Published By THE CISCO PRINTING & PUBLISHING CO. 304-306 D Avenue, Cisco, Texas.

A. B. O'FLAHERTY, President and General Manager; B. A. BUTLER, News Editor; W. H. LA ROQUE, Advertising Manager; H. D. LOCKE, (Phone 7523), Circulation Manager.

Entered at the Postoffice in Cisco, Texas, as second class mail matter. Publication Days: Afternoons (except Saturday) and Sunday morning.

Subscription Rates: Per month (delivered in Cisco), 75c. If paid in advance: Three months, \$2.10; six months, \$4.00; twelve months, \$7.20. Obituaries and Cards of Thanks, 10c per line; classified, 2c per word.

BARS UP AGAINST THE MOB.

President Hoover is a business man. He is planning to cut to a minimum the public receptions which for years have been a daily feature of the white house program. His first week, instead of the customary six, the number was reduced to two and later the president expects to hold but one each week.

HURLEY OF OKLAHOMA.

Col. Patrick J. Hurley of Oklahoma may be assistant secretary of war. Colonel Hurley is a Tulsa attorney; he deals in oil; he was one of the managers of the Hoover campaign in Oklahoma, and he is said to be a millionaire. He did not win his military title in France. He won it putting Democrats out of the game in the Sooner state.

TWO GREAT EXPORT STATES.

New York and Texas are the two great exporting states of the union. Distribution of exports from the United States made during the second quarter of 1928 as fixed by the commerce department at Washington put the empire state of the east and the empire state of the union far ahead of other states in the union in value of commodities shipped abroad.

IS LAMONT A WET?

Is Secretary of Commerce Lamont a wet? He has tendered his resignation as a director in the Association Against the Prohibition Amendment. This is a wet organization. Its leaders insist that the Volstead act should be greatly modified. Furthermore, Lamont has resigned about 30 important jobs to become secretary of commerce.

MAJOR LEA RECOMMENDED.

Major W. A. Lea of Orange, Texas, has been recommended for a place on the American shipping board. Indeed, he has been more than recommended. Senators Sheppard and Connally submitted his name for the place to President Hoover with a very hearty send-off.

LITTLE JULIUS SNEEZER

Problems of Farm Community Can Be Solved by People Themselves by Means of Local Organization

By QUINCY A. MAIN. In the previous chapters we have seen how the things our Farm Bureau organization can do for us, and it is time now to see how they can be put into actual practice. Your Farm Bureau stands willing, yes, anxious to help form such a community organization. Just knowing a thing is good or will work is useless unless we know how to put it into practice and then do it.

The needs of any community can be grouped under four great heads: social, economic, educational and civic. It is to meet these needs we organize our community farm bureau. The first need our club will meet is the social problem. We want to know our neighbors better, find out how they are thinking about how the community should be run.

As for organizing the club that is rather easy. First however, a few leaders must come to the conclusion that the community can be improved and then decide to do it by giving some of their time, effort and money to the cause. Just electing officers will form an organization but it takes a little more work to make it succeed. In fact it takes the community working together under the direction of the officers to do that, but good officers are more than half the battle.

If you want to be a big man in your community, organize and put over a farm bureau club. You will not only do your community good but you will carve out a better monument to yourself than one of marble. You will leave your imprint on your community and you will become such a man by working at the problems of your neighbors and your profession. Real farm bureau men are leaders and respected in their neighborhoods, the county, the state and the nation. There can never be too many of them but you can be one if you will.

The officers needed are president, vice president, secretary and chairman of the program committee. Of these the program chairman is in reality the most important. This person, first man or woman, it makes no difference but on their shoulders rests the responsibility for making or breaking the club. The programs must first be enter-

RANDOLPH SITUATION IS EXPLAINED BY PRESIDENT ROBERTS

Five Now Being Conducted for School Here Will Enable It to Make Rapid Scholastic Progress

The Citizens of Cisco: Randolph college appreciates the effort that is being launched which will no doubt be successful in this city in the building of the college. On account of fact, we feel that there are things that should be said which are probably not understood by our citizens.

In order to bring Randolph college to Cisco, certain promises were made by the city and by those who are promoting the college. The college turned over to a board of trustees under the direction of the Christian church 50 acres of land on which were a main building and two dormitories, one for girls and one for boys. They also agreed to put these buildings in repair for the opening of school. It was further agreed that additional dormitories would be needed, and that a president's home would be constructed, also a hard surface road would be built up to the college. The city also agreed to pay a definite amount for equipment at Midland college and to bring the same to Cisco. The trustees on their part agreed to build in Cisco an "A" class college within one year. The part of this program carried out was agreed upon by the city and the college. So, when asked to consider the president of Randolph college, I found 50 acres of ground, an administration building, and one dormitory building, and one dormitory building was not sufficient for equipment to meet the requirements of the college. Neither was there a faculty of adequate training to meet the requirements of the college. Randolph college is a college without recognition of any accrediting agency. Not only was this true, but a student body of about 32 were practically all from this vicinity.

