U. S. Planes Win Jet Air Battle

Yank Airmen Destroy Four Enemy MIG's

TOKYO—(AP)—American Thunderjets, streaking over Northwest Korea, shot down four Russian-made MIG-15's Tuesday in history's biggest jet air battle.

The F-84's also scored one probable kill and damaged four more of the Russian speedsters.

AP Correspondent John Randolph, at U. S. Fifth Air Force headquarters in Korea, said all the American planes returned safely. Not a single bullet hole was found in the Thunderjets, he added.

C. Of C. Banquet Tuesday

Eugene McElvaney, prominent Dallas banker and civic leader, will deliver the principal address; officers and directors for 1951 will be installed, and a streamlined entertainment program will be presented at the annual banquet and membership meeting of the Midland Chamber of Commerce at 7 p. m. Tuesday in Hotel Scharbauer.

Manager Delbert Downing said everything is in readiness for the annual event and that a number of banquet tickets still are available. Reservations may be made until banquet time.

M. C. Ulmer, president of the First National Bank, will preside as toastmaster in the absence of Robert L. Wood, Sr., C. of C. president, who is ill. Ulmer, veteran Midland civic leader, is a past president of the West Texas Chamber of Commerce and the Texas Bankers Association. He is a member of the executive council of the American Bankers Association.

Speaker Arrives Here
Dr. R. Matthew Lynn, pastor of the First Presbyterian Church, will give the invocation.

McElvaney arrived here by private plane from Dallas shortly after noon, and was met at the airport by a group of civic leaders. The banquet speaker is the senior vice president and a member of the executive committee of the First National Bank in Dallas. He also is in charge of the bank's oil loan department, and is a trustee and chairman of the executive committee of Southern Methodist University.

Bill Smith of Pampa, top-flight entertainer, will present a musical novelty act as an entertainment feature. He will be assisted by John Springer of Midland, Smith was to arrive here by plane Tuesday afternoon.

Introduction Scheduled
Dinner music will be provided by Johnny Bizzell of Midland.

Stanley M. Erskine, who will head the organization in 1951, will be introduced, as will other officers including Jack Wilkinson and Jack Wickley, vice presidents, and Bill Collins, treasurer. New directors also will be introduced.

Special membership awards will be presented to three members.

Special guests will be introduced by Downing.

Mass Meeting Of City's South Side Residents Slated

A mass meeting of South Side residents has been called for 7:30 p. m. Thursday in the IOOF Hall on East Florida Street, according to Col. J. B. Wright, who has been named chairman by the sponsoring group.

Municipal improvements, problems and other matters of general interest will be considered by those attending the gathering. Action on various matters may be taken, Colonel Wright stated. He said everyone present will be given an opportunity to express his or her views.

He urged as many South Side residents as possible to attend.

Three Alleged Kidnapers Held Under \$5,000 Bond

Three Midland Latin Americans were being held under \$5,000 bond Tuesday after arraignment on charges of kidnaping a 51-year-old oil field worker.

Named in the charges are Frank Olgin, Juan C. Ramirez and Juan Alvarez.

Peace Justice Joseph Seymour said the trio entered no plea on their arraignment.

Deputy Sheriff Ed Edwards, who returned the three to Midland from Del Rio, said, however, the men had denied they took R. P. Sammons of Midland to the border town against his will.

Sammons said he was giving the men a ride to Odessa Friday night when they commandeered his automobile and drove him to Del Rio.

Poll Tax Payments Lag With Deadline Only Nine Days Off

Less than 2,200 Midland County citizens had paid their poll taxes Tuesday, although only nine days remain in which to qualify to vote in 1951 elections.

County Tax Assessor-Collector J. M. Speed reported the payments had picked up the last few days, but still are far behind the 1950 figure of 6,300 persons who paid their poll taxes.

Deadline for the payment is January 31 and the poll tax must be paid by then to qualify for balloting in the city and school elections scheduled this year.

Speed reported 312 other persons had obtained exemption certificates.

New City Directory Distributed Here

Copies of the 1950-51 Midland City Directory, the largest ever, are being distributed by the Western Union for the Rudolph Directory Company of El Paso, which for many years has published Midland directories.

The new directory contains five major departments: alphabetical list of names; directory of householders, including street and avenue guide; numerical telephone directory; buyer's guide, and classified business directory.

The information contained in the directory was gathered late last Summer.

Statistical information and pictures of Midland, the oil, livestock and financial center of West Texas, are presented in the directory.

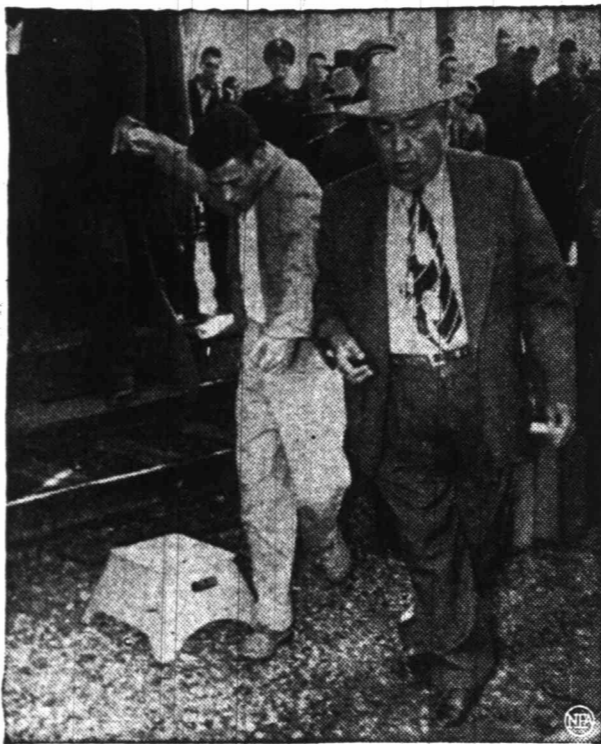

The Rudolph Directory Company maintains a directory library in the Chamber of Commerce office here.

24 Patients Saved From Blazing Hospital

CENTRAL FALLS, R. I.—(AP)—Seven new-born infants, some of them only a few hours old, were among 24 patients evacuated safely early Tuesday from fire-swept Notre Dame Hospital.

The infants and 17 adults were moved in 16-degree temperature to a nearby nurses' home.

Doctors said nobody seemed to suffer any ill effects.

COOK RETURNED TO OKLAHOMA—William E. Cook, left, confessed slayer of the Carl Mosser family of Atwood, Ill., steps from a train in Oklahoma City, where he was returned from San Diego, Calif. Cook was the object of a nationwide manhunt after the blood-stained Mosser auto was found abandoned near Tulsa. The family of five was found murdered in an abandoned mine shaft near Joplin, Mo. At right is Jasper Saunkeah, deputy U. S. marshal.

House Gets Second Major Money Bill

AUSTIN—(AP)—The 52nd Legislature's second tax bill went before the House on first reading Tuesday.

The \$55,000,000-a-year measure was referred immediately to the Committee on Revenue and Taxation.

Rep. Deno Tufares of Wichita Falls, author of the revenue-raising bill, estimated it would produce enough money to maintain state services at present levels during the next two years.

Keith Says County Will Proceed Slowly On Parking Proposal

County Judge Clifford C. Keith said Tuesday "we are going to proceed cautiously" on a proposal submitted Monday to the Commissioners Court that a major part of the courthouse lawn be converted into a parking space.

The proposal was submitted by a delegation of Midland merchants as the commissioners met for their regular monthly business meeting.

"Since then I have received a number of telephone calls protesting the proposal," said Judge Keith, who is chairman of the Commissioners Court.

"I have told all of them we are going to proceed cautiously and act according to the will of the majority of the people."

Judge Keith said a member of the City Council also had reported to him he had received several protests to the proposal.

The merchants, in submitting the plan, proposed a separate drive inside the courthouse lawn boundaries, lined with parking spaces on each side.

"Such a plan, they said, would give the city 530 additional parking spaces in a day's time."

New Avalanches In Austria Hike Known Death Toll To 234

VIENNA, AUSTRIA—(AP)—Giant avalanches thundering down Austria's mountains Tuesday brought new peril to isolated villages and towns as estimates of Alpine Europe's death toll reached 234 persons.

In Switzerland, lessening of the snowfall and a temperature drop cut the avalanche danger sharply, but reports from all areas in the Austrian Alps said the slides still were roaring down, carrying boulders and uprooted trees with them and demolishing farms, hunting lodges and haystacks.

