

Archbishop Lefebvre to visit Texas

DICKINSON, Tex. (AP) — The French archbishop who recently drew Pope Paul's wrath for ordaining 14 priests of his traditionalist religious order plans a visit Sunday to this Southeast Texas town, says one of his Texas followers.

Archbishop Marcel Lefebvre defied the Pope's order last week and ordained the priests in a seminary in Ecône, Switzerland. Vatican Radio said his actions had placed him outside the church.

Archbishop Lefebvre will visit here to consecrate the Queen of Angels Chapel, a church in his religious order, Father Hector Bolduc said Wednesday.

The archbishop will also celebrate a pontifical mass and later administer the sacrament of confirmation. The church reportedly has a congregation of 800.

EL PASO, Tex. (AP) — second Texas physician convicted of defrauding Medicare and Medicaid programs.

of El Paso was sentenced to eight years in prison and fined \$50,000 Wednesday.

convicted in May on 20 counts of making false claims for the payments. Prosecutors said he had stolen a total of \$360.

Posse plans roping event

The Howard County Sheriff's Posse held its regularly scheduled monthly meeting at 7:30 p.m., Tuesday, at the Chamber of Commerce Building. President, A. D. Nanny presided over the meeting.

July 16. These two events will be held at the Posse Arena on the Andrews Highway.

A discussion was held on progressive steer roping and other steer roping activities.

The posse will be donating a buckle for the Big Spring Junior Rodeo. The hamburger social will be held at the arena Friday, July 22, at 7:00 p.m. Members are invited to bring their horses along to the social and to use the arena that evening for fun and games.

Big cars are not necessarily safer

AUSTIN, Tex. (AP) — Big cars are not necessarily safer than small cars, despite that popular belief, says a University of Texas researcher.

"The statistics," Yu said, "show that using a random sample of cars, vehicles weighing under 4,000 pounds are involved in a disproportionately fewer number of wrecks than cars weighing more than 4,000 pounds."

Dr. P.L. Yu, a researcher in the UT General Business Department, recently completed a study of wrecks on Texas highways in 1973. Although small cars probably get smashed up more, larger cars are more likely to be entangled in collisions in the first place, Yu said.

Yu said he does not know if it is because bigger cars take up more room on the roads and provide bigger targets for careless drivers or if it is because drivers of larger cars feel more secure and thus drive with less caution.

Weather

No real break in heat indicated

Hot weather turbulence kept occasional thundershowers booming in the north part of the Texas Panhandle this morning, and the same kind of weather lurked in the Gulf of Mexico near Galveston.

Scattered thundershowers again boomed during the night in far West Texas also but yielded little moisture. Measurements ranged up to nearly one-fourth inch around El Paso in that section and at Amarillo in the Panhandle.

Coupled with considerable humidity, temperatures stayed uncomfortably warm overnight. The range near dawn was from 80 degrees at Palacios on the

coast down to 57 at Marfa in the West Texas mountains. Wednesday's highs were topped by 100 degrees at Brownsville, Dallas, El Paso and Presidio.

A weak cool front idled across the Panhandle, stirring out the showers in that section and promising slightly lower readings in its wake.

No real break in the July heat was foreseen. Forecasters looked for outbreaks of more thundershowers by evening in South and East Texas and near the western edges of the state.

Multimillion dollar civil suit dismissed

CONCORD, N.H. (AP) — A federal court has dismissed a multimillion dollar civil suit brought against Gov. Meldrim Thomson and the New Hampshire attorney general by Seabrook nuclear power plant protesters.

U.S. District Court Judge Hugh Bownes said in his Wednesday ruling that Thomson and Atty. Gen. David Souter did not, as the suit claimed, conspire to arrest and confine the 1,414 demonstrators "as punishment for their opposition to the Seabrook nuclear power plant."

The confinement of the demonstrators for almost two weeks in National Guard armories on charges of criminal trespass did not violate their constitutional rights as had been claimed in the suit, Bownes said.

Bownes told The Clamshell Alliance, which organized the protest, that he "found no conditions which even approached" the cruel and unusual punishment they had charged.

"Civil disobedience has its place in modern society, but it commands respect and accomplishes its goal only if those who practice it are willing to pay the price," Bownes said.

DUCKS ON A POND - These complacent ducks show they are safe since they are part of the scenery at Ruidick Park in Colorado City. The park has picnic tables and the ducks know that they won't be pelted with anything heavier than bread cast out in the park by Colorado City children. Restrooms are currently being constructed at the park and will be accessible to the Little League field portion of the facility.

(PHOTO BY DANNY VALDES)

Scout slayings speculation hit

OKLAHOMA CITY (AP) - A top state official said Wednesday most evidence in the slayings of three young Girl Scouts near Locust Grove points to jail escapee Gene Leroy Hart, who has been charged with the June 13 slayings. Jeff Laird, director of the Oklahoma Bureau of Investigation, called a news conference to criticize what he termed "uninformed speculation, rumors and confusing reports" about evidence concerning Hart's guilt or innocence.

certainty that he is guilty because I would not say with certainty that any person who has not been tried is guilty," Laird said, "but we have a great lot of evidence in this case that points to his guilt." Laird generally declined to comment on specific evidence, but he disputed one report that a fingerprint was found on one of the girls' bodies that did not match Hart's fingerprints. "I will say that, as to the fingerprint matter, there has been a great deal of misinformation," Laird said. "The bodies were not found with any fingerprints on them."

in 1968 with Hart, a Granite inmate at the time, assisting in the development. Laird expressed confidence that Hart will be captured, but said authorities are not sure whether he still is in the heavily wooded area around Locust Grove where the three girls were slain. He said he never was optimistic that Hart would be captured during the large-scale search right after the slayings because the area is so wooded that it is impossible to approach a suspect without being detected. Hart is an experienced woodsman and Laird said authorities believe he spent much of the time since his jail escape nearly four years ago in the woods around Locust Grove. The three girls - Lori Lee Farmer, 8, and Doris Denise Milner, 10, both of Tulsa, and Michelle Guse, 9, of Broken

Arrow - were killed at Camp Scott and a security guard at the camp reported Tuesday that he saw a man running through the woods. Dog teams and searchers combed the area all day, but the search was stopped Tuesday night when the tracking dogs lost the scent.

Lad faces death count

LAREDO, Tex. (AP) - The widowed mother of a 12-year-old Laredo boy has turned her son over to police in connection with the fatal shooting of a 14-year-old girl. The body of Patricia Gonzalez, who had been shot once, was found under a mesquite tree early Wednesday in the growth of a vacant lot near a drive-in theater.

Authorities had searched the area after they learned of a shooting incident reported by a youth who was admitted to Mercy Hospital with a bullet wound in his wrist. Police said the girl reportedly was one of four young people who were spending the night in the vacant lot, from which they could watch drive-in movies. One of the youths, they said, pulled a pistol and fired it at least twice.

Investigators said the boy admitted firing the shot that killed the girl, but he added that the shooting was accidental. He told officers he had found the pistol used in the shooting. The weapon was found by police near the boy. Officers said the boy would be taken before a judge Friday.

HOUSTON (AP) - Jessica Hobby Catto has been elected vice president of The Houston Post Co. by the Post board of directors, it was announced Wednesday by Oveta Culp Hobby, chairman of the board and editor of the Post. Mrs. Catto lives in McLean, Va. with her husband, Henry E. Catto Jr. and their four children. Her husband is a former ambassador to the United Nations, Geneva; former U.S. Chief of Protocol; former U.S. ambassador to El Salvador and former deputy ambassador to the Organization of American States. He presently is an international consultant in Washington, D.C. Her brother is Texas Lt. Gov. William P. Hobby who also is president of the Post.

Energy Nuclear security woes

WASHINGTON (AP) - The Nuclear Regulatory Commission, in a continuing effort to protect U.S. uranium and plutonium supplies from terrorists and saboteurs, is proposing tough new security standards. The proposed regulations, published in the Federal Register, call for sharply increased guard forces for high-grade uranium and plutonium, both in storage at nuclear fuel plants, and in transit. They stem from the NRC's conclusion two years ago that security measures for civilian nuclear activities needed improvement. Organized terrorism in recent years has raised anew the spectre of nuclear fuels being stolen and fashioned into nuclear bombs or dispersed in crowded areas to expose people to radiation. The Natural Resources Defense Council (NRDC), an environmental group, asked the NRC to tighten security measures on an emergency basis. Last January, the NRC decided to improve security, not immediately, but through a speeded-up rulemaking process. Besides seeking to strengthen guard forces for nuclear fuels, the proposed regulations require that private guards hired by operators and shippers must be certified in good mental health, as well as good physical health. Although companies handling nuclear materials presumably would not

knownly hire a lunatic to guard nuclear materials, they could do so without violating present NRC standards, a commission spokesman said Wednesday. The proposed rules also would increase the requirements for nuclear shipment guards to stay in contact with fixed security bases which could summon help if necessary. The regulations would be aimed at complementing steps already taken by the NRC to guarantee the security of nuclear fuels. Last March, it proposed that nuclear guards be investigated before they are hired. No such security checks are presently required. The NRC proposed last May that companies handling nuclear fuels be

required to prepare contingency plans guards can use to foil terrorist attacks or sabotage; such plans are not required now. There was no indication when the commission would be able to adopt the new security rules. The NRC is one commissioner short of a quorum and cannot take formal actions.

