

Ellenburger Wildcat Spotted in Andrews

Cities Service Oil Company is to start operations at once on its No. 1 Reed which is projected to 13,800 feet to explore the Ellenburger in Central-North Andrews County.

Spraberry Tester Set For Glasscock

Fred M. Allison Production Company of Corsicana has filed application with the Railroad Commission of Texas requesting permission to start drilling immediately on a 7,500-foot wildcat in Central-West Glasscock County.

The prospector will be drilled as the No. 2 Jenkins-Walton, 660 feet from north and 1,980 feet from west lines of section 43, block 38, T-3-S, T&P survey.

SW Martin Opener Reports Potential

Gulf Oil Corporation has officially completed one flowing discovery on the George W. Glass ranch of Southeast Andrews County, 12 miles north of Midland and 18 miles west of Stanton, and the same concern is flowing oil from another wildcat on the same property, and it may complete that project as an opener of another pay section.

Gulf No. 1-E-B Glass, located 1,980 feet from north and east lines of section 13, block 39, T&P survey, T-1-N, was completed for an official Railroad Commission potential of 39.73 barrels of 38.1-gravity oil, flowing through a five-sixteenth inch tubing choke, in 24 hours.

In addition to the oil the well produced 1.01 barrels of basic sediment and water during the 24-hour completion test. Gas-oil ratio was 990-1. The production was from perforated section in the lower Spraberry sand at 8,720-80 feet. That interval had been hydraulically fractured.

Application Filed To Deepen Ector Test

The Vina Bagley estate of Midland has filed a supplemental application with the Railroad Commission of Texas, requesting a permit to drill to a possible bottom of 14,500 feet, to test into the Ellenburger at its No. 1 Cowden, Southeast Ector County wildcat, 10 miles south of Odessa and five miles northwest of the Sweetie Peck multipay field.

UN Allies Resume Limited Offensive

TOKYO—(P)—General MacArthur visited the roaring Central Korean front Tuesday, watched Allied guns and warplanes pound the fading Reds and then ordered his troops to resume the initiative generally.

When MacArthur spoke, the Allies already had kicked off on a renewal of the "limited offensive" that started January 25 and was stalled only last week by a massive Red push that failed.

MacArthur had one of his typically acid comments for Russia's leader: "I note that Marshal Stalin has just predicted the annihilation of our forces in Korea. But his (Chinese and Korean) comrades will have to do a lot better than they have yet done to prove him a prophet."

Chinese losses, MacArthur said, have been among the bloodiest in modern times. Allied forces have chewed up some of the best troops of Red China, he added, and they will be hard to replace.

Before MacArthur flew to the Wonju airstrip Tuesday morning, Allied forces rolled behind tanks in a northward thrust along the central front. Field dispatches still described the action as a limited offensive, a renewal of the Red-killing raids General Ridgway has used to cut deeply into Chinese strength.

Frontline reports said 30,000 Communists were massing around Hongchon, a road center 25 air miles north of Wonju and a Communist massing point for their counterattack last week. Their big thrust then won some ground but failed to crack the central front.

Baby Tornado Rips Through Mineral Wells

A baby tornado puffed briefly at Mineral Wells about midnight, did a little damage and then disappeared. Five or six roofs were blown off or damaged in the business section, three plate glass windows were broken and a few telephone and electric lines were ripped apart.

The storm brought rain to many areas, and hail in an 80-mile strip in North Texas. Rainfall of 4.1 inch accompanied the Mineral Wells tornado.

W. P. Cameron of The Mineral Wells Index said the puff hit a four-block downtown area. He said most citizens were unaware until they awoke Tuesday that a tornado had struck. He said he lives about two blocks away from the damaged area and although awake, did not know of the damage at the time.

Light rain showers also were reported early Tuesday in Waco, Bryan, Childress and Texarkana. Monday night, the speeding storm spread rain and hail across an 80-mile strip of North Texas within an hour's time.

Light and scattered rains fell from the Panhandle City of Childress to points in the upper Rio Grande Valley and along the coast. The rains, along with melted snow and ice from last week's storm, spilled waters in the east fork of the Trinity River over the banks at the North Texas City of Rockwall.

During the last 24 hours Austin had 2.9 inch of rain, Dallas 7.1, Houston 0.2, Waco 1.1, San Antonio 1.0, Del Rio .01, Corpus Christi .03, Palestine .06, Victoria .06, Wichita Falls .43, Texarkana .05, San Angelo .02, Bryan .06, Palacios .05, Childress .15, Mineral Wells .05, Tyler .27, Rockwall .80, Corsicana .35 and Sherman 1.03.

High maximum temperature Monday was 87 at Laredo, low maximum 58 at El Paso. The low overnight minimum was 29 at Salt Flat, high minimum 67 at Brownsville.

The forecast for West Texas: Fair and colder Tuesday night, fair Wednesday and warmer in the afternoon.

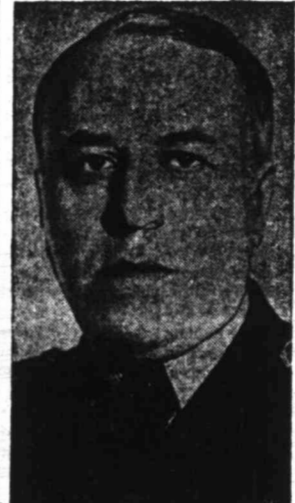

Robert M. Payne Is Candidate For School Trustee

Robert M. (Bob) Payne, independent oil operator, announced Tuesday as a candidate for trustee of the Midland Independent School District in the April 7 election. He said he would file officially Tuesday afternoon with the secretary of the Board of Education.

Mystery Explosion Rocks Dallas House

DALLAS—(P)—A four-room frame house was rocked Tuesday by a mystery explosion here which demolished the porch and left the living room in shambles. The blast was the third of a series of unsolved bombings in this area within the last two weeks.

The occupants of the rented house could not be located following the blast. Investigators doubted anyone was injured.

U. S. Talks Three-Way Pacific Pact

WASHINGTON—(P)—The United States is considering a triangular defense alliance with Australia and New Zealand as a move toward a projected Pacific pact similar to the North Atlantic Treaty.

Informal officials reported Tuesday that John Foster Dulles, Secretary of State Acheson's Republican foreign policy adviser, is ready to discuss this and other possible defense lineups when he stops off in New Zealand shortly for official talks.

Dulles already has visited Japan and Australia to discuss a Japanese peace treaty and to explore ideas for a mutual defense arrangement in the Pacific.

Another, it was learned, would add the Philippines as an original member of the United States-Australia-New Zealand arrangement.

All alternatives now being discussed leave the way open for additional countries to join later. Secretary Acheson was reported to have mentioned the possibility of (Continued On Page 12)

35 Soviet Divisions In Poland, Germany, Says U. S. Document

WASHINGTON—(P)—The Soviet Union now has a fully armored or mechanized force of 35 divisions in East Germany and Poland alone, the State Department says, and has restored East German railways which would serve as supply lines from Russia in the event of war.

Additionally, the State Department report based on "current intelligence" said, the East German Communist Party on January 15 began a large scale purge of its ranks aimed at eliminating weak links.

The department's Office of Public Affairs gave this information in an official publication Monday picturing the background of recent Soviet pressures on Germany.

Red Motive Questioned The report came just when the Big Four powers appeared to be nearing agreement on plans for a "peace" conference. It questioned whether Russia really wants a Big Four meeting. Unless the powers can agree on discussing basic differences other than Germany there would be little point in meeting, it said.

The blast followed by a few hours the delivery in Moscow of the latest notes by the United States, Britain and France proposing a preliminary session of the foreign ministers' deputies in Paris on March 5.

