tracks
 -by dave

Life sure does get tedious!
 This year has really been a rough one for many farmers and with the almost everyday showers fields are really looking rough.

This fact has been brought home to us by our efforts to begin a lawn.

Before the rains came, we fertilized and seeded grass and by the time we returned from our trip the yard looked as if nobody had lived in the house for about six months.

For the past couple of weeks we've spent most of our spare time hoeing the weeds down but last week we gave up--seems as if most of the fertilizer went toward a bigger and better crop of careless weeds--and began to use a mower to control the ever spreading weed problem.

It was only three days ago that we mowed, and already the careless and other weeds have jumped up again.

Fields are just like our yard, except that a tractor will bog down in most of them and hoe hands are priced like platinum.

What really worries many of us is whether or not this rain we've been getting is that moisture which the Plains missed for the past few years, or is this part of next year's allotment? Sure would hate to use it all up at once.

We'd like to point out this week that we didn't "fire" Tom Bob Jarboe from his job as elementary school principal, but this was the impression that a lot of folks got from the story concerning J. T. Gee's new job.

Really, Tom Bob is being given a promotion and is now the principal of the junior high with Baker Duggins moving up to the position of high school counselor.

The counselor position will be a new job for our school system. This is the first year that Friona has had enough students to qualify for such a position.

As we understand it, Duggins will devote his full time to working with and advising students in their courses of study and their plans for the future.

Now--before we go off on the wrong tangent again, he will also keep his job as coach of the girls basketball team.

Don Watkins, who has been working for The Star this summer returned from a 5-day coaching school down at Huntsville... we hoorahed him about getting out so soon since the state prison is also located in that East Texas town.

Don, who was accompanied by Baker Duggins, says both of them learned a lot while attending the school and that according to him we have some girls on the Squaw team who should be down on the All-State Team next season.

Incidentally, just to show how much Don has learned to think of us this summer we received a post card from him while he was at Huntsville with a picture of the prison on one side and the inscription on the other which said--"Wish you were here."

Hm-m-m-m--sounds fishy.

LOADED DOWN--The Massie station wagon is loaded down with all the necessary camping supplies and equipment for Girl Scout Troop 226 to make their three day trip to Roaring Springs. Pictured are Marca Lynn Massie, Mrs. W. M. Massie, Jimette McLean and little Jayn Massie.

SECTION I

IN FIRST HALF

Construction Ahead Of Last Year

Construction in Friona for the first 6 months of 1959 reached a total of \$244,650 on both residences and non-residences, according to the Friona City Hall. This covers

the period from January 1 through June 26.

For the entire 1958 year, total construction in the city reached a figure of \$486,895. There were 24 residences which cost \$241,970 with additions to residences reaching \$21,070. Non-residence construction for this period totaled \$214,755.

So far this year, there have been 15 new residences built at a cost of \$171,300. Additions to residences have reached \$8,350 on seven homes.

There has been one residence garage and storage room constructed at a cost of \$1,850.

Four business buildings have been completed at a total cost of \$59,000 and one addition to a church at \$2,500. Other non-residential buildings came to the amount of \$1,650, making the total for the first 6 months as listed above.

Taking the above totals and comparing them with the entire 1958 figures, it can be seen that construction for the first half of 1959 is ahead of last year's totals for the same period.

Hail Hits Rhea

A violent thunderstorm plastered the Rhea community with golf-ball size hailstones, high winds and rain about five o'clock Monday afternoon.

Crops in the two-mile strip received heavy damage. Cotton in some places was destroyed. Feed is expected to come back from the battering and make at least a partial crop.

Carl Schlenker, who lives (Continued on Page 7)

BOARD NAMES COUNSELOR, PRINCIPAL

Baker Duggins, Tom Jarboe Assigned New Positions

Baker Duggins and Tom Bob Jarboe will be the new High School Counselor and the Junior High Principal respectively.

Duggins has been in the teaching profession for eight years. He holds a BS degree from Panhandle A & M College at Goodwell, Oklahoma and a Master's of Education from West Texas State College in

counselorship. The past two years he has been the Junior High principal.

Jarboe, who holds a BS and ME degree from West Texas State, has been the Friona Elementary principal for the past three years. He has had five years teaching experience, all in the Friona school system. In addition to his administrative duties, Jarboe will coach the Junior High boys in both football and basketball as he has done in the past.

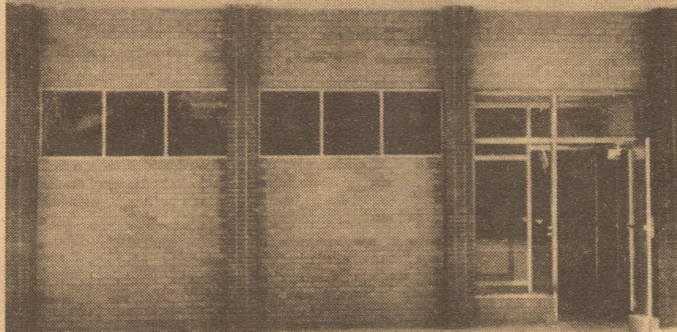

Another change in the school system was the resignation of Miss Elsie Ritter, elementary music teacher for five years. She is returning to Oklahoma to teach.

Two additions to the faculty are Mr. and Mrs. Billy Adams. Adams is coming to Friona as the Freshman coach. He has coached in the McLean Junior High School for two years and holds a BS degree from West Texas State and has a number of hours toward his masters.

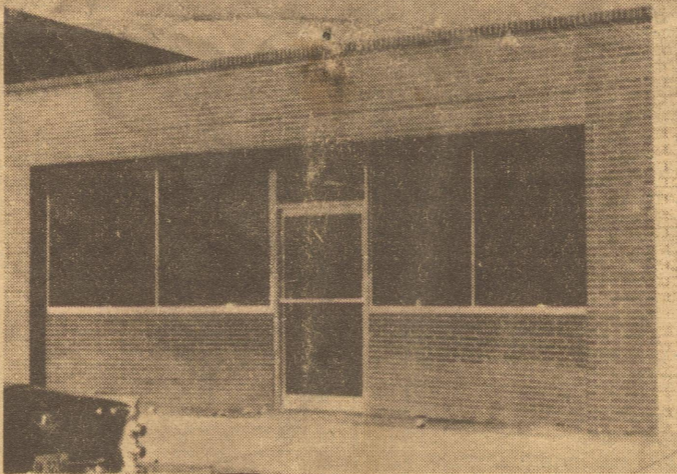

Mrs. Adams will teach in the sixth grade. She has six years teaching experience to her credit.

In an interview with the Friona Star, Alton Farr, superintendent, said the faculty was only five teachers short at the present time. However, he has interviewed several teachers to date.

He further said that Friona has qualified for two additional teachers based on the average daily attendance of last year. With this increase, Friona will now have 40 classroom teacher

NEW BUILDINGS IN FRIONA--The Production Credit Association Building, above, and the Past Time Club, are two of the newer buildings in Friona and have helped construction in Friona reach a new high.

Council to Ask For Bond Issue

GIRL SCOUTS OFF TO CAMP

Nine members of Girl Scout Troop 226 and four adult sponsors left Friona Tuesday afternoon for Roaring Springs. Also accompanying the party were four Big Sisters of the troop.

The adult sponsors included

Mrs. W. M. Massie, Leader of the troop, Mrs. Estis Bass, co-leader, Mrs. H. C. Wells and Mrs. Ernest Osborn. The Big Sisters included Kay Coffey, Kay Johnson, Jimette McLean and Marca Lynn Massie. Members of the troop who made the trip are Jan Wells, Donna Fulks, Miranda Drennen, Karen Osborn, Natalie Maruffo, Kay McBroom, Linda Rector, Betty Bass and Merylene Massie.

Mrs. Massie has explained this is the fourth consecutive year the troop has made this trip. The Roaring Springs picnic area includes campsites and a large spring fed swimming pool. This area is developed from an old famous Indian camping ground.

The party will remain at Roaring Springs for three days and while there will go swimming, hiking, have classes in nature study and camp craft. The girls will sleep in the open if weather permits and if not, they will sleep in tents.

The party is expected to return to Friona sometime around 6 or 7 p.m. Friday afternoon.

City Fathers OK Plan For \$330,000 Improvements

In a special session last Thursday night the Friona city council okayed a plan for the improvement of the city's water and sewer system and streets to the tune of an estimated \$330,000.

In reality, a total of \$65,000 worth of bonds already out are included in the total figure as these will have to be recalled before more can be issued the way the bonds were written originally.

But, included in the plans for a better Friona, is the construction of more paving, sealing many blocks of original paving; a new ground water tank; an elevated water storage tank, a new sewage plant and the extension of present water and sewer line.

Councilmen are quick to point out that the reason for the seemingly large amount is ac-

ording to the best information obtainable this amount of money will be required by the city to keep up with the present growth for the next 5-year period.

They go on to explain they plan to ask for all the money now, and then spend it as the need arises over a 5-year period.

This will do away with more bond issues which would have to be called if the city keeps on growing.

In this manner the council hopes to save needless waste of money for bond elections and when the need arises for more water, sewers etc. the money would be available.

Red Smith, of Parkhill, Smith and Cooper, consulting engineers of Lubbock, has been doing extensive research into the "growing pains" of Friona and our city's needs for the next few years.

The results of his findings are pointed out in a report to the council which was carried in a previous issue of The Star.

Acting on Smith's recommendation, and the bidding of the council, City Manager Albert Field contacted Ed Franklin, of Dittmar and Company, bonding company from Dallas, and he was present at the Thursday night meeting.

Franklin told the council that he would be back in Friona Saturday with all the necessary information concerning the calling of a bond election, schedule of bond retirement and meet with the council.

As of Tuesday, City Manager Field had not been notified by the Dallas firm as to what time Franklin would be back in town and able to meet with the council.

Following Saturday's meeting the date for the election will be announced and the legal machinery for such an election will get underway.

Field says he "figures that the election will be called as quickly as possible."

This will probably be the first couple of weeks in August as it is necessary for a two-week notice to be published prior to such an election.

The bond issue will provide for \$295,000 for water and sewer improvement and \$35,000 for street improvement.

The water and sewer bonds will include money for the ground and overhead storage tanks, new sewage treatment plant, water and sewer line extensions.

The street improvement program will provide for the sealing of 58 blocks of paving and the paving of 40 more blocks in the city limits of Friona.

Benefit Slated

Announcement is being made this week of a benefit baseball game to be played at the local ball park at 2:30 p.m. Sunday.

The Friona Cyclones will play a team from Bovina. All proceeds from the game will go into a fund for the Friona Catholic Church. Admission will be \$1 per car.

CROP Official To Talk At Local Church

H. M. Nichols, assistant state director for the Christian Rural Overseas Program (CROP) will be the speaker at the 11 a.m. service at the Union Congregational Church in Friona.

He will speak on the CROP and its program overseas.

The general public is invited to attend.

Sam Williams To Command Legionnaires

At a regular meeting held in the American Legion Hall Monday night, Sam Williams was elected commander for the coming year. William replaces Loyde Brewer who has held the position for the past year.

Other officers of the local post were also elected during this meeting. J. P. Sims was elected vice-commander to replace Bill Flippin. Frank Reed was elected post adjutant to succeed Ralph Taylor and Jimmy Hughes was elected sgt-at-arms, succeeding Earl Drake.

The members also voted to grant honorary membership to all Friona ministers who are veterans. During this same discussion, Charles Baldwin was elected as post chaplain to succeed the Rev. Hugh Blaylock.

Williams will be officially installed along with the other officers on August 3.

Chairmen Meet For Maize Days

Preliminary planning got underway for the Annual Maize Days Celebration slated for early September at the community room of the Friona State Bank Friday night.

Co-chairmen Bob Ginsburg and Flake Barber met with the heads of the many committees and the group talked over plans which would go toward making this year's celebration even better than those in prior years.

As with most civic projects of this nature, money was a prime talking point with the committee heads asked to turn in how much it would take for each of their various projects to be staged successfully.

These figures will be turned over to the finance committee, who will trim the budget and then proceed to try and raise the needed capital for the Celebration.

New wrinkles for this year's Celebration were discussed and included on these were a tricycle race for the youngsters, to replace the now defunct hula-hoop contest and several other contests.