Sterling extender
An extender was finalized in Sterling County this week. Canyon oil production was extended one mile west of the southeast side of the Big Salute (Canyon and Leonard) field of Sterling County with completion of Texaco Inc. No. 1-K Sterling Fee, 14 miles southwest of Sterling City, for 360 barrels of 45 gravity oil, no water, with gas-oil ratio of 542:1. Production was through a 13-64-inch choke and perforations at 7,507-872 feet, which had been acidized with 6,500 gallons and fractured with 81,000 gallons. Location is 800 feet from the north and east lines of 29-31-58-T&P.

Mail price hike urged

WASHINGTON (AP) - The nation's top postal official says an estimated one letter in five would qualify for a proposed new "citizen rate" on stamps, but admits he doesn't know how many people would "go to the trouble" of meeting the requirements. Postmaster General Benjamin F. Bailar recommended the new rate on Wednesday at a meeting with the Postal Service board of governors. His proposal would retain the present 13-cent stamp for personal letters while raising the cost of a first-class business stamp three cents. The board of governors meets Monday to vote on the

plan. If it approves, the new rate would go to the Postal Rate Commission, which would have 10 months to act. Under the law, if the commission fails to act within that time, the rates would take effect automatically. At the board meeting on Wednesday, Bailar also said he hopes to begin ending Saturday mail deliveries and possibly close more small post offices within the next several months.

Commerce said the new rate would delay the eventual cost of higher postage to all users. The plan, the organization said, would amount to "robbing Peter to pay Paul." But the National Association of Greeting Card Publishers lauded Bailar's proposal. The group said the mails "are the only feasible method of carrying personal correspondence" for many individuals. The postmaster general listed these requirements for users of the proposed 13-cent rate: either the return or delivery address must be handwritten, both must include zip codes, both places must be in the United States and the envelope must meet size, shape and weight limits of mail handling machines. Bailar estimated that the discounted rate would affect about 20 per cent of first-class mail. He said he hoped holding personal letters to the 13-cent rate in effect for the last 18 months would lead to "public acceptance of our cost-cutting measures." But he acknowledged that inflation could eat up all the savings and that if the books still don't balance, the 13-cent citizen-rate could go up.

'Terraces' top television show

NEW YORK (AP) - ABC edged out NBC to finish with the highest average for national prime-time programs last week, despite NBC's showing of "Terraces," the top-rated television show. "Terraces" - 11 of them, including "Terraces" - represented an uncommon 17 per cent of the 64 shows rated by A.C. Nielsen Co. for the week that ended July 3. According to figures made available Wednesday, three other movies were in the top 20 shows. ABC, which had nearly half of the top 20 shows, won the week with a meager summertime rating of 13, which represents a 9.2 million households. NBC ended a string of wins with a 12.9, or 9.1 million, and CBS had a 12.4, or 8.8 million. The last show was an episode of ABC's "Nancy Drew," which drew viewers in five million homes. The top shows, in order, were: "Terraces," a 22.4 rating, or 15.9 million households; "Charlie's Angels," ABC, 21.7, or 15.4 million; "Laverne & Shirley," ABC, 20.7, or 14.7 million; "Love Boat II," ABC's Tuesday movie, 20, or 14.2 million; "Happy Days," ABC, 19.7, or 14 million; "Barnaby Jones," CBS, 17.7, or 12.6 million; "Maude," CBS, 17.6, or 12.5 million; "What's

Happening!" ABC, 16.9, or 12 million; "Shields & Yarnell," 16.7, or 11.9 million, and "Quincy," NBC, and "Barney Miller," ABC, each 16.6, or 11.8 million.

"Fish," ABC; "A Touch of Class," ABC; "A Warm December," CBS's Wednesday morning; "M.A.S.H.," CBS, and "All's Fair," CBS, tied in 15th place; "Hawaii Five-O," "Welcome Back, Kotter," ABC; "Baretta," ABC, and "Sonny & Cher," CBS. The board of governors meets Monday to vote on the plan. If it approves, the new rate would go to the Postal Rate Commission, which would have 10 months to act. Under the law, if the commission fails to act within that time, the rates would take effect automatically.

Texas is more than wide open spaces.

NEW AMERICAN AMBASSADOR TO FRANCE ARRIVES — The new United States Ambassador to France Arthur Hartman, center, rides a passenger conveyor belt with his wife Donna, right, and daughter Lise, left, on arrival Wednesday at Charles de Gaulle Airport near Paris. The Hartmans had arrived on a flight from New York.

Awareness important for safety

Nature provides warning before lightning hits

Increased activity and a high frequency of thunderstorms in summer results in a rise in the number of injuries caused by lightning. Awareness is important because nature may even provide a warning that you are about to be struck, the National Weather Bureau has observed. They have suggested a number of precautions that are worth remembering.

If you feel an electrical charge your hair seems to stand on end or your skin is tingling drop to the ground immediately. If a person is struck by lightning in your presence, do not be put off from helping to resuscitate for fear of getting an electrical charge. Although burned, such people can be handled safely, the weather experts say. A person who appears to be killed by lightning often can be revived by prompt mouth-to-mouth resuscitation, cardiac massage and prolonged respiration.

Veterans to meet

Veterans of World War I, Barracks 1474, and its Ladies Auxiliary will meet at 10 a.m. Saturday at the Kentwood Older Adult Center for a regular business session and covered dish luncheon. The Rev. Harlan Birdwell, St. Mary's Episcopal Church, will speak to the group. All World War I Veterans, their wives, widows and daughters are invited to attend.

Bell spokeswoman guest at ABWA

Changing communications topic of women's meet

The Scenic Chapter of the American Business Women's Association met at the Texas Electric Company's Reddy Room to hear Ms. Louise Hamilton of Southwestern Bell speak on changing communications in Big Spring.

According to Ms. Hamilton, one change occurred in October, 1976, when directory assistance was moved from Big Spring to Midland. Another move to update communications in our town, she said, was in March, 1977, when all directory assistance information was put on computers and microfils for this area.

By mid-September, she said, Big Spring will no longer need telephone operators.

The vocational speaker

was Ms. Muriel Denton, who works in the commissary office at Webb Air Force Base.

At the meeting, Ms. Lou Thompson was presented with the past president's pin, and Ms. Beverly Crammer was given a going away gift.

In other news, Ms. Zennua Haston will be delegate at the national convention in Salt Lake City in October of this year. Ms. Gloria Carnell was installed as treasurer. The next meeting will be Aug. 2 at the Western Sizzler.

Vegetable supplies rise, prices drop

Fresh vegetable supplies will increase and prices on many will drop in the next few weeks, according to Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Her food buying summary for the week includes several budget items.

FRESH VEGETABLES — Most economical items include yellow, zucchini and

white squash, corn, purple hull peas, okra, cucumbers and snap beans. Also, cabbage, green onions, carrots and potatoes — as well as head lettuce and mustard greens.

FRESH FRUITS — Budget buys include oranges, bananas, peaches, plums, cantaloupe and watermelon. Other soft fruits — including nectarines, grapes, apricots and Bing cherries — are available in varying amounts and price ranges, so choose according to the food budget.

PORK — Pork prices are trending upward as usual at this time of year, although slab bacon has economy prices. Frankfurters are good choices in spite of higher prices.

POULTRY — Whole turkeys have reasonable prices, and turkey parts offer some bargains. Egg prices are up slightly. The egg market is unsettled, being somewhat affected by high temperature.

BEEF — Check food ads for specials on rib and sirloin steaks, chuck cuts, corned beef, stew beef, ground beef and liver.

CONSUMER WATCHWORDS: Take advantage of lower prices on less tender beef cuts during the cookout season — make them tender by marinating and/or long, slow cooking.

Wife Not Amused By His Red-hot Tattoo

DEAR ABBY: When Lenny came home from a convention trip, I thought he acted kind of funny. It was two weeks before I found out why. It seems a bunch of the guys went out one night and got tattooed. Well, Lenny had a pair of red lips tattooed on his behind. (He said he asked for a rose, but the artist gave him the lips.)

Lenny says he is sorry, and he wears a large band-aid over it so it won't make me mad everytime I see it. Is there any way to get that tattoo off his behind?

LENNY'S WIFE

DEAR WIFE: Yes, Lenny should see a dermatologist (skin specialist).

