ARMISTICE IS SIGNED **WORLD WAR OVER**

THE GREATEST WAR OF ALL MONDAY AT 6 A. M.

THE KAISER AND STAFF FLEE

State Department Makes Announce ment, But Does Not Give Terms of Armistice.

Washington.-The greatest world war ended Monday morning at 6:00 o'clock; Washington time, being 11:00 o'clock Paris time. The armistice terms were signed at near midnight Sunday by the German representa-tives, empowered with full authority. This statement being made by the state department officials early Monday morning.

The statement is given out by the officals of the state department in the following form:

"The armistice has been signed. It was signed at 5 o'clock Mon-

day morning, Paris time."
The terms of the armistice not be made public until later. Millitary men regard it as certain that they will include:

Immediate retirement of the German military forces from France, Belgium and Alsace-Lorraine.

Disarming and demobilization of the armies. Occupation by the allied and Ani-

erican forces of such strategic points in Germany as will make impossible a renewal of hostlitties. Delivery of a part of the German

of submarines to the allied and American naval forces.

Disarmament of all German war ships, under supervision of the allied and American navies, which will guard them. Occupation of the principal Ger

man navai bases by sea forces of

the victorious nations. Release of allied and American soldiers, sailors and civilians held prisoner in Germany without such reciprocal action by the associated

governments. Forty-seven hours had been quired for the courier to reach Ger headquarters and unquestionably several hours were necessary for the examination of the terms and a decision. It was regarded as pos sible, however, that the decision may have been made at Berlin and in structions transmitted from there by the new German government.

There was no information as to the circumstances under which the armistice was signed, but since the German courier did not reach man military headquarters until 10 k Sunday morning, French it is generally assumed that the German envoys within the French lines had been instructed by wireless to sign the terms

Kaiser and Staff Flee.

Washington-William Hohenzollern arrived Sunday morning in Holland and is proceeding to Midnachten castle, in the town of Oesteeg, ac cording to a dispatch received by the American general army staff from The Hague, based on reports in the Netherlands capital.

dispatch said: "Press reports state that the kaiser arrived Sunday morning at Maastricht, Holland, and is proceeding to Midnachten castle, in the town of Oesteeg, near Utrecht.

Count von Reventlow Has Fled.

London.-Count von Reventlow whose pro German writings have appeared during the war in the Tage-Zeitung of Berlin, has fled to Den-

Formation of Polish Republic. Amsterdam .-- A meesage from Cra formation Polish republic under the presidency of Deputy Daszynsk. Professor Lammasch, the Austrian premier, has ceived official notification, says a dispatch from Vienna, that Poland has assumed sovereignty over Galicia. Galicia is a crown land of Austria-Hungary north of the Carpathians. It has an area of 30,307 square miles and in normal times had a popula tion of some 7,000,000.

Great Scarcity of School Teachers

Austin, Texas.-The demand for public school teachers over the state unprecedently great, according to Frederick Pby, Ph. D., professor of the history of education, university of Texas. He says that he could place 100 men as teachers of science Teachers of English and Spanish are also in demand. most cases men teachers are desire I. but a substitution of women is being generally made over the state during the absence of men in war work.

Copenhagen.—Friederich Ebert, the Socialist leader, has been appointed imperial chancellor. He has issued a proclamation saying that he plans form a people's government, ich will endeavor to bring about y peace. Chancellor Ebert he would endeavor to fortify the freedom which the people had won. He begged support in the hard work ahead and appealed for co-op-eration in the country and cities in the problem of provisioning.

ADVANCES MADE ON EIGHTY-MILE FRONT

FROM SIX TO TEN MILES FROM MONS TO SEDAN.

London-Friday was another good day for the allied armies in France. On the north the British pushed their line to a point between Mons and Maubeuge in an advance of six or seven miles on a front of 24 The French immediately ou their right advanced from five to ten miles on a front of 56 extending from near La Capelle south, then east via Mezieres, where they join the American line the outskirts of Sedan. There was a lut! in the activity around Se dan, except that the American a German artillery exchanged shells during the day. From Sedan southeast, in the region where the Am days ago, the American lines were northeast on a front of five or six British have crossed the

Scheldt at a point just south of Tournoy.

line now runs along the Scheldt from the Belgian borded to Tournay; thence northeast to a point between Mons and Mauneuce; thence due south to Bancigny; thence east via Meziere and Charleville to Sedan; thence southwest to the Swiss borac. There are thus two big salients in the line, one with the point near Tournay and the other with the point near Bancigny.

Hamburg in Hands of Rebels.

Amsterdam.-The great German maritime port of Hamburg is completaly in the hands of the revolu tionists, according to reports from Hamburg newspapers.

2,749,198,000 Bushel Corn Crop Washington. - Corn production this year will be 2,749,198,000 bush the department of agriculture has announced in its November crop report.

Autonomy for Asiatic Turkey People Paris.—The French and British governments have issued a joint declaration assuring the people tween the Taurus region and the Persian gulf of assistance in secuing full autonomy.

America Asked to Assist France New York.—An appeal to America to assist France in her reconstruction-with men, money, materials and ships-has been made by Andre Tardieu, general commissioner for Franco-American war affairs.

Telegraphers Get Wage Increase. Washington.-An order granting railroad telegraphers a general wage increase will be issued within a !ew days by Director General McAdon it was announced at the railroad administration. The advance is said to average about \$30 a month.

Germans Will Abandon Ghent.

On the Battle Front in Belgium. wireless dispatch has been ceived at the headquarters of General Beaurains from the Germans, saying they had decided to abandon Ghent and asking the Belgians not to fire on the suburbs of the town where white flags are raised

Raincoat Graft Defendants Acquitted

New York .- The C. Kenyon pany and six individual defendants have been acquitted by a jury in federal court here on charges of conspiracy to defraud the government in the manufacture of rain coats for the United States army. The jury deliberated eight hours b

jority in the next congress of at least two in the senate and of not less than 43 in the house is as sured from the scattering doubtful districts of last Tuerday's elections. On the face of now complete unof ficial returns, the political line u of the next house is as follows. Republicans 239, Democrats 194, In dependents 1, Socialist 1.

Naval Training Station Enlarged Great Lakes, Ill.-Whether the war ends or not, Great Lakes wil: not grow smaller. It is planned to make the station even larger than it is at present, with the expectathat there will be more than 50,000 men here throughout this winter. This announcement came from Captain William A. Moifett, to set at rest rumors concerning the future of Great Lakes and its men since indications became apparent that the war's end was at hand

Will Do Reconstruction Work.

Yonkers. N. Y.—The board of for-eign missions of the Methodist Episcopal church, in annual session here, reconstruction work. A large part of the fund, it was announced, will be used in the establishment in for students who were called into the army, and in alding Methodis: families whose bread-winners have been killed or wounded in the pres-ent world-war. CAPT. FR. PISECKY

Capt. Fr. Piecky of the Czeci Siovak army, is in America to recruit an army for service in France.

REPUBLICAN CONTROL OF SENATE INDICATED

FORTY-EIGHT SEATS ASSURED, WITH RESULTS IN MICHIGAN AND IDAHO DOUBTFUL.