Between 112 and 127 persons had been buried by the snow in Austria during four terror-filled days. The number of missing was unknown as an estimated 45,000 persons—including thousands of foreign tourists—remained isolated.

In Switzerland, 68 bodies had been recovered and at least 11 more persons were believed dead. At least 20 were listed as severely injured and scores of families were homeless.

Italy reported 25 dead, 30 injured and 20 missing on the Swiss-Italian border, and near the Austrian border.

Three were dead in France.

Innsbruck, capital of the Austrian Tyrol, was isolated except for a one-way path cut through the mountain passes to the east. Lack of drinking water, caused by slide destruction of most waterworks, threatened the city with epidemics.

Plaintiff Loses Libel Suit Against Pearson

WASHINGTON—(AP)—Fred N. Howser, former California attorney general, lost his \$350,000 libel suit against columnist Drew Pearson in Federal District Court Monday night.

The jury decided unanimously Pearson proved his radio statement that Howser accepted a \$1,200 bribe from a Long Beach gambler in 1946 when he was Los Angeles County district attorney and a candidate for state attorney general.

Howser's attorney, Rober Robb, said the case will be appealed.

Marshall Asks Youth Draft To Meet Manpower Goals

WASHINGTON—(AP)—Secretary of Defense Marshall Tuesday said the U. S. troops under General MacArthur need 15,000 replacements a month and it will be April before his divisions are built up to "normal strength."

Marshall testified at hearings by the House Armed Services Committee on the Defense Department's request for universal military service and training for 18-year-olds.

The department also asks that the length of service by drafted men be extended from 21 months to 27 months.

Marshall, noting the military manpower goal is 3,462,000 by June 30, said "we will have to increase our force beyond this strength if the situation worsens."

Replacement Needs
The defense secretary cited MacArthur's needs for replacements and the possibility of an increase in the military manpower goal as reasons for extending the draft to 18-year-olds. At present, the draft reaches only men aged 19 to 26.

Marshall said that when the Korean campaign began last June, MacArthur had in Japan four divisions at about half strength.

He said MacArthur made the "very courageous decision" to put 30,000 South Koreans into the ranks of the American divisions.

Thus, he said, "we had to depend on men who had three weeks training or no training at all" and to the tune of about 36 per cent of division strength.

He said that when he took over last fall as secretary of Defense, these American units still were 20 per cent short in American manpower.

It was Marshall's second trip to the Capitol to urge universal military training and service. He already has urged it on the Senate Preparedness Subcommittee.

Praise For MacArthur
The Senate group, headed by Senator Lyndon Johnson (D-Texas), has had two weeks of hearings but was in recess Tuesday. Marshall was the first witness at the opening of House hearings.

The defense secretary indicated he felt MacArthur had performed quite an achievement in his swift buildup of the troops under him.

As the buildup went on in Korea, (Continued On Page 12)

Dallas Man Speaks At TIPRO Meeting In Midland Tuesday

R. L. (Bob) Force of Dallas was principal speaker at a meeting of members of the Texas Independent Producers & Royalty Owners Association here Tuesday.

The session followed a luncheon at the Midland Country Club. Force, an independent oil operator, is president of TIPRO.

He, and other speakers, discussed current problems of independent petroleum producers and royalty owners on state and national levels.

They told of the numerous problems of regulation, legislation and taxation which confront the industry, and detailed plans of the association in attempting to obtain satisfactory solutions.

More than 75 persons attended. Ralph U. Fitting, a vice president of TIPRO, and W. P. Z. German, Jr., member of the executive committee, both of Midland, were hosts for the luncheon, and were in charge of meeting arrangements.

Bert Fields and Jack Woodward of Dallas, and L. A. Douglas of San Antonio, officials of the association, also were present and took part on the program. Alvis Vanduygriff of Austin, general counsel and director of the membership department of the organization, also was present.

J. E. (Ed) Warren, Midland, president of the Independent Petroleum Association of America, made a short talk during the meeting.

Oil operators and royalty owners from Midland, Odessa, Big Spring, Lamesa, McCombs and other Permian Basin Empire communities were present.

Controls Program Advances

WASHINGTON—(AP)—The Senate Tuesday confirmed President Truman's nominations of Eric A. Johnston as economic stabilization administrator and William H. Harrison as defense production administrator.

WASHINGTON—(AP)—A stepped-up government program to combat inflation was drawing nearer Tuesday, awaiting elimination of several more or less technical obstacles to a freeze on prices and wages.

President Truman moved meanwhile in an effort to insure that the growing demands of the defense program will not siphon off critical materials to such an extent as to endanger the nation's economic growth.

He named William S. Paley, board chairman of the Columbia Broadcasting System, and four other men to make a study of long-term effects on "our essential needs for military security, civilian welfare and the continued economic growth of the United States."

Next Probable Steps
When the projected freeze on prices and wages and other anti-inflation moves would come hinged in large part on these still-to-come developments:

1. Senate confirmation of Eric Johnston as head of the Economic Stabilization Agency (ESA) to run the program.
2. An executive order from the President widely expected to give Johnston vastly expanded authority for the ESA over the nation's economy.

Johnston, on leave of absence as head of the Motion Picture Association of America, Monday received 9 to 0 approval of the Senate Banking Committee to be economic stabilizer. Senate confirmation, possibly Tuesday, was regarded as certain.

No Reason For Delay
Johnston told senators a definite date to slap on the general price-wage freeze had not yet been determined. He also said he sees no valid reason for putting off action any longer.

ESA officials went ahead with the administration's commitment to impose controls as soon as possible—perhaps this week.

The long-range study of the impact of the defense program on the nation's economy will be made by what Truman called a "materials policy commission." In addition to Paley, members are George Rufus Brown, Houston businessman; Eric Hodgins, author and editor of New Milford, Conn.; Arthur H. Bunker New York banker, and Edwards S. Mason, head of the Harvard University School of Economics.

Midland Discovery Reports 26 BOPH

After acidizing open hole in the Wolfcamp at Ralph Lowe No. 1 Hill, wildcat in Northwest-Central Midland County, operator swabbed out load and the well kicked off and flowed for 18 hours at the average rate of 26 barrels of oil per hour.

The section in the Wolfcamp from 9,440 to 9,850 feet was treated with 1,000 gallons of mud acid.

The prospector, which also proved for a discovery from the Dean sand, is shut-in preparatory to another acid treatment in open hole.

The prospector was drilled to the Ellenburger before plugging back to 9,850 feet. The Ellenburger made only water.

Location of the new field opener is 660 feet from north and 1,980 feet from east lines of the southeast quarter of section 30, block 39, T-2-S, T&P survey. That makes it five miles southwest of the City of Midland.

UN Sidetracks U. S. Aggression Charges Against China Reds

LAKE SUCCESS—(AP)—The United Nations sidetracked U. S. charges of Communist Chinese aggression Tuesday to study Peiping's statement that a Korean cease-fire could be arranged at the first meeting of a proposed conference on major Far Eastern problems.

Red China's "clarification" of its previous answer to the UN cease-fire call, read Monday night to the 60-nation Political Committee by India's Sir Benegal N. Rau, said:

1. A limited cease-fire can be agreed on at the first meeting of a seven-nation conference which then would proceed to consider the political problems of the Far East.
2. The problems would include steps for withdrawal of all foreign troops, including Chinese, from Korea and withdrawal of the U. S. Seventh Fleet from the Formosa Straits.
3. "The legitimate status of the People's Republic of China in the United Nations must be ensured."

West American Setback
Rau said he considered this new Red Chinese declaration, delivered to India's ambassador in Peiping, satisfied the American and UN demand for "cease-fire first, negotiations afterwards."

U. S. Delegate Warren R. Austin disagreed and termed it "a transparent effort to divide the free world and to x x x postpone, delay, procrastinate."

Many delegates regarded the 27 to 23 rejection of Austin's appeal for immediate action "the worst defeat the U. S. has suffered in the five-year history of the UN."

Adair Sentenced To Die February 27

DALLAS—(AP)—Fred Felix Adair, Jr., 25-year-old rapist, Tuesday was sentenced formally to die in the electric chair February 27.

Criminal District Court Judge Henry King read the death warrant.

The time set for his electrocution is two years and 17 days from the date of the criminal assault of a Dallas County housewife. Adair, indicted for a series of other night burglaries and "peeps," was convicted last March.

