

A HOME ECONOMIST for Texas Electric Service Company, Mrs. Sandra Killough demonstrates the preparation steps in making one of her recipes, Quick Conqueso Dip. At left, she is cubing the cheese required

For the recipe into the chili mixture, and right, the dip is going into the microwave to heat. Mrs. Killough said the easy to make dip can also be cooked on a conventional range.

Has interest in both fields

Home economics, business mix well

By SUSAN HAMPTON A fairly new occupation is on the rise and a local Big Spring resident attests to the usefulness of the job, because she is one. Mrs. Sandra Killough, a home economist for Texas Electric Service Company, chose her career because she was "interested in two fields — home economics and business."

Her personal interests range from traveling to, of course, cooking, and the more than 200 cookbooks she owns is proof. A home economics major at Tennessee Tech University in Cookeville, she received a B.S. in her major and then, as a "summer adventure", traveled to Hawaii, where she stayed for three months, working and attending a few classes at the University of Hawaii.

adults and students in the community. Mrs. Killough speaks to home economic classes at the high school on energy-saving and conventional range and oven cooking since they learn on these types of kitchen appliances, she said. Because of the energy problem facing the nation, she finds herself having to educate the public in how to save energy by using less of just about everything, she said.

the correct water level setting on clothes washers can prove to be beneficial, she said. Mrs. Killough said near the year 2000 we "might" all be using microwave ovens in cooking, but right now not everything can be cooked properly in one. Concerning the organic food fad which is so popular now, she said there is something to be said about it.

Tween 12 - 20 Sometimes it's hard to be a parent

By ROBERT WALLACE, Ed.D. Copley News Service

Dear Doctor: We are twin sisters age 14 and our problem is our mother. Our father left three years ago. Mom works at a fast-food restaurant and she is hardly ever home. But when she is, she yells at us, calls us bad names, and says that we were mistakes and wishes we were never born.

the house — 75 per cent of this is used in the bathroom, 25 per cent in the kitchen. Some tips would include: Short showers, fully loaded washing machines and dishwashers, use of plastic bottles in toilet tanks to replace some of the water, and keeping the hose turned off when washing the family car.

Dear Doctor: My boyfriend whom I love very much broke up with me last week. We went together for over a year and had plans of getting married. I don't understand what happened and his friends don't understand either because everything was going so smoothly with me.

We love her but our love is slowly turning to hate. We have discussed running away, but we know that is not the answer. Please — we need help! K and K, West Covina, CA

I don't live at home with my parents because of a family problem. Now I feel I've lost everything. I'm so upset, I don't know what to do. We are both very young and still in high school.

Dear Doctor: It seems mother is in need of more help than you twins. Do all that you can to make the home happy and don't take what mother says seriously. Get involved in school or church teen groups and try to get mother involved in some way also. Smile and be pleasant around her. It could be contagious.

Dear Doctor: If you think that you are pregnant, see a physician immediately. Make it a point to talk with your boyfriend face to face, and ask him why he broke up with you.

Dear Doctor: Our family is aware of the severe water shortage in Southern California so we are looking for ways to conserve water. Can you please give us a few tips? Also, how much water does a family use per day on an average? Tanya, Torrance, CA

Questions may be sent to Dr. Robert Wallace, Copley News Service, in care of this newspaper.

"If you marry me, I'll give more than you ever dreamed of." "I don't know, Harry. The manager of Pizza Inn proposed to me last night." "But can he give you

more than pizza?"

"Ob, yes. He can give me a variety of delicious hot sandwiches." "I'll give you the stars." "But he'll give me terrific spaghetti dinners. And a great salad bar, too." "That's more than I can give you." "Yes, Harry, I guess we were just two ships passing in the night." "Damn."

Buy one pizza get the next smaller size free. With this coupon buy any giant, large or medium size thin crust pizza or any large size thick crust pizza at the regular menu price and receive one pizza of the next smaller size with equal number of ingredients and the same type crust free. Pizza Inn. "We've got a feeling, you're gonna like us." 1702 Gregg, Big Spring 263-1381 2151 E. 12nd, Odessa 262-6479 2126 Andrews Hwy., Odessa 332-3224 2122 E. 9th, Odessa 337-2297 1216 Illinois, Midland 694-9651

Appetizers and snacks

(Editor's note: The following recipes were selected by Sandra Killough for use in either conventional ranges or microwave cooking. The appetizers and snacks, Mrs. Killough said, could be used in entertaining or for just a light snack. Since they are high in nutritional value, the recipes are ideal for children's after-school snacks, she added.)

FRUIT NUTWICHES 18-oz. pkg. cream cheese 1/4 c. apricot puree or jam dash of cinnamon and/or nutmeg 8 slices nutbread Allow cream cheese to soften at room temperature or soften by microwave on high power for one minute. Blend softened cheese with fruit puree or jam. (Use 1-3rd c. if jam-puree is thick, 1/4 c. if thin.) Add cinnamon and/or nutmeg. Spread filling on banana, orange, or datemat bread. Cut into finger sandwiches or desired shapes. Makes 8-12 sandwiches.

112-oz. bag of Doritos Stir chili, green chillies and cheese together in 3 quart sauce pan over medium to low heat until all cheese is melted and dip mixture thickens. At serving time, keep warm over candle or low flame. Serve with Doritos. Yield: about 25 dip servings.

10 cubes (1 inch each) swiss or cheddar cheese 10 thin slices boiled ham 1/2 c. butter-margarine, melted 3/4 c. finely crushed onion cracker crumbs or other seasoned cracker crumbs. Preheat oven to 425 degrees. Separate biscuit dough into 10 biscuits. Pat or roll out each to a four-inch circle. Wrap ham slice around cheese cube. Wrap biscuit dough around ham and cheese cube, pressing edges to seal. Dip in melted butter, then in cracker crumbs. Place seam side down on ungreased cookie sheet. Bake 10 or 15 minutes or until golden brown. (Refrigerate left-overs, if there are any.) Makes 10 sandwiches.

MRS. CHEN'S PEANUTS 1 1/2 to 2 pounds shelled raw peanuts with inner skins 1 1/2 to 2 tbsps. salt 1 1/2 to 2 tbsps. sugar 4 or 5 star anises 3/4 to 1 c. water Preparation: 1. Line a large baking tray with aluminum foil. Spread the peanuts evenly on the tray. 2. In a small saucepan, bring the water to a boil. Add salt, sugar, and star anises, cover, and simmer for 10 minutes. Pour the liquid and star anises over the peanuts and let soak for 30 minutes, or until the liquid is almost entirely soaked up.

HAWAIIAN MILK PUNCH 1 1/2 qts. vanilla ice cream, softened 3 c. pineapple juice, chilled 1-3rd c. orange juice, chilled 1 tbsp. lemon juice 4 c. cold milk In a large mixing bowl beat, with wire whip, about half of the ice cream with fruit juices, then milk. Whip until frothy and pour into chilled punch bowl. Float remaining ice cream on top of punch, blending in as needed. Yields: 3 qts. or 25 1/2 cup servings.

SWEET AND SOUR TIDBITS 1 lb. bulk pork sausage 2 pkg. little smokies sausage or 1 pkg. wieners cut into 1 inch pieces 1 20-oz. can pineppale chunks 3 tsp. honey 1 tsp. soy sauce 3 tsp. white vinegar 2 tsp. corn starch Shape bulk sausage into 1 inch balls. Brown in pan with smokies or hot dog pieces. Remove from skillet, drain fat and save two table-spoons. Drain pineapple, vinegar, soy sauce and corn starch to pineapple juice. Blend with wire whip until smooth. Add fat and bring to a boil, stirring constantly (will turn dark brown). Add remaining ingredients and mix well. Cover and simmer 15 minutes. Serve warm. Serves 15-20.

HAM AND CHEESE NIBBLES 1 8-oz. can refrigerated buttermilk or country style biscuits or 10 round biscuits cut from homemade dough Mined fresh chives Garnish: seedless green grapes and orange sections Mix together the chicken, celery, mayonnaise, curry and salt. Serve on lettuce, sprinkled with the chives and garnished with the grapes and oranges. Do not omit the fruit garnish because the salad benefits from it. Makes 4 servings. Two whole, rather large chicken breasts after skinning, boning and dicing will make the 2 1/2 cups called for.

