R. R. WINS O'FALLON CASE

Gun Battle Averted as Sheriff and Deputies Raid Cache and Get 110 Gallons of Whiskey Saturday

C. C. SYSTEM OF VALUATION IS OVERTURNED

Decision of Federal Court at St. Louis Reversed.

By HERBERT LITTLE
United Press Staff Correspondent.
WASHINGTON, May 20.—Railroads won the billion dollar O'Fallon valuation case in the United States supreme court today.

The higher court reversed the decision of a three-judge St. Louis federal court which refused to construe the validity of the interstate commerce commission's system of valuing railroads for rate-making purposes.

The railroads sought to overturn the commission's system because it was based on the "current replacement" theory of valuation. Justice McReynolds' opinion said that the commission's system was not given weight to current values.

"The question before us," he said, "is not what weight is to be given to this factor (reproduction costs) in current rates. Congress must be obeyed," he said.

Justice McReynolds' majority opinion took less than 10 minutes to read.

Justice Brandeis then announced agreement by himself and Justices Holmes and Stone, indicating a 5-4 division of the court.

The formal order of the court today was that the decision of the lower court upholding the interstate commerce commission, should be vacated and the order reversed.

To Cross Atlantic Ocean in Gas Boat

This 26-foot launch is the tiny vessel in which Joe Leplich (above) and four companions plan to leave June 1 for a voyage from Toledo, O., to Hamburg, Germany. The ocean dash, 1,700 miles from St. Johns, N. F., to the Irish coast will be made in just a week, they say. They will start with 380 gallons of gasoline, 20 gallons of water, and a food supply sufficient to last four weeks.

BRONSON, Mich., May 20.—Five young men have just completed tests for the 36-foot gasoline launch in which they expect to leave Toledo, Ohio, on June 1 for a voyage to Hamburg, Germany. They will begin their 1,700 mile voyage across the Atlantic from St. Johns, N. F., with the Irish coast as their goal.

The quintet who will defy Neptune's terrors in the tiny craft are Joe Leplich, 31 years old, a veteran of the Kaiser's army; Conrad Kapatko, 21, nephew of Leplich; Henry Schmittzer, 23; Arlow Sowers, 20, and Rudolph Bantle.

The five have been hard at work all winter building the two-ton launch in a barn. It has a six-cylinder gasoline engine and carries an auxiliary sail.

The sailors will drive it across Lake Michigan from St.

FUEL AND FOOD IS PASSED BY SECOND PLANE

Will Attempt to Beat Record Set by the "Question Mark."

FORT WORTH, May 20.—With the tank of their recon-ditioned plane replenished with 110 gallons of gasoline, Reg Robbins and Jim Kelly began their second day in the air Monday in an attempt to set a new endurance flying record.

The gasoline was pumped into the endurance ship from another Ryan monoplane flying overhead.

WILL TRY TO STAY UP SEVEN DAYS.

FORT WORTH, May 20.—Soaring over and near Fort Worth in wide circles, a recon-ditioned airplane, whose motor has over 50,000 miles to its credit, hummed steadily onward today as Reg L. Robbins and Jim Kelly sought to stay aloft long enough to set a new refueling endurance record.

Robbins is a commercial pilot and Kelly his assistant. They set off at 11:33 a. m. Sunday in their rebuilt Ryan monoplane, to stay in the air more than seven days.

K. K. Hoffman and H. X. Jones are operating the refueling ship. Robbins dropped a note last night asking that the refueling be effected at 6 a. m. today.

Robbins said he intended to "stay up until the plane falls apart," as he stepped into the craft yesterday.

Army officials are keeping official record of the flight.

The army plane Question mark remained aloft in its refueling flight 150 hours 40 minutes and 16 seconds, a flight which would require that their plane continue in flight until 7:13:16 p. m. Saturday.

The endurance plane took off with 250 gallons of gasoline and refueled for the first time at 6 o'clock this morning. Food also was passed to the fliers from the refueling ship. The whole process lasted five minutes.

A note from the endurance ship said the fliers were in good spirits and that the plane motor was performing perfectly.

At 7:33 this morning the plane had been in the air 20 hours.

CONGRESS TODAY. By United Press. Senate Resumes debate on reapportionment and census bill. Interstate commerce committee continues hearing on bill to establish communications commission. House Continues debate on tariff bill.

MANY KILLED AND INJURED IN ACCIDENTS

By United Press
Airplanes and motor car accident, Sunday carried death and injury to many pleasure seekers Sunday.

A wing on a Parason type monoplane collapsed at Muskogee, hurdling the plane 2,000 feet to the ground. George King, pilot, and Morris B. Wellinger were killed. Witnesses said the wing collapsed as King tried to level out from a nose dive.

Louis Scott, 19, a mechanic, was killed and O. G. Corben, pilot, was injured when their airplane which they were attempting to land crashed into high tension wires at the field at Pawhuska, Okla., late Sunday.