Bing Crosby Is A-Waitin' For Mary Martin's Return

By ERSKINE JOHNSON

HOLLYWOOD—Mary Martin is ready for that long-awaited movie comeback. She's advised Bing Crosby she'll be available in the fall—and he's telling Paramount they should do a movie together. Live television still isn't for Bing, who wailed:

★ THE DOCTOR SAYS ★

Constant Worry Only Tends To Keep Blood Pressure Up

By EDWIN F. JORDAN, M.D.
Written for NEA Service

Most people today are being bombarded constantly by worries and annoyances. Where will the money come from to pay the mortgage or taxes? Will we be hit by an atomic bomb? Has a loved son or daughter gotten into bad company? There is always something keeping us stirred up.

This added to the fact that more people are living longer has made high blood pressure a problem to more people than ever before. But a lot of people have only a vague idea about what the blood pressure is and what keeps it where it should be or makes it go up or down.

When water is run through a hose it presses on the inside of the hose. How hard it presses depends on how much water is going through it, the force of the stream at the entrance, the size of the hose, the size of the exit opening, the composition of the hose and other things.

It is much the same with the

blood pressure. The heart is the pump which forces the blood into the hose or blood vessels. When the heart contracts it pumps the blood into the arteries and at this time the pressure on the walls of the arteries goes up.

When the heart relaxes for a moment the pressure in the arteries drops. The high pressure point is called the systolic pressure, and the low point the diastolic. These are the two figures which the doctor takes and expresses such as 120 over 80.

But just like water running through the hose it isn't only the force with which blood enters the arteries that influences the blood pressure. If the arteries are narrowed—and this can be the result of hardening from deposits or from contractions caused by nervousness—the pressure will be higher than if they were nice and relaxed.

Nerves Responsible

One of the most remarkable things about the blood pressure is how it is affected by the nerves. Excitement, worry, anger, and other emotions send the pressure skyrocketing.

The pressure is almost always higher the first time the doctor takes it than it is later on. Even an exciting conversation will cause the pressure to go up. Undoubtedly worrying about high blood pressure is bad and tends to keep it high.

Distinguished Heroes

What strange spark makes a man a hero in battle? Perhaps it's something that really defies definition. Maybe we shouldn't try, but should instead just be grateful that we have heroes.

All of these men performed acts of bravery above and beyond the call of duty. In almost every case, their courage saved the lives of other men, who went on to fight and still may be fighting.

Let's look at just one of these heroes, to sample the true quality of heroism under fire. We'll take Brown, who happens to be lowest in rank. A member of an engineers' combat battalion, he distinguished himself while his outfit was engaged with the North Koreans near Kasan last September 4.

The Reds counter-attacked as his platoon was attempting to secure what was known simply as Hill 755. Brown's citation reads:

"Taking a position on a 50-foot-high wall, he delivered heavy rifle fire on the enemy. His ammunition soon was expended and, although wounded, he remained at his post and threw his few grenades at the attackers.

"The attackers continued to assault his position and Private Brown, weaponless, drew his trenching tool from his pack and calmly waited until they, one by one, peered over the wall—delivering each a crushing blow upon the head. Knocking 10 or 12 enemy from the wall, his daring action so inspired his platoon that they repelled the attack and held their position."

Of such stuff is the defense of liberty made. Private Brown may never again walk the streets of Mahaffey, Pa. But wherever freedom is enshrined, his memory will reside for all time.

Selling At Cost

In these times of ever-soaring prices it is rather remarkable to discover one extremely low-priced commodity whose cost has not advanced even a fraction of a cent all during this period of growing inflation.

Drew Pearson says: Small towns are the foundation of America; Perhaps my police records burned with the old Town Hall; We should not concentrate too much power in Washington.

streamlined nation is to concentrate too much power in Washington. Most people blame Washington for this, though actually part of the blame belongs at home. For, when some towns can't or do not raise enough taxes to build new schoolhouses or pay their teachers, then they come to Washington for federal aid to education.

What Truman Said in Message Would Mean War in Bygone Era

WASHINGTON (NEA)—President Truman's State of the Union message, officially branding Soviet Russia as an aggressor for the first time, was long and carefully prepared. It also was a subject for much debate among White House advisers.

So They Say

In this worldwide battle for the control of the minds of men, we must depend upon our teachers just as much as our fighting men.
The nation most vulnerable to the use of atomic bombs is the United States because of our concentration of producer facilities in a relatively few major cities.

Questions and Answers

Q—What was the purpose of the Boxer Rebellion?
A—The Boxer uprising was one of religious fanaticism among the Chinese peasantry. Its object was to drive the foreigners out.
Q—Why are pearls traditionally associated with brides?
A—Hindu legends say the god Krishna took the pearl from the depths of the sea to adorn his daughter on her wedding day.

Four Youths Shoot Down Two Rookie Dallas Policemen

DALLAS—(AP)—Scores of officers prowled Dallas streets and the surrounding country Tuesday looking for four rough-looking young gunmen who shot down two rookie policemen.

Patrolman Johnnie Sides, 21, was wounded critically in the stomach, and Patrolman H. L. Dawson, 31, was shot in the wrist after they stopped a car in South Dallas Monday night for running a red light. The gunmen were in a 1950, blue Oldsmobile with an Oklahoma license plate.

Dawson, an officer for less than a year, said he and Sides, an officer only six weeks, stopped the car. "I told two of them to get out and started to search them," Dawson said from his hospital bed. "Johnnie was on the other side opening the door. I said, 'Look out, they've got a rifle on the back seat.' Then the guy on Johnnie's side started shooting a pistol."

Dawson ran to the parked patrol car and radioed for help. The four men raced away.

Midland Sergeant Calls Mother After Flight From Korea

A Midland mother, Mrs. George A. Streeter, 709 North D Street, is beside herself with happiness.

Monday night she received a long distance telephone call from her son, S. Sgt. Bert A. Streeter, who earlier in the day landed at a West Coast airfield after a flight from Korea.

Sergeant Streeter, who was injured in action while serving as a B-29 aerial gunner over Korea last October, advised his mother he is driving to Midland and should arrive here early next week. He returned to action following his release from a Tokyo Army hospital several weeks ago. "I always have been a firm believer in prayer, but more so now than ever before," Mrs. Streeter said.

Ground Losses Cited As Cause Of Step-Up In Red Air Activities

WASHINGTON—(AP)—The Air Force Tuesday speculated that the Chinese Communists are sending greater number of planes into the air over Korea because they "have been hurt on the ground."

That was an Air Force spokesman's explanation for the big turnout of 18 to 22 Russian-built jet planes which clashed with American fighters in the biggest jet battle of the Korean war.

"We have every reason to believe that the Reds have been hurt on the ground," the spokesman told reporters, "and that they may have decided they should use everything they have got to sustain themselves."

Saunders Named To State Welfare Board

Lawrence Winters, Ellabelle Davis To Give Joint Concert

The Midland Civic Music Association will present Ellabelle Davis, negro soprano, and Lawrence Winters, negro baritone, in a joint concert at 8 p.m. Wednesday in the high school auditorium.

During the past two seasons Miss Davis chalked up a record number of 20 appearances as soloist with eight of the country's outstanding orchestras.

Leading off her first season as an orchestral soloist, Miss Davis gave two performances with the Philadelphia Orchestra. She gave

eight concerts and a coast-to-coast broadcast with the Boston Symphony.

Other recent American orchestral appearances by Miss Davis were with the Minneapolis Symphony, the Indianapolis Symphony, the Chicago Women's Orchestra, the Denver Symphony and the Erie Philharmonic.

During her recent European tour she appeared at the Scheveningen Festivals in Holland.

Lawrence Winters, baritone of the New York City Opera, made his European debut last Spring, singing 25 concerts in nine countries.

The baritone will fill concert engagements until April when he will be back at the City Center for the annual Spring opera season. After his final performance there, he will fly to Italy where he is scheduled to begin his second continental tour.

On his return to Europe Winters has been invited to appear in opera as well as concert.

Winters has been featured in leading baritone roles in such operas as "Carmen," "Pagliacci," "Love of Three Oranges" and "Turandot."

Theater Plans Annual Meeting

The Midland Community Theater will have its fifth annual meeting at 7 p.m. Tuesday in the City-County Auditorium.

A joint program of the Community Theater and the Midland Music Club will be given. All members of both organizations are invited. The program will include skits, songs and dance numbers.

A buffet dinner and a short business meeting will be held before the dinner.

During the business meeting five persons are to be elected to the board of governors for two-year terms. The members also will vote an amendment to the by-laws.

Bread Prices Rise In Many Texas Cities

By The Associated Press Bakers and grocers Tuesday blamed higher bread prices in many Texas cities on increased costs of ingredients, especially shortening.

Bread prices jumped two cents a loaf in Amarillo Monday but in most other places the increase was only one cent.