QUICK CONQUESO DIP 2 c. homemade chili, or 1 24-oz. chili with beans 1 4-oz. can chopped green chillies 3/4 lb. Velveta cheese, cubed

Garlic valued in cooking

By CECILY BROWNSTONE Associated Press Food Editor A famous French Provincial recipe, chicken basked with 40 cloves of garlic, crops up in a fascinating new cookbook, "Mediterranean Cooking" by Paula Wolfert Quadrangle. We've tried several versions of the dish; Wolfert's is one of the best.

During its baking everyone in the house will know you are using garlic. But when you carve the chicken and top each portion with a few of the soft cloves — so each eater can spread their pungency will have vanished. They'll be surprisingly mellow. Serving only a few cloves to each person is mandatory. Should a garlic-lover be tempted to down too many, the next morning there may be regrets. We say this from experience.

Saturday lunch, Sunday supper easy to prepare

By CECILY BROWNSTONE Associated Press Food Editor SATURDAY LUNCH Chicken Curry Salad Rolls Salted Nuts Lemon Bars Iced Tea CHICKEN CURRY SALAD Fine to offer to weekend guests. 2 1/2 c. diced cooked chicken breast 1 c. diced celery 2-3rds c. mayonnaise 1 tsp. curry powder 1/2 tsp. salt Lettuce

One reason we prize the Wolfert recipe is that it uses the 40 cloves about three heads of garlic unpeeled.

Johnson hopes he can lead FBI as well as J. Edgar

WASHINGTON (AP) — U.S. District Judge Frank M. Johnson, who says he hopes he can lead the FBI as well as J. Edgar Hoover did, is likely to win easy Senate confirmation as bureau director, a leading conservative predicts.

Johnson, a federal judge with a strong civil rights record, also drew praise Wednesday from liberals inside the Senate as well as out of Congress as President Carter's choice to lead the FBI.

The Senate Judiciary Committee, divided nearly evenly between liberals and conservatives, is expected to hold hearings on the nomination shortly after Congress returns on Sept. 5 from its summer recess.

Sen. Strom Thurmond, R-S.C., the senior member of the GOP conservative bloc on the panel, said he expects Johnson will win confirmation, barring unforeseen developments.

"I don't know of any special reason why he should be opposed," Thurmond said of the 58-year-old judge noted for decisions upholding the rights of blacks in civil rights cases.

Sen. Edward Kennedy, D-Mass., a leading liberal on the panel, applauded the nomination. "His career on the federal bench has been marked by an unflagging commitment to the concept of equal justice under law and a steadfast determination to guarantee the civil liberties and rights of all Americans," Kennedy said in a statement.

Johnson can expect close questioning from the judiciary committee. Sen. James B. Allen, D-Ala., a committee member.

PORT LAVACA, Tex. (AP) — Hey ol' buddy, next time you call the police department in this coastal community on your citizens band radio how about using some "good ol' plain English?"

That's the request from Capt. T.B. Hargrove Jr., who says his dispatchers are going slightly batty trying to decipher "Rubber Duck" or "Fly Trap Sam's" nasal twang and accompanying CBeez.

"It's not so much what they say, just how they say it," said Hargrove. "Our dispatchers are used to hearing clear concise English and when somebody comes on and they hear this...When they call in, we ask that they just speak in good ol' plain English."

Specifically, Hargrove asks that CBers reporting emergencies call the department by name — not "Smokey Base."

"We have a tremendous amount of skip (erratic radio reception) on this radio," he said. "We could be rushing around trying to find where an accident is, and then find out the call is coming in from Tennessee or Georgia."

Wasn't typical ribbon cutting

POMONA, N.J. (AP) — It wasn't your typical opening day ribbon cutting ceremony at Transfair '77, a five-day transportation exhibition and air show.

Stunt pilot Art Scholl, flying a DeHavilland Chipmunk at 110 miles per hour, performed the honors Wednesday by barnstorming his small propeller craft upside down 10 feet above the runway and flying through the sash.

"The flight was a piece of cake," said Scholl, 45. The Hollywood stunt pilot says he does about 120 ribbon cuttings a year.

Bandit thought he knew area

HODGENS, Okla. (AP) — Authorities figure J.B. Hall fled to this area after robbing a department store because as a former Job Corps worker in a center here he knew the area.

But when Hall, 25, now living in Houston, arrived at the old Job Corps compound Wednesday, he was arrested.

It seems the center had closed and reopened as the Ouachita minimum security prison and guards had heard a description of his car broadcast over police radios.

Hall was charged with grand larceny for allegedly robbing a store in nearby Poteau of \$95.

said he is undecided about the nomination. But Allen said he wants to know what motivated Carter to select Johnson, whose decisions in certain cases have intersected him deeply into local and state affairs in Alabama.

"I want to ascertain the

basis on which the appointment was made. Was it expertise in law enforcement or because of his rulings with respect to Alabama schools, prisons and mental health?" Allen said.

Committee members also are expected to question Johnson about his stand on

intelligence gathering techniques of the FBI and his willingness to resist any political pressures on the agency.

One former FBI official is facing trial and others are under investigation for allegedly illegal use of wiretaps, mail openings and

similar practices in the late 1960s and early 1970s.

The selection of Johnson to direct the FBI was announced at the White House Wednesday afternoon by Atty. Gen. Griffin B. Bell. It ended a seven-month search for a successor to Clarence M. Kelley, who is retiring

Jan. 1. Johnson, speaking at a news conference in Montgomery, Ala., said he hoped he could provide "positive, inspirational leadership and management know-how" to aid in the fight against crime.

"I hope I can be as fine a

leader as J. Edgar Hoover," the man who had charge of the FBI for 47 years, Johnson said.

Johnson, a Republican, was appointed to the bench in 1955 by President Dwight D. Eisenhower after having served two years as a U.S. attorney in Alabama.

CAMP DAVID, Md. (AP) — The Carters are celebrating, and they have a triple reason.
The first is a reunion. Son Chip has joined his wife Caron and their five-month-old son, James Earl Carter IV, at this presidential retreat after reports that the two were separating.
Second is the First Lady's birthday. Rosalynn Carter is 50 years old today.
The third is the birthday of

President and Mrs. Carter's youngest son, Jeff. He is 25.
Chip, 27, the Carters' middle son, will spend the rest of the week at Camp David before taking Caron, 24, and the President's grandson back to their home town of Plains, Ga. He reports for work Monday in the family peanut business.
The couple's reunion late Wednesday climaxed five days of talk in Washington that they were having

marital problems. The White House refused to confirm or deny the reports, but had said Chip would return to Plains and his wife and baby would remain at the White House.
When the President and Mrs. Carter, who is recuperating from routine gynecological surgery, came to Camp David earlier this week, Caron and her baby came along. Chip stayed behind in Washington.
At dusk Wednesday, Chip rode through the Camp David gate in a blue limousine. "Chip, Caron and James will leave for Plains on Monday," said Mary Hoyt, the First Lady's press secretary.
The President interrupted his week-long vacation, which began Monday, for a conference with Secretary of State Cyrus R. Vance on his trip to Peking. The secretary leaves Saturday.

Farm Loan plan explained

With the market price of cotton currently down to a little over 40 cents, Tim Hall, chairman of the Agriculture Stabilization and Conservation Service, said that "There may be a lot of farmers go into the government loan program."
Speaking at the monthly agriculture breakfast, he pointed out that farmers can leave it in and then pay a storage fee when it is removed, or else allow the government to absorb the

storage fee if it is left permanently.
He told farmers that the price had to be at least 43.5 cents to come out above the storage fee.
Farmers at the breakfast were discouraged over the current cotton prices and expressed the hope that they would improve as the season progresses.

Bill Albright, chamber of commerce executive, told the group that he would like to have opinions from area farmers which he could share with a national food and fiber committee of the chamber since he has been appointed to the national committee.

Bruce Griffith, county agent, explained the current project of Howard County Cotton Producers who are attempting to raise some \$7,000 for a needed habitat management research project to help battle the boll weevil in Howard County.
He reported that around \$1,200 has already been raised and that letters have just gone out on the project.

Farm tour is today

COLORADO CITY — The annual Mitchell County Farm tour is being held today and was highlighted by a noon barbecue.

