21 for Lobos only after the Cisco team had staged a magnificent comeback to overhaul a long Estelline lead into which the Panther entry had romped during the period. That period came to end with the Estelline boys losing the Lobos 9 to 2. It looked soomy enough and the "dark" of the meet appeared unbroken and a fenceless range. But it peculiarity of the Lobos that they start means a fast ending by the time the whistle had sounded the first half the Estelline had been cut to six points, the score standing 11 to 5. A state meet such as that which the Lobos worked in the final per-

W. T. U. Women's Public Information Committee Hears Reports on Work in Meeting Here Friday Evening

The women's public information committee of the West Texas Utilities company met in regular session at the club house on West Seventh street on Friday evening. Miss Hazel Preston, president, Miss Fern Scott, of Moran, secretary, called the roll after which reports on home lighting demonstrations, selling of stock and other public relations projects were reported on. Miss Preston appointed Mesdames R. A. Williams, of Cisco, Lenny of Fort Worth and Michael of Moran, to act as a nominating committee for next year's officers. This report will be acted upon at the next meeting in April.

Mrs. R. A. Williams read an interesting paper on the history of light from the earliest primitive times to the present day. Mrs. Deemer of Irving then spoke extemporaneously on "Electricity in the Home." Mr. Charles Walton gave a practical talk on proper wiring and safety methods. Mrs. P. W. Campbell of Abilene was present and favored the ladies with two splendid readings entitled "Safety" and "My Job, my task, my duty." Mrs. Dudley of Baird also favored the members with two readings, "A Hindu Died" and "The Negro Boarding House," which created a great deal of merriment. Mr. Warner and his talented daughter, Mrs. Buck Harlow of Pecos, gave an extended musical program with their guitar and banjo-like, which was greatly enjoyed by all. Refreshments of Eskimo pies were served to the following members and guests: Mes-

LIVESTOCK MARKET

PORT WORTH, March 3.—How receipts 1,100, market, rail hog steady to stronger; truck hogs mostly low; rail top \$10.40; truck top \$9.40; good to choice 190-240 pound rail hogs \$10.25 to \$10.40; medium to good light rail hogs \$10; bulk desirable 175-250 pound truck hogs \$9.75 to \$9.90; packing sows steady to 25c lower, mostly \$8 to \$9. Medium to choice heavy-weight 250-350 pound \$9.75 to \$10.35; medium weight 200-250 pound \$9.25 to \$10.40; light weight 160-200 pounds \$9.25 to \$10.40; light hogs 120-160 pounds \$7.85 to \$10; packing sows, smooth and rough \$8 to \$9.

CATTLE—Receipts 600. Market: Today's trade normal. For week: Weighty slaughter steers weak to 25c lower; others about steady; slaughter yearlings, the stock and other classes cattle generally unchanged; desirable stock yearlings 25c or more higher; slaughter calves strong to around 25c higher. Week's top: Slaughter steers \$11.75; slaughter yearlings \$11; heavy slaughter calves \$11.75; choice stock steer calves \$13; no representative tops in the stock and bulls. Bulk prices: Slaughter steers \$10 to \$11.25; slaughter yearlings \$10.25 to \$12; butcher cows \$6.25 to \$7.50; all cutters \$5.25 to \$6; weighty slaughter calves \$10 to \$11.25; stock yearlings \$10.50 to \$12.

SHEEP—Receipts 100. Market: Today's trade normal. For week: All classes steady; woolled fat lambs \$15 to \$18.75; medium to choice shorn fat lambs \$13 to \$14; shorn fat yearlings mostly \$12. Bulk good to choice shorn fat wethers \$9 to \$10; woolled feeder lambs \$13.50 to \$14.50; better price paid for fleshy feeders; shorn feeder lambs \$10.75 to \$12; few woolled feeder yearlings \$12 to \$13.50.

GAINESVILLE, March 9.—M. D. Dawson, farmer, surrendered to authorities today following the shooting to death of Dr. W. C. Cunningham, 64, Dexter physician. According to officers, Dawson was said to have been brooding over the death of his son, Dr. Cunningham is survived by his widow and two sons.