Corporal Arnold Bryant, attached to the 19th squadron of the third attack group, U. S. Air corps, was killed when an airplane crashed during a take-off. Lieut. Edward Hertzberg, was injured.

Four persons were injured in Roosevelt Field, N. Y., when a plane upset on an attempted take off.

A mother and her four children were killed at Detroit, Mich., when a Michigan Central train crashed into their automobile.

Four persons were killed at Glendale, Calif., when their automobile was struck by a Southern Pacific passenger train.

Three persons were killed near Racine, Wis., when an automobile was struck by a northwestern passenger train.

Two Washington and Lee University students were killed near Lexington, Ky., when their automobile overturned on a curve.

Four persons were injured in the latter accident.

VENUE CHANGE IS GRANTED IN McBRIDE CASE

Will Be Sent to Shackelford for Second Trial.

Motion for a change of venue in the case of the state versus C. B. McBride, of Cisco, charged with murder in connection with the fatal shooting of John Glenn Breckenridge oil field supplies dealer, at Breckenridge on Thanksgiving day, 1927, was granted when the case went to trial for a second time in Breckenridge this morning.

The case was transferred to Shackelford county by Judge C. O. Hamilton of the 96th district court, at Breckenridge after the motion of the defense was granted.

The defense contended that a fair and impartial trial could not be had at Breckenridge where the case was tried first, the trial resulting in a conviction and a sentence of 45 years. The first trial took place in December 1927.

The next term of court opens at Albany on the fourth Monday in July at which time the case will be set.

McBride's first sentence was reversed by the court of criminal appeals.

COMPROMISE ON EVOLUTION IS REACHED

AUSTIN, May 20.—School books in Texas evolution as a theory but not as a fact.

This compromise was reached this morning. Rev. J. W. Harper of Mt. Pleasant, minister-member of the board of education, accepted the compromise. He was author of an amendment to the board of education bill, which would have barred reference to evolution.

The compromise came after a free conference committee of senate and house members had agreed to sidetrack the Rev. Mr. Harper's amendment. Representative Harper charged that the committee was "packed" against his amendment and threatened to fight it out on the floor of the house. The conference reconsidered and took his amendment in the modified form.

At present all reference to evolution is omitted from Texas school books. The elimination was ordered by the text book commission under Governor Miriam Ferguson's administration. A committee deleted whole sections of standard books and special Texas editions were printed.

Under the new bill, text books will be recommended to the board of education by a committee of five teachers. Final choice lies with the board of nine members.

EXCAVATION FOR CONDUIT IS STARTED

Workmen this morning began excavation for the laying of the conduit which will carry the Fort Worth to Cisco long distance underground telephone cable into this city. The cable will enter the city at South Boulevard, just beyond Twenty-second street, where the tile conduit will start, and will follow E avenue to Seventh street where the conduit will terminate and where the two-story relay station building the company is to construct here will be located.

About six weeks will be required for the installation of the conduit. Along its route 13 manholes, each 11 feet in length by 5 feet and 6 inches in depth, will be located. These manholes will be set in the curbs of the streets, will be constructed of re-enforced concrete with steel tops.

The conduit for a part of the distance into the city will have six "ducts" each of them capable of accommodating one cable of 1,999 pairs of wires, and for the remainder of the distance, nine ducts. Only one cable will be placed in the conduit at this time but its capacity will be nine cables so that others may be added from time to time as the growing business of the company in West Texas demands.

The conduit is being laid under contract by Harrison-Wright Construction company, of Charlotte, N. C. J. F. Randall, of Houston, district superintendent, is in charge of the work, with Arch Brightwell, as construction foreman.

Construction of the company's new building is expected to be started within the next few weeks in time to receive equipment and be ready for occupancy when the cable, now laying from Fort Worth, reaches here.

The Southwestern Bell Telephone company is making Cisco an important unit in the vast system that it is building up in Texas. The relay station here will handle practically all long distance communications over the company's lines between east and west Texas.

EASTLAND MAN IS MOVING TO NEW TERRITORY

EASTLAND, May 20.—Walter Hart, president of the Eastland chamber of commerce, and for the past twelve years closely identified with the civic development of Eastland and its surrounding territory, is leaving the city today permanently. His family will follow him as soon as the schools here have closed.

Mr. Hart came to Eastland in 1917 and took charge of the city light plant, which consisted of a small plant powered by a large gasoline engine. He immediately went to work for his company to enlarge this plant, which has been added to and improved until today the Texas Electric service company operates four miles southeast of the city one of the largest power generating plants in the entire state.

Mr. Hart also built the first and only ice plant in the city and has been in charge of the company's business ever since it was established. Just as he was completing the first units of the ice plant and first steam power plant, he was called into military duties by the government and spent some time in the army during the World war. He returned from the army and again entered the services of the local power and ice concern.

DEDICATION COMMITTEE TO MEET TONIGHT

The county American Legion court house dedication committee will meet this evening at the court house at Eastland for the purpose of completing plans for the dedication of the new \$300,000 structure to the ex-service men who went from this county to take part in the World war. The dedication will take place on Thursday, May 30 Memorial Day.