It was decided to move the annual pie-eating contest to some central location in the park, perhaps onto the bandstand, where the goings-on could be seen by more persons.

In the past this "entertaining" contest was held in too close quarters and spectator space was too limited according to opinions at the meeting.

The committee heads will meet Friday night, July 31, at 8 p.m., in the bank for their next planning session.

BAKER DUGGINS

Canyon. He completed his work qualifying for a Counselor's Certificate the first six weeks of this summer.

Duggins has been the Friona High School Girls Basketball Coach the past four years, and will continue in the capacity in addition to assuming the

TOM JARBOE

wreckers in payment for cleaning up the lot and moving the old lumber and tin.

Farr said a new section of fence will be erected to fill the space vacated by the barn and there is hopes that the bleachers will be painted by the time football season is here.

NEW LEGION OFFICERS--Newly elected officers for the local post pose on the night of their election. From left to right they are; J. P. Sims, vice-commander; Sam Williams, Commander; Frank Reed, adjutant and Jimmy Hughes, Sgt.-at-arms.

THE FRIONA STAR

THE STAR'S EDITORIAL COMMENT

The Friona Star

W. H. Graham Jr., Publisher
Dave McReynolds, Editor
June Floyd, Society
Don Watkins, News Editor

Entered as second class mail matter July 31, 1925, at the post office in Friona, Texas, under the Act of March 31, 1897. Published each Thursday.

In Farmer County.....\$3 Per Year
Elsewhere.....\$4 Per Year

be 8:45 p.m.

This is the time of year when new teachers are looking for places to live. It seems that desirable accommodations for new residents is a year around problem. Anyone who has rooms, apartments or houses to rent should contact Superintendent Alton Farr at 5322 as soon as possible.

Another letter came to our box this week that was addressed to Farmer, Texas. Wonder how post office authorities know whether mail so addressed goes to Farwell, Bovina, Friona, Black or Lazbuddie. Perhaps they just guess and send the letters from post office to post office until they finally reach the proper place.

Something we learned recently was that we have Houstons in Friona and we have more Houstons here. Since we aren't the only one, in town who didn't know there was more than one family by this name, we don't feel so badly about our ignorance.

There's an ad running in the Star informing readers that the R. L. Houstons have a house for sale. One morning Mrs. T. L. Houston Sr., who works at the hospital, was surprised by having several fellow workers inquire where she was going.

Since she had not planned any trips, she didn't know what was going on. After she learned that many people thought the family home was for sale, she began to do some explaining. Since the two families are related, it is rather confusing.

The T. L. Houstons have lived here several years and about a year ago the R. L. Houstons moved here. At first the two families didn't know they were related, but later learned that Mrs. T. L. Houston Sr. and R. L. Houston are kin folks.

As it now stands, the R. L. Houstons want to sell a house and the T. L. Houstons do not. Apparently some persons who read the ad thought there was an error in the initials. The T. L. Houstons live on East Tenth and the R. L. Houstons live on Beach.

Those of you who haven't read the Optimist's Creed, will probably enjoy it.

THE OPTIMIST'S CREED
(Read This Every Week)
PROMISE YOURSELF

"To be so strong that nothing can disturb your peace of mind. To talk health, happiness and prosperity to every person you meet. To make all your friends feel that there is something noble in them. To look at the sunny side of everything and make your optimism come true.

To think only the best, to work only for the best and ex-

pect only the best. To be just as enthusiastic about the success of others as you are about your own. To forget the mistakes of the past and press on to greater achievements of the future.

To wear a cheerful countenance at all times and give every living creature you meet a smile. To give so much time to the improvement of yourself that you have no time to criticize others. To be too large for worry, too noble for anger, too strong for fear and too happy to permit the presence of trouble.

To be a soul of love, to think the thought of love, to speak the word of love, live the life of love and so be well and happy."--anonymous.

Boy Born To Frankie Allens

Mr. and Mrs. Frankie Allen became parents of a 6 lb. 10 oz. baby boy at the Deaf Smith County Hospital in Hereford Sunday of last week at 10 p.m. He was named Eddie Frank.

Grandparents are Mrs. Arma Coffman and Mr. and Mrs. John Allen Sr. all of Friona.

Former Pastor To Be Speaker

Rev. Tommie Allen, pastor of the First Baptist Church at Ralls, will be the guest speaker at the Monday evening meeting of the Men's Brotherhood of the First Baptist Church. This meeting will begin at 8 p.m. with a supper in the educational building of the church.

Rev. Allen was pastor of the local church from 1947 to 1951. Rev. L. Aston Sartain, pastor of the church, says, "The men of First Baptist Church rejoice in having Bro. Allen return for this meeting, which will be the first brotherhood meeting since entering the new building with its kitchen and dining room to be used for such occasions. All men are invited to attend."

When the small boy of the family eating out in a restaurant heard his parents ask the waiter to put their beefsteak leavings in a bag to take home to the dog, he spoke up in a shrill, excited voice:

"Oh, boy, are we going to get a dog?"

Practice Farm Safety All Year Long

National Farm Safety is currently being observed and this week most of the advertisers in this paper are reminding you that farming isn't the safest occupation in the world.

Mostly safety in farming, or in any other occupation, is a state of mind rather than what a person does.

Certainly it is true you can drown in a bathtub, and certainly an irrigation pump won't hurt you if you stay far enough away even if the fool thing decides to thrash itself.

But, certain safety principles can make the job easier on all concerned.

One thing we have noticed in this irrigation country is the number of open running drive shafts on motors. And, to make it worse a good number of them have shields, but half the time the shield is pulled back after a grease job and left in that position.

Irrigation motors aren't the only potential danger on the farm by a long shot, but we just point out this particularly dangerous lack of judgement by way of an example. The only death we can think of around our

part of the country this past year has been the Latin American who was killed by a drive shaft across the county line in Castro county a couple of months ago.

But--across the nation farm accidents claim about 3,500 lives each year--which is more than any other major industry.

About 12,000 farm residents lose their lives each year in all types of accidents, and another million suffer less serious injuries on the farm. The accompanying disabilities, miseries and financial troubles emphasize the importance of observing farm safety week every week in the year.

Throughout the years human failure, not vehicles and animals is the basic cause of accidents. In nearly every case human failure to recognize and correct a hazard is the real cause of accidental death and injury.

This list includes: hurry, lack of common sense, improper equipment, improper care and use of equipment, false confidence and just plain carelessness.

Most farm accidents can be prevented. Before you get complacent and figure you are really a "safe" operator, remember that farming is still the most hazardous occupation in the United States every year.

FRIONA

WITH JUNE

A few years ago we moved from West Texas to Denison. To us it seemed as if it rained all the time down there, but according to the natives it was exceptionally dry. At the time it was very funny to hear people say, "We must be entering a drought," when it had rained less than a week before. However, things have changed since then. It didn't seem one bit out of place Monday for farmers we met on the street to say, "We must be entering a drought. It didn't rain at my house last night." It did rain in town and in several other

places.

We regularly read and thoroughly enjoy every issue of The Gas Jet. The Flame Room by Carol Bramlett is one of our favorite features of the magazine.

In the June issue an error appeared that was most amusing. Following a well written wedding story was the following: "For their wedding tripe, the couple flew to Mexico City and Acapulco."

Three fillers that were in this issue were: "Successful people form the habit of doing

the things others don't like to do."

"Think MORE about customers and you NEEDN'T WORRY about competitors."

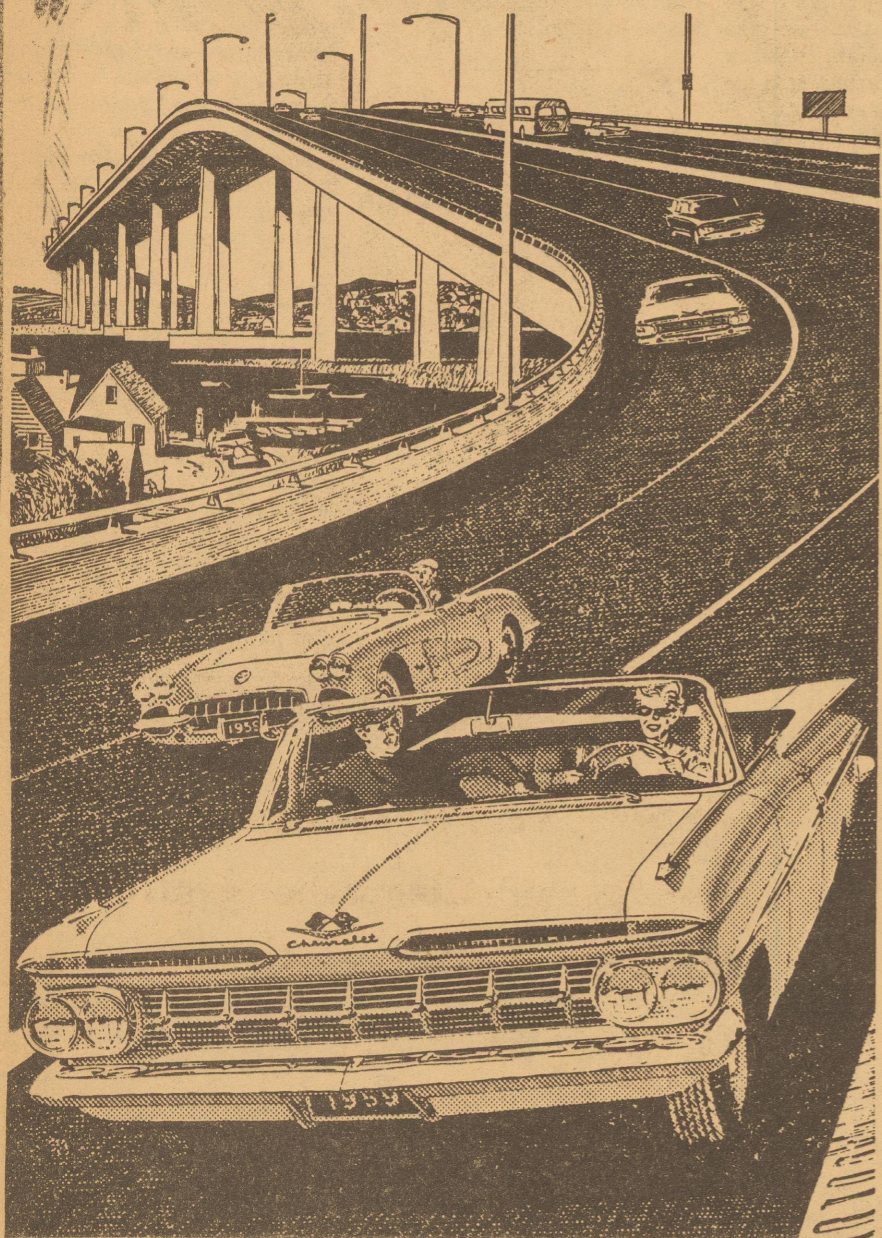

"People who take pains never to do any more than they get paid for, never get paid for any more than they do."

Wouldn't it be wonderful if all of us used the space around our houses as well as do the Taylor Greens and John McAlisters? Both couples are growing vegetables and flowers profusely. Don't know how they manage, but no weeds are to be seen on the premises.

Wrestling fans should note that there has been a time change in the starting of matches at the Bull Barn in Hereford each Saturday night. In the future starting time will

BEST ENGINES!

One of 7 Big Bests Chevy gives you over any car in its field

Open invitation to excitement, the Impala Convertible... and America's only authentic sports car, the Corvette.

You've got more to go on than our say-so: Every motor magazine has given Chevy's standard passenger car and Corvette V8's unstinted praise. SPORTS CARS ILLUSTRATED says it this way: "... surely the most wonderfully responsive engine available today at any price." And if you want the thrift of a six, you still get the best of it in a Chevy.

BEST ECONOMY No doubt about this: a pair of Chevy sixes with Powerglide came in first and second in their class in this year's Mobilgas Economy Run--getting the best mileage of any full-size car, 22.38 miles per gallon.

