City Discusses Pool

The City Council met in regular session Monday night. City Attorney Dick Countiss was present along with one guest, Rev. Don Wirsdorfer.

Mayor Hackley stated that three applications had been received for the City Manager's job, and that he knew of two more they might expect to receive soon.

A special meeting has been set for 8 p.m. August 7 at which time all applicants for this position will be present for interviews.

Darce Foshee reported that work had been completed on city water well number seven, located at the east end of 7th street. The well was beginning to purip quite a lot of air into the city lines, due to the drop in water levels. An additional 60 foot of casing was placed in the well which will correct this.

Don Wirsdorfer spoke to the Council briefly about the proposed new swimming pool for the city. Wirsdorfer said he felt that Spearman badly needed this recreation facility and urged the council to consider a pool large enough for at least six lanes for competitive swimming. He said A. A. U. standard regulations called for 6 foot wide lanes, and that he thought 7 foot lanes would be even better. Don is the instructor for a competitive swimming group now, and at various league

meets, often around 500 stu-

dents attend. Such a facility would be used like this in Spearman, and would the serve the youth of our community to great advantage, as well as offering pleasure to adults, Wirsdorfer said. He thanked

the council for permitting hin to use the pool for teaching competitive swimming. The council reviewed a contract from the Oklahoma City swimming pool firm. This com any is made up of

an engineering firm and a building firm. The City had retained the Engineers to study swimming pool needs for Spearman: size, location, cost, etc. and the contract presented Monday night was to finalize the legal agreement so this study could begin. The Pascal Paddock firm will not bid on the pool unless requested to, and the City would request bids. If the pool bid was let to another firm, Pascal Paddock Engineers would charge \$500.00

for their study work. If that firm got to build the pool, a flat 6% of construction cost would be the only charge to the City.
This was not clear in the contract, so Attorney Countiss felt this needed to be understood before the contract was accepted. The council felt the discrepancy in word-

ing was a small matter and that work on this could be underway soon. August meeting dates were

Cafeteria Workers **Attended Meet**

SAN MARCOS -- A group of Spearman school cafeteria workers participated in the 24th annual summer food service workshop last week at Southwest Texas State Univer-

The Spearman lunchroom workers, from the Spearman Independent School District, were among more than 450 from cities across the state. The SWT's school lunch workshop, sponsored by the university's Home Economics Department in cooperation with the U.S. Department of Agriculture, he Texas Education Agency and the San Marcos school system, is the state's oldest.

Each summer, workshop participants get a concentrated short course in a variety of aspects of food preparation, lunchroom management and supervision during their weeklong workshop.

The Spearman lunchroom workers participating in the workshop conducted on the SWTSU campus and at Goodnight lunior High School in San Marcos included: Edith Ann Cage of 204 S. Lonita; Ruby Riley of 205 W. 12th: Olgar Gafford of 719 Cotter Dr.; and Doris Wilde of Spearman.

Mrs. Gafford and Mrs. Wilde are considered "oldtimers" to lunchroom workshops but this is their first time at the SWT workshop.

Visitors in the E.S. Uptergrove home during the past week have been their granddaughter Mrs. Norma Titus and Jana from Amarillo; his sister Marva Hataway and his niece Mr. and Mrs. C.A. Morgan and Billy of Sunray. Their granddaughter Jolene Hale of Roscoe, Texas spent the week with them. Their daughter, Mr. and Mrs. J.C. Miller and David of Borger were Sunday guests in their home.

GOLFERS ASKED TO "TAKE a SWING" FOR A SCOUT

AMARILLO -- The month of August has been set aside as Take a Swing for a Scout Month" by the Llano Estacado Council, Boy Scouts of America, and all member clubs of the West Texas Chapter of the PGA are taking part.

Every golfer living within the confines of the West Texas Chapter can participate and support Scouting at the same time. Each time a golfer visits his course and plays a round, he pays a \$1 entry fee, plus his regular green fees. Followint eht round he records his score on the master score sheet.

The tournament, which will last one month, is patterned after National Golf Day play. All proceeds go to the Boy Scouts of America.

From the master schedule of the course played, the five low net players will be given the opportunity to play two final rounds on the weekend of Aug. 26-27, on their home course. Each contestant will use full handicap and play for three low gross trophies and three low net trophies. Prizes will be given to the 25 low net scores. Each entry will receive a ball marker for playing in the tournament.

Five alternate players will be selected from each course as back up for the playoff in the event of some cancellations with any of the first five players.