BRAVERY OF WOMAN HELPS CATCH THUGS

CHICAGO, March 9.—The bravery and determination of a detective's wife in the face of bullets from the guns of three Chicago gangsters was largely responsible for the capture today after a spectacular battle, of two suspected robbers. Mrs. James Ryan, the heroine with her husband and two children, were riding in their automobile when the three men, acting suspiciously, attracted their attention. Ryan got out and sent his wife to call police. When she returned, with a police squad car trailing, Ryan leaped on the running board of her car. Heedless of danger, Mrs. Ryan drove straight towards the three men who leaped to a car at the curb and opened fire at the Ryans.

Mrs. Ryan steered straight off the car ahead while her husband kneeling on the running board returned the fire. The bandit car crashed, trying to turn a corner, and the three men crawled out, using the overturned machine as a barricade. Mrs. Ryan remained at the wheel of her machine as the battle progressed, and saw policemen surround and capture two of the gunmen. The third, believed wounded, escaped down an alley.

3 DEATHS DUE TO KEROSENE STOVE BLASTS

PERRYTON, Tex., March 9.—Three deaths have occurred in this vicinity during the past 48 hours as the result of explosion of kerosene oil stoves. The infant son of Mr. and Mrs. Carl Meigs, 12 miles northwest of here, was hurled to death late Friday when the stove exploded in their home. Mr. and Mrs. Frank Reed of Waka, 12 miles west, lost two children in a similar accident.

"JIM" REED COMES HOME TO REMAIN

KANSAS CITY, March 9.—The fighting giant in the eyes of Citizen "Jim" Reed, political warrior of Missouri for a generation, was dimmed today. No political antagonist had matched that fight flame. But a smiling sea of welcoming faces, and a rousing cheer that resounded through the corridors of Kansas City's union station. They did it. Reed and Mrs. Reed arrived "home" today after 13 years in Washington.

ROPE TIED TO BED IS USED IN SUICIDE

LIVINGSTON, March 9.—Fred Brunner, 58, carpenter, committed suicide today by securing a rope to a bed post in his room and jumping from a second story window at a hotel. His neck was broken. The body was found dangling at the end of the rope by persons who passed the hotel on their way to work. A note found in one of his pockets left instructions as to burial and exonerated anyone from blame for the deed but himself. A brother's address was given in Fort Worth for authorities to notify.

MISSISSIPPI THREATENING IN PLACES

MEMPHIS, Tenn., March 9.—The swollen Mississippi river had broken its bounds in at least one place today and was causing grave concern at several points as it threatened the south with the great St. Flood menace since the disastrous overflows of 1927. Water was pouring through a 125-foot break in the levee along the old river thirty miles northwest of Blytheville, Ark., near the Missouri-Arkansas state line today. Although highwaters in this section were under water to extensive property damage was expected. Rains over southeast Missouri, eastern Arkansas, western Kentucky and Tennessee yesterday and last night, and the prediction of additional rains today, caused grave concern for many of the tributary streams. Many eastern Arkansas highways were under water today and predictions were Arkansas streams, particularly the St. Francis, would go still higher. All available men and engineers were employed in watching levees and strengthening weak points in northeast Arkansas where the danger was thought greatest.

NICARAGUAN REBEL LEADER IS EXECUTED

MANAGUA, Nicaragua, March 9.—Manuel Maria Jiron, famous Sandino rebel chief who was captured February 8 by a patrol of Nicaraguan volunteers under Lieut. Hermann Hauniken of the United States marine corps, was court-martialed and shot yesterday. It was announced today, Jiron was found guilty of treachery in attempting to lead the patrol of volunteers into a bandit ambush.

EDUCATOR DEAD. NEW ORLEANS, La., March 9.—Henry Edwards Chambers, 68, nationally known educator and author, died at his home here last night after an apoplectic stroke.

BLUE LARKS RULES AS RACE FAVORITE

NEW YORK, March 1.—Bradley's Blue Larkspur, the favorite in the winter Kentucky derby, a race being announced today, colt's price is 6 to 1, 10 to 5. There is one 5,000 to 1 shot, the 159 horses named in the Kentucky derby. The Kentucky stable, owned by Lynn Barkley and W. A. Aho are each 1,000 to 1. Four likely starters, choice to Blue Larkspur. They are Clyde Van Gelding son of Man O'War, a string and regular starter, a nicely thought-out horse, owned by Baron Long, recently was kicked, 6 and 3.