DEAR ABBY: My mother is the moodiest person on earth. She can wake up feeling fine, and then if anyone does one thing wrong, she's mad for the day. I am 16 years old, and I am sick and tired of her actions. So are my brothers and sisters.

I realize that some women have a difficult time when they reach 40, but enough is enough. Can you please give me some advice on how to get along with her? (Thank you.)

SHERI

DEAR SHERI: Yes. Just for one day, refrain from doing any of the things you know will irritate her. And try to do all the things you know will please her, such as: cleaning your room; limiting your telephone conversations; keeping the radio and TV low; desisting from complaints about what you don't have or can't do; remaining silent when you'd like to talk back or argue; and keeping the peace with your brothers and sisters. You will then find that living with mother is so much more enjoyable, you'll think you're in the wrong house. (You're welcome.)

DEAR ABBY: My children are just average, but they are good kids. I have no outstanding beauties among my daughters, and while they do have friends, none of them is wildly popular. My sons are average students, just fair in sports, but none of them ever made the team.

A relative of mine has outstanding children. They are popular, good looking and gets lots of honors—and he doesn't let me forget it for a moment. What can I say when he collars me and brags on and on about his kids?

SLOW BURN

DEAR SLOW: Nothing. Just because a jackass brags doesn't mean you have to answer him.

CONFIDENTIAL TO "WRONG SIDE OF THE TRACKS" IN CLEVELAND: If after all these years her parents refuse to accept you, quit trying. It would be easier to move the tracks.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Calif. 90212. Please enclose a long, self-addressed, stamped (24¢) envelope.

No. 3262 Shelf.
Can be hung flat against a wall or across a corner. Plate grooves in shelves. Made of Solid Hard Rock Maple with matching veneered back panel. In #48 Andover finish. W32" D8" H35".

Bride-elect honored at party

Miss Toni Jo Jabor was the honoree at a rice bag party Tuesday evening in the home of Mrs. John Riberd, 2609 Wasson.

Miss Jabor is the bride-elect of Craig Medley. The couple will be married July 7 in the Immaculate Heart of Mary Church.

Silk rice rosebuds were made during the evening to hold rice for the wedding.

A yellow linen cloth covered the serving table. An arrangement of yellow and green flowers was placed on the table. Silver appointments were used.

Members of the wedding party attended the event. Special guests were mothers and grandmothers of the couple.

NOISE POLLUTION is just one of the ways our modern society has found to keep our nerves on edge. Researchers are now saying that excessive noise is a great deal to do with health, fatigue, and frazzled tempers. If you've lived in a house without carpeting, you've been exposed to some of this excessive noise. Sound bounces off exposed floors and is increased. Whether it's a crying child or running footsteps, everything is magnified. So just one of the useful ways carpeting has in the home is its quiet beauty. Carpeting, especially installed over the proper padding, muffles all sounds, from footsteps to shouts. Many sounds, like dropped toys, disappear completely on carpeting. Others are toned down. Carpeting has other quiet ways to make us feel more relaxed, more comfortable. The softness underfoot, the appealing color and texture, work its psychological wonders. So surround yourself with peace and quiet... with carpeting!

Right now you can have a deep, sound muffling, velvety plush nylon carpet installed in your home from our collection of captivating colors, for a square yard price you won't believe. Come in... compare. You can't buy better!

As a scientific salon, we know there's a lot more to beauty than just a cut and style. That's why we analyze your hair and study your features before we cut.

If you need some conditioning, you get it. The scientific way. With acid balanced, protein enriched products that were created to help your hair. Not just cover up your problems.

In fact, all the products we use are made by Redken. And we even carry

them in sizes that you can take home with you. That way we can be sure your beauty treatments won't stop when you walk out of the salon.

But most important, we know that all women are not equal. And as licensed cosmetologists, our staff is trained to recognize the beautiful difference.

Give us a call soon. We'll make sure you get the personal advice you need. And your hair and skin deserve.

GRASS FIRE — The dry season, enhanced by the 100 degree temperatures, is upon Big Spring and Howard County. Three trucks were called out to look over this blaze which occurred Wednesday afternoon east of Columbia St.

Is 7-7-77 your lucky day?

NEW YORK (AP) — Today, July 7, is 7-7-77. If you put store in numbers, and share the belief that seven is a lucky one, you might think this is your lucky day.

But maybe you'd better think twice. As reported in the New York Times of July 8, 1877, here are some of the things that happened on the last 7-7-77 — 100 years ago:

—More than 700 unlicensed dogs were drowned by the New York City dog pound, as owners of lost dogs scurried about trying to find their

pets. "There was more excitement at the pound yesterday than at any time since its opening," the Times said.

—The German bark *Auguste* arrived in London "with her bulwarks and stanchions broken, her rigging carried away, and otherwise damaged, having been in collision."

—Otis Hodge's machine shop and foundry at North Adams, N.Y., was destroyed by fire, at a loss of \$20,000. He had \$8,000 insurance.

—A horse named *Idalia*

stepped up to the starting post at Monmouth Park, N.J., a favorite because she had already bested her competition, Zoo Zoo. But *Idalia* became uncontrollable, tried to bolt and lost the race before it started. "A more sorrowful looking set of men than *Idalia's* backers were never seen on a race course," the Times commented.

—Two deputy sheriffs showed up at the Episcopal Church of the Holy Saviour at Madison Avenue and 25th Street to confiscate ornaments, the organ, fur-

niture and the like on behalf of the Rev. Dr. Abraham Carter, the pastor, who said he had not been paid for some time. The church also couldn't open for services the next day, Sunday. On 7-7-77, the deputies had taken the keys.

—It was a lucky day for Philip Donohue of Elizabeth, who spent six hours buried in a collapsed well the night before but was rescued at just about midnight, as July 7 started.

—But it was the opposite kind of luck for a man named Daniel O'Leary, who chose 7-7-77 as the day on which his boast that he could walk 520

miles in six days would meet the moment of truth. He had been walking for five days already and covered 74½ miles on 7-7-77, but it wasn't enough. Just after midnight, he quit — 48½ miles short.

However, a word of encouragement comes from Robert Ball, director of the Astrological Metaphysical Research Center in Coral Gables, Fla.

A child born today "would be unusually sharp of mind, genius quality," he says.

Ball also says the stock market has risen every July 7th. If that claim is true, some investors will be in seventh heaven today.

Social Security fraud dangers noted in report

WASHINGTON (AP) — Dozens of computer terminals sit idle, unattended and often unlocked at night in a huge office in suburban Baltimore.

Property of the Social Security Administration, the terminals contain confidential personal information on tens of millions of Americans. Yet they are easy targets for fraud, government auditors say.

"Security procedures and controls ... were not adequate to prevent fraud and abuse or to assure compliance with the requirements of the Privacy Act of 1974," said the Department of Health, Education and Welfare audit agency report.

For example, the audit found almost half of the 69 terminals in the SSA headquarters were in areas such as large open rooms that could not be locked at night.

The computer's 2,200 terminals all over the country can be locked electronically to prevent unauthorized use. But auditors found 59 of the 69 terminals in the Maryland

office were left unlocked overnight at least once in a four-week period.

The computer system contains records on the more than 27 million Americans who receive more than \$81 billion annually in Social Security checks and Supplement Security Income payments, including the amount of payments, family income and assets, medical histories and marital status.

Social Security employees use the computer system to process millions of new claims for benefits received each year. The system maintains records on all current benefit payments under the various Social Security programs, including Medicare and disability payments.

The weaknesses (in the system) adversely affected the SSA's capability to protect the integrity of its data and prevent a compromise of personal data retained in the program records," the audit said.

There were no cases of fraud or abuse found by the auditors. But they said they didn't look.

"We did not attempt to determine whether the system has been misused, but, rather, whether the potential for misuse existed," they said.

The report on the audit, conducted last year, gave a laundry list of the problems with the system, including lack of terminal security:

—Reports on possible violations of computer security were too late to be useful and often were inaccurate.

—Too many employees knew the passwords that give access to the personal information, when their jobs did not require such knowledge.

—The computer programs designed to provide additional security were ineffective in blocking unauthorized use of the system.

Reps. John Moss, D-Calif., and Charles Rose, D-N.C., who made the report public, have asked for a General Accounting Office study of the computer system. The study is in preparation.

Yarbrough disbarment trial delay hinted

HOUSTON (AP) — One of the lawyers for Texas Supreme Court Justice Don Yarbrough says the trial on an effort by the State Bar of Texas to disbar Yarbrough may not get under way as scheduled by Aug. 1 because of recent events involving the justice.

Yarbrough, 36, was indicted last week in Austin on charges of forgery and aggravated perjury.

"The publicity should prevent a trial anywhere for quite a while," the Houston Post quoted Melvyn C. Bruder of Dallas as saying Wednesday. Bruder is one of three attorneys representing

Yarbrough in the disbarment suit.

Bruder said another preventative factor is the State Bar's plan to amend its pleadings against Yarbrough to include the new criminal charges and tapes which authorities claim have Yarbrough planning to have a former associate killed.