In addition to the above, I found the college had no income of any consequence that it was without money to carry on an operation. We further found that the school was unknown to the Christian churches of west Cisco, and from whom its support was secured, and a great many of them were out of sympathy with building of this institution. We are not about to acquaint ourselves with the situation. In order to put the buildings in a stable condition for the opening of school, and to defray the expenses for support, at the same time purchasing equipment and gathering our faculty to meet the requirements. In order to aid in doing this, the city of Cisco advanced \$6,000, which I learned was to be returned to the citizens.

It was further discovered that the school had incurred a debt of \$127,000, including the debts that had been incurred by the promoters of Randolph college, and citizens in liquidating the school. It was discovered that we began to liquidate these debts that they amounted to approximately \$35,000 in addition to the \$6,000 that was advanced for the school. The chamber of commerce, upon the facts that were presented, stated that the payment of the \$6,000 should remain in this city, and the \$4,000 more should be given in cash to the college for campaign purposes. With this temporary assistance, and by borrowing \$35,000, we liquidated practically the entire floating debt of the school. The following year a campaign was launched under the direction of the National Association of Christian churches.

In order to do this, we were obliged to use considerable money, which was loaned to practically \$10,000 per year for a period of three years. During the first three years of my administration we spent for equipment, repairs, operation, promotion and campaign expenses approximately \$100,000 per year. This year we shall expend \$69,000, and if it is present time, we shall come up to the end of the year without a cent. In this period of years we have created a debt of \$127,000, including the debts that we found on arrival. We have to offset this indebtedness:

- Pledges and estate notes \$112,716.68
- Student accounts 9,490.75
- Church bonds running for period of 10 years 100,000.00
- Appraised value of our plant 180,000.00
- Appraised value of ground and equipment 30,000.00
- Residence property, including president's home and teachers' cottages 19,000.00
- Edward McMin Brite endowment fund 32,000.00

Total assets \$483,207.43

This endowment fund is invested in real estate and gilt edge paper. The outstanding improvements have been the erection of Bivins hall and the construction of president's home and teachers' cottages.

I think another statement should be made so that the citizens of Cisco may know the amount that has been paid in by this city during this period of four years. As stated above, \$6,000 was paid by the citizens of Cisco for campaign purposes, and an additional \$4,000 was paid later. In addition to this, there has been paid for creating a student body \$1,500. Two years ago it was agreed that \$30,000 in cash should be paid and pledges were secured totaling about \$32,000, but only about \$3,000 was realized. These amounts were subscribed for the building of a new dormitory. It was thought by some that the money was not to be paid until the dormitory was built, so at the consent of Mrs. Bivins, and upon the payment of the same, the Bivins hall was erected with the understanding that this money was to be raised in the community to replace this sum, and we would have the same for operation and liquidation of our obligations. Many things came up from time to time that prevented this. The citizens and chamber of commerce have reached the place where a decided effort is being put forth by the citizens of this city to carry out in full the promises made by citizens and give such support as the college merits. Randolph college is managed by a board of trustees, as capable a group as one might expect to find on any college board. They are as follows: F. A. Smith, R. Q. Lee, J. W. Gates, Mrs. L. C. Brite, Dr. Edward Salkeld, J. M. Williamson, L. M. Warren, Dr. J. H. Caton, R. E. Shepherd, Dr. J. Sparks, Paul Henry Packard, Mrs. W. W. Carson, Mrs. Cora Hartgrove, Mrs. John Drensen, Mrs. Guy Dabney, J. C. Cunningham, J. W. Cate, T. T. Roberts, V. Hildreth, W. F. O'Malley, C. R. West, J. D. Jackson, Lee Bivins (deceased), Oscar Licht, A. L. Mathews, Randolph Clark, J. A. Beard, Thomas Lenox, Mrs. J. J. Winston.

You will also be glad to know that Randolph college is now fully accredited under the state department of education, and a member of the Association of Texas colleges, and also a member of the National Association of Junior Colleges of America, with a student body of the enrollment of which is around 200.

Our faculty, as so stated by the examiner of colleges, Dr. Floyd W. Reeves, who is a member of the North Central association, which governs the standard of colleges, has no superior among the junior colleges of the south. We have measured up in our activities with the leading junior colleges of the state and have competed with many senior colleges to our credit, and you know, this year our girls hold

the A. A. U. championship in basketball. I have made this statement believing it will clarify the situation and help those who have wondered as to the reason of the expenditure of money, and because of the obligations that were incurred, so that they will enter whole-heartedly in this present campaign. Further, I wish to state that my relationship in this community has been very cordial. I have done my utmost to build and establish in Cisco an institution of which the citizens might be proud and render the best possible service I can to my constituency. The citizens of West Texas have responded in a remarkable way, and members of our brotherhood have shown a tremendous interest in this institution, and are responding by congregation as rapidly as we are able. Yours for a greater Cisco and a greater college.