Speaker at the barbecue was Reagan Brown, new Commissioner of Agriculture in Texas.

It was held at noon at the community building. The tour itself began after coffee at 8:30 a.m. and included ten stops on area farms and research projects.

Murrell Blessingame, chairman of Mitchell County program building committee, presided at the luncheon. J.O. Dockrey, chamber president gave the welcome and Judge Bill Carter the invocation.

Bob Benson, county agent and Elmer Martin, state representative, also participated.

Let's hear what doctor has to say

WASHINGTON (AP) — If you use the professional language of a professor or scientist, sometimes people think you are one. Even congressmen and newspapers sometimes make such assumptions.

Throughout the months of hearings, debates and final drafting of the omnibus farm and food-aid legislation, the Carter administration was represented daily by chief Agriculture Department economist Howard Hjort and Robert Greenstein, a special assistant on food stamps and nutrition programs to Secretary Bob Bergland.

"Let's hear what Dr. Hjort has to say," was a routine remark. His predecessor for eight years held a doctoral degree, as did former Secretary Earl L. Butz, so everyone just assumed...

Told by reporters of his errors, Rep. Thomas S. Foley, D-Wash., chairman of the House-Senate conference committee on the bill, closed one week's effort by conferring "an honorary doctorate of economic information on Mr. Hjort and an honorary doctorate of nutritional information on Mr. Greenstein, by act of Congress."

Beef research vote recorded

WASHINGTON (AP) — The final vote by which cattle producers last month defeated a proposed nationwide plan to pay for a \$40-million beef research and promotion program was 130,386 to 100,641, according to tabulations by the Agriculture Department.

The preliminary tally announced July 22 was 130,464 to 100,582. USDA said the discrepancy resulted from one county's error in its initial report.

Some 72 per cent of the producers registered to vote cast ballots. Approval by two-thirds would have been required to begin the program.

Farm markets

NEW YORK (AP) — Cotton futures No. 2 were mixed at midday. The average price for strict low middling 11-16 inch spot cotton advanced 65 points to 52.08 cents a pound Wednesday for the 10 leading markets, according to the New York Cotton Exchange.
Midday prices were 50 cents a bale higher to 40 cents lower than the previous close. Oct 53.50, Dec 53.75 and Mar 54.55.

Soviet icebreaker

First surface ship to reach top of world

MOSCOW (AP) — In a feat rivaling American Robert E. Peary's discovery of the North Pole, a Soviet nuclear-powered icebreaker has become the first surface ship to reach the top of the world. Moscow Radio-Television announced that the 25,000-ton Arktika reached the North Pole at 9 p.m. Tuesday EDT in a voyage commemorating the 60th anniversary of the Russian revolution this year.

The feat could presage the opening of more shipping lanes through the ice-packed Arctic Ocean. Atomic-powered icebreakers may soon be used to supply Russian research stations on ice floes in the Arctic and to expand the network of automated weather stations to gain new information about the polar region.

"The eternal dream of generations of sailors and polar explorers has been realized," a Soviet television announcer said. He hailed the "outstanding new victory of Soviet science and technology."

Moscow Radio said Merchant Marine Minister Timofey B. Guzhenko was aboard the Arktika for the historic voyage. The broadcast said he, the ship's captain, Yuri S. Kuchiev, and Kuchiev's crew planted a plaque at the Pole bearing the Soviet coat of arms, the name of the ship, its geographic coordinates and the date.

The Arktika also sent a message of greetings to President Leonid I. Brezhnev. The 460-foot-long Arktika, commissioned in 1974, is one of three Soviet nuclear-powered icebreakers.

The atomic-powered icebreakers are more powerful than their diesel-

powered counterparts and are capable of operating away from port for longer periods of time.

They have been used primarily on the shipping lanes along the icebound northern coast of Siberia to move platinum and other metals from the mines to the port of Murmansk. The metals comprise a large portion of Soviet exports to the United States and other Western countries.

Home Health Care boom to families

Home Health Care, a non-profit health care service covering 17 counties in West Texas, offers help for people who have either just undergone surgery or who qualify under the Department of Public Welfare for home help services.

According to Pat Patton, the service is Midland-based, but employs several registered nurses who commute to Big Spring daily.

One of these is Linda Davison. "We try to help people who are trying to live at home," she said. "Whether they have just returned from the hospital or need some home help with such things as shopping, laundry, buying groceries, and minor household chores."

The homebound service is run under the auspices of the Department of Public Welfare while the recovery services are under Title 18 and 19 funding.

To be eligible for the recovery service, a doctor

Lightning kills Texas woman Closing of Webb may be shrinkage factor

RUIDOSO DOWNS (AP) — A Marion, Tex., woman was killed and her companion was knocked unconscious when they were struck by lightning while riding horseback, officers said.

Edith Eleanor Eggers Shockey, 31, was pronounced dead on arrival at the Ruidoso-Hondo Valley Hospital Tuesday. Her companion, identified as a 12 or 13-year-old child, was examined and released.

Officers said the horse they were riding also was killed.

The closing of Webb AFB may have finally begun to have its effect on the city sales tax rebates this month. After months of increased rebates, July's check fell below the check for the same month in 1976. The rebate for July of 1977 came to \$26,724.63 as compared to \$32,429.40.

"Webb may be finally showing up in these checks," said Tom Ferguson, city finance director. "We have expected this for a long time."

Ferguson stressed, however, that it is really too early to predict a trend. The checks for the next few months will indicate for certain whether the effects of the Webb closing are beginning to be felt.

Despite July's drop, rebate figures for the year to date are still above those for 1976. Since Oct. 1, the beginning of the fiscal year, the city has received \$597,118.70. Last year the figure to date came to only \$557,428.77, which is \$39,689.93 less than the total so far this year.

Area cities which received rebates included Coahoma, \$921.43, and Colorado City, \$5,318.62. Stanton received nothing for the month of

July. Statewide, rebates to date are running a healthy 19 per cent ahead of last year, according to the office of State Comptroller Bob Bullock. Checks were mailed Monday totaling \$15.1 million to 868 Texas cities as their share of the one per cent city sales tax.

The checks bring to \$206 million the total the cities have netted this year from the sales tax. This compares to \$173.1 million for the first eight months of 1976.

Bullock said the increase in city sales tax rebates is really a double blessing. "It signals the continuing vigor of the Texas economy and at the same time provides badly needed revenue to Texas cities," the Comptroller said.

Bullock also announced that his office has added two additional WATS lines to accommodate users of his toll-free Tax Information telephone service (1-800-252-5555).

Bullock said taxpayers are making more than 10,000 calls a month on the lines seeking information on Texas taxes and the six existing lines just weren't enough to handle the business.

The Comptroller reminded callers that they can get their questions answered quicker if they call between 8 and 9 a.m., 12 and 1 p.m. and 4 and 5 p.m. when the volume of calls is lowest.

Hopes to lure boa back home

DETROIT (AP) — Michael Lakeman is setting out a feast of 10 baby chicks and one large rat in hopes of luring home his runaway pet.

The pet with the big appetite is a six-foot boa constrictor, which vanished from Lakeman's home on the city's far east side Tuesday night. Ever since, Lakeman and his nervous neighbors have been trying to track down the critter.

Although Lakeman has assured his friends the snake could do them little harm, some were understandably apprehensive when he passed around a circular reading, "Lost, lost, lost... six foot boa... dangerous... do not handle."

He said he included the word "dangerous" to make certain no one would touch the snake and possibly get bit.

LINDA DAVISON

must first certify that the patient requires such services. Some of the types of qualifiers would be stroke victims, diabetics, cardiac patients, double amputees, and extensive body casts.

"We can monitor the patient while he recovers at home," said Patton, "saving him money, freeing beds in the hospitals, and giving him a more secure experience at home."

Home Health presently serves about 60 persons in Howard County, and serves a total of approximately 750 across the county.

If you think you might be eligible for the Department of Public Welfare service, contact them. If you might be eligible for the home recovery service, contact your physician. If you have any other questions, call Home Health Service at 1-563-0241.

Gertrude McCann named prexy of seal society

Mrs. Gertrude McCann of 710 Douglas was elected president of the Easter Seal Society of Howard County at the August board meeting.

