# Ed Dear - School Board Candidate Gives Reasons For Seeking Post

In this modern day, when the American public pays a known draft-dodger \$2.5 million to get into the boxing ring. I think it is time for the citizens of Spearman to stop long enough to ask some questions. Judging from our progress the last ten years, we have definitely set a negative trend. Even though we have Baker & Taylor and Gifford-Hill our population was less in 1970 than it was in 1960. We need growth. So, may I So, may I ask, can't we all work together, both in our community and in our school, and make Spearman a better place to live. And who has more bearing on what kind of community we have than our school students. They are the

backbone. I have but one reason or purpose for wanting on the School Board. The betterment of our young men and women is my main concern. So, if I may, I would like to share an idea or two with you. Maybe we can work in one direction toward a positive line of

I have done a lot of visiting with students and teachers. It is my opinion, after these visits, the school spirit in Spearman High School is probably at an all time low. Don't take my word, ask some peo-ple involved. We all know that we have a girls' basketball program second to none. Even though they won State and lost only one game, they did not get the following they deserve. Our boys basketball team had a good year, and certainly the town wasn't behind them. Now, let's mention our football program. Our varsity was 8 & 2 and at Homecoming the reserve stands were half full. Shouldn't this tell our town and our School Board something is wrong and we need to do something about it?

I know taxes are high. But I also know that we cannot receive any more for our tax dollars than the ones invested in our young people. If we will all be honest with ourselves, we would admit our football facilities are no better now than they were twenty years ago. Most other schools have up-dated theirs, why haven't we?

One other thing to think about. There is not a teacher shortage today. I think we could enhance our system by putting in some new personnel. The majority of our teachers are tops in their fields, some are not. Enough on that.

Briefly, here are several things that we could benefit

More involvement and interest by adults in our school.
Intramural boxing. Girls, track, both properly coached.

A speech department that would involve more students (not just a select few). The removal of the 50¢

charge assessed students to ride the activity bus to games. We need to stimulate interest, not abolish it. These buses must be well chaperon-

Last, but not least, proper facilities, such a field house, track and ticket offices. Go by and look at our ticket offices. They look like they came off a farm in the Oklahoma strip. They are rotting away and look like they

haven't been painted in 10

Folks, have you stopped to think about what a great bunch of kids we have in Spearman? I want this to last. Let's show them we care. Let's do for them what most other communities have already done. Stop and think how embarrassing it is on these kids to have out-oftown schools come to town and see our fabulous school and our non-existant football plant.

I see the problem. We sall can. Andwith a little lead ership and proper planning, we can return our school system to where it should be.

I feel I can help. Give me a chance. At least you will know where I stand. Off the record, why can't

we have a Teen Town in Spearman?

# CHALMERS PORTER SEEKING RE-ELECTION TO SCHOOL BOARD

THE SPEARMAN REPORTER, Harsford County, Texas 79081

I am standing for re-election to the Board of Trustees of the Spearman Independent School District.

I solicit your vote in the school board election on Sat-

urday for 2 reasons: 1.) Our schools, measured by any yardstick are a long way above average -- for instance, in routine testing in the Jr. high, Spearman students score far above the average of schools all over the U. S. In the District Spring Meet the past 2 years, Spearman has won sweepstakes (scored highest) in both literary (scho-lastic) and Overall (scholastic plus athletic) competition-and besides that, our students won Literary Sweepstakes in Regional competition in both

of these years. We've also had more finalists in the National Science Fair the past 3 years than any school our size in the country--seven. This speaks very well for the educational program in our schools. The main responsi-bility for this outstanding record rests, of course, with the students themselves, and with the professional staff of the school system--but I do claim 1/7 of whatever credit is due

the present Board. 2.) The experience I have gained in the past 3 years can, I believe be put to good use on behalf of the School District, if you choose to return me to the school board.

See you Sunday

All you golfers will be surprised to know that Spearman's Mrs. Roy (Harriett) Wilmeth is going to Scotland with America's Walker Cup team. She has had a special invite! I know this bit of news has

made the avid golfers green with envy. I'd give my "base-ball grip" for such an oppor-

tunity myself. Needless to say, Harriett is not "on" the team, she will just be "with" the team. One of the ten men from all over America selected to play with the WC team this year is her son-in-law John Farquahr of Amarillo. Golfers who have kept up with John's career know that he has made quite a name for himself (and Amarillo.) Since he married our own Caroline Wilmeth, Spear-man claims half of all John's publicity and fame. Being elected to play with America's Walker Cup team is a dream come true for John. This is the one thing he has always wanted to do. The ten men from America will meet Britain's 10 top amateurs in St. Andrews, Scotland May 26 & 27 for the tournament. May 27th is John's birthday, and it will be a great one for him. We hope he makes

seeing trips they can possibly make before the tournament. After the Walker Cup is over, American golfers will then participate in the British Amateur which is scheduled for the first week in June.