Washington.-With the Michigan and Idaho senatorial contests still in doubt, late returns from Tuesday's elections give the Repub'icans a total of 48 senators—just ha'f the membership and lacking one vote necessary to insure control-and 46 the Democrats.

in Michigan, the Republican candidate, Truman H. Newberry, was reported to have increased his lead to about 6,800 votes over Henry Ford, with 125 precincts' records missing. In Idaho, the Democratic candidate, Senator Nugent, was credited with an increased lead of about votes over Former Governor Gooding, the Republican candidate

Closeness of both Michigan and Idaho contests, upon which Democratic or Republican control of the senate depends, were regarded as giving prospects of official counts and possibly contests later in the senate

Republican control of the house however, is now beyond all question. With only one district missing—the second Montana—the returns Thursday night showed: Republicans 238, Democrats 195, including one independent, Socialist 1. missing 1.

18,300 Limited Service Men Called. Washington-Provost Marshal General Crowder has called for 18,30 draft registrants physically qualified for limited service to entrain for camps between Nov. 25 and 27.

Germany's Finances Near Breaking. London-Germany's financial posi-tion is desperate and is now rapidly approaching the breaking point After she raised her eighth war loan her national debt, it is estimated, approached £6,000,000,000. It is assumed that since then it has reached £7,600,000,000. On June 23 last the reichstag adopted a vote of credit of 15,000,000,000 marks, which it was then declared would raise Germany's war debt to 139,000,000;

Washington. - Secretary has made public a message to the German government through the Swiss minister protesting against the reported intention of the Ger man authorities in Belgium to de stroy coal mines upon evacuation.

If the acts contemplated are carried out, the message says, it will confirm "the belief that the solemn assurances of the German govern ment are not given in good faith.

Demand Trial of Hun Commanders. London .- The names of all enemy army corps commanders or other persons who are known to have been guilty of or have encouraged cruelty to war prisoners, will be in-cluded in the list of persons whose trial and punishment will be demand ed by the allies, Sir George Cave, the british home secretary has announced. Persons who have ac-quiesced in actual cruelty by subordinates are likewise to be included in the list.

Massacre in Russia Set for Nov. 10. New York-The American Russian chamber of commerce has appealed to civio and religious organizations to civie and religious organizations throughout the ccuntry to protest against the massacre in Russia of all of the members of the bourgeoise which, according to cable dispatches last week the Bolsheviki intended to carry out on Nov. 10. The chamber has received information indicating that the Belsheviki also considered. ing that the Bolsheviki plan a mas-sacre on a greater scale than pre-vious advices have indicated.

At this time practically 200 wells are being drilled in the Brown county oil field near Brownwood.

Indications are that cattlemen of the Laredo section will soon have plenty of grass for their stock.

The top crop of cotton in the Luling as the first crop, it is stated.

The city of Palestine is now being supplied water from Spring Park Lake about two miles from the city proper.

One thousand bales of cotton were shipped from Cuero a few days ago to Japan, the freight alone amounting to

Many Mexican laborers have been brought from the border country to aid in harvesting Jefferson county's large rice crop.

Beaumont is planning to enlarge her wharf and dock facilities in participation of a larger maritime trade with the ending of the war.

The total amount of refinery prodnots shipped by water out of Port Arthur harbor in October was 2,486,787 barrels of 42 gallons each.

William Sprain of Pleasant Hill has been appointed a member of the board of managers of the Confederate Home at Austin by Governor Hobby.

Oil was struck in the Helen Eliza-

beth well on the Van Cleve, one mile east of the Burkburnett townsite, in Wichita county. The well is making 500 barrels. The peanut crop around Nixon

coming in and buyers are vying with 200 to 300 men. This aviation force one another in an effort to get the and our patrol vessels have been doing bulk of it. The price paid ranges from \$1.65 to \$1.75 per bushel.

Bell county was awarded first prize of \$200 for agricultural display at the Waco Cotton Palace. The prize money was added to the Bell county united war work campaign fund.

Miss Katie Daffan, who has been su

perintendent of the Confederate Wo man's Home at Austin since its organ ization in 1911, has resigned, and Mrs S. J. Thomas has been chosen to fill the vacancy.

State Pension Commissioner J. C. Jones announces that for the next pension quarter on November 30 Confederate pensioners in Texas will receive \$22, and the same amount will be paid in the succeeding quarter.

Large quantities of pecans are be ing shipped from Bastrop daily. The crop is the largest for a number of years and the nut is of larger size and better quality. Prevailing prices are from 18c to 30c per pound.

The turkey packing season opened Texas on November 8, the date set by the food administration, and in a normal year Texas ships to Northern and Easttrn markets between 150 to 200 cars of dressed turkeys. The tur key crop in North and West Texas is shorter this year than usual and the shipments will be much smaller. drouth in West Texas curtailed the turkey raising industry greatly.

For the purpose of asking the prior Republicans Have Senate Majority. Washington Sends Protest to Berlin ity board in Washington to grant pertages for homes in Houston, the Chamber of Commerce is now preparing data which will be forwarded to Wash plans the board will be asked to allow the erection of this number of houses, none of them to cost more than \$4,000 be granted, as the need for them is

> The registration clerk in the State highway department at Austin has just ompleted a compilation of the num ber of motor car licenses issued in each county of the State. These, including pir'es issued directly to applicants by county tax collectors, aggregated a total of 287,882 up to the close of business on October 31, 1918. Of this total about 40,000 have been removed from State, put in storage licensed under different numbers, etc. is estimated that there are about 250,000 "live" registered cars in the State at this time.

An alarming slaughter of Texas calves, baby beeves and immature hogs is in progress at Fort Worth, meat markets. An average of 1,000 to Fort Worth alone every day, although able stockers, calves and breeding stock back to such farmers as have the necessary feed, very few animals get back to farms. This condition has been going on steadily for two years, the situation being due to the prolong-ed drouth in West Texas,

OUR NAVY GUARDS COAST OF FRANCE

INTERESTING FACTS CONCERN ING ITS ACTIVITIES, TOLD BY FRANKLIN ROOSEVELT.

MANY STATIONS ESTABLISHED

Million and a Quarter Tons of Coal Saved by Daylight Saving Law-National Movement Started for Reclaiming Waste Materials.

(From Committee on Public Informa-

Washington.-Franklin D. Roosevelt, assistant secretary of the navy, in a atement since his return from a tour of American naval bases and stations Europe, described the work of the United States navy in the waters surrounding England, France, Italy, Greece and the Azores,

"Our operations on the British coast are fairly well known, but it probably is not generally realized that on the continent we have a large personnel on shore and have more stations in France than we have in all England," Secretary Roosevelt said.

"On the west coast of France we have a series of bases for the repair and upkeep of our escorting ships, destroyers, submarine chasers, etc. We have been using French facilities so far as possible, but in most cases we have had to erect complete plants so that these facilities are now more than double what they were before we went

"All the way from the Spanish border to the English channel we have established aviation stations so spaced that the entire coast line is covered by seaplanes and dirigibles. Nearly all these stations are situated at out-ofthe-way points, some on uninhabited islands, others in fishing vessels on peninsulas. Labor was almost impos-sible to obtain, so these stations were built almost entirely by our own sail-At each station there are from such splendid work that for the past six months there have been practically no sinkings within 50 miles of the French coast.