Action Would Limit Tenure Of Presidents

AUSTIN—(P)—Amid cries against shackling future generations, the House Tuesday approved an amendment to the U. S. Constitution limiting a President to two terms. The vote was 119-23.

"If we had had this limitation a few years ago, we wouldn't have lost our Tidelands," said Rep. Max Smith of San Marcos, who pushed the measure through the House.

Other speakers agreed with his argument that a long tenure allows a President to build up domination over the Supreme Court, which ruled the federal government had jurisdiction over the oil-rich Tidelands.

Opponents argued the limitation was denying the right of the people to vote for whom they chose as long as they choose. Principal speaker against the measure was Rep. Maury Maverick, Jr., San Antonio, whose father is a former New Deal congressman.

"Congress passed this in a move which first started in the hatred of one man," Maverick said. He named that man as Franklin D. Roosevelt.

Thirty-one states have ratified the amendment, Smith said. It still must be approved in the State Senate before Texas is added to the list. Thirty-six states must approve it for it to be effective.

Redistricting Approved The Legislature was picking up speed Tuesday with one of its biggest potential roadblocks—legislative redistricting—apparently out of the way.

Two actions Monday showed redistricting nearer completion. The House passed a plan for its own realignment of districts 115-23 after almost four hours' floor battle.

Senator Fulbright (D-Ark.), the subcommittee chairman, gave the President's proposal cautious praise, but declared it would not halt his plans to go ahead with a public airing of his accusations against Dawson.

He called the subcommittee into a session Tuesday to complete plans for more public hearings into RFC affairs.

Senator Capehart (R-Ind.), a subcommittee member, demanded that Dawson "be called in as a witness" (Continued On Page 12)

Car Theft Suspect Found Shot Fatally After Traffic Crash

DALLAS—(P)—A man who carried papers indicating he was from Church Point, La., was found shot to death in his wrecked car Tuesday after an 80-mile-per-hour race with a Kaufman County officer and state police.

The papers bore the name of Clarence Leger, 38. Dallas County Sheriff Bill Decker said records showed the car, a 1946 model, four-door sedan, had been stolen Monday in Crowley, La.

The chase started when Kaufman County Deputy Lish Roland became suspicious of a speeding automobile with its rear license plate turned up.

As the driver of the speeding automobile approached Dallas, he struck another car, and his vehicle plunged into a lawn.

As Roland approached the car, he heard a shot. He found the body of the driver slumped over the steering wheel with a bullet wound in his temple. A .38 caliber revolver was at his side.

Justice of the Peace W. E. Richburg returned a verdict of suicide.

Houston Midwife Pleads Guilty To Abortion Charges

HOUSTON—(P)—A 43-year-old Houston midwife Tuesday pleaded guilty to four charges of criminal abortion.

LATE NEWS FLASHES

WASHINGTON—(P)—A Senate Banking subcommittee Tuesday ordered a public airing, starting Wednesday, of its charges of political influence on RFC loans—charges which President Truman has called asinine.

LONDON—(P)—A British Foreign Office spokesman Tuesday said General MacArthur's statement about sending UN troops across the 38th parallel in Korea "seems to be very much in line" with British views.

FORT WORTH—(P)—Late sale Tuesday of stocker calves at \$45.00 a hundred pounds set a new all-time high price on this class of livestock on the Fort Worth market. Previous recent sales had gone as high as \$43.25.

HOUSTON—(P)—Lawson Little, co-chairman of the PGA Tournament Committee, arrived Tuesday by plane from California and said he would confer during the day with Jimmy Demaret, central figure in golf's latest controversy.

Business Courses Gain Popularity In Midland High School

Midland High School students are being prepared these days for entry into the field of business. Four business courses are being offered to students, not only for immediate business work but to help them in their college education.

Many returning students have emphasized the importance of typing and a knowledge of shorthand in college. The business courses offered include bookkeeping, in which 61 students are enrolled, typing with 148 enrolled, shorthand with 40 enrolled and business law with 16 enrolled.

Miss Fannie Reeves, head of the business department, has reported that the bookkeeping classes have tripled in number in the last three years. Typing is taught six periods daily and the shorthand classes have grown about 30 per cent.

Teacher Encouraged
Miss Reeves and Mrs. Charles Barron, who teach typing, are encouraged at the number of first-year students who already are typing 40 words per minute with a good degree of accuracy. Mrs. Calvin Percy's shorthand classes are taking dictation at 60 words per minute and will strive for 80 words before the close of school.

The bookkeeping classes, taught by Miss Reeves, has just finished practice sets of books containing five journals and three ledgers in each set.

The business law class, under the instruction of Mrs. Percy, is studying contracts, and plans are being made to attend court to hear trials of civil lawsuits.

Lion Kills Tiger In Jungle Climax To Wild Animal Act Before 3,000 School Children

DETROIT—(AP)—The savage law of the jungle asserted itself in the sawdust ring of a circus Monday.

It was quick, it was cruel, and Sheba, a royal Bengal tiger of Clyde Beatty's animal act, was slain. Prince, a big African lion, was the killer.

The scene was the Shrine Circus at the Fair Grounds Coliseum. Three thousand school children were the audience to Prince's lustful fury.

He leaped on Sheba and sank his jaws into her back in the course of an act accompanied by barking guns and snapping whips of trainers.

"There perhaps was a merciful element to it, however. Few if any of the wide-eyed youngsters were aware of Prince's vicious accomplishment."

It happened that fast. Grownups on hand understood, but they said the children were spared.

"My kid," said one, "was more interested in when he was going to get his balloon."

It didn't seem like a fair fight. Prince leaped without warning from his pedestal. And Prince was much bigger than Sheba.

In the instant of the attack Beatty couldn't do anything to halt it. He held back other animals in his lions and tigers act. A roustabout fired a blank gun through the cage bars against Prince's ear.

The lion let go. Sheba dragged herself away. About an hour later she was dead.

Beatty mourned her loss. "She was the whole act," he said. "I wouldn't have taken \$10,000 for her."

The show, of course, went on. Prince stayed in the act. The lions and tigers performed again Monday night.

Hoax Perpetrator Starts Jail Term
LOS ANGELES—(AP)—A woman booked as Mrs. Frances Crawford, 28, of Marshall, Texas, Tuesday began a 30-day sentence for intoxication. Police said she hoaxed them last week with a story of a murder of her girl companion by two men on an auto ride from Texas.

She pleaded guilty to drunkenness and making a false report. She will be sentenced on the latter charge March 2.

A one-cent piece, bearing 13 links representing the 13 original states, minted in 1787, was the first American coin.

Chicago Youth Held Under \$1,000 Bond On Federal Charges

SAN ANTONIO—(AP)—James Walter Miller, 15, was under \$1,000 bond Tuesday after waiving a hearing on federal charges of interstate transportation of stolen property.

The Chicago boy is accused by the FBI of making off with \$32,000 his aunt, a Chicago hotel operator, had saved. He was arrested last Saturday near Bandera, west of here.

U. S. Attorney Henry Moursund said the boy would be held for prosecution. The federal grand jury meets May 7 to return indictments.

The aunt, Mrs. Cora Andrews, refused to sign a complaint against him.

A Dallas taxi driver, C. F. Murphy, said he was forced to drive the boy on a wild ride from Dallas to near San Antonio with a knife or gun in his side for 60 hours.

There is one trolley coach, bus, or streetcar for every 1,500 persons in the United States.

Octane Ceilings For Civilian Gas To Be Unchanged

WASHINGTON—(AP)—Octane ceilings on gasoline for your car will not be reduced.