BEST BRAKES Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research

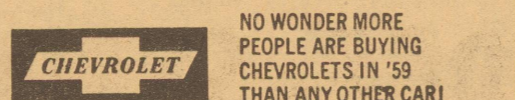

BEST RIDE A few minutes behind the wheel will leave no doubt about this. MOTOR TREND magazine sums it up this way: "... the smoothest, most quiet, softest riding car in its price class."

BEST TRADE-IN Check the figures in any N.A.D.A.* Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

*National Automobile Dealers Association

BEST ROOM Official dimensions reported to the Automobile Manufacturers Association make it clear. Chevy's front seat hip room, for example, is up to 5.9 inches wider than comparable cars.

BEST STYLE It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

NO WONDER MORE PEOPLE ARE BUYING CHEVROLETS IN '59 THAN ANY OTHER CAR!

A Farm Checked For Safety Is Checked For Profit Too!

Your farm is a vital part of the heart of America, because food is the most important commodity produced. As a farmer, you can be justly proud of your place in the nation's economy. However, farm accidents can hold back your production -- and profits -- unless you practice farm safety in everything you do, every hour of the day! Animals, falls and machinery account for most farm accidents. And accidents cost farmers \$75,000,000 annually. So don't take chances. "Cultivate" safety, profits and success!

GIANTS DETHRONED

Hub Tastes First Loss

BY DON WATKINS

In a makeup game played Saturday at the Little League Ball Park, Hub was defeated for the first time in four consecutive years. The giant killers were the Black nine and the game ended with a score of 10 to one.

The outcome of the contest has placed Black and Hub in a tie for first place in the league with six wins and one loss each.

For four years, the Hub team had bested all comers on the diamond, winning some of the games by the widest of margins. However, Saturday they didn't look like the Hub team of old or the Hub team that has played some terrific games earlier this season. Errors, costly ones, were made and a taste of the baseball could not be sampled by the Hub players.

On the other hand, Black

came to the park to play ball. The Black team has fielded some of the best players they have had in years and their teamwork and desire has gone a long way in making them the kind of team they are.

In the event it becomes necessary to have a play off, Black and Hub will meet on August 3 for that contest.

In the Pee Wee league Ethridge-Spring downed Friona Motors by a score of 11 to nine. Winning pitcher for this contest was Randall Schwab and losing pitcher was Jay Potts.

The second game of the week's double headers saw Reeve pitted against Plains-Hurst, with Reeve coming out on top by a margin of 33 to seven. Winning pitcher for this game was Duane Reed and losing pitcher was Bobby Sims. Reed made the only homer in the game with two men on base.

In the makeup game between Black and Hub, winning pitcher was Ray Braxton and losing pitcher was Jackie Clark. There were no homers during the contest.

Monday night's game saw Black vs. Reeve with Black the victor by a score of 26 to 15. Winning pitcher was Ricky Coon and losing pitcher was Duane Reed. Hugh Latham of Reeve sacked the only homer with no men on base.

Little League standings now have Black and Hub tied for first place with Brookfield third with four wins and three losses. Reeve is fourth with four wins and four losses; McCaslin fifth with one win and six losses to their credit and Plains-Hurst in the cellar with six losses and no wins.

Benger is still undefeated in the Pee Wee League with five wins, giving them the first place position. Ethridge-Spring is holding down the second spot with four wins and two losses; Rockwall is third with three and three; Friona Motors is fourth with two wins and three losses and Co-op is fifth with six losses.

Bridges & baby boy, Donnie Ray Meason, Christian C. Martinez;

Also M. B. Buchanan, Claire Massey, Innocent L. Rodriguez, Joe Buchanan, Connie Sue Lindeman, Hazel McGuire, Mrs. Fidel Esparza & baby boy;

Also John A. St Clair, Bertie Etta Black, Lucy Veleta, Leslie F. Curry, Jolynda Stokes, E. C. Berry, June Spring.

Rev. and Mrs. Alva Lynch and children of Holyoke, Colo., are guests in the home of Mr. and Mrs. Joe Lewellen. Mrs. Lewellen is a daughter of the couple.

Mrs. Mabel Massey and Mrs. Beulah Munden of Cleburne spent several days last week visiting in the home of Mr. and Mrs. Otis Massey.

Texas dairymen supply major milk consuming areas under seven Milk Marketing Agreements with the U.S. Department of Agriculture.

OLD LANDMARK REMOVED---The roof on the old Friona School Bus Barn has already been removed and soon the entire building will disappear from sight.

Hospital Notes

Patients admitted to Parmer County Community Hospital July 7th through July 20, 1959 are:

Eric M. Rushing, Friona, surgical; Fred H. Keunke, Decatur, Ind., medical; Jake Patterson, Friona, medical; William D. Hacker, Cannon Air Force Base, accident; Arnold Herrera, Bovina, medical; Jewel L. Barry, Bovina, surgical; Mrs. Amadeo Martinez, Friona, O. B.; Karen June Bales, Friona, medical;

Also Mrs. Fidel Espaza, Bovina, medical; Lilah Gay Gee, Friona, surgical; Robert L. Barber, Bovina, T & A; Gregory L. Mahan, Bovina, T & A; Thelma Ford, Friona, surgical; Christina C. Martinez, Friona, surgical; Mrs. Wayne Massey, Friona, medical;

Also Junior Varner, Friona,

medical; Mrs. Bill Nichols, Friona, O. B.; Tommy B. Williams, Bovina, accident; Mrs. Joe Bridges, Hereford, medical; M. Bev Buchanan, Friona, medical; John Arlen St. Clair, Texico, N. M., medical; Hazel McGuire, Friona, surgical;

Also Lucy Veleta, Friona, medical; Bobby Gene McMeans, Bovina, medical; Bertie Etta Black, Muleshoe, medical; Clarence D. Houghtling, Clovis, medical; Kathryn Hancock, Friona, medical; Mary Frances Redfean, Friona, surgical; William E. Hudson, Friona, medical; Elizabeth Worley, Friona, surgical; Innocent L. Rodriguez, Friona, medical;

Also Alfredo Sena, Friona, surgical; Joe Buchanan, Friona, medical; E. C. Berry, Bovina, medical; Mrs. Kenneth W. Neill, Summerfield, O. B.; Leslie F. Curry, Roswell A. F. B., accident; June Spring, Friona, surgical; Jolynda Stokes, Friona, medical; Louis A. Cailouet, Texico, N. M., medical;

Also Donnie Ray Meason, Bovina, medical; Jake Lamb-hon, Friona, surgical; Mrs. Joe

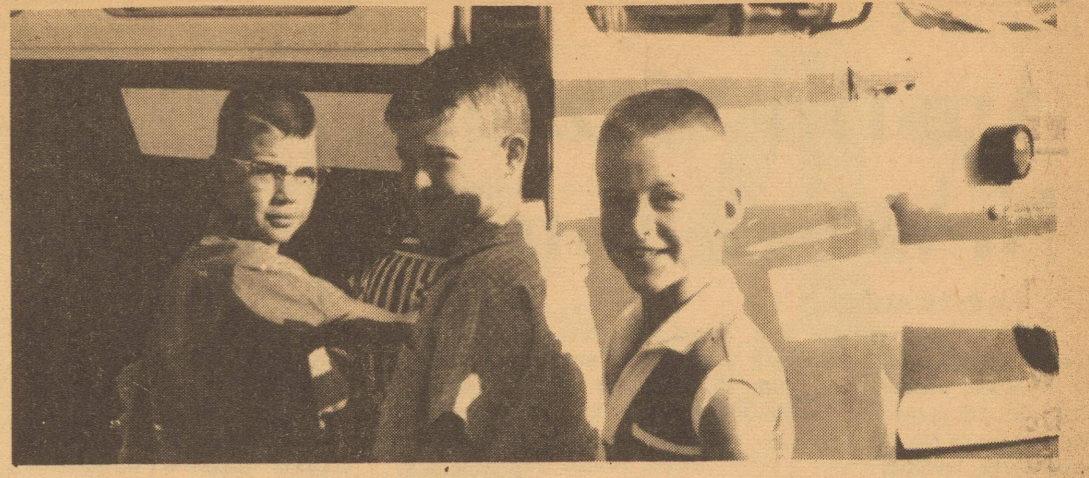

Bridges, Hereford, O. B.; Connie Sue Lindeman, Friona, T & A; Glenda Ruth Holmes, Tulsa, Okla., medical; Mrs. Fidel Esparza, Bovina, O. B.; Lawrence J. Martin, Friona, surgical; Fidel Rodriguez Irijo, Bovina, medical; Edd Duke, Friona, medical; Mrs. George L. Grant, Friona, medical; Rhonda Renee Roberts, Bovina, medical.

Patients dismissed from July 7th through July 20 are:

John Paul Gunn, Fred H. Keunke, William D. Hacker, Jewel L. Barry, Arnold Herrera, Robert L. Barber, Thelma Ford, Lilah Gay Gee, Jake Patterson, Junior M. Varner, Mrs. Joe Bridges;

Also Fay L. Reeve, Eric M. Rushing, Joella F. Taylor, Dixie Ola Calaway, Karen June Bales, Gregory L. Mahan, Mrs. Amado Martinez, Melba W. Burleson, Mrs. Fidel Espaza, Tommy B. Williams;

Also Andrew H. Wilson, Bobby Gene McMeans, Mary Frances Redfean, Elizabeth Worley, Mrs. Bill Nichols & baby boy, William E. Hudson, Mrs. Joe

ALL ABOARD---These three young Friona boys are boarding the 8 a.m. swimming excursion bus that leaves Friona each morning for the Clovis municipal pool. The lads are, left to right, Dickie Lee Renner, James Sides and Mike Riethmayer.

"WHATSOEVER A MAN SOWETH, THAT SHALL HE REAP"

..... New Testament

The hard work and all the planning you've put into your farm have yielded their reward . . . a bountiful harvest! And, as "safety" is so important in fire and accident prevention to every farmer, it's always time to give serious thought to the safety first aspect of your farm, barn, and house. "As you sow, so shall you reap" . . . be sure to sow safety-first so that you'll be safe this and every year.

HIGHLIGHTS AND SIDELIGHTS

Austin Sizzles As New Session Begins

BY VERN SANFORD

AUSTIN, Tex.--Texas' 56th Legislature fizzled to the end of its third session and 180th day with its main job--providing money to run state government--still undone.

Gov. Price Daniel called a fourth session to begin just hours after the last one ended. House members repeatedly voted down tax bills presented by joint conference committees of senators and representatives. Senate voted favorably each time.

motor vehicles, liquor, wine, boats, motors, airplanes, radios, TVs, phonographs, cameras and liquor by the drink in private clubs.

Speaker Waggoner Carr named a new House conference group composed of members who had voted against the bill. They met with the same Senate con-

ON 22 MILE STRETCH

Gravel, Speed Blamed For Accident Record

In the periods from March to the first of July, there has been \$9,125 in damage and seven injuries, one of them fatal, on a 22 mile stretch of Highway 60. This area covers the highway from the Deaf Smith County line near Summerfield to Bovina and does not include city accidents.

The accidents have ranged from total losses to minor damages that had worked twice before.

Only change in the new report was that the private club tax was cut out and the radio and TV tax slightly increased. House rejected it again, this time 83-to-66.

More conferences and more votes followed in the final frantic hours. All futile! None made any apparent progress toward compromising the basic bone of contention, whether to tax gas pipelines. House favors this "severance beneficiary" tax by a narrow margin. Senate is flatly against.

Along with his new call, Governor Daniel issued a sober warning. Unless a tax bill is passed and effective (requiring a two-thirds favorable vote) by Aug. 15, there won't be time or money to get Sept. 1 checks to 225,000 old age pensioners.

CARR FOES BACK DOWN--During the tense, short-tempered days in the wind-up of the last session, Speaker Waggoner Carr was, for a time, the target for pent-up frustrations and pressure.

Carr had worked to get the House to accept the Senate-passed tax bill. When the House turned the bill down, Carr said that "obstructionists" had defeated it.

This was a red flag to members already sensitive to public criticism of a "do-nothing" Legislature. For several days they simmered. They accused Carr of trying to thwart the will of a House majority, talked of voting him out of the speakership.

In a dramatic showdown, Carr stepped down from the rostrum and challenged his critics to remove him if they thought it would make things any better.

