

Dawson Wildcat Gets Free Spraberry Oil

James H. Snowden and others No. 1-33 Carrie S. Dean, wildcat in Northeast-Central Dawson County recovered 3,200 feet of free oil from the Spraberry on a drillstem test from 7,273 to 7,313 feet.

The test was taken in the lower section of the Spraberry after the top section was proved to be barren. The possible discovery was tested for six hours. Gas was to the surface in 45 minutes. There was a fair blow of gas for the rest of the test.

Location is 660 feet from south and east lines of section 32, block 1, J. Poltevant survey. The same operators' No. 1-30 Dean, one and one-half miles southeast of the No. 1-32 Dean, topped the Spraberry at 6,503 feet. A drillstem test was taken at 6,506-48 feet. Tool was open one hour. Recovery was 15 feet of mud. Operator now is drilling deeper.

Economy Axe Descends On Hollywood Slumber Couches

By ERSKINE JOHNSON NEA Staff Correspondent HOLLYWOOD—It's not supposed to have anything to do with the way...

He closed his eyes wearily behind his horn-rimmed glasses, shook his head woefully and asked if I'd ever made up a slumber couch.

Willis hasn't had an order for a springy, cozy leviathan in months.

Willis is a tall, solemn-looking expert who rules in with the swatches when a movie queen decides that the plum-colored satin on her ottoman is revolting.

"The day of the massive bed and the showpiece bed is gone. The yachts and sunken bathtubs will come later. Nobody ever starts with first things first in Hollywood. That's why beds are getting in right in the middle."

He looks for the nearest sleeve to laugh up when speilers on those guided tours of movie stars' homes read off the vital statistics about the swan-contoured bed inside.

Willis knows that at that very moment, some peppy business manager is opining that maybe the thing could be chopped up to save firewood money.

Hollywood, said Willis, is getting back to box springs with four legs.

When he first came to Hollywood, as an ex-engineer with a flair for bending vermicellons and chartrusses to his will, the celluloid denizens were out to top each other in parlor, bedroom, powder room and sink.

"You know," mused Willis, "I haven't had a client say he wants a bigger living room than Claudette Colbert's in at least a year."

And that's all right with him. He's glad the day of the movie queen who insisted on a marble staircase for dramatic entrances has gone down the drain of time.

"It was corny," is the Lane verdict. Home Sweet Home

He's a bug for American and French furniture interiors and he'll take the folksy, homespun conversation corners he's whipped up for John Payne, Gloria de Haven, Ann Harding, Joan Davis, Margaret Whiting, Susan Peters and Nigel Bruce any day in preference to the zebra-striped monstrosities he's been lashed into producing.

"Now everything's gone farmhouse in Hollywood. Not because Hollywood movies have laid so many eggs, either. The furniture doesn't require as much care.

A couple of years ago, he was knee-deep in color charts and antique fixing up the home of the Robert Montgomerys.

Their recent divorce threw him for as big a loop as the John Payne-Gloria de Haven separation. He moaned:

"I couldn't even bring myself to go to the auction of the Montgomerys' furniture. It was just too sad."

Sometimes he lets dolls who've read a book on interior decoration choose their own colors. But he's suspicious of redheads. He snorted:

"You have to watch them. The minute they tell me how crazy they are about pinks and reds, I know they're not redheads. They're brunets thinking in burnt colors. You don't catch a true redhead picking out warm colors. A real redhead knows the score."

Appeals Agent, New Member Named For Draft Board No. 137

A new member and a government appeals agent have been appointed for Draft Board No. 137, Dr. J. O. Shannon, chairman, announced Friday.

Oliver T. Jones, superintendent of schools in Garden City, has been appointed to the Board, which includes Midland, Glasscock and Sterling Counties. Merritt Hines, Midland County veterans service officer, is the new appeals agent.

Both new officials were appointed by President Truman upon the recommendation of Gov. Allan Shivers.

Jones attended his first board meeting Wednesday, when the board classified some 19-year-olds for the first time, reclassified others and passed upon deferments. Reclassification of registrants who have enlisted in some branch of federal service required most of the board members' time in the all-day session.

To Advise Registrants The appointment of Hines also is in effect. He replaces T. D. Kimbrough, Registrants who desire information regarding appeals of draft board rulings are asked to contact Hines.

One of Hines' duties as appeals agent will be to familiarize himself with the records of registrants. Then, when appeals are necessary, he will be able to advise registrants to file the appeal within the time limit specified. He also will appeal any classification which, in his opinion, should be reviewed by the appeal board.

The appeals agent also is to suggest reopening of any case where the interest of justice warrants, equally protecting the interests of the registrant and the government in all matters.

Two Men Jailed On DWI Charges After Car-Truck Collision ANSON, TEXAS. — (AP) — Two men accused of driving a dynamite-laden truck that collided with two automobiles in Jones County were jailed on charges of driving while intoxicated.

They are W. M. McDaniel, 25, and J. F. Gentry, 20, both of Lubbock. Mrs. Dorothy Dement, 34, of Snyder received a broken back when her car was knocked from the highway Wednesday night near here. She said a dynamite truck sideswiped her car. Her two small sons were hurt less seriously.

Negro Rapist To Die Early Saturday HUNTSVILLE — (AP) — Ben Pickett, Jr., 35-year-old negro, waited Friday to keep his sixth date with the electric chair. This time there apparently was to be no last minute reprieve.

Pickett, convicted and sentenced to die in the electric chair for the rape of a 54-year-old Houston woman, is to die shortly after midnight.

THE DOCTOR ANSWERS

Possible To Get Preview Of Child's Ability From Intelligence Tests

By EDWIN F. JORDAN, M. D. Written for NEA Service

The brain is probably the most complicated part of the human anatomy. How and why the mind behaves as it does is often a mystery and many questions have been sent to me on that subject, some of which can be answered and some of which cannot.

Can a doctor tell by examining a four-year-old child that it will not be able to go through high school?

Over the years several kinds of "intelligence" tests have been developed which are used as a kind of measure of the mental capacity or ability of the mind to learn. This inborn ability, to learn or "intelligence quotient" does not change much as one grows older. For this reason it is possible to test a rather young child and tell from the results about how far that youngster will be able to go in school. A child who does not have the capacity to go through high school is considered "retarded."

There are many surgeons who specialize exclusively in operations on the brain and other parts of the nervous system. They have developed some wonderful operations, but cannot, of course, do everything. Your suggestions are interesting; cutting the sympathetic nerves near the spinal cord is sometimes done for certain conditions, and there have been some experiments made on attempting to increase the blood flow to the brain. All ideas are welcome, but they do not all turn out to be practical.

Three Young GI's Found Asphyxiated

OPELOUSAS, LA. — (AP) — Three young Fort Bliss, Texas, soldiers were found asphyxiated late Thursday in a tourist court cabin.

Sheriff Clayton Guilbeau said a gas stove still was burning in the cabin when the owners alerted because the soldiers had not checked out, notified the sheriff.

Fort Bliss identified the soldiers as Ronald D. Johnson, Bastrop, La., Barba (Gene) Livingston, Bastrop, La., and B. E. Pointer, Springdale, Ark.

Is dementia praecox hereditary or could it be the result of self-abuse? I know a young man who is terribly worried because his father has this mental disease. Can anything be done to prevent it in the son?

I have read that glutamic acid is good for retarded children. Where can I get some for my child?

Attempts to trace an hereditary pattern for dementia praecox have almost always failed and it is rarely passed on from father to son. The self-abuse is more probably the result of the disease than a cause of it. In the particular problem mentioned it would be wise to take the son to a brain specialist (psychiatrist) to see if he needs any treatment and at least to relieve his worry.