Entry fee for the final two rounds is \$4, plus green

There are 62 golf courses in the West Texas Chapter of the PGA, ranging from such places as Pecos, Ozona, Abilene and Odessa to Perryton, Dalhart, Stratford and Farwell.

THURSDAY, JULY 27, 1972 Greyhounds In Tough District

The Gruver Greyhounds, facing the toughest District 1-A alignment in the schools' history, will be ready to play come September, according to most observers, Re-alignment, however, had made district 1-A the toughest in the state, Gruver stadium capacity is 1000 and new track facilities and new bleachers have been

with the addition of the Stinnett team. Former Spearman resident, Dennis Cobb, is leading the Rattler charge, and they almost won the AA championship last fall.

As most Gruver football fans know, the Greyhounds are facing a tough rebuilding situation, as they lost some 16 seniors to graduation. However one of the best prospects returning this year is Andy Hoel. The big, 195 pound Hoel, should be a "Wheel Horse" in the Greyhound team. Probably the quarterback slot will be filled by both Bruce Knight and JimTaylor. These are also outstanding boys in the Greyhound den, Rounding out the Grey-hound backfield, will be Billy Boone, Gene Brooks and Phil Gross. There are also other five members of the team in the following tentative roster: Bruce Knight, Jim Taylor, Andy Hoel, Carlos Cazares, Billy Boone, Gene Brooks, Phil Gross, Juan Renteria, John Gibson, Wesley Bontke, Chris Johnson, Gregg Breland, Larry Hicks, Bob Davis, Randy Messer, Mike Kimbrough, Dustin Frazier and Frank Griffin.

This week's column will contain a lot of the news that went on at the Rotary and Lions Club meetings this week. First, on Monday, the new doctor, Dr. James Thomas was the guest speaker and of course this was a fine time for the Rotarians to get acquainted with him. Also, the new foreign exchange student from Spearman, Kerry Evans, was discussed at both the club meetings. Kerry is the son of Mr. and Mrs. Sid Evans and has been working six years to get the chance to go to some foreign country and go to school. He is one of the finest young men that I have ever known and his family is a typical oil field family that moved to Spearman and have added so much class to our society. Anyway Kerry is heading for Brussells, Belgium, August 5 and will arrive with his new family there August 21st. He will attend his junior year there and will be back in Spearman his senior year to tell all of us about his experience in Brussells. The Lions Club voted to give Kerry \$100 toward this worthy project. The Rotary Club is also donating.

The tentative date for the Lions-Rotary golf tourney is Thursday August 17.

Miss Hansford County, Debra Clawson, will enter the Top-O-Texas Beauty Contest in Pampa, August 12. The contest will be held at the airconditioned M.K. Brown auditorium in Pampa and Debra is expected to win this contest.

Bose Lion Bob English received a letter from the library thanking the club for buying the master viewing lens for the folks at Pioneer Manor. This enables them to read small

Lion Ab Abston was back at the meeting Tuesday and everyone enjoyed seeing him doing so well. However, there is one note of tragedy in Ab's hospital tour. As soon as he got home, his dog ate up his false teeth and he is having a rather tough time eating these days.

Dean Weese gave the pro-gram, presented by program chairman Everett Tracy, at the noon meeting of the Lions Club Tuesday. He gave an outstanding program on girls summer basketball programs. Dean was at the clinic in Lindsey, Okla, when a tornado hit the town and just about tore everything up. None of his girls were hurt though as they were eating in a basement at the school when the tornado struck.

Patients in Hansford Hospital are Victor Taylor, Sendy Snow, Roy Gene Boyd, Wilton Youngblood, Ethel Hester, Lin-da Catlin, Carole Stumpf and

daughter. Dismissed were Cecil Hand, Charley Hoggatt, Lela Campbell, Lloyd Finley, Dorothy Wyatt, Omar Hayes, Clyde Owens, Reba Ellison, Richard Booth, Lois Miller, Lucy Terry, Hiram Wilbanks, Arnold Bogle, Clara Mae Jackson.

Go To The Church Your Spearman . .

Baseball is one of the few experiences of life in which you learn immediately and unquestionably whether you're safe-or out.

In other pursuits we can go on for years thinking we're safe when we're not.

Of course, in life as in baseball it is what a man attempts and decides to do, and how well he fulfills his aim, that determines whether he'll be safe. And in life, too, each venture calls for determination and a knowledge of the rules.

For many youngsters in our community the church is the sandlot of life. In the church's youth activities they find their training and experience—for one day on the "diamond" of life they'll be making decisions and pitting their strength against serious challenges, relying on the religious convictions and moral principles they gained on the way up.