Between 10,000 and 15,000 people are expected to attend the events which will last all day and will include a basket picnic, a parade, addresses by men prominent in Texas public life, band concerts and other features.

The meeting this evening will begin at 8 o'clock.

THE WEATHER

By United Press.
West Texas cloudy, possibly showers tonight and Tuesday; warmer tonight except in southeast.

East Texas—Increasing cloudiness, somewhat warmer south and west portions tonight; Tuesday cloudy, warmer south and north portions.

INQUEST INTO CLINIC BLAST BEGUN TODAY

CLEVELAND, O., May 20.—A small public inquest into the death of 124 deaths in the Cleveland clinic disaster was opened today.

Several of the officials of the clinic will be questioned. Dr. A. J. Pearce announced tonight. The coroner indicated that Buffery Boggs, the steamfitter who was the last person in the room, would be the first witness. Dr. Pearce was uncertain whether he would call Dr. George C. Cline or Dr. William E. Lower, members of the clinic board of directors.

Of the 36 victims of the explosion in hospitals, only five were reported to be in a serious condition. Three of these were expected to recover while the other two had slight chances.

Program for Entertainment of State Elks Convention Here on Sunday, May 26, Is Being Prepared

Committees from the Elks clubs of Cisco, Eastland and Ranger will meet Tuesday evening at 8 o'clock at the court house at Eastland to perfect plans for the entertainment of the State Elks association for one day here during its convention at Breckenridge May 23, 24 and 25.

The Cisco Elks committee for this purpose is composed of Hoyt Agnew, chairman, J. A. Bearman and M. L. McGannon, with Exalted Ruler Hugh White, as ex-officio member. J. E. T. Peters, secretary of the chamber of commerce will also attend the meeting in the capacity of ex-officio member since the chamber of commerce voted the greatest possible extent in carrying out their part of the program.

The convention will be here Sunday, May 26. The Elks will leave Breckenridge at 9:30 a. m. in the morning. Drive to Ranger will be held at the Elks' club. From Ranger at 11:30 the convention will go to Eastland for another reception and a visit to the Leon plant of the Oil Belt Power company. At 1 p. m. the Elks will leave for Cisco.

Arriving here they will be taken for a drive over the city and then to the lake.

At 2 p. m. a fish fry will be given for all visiting Elks and their ladies. The rest of the day will be devoted to boat riding, swimming and various other sports.

Will Endeavor Get "Scarface" Freed

CHICAGO, May 20.—Frank Nitti, known as the "best mind" of the "Scarface" Al Capone beer mob in Chicago, was reported to have left today for Philadelphia to help set his chief out of jail.

Because Capone pleaded guilty to the indictment on charges of carrying concealed weapons in Philadelphia and accepted his jail sentence of one year, only two avenues of release are open to him. His attorneys may find that the indictment was faulty or they may try to prove that someone in authority promised Capone that if he pleaded guilty he would receive only a fine instead of a jail sentence term.

Pictures of Lake for Game Book

The state game, fish and oyster commission is engaged in the preparation of the book showing the fish and game resources of the state. S. B. Wright, superintendent of the Cisco state fish hatchery has been asked for photographs of Lake Cisco and the hatchery for use in the book.

Grand Jury Probes Stabbing of Woman

LAREDO, May 20.—The grand jury today took up the investigation of the fatal stabbing Saturday of Rosa Garcia, 28, by her estranged husband, Edro Garcia, 30, power plant engineer of Hebbronville. Pending the grand jury's investigation Garcia was held in the county jail without bond.

According to witnesses, Garcia went to the home of his mother-in-law at Hebbronville and there met his wife. A quarrel ensued and the stabbing followed. Mrs. Garcia died four hours later. After stabbing his wife Garcia surrendered to the sheriff.

FUNERAL TODAY

DENTON, May 20.—Funeral services for Jesse Anderson, 19, whose body was recovered from Lake Dallas Sunday, were to be held here today. The youth, son of Mr. and Mrs. A. J. Anderson, was drowned last Monday when the boat from which he was fishing overturned.

10 DEATHS

NEW YORK, May 20.—Ten deaths were listed today as ten of the heavy rain storm which struck the Metropolitan arena while hundreds of thousands of New Yorkers were seeking relief from Sunday's unusual warmth at beaches and other places of recreation.

350,000 Young Fish Shipped From State Hatchery Here This Season

100,000 OTHERS TO BE PLACED IN LAKE CISCO

Last of Fingerlings Will Be Sent Out This Week.

With the shipments scheduled to be made this week the Cisco state fish hatchery will have shipped this spring approximately 350,000 "fingerlings" of this year's hatch to points within the district of 52 counties which the hatchery serves, according to S. E. Wright, superintendent. To date 283,000 of the fish have been sent.