Cities where bread is up a penny include Marshall, Fort Worth, Corsicana, Dallas, Wichita Falls, Waco, Sherman, Tyler, San Angelo and Abilene.

Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B1, B2, Niacin and Iron.

Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at night. I could not keep food on my stomach, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at night. Thanks to HADACOL. I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

DADDY RINGTAIL

Daddy Ringtail And Across The Floor

Daddy Ringtail, your monkey friend, at first could not go to sleep. Oh, he was safe and warm in his own bed at the monkey house, but he kept wondering about the mystery of the little chicken inside the bottle which was too small for the little chicken to go in. How oh how had the chicken got inside? Well, the chicken was only a chicken; he couldn't tell how he ever got inside, and so everyone was wondering.

Yes, Daddy Ringtail at first couldn't go to sleep because he was so busy with doing the wondering. But then he decided to wait until morning to do the wondering, and the next minute he was sound asleep.

I don't know how long he slept,

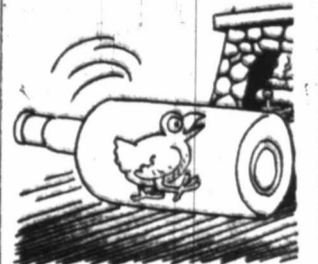

but a noise woke him up. He opened his eyes and sat up in bed to listen. What a peculiar noise it was! What or what could it be? Why, it sounded like the pitter and patter of little feet once more, and what do you think he saw? Why, there was the little chicken who seemed to be carrying the bottle across the floor to be warmer by the fireplace.

Daddy Ringtail jumped out of bed and ran to see for sure, but when he got to the fireplace where the bottle was—the chicken was sitting there inside.

Daddy Ringtail carried it back and put it down by his bed again, and again Daddy Ringtail heard the pitter and patter of little feet. Again it seemed that the little chicken was carrying the bottle on his shoulders across the floor to be warmer by the fireplace.

Really, though, it wasn't what it seemed. Daddy Ringtail was awake enough to see that the little chicken had never come out of the bottle. Oh no! He was walking up the side of the bottle there inside it—all to make the bottle roll across enough to see that the little chicken was wanting to be snug and warm there closer to the fireplace, and so Daddy Ringtail let him sleep there all night. Happy day!

(Copyright 1951, General Features Corp.)

There! He heard the noise of little feet across the floor, but all the folks were sound asleep in their beds—all the folks except Daddy Ringtail, I mean. He looked about him in the moonlight.

Malaya Production At All-Time Record
KUALA LUMPUR (AP)—Production in Malaya is at a new all-time record. The value of principal agricultural and mining products the first 10 months of 1950 reached \$1,650,299,000.

Rubber production alone in the period from January to Nov. 1, 1950, reached 633,874 tons, valued at \$1,220,983,070. This represents more than double the value of all rubber produced in 1949. Tin production the first 10 months of 1950 was reported at 82,598 tons with a value of \$322,764,000.

Palm oil totalling \$1,560 tons was produced during this period valued at \$32,164,000. The total 1949 output was \$2,100 tons valued at \$36,127,000.

Karen Nelson Called To Face Cuban Trial In Husband's Slaying

SANTIAGO, CUBA —(AP)— A 26-year-old American woman was called to trial Tuesday in a tiny, poorly furnished courtroom, charged with murder in the pistol-death of her cane planter husband.

The case is one of the strangest in Cuban judicial history.

Cuban newspapers support the denial of Mrs. Karen Olsen Nelson, her husband's father and their Cuban and American friends that she and two plantation employees killed her husband, Alvar, 31, on Dec. 1, 1949, to collect \$30,000 in insurance.

The death was called accidental at the time by police investigators.

Mrs. Nelson, a Utica, Mich., girl, and the two employees were arrested three months later and charged with the shooting.

Adding to the strangeness of the case was the release of Karen and the two other defendants on bond last June without objection from the prosecutor. In Cuba persons accused of murder automatically are denied bond and the accused is considered guilty until proved innocent.

Hendricks Tells Of Experiences With Russians In Orient

An interesting report on conditions in Japan, Korea and Manchuria and of the actions of Russians in those countries was given those who attended the monthly dinner meeting of the Permian Basin Landmen's Association Monday night in Midland.

Thomas A. Hendricks was the reporter. He is now superintendent of exploration for the Permian Basin district of Standard Oil & Gas Company, with headquarters in this city.

He told of experiences in those countries during 1945 and 1946. He served as chief of the mining and geology division of the natural resources section of the Supreme Command Allied Headquarters in Japan most of that time.

Member Of Pauley Mission

He was also a member of the Pauley Reparation Mission which made survey of Korea and Manchuria during 1945.

Hendricks used colored slides to illustrate his lecture.

He had a considerable contact with Russian officers and soldiers in Korea and Manchuria while with the Pauley mission and he told of some of his impressions of those people.

More than 75 persons attended the session which was held in the Crystal Ballroom of Hotel Scharbauer.

Allen J. Watts, president of the association presided at the Monday night meeting.

He announced that John Ben Shepperd, secretary of state of Texas would address the organization at a dinner meeting on February 26.

HEADS WEST POINT—The new superintendent of the U. S. Military Academy at West Point, N. Y., is Maj.-Gen. Frederick A. Irving, above, formerly deputy commander of the Sixth Army in San Francisco. Gen. Irving succeeds Maj.-Gen. Bryant E. Moore, who will command the newly-reactivated Seventh Corps.

Total Casualties In Volcanic Explosions May Mount To 4,000

SYDNEY, AUSTRALIA—(AP)—Australian officials said Tuesday weekend volcanic explosions in New Guinea's "extinct" Mount Lamington may have caused the century's worst disaster in this section of the globe.

One Australian official directing rescue work estimated the toll of dead and injured New Guineans at 4,000. Other Port Moresby predicted many of those would later emerge from the jungle into which fright may have driven them.

At least one European was killed and 34 others—traders, missionaries and government officials—were missing following eruptions which, since last Thursday, have blasted into dust part of the four-peaked mountain 190 miles north-east of Port Moresby.

'Atom Bomb' Effect

The eruptions produced an "atom bomb" effect, one eyewitness said, and layers of volcanic ash hampered efforts of rescue workers to reach the scene. Airline pilots said an ash cloud 100 miles in diameter flattened out at 40,000 feet. Ashes sifted one inch deep on the streets of Port Moresby.

Lamington began to erupt Thursday. Six major blasts were reported between then and Monday.

Ivan Champion, director of district services in New Guinea, who estimated the 4,000 casualties, said the entire northern face of the mountain was blown away. Though steam and smoke still were pouring from the gaping hole Tuesday, he reported he believed the volcano was cooling off.

Texas Boost Hikes U. S. Crude Output To New High Mark

TULSA, OKLA.—(AP)— Primarily the result of a big Texas jump, the nation's daily averaged crude oil production increased 281,750 barrels during the week ended January 20, to 5,962,000 barrels. The Oil and Gas Journal reported Tuesday.

It was a new all-time average, and The Journal said it stemmed from adjustments made necessary by upward revisions in Texas' allowable for this month. Of the gain, 268,325 barrels were in Texas fields.

Kansas also has a healthy upturn, increasing 20,000 barrels to 316,700.

Other gains were in the Eastern area, up 1,800 barrels to 60,750 barrels; Oklahoma, up 1,300 barrels to 464,900; Wyoming 1,200 to 181,000.

Largest losses were in Arkansas, down 2,500 barrels to 79,500; Colorado, off 2,500 to 73,100, and Mississippi, 2,150 to 98,950.

Midland Shrine Club Will Elect Officers Friday

Officers and directors of the Midland Shrine Club for 1951 will be elected at its annual business meeting scheduled at 7:30 p.m. Friday in the KCRS studio, Secretary R. H. Gifford announced Tuesday.

All Midland Shriners are invited and urged to attend the session, Gifford said.

A. A. Jones is president of the club; James Mims is treasurer, and Lester Short, vice president.

Directors include James N. Allison, Bert Goodman, Otis Kelly, Ed Edwards, W. D. Lane, Robert Payne, Dr. Henry Schlichting, W. W. Wilson, Allen J. Watts, H. N. Phillips, J. Paul McHargue and Larry Burnside.

Mrs. Kuykendall's Rites Conducted

Funeral services were to be held at 2:30 p.m. Tuesday in the Newbie W. Ellis Chapel for Mrs. S. D. Kuykendall, who died early Sunday in an Adline hospital. Interment will be in Fairview Cemetery.

Mrs. Kuykendall, a resident of Midland in 1946 and 1947, was born in Williamson County in 1884. She was married to Kuykendall in 1902, and for many years they lived in Coleman County. They had lived in Clyde the last two years.