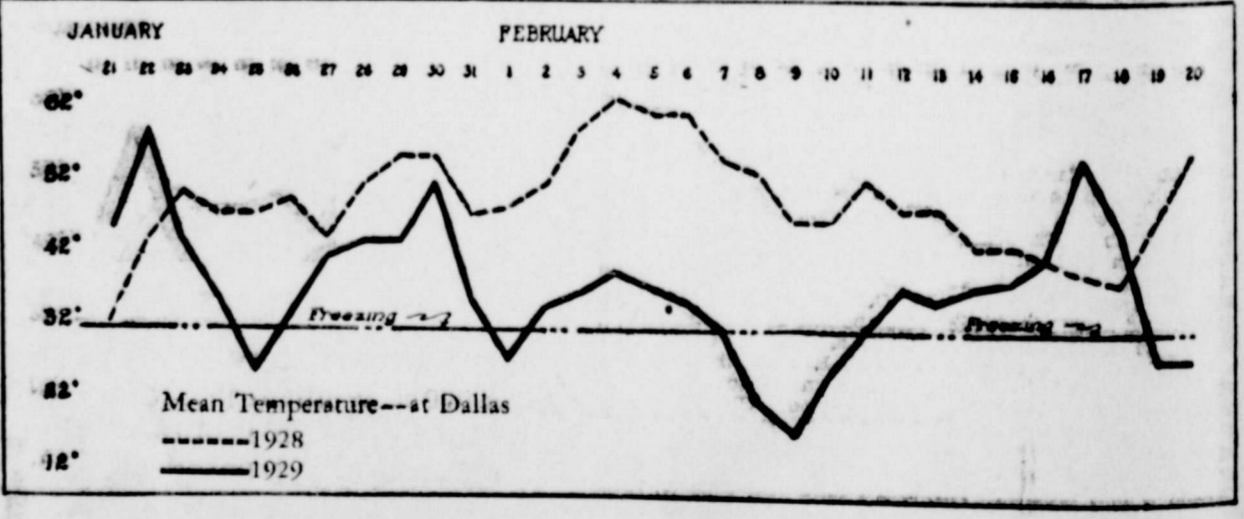

You Knew it was COLD

—but did you know just how many days were colder than the same period last year?

THE WEATHER is the most universal topic of conversation. But few people really know anything about it. Feelings are so deceiving! If it's hot, most people say, "P-h-e-w! this is the hottest weather I ever saw!"—if it's cold, they jump just as far the other way and say, "B-r-r-r! This is the coldest weather I ever saw!" They're probably wrong both times. It's so hard to remember what the temperature actually was at any given time. But those of you who said right

Table with columns: Month, Day, 1929, 1928, Higher, Lower. It compares daily temperatures for January and February 1929 and 1928.

You will note that 26 days in the 31 day period had a lower mean temperature this year than last year, the average being 16.96 degrees lower. In one stretch, from February 1 to 14, inclusive, the mean temperature was an average of 21 degrees lower this year than last. Eight days this year show freezing, 32 degrees, or below freezing, as a mean average temperature, against no freezing mean temperatures for a like period last year. Such a long period of cold, disagreeable weather, with much sleet, ice and cold rain, means that gas heaters were worked considerably over time! All who could stay inside did, day and night. This meant larger gas consumption. Naturally gas bills for this period will be somewhat higher than for the same period last year—and compared with the preceding 31 day period this season. Twenty-five days in the 31 day period from January 21 to February 20 showed lower mean temperatures than the period from December 21 to January 20; an average of 13.64 degrees lower! When you compare gas bills, compare these temperature figures. And, be thankful with us that Lone Star Gas Service was able to come through this unprecedented weather as efficiently as it did!

# BAPTIST SUNDAY SCHOOL ENLARGEMENT CAMPAIGN BEGINS

## Rapid and Sturdy Growth Enjoyed by Cisco Church During Past Four Years; Splendid New Edifice Built

Almost coincidental with the fourth anniversary of the pastorate of Rev. Acker C. Miller, the First Baptist church of Cisco today begins its enlargement campaign under the direction of Andrew Allen, associate secretary of the state Sunday school department of the Baptist denomination.

Mr. Miller arrived in Cisco at 4:45 p. m. on Wednesday, March 6, 1925, and that evening conducted his first service as pastor of the church in the city hall auditorium, where the church met for three years following the destruction of the former Baptist edifice by fire in October, 1924.