Although there have been some interesting studies on the effect of glutamic acid on mental performance it is far too soon to try this generally on mentally retarded children. It would be hazardous to pin too much hope on this.

Do shock treatments injure the cells and tissues of the brain? Are shock treatments given only to a mental patient or can they be used also for nervous disorders?

Shock treatments probably change some of the cells or tissues of the brain or it would be hard to explain the action of this treatment, but injury is too strong a word. So far as I know shock treatments are rarely, if ever, given for nervous ills other than those of the mind.

Are there any surgeons who are interested in curing nervous or mental disorders through operation? I believe possible cures could come from: (1) Relaxing the navel area by severing the nerve near it; (2) Operating on the nerves to the left and right of the windpipe; (3) Operating on the nerves to the left and right of the spinal cord in the neck, and (4) Operating at top back of head to let blood into the brain better.

SHOE CLEARANCE!

In the ladies' shoe business there is always an accumulation of broken sizes and discontinued styles... and we have two courses to take—either dispose of them to jobbers and let women in San Antonio, Los Angeles or some other city get the advantage of the reduced price—OR PUT THEM ON SALE IN OUR OWN STORE AND LET YOU, THE WOMEN OF MIDLAND AND VICINITY, SHARE THE SAVINGS! We've chosen the latter.

We have accumulated several hundred pairs of shoes which we are either discontinuing, or the sizes are broken to the point that we have only two or three pairs of a style, though the styles are still new and seasonable. AND NOW, FOR THE NEXT TWO DAYS, we are giving you the opportunity to purchase these shoes at a fraction of their original price. Come in and see them.

Our buyer has recently returned from market, where he purchased shoes for Spring. Prices were up about 15% above November 1 levels. In the face of these advancing prices, this sale is doubly important to you!

Spirit Of '76

The shot that touched off the American Revolution as heard around the world. When our great experiment in liberty and democracy began, it gave heart to peoples yearning for freedom in many places.

Fledgling America, a mere infant shaky on its feet, as the spiritual spring of a great movement that spread lands already old and weary as the world measures time.

The sources of spiritual force which fed a world rebellion still are within the American people. That strength made itself felt again in the almost disruptive Civil War.

For a long time after that, the country was fairly free to concentrate on building its internal and external economic strength. But it had to call upon that same spiritual serve to battle its way through recurring business panics which interrupted its amazing growth to industrial power.

By 1900 we had become so strong economically that we were making serious inroads into Britain's global power. Soon we, not the British, were the greatest nation on earth.

Through all this time we continuously have been reared by free men everywhere as the very heartland of liberty. Put to the test in history's biggest wars, we have towered again and again that strength still flows from the spiritual spring which nourished our auspicious beginning.

Now we are confronting a crisis which many wise men say is the greatest we have ever had to meet. There can be no question that the demands this struggle will put upon us are tremendous. But is there any among us who doubts we can shoulder these new burdens with the moral courage that is our national heritage?

If there is, let him recall Valley Forge, the Battle of Ppmattox, Chateau Thierry and Belleau Wood, the great Depression, Tarawa, Guadalcanal, the beaches of Normandy.

Like any free people, we Americans do not at all ages in our history have the fullest information and the best counsel we need for making our basic decisions. Our leaders make mistakes, of course. But so do we as a people. These errors are inevitable in the imperfect democratic process.

But our history is replete with examples that when we understand all the vital facts of a situation, and when we have weighed all the issues and the varying counsels that have been thrown into the scales, we align ourselves on the side of justice and freedom. We then tap our deep spiritual resources and muster the strength to act in accord with our decisions.

At this moment in America's life, the need is for complete information and expert counsel. Every scrap of knowledge and guidance that contributes to our understanding of the world dilemma should be widely broadcast to the people. If that is done, there need be no worry how they will act.

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

Copyright, 1951, By The Bell Syndicate, Inc. Drew Pearson says: Move to put Republicans in Cabinet; Governor Dewey might be Secretary of State; Split between liberal and conservative Republicans increases.

WASHINGTON—President Truman isn't likely to move on it, but some of his genuine well-wishers have been dropping discreet hints that the most important thing he can do to bring about national unity is to appoint two top Republicans to his Cabinet—including possibly Governor Dewey as secretary of State.

Most unfortunate difficulty about the current dickering over foreign policy is the reaction board. All over Europe there has been indignation and dismay. The recent foreign-policy controversies came on top of the Korean disaster, also on top of the President's music-critic letter, both of which increased lack of confidence among our allies.

Most people don't realize it, but the music-critic letter was published all the way from Africa to Norway. To the man in the street it may have been humorous, but to the prime ministers and foreign ministers of Europe, it aroused fear that the head of the United States government might lose his temper, not merely over a music critic but over a potential enemy, and plunge the world into war.

For these and other reasons, some of the top Democrats in Washington ardently hope for more unity, even if it means surrounding the President with a few Republicans. They recall how President Roosevelt increased unity before Pearl Harbor by bringing two leading Republicans—Henry L. Stimson and Frank Knox—into his Cabinet as secretary of War and secretary of the Navy. And while there is not too much personal enthusiasm about Governor Dewey in Democratic circles, he is recognized as a man of real ability and deep sincerity as far as his country is concerned.

Furthermore, it is believed that Secretary of State Acheson would be glad to bow out in favor of Dewey in the interest of national unity. Acheson and Dewey have been conferring privately the last six months, and several times Dewey has come to Acheson's support. Finally, Acheson privately had hoped to leave the State Department, though he does not want to do so under fire.

It was just about a year ago that the most harassed and criticized man in Washington was Secretary of the Navy Francis Matthews. At that time, the admirals were up in arms over unification and one admiral had to be relieved. Captain Crommelin was campaigning for a super airplane carrier. A secret propaganda agency in the Navy was shooting out malice against the Air Force. And Matthews was branded as a fresh-water executive from Omaha whose knowledge of shipping was confined to mud soot on the Missouri River.

However, the political pendulum has a habit of swinging into Washington, and today Matthews is riding the crest of the wave. Secret of his comeback was keeping quiet, being a good sport and working closely with the efficient new executive whom he picked to be chief of naval operations—Adm. Forrest Sherman.

Today the Navy has scored some real triumphs in the Korean war, especially the evacuation of Hungnam where not a single life was lost. And the much-debated super airplane carrier which the Navy so much wanted is to be built after all. Note—Admiral Sherman, who was Matthews' personal choice to be chief of naval operations, has been so fair with the Army and Air Force that, if General Bradley should be

Have a Laugh

By BOYCE HOUSE An Englishman who was going up an African river in a boat with a native crew had been warned against alligators. But one day when they were moored to a bank, the water looked so cool that the traveler asked the guide, "Any alligators here?" "No, no alligators." So he plunged in and enjoyed a swim. After he had climbed back into the boat, he began to wonder so he asked, "Where are there no alligators here?" The native replied, "Crocodiles are 'em up."

So They Say

The President's message was a desperately needed summons of every American... to the national defense and to the aid of the war into which the free world has been plunged. —Industrialist Henry Kaiser. There's nothing in the present situation which need have caused the slightest alteration in father's customary approach to similar problems in the past. —Devasdas Gandhi, son of the late Mohandas K. Gandhi. We ought to be indicting some public officials. There should be heads rolling. —Sen. Charles Tobey (R-N.H.), on gambling rings. I call upon both the Republican Party and the Democratic Party to forget about 1952 and think and act only in terms of the security of our country and the peace of the world. —Sen. Herbert Lehman (D-N.Y.). We are being forced to give ground, but our fighting capacity has suffered little impairment. —Gen. Douglas MacArthur.

What's Right?