The Petroleum Administration for Defense said Monday it plans instead to allocate tetraethyl lead to dealers. The original plan was to conserve this ingredient of high octane gas, because it is in short supply.

Refiners and oil product sellers had objected to the first plan of setting a 90-octane ceiling on premium grades of gasoline.

The allocation method would leave the refiner free to use his supply of tetraethyl lead as he wished.

An official said "national needs can best be met at this time" by restricting all refiners to a base allotment of 1,000,000 pounds annually of automotive tetraethyl lead fluid, or their actual 1950 use, whichever is the lesser. This means all small refiners would be restricted to 1950 totals up to 1,000,000 pounds.

Large refiners using more than 1,000,000 pounds annually would be allowed 80 per cent of the amount used in 1950, less the 1,000,000 pound basic allotment.

Embezzling Charged To Son Of Bishop

STOCKTON, CALIF.—(AP)—A 52-year-old OI student described as a son of the late Bishop James N. Cannon, Jr., Tuesday was accused of embezzling \$1,800 from College of the Pacific publications.

Bradford Crittenden, Jr., assistant district attorney, filed the charges against Richard M. Cannon, a veteran of both world wars. He said Cannon is a son of the late Southern Methodist bishop.

The suspect left Stockton a month ago. Cannon is accused of taking \$1,400 he collected from advertisers and forging an editor's name to a \$500 check.

How Thelma Became A Star Without A Plunging Neckline

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD—They're belittling it from the sound stage roofs that Thelma Ritter slides to home plate as Ritter's new Marie Dressler in Paramount's "The Mating Season," but I bludgeoned her into admitting that she never knew Abe Lincoln.

Thelma couldn't have — she's just a chick!

By Hollywood movie queen standards, that is.

She's under 50.

If this kind of thing keeps up, Margaret O'Brien will be the new May Robson, and Roddy McDowall will step into C. Aubrey Smith's shoes any day now.

Thelma, though, isn't saying how far under 50.

"Ugh, ugh," she winked. "I'm in no position to be younger than springtime."

I've a hunch it's because Thelma doesn't want to embarrass any movie dolls who'll be calling her mama or granny the way the script says. There are a lot of glamor belles whose birthday candles would heat up a chilly room quicker than Thelma's.

On the movie screens, Thelma looks like the "Before" in a make-up ad. But catch her away from the sound stages and she's a looker who's a dead ringer for the late Alice Brady.

George Seaton, who knew Thelma when she was eating air between two slices of day-old bread, started the ball rolling by giving her a bit in "Miracle on 34th Street." A Fox contract for three pictures a year followed and Thelma's been jabbing movie-goers in the ribs ever since in "Letter to Three Wives," "I'll Get By," "Perfect Strangers" and "All About Eve."

A Star Now
Now she's flying around the wild blue yonder as a star as the result of her performance in "The Mating Season."

And without being stuck up on billboards with a V neckline and a dagger in her mitt, either.

Thelma thought it over and laughed:

"Spot announcements, photographers taking my picture, people interviewing me, the guy in the super-market telling me I'm gonna win an Oscar. I didn't plan it this way. I didn't bargain for this. I said to George Seaton the other day, 'Kid, you've loused up my life!'"

Maybe Thelma never made Broadway, but she was some pumpkins as a leading lady in stock companies.

"Some towns liked 'em big and blonde," she snorted. "Me, I just had a good figure. I was a cutie. In stock, you didn't need talent. Only a wardrobe."

Lost-your-pants farces like "Twin Beds," "Parlor, Bedroom and Bath," "Ladies Night in a Turkish Bath" and "Up in Mabel's Room" didn't help Thelma accumulate a wardrobe like Rosalind Russell's, though. She ended up each season with

"The Mating Season," recently showed the picture to a famous New York producer. Laughed Thelma:

"That producer got all excited and wanted to know where I'd been all these years. I told Charlie next time he saw the producer to tell him that Thelma Ritter's been hanging around his office for 20 years without getting a tumble. "Can you beat it?"

Mata Hari's real name was Margaretha Geertruida Zelle.

Sudden Change Of Heart

Not too many weeks ago the American reading his daily newspaper would have gathered that the western world was unlikely to survive if the rearming of Germany did not occur in a short space of months.

But the Germans have no wish to be a doormat in a war between the West and the Soviet Union.

The Bonn government, furthermore, wants to be accepted into the western family on an equality basis, not as an inferior.

The earlier stress on the need for German strength was in many ways misleading.

Utilizing these potential soldiers is the first order of business on the military front.

Wage Freeze Order Thawed To Keep 'Big Labor' Happy

By PETER EDSON NEA Washington Correspondent WASHINGTON—Behind the effort to find a satisfactory wage "decontrol" formula, there is considerable monkey business.

For the record, all wages were supposed to be frozen when Economic Stabilization Administrator Eric Johnston issued his price and wage freeze order on January 26.

Increases for the miners of 70 cents a day—roughly 10 cents an hour—plus increased tonnage royalties for welfare funds.

On Jan. 18, 1951, Lewis signed a new contract giving his miners an additional 20 cents an hour increase.

Behind The Curtain Bear in mind that this contract was made effective a week after Eric Johnston's wage freeze order was issued.

As for the steel industry, CIO Steelworkers Union won a 16 cents an hour wage increase last December 6.

So here the Wage Stabilization Board comes up with its third retreat. It is the formula which will allow additional wage increases of 10 per cent to let other industries come up to the auto and coal wage levels.

As for the automatic efficiency increases, some round-about way is being sought to say that these aren't part of wages.

DADDY RINGTAIL

By WESLEY DAVIS

Daddy Ringtail And Beautiful Lady

The Beautiful Lady had come to live in the Great Forest. She had come from far across the sea. No one would find her now, she said. No one would ever do her harm. She was safe with friends at last. She built her home by the Happy Pool. She built it of leaves and flowers, woven together by the strongest vines that a friendly eagle could bring. An elephant brought the stones for the fireplace. Daddy Ringtail built it strong.

She thanked them all with a kindly smile. What a beautiful lady she was! She was a great, great lady, everyone decided.

But what was her name? Everyone wondered. The eagle wondered, and so did the elephant. Daddy

Ringtail wondered, too. None of them knew. Everyone waited. They waited and listened for the name they hoped

that the Beautiful Lady someday would tell them. They listened to the songs she sang. They thought that maybe she might some day sing her name in a song. And all the while the beauty of the Beautiful Lady grew more and more, for she was good as well as beautiful. She was kind, too, and everyone who saw her was happier because of seeing her.

The days went by. Spring turned into Summer. No one yet had learned the name of the Beautiful Lady. And so one fine day, when the sun was shining through the leaves of the trees to make little speckles on the ground, Daddy Ringtail called all the friends together to choose a name to call her.

It was decided then and there, and all agreed, that the Beautiful Lady should have the name of Friendship. They hurried away to tell her about it, and they did tell her.

She laughed at first to hear it, and then her smile was very serious. She said she would always try, ever and ever, to be as kind and good a friend as she will, too. Kindness and goodness are the things that make the friends about us, and all the happiness we inside us. Happy day!

Importance Of Fresh Air Is Getting Belated Attention

By EDWIN F. JORDAN, M. D.
Written for NEA Service

The importance of having plenty of good fresh air to breathe is now well recognized. And it wasn't so long ago that millions of people kept their windows tightly closed at night for fear the air would hurt them. Now ventilation, or air conditioning, has been placed on a good scientific basis and millions are reaping the benefits of having better air to breathe.

Some progress has been made in learning the health aspects of the air we live in, though perhaps the engineers have done even more in working out how to supply the kind of air desired. There are a lot of questions about air: germs and

dust, temperature, and amount of moisture, for example. In some places of public assembly the air is washed, which gets out most of the dust particles, including a lot of the germs. This is combined with constant circulation with new air fed into the system and heated or cooled to any desired temperature. It is not a cheap process and is therefore not always practical (or necessary) in our homes.