Survivors include the husband, two sons, a brother, five half brothers, a sister, the foster mother and three grandchildren.

Eisenhower In Paris, To Return Home Soon

PARIS —(AP)— Gen. Dwight D. Eisenhower arrived here from Germany Tuesday, homeward bound after speedy stops in 10 European nations from which he hopes to draw the bulk of his Atlantic Pact Army to defend Western Europe against Soviet communism.

Fog over Paris' Orly Field kept the general's plane circling some 45 minutes before it was able to land.

After two days at the French capital, Eisenhower leaves Thursday by air for Iceland and Canada—the only two Atlantic Pact signers he still must visit—and Washington.

DAVIS OF FORT WORTH BUYS UNIT RIG OF TULSA

TULSA —(AP)— The Unit Rig & Equipment Company of Tulsa, designers and manufacturers of oil field equipment and ditching machines, has been sold to Ken W. Davis, Fort Worth. It was disclosed Monday.

The purchase price was reported close to \$2,000,000.

Midland Planing Mill Meets Most Exact Requirements

The Midland Planing Mill, located at 415 South Baird Street, prides itself in following specifications to the letter in all its work and on that job which requires strict attention to detail you will find it makes every effort to meet the most exact requirements.

F. L. Key is the owner of the Midland Planing Mill. Other personnel, all highly qualified and with years of experience in mill work, are Gilbert Thompson, K. I. Sharp, Jim Johnson and Mike Garrao.

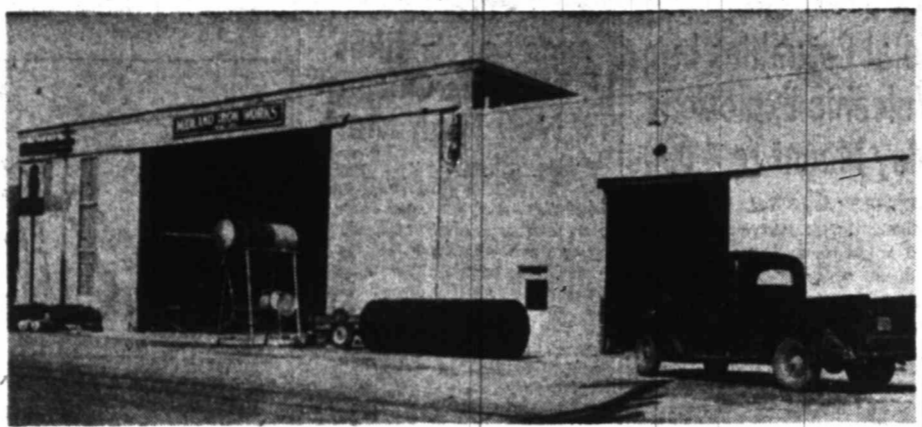

The shop is equipped with the most up-to-date equipment, which means that your job will be turned out in the quickest possible time and with the finest results obtainable.

Fine Mill Work
The concern has been performing fine mill work for Midlanders since 1947. It has turned out many large fixture jobs for business houses in addition to cabinets, built-ins and other fine work in many Midland residences.

General mill work is a specialty. You are invited to telephone for free estimates. The number is 2930. You also are invited to come in and look over the equipment and talk over your needs with the management at any time.

The Midland Planing Mill always is alert to keep up with new methods and that is the reason many persons go there first with their jobs which require special skill and attention to detail.

The United States reported 97.3 per cent of its population literate during 1949, according to the Encyclopedia Britannica.

WIDE VARIETY OF SERVICES—Ornamental steel for any purpose is designed and made by the Midland Iron Works, 900 North West Front Street. Western Appliance Company Features Dialmatic Washer

If you haven't seen the Bendix Economat Dialmatic washer, then the chances are great there are developments in automatic washing machines you do not know about.

The Dialmatic has everything you expect in an agitator washer except the hard work. It washes, rinses and squeeze-dries. You are invited by the Western Appliance Company, 210 North Colorado Street, to come in and inspect this machine and arrange for a demonstration.

Western Appliance Company handles leading lines of electrical and gas appliances, Jacuzzi and Myers water systems and operates a butane gas service.

Among the more popular kitchen appliances handled by the concern are Magic Chef and Estate gas ranges and Servel refrigerators. Besides Bendix washers, driers and ironers are carried in stock by Western Appliance Company.

The telephone number is 3035. An invitation is extended to Midlanders and area residents to visit the store and inspect the features of the new Magic Chef range. The new series is built and styled like the more expensive models, with many special Magic Chef exclusive cooking features.

In choosing a washer, the management refers its patrons to a new service to eliminate all guesswork. This is the unique washday analyzer which helps to decide which washer best suits the needs of the family.

Ants May Be Used To Stop Termites

SYDNEY—(AP)—Ants could be used to control termites, says Dr. William Brown, an entomologist who is visiting Australia on a traveling fellowship from Harvard University.

Dr. Brown said here as far as he knows there is no research being done on the possibility of using ants to control termites. Biologically, he said, ants are their main enemies.

Dr. Brown is studying obscure groups of ants in Australia on his fellowship.

A complete line of smaller household appliances also is available at the Western Appliance Company.

Finest Builder's Hardware Stocked By Velvin Company

Velvin builder's hardware, recognized by thousands of discriminating home owners all over the U. S. as the maximum in fine taste and splendid service, is carried in stock by the J. C. Velvin Lumber Company, 204 North Fort Worth Street.

Hand-wrought rustic hardware by McKinney is another exclusive item carried by the Velvin firm, which was founded in 1937.

Whether you are in need of materials to do your own construction or repair work around the place, or desire to contract for a building, the J. C. Velvin company can fill the bill.

The concern has had a large part in constructing Midland's finest residences and has supplied materials and plans for many other homes in all sections of the city.

Air Conditioners Stocked
In addition to a complete line of building materials, the Velvin Company carries Payne air conditioners. These air conditioners are of the portable type, oscillating, and equipped with tank and pump. You are invited to come in and look these over before making definite plans for air conditioner installation this Spring.

Du Pont paints for every purpose are obtainable at Velvin's and information is given gladly on color schemes for the home.

The concern has a complete line of the finest building materials and is prepared to fill any need, regardless of size.

Building, designing and supplying of lumber and other materials is the three-fold service offered by Velvin's.

The firm, founded in 1937, first was known as the Velvin-Strauch Lumber Company. Velvin acquired sole interest in 1939.

Kentucky Regains Top In Cage Poll; Iba's Quint Third

NEW YORK (AP)—Kentucky reclaimed the top position in the national college basketball rankings Tuesday, barely beating out undefeated Long Island University in the sixth Associated Press poll.

The Wildcats from Lexington, Ky., succeeded Hank Iba's Oklahoma A&M, which fell to third after having its 116-game winning streak snapped 44-40 by Oklahoma Saturday night.

It is the third time out front this season for Adolph Rupp's towering athletes, who led the poll the first two weeks before they were bumped by St. Louis in the Sugar Bowl.

The 222 sports writers and broadcasters who participated in the latest ballot failed to shake anybody out of the first ten although the order of the top drawer quintets was scrambled thoroughly.

Columbia, which shares with LIU the only perfect major record in the country, held fast to seventh. All other teams moved up or back a notch or two.

After Kentucky, LIU and Oklahoma A&M came this order: Bradley, Indiana, St. Johns, Columbia, North Carolina State, Kansas State and St. Louis.

LIU Faces Stiff Tests
Kentucky drew 64 first place votes and a total of 1,788 points. LIU, with 15 straight victories, polled 62 first place votes and 1,643 points—only 143 less than the leaders.

The Long Islanders get their severest test of the year in the next two weeks on an ambitious Western swing. They play San Francisco Friday and California Saturday in the San Francisco Cow Palace, then meet Arizona, Kansas State and St. Louis next week on the way back.

Kentucky, meanwhile, will try for its fourteenth victory in 15 games against Vanderbilt Saturday at Kentucky.

The second and third-place teams—Oklahoma A&M and Bradley—tangle Friday night at Peoria, Ill. The Aggies received 1,434 points in the latest poll and Bradley, twice beaten, collected 1,124.

Indiana, with 1,076 points, was the only other team to top 1,000. The changes from last week in the top ten: Kentucky moved from second to first and LIU from fourth to second as the Aggies dropped two notches. Bradley fell a peg to fourth. Indiana and St. Johns changed places. St. Louis dropped from eighth to ninth. Kansas State moved from ninth. Kansas State jumped from tenth to ninth.