You have a drop-in caller when you feel that you don't look like receiving a guest. WRONG: Keep apologizing for how you look. RIGHT: Apologize once if you wish, saying that you have been housecleaning, or whatever, and then relax and concentrate not on how you look but on making your guest feel welcome. Football Aid Politics

Oklahoma University's Bud Wilkinson, recently selected as football "Coach of the Year," proved himself as good a quipper as a coach at a testimonial luncheon by Oklahoma congressmen. Wilkinson even held his own with the Senate's new majority leader, Ernest McFarland, the Arizona Democrat. "When one of your football players get tackled hard, just tell him that, that's the way I feel myself since I became majority leader," Senator McFarland told the visiting coach. "By the way, which one of your boys gets tackled the most and the hardest?" "I guess maybe it's the same on the football field as here in Congress, Senator," replied Wilkinson. "The star always gets tackled the hardest." Senator McFarland, a former Oklahomaan, suggested that Arizona would be glad to get some of Okla-

JACOBY ON BRIDGE

By OSWALD JACOBY Written for NEA Service

After my teammates won the world's championship in Bermuda last November, all of the international bridge stars took a busman's holiday by competing in a tournament for pairs. One of the American pairs gave a good account of itself in the hand shown today. The bidding was aggressive on both sides, probably too aggressive. Part of the reason was that three of the players had just finished the long grind of the team match and were therefore inclined to be a bit on the giddy side. It was the fourth player, however, who had the work to do.

That player was Alfred Sheinwald, well-known New York expert, who proceeded to play the South hand as though he could see through the backs of the cards. West, a famous Swedish player, opened a low club, and East won with the ace. A trump lead would have been better, but West couldn't know that.

East returned the deuce of diamonds, and West's ten forced out dummy's king. Dummy returned a

'State Of Union' Message Is All Things To All Men

By PETER EDSON NEA Washington Correspondent

WASHINGTON—President Truman's State of the Union message is just as broad as you want to take it. You can read into the message anything you are for, or anything you are against. If this is what it takes to achieve unity, everyone should be pleased.

A quick check around the government agencies in Washington revealed that they had no detailed blueprints on what the President wanted. And so, for specifics, it will be necessary to wait until he drops the other shoe, in the form of the annual budget message, to see just what he does want.

Reading the State of the Union message one way, the President is still for all the New Deal and Fair Deal measures that didn't get passed by the last couple of Congresses.

The President's recommendation for "rounding out our system of social insurance" could mean he again is advocating: (1) Compulsory health insurance and (2) Permanent total disability insurance under the workmen's compensation laws.

The President's recommendation for "improvement of our agricultural laws" is as broad as all outdoors. It reflects the changed political situation in the Senate, where there is a new chairman of the Agricultural Committee, Senator Allen J. Ellender of Louisiana.

President Truman, Secretary of Agriculture Brannan and Senator Ellender haven't had buddies yet to see what the new chairman wants and what he will go along with. May Change Schedule Some of the subjects that might be considered include: (1) Take the sliding scale parity plan out of the Gore-Anderson-Alken Agricultural Price Act of 1949. Putting a fixed 90 per cent parity support price on all crops considered necessary for defense might be considered. This would take away the discretion now exercised by Secretary Brannan in fixing support prices.

(2) The list of commodities on which support prices would be made mandatory could be changed. The present list includes the six basic crops—corn, cotton, wheat, rice, tobacco and peanuts. Also for wool, mohair, tung nuts, honey, Irish potatoes, milk and butterfat. Some of this second list might be stricken off, and other crops substituted. If meat and perishables were included, there would be new problems of how the perishables would be handled. That might get into something like the Brannan plan.

(3) A guaranteed time limit for price support operations might be included. During the last war, under the Steagall amendment, farmers were guaranteed price supports for the duration and two years after the end of hostilities. Something like that might be revived. The President's recommendation for "improvement of our labor laws" could mean that new requests would be made for many things that Congress has turned down in the last few years. Among them:

(1) Broader unemployment insurance coverage and higher benefits to take care of labor in the period when industry is converting to defense production. (2) Broader application of the 75-cent minimum wage. (3) A defense emergency FEPC law, to use all manpower. (4) Equal pay for women, to get into them in industry. (5) An industrial safety bill, as a defense production aid. (6) That old standby, repeal of the Taft-Hartley law.

May. He was on the verge of tears. "Answer the man, John," May interposed. "Have you lost your tongue?" "John," it was a weak whisper. The detective gave May a hard look. "Let the kid answer his own questions."

The other detective—the one who had taken his hat off—had been wandering about the room. May had tried to follow his course without doing so too obviously. Her knees were beginning to act funny again. She reached out and held to the refreshingly cold iron rail at the foot of the bed for support. The detective had passed the door of the closet twice and hadn't opened it. Now he joined his partner in front of Harry.

"This your mother, kid?" the interrogator asked. Harry nodded. The detective was about to frame another question when his companion flicked his arm with the back of his hand. "Save it. We're wasting time. This ain't the kid. His eyes are as brown as chestnuts. We're looking for blue."

The detective put his hat back on his head, cupped Harry's chin in his hand and inspected him. He smiled. "Okay, kid." Then he turned to May and took his hat off again. "Sorry we bothered you, lady. We got a wrong number."

AFTER the detectives left the room and closed the door, May fled to the window. She threw it open and leaned out. The group in front of the building had grown. They were staring up at her and when she appeared several of them pointed. An excited murmur carried up to her. May didn't care. She had to hear what the detectives said to the landlady. That was all that mattered now.

Paul found the number in the telephone directory and dialed it. (To Be Continued)

Six Persons Are Altrusa Guests At Its First 1951 Meeting

The Altrusa Club held its first meeting of the year Thursday in Hotel Scharbauer with Bertie Boone, president, presiding. Special guests were Dr. Louise Fillman, geologist for Shell Oil Company; Dr. Virginia Johnson, chiropodist; Mrs. Agnes Parks, Retail Merchants Association; Mrs. Emily Atkinson, assistant secretary for the Midland Federal Savings and Loan Association; Mrs. Verna Harper, Rainwater Apartments, and Hughie Presley, educational director for the First Methodist Church.

Ada Phillips, chairman of the International Relations Committee, made a report on the clothing and medicines received by In-Ai Yang, a Korean student who formerly attended Vanderbilt University on an Altrusa scholarship and who now is in Tokyo. Of 64 boxes of clothing and medical supplies which had been received, she said, 24 of them came from the Altrusa Club in Midland.

She announced another drive would be launched soon for clothing and medical supplies to be sent to the destitute Korean refugees. Maurine Mims was named chairman of the committee in charge. Mrs. Phillips told the group that, as district chairman of international

relations, she had also received cash donations from other clubs in District 7 for the purchase and shipment of medical supplies.

Announcement was made by Grace Wallace, vice governor, that the Odessa Altrusa Club will receive its charter on January 27. It will be presented by Bernice McGee, new district governor and dean of the Masonic Home in Fort Worth. Miss McGee will be honored at a luncheon in Midland January 27. Members also were invited to attend the charter dinner in Odessa and to accompany Miss McGee Sunday to Big Spring for an informal meeting with that club. The Odessa and Big Spring Altrusa Clubs were organized last Summer by the Midland group.

Following the business session, Mrs. Mims, Verna Harper and Virginia Hoffman gave some of the highlights of their recent trip to Havana and Guatemala. Mrs. Mims gave each person present a miniature fan.

Other members present were Leslie Mashburn, Iva Cox, Laura Jesse, Annie Ford, Mary Sheppard, Erma Mancill, Lucille Carroll, Faye Gwyn, Hilda Blair Ray, Nettie Romer, Pauline McWilliams and Kay Williams.