She succeeds attorney Robert Miller into the society's top post.

Other officers elected at the meeting in the Dora Roberts Rehabilitation Center conference room were Ron Killough, 705 Marcy, minister of education at First Baptist Church, vice president; and Mrs. Mary Jane Brown, 2505 Cindy and wife of Air Force Capt. Tommy Brown, secretary-treasurer.

Stepping down as treasurer is Ken Jurgens of Cosden.

Mrs. McCann has served on the Easter Seal board for many years including a period of nine years as secretary-treasurer. She has worked in all areas of the annual fund raising campaign.

The board also heard a financial report for the previous year which showed that money raised totaled \$5,110 while expenditures were \$5,292.

The largest expenditures were for shoes and braces

for needy Howard County children, which totaled \$2,200. Another \$1,050 was sent to the state and national Easter Seal Societies. Campaign expenses were \$1,264.

The largest fund raising activity was the neighbor-to-neighbor drive which brought in \$2,534 for crippled children.

S you mil If bal ted S But

SELECTING ALBUMS — Mrs. Ellen Jarrel at the right is discussing the merits of different Elvis Presley albums with Carlos Bres and Oscar Glickman. The Record Shop had customers from all over West Texas picking up Elvis albums Wednesday.

Presley fans line up to buy his records

By MARJ CARPENTER
People were lined up outside The Record Shop when Oscar Glickman got to work Wednesday morning.

He was standing at first and could not realize why they were there. But as he approached the door, smiling at the customers and putting out his key, one of them said, "Do you have any Elvis Presley records?"

From then on, he heard that question all day long. He went into the basement and brought up every Elvis record he could find and by mid-day, he was already getting low.

And this is a record shop that had hundreds of Elvis Presley records. Customers came from Lubbock, Odessa, Midland, Abilene and towns in between, partly because of the fame the shop obtained recently in an article in Texas Monthly magazine.

One man bought \$147 worth of the albums — one of each that he could find. Glickman was charging the same price that he charged Tuesday before Presley died — \$5.98.

Edlen Jarrell said, "I know there will be reprints of many of his albums but I just wanted to buy his very last tape."

Said Jody Baker, who was sorting out albums, "I went with my grandmother to see Elvis when I was four years old. All I can remember is that he wore a pink suit and it was in the city auditorium."

Another woman standing nearby was upset because the last golden record was gone. "I realize that they may print more, but they may not. There was a television special not long ago on the history of rock 'n roll and they barely mentioned Elvis. Those dummies," she stated.

Martha Proctor said, "There was a 30-minute Elvis special last year. I taped it and I have it," she said with satisfaction.

"I was in Abilene last night

and I got up early this morning to drive home because I thought the Record Shop would have a lot of his albums." She was stacking them up as she talked.

On Wednesday morning, Glickman had Presley's Golden Record, many of his early records, his sacred albums, his Hawaiian albums and many more. He even had the "Elvis Is Back" album after the army days. But by Wednesday afternoon, Elvis Presley albums were starting to get scarce.

On the local radio stations, every local station took some special way to pay tribute Presley. KBST began in the morning playing an Elvis Presley record every other record all day long.

At KBYG, they began a program at 1 p.m. and another from 2-4 that concentrated on Elvis. At KHEM, a program at 6 p.m. featured some previously unreleased interviews and an interview

Sales top \$33 billion

AUSTIN, Tex. (AP) — Texas businesses reported gross sales of \$33.8 billion in the first quarter of 1977, an increase of 19.4 per cent over a year ago, Comptroller Bob Bullock said Wednesday.

Another \$3 billion in Texas sales were reported by out-of-state firms, a \$700 million increase, Bullock said.

The data came from reports filed with the comptroller by 233,000 businesses holding Texas sales and use tax permits.

Elvis taking appetite depressants

No sign of drug abuse

MEMPHIS, Tenn. (AP) — Authorities discount reports that Elvis Presley had a serious drug problem before his death.

"I can't say he was taking no drugs at all," said Dr. Jerry Francisco, Shelby County medical examiner, "because his own doctor has said he was taking appetite depressants."

But Francisco, who conducted a three-hour autopsy on the entertainer's body, emphatically denied Presley showed any sign of drug abuse.

"There was no evidence of any abnormal, illegal drug use," he said.

In Beverly Hills, Calif., two of Presley's ex-bodyguards, Delbert "Sonny" West and David Hebler, said on Wednesday he was a "tormented man" pushed into heavy drug use by the weight of his own legend.

The bodyguards were fired

just before they started writing "Elvis: What Happened?," a book touted by publicists as describing a grim side of Presley that was "brooding, violent, obsessed with death, strung out, sexually driven."

West and Hebler emphasized that their book, which describes Presley as a reclusive drug addict, was written more than a year ago.

It was released two weeks ago.

The bodyguards said Presley started taking pills during his two-year stint in the Army and continued taking them to get up for his heavy concert and film schedule.

Francisco said if Presley had been taking drugs in the amount suggested by West, visible evidence would have shown on the body.

Francisco said he found no needle marks — which would have been apparent had Presley been taking drugs with a hypodermic — and he said there was no sign of damage or change in his tissues and organs which would have shown evidence of heavy drug abuse.

Fair catalogues now available

SHREVEPORT, La. (AP) — A small airplane flying from New Orleans to Texas crashed about dawn today near the little town of Ida not far from the Arkansas and Texas borders in north Caddo Parish, sheriff's deputies said.

Winners hands down of the ones played was "Love Me Tender" with "Don't Be Cruel" and "Return to Sender" tied for second.

West Texas, like the rest of the nation, has its share of Elvis Presley fans.

Identities of the pilot or any passengers were not known, officials said.

Deputies said air controllers at Shreveport lost radar and radio contact with the plane before dawn. It had been raining in the area.

George Collins, a spokesman for the Federal Aviation Administration, said the plane was heading from New Orleans to Amarillo, Tex.

and hobbies; Mrs. John Riffe, culinary; Miss Bessie Love and Mrs. R.T. Newell, "over sixty"; and Mrs. Robinson, youth activities.

Expansion touted for Texas club

ARLINGTON, Tex. (AP) — The Texas Rangers of the American Baseball League have entered what lawyers call "a fan's contract" with the City of Arlington.

The nine-point agreement was reached earlier this week after months of negotiations. It calls for the construction of 5,420 seats and new ticket and restroom facilities.

The expansion plan, estimated to cost \$3.5 million, is scheduled to begin at the end of the current season and be completed by April of next year.

In exchange for the stadium improvements, the Rangers agreed to release the city from any further obligation to make improvements or expansions at the stadium. The city also

agreed not to levy any admission tax or surcharge on tickets and not to raise parking charges before the 1980 season.

The agreement obligates the team to pay the city \$1 million annually through 1998 if the team is moved to another city.

Dee Kelly, attorney for Rangers majority owner Brad Corbett, and City Atty. Ray Hutchison said the contract is one that will "primarily benefit Ranger fans and provide them with the facilities they need."

Fans have begun to crowd the gates of the 35,000 stadium following the Rangers' late summer surge that has placed them in the thick of the battle for the top spot in the West Division.

(AP WIREPHOTO)
CATCHER CLOBBERED — Texas Ranger's catcher, Jim Sundberg, holds ball as Toronto's shortstop, Dave McKay comes crashing into homeplate in the seventh inning of play at Arlington Stadium on Wednesday night. Toronto's Blue Jay's Bob Bailor singled to left field, and McKay is thrown out by Ranger's Claudell Washington at homeplate. Texas Ranger's went on to win in the tenth inning by a score of 6-5, moving them into first place in the American League.

Sundberg swings; Rangers rising

ARLINGTON, Tex. (AP) — Catcher Jim Sundberg's bat has turned to gold, just like his glove and there's no better reason why the Rangers are in first place today in the American League West.

"I've always had a no-hit tag (but) Manager Billy Hunter has given me confidence and hung with me," said Sundberg, whose two-out single sank Toronto 6-5 in 10 innings Wednesday night.

The victory propelled the Rangers into a half-game lead over Minnesota, which lost 3-2 to Seattle.

Sundberg has raised his batting average from .218 on July 1 to .294 and the Golden Glove catcher is playing his best ever on defense allowing only four errors.

