THE SPEARMAN REPORTER, Hansford County, Texas, 79081

THURSDAY, NOVEMBER 7, 1968

SALLES TAX PROPOSITION COME BEFORE VOTERS

City Council has called for a 1% City sales tax that residents will vote on Saturday, Nov. 14.

Mayor Darce Foshee said the council will prepare to be distributed in an effort to provide answers to key questions voters may want to ask.

The sales tax is nothing new to the people, for various cities have recently voted the proposition. In 1967, Texas towns have voted the tax into

income of \$154,100 and all but \$1,400 of this amount is itemized under the disbursement column. This, according to the Manager, is operating too close.

The council is in no position at this time to say whether or not ad valorem taxes would be reduced if the sales tax proposition passes. They do, however, say that the sales tax would be a deterrent to an increase of utility rates or property tax increases, in order to raise necessary revenue.

The consensus seems that many residents would rather pay the sales tax than to see an increase in property taxes.

The tax of course would be collected by business firms within the city limits of Spearman. No extra book-keeping would be necessary for collection agencies. A total of 4% tax on the dollar would be collected and sent in to the State on the regular sales tax form and the State, in turn, would do all the paper work and refund to the city 1% of the check.

As to how much revenue would be produced each year by the penny sales tax, officials estimate a minimum of \$25,000 per year. This is a low estimate and is based on the county-wide figure of \$98,000 collected in 2% sales tax in 1967. Actually 1% of this figure would be \$49,000 but the \$25,000 is an estimate of what percent of the people in Hansford County would transact business with Spearman firms.

Reports from cities which have already voted the sales

tax have been that more revenue has been collected than was ever anticipated and that the tax has significantly eased the strain on property taxes, has not been burdensome on persons of lower income, and has definitely not had any adverse effects upon local business.

The council feels this is "fairest of all". Everyone who benefits from city services helps pay for them. The tax will be paid by visitors to Spearman as well as by the people who live within the city. This includes renters because the level of rents necessarily reflects property taxes.

The city sales tax would be a limited sales and use tax on sales and transactions which are subject to the present state sales and use tax. To be excluded from the tax are essential items such as groceries, drugs, automobiles and gasoline. It is deductible on each citizen's federal income tax.

Any registered voter (whether a property owner or not) may vote on the city sales tax issue December 14. A simple majority of votes is all that is required to pass the measure. The 1% tax cannot be increased by local city officials; it is set by Texas law. The money derived from the tax cannot be pledged as securities, or used to secure indebtedness.

If the issue is defeated on December 14, it cannot be presented to local voters again for a period of two years, according to state law.

"GET A HAWK DAY"

PROCLAMATION-Mayor D. E. Hackley is shown signing the proclamation designating Friday as "GET A HAWK" Day. The proclamation reads "There is a Football Team in Spearman, Texas known as the BIG LYNX. Whereas; this same SPEARMAN LYNX team will meet the Phillips Blackhaws Friday-November 8th on the football field in Dist. 1-AA battle. As mayor of Spearman; I therefore, hereby proclaim FRIDAY-NOVEMBER 8, 1968; as "GET A HAWK" Day (to be observed faithfully) and therefore advise everyone to do the same. SIGNED: D. E. Hackley, Mayor of Spearman, Texas.

Lyon, Windom, Gibson Share Contest Money

Would you believe 17 winners? That's right! Last week's football contest netted a total of 142 entries--17 of these guessed right on all the games but were WAY off on the tie breaker score for the Spearman-Dalhart game.

The only way we could judge these entries was to add up the total number of points they were off on Spearman's score and the total number off on the Dalhart score.

In doing this, we come up with a tie for first place between Buena Lyon and Cloyd Windom. Lyon guessed the tie breaker to be Spearman 21, Dalhart 7 and Windom guessed the score at 28-14. Both were off 14 points. As the rules of the contest state, in case of a tie, the winners split first place money.

Ronald Gibson was declared 2nd place winner by his guess of 28-21 for the Spearman-Dalhart game.

Most missed games last week turned out to be U. of Arkansas vs. A&M and Baylor vs. TCU.

Debra Rajan Martin, daughter of Mr. and Mrs. Ray Martin, came the closest to the tie-breaker guess. She missed it by 2 points by guessing Spearman 33, Dalhart 7. The score was 34-6! Rajan, however, guessed wrong on 3 ballgames.

This contest required a great

deal of mathematics as fans revealed their football know-how and came up with the sharpest bunch of forms submitted yet.