Here are the leading teams with season records in parentheses (point totals figured on the basis of ten for a first place vote, nine for second, etc.):

THE FIRST TEN

1—Kentucky (13-1)	1,788
2—Long Island U. (15-0)	1,643
3—Oklahoma A&M (19-1)	1,434
4—Bradley (18-2)	1,124
5—Indiana (12-1)	1,076
6—St. Johns (12-2)	864
7—Columbia (12-0)	861
8—N. Car. State (17-2)	572
9—Kansas State (12-2)	481
10—St. Louis (13-4)	308

THE SECOND TEN

11—Villanova (13-1)	266
12—Southern Cal. (14-2)	185
13—Siena (13-1)	150
14—Arizona (13-2)	110
15—Cincinnati (10-3)	109
16—Illinois (11-3)	99
17—LaSalle (12-3)	86
18—Oklahoma (9-5)	81
19—Brigham Young (14-4)	54
20—Wyoming (15-4)	48

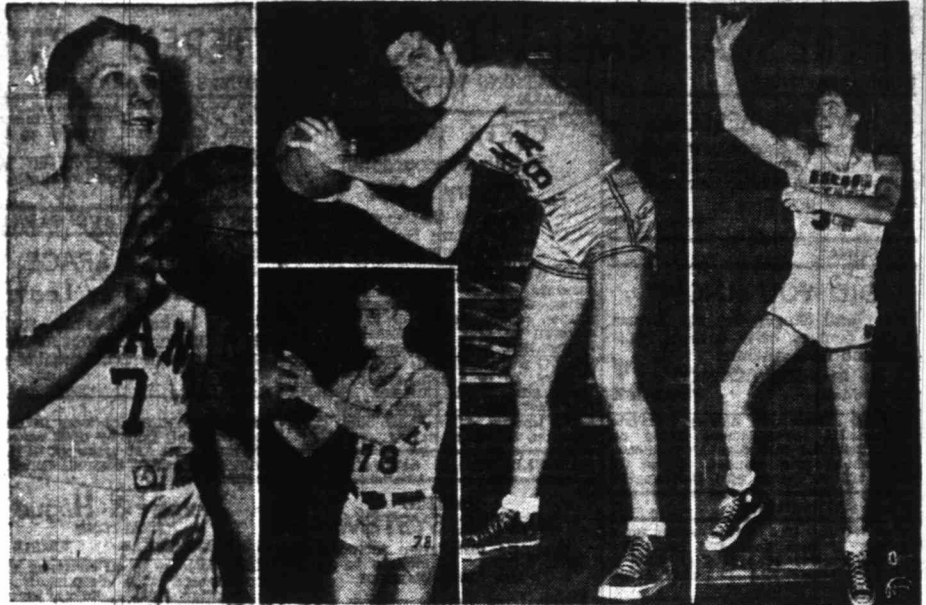

Others receiving votes were: Princeton, Washington, DePaul, Dayton, Texas, Louisville, Virginia Tech, Hamline, St. Bonaventure, Seattle, Pennsylvania, UCLA, Duquesne, Duke, West Virginia, South Carolina, Kansas, Notre Dame, Syracuse, Vanderbilt, Western Kentucky, Evansville, Canisius, Toledo, Stanford, Colgate, Michigan State, Beloit, Eastern (Ky) State, Murray (Ky) State.

Greatest purse to a winning horse in New York during 1950 was in the Belmont Futurity, won by George D. Widener's Battlefield. The colt earned \$81,715 by beating Big Stretch.

Officers Club Sets Annual Meet
The annual meeting of members of the Midland Officers Club will be held at 4:30 p.m. Sunday, February 4, in the clubhouse. Officials announced Tuesday. Officers for 1961 will be installed at the session. Ballots listing the names of officer nominees have been mailed to all members. The nominees are H. W. Mathews, president; J. V. Lindsey, vice president; and Walter Beardsley, secretary-treasurer. Blank spaces are provided for write-ins. Marked ballots should be returned not later than January 28.

HISTORIC RINGS
Tree rings tell not merely the tree's age, but the history of droughts, periods of excessive rain-falls, and other factors affecting a tree's health.

Weight of paper used in the production of U. S. currency during 1950 totaled 1,793 tons. Ink used weighed 1,388 tons.

SECTIONAL STARS—Indiana is the pick in the Big Ten and guard Gene Ring, left, is no small part of the reason. North Carolina State's Vic Bubas, inset, does a fine defensive job, relieves Sam Ranzino of some of the shooting. Iowa's Jim Lyons, center, may not make All-America, but he's one of the better pivot men yet seen around New Rochelle, N. Y. Jim Sugrue is at least one bright spot in Coach Slat's murky outlook at Oregon State.

Texas Falls Behind In Baseball Outfits

DALLAS (AP)—Texans will be quite crestfallen to learn their state no longer is the leader in number of professional baseball clubs.

In 1950 Texas set the all-time record of 47 clubs. But since last season things have gone badly. The Lone Star State will come up with not more than 39 and probably will have to be content with 32.

North Carolina already has 41 clubs lined up to return to the leadership it knew until Texas knocked it down last year.

Consolidations and general conditions are to blame for Texas' downfall.

The Rio Grande Valley League has broken up with four of its members—Brownsville, Harlingen, Laredo and Corpus Christi—entering the Gulf Coast League. Texas City is a new member of the latter circuit while Galveston and Port Arthur return. Lake Charles, La., is the eighth member.

The East Texas League probably won't operate this year. Only two clubs definitely are ready to go, three others are in the "maybe" class and two others can't make up their minds.

Arizona-Texas Totters
The Arizona-Texas League, of which El Paso is a member, also is tottering. El Paso and Tucson, Phoenix and Bisbee-Douglas, Ariz., are ready to go but Juarez, Mexico, is expected to drop out and Globe-Miami, Ariz., is considered out definitely.

The West Texas-New Mexico League, with six Texas members; the Texas League with five; the Longhorn League with six, and the Big State League with eight will operate. The latter league has seven clubs ready and can get another. Tyler is seeking to replace Greenburg, whose franchise was turned back. Longview also is a possibility.

North Carolina has eight clubs in each the Western Carolina, North State, Tobacco State and Coastal Plain leagues; seven in the Carolina, and two in the Tri-State. The Virginia League, with one North Carolina club, and the Blue Ridge, with two, may not operate this season.

Clubs in the Longhorn League are: San Angelo, Big Spring, Midland, Odessa, Vernon and Sweetwater, Texas, and Roswell and Artesia, N. M.

The West Texas-New Mexico League is made up of Borger, Pampa, Amarillo, Lamesa, Lubbock and Abilene, Texas, and Albuquerque and Clovis, N. M.

The Texas League is composed of Houston, Dallas, Fort Worth, San Antonio and Beaumont, Texas; Tulsa and Oklahoma City, Okla., and Shreveport, La.

In the Big State League are Austin, Temple, Texarkana, Wichita Falls, Gainesville, Waco and Sherman-Denison.

Al (Red) Schoendienst, St. Louis Card second baseman, went to bat the most times, 642, during the 1959 National League season. He also made the most doubles, 43, and sacrificed the most times, 18.

Funderburk Signs As SA Colt Manager

SAN ANGELO—Dutch Funderburk, who joined the San Angelo Colts near mid-season in 1950, has signed a contract as manager of the Colts for 1961.

Funderburk will be an active player-manager. A catcher who has hit above .300 almost every season since he broke into professional baseball in 1928, Funderburk managed the Ballinger club in 1949. He succeeds Jimmy McClure, who managed the Colts in 1960.

Tech Continues Coach Interviews

LUBBOCK (AP)—At least one more candidate for the head coaching job at Texas Tech is expected to visit Lubbock this week. College officials refused to reveal his name.

Monday, Abe Martin, assistant football coach at Texas Christian University, was interviewed by the Athletic Council and Dr. D. M. Wiggins, Tech president.

Earlier, University of Texas Backfield Coach Eck Curtis talked with the selection group.

Flying Sisters To Play Garden City

The Midland Flying Sisters will take on a few five from Garden City Tuesday night in the John M. Cowden Junior High School gym.

The clash gets underway at 8:15 p.m. Slated to start for the Flying Sisters are Bobby DeLap, Rosie Hart and Edith Campbell at forwards and Eloise Graham, Frankie Schulte and Joyce Beasley at guards.

The San Angelo Red Chicks defeated the Midland maids in their only start of the season 28-24.

Horned Frog Cagers Snap Lackland String

FORT WORTH (AP)—Texas Christian University scored a 54-44 basketball win over Lackland Air Force Base here Monday night breaking up a string of 21 straight victories.