He has been a .413 hitter for the last six weeks and since July 2 has collected 52 hits in 126 times at bat.

He was a .199 hitter in 1975 and a .228 hitter in 1976.

"I know some people had given up on me as a hitter

and that's why I was getting pinchhit for," said Sundberg.

Asked who had given up on him, Sundberg replied "I'd rather not get into that."

Sundberg drilled a two-strike changeup from Mike Willis into left center field to score Toby Harrah from second base for the game winner.

"I just choked up and got my bat on the ball," said Sundberg. "I started off tonight feeling sluggish but I got mad when I was hit with a pitch in the eighth inning. Then I saw that Minnesota score and I perked up. I got excited just like the rest of the team."

"It seems like we've been in first place a long time, not fourth place the way we've been playing."

Hunter said Sundberg caught his eye when he started making good contact on hit and run situations.

"That eliminated the possibility of pinchhitting for him as far as I was concerned," said Hunter.

(AP WIREPHOTO)
FIRST PLACE — Texas Ranger catcher, Jim Sundberg, hit a double for the winning run in the tenth inning of play at Arlington Stadium, Wednesday night.

UHs Hodge gone

HOUSTON (AP) — Highly prized linebacker David Hodge did not show up for the annual picture day.

He has been a member of the University of Houston football team since his freshman year, says he's tired of football and won't return for the 1977 season.

Assistant Coach Barry Sides confirmed Wednesday that Hodge would not return

for his junior season when Hodge did not show up for the annual picture day.

"I even offered to drive down there (to Hodge's home in Clute) and talk to him," Sides said. "But he said, 'No coach, there's nothing you could say or do that would make me change my mind.'"

(PHOTO BY DANNY VALDES)
STATE CHAMPIONS — The McMahon Indians were the state champions in the teenage league summer baseball and were honored Wednesday night with a steak dinner at a local restaurant. In the center of the picture are Al Valdes, president of the league here, McMahon holding the state championship trophy, Don Spence, manager holding the local summer championship trophy, and Bill Battle, coach. Surrounding the men are all but two members of the team. On the front left is Clarence

Palmer, followed by Valdes, McMahon, Spence, Battle, Albert Barrera and Dick Battle, one of the pitchers. Standing in the back are Bubba Stripling, Charlie Vernon, another pitcher, Paul Spence, Tony Mann, Bill Arcenibia, looking over Kenny Fowler, Mike Warren, John Hernandez, Arthur Olague, and Jim Brown. Not shown are Frankie Rubio, another pitcher, and Johnny Ray Jones.

Banquet honors victors

McMahon champs feted

By MARJ CARPENTER
"We're the champions." This phrase was coined by Frankie Rubio, but he was the only member of the state Championship teenage summer baseball team, the McMahon Indians, that was unable to attend the awards banquet Wednesday.

The event was held at the Western Sizzler and sponsored by McMahon Concrete. Rubio had egged the team on in Waco at the state finals by constantly saying "We're the champions."

But they all felt like champions after they defeated a Houston team who said, "We never heard of Big Spring." The locals answered, "Well you have now."

The group of boys on the teams, including players picked up after the season included many youths who had played together in Little League and who had played on two high school teams that came close during the past two seasons.

They were commended Wednesday by their team manager, Don Spence; the

tournament coach, Bill Battle; the president of the league Al Valdes and Hays Stripling, speaking for the parents.

The team members were introduced individually by Spence and include Albert Barrera, Bubba Stripling, Bill Arcenibia, Clarence Palmer, Dick Battle, Charlie Vernon Paul Spence, Mike Warren, Arthur Olague, Tony Mann, Jim Brown, John Hernandez, Johnny Ray Jones and Rubio.

The boys kidded each other about batting averages and heard Stripling point out that "You won because everybody pulled his share of the load and did a little extra."

He highlighted the evening with humorous tales of their visit to Waco. Al Valdes pointed out, "Now that you have won, you find out it is like becoming a Christian. You have to keep doing better."

Valdes was honored by the team's coaches for his years of services as president of the league and presented a plaque.

Clyde McMahon Sr. and Clyde Jr. received the state championship trophy. Spence was presented the local summer championship trophy.

Stripling told the youths that they would each receive a shirt marked with a state teenage champion emblem as a gift. They are to be picked up at Cleveland Athletics.

Parents of the boys were also introduced and thanked for their backing during the summer months. Bill Albright, chamber executive, was a special guest.

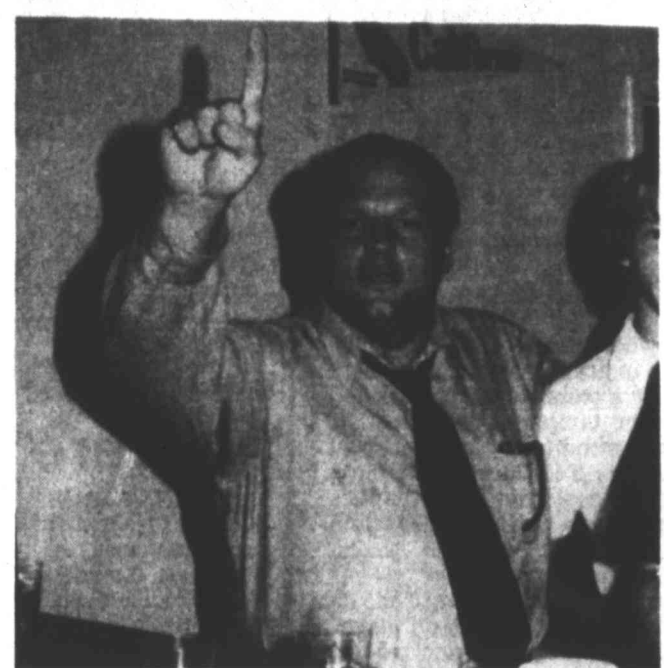

Both Spence and Battle stressed what the championship meant. Battle said, "I've worked with many of you boys since you were 9 years old and there is no way to say how much it means."

The team was urged to take their championship spirit with them in the future ball games and in life by the speaker.

Served a steak dinner, Valdes quipped, "No seconds tonight boys. Because you're not second. You're number one."

Big Spring Herald
BIG SPRING, TEXAS, THURSDAY, AUGUST 18, 1977
SECTION B

Rangers are Number one

(AP WIREPHOTO)
CORBETT LEADS — Texas Ranger owner, Brad Corbett, celebrates by lifting a finger indicating his team is number one after defeating the Toronto Blue Jays in overtime, 6-5. The action occurred as Texas Ranger catcher, Jim Sundberg, hit a double for the winning run in the tenth inning of play at Arlington Stadium, Wednesday night. This win moved the Rangers into first place in the American League.

Tornado torn

DALLAS (AP) — The Los Angeles Aztecs had to make five trips to Dallas to get a North American Soccer League road victory off the Tornado, but they did it in a big way Wednesday night, knocking Dallas out of the league playoffs with a 5-1 decision that wrapped up the Southern Division.

Aztecs Coach Terry Fisher said, "We were destined to win in Texas sometime, and this was the best time to do it."

Los Angeles swept the twogame series after a 3-1 triumph in Los Angeles Sunday and moves into the Pacific Conference finals against the winner of the Minnesota-Seattle series.

But the score did not reflect the closeness of the game, which was tight until the last 10 minutes.

"We were lucky because we could absorb the pressure. The tension took its toll, especially at the beginning of the game, but we were able to control the tempo," said Los Angeles' league all-star George Best, who scored one goal and assisted on two others.

Old Steer makes it; Sorley chases Garcia

Tom Sorley, passing quarterback in Big Spring on Coach Bob Burris' Steers in 1973 in highlighted in the Corn Huskers sports book at the University of Nebraska as "a real challenge to Randy Garcia of Los Angeles for the No. 1 Husker quarterback position in 1977."

They also say of Tom, "reserve letterman in 1976, he completed four of eight passes for 101 yards and one touchdown last season."

"He also rushed 8 times for 39 yards. Sorley suffered a broken arm during the spring of 1976 and it took most of the year for his arm to heal. He was a 1975 red-shirt and was the quarterback for the undefeated freshman squad in 1974."