Nobody accepted his dare. A few minutes later, on motion of Rep. Joe Burkett, the man Carr defeated for the speakership, Carr was escorted back to the speaker's chair.

And the wearying legislative battle began again.

STUDENT FEE BILL OKAYED--A bill to require state college students to pay an activity fee passed both houses by very narrow margin.

Measure would allow the colleges to charge students up to \$30 a semester to support health services, book rentals, cultural and athletic events, campus publications, parking, etc.

Any college may exempt from the fee up to 10 percent of its enrollment in cases where the charge would cause "undue financial hardship."

Bill was hard-fought. Opponents declared it would make "free public education" available only to the rich. Backers said the colleges had to have more money. It was es-

timated the bill could bring in as much as an extra \$1,000,000 a year.

BEACH BILL PASSES--Both houses passed and sent to the governor a bill guaranteeing public access to state-owned beaches.

It took a conference committee to work out the differences between House and Senate ideas on the bill.

As finally passed, the bill says the public shall have the right to come and go from public beaches. No one, it says, shall erect a fence or barrier to prevent this.

Beaches that cannot be reached by public road or ferry are exempt.

WAIT, YOUNG LOVERS--Governor Daniel's expected signature on a newly passed bill will put a damper on the elopement plans of Texas teenagers.

It will require boys under 21 and girls under 18 to wait three days after obtaining a license to get married. Also, to get the license, the youngsters must be accompanied by parents or guardians.

Some lawmakers said it would mean more running across the state line to marry. However, Oklahoma recently passed a similar law.

NEED MONEY FIRST--Amid the legislative tax deadlock, the Commission on Higher Education decided to stop studying new money-spending programs until there's money to spend.

Commission's job is to determine needs of the state's colleges and universities and make recommendations to the Legislature.

Expanded programs and new degrees are being sought by many schools. But when the Commission met, there was no money in sight even to open the schools next fall, let alone expand them.

Commission resolved to "approve no programs which entail additional expenditures until such time as monies are provided for the programs and offerings already in existence."

Behold the Ant...

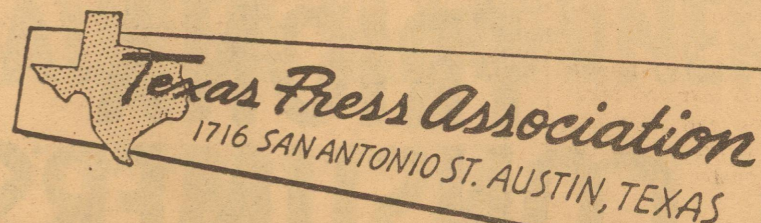

Science tells us that the strongest thing in the world for its size is the common red ant. This marvel of nature can lift 10 times its own weight.

As strong as the red ant may be, it has been proven that the most powerful thing for its size is the little want ad in your local newspaper.

The want ad, which costs only a few cents a day, does a hundred-fold job. This mighty mite of the printed page finds jobs for folks, sells used lawnmowers, rents houses, sells farms, loans money, finds missing persons, locates lost dogs, rents appliances, thanks folks, locates homes for surplus puppies, and performs a hundred and one useful services for the community.

NEWSPAPER ADVERTISING Is the Strongest Force in Business Today

What's The Matter Here?

I once saw a cartoon of a man standing on a garden hose. He was holding the end of the hose in his hand watching the water drip from it. With the look of desperation, he was saying, "What's the matter here. Something ought to be done about this low pressure! Can't expect a man to grow a garden without water, can you?"

Churches get a lot of criticism about what they are failing to do. Most of it comes from those who are not helping the church to do what it is doing. Anyone who withholds his talents of either time, attendance or financial support, or his spiritual and moral support from the church, is standing on the hose. This same hose he expects to feed the moral and spiritual fibre of his community and his country.

Read Hebrews 10:23-30. "Let us hold fast the profession of our faith without wavering... not forsaking the assembling of ourselves together..." Rev. Hugh F. Blaylock

REV. AND MRS. LELAND LEWIS

Revival Meeting Not All Teenagers Are Delinquent

Revival services are being conducted each evening except Saturday at the Assembly of God Church at 8. The revival, which will last through August 2, began Sunday of this week.

Guest speaker is Evangelist Leland Lewis of Plainview. He is accompanied by his wife and the couple will present special numbers in music and song. These two play a wide variety of musical instruments.

Rev. and Mrs. Lewis visited the local church for weekend services in March of this year and were booked for a preaching engagement. Rev. M. Alvin Askins, pastor, invites residents of Friona and the surrounding communities to attend these services.

BY DON WATKINS
(Ed. Note:--This is the sixth in a series of articles designed to promote the good qualities of our local youth. It is an answer to all reports, past and present, saying that juvenile delinquency is rampant and prevalent among the majority of our young people.)

According to the 1950 census compiled by the United States Bureau of the Census, there were 2,870,605 people employed in the state of Texas out of which 405,450 were young boys and girls between the ages of 14 to 19 years old.

Taking the above statistics on a percentage basis, the teenagers throughout the state made up 14 per cent of the total employed population. This is a very high rate when you consider that only 28 per cent of the total population of the state was employed.

Further, these statistics apply only to the salaried individuals and not to those who work as a family group on farms or in the homes.

This was nine years ago of course, and population has definitely increased. But so has the number of businesses increased and along with this, more jobs have been opened to young and adult alike so the percentage would probably not fluctuate to any great extent.

Now with over 405,450 teenagers gainfully employed it would not seem to me that all of them should be placed in the delinquent category as they so often are. True, there has been less criticism of youngsters in recent months but there is still too much adverse publicity given them by different communication media.

The reason we in this area strongly believe this is due to the caliber of young people in our community. One such young person who has this fine caliber we speak of is Margaret Hudson, 15-year old daughter of Mr. and Mrs. W. E. Hudson of Friona.

Margaret will be a junior this fall at Friona High School. Last year as a sophomore, she was a member of the Future

Homemakers Association and it was her first year in the Friona school system.

As a freshman in the Texico, New Mexico High School, she was a member of the Driver Training Club, the Texico High School Choir, the Texico Pep Club and a member of the Texico Basketball team.

She has carried a complete load in both the years she has been in the high school grades.

For the summer, Margaret is employed by Bill and Carolyn Raney at the Golden Spread Restaurant. She wanted to work and earn extra money of course, but there is a more commendable reason why she applied for the job.

During the early part of the summer, Margaret's mother had to undergo major surgery at the Parmer County Community Hospital. Margaret knew this would place a bind on the family finances so she began applying for jobs in the town.

She was employed as mentioned and has been working steady since that time. "She catches on real fast and shows a great deal of interest in her work. The customers seem satisfied with her service," says Carolyn Raney.

Bill Raney says she is making a good hand, especially considering the fact she is just learning.

When Margaret was asked how she felt about delinquent problems, she replied, "I believe most of the delinquents are in the large cities and they create bad publicity for all young people. I just don't believe there are as many bad young people as alot of folks would want us to believe."

We have to agree with Margaret's opinion on this matter. We certainly believe if all critics could come to Friona and study the young people here, they too would hold that not all teenagers are delinquent.

Mr. and Mrs. Foster Saunders of El Reno, Okla., were weekend guests in the home of Mrs. A. H. Boatman. Saunders is Mrs. Boatman's brother.

NEWS FROM BLACK

The Black Little League ball team was victorious over the Hub team with a score of 10 to 1. It was the first time that Hub had been beaten in four years. The boys on the team are: Gene Weatherly, Larry Buckley, Ricky Coon, Dale Miller, Ray Braxton, Dwight Whitaker, Jimmy Grimsley, Joe Siz, Travis Graves and Tommy Sherley.

Mr. and Mrs. Jerry Houlette and Debbie spent the week end in Oklahoma City visiting with friends and relatives.

Mr. and Mrs. Leon Harkins and children, Dennis, Vickie, and Jerry of Happy Union visited in the Gene Welch home Tuesday. Harkins is Mrs. Welch's brother.

Mr. and Mrs. H. V. McCabe of Dawn visited in the home of their daughter, Mrs. Bill Carthel Tuesday.

Mrs. Travis Stone and Mrs. Bob Coker attended a salad supper and installation of officers of the Golden Circle class of the First Baptist Church Friday night.

Mrs. R. E. Barnett is in the Deaf Smith County Hospital in Hereford. She was taken on Tuesday and is reported to be some better on Monday.

Mrs. T. J. Presley honored her granddaughter, Thama Presley of Maricopa, California, and her grandson, Dwight Whitaker, with a swimming party at Hereford on Wednesday and also with bar-b-que supper that evening.

Mr. and Mrs. Harland Frye of the Easter community visited in the Travis Stone home Wednesday night.

Carlene Greeson is visiting a few days with her grandmother, Mrs. S. J. Greeson at Hereford.

Weekend guests in the John Benger home were Mr. and Mrs. Doyle Green and children of Amarillo.

Mr. and Mrs. Fred Dennis and Julia are vacationing in Wyoming. While there they plan to visit with her brother on a ranch.

Mr. and Mrs. Gene Welch and children and Bill Carthel made a business trip to Plainview Wednesday and also visited with Mr. and Mrs. Glenn Welch of Lockney.

Mr. and Mrs. Lester Dean and family attended a family reunion at MacKenzie Park in Lubbock Sunday.

Mrs. Bill Carthel, Mrs. Travis Stone, and Mrs. Gene Welch attended a bridal shower honoring A. G. Boothe, bride-elect of George Frye, in the community room of the First State Bank at Dimmitt Friday afternoon. Approximately 100 guests called or sent gifts.

Mr. and Mrs. S. B. Dean of Muleshoe and Bill Bates of Big Lake spent Saturday in the Lester Dean home.

Mr. and Mrs. Jerry Houlette and Debbie and Mr. and Mrs. Wayne Houlette and Greg had supper at a restaurant in Clovis Monday night.

Mr. and Mrs. Lester Dean and girls attended a barbeque in the Kenyon Dean home at

Muleshoe Monday afternoon.

Cotton Braxton of Lincoln, Nebraska, visited Sunday in the home of his brother, J. R. Braxton.

Elmer Dean of Rock Springs visited in the Lester Dean home Tuesday.

Mrs. Leona Wolfe was honored with a dinner in the home of her parents, Mr. and Mrs. Bert Day. Others attending were Mr. and Mrs. John S. Thompson and Deryl and Clyde Renner.

Susie Spring is spending a few days with the Johnny Bengers while her mother is in the hospital.

Brenda Shirley of Ojai, California, spent a few days in the home of her aunt and uncle the Lester Deans.

Mr. and Mrs. Bill Carthel and boys, Danny, Donnie and Davy, spent Sunday visiting with Mr. and Mrs. Wess Vassek in Plainview.

Sunday dinner guests in the T. J. Presley home were Mr.

and Mrs. Woodrow Whitaker and boys, Mr. and Mrs. Gene Presley and family of Maricopa, California, and Mrs. Beatrice Brady of Clinton, Oklahoma.

Mrs. Ala Mae Gibson and Diann attended a 4-H club meeting in Farwell, Monday.