Temperature of the air is quite a problem and is closely tied in with the amount of moisture. For one thing men and women are not always comfortable at the same temperature and there is a lot of variation between individuals, too. In winter there often is a tremendous difference between the inside and outside temperatures and perhaps this isn't too good for us. In hot weather, for example, it has been found that it is usually wise to keep an air conditioned building around 10 degrees cooler than the outside, providing, too, that the humidity or moisture is kept satisfactory.

These problems, and such things as how fast the air should be moved in and out have been pretty well worked out by air conditioning engineers, who deserve a lot of credit. And in many things besides simple comfort a great deal has been done. Many delicate laboratory and industrial operations must be carried out with the air held exactly at a certain temperature and humidity.

Better Late . . . It seems as though our interest in air has come a little late, considering how much it means to our health and in other ways. But it is here now and new questions keep cropping up, one of the most serious being the aid pollution of whole cities (smog) which is or has been troubling so many of the big, and even small cities of our nation.

N. H. Read, 57, Prominent Rancher, Dies At Coahoma

RIO SPRING—Norman Howard Read, 57-year-old prominent Howard County rancher, died in his sleep early Monday at his home at Coahoma.

Funeral services were to be held at 4 p.m. Tuesday in the Eberley Chapel with interment in the Read family lot in the New Mount Olive cemetery. A native of Howard County, he had been active in civic, church and lodge affairs, was a past patron of the Order of Eastern Star at Coahoma and a past grand noble of the OES in Texas.

He had been ill of a heart ailment several years. Surviving are the widow, and two brothers, H. Noble Read of Coahoma and Willard Read of Big Spring.

Newsman Tells His Own Success Story

Throughout the years there have been numerous success stories of how this man or that man started from nothing and finally achieved prosperity. But the best of all success stories is where a man in a rundown condition finally gets to where he feels wonderful again.

William Bogard, newspaper reporter in Sulphur Springs, Texas, has a success story to tell. Yes, now that Mr. Bogard is taking HADACOL, he says, "I wish I could tell my story to every man and woman in the country who is now suffering as I was suffering."

Here is Mr. Bogard's own statement telling how HADACOL helped him: "Two years ago, at age 40, I was convinced that nothing remained for me in life. The most encouraging words I ever heard were: 'Maybe you will get straightened out after a while.' The only thing that really mattered to me was how I felt and the fact that my apparent decline had brought my many dreams and aspirations in total ruins before my feet."

"I heard and read many stories and testimonials concerning HADACOL, but, unfortunately for me, I didn't take any of them seriously. I considered these testimonials to be from fictitious people with imaginary ills who talked solely for money. How wrong I was! In spite of my weariness, I decided to give HADACOL a try. I took great care that no one knew I was taking it because I feared their ridicule."

"I took three bottles of HADACOL before I began to 'feel' its effects. After that, my progress was steady and sure. My appetite picked up. I not only ate at meal time, which I had not been doing before, but I enjoyed in-between-meal snacks of delicacies which I had long since forgotten."

"I wish I could tell my story to every man and woman in the country who is suffering as I was suffering. I wish I could let them know and make them believe that what I say is all truth and none fiction."

Remember HADACOL is sold on a strict money-back guarantee. And so inexpensive. Trial-size bottle only \$1.25. Large family or hospital size, \$3.50. If your druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, La. Copyright 1951, The LeBlanc Corp.

Six GI's Have Dates With French Models; Reactions Are Varied

By ARTHUR L. EDSON
WASHINGTON—(AP)—Six GI's got a break Monday night that every GI must dream about: they had dates with six beautiful French models.

The GI's at Walter Reed Hospital recuperating from injuries, had champagne with the girls at the French Embassy, went to a show, and later, had dinner.

Their reactions varied. Pfc. John Ahmann of Eyota, Minn., said worriedly: "I'll have to phone back home to explain all this before any news story gets out to Minnesota."

On the other hand, there was Pfc. Lawrence Waids of New Britain, Conn. Waids posed happily with all six girls clustered about him. When one of the girls said she was wearing perfume brand No. 5, he calmly reported:

"I'm wearing wolf No. 7." Probably was, too.

The girls are over here representing a hosiery firm. It seems six French designers each made a pair of hose, and each selected the model he thought would show same off to best advantage.

The other GI's on hand were Cpl. Gerald Auger of Lewiston, Maine; Pvt. Robert Grant of Chicago Heights, Ill.; Cpl. Paul Rogers of Cincinnati; and Pfc. Robert Hough of Rockhill, S. C.

Some of the boys had been hit in Korea. But Grant, who is 6 feet 4 1/2 inches, said he was no hero. Rogers is spending 21 months in the hospital. "I dived into a swimming pool down in Florida. As I was coming up, another guy was coming down."

Crude Output Rises By 51,375 Barrels

TULSA, OKLA.—(AP)—Some of Winter's severest weather failed to retard the nation's crude oil production during the week ended February 17, The Oil and Gas Journal reported Tuesday.

Daily average output for the week, The Journal said, reached 5,850,175 barrels, an increase of 51,375 barrels.

Kansas, with a jump of 84,200 barrels to 319,350 barrels, was the top gainer.

Major loser was Oklahoma, which fell 19,360 barrels to 485,960.

Production was unchanged in Texas at 2,860,450 barrels.

John Stevens' "Phoenix" was the first steam vessel to make an ocean trip, though she only went from Hoboken to Philadelphia.

CONSTIPATION GONE—FEELS LIKE OLD SELF

Allen Smiley Starts One-Year Sentence

LOS ANGELES—(AP)—Allen Smiley, convicted in June, 1949, Monday began serving his one-year term for falsely claiming U. S. citizenship.

He has stayed out of jail on bond through numerous appeals. Federal Judge Dave Ling blocked Smiley's final efforts Monday by denying a writ of habeas corpus and denying a modification of sentence.

Smiley made the claim of citizenship when questioned by police in connection with the slaying of his associate, gambler Benjamin (Bugsy) Siegel in 1947. Smiley's real name is Aaron Smehoff. He was born in Russia.

Accord Believed Near On Pay Boost For Railroad Workers

WASHINGTON—(AP)—The wage drive of 1,000,000 workers in non-operating units of the railroad industry was reported near settlement Tuesday. Terms were said to call for a basic pay increase of 12 1/2 cents an hour, plus cost-of-living adjustments good for as much as five cents more.

Neither the railroads nor the 15 unions involved in the wage campaign launched last October 25 would discuss the terms of any settlement. But they indicated agreement was near.

Two Rear Admirals In Visit To Command Post On Korean Front

WESTERN FRONT, KOREA.—(AP)—Two Navy rear admirals turned up Tuesday at a front line infantry command post and found "everything shipshape."

The two watched United Nations artillery pound the shattered South Korean capital of Seoul. They watched from a front line observation post only 1,500 yards from the south bank of the Han River—the same spot visited by Gen. Mark W. Clark Monday.

They were impressed by the tough, dirty job being "well done" by rugged infantrymen.

"My admiration for the Army has increased tremendously — so has my intention of being out of it," said Rear Adm. Roscoe Hillenkoetter.

"That's the first hill that I've climbed in a long time," said Rear Adm. Lyman A. Thackeray.

Command Coast Groups

The admirals command the two Navy groups stationed on Korea's West coast.

"Since this offensive began on January 25 we have fired more than 1,100 rounds in support of these ground forces," Thackeray said.