The sports writers in Nebraska say, "Tom

TOM SORLEY combines his fine passing talent with good running ability. As a prepster at Big Spring High School under coach Bob Burris, Sorley lettered twice and earned Honorable Mention All District honors."

NATIONALIST LEADER ATTENDS TRIBAL RALLY — Ndabani Sithole, president of the African National Council and a leading figure in Rhodesia's black movement wears a suit and uses his walking stick like a lance as he joins in a recent tribal dance at a rally in Salisbury. Local tribes had gotten together for a performance of folk and warrior dances.

\$5 million death claim nixed by city

HOUSTON (AP) — A \$5 million claim involving the death of Joe Campos Torres, who drowned while in police custody, has been denied by the Houston City Council.

The body of Torres, 23, was found floating in Buffalo Bayou May 6, three days after he had been arrested at a Houston bar.

Two former officers, Terry W. Denson, 27, and Stephen Orlando, 21, are accused of murder in the death of the young laborer. A third former officer, J.J. Panisch, 22, is charged with misdemeanor assault. Two other former policemen were granted immunity from prosecution in return for their testimony.

The Torres claim was filed by famed attorney Percy Foreman, who said the city and the police department failed to provide proper standards, safeguards and supervisors necessary.

Foreman said earlier if the city denied the claims he would seek damages in court.

The council acted on the advice of the city's legal department.

City Atty. Otis King said the recommendation was "in no way a comment on the actions of the officers involved in the case, but was based on prevailing law. The city generally denies all claims against it."

The trial of Denson and Orlando has been moved to Huntsville, some 80 miles north of Houston, and is scheduled to begin Sept. 7.

State Dist. Court Judge James Warren of Huntsville denied a request from defense attorneys Tuesday for permission to question Policeman Carless E. Elliott, 20. It was Elliott who reported the Torres incident to his superiors. He was returned to duty after a brief suspension with pay.

The death of Torres prompted several demonstrations in downtown Houston and claims by several minority group leaders of police brutality.

Two school board members exchange bitter comments

HOUSTON (AP) — Two members of the Houston school board, one white, one black, exchanged bitter comments Wednesday concerning issues discussed by the trustees.

Mrs. Hazel Bracken said black board member Ernest McGowen often attempts to inject racism into board deliberations by making "misleading and unethical comments and motions. In both open and closed sessions, certain black trustees seldom miss an attempt to create black-white issues."

McGowen said, "From her (Mrs. Bracken's) past actions, it is clear who the racist is. When the board majority and the superintendent want to promote someone or take any action, they just waive policy and do it."

The Houston school board consists of four whites and three blacks.

The current controversy arose over a Tuesday board meeting when Supt. Billy Reagan was given a \$6,000 a year pay hike, to \$60,000 annually, plus a five-year contract and Linus Wright, superintendent for administration, was raised from \$46,500 to \$52,500 a year.

McGowen then moved that the contract of black administrator Joseph Angle be increased to a multiyear basis.

Mrs. Bracken said Angle had been in his current position for less than a year and under district policy he must serve two years, each on probation, before becoming eligible for a multiyear contract.

Mrs. Bracken said, "McGowen's motion to extend Joe Angle's contract not only violated established

board policy but also violated ethical boardsmanship."

McGowen said that although Angle did receive a \$6,000-a-year pay hike, to deny him a multiyear contract would be "racial discrimination."

"Policy should have been waived in Mr. Angle's case. He has served as a deputy superintendent and has done a good job. What the majority did Tuesday is a clear case of discrimination."

'Macho out for revenge' faces 99 years in prison

HOUSTON (AP) — Fourteen years ago Phillip T. Rodriguez was sentenced to 99 years in prison for the slaying of a drinking companion named Mike Ramirez.

Today, young Mike Ramirez, 34, son of the man stabbed to death in 1963, is awaiting sentencing for the slaying of Phillip T. Rodriguez.

Ramirez was convicted of the fatal shooting of Rodriguez at a Houston bar Jan. 31.

Rodriguez, 39, had been out on parole for six months after serving 13 years of his

sentence.

Ramirez contended that he acted in self defense and had been threatened by Rodriguez because he was the oldest son of the man Rodriguez had killed.

Prosecutor Ira Jones labeled Ramirez as a "macho out for revenge."

Testimony showed that Ramirez had obtained a photograph of Rodriguez when he found out that his father's killer had been paroled.

Punishment for Ramirez could range from five years probation to 99 years in prison.

Bogus bomb, blazing gun battle

Is this really the White House?

WASHINGTON (AP) — When the President disappears for a quiet week's vacation at Camp David, when the vice president is off fishing in the north woods of Minnesota, when Congress has scattered to the four winds, odd things happen at the White House.

An old-fashioned, wind-up alarm clock is placed in a cardboard box and staff members pretend the ticking package is a time bomb, sending it to each other's offices in the White House West Wing, where Carter's office is located.

A blazing gun battle erupts in a corridor just a few feet from the Oval Office, with junior staff members spraying each other with water from squirt guns.

Other staff members guide friends and relatives around the White House. They stop, like tourists at one of dozens of Washington sightseeing stops, to peer into the empty Oval Office.

And one senior aide jokes that the dog days of August are the best time for reading her bosses' memoranda and the vice president's diary.

Is this really the White House? It is, on a sultry August afternoon.

The President and his family left Washington nearly two weeks ago for a five-day visit to Plains, Ga. After four days back at the White House, they were off again, for a vacation at the presidential retreat in Maryland's Catoctin Mountains.

So, staff members, who are less-than-formal when the President is in town, are playing a few pranks and relaxing a bit. Some are even using the break to catch up on work.

Only the telephone operators at the White House switchboard are finding the workload only slightly diminished. But you can't

talk to them. They're too busy answering the telephones.

The President worked on tax revision proposals and relaxed in the mountaintop woods. It was an opportunity for him to play with his 5-month-old grandson. If he had any speeches to give this week, he had a small audience.

So, speechwriter James Fallows was on vacation. His assistant, Jean Saar, tried to sound busy, suggesting that she had "a little bit of this and a little bit of that" to take care of.

"You're not very busy?" she was asked. "Right," she replied.

Tim Smith, the President's assistant appointments secretary, works on events coming up in the near future, so he was keeping busy.

Part of his office's duties involve answering mail requests for meetings with Carter, and these keep coming in whether the President is in the White House or on vacation.

But, he said, somehow the pace slackened this week.

In the basement of the West Wing, members of the National Security Council staff were following up on matters that developed in Congress' rush to begin the August recess two weeks ago. They also were preparing for the trip next week by Secretary of State Cyrus R. Vance to China, for the opening of the United Nations General Assembly session next month and for Congress' return.

"This is sort of a period of consolidation and rejuvenation," said spokesman Jerrold Schecter.

Margaret "Midge" Costanza, the President's assistant for public liaison, was in a playful mood.

What does she do when Carter and Vice President Walter F. Mondale are out of town?

"I'm using their offices and reading their memos," she said, jokingly. "I just searched the vice president's diary and I'm not in it."

"I'm catching up on my phone calls," said the assistant, who can sometimes take days to reach on the telephone. "I'm only eight weeks behind."

But, she said seriously, what she is really trying to do is catch up with accumulated work and give her staff some time off.

The maintenance staff took advantage of the break to vacuum and shampoo the carpet in the press office and press briefing room, lifting several months' accumulation of cigarette ashes and coffee stains from the yellow floor cover.

At the White House switchboard, one operator said life was a little quieter with the President out of town.

"But (pause to answer a call) we're busy," she said, pausing to answer another call. "People just want to call us."

(AP WIREPHOTO)

VOICES OBJECTION — Mrs. R. C. Bearden of San Angelo holds up a copy of a proposed textbook as she voiced her objections to parts of it as she testified before the State Textbook Committee meeting in Austin today. The committee began three days of hearings on \$31 million worth of proposed texts.

Biology book biased in favor of evolution?

AUSTIN, Tex. (AP) — A speaker for the Daughters of the American Revolution attacked a proposed biology textbook today because, she said, it was biased in favor of evolution and birth control.

Mrs. R. C. Bearden of San Angelo told a panel of the State Textbook Committee that "Introductory Biology," published by John Wiley and Sons, should not be permitted in high school classrooms.