T. T. ROBERTS.

GRAPEVINE

Mr. and Mrs. R. T. Dye and son were guests in the J. M. Dye home Sunday.

Mrs. Rosa Baggett has returned home after a six weeks' visit with her daughter, Mrs. Ernest Loudder of Plainview.

Albert Tolle of Plainview is visiting relatives here this week.

Mr. and Mrs. Bob Blackburn have moved to Cisco.

Mr. and Mrs. Bill Marshall of Moran were guests of the latter's brother, Joe Blackburn, Sunday.

Meil Rose Dye happened to a painful accident while playing ball at school Friday, the bat striking her in the mouth knocking out one tooth and breaking off two.

Ernest Loudder of Plainview is visiting his brother, J. C. Loudder, and children.

Mr. and Mrs. John Watson of Cisco visited their daughter, Mrs. Ruth Thorp, Sunday.

Mr. and Mrs. Charles Linley of De Leon were guests of Mrs. Linley's brother, Lester Thorp, Sunday.

Mrs. Cole of Wayland visited her daughter, Mrs. Johnnie Baggett, Sunday.

J. C. Loudder and children and Mr. and Mrs. W. S. Dye were dinner guests in the J. M. Blackburn home Sunday.

Master Harvey Wesley Wallace of Breckenridge spent the week end with his aunt, Mrs. Billman.

Little Nellie Gene Kelly has been very sick but is better at this time.

Mrs. Mattie Baggett and Mrs. Nellie Dye attended the stewardship meeting of the Methodist church at Eastland Tuesday.

Mr. and Mrs. Patterson have moved from Oklahoma to the Mrs. D. Baggett place.

NEW CHARTERS

AUSTIN March 15.—The following charter has been issued by the secretary of state:

1. Ideal Ice Vending Machine Co., Dallas; capital stock \$2,500; incorporators, E. D. Broadway, Robert P. Thompson, Robert B. Hicks.

2. STRANGE BEQUEST, EL PASO, March 15.—Two local newspapermen have been killed the pistol of Pete McKenzie, convicted killer of Detective Chief Sam Street of San Antonio and now under sentence of death.

SKILES AGAIN!

Wants a big crowd at his store Saturday for he knows he has the equipment to give you the best in quality and service.

We believe the best is what the people of Cisco want. We want to make our store a convenient and desirable place for your shopping. Saturday we will have prices that you will want to investigate.

Seedless Raisins, 4 lb. 33c
East Texas Pure Ribbon Cane Syrup \$1.00
East Texas Pure Sorghum 85c
Large Bananas, doz. 23c
Red Ball Lemons 15c
Green Beans 24c

DIZZY SPELLS, STOMACH PAINS

Constitution and Indigestion Relieved by the Use of Thedford's Black-Draught.

Winston-Salem, N. C.—"I used to have dizzy spells real often until I began to use Black-Draught," writes Mrs. W. M. Hill, of 604 Chlmont Avenue, this city. "I find that Black-Draught gives me so much relief. I would often have a roaring in my head, and also spells of indigestion when I would have sharp pains across my stomach. I could hardly stand on my feet. I would feel so dizzy. "All my trouble seemed to come from constipation, which had bothered me all my life. It was not until I began to take Black-Draught that I got any kind of relief. It is the best purgative I ever took. "I give Black-Draught to all my children for colds and upset stomach. It is the first thing I call for when I get to feeling bad." Thedford's Black-Draught is prepared from medicinal herbs and roots of highest quality, carefully combined and packaged by automatic machinery. It has been in successful use for nearly 100 years, with constantly increasing popularity, by reason of its own value. Try it.

Thedford's BLACK-DRAUGHT
For Constipation, Indigestion, Biliousness

SECOND TRIP OVER NIAGARA FALLS PLANNED

NIAGARA FALLS, N. Y., March 15.—Jean Lussier, French-Canadian who successfully made the perilous trip over the falls last summer encased in a rubber ball, probably will dare death a second time on July 4.

Lussier went over the falls in a specially constructed ball in daylight with more than 75,000 persons witnessing the feat. He was fished from the river two hours after starting his trip by William "Red" Hill, veteran riverman.

Lussier is planning to make the second trip in a vehicle which he calls a "parlor ball." The ball will be six feet in diameter, electrically lighted and so constructed that the occupant will be able to remain upright during the entire journey. It will be heavily padded inside to insure escape from any serious injury. As in former attempts, Lussier will be started on his journey from the rapids shortly above the falls. Here the ball will be subjected to a heavy pounding, the treacherous currents whirling against pointed rocks. After passing through the rapids the ball will be carried over the brink of the precipice and plunged down to thousands of jagged rocks below the Falls. It is estimated that the ball will be traveling at a speed of 75 miles an hour while dropping from the brink to the lower whirlpool.