The admirals revealed they had anchored their ships, including the heavy cruiser Saint Paul, in the blasted Port of Inchon. It is the port for Seoul.

"We are busy repairing the port now with the help of the Army Engineers," Thackeray said. "Now we are sorry for all the damage we caused when we left it about five weeks ago."

The admirals said their trip to the Army front line had no special significance.

"We just wanted to meet the people we've been working with—to see how the other half lives," said Hillenkoetter.

Permian Basin Oil And Gas Log—

(Continued From Page One) and made only water in that formation.

It had some shows of oil in the Wolfcamp lime of the Permian at 9,455-9,527 feet, but on an extended test the exploration failed to show for commercial production in that zone and it has been carried on down.

Five Locations Set In Tex-Harvey Area

Barnett & Rector, Amerada Petroleum Corporation, Phillips Petroleum Company and Olsen Brothers, Inc., have each staked new locations for immediate drilling in the Tex-Harvey field of Midland County.

Barnett & Rector will drill the No. 1-23 Floyd Estate on the south side of the field and 1,980 feet from north and west lines of section 23, block 37, T-3-S, T&P survey.

Amerada staked drillsite for its No. 2 K. S. Boone on the west side of production on the Glasscock side of the field, but inside the Midland County lines. Exact location is 680 feet from south and west lines of section 17, block 36, T-3-S, T&P survey.

Phillips will drill the No. 1-B Mabel 663 feet from north and 660 feet from east lines of the north-west quarter of section 23, block 37, T-3-S, T&P survey and on the south edge of the field.

Olsen Brothers will drill two Tex-Harvey projects; one is the No. 5 George B. Leach, 662 feet from south and 1,978 feet from east lines of section 3, block 37, T-3-S, T&P survey. The other will be drilled as the No. 8 George B. Leach, 659.6 feet from east and 1,986 feet from south lines of section 3, block 37, T-3-S, T&P survey and at the north side of the pool.

C-W Ector Field Gets New Producer

Texas Gulf Producing Company has completed its No. 4 J. E. Parker as one-location north extender to the TXL-Tubb field of Central-West Ector County.

The new oiler was finished for a daily flowing potential 283.51 barrels of 37-gravity oil through an 18.64-inch choke.

Open hole section from 6,123 to 6,326 feet was acidized with 12,000 gallons. No formation water was made on the completion test. Casing pressure ranged from 125-545 pounds. Tubing pressure was 100 pounds. Gas-oil ratio was 643-1.

The No. 4 J. E. Parker is 660 feet from south and 1,980 feet from west lines of section 3, block 45, T-2-S, T&P survey.

Reef Build Up Is Found In Borden

P. R. Rutherford No. 7-A Griffin, on the north side of the Reinecke field in Southeast Borden County has shown a build up on the reef for that region.

This prospector, located 1,667 feet from south and 2,173 feet from east lines of section 59, block 25, H&TC survey, topped the reef at 6,832 feet, to give it a #atum of minus 4,475 feet.

It correlates to be 50 feet high to the same operator's No. 4-B Griffin, a completed reef producer one location to the west and 62 feet high to Rutherford's No. 2-A Griffin, another reef lime oil well which is 1,200 feet due south.

Rutherford No. 7-A Griffin is bottomed at 6,955 feet. It has cemented 5 1/2-inch casing at 6,934 feet. The plug on the pipe will be drilled out and the open hole will be tested and the well will be completed and put on production.

No drillstem test has been run on the exploration, but the drilling samples and the geological position indicate that the exploration will make an oil well.

P. R. Rutherford and Sons No. 1 W. E. Murphy, wildcat in Southeast Borden County, located 467 feet from west and south lines of section 82, block 25, H&TC survey, and 5,200 feet north of the nearest completed producer from the reef in the Reinecke field had reached 6,225 feet and was drilling ahead in shale. It is projected to 7,500 feet, or a test of the reef lime at a lesser depth.

Legion Smoker Is Scheduled Friday

A smoker, which is the feature of American Legion Post 19's current membership drive, is scheduled for 8 p.m. until midnight Friday in the Legion Hall.

Bill McGraw of Austin, past state commander of the American Legion, will address the gathering.

Each Legion member may bring two guests to the smoker, according to Wade Heath, manager of the Legion Hall. Members of the Veterans of Foreign Wars post and the Disabled American Veterans chapter also are invited.

The Midland post now has a membership of 1,098, which falls only 13 members short of a total number of members the post had at the conclusion of last year.

At last report, the Midland post ranked fifth in the state. In 1950, it finished in the first 10 in Texas.

Wolfcamp Shows Logged In Reeves

Miami Operating Company, Inc., of Ballinger No. 1 Balmorhea Ranches, Inc., Central-South Reeves County wildcat is drilling below 8,720 feet after two drillstem tests of the Wolfcamp lime.

Operator drillstem tested from 8,669 feet to 8,690 feet. Tool was open two hours. Recovery was 65 feet of heavily oil and gas cut mud, estimated to be 10 per cent oil.

On a two-hour drillstem test from 8,690 feet to 8,720 feet, recovery was 15 feet of drilling mud, with no shows.

Top of the Wolfcamp is at 8,670 feet on a minus datum point of 5,394 feet.

Location of the prospector is three miles southeast of the town of Balmorhea and 330 feet from south and west lines of section 84, block 13, H&GN survey. It is 17 miles southwest of the one-well Verhalen-Wolfcamp pool.

Projected depth of the wildcat is 12,000 feet.

Volunteer Leaves For Army Induction

Orville Martin of Tarzan volunteered for the regular Army and was sent to Abilene Tuesday morning for induction by T/Sgt. Shelby Wheeler, Army and Air Force recruiter.

Martin is the son of Mr. and Mrs. Cleo C. Martin of Tarzan. He attended school at Stanton.

He will be sent to Fort Sill, Okla., for processing and probably will receive his basic training at Camp Chaffee, Ark., Wheeler said.

Martin now has a brother serving with the Army in the Far Eastern Command.

Immediate Drilling Set For Coke Test

Elm Oil Company and Lloyd Davidson, both of Dallas, are to start drilling immediately at a 4,500-foot wildcat in Central Coke County.

It will be dug as their No. 1 B. B. Steffy, 330 feet from north and east lines of the southeast quarter of section 415, block 1-A, H&TC survey.

Delaware Drillers, Inc., of San Angelo has the rotary contract.

Union Oil Company of California farmed out to Elm and Davidson 320 acres, which are the southwest quarter of section 415, and the northeast quarter of section 440, retaining a one-sixteenth override. Section 440 joins section 415 on the south.

The contract destination of the exploration should take it into the Cisco sand. It will be three miles northwest of the nearest producer from that formation in the McCutchen field.

DST Scheduled In Val Verde Project

R. J. Caraway of Dallas is preparing to take a drillstem test from 9,889 to total depth of 9,919 feet at his No. 1 Guida Rose, wildcat in Northeast Val Verde County.

For several days operator has been mixing mud which would be heavy enough to hold gas which had been kicking out.

Operator deepened from 9,900 to 9,919 feet and attempted a drillstem test. A bridge was found in the hole. After it was drilled out, operator was preparing to take another drillstem test.

Location is at the center of the southeast quarter of the southeast quarter of section 2, GC&SF survey. That makes it 35 miles southwest of Sonora.

Wildcat Is Plugged In E-C Stonewall

Southern Minerals Corporation and Seaboard Oil Company of Delaware have plugged and abandoned their No. 1 Elizabeth Yakey, et al, East - Central Stonewall County wildcat, on total depth of 6,394 feet.

Location was four miles north of Old Glory and 2,970 feet from east and 2,310 feet from north lines of the Thomas J. Jordan survey.