He said Yarbrough could file a motion seeking a trial delay to prepare for the amended pleadings.

However, Steve Peterson, assistant counsel for the bar, said he and associates plan to start the trial as scheduled.

Okie fugitives hunted No one guarded back door

McALESTER, Okla. (AP) — A personnel hearing was to be held at the state prison here today for two guards accused of dereliction of duty in the escape of two inmates wanted in connection with a multi-state crime spree.

The inmates, Earl Van Denton, 27, and Paul Ruiz, 29, escaped the prison June 23. They are charged with murder in the slayings of the town marshal at Magazine, Ark., and an Arkansas Army Corps of Engineers ranger. They also are wanted for the wounding of another Arkansas Corps ranger, and the disappearance of two Louisiana fishermen and a cab driver from Purcell, Okla.

A preliminary report said that four guards had posted themselves in front of a shed where a 20-man work crew of inmates was lodged during a lunch break. Warden Richard Crisp said Wednesday.

But no one guarded a back door of an adjacent building, the report said. Ruiz and Denton, plus inmate Elmer Finin, are believed to have slipped into the other building, out the door and across a landfill.

They were not missed until after the lunch hour was

over. Finin has not been recaptured, but authorities do not believe he is still with Ruiz and Denton.

"It appears that proper surveillance broke down. There is no excuse for what happened," Crisp said.

Crisp said he will reach a decision on the personnel board's recommendation sometime next week.

Scheduled to appear at the closed session were Capt. C. C. Battles, a 21-year veteran of the prison, and Lt. Billy Jack Cohen, employed as a guard for over 10 years.

Melvin "Bud" Tyler, the prison's security chief, said only Battles and Cohen were held responsible because they were in charge of the guard crew.

"If they had acted properly, guards also would have been stationed to watch the back of the adjacent building," Crisp said.

In a related development Wednesday, it was learned that the missing Purcell cab driver, James Melvin Short, is a second cousin of Denton's ex-wife.

Mrs. Short said her husband, missing since Friday, met Denton at a family reunion seven years ago. But Mrs. Short said she doubts that Denton could have knowingly arranged to

kidnap Short.

"Melvin wouldn't have recognized Earl. And I know that Earl wouldn't recognize my husband," she said.

Short disappeared after he answered a fare call about 11:30 a.m. Friday. Authorities later found a pickup truck the pair had stolen in Arkansas stuck in the mud four blocks from where Short had gone to pick up his fare.

What civilization hath wrought

TOKYO (AP) — The orangutan and other animals at Tokyo's Ueno Zoo "have forgotten their motherly responsibilities" because of their contact with civilization, zoo officials say.

A baby male orangutan, born June 10, has to be nursed artificially because its 16-year-old mother, Hatsuko, has spent a lifetime in captivity and apparently has no knowledge of how to raise her young.

Hatsuko has already given birth three times, but each time her babies have had to be fed from a bottle by a human being, a responsibility assumed by Ryu Suganuma, 38, the zoo's monkey expert.

WHERE FIVE DIED — Walls are smoke stained and water stands ankle-deep in a dormitory at the Federal Correctional Institution at Danbury where five persons died when a smoky fire broke out early today. Besides the dead, who author ities did not identify, 66 others were injured in the fire and were taken to a local hospital.

H-O-T in Washington

WASHINGTON (AP) — Washington is burning, spelled H-O-T.

Temperatures over 90 on 10 of the past 11 days. Enough humidity to keep mosquitoes happy. Enough bad air for a health warning.

On Wednesday, the thermometer hit 100, the first time in eight years. The forecast is for temperatures of near 100 through Monday, with humidity over 70 per cent.

It's enough to make the city's newly opened air-conditioned subway stations a place to rest as well as wait for a ride. The jobs held by subway employees are among the best in town: working in cool concrete caverns underground, explaining the mysteries of the new train system to tourists and

commuters alike. "This heat makes me feel lazy and evil," said one sufferer, Gunther George, a 49-year-old fruit vendor working at his downtown stand on Wednesday.

Washington wasn't alone. Much of the nation was experiencing temperatures in the 90s on Wednesday, and some sections had readings over 100. In Birmingham, Ala. it was 102; in Detroit, 100; Atlanta, 100; Las Vegas, 105; Phoenix, Ariz., 108; Richmond, 105; Omaha, 100; Des Moines, 103; Dallas-Fort Worth, 100.

Electrical use set a record during the day in Washington, a city of great clusters of airconditioned federal offices.

Highway pavement buckled. And for more than 1 million suburban residents, there wasn't even the retreat of the neighborhood pool to look forward to. A major pumping station was knocked out.

The National Weather Service held little hope that a

Five perish, 66 hurt in prison fire

DANBURY, Conn. (AP) — Fire swept through a three-story cellblock at the federal medium security prison here early today, killing five persons and injuring about 66.

Authorities said they believed the five dead were prisoners.

Danbury police Sgt. Robert Lovell said an investigation by fire department and prison officials indicated that the fire was deliberately set, but he would not elaborate. Associate Warden Billy Davis refused to comment on the cause.

However, inmates who lived in the burned-out dormitory said the blaze was caused by an electrical problem in a dormitory washroom. Several inmates said they were trapped inside the burning, smoking room for up to 30 minutes because the doors were locked.

"We had to feel for the bodies, that's how thick the smoke was," said inmate Darnell Kinnard of Washington, D.C.

Hospital authorities said the dead were presumed to be inmates because of the clothing they were wearing.

Positive identification of the victims was awaiting fingerprint comparisons.

The fire, which broke out about 1:30 a.m. and was brought under control at 2:50 a.m., it came less than two weeks after a fire in the Maury County Jail in Nashville, Tenn. Cyanide-laced smoke from the plastic padding used in one of the cells killed 42 persons in that blaze. A 16-year-old runaway has been charged with arson.

The Danbury prison can accommodate 750 prisoners. There were about 80 inmates in the cellblock where the fire broke out.

Lovell said when the first fire trucks arrived they had trouble reaching the fire because they couldn't get through the gates.

"When we first got there at least 18 people were trapped. We needed a hook and ladder to rescue them. We could hear people screaming to get out," Lovell said.

He said the gates were finally opened when Danbury fire department Capt.

Anthony Ligatto threatened to drive a fire truck through the locked gate.

"The wait seemed like three hours," Lovell said, "although it couldn't have been more than five minutes."

Inmates in a prison courtyard yelled to reporters viewing the damage that the guards did not help open doors and rescue prisoners.

"If the inmates had stood around and watched, there would have been 72 dead men," prisoner Richard Evans said.

'You Are My Sunshine' No. 1 in Louisiana?

BATON ROUGE, La. (AP) — "You are my sunshine, my only sunshine. You make me happy, when skies are gray."

It's rising on the charts, folks.

Next thing you know it may be No. 1 in Louisiana.

The latest successful appearance of a bill by Rep. Bobby Freeman of Plaquemine to make "You Are My Sunshine" the official state song came Wednesday before the Senate Judiciary B Committee.

The vote to pass the bill on to full Senate floor debate was 2-1. It has already passed the House.

If passed by the Senate and signed into law, the song made popular by former Gov. Jimmie Davis would replace "Give Me Louisiana" as the official state song.

Sen. Bill McLeod of Lake Charles objected to Freeman's bill on the ground the song's lyrics are not quite lofty enough to serve as a state anthem.

What about "The Tennessee Waltz," Tennessee's state song, asked Freeman.

Noting that the word Louisiana is not in "You Are My Sunshine," McLeod tried unsuccessfully to amend the bill to adopt the music as the state tune and add appropriate words next year.

Failing that, he tried to amend it to make the song the "unofficial" state song.

"It's a catchy little tune," said McLeod. "It's nice on a hayride or to be sung around

the campfire. But as a state song it's totally inappropriate."

He claimed that the rest of the nation laughs at Louisiana enough as it is.

"This will only give them further mirth at our expense," he said.

The committee hearing, however, was conducted in pokerfaced seriousness with the gray-haired woman who wrote "Give Me Louisiana" seated at the witness table.

Dora Fontaine, 71, of Baton Rouge acknowledged that her song was not very well known, but noted that is only a couple of years old.

Plain talk legislation

ALBANY, N.Y. (AP) —

The New York legislature has passed a bill requiring that leases and contracts "for personal, family or household purposes ... be written in non-technical language and in a clear and coherent manner using words with common and everyday meanings."

However, the lawmakers couldn't leave well enough alone.

"Any creditor, seller or lessor who fails to comply with the foregoing provisions of this subdivision shall be liable to a consumer who is a party to a written agreement governed by the provisions thereof in an amount equal to the sum of any actual damages sustained plus fifty dollars," they wrote.