36 persons missed only ONE game; 35 missed two; 20 missed three; 21 missed 4; 7 missed 5; 3 missed 6; 2 missed 7 and one missed 9 guesses.

Two people turned in entries without marking one single box! Maybe for these two the game winners were as difficult to decide on as was Tuesday's election for many people.

37 people guessed that Dalhart would beat Spearman. In fact all the tie breaker scores for this game were close ones such as 7-0, 21-20 and 14-13. The score most picked for this game was 14-13.

Listed below are the tie breaker scores guessed by the 17 people who had perfect game entries: Dianne Thomas 14-13; Elmon Jacobs 14-20; Dr. Gregg 20-16; Jett Mason 20-18; Ronald Howerter 7-0; Pete Fisher 14-22; Wanda Burke 18-14; Bob Burke 18-14; J. C. Cates 20-14; Willis Sheets 22-20; Ralph Blodgett 14-8; Ronald Gibson 28-21; Gary Davis 20-14; Mark Cunningham 20-14; Buena Lyon 21-7; R. L. Driscoll 26-20; Cloyd Windom 28-14.

Five people tied for third place.

NIXON WINS Wallace Runs Second

All but 476 of the registered voters in Hansford County went to the polls Tuesday. A total of 2355 voted in the various precincts in the county. There were 2831 qualified voters.

Hansford county's majority Presidential vote went strong for Rep. Richard Nixon 1359. George Wallace ran second with 437 and Humphrey polled only 392 votes to come in third.

Ballot splitting was the order of the day with Repub-

licans Bob Price and Paul Eggers winning the U. S. Representative and Governor places in the Republican column.

All the other winners were Democrats with the exception of Republicans Malouf Abraham (who had no opponent) and Hugh Burdette, Rep. for the State Board of Education.

Voters turned thumbs down to 12 of the 14 amendments. Area citizens approved only 2 - No. 7 which will

gradually phase out the State Ad Valorem taxes, and No. 9 which allows for state contributions to the teachers retirement system on the basis of full salaries by removing the present \$504 annual limit on the state's share.

Committee On Education Begins Sessions Friday

Representative Malouf Abraham is in Austin to attend the final Technical-Vocational Education Committee hearing. The Education Committee will begin the session at 9 a.m. Friday, on the floor of the House of Representatives.

There have been nine previous hearings throughout the State, one of which was in Pampa. This final hearing will be a wrap-up of the state-

ments of more than one hundred fifty witnesses. The Education Committee will submit their final report to the next session of the legislature in January. Representative Abraham said, "The hearings have been extremely worthwhile and hopefully this much needed expansion of vocational and technical training can soon begin. Thursday night, prior to the hearings, the Education Committee is to meet with the Presidents of the Junior Colleges of Texas, who are vital to this program."

While in Austin, Representative Abraham also plans to contact various leaders concerning the Governor's Committee Report on Education. He stated, "While there are a number of good features in the Governor's Report, the drastic consolidation program has created a great deal of alarm in the rural areas. However these proposals have no legal status and legislation would have to be introduced and passed in the House and Senate in order to become effective."

Let Me See ... by Sybil

I read the cutest birth announcement this week. It said: "Hello, I'm Adopted - I wasn't expected, I was selected." The note was from Mr. and Mrs. Bernard Dossert who live in Denver. Sharon and Bernard were announcing the arrival of their second adopted child - Jeffrey Larance. They have had Christi for three years. It takes special people to select special children. Congratulations to these former Spearmanites!

A staunch Republican, Mary Cornelius didn't make it to Sunday School Sunday morning and said she hadn't planned to go to church until she happened to look out the window and see J. D. Helms hurrying off to his place of worship. Mary said she KNEW he would certainly say a prayer for Humphrey, so she quick jumped into her clothes and made it to church in time to say one for Nixon! J. D. is the Democratic Chairman for the District. So, depending on whether or not YOUR candidate won the election, you can blame it all on Mary or J. D. for you know already whose prayer was answered. To cut it just a little finer, J. D. is a Baptist, Mary is a Presbyterian!

And, whether you males like it or not, we women play a BIG part in elections, in fact you might even go so far as to say WE ELECT. It's a little early to say what percentage of women voted in Tuesday's election, but in the presidential election of 1964, 62% of the votes were cast by WOMEN. This means something, but I hesitate to say just WHAT. It just could possibly mean that since women's suffrage was passed in 1920 the suffering of our nation has come about by women!