"At one point we have an immense assembly and repair base which em-ploys more than 5,000 men. An instance of the way in which every bit of material has been utilized is found in connection with this base where, before the erection of the permanent quarters, the men took packing cases which planes were shipped, and used them in building barracks which were very comfortable.

"In northern France, in co-operation with the British, the United States established what is known as the Northern Bombing Group. This was originally organized to bomb the German ubmarine bases on the Belgian coast. After the British had blockaded the entrance to those harbors, Germans were prevented from clearing the chan nel by the constant activity of these eviators who daily and nightly dropped tons of explosives on the submarine

"We have a considerable naval force at Gibraltar. In conjunction with the British this force not only patrols the Atlantic in that vicinity, but also is active in the Mediterranean escorting vessels to and from Italy, Greece and Egypt. In the Adriatic we have es-tablished a large group of submarine chasers and other vessels at work. In conjunction with the Portuguese we have established a base in the Azores.'

hension in this country as well as in France, Assistant Secretary Roosevelt said, as to the part taken by the American navy in transporting troops and supplies to French ports. Every flag is officered, manned and run by larger portion of supplies for the army essels officered and manned by the United States navy.

Nine enlisted men of the navy who volunteered to be inoculated with the serum of Spanish influenza to help medical officers gather specific facts re garding the disease and discover the means of combating it, have been com mended by Secretary Daniels. experiment was conducted during the prevalence of the epidemic in the first naval district, Boston, and the volunteers understood the danger to which they exposed themselves for the benefit

The test indicated that the disease is not due to a filtrated virus, as the results were negative. None of the men inoculated contracted the dis-ease. They were isolated for ten days after their inoculation.

As a measure against the furthe spread of influenza, war workers in Washington, D. C., are taken to their duty every morning by automobile in stead of in crowded street cars. The division of transportation of the governmental emergency commission work ed out the plan which, it is estimated or out the pian which, it is estimated, provides for the accommodation of 25,000 of these workers every day in privately owned automobiles that volunteer to "give a lift" to the me and women—especially the latt. The danger of traveling in cre. ded street ars is thus removed to them.

Contracts for motortrucks, chassis, ambulances, tractors, passenger cars, motorcycles and bicycles aggregating about \$130,000,000, have been placed with various manufacturers by the motors and vehicles division of the motor transport corps. The orders cover 38,-187 trucks and chassis of different sizes and types, and 3,584 ten-ton trailers and 150 four-wheel trailers. Orders for 150 four-wheel drives have been placed. Other orders include 18,000 passenger cars; 300 winter cars, 558 limousines, 3,000 delivery cars, 18,775 motorcycles, and 25,000 bicycles

There have been purchased for the use of the army in October and November 47,000,000 pounds (239,796 barrels) of flour, 17.000,000 pounds of which is for domestic needs. The re-mainder is for the troops in France. The purchases were made by the sub-sistence division of the quartermaster

More than 4,000,000 gallons of sirup have been bought for the troops over-seas for use with their "hot cakes" as well as for sweetening their pastry. In addition to these supplies the substence division has bought more than 100,000,000 cans of salmon—enough for the army's requirements for a year. About 80 per cent of this lot will go mated that 16 ounces of salmon are equivalent to 20 ounces of beef. Concentration of the product makes it particularly desirable in both mobile and trench warfare.

Consumption of coal was reduced by a million and a quarter tons during the seven months' operation of the "daylight saving" law, according to fig-ures compiled by the United States fuel administration. When the clocks were set ahead an hour, beginning Sunday, March 31, and ending October 27, the fuel administration planned to gather facts from many sources in various sections of the country to determine the saving in fuel likely to result from the operation of the law. These data have been compiled and form the of the estimate of the amount of coal

In one district from which definite facts were obtained it was shown that the saving of coal was 17½ tons per 1,000 of population for the period of seven months. These figures were checked against records obtained from other places in different sections having the same relative conditions, and from the information thus collated the estimate of 1.250,000 tons saved is reached. The fuel administration save that the "daylight saving" plan in European countries has been effectual chiefly in the seven longer months.

A national system for the collection and disposal of materials which it is most desired to reclaim at this time, such as paper, cotton and woolen rags, steel, copper, brass, zinc, rubber, tin, leather, lead, tin foil, etc., has been organized and a working plan for ev community, including towns with 5,000 population and outlying districts, as well as large metropolitan

centers, has been formulated.

This system will be administered by the war prison labor and national waste reclamation section of the war industries board. It is expected that children will gather paper and rags and every family join in the movement and help their local reclamation council when it begins the work. With the organization of the local councils, through the war prison and national waste reclamation section, collection and disposal will be arranged for every household, apartment, department store, office building and city, state and federal institution.

Distribution of 20,000,000 food cards among American housewives will be made by the United States food admin istration on December 1. instead of October 27, as was originally planned. The spread of influenza and the consequent ban on all manner of public gatherings and activities, including patriotic work, prompted the postponement of the campaign.

The new card will contain no regu-"meatless" days, but will urge as a whole the careful saving of all edibles, particularly wheat, meat, fats and su gar. It will be necessary for the Unit-ed States to send 5,750,000 tons more of foodstuffs to the allies this year than last, with an almost staggering total of 17,500,000 tons in the coming year, in order that 120,000,000 people of these allied nations sitting at 'common table" with America may have stamina to bring the war to a conclusion if peace is not meantime obtained by Germany's surrender.

Destruction of rodents in Montana during the past season has saved \$760,000 worth of crops at a cost \$82,800, according to a report iss by the department of agriculture, work of ridding the farms pests was carried on in 25 Two hundred and seventy ix tons of poisoned oats were use six tons of numbers of ground suirrels, prairie dogs, rats and mice were destroyed.

dogs, rats and mice were destroyed.

Nearly 400,000 toet of yellow pine lumber have een cut and transported by rall and water to shipyards on the Atlantic oast and the Gulf coast for the contruction of wooden vessels under the direction of the United States Shipping Board Emergency Fleet cortoration. With this amount of lumber, it is pointed out by the way of illustrating its immensity, the Atlantic ocean could be spanned from the American to the French shore—3,000 miles or more—with a bridge fleor 25 feet wide and 1 inch thick, with about 4,000,000 feet to spare.

The KITCHEN CABINETER

O, love is the need of the world:
Down under its pride and its power,
Down under its lust and greed for the
joys that last but an hour.

-E. A. Wilcox.

A FEW OATMEAL DISHES.

HE use of oatmeal in various ways help us to save the precious wheat which we are so anxious to

Scotch Soup .- Take two and one-half quarts of water, one of ontmeal, five pott-

toes cut in small pieces, two tablespoonfuls each of corn flour and fat, or out flour or barley may be used. Boil the water, add the outmeal, potato, two silced onions, a tablespoonful of salt and pepper to taste. Cook for a half-

Oatmeal Brown Betty.-Take two cupfuls of cooked oatmeal, four chopped apples, one-half cupful of place.
raisins or dates, one-half cupful of Date of the oatmeal in a buttered dish, add

and one and a half cupful of flour.

and one and a half cupful of flour.

and a tablespoonful of shalt. Pour over all these ingredients a pint of potato water or scaled milk; add a yeast cake This makes one dozen cakes.