I do hope Harriett has more luck entering Scotland than she has had leaving the Panhandle. In getting her passport papers ready, she has been given a real tun-around. At the Spearman courthouse, they told her to take these forms to Perryton. At Perryton, they sent her to Borger. At the travel agency in Borger, the woman assured her that all this type of legal work was done at the clerk's office in Stinnett. She finally scored

at this last stop. Before leaving the subject of golf, it might interest you to know that they have been playing the game in Scotland since before Columbus discovered America!

IN A NOTE THIS week from the Senior Vice President of the Financial Service Corp. of Lubbock, he fills us in on some of the things which have been happening to Mr. and Mrs. A.L. Wilson, Jr. former Spearmanites. A.L. joined Financial SC in 1969 and since that time has become one of the leading men in the nation for that firm. His activity has been such that this company has awarded him a 1971 Cadillac, sent him and his wife Bobbie Jean (Lackey) to Rio de Janerior on an all expense paid vacation, and honored A. L. nationally as one of the great salesman in this country. In 1970 A.L.'s personal business resulted in over three million \$ of life insurance sales and one million 8 worth of investment sales.

Mr. Kingsbery said "we at F.S.C. are proud of A.L. and Bobbie." We in Spearman are too, and wish for them more of

the same...
ALL OF YOU MEN, who have secretly yearned to grow a beard, now have your chance to do so with a clear conscience. Several of the he-men in Spearman are growing beards for the upcoming celebration. This would be a good opportunity to let your hair "down" a notch or two at the same time.

In conservative communities such as ours, most men with-out some sort of beard or longer hair are either those who can't grow any, or belong to the group that believe long hair has "rebel" or "liberal"

the only way you can get away with long hair is to be somebody famous, somebody under 21, or a female. All you papas who think long hair makes something evil out of your son can now grow some for the Celebration--- and see for sure if it really changes your per-

sonality.

Reminds me of the sign posted in Gordon's Drug store which reads" The only way you can avoid criticism in this town is to be nothing, do nothing and sav nothing.

One thing. if you decide to grow hair & a beard, don't plan a trip to Indonesia. Just recently that country ordered its embassies to deny entry visas to "long-hairs" in order to protect Indonesia from foreign culture."

The future concerns you. What do you know about it?

It appears sometimes that there is nothing about which man is not already widely informed or about to make discovery. But there is one thing - the future.

A recent article in a national magazine made passing reference to the "fact" that science is in the process of resolving "the few remaining mysteries of life."

Well, to that writer and to any like thinkers I propose a simple test: prophesy tomorrow. But before you do, let me make clear what I mean. Foretelling the future can be performed on four levels.

Prognostication

The lowest level is prognostication. When a physician indicates, after a physical examination, that you will "get well" or "get worse," that's prognostication. Prognostication is a relatively simple process of anticipating future events on the basis of present irresistible causes. Its simplicity arises from the fact that the observer has seen all this happen before and he knows by experience the events that necessarily follow.

Projection A bit more difficult than prognostication is projection. When a business decided to produce 15 per cent more rubber balls over the next six months than it did in the previous half year, its conclusion that that many more would sell was arrived at by projection. Projection is a process of second-guessing the future on the basis of selected present indicators that, applying appropriate principles and suggest certain formulas, events. But they are not always reliable. The Hudson Institute claims it can give "surprise-free" projections, but there are

# Senior Citizen **Portrait**

COLLEGE STATION -- A Senior Citizen's portrait contest for Texas residents 65 years and older has been announced by the Governor's Committee on Aging, reports Miss Minnie Bell, Extension family life ed-

ucation-aging specialist at Texas A&M University. From the contest, the state's entry in the cover design compeitition for the National White House Conference on Aging will be selected.

The national winner will receive an expense-paid trip to the White House Conference on Aging to be held in Washington, D.C., November 29-December 4. According to Mrs. Carter

Clopton, Executive Director of the Governor's Committee on Aging, it is felt that the portrait of an older American can best be incorporated into the program cover. Figure drawings or paintings which express the age and personality of the subject are also acceptable in the competition. However, the effectiveness of the message is more important than the method.

Open to all senior citizens over 65 years of age prior to December 31, 1970, the contest is not limited to amateur artists. Senior artists who normally sell their work may compete, but their entries may not be available for sale during the competition time.