The enlargement campaign will be a eight-day drive of practical and tensely energetic effort to build a Sunday school of the church on all lines. The conductor, Mr. Miller, will have associated with him other workers: Mrs. W. H. Russell as junior worker; Mrs. Senig as cradle roll, beginners and primary leaders; Henry S. Smith as intermediate worker; and J. W. Mason who will lead the work in the young people's and adult departments.

The work proper will start with a religious census to be taken from 3:30 to 2:30 on Sunday afternoon. Thirty workers will go out from a school at the church to enroll in town. These returns will be checked and assorted to the several departments and on down to the individual classes. All returns to the churches will be turned over there. Saturday will be visitation day at which time the teachers and able will go out to visit and try to assist in their classes the number of which are not in any Sunday school church.

Through the day secretaries will be busy tabulating the returns of the census. Each evening the class roll will be held. At 6:30 supper will be served at the church for all the classes; from 7 to 8, the 8:30 class period will be held; from 8:30 to 9:30 an inspirational address will be given; and the evening will close with a second class period from 9:30 to 10:15.

The closing day will be a big day in an equal attendance in all the classes will be set and a united effort made to attain it.

The past four years have been years of rapid and sturdy growth for the Cisco Baptists. During that period one of the most beautiful and best appointed church buildings in this section of the state has been erected to take the place of the former building which burned down on this structure was revived October 11, 1925, and finally completed on October 28, 1927, the first services being held in the structure October 30, 1927.

During the four years mentioned a total of 385 new members have been brought into the church, 160 baptisms and 276 by letters from other churches.

The financial record for that period testifies conclusively to the growth and activity of the membership. During the four years a total of \$102,219 has been raised and distributed thus: current expenses, \$28; missions and benevolences, \$200; building fund, \$93,811. Present membership has increased from 278 to 534. Sunday school now an enrollment of 628 with average attendance during the five months of 358. S. E. Hitt is general superintendent; E. J. Poe, general secretary; Floyd E. Ward, literature secretary; A. M. Hanks, associate superintendent in charge of enrollment.

The Sunday school is organized into eight departments with a superintendent over each department as follows: Adults, J. R. Burnett, superintendent; Young People, Mrs. J. R. Burnett, superintendent; Intermediates, C. S. Karkalis, superintendent; Juniors, Mrs. R. R. Asbury, superintendent; Primaries, Mrs. L. J. Leach, superintendent; Beginners, Mrs. G. B. Langston, superintendent; Cradle Roll, Mrs. T. T. Stephenson, superintendent; Home department, Mrs. J. M. Hickey, superintendent.

The young people of the church are organized into four B. Y. P. U. with A. M. Williams as general director and Opal Ramsey as general secretary. The Juniors are led by Mrs. E. J. Poe, the Intermediates by Mrs. J. L. Kennedy, while one group of the Seniors is led by Mrs. Eva Stovall, and the other group does not have a leader, but the entire Senior group has Joe Freeman as its president.

The women's activities are carried on through the Woman's Missionary society with an active membership of 80. They are divided into seven circles which meet twice a month for missionary study, while the entire society comes together for the other two meetings, one a business meeting and the other a missionary meeting. The women also do much local charity work through their circles, and through the general organization. Mrs. E. J. Poe is president of the society with Mrs. J. O. Skiles, secretary.

Other officers are: Mrs. L. A. White, treasurer; Mrs. P. P. Shepherd, personal service chairman; Mrs. C. H. Van Eman, mission chairman; Mrs. R. R. Asbury, mission study chairman; Mrs. Cecil Stephens, benevolent chairman.