A cupful of cooked oatmeal added to the usual bread sponge will be found to make a most tasty bread, or uncooked oatmeal may be scalded with milk or milk and water, letting stand covered for a half-hour, then add to the bread sponge.

To be truly happy is a question of how we begin and not how we end; of what we want and not of what we have... Stevenson.

SEASONABLE DISHES.

HEN cider cannot be obtained in the market, cut up a plnt or two of inferior apples -windfalls are fine used in this way—and grind them through the meat chopper. It is a little work, to be sure, but well worth

the trouble, for you may have a cupful or more of cider to use in mincement or for cooking ham. There is no more delicious way of serving ham than to cover a thick of ham, after browning it well, with cider and let it simmer for an hour on the back part of the stove. The meat will be very tender and especially well flavored. Serve sprin-kled with minced parsiev.

kled with minced parsley. Pickled Onlone.—Put s pickling onlons into a jar after peeling them; add mixed spices and cover with good vinegar that has been bolled and cooled, using one tablespoonful of to a quart of vinegar. brown sugar

Cake Crumb Dessert .- Take two cupfuls of sponge-cake crumbs and brown in the oven. Place in sherbet glasses and cover with fruit sirup; serve garnished with a spoonful of whipped cream of marshmallows cut in bits

Ham Tomato Toast.—Fry a tablespoonful of minced pepper and half tablespoonful of minced onion in two ta blespoonfuls of butter; add two tablespoonfuls of flour, a tenspoonful of su-gar, one-half tenspoonful of salt and a few dashes of pepper, one cupful of tomaco puree and a half cupful of minced ham. Serve hot on well-but-

intil the apple is cooked. Scalloped Cabbage.—Cut 'e, but-head of cabbage fine with a knis 'ayer ter a baking dish and put in a wad of shredded cabbage. Cover with bre crumbs, sprinkle with salt and per per and bits of butter. Repeat this until three cupfuls of crumbs are used.— Pour over a pint of sweet milk and bake for an hour.

CONSERVATION RECIPES.

AKE your jelly in the winter, when we hope sugar will be more plentiful, by preparing the fruit now in the usual manner; strain the juice and boil for twenty minutes a quart or twe at a time. Seal while

ing hot in sterilized be boiled with equal parts of sugar for three to four minutes, then turned into glasses.

Pie Pumpkin, Canned,-Cut the hour. Brown the flour with the fat and add to the soup. Cook until thick, add one cupful of strained tomato and quart, and after partial sealing, cook in hot water one and a half Seal tightly and keep in a cool dark

Date Barley Muffins .- Take two tabrown sugar, and a fourth of a tea-spoonful of cinnamon. Place a layer egg. one cupful of sour milk, a half teaspoonful of salt, two and one-half cup pple, raisins and cinnamon and sugar; fuls of barley flour, two teaspoonfuls repeat until all is used. Bake in a of baking powder, one-half tenspoon-moderate oven long enough to cook the ful of soda, and one-half cupful of stoned dates. Bake in greased muffin Scotch Oat Crackers.—Grind two pans one-half hour.

Griddle Cakes .- Mix together one cupful each of milk and molasses, one cupful of cooked rice, two beaten eggs, two cupfuls of sour milk, one cupful fourth of a teasponful of soda and a of corn flour, a tablespoonful of melt-teaspoonful of salt. Roll out in a thin ed fat, one teaspoonful of soda, and sheet and cut in squares; bake twenty the same of salt. Beat well and fry

Ipe will make three dozen crackers.

Spiced Oatmeal Cakes.—Heat onefourth of a cupful of molasses to bolling; add three tablespoonfuls of fat;

Cover and let stand a half-hour. Place add one-half cupful of cooked oatmeal one-half cupful of molasses in a bowl. a teaspoonful of soda, one-half tea-spoonful of cinnamon; beat well and warm water. Mix all together adding bake in muffin pans thirty minutes. six or seven cupfuis of whole-wheat When light mold into three flour.

> Honey Salad Dressing.—Beat the yolks of three eggs, add three tablespoonfuls of honey, and three of lemon-juice, one-half teaspoonful of salt, a few dashes of paprika, three tablespoon-fuls of oil; cook until thick, beating with a whisk beater. Cool and add few spoonfuls of whipped cream be fore serving.

Rejoice in all the honors which come to those you know. That you know them makes you in a sense a partner in their fame; that you rejoice with them brings you their friendship.—Henry Worthington.

GOOD THINGS FOR THE FAMILY.

Barely and of molasses and a which a tablespo mustard have been half-teaspoonful of the fire. Sift together the flour, sugar, cinnamon, soda and salt and combine the two mixtures. Turn into greased the two mixtures. Turn into greased the two mixtures. Turn into greased the top and bake in a quick oven until the apple is cooked. A small about eighteen minutes.

the two mixtures. Turn into greased tins, sprinkle with nuts and sugar over the top and bake in a quick oven about eighteen minutes.

A most delicious confection may be made of honey, lemon rind and juice with blanched chestnuts, cooked in the sirup until thick. Bottle for use as a garnish for sherbets, ices and puddings.

THIS BARN GIVES **IMMENSE STORAGE**

Ground Floor Will House 28 Cows and Six Horses.

IS TWO STABLES IN ONE

Barn of This Type Must Be Used Before Its Many Conveniences and Economies Can Be Thoroughly Appreciated.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill. and only enclose three-cent stamp for reply.

Better farm methods require better buildings, not necessarily expensive stable. Manure is worth a great deal ones, but buildings that are well more when it is drawn immediately planned and properly adapted to the from the stable to the field. This barr work for which they are intended. A farm building should be first a property saver, second a labor saver. Farm

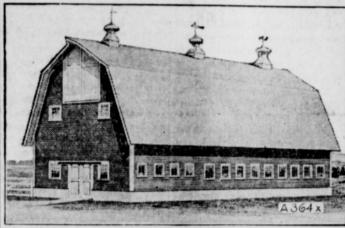

feed overhead. It leaves a clear space for the horse fork, which works freely from one end of the building to the other. Roofs like this are compare tively new. The first ones built were not strong enough to stand heavy winds, and some of them blew down, but there has been no such trouble recently. If properly braced each side forms a truss and the two trusses meet

together at the peak.

There are hay chutes at the sides for putting down hay and bedding and there is a stairway for convenience in getting up and down.

To help out at feeding time there hould be a silage carrier to run from the silo down the different alleys to distribute the feed. If a farmer wants to know the number of miles traveled about the stable it is only necessary to figure the number of trips and steps taken each feeding time, then multiply this by the number of feeds during If every dairyman would do winter. this the location of some silos would be changed. The amount of travel will surprise those who have never thought about it. This is one rea-

son for placing the sile at the side. The manure alley in the center is wide enough so it is not necessary have a pile of manure outside of the

as a necessary expense, but on the ated. In effect, it is two stables in other hand they should be considered one. in the light of an investment. the

A farm barn is the farmer's factory. It is a building in which he converts raw materials into manufactured products. In a dairy stable he takes cheap feeds and manufactures them into expensive cream and butter. In feeding stables and hogpens he manufactures high-priced breeding stock. as well as good beef, mutton and pork out of cheap grain and cheaper roughage.