The media is not restrictedany artistic method, whether color or black and white, which will lend itself to reproduction as a program cover may be entered. The size of the entry, however, is limit-

# 8th Grade Wins Boys Ranch Track Meet

The Spearman 8th grade came through in fine style as they won the Boys Ranch track meet held at the Ranch

Saturday.
Donnie "The Dragster" Davis, set all kinds of school records at the Ranch. It is hard to believe but look at this unbelievable record: Davis won 1st in Broad Jump, with 17'6" 1st in 60 yard high hurdles 9.25; 1st in 100 yard low hurdles with a time of 12.5; and 1st in the 220 yard dash with a time of 25.6. The 100 yard low hurdles run was a Boys Ranch track record.

Adding to the teams total score, Mike Tucker won 2nd in the 440 yard dash with a time of 59.7.

William Porter won 2nd in the 880 yard run with a time of 2:22. Chris White won third in

## Spearman Golf Team May Be Top AA Team In State

Coach Mickey Owens boys golf team could be one of the top teams in the state. They will know for sure by Sunday morning. The fine AA golf team will be competing in the Amarillo relays this Friday and Saturday, against the top AA teams in the state, from Denver City to Dalhart.

The past week the team had a practice match against Stinnett with the game played on Phillips Country Club golf course. The Spearman team defeated Stinnett 320-388.

The annual Sanford Fritch tournament was held in Borg-

er with the Spearman A team winning 1st place with a 309 score; Phillips was 2nd with 349; Fritch 3rd with 351; Book-er 4th with 359; Stinnett 5th with 373; White Deer A team 6th with 399; Stratford 7th with 432. White Deer B team 8th, with 449; Stratford B team 9th with 449. Tony Har-per and Phil Windom tied for Medalist honors, with the best score in the tournament, and Tony won the play-off with a birdie 3, on the 2nd hole of sudden-death play.

Out of 45 players in the tournament, 1st medalist went to Harper, 2nd to Windom, 4th to Jr. Salinas, and 5th to Pat Sloan, with Mike Floyd coming in 7th.

Team scores: Tony Harper 73, Phil Windom 73, Jr. Salinas 81, Pat Sloan 82, and Mike Floyd 85.

On Monday March 29th, the B team played at Booker, Hi School tournament. Spearman was the only B team in the tournament and they won 2nd place, with a score of 364. Booker won the tourney, with a 348, Follett 3rd with 384, Beaver 4th with 388, and Higgins 5th with 442.

Individual scores in the tournament were Martin Hendrick with 87; Kenton Benton, 91: Randy Denham 92: Scott Latham 94: Edgar Womble 95: Billy Hazelwood 92 and Ron-

VOTE

It's PIONEER. again this year. Here's why:

For maximum profit, Pioneer brand 9178 is the best hybrid you can plant for corn silage. That's what Stratford Feedyards found in a performance test of 19 corn varieties last year. In this official county agent test, Pioneer brand 9178 had the highest yield--over 25 tons per acre--and the best income per acre-\$189.38 per acre. This was \$25.78 an acre more income than the median yield for the test and nearly \$65 an acre better return than the low-est yielding hybrid. When you consider that all 19 hybrids received the same amount of fertilizer, herbicide, insecticide, and water, you know what those extra dollars per acre mean--pure profit. So, when you select a hybrid for your corn silage crop this year, think about that extra profit. See your Pioneer dealer right away and get the 9178 seed you need.

# Passing of An Old Land Mark

Saturday morning April 10th at ten a.m. the auctioneers chant will be heard at the comer of Hancock and Main Street in Spearman. Spectators will hear the voice of Quinton Jenkins, well known Panhandle auctioneer as he puts the contents of the Old Brandt building under the ham-

What are the contents? The history of the building will give you a clue as to some of its contents. It was built in Old Hansford around 1914 to house the firm of P. M. Maize and Company. This was a general store selling everything offered by general stores of that era. Mr. Fred Brandt Jr. was connected with the firm and in 1919 (when the town moved) the owners moved the building to its present site

According to one old timer on the local scene; "That building was put up by a Mr. Dillow who was a top notch builder. When a two by four would do the job he would use a two by six and when Dixon stipulated yellow pine, he meant it had better be yellow pine."

Mr. Brandt added a line of groceries to his wares upon establishment in Spearman however groceries have disappeared from any of the remaining stock.

In 1946 young Billy Brandt came out of the Navy and opened a sales and service operation for radios and tele-vision sets. Many old radio and TV sets are still in the

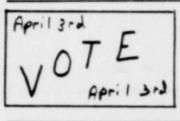

store along with numerous tubes and parts. Among the contents to be auctioned is a huge coal stove. This old stove is still in excellent condition and, if you look in the catalog from which it was purchased, you'll note that it's described as the largest heating stove built

in the entire world.