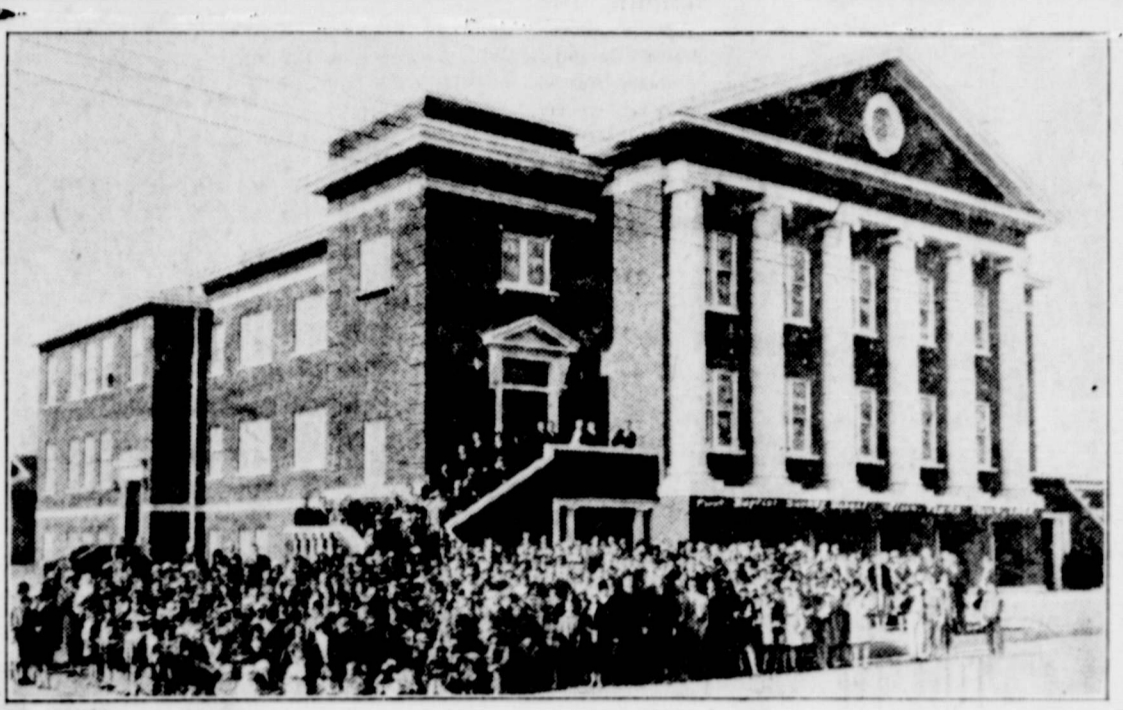

The presidents of the several circles are as follows: Circle one, Mrs. G. B. Langston; circle two, Mrs. Charles Hale; circle three, Mrs. E. C. Duncan; circle four, Mrs. O. B. Bales; just resigned; circle five, Mrs. T. T. Stephenson; circle six, Mrs. A. C. Skiles; and circle seven, Mrs. D. D. Lewis.

The general officers of the church: Acker C. Miller, pastor, with W. F. Walker, chairman of the deacons, who is also in charge of the choir; C. S. Karkalis is church clerk; S. E. Hittson, treasurer; A. C. Green, head usher with H. L. Kunkel as his assistant; Mrs. G. M. Stephenson, pianist; Miss Louise Karkalis, church secretary.

The four trustees of the church are: R. Q. Lee, president; B. W. Petterson, secretary; D. D. Lewis and J. E. Spencer. Mr. Spencer is also chairman of the finance committee which is at present composed of the four trustees and the chairman of the deacons with the pastor and treasurer as ex-officio members.

The finances of the church are progressing well. It was able to meet both its payments to the building loan last year with a substantial balance left in the treasury. The attendance at all the services are very encouraging and the spiritual life of the church was never better, it is announced.

### BAPTISTS BEGIN ENLARGEMENT CAMPAIGN

REV. ACKER C. MILLER

Above is a picture of the new \$100,000 First Baptist church building, constructed by the Cisco Baptists to replace a wooden edifice destroyed by fire in 1924. The membership of the church is now engaged in an enlargement campaign for the Sunday school. Andrew Allen, assistant secretary of the state Sunday school department of the Baptist denomination will lead this campaign beginning today. Rev. Acker C. Miller Monday begins his fifth year as pastor of the church.

ANDREW ALLEN

### EDITORS ARE WELCOMED TO FORT WORTH

FORT WORTH, March 9.—Fort Worth Saturday welcomed 200 West Texas editors who were guests in the city for the opening of the 33rd annual Southwestern Exposition and Fat Stock show.

Stock show officials expect attendance this year to break the 140,000 mark of last year, with perfect weather for the show and a score of new features attracting attention. A total of \$58,000 in prizes is being offered in all departments. The rodeo, with two performances daily, has attracted talent from all parts of the United States to compete for the \$18,000 prizes offered in the arena events.

