Pilot Walks Away After Plane Bellies In Field

"May Day, May Day, need emergency landing." The appeal came Monday 7 p.m. from a plane piloted by Kenneth Joe Phillips, 28, Midland, who radioed Webb AFB. He belly-landed in a cotton patch eight miles northeast of town.

By the time he had to bring the plane down, he was almost to Howard County airport but had to try for Highway 350. He overshot the highway and landed 250 yards east of the roadway in a sandy cotton

He said he wants a systematic transfer of responsibilities and of the tax resources to finance them.

"I am being misquoted in some news stories as saying my plan to transfer federal programs and their funding sources back to the states is a mistake," Reagan said in Janesville. "That story is totally inaccurate."

He also said there is no foundation to any account suggesting that he will drop the proposal from his lineup of campaign issues.

Reagan, in a speech in Chicago last September, said some federal programs should be transferred to the states and that this would mean a \$90-billion cut in federal spending. He has been asked repeatedly to explain this proposal during recent campaign appearances, especially about how the states would finance the programs.

Asked about it Monday, Reagan said. "I guess I made a mistake in the speech that I made in Chicago back in September This now seems to have been interpreted that I'm talking about whacking \$90 billion out, shutting off the federal government and throwing this burden back on the people. No. What

Michael J. Ward, communications director for Illinois Citizens for Reagan, said he thought the former governor was trying to back away from the \$90-billion figure.

"What he was trying to emphasize was the concept," Ward said. "I think he's sorry he even alluded to the \$90-billion figure at all. He simply feels there are some programs and actions that are better suited to the state level. It's not necessarily the \$90-billion figure at all. Many people focused on the figure rather than the idea of shifting these programs down to the state level."

A hint of this is contained in the authoritative British reference, "Jane's Weapon Systems," in its 1976 edition that has just been published. Editor Ronald Pretty writes in the foreword that the Soviet Union and the United States are in a head-to-head race to be the first to perfect a laser beam interception system.

The laser beam, the "death ray" of science-fiction, is an electronically amplified and coordinated light wave. The concentrated beam can melt holes in metal and through bricks. The beam can also be used to guide missiles to their targets when launched from planes.

The main difficulty in high-energy laser research is the tremendous amounts of power needed to operate the beam. The difficulty can be surmounted, though.

DEAR DR. GRAHAM: I have always been taught that it is our duty and responsibility as Christians to tell others what Jesus Christ has done in our lives and what He can do for others. Lately it seems that many Christians have placed little emphasis on this. Did Jesus command us to witness for Him, or is it something that He only suggested to a few disciples? O. L. DEAR O. L.: Jesus' command is

certainly explicit in Matthew 28:19: 'Go ye therefore and teach all While this was spoken immediately to His disciples, it is unquestionably meant for all Christians. The same idea is expressed in John 20:21: "As my Father hath sent me, even so I send you." Certainly we would need to go on further than the history of the early Christians to see this in action; when persecution hit the early Church we are told, "Therefore they that were scattered abroad went everywhere preaching the word" (Acts 8:4). Paul could say about the Thessalonian Christians, "For not only has the word of the Lord sounded forth from you in Macedonia and Achaia, but your faith in God has gone forth everywhere . . . young Kennedy.

Kennedy often teamed up with a congressional colleague, George Smathers, on these nighttime romps. Smathers recalls that Kennedy, after marrying the beautiful Jacqueline, told her during a moment of truth about the women in his past.

THIS LATER CAUSED a strain on their marriage, Smathers told us, when some of the women turned up in his future. Jacqueline learned that they had been seen in his campaign entourage and, later, at the White House itself.

During the 1960 presidential campaign, a photographer caught Kennedy at a romantic rendezvous the fashionable Georgetown section of Washington. Democratic candidate fretted afterward that the pictures might be used against him in the campaign.

Those privy to Hoover's hush-hush files are in dispute over how much of this prurient gossip made its way into the Kennedy dossier. One source said only the early incidents were recorded. Another claimed that Hoover kept a running account of Kennedy's sexual adventures.