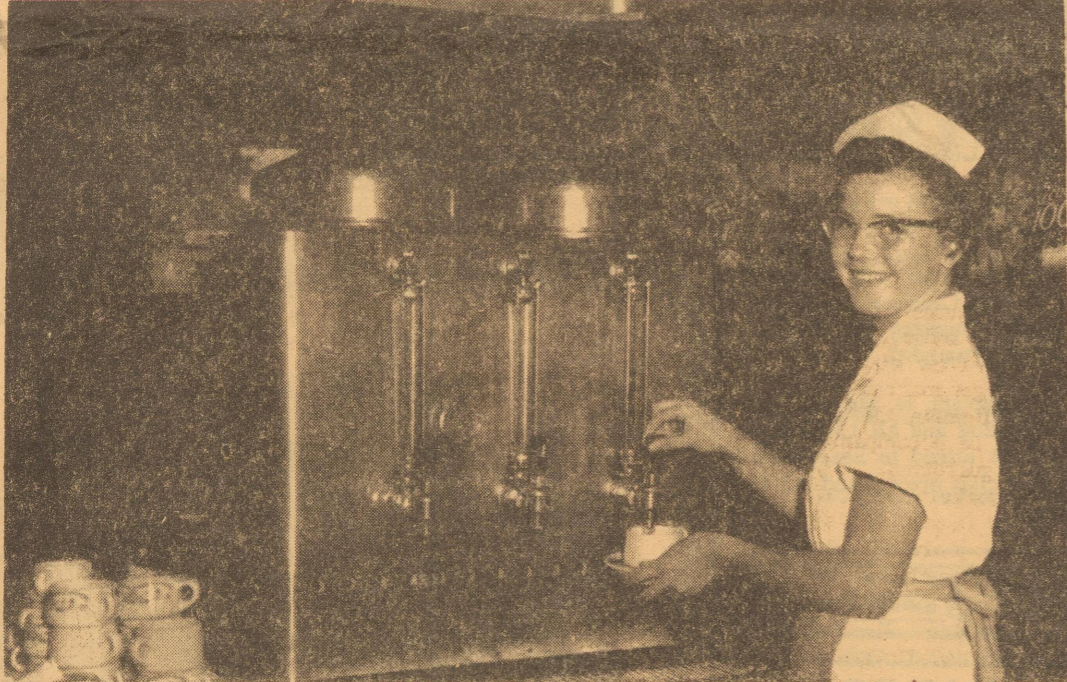

Hershel Perkins, employee of the Tri County Elevator, was released from Deaf Smith County Hospital in Hereford Sunday, after spending several days there with pneumonia.

Three girls plan to enter the county 4-H club dress revue at Hub, Monday, they are Brenda Deaton, Sherri Dean and Diann Gibson.

Mr. and Mrs. Gene Welch and children and Mr. and Mrs. W. H. Welch of Amarillo visited with Mrs. Ethel Herd in the Highland General Hospital in Pampa Sunday. Mrs. Herd is Welch's grandmother.

Deanna Bost of Big Lake spent a few days visiting with the Lester Dean family.

Mrs. Bill Carthel and Mrs. Travis Stone attended a bridal shower honoring Patsy Carthel, bride-elect of Joe McCollum of Amarillo, in the home of Mrs. Jim McCabe at Dawn Monday afternoon.

Drive Shaft Kills Worker At Tam Anne

Joe Martinez, 27, was killed when his jacket caught in the drive shaft of an irrigation motor near the Tam Anne Gin early Monday.

Martinez, married and the father of one child, was rushed to Dimmitt but pronounced dead on arrival.

The accident occurred on the Jack Miller farm in Castro county.

Martinez was working with Mark Linderman when the accident occurred.

Linderman said Martinez' jacket was caught by the whirling drive shaft of the motor, which was turning about 1600 rpm and Martinez was dragged into the whirring shaft.

Commenting on the death, several farmers said that the presence of a cover on the drive shaft would have possibly prevented the fatal accident.

Home Economist Puts Training Into Practice

In a modest home in the east part of Friona Mrs. Virgil Zeman, former home demonstration agent and home economics teacher, spends a lot of time practicing the things she studied, taught and demonstrated several years. Other family members are her husband and son, Alan, who was four June 5.

Mary Kate Couch, a native Texan, grew up at Pecos and after graduating from high school there attended Texas Technological College at Lubbock. After receiving her bachelor of science degree in home economics, she entered the home demonstration agent service and served in Castro County three years.

During these years many farm homemakers were making brave efforts to do everything possible to assist their husbands in staying on the farm in spite of low prices and dry weather. Much of her time was spent directing the preservation of summer vegetables for winter use.

At the beginning of World War II it was a requirement of home demonstrators that they be unmarried, so Miss Couch resigned her position when she was married to Virgil Zeman. While he was serving with the armed forces overseas, Mrs. Zeman went back into home demonstration work in Lamar and Wheeler Counties.

After the war Mr. and Mrs. Zeman lived in Abernathy several years and worked together in the construction of a new home. All of the planning and much of the actual labor of the construction was done by the couple.

About five years ago Zeman purchased a farm southeast of town and the Zemans moved to Friona. At the time a home economics teacher was needed by the local high school, so Mrs. Zeman entered the teaching field again. She had taken refresher courses at Tech while living at Abernathy.

When asked about her hobbies, she replied, "By the time I do the things I should for my family, I have little time left for outside hobbies. However, I do attend the Methodist Church and belong to the Modern Study Club."

Mrs. Zeman further stated, "I really think having well balanced meals and receiving what we term the basic seven is more

important than preparing fancy dishes or a lot of food."

She lists the basic seven as: 1 egg, at least 3 times weekly; 1 serving of meat daily; 2 or more servings of vegetables daily, preferably 1 raw; 2 or more servings of fruit--1 citrus or tomato for vitamin C; 3 or more glasses of milk for children and 2 or more for adults; butter; wholegrain and enriched cereals and breads. Mrs. Zeman says she isn't really a good cook, but does have several favorite recipes. The first one she gave us to pass on to you is for

CHEESELESS CAKE

4 eggs
2 lemons
26 graham crackers
1 can sweetened condensed milk
1/4 pound butter
Beat egg yolks until light. Add lemon juice and grated rind. Add milk and beat well. Fold in stiffly beaten egg whites. Melt butter, add cracker crumbs and mix well. Line pan size 9 x 9 x 1 1/2 inches with 1/2 of the crumbs. Turn in egg, milk, lemon mixture. Put remainder of crumbs on top. Bake at 350 degrees for 10 minutes, turn off oven, leave in oven 1 hour before removing.

For a quick hot meal in the evening, the following sandwich recipe would probably be appreciated by family members or guests:

SNAPPY CHEESE SANDWICHES

6 slices whole wheat or white bread
grated American cheese
1/4 teaspoon salt
1 tablespoon Worcestershire sauce
2 teaspoons prepared mustard
1 slice bacon--cut in half for each piece of bread
Butter pan generously. Mix cheese, eggs, salt, sauce and mustard together. Spread on untoasted bread. Lay slices of bacon cut to fit across top. Bake at 450 degrees for 10 to 20 minutes or until bacon is cooked but not crisp. Serve hot.

Mrs. Zeman's recipe for Date Nut Spice Cake is very good. We can personally vouch for its goodness because she served us a slice of it when we visited her. She recommends it any time you want to make a cake ahead of time as it keeps very nicely without hardening.

DATE NUT SPICE CAKE
Preheat oven to 350 degrees. Grease generously and dust with flour 2 round layer pans 9 x 1 1/2 inches or oblong pan 13 x 9 x 2.
2 1/3 cups sifted flour
1 cup sugar
1 teaspoon soda
1 teaspoon salt
1 1/2 teaspoon cinnamon
3/4 teaspoon nutmeg
3/4 teaspoon cloves

Sift the above ingredients together then add:

1 cup brown sugar
2/3 cup shortening
1 cup buttermilk
Beat at medium speed for 2 minutes. Scrape sides and bottom of bowls during beating. Then add 3 unbeaten eggs. Continue beating 2 more minutes. Fold in 1/2 cup chopped nuts and 1/2 cup cut-up dates.
Bake layers 30 to 35 minutes and oblong pans 45 minutes in 350 degree oven.

For an oven dish Mrs. Zeman likes

MEAT BALLS IN TOMATO SAUCE

1 lb. hamburger meat
1/2 pound sausage
1 egg
1 onion, chopped fine
salt and pepper
bread or cracker crumbs
Mix above ingredients together and mold into balls. Brown on all sides. Then make a sauce by using
2 cups tomato juice
2 tablespoons flour
2 tablespoons catsup
1 teaspoon mustard
1 teaspoon paprika
1 tablespoon Worcestershire sauce
Salt and pepper to taste.
Pour sauce over meat balls. Let come nearly to boiling point, then simmer about an hour over low heat.

Daughter--I found a horseshoe this morning.
Mother--Do you know what that means?
Daughter--Yes, it means that some horse is running around in his stocking feet.

Pershall Sales Head

Gene Pershall, formerly of Clovis, N. M., has been named as sales manager at Friona Motors in Friona.

Pershall took over the duties for the local Ford dealership last week.

A former teacher, Pershall has taught in the Clovis school system for about 10 years and operated his own car lot on the side for some time.

The new sales manager is married and the father of a 4-year-old son.

He was graduated from Bethany Nazarene College in Bethany, Okla. with a B. S. degree in elementary education.

Pershall is a veteran having served in the Air Force from 1947 until 1950.

He invites his many friends in this area to drop by and renew acquaintances.

News From LAZBUDDIE

By Mrs. C. A. Watson

Mr. and Mrs. Wayne Menelee and Jodie visited Sunday with Mr. and Mrs. Don McDonald.

Mr. and Mrs. Juel Treider returned Friday from Kansas where they had been on wheat harvest.

Mr. and Mrs. Preston Carleton, Cassandra, Karan and Wade from Summerfield visited with friends and relatives in Lazbuddie on Friday.

John Agee was chosen an all-star player for the Eagles baseball team. Their first game will be against Dumas on July 27.

Mrs. Jimmie Dale Black was dismissed from Clovis Memorial Hospital Friday evening.

Cub Scout troop 16 met for a regular meeting last week. The boys presented musical instruments they had made. After the meeting, the boys played baseball.

Mr. and Mrs. D. L. Schuman left for Houston Sunday. Schuman will be treated by a specialist there.

Gene and Helen Templeton were in Petersburg Sunday, where they judged a beauty contest. The contest was held for the opening of the new swimming pool there.

Intermediate boys who attended camp at Floydada last week were Paul Wilbanks, Cooper Young, Jimmie Broadhurst, Sammie Blackwell, Richard Gordon, Darrell Mason, and Leo Cox. They were sponsored by Earl Peterson and Weldon Slayton.

Junior boys met Monday to leave for camp. Sponsors for this group are A. E. Redwine and Sam Bradley.

Ladies attending the WMU Circle at Glorieta are Mesdames W. S. Menelee, T. Carol and W. Barnes.

YWA Girls of the Baptist Church are planning to leave for Glorieta this week. Their sponsors are Mesdames Bill Curry and Buster Morgan.

Forty-seven persons attended services at the First Methodist Church Sunday. Attendance at the First Baptist was 32 and at the Church of Christ 143.

Rev. Bernard Seay met with all the youth groups in the community on Wednesday to work up a choir at the First Methodist Church.

The Church of Christ Gospel meeting continues through Sunday July 26.

Mrs. A. J. Dutton is in an Amarillo hospital where she underwent major surgery.

Mr. and Mrs. John Littlefield visited Mr. Littlefield's mother, Mrs. V. Littlefield at Clarendon on Sunday.

Mr. and Mrs. Allen Grusenford, Pennie and Gary and Mr. and Mrs. F. L. Brown, Judy, Jodie and Sandie were at Con-

FOR SALE--847 acres Good Plains land, Deep soil, on pavement, 4 1/2 inch irrigation wells on eas, ordinary improvements. Price \$185 per acre with \$30,000 cash. This is one of the best buys in West Texas. M. A. Crum, Floydada, Texas 41 3tp

FOR SALE--Fishing trailer. Doyle Cummings Phone 2491 or 2032. 38-tnc

WANTED--Someone in Friona to put out wrestling cards for two passes to the Saturday night matches. Contact H. E. Wester at wrestling arena. 42 tnc

HAIL HITS RHEA

10 miles northwest of Bovina, reported 12 windows were knocked out by hail at his farm home. Hail and wind severely damaged his crops. A field of corn near Schlenker's home was shredded in spots while other sections of the field received less damage.

"The storm hit about five Monday afternoon," Mrs. Schlenker said. "The first hailstones were the largest and

most damaging. They were the ones that broke our windows. Winds were terrific."

Mrs. Schlenker said the rain gauge at their home was broken by hail but one near there registered a half inch.

Elvin Johnston, whose farm is just south of Schlenker's, said more than an inch of rain fell at his place. He has 15 acres of cotton northeast of his home that he believes was destroyed. It was about 18 inches

tall before the storm and was blooming. Tuesday morning it was a mass of stems, with only a few battered leaves still in place.

The storm apparently lifted just before it reached Johnston's farm house. Thirty of his 45 acres of cotton were in the "safe" strip that the storm jumped across.

Johnston had feed heading out adjacent to the cotton that was damaged. It was striped

and battered but he believes it will come back and "make a pretty good crop."