Here's A Handy Little Guide To Being Good Mother-In-Law

By RUTH MILLETT
NEA Staff Writer

Writes a brand new mother-in-law: "I'm going to visit my son and daughter-in-law for the first time since they have been married. Since they live at a distance I plan to stay about a month. I want very much for my daughter-in-law to really like me. Have you any suggestions for me?"

The first is: Cut that month down to two weeks. No matter how much your new daughter-in-law likes you, entertaining you for the first time will be something of a strain on her. After all, housekeeping is still pretty new to her and she'll want to do her husband proud, so she'll be putting out a lot of effort. A month of that may seem like a pretty long time to her. Here are a few don'ts you might try to bear in mind during your visit.

Let Her Make Own Mistakes
Don't give in to the impulse to give out with a lot of household hints. Her way of doing things may seem slow or even awkward to you, an experienced housekeeper, but let her do things her own way.

Don't get too sentimental over how cute your son was at age two, or too confidential about all the girls he thought he was in love with. These are the two topics of conversation lots of mothers-in-law overdo.

Don't get inquisitive about how much things cost. She may have splurged on the modern lamp, knowing it was an extravagance—yet be reluctant to tell you what it cost. The fact that your son earns the pay check doesn't give you the right to want to know how his wife spends it.

Do a few things on your own during your visit. If you are with your daughter-in-law constantly from morning until bedtime every day of your visit she is bound to wish she

could be by herself for a little while.

Let her know that you think your son was a good picker. If you can do that—whatever else you do or don't do isn't too important. (All rights reserved, NEA Service, Inc.)

Mrs. Rotan Is Shower Honoree

Mrs. Roy Rotan was honored with a pink and blue shower Thursday in the home of Mrs. G. W. La Foy, 914 North Weatherford Street. The hostesses were Mrs. La Foy and Mrs. Glimmer Davis.

An arrangement of pink and white gladiolus decorated the living room. Gifts were placed in a box covered in pink with a pink and white ruffle at the top. Yellow satin roses with extending blue satin streamers, were attached to a blue satin ribbon that centered the ruffle. "Baby Rotan" in blue satin was embroidered on a yellow satin streamer, with a blue satin bow at either end. A large stork was placed near the entrance in the living room.

An ecru lace cloth covered the serving table and crystal appointments were used.

The honoree was presented a pink and white carnation corsage with pink mallow and blue ribbon.

During the evening names for the baby were suggested by the guests. Guests were Mrs. Earl Rice, Mrs. R. Holder, Mrs. Thomas Madders, Mrs. Richard Williams, Mrs. J. O. Life Underwriters Will Hear Address By Abilene Speaker

Members of the Permian Basin Life Underwriters Association, at their meeting Saturday noon in Hotel Scharbauer here, will hear V. W. Kelley of Abilene speak on the subject, "Programming." President Joe Davis will preside at the session.

Kelley is a past president of the Abilene Association of Life Underwriters and is the instructor of the Life Underwriters Training Council in Abilene. He is a regional director of the Texas Association of Life Underwriters.

He is a graduate of Abilene Christian College and of the Institute of Insurance Marketing at Southern Methodist University.

A large group of life underwriters from Midland and area cities is expected to attend the Saturday meeting.

George Barfield Heads McCamey Fire Department

MCCAMEY—George Barfield was elected president of the McCamey Volunteer Fire Department at its meeting Thursday night.

Jimmie Boyd, first and only fire chief of the group, was reelected to serve his fifteenth year as chief of the volunteer department.

Other officers are: Curtis Winfield, vice president; Cyril Holland, secretary; Eddie McAnnally, treasurer; Bill Prewitt, captain, truck number one; Stanley Bryson, captain, truck number two.

Bob L. Davis, city secretary-manager, was elected an honorary member.

Clyde Roberts was chosen for a one-year term on the Firemen's Pension and Retirement Board. He fills the unexpired term of Leo Plumlee, recently recalled to military service.

Kenneth Caldwell was elected to the three-year term on the retirement board, and Lloyd Bowden was elected as vice-chairman of the pension group.

The annual banquet of the firefighters has been set for February 1.

Daughter Agrees That 'Mother Knows Best'

Folks in the city and in the country often disagree on many things, but they all nod their heads in agreement when they hear the familiar quotation, "Mother knows best."

Mrs. R. H. Holder, 221 Columbus, Montgomery, Ala., certainly agrees with this, for at one time Mrs. Holder was nervous and run-down—she felt miserable. Her mother recommended that she take HADACOL and now Mrs. Holder says, "Today I feel wonderful, just wonderful, and I owe it to HADACOL." Mrs. Holder was suffering a deficiency of Vitamins B1, B2, Niacin and Iron, which HADACOL contains.

Mrs. Holder says: "I was nervous and run-down and I had lost weight and had no appetite—food just didn't interest me. I had aches and pains. I felt miserable. My mother started taking HADACOL and it did her so much good that I decided to give it a try. After the first bottle I noticed an improvement. After the second bottle I felt better. I have now taken 6 bottles and feel grand. I am no longer nervous or run-down. I have loads of energy. I have a big appetite and have regained the weight I had lost. No more aches or pains, either. Today I feel wonderful, just wonderful, and I owe it to HADACOL for it has done so much for me. I just can't praise it enough."

Clergy—

Continued From Page One) was drawn in answer to a query concerning that organization, but that its general rule was equally applicable to all similar organizations.

Two factors weighed in forbidding clergymen membership in Rotary or attendance at its meetings, this source said.

First, it was the organization's "worldly" character. Second, its meetings sometimes hold discussions, including religious subjects, where the attendance of a priest might be misconstrued by Catholic laymen as church approval of the discussion.

Officials, Catholic Clergy Baffled By Decree From Vatican

CHICAGO—(AP)—Rotary International officials and some Catholic clergymen were baffled Friday by a decree of Pope Pius XII forbidding all Roman Catholic clergymen from membership in Rotary clubs.

Former president of Rotary International said he was "amazed" at the action of the Sacred Congregation of the Holy Office in Vatican City, which is headed by Pope Pius. The decree also warned Catholic laymen to follow the canon law in regard to membership in Rotary clubs. The reasons were not given.

"We can't figure this one out," said a spokesman at headquarters of Rotary International.

He added the organization, which has 344,000 members in 7,300 clubs around the globe, had never had any "trouble with the church that I can remember."

In a statement issued over the signature of Rotary's president, Arthur Lagueux, of Quebec, Canada, who is a Roman Catholic, it was emphasized that the organization is "not secret", nor does it "seek to supplant or interfere with any religious or political organization."

Expects Ban Withdrawal

Bishop John F. Noll, in Fort Wayne, Ind., said he felt certain the Vatican had been misinformed about Rotary clubs in the United States. He said he believed the Vatican would withdraw its ban on ecclesiastical memberships once the matter had been explained. He added he thought the trouble was in Latin countries and would be cleared up soon.

Bishop Noll, who said he had not been informed officially of any action, recalled that he was a charter member of the Huntington, Ind., Rotary Club. The president of that club now, he said, is the Rev. Simon Schmidt, a Huntington Roman Catholic priest.

The Vatican's action "amazed" Percy Hodgson, immediate past president of Rotary International, he told the Providence, R. I., Journal.

Priests Are Fuzzed

In Springfield, Mass., Rev. Christopher J. Weldon, bishop of the Springfield Diocese, advised Catholic men not to resign from Rotary clubs "until official documents arrive in this country and can be examined."

Bishop Weldon said he had attended and addressed Rotary meetings.

Two Catholic priests, one in Chicago and one in Memphis, the only priests who are members of the Rotary clubs in the two cities, said they had never found anything in Rotary "detrimental" to the church.

The Rev. Edward J. Mullaly, 72, said he would give up his 31-year membership in the Chicago club as "there is nothing to do but resign."