That made it three and one-half miles south of the Old Glory-Bend conglomerate pool.

Shay Pleads Guilty To Arson Charge

LANSING, MICH.—(AP)—Richard C. Shay, the teen-age father accused of setting fire to the Michigan State Office Building February 8, Monday pleaded guilty of arson.

Shay, 19, former State Highway Department employe, faces a possible maximum prison term of 10 years. Sentence was deferred in circuit court pending a probation report.

Married and father of a seven-months-old daughter, Shay said he set the fire in hopes of escaping the Army draft by acquiring a criminal record. He said he meant to start only a small blaze.

MHS Golfers Qualify To Meet Odessa And Lubbock Linksmen

Qualifying rounds were turned in Monday to Coach Audrey Gill by the Midland High School golf team, after 20 Midland boys shot rounds to qualify at Midland Country Club.

The eight boys with the best scores will compete Saturday against Lubbock High School linksmen here. Gill also announced that the same eight lads will go to Odessa for a meet with Broncho golfers Friday. The meet will start at 3 p.m.

Graham Mackley led the Midland golfers with rounds of 72-72-73-73 for a total of 290. Roane Puett finished with 72-72-74-78—297 and John Ward shot a 73-76-77-78—304. The three are lettermen. The other lettermen, Bill Franklin, finished second with 81-81-79-77—317.

Other scorers included: Marcelino Moreno 78-80-81-76—315, Teddy Kerr 79-78-80-79—316, Raymond Leggett 80-79-79-79—316 and Doyle Patton 81-82-85-87—325.

MJBA Elects Officers For Summer Program

Approximately 20 men met Monday night to form the Midland Junior Baseball Association and make plans for a summer baseball program here.

Officers elected included: Little League—John Redfern, president; A. C. Elliott, vice president, and L. A. Williams, secretary.

Bill Holland was reelected president of the Shorthorn League. W. C. Westbrook was named secretary. Ray Protsman was named treasurer of the three leagues in operation here.

Officials still are needed for the Lone Star League, a loop for boys 15, 16 and 17 years of age.

Shorthorn officials announced each club may carry 15 players, with seven 14-year-old boys and eight 13-year old youths. Included in the 13-year squad may be eight players who performed with the team last season. The rest of the Midland youths will be distributed in a player pool to be held March 15.

The Little League will follow national rules, with each team being given a certain number of points with which to bid for players. Further details are expected to be worked out at a meeting to be held at a later date.

Red Chicks, Sisters Meet Tuesday Night

The Midland Flying Sisters basketball team vies with the San Angelo Red Chicks Tuesday night in the John M. Cowden Junior High School gym.

Hardwood action will begin at 8:15 p.m. in the second meeting of the two teams. The Red Chicks won an earlier game in San Angelo 28-24. The two teams were to have met here three weeks ago, but cold weather forced the contest to be postponed.

Midland's Flying Sisters have won three games while losing one this season.

Kentucky Holds Top In Cage Poll

NEW YORK—(P)—For the fifth straight week, Kentucky is the leading basketball team in the country. The Wildcats, sporting a 16-game winning streak, again edged out Oklahoma A&M in the weekly Associated Press poll.

Columbia, the only major unbeaten team left, moved up to third place, replacing Kansas State, which slipped to fifth.

Indiana also advanced, from sixth to fourth place, but that was before the Hoosiers dropped a 71-65 decision to Illinois Monday night. Illinois, now a heavy favorite in the Western Conference, moved from eleventh place in to the select group with a tenth place finish.

Kentucky, which edged DePaul 60-57 Monday night for its twenty-second victory against one setback, drew 62 first-place votes from the 110 sports writers and sportscasters who participated in the balloting.

The leading 20 teams with points based on a 10-9-8-7-6-5-4-3-2-1 basis (first-place votes and season's records, including Monday night's games, in parentheses):

Rank	Team	Points
1	Kentucky (62) (22-1)	1,036
2	Oklahoma A&M (23) (23-1)	921
3	Columbia (4) (17-0)	615

Hogs Knock Steers Out Of First Place

By The Associated Press

Texas slipped from a three-way tie at the top of the Southwest Conference Monday night with a narrow 40-38 loss to Arkansas.

Texas Christian and Texas A&M held down the lead Tuesday, but will have to win Tuesday night to keep the ranking. TCU plays Baylor in Fort Worth and A&M meets Southern Methodist at College Station.

Arkansas, clocking off its third straight conference win, edged up beside Texas in a tie for third place.

Chandler Mum On Baseball Prospects

By The Associated Press

HOUSTON—(P)—Baseball Commissioner A. B. Chandler has no predictions to make about the March 12 meeting of major league owners to name a new commissioner.

"I'll either fish or cut bait after that meeting," he said in a brief visit here Monday night. "And I can do both."

Chandler was enroute to visit his son, Albert B. Chandler, Jr., stationed at Lackland Air Force Base, San Antonio. He speaks in Austin Tuesday night and returns here Wednesday for the annual Houston Baseball Dinner.

House Of David Takes Two Tilts

By The Associated Press

CRANE—House of David basketball team defeated the McGamey Publishing Company here Monday night 48-44. The contest was sponsored by the Crane VFW.

Bobby Roth, bearded House of David clown, scored 22 points while going through his zany antics. Harris topped McGamey with 16 tallies.

The House of David quintet toyed with Crane High School in a game Monday afternoon, winning 46-38. Proceeds of the game went to the Crane Lions Club.

Monchak, Jordan In Buddy-Buddy Role

By The Associated Press

ROSWELL—The Roswell Rockets will open Spring training March 20, officials of the club have announced.

Roswell will train at Seguin, Texas, with the Austin Pioneers of the Class B Big State League. During the training period Roswell Manager Al Monchak will work with the outfielders and infielders and Pioneer Manager Tom Jordan will handle the pitchers and catchers.

Odessa baseball men have purchased—of all things—an English-speaking Cuban. He is Otto DeLos Rayer. And (surprise!) he's a limited service player and not a rookie, as most Cuban players seem to be since their Cuban service isn't counted here in the good ole U. S. A.

But this Rayer seems to be a remarkable fellow in more ways than the two mentioned above. He performed with Tyler and Kilgore last season and is reported to have played in 184 games, and reports say he struck out but seven times.

Rayer caught 50 games and played every position but pitcher while batting .290 for the year. Which is a pretty good record, rookie, limited service, vet, or what-have-you.

We browsed about Midland Country Club for a while Monday and found out from Mrs. Bob Franklin that the tournament dates have been set for the Midland CC ladies.

The club tournament—women members only—will be held April 9-13. May 14-18 are the dates set for the Women's Invitational Tournament.

Gloria Ezell—who won both events last season—tells us she "doesn't expect to win again."

But she'll enter and hope to win again, she said.

"I'm not sure but what Doak Walker is the greatest football player I've ever seen."

So said Raymond (Buddy) Parker, now head mentor of the Detroit Lions football team, here Monday. Parker, who coached the backfield at Detroit last season, was here visiting Midlander Chill Walsh.

Walsh was assistant coach of the Chicago Cards some years back when Parker was performing at fullback.

"Walker," the Detroit coach went on, "can do everything. He doesn't look fast, but very few men catch him. He's smart, deceptive and has some power. Of course, it may be a little early to say he's the best I've seen. But still . . ."

—KR—

All of which would indicate Parker is happy with the situation at Detroit.

"And I am happy," he beamed. "I think we'll improve over last season."

The Lions last year broke even in 12 games, finishing third in their division of the National League. Parker also is sold on a couple of other Texans on his squad—Bobby Layne, former University of Texas passing wizard, and Gloyce Box of West Texas State.