It will be impossible to release Lussier from the ball until it has reached a point at least 1,000 yards from the base of the Falls, due to the whirlpool. It is expected that 100,000 persons will view the feat.

88TH DISTRICT COURT DOCKET FOR MONDAY

The following criminal cases have been set for trial in the 88th district court for Monday, March 18:

- State vs. John W. Brawley, possession of liquor.
- State vs. John W. Brawley, manufacturing liquor.
- State vs. Dave Collins, possession of still.
- State vs. Tom High, possession of liquor.
- State vs. Hardy Gibson, theft.
- State vs. Leon Hembree, theft.
- State vs. James Flowers, theft.
- State vs. A. C. Aston, theft.
- State vs. Odell Okley, theft.
- State vs. Mildred Okley, theft.
- State vs. O. D. Pruitt, theft of automobile.
- State vs. O. D. Pruitt, burglary.
- State vs. O. D. Pruitt, theft of automobile.
- State vs. Henry Stevens, theft of automobile.
- State vs. Otto Shelley, selling liquor.
- State vs. Otto Shelley selling liquor.
- State vs. Otto Shelley selling liquor.
- State vs. Otto Shelley, theft from the person.
- State vs. C. F. Roberts, selling liquor.
- State vs. C. F. Roberts, selling liquor.
- State vs. C. F. Roberts, selling liquor.
- State vs. Lord Jones, theft.
- State vs. John Tasker, theft.
- State vs. John Tasker, burglary.

OF A SOCIAL NATURE

TELEPHONE 164.

Methodist Circle
Number Four Meets.
Circle 4 of the Methodist Missionary society met Tuesday afternoon in a brief business session, in the church. Officers for the coming year were elected as follows: Chairman, Mrs. Charles Yates; secretary and reporter, Mrs. L. E. Vaughn; local treasurer, Mrs. Sherman Roberts; connectional treasurer, Mrs. W. H. Hurd; chairman of social service, Mrs. Frank Reid; flower committee, Mrs. Frank Reid and Mrs. R. L. Wilson; birthday offerings, Mrs. E. O. Elliott; finance committee, Mrs. William Reagan; Mrs. F. E. Singleton; Mrs. T. J. Dean. Following are names of Circle 4 members: Mesdames Charles Yates, William Reagan, Mary Anderson, T. E. Brown, E. O. Elliott, D. J. Gorman, H. B. Schaefer, R. L. Wilson, Will Tapitt, F. E. Webb, L. E. Vaughn, J. J. Lillis, W. H. Hurd, W. Z. Latch, Frank Reid, N. A. Northrup, T. J. Dean, F. E. Singleton, Hattie Fairless, Sherman Roberts.

The entire Missionary society met in the church Tuesday afternoon with Mrs. George Williams presiding. After a short business session, the roll was called and the society divided into four circles. Mrs. Ed Aycock, Mrs. B. E. Morehart, Mrs. M. D. Paschall, Sr., and Mrs. Charles Yates as leaders of circles. After roll call each circle met in their respective places and made plans for the year. Forty-seven ladies were present.

Presbyterian Circle.
Mrs. R. L. Ponsler and Mrs. T. C. Williams were hostesses to the members of Circle 2 of Presbyterian auxiliary Tuesday afternoon at the home of Mrs. R. L. Ponsler. Mrs. W. R. Simmons, chairman, was in charge of the meeting. Mrs. W. W. Wallace led the devotional. After disposing of several business matters, Mrs. T. C. Williams, chairman.

man of Bible study, conducted the lesson. Daily refreshments were served to 18 members and one guest. The next meeting will be Tuesday, March 19, at the home of Mrs. A. J. Davis, on West Fifth street.

AUTOS ON RUNNERS.

HOBBSON, Mo., March 15.—Automobile bodies resting on runners have attracted attention in this section as inhabitants of the district have sought to find a combination of comfort and sport during the winter-swept period. Most people have turned to sleds for transportation, and many have utilized enclosed automobile bodies or promote comfort.

FIJIS LIKE AUTOS.

WASHINGTON, March 15.—The Fiji Islanders are forsaking their spears and war-clubs for automobiles, of which they have nearly 1,100, according to the commerce department. Automobile registrations in this far-off island have increased from 150 in 1928 to 1,974 at the end of 1928.

Keep youth longer! cleanse the system of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner drugist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

ENROLLMENT IN TRAINING CLASSES IS 127

The enrollment in training classes at the First Baptist church has reached 127, with approximately 150 present last night. Supper is being served each evening at 6:30 by the various circles of the W. M. U. to those enrolled in classes. The classes meet from seven to eight and from 8:20 to 9:20. There is an open conference on Sunday school problems from 8 to 8:20.