Texas schools missing out on untaxed property

AUSTIN, Tex. (AP) — Two Texas school districts, which want an injunction to stop the use of property taxes to finance state public schools, say they are missing out on revenue from \$75 billion in untaxed "intangible property."

U.S. District Court Judge Jack Roberts said Wednesday he would take the injunction request under advisement.

The Leander and San Augustine Independent School Districts want state school fund allocations stopped until a new evaluation system could be devised by the legislature.

Austin attorney Adrian Overstreet said, "It's the function of this court to inform the legislature to set up a new system. . . to tell them: 'The system you have does not work.'"

Howard W. Blomquist, executive vice president of Management Services Associates (MSA), a firm that figured real estate values used in the current state school finance plan, said federal income tax information shows more than \$75 billion in "intangible property," such as stocks and bonds, goes untaxed in Texas.

School trustees in Leander and San Augustine contend that exclusion of that "intangible property" gives them a "discriminately smaller share of the state's revenue."

People who have \$50,000 or less in assets count 51.5 per cent of their wealth in real estate, while those in the \$5 million-or-more category have less than 9 per cent of their assets in tangible — and taxable — property, Blomquist said.

Asst. Atty. Gen. Lynn Taylor argued that granting the injunction sought by Leander and San Augustine would put an undue hardship on the rest of the state's 1,102 school districts.

Okie Hayes takes lead in British Open

LEADS FIRST ROUND — John Schroeder of La Jolla, Calif. doffs his hat to spectator's cheers Wednesday after finishing first round of play in the British Open with a four-under-par 66, which gave him the first round lead. His father, Ted Schroeder won the Wimbledon Tennis Singles Championship in 1949.

TURNBERRY, Scotland (AP) — Mark Hayes, a five-year veteran of the U.S. pro tour, shot a second-round 63, seven under par, to break the all-time record for the British Open by two strokes and charge into the early second-round lead today.

With his first-round 76, Hayes stood at one-under 139 for 36 holes. Chi-san Hsu of Taiwan and Howard Clark of England each stood at 140.

Hayes sank a 12-foot putt on the 500-yard, par-five 17 for an eagle-three to go eight under par for the round but bogeyed the 18th—his only bogey of a round that included six birdies and an eagle.

The previous Open record of 65 was set by Henry Cotton in 1934 and equaled eight times, the last by Spain's Angel Gallardo this morning.

Hayes, who will be 28 in five days and comes from Edmond, Okla., has won in excess of \$90,000 this year and already has picked up a couple of tournament victories, including the important Tournament Players Division title.

It was his putter that did it for him today. He one-putted 13 times in the round, once from 35 feet on the 409-yard, par-four 16th.

He started by downing putts of 12 and 13 feet to

birdie the second and third par-four holes. Then on the 528-yard, par-five seventh his drive landed in the rough. A three-iron was just short of the green, a chip landed to within 10 feet, and he was down from there.

The next three holes he two-putted, but got pars nevertheless.

On the 177-yard, par-three 11th he was within a foot of the pin with his five-iron tee shot, and on the next hole was down from eight feet. He birdied those two, then had another run of three pars—getting himself bunkered on the 209-yard 15th but getting out to within 15 feet to sink for a par three.

After his 35-foot putt on the 16th, his approach on the 17th was within 12 feet of the pin and he sank for an eagle.

His only bad hole was the last. He was bunkered from the 18th tee, was out short of the green, was still short with a pitch, pitched again to within five feet, and was down for a bogey.

Throughout the round, Hayes was putting cross-handed with a grip he started using only three rounds ago.

Firing an erratic round that included six birdies and six bogeys, Chi-san carded a pair of 35s for a second-round total of 70, matching his opening-day card.

Clark shot 68, two under

par, in the second round over the 6,875-yard, par-70 Ailsa course in balmy, unusually warm Scottish weather that reached temperatures in the high 70s.

Gaylord Burrows, an Englishman playing out of the United States but not yet a U.S. citizen, opened with a two-under 33 in the second round. He faltered coming home, however, shot 39 with four bogeys, including a string of three in a row from No. 14, and finished at 72-141, one over par for the tournament.

Hubert Green, one of the later starters who was at two-over 72 after the first round, birdied the second hole then fired a hole-in-one on the 167-yard, par-three fourth. At that point he stood three under for the round

and one under for the tournament, putting him among the leaders.

Bulletin

TURNBERRY, Scotland (AP) — Roger Maltbie holed a 50-foot putt for a birdie on the 15th hole and charged into the early second-round lead today in the British Open golf tournament.

Maltbie fired a 66 and stood at 137, three under par, after 36 holes.

Hubert Green, who scored a hole-in-one on the par-three fourth, equalled Maltbie's second-round total of 66 and was another shot back at 138. Green made the turn at three-under 32, then began the homeward journey with four birdies to go seven under.

Astros' extra ummph ruins LA's savoring

LOS ANGELES (AP) — Los Angeles reached the midway point in the 1977 season Wednesday night with a 54-27 record, the best in baseball, and while it was satisfying to Tom Lasorda, the Dodgers' manager was wrapped up in a 2-1 loss to the Houston Astros.

"Those are games we have to win," said Lasorda of Wednesday night's 14-inning defeat. "We've got to win extra inning games at home."

The loss, which ended the Dodgers' four-game winning streak, was the sixth in nine extra inning games this season for Los Angeles. It was also the fourth defeat in seven meetings with Houston, a club that is 17½ games behind the Dodgers in the National League West.

"I have no idea why we play the Astros so tough," said Lasorda, alluding to 10 one-run decisions between the two clubs the past two seasons.

Jose Cruz finally ended the Dodgers' longest game this season with a 14th inning home run, his seventh, which came off Mike Garman, 4-1.

The Dodgers' Rick Rhoden and Houston's James Rodney Richard battled through 10 innings Wednesday night, both leaving with the score tied 1-1.

Rhoden, who took a 7-1 Dodger Stadium record into the game, provided Los Angeles with its only run when he hit his first home run of the season and only the second of his career in the third inning.

Dorsett takes a belt (at the bartender?)

DALLAS (AP) — A bartender and barmaid at a Dallas disco have whistled Heisman Trophy winner Tony Dorsett, the Dallas Cowboys' heralded first-round draft choice, for alleged unnecessary roughness.

Dorsett faces two charges of simple assault stemming from an altercation early last Thursday at the night spot. He could be fined up to \$200 on each count if convicted of the Class C misdemeanor.

But the former University of Pittsburgh star says the matter would have been dropped if he wasn't Tony Dorsett.

The complaints, filed in municipal court, allege Dorsett punched a bartender and threw a whiskey glass that cut a barmaid. He was not arrested, a Dallas police spokesman said, but will have to answer a summons.

Dorsett, who signed a Cowboy contract worth a reported \$1.2 million, said the altercation resulted from a misunderstanding over whether he had paid for his drinks.

He said a bartender asked if he had paid. "And he asked in a way I didn't appreciate," said Dorsett.

The bartender insisted he move from the bar, Dorsett said, but Dorsett refused to move until he had finished his drink.

Big Apple has soured for Nets

CARLE PLACE, N.Y. (AP) — The New York Nets, who began operations 10 years ago as the New Jersey Americans, apparently now are trying to become the New Jersey Nets.

Roy Boe, president of the Nets, said Wednesday he had entered into a letter of intent with the New Jersey Sports and Exposition Authority to move the National Basketball Association team to a 20,000-seat arena proposed for the Meadowlands Sports Complex in East Rutherford, N.J.

"It is hoped that we will be able to play at least one-half of the 1978-79 season in the new arena," Boe said. "In the interim, we plan to play our games at the new Rutgers University arena in New Brunswick."

Meanwhile, the Nets filed suit Wednesday at U.S. District Court in Newark, N.J., in an attempt to stop the New York Knicks from blocking their proposed shift. Judge Vincent Biunno issued a temporary order preventing the Knicks from filing suit in any other court to block the Nets' move.

The Knicks claim that territorial rights agreed upon when the Nets came into the NBA from the American Basketball Association last year require their permission before the Nets can make a move. But Boe said, "We have received assurances from our counsel that we are legally entitled to move to New Jersey and that protestations by the New York Knicks to the contrary are wholly without merit."

THROUGH the fieldglasses

By Danny Reagan

Kaleidosports

Your father's moustache

Catfish. Now there's an ugly mug. And I'm not talkin' Catfish Hunter either. This is the "All-you-can-eat-for-\$2.49" variety. "Hey Danny, why do catfish have whiskers?" (snicker, snicker)

"Cause they ran out of blades?" sounded like a good answer at first, but then I found a news release on my desk that sounded even better.

The whiskers (also called barbels) are used like fingers for feeling, like tongues for tasting, and also for walking and growling, this is all according to the July issue of Ranger Rick's Nature Magazine, of course. I wouldn't kid around about something like this.

There are over 2,000 species of catfish around the world. They're also called shovelheads, bullheads, stonemats, mad-toms, blue cats, flatheads and eelcats. They range in size from the variety I catch (not nearly big enough), to the 400-pound European cat known as the "sheatfish."