Box is the former West Texas quarterback who was converted to an end by the Lions. "Let gets around," Parker summed it up.

As for Layne, the Detroit coach thinks he'll be "one of the game's best" before he's through.

—KR—

Dick Stanfel, 225-pound offensive guard from University of San Francisco, was the first Lion choice in the professional draft. Parker also is high on Rookies Pete DeLoza and end Ippon Dibble. DeLoza is the former Villanova fullback, while Dibble performed at end for Michigan State last season.

Plans call for an exhibition game early in the Fall at Dallas, probably against the New York Giants. If the Giants land Kyle Rote, the game should be a sellout in Dallas.

—KR—

Midlanders will get to see some topflight basketball games and give money to worthy cause at the same time if they'll attend the independent cage tournament to be held here Wednesday, Thursday, Friday and Saturday nights in the junior high gym.

Proceeds from the game go to the Girl Scout Building Fund. The Girl Scouts also will be in charge of concessions.

It's an opportunity to see fine basketball and do your part for a worthy cause all in one.

—KR—

Back to some baseball: H. W. Donohoe reports a few box seats still are available at Indian Park and they'll go to the first person who asks for them. Harold Webb is due back in town the latter part of this week to help Donohoe with the remaining business details before diamond action begins.

And we hear a couple of the Indians have returned their contracts unassigned.

But don't worry—they'll ink before long. That's just part of the game, the annual bickering and talking before arriving at terms.

As Webb told us: "That's just baseball."

Eight Pros Reported Set To Pay Stiff PGA Fines; Demaret Still Is Defiant

HOUSTON—(P)—The newest and probably the most serious controversy in professional golf reached its showdown Tuesday.

Jimmie Demaret, the colorful Texan who is doing all the talking, champed over a fine of \$500 levied by the PGA Tournament Committee because he and eight other American golfers went to Mexico and played in the Mexican National Open. It was in defiance of a PGA order.

Vic Ghezzi was fined \$350 but it was in absentia. He still is in Mexico to play some exhibitions. "Three other golfers who accompanied Demaret here by plane to see about playing in the Houston open starting Thursday—Morris Williams, Jr., Stan Dudas and Ansel Snow—were fined \$200.

Four others—Al Besselin, who went to Florida; George Kinsman, Jr., Willie Polombo and Nick Lazar, who were expected to arrive here Tuesday or Wednesday by automobile—also were stuck \$200 apiece.

Demaret let out a loud bleat. He wouldn't even accept the notice from Howard Capps, PGA tournament supervisor, and said he would sue the PGA "if I'm fined a nickel."

Demaret, Williams, Dudas and Snow were handed notices of their penalties by Capps when they went to Memorial Park Course, scene of the Houston Open, Monday afternoon.

Demaret, Williams, Dudas and Snow were handed notices of their penalties by Capps when they went to Memorial Park Course, scene of the Houston Open, Monday afternoon.

Huff is former golf instructor at Northwood Country Club in Dallas and the Colonial Country Club in Fort Worth, recently joined Midland Country Club as assistant pro.

Huff has been teaching and instructing golf play for the last 15 years. He came here directly from the Colonial Club.

He replaces Morris Williams, Jr., who is slated for Army service early in March. Williams had been with the Country Club here since last Summer.

Three LIU Stars Charged As Cage Scandals Expand

NEW YORK—(P)—Three Long Island University basketball stars were charged Tuesday with accepting bribes as college basketball's sensational game-fixing scandal spread to another major team.

The LIU trio was charged with accepting a total of \$3,000 to lose a game between their school and Kansas State last December 2 at Madison Square Garden.

LIU barely won 60-59, after holding a wide early lead.

The period covered in the booking was "between Jan. 15, 1950, and Jan. 16, 1951." However, only the Kansas State game was specified.

District Attorney Frank S. Hogan said the trio admitted plotting to arrange the point spreads in a number of LIU games.

Hogan identified the three as Adolph Bigos, 25, team captain, of Perth Amboy, N. J.; Le Roy Smith, 21, a negro, of Newark, N. J.; and Sherman White, 22, a negro, of Englewood, N. J.

At Manhattan, Kan., Kansas State Coach Jack Gardner, commenting on the December 2 game in Madison Square Garden, said:

"LIU did look ragged in the game, but it was the opener for both of us and we didn't think the ragged play was too unusual. It is true we closed fast on them."

These latter four players started talking Sunday afternoon after 21 hours of questioning by Hogan.

Gard was called in by Hogan during the questioning Monday night. Gard allegedly was the contact between the CCNY players and the gamblers.

Hogan said Bigos was the first of the three LIU players to break down. Soon White and Smith broke, Hogan said, bringing to seven the total number of New York basketball players involved in bribes charged with Sollazzo and Gard.

Meanwhile, Assistant District Attorney Vincent A. G. O'Connor said detectives Tuesday recovered \$5,000 from a Brooklyn safety deposit box belonging to Al Roth, one of the accused CCNY players.

Annual output of matches in the United States is 500,000,000, according to the Encyclopedia Britannica.

The choice of Texans PALE DRY IS THE REASON WHY!

What does 'Pale Dry' mean?

Pale Dry is the name for a new and specific kind of beer—pale gold in color, and sharply dry in flavor, as opposed to old-style, sweeter, darker beers heavy with malt and fattening solids.

How is it brewed?

The GRAND PRIZE master brewer uses only the very best hops, the finest malt, top-grade Texas rice, the purest strains of yeast culture and pure deep-rock artesian water in brewing GRAND PRIZE. It takes such quality ingredients to produce a truly *pale dry* beer. Every barrel of Pale Dry GRAND PRIZE is given abundant time to age.

Press Wires Obey New Florida Rule On Racing Results

MIAMI, Fla. —(AP)— Horse racing results from Florida tracks were delayed 20 minutes Monday by The Associated Press and other news services but bookmakers in the Miami area said they experienced no such lag in getting returns.

The Florida State Racing Commission ordered the delay Saturday in an attempt to curb bookmaking. Attorney General Richard E. Ervin, who recommended the delay, said it was too early to determine effects but results, if any, should be apparent by Wednesday.

Results of the first eight races at Hialeah Park were delayed an average of 22 1/2 minutes by The Associated Press in compliance with the commission's order. Results to the daily racing form, morning telegraph and other triangle publications were delayed similarly.

However, some bookmakers reported they had results about 12 minutes after the races were run. Officials of The Associated Press and other wire services criticized the order but observed it to the letter.

pressed surprise and concern at recent discussion over the parallel. They say the talk has helped confuse the basic issues of the Korean campaign and, perhaps, to raise false peace hopes.

MacArthur was speaking primarily to the British.

MacArthur also was telling allied diplomats they can try for a political settlement revolving around the 38th without feeling their conversations will be torpedoed by a sudden military thrust.

A senatorial redistricting bill was endorsed 15-2 a few hours later by a House committee. The measure already has been approved by the Senate.

Though a few members of both Houses still are bitterly dissatisfied with the reapportionment proposals, their chances of effective resistance now are slim. Many of the House and Senate members take this attitude: Let's not fool with the other House's plan, and they won't bother ours.

Single Money Bill
Another move to expedite the Legislature's work was made by the House Appropriations Committee. It voted to wrap up the "must" spending measures—those essential to operation of vital state services—in a single bill.

This would put appropriations for state colleges, courts, departments, elementary institutions and junior colleges in a single bill, instead of five.

Rep. W. H. Rampey of Winters, committee chairman, said the unprecedented action would make it possible for legislators to consider state spending from an over-all viewpoint.

"If we see we are going to be short of money, then we can cut all the state's functions a pro rata amount," Rampey explained. He thought inclusion of the five major appropriations in a single bill would make it easier to gain House approval.