In weighing your child's need of spiritual development remember this: In life, each day doesn't offer a new ball game!

The hottest thing on the Wall Street market right now is the bicycle industry. Looks like manufacturers are not going to be able to build enough cycles to keep up with the demand for a long time!

Everybody is riding bicycles. Even WE got bit by the bug. But just try to buy a used bike, the size adults ride. You can't do it. I tried for weeks. Bob Steart, who has all sorts of bicycle parts which he assembles into whole bikes in his spare time, cannot put them together fast enough. He sells everyone he erects and has calls every day for more

A television news cast this week said that bicycle sales had far outnumbered auto sales in the U.S. this year. Can you imagine?

A quick check with Spearman merchants who sell cycles revealed that at least 235 bikes have been sold just this summer-they can't get them in fast enough. And for teenagers, the 10 speed bike is the one they are asking for. These expensive little gadgets are really wheeler dealers. They are a little speedy, and a might too fancy for adults however. Us biggies want the simple, old hard-topedal models. For the exercise. Besides the sales of brand new bikes, I don't know of the people who have gone to other cities and bought used ones, or fixed up the one which had been stored in the garage for

the past 10 years. We ride every evening..and the daily exercise has improved our distance considerable. We cover 3 to 4 miles easy now, with no effort at all, if you don't count speed, that is.

Sears order store said they had sold scads of the child carriers for bikes. This way, mama can enjoy riding and take the tiny-tot along too. This

does away with baby sitters.

It didn't take us long to see how important it was to have headlights, for after-dark riding. I barely escaped being hit by a car one evening myself, and I don't know how many close calls I've had in my car. You simply cannot see a bide rider after dark. Riders are breaking the law after dark with no head light, just as much as wreckless autmobile drivers do. We see dozens of youngsters out at night with un-lit bikes. It's dangerous, and you parents better make them park their bike when the sun goes down, or light it for them one. I don't know of the people who have told me of close calls they've had--near-ly hitting a child on a bicycle

The exercise is great, and I highly recommend it. Makes you feel good, and increases your appetite out of reason! This could help you skinny people gain weight...hasn't done much for the fatties I can tell you.

According to Dr. Stillman, you burn up 4 calories per pound while engaged in energetic riding. Moderate bicycling only uses up 1.6 calories per pound. A 160 lb. man would use up 640 calories per hour of energetic riding. Mod-erate walking burns up only 1 calorie per pound, outside of rowing a boat (which burns 6 c. per lb.), bicycling is the best form of exercise there is. Even better than running, which burns 3 calories per pound. It has to be energetic riding though. I'm afraid our riding cannot be clissified "energetic". I doubt if it is even "moderate," More like a stroll around the block, with several

stops in between. don't figure to lose any weight riding bikes. But just think of the expanded lung capacity, not to mention the

bulging thigh muscles. hear every day about the accelerating prices. This is one item which hasn't gone up one iota in price in the past 75 years! I have the 1897 issue of Sears Roebuck catalogue. Right now, you can buy a real good 26" bicycle for close to \$40.00. 75 years ago Sears listed them for \$39.98.

Dear Billy & Sybil and all our

We said we would let you hear from us, so here goes. We are at Bentonville, Ark. Are enjoying the country as much as we can, it has rained so much wince we got here haven't got to see much. Went to Beaver Lake today, sure is a beautiful place to camp, the camp grounds were filled.

People from every state I think.
Oh, if you just had the lovely trees there, that we see here.
We are fine so far. At Foss Lake, in Okla. we just about got blown away, but didn't have too much damage. They can have that place as far as I am concerned. I am concerned.

Pop has him a job, working 4 hours at night. Don't know how long he will work.

We are staying in Mobile Home Village, Lot 6, Box 6, Bentonville, Ark. 72712. Hope the old TOWN is still doing well. We miss our friends there but have met a lot of nice people along the

way, so far. All our love to all, and best wishes to all. Loleta & Albert Latham

Dear Editor:

I would like to take this time to let you know how much that I appreciate the time that you allowed me in writing my articles for your newspaper, and that I count it an honor to have done this for you and also for the Lord Jesus Christ. I pray that you will allow

the next preacher to do the same and that he can be of help to the people for the Lord. Again I want to thank you for the honor that it was.