But however you look at it, women are becoming a very potent power at the polls and everyone from politicians to psychologists are busily analyzing to discover just HOW we arrive at our decisions--to do whatever it is we do in our voting booth. Don't tell them, gals. Let the experts "analyze" till they're blue in the face--but DON'T reveal the voting habits of the American women. Sick to your rights! - just let them think we vote like our husbands do. I know this isn't true for I personally interviewed several women voters who said in order to keep peace in their family they always promised their spouses to go along with the way they vote (and mark the ballots as they please once inside that booth.) However, discreet wives never let this be known. The poll-takers and the experts say we "are

generally ill-informed about political facts". Keep them in the dark. The fact is, we vote for the individual... not the party. We are more interested in CANDIDATES than issues. Without revealing TOO much I might just drop this hint ---- It's a danged good thing Rock Hudson didn't run--or the American people would have found themselves being ruled by a movie star President!

I do know that the American people want a CHANGE. Too long we've heard about Guaranteed Income for everyone whether he works or not. The British called the same thing The Dole, and it helped make England Socialist and destroy the British Empire. We complacently watch unions demand and force unearned wage increases which destroy profits vital to national growth. That's only one step from the Russians who abolished profits in favor of the Workinman's Soviet.

We watch our central government seizing more and more power, destroying the authority and self respect of cities and states. That's what Germany did and out of it came Hitler. Criminals are pampered, police attacked; success is suspect, poverty perpetuated. All this is the very opposite of what built America. And, continued, won't be America long.

But don't look for ANY one man to get us out of this mess. I firmly believe that the situation will get worse and worse with every passing day... the racial crisis... violence in the streets... dramatic rise in crime... international situations... the moral crisis... the student crisis... are only the beginning unless WE, as a NATION turn to God. We need a change of direction in our moral, social and spiritual attitudes. Modern day prophets are all saying "God's judgement on America is beginning"... and the people (you & I) call them calamity howlers and alarmists.

One thing we all agree on... and we accept as proof... that history repeats itself. Billy Graham says: "Many people write to ask, 'Can America be saved?' The answer is YES. God is a God of mercy, love & forgiveness. But he will NOT forgive unless we change our ways and start living the teachings of His son Jesus Christ. Ancient Nineveh was due for judgement, but its people repented under the preaching of Jonah, and God spared them. HISTORY COULD REPEAT ITSELF."

pon, pistols with shoulder stocks, or other national firearms act weapon they might have as a souvenir of their military days.

Anyone with a bomb or grenade should make sure it is de-activated. The IRS can make arrangements to have the device inspected and de-activated.

The registration requirement for gangster-type weapons dates back to the National Firearms Act of 1934. There is no federal registration requirement for ordinary rifles, shotguns, pistols and revolvers, although certain controls on the sales of these weapons become effective December 16, 1968, as part of the new gun law.

Firearms which must be registered under the act include shotguns with barrels less than 18 inches long, rifles with barrels less than 16 inches long and altered rifles and shotguns with an overall length of less than 26 inches, such as shotguns or rifles cut down to pistol size or shape.

Other firearms covered by the registration requirements: fully automatic guns, such

as machine guns and pistols that fire more than one shot by a single function of the trigger, and firearm mufflers or silencers. In addition registration is required of all weapons or devices, except for conventional pistols or revolvers, which are capable of firing a shot and being concealed on a person and weapons formerly classified as "DEWATS" -- de-activated war trophies.

Destructive devices, such as explosives, incendiary or poison gas bombs, grenades, rockets, missiles, mines and certain projectile firing weapons, namely anti-tank guns, bazookas and mortars, also

must be registered.

White said anyone who possesses a firearm or destructive device, as defined by National Firearms Act, and who fails to register the weapon between November 2 and December 1 as required by the gun control act, will be subject to imprisonment up to 10 years, a fine up to \$10,000 or both for each weapon not registered. Under certain conditions, the law provides civil penalties and property forfeitures.

Sunday evening dinner guests of the B. J. Graysons were Mr. and Mrs. Erskin Grayson and children of Dumas.

Register Firearms By December 1st

DALLAS--Anyone having an unregistered machine gun, sawed-off shotgun, short barreled rifle or other gangster-type weapon, or a device such as a bomb, grenade or land mine, may register it with the Internal Revenue Service without penalty from November 2 through December 1, according to B. Frank White, Regional Commissioner, Southwest Region, IRS.