WE SPOKE TO two women whose names reportedly appeared in the Kennedy folder. Both said they were aware of FBI snooping into their romantic activities. One of them, a former airline hostess, told us that FBI agents questioned her friends persistently about her sexual inolvement with the Kennedys. We were also told about tapes and

THE COMMENT OF ONE Kennedy intimate may be worth quoting: "Jack regarded sex as good, clean fun. It never interfered with his work. He had a remarkable capacity to shut the bedroom door behind him."

Did the existence of this file influence Kennedy's decisions? His first official act after he was sworn in as President was to phone J. Edgar Hoover and ask him to stay as head of the FBI. Those who overheard the conversation say Kennedy laid it on thick.

Associates of the late President insist he wasn't influenced by the threat of blackmail but by political considerations. Yet clearly, gossip files should be banished from

This was done after the Colorado River Municipal Water District had to increase its fixed monthly charge for water to the city and to other member cities of the water district. This was due to inflation, higher energy and debt service

"CRMWD, through frugal management, has provided a good water supply for West Texas cities at a low cost in an area without much water," noted Councilman Charles Thomp-"I think the council should pass a resolution and for both their far-sightedness and their management. Inflation finally caught up with them."

The resolution was approved unanimously. The council expressed regret at the water raise, but said that compared to other Texas cities, Big Spring is still in good shape on base rate.

Bill Brown, director of utilities, told the council that at the present time. Snyder has raised its base rate to \$4.50. Odessa and Midland have a \$4 base rate for only 2,000 gallons and Odessa is

BREAK DUE LATER The jump above 3,000 changed the charge from 55 cents per 1000 gallons to 60 cents straight across the board. The city will recommend a break for the big users above 10,000 gallons at a later date.

With the additional 50-cent garbage rate increase effective Jan. 1, the base bill for water, garbage and sewer in Big Spring will be \$9.50 when the water rate receives final approval. This includes \$4.25 for water, \$3 for garbage and \$2.25 for sewer charges.

Jim Gregg, assistant city manager, speaking for City Manager Harry Nagel, who is attending a relative's funeral today, said, "We tried every way in the world to keep from raising the minimum water rate, but with the increased charge for water, we had to pass it on to the consumer.

TAX CONTRACT The council approved on emergency reading a resolution authorizing the mayor to execute an agreement with the county's taxing agencies. Payment of employes will be handled this vear with Howard County as disbursing agent.

The council also passed on emergency reading a resolution authorizing an affirmative action plan for the Housing and Urban Development funds under the Community Develop-ment Grant. This was approved on emergency so that work can begin on the \$272,600 of sewer improvements in the low income area approved by HUD. There also is \$15,000 demolition of old buildings

ADDITIONAL FUNDS The council also approved pre-application for additional HUD funds next year. Another federal funding that is being eyed by the city is \$500,000 in funds for improvements to the water plant.

Roy Crim, city engineer; Nagel and Brown will go to Austin tomorrow to appear before the Water Quality Board seeking the funds. The city would be obligated to provide \$200,000 or 25 per cent of the potential grant. These funds would be

NUDIST CAMP EXEC SAYS:

'Some People Say We Are Immodest'

LOS GATOS, Calif. (AP) — "Some people say we are immodest," says the 73-year-old woman manager of a nudist colony in the Santa Cruz hills. 'I say the way some people dress is immodest.

'Many girls and women wear clothes in public that are too skimpy and too tight," said Ethel Plant. "I wouldn't think of going downtown without

Mrs. Plant, who's been managing the Lupin Lodge nudist camp for 26 years, said she is ready for those who might consider her a prude because of her old-fashioned notions about how people should

"I may be old-fashioned, but I don't think people should appear in public in clothes designed to attract attention," she said. "When everybody's nude, everybody's the same and you can't very well be showing off your body.

Lupin Lodge is a private resort on 119 acres south of here that caters to families who flock there for vacations and weekends.

She said she and her late husband, Ray, became supporters of nudism after reading about it during

"We liked the freedom of being without clothes, especially in the water. There's nothing worse than a wet bathing suit. Did you ever notice, the swimming pool is the only place people will sit around in wet clothes?"

Mrs. Plant and her husband became joint managers of Lupin Lodge in 1950. She said that after her husband died in 1963 she welcomed the chance

"It's mostly younger people who come here," she said. "Older people aren't apt to do something so unconventional."