JUVENILE DELINQUENCY PREVENTION ACT

Juvenile crime in this country has reached very serious proportions in the last decade. Arrests of juveniles for violent crimes have increased by 167 percent. Arrests of juveniles for property crimes, such as burglary and auto theft, have jumped 89 percent. Almost two-thirds of all arrests for serious crimes are of young people under the age of 21. Our failure as a nation to deal with this crisis is tragically clear. The rate of repeated criminality for institutionalized delinquents is the highest of any age group--between 74 and 85 percent, Many if not most

In an effort to combat this tragic situation, the House voted last week to extend the Juvenile Delinquency Act for two additional years and to refocus its program on the prevention of juvenile delinquency. The House bill insists that efforts under this act must be tied intimately into the school

Purcell Speaks Out Against "Hides Controll"

Congressman Graham Purcell announced today that he plans to promote legislation to terminate the U.S. Commerce Department's authority to impose export controls on cattle hides.

Purcell explained that the legislation would be in the form of an amendment to a Congressional resolution needed to continue the Export Administration Act of 1969, now due to expire August 1.

The Commerce Department announced last week that it plans to impose export controls on cattle hides effective : September 1, even though it currently does not have the legal authority to put such a program into effect on that date, urcell noted. He pointed out that the Ex-

port Administration Act, extended for one month by a resolution signed into law on April 29, provides the Commerce Department with authority to place export controls on cattle hides.

"The Administration has made the claim that imposing controls on cattle hides will lower shoe prices, but that is simple not true, " Purcell said, The hide accounts for only a small fraction of the retail cost of a shoe and when hide prices went down, shoe prices were not reduced. Also, eliminating competition from imports would increase the prices of shoes. "What the hide export con-

trol program will do, if it goes into effect, is raise meat prices or push down livestock prices or both and cause further economic distress in rural areas, " Purcell added. "If a hide brings less money from an overseas customer, the packer must get more money for the meat from U.S. consumers in order to offset the reduced return from the hide, or cut back on the amount of

money he is paying for cattle.
"Also, it makes no sense at all to place curbs on U.S. exports when this country has experienced a deficit in its balance of trade for the first time in this century and needs mar-kets abroad, "he said.

New insecticide For Yards

HOUSTON, Tex. -- Dow Chemical U.S.A. today announced plans to market in Texas "one of the most effective insecticides yet developed for control of insects on lawns and a wide range of ornamental

The material, called Zectran, kills a broad spectrum of insects that attack home shrubs and lawns, according to S.K. Skinner, Houston, district marketing manager for Dow's Ag-Organics Department. These include snails and slugs on turf, shade trees, flowers and shrubs and such common pests as armyworms, cutworms, sod webworms, loopers, birch leaf miners, European pine shoot moth, tent caterpillars, redpine sawfly, thrips, leafhop-pers, whiteflies, mealybugs, lygus, and other plant bugs, aphids, soft scales and scale cravlers, mites, milipedes, and sowbuds (pillbugs).
Skinner said Texas formula-

tors are preparing to market Zectran to consumers under their own brand names but with labels which will identify the active ingredient as Zectran. The formulations include one for killing the white grub, a hard-to-control lawn pest that has ruined many lawns in the North Texas area.

Dow also is selling Zectran under its own label directly to distributors who supply commercial users such as nurseries and golf courses. Two formul-

ations are available, liquid Zectran 2E insecticide that's emulsifiable in water and normally is used at 1.5 quarts per 100 gallons of water; and Zectran 24W insecticide, a wettable powder used at two to three pounds per 100 gallons of water.

Skinner said Zectran is a carbamate. Unlike chlorinated hydrocarbons often used for control of these insects, it is readily broken down by exposure to air and sunlight and is not persistent in the environment. It is effective both by contact action and ingestion, yet has a short residual life. Zectran was introduced in

1963 then withdrawn in 1966 while Dow sought ways to solve production problems. It was returned last year for use by the United States Forest Service in spruce budworm control programs and only now is reaching the Texas market, Skinner added. "We're happy to get it here because we know it's good for many of the most bothersome pests Texas homeowners have to contend with.

GI Policyholders Take Second Look

The Veterans Administration this week urged all G! insurance policyholders to take a second look at the type of policy pay-off they have selected for their next of kin, Jack Coker, VA regional director, said today. VA warned that too many widows of GI policyholders are penalized following the death of their husbands upon learning he had selected small monthly payments over 36 periods. In some cases, Coker noted, veterans chose smaller payments for life

more than 25 years ago, and never updated their policies. GI policyholders who wish now to switch to lump sum payments should request Form -336 from VA and select option #1. This would allow widows to select monthly payments should they deem necessary.

Veterans were urged to mail the form to the VA insurance center where they pay pre-