The Rev. Thomas F. Menon said Tennessee Bishop William L. Adrian had given him permission to join the Memphis Rotary Club. He said he could not understand the pope's ban and that as far as he is concerned there is nothing in Rotary "conflicting with the laws of the church."

PVT. JACK RICE HOME ON 17-DAY FURLOUGH

Pvt. Jack Rice, son of Mr. and Mrs. John L. Rice, 1104 North Big Spring Street, arrived in Midland Thursday to begin a 17-day furlough.

Private Rice has been stationed at Fort Knox, Ky., but will report to Camp Stoneman, Calif., at the conclusion of his furlough.

Guay Executed For Causing Death Of 23 In Plane Bombing

MONTRIAL, QUEBEC—(AP)—J. Albert Guay, the little Quebec jeweler, whose yen for quick riches led him to kill his wife and 22 others by "time-bombing" an airliner, died on the gallows on Bordeaux Prison Friday.

Guay, convicted of a plot to get his wife's insurance, mounted the scaffold at 12:28 a.m. and seven minutes later he was pronounced dead.

To the last, Guay retained his yearning for public attention. Informants said he boasted to his guards, shortly before he was led to the gallows, "At least I die famous."

Guay was convicted of having a bomb placed on a Quebec Airways plane, which exploded and crashed Sept. 9, 1948, killing the 23 persons.

Officials, Catholic Clergy Baffled By Decree From Vatican

Among those killed was Guay's wife, Rita, 28. Also aboard were three top New York executives of the Kennecott Copper Corporation, E. T. Stannard, president; Arthur D. Storke, who was to succeed Stannard, and R. J. Parker, vice president.

Guay was charged with carrying on an illicit love affair with Marie-Ange Robitaille, 20, a Quebec waitress, and with getting rid of his wife to collect \$10,000 insurance on her life.

He almost got away with it, until investigators found evidence of an explosion in the plane's luggage compartment.

Merchants—

Continued From Page One) parking now is in effect. The motion was offered by James O. Simmons, Jr.

McMillen and Wilkinson explained the position of the council in the matter and gave the reasoning back of the parallel parking order which was issued Tuesday night after a discussion of the matter at a council meeting. The order rejected a previous petition, signed by 31 merchants, requesting that parallel parking not be instituted on Main Street. The order is scheduled to become effective Monday.

The councilmen present said the council is trying to serve Midland as a whole and explained it thought it was doing the right thing in ordering parallel parking at the Tuesday night meeting. Wilkinson said he considered the safety factor the most important thing in the matter.

Position Explained

Lester Short, Main Street druggist who also is president of the Texas Pharmaceutical Association, stated the position of the merchants.

The session was harmonious and various speakers said they felt it would be possible to work out something agreeable and satisfactory to both sides.

Henry Murphy, department store owner, said the city's main traffic flow is east-west rather than north-south and explained that north-south traffic does not necessarily have to be as fast as on through streets running east and west. He said that traffic moving fast through a district is not good for business in that district. Other merchants said they believed parallel parking would hurt their business.

Murphy requested County Judge Clifford C. Keith, who was in attendance, to ask the Commission on Court to consider making a parking area out of the courthouse lawn. He said such an arrangement would provide needed parking space as well as approximately \$15,000 a year in revenue.

Judge Keith said he would present the matter to the commissioners.

Underground Parking?

Councilman Wilkinson then suggested that underground parking facilities be provided and said he would favor a bond issue to finance such a project. City Manager Oswald said revenue bonds could be issued to finance the proposed project, stating his belief the facility would be self-sustaining. It was suggested that underground parking might be made available under the courthouse square.

Most merchants present indicated they would not oppose parallel parking if off-street parking were available in the area.

O. W. Stice said all the merchants ask is fairness and justice in the matter.

It was suggested that the parallel parking matter be left to a vote of the citizens. Thirty-minute parking on Main Street, 10-cents an hour parking and the reopening of the Baird Street railroad crossing were other suggestions.

Bob Baker, J. M. Cox, J. B. McCoy, Paul Brooks, H. N. Phillips and O. E. McCray were among other Main Street merchants taking part in the discussion.

Wilbur Beesley, Oil Operator, Is Dead

Wilbur Beesley was an independent oil operator and is a former Midlander.

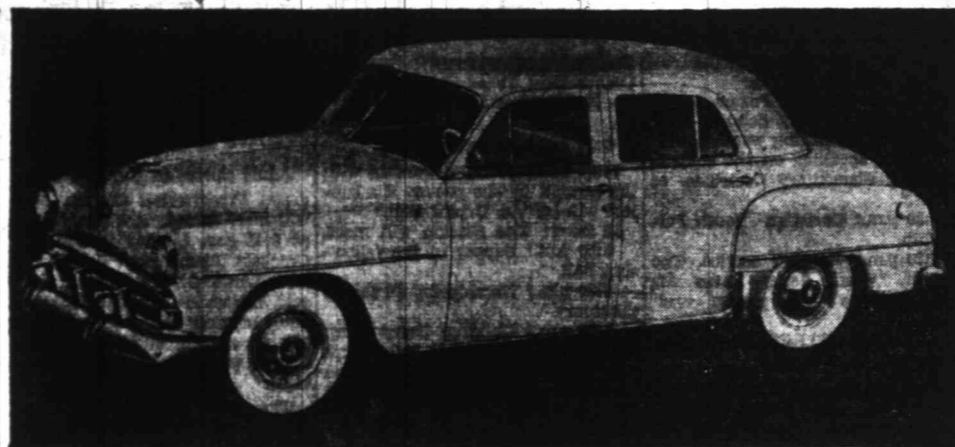

Funeral arrangements are pending.

New Model Plymouth To Be On Display Here Saturday

Spectacular new qualities, which produce exceptionally driving and riding ease, feature the new line of Plymouth cars, which go on display in dealer showrooms here and throughout the nation Saturday. Dealers say the new Plymouths combine smart new body lines with unprecedented interior luxury.

Midland Plymouth dealers are Mackey Motor Company, Mid-West Motor Company and Hargrove Motor Company.

Designers have given the Plymouth a striking new silhouette, and refinements in the interior are innovations in the lowest price field.

Easier to drive and more comfortable, the new cars have greater beauty, more safety features and broader ranges of vision than ever before.

Engineers say the new "Safety-Flow ride" takes the bounce and wallop out of bumps.

Lines Beautified

The lines of the new Plymouth have been beautified. An appearance of massiveness combined with smart streamlining is induced by a new grille, beautifully redesigned front fenders and hood, a wider windshield and a larger rear window.

There are numerous mechanical improvements.

Nine body-types are included in the new Plymouth line: the Concord series includes a two-door sedan and a three-passenger coupe as well as the two all-metal utility models, the Suburban and the Savoy; the Cambridge series has four-door sedan and a club coupe and the Cranbrook series includes a four-door sedan, a club coupe and a convertible club coupe.

"Safety-Flow Ride"

NEW OUTSIDE! NEW INSIDE! INTRODUCING AN ENTIRELY NEW EXPERIENCE IN RIDING AND DRIVING EASE

With brilliant new styling inside and out, the sparkling new Plymouth is here. And with this big, beautiful car comes a wonderful new motoring experience—the sensational new "Safety-Flow Ride."

It makes no difference how chewed up or humped the highway. The New Plymouth floats over the big bumps and deep pits. Engineers have made a new use of hydraulics to give you stability and roadability never before offered in any car. New shock absorbers work in harmony with shockproof steering, synchronized springing, balanced weight distribution and other Plymouth advances.

The result is a safer ride. You drive tension-free and relaxed. You never have to worry about bouncing your passengers. Your car is easy to hold straight on its course at all times. Instead of looking at the road immediately ahead, you can devote more attention to oncoming traffic and approaching intersections.