The Gun Control Act of 1968, signed into law last week, establishes a 30-day period for the registration of certain weapons and destructive devices. The registration requirement does not affect ordinary rifles, shotguns, pistols and revolvers.

The Gun Control Act Law provides that information or evidence submitted in registering a weapon during this

period cannot be used against the registrant in any criminal proceeding arising out of a prior or concurrent violation of the law. However, this would not prevent prosecution for furnishing false information.

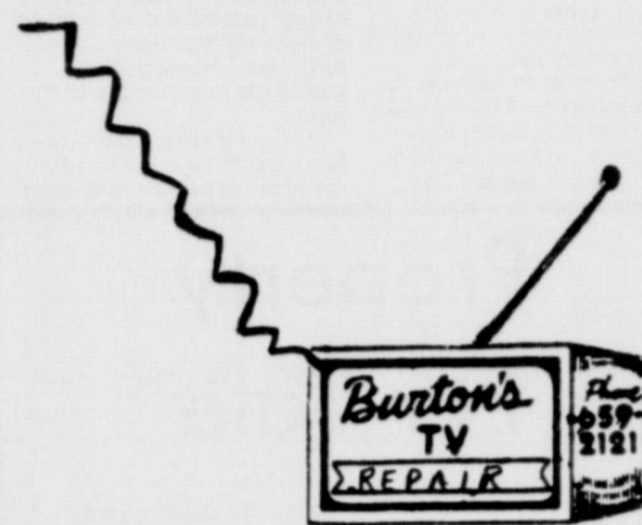

Firearms and devices covered by the registration requirements must be registered by filing Form 4467 in duplicate, with Director, Alcohol & Tobacco Tax Division, Internal Revenue Service, Washington, D. C., 20224.

"Anyone with a weapon to register," White said, "should write or phone an office of the IRS and obtain a copy of Form 4467. Weapons and devices should not be brought to IRS offices for the purposes of registration."

Former servicemen should register any automatic wea-

JUNIOR HIGH SCIENCE TEACHER, Edwin Percy, has been selected by teachers of Spearman Public Schools as Teacher Of The Year.

Percy Nominated Outstanding Teacher

Teachers of Spearman Public School System have selected Mr. Edwin Percy "Teacher of the Year." This nomination qualifies the 32 year old science teacher as a candidate for the same title on the State and National level. Nominees for this honor must be exceptionally skillful and dedicated teachers who are planning to continue in an active teaching status. The

major purpose of the project is to recognize the contributions of the classroom teachers. Nominees must have the respect and admiration of students, parents and co-workers. In their communities as well as in their schools, they should play active and useful roles.

While all these qualifications are to be considered, the most important is a super-

ior ability to impart knowledge to students and to inspire them with a love of learning.

Percy has taught in the Spearman school system for seven years. A native of Seabrook, Texas, he moved to Spearman in 1959 and was employed with the Soil Conservation Service here until he began teaching in 1962.

He received his BA degree from Texas A&M and his masters degree in science from Purdue University. He has attended Kansas State University, the University of Oklahoma and Lamar Tech for special training during Summer Institutes.

The Percy family are members of the Church of Christ where he teaches a college-age Sunday School Class. Previous to this assignment, he taught a class for young adults as well as one for high school students.

Each school system in Texas submits one nominee to the State Board of Education where a committee will select the one teacher from names presented as the Texas nominee for the National Teacher of the Year Award.

The TSTA will make the winning selection the latter part of March.

The Rebekah Lodge of Perryton was in charge of the Altar Service.

Mrs. Hazel Davis, President of the Rebekah Assembly of Texas was guest of honor. Mrs. Davis gave a report to

the three Lodges, of the work being done in Texas by the Rebekahs and the Odd-fellows. She announced that the Orphans Home in Corsicana now has only 43 children and there are openings for more if anyone knows of a need for a home, for homeless and needy children. She also reported on the Home for the Aged in Ennis, Texas.

Turkey and dressing and all the trimmings were served to 47 members of the Perryton, Canadian and Spearman Lodges.

Dere Editor:

Me and Mag decided to set down Chewsday nite and eye ball the election returns on TV.

Mag maid up a bunch of peanut butter for us to chomp on while we waited to see who won the election which Mag said she knowed wood be Nick Dixon.

I turned on the set and as soon as the pitcher come on there there set Walter Concrete tellin us all about the returns.

Mag started ravin about how handsome she thawt Concrete wuz and how he had such a good voice.