A bill to ban sale of beer on Sunday went down to defeat in the House Liquor Regulation Committee Monday night. Three Austin ministers endorsed the plan, but the vote was 14-2 against.

Retarded Children
Bills to give deaf and blind and mentally retarded children a better break in education got sympathetic treatment. The Senate Education Committee favorably reported a measure to widen training provisions for exceptional children so the deaf and blind can attend public schools instead of special institutions. A bill extending state aid for special instruction for the mentally retarded in the public schools was recommended by the House Education Committee. A similar plan has passed the Senate.

The fight on over-loaded trucks flared again as a Senate committee heard arguments for and against a bill to require on-the-spot unloading by violators. But final action was delayed until further testimony is heard February 27. The measure has been approved by the House.

A \$6,000,000 building plan to give the state its own courts and office buildings was approved unanimously by the House State Affairs Committee. Rep. Bill Daniel of Liberty said his bill eventually would save the state hundreds of thousands of dollars now being spent on rental of office space in private buildings scattered all over Austin.

Red Radio Names American Prisoners
SAN FRANCISCO —(AP)— The Chinese Communist radio Tuesday listed 19 Americans it said had been taken prisoners of war in Korea. The broadcast gave these names: Cpl. Max L. Austin, Pfc. Hernon S. Ayeoth, Pfc. Charles E. Cranford, Pfc. Cecil L. Fleming, Sgt. Lawrence E. Lamer, Cpl. Gary E. Littlefield, Cpl. Jack L. Lawrence, Pfc. Othello Laury, Sgt. Matthew J. Murphy.

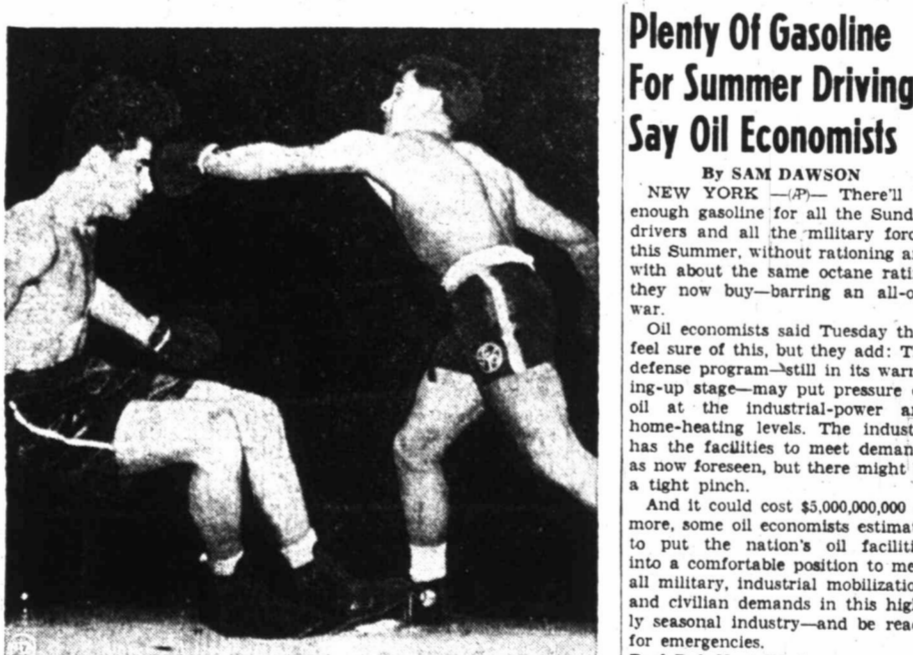

Sgt. Jim H. Ralston, Cpl. Robert J. Roberge, Pfc. Ronald C. Sparks.

ADMITTED TO HOSPITAL
Mrs. Charlotte Friberg, 1020 North Main Street, was admitted to Midland Memorial Hospital Monday as a medical patient.

Pfc. C. L. Wright, Nathaniel S. Thomas, Pfc. Bernard E. Wechman, Cpl. Garlyn Tupper, Pfc. Jimmy Terry, Cpl. Robert Toler, Cpl. Rodney O. Thomas.

ONE CAME BACK (BUT TEN GOT AWAY)—After sliding around on his belly under a basement house in Cleveland, O., Don Filmer, an agent of the Animal Protective League, came up with this two-week-old black puppy, hungry, shivering and whimpering. With only 12 inches of clearance for maneuvering, Filmer and his co-worker couldn't catch 10 other grown dogs living under the home of the Rev. K. R. Davis.

Optimists Hear Speech By Oswald

W. H. Oswald, Midland city manager, Tuesday told the Optimist Club at its luncheon that the character of a community reflects

the type of persons who compose the citizenry.

Oswald pointed to the City of Midland's growth as reflecting the progressive type of citizenry here. Jack Chase presided at the luncheon, held in Hotel Scharbauer. Jimmie Velvin reported on the Boys Hobby Shop project. He said the building will be moved onto the site at North Lamesa Road and New York Street this weekend.

Lee Holman gave a report on the progress of plans for a college football game here between Abilene Christian and Texas Western Colleges.

Plenty Of Gasoline For Summer Driving Say Oil Economists

By SAM DAWSON

NEW YORK —(AP)— There'll be enough gasoline for all the Sunday drivers and all the military forces this Summer, without rationing and with about the same octane rating they now buy—barring an all-out war.

Oil economists said Tuesday they feel sure of this, but they add: The defense program—still in its warming-up stage—may put pressure on oil at the industrial-power and home-heating levels. The industry has the facilities to meet demands as now foreseen, but there might be a tight pinch.

And it could cost \$5,000,000,000 or more, some oil economists estimate, to put the nation's oil facilities into a comfortable position to meet all military, industrial mobilization, and civilian demands in this highly seasonal industry—and be ready for emergencies.

Real Rub Next Winter
The nation is expected to want 10 per cent more gasoline this Summer than last. The oil industry has the facilities to provide it.

Military demand for gasoline will be only about five per cent of the total consumed. Last year the armed services took an average of 240,000 barrels a day, and this year's daily average may rise to 375,000. It need not affect civilian supplies.

The real rub—if there is one—would come next Winter. The rapidly increasing demand for oil products needed to power and heat the nation's expanding industrial plants, run its trains and ships, heat a sizable portion of its homes—all will reach the usual seasonal peak next Winter, with defense production needs added.

To meet the expected new record demands the industry must make and store more surplus fuel oil this Summer than it did last, oil economists are warning the industry.

Labor Leaders Lay Grievances On Line For Eric Johnston

WASHINGTON —(AP)— Top labor leaders carried their grievances to Economic Stabilizer Eric Johnston Tuesday, and Johnston called Cyrus S. Ching, chairman of the Wage Stabilization Board, into the meeting.

A wage formula approved 6 to 3 by Ching's board is one of the chief grievances of the labor group, the United Labor Policy Committee. Now awaiting approval by Johnston before it can become effective, the formula would hold wage increases to 10 per cent. Ching, arriving at Johnston's office, told reporters he had been summoned by telephone about 15 minutes earlier, and did not know what part he was to take in the meeting.

The three labor members of the board resigned after the wage formula was approved, but labor leaders have made it clear the formula was only one of their objections to the way the defense mobilization program is being handled.

Those who met Johnston Tuesday—at their own request—were the same four who visited President Truman Monday. They are: William Green, president of the AFL; Emil Rieve, president of the CIO Textile Workers; George Leighty, head of the Railway Labor Executives Association, and Al Hayes, president of the AFL Machinists.

Also present was George Harrison, Johnston's special assistant and also president of the AFL Railway Clerks.