She said the book treated evolution as a fact and not a theory in violation of the State Board of Education's proclamation for textbook submissions.

"Genesis cannot be reconciled with any evolutionary theory of the origin of man," said Mrs. Bearden.

The publisher said he was

willing to put a label inside the front cover saying that it was the intent of the authors to portray evolution as theory and not proven fact, but Mrs. Bearden said that was like "putting a bandaid on a cancer."

She also objected to a somewhat detailed chapter on birth control which discussed various devices and made the statement that there would never be any totally satisfactory method of birth control.

"What about abstinence? This is not biology. This is a lesson on birth control."

John Cilli, marketing manager of Wiley, said there was "nothing inherently inconsistent between Genesis and current scientific thought ... this not being a religious textbook, we restrict our sales to

alternate explanations that can be tested scientifically."

In another hearing room, representatives of the National Organization of Women (NOW) began a day and a half of testimony against a long list of books they maintain present stereotyped images of women in traditional roles or fail to recognize the contributions made by women.

Today's hearing was the first in a three-day session to give the public a chance to express thoughts and opinions on textbooks that might be used in Texas schools.

Texas members of the National Organization for Women (NOW) claim the hearing is rigged in favor of publishers, who find it costly to change books to meet feminist criticism.

Writer beaten and kicked by African Emperor

Editor's Note — Michael Goldsmith, veteran AP foreign correspondent, was imprisoned for 30 days recently in the Central African Empire. He was arrested July 14 and released Aug. 14. This is a first-person account of his ordeal.

By MICHAEL GOLDSMITH
Associated Press Writer

I recovered consciousness in a bare, windowless prison cell. I was handcuffed, dressed only in my underpants and covered with blood from open flesh wounds all over my body.

For a long time I lay motionless, trying to limit the pain and to recall how I, a foreign correspondent of The Associated Press, had fallen into this situation.

The memory returned only gradually. I remembered I was on assignment in the Central African Empire and had been arrested on what I assumed correctly was the previous day, accused of being a South African spy.

On the evening of July 14, Bastille Day, I had been taken 70 miles from the capital, Bangui, to Berengo, the birthplace and residence of Emperor Bokassa I, the former sergeant in the French colonial army who had proclaimed himself the hereditary ruler of his nation.

I recalled how Bokassa, in blind fury at the supposed spy, struck me without warning with a heavy stick, knocking me to the ground and opening a gaping wound on the left side of my forehead. I remembered being kicked by Bokassa and his aides until I lost consciousness, and someone deliberately crushing my spectacles underfoot.

I guessed I must have remained unconscious for at least 15 hours. I knew at once that it would be a long time

Estranged wife, Trudeau may end separation

OTTAWA, Canada (AP) — Prime Minister Pierre Elliott Trudeau and his estranged wife, Margaret, reportedly may reconcile.

The Citizen newspaper said Wednesday that one of Mrs. Trudeau's friends reported the prime minister's wife was seeking to have the separation agreement canceled.

The friend said Mrs. Trudeau was spending more time with the couple's three children and seemed to have lost some of her enthusiasm for a photographic career.

The Citizen said Mrs. Trudeau was known to have spent much of July and early August with her husband and children at the prime minister's summer residence at nearby Harrington Lake.

She rented a New York apartment after the separation. Later, she was reported to have taken an apartment near the prime minister's official residence in Ottawa.

Bigfoot a bear?

OKLAHOMA CITY (AP) — Oklahoma State Bureau of Investigation officials say chemical analysis of a 3½-inch strand of hair found on a Stilwell youth who said he was trounced by an ape-like creature indicates it's probably bear hair.

OSBI chief chemist Don Flynn Wednesday said he could not say "positively, absolutely, that it was a black bear hair that was analyzed. But that's the closest thing the hair resembles."

But Bigfoot enthusiasts said the development did not necessarily cast discredit on reports that the legendary part-ape, part-man creature was loose in the Stilwell area of northeast Oklahoma.

"Chemists say they aren't positive it was a bear hair," said Bigfoot investigator Bob Stamps of Midwest City. "Who's to say Bigfoot doesn't have bear-like hair?"

The OSBI has been investigating the matter since 17-year-old Brian Jones of Stilwell reported he was clawed by a 9-foot, ape-like creature on Aug. 5.

Black bears sightings are very rare in Oklahoma, but Flynn said nearby Arkansas has bears. "I doubt they check borders carefully before crossing," he said.

ARRESTED AS SPY — Associated Press writer Michael Goldsmith, right, reports that he was beaten and kicked by Emperor Bokassa I of the Central African Empire after Goldsmith was arrested as a spy during an assignment to the capital of Bangui.

small cell where a rough concrete slab was the only furniture. Once a day, guards opened the heavy steel door to bring me some boiled manioc, an African staple root, and a mess can filled with brackish water.

No one treated my injuries, which quickly became infected. My body was covered with the bites of malaria mosquitoes. The sequel of a particularly vicious kick in the small of my back made every movement an agony. I had nothing on which to rest my aching head. During the frequent tropical rainstorms, I was bitterly cold, without blanket or cover of any kind.

Apart from occasional jibes from an army major whom I later knew as Maj. Ngongo, the prison commander, no one spoke to me, interrogated me or gave me any kind of explanation. My requests to talk to someone in a responsible position or to a representative of the American Embassy drew

only laughter from the guards. Every time the cell door was opened, half a dozen soldiers pointed cocked submachineguns at me.

I was sustained by the hope that international pressure on my behalf was building up. The Deputy Chief of Mission at the U.S. Embassy, Grant Smith, had witnessed my arrest so at least the outside world knew. I had not disappeared without trace.

Late on the sixth day, my situation abruptly improved. My handcuffs were removed for the first time. I was given two blankets and placed in a larger cell with a wooden plank for a bed. The following morning, a medical orderly cleaned up wounds and put six stitches in my head. And, astonishing luxury, I was brought a copious, European-style meal from a nearby hotel.

The medic came daily for ten days, gave me regular penicillin and anti-tetanus injections and may have

saved my life. The good meals continued to come, once a day, until the end of my imprisonment.

But as my health improved and the pain receded, the agonizing doubts over my future increased. Day after day, I was confronted with endless hours of inactivity, almost no one to talk to and certainly no one to give me any information about the fate in store for me.

I soon made up my mind that I faced the likelihood of imprisonment until Bokassa's coronation, scheduled for Dec. 4, when a general amnesty was likely. That made a total of 143 days. I carved a calendar on my cell wall, leaving space for the four months yet to come.

Although never very strong in mathematics, I began filling in time with enormous calculations scratched on the walls. I divided telephone numbers by each other to 50 decimal points, then re-multiplied the fractions to test my ac-

curacy. The guards decided my long rows of figures were some kind of magic and took away the small piece of plastic I used to scratch on the walls.

I never realized before how slowly empty time moves.

Thoughts of my family often led to increasingly panicky, self-pitying onslaughts of fear. What would I do if Coronation Day came and went and I was not released?

A previous prisoner had carved a crucifix on one of the courtyard walls. On Aug. 11, to occupy time, I colored it with brick dust mixed with water. Maj. Ngongo saw my effort and ordered me returned to the punishment cell for "defacing" the prison.

"That will teach you to harass us with your white man's symbols," he said to me.

Unknown to me, though, my ordeal was at an end. Before Ngongo could carry out his threat, I was taken

out of the cell and returned to Berengo. There I was informed that a pathetic message from my wife had softened Bokassa's heart and I would be put on the next plane two days later. It was exactly four weeks since my arrest.

Bokassa himself appeared and lectured me without interruption for two hours. He told me over and over again that it was only the loving message he had received from my wife — and not the multiple diplomatic efforts on my behalf — that had led to my freedom.

On the final day, Sunday Aug. 14, I was again driven to Berengo and interrogated for six hours by policemen using every trick in the book to get me to incriminate my news sources in Bangui. Under threat of renewed imprisonment, I was forced to confess to "espionage, plotting to undermine the security of the state and insulting the personality of the Emperor."

Yesterday's Puzzle Solved:

8/18/77

DENNIS THE MENACE

"HANG UP, MOM! I'M GETTIN' OLD AN' WRINKLED!"