Shipments are scheduled to go this week to Merkel, Stamford, Abilene, Brownwood, San Saba, Coleman, Lampasas, San Angelo and other places, Mr. Wright said. In addition to those being shipped out Mr. Wright has placed 100,000 of the fish in a rearing pond awaiting transfer to Lake Cisco this fall. The fish will not be placed in the lake until they attain a length of from six to eight inches which assures a much larger per cent of the number surviving than would be the case were they to be placed in the lake while still small.

The fish that are being sent out this week have attained a length of about two inches. They grow rapidly during the first year, at the rate of about an inch a month.

Each hatchery in the state has been given a district. That which is attached to the Cisco hatchery covers 52 counties in west Texas. With the installation of the hatchery at San Angelo, however, this will be cut down some.

BAIRD PUBLIC SCHOOLS CLOSE FRIDAY NIGHT

BAIRD, May 20.—The Baird public schools will close Friday night, May 24.

Last Friday night the primary and intermediate grades presented to a full house their closing program consisting of musical drills, etc.

Sunday night, May 19, Rev. Cal C. Wright, local Methodist pastor, delivered the baccalaureate sermon at the high school auditorium. By a unanimous vote of the senior class the usual custom of the baccalaureate sermon being delivered in the forenoon was changed to evening.

On Wednesday evening, May 22, the annual senior class play will be presented at the high school auditorium. The play, which is entitled "Seventeen," was written by Booth Tarkington. The performance will be directed by Miss Ina Lee Ely, local expression teacher.

Thursday night, May 23, members of the seventh grade will receive their diplomas from the grammar school. At this time medals will also be awarded to the honor students. The speaker for the occasion will be Dr. Pruitt Walton of Simmons university.

The most successful term of the Baird public school will be officially closed on the evening of May 24 when B. L. Russell, Jr., secretary of the school board, delivers the diplomas to the graduating class. The principal speaker of the evening will be Supt. R. D. Green of the Abilene high school, who is a former superintendent of the Baird high school.

The senior class of 1929 consists of 35 boys and girls and is the largest graduating class in the history of the school. This class holds the distinction of being the first class to publish a school annual and the first class to graduate in the new building. The valedictorian and salutatorian will be announced this coming week.

The following are to receive diplomas: R. L. Elliott, Myrtle Starr, Curtis Sutphen, Grace Jackson, Dorothy Mae Scott, Weldon Varner, Glenn McGowan, Thelma Lois Boatwright, Donna McGowan, Vernon Johnson, Bonnie Bell James, Ira Putnam, Doris Foy, Fannie Baum, Billy Wright, Beatrice Green, A. T. Vestal, Jr., William Nell Sikes, Wilburn Walker, Harry Dunlap, Corrie Lou Gibbs, Willela Hensley, Edith Hammons, Stephen Warren, Fonda Hughes, Willard Kelton, Hazel Nichols, Bill Hamlett, Almie Crutchenfield, Howard Stephens, Christine Hall, Josie Lois Ivey, Lucibel Mitchell, Gaston Willie, Lucille Robinson.

FORGOT TO WAKE UP

MIDLAND, May 20.—When two Midland men saw a bulky object moving beneath a quilt in the back of their touring car, they stopped to investigate. From one corner of the quilt protruded a worn shoe. From the other came sounds of wheezing. The quilt was removed and a sleeping negro boy was uncovered. He told the men he had "crawled in the car for a snooze at 4 a. m. and had forgotten to wake up."

WATCHING THE SCOREBOARD

By United Press.

Yesterday's hero — Burleigh Grimes, veteran Pittsburgh pitcher, who held the league-leading Chicago Cubs to seven hits and won his sixth game of the season. The Pirates won 4 to 1.

The St. Louis Cardinals moved within half a game of the Cubs in the National league by defeating Cincinnati, 2 to 1, in 11 innings.

Rube Walberg permitted but seven hits and the Philadelphia Athletics blanked Washington, 7 to 0. Fox and Miller made three hits each.

Home runs by Ruth and Gehrig helped the New York Yankees beat the Boston Red Sox, 3 to 0, in a 5-inning game halted by rain.

The Chicago White Sox won a costly victory from Detroit, 10 to 3. Johnny Mostil fracturing his leg when he tripped over the plate in clearing a run in the fourth inning. Clarence Hoffman, who replaced him, hit a homer.

A six-run rally in the eighth inning enabled Cleveland to beat the St. Louis Browns, 10 to 6. Lou Ponsessa drove in four runs with a triple, double and two singles.

The other two National league games were rained out.

Absent-Minded Cop Writes Self Ticket

SALEM, Ore., May 20.—Here's a story of an absent-minded cop. Charles Kuykendall, member of the Salem police force, whose duty it is to mark automobiles that are parked overtime in the business section of Oregon's capital city, drove his car down town and parked it.

In the course of his rounds he came to his own machine. It looked familiar, but he failed to "peg" it as his own.