The Lackland Warhawks whipped back from an early nine-point deficit to deadlock the Frogs 32-32 at halftime. TCU limited Lackland to two field goals and eight free throws in the last half while pulling away with the sharpshooting of Harvey Promme and George McLeod, who shared high point honors with 16 each.

Lawson Robertson, 'Mr. Track,' Succumbs

PHILADELPHIA (AP)—Lawson N. Robertson, "Mr. Track" of the first half of this century, died Monday night at the age of 67.

"Robbie," as he was known affectionately the world over, was track and field coach at the University of Pennsylvania from 1916 to 1947.

He competed or coached in every Olympic game from 1904 until his retirement from the sport because of failing health at the end of the 1947 season.

Dr. Cary Middlecoff Banks \$2,000 First Money in Lakewood

LONG BEACH, CALIF. (AP)—Dr. Cary Middlecoff may have been right when he decided a couple of years ago he could make as much money playing golf as pulling teeth. And he was.

The Memphis dentist banked another \$2,000 Tuesday, first prize in the Lakewood Park Open Golf Tournament. In three tournaments since the first of the year, his earnings have topped \$4,500. He won \$18,200 last year.

Aside from the steady way in which Middlecoff disposed of his competition in the final day, the \$10,000 Lakewood event was notable chiefly for introducing some new names to the golfing public. For example:

Manuel de la Torre, a Spaniard from Milwaukee, who finished with 274, three strokes behind Middlecoff, to take \$1,400 second money.

Jimmy Clark of nearby Laguna Beach and Dick Mayer of St. Petersburg, Fla., who came in at 275.

And Julius Boros of Mid Pine, N. C., making the big time swing for the first time, who was on top for three days but slipped badly at the end.

Middlecoff turned in 70-64-69-68 for the four days. De la Torre carded 70-67-70-67. Clark had the final round's lowest score, a 64, for his 275.

Clark and Mayer tied for third with Jimmy Thomson, the long distance swinger from New York, who hasn't been much in the money in recent years, and the sober Henry Ransom of St. Andrews, Ill.

With Boros at 276 were Art Doering of Richmond, Va., El Oliver of Seattle and Jim Ferrier of San Francisco.

Bobcats, Bulldogs To Tangle Tuesday

San Angelo's potent and high scoring basketball team faces the Midland Bulldogs in a non-conference clash Tuesday night in the Midland High School gym. It will be a rematch of the two teams. San Angelo bumped the Bulldogs 54-37 in the Bobcat hardwood two weeks ago.

The Bobcat team has compiled a record of 11 wins and seven losses. Featuring point-producing Jimmy McGill at center, a six-foot, six-inch letterman, the team has two victories over Big Spring and one over Lamesa in invading 3-AA cage territory. However, the Bobcats have dropped a pair to Odessa and one to Lamesa.

Midland lost to Lubbock last Friday 55-32 to sink to the bottom of the 3-AA standings. The Bulldogs have won three times, taking Crane 21-19, Pecos 38-29 and Brownfield 38-34. They have dropped 10 contests.

Irish Hold Jink Over Methodists
DALLAS (AP)—Southern Methodist, it seems, just can't beat Notre Dame.

The Fighting Irish have defeated SMU every time they've played football and now, says Coach H. N. Russell:

"Notre Dame was voted No. 1 flop of the year and we were No. 6. We just can't get ahead of them."

Russell made the remark in a speech before the Highland Park Quarterback Club Monday night.

Coaches Irked At Proposed IL Limit On Gifts By Fans

BEAUMONT (AP)—Grady Hester, president of the Texas High School Coaches Association, said Tuesday professional pride was the stimulus behind the coaches' opposition to the proposed Texas Interscholastic League rule banning gifts from the fans.

Under the proposal now being studied by the league Executive Committee, a coach could not accept gifts valued at more than \$100. If he did so his school would be liable to suspension.

"We feel that some of the implications behind the rule are a slap at the integrity of our profession," Hester said.

He was referring to the argument some proponents of the rule were using that if the coach accepted a gift from downtown admirers that he might feel his first loyalty to them rather than his administrative superiors and the school board.

"Such statements carry the thinly-veiled implications that we are susceptible to bribery, and we don't appreciate it," said the association's elected leader.

He further declared that the practice of rewarding meritorious service "is the very basis of our free enterprise system, and that since we are now fighting a war outside our borders to preserve that system that it might be well to do something about preserving it at home."

Two Fort Worth Champions Repeat In Golden Gloves

FORT WORTH (AP)—Welterweight Frank Dunnagan and lightweight Clyde Daniels repeated as regional champions here Monday night in the Fort Worth Golden Gloves finals.

Heavyweight Andy Eagleton, last year's titlist, was unseated by Sgt. Hugh Garland of Carswell Air Force Base.

Other winners were: Flyweight Sterling Pruitt, bantam Horace Hooper, featherweight Raymond Riojas, middleweight Marvin Sullivan and light heavy Grayford Campbell.

The Fort Worth champions will fight here in the state meet February 14-19.

Navy Will Destroy Atom-Torn Carrier With Secret Weapon

SAN FRANCISCO (AP)—The atom-bombed carrier Independence is going to be blasted to Davy Jones. The Navy says this World War II hero no longer is of any value—even as an experimental laboratory for radiologists.

Only the hull remains of the 10,000-ton carrier whose planes destroyed more than 100 Japanese aircraft and at least one ship, the cruiser Oyodo.

The atom bomb, scientists and engineers have blasted and stripped the Mighty I of every usable object.

Her flight and hangar decks and hull above the water line are hole-pocked and battered—chiefly by the 1946 atom bombing at Bikini.

Her main power plant was sent to the Navy's rocket experiment project at Point Magu, Calif.

Details Are Secret

The Mighty I's death will be as explosive as her life through the war and Bikini.

Her death date and grave and means of destruction are Navy top secrets—on orders from CNO—Chief of Naval Operations. Adm. Forrest P. Sherman, Washington.

"We're not out for publicity," explained an officer.

But the date probably will be early to mid-February. The place: Perhaps 500 miles at sea—far enough outside San Francisco's Golden Gate to avoid snoopers and outside of shipping lanes.

The method: "Some weapon" placed aboard presumably on the hangar or flight deck. It will not be atomic. It has been used before. It would be identifiable readily from pictures, even long range shots, if enlarged.

Camera men and newsmen will not be permitted to witness the sinking.

A few top Navy men and scientists will, from a nearby ship. They want to learn the effectiveness of the weapon, presumably a recent development.

Andrews News

ANDREWS—Funeral services were held recently for Dennis Edwin Willett, infant son of Mr. and Mrs. James Willett. Interment was at Headley, Texas.

Barbara Mosely and Sarah Jackson were injured in an automobile accident recently. Carol Ann Farris, driver of the car, was not injured. Connie Pruett, daughter of Mr. and Mrs. Dick Pruett, has been elected majorette of the Andrews High School Band. She replaces Dorothy DeWolf.

The Andrews Rebekah Lodge will sponsor an amateur show in the high school auditorium February 17. Billy D. Cox and Jimmie Lindville volunteered recently for active duty in the armed forces.

Virgil Reed, superintendent of the Andrews County Hospital, was chosen vice president of the Central Permian Basin Area Hospital Council at a recent meeting in Midland.

Marshall—

(Continued From Page One)
Marshall said, it also was necessary to build up ranks in this country as existing forces were being stripped to supply MacArthur.

He recalled that after the draft was resumed the first draftees began reaching the Army in September, and said the first "normal graduates of basic training" would come out in January.

Marshall then gave these figures as the produce of normal basic training: 5,000 in January, 6,000 in February, 12,000 in March, 22,000 in April, 30,000 in May, 40,000 in June and July, and 5,000 in August.

Yet, he said, 80,000 men are being drafted in each of the first three months of this year.

No Alternative

Members of the House committee generally are agreed that the draft law will have to be tightened to meet mounting military manpower needs.

But they are equally agreed that teen-agers shall not be sent into battle without a legal requirement that they have adequate training beforehand.

Chairman Vinson (D-Ga.) voiced what appeared to be a general committee sentiment when he told newsmen:

"I'm for drafting 18-year-olds. I'm for extending the period of service to 27 months. I'm for training draftees in this country before they go overseas, from four to six months. If you don't draft 18-year-olds, you've got to get into veterans and married men. There is no alternative."

Committee members generally said they favor the proposal to let 18-year-olds who are in college finish their academic year before doing a uniform and letting high school students defer induction until they are 19.