JUMBLE

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

LOFOD

ROMUN

IMRAUD

BIGTLE

Answer: "LOFOD" & "ROMUN" (Answers tomorrow)

Yesterday's Jumbles: EXUDE ABASH LOTION BUCKET
Answer: Behind time because late in bed—"BE-LATE-D"

WORDS USUALLY ASSOCIATED WITH A DIRECTORS' MEETING.

Now arrange the circled letters to form the surprise answer, as suggested by the above cartoon.

Your Daily HOROSCOPE

from the CARROLL RICHTER INSTITUTE

FORECAST FOR FRIDAY, AUG. 19, 1977

GENERAL TENDENCIES: You are now able to start new discussions with business experts you have recently met and get excellent results. Be alert to a new means by which you can impress others with your abilities.

ARIES (Mar. 21 to Apr. 19) Come to a better meeting of minds with associates and increase productivity. Do something thoughtful today for loved one.

TAURUS (Apr. 20 to May 20) Routine duties today should be handled with neatness and precision to gain the maximum efficiency. Improve your appearance.

GEMINI (May 21 to June 21) Ideal day to put a special talent you have to work and gain the recognition you deserve. Avoid one who is belligerent.

MOON CHILDREN (June 22 to July 21) Making new plans at home is wise so that you have greater accord, comfort and happiness there.

LEO (July 22 to Aug. 21) Come to a much better understanding with associates so that you can work more harmoniously together. Take no chances with a foe.

VIRGO (Aug. 22 to Sept. 22) Improve your budget so that you can operate more intelligently in the future. Make plans for the days ahead.

LIBRA (Sept. 23 to Oct. 22) Plan your activities early since the planets are favorable to you. Don't neglect the social side of life. Think constructively.

SCORPIO (Oct. 23 to Nov. 21) You can now investigate whatever is puzzling you and come up with the right answers. Show more affection for loved one.

SAGITTARIUS (Nov. 22 to Dec. 21) You can be gregarious today and gain excellent results. You can benefit by accepting an invitation now.

CAPRICORN (Dec. 22 to Jan. 20) Attend to outside work now and gain the assistance of a trusted friend. Strive for increased happiness.

AQUARIUS (Jan. 21 to Feb. 19) If you take a different point of view you can gain your objectives. Your hunches are good now and should be followed.

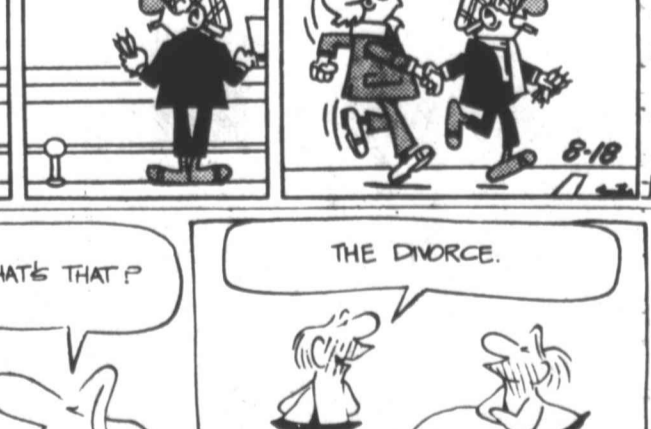

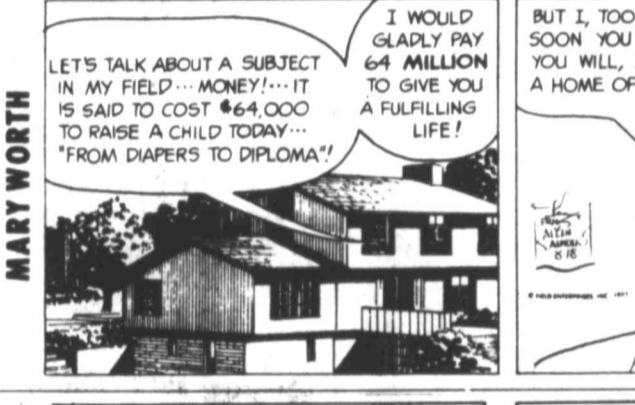

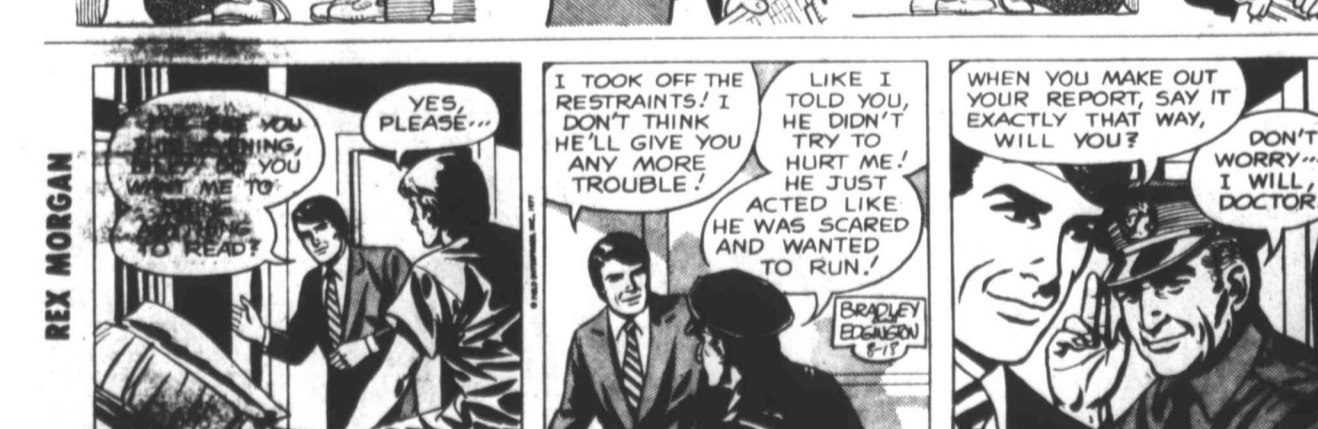

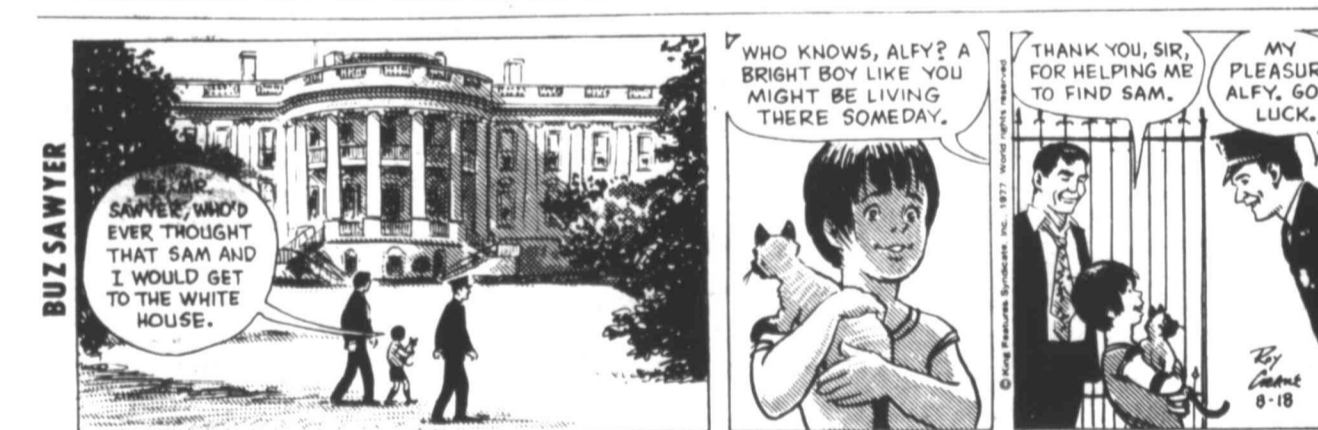

PISCES (Feb. 20 to Mar. 20) Get an early start on routine duties so you'll have more time for recreational activities later in the day.

IF YOUR CHILD IS BORN TODAY... he or she will like to please others and should have the education directed along lines of public work, entertainment and charitable organizations. Be sure to give ethical training early in life. Sports are fine for keeping the body fit. "The Stars impel, they do not compel." What you make of your life is largely up to YOU!