"Humph, that guy's got a lot of gall," he muttered, chalking a ticket on the car. "Why didn't he mark on the sidewalk in front of headquarters. I wonder?"

"Still here," he mused an hour later on another round. "Guess that guy wants to see the judge."

He made out a slip instructing the owner to report to police court.

When he completed his trick and hunted up his automobile, he was confronted with the overtime parking slip signed by himself.

"That guy sure did have a lot of gall," he commented. "Must have thought he had a drag with the police department."

He thereon drove to municipal court, presented the slip to the judge and cheerfully paid his fine of \$1 as a first offender.

Terry county claims to have the largest pure-bred pig club in Texas in which 106 boys are members.

Past Week Crowded One for Oil Industry in This Section; Five Different Areas Attract Interest

RANGER, May 20.—It has been a long time since the Ranger district has witnessed such a crowded week as the one just ended. Five different areas are in the spotlight as the result of splendid new wells.

So stimulating was the 60-barrel well at 1,300 feet brought in by Kirk & Whitesides in the shallow Turner pool between Eastland and Carbon that 10 wells are starting there. This is the biggest rush that any pool has seen in a long time in Eastland county.

Twelve miles northwest of Ranger in the rich Ramsower pool which was opened up two and a half years ago by Col. Robert D. Gordon, a mile extension has been given by the big well of the Belva Oil company which was making 600 barrels of oil and 16,000,000 feet of gas Saturday, after having been in for several days, according to information from the field.

Half a mile from the nearest deep production, the Adams No. 1 Garrett is believed good for 200 barrels, two miles south of Olden. Biggest completion of the week in this section is the Manning No. 1 of T. G. Shaw which produced 900 barrels in eight hours. This well is a mile east of Caddo and is only 400 feet from a well that produced for nine years. The old-time gusher made a million dollars worth of oil.

And in order that the week might be closed fittingly, the Hart well, nine miles east of Caddo—which has been making 10,000,000 feet of gas for almost a week—was reported as making oil all over the country "by visitors who were out there Saturday. That it will be an oiler and a good one seems a certainty though an estimate of the probable output is not available.

Turner Shallow Pool.

The 19 wells in various stages in the shallow Turner pool are Murray Bros., six on the Evans; Sherwood Owens, four on the C. R. Turner; Hinkey, four wells; Davis & Stiles, one on the Craig; Kirk & Whitesides, No. 2 Turner; Crab & McNeal, one on the Turner; Marra et al., one on the Byrd and Cranfill & Reynolds, one on the McIntosh.

"There'll be 25 operations under way by Monday," one observer enthusiastically declared.

"It's the nearest thing to the Fry pool that Eastland county has seen," he added. He was referring to the shallow pool in Brown

EYES OF TURF WORLD NOW ON BELMONT EVENT

Van Dusen, Derby Winner, Not to Be Entered.

LOUISVILLE, Ky., May 20.—The eyes of the racing world turned today to the Belmont stakes as the next great test of the three-year-olds.

Clyde Van Dusen, which splashed to a great victory in the Kentucky derby on Saturday, probably will not race in the east this year. Because he is a gelding the H. P. Gardiner horse will not be eligible for the Belmont. Instead, he is expected to start in the American classic at Chicago along with Pancho, which beat out Blue Larkspur for third money in the derby.

Nashapur, second in the derby, probably will be at the post in the Belmont as will Dr. Freehand, Preakness victor. Other likely 3-year-olds who may settle many an argument at the Belmont are Jack High, Twink and Blue Larkspur.

So renowned was Clyde Van Dusen's reputation as a mudder that before the post time Saturday he was second to Blue Larkspur in the betting. With the rain falling steadily his backers went down heavily until they had him paying \$8 straight at the mutuels.

"SYNCOPIATION" SCORES HIT IN OPENING HERE

Marking a new era in film entertainment, "Syncoption," first RKO's hundred per cent all-talkers with Fred Waring's Pennsylvanians, burst from the screen of the Palace theater in a veritable fountain of golden melody, song and crackling dialogue to the huge delight of the crowds who attended its premier showing last night.

"Syncoption" has been billed as an extravaganza by the producers, the first great musical film review ever to be made, an effort to produce what is actually a full blown musical show in film form. And the result is a rousing roaring, scorching success, making another step forward in the realm of perfect entertainment.

The synchronization was accomplished by the Photophone process of RCA which records sound on film.

"Syncoption," which was adapted from Gene Markey's novel, "Stepping High," is a gripping heart interest tale of Broadway hoodlers that doesn't despise the tear while it investigates the hearty laugh from its lair.

Barbara Bennett and Bobby Watson portray the leading roles. Others who shine in the scintillating cast are Ian Hunter, Morton Downey, Osmond Perkins, Mackenzie Ward, Verree Teasdale and Dorothy Lee.

"Syncoption" is richly staged and superbly directed by Bert Glennon.