The records revealed a large number of possibilities for the Sunday school. The department superintendents, general superintendent, pastor and faculty members met yesterday for a luncheon at the luncheon at the church at which time definite plans for the enlargement of the organization and for the addition of new workers were made. The goal for the Sunday school for next Sunday was also worked out by departments and will be announced later. A picture will be made at the close of the Sunday morning service of the church and congregation.

The visitation service will be conducted Saturday morning at 9 o'clock. Each teacher and department leader will be given a list of prospects and absentees and urged to make a personal visit to each one of them with the hope of doubling the attendance Sunday morning.

Those assisting Pastor A. C. Miller and Superintendent S. E. Wilson in the enlargement campaign are: Andrew Allen, Dallas director and teacher of the S. S. secretary and six point record system; J. Wm. Mason, Wichita Falls teacher of "The Young People and Adult Departments"; Henry Smith, Ft. Worth Seminary teacher of "Holding the Income-Tax Department"; Mrs. W. H. Russell, Dallas, teacher of "Working With Juniors"; Mrs. H. L. Sigloch, teacher of "Working With The Cradle Roll, Beginner and Primary Departments."

"I am more than pleased with the spirit of Cisco and Cisco people. The best preparation was made for this campaign than for any I have ever conducted," said Mr. Allen, assistant Sunday school secretary of Texas.

OPPORTUNITY TO PURCHASE ENTIRE TOWN

MEMPHIS, Tenn., March 15.—Some minor or city manager can buy a whole town containing a "farm, five residences, store, creamery, ice plant, gas station, big garage and machine shop, cotton warehouse, waterworks system, swimming pool and picnic grounds," and run it as he pleases, it is communicated with Luke Hays, local attorney, and if he has the money.

Hays represents the state banking department of Mississippi. The department purchased the town of Haysborough, to protect a mortgage of \$40,000 held by the Bank of Houston, Houston, Miss., which the department is liquidating.

"I don't know whether it would be more advantageous to try to sell it as a whole or piece by piece," Hays said. "It is a splendid opportunity for some defunct mayor or city manager to buy a whole town and get back in the business. It is also a good chance for anybody who wants to diversify."

The town was built by C. C. Hanson, who sold "runs" to Hays and Hanson would probably be permitted to remain in charge until some disposition is made of the property.

HOME TOWN OF CHRIST IS IN DECLINE

JERUSALEM, March 15.—While the recent Vatican settlement was being negotiated in Rome, a delegation of petty merchants and small farmers pleaded with Sir John Chancellor, the British plenipotentiary here, to help put on its feet again the town of Nazareth, where Jesus spent his early youth. The delegation declared that the town is in the last stages of decline.

Small and unimportant when Christ taught in the synagogue there, Nazareth went through many vicissitudes. Of some consequence at the time of Constantine, it dwindled to a mere village when the Mohammedans conquered it. The Crusaders tried to make Nazareth a place worthy of its associations, but when the Franks were finally driven out of Palestine, the town was again reduced to a place of no importance.

In the 17th century the Franciscans established themselves at Nazareth and since then it has enjoyed a certain prosperity, attaining a population of nearly 15,000, of whom 10,000 are Christian.

Despite farming, gardening, cattle-raising and handicrafts, the town has not expanded in recent years. The reputation of Nazareth as "turbulent" is not such as to invite neighbors or neighbors to invite neighbors or neighbors.

HOOVERCRATS BARRED FROM FEDERAL POSTS

AUSTIN, March 15.—Through the bureaucracy of political fate, Texas Hoovercrats who looked forward to appointments will find themselves barred from federal offices, rather than helped toward getting them, by their vote for Herbert Hoover, according to information received by Democratic regulars here.

And the regular Democrats are cheering in merriment over the situation.

Several Texas politicians are rumored to be affected by the situation.

It all grew out of a simple statement credited with coming from President Hoover, that those who voted for the Republican electors for president will be regarded as Republicans.

That was taken to mean that none of the Texas Hoovercrats could go on any of the bi-party boards or commissions of the government. And the cabinet already is filled.

Former Gov. C. B. Colquitt, one of the Hoovercrats, is said to be actively a candidate for appointment by Hoover to the federal rail mediation board, to the \$18,000 job made vacant by failure of the senate to confirm Former Gov. Pat M. Neff of Waco. This board will deal Colquitt out.

"BACK TO FARM" PLEA

WASHINGTON, March 15.—Premier Mussolini may have to introduce a "back to the farm" movement. The Italian government is worried because of the rapid growth of its cities. Eight of which gained in population by 100,000 during the four months last year, the commerce department has learned from its commercial attaché in Rome. The 100,000 population increase in these eight cities, it was explained, amounted to 24 per cent of their total population. Should this rate continue they would enlarge their population by 10 per cent each year. Only 16,600 of the new population is accounted for by excess of births over deaths, it was said, the remaining 83,400 persons having emigrated to the cities from farms.