As of March 1, the plastic voter registration cards Howard County residents are carrying will be void, Zirah L. Bednar, county tax assessor collector and assess assessor-collector, said.

Noting city, school and primary elections this spring, Mrs. Bednar asked that voters reregister before Feb. 1.

There are 13,851 registered on plastic cards, but Mrs. Bednar said about 4,000 of the letters asking these citizens to register were returned because their address has changed. About 4,000-5,000 voters

have responded to the request for reregistration, she said. Several persons, including persons at a loan company and Big Spring High School, have been deputized to

Resurgence of the U.S. and world market demand for cotton will put seed breeders in the spotlight, Donald Johnson, Lubbock, executive vice president of the Plains Cotton Growers Inc., said last week. He spoke to the Texas Certified Seed Breeders Association

Comsumption of cotton in the 1975-76 marketing year will approach 7.2 million bales, up from 5.9 the previous year, he said. He also saw a draw-down of U. S. carry over stocks from 5.7 down to a new low of 3.9 million bales at the beginning of this marketing year. Part of this is due to a shorter crop, and part due to a return to the demand for natural fibers, he said.

Test Utensils If Cooking

COLLEGE STATION -Usability of certain pieces of glassware or pottery for microwave cooking can be tested in a simple manner, Lillian Chenoweth, family resource management specialist, said this week

"Place the dish in the oven along with a cup of water in a glass cup. Heat for 15-30 seconds. If the glassware in question has not become warm, it is suitable for microwave use," the specialist with the Texas Agricultural Extension Service, the Texas A & M

"If the glassware feels warm or hot, it is best not to use in a microwave oven as it will absorb the microwaves. also feel warm but only because the heated water

explained that She repeated usage of unsuitable glassware or pottery may damage the dish as well as

Stone's credo, "Positive Mental Attitude," is emblazoned on his daughter's office wall, and she is perhaps the second most vocal advocate of the idea, "You can do it if you think you can."

"I come from a very service-minded family," Ms. Stone said. "And I got involved quite young ... I see this as something I should be doing. I found, if I may be immodest, that I had a gift for administration.'

In serving on the boards of a number of national service organizations, she realized the need for one dealing solely with child abuse.

This year in the United States, she said, there were an estimated one million child abuse cases, which she defines as "nonaccidental physical injury and malnourishment, neglect, sexual abuse and exploitation of children.

'So much of it is caused by stress, and many people have children for the wrong reason: they want a child to give them love, when it's the child that needs love and attention ... And so many agencies are set up to take care of the child after he is abused. We want to help the family, because in most cases the child is better off with his parents.'

Ms. Stone and her first husband were unable to have children. "We never learned why,

exactly, they just never came," she said. So they adopted two babies, Chris, now 14, and Linda, 11.

In disciplining them, she never resorts to as much as a swat on the rump.

"I think how your parents treated you has so much to do with how you treat your own children," she said, adding that her father 'never punished physically. "He was very

authoritarian, but he relied on his voice.'

Giving Children Gifts Puts Uncle On The Spot

DEAR ABBY: Here's a tough one for you: My sister has two children. One is in high school, and the other is in

I always send them both nice checks for Christmas and

Right after the first of the year, my sister starts asking me if I've received "thank you" notes from her kids yet. If I haven't, and I tell her the truth, I know they are going to catch what-for. And if I say they've thanked me when they haven't, that's lying, and I hate to lie. If you can solve this one, you're a genius.

UNCLE IN THE MIDDLE

DEAR UNCLE: I'm no genius, but the solution is obvious: Tell your sister that if she wants to know whether her kids have written their thank-you notes, to please ask THEM, not you!

DEAR ABBY: Judy and I have been married for one month, and I have already filed for divorce. This is the second marriage for both of us.

The problem is Judy's 16-year-old daughter, Lynne. Lynne told her mother that if she stayed married to me, she'd go live with her father. Judy doesn't want Lynne to live with her father because he drinks. Also, Lynne

threatened to get pregnant just for spite.

Judy insists that she loves me. She says she doesn't want a divorce and the solution would be for me to move out and get a separate apartment near here for two years until Lynne was 18.

Abby, I love Judy more than any woman I've ever known, but what kind of marriage would we have living in separate apartments? Please tell me what to do

UNHAPPY IN VA.