Your Plymouth dealer welcomes the chance to arrange a demonstration. From its graceful new grille to its gleaming new rear bumper, the New Plymouth will show you quality features and luxurious appointments never before attained in the lowest-priced field. And you'll find the greatest value of all in this greatest of all Plymouths!

The Golden Text is: "The bread of God is he which cometh down from heaven, and giveth life unto the world" (John 6:33).
Among the citations which comprise the lesson-sermon is the following from the Bible: "And as they were eating, Jesus took bread, and blessed it, and brake it, and gave it to the disciples, and said, 'Take, eat; this is my body. And he took the cup, and gave thanks, and gave it to them, saying, 'Drink ye all of it.'" (Matthew 26:26, 27).
The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" Mary Baker Eddy: "If all who ever partook of the sacrament had really commemorated the sufferings of Jesus and drunk of his cup, they would have revolutionized the world" (page 34).

Adult Classes Of New Church School Will Name Leaders Sunday
Adult classes of the new St. Andrews Presbyterian Church School will meet in informal study groups at 9:45 a.m. Sunday in the David Crockett Elementary School, the Rev. Lewis O. Waterstreet, pastor, said Friday. He explained that each adult member of the church is considered a member of the Church School and will be assigned to a class.
The classes will be kept small, Mr. Waterstreet explained, with each group to select its own leader and course of study.
The suggested subjects of study include "The Bible and Life," "Personal Faith and Experience," "The Christian Family Life," "The Church," "Christian Action in Society," and "World Relations."

Purchase Of Master Cleaners Announced By John L. Spurgers Sr.
John L. Spurgers, Sr., announced Friday he has purchased the Master Cleaners, 214 North Colorado Street, from L. B. Spivey of Albuquerque, N. M. The change in ownership now is in effect.
Spurgers has been manager of the firm since moving here from San Angelo eight years ago.
The same efficient service will be continued under the new ownership, Spurgers said. No personnel changes are planned.
Spurgers plans to re-equip the plant with the latest-type equipment. A remodeling program also will be instituted soon.
The chimney to carry smoke from houses was not developed until about the 12th Century in northern Europe.

The Southern Pine Association says wood is such a good non-conductor of heat that a one-inch thickness of ordinary lumber equals six inches of concrete or stone in its resistance to the transfer of heat.

Remember how hard arithmetic seemed when we tried to learn it from our textbooks? Then the teacher would put a few examples on the blackboard—and suddenly it wasn't hard at all. Some people think the Bible is a difficult book to understand. But it's just like that arithmetic. . . .

When you learn how to use your Bible, how to apply its truths to the problems of every-day life, then the lessons of the Bible become clear and simple. Suddenly you find it hard to realize that there was ever a day when this GREATEST OF ALL BOOKS seemed strange to you.

Our churches are our best teachers of Biblical truth and its application to life. In sermon, hymn, prayer, and lesson, they atune our lives to the riches of God's Word.

There's a Bible in your home. Is it in your life?

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Bulldogs Engage Bovines Friday

The Big Spring Steers—featuring scorer Bobby Maines and play maker Charles Warren—invade the Bulldog's yard for a 3-AA basketball game Friday night.

The varsity tilt is scheduled at 8 p.m. Midland and Big Spring 'B' teams will open the action at 6:30 p.m. Site of the games is the Midland High School court.

The Steers are favored to stampede the Bulldogs right off the hardwood. But Coach Red Rutledge has been putting his charges through extensive drills all week and the Dogs may nip at the Longhorns heels somewhat.

Arnold Drake, star Midland forward, may not see action. He still is crippled some from a leg injury suffered in the 40-37 losing effort to Odessa Tuesday night. Rutledge probably will start Buddy Johnson at center, Bob Burks and Reed Gilmore at guards, Robert Keating and Roy Kinsey at the forward slots.

The Bulldogs have won three of 10 contests on the year. Big Spring boasts an 11-5 won-lost record. The Bovines won their only conference encounter, a 30-43 joust with Odessa. In addition to dropping to Odessa, Midland lost a 48-37 game to strong Lamesa.

Both the Midland and Big Spring Bees have fine records. Coach John Higdon's Purple quintet has sacked up six of eight games. The Steer reserves have posted a 7-2 mark.

Girls Basketball Team Formed; To Play In San Angelo

The Midland Independents, a female basketball team, organized recently here and elected officials. The team is coached by Ruthie Lee Wood, with Mary Montgomery as assistant coach. Chris Hines is publicity director. Pety Tuglie was elected secretary.

The Independents will see their first action Thursday night in San Angelo, playing the strong Red Chick basketballers. The game is a benefit tilt for the March of Dimes. The contest will start at 7 p.m.

Girls on the team include Joyce Beasley, Bobby DeLay, Eloise Graham, Pety Tuglie, Chris Hines, Edith Campbell, Frankie Schulke, Polly Dyes, Dutch Clinton, Rosie Hart, Deanie Matthis, Betty Erdman and Barbara Hill.

Tris Speaker Enters Texas Hall Of Fame

DALLAS —(P)— Tris Speaker entered the Texas Sports Writers' Association Hall of Fame Thursday and greats and past greats of sports turned out in tribute to the former major league baseball star.

Hank Greenberg, vice president and general manager of the Cleveland Baseball Club, lauded Speaker as a "great player" and a "true gentleman."

Speaker played 22 years in the big leagues as an outfielder and managed Cleveland to a world championship in 1920.

Penn. State's soccer teams under coach Bill Jeffrey won 78 per cent of their games over a 25-day period.

Charles Is Solid Favorite

NEW YORK —(P)— Heavyweight Champion Ezzard Charles, as trim and sharp as a razor, plans to ruin playboy Lee Oma's Cinderella ambitions well before the gong sounds for round 15 in their bout Friday night in Madison Square Garden.

"Jimmy Braddock was able to do it and if Joe Walcott was able to come close, then maybe I can do it," is the way the 34-year-old Oma sized up the situation.

But it looks like a case of "too little and too late" for the clowning Buffalo challenger. The coldly efficient champion, risking his prize bauble for the sixth time, should chop down Lee somewhere between the eighth and twelfth rounds.

The oddsmakers rate the improving champion a one to five choice to win and a five to nine favorite to halt Oma within the 15-round limit.

A light flurry of betting in a very quiet wagering mart dropped the prices down from one to six on the decision and one to two on the knockout.

The 9 p.m. (CST) bout will be broadcast by ABC and telecast by NBC.

Charles, who has won his last 21 fights, 14 of them by knockouts, appeared to be in the best shape of his life when he ended his training Thursday.

His September triumph over Joe Louis has boosted his confidence and has made him a better fighter.

The big question is Oma's stamina or lack of it. The challenger, fourth-ranking heavy in the world, never has gone beyond 10 rounds.

King's Row

By LARRY KING

Baseball season is coming fast. It's later than you think. In about 60 days the Midland Indians will be running through Spring training drills at Monroe, La.

And its just a short hop to the infield from the Spring sessions to the beginning of the season.

It's a colorful game, this diamond sport. It's a complex and complicated game, contrary to the ideas of many fans who think the game consists only of taking the bat and hitting the ball while tossing an occasional uncomplimentary remark to the umpires and opposing players.

—KR—

And, like all other sportsmen, baseball men speak their own jargon—language, if you please.

Many of these terms are commonplace and known by the average fan. But many others are peculiar to the ball players themselves.

How many fans, for instance, know an April Cobb is the baseball man's word for a player who is near-sensational in Spring training, but folds in the regular season?

Or that a base on stones occurs when a ball takes a crazy hop after hitting a pebble, and allows the lucky batsman to beat it out for a hit?