SARGON HIGHLY ENDORSED NOW BY JUDGE GRAY

"Only a remarkable medicine could do what Sargon has done for me."

"For ten years I have been in failing health. I was badly run-down, nervous and had severe pains in my side. I couldn't sleep well and would arise morning feeling worn-out."

JUDGE A. M. GRAY

"I suffered intolerable pains from indigestion. I had to take powerful laxatives very often. I am thoroughly convinced that a badly disordered liver was responsible for my troubles."

"Sargon proved to be far superior to any medicine I ever took. My color is better, my appetite splendid and I have gained weight. I sleep well, and awaken refreshed and invigorated. I am stronger and my general health much better than for many years."

"Sargon Soft Mass Pills I believe aided materially in my restoration to health. They cause no griping or cramping."

"I make this statement in the hope that other sufferers may profit by my experience."

The above statement was made recently by Judge A. M. Gray, widely-known lawyer, who lives at the Houston hotel, San Antonio.

Sargon may be obtained in Cisco at Elliott Drug Store and Corner Drug Store.—Adv.

RISING STAR CALLS SCHOOL BOND ELECTION

RISING STAR, March 15.—At a special election ordered for April 2 the qualified voters of Rising Star will pass on a proposition to issue \$25,000 worth of bonds maturing at three-year intervals from 1935 to 1969 and bearing six per cent interest for the purpose of taking on indebtedness for improvements already made and making further improvements to the school property in this city.

CHURCH WEDDINGS PREFERRED

STOCKHOLM, March 15.—Church weddings with flowers, music and candle light are preferred by Stockholm couples to the more pagan and colorless civil ceremony. According to the city statistical office, only 1,696 of 4,975 marriages were performed by the city magistrate in 1934, a decline in number of some 60 ceremonies as compared to the year before.

Marriage plans of a San Antonio youth were delayed indefinitely after he was arrested for the alleged theft of \$15, with which to pay the wedding expenses.

JAIL HILARIOUS

YOUNGSTOWN, O., March 15.—A well laid liquor smuggling plot which resulted in the intoxication of prisoners at the county jail here has been unearthed by Sheriff Stone after many weeks of investigation. A bootlegger on the outside, the investigation revealed, paid visits to the jail under cover of darkness, and with members of the county road gang acting as midwives, smuggled the contraband into the prison. Through a skylight in a trap door, the inmates climbed to the roof of the jail and let down a cord to the alley below, where the bootlegger tied a bottle of moonshine on it. Sheriff Stone discovered the plot when the prisoners greeted him in a happy and hilarious mood.

What took weeks and months of travel in Alaska is now covered in a few hours by airship.

HOVERCRATS BARRED FROM FEDERAL POSTS

since the Neff post is required to be filled by a Democrat.

There is also a fat plum to be handed out in membership on the U. S. Shipping board. This place also requires a Democrat.

B. D. Martin of Wichita Falls, leader of the anti-Smith forces, and Cato Sells, former commissioner of Indian affairs, are said to be Hoovercrats with ambitions for appointment to federal offices. Both would be out of the running for most of the important places to which they could have hopes of appointment, it was said here.

The old-timer Democrats pointed out that many of the nominal Democrats who supported Hoover did not consider themselves quitting the Democratic party. Some of them even are expected to try to be candidates for Democratic nominations next year.

But so far as Hoover is concerned they are Republicans now, it was said in interpretation of his allegedly authorized statement.

GEOLOGICAL DISCOVERY

CAMDEN, N. J., March 15.—A commonplace excavation for the new city hall here has developed into an interesting center of prehistoric geological investigation. Workers at 70 feet below street level found the imprint of a strange leaf and soon excavated more than 100 logs that were in the first stage of petrification. Dr. Lewis Pilcher, geology professor at the University of Pennsylvania, investigated and said that the trees grew in mud after the waters of the glacial era receded over territory that now southeastern Pennsylvania and New Jersey. He claims that the shore-line of America at that time during the glacial era was where near Bryn Mawr, Pa.

WORK ON AIRPORT RUSHED AS T. A. T. ANNOUNCES NEW LINE

Set of Facilities to Be Provided for Use of Dallas-El Paso Planes; Cisco Regular Stop on T. A. T. Route

The announcement that the Air Transport has selected as one of its regular stop-overs on the Dallas to El Paso line that will be put in operation Saturday, work upon the airport is being rushed to completion. Already the field in general features has been placed in excellent condition for the use of the big passenger Fokker planes which are operated over the route. The 80-acre tract located in the northern edge of the city and about a mile from the union station has been transformed largely through the work of the mechanics of the ship training school, from a rough covered area of hillsides and small ravines into a smooth, level area, well adapted to the use of airplanes. Four courses of runways have been laid out, cleared of all obstacles, all stumps grubbed up, all places smoothed away. The courses range from 2,200 to 3,500 feet in length and a plane all the latitude necessary to take off in any wind direction. The city street department machinery is being used in leveling and grading the track. A mammoth swinging searchlight will shortly be installed, the light to play over the field during the night so that it may be used safely in the darkness. The field will be bounded with a series of lights, to further increase safety and convenience. Wind markers and every convenience that goes with a class field will be installed. Plans also call for the construction of a hangar of a minimum size of 80 by 120 feet. This will be built of native material. In keeping with a policy of making the field as free from obstructions as possible the building