And for your next fishing trip when the lines aren't singing and the conversation has trailed off, the beer has run out and the worms are dying, did you know:

—Glass catfish of Asia and Africa have "see-through" bodies.

—The talking catfish of the Amazon grunt and growl.

—The walking catfish of Asia can breathe air and walk on land.

—The electric catfish of Africa can jolt you with a shock of 350 volts.

—And those ugly little buggers you catch here in America can deliver a painful wasplike sting with poison spines.

Keep an eye on the Houston Astros. That club may not have been around very long, and may have begun ignominiously enough in a minor league stadium (it is said that the games would stop so the players could fight off mosquitoes and change uniforms), but despite declining attendance, the future could be bright.

In 1965, when the Colt 45s became the Astros, the club enjoyed its highest attendance figure, 2,151,470. Roy Hofheinz, who gave birth to the Astrodome, experienced some financial difficulty along the line, and by the time he sold out, he was \$38 million in debt.

Attendance has dropped steadily since then, dipping to 896,146 last year, and continuing to decline at about a 10,000 a date average this season.

Under Tai Smith, however, (president general manager) the club is doing market studies, like a real business. They are going out into the community and finding out why those people who do not attend games do just

that, and what can be done to attract them.

They have found that in a city that has 40 per cent minority population, hardly any blacks or Latinos attend the games. Public transportation seems to be the key there. They also found out that the lack of success the Astros have had (finishing above .500 only twice), has had something to do with the declining paid attendance.

Now that they know the problem, they will try to find the solution.

If you've never seen Ilie Nastase's wife Dominique (Nicki), you've really been missing something. She looks like Phyllis George, only with sex appeal.

She was interviewed a number of times at Wimbledon two weeks ago, and even though this reporter wasn't there, (laundry), here are a few comments she made to another reporter:

"Ilie is like my child," she said. "I sit there and I watch him and I feel what he goes through. I die when I see him play sometimes, when he goes crazy on the court."

"My hands are cold and very sweaty. Can you see how red my thumb is from biting it all the time?"

His wife's crazy too.

Remember the story the other day about the old baseball wife's tale: "The team that is in the lead on the Fourth of July will win the pennant?"

"Mack" Hart says it necessarily ain't so. He recalls that the Boston Braves in 1916 won the pennant, and that national league team was in last place on Independence Day.

Maybe the Rangers still have a chance.

NEW YORK Yankee Manager Billy Martin, on Texas Rangers' pitcher Gaylord Perry and his alleged greaseballs: "If you stand next to him, he smells like a drugstore."

DARREL CHANEY of the Atlanta Braves, when asked what Manager Dave Bristol could do to get the Braves on their toes: "Raise the urinals four inches."

PRO GOLFER Jerry McGee: "Playing in the U.S. Open is like tippy-toeing through hell."

NOTRE DAME football Coach Dan Devine, when asked if he believes a losing coach has a right to hide from writers as Woody Hayes did after Ohio State's Rose Bowl loss to UCLA in January, 1976: "When you lose, you've got to suck up your guts. Maybe you don't want to do it, but you've got to face up to reality."

MCC hosts classic

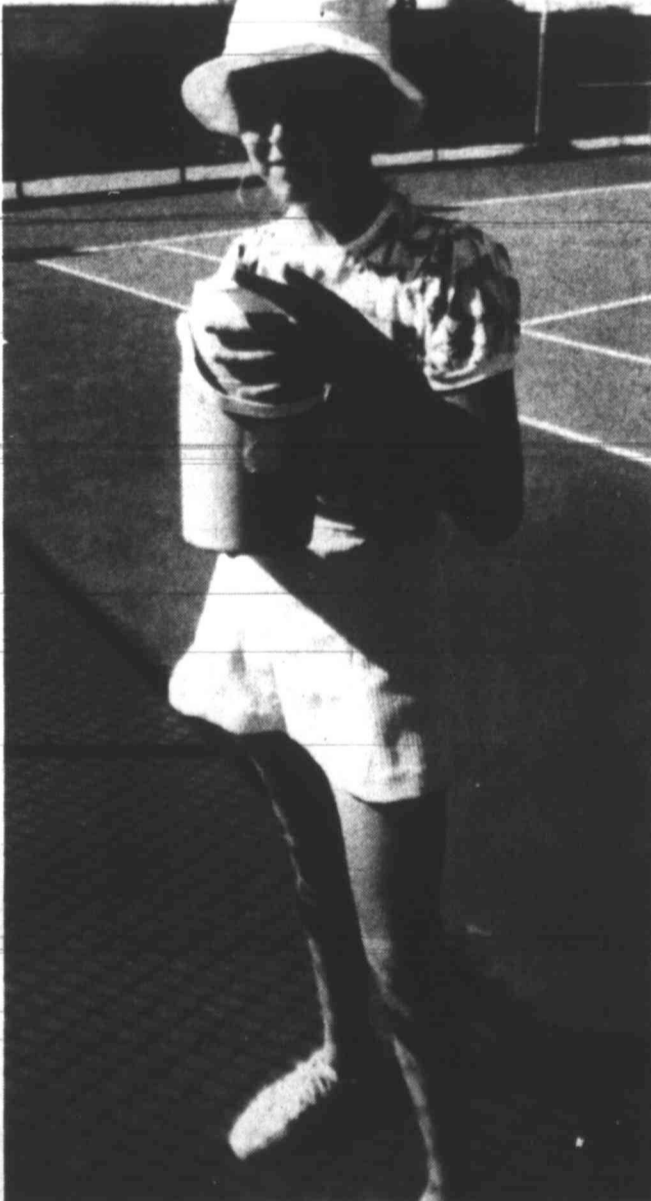

MIDLAND, Tex. (AP) — Doug Clarke, a 17-year-old long-hitter from LaJolla, Calif., is the defending champion in the 74th annual Trans-Mississippi Golf Tournament which begins at Midland Country Club Monday.

Young Clarke edged veteran Dr. Ed Updegraff of Tucson, Ariz., 1-up in last year's championship match.

A field of 270 will play 36 holes to qualify for the top 64 spots. This is only the sixth time the tournament has been held in Texas and the first time in West Texas.

Other top players entered include U.S. Amateur champion Bill Sander of Seattle, Lindy Miller, low amateur in the U.S. Open, and former Walker Cup players John Graves of Fort Worth and John Farquhar of Lubbock.

Qualifying will be held at both Midland Country Club, which plays 7,400-yards to a par 72 and at the Hogan Park Golf Course.

(PHOTO BY DANNY VALDES) WATER BREAK — Kim Olesen of Big Spring is seen here between sets of her girl's 12 singles final match Wednesday morning. Kim lost the Highway 80 top trophy in a close match, 6-7, 6-7. Brother Danny won the boy's 16 finals in a tree-topper, 6-0, 6-1. Vicky Murphy, who played high school tennis in Big Spring, won the finals in the women's singles, 6-3, 6-2.

July only! Add 50¢ more to your coffee coupons

Here's a brand-new way to save real money on coffee —and it's as easy as 1, 2, 3.

1 If you're like most shoppers, you save coupons. So take *any* coupon you have for Maxwell House® Coffee — Regular or Instant — or Sanka® Brand Decaffeinated Coffee — Regular, Instant or Freeze-Dried.

2 Then clip the Bonus Offer at the bottom of the page. It's worth an extra 50¢ if it's combined with that coupon you saved. Take them *both* to your store.

3 You save the *combined* total of *both*. For example: say you've got a 20¢ to 40¢ coupon for one of these coffees. With the Bonus Offer for 50¢ — you save a grand total of 70¢ to 90¢. Now aren't you glad you save coupons? But hurry. Offer ends July 31, 1977.

EXAMPLE:

Fort Apache--It can only be compared to war

EDITOR'S NOTE — The South Bronx, once literally burning up from urban crime and violence, is now a moonscape. Associated Press reporter Peter Arnett and photographer Eddie Adams, both Pulitzer Prize-winning war correspondents, went to the South Bronx to cover a different kind of battle and found it grimly over.

By PETER ARNETT
AP Special Correspondent
NEW YORK (AP) — A Macdonalds restaurant now occupies the imposing shell of the main neighborhood bank that burned down last year.

The 41st police precinct station house is only one of four buildings still occupied on both sides of the block, but instead of "Fort Apache," the name given it by embattled patrolmen who were once fighting the most explosive crime rate in the city, it now is known as "the Little House on the Prairie."

Things have quieted down. From his Fox Street apartment windows, Robert Strickland has a mile-long vista of fire-gutted buildings and derelict-congested empty lots, but he has attracted 22 couples to help restore his once abandoned apartment house and raise their families there.

From such tenuous symbols is an equally tenuous hope generated that the once-thriving South Bronx may rise from its ashes. But it's got a long way to go before it can play phoenix. In fact, it's almost a case of: We're down so far, there's no place to go but up.