It makes a great difference in the profits whether this barn factory is so constructed that the animals may be comfortable enough to make the best possible use of the feeds given them. Profits are also seriously affected by the labor problem. Barns and stables may be so arranged as to conserve laor or to waste labor. In selecting a plan the farmer him-

self must be the judge of what he needs. The kind of farm building best adapted to one part of the country is not suitable for another. Two farms adjoining need different buildings, be-cause the kind of farming differs with individuals. One farmer makes a great mistake by blindly copying what another farmer uses to advan-tage. Every building requires careful study to fit it into environments of the farm and the peculiarities of the man.

In building, by all means secure services of the best mechanics within reach. Their wages are a little higher, but they seldom spoil material, and the job is almost always more satisfactory in the end.

Judgment is necessary in buying materials; generally speaking, the best is the cheapest, but it often happens purpose just as well, while effecting considerable saving in cash.

Farmers may save a great deal by tetting rendy weeks, or months before building. Putting up even small building runs into a great deal Often the time required of work. is more than twice as much as the estimates. By having everything on the ground confusion is avoided, as well as the unnecessary expense of retting things together in a great hurry, often at an inconvenient

feet long and will accommodate 28 cews. There is also space for several

The manure gutters and floor for cleaning is in the center, so that in this stable the cows face outward. This arrangement makes it easier to remove the manure and the plan is liked by some dairymen.

The balloon roof construction makes It possible to store a great deal of

buildings may be considered in a sense reconomies can be thoroughly apprecione. The horse barn, as should be the rule, is shut off from the dairy sta-

ble by tight partitions and solid doors. Room is provided in the tremendous mow for the storage of sufficient forage to last through an ordinary winter season. Any surplus hay product, however, may be stored to excellent advantage in a hay shed. The plan for this barn may be modified, if desired, by creating more space for horses, or by eliminating the horse barn feature entirely and making a dairy barn of the entire structure.

BELIEVED BY MANY BRITISH

Legend Connects People of the "Tight Little Island" With the Lost Tribes of Israel.

There is a small group in England who believe the British are the lost ten tribes. Victoria is said to have been interested in the idea that the reason for her being crowned in a chair under which lay the Stone of Destiny may have stretched directly back to the Son of Isaac. The legend is that before the Scottish kings crowned on this stone it was in Ireland, whither it was taken in the fifth century before Christ. This was the stone used by Jacob as a pillow

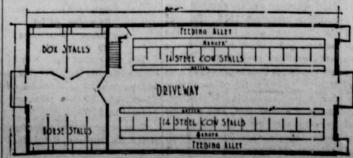

Norman Hapgood, in Leslie's Week-ly, has the following to say regarding the subject:

"The theory that the British are the lost ten tribes has two coinciding lines. One brings to Britain the tribes never restored after the Captivity. It is the earlier captivity that is taken to affect the British population as a whole. The ancestors in this case would be Israel, the northern branch of the Jews. The other line of the legend deals with a later period when the southern branch of the Jews were scattered. There being no male descendants, the crown went through the daughters. Ultimately these turned up in Ireland, and Vic toria was descended from them through the Irish kings. At one time a member of the house of lords and a lonial bishop of the Church of England were included among the be

"The principle of these legends is "The principle of these legends is same that causes most legends to find the nucleus of any given nation in some wanderer from Trov. Before history became in any way exact, these attributions, both re-

SOME ADVANTAGES OF DAIRY

Sale of Products Furnishes Steady In-Throughout Year-No Fluc-tuation of Market.

(Prepared by the United States Department of Agriculture.)

1. The sale of dairy products furnishes a steady income throughout the year. The farmer who depends upon crop sales for his income usually makes the bulk of his sales during one or two months of the year, while during the rest of the year he has no cash income. Such a system requires long credits in the community.

2. The market for dairy products fluctuates very little year by year as

compared with other farm products.

3. Through the return of manure to the land the fertility and physical condition of the soil may be maintained at a high level and crops increased. Even after many years a properly maintained dairy farm has constantly increas ing crop yields instead of decreasing

4. In dairying, labor may be utilized at a more uniform rate throughout the

A Good Dairy Herd Gives the Farm Many Advantages.

ear than in nearly any other farm business. The grain grower, for example, may have to employ much addi-tional labor at harvest time, but so far as the dairy is concerned the dairyman has about the same duties to per form every month of the year. Thus, less help is required seasonally and

ermanent employees may be kept.

5. Through the dairy cow many un salable roughages may be transformed into products from which cash may be realized. Grass hay, corn fodder and other roughage which may not have a ready sale are economically utilized by the dairy cow. Land which is not suitable for cultivation can be utilized for pasturage for dairy cows.

FALL FEED FOR DAIRY COWS

If Not Well Fed at This Time Animal Will Go Into Winter Season Thin in Flesh.

(Prepared by the United States Depart

ment of Agriculture.)
The wise dairyman will feed liberally during the fall months. Cows which are not well fed at this time will go into the winter thin in flesh and with reduced milk flow. It will be expensive and largely in vain to attempt to bring them back to normal flow af-ter they go on winter rations.

and hay early. The extra feed given at this time will not only bring good, immediate returns, but affect the mik whole year by putting the cow in good condition to go through the winter months. Cows which go into the winter to good vitality and with undiminished milk flow are ones which will make most econe ase of the high-priced feeds given them during that period. Keep up the milk flow during the fall months by proper feeding. It will pay.

Cold, uncomfortable cows will not make economical use of feed. Their highly developed nervous systems are very susceptible to sudden changes in temperature. This should be borne in mind in the fall when the first cold rains and cold winds come. Protection in milk flow which they always cause. Do not waste feed by letting your cows stand out in cold winds and rain

IMPORTANCE OF DAIRY BULL

Good Animals Should Be Utilized to Fullest Advantage to Increa Milk Production.

(Prepared by the United States Department of Agriculture.)

On account of the present er it is particularly important that good dairy bulls should be utilized to the fullest advantage, for more can be accomplished in increasing milk pro-duction and making it more economical in this way than in any other.

Cleanliness is Essential. first essential for keepin any length of time is

THIS WEAK, **NERVOUS MOTHER**

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so machabout Lydis E. Pinkham's Vegetable Compound my husband wanted me to try it I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHINE, 2842 North Taylor St., Philadelphia Pa.

Philadelphia Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

For Long and Happy Life. Be patient. Keep sweet. Do not fret or worry. Do your best, and leave results with God.

WHY WOMEN DREAD OLD AGE

Don't worry about old age. Don't worry about being in other people's way when you are getting on in years. Keep your body in good condition and you can be as nale and hearty in your old days as you were when a kid, and every one will be glad to see you.