A view of one of the Fokker Super-Universal passenger ships to be used on the passenger line between Dallas and Fort Worth to El Paso. Reading from left to right: A. P. Barrett, president of the Texas Air Transport, Inc., and the Southern Air Transport, Inc., who is one of the leading figures in aviation today; Tom Hardin, vice president and general manager of the Texas Air Transport, Inc., and the Southern Air Transport, Inc. Hardin is himself a veteran pilot as well as a business executive.

Rest rooms for the convenience of the patrons of the line using the field will be provided. The Humble Oil and Refining Company is making preparations to provide airplane gasoline at the field while a local filling station will locate tanks and pumps at the field for the use of planes. Plenty of first class mechanics for ordinary repair work will be available. The second of eight passenger lines to be inaugurated by the Texas Air Transport, Inc., will go into operation Saturday when Homer Rader and Howard Woodall, veteran air mail pilots, fly the first ships on the Dallas and Fort Worth to El Paso route. The first line from San Antonio to Brownsville, went into operation last Saturday. Ships to be used on the Dallas and Fort Worth to El Paso line are Fokker Super-Universal, six-passenger cabin monoplane. Woodall left Fort Worth Friday morning on a pathfinding flight, making all the stops on the route. He arrived in El Paso Friday and will pilot the first ship leaving El Paso on the passenger line at 9:30 Saturday. Rader will take off from Dallas simultaneously, leaving Fort Worth at 10 o'clock. Reservations for tickets should be made at once, according to Robert J. Smith, general traffic manager, as the ticket stubs will be much sought after by collectors of first flight souvenirs. Tickets will be on sale at the leading hotels at Fort Worth and also at hotels in all stops on the route.

7th Class	71.00	67.50	55.00	49.00	37.50	32.00		

Other routes are to be inaugurated as soon as the equipment is received in Texas. These eight lines have been worked out to cover the whole state in as thorough a comprehensive a system as possible. The lines will be as follows: first, from Texarkana to Dallas and Fort Worth; second, from Dallas and Fort Worth to El Paso; third, Dallas and Fort Worth to Arillo; fourth, Dallas and Fort Worth to San Antonio and Laredo; fifth, Amarillo via Big Spring, San Antonio; sixth, San Antonio to Corpus Christi and Brownsville; seventh, San Antonio to Houston; eighth, Houston to Dallas and Fort Worth. These lines when linked with the Gulf Air Lines that are to be operated under the same executive staff, in a corporation known as the Southern Air Transport, will constitute the largest system of air lines in the United States. The system has been so worked out that there will be no operation from El Paso to Atlanta and from there, connecting with other lines into South America and Caribbean Sea islands. This huge system is headed by A. P. Barrett, who is president of the Texas Air Transport, Inc. The eight passenger lines in Texas represent only one phase of the activity of the T. A. T. and allied companies. Other services maintained are a system of flying schools over the state, training pilots and distributing Curtis Robin and Travel Air planes; an aeromotive service, maintaining repair shops and distributing Wright parts and service; and a system of air mail and express service.

HARPERSVILLE PIONEER DEAD; FUNERAL TODAY

BRECKENRIDGE, March 15. — N. J. Gillmore, 64, pioneer ranchman and one of the most influential citizens of Stephens county died early Thursday in the West Side hospital. He was sent here a few days ago from his home near Harpersville suffering from appendicitis. Mr. Gillmore came to Stephens county about 25 years ago. His interests were directed to ranching. Interment will be at the Post Oak cemetery this afternoon immediately after the funeral at 2:30, which will be held in the home of his daughter, Mrs. J. A. McClenny. Survivors includes his bereaved widow; his son, O. A. Gillmore, daughter, Mrs. J. A. McClenny of Harpersville; brothers, W. S. Gillmore of Fort Worth, J. W. of Central Point, Oregon, and J. F. of Portland, Oregon; and a sister, Mrs. S. E. Tullos of Strawn. Larkin boys know just what birds they may kill as the deputy game warden has made public a list of all not protected.