The show will last through March 16.

### SECRET INDICTMENTS.

MIAMI, Fla. March 9.—Two secret indictments against Ed Wilson, missing gambler, were returned by the Dade county grand jury today, after an investigation into the murder of Tom "Patty" Walsh, henchman of the late Arnold Rothstein.

Minnisingers were minstrel poets of Germany who, during the 12th and 13th centuries, composed and sang love ballads to amuse the knights and barons of the times.

Friday is the Mohammedan Sabbath.

### COURT OF CIVIL APPEALS.

EASTLAND, March 9.—The following proceedings were had in the court of civil appeals for the eleventh supreme judicial district:

Cases Affirmed: Bankers Health & Accident Co. of America vs. Annie Shadden, from Palo Pinto. L. B. Ivey et al. vs. J. R. Keeling et al. from Taylor.

Motions submitted: Stephens county vs. V. H. Moore, for rehearing.

Motions overruled: L. B. Ivey et al. vs. J. R. Keeling et al. to dismiss appeal. S. M. Hanks vs. Magnolia Petroleum Co. for rehearing.

Cases submitted: G. E. Bradford vs. Texas Electric Service Co., from Noland. R. C. Miller Mfg. Co. vs. J. M. Provine, from Taylor. Wichita Valley Railway Co. vs. S. D. Wallace, from Taylor. Fort Worth & Rio Grande Ry. Co. vs. Mrs. Gladys Sagesor et al. from Erath.

For submission March 15: Mrs. Eula Brockman et al. vs. Pete Echols et al. from Stephens. James Shaw, banking commissioner vs. J. E. McCord, from Eastland. American Indemnity Co. vs. J. C. Shadbell et al. from Stephens. Stephens county vs. J. C. Burt & Co., from Stephens. T. D. Sears et ux vs. Porter J. Davis et ux, from Callahan.

### LEAGUE BIDS FOR ENTRY OF UNITED STATES

GENEVA, March 9.—The League of Nations council, in public session today authorized the commission of jurists for revision of the world court statutes to consider the position of the United States relative to the court and make any suggestions to facilitate adherence of the United States.

The action was taken after Sir Austen Chamberlain had reported to the council's decision to enlarge powers of the commission, agreed upon privately yesterday.

The commission of jurists, to which Elihu Root is a delegate, will meet Monday.

The commission will be empowered by the council to suggest any steps which would open the way for American entry into the court on the condition that such steps be satisfactory to all interests concerned.

The position of city marshal has been abolished at Perryton and the duties of that office will be handled by the nightwatchman.

### Faithful Celebrate Vatican Pact

U.P.—Underwood.  
In the distance the Pope, on the balcony of St. Peter's, giving his blessing to the thousands who stood in the place in the rain awaiting announcement of the settlement between Church and State.

### WILL LECTURE AT RANDOLPH COLLEGE HERE

Dr. John W. Tyndall of Atlanta, Georgia, will begin a series of addresses on the church, its meaning, its faith and practices, its ministry in the world, at Randolph College, Thursday, March 14. Those who heard Dr. Tyndall last year will not need to be told that as a mastery of the contents of the bible there are few to equal him. All are urged to take advantage of this opportunity for bible study. Lectures will be given at 10 each morning at the chapel and in the afternoon. Credit will be given for this work based on attendance at the lectures and such notes as the student will submit to the faculty. Dr. Tyndall will be here for a month.

### CHURCHES

#### CHURCH OF GOD.

F. Avenue and 11th street. Sunday school, 9:45; morning service, 11; subject, "Worship." Young People's services, 6:30; evening service, 7:30; subject, "Future Rewards." A large crowd heard the pastor's message last Sunday night on the "Judgment." It was left with the righteous welcomed and the wicked rejected. To know the final state of both classes hear this message tonight. You are cordially invited. JOHN W. BARDORF, minister.

#### FIRST METHODIST.

Rev. B. Frank Pim will preach at 11, especially for the young people. Dr. Pim is from Nashville, Tenn. and represents our Epworth League work. The pastor will preach at 7:30. Special music under direction of Prof. Tom Reid. You are welcome.