There are many of these colorful expressions in the baseball world. Let's look at some of them.

—KR—

A blue dart is a line drive, the Big Tent is the Major League, a can of corn is a high, lazy fly, a cigar box is a small field, a clinker is an error and a dally win is a club meeting before each game.

And when a ball player speaks of a player going to the Major Leagues for a "cup of coffee," it means he is up for a brief trial.

When a pitcher throws underhanded he is "dealing from the bottom of the deck." A dreamer is a lad who is asleep on the field, a first and fifteenth player is one who thinks only of paydays, and a rough infielder is referred to as "Hogan's back yard."

—KR—

When a baseball player speaks of a "guesser" he naturally means an umpire. A high priced rookie is referred to as ivory. Good fielders who can't hit are referred to as leather players, while a ball player who performs only for benefit of his individual average is called a percentage player.

If a player is notoriously lucky he is a screwjack. A sweetheart doesn't wear skirts at all, but is a player who rises to the occasion—also termed a money player.

Catchers paraphernalia is referred to as tools of infamy (Eh, Kenny Jones?), and union hours has nothing to do with John L. Lewis—it simply means a game that goes the regulation nine innings.

—KR—

There are others of course, hundreds of them. Perhaps you know them and perhaps you don't. But if you hang around the ball parks and speak baseball language as easily as Yogi Berra reads comic books.

And like we said, the season isn't far off. So get ready.

—KR—

But before we go: How about calling the women fans the "shrieker sex?"

Buff Quintets Win Tilts In Tourney

STANTON—The Stanton boys and the Stanton fems were impressive in opening round victories as play opened in the Stanton Invitational Cage Tournament here Friday.

The Buff boys edged a good Courtney team 32-29, despite the efforts of Courtney's R. L. Hull, who sank 24 of the losers' 29 points. The count was tied 16-16 at

halftime, as Hull had accounted for 14 of his team's points. Stanton edged in front 23-22 at the end of the third quarter and added two points to its leads in the final frame. Tall LeRoy Gibson paced Leo Field's Stanton five, hitting 16 points. Bobby McClain and Earl Koonce poked in six points for the winning Buffs.

Higgins Scores 15
Harriet Higgins scored 15 points to lead the Stanton girls past Courtney 38-17. The Stanton team was in command all the way, leading 24-10 at halftime.

In other games, the Forsan boys were impressive in a 35-19 win over Knott. Forsan was in front by only three points—14-11—at halftime, but with Bill Shortes flipping in 11 points in the last half went on to win easily. Shortes 11 points led the Forsan team. Ken Stovall tallied nine for the losers.

Ackerly edged Garden City in the other boys contest by the same 32-29 count by which Stanton defeated Courtney. The game was contested closely all the way until the third quarter, when Ackerly built up an 11 point lead. But Garden City staged a late rally that almost turned the tide. Bedmore led Garden City with 13 points. Vassingard tossed 14 points through the net for Ackerly.

The Ackerly girls defeated the Garden City fems 34-21 as Bassingham tallied 18 points. Calverly led Garden City with 17.

Forsan, with Sneed scoring 14 tallies, defeated the O'Donnell girls 31-24.

That ended the first day's action.

Play will continue through Friday night and Saturday. The finals—both championship and consolation brackets—will be played Saturday night.

Games scheduled Friday include: Coahoma vs. Knott (girls) 1 p.m.; Trent vs. Highland (boys) 2 p.m.; Rankin vs. Highland (girls) 3 p.m.; Coahoma-O'Donnell boys (tangling p.m.); Stanton vs. Forsan (girls) 6 p.m.; Stanton vs. Forsan (boys) 7 p.m.

Consolation play begins at 8 p.m. Friday with the loser-of-the-Coahoma-O'Donnell boys (tangling with the Trent-Highland loser. At 9 p.m., the final Friday game will be played between the loser of the Coahoma-Knott girls and Rankin-Highland girls tilts.

—KR—

San Angelo holds twin wins over Big Spring—45-29 and 38-33—but has dropped to Odessa by 54-52 and 35-30 margins.

The Midland 'B' also will make the trip, playing in the first game at 6:30 p.m. The games are non-conference affairs.

Midland 'C' Team In Odessa Tourney

The Midland 'C' team was to meet the Bowie Junior High five of Odessa at 1 p.m. Friday in the opening round of the Odessa Junior High Invitational Basketball Tournament.

Coach Bernard (Pat) Patterson's five hold wins over the Andrews 'C' and Coleman Junior High quintets. The 'C' Dogs fell to Edison of San Angelo in its other start.

Fourteen teams have entered the Odessa tournament. They include Midland, Denver City, McCamey, Monahan, Seminole, Kermit, Andrews, Crane, Lamesa, Big Spring, Edison of San Angelo, Robert Lee of San Angelo, Odessa Bowie and Odessa Crockett.

—KR—

Harry Faulkner, general manager of Lubbock in the West Texas-New Mexico League last season, has been named general manager of Vernon in the Longhorn League.

The University of Washington basketball team includes a pair of six-foot-seven sophomores in Bob Houbregs and Doug McCarty.

Episcopal Church Gets New Bishops

EL PASO — (P) — The House of Bishops of the Episcopal Church, in final session Friday, elected three new bishops.
They are:
The Rev. Albert Ervine Swift, rector of Holy Trinity Church in Manila, to be missionary bishop of Puerto Rico.
The Very Rev. Richard R. Emory, rector of St. Paul's Church in Minneapolis, to be missionary bishop of North Dakota.
The Very Rev. Richard S. Watson, dean of St. Mark's Cathedral in Seattle, Wash., to be missionary bishop of Utah.
The bishops Thursday adopted unanimously a resolution opposing gambling in any form to support church activities.

Prospectors Plugged In Kent Cogdell Area

Plugging applications have been filed with the Railroad Commission of Texas on one wildcat and on two steepouts to the Cogdell field in Kent County.
L. A. Douglas and Sojourner Drilling Company, Ltd., drilled their No. 1 L. G. Hager, wildcat in Central-North Kent County, to 7,439 feet and abandoned it there after finding no shows of production.
Location was 860 feet from north and west lines of northeast quarter of section 79, block 1, H&GN survey and four miles west of Girard. In the Cogdell field of Central-South Kent County, Chapman & McFarlin Producing Company has

SE Garza Field Gets Producer

A one-quarter-mile west extension and second producer for the North Polar-Ellenburger field in Southeast Garza County was completed by American Liberty Oil Company and others.
The new producer is their No. 1 Williams, 1,980 feet from north and 660 feet from east lines of section 71, block 5, H&GN survey and eight miles northeast of Justiceburg.
A daily pumping potential of 172.88 barrels of 41.3-gravity oil was reported for the well. Pay was topped at 7,792, with total depth at 7,807 feet. The completion was from open hole.
Gas-oil ratio was 112-1.
The completion of the No. 1 Williams puts the field in two counties. Star Oil Company and others No. 1 Blanche Young opened the field in Kent County.

General Crude Sets Explorer In Kent

A one-mile outpost west of the three-well Clairmont-Pennsylvanian field of Central Kent County has been staked by General Crude Oil Company as the No. 1-107 Percy Jones.
Drill site is 660 feet from south and east lines of section 107, block G, W&NW survey. Projected depth is 7,500 feet.

Central Tom Green Gets Deep Wildcat

American Republics Corporation and Cities Service Oil Company, have spotted a 7,500-foot rotary wildcat in Central Tom Green County.
It is their No. 1 Mrs. J. V. Ketchum and is located 3,843.4 feet from south and 660 feet from west lines of section 7, John Q. White survey and five miles southwest of Wall.
The prospector is on a 1,155-acre lease. It is five miles east-southeast of Cities Service No. 1-B Washington County School Land, which was plugged and abandoned at 6,487 feet in the Ellenburger, topped at 8,100 feet on an elevation of 1,920 feet. This failure was plugged on Oct. 25, 1951.
The new test is seven miles northwest of the Susan Peak field.