Queens to Meet Frankell Tonight at 8 o'Clock in State Meet After Win Over Dalhart in Bitter Game Thursday

The Cisco Queens defeated the teated Dalhart quint by a margin of five points last night in the State A. A. U. high school girls' basketball tournament at Breckenridge. Dalhart, winner of two tournaments already this year, had come to the meet somewhat in the shape of a "dark horse" and the Queens were prepared for a tussle. The score was 33 to 28. The Dalhart team was the best that the Queens have played of this year and it took everything that the Cisco girls could produce to beat them, said Coach Nigro. The entire team played a brilliant game and came out of the contest in good condition, ready for Frankell tonight at 8 o'clock. The Queens have another mighty battle in prospect when they meet the Frankell sextet. Honors so far this season are even between these teams and the contest is in doubt. Plenty of Cisco rosters are needed to help cheer the Cisco girls to victory tonight. The semi-finals in the upper bracket will be played at 3 o'clock tomorrow afternoon, the winner of the Mingo-Celeste game to meet the winner of the Breckenridge-Roby game. In the lower bracket the semi-final will be played at 4 o'clock, the winner of the Cisco-Frankell game to meet the winner of the Seagoville-Post game. The losing teams in the semi-finals tomorrow afternoon will play at 3 o'clock tomorrow night and the finals will be played at 9 o'clock. Breckenridge won its game with Corsicana last night on a forfeit, the Corsicana sextet failing to show up. Parings for this afternoon and tonight are: 3 p. m. —Mingo versus Celeste; 4 p. m. —Seagoville versus Post; 6 p. m. —Cisco versus Frankell; 9 p. m. —Breckenridge versus Roby.

Results last night and yesterday afternoon were: Frankell 44, Sherman 34, Roby 88, O'Brien 26, Post 24, Haskell 6, Seagoville 33, Sheldon 23, Mingo 65, Rose High 16, Celeste 36, Newcastle 35, Cisco 33, Dalhart 28. The eight remaining teams will start today on the championship rounds, while those who have lost in the last two days will start their consolation games tomorrow.

OIL NEWS OF SOUTHWEST

SEMINOLE, Ok., March 15.— Production in the Greater Seminole and St. Louis crude oil areas "came back" on the estimation gauges Wednesday after the 24-hour shut down of Sunday and an increase of 101,458 barrels was registered. Total production was 375,955 barrels from 1767 wells. The Seminole group of seven wells produced 274,404 barrels from 1451 wells, an increase of 71,435 barrels, while the 316 wells of the St. Louis area produced 101,554 barrels, an increase of 30,023 barrels.

HOUSTON, March 15.— The United Gas company has purchased the properties of the Mission Drilling company of Texas and was organized a new subsidiary of the United Gas company. The new company has a capital of 500,000 shares of no par stock. The organization, with headquarters here, has secured a charter under the laws of Delaware. For the present time the company has been named the Ponca Oil company, but this may be changed when the board of directors meet in Ponca City, Ok., March 23.

FAYETTEVILLE, Ark., March 15.— Fayetteville's optimism over finding of a strong flow of oil in the test well being drilled in the east of here by the Independence Oil & Gas company is not entirely by company officials' estimate of two million barrels of oil daily has been lowered to a million, according to the company. Indications so far are very good, however, and the possibility of large quantities of gas is also good. The well, being drilled by the independent Oil & Gas company, at a depth of 265 feet, drilling has been suspended until a large amount is set and the hole is made and straightened.

HARJO, Ok., March 15.— An oil gusher flowing 200 barrels an hour has been brought in on the Hallum farm half a mile south of here in Pottawatomie county.

SEMINOLE, Ok., March 15.— The greater Seminole crude oil area again was up on the gauges Wednesday when 276,102 barrels, an increase of 1,698 barrels, from 1,454 wells, were reported. The Earlsboro pool registered the greatest gain with an increase of 3,500 barrels over a 24-hour period. The St. Louis area, south of Shawnee, produced 97,765 barrels from 316 wells, a decline of 3,789 barrels. The fields now are about 218-

Production in the Greater Seminole and St. Louis crude oil areas "came back" on the estimation gauges Wednesday after the 24-hour shut down of Sunday and an increase of 101,458 barrels was registered. Total production was 375,955 barrels from 1767 wells. The Seminole group of seven wells produced 274,404 barrels from 1451 wells, an increase of 71,435 barrels, while the 316 wells of the St. Louis area produced 101,554 barrels, an increase of 30,023 barrels.

Surprise crackle pop snap for the kiddies! A NEW cereal children love at first sight! It pops and crackles when you pour on milk or cream. And what a flavor treat! Toasted rice grains. Enjoy Kellogg's Rice Krispies for breakfast, lunch or supper. With fruits or honey added. Use in candies. Sprinkle into soups. Made by Kellogg in Battle Creek. At grocers.

it's new! Kellogg's RICE KRISPIES Scour the pots! Scour the pans! but they won't come clean Why? The water is hard. And instead of nice, sudsy water, there's a greasy ring around the basin. The soap has mixed with the hard water to form scum. And the scum goes on the wash cloth, and smears the pans. Water softened with Melo is different. It will clean. Scour the pots! Scour the pans! But do it with soft water. Get a can of Melo today at your grocer's.