ONE HEAD BETWEEN THEM

CUERO, May 20.—Two chicks from the same egg, or rather, two chicks with but a single head, is the unusual circumstance occurring on the farm of Henry Probes, chicken enthusiast. The chick, be it one or two—has two perfect bodies, four feet, four wings, and one head.

The Stinnett well demonstrates the possibilities of seeking deeper sands. It produced three years from the Caddo and now it has been drilled a few hundred feet deeper to the Bond, where the big oil and gas production is coming from. It still has "an ace in the hole" for still lower is the Ramsower and where most of the Ramsower wells have found their biggest yield.

Caddo "Popped Up"

Four locations were reported in mid-week in the vicinity of the Manning No. 1 of T. G. Shaw; and the Hart gasser, on further east, which has turned into an oil producer, should be in the midst of a drilling campaign for it is three miles from deep production. The Hart well is near the Stephen-Palo Pinto county line, being in the latter county.

Well Near Olden

It is believed that the Chestnut & Smith-Moore & Garrett well on the Adams was good for 200 barrels when completed. The well made a number of pretty flows and it is expected it will be cleaned out right away and the actual capabilities of the well demonstrated. This well, being half a mile from the nearest deep producer, has created much interest and may be the signal for several wells to start.

All of these developments — and with other wells expected in soon—have given great stimulus to the oil industry in this field.

These new wells come at a time when persistent reports are emanating from Tulsa that oil men are expecting an increase in the price of Mid-Continent crude in the immediate future.

Swanson, of Cincinnati Reds, and Alexander, of Detroit Tigers, Are Two Prize Rookies of This Season

By GEORGE KIRKSEY, United Press Staff Correspondent.

NEW YORK, May 20.—The two prize rookies of 1929 are Evert Swanson, flashy Cincinnati Reds outfielder, and Dale Alexander, giant first baseman of the Detroit Tigers.

Jack Hendricks, manager of the Reds, thinks Swanson will develop into one of the really great outfielders of all time and is extravagant in his praise of Swanson's speed and daring in the outfield and on the base paths.

The Reds bought Swanson from the Mission Pacific League Coast club when he batted .346, made 53 doubles and stole 49 bases last season. Swanson is leading the National league in base-stealing with eight to his credit and is hitting well above .300. He is 25.

Alexander's heavy hitting has been one of the reasons for the early success of the Tigers. The big 215-pound Detroit first baseman is pushing his team-mate, Harry Heilmann, for American league honors in the runs-batted-in column. The latest averages revealed that Heilmann had driven in 29 runs and Alexander 27. Alexander's latest batting average was .331.

The Tigers bought Alexander along with Johnny Peschomme, a pitcher, from the Toronto International league club for a reported price of \$75,000. Alexander is 26.

Detroit has been the most fortunate major league team with its young players, having picked up three regulars, Bestes Alexander, Ed Phillips, former Toronto catcher, and Roy Johnson, the \$75,000 San Francisco purchase are holding down regular berths.

Another San Francisco outfielder who is making the major league grade is Earl Averil, Cleveland Indians' center fielder. For the first time since Tris Speaker left Cleveland the Indians are not having trouble in center field.

YANKEES ARE EXONORATED IN 2 DEATHS

No Negligence on Part of Officials, Says Attorney.

NEW YORK, May 20.—Officials of the New York Yankees baseball club were exonerated today of blame in connection with the death of two persons and the injury of 63 yesterday when bleacher fans were stampeded by rain.

District Attorney John E. McGehean of the Bronx said an investigation showed that there was no negligence on the part of club officials, and that the report that gates were closed, making it impossible for the crowd to get out, was unfounded.

Eleanor Price, 17, and Joseph Carter, 60, both of whom were trampled in the tummy, was that leaders from the right field bleachers to the street, died shortly after they were injured. At least 20 of the persons who were treated by physicians were said to be in a serious condition.

The home of Mrs. C. H. Fee was the scene of a delightful hospitality Saturday afternoon, when the Presbyterian auxiliary entertained with an old-fashioned silver tea. Lovely garden flowers were used in a profusion and made the attractive interior of the home most inviting. Mesdames D. E. Waters, P. R. Warwick and Homer McDonald received the guests at the door. Little Misses Lillian Jane Smith and Brenda Louise Warwick, attired in old-fashioned costumes, were custodians of silver baskets and received the free will offerings. The guests were ushered to chairs by Mesdames C. O. Pass, E. P. Crawford, Joe Kilborn and J. H. Erwin and then a most interesting program was rendered with Mrs. W. B. Webb acting as master of ceremonies. Mrs. Webb opened the program with an instrumental solo. This was followed by vocal solo, Mrs. Ben McClinton; readings, Miss Jourdain Armstrong; duet, Mesdames Wm. V. Hoyt and S. E. Hittson; vocal solo, Miss Frances McGinnis; readings, Miss Zella Blanche McClinton; violin solo, Miss Betty Fee Spears, accompanied by her mother, Mrs. Alice Spears; reading, Miss Betty Lou Blankenbecker; Miss Frances McGinnis closed the program with a series of popular songs. Articles for sale were arranged on a large table with Mesdames H. C. Henderson and Bernice Garrett in charge. In the dining room Mesdames W. T. Graham and J. M. Carter, chairmen of circles, were and two presided at the tea tables and were assisted in serving by Misses Helen Crawford, Harriette Angus, Betty Fee Spears and Nell Waters. Fifty guests called during the afternoon.