Consider the 50 miles of streets adjoining Hunt's Point where a six-year-long social tornado ravaged the community with crime, fires and vandalism and spilled devastation into neighboring areas.

Consider the 90,000 people — half the population — who left. And the 80,000 who couldn't.

Consider that one-third of the apartments and business premises have been destroyed.

"It can only be compared to war," said Father Louis Gigante, the New York city councilman for the community whose Catholic parish is centered in the worst of it. "And we lost that war."

The priest's St. Athanasius Church is the only living building in one five-block stretch of desolation.

"Peace" in the South Bronx may be viewed as chaos anywhere else. In one

Liberal Demo

Dickson dies

AUSTIN, Tex. (AP) — Funeral services will be held this afternoon for Fagan Dickson, 73, prominent liberal Democrat and well known attorney, who died Wednesday after a long illness.

Dickson was a practicing attorney in San Antonio from 1930 to 1941 when he was elected a member of the Texas legislature. He served as an assistant attorney general from 1942 to 1949, then went into private practice in Austin.

Dickson ran for Congress in 1968 with the announced aim of convincing President Lyndon B. Johnson not to run for re-election. Billboards bearing the message "Bring Lyndon Home" were scattered over the district around Austin. After Johnson decided not to run again, Dickson withdrew from the Congressional race.

He was associated with former Sen. Ralph Yarborough, D-Tex., in a number of political campaigns, serving twice as his statewide finance chairman.

He was a native of Hopkinsville, Ky.

Survivors include a son, James Fagan Dickson Jr., Houston.

Waste disposal violation costs

AUSTIN, Tex. (AP) — The attorney general's department says Material Control Inc., of Ellis County, has agreed to pay \$20,000 for violation of the solid waste disposal act.

The penalty, levied by Dist. Court Judge Milton Hartsfield of Ellis County, was accompanied by a permanent injunction against the company from any other violations in its use of an industrial solid waste disposal site east of Venus and north of U.S. 67.

evening with 41st Precinct patrolmen, an Associated Press reporter and photographer noted these situations:

—A body was picked up in the East River, victim of a drug-related murder.

—Wager boards were set up at a dozen street corners and gamblers were tossing large bills onto the tables. In the same locations, money was openly changing hands for glassine bags of drugs.

The Hunt's Point market area took on the air of a gypsy encampment as scores of prostitutes stood around street corner bonfires fueled with scrap wood.

But the precinct chief, Capt. John Clifford, who has watched the South Bronx turn into a moonscape in the past six years, commented: "We're at peace now. We used to have murders every night, there was anarchy on the street and even the station house was assaulted. Gangs ran wild, fires lit up the night. It's all moved west

to the 44th Precinct."

What the war left behind "is a terrible portrait of America," said Clifford, who is frequently interviewed by foreign reporters and television crews who make the 15-minute drive north from the glass towers of mid-Manhattan to the blackened shells of the South Bronx.

From some street intersections, such as Kelly and Interval, only destruction is visible. The strongly constructed six-story apartment buildings that once marched proudly up the streets with their middle-class Irish, Italian and Jewish inhabitants, now are dilapidated. The streets are eerily deserted.

But South Bronx already tentatively has started traveling the road back.

The Carter administration has agreed to revive urban renewal plans shelved by the Nixon White House in the early 1970s. These envisage federally financed housing units which will be mixes of

low-rise new housing and rebuilt tenements, erected in areas of stability around churches, social centers and government buildings.

Plans to rebuild at the previous density of population have been

discarded, said Mike Jeffers, treasurer of the Southeast Bronx Community Organization, "because we

know now part of our problem was overpopulation. We had vertical slums here."

Around \$30 million has been earmarked for one 400-unit complex, but Father Gigante said it will take more than money. "In the past 10 years from \$200 to \$300 million has been poured into the South Bronx in special programs and it has only gotten worse," said the councilman. Of 34 buildings rehabilitated in the early 1970s under a municipal loan program, only six are still alive, said Jeffers.

Jeffers and others believe that a new spirit is taking hold among the 80,000 or so survivors of the past six years of conflagration. Typical is Robert Strickland who with his wife and children organized tenants in a rundown, abandoned building in the worst part of town, rebuilt the apartments and dared the derelicts and the dope pushers in the street outside to cross the

threshold. And businessmen along Southern Boulevard and 163rd Street are grimly hanging on, hoping for a resurgence of the booming business that once characterized this part of the Bronx.

New York social planners are watching the 41st Precinct of the Bronx as a signpost for the whole borough. The blight that started there has spread uptown, with the pressures of overpopulation threatening the stability of the once-genteel Grand Concourse and bringing crime and arson to terrified communities.

Meanwhile, people continue to leave the 41st. War did indeed linger there but only time will tell if it left behind peace or death.

defector, 41-year-old Fan Yuanyen, would be rewarded with about \$700,000 worth of gold.

Fan's plane is no prize for Western intelligence officers since it has been outdated by the MIG21 and MIG25. But military sources said he brought documents concerning Chinese coastal

military installations and other defense information.

The defense ministry spokesman said Fan took off from the Chintian military air field in Fukien province, crossed the Formosa Strait and landed at Tainan, in southwest Taiwan.

He told officers there that life on the mainland was "so suffering" that he had "no choice but to flee to Taiwan," the spokesman reported.

He said he had been planning his move for "quite a long time," the spokesman continued, and headed for Taiwan while making an

"inspection" flight about noon today.

Fukien province is across the Formosa Strait from Taiwan.

The Nationalist government offers rewards in gold to defectors who bring their planes or naval vessels with them. Informed sources said Fan would get 5,000 ounces, worth \$698,400 at the price on the Hong Kong market today.

Fan was the third Chinese air force pilot known to have defected to Taiwan. One flew over in a MIG15 in 1962 and one in an EL28 bomber in 1965.

Defector will be rewarded gold for stealing MIG19

TAIPEI, Taiwan (AP) — A squadron commander in the Chinese Communist air force flew his MIG19 jet fighter to Taiwan today and asked for political asylum, a spokesman for the Nationalist Chinese defense ministry announced.

Defector will be rewarded gold for stealing MIG19

Inspected flight about noon today.

Teen accused in fire slayings of two tots

(AP WIREPHOTO)

NO BOUNDARY BETWEEN FRIENDS — Canadian Agnes Penner, left, and American Nancy Zylstra stand along Boundary Road about five miles north of Lynden, Wash. The ditch between them is the international border between Canada and the United States. They and others who live along the road violate border laws everytime they cross it, but they don't let that stand in the way of friendships or neighbors.

OKLAHOMA CITY (AP) — Two counts of second degree murder were expected to be filed today against a 19-year-old man in the fire slayings Wednesday of two children, Dist. Atty. Andrew Coats said.

The charges were due to be filed against Michael Creston Moore of Newcastle, Okla., Coats said.

The deaths occurred early Wednesday morning as Melford Isaac made his rounds, with his children asleep in the back of the car, delivering the Oklahoma Journal, an Oklahoma City newspaper.

Isaac, 25, left the motor running as he delivered the papers to an apartment complex about 4 a.m. He told police he saw a man jump in the car and drive off. Isaac said he tried to give chase, but gave up and called police.

Officers found the car about eight blocks away where its interior apparently was doused with a flammable liquid and set afire. A passerby saw the blaze and a

man running from the car, and called the fire department.

Firemen found the bodies after extinguishing the blaze, which was fed by the

(AP WIREPHOTO)

DEATH CAR — Two children, ages 3 and 6, burned to death in this compact auto early today shortly after it was stolen and set afire. Police said the children were asleep in the car when the theft occurred while their father delivered newspapers at an apartment complex in Oklahoma City.

stack of newspapers in the hatchback compartment of the compact car.

About 10:45 a.m., Moore surrendered to Oklahoma City police, accompanied by an attorney.

Moore's sister Ronni, 18, also of Newcastle, was arrested and jailed on complaints of aiding and abetting a fugitive. A friend of the Moores, Marilyn Jean Helms, 18, Newcastle, was jailed as a material witness and on a complaint of interfering with official process.

The victims were identified as Melissa Isaac, 6, and her brother Martin, 3.

Isaac and his wife had recently separated and the husband was keeping the children. Rather than leave them alone, he had been taking them along as he delivered the papers — letting them sleep in the hatchback section of the car behind the stack of papers.

Coats said the second degree murder charges would be filed rather than first degree because of the apparent lack of premeditation.

"It apparently was somewhat impulsive and not with any real planning," Coats said, adding the fire may have been started "just as an afterthought."

A police spokesman said investigators believe the car was taken after a Tuesday night drinking party which apparently led to an impulse "for a short ride."

The mother, Judy Lynn Isaac, 23, said she carried no animosity toward the man suspected of the deaths.