The kidneys and bladder are the causes of senile afflictions. Keep them clean and in proper working condition. Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL Haarlem Oil Capsules periodically and you will find that the system will always be in perfect working order. Your spirits will be enlivened, your muscles made strong and your face have once more the look of youth and health. New life, fresh strength and health will come as you continue this treatment. When your first vigor has been restored continue for awhile taking a capsule or two each day. They will keep you in condition and prevent a return of your troubles.

There is only one guaranteed brand of Haarlem Oil Capsules, GOLD MEDAL. There are many takes on the market. Be sure you get the Original GOLD MEDAL. Imported Haarlem Oil Capsules. They are the only reliable. For sale by all first-class druggists.—Adv.

A CHILD GETS SICK CROSS, FEVERISH IF CONSTIPATED

LOOK AT TONGUE! THEN GIVE FRUIT LAXATIVE FOR STOM-ACH, LIVER, BOWELS.

"GALIFORNIA SYRUP OF FIGS"
CAN'T HARM CHILDREN AND
THEY LOVE IT.

Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhœa, remember, a gen tle liver and bowel cleansing should always be the first treatment given

Nothing equals "California Syrup of igs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, deli-cious "fruit laxative," and it never to effect a good "inside" cleans-Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little keep it handy in your home. A little given today saves a sick child tomor-row, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."-Adv.

It is foolish for a man to boast of

VILE TASTE BLISTERED MOUTH

Oklahoma Lady Had Dreadful Time Before Finding the Right Remedy-Black-

Draught.

Seward, Okla .- Mrs. Annie Bowlby, of this place, says in a letter written for publication: "I have used Black Braught for two years, or more, and will never cease to be grateful for what it did for me and mine

Some time ago, my mouth broke out with blisters. I had a vile taste in my mouth, all slick and disagreeable. I emed to have a great deal of inward fever. I suffered with my back and

I was so nervous, it was dreadful. I would almost cry-I suffered so. I had gas on the stomach and pains but, as I said, the pain and . . . trouble was most severe. I had the doctor and used several medicines without

Still burting and suffering, I began Thedford's Black-Draught, making it into a tea, and using a teaspoonful dose at a time in hot water. I gradually got better, my down and I have never had any more trouble of this kind.

There is no other medicine so good as Black-Draught.'

You will say that, too, when you have given Thedford's Black-Draught a trial.

Buy a package today. All druggists sell Black-Draught.

CLOQUET, MINN., BESTRUYED BY GREAT FOREST FIRES

CHATEAU-THIERRY TAKES UP TASK OF RISING FROM "CITY OF ASHES"

Refugees Returning to the Little Left by Heartless Hun-Already Small Storekeepers Are Operating at Full Blast-Germans Chased Out Too Fast to Take Their Loot With Them-Where Marines Wrote Themselves Into Fame.

Paris,-"Chateau-Thierry," repeated Paris, "Chateau linery, marine officer and smiled at me pity-marine officer and smiled at me pity-marine officer and smiled at me pity-marine boys who journeyed it those had tagly. "Yes, that was interesting a July days when they started forward hands. month ago. A Boche potted me there and I'm just going back to join my

But he was wrong. There are Germans marching through the streets of Chateau-Thierry every day-German prisoners armed with shovels and picks who are cleaning out the wreckage and desolation they left in their path when they evacuated the city on July 22; proud Prussians who are wielding scythes to harvest the crops in the fields that they called "Unsera month ago; mild-faced boys from the south of Germany who seem mops and scrub brushes to carrying

And as for the interest of Chateau-Thierry, the curious have visited the field of Napoleon's Waterloo for sevral centuries. They will visit the Waerloo of the Boche march on Paris in 1918 for several more centuries and thrill with every century at the story of the battle on the outskirts of that city where American marines, artillery and infantrymen started the Huns on their run for Berlin-and gave them such a good start that the goal is getting hotter each day.

War Activity Everywhere

It takes just an hour and a half by rail from Paris to reach the outposts of the battlefields of yesterday; an hour and a half that runs by like the fast reels of a cinema with hurried their machine guns. glimpses of passing trains loaded with We saw lots of horses, with cattle, with big guns and from diers wearing dust-colored uniforms: of hospital trains marked with red crosses and groups of civilians hurryhomes in the reconquered districts. At one of the stations the marine officer swung off to join a knot of men whose backs were londed with the trouble of burying those men. Many of the shell holes had a sickly greenish bue, the mark of gas which poisons even the backs were loaded with marching equipment, showing that they were going "up the line." War was written in large letters over every human activity, but off to my right was the Marne, sleepy and peaceful, flowing Marne, sleepy and peaceful, howing quietly through valley fields, hiding behind gentle slopes covered with were at Solssons and Reims. They were at Solssons and Reims. They having found that only one side of his h

in the station where a Boche plane, swooping down within a few hundred yards of the mark, dropped a half dozen bombs just a few nights ago. And from there an suto road, pocklages, lifeless and deserted, to Lucyle-Bocage and Belleau woods, where showed

puddles about the little heaps of broken glass that strew the ground.

The few seconds about the little heaps of the Germans who had taken refuge in the cellars.

one, was searching among the de-, and plasterers at work making ments of glass were all that he had courtyard, and further down the road found to restore in his temple.

in the face of murderous machine gun fire to smoke the Boches out of the men. But you won't find it interesting now. All the Germans are gone." stronghold that assured their footing in Chateau-Thierry.

I climbed over graves and shell A holes, through underbrush and past was isolated bits of barbed wire entan-glements into the heart of the woods, where the Boches had their dugouts. And at every step of the way, diffi-cult to traverse even now when it has been trampled over and cleared out since the battle, I wondered at hidden machine guns and unknown horrors lurking in the shadows.

A group of dugouts off to the right as well concealed by rocks and underbrush and I paered down into several of them. The openings were just big enough to permit a man to wriggle through on his stomach and inside was a little straw and perhaps battered helmet or rotting gas mask. A good hole for a dog, if the dog wasn't particular-but the con-

and the sanitary troops that came through after the battle were spared semiprotection for machine gunners.

Wrote Themselves Into Fame

When the Germans entered Chateau whent and splashed with vivid popples, and emerging again from a clump of thick trees and heavy underbrush.

At La Ferte there is a great gash club state of the state of the

The marines of the American divisions which turned the scale of the marked by shell holes, runs through fighting, wrote themselves into fame fertile country and pink-roofed vil. by taking Belleau woods. The other troops of the divisions, eager for a similar chance of distinguished serv ice, were "allowed" to take Vaux, diworld just what fighting stuff the rectly to the west of Chatenu-Thierry, which became the pivot point for the "Lucy" keeps open house for all scissors that squeezed the Huns from the village, but they say house left in the village, but they sag heavily on the village to bits and then the infanrusted hinges. Windows are open trymen, armed with maps which had been drawn by an old stone mason of ains drive at will, leaving facetious the village, marched in and corralled

The few roofs left look apologetic in the midst of the ruin about them.