Dr. Charles C. Jones left Sunday for a several days stay in Temple.

The Ladies' guild of the Episcopal church will meet Tuesday afternoon at 2:30 o'clock with Mrs. Charles Trammell.

Norman Smith is spending a few days in Tulsa, Okla., on business. Before returning home Mr. Smith will go to Hilden, Mo. for a brief visit with his mother, Mrs. W. P. Smith.

Circle two of the Presbyterian auxiliary will meet at the church Tuesday at 1:30 o'clock for a pot luck lunch.

Mr. and Mrs. Cliff Caldwell of Abilene motored to Cisco Sunday for a visit with G. W. Keenley, who has been quite ill. Mr. Caldwell returned Sunday evening.

The Mothers' club will hold its last meeting of the year at the club house Thursday afternoon at 4 o'clock. The following program will be given: Paper, "Our Wonder World," Mrs. C. H. Fleming; three-minute sketches, "Wonders of Common Life Around Us," Mrs. Eugene Lanford; "Our Own Ground—What It Means To Us," Mrs. C. O. Pass; "Learning Life on and From One Acre," Mrs. R. M. Herron; "What We Can See When We Open Our Eyes," Mrs. W. W. Wallace; "Looking Down and Looking Up," Mrs. C. H. Van Lanua; general discussion of "Our Wonder World" and natural history; music, Mesdames W. W. Wallace and A. E. Jamison.

Bob Jones of San Angelo was a visitor in Cisco yesterday.

Rev. and Mrs. H. D. Blair are spending today in Albany.

Miss Wilda Kane of Moran was shopping in Cisco today.

Joe W. Neal of Abilene transacted business in the city this morning while en route to Dallas for a several days' stay.

Mr. and Mrs. Ford Hubbard left yesterday to attend the Oil Scout

convention, which is being held at Fort Worth this week.

Mr. and Mrs. Charles Fitzpatrick and family and Mrs. Childs, all of Breckenridge were guests of Mrs. H. H. Davis Sunday.

Gay Merriwether and son are visiting Mr. Merriwether's parents at Alpine.

Afton Burke has returned to Corsicana after a week's business visit in the city.

Miss Marie Maule of Wichita Falls was the week end guest of Mrs. C. B. Jenkins.

Mrs. Salena Trotter and Mr. and Mrs. George Wilson, Jr., spent Sunday in Dallas with Mr. George Wilson Sr. who is a patient in St. Paul's sanitarium there. His many friends will be glad to know that he is now getting along nicely after his recent operation.

Dorn Holland of Fort Worth spent the week end in Cisco with friends.

Gray Jenkins and family of Tascosa were the guests of Mrs. C. B. Jenkins.

Ted Unruh, abiator of Brownwood, made a trip to Cisco by airplane Sunday and was the guest of Mr. and Mrs. Lee Haley.

Mr. and Mrs. J. B. Jenkins have returned to their home in Fort Worth after a short visit with Mrs. C. B. Jenkins.

Miss Madeline Shepherd is spending a few days with relatives in Fort Worth.

Borve Strickland of Fort Worth spent Sunday here with his mother, Mrs. E. N. Strickland.

Moses W. A. Cunningham and Bob Brown, formerly of Cisco, now of San Angelo, were visiting friends in the city Sunday.

Wyman Blair of Moran spent Sunday in Cisco with friends and relatives.

H. C. Hoover of New York City was a visitor in Cisco Saturday.

Mr. and Mrs. P. W. Campbell of Abilene spent the week end in Cisco.

Mr. and Mrs. Greenleaf Fisk of Abilene were guests of Mr. and Mrs. Wm. Reagan Sunday.

Tuesday evening at eight o'clock there will be a meeting of the Order of Eastern Star. In addition to the regular program, the annual election of officers will be held. All members are urged to be present.

Mr. and Mrs. E. J. Bishop and son, Edward Jean Bishop, are spending their vacation with Mr. and Mrs. J. D. Lewis at Wichita Falls.

The Twentieth Century club will meet Friday afternoon, May 24, at 4 o'clock at the club house.

GAS REFRIGERATION
More than 5,000 gas refrigerators have been installed in New York City apartments during recent months, according to the refrigeration division of the Consolidated Gas company. Approximately 125 new apartments have been completely equipped with this form of automatic refrigeration, which produces cold by means of heat from a small gas flame. Installations have been mounting month by month, the company states, and reached a total of nearly 1,400 during April, as compared with 1,200 for March.

A municipal power plant for lighting and irrigation purposes is to be built at Lockney.