NE Howard Test To Be Abandoned

York & Harper, Inc., No. 1 Jones, Northwest Howard County wildcat, one mile northeast of the town of Knott, and 1,980 feet from north and west lines of section 14, block 34, T&P survey, T-2-N, is shut-down for orders.
The project probably will be plugged and abandoned.
It swabbed 24 hours on perforations in the Pennsylvanian lime at 9,432-46 feet and at 9,478-9,500 feet. Recovery was 20 barrels of fluid—about two thirds oil and about one third water.
The perforated intervals had been treated with 2,000 gallons of acid in each set.
This exploration had some good shows of oil in the top of the Pennsylvanian between 9,400 feet and 9,500 feet. A string of casing was cemented at 9,500 feet.
The hole was then drilled to a total depth of 9,679 feet. The section between 9,500 feet and 9,679 feet was tested but it did not develop any possibilities of production.
It was plugged back to 9,500 feet and the sections at 9,432-46 feet and at 9,478-9,500 feet were perforated, acidized and tested with the small amount of oil and water being recovered.
Plugging orders are expected soon.

Outpost In Sterling Plugged, Abandoned

An east outpost to the Durham field of East-Central Sterling County has been plugged and abandoned as a dry hole at total depth of 1,526 feet.
It was Salt Dome Producing Company No. 2 Ethel R. Foster and Fay Hildebrand. Location was 330 feet from south and west lines of section 17, block 12, SPRR survey and one and one-half miles south of Sterling City.

Children Can Help In Atomic Defense

LOS ANGELES — (P) — Children have a major part to play in the defense against atomic bombs, says Dr. Albert V. Bellamy, University of California professor.
One of the first duties for children is keeping the house and yard free from papers, boxes, old clothes and other combustible materials.
"See that everything has a place," the professor says. "Toys, tools, flashlights, large candles, matches, everything should be in its proper place at all times."
Dr. Bellamy listed the following don'ts for children in the event of attack: Don't repeat rumors. Don't tie up the telephone. Don't tie up the roads, move only when and where directed. Don't fill the bathtub with water after a bomb drops. The water may be contaminated and it causes a drop in city water pressure. Finally, he advises against eating anything that's open during an attack.

Cost Of Living Rising In Malaya

KUALA LUMPUR — (P) — The cost of living is steadily rising in the Federation of Malaya. Most of the ordinary necessities to sustain life are now described as becoming "luxuries."
Pork meat is the latest item to undergo a big boost. The emergency — meaning the British war against Communist terrorists, is partly responsible for the price rise.
Cheese and checkers are now two separate games, but cheese was once called checkers.

Pickett Tells 'The Midland Polio Story' To Midland JayCees

Perry Pickett spoke to the Midland JayCees Friday at the weekly JayCee Luncheon in Hotel Scharbauer. Pickett's subject was "The Story of Polio in Midland."
He told how Midland's dimes and dollars were spent in combating infantile paralysis in Midland County. A total of \$32,585.93 was spent from 1948 through 1950 in fighting the dread disease, he said. That would leave the annual average at \$10,861.98 cents. Pickett told of the organizational setup in, running a March of Dimes campaign, and called on the Midland JayCees to assist in staging a March of Dimes campaign here.
Program Chairman Herschel Ezell introduced the speaker.
President Art Joseph announced the JayCees will distribute miniature iron lung containers in prominent places downtown to collect money for the current campaign.
Foil Tax Drive
Rocky Ford announced he is trying to make it possible for JayCee members to help with the sale of foil tax receipts in Midland County, but thus far has been unable to do so. But it is being done in El Paso and other cities, Ford stated, and he intends to continue in his attempts to make it possible. "I believe it would be of great assistance to the county," he said, "and more people would pay their poll tax. In that way more people will turn out and vote in elections."
The JayCees announced they are sponsoring a talk by Dr. Robert Walker, famous lecturer known professionally as Thane, in the Midland Junior High School auditorium Monday night. Dr. Walker has returned recently from Washington, where a delegation of lecturers was briefed by President Truman. His subject has not even been released to the public or the press, and his appearance in Midland will be one of the first public appearances since the lecturers were assigned subjects by the President.

Crosby Venture Quit As Failure

Plymouth Oil Company No. 1 H. E. Fisher, wildcat in Southeast Crosby County, has been plugged and abandoned in the Ellenburger as a failure.
The prospector was drilled to total depth of 8,424 feet. The Ellenburger was topped at 8,394 feet, elevation 2,490 feet.
The section from 8,394-8,424 feet was drilled and tested for three hours. Recovery was 1,620 feet of mud cut with salt water and 6,580 feet of salty sulphur water.
No shows of petroleum were encountered in any formation drilled.
The abandoned location is 660 feet from west and 1,980 feet from south lines of section 86, block 8, H&GN survey.

Schleicher Wildcat Plugged, Abandoned

Placid Oil Company No. 1 E. M. Jackson, Central-South Schleicher County wildcat, has been plugged and abandoned at 6,553 feet in the Ellenburger which was topped at 6,447 feet.
Location was 660 feet from south and east lines of section 67, block K, GH&SA survey and six miles south and one mile east of the Page-Strawn field. That made it nine miles southeast of Eldorado.

ju, 22 miles to the west. They poured fire on Allied vehicles carrying supplies to the Second Division farther north.
Allied patrols rushing out to clear the supply road ran into road mines. Then the Reds attacked.
Another vanguard patrol of the Communist flanking force tangled with Allied troops northeast of Tanyang.
UN Flank Threatened
The Eighth Army did not report the results of either skirmish. It reported there were at least 1,000 Red troops along the Tanyang-Chungju highway.
AP Correspondent William Barnard reported from the front that there were two full North Korean divisions—the sixth and 10th—in the force that slipped around the eastern flank of the Second Division. Sizeable elements of the force were reported 10 miles south of Chechon and only six miles north of Tanyang.
AP Correspondent Don Huth at Eighth Army headquarters reported this deep-thrusting Communist force threatened the important network of roads leading south in that area.
If Tanyang should fall, an important retreat route for Allied troops would be lost. There is only one other road available to the hard-fighting Second Division doughboys if they are forced to retreat from their exposed position near Wonju.

Thompson Says East Texas 'Limit' Is 275,000 Barrels

AUSTIN — (P) — The Railroad Commission has "definitely demonstrated" 275,000 barrels per day is all the oil the big East Texas oil field can produce efficiently, Commissioner Ernest O. Thompson said Friday.
He reported the commission has been unsuccessful again in stopping the bottomhole pressure drop in the field due to excessive withdrawals over a period of several months.
"We felt sure the amount was too great; but due to some clamor, we added extra days, and the pressure dropped as was expected," he said.
The daily East Texas withdrawal was then reduced to 273,853 barrels per day over a period of several months. The pressure in December responded with a .99 pound-per-square inch buildup.
Thompson said he hoped the demonstration would be the final one.
"The people of East Texas know now that there is a top limit to their field, and it definitely is 275,000 barrels per day if we are to get the greatest ultimate recovery therefrom. That is the law of Texas, and it is a good law," he said.

Influenza Epidemic In England Mounts

LONDON — (P) — Influenza cases continued to increase in the Midlands and Northern England, but Health Ministry officials denied Friday reports that there had been 3,000 deaths in Liverpool alone the last two weeks.
"Official reports are complete up to January 6 and in the week ending that day there were 90 deaths from influenza in Liverpool," a ministry spokesman said. "Deaths from all causes were just over 700."