The storm started building up north of Friona and moved in a southeasterly direction. Thunderstorms have been numerous in recent weeks but all that have built up in that area have gone east of Friona so Rhea area residents didn't pay much attention to the cloud until it was nearly on top of them.

Johnny Lynn Visits Langes

Johnny Lynn of Fort Worth is a guest in the home of his grandparents, Mr. and Mrs. O. F. Lange. Johnny's mother, Mrs. Carolyn Lynn, spent several days last week visiting her parents.

After a weekend trip to Red River and other points of interest in Northern New Mexico with the Langes and Johnny, Mrs. Lynn returned home late Sunday. Johnny stayed for a longer visit.

Ware Hosts Fashion Fair

Teachers in the Friona schools and second and third year home economics students were honored guests at a coffee-fashion show at Ware Monday of last week.

Fall fashions were modeled by Nancy Outland, Linda Castleberry, Andrea Milligan, Carolyn Parker, Virginia Patton, Bert Rule and Lucille Latta. Accessories and other items were displayed.

weapons on tanks and other combat vehicles.

Scarborough entered the Army in January of this year and completed his basic training at Fort Chaffee, Ark.

A 1956 graduate of Friona High School, he attended Hardin-Simmons University at Abilene before entering the Army.

MISS VERA ANN JONES

Vera Ann Jones Sets Wedding

Mr. and Mrs. Raymond Jones of Friona are announcing the engagement and approaching marriage of their daughter, Vera Ann, to B. B. Banner Jr., son of Mr. and Mrs. B. B. Banner Sr., of Greenville, Texas.

Wedding vows for the couple will be read at the Friona Methodist Church August 22.

The bride-elect is a graduate of Friona High School and North Texas State College at Denton, where she also received her master's degree. For the past several years she has taught at Borger, Friona and Hobbs.

Mrs. Ray Landrum and son, Joe, of Gruver were weekend guests in the home of her parents, Mr. and Mrs. C. W. Dixon.

LaVoyce Burrow and Patty Fallwell are in Sagerton visiting with LaVoyce's grandparents, Mr. and Mrs. R. O. Gibson, this week.

PERSONALS

Debbie and Danny Day, children of Mr. and Mrs. E. R. Day Jr. of Lubbock, are visiting their grandparents, Mr. and Mrs. E. R. Day Sr., this week.

John, Keith and Dean Blackburn spent the weekend fishing at Red River and visiting other points of interest in Northern New Mexico.

Mrs. J. B. Snead Sr. of Littlefield spent several days this week visiting in the home of Mr. and Mrs. Rene Snead and children.

Mrs. Douglas Parmley and son, Doug, of Tyler are guests in the home of her parents, Mr. and Mrs. Clifford Crow.

Mrs. Velden Carroll and son, Terry, returned Tuesday of last week from Graham where they had spent a week visiting her parents, Dr. and Mrs. L. A. Cramer.

Another Boy For Marvin Masseys

Mr. and Mrs. Marvin Massey of Pierre, S. D., became parents of a baby boy Monday of last week at 10:05 a. m. at a Pierre hospital. He weighed 8 lbs. and was named Matt David.

The Masseys are former Friona residents. Grandparents of Matt David are Mr. and Mrs. Otis Massey of Friona and Mr. and Mrs. Miles Robbins of Pierre. The J. W. Baxters, also of Friona, are maternal great-grandparents.

New Addition To Glass Family

Mr. and Mrs. Dale Glass of McLean, became parents of a baby girl at Highland General Hospital at Pampa Monday July 6. She weighed 7 1/2 lbs. and was named Maridale.

Grandparents are Mr. and Mrs. Raymond Glass of McLean and Mr. and Mrs. Roy V. Miller Sr. of Friona. Mrs. J. F. Miller, also of Friona, is the maternal great-grandmother.

It's A Boy For Local Couple

Mr. and Mrs. Bill Nichols became parents of a baby boy at 10:30 a. m. Sunday of last week at the Parmer County Community Hospital. He weighed 8 lbs. 4 ozs. and was named Timothy Patrick.

Club Members Entertain Guests

Members of the Friona Home Demonstration Club were hostesses at a family night party at the educational building of the First Baptist Church Saturday evening. Guests were members of the families of the club members and Hi-Point Home Demonstration club members and their families.

Class Officers Installed Friday

Following a salad supper at the educational building of the First Baptist Church Friday evening officers of the young married peoples classes were installed in formal ceremonies.

Mrs. Dan Ethridge served as installing officer. Officers of the Fidelis Class are Katy Osborn, teacher; Bessie Holt, president; Laura Lee Hart, vice-president; Peggy Monroe, secretary; Linda Adkins, treasurer and Carolyn Carroll, reporter.

Officers of the LLL Class are Melba Allen, teacher; Belle Maynard, president; Juanita Stevens, vice-president; Ouida Capps, secretary; and Fern Sanders, treasurer.

The Golden Circle officers are Pauline Castleberry, teacher; Jean Coker, assistant teacher; Lillie Mae Baxter, president; Cherry Mings, vice-president; Reba Buske, secretary; Dorothy Floyd, assistant teacher; and Elwanda Campbell, treasurer.

Mary Dorcas Class Has Birthday Party

A yearly birthday party for members of the Mary Dorcas Sunday School class of the First Baptist Church was highlighted by dinner at the educational building Sunday.

Husbands of the members were guests. Other special guests were Rev. and Mrs. L. Aston Sartain, Mr. and Mrs. Charles Baldwin, Mr. and Mrs. Roy V. Miller Sr. and Lucy Jones.

Present were Mr. and Mrs. George M. Baker, Mr. and Mrs. W. M. White, Mr. and Mrs. Clyde Scarborough, Mr. and Mrs. B. C. Day, Mr. and Mrs. Otis Massey, Mr. and Mrs. J. H. Wise, Mrs. Rosa Anderson and Mrs. Florence Buske;

Also Mrs. W. M. Lloyd, Mrs. J. B. McFarland and Mrs. Sarah Vernon. An afternoon fellowship that had been planned was postponed due to the inclement weather.

THURSDAY, JULY 23, 1959

Program Planned For Next Year

Members of the program committee met at the home of Mrs. C. W. Dixon, chairman, Monday afternoon and planned programs for the coming year for the Interdenominational Church will present the devotional theme will be "The Great Commandment." Scripture references for the theme are found in Luke 10:23-27 and John 13:34-35.

There will be four meetings and the four individual themes are "Our Dependence on God", "Praise and Thanks to God", "Who Is My Neighbor?" and "The New Commandment."

The August 28 meeting will be held at the Methodist Church and special music will be presented by members of this church. Members of the United Congregational Church will present the devotional. Prayer will be led by a member of the Assembly of God Church and the guest speaker will be arranged for by members of the First Baptist Church.

For the November 27 meeting at the Baptist Church, members of the Assembly of God Church will present the devotional. Music will be arranged for by members of the Baptist

Church; the closing prayer will be led by a member of the Methodist Church and the Congregational Church will provide a guest speaker.

The Assembly of God Church will host the February 26 meeting and arrange special music. A member of the First Baptist Church will present the devotional; the closing prayer will be directed by a member of the Congregational Church and women of the Methodist Church will introduce the guest speaker.

May 27 the final meeting will be held at the Congregational Church with special music provided by women of the church. The devotional will be presented by a member of the Methodist Church, the closing prayer will be led by a member of the Baptist Church and members of the Assembly of God Church will be responsible for a guest speaker.

Each meeting will be held at 2:30 p.m. and a nursery will be maintained for children.

Those serving on the committee with Mrs. Dixon are Mesdames George Jones, Otho Whitefield, Elmer Euler, George Treider and Alvin Askins. They invite every woman in town who is interested in the meetings to attend.

Local Group Returns Thursday

Mr. and Mrs. David Moseley and Mrs. Herschel Johnson and daughter, Linda, returned Thursday after spending a week visiting relatives and touring points of interest in South Dakota and Kansas.

At Pierre, South Dakota, they spent several days with Mr. and Mrs. Jim Cruse and children. Then at Miller, S. D., they were guests in the home of Mr. and Mrs. H. A. Poindexter and children. Mrs. Cruse and Mrs. Poindexter are nieces of Mr. Moseley.

At Mitchell, S. D., the group toured the world's only corn palace. Mrs. Moseley reports the building is made entirely of corn in a number of beautiful colors and is a very impressive building. They also visited the museum at Boothill Cemetery at Dodge City, Kans.

Then on the way home they visited Boys Ranch at Tascosa. Even though this isn't very far from home, the Moseleys had never been there before and enjoyed their visit very much. Mrs. Moseley reports.

Party Fetes

LaVon Fleming

A lingerie shower in the home of Mrs. Philip Weatherly north of town Tuesday afternoon honored LaVon Fleming, daughter of Mayor and Mrs. Raymond Fleming, who will become the bride of Don A. Reeve August 11.

Assistant hostesses were Mrs. Leon Massey, Mrs. Larry Fairchild, Nancy Outland, and Ruby Grubbs. After the gifts were opened, refreshments of cookies and cold drinks were served.

Those attending and sending gifts were Mrs. Fleming, Mother of the bride-elect; Mrs. Glenn E. Reeve Sr., mother of the bridegroom; Lila Gay Buske, Robbie Bogges, Mary Jane Grubbs, Lawana Houlette, Elaine Holcomb, Celia Dee Weatherly, Cynthia Caffey, Jonnie Hand, Raye Jene Jones and Jacquelyn Magness.

THE HIGH PLAINS FARM AND HOME

Pumps Running Despite Frequent Showers

Watering grain sorghum soon after light showers that have been scattered over the area may seem like a waste of water to some but county agent Joe Jones and many farmers agree it's a good idea.

"The rains are good for milo and other grain sorghums but when drying begins, all of the field will need to be irrigated at once. If farmers wait too long after rains to start watering, the last part of the crop to get water may really suffer before irrigation water reaches it," Jones says.

Jones further explains that recent rains have made sorghum plants extremely succulent and a brief period of hot, dry weather could damage the crop if the irrigation process had to go from one side of the crop to the other.

He says sorghum probably doesn't have very deep root systems since frequent rains have been providing so much surface moisture recently. Double-row or broadcast milo will be especially prone to feeling the effects of a hot, dry period. Milo planted in double rows or broadcast takes an enormous amount of water.

Jones thinks double-row milo is a good practice if the amount of seed per acre is not increased too much over that usually planted in single rows. "The ideal situation for milo or other grain sorghums would be to have the plants an equal distance apart. This would provide the best possible utilization of water and plant food," he says. He thinks double-row planting

BROADCAST MILO--Bob Downs poses in a field of broadcast milo on the J. D. Kirkpatrick farm west of Bovina. Irrigation is in progress on another part of the field.

comes nearer to providing this situation than single row.

Rains may continue but irrigation pumps won't be stopped

for very long periods because farmers will be protecting their sorghum against that extended hot, dry spell that is long overdue.

Hail Causes Drop In County Wheat Total

Apparently the devastating hails that racked sections of the Farmer County area were all that kept this from being wheat's banner year in the county.

A survey of 18 elevators within the area shows this year wheat farmers made a total of three and one-third million bushels.

Hail damaged the crop worst around Bovina, with elevators at Lariat, Farwell and Hub also reporting short runs be-

cause of hail.

In the Bovina area, elevator spokesmen said hail storms destroyed about half the crop. This year's crop was expected to be the best in years until the devastating hail of early June wiped out large strips in the area. Later storms also took their toll.

The excellent crop that was made before the storms is credited with giving the elevators as big a run as they had. The relatively few acres

that weren't damaged produced such high yields that elevators handled a good amount of wheat.

Sherley Elevator at Bovina reported a light run. A spokesman estimated half the wheat they usually get was destroyed by hail. Nearly all wheat in the area received some hail damage.

James Russell, manager of Bovina Wheat Growers, says that elevator handled twice as much wheat as last year but would have had three or four times as much if hail had missed the crop. Russell said until the first hail the '59 crop was the best in several years.

J. P. Macon, owner of Macon Elevator in Bovina, said his run would have been more than twice as much as it was if hail hadn't hit. He credited extra good yields with producing as much wheat as came in. Carl Schlenker of Rhea Grain & Seed, located north of Bovina, reported his elevator also handled a small amount of wheat due to the hail.