I seen, right off, that I had better git her some new eye glasses and a hearing ade on account of she couldn't tell the diference betwene a slop bucket and a jar full of roses and, as far as hearing goes she woodin be able to distinguish betwene a bull bellerin and a bird singin.

Concrete explained that what they wuz settin in front of wuzn't what it looked like which wuz a table. He said that what it wuz actual wuz a big hole.

About that time, Concrete reported that won of the states had gone over to Hubert HomeFries and that wuz whin Mag took the heat. She said she wished Walter wood jump in that hole and pull it in after him but insted of join what she wanted, he turned it over to Eric Several Ride who wint on to explain about the electrical college.

We had let the old Red Rooster in the front parlor on account of his keen interest in how Eggers and Egnew wuz goin to make out. Old Red wuz perched up on the table along side Mag where she had gave him some of the peanut butter to peck on. He caused me to miss out on some of the returns on account of he wood pick a crooshal time to start stompin on a peace of the candy with his wood leg. Mag sed he had to do that so as to break the stuff up into small peaces so he wood be Abel to eat it.

We wuz all a settin there lookin at the T. V. when the network took it away from this feller Roger Mud and sed "we now switch you from Mud to Amarillo".

That wuz when this ball headed feller come on and announced that Prestone Smith had done won over Eggers. Old Red let out a crow and dove strate for the TV screne and before we could stop him, he had drove his wood leg smack threw the pitcher tube which put the TV out of action.

Mag jumped up and swung her foot to kick Red but insted she missed him and kicked me square in the solar plexiglass which knocked me plumb out.

I found out later that, when she picked me, she tripped and hit her head on the table which put her in my condishon.

Neither one of us knowed what had happened until we woke up the next day.

Fashion Facts For Men and Boys

When you walk through the front door of Cates Mens and Boys wear, its just natural for a fellow to start thinking blue.

The reason for this thought is that the visitor is confronted with one of the most beautiful blue sweaters you have ever seen and I do mean blue, not purple.

If you're an Esquire reader, you'll enjoy seeing some of the garments styled by Merit. These are the fabrics advertised in that magazine.

In brief, you'll surely want to see the shorty pajamas.

On another subject, we've lately noticed several men getting set for comfortable outdoor activity with those insulated coats to meet the season.

You'll find one to fit your size and taste at Cates Mens and Boys wear.

The Art Supply Department is presently showing a number of new and attractive picture frames along with oils, brushes and other supplies.

Another new addition that quickly catches the eye is a large assortment of colorful place mats and napkins in various textures and fabrics. We recently remarked about the attractive grouping of candles in so many new designs and colors.

A bountiful selection of wall accessories is also in evidence for gracious gift presentations.

Better Picture in Bigger Area

KVII Gets Texas' Tallest Tower

Texas' tallest television tower is no Texas tall tale. Bill Canady, Channel 7's Director of Engineering, explains: "We'll begin erecting the new tower in about a month. To give you an idea of its height—it's three times taller than Dallas' highest building; it's 15 of our own Santa Fe buildings stacked on each other; it's 200 feet higher than the tallest antenna atop the Empire State Building; it's equivalent to a 150-story building. In other words, it's tall! The station's new tower will stretch upward 1,706 feet above average terrain, with an overall height above mean sea level of 5,049 feet.

"When we finally top her out and begin transmitting from the new stack, we'll increase our service area by nearly 9,000 square miles (about the size of New Jersey and Rhode Island combined). That means that cities such as Hereford, Pampa and Dalhart will receive essentially show-free pictures in other words, about the same quality picture we've received in Amarillo," Canady said. "Area viewers with their own antennas will get substantially better reception than they are now getting from any Amarillo station," he added. "Cable viewers also will see a definite improvement in reception.

Foundations for the structure have been laid. "You can tell a little about the tower's size by the foundation required to support it," Canady noted. "The base contains 73 cubic feet of concrete and four tons of reinforcing steel. The whole thing covers about 625 square feet.

Construction is expected to begin December 1, with completion set for around January 15. The tower will be located 12 miles north-northwest of downtown Amarillo, 5 miles northwest of the present tower north of the city.

Canady, a veteran television engineer with experience in tower construction, is still somewhat awed by this one. "Everything about it is huge," he said, studying photographs of the steel giant. "There will be 191 tons of steel in the tower, including the 6-ton helical antenna portion that bolts on top. The guy cables are 31,000 feet long; if they were unraveled and the individual wires laid end to end, there would be 400 miles of wire in each cable. That's about as far as from here to El Paso. There are two-and-a-half miles of electrical wiring. It'll take about two-and-a-half tons of zinc to galvanize the thing."