DEAR UNHAPPY: Move out. But as long as you love Judy, don't push for a divorce until you are positive that you really want one. Lynne is blackmailing her mother, who can't be blamed for doing what she thinks is best for her daughter. Both the daughter and mother need counseling. I

Tarkenton Named NFL Most Valuable

BLOOMINGTON, Minn. several new NFL records. (AP) - Francis Tarkenton isn't sure he deserves the honor, but his coach says it's about time he won it.

In any event, the 35-yearold Minnesota quarterback was named Offensive Player of the Year and Most Valuable Player in the National Football League today by The Associated

"I'm appreciative of the recognition," Tarkenton said in a telephone interview from his business in Atlanta. "But I really think it's impossible to pick a person in a team sport that is a most valuable player.'

Disagreeing was Vikings Coach Bud Grant, who said, "It's long overdue. I don't know who's more deserving than Francis.

Tarkenton led Minnesota to a 12-2 record and its third straight National Football Conference Central Division title in 1975. He passed for 2,994 yards and 25 touchdowns and established

In 15 seasons, Tarkenton has completed 2,931 passes in 5,225 attempts for 291 touchdowns - all records. His 38,840 yards passing is within striking distance of Johnny Unitas' standard of

40.239 vards.

The Athens, Ga., native was in the process of creating a memorial for his late father, Dallas Sr., when informed of the awards he won. The elder Tarkenton, a Methodist minister, died of a heart attack while watching the Dallas Cowboys defeat the Vikings 17-14 in the IJFC playoff Dec. 28.

Tarkenton, who still appears to play with the same enthusiasm he brought to the game as a 21-year-old rookie in 1961, says the fanfare hasn't made any difference to his way of life.

'No matter how much you achieve in life, you still think of yourself as being a little boy from Athens," said

Steers Host Permian split with the Colorado City winning the boys game In District Clash

The Big Spring Steers and the Permian Panthers will sport identical 1-1 district cage records tonight when the two meet in Steer Gymnasium in a 5-AAAA encounter.

Both teams have lost to District favorite Abilene High School.

The Panthers are coming off the 53-52 overtime loss to the Abilene High team while the Steers won in their last encounter, 62-61 in overtime over Midland High In other 5-AAAA games

San Angelo (2-0) is at Odessa High (0-2), Abilene Cooper (1-1) is at Midland Lee (1-1) and Abilene High (2-0) is at Midland High (0-2).

Permian sports a better over-all record with a 16-5 record while the Steers bring a 11-9 record into the game.

Bubba The Steers' Stripling, whose 20-foot jump shot with only six seconds remaining in overtime defeated Midland High Friday night, was listed as the District's fourth leading scorer with a pace of 16 points per game. Indiana Remains Atop College Poll

The Hoosiers of Indiana, winners of 12 straight basketball games this season, have strengthened their hold on the No. 1 spot in The Associated Press poll while Oregon State — on the basis

of a stunning upset of UCLA — has made its first appearance.
Defending national champion UCLA, meanwhile, tumbled from third to

Indiana polled 57 of 58 first-place votes and 1,158 of a possible 1,160 points in balloting by a national panel of sports writers and broadcasters.

No. 2 Maryland, 11-1, got 877 points, and Marquette jumped from fourth to third with 843 points. The Warriors, 9-1, were followed by unbeaten Nevada-Las Vegas, 16-0, which collected the other first-place vote and 726 points in

climbing one place. Wake Forest, 11-1, which handed Maryland its first defeat of the season last week, moved from seventh to fifth

Undefeated Washington, 13-0, climbed from eighth to sixth with 645 points, and North Carolina, 10-1, fell one place to seventh with 585 points.

UCLA, a one-point winner over unranked Oregon and then a 17-point loser to previously unrated Oregon State last week, slipped five places. The Bruins, 11-2, earned 433 points. At the same time, Oregon State debuted at the

No. 9 Tennessee, 11-1, with 395 points, and No. 10 Rutgers, unbeaten in 11 games, with 393 points, rounded out the

Maryland beat George Washington 82-72 before bowing to Wake Forest 96-93. Marquette played only once, downing Oklahoma City 71-60.