Other contents? Buttons, bows, phonograph records, bottles, jars, old shoes, handkerchiefs, store fixtures, old captain's chairs, socks, old books and many things you

haven't seen for a long long time.

What happens to the lot and building? They too will be sold at auction. After that, who knows what will happen to the old building? Will it be just another passing of an

# George Is Dead. Friends Carry On

May he now rest in peace. For until his untimely in George was overworked and underpaid.

George passed away Tuesday morning at a most incurrent time. It seems as though nearly everyone in Sper man has been relying upon him to do their jobs, This time they were expecting him to single-handedly man an overwhelming success of the 1971 Hansford Count Celebration. And George very inconsiderately died, many of the activities and plans for the Celebration go left undone--many have already been cancelled b cause no one is interested enough to become actively volved in the planning and promotion of the one bij tivity which involves the entire county.

So--as a result of the death of "good old George", will be no game booths at the celebration. The "fu games" will be severely curtailed. Plans are still under way for the rodeo, Bar-B-Que, Old Timers Reunion, Beauty Contest, and, hopefully, a parade on Saturday morning and the dances. Some of George's close from hope to keep the Celebration alive at least through) 8, 1971. What will happen after that is anyone's gu Unless George is miraculously resurrected it appears

though the 1971 Celebration may be the last.

Please remember, kindly, good old George. He did
mean to die. He just gave up the ghost under the strait
He leaves behind many who cussed him, few who help
him and none who will miss him.

# Federal Tax Bite \$3,058,000 Locally

Taxes are again in the spotlight in Hansford County, what with the day of reckoning, April 15th, just around

the corner.

Uncle Sam will be present that day, hand extended, to receive all offerings in the form of personal income tases based upon 1970 earn-

The big question in each taxpayer's mind, as he struggles with the various forms and schedules he must fill out, is how 'ig the bite will be this time.

Last year, approximately \$3,133,000 in personal in-come taxes left the local area, bound for Washington.

This time, based upon Government estimates, the overall amount is expected to be somewhat less. This is so due to the favorable factor of a smaller surtax. 2½ percent, and despite the fact that many people earn-ed more money in 1970 than in the previous year. The reason is that there were many more people than usual who were unemployed.

As a result, the Government expects to collect \$88.3 billion in personal taxes, or \$1.9 billion less

than last April. Hansford County's share of the tax load was determined by an unofficial breakdown of the payments re-ceived from the State of Texas as a whole, which totaled \$4,475,000,000. Local residents contributed

\$3, 133, 000. This year, in line with the changed economic sit-uation and with the revised figures contained in the budget that was recently submitted to Congress, the personal tax returns from

close to 0.07 percent of

that amount, or about

the local area will be around \$3,058,000, it is esimated.

Large as this amount is, it may be the smallest sum they will be called upon to pay, on an annual basis, for some time to come.

The expectations for the next fiscal year, beginning July1, 1971, run consider-ably higher. The budget counts on personal income taxes reaching \$93.7 billion, which is \$5,4 billion more than at present.

For Hansford County residents to be able to carry their current share of that tax load and, at the same time, maintain their present standard of living, their 1971 incomes will have to be about 6.1 percent higher than they were

Seeking re-election to

Spearman School Board

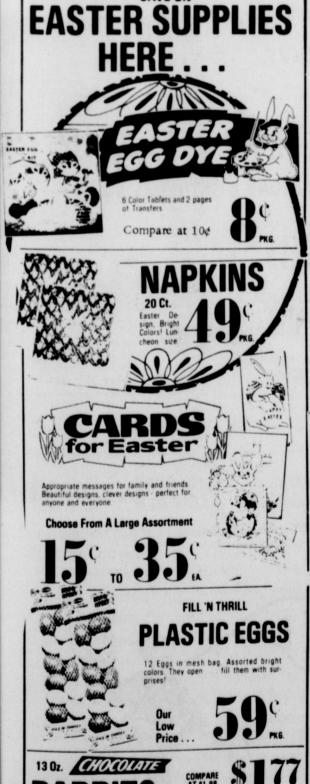

I believe the program in our school system is well-balanced and efficient, giving our students an advantage over others as they enter college or seek jobs.

The main reason for this happy state of affairs is that we have an exceptionally capable staff, both administrators and teaching personnel. Many of our teachers are unmatched from Dallas to Denver in their particular fields, and I mean to include the Elementary school, as well as Jr. & Sr. High.

I favor doing our best to see that we continue to maintain-and improve, where and when possible--our present program and staff.