Canady paused a moment, apparently thinking about who's going to have to change the lights that blink out at the top. "For anyone at physical condition to attempt it," he finally went on, "it'll take about an hour-and-a-half to climb the 1,230 steps in the ladder to the top." He hesitated in good shape, he repeated. "That's for somebody in good shape," he repeated. "Any way you look at it," Canady mused, "it's a long way to the top!"

Added Experience Gives Greater Depth

Veterans Staff Channel 7's Pro News Team

Tom Martin, Jack Tompkins, Jim Pratt, Bob Izzard, Woody Van Dyke, Fred Norman, Roger Davis

If experience is the criteria for measuring the worth of professional news, then the Pro News Team on KVII-TV rates right at the top. Experience they have!

Take Jim Pratt and Bob Izzard for instance. As "anchor men" on the Pro News Team, they add to the depth of reporting found in every newscast on KVII-TV. Pratt is a veteran newscaster and managing editor of the Channel 7 news team. He has had 21 years of broadcast journalism, covering news for radio and television stations throughout Texas. He knows the Panhandle and the state intimately. He has received numerous broadcast awards significant among them being the CBS News Fellowship at Columbia University Graduate School.

News Director Bob Izzard is a familiar face around news time. Since 1948, he has covered nearly every major story in and around Amarillo—and many from afar—murder to the Alaska earthquake. He has traveled the world over, and his first-hand knowledge of conditions in troubled spots, such as Vietnam, gives him special insight into news reported from those areas.

When you hear, "The Pros are on Channel 7," that means, in addition to Pratt and Izzard, the new faces of Woody Van Dyke in sports, Fred Norman in law and Roger Davis, news hawk.

Woody Van Dyke is one of the state's best-known television sports personalities. It's not often a station can acquire a man who is both a top athlete and top-notch sports reporter. A 7 sprinter, he attended his high school and college on a track and field scholarship. Woody Van Dyke is a graduate of the National Academy of Broadcasting in Washington, D.C.; he broke into professional broadcasting in Kilgore, moved to Waco, then to WFAA-TV in Dallas.

When it comes to authorities, there are few newscasters as qualified as Fred Norman. He first studied the elements as a B-17 navigator on strikes over Germany. Twice he barely escaped alive in hair-raising crashes of his riddled bombers. Quickly changing the subject, he recalls, "Clark Gable" was in the same wing at the time."

PRIME SHOWS FOR AFTERNOON

"Our afternoon lineup of shows is one of the finest available anywhere from the California coast to New York Harbor," John Tyler, Channel 7's general manager, observed.

"It's designed with the home-maker and youngster in mind," he added. For example, at 2:30 p.m., PASS WORD is on. "These are specially selected programs from the best of this highly popular word game show hosted by Allen Ludden," Tyler said.

3 p.m., RUN FOR YOUR LIFE. "This engrossing adventure series stars Ben Gazzara as the stricken attorney with only a few months to live. We're sold on the quality of the series, and viewers can see it on 7."

4 p.m., DARK SHADOWS. "Tonight's episode of tales from the nether world from an earlier time spot to 4 p.m. Many told us that they were just getting home from school about this time, and would we show it then? We are."

4:30 p.m., TUGGIE TIME. "He's the one who's just as much as the kids do. He's one of the most natural performers we've run across in many years of comedy shows. He's teamed with comedy legends, Laurel and Hardy, Comedy Capers and his ever-fresh wit and wisdom.

Ruth Brent Moves To Channel 7

The Ruth Brent Show, 12:30 p.m. to 12:55 p.m., Monday through Friday, provides a pleasant interlude between lunch and dishwashing for the area's busy women.

Ruth, a charming hostess, has a lively collection of features full of entertainment and enjoyment for the active housewife.

She visits with the nationally famous and the locally talented, talks about fashions, provides household hints, decorating tips, gift and party suggestions and being an accomplished cook, she includes demonstrations of food preparation on the show.

Shifting to news, he became assistant news director at a major TV station in Spartanburg, S.C., and while there filed several reports on a local labor dispute that were broadcast nationally on Walter Cronkite's network news program.

Davis received the School Bell Award presented by the South Carolina Educational Association for public television.