But present sentiment is for making it tougher to obtain deferments through local boards for occupational reasons and for avoiding the induction of World War II veterans.

DON'T MISS A BET—The good old capitalistic system of free trade and individual enterprise seems plenty good enough for these South Korean youngsters. As retreating UN forces pass through their village, they sell to the troops scarves like these. The scarves show the U. S., UN and South Korean flags, a U. S. bomber and a dragon, with the inscription: "Returned from Hell."

"THE THING" FOR FUTURE AIR-DROPS — If you should come upon this great, big box, you might open it up and discover arms, ammunition, fuel, food or even a squad of live soldiers. It's a model of the new all-purpose, metal container just developed by the Air Materiel Command at Dayton, O., for parachuting everything military—including GI's—to earth from cargo planes. Once afloat, the metal box may double as a rescue base, weather station or survival hut. (Air Force photo from NEA-Acme.)

Weak Cold Front Moves Over Texas

By The Associated Press
A weak cold front fanned out over Texas Tuesday after plunging temperatures 48 degrees at Dalhart overnight.

The Weather Bureau said the chilly air mass eventually would cover the whole state. By mid-morning, it already had blanketed the northern half and passed Dallas moving south.

It was expected to reach Houston by nightfall.

However, no severe cold was forecast. The lowest in prospect Tuesday night was 25 to 32 in the Panhandle and South Plains.

It was a dry norther—still withholding the rain badly needed by farmers.

Chorus Members Entertain Club

Nine members of the Midland High School Girls Chorus, under the direction of R. C. Michener, entertained the Optimist Club at its luncheon Tuesday noon.

Ted Witte presided in the absence of V. H. (Pete) Van Horn, president. The luncheon was held in Hotel Schaeffer.

The club voted to take part in the sponsorship of a full-page newspaper ad, urging citizens to pay their poll taxes in order to be eligible to vote.

County Attorney Reagan Legg spoke in behalf of the March of Dimes, urging all members of the club to give their support to the campaign against polio.

Leslie Hinds was in charge of the program.

Jack Meyers was a guest.

Dutch Destroyer Gets Overhauling

SINGAPORE—One of the Royal Netherlands' navy destroyers, the 1,750-ton Banekert, is getting a thorough overhauling here.

The warship, which has been in service in Indonesian waters the last 18 months, is expected to have her refit completed soon. More than 100 Indonesian seamen have trained on the Banekert.

Striangelo Addresses Angelo Credit Bureau

SAN ANGELO—Robert E. Striangelo, Midland oil operator, was the guest speaker at the annual banquet of the Credit Bureau of San Angelo Monday.

"Communists are fanatics who will work 24 hours a day to undermine this country," Striangelo told the audience of 200, "and it is going to take the same kind of labor on the part of Americans to combat the Reds who have infiltrated our country."

Striangelo outlined the activities of communism in the United States, and the program of guerrilla war and open war abroad.

Vice President R. L. Baldwin presided at the banquet.

Permian Basin Oil And Gas Log—

(Continued From Page One)
County, three miles west of the town of Big Lake.

The interval from 9,097 to 9,118 feet was tested for one hour and 10 minutes. Gas showed up in the surface in four minutes and oil in 40 minutes. It was flowed for thirty minutes at an estimated rate of eight to 10 barrels per hour.

Gravity of the oil is 39.6 degrees. The flow was gauged through a 5/8-inch choke. Open flowing bottomhole pressure was 400 to 750 pounds. Shut-in bottomhole pressure after 15 minutes was 4,250 pounds.

When the tester was pulled, the drillpipe unloaded all the way out. Final recovery was 2,500 feet of oil and 270 feet of heavily oil and gas-saturated mud. There was no water.

Operator is now coring the project. The lime section was topped at 9,097 feet, minus datum point of 6,440 feet.

The drillsite is 800 feet from south and east lines of section 10, block 11, University survey.

Slightly Oil Cut Mud Recovered In Borden

Norwood Drilling Company and associates No. 1 W. D. Johnson, West-Central Borden County wildcat, nine miles west and one mile south of Gall recovered 55 feet of very slightly oil cut drilling mud during a two hour drillstem test in the top of the Spraberry sand at 5,984-6,122 feet.

There was no signs of formation water. The project is drilling deeper. It is contracted to 3,700 feet to test the Pennsylvanian lines.

Location is 861.1 feet from north and 764.6 feet from west lines of section 34, block 32, T&P survey, T-5-N.

No Oil Developed In NW Martin DST

Pan American Production Corporation No. 1 F. D. Breedlove, Northwest Martin County wildcat, 13 miles northwest of Tarzan had a recovery of 120 feet of slightly gas cut drilling mud in a drillstem test in the top of the Spraberry sand section at 8,186-8,295 feet.

The tool was open one hour. There were no signs of oil or of formation water in the fluid which was recovered by the investigation.

The prospector is to drill deeper. It was originally started under a contract to dig to 13,000 feet to explore the Ellenburger—unless it makes a commercial oil well before reaching that level.

Location is 660 feet from south and 4,620 feet from east lines of league 258, Briscoe County School Lands.

Reports had been circulated in some quarters that this project had made salt water on the test at 8,186-8,295 feet.

That was an error caused by field reports of the Pan American No. 1 Breedlove having been confused with Calley & Hurt, Inc., et al, No. 1 Powell, another Martin County wildcat, which recently did make salt water in the Spraberry zone at 7,061-7,143 feet.

The Pan American No. 1 Breedlove has not made any water since it entered the Spraberry.

Extender Completed To Upton Spraberry

Havenstrite Oil Company No. 1-B Pembroke-Beal has been completed as the sixth producer in the Pembroke-Spraberry field of East-Central Upton County.

The new producer is one mile southeast of production in the field.

It was finished for 379.8 barrels of 36 gravity oil and no water daily after perforations from 6,936 to 7,030 feet had been hydraulized.

Gas-oil ratio was 738-1. The flow was through a 40 64-inch tubing choke.

Location is 660 feet from north and west lines of the 120-acre lease out of the northeast corner of the south half of section 1, block X C. C. DeWitt survey and 18 miles northeast of Rankin.

The Spraberry was topped at 6,658 feet, elevation 2,678 feet.

Production Tests Set For Noland Flanker

Rowan & Hope of San Antonio No. 2 City of Sweetwater, north offset to the same operators' discovery in the one-well Lake Trammell pool of North-Central Nolan County, produced 28 barrels of oil in one hour after shooting the Canyon sand with 480 quarts of nitro glycerin from 5,209 to 5,320 feet.

Operator is now running tubing for production tests.

The offset was drilled to 6,994 feet in the Ellenburger and showed sulphur water in that section. It was then plugged back to 5,332 feet for completion in the Canyon.

Location is 467 feet from south and 1,400 feet from east lines of section 92, block 22, T&P survey and eight miles south of Sweetwater.

Shallow Project Is Staked In Schleicher

A shallow wildcat is scheduled to be drilled in Central-South Schleicher County as R. B. Farris of Fort Worth No. 1 H. A. Thomson estate.

Location is 370 feet from the southeast corner of section 89, block A, HE&WT survey.

Cable tools will be used to drill to 1,500 feet, beginning at once.

Drillsite is 10 miles south and slightly west of Eldorado and one-quarter of a mile north of the Sutton County line.

House Gets—Bridges Denounces Truman Budget As 'Bid To Disaster'

(Continued From Page One)
were scheduled Tuesday afternoon.

Senator Rogers Kelley of Edinburg held a meeting of the Senate burg held a meeting of the Senatorial Redistricting Committee Tuesday morning. His bill to re-appoint Senate representation was in the committee's hands, but Kelley did not indicate whether he was asking immediate action on this matter.

House redistricting plans are progressing, Rep. Bill Fly of Victoria reported at a meeting of his committee Monday. He said the lower Rio Grande Valley—in line for an additional representative—had worked out its House representation ideas.

Members of Southwest Texas, the area west of San Antonio, Northwest Texas and the Panhandle are satisfied with the working plan for redistricting, he said.

Turfes' tax bill and other revenue raising measures apparently were destined for a long wait before receiving committee action.

House Revenue and Taxation Committee members agreed to delay study of tax bills pending a 60-day fact-finding period. They will invite spokesmen for all phases of the state's economy to say where they think the money should come from.

Odessa Man Dies In Oil Field Mishap

BROWNFIELD (AP)—C. O. Slater, 25, Odessa oil field worker, was killed near here Monday while helping dismantle an oil rig.

The former Marshall, Texas, resident was struck by the rig's pipe rack. His neck was broken. The body was brought to a Brownfield mortuary.