Hail was also severe in the Hub area. Hub Grain Co. handled an extremely small amount of wheat. W. E. Stringer said all customers of the Hub elevator received some hail and in summing up the story said, "It stripped us out here."

The crop ran above normal around Friona. Preach Cranfill, manager of Continental Grain Co., said his elevator handled about as much wheat

as usual. He said some was hit by hail but higher than usual yields more than made up the difference.

The two elevators at Black reported above average harvest. Pete Braxton of Tri-County Elevator said the yield per acre was better and the crop received little hail damage.

The new elevator at Lazbuddie reported the crop in that area received about 50 per cent hail damage.

Lariat wheat was damaged in strips. Strips that escaped the hail turned out excellent yields. Robert Rundell, whose farm is east of Lariat, harvested 82 bushels per acre on a 20-acre plot of summer fallow land that

was fertilized.

Asa Smith, superintendent of Sherley - Anderson Grain in Lariat, said there was significant hail damage in the area but yields were good.

Lariat Elevator Co. reported its best run in five years. Grade of wheat they handled was good.

Texico-Farwell elevators reported a good amount of wheat handled. Spokesmen for the elevators agree, however, that more wheat would have come to town if hail had not damaged it.

Yield per acre for Texico-Farwell area wheat was from 40 to 83 bushels per acre reported on a small plot that was fertilized heavily. Grade of the wheat was termed good to excellent.

Potato Harvest In Third Week

Potato harvest at Lariat and Friona moves into the second week with movement increasing at Friona and remaining slow at Lariat.

Price at both places has been between \$3.25 and \$3.50 per hundred for those potatoes that moved last week.

Buck Gregory of Lariat has dug about 30 of his 235 acre crop. Yield has been fair considering the hail that damaged the vines in early June. Gregory is hoping for 150 sacks of No. 1 potatoes per acre.

Gregory said he talked to a broker in Chicago who said the price there was from \$3.75 to \$4.50.

Closer markets have been practically closed to outside potatoes because of the increase in home-grown spuds. Arkansas and Louisiana, two markets that usually accept quite an amount of outside potatoes, are being supplied so far by those grown on farms nearby.

Friona Growers and Shippers report movement is picking up over the week before but the market is still under earlier expectations. Price was \$4 per hundred week before last but last week dropped to \$3.50 and lower.

Gregory says he is disappointed that the market is under

four dollars and he thinks it may rise. But even at the current price, he believes potatoes will be a profitable business this year.

4-H Clubs Give Party

Farmer County 4-H clubbers played hosts to Randall and Castro County 4-H clubs at a 4-H party held in the Hub community center on Thursday.

Theme used for the party was "good neighbors." Chairman in charge of planning the party was Judy Billingsley. Pat Chitwood registered those who attended the party and name plates were presented by Janice Hillock.

Games played included human bingo, led by Janice Hillock; woogle, led by Jenny Rea; driving a pig to market, led by Pat Chitwood; orange or potato relay, led by Barbara Rea; buzz mixer led by Judy Billingsley and Joe and Weldon Jones; wada you gander, led by Dick Chitwood; and square dances by Randall County led by John Brazill.

After playing games, Janice Hillock, Judy Billingsley, Pat Chitwood and Virginia Rea led the group in singing several songs.

Refreshments of pop and cookies were served to the more than 30 guests.

HD Council Will Meet

Farmer County Home Demonstration Council will meet for a regular meeting at the Bovina Home Economics cottage on Monday, July 27. The meeting will begin at 2 o'clock. A demonstration on dairy foods will be given by Janice Hillock and Barbara Rea.

No meeting is scheduled for the council during the month of August.

Doctors report that it's all right to drink like a fish, if you drink what the fish drinks.

THE FARMER COUNTY IMPLEMENT CO.
NEWS
 "The Place Where Most People Trade" Friona, Texas Wednesday, July 22, 1959

When Mrs. Frank Griffith and Mrs. J. B. Buske came home by train from Chicago Sunday, they didn't think about some of the passengers being Friona folks, but when the train stopped in Friona, one of them said, "This is where I used to live."
 She was Mrs. Lewis Holland, formerly Bonnie Lee Rushing. Bonnie Lee and her two daughters have been in Germany for three years with Holland, who is a Lt. Commander in the Navy.
 We have mowers, rakes and balers---the very best, McCormick! They will give you new speed and increase your haying output. Save your hay crop with McCormick haying equipment.
 Did you hear about Bill? He tried to drown his troubles, but couldn't get his wife near the water.
 Auto-Lite sta-ful batteries are the best farm power insurance you can buy and the prices at the Parmer County Implement Company are less.
 For the prettiest sight in Parmer County we nominate the cotton crop of a Mr. Kirkpatrick just west of Bovina on highway 60. This cotton is really growing in spite of the weather, the bugs, the weeds and hail that have plagued cotton growers this season.
 It takes over 3000 bolts to hold an automobile together and only one nut to scatter it all over the landscape.
 Big power---light job economy---get both with the same
 IH tractor! This tractor with multi-power gives you light job economy as well as 4 to 5 plow pull in the same Farm-all. Just call us at 2091 to try new IH precision six.
 New passenger car registrations in Parmer County from January through May of this year were as follows: 28 Oldsmobiles, 12 Pontiacs; 1 DeSoto; 4 Dodges; 4 Mercurys; 6 Buicks; 7 Cadillacs; 2 Chryslers; 34 Chevrolets; 49 Fords; 7 Plymouths; 3 Ramblers; and four other brands. This makes a total of 161 new cars registered since January 1.
 The Winpower rotary cultivator is a newly patented farm proven tool that knives through and "explodes" the soil. Better come in soon and see one of these completely new cultivating tools.
 Jim Shaffer bought a brand new lawn mower and was trying it out on his new lawn and everything was going very satisfactorily until the mower picked up a rock and hurled it through the Jim Maynard's picture window. The Maynards live just north of the Shaffers and Mrs. Maynard was sitting just next to her window when the rock came through, but luckily it missed her. The only damage was a broken window.
 The Weldon Dickson family spent a few days in Tres Ritas last week. Weldon's mother and father and his sister and her family visited with the Dicksons while they were there.
 Weldon Dickson family spent a few days in Tres Ritas last week. Weldon's mother and father and his sister and her family visited with the Dicksons while they were there.
 Want to see the world's best silage cutter? Call us for an "on the farm" demonstration of the International Harvester silage harvester.
 Our son, telling of a friend's housekeeping, "Their house never looks any better, but then it never looks any worse either."
 There is nothing so comfortable as the stretch-out roominess of the new Oldsmobile. More head room. More shoulder room. More hip room. Just come in and look at the new Olds on display at the Parmer County Implement Company.
 Friona folks who are back for a visit are Mr. and Mrs. Joe Wilkins, who have been in California several years. They are visiting Mrs. Ethel Adams, mother of Mrs. Wilkins.
 Said David, our youngest: "Boy, we sure are getting better with our fighting---we can do it more often!"
 Try our parts department for quick, courteous service. We have the largest IH parts department on the Golden Spread, but if we don't have what you need, we will get it as soon as possible.
 With McCormick cultivating equipment you are assured of weed killing precision and superior design. Come in soon and we will be glad to show you how these cultivating tools will get all the weeds.

Farm Safety Depends On Individual Farmer

"Safety Makes Sense" is the theme of National Farm Safety Week, designated to establish safety in farm living for every member of the family.

Farmer County has had its share of farm accidents and the special week is being taken seriously by 4-H Club and other farm leaders. County Agent Joe Jones says farm families break too many safety rules and points out some especially dangerous practices that should be eliminated.

Using gasoline as a cleaning fluid is one thing Jones mentioned. "A less flammable fluid such as naphtha should be used in place of gasoline," he says.

Unprotected shafts that connect pump heads to engines or run from a tractor's power takeoff can also cause a serious injury or even death, Jones points out.

Working long hours, which farmers often must do in rush seasons, was also listed by Jones as a hazard. "One becomes less alert and more careless if he becomes over-tired," Jones stated.

Stopping driverless tractors by climbing on them while they are in motion was also mentioned by Jones as a safety hazard. To do this one has to pass between the tractor's wheels and the plow and a missed step could cost a life. Jones suggests that farmers who use driverless tractors for breaking land should fasten a rope to the back of the plow running to the tractor that could be pulled to stop the tractor. This would allow the tractor to be stopped from behind the plow.

Carelessness with butane and fertilizer was also listed by Jones in the "bad practice" department. Smoking around pressure tanks is the most frequent cause of fuel and fertilizer accidents, he says. Jones also said that storage tanks should be kept away from farm buildings so they won't be destroyed if the tanks burn.

4-H Clubs conducted a tractor maintenance program this spring. Approximately 90 boys participated. They received some extensive tractor-safety training that aided farm safety.

They were shown the importance of keeping the tractor free of greasy dirt that might cause wrenches to slip when adjustments have to be made or may even cause the operator to fall from the tractor.

Maintenance of brakes and proper operation of them was also studied. The boys were urged to keep in mind that tractor brakes are not made for stops at fast speeds.

Other things taken up in the study were fire, radiator and fuel safety.

Students learned that the drawbar is the only thing made for pulling loads and saw small-scale demonstrations of what can happen if loads are attached to other parts of the tractor.

Carelessness in the home can also cause serious accidents. Things that may seem relatively harmless often cause painful accidents or even deaths.

Faulty flexible electric cords or too many appliances run from one outlet may cause fires. A poorly ventilated room may become a death trap when weather is cool and heaters are used.

A floor finish that causes slipping or toys left scattered around can cause a serious fall.

Small children often pull cooking food from the stove and burn themselves if the pan handles are left turned out from the stove. Sharp knives and other tools should also be kept out of the reach of children. Medicines should be properly labeled and out of the reach of children.

Too many accidents occur in bathroom where an electric appliance within reach of the tub or wash basin poses a

In a part of Spain near the French border, inhabited by the people known as Basques, a traveler came upon a man building a house. It was different from regular houses, having three front doors of varying sizes. The visitor remarked on this peculiarity. "Back home," he said, "we have only one front door."

The builder replied, "maybe so, but in this country we have a proverb: 'Never put all you Basques in one exit!'"

SAFETY--Roy Dodson displays one of the safety precautions on his farm west of Bovina. The open irrigation pump shaft can cause serious injury or even deaths if it catches loose clothing. The wire shield keeps clothing from being caught in the shaft.

serious danger. People have been killed by touching them while in water.

Farm work accidents claim about 3,500 lives each year, more than any other major industry. About 12,000 farm residents lose their lives each year in all types of accidents, and another million or more suffer accidental injuries.

"Major companies take safety precautions for their employees and if the employee doesn't accept and use them, he will be dismissed from the job. Since a farmer is self-employed, he has no one to see that he practices safety. Farm safety is put on an individual basis," says Jones.

Exercise Caution With Use of 2, 4-D

Grain sorghum farmers have the usual problem of weeds in their fields this year, and many are looking with hope toward chemical control of these pests.

One of the most popular ways of controlling weeds in grain sorghum is through the use of a plant hormone, 2, 4-D. Using 2, 4-D for weed control is a good practice, says County Agent Joe Jones, but he puts heavy emphasis on being extremely careful of the method of application.

Already reports are coming in that crops adjacent to the treated grain sorghum fields (Principally cotton) are being subject to damage because of drifting chemicals.

"All hormones should be used with caution," says the county agent. "The so-called 'safe' lines of 2, 4-D are only safe when applications are made according to the manufacturer's recommendations. Regardless of what people have told you, be sure to read what the manufacturer says about his spray, and follow his directions carefully."

Farmer County is under the herbicide law, which requires that those who apply such chemicals as 2, 4-D must obtain a permit to do so. These can be obtained from Gene Culp of the State Department of Agriculture at Lubbock. The address is 2814 34th Street.

"But having a permit doesn't relieve the operator from his liability," cautions Jones. "It's like having a permit to drive a

car. The permit doesn't mean it's all right to run over pedestrians."

Damage to susceptible crops, particularly cotton, has occurred numerous times in past years, and resulted in the enactment of the herbicide regulatory law in this county. The most ideal conditions for applying chemicals are when the wind is completely at rest. This does not occur very frequently on the Plains.