COOK SAND IS FOUND IN TWO BAIRD WELLS

BAIRD, May 20, 1929.—One of the most important discoveries in this district in the past few months in the opinion of local operators is the finding of the Cook sand in two wells in northern Callahan county, in the two new gas wells of Drew Beams on the Snyder ranch.

This is the first instance of this horizon proving productive in this area and gives the operators something new to shoot at. An active drilling campaign is expected to begin as a result of these tests and it will also cause numbers of old wells to be drilled deeper as well as call for deeper contracts in the next wells to be drilled in this territory.

Drew Beams No. 1 C. B. Snyder located in the southwest quarter of the northwest quarter of section 140 B. B. & C. survey, and approximately six miles north of Baird encountered a gas sand at 1,105 feet and drilled a total of 14 feet of this sand. The well is testing two and a half million cubic feet of gas and will be saved as a gas well. In the same section and 400 feet north of his No. 1, Beams has another gas well carrying the same number of feet of gas sand at the same depth and making approximately two and a half million feet of gas.

This sand correlates with the Cook sand horizon.

Mr. Beams is saving both of these wells as gasers and is moving to a third location to be located in the northwest corner of the southeast quarter of the northwest quarter of the same section which will be drilled as a test of the Cook.

Mr. Beams has drilled several tests on the Snyder ranch in northern Callahan county in the past few years. He has made Abilene his headquarters for the last year.

People's Ice Co. Plant Is Praised

Jimmy Barr, of Dallas, superintending the installation of machinery for the plant of the Peoples Ice company here, was in the city Saturday looking after the final details of the installation.

Mr. Barr said that the new Cisco plant is one of the most complete in the state. There may be larger plants, he said, but none which is better equipped for the manufacture and distribution of ice than that of the Peoples Ice company.

The company will be ready to begin its operation within the next few days.

The plant is located at E avenue and Sixth street and is entirely new in building and equipment.

ABILENE MAN HAD SUFFERED OVER 20 YEARS

A. E. Barber Says Orgatone Is Making Him a Well Man After Unusual Suffering.

"I don't believe there was a week for the past twenty years that I didn't suffer with awful pains in my stomach that felt just like something was gnawing me into, but since I started taking Orgatone I haven't had a touch of my old trouble," said M. E. Barber, residing on rural route 1, Abilene, Texas, to an orgatone representative in Harvey Hayes' drug store.

"I can remember," continued Mr. Barber, "that when I was practically a young man, my stomach and digestive organs were always giving me trouble. It was a dull heavy pain that seemed like a hard lump or knot right in the pit. Many a day especially after eating heavy foods of any kind it would hurt me so badly that it just seemed like I couldn't hardly stand to do another lick of work."

"After eating, especially at night, I would suffer from a constant gnawing pain in my stomach and I could feel it throbbing and jarring down in my lower bowels. It was certainly a queer sensation and the best way I could give any idea of the pain is to say that it was just like the tooth ache and only people who have ever had it will know just what I suffered. I have taken nearly every kind of medicine, but none did me a bit of good, and when I saw Orgatone so highly advertised, that I decided to try it. I have taken it just a few weeks now, for the first time I can remember. I don't have that throbbing sensation in my stomach any more. My stomach feels so much stronger that I can lift heavy things and don't notice any pain or trouble at all. I take pleasure in stating my experience with Orgatone, for I've found it to be a splendid medicine."

Genuine Orgatone is not a so-called patent or secret remedy but a new scientific bile treatment sold in Cisco exclusively by the Dean Drug Co. under the personal direction of a special Orgatone representative.

TEACHERS FOR BAIRD SCHOOL ARE EMPLOYED

BAIRD, May 20, 1929.—The teachers for the 1929-30 term of the Baird public school have been employed with the exception of three or perhaps four teachers for the ensuing year. Ten of the present teachers were reappointed.

The board of trustees recently voted to accept children who are under the scholastic age but are six years old by the first day of September on the condition of \$3 per month tuition, and an assistant will be employed in the first grade.

The following is a list of those who have been elected:

- Primary Department
- First Grade—Mrs. A. L. Johnson, Baird.
- First Grade Assistant—Miss Lillian Clark, Abilene.
- Second Grade—Mrs. Bessie Short, Baird.
- Third Grade—Miss Rose McEver, Intermediate Department.
- A. L. Johnson, Superintendent.
- Reading and English—A. L. Johnson, Baird.
- Geography—Hugh Smith, Art, Drawing and Penmanship—Miss Ellen Osborn, Abilene.
- Mathematics—Miss Ruth Boyd, Throckmorton.

It's a Secret, but—

—If You're Clever the Secret's Out!

The title of a thrilling new serial by Anne Austin, author of "The Black Pigeon," "Saint and Sinner," and a number of other outstanding serial successes, is hidden in the puzzle above. It's supposed to be a secret until Tuesday, when this paper will announce it for the first time. But, if you're clever, you need only to watch for the announcement to check your solution. Watch for it tomorrow.