The village huddles about a little church that has been pitilessly battered to ruin. Only bits of the walls are left but in the midst of the weekage rises a tall crucifix unspectated. The altar of the small chapel on the right side had been cleared off and the old abbe, tolling alone, was searching among the design and plasterers at work making houses. bris for precious relics. A prayer habitable. A group of red-fezzed Mo-book and a few pathetic little orna- roccan soldiers were clearing out a

Guarded by the Dead.

From Lucy-le-Boeage to Belleau city itself, crossing the substitute for the dead, whose bodies were covered where they fell and marked by simble wooden crosses on many of which the soldier's trench helmet has been hung. It was the way of the cross for the were ltalians repairing shell holes.

Another turn and we were in the city itself, crossing the substitute for the famous stone bridge over the Marne that the French were ten years in the building, but which the Americans blew up in ten minutes to himself was the way of the cross for the We climbed on up to a hillion from

which we overlooked the river and

Malicious Destruction.

The towering cathedral steeple had offered a gunner's mark which had not been overlooked. The spire of the Hotel de Ville also had been shot and the weathercock hung at half-mast. In the square about the city hall the houses had been shelled to ruin. A radiator stood out in midair from one of them. On the second story wall of another hung a large portrait of a Bombs and shells had torn their roofs and afterward when I walked through the city streets I realized that the work of destruction had been completed by malictous Furniture had been smashed and thrown into yards and streets, pletures had been ripped from frames, and even kitchen utensils had been thrown out to rust.

A large part of the loot of the city ras recovered when the Germans were hurriedly forced out, and a nurse in an American Red Cross hospital which followed the allied troops into Chateau-Thierry told me of seeing great sacks filled with gold and silver cups, candlesticks, tableware and orsince the battle, I wondered at the naments of every description which courage of the boys who had faced had been stored there in the kospital hidden. hidden machine guns and unknown and left in the retreat. The hospital, originally for French civilians, has human jawbone lay at the doorway of a hunting lodge which had been desperately contested for and from the underbrush near by protruded the boots | Boches that it took ten days to clean it out.

Up back of the hospital are the grounds of the ancient chateau for which the city was named. They once belonged to the duke of Thierry, who was one of the famous seigneurs of the early eighth century. I climbed through subterranean passages there which were built by his vassals that he might escape to the other side of the Marne whenever his enemies ducting officer with me during a to accommodate five men during a bombardment or barrage. When the barrage was lifted the men would come out and go to work again with their machine guns.

We saw lots of dugouts, however, Germans never Germans never dependence of the collars with thousands of bottles which the Germans carried up there and there are old stone during an protection during an an protection during an protection dur and emptied. And there are old stone mortars that the inhabitants claim date back to the battle of Crecy, with empty cartridges from Boche guns lying beside them.

A city of desolation is Chateau Thierry, but a city whose wounds already are beginning to heal. It es-caped total destruction because since German troops were on one side of the river and the allied troops on the other the artillery on both sides was prevented from direct operation; and so civilians are coming back. The the other side and preparing to turn out news for those who are returning. Every scrap of clotb and linen in hi ouse was carried off and much of the furniture destroyed, but he found silver which he buried in his back yard before he fled with his wife, and his wife has found a job cooking for American military police who are sta-

tioned there. A millinery shop has opened up and there is another little store of "notions," where perfumes and nail polish are on sale. Fruit stands and peese shops, butcher stores and postcard venders are operating at full blast on street corners or in drafty rooms that open on the streets, guiltless of protection of glass or even windows or doors in many cases. The more habi-table houses have been cleaned out and are being used as headquarters for the military officials.

Important to all Women

Thousands upon thousands of womer have kidney or bladder trouble and never suspect it.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer pain in the back, head-ache and loss of ambition.

Poor health makes you nervous, irrita-ble and maybe despondent; it makes

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women.

Many send for a sample bottle to see what Swamp-Root, the great kidney liver and bladder medicine will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the medium and large size bottles at all drug stores. Adv.

DRUGGISTS!! PLEASE NOTE VICK'S VAPORUB OVERSOLD DUE TO PRESENT EPIDEMIC

Tremendous Demand Last Few Days Has Wiped Out Excess Stocks That We Had Estimated Would Last Until Next January. Last Week's Orders Called For One and Three Quarter Million Jars-Today's Orders Alone Amount to 932,459 Jars.

Big Shipments Are En Route to Until These Arrive There May Be a Temporary Shortage. All Deals Postponed -Buy in Small Lots Only.

RETAILERS CAN GET IMME-DIATE SHIPMENTS DI-RECT BY PARCEL POST.

This advertisement is written on Monday, October 21st. It is directed to the attention of all distributers of VapoRub, both wholesale and tions stricken by Influenza. We, therefore, call your careful attention to the following:

DANGER OF SHORTAGE IF SUP PLY IS NOT CONSERVED

On Occober 1st we had on hand, at scattered over the country, sufficient VapoRub to last us, we thought, until January 1st, allowing for a 50 per cent Increase over last year's sales, and not counting our daily output. This big stock had been accumulated during the summer months.

Then this epidemic of Spanish Influenza hit us—and in the last ten days this stock has vanished. At first we thought this tremendous demand would last only a few days, but the orders have run;

Fri., Oct., 18.....39,256 doz. Sat., Oct. 19.....45,833 doz.

Mon., Oct. 21.....77.705 doz. Up to Saturday, October 19th, we have actually shipped for this month \$400.284.10, or over two million jars of VapoRub.

THE PROBLEM NOW IS TO DIS-TRIBUTE VAPORUB QUICKLY.

Most of this tremendous quantity is till en route to the jobbers, but freight and express are both congested nowadays, and it may be som time before this supply reaches the jobbers. In the meantime, therefore, it is necessary that we distribute, as widely as possible, the stock that we are manufacturing daily, together with that now on the jobbers' and retailers' shelves, in order that it may get to fore that is producing.

DRUGGIST TO DO.
Last Saturday we notified all of our
bbbers, by Special Delivery, as fol-

quantity orders of any kind, whether

quantities as possible. If you are out we will try to ship a limited amount by Parcel Post or express, and pay the

harges ourselves. 3rd-In order to make distribution still quicker, we will ship direct to your retail customers quantities not nore than three (3) dozen 30c size at any one shipment.

and will be for the next ten days.

WHAT WE ASK THE RETAIL DRUGGIST TO DO.

Buy in as small quantities as poble. If you have any quantity orders, given the jobber's salesmen or given them-no need to write us-it is absoretail. In an emergency such as the lutely impossible to fill these orders at this time. If the jobbers in your duty—is to distribute VapoRub in the quickest possible manner to those seements of the property of the propert paid, quantities not more than three (3) dozen 30c size in any one order. Naturally, we can't open accounts at this time, so your check or money order for this amount must accompany order. Don't write us stating to thru your jobber, as we then have to until we write this jobber and get his O. K. If you wish the goods to come thru your jobber, have him order them for you.

SNOWED UNDER WITH CORRE. SPONDENCE.

Our force has already been pleces"—twenty-four of our men are wearing Uncle Sam's khaki—and this recent rush has simply buried us. All help in the office and factory. We just mention this so you won't hold it against us if your wires and letters aren't answered promptly.

SPECIAL BOOKLETS ON SPANISH INFLUENZA.