#### GRACE LUTHERAN.

Sixteenth street and F. Avenue. Sunday school at 10 o'clock. Last Sunday we had a very good attendance. Let us all be on time today. Morning service at 11; topic, "The Angels." Night service at 7:30, topic, "The Ransom." This is the fourth of a special series of pre-Easter sermons. Do not miss it. A hearty welcome to one and all. H. F. PEIMAN, pastor.

#### FIRST BAPTIST.

E. Avenue at Ninth. Acker C. Miller, pastor. Fourth anniversary of the pastor today. Opening of eight day enlargement campaign in the Sunday school with S. E. Hittson, general superintendent and Andrew Allen of Dallas, general director. Entire Sunday school to be enrolled; if you are a member you must be present to answer to your name. Special services both morning and evening. Sermon subject for the morning, "The Christian Worker's Call." Mrs. Ullom, soprano, and new addition to our choir, will sing. At the evening service, the Ely Orchestra will render a fifteen minute program beginning at 7:20. The sermon will be "Resurrection Assurance." The census workers will have luncheon at the church and go out at 12:30 to take the census of the town; all the churches will participate in the results of the census; the cooperation of the citizens is respectfully asked. A welcome extended to all to any of our services.

#### HOLY ROSARY.

Mass today will be at 10 a. m. by Rev. M. Collins. The subject of the sermon will be the Lord's Supper and the proof of the Catholic church will be taken from the Bible used in the Protestant churches. Tuesday evening there will be devotions at 8 by Rev. M. Collins. Subject will be St. Patrick.

#### PRESIDENT'S MEET.

The district presidents of county leagues from all over central Texas are holding a meeting at the Methodist church Saturday and Sunday. Rev. J. D. F. Williams is representing the conference board while H. F. Pim is representing the general office at Nashville. Plans for the year are being worked out.

#### FIRST PRESBYTERIAN.

Sixth street at H. Avenue. Splendid programs have been arranged for every hour here today: 9:45 Sunday school; 10:50 children's story and 11 sermon. 7:30 is the evening hour. Good music.

#### MRS. ADAMS TO HAVE CHARGE OF STYLE SHOP

Mrs. A. G. Adams, who will be in charge of Mrs. R. W. H. Kenyon's Style Shop, is an old time resident of Cisco, having been away for some 20 years. Her friends will remember her as Miss Addie Graves. For the past six years Mrs. Adams has lived in California, but she says that section has nothing on Cisco in the way of climate. She is delighted with the apparent progress of this little city which she remembers as a little town quite different in appearance from what she now sees. Many of her girlhood friends are still here, however, and it has been a great pleasure to renew the old acquaintances, she says.

### NEW WARD SCHOOL IS ACCEPTED

The new west ward school building has been finally accepted by the board of trustees of the Cisco public schools. This action was taken Friday after all details connected with the construction of the approximately \$45,000 brick structure had been adjusted and all terms met with. Money for the project was passed at the time.

The building is one of the best equipped and best appointed in this section. It contains in addition to other important features, 14 class rooms, which will offer long needed relief from crowded scholastic conditions.

W. W. Johnston was contractor. The building was occupied two weeks ago.

The Sabbatical year was instituted by the Jews in ancient times for the purpose of giving the soil a rest from cultivation. This was every seventh year.

### Meet The Globe Man

### The "Globe Man" is Coming MONDAY AND TUESDAY

March 11th and 12th.

## QUIETUS PUT ON REPORT OF RADIO MERGER

NEW YORK, March 9.—President J. G. Harbord of the radio corporation put a quietus today on Wall street's persistent reports of a radio-Western Union merger which had sent stocks of both concerns upward recently.

He issued a statement declaring there are "no negotiations completed or pending" looking to a merger or consolidation of any kind between the two concerns. Their relations he explained, are no closer now than they have been for several years; and a statement in the annual report that the concern was planning to enter the domestic telegraphy field was intended only "in a competitive sense."

## MERGER PLANS REPORTED

NEW YORK, March 9.—Negotiations looking toward the possible merger of the Western Union Telegraph company and the Radio Corporation of America have been resumed, it was reported in financial circles today.

It was understood the Western Union might create a new company or separate its cable business and its telegraph lines to conform with the provisions of the White act, which regulates communication concerns.

## Goitre Not a Disease

Milwaukee Doctor Makes Remarkable Discovery.

MILWAUKEE, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. E43, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today.—Adv.