Nevada-Las Vegas, thus far the winningest team in the nation this season, rolled over Northbridge State 111-75, edged Seattle 90-89 and downed Iowa State 88-82. Wake Forest suffered

its first loss, dropping a 63-58 decision to Virginia before stopping Maryland.

OU Backfield Coach Named To TSU Job

HOUSTON (AP) Wendell Mosley, who guided Oklahoma University running backs to national records last season, has been named head football coach Texas Southern University, TSU President Dr. T.M. Sawyer said today.

Mosley, 43, offensive backfield coach at Oklahoma since 1972, replaced Rod Paige, who will remain as athletic director at TSU.

Mosley is a 1958 graduate a masters degree in physical education. Mosley compiled an impressive record in the Texas high school coach ranks before becoming an assistant to Coach Barry Switzer at Oklahoma in 1972.

GENERAL TENDENCIES: Live only the most proven principles you have found to be acceptable, acting in a scrupulously conscientious way, for you can make an error in judgment that could cause you to lose out where it counts the most. Be alert.

ARIES (Mar. 21 to Apr. 19) Read the small print as well as the large in any important papers before you sign them. Use extra care in motion.

TAURUS (Apr. 20 to May 20) Be careful, conscientious in money dealings. Be practical. Wrong moves today could prove costly later. Show more concern

GEMINI (May 21 to June 21) Not a good day to make big decisions since you are considering only surface conditions. Avoid one who is easily angered. MOON CHILDREN (June 22 to July 21) Although you

may feel restrained in some way, you had better keep promises made to others. Then all is fine. LEO (July 22 to Aug. 21) Ask friends about their wishes and you can handle these persons more intelligently now. Avoid social affair which could result in argument.

VIRGO (Aug. 22 to Sept. 22) Improve credit. Don't try to put a bigwig down or you get hurt. A friend could be helpful to you in p.m.

LIBRA (Sept. 23 to Oct. 22) Analyze new outlets

carefully if you want them to operate with greater success. Get better organized and be happier. SCORPIO (Oct. 23 to Nov. 21) Hunches, usually dependable, could get you off center today, so use only your finest judgment. Be patient with loved one.

SAGITTARIUS (Nov. 22 to Dec. 21) Being sarcastic with partners could result in trouble, so sweeten your disposition and all is fine. Avoid one who opposes you. CAPRICORN (Dec. 22 to Jan. 20) Get yourself in the right mood early if you want to polish that work off

efficiently. Take treatments for vitality. AQUARIUS (Jan. 21 to Feb. 19) Not a good day for desired amusement, but fine for planning it. You have some particular talent that needs expression. PISCES (Feb. 20 to Mar. 20) You want to get

conditions bettered at home, but this is not the right time, for there could be big arguments.

angered because, as expected, the government refused Monday to bow to their demand for the return of majority - meaning Protestant - rule to the province.

The Catholics of the Irish Republican Army's Provisional wing, fighting to reunite Ireland, said the British proposal for a resumption of negotiations would "prolong the agony of the Irish people" because Britain refused to withdraw from Northern Ireland.

Merlyn Rees, the minister for Northern Ireland, told House of Commons Monday the government rejected the recom-mendation of the dominant Protestant faction in the provincial constitutional assembly that majority rule, suspended by London nearly four years ago, be restored. He scheduled a new

session of the 78-member assembly Feb. 3 to try once more to work out some form of power sharing between Protestants and Catholics, a coalition arrangement that the Protestants have repeatedly rejected.

Rees said, "Northern Ireland will continue to be governed by, and from, this Parliament." He declared that the British governmentwill not pull out of the wartorn province.

You can heat your home without wasting energy. Here's how:

Keep the filters clean. Check them at least once a month. Dirty filters make your furnace work harder and use more electricity.

Meet the latest FHA home insulation standards. You can save as much as 20% or more on energy consumption if your home is well insulated.

Weatherstrip doors and windows. Keep drafts out and seal heat in. And remember to close the fireplace damper when

Set your thermostat at 68°. When you lower your thermostat, you lower your energy use and cost.

Consider installing a humidifier. At lower thermostat settings, your home will be more comfortable with additional humidity.

Open draperies or shades on the sunny side of the house. Let the sunshine heat your home. Otherwise, keep draperies closed to help keep in the warm air.

Even though your rates are well below the. national average, electricity is worth using