"He couldn't have known they were back there or he wouldn't have done it," she said.

Mrs. Isaac is employed by the Oklahoma Publishing Co., publisher of the Oklahoman & Times, as an agent carrier.

Ambassador to France shot

PARIS (AP) — A gunman shot the Mauritanian ambassador to France today, but officials at the American Hospital said he was out of danger. He was the third ambassador shot in Paris in the past two years.

The attempt on Ambassador Ahmed Ghanahalla, 36, apparently was the work of the Polisario Front, which is fighting a guerrilla war in northwest Africa for the independence of the former Spanish Sahara from Mauritania and Morocco.

A woman telephoned Agence France Presse, the French news agency, and said the Mohamed el Walli Said International Brigade was responsible for the attack. Mohamed el Walli Said was the secretary-general of the Polisario Front who was killed in an attack on Nouakchott, the capital of Mauritania, in June 1976.

Ghanahalla was shot this morning just after he had gotten into his chauffeur-driven car near his home in the fashionable 16th District. Witnesses said two men about 25 years old approached the parked car from behind and one of them fired six shots through the rear window.

The two attackers fled into adjacent streets and escaped.

Airport to buy snowplows

DALLAS (AP) — Dallas-Fort Worth Airport directors are tired of having to fight rare snowstorms with manure and rented road graders. So they've ordered \$458,000 worth of snowplow equipment.

Snowplows, something no one thought a Texas airport would ever need, were sorely needed last January when the airport, one of the nation's busiest, was nearly closed by snow.

"We realized we were having trouble with the snow when it started accumulating and wasn't dissipating," recalled Albert Magazine, administrative assistant to airport executive director Ernest Dean.

"It was on everything — the runways and taxiways," he added, explaining that the normal two to five-minute taxi trip from landing to the terminal was taking some planes up to 30 minutes.

"We threw manure on it," said Magazine, describing the first-line of attack. But the fertilizer couldn't melt the deep drifts. Road graders, rented from local contractors, were also unsuccessful.

DENNIS THE MENACE

'WOOPS! THEY GET A LITTLE FRISKY WHEN YOU BRING 'EM INTO A WARM ROOM.'

Your Daily HOROSCOPE

from the CARROLL RIGTER INSTITUTE

FORECAST FOR FRIDAY, JULY 8, 1977

GENERAL TENDENCIES: You now have many good ideas for getting ahead, so use to fullest possible advantage. Some unexpected problems can be avoided in the late afternoon and evening by being alert.

ARIES (Mar. 21 to Apr. 19) Contact money expert who can be of assistance to you in monetary matters. Make long-range plans for the future.

TAURUS (Apr. 20 to May 20) Home affairs will need your attention at this time. Stick to the proven so that you maintain present security.

GEMINI (May 21 to June 21) A good friend has a fine idea for your advancement, so listen carefully. Personal wishes are not as important as you think.

MOON CHILDREN (June 22 to July 21) Be careful where a credit matter is concerned or your good reputation could be harmed. Do nothing drastic.

LEO (July 22 to Aug. 21) Strive for a better understanding with one whose background is different from yours. Be careful of outsiders.

VIRGO (Aug. 22 to Sept. 22) Buckle down to important duties that must be handled. Don't permit interruptions interfere with your plans to get ahead.

LIBRA (Sept. 23 to Oct. 22) An associate can do you a big favor but be sure you do what is expected of you. Steer clear of one who opposes you.

SCORPIO (Oct. 23 to Nov. 21) Study how to cooperate more with your associates so that production can be improved. Come to a better understanding with relatives.

SAGITTARIUS (Nov. 22 to Dec. 21) Carry through with creative plans that are important to your future. Try not to argue with mate. Be happy.

CAPRICORN (Dec. 22 to Jan. 20) Try to establish more harmony at home. Not a good day to get started on a new project. Relax at home tonight.

AQUARIUS (Jan. 21 to Feb. 19) You have clever ideas for speeding up production in career matters. Try to cut down on expenses instead of adding to them.

PISCES (Feb. 20 to Mar. 20) You know exactly what should be done where a financial matter is concerned, so use good judgment instead of relying on your intuition.

IF YOUR CHILD IS BORN TODAY... he or she should be given an opportunity to work both with the mind and the body so there can be perfect balance throughout lifetime. There is a born pioneer in his chart so be sure to permit-to-travel-early-in-life.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

Eva Palacios joins Air Force

Eva M. Palacios, daughter of Mr. and Mrs. Juan Palacios of Sterling City Rt., Big Spring, entered the United States Air Force Delayed Enlistment Program on June 27, according to Sgt. Art Clark, the Air Force Recruiter in Big Spring.

Airman Palacios selected the Law Enforcement area for job training and will attend a six-week Basic Military Training Course at Lackland AFB, San Antonio, Tex., beginning in January.

Ridin' fence

As time goes by

with Marj Carpenter

Time gets away from us so quickly and the line of veterans, who were praying at the Fourth of July flagpole dedication were just a few years back soldiers or sailors in one war or another.

Everybody has a story and some, we grant, are more interesting than others. But one of the real rewards of this column and "Ridin' Fence" are getting down some of the stories that may be missed before it's too late.

The funerals of oldtimers in recent weeks has really made me want to hurry a little faster to get many of the stories down in print. Who could have said a month ago, that Coy Nalley would be gone. His stories of the early day traveling when he sold caskets and of his years in establishing the funeral business were so colorful and interesting. And nobody got them all.

The last week of his life, he was telling me about helping pull a drowning victim out of the city swimming pool named Joe Dimaggio. "He was the nephew of the famed Joe Dimaggio," Nalley recalled. Does anybody else know the rest of that story? Louise Middleton, who died suddenly while visiting in England last month, could tell stories about how everybody used to pull wagons up what she called "Blue Mountain" to cut their

own Christmas trees. She said that Scenic Mountain used to have a lot of blue shaded trees up that way. Her stories about Big Spring spanned three generations and were so informative. Vivian Johnson Hatch, a real old timer died a few weeks ago. Her father, Pete Johnson, was one of the really early pioneers here with the T&P. Unfortunately

for the past few years, she was unable to tell her story. Wyatt Eason drove the first mechanized fire truck in Texas right here in Big Spring. There has been stationery put out with a picture of that truck on it. Wyatt loved to entertain and the last Christmas he was home gave his traditional barbecue and kissed all the

widows under the mistletoe. There will never be another quite like him — and he died recently. John Allred who said he got married by the handiest preacher — just like "digging with the handiest shovel" died last week, taking with him some of the most colorful tales of the Ackerly and Knott early days.

Lions confab reshaped

Downtown Lions Club president M. A. Barber related his experiences at the Lions International 60th Annual Convention held in New Orleans last week at the regular meeting of the club Wednesday.

Barber, who recently took office, and his wife, Carrie, were sent by the local club to attend the worldwide convention.

About 50,000 Lions representing Lions Clubs in 149 countries were present at the convention, held in the Superdome.

Also attending the convention were Russell Devore, district 2-A1 governor, Mr. and Mrs. Noah Perkins, all of Big Spring's Evening Lions Club and Mr. and Mrs. Cecil

Joseph M. McLoughlin, past district governor. Perhaps the most impressive part of the convention, according to Barber, was the presentation of the flags of the 149 nations and geographic areas in which Lions Clubs are chartered. The flag of the latest country

to get a Lions club and the host country were last in the parade, according to Barber. Gibraltar was the country to most recently get a club formed.

At the convention, Joseph M. McLoughlin, Stamford, Conn. was elected president of Lions International.

President McLoughlin's theme for this year in office, "Lionism: People Caring for People," is representative of the basic philosophy of all Lions, who as a group, have pledged themselves to meeting the needs of the handicapped, the lonely and the under-privileged in their communities and around the world.

A member of the Springdale, Connecticut Lions Club since 1957, McLoughlin is the president of a lumber company and the president of a real estate development firm.

They opted for optional

SAN DIEGO (AP) — The official figures are in on San Diego's biggest attraction over the Fourth of July.

The zoo was visited by 14,394 persons, Sea World marine park by 16,229 and Black's Beach by 25,000.

The beach is "clothing optional."

Phillips slush fund decision

TULSA, Okla. (AP) — Charges that Phillips Petroleum Co. and three present or former officials had avoided paying income taxes on a \$3 million political slush fund have been dismissed.

U.S. District Court Judge Allen E. Barrow dismissed the cases Tuesday, saying he "fully expected" an appeal to the U.S. Supreme Court.

The government claimed in indictments returned Sept. 2, 1976, that the firm, William F. Martin, current board chairman, and W.W. Keeler and Stanley F. Learned, former board chairman, had conspired to avoid paying the taxes from 1962 to late 1973.

Phillips' lawyers contended that guilty pleas in December 1973 from the Bartlesville-based company and Keeler to violations of the federal elections law had

included an agreement that with the fund would be no further charges dealing brought.