We will send, on request, to any re tail druggist, 100 or more little book-lets, just issued, on Spanish Influenza, giving the latest information about this disease—its history—the symptoms-the treatment, and particularly the use of Vick's VapoRub as an external application to supplement the physician's treatment.

NEW WAYS TO USE VAPORUB.

In addition to the usual method of ising VapoRub-that is, applied over the throat and chest and covered with hot flannel cloths—our customers are writing us daily telling of their success in using VapoRub in other ways. particularly as a preventive. the Influenza districts quickly. Our vapors arising, or melt it in a memorial normal output is about 4,000 dozen steam kettle. Where the steam kettle is not available, VapoRub can be used is not available. Fill the teain an ordinary teakettle. Fill the tea-kettle half full of boiling water, put in WHAT WE ASK THE WHOLESALE half a teaspoon of VapoRuh from time to time—keep the kettle just slowly boiling and inhale the steam arising.

According to a Bulletin just issued by the Public Health Service, Dr. 1st—Deals and quantity shipments Stiles recommends that the nose and of all kinds are cancelled. Fill no substance. For this purpose VapoRub taken by our salesman or by your own. is excellent—just put a little up the Sell in small lots only. Sell in small lots only.

2nd—Order from us in as small well back into the air passages.

LESSON FOR NOVEMBET 17

JACOB FLEEING FROM HIS ANGRY

LESSON TEXT—Genesis 28:10-22.
GOLDEN TEXT—He have not dealt with us after our sins, nor rewarded us according to our iniquities.—Psaims 193:10.
ADDITIONAL MATERIAL—Genesis 27: 62-28:9.
The motive which moved Rebekah

to send Jacob away was a mixed one She realized that Esan's anger was hot eminst Jacob, even to the point where he was likely to kill him. She further knew that justice would have to be meted out to him, and thus she would e bereft of them both. Then, too, she realized that if Jacob remained n that land he would likely marry a neathen woman and thus defeat God's surpose regarding the covenant nation. This latter she pressed upon Isaac as

motive for sending him away. 1. Jacob's Flight (v. 10).

He was fleeing from his outraged brother. His flight was necessary to save his life. He seems not to have zone the common road, so as to be less ikely overtaken by Esau, should he pursue him. Through forced march he reaches Bethel, a spot nearly fifty niles away, by nightfall.

II. Jacob's Vision (vv. 11-17).

Jacob's soul was peculiarly tested. He had to leave home and mother. On the way to Haran night overtakes him, and he is obliged to sleep in a field with a stone for his pillow and the canopy of heaven for a covering. It was under such circumstances that the Lord gave him the wonderful vision at Bethel. Many times the rough experiences and severe trials of life help us on toward God. Luxury and heavenly visions do not usually go together. This finds illustration in John on Patmos; Stephen looking into heaven while being stoned, and John Bunyan in Bedford jall.

1. He saw a ladder reaching from earth to heaven (v. 12).

This suggests a means of communi-cation between earth and heaven, beveen man and God. It showed Jacob that in spite of his awful sin there was a way to heaven for him. Jesus Christ is the ladder connecting earth and heaven for us (John 1:51; 14:6; Hebrews 10:19, 20). In the incarnation Jesus Christ descended to carth's lowest depth and made a way upon which ruman feet might climb to heaven. Fortunate are they who in the times of earth's trials discern this adder!

2. He saw angels of God upon the adder (v. 12).

They were ascending and descending upon this ladder. These angels were the divine helpers to reader needed assistance along life's way. Though un-seen, God's angels guide and protect as on our earthly pilgrimage. They ascend unto the Father with our needs, and descend unto us with God's reply. Christ is a real man, and so can identify himself with us; he is the very God, really divine, and so is able to lift us to God and secure our reconciliation with him.

3. He saw the Lord standing above the ladder (vv. 13-17).

To show Jacob that the ladder did To show Jacob that the ladder du not merely reach into space, the per-sonal God appeared and talked with him. His message is filled with infi-nite grace. (1) He declared the God of Abraham and Isaac (v. 13), thus assuring Jacob that the same hand that guided his fathers was over him. (2) He renewed the covenant as to the land (v. 13). Though Jacob was covenant would not fail, for Jacob and his seed should possess it. (3) Assured him of a numerous seed (y. 14). They would spread abroad to the north, and south, and east, and west. (4) The divine presence with the wan-dering Jacob (v. 15). Though he had sinned and was reaping what he had sown, yet God was with him.

III. Jacob's Vow (vv. 18-22).

God's gracious visitation provoked Jacob to make a vow. Each sight of God should cause us to renew our obligation to him. His vow included three things: (1) Dedication of himself to God (v. 12). This is the frst thing to do. Our gifts are an abomiration while the life is withheld from Gcd. (2) Worship established (vv. 18, 19). stone shall be God's house." Worship always follows dedication of one's self Worship to God. There is personal communion between God and those who worship him. (3) Consecration of his sub-stance, of his possessions (v. 22). Those who have fellowship with recognize God's claim upon their possessions. God's grace should constrain us to give of our substance to him.

Meditation.

Meditation is one way of handling he Gospel history. Instead of a vague, half-remembered, less than half-com-prehended, story, the life of Jesus, steadily meditated on, passes into the life of the Christian, by an insensible but real transfusion.—Rev. H. P. Lid-don, D. D.

GIRLS! LOTS OF BEAUTIFUL HAIR

A small bottle of "Danderine" makes hair thick, glossy and wavy.

Removes all dandruff, stops itching scalp and falling hair.

ssed of a head of heavy beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely

a matter of using a little Danderine It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now-it costs but a few cents-all drug stores recommend it-apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incompara-ble gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair-fine and downy at first-yes-but really new hair-sprouting out all over your scalp -Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp, and it never falls to stop falling hair at once

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair-taking one small strand at a time. Your hair will be soft, glossy and beautiful in just oments-a delightful surpr awaits everyone who tries this. Adv.

Unlike Topsy-Swift & Company Has Not "Jest Growed"

Swift & Company, in fifty years of well ordered growth, has become one of the great national services because it has learned to do something for the American people which they needed to have done for them, in the way in which they preferred to have it done.

It has met each successive demand, in the changing conditions of national life, by getting good meat to increasing millions effectively, efficiently, economically, and expeditiously.

The Swift & Company packing plants, refrigerator cars, car routes, branch houses, organization, and personnel of today are the practical solutions, born of practical experience, to the food problems of half a century.

Because of all these elements working in correlation and unison, Swift & Company is able to supply more and better meat to more people than would have been possible otherwise, at a net profit per pound of meat so low (a fraction of a cent) that the consumer price is practically unaffected.

Strip away any portion of this vast, smooth-running human machine, and you make a large part of the meat supply uncertain, lose the benefit of half a century of fruitful experience, and scatter the intelligent energies of men who have devoted a life work toward meeting the needs of a nation in one vital field.

The booklet of preceding chapters in this story of the packing industry will be mailed on request to Swift & Company, Union Stock Yards, Chicago, Illinois.

Swift & Company, U.S. A.

KEEP YOUR CHILDREN OUT OF THE RAILROAD YARDS

done, and go bravely shead.