FRIONA

THE PARMER FARMER

by W. H. Graham Jr.

There are few things that give a writer greater satisfaction than to see a prediction he made in print come true. Since that's human nature and we're human we had a mild bit of exhilaration to see the headlines of the "Portales Daily News" last week, but after getting into the meat of the story, we must say that the sober facts being brought to light by Gordon Greaves' top-flight reporting leave little room for personal satisfaction.

About a year and a half ago we reported in this column that the "Portales Valley" would bear watching, as its dependence on underground irrigation water was absolute, and the end of its resources was in sight.

All of the High Plains, which are blessed with groundwater in much greater abundance, can learn a sobering lesson from the times that are facing our neighbors in that relatively

small irrigation district in eastern New Mexico.

For many years the Portales Valley has been closed to new drilling, as engineers could see that the annual withdrawals of water was much more rapid than any natural recharge. They wanted to prolong the life of irrigation, and so put an end to new wells. (New Mexico is much stricter than Texas in this respect; all underground water is regarded the property of the state.)

State engineers told the Valley residents last week that the expected decline of the table in the next five years will mean it impractical to irrigate 19,000 acres of land now in the area, and that by 1985 36,500 of the Valley's 50,000 acres will not have enough water to irrigate.

Portales has one of the oldest histories of irrigated agriculture on the Plains. Irrigation began there at about the same time it began around Plainview, Hereford, and Muleshoe in the "shallow water" country. Portales has been built on an all-agriculture economy, and except for the University there now, is wholly dependent upon farm income for sustenance.

The Valley is somewhat of a geologic freak in that the Ogallala sands from which the well water comes (the same as ours) are in a small and geographi-

cally definable "patch" running from the northwest to the southeast of the city, about 25 miles in length and about seven miles wide.

Within this area shallow irrigation water has been available for two generations, and it has been made good use of. With the passing of time, though, the water table has declined further and further until now roughly only 30 feet of saturated sand remains. Engineers say that when the thickness of the saturated portion becomes less than 20 feet, it isn't practical to try to pump irrigation water, because the supply isn't strong enough.

Only within the past 10 years have the people of the Portales Valley been brought face to face with the facts of life. Many, like we used to be on the High Plains, thought the underground water inexhaustible and there was no concern shown for its conservation.

Now all that has changed as the end is in sight and the people ponder what to do. In the case of Portales, engineers are telling the farmers that they must find another source for their water if they wish to continue to irrigate for any length of time.

A sandhill pumping system is proposed whereby wells in those areas would supply water through feeder lines to cropland in the Valley. This system would resemble in many respects the domestic system installed two years ago by Lubbock. As a matter of fact, the two installations would be in the same pelt of sandhills.

Admittedly, this is not a permanent cure. It would prolong the supply for an estimated 40 years. Its cost has been estimated to be about five million dollars.

Whether the farmers will buy this or not remains to be seen. But, we repeat, the decisions that our neighbors make regarding the dilemma facing them can be valuable lessons to all of us here on the more generously endowed High Plains.

They had about 80 to 100 feet of water sands to start with. We had from 200 to 225 feet (our part of the Plains) to start with. Although our resources were twice theirs from the beginning, our problems will eventually be the same. It is only a question of time.

Meanwhile, what's that argument again about how it just isn't worth it for the farmer to keep every drop of his irrigation water on his field?

Cotton farmers if you are interested in knowing what the biggest market for your product is, we pass along this information for your consideration. For the second year in a row, men's and boy's trousers

has occupied the number one spot among the largest end uses of cotton.

We have not had ready access to such statistics and have always presumed that the biggest end product markets for our cotton would be such items as mattresses, sheets, pillow cases and bedspreads and possibly carpeting. However, it looks like the men in the family (if they still wear the pants), have the biggest say in what happens to our cotton after it comes from the gins.

Preliminary figures for 1958 as compiled by the National Cotton Council, show that men's and boy's trousers accounted for over 700,000 bales of cotton. Other big users in the order of importance are men's and boys shirts, 620,000 bales; sheets, 443,000 bales; towels, 372,000 bales; and drapery and upholstery 347,000 bales.

The Cotton Council says that our favorite product has scored

some gains during the past year in the apparel and industrial uses and has maintained the previous year's share of the household market. Total consumption was something on the order of 7 and one half million bales.

It looks as if the synthetic fibers industry has about reached bottom on their price cutting strategies. We read in business publications that both rayon and nylon are due to increase in price within the coming years. That will take some of the pressure off cotton, which has had a tough time meeting the price offered by synthetic manufacturers during the past five years.

Any improvement in cotton marketing prospects is good news to the farmers of the High Plains, who would, at the present time at least, be very happy to double or even triple their acreage of cotton.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

If you're planning a substantial meal for a group, whether you wish to serve it indoors or out, Hot Dog Sandwiches are very good. If you like to you can heat them in the oven or if you're cooking outside, they may be wrapped in foil and placed in hot coals.

- HOT DOG SANDWICHES**
 1 large onion
 2 large cloves garlic
 2 pounds hamburger meat
 1 pound longhorn cheese
 1 small can tomato paste or puree
 1 small can California Italian peppers
 24 hot dog buns
 Sear onions and garlic together in small amount of fat. Add hamburger and cook until meat is done. Add tomato paste and cheese, cooking until the cheese melts. Open buns in boat shape and fill each bun with above mixture.

Place on cookie sheet and cover with waxed paper and place in moderate oven to heat. Serve hot.

Another indoor-outdoor dish that would go well with the Hot Dog Sandwiches is:

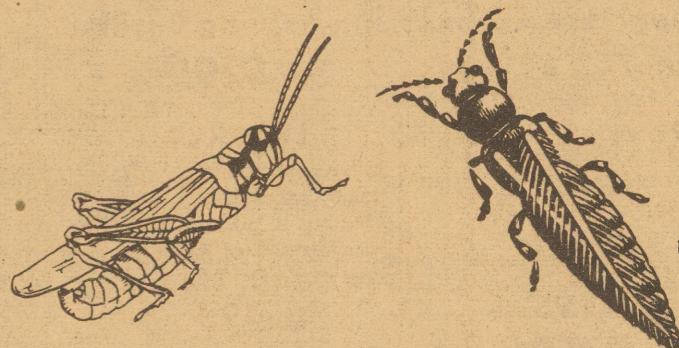

- GERMAN POTATO SALAD**
 4 medium cold boiled potatoes, peeled and diced
 4 large hard boiled eggs, diced
 1/4 cup vinegar
 1/4 cup salad oil
 1 cup bacon, diced fine and fried crisp
 1 large onion
 1/2 teaspoon salt
 1/2 teaspoon pepper
 1/2 of small head lettuce
 Mix all ingredients together thoroughly except lettuce. Just

before serving shred lettuce and add to the mixture.

Those of us who plan to make most of the things needed for our daughters for school this fall need to be doing more than just planning. Educators generally agree that the most suitable thing to wear to school is something simple.

With all the pretty materials we have to choose from this fall, there is really no need for much additional trimming. Most of us with first grade daughters have a natural impulse to want to go "all out" for dressing them up.

NEWS FROM THE FARM BUREAU
BY RAYMOND EULER

The Weed Committee and their volunteers reported to the State Highway Department

in Bovina Monday morning. They had made surveys of various areas of the State ROW for locations of bindweed. Lloyd Killough and his crews will begin treatment of these areas soon. If you, a farmer, have patches of the weed extending out into the right of way, you are expected to treat those in your field. If you will do this, in cooperation with the

Highway Department, eradication can be completed in a reasonable length of time. Raymond Schueler, chairman, and others on the committee will appreciate your reporting any bindweed on any roads or adjoining the rail road right of ways. Then they can report them to the proper people for treatment.

From the Waco Farm Bureau Office, we have been informed that the Attorney General in Washington has ruled in favor of the Labor Department's proposed regulations on recruitment and employment of farm labor. This does not prevent further Court action, however.

The Texas Senate adopted a resolution commending the members of the Texas Congressional delegation in Washington (House of Representatives) for passing State's rights legislation that is now pending in the United States Senate, and urging Texas Senators to vote for this legislation. Texas and American Farm Bureau are supporting this legislation strongly, too. You will remember that Senator Lyndon B. Johnson voted against this bill last year, preventing its passage. You may want to write him a letter.

Mr. Clyde T. Ellis, manager of National Rural Electric Cooperative Association, has been reprimanded for claiming to congressmen that the four million REA members were opposed to passage of HR 3, the States Rights Bill. You REA members may want to let him know how you stand on this, too. Earl J. Shiflet, Executive Director of the Virginia Association of Electric Cooperatives, sent a statement to congress denying the reported opposition of the states REA.

Some of you have not yet claimed refund of the road use tax on tractor gas.

CONSIDER THIS: As a roaring lion, and a ranging bear; so is a wicked ruler over the poor people. Prov. 28:15

For best results, select fresh, tender vegetables right from the garden or market while they are at the right stage of maturity for eating.

Other factors that influence quality are preparation, packaging, freezer loading and length of storage.

Latest information on how to freeze, and how to cook frozen foods is given in extension bulletin, Frozen Foods . . . Get a copy from your county home demonstration agent's office.

I have just finished freezing a bushel of peaches. They came from the Chitwoods peach orchard near Wichita Falls. They are real fresh and are a good variety for freezing. I am proud of them. They are the first fruit that I have frozen this year. I can hardly wait to start on vegetables.

I had a birthday this week and have decided I will keep having them. Some friends gave me a party in my office during the coffee break. Mrs. Wilfred Quicquel cooked the best chocolate cake. I thought that some of you might like to try it too. Ours was still warm when we ate it.

NEW FUDGE CAKE
Grease and flour:
2 9" pans
or 13 x 9" oblong pan
Sift together:
1 3/4 cups sifted all purpose flour
2 cups sugar
2 tsp. baking powder
1/4 tsp. soda
1 tsp. salt
Add only this small amount
1/4 cup soft shortening
Pour in all of
1 1/2 cups milk
1 tsp. vanilla
Beat 2 min.
Add:
2 eggs (1/3 to 1/2 cup)
4 sq. chocolate (4 oz.),

melted
Beat 2 min.
Stir in:
1 cup nuts, cut-up
Pour into prepared pans.
Batter will be thin. Bake until cake tests done. Cool. Finish with Fudge or 7 min. frosting.
Temperature: 350 degrees (mod. oven).
Time: Bake layers 30 to 35 min. or oblong 35 to 45 min.

BRIEFS FOR FOODSHOPPERS

While shopping the meat department -- look for best beef buys on pot roast, beef liver, ground beef and round and sirloin steak. Best-pork values include bacon, hams, picnics and sausage. Fryers are still the biggest "bargain" in most meat departments.

Eggs are the protein economy buy this week as they have been for the past month or more . . . Plan to serve them in different ways.

Fresh fruit items are increasing in numbers as the season moves along. Peaches, mostly from Arkansas just now, are small in size but of good quality and they are moderately priced. Bananas and pineapple are attractively priced in most grocery stores. Nectarines, seedless grapes, cherries and apricots are still wearing relatively high price tags.

Fresh vegetable supplies are good in most markets . . . Yellow squash, cucumbers, several varieties of peas, green beans, yellow onions, carrots and new crop red potatoes are featured in tempting displays. Locally grown bell peppers, okra and egg plant are in moderate supply at moderate cost.

MAKE THE MOST OF CANTALOUPE
Make the most of cantaloupes while they are in plentiful supply and of top quality. Besides being nutritious and tasty, cantaloupes are low in calories, according to Louise Mason, extension foods and nutrition specialist of Texas A&M College. Half of a melon 5 inches in diameter, contains

only 37 calories, yet it yields more than the full amount of vitamin A as recommended for daily consumption by the National Research Council on Nutrition. As a starter for breakfast, serve cantaloupe halves with wedges of lemon or lime - with maybe a dash of salt. To chill, place melons in a plastic bag or slice and store in

a covered container. This prevents cantaloupe odors from spreading to other foods. Half of a cantaloupe also furnishes more than half of the daily allowance for vitamin C or ascorbic acid. That's important because this vitamin must be supplied in foods each day because the body cannot store the extra supply for future use.
