## Thursday is 174th **Birthday Of Flag**

Thursday is the 174th birthday of the United States Flag.

The Continental Congress, on June 14, 1777, adopted the Stars and Stripes as our national standard. However, 139 years passed before a special day was set aside to commemorate the adoption President Woodrow Wilson May 13, 1916, issued the first Flag Day proclamation.

The movement to make Flag Day a national observance was begun as far back as 1885 by such patriotic societies as the Grand Army of the Republic Sons and Daughters of the American Revolution and Colonial Dames of America.

Flag Day is a legal holiday only in Pennsylvania, but President Truman in 1949 signed a bill requesting the President to call for its observance each year by proclamation.

The Flag Law requires the flag be displayed over all government buildings on Flag Day and other

#### Baseball Here To Stay

It appears Midland has emerged from its professional aseball crisis in typically Midland fashion, and that baseball now is more firmly entrenched here than ever before.

When it appeared the Midland entry in the Longhorn League would be moved elsewhere, Midland businessmen, civie leaders and the average man-on-the-street came to the rescue to purchase the ball club and to keep the Midland Indians in Midland.

A considerable sum of money has been raised on a more or less voluntary basis, but additional funds still are needed to complete the transaction. Everyone is invited o become a stockholder in the Midland Indians Baseball Club, a community-owned project. The more stockholders he better in this all-out effort to see that professional baseball continues in this headquarters city of the Permian Basin Empire.

The City Council also came through in grand style in assuring sponsors a ball park will be available for the home games.

It all goes to show that when the citizens of Everman always has felt he made a mistype of questions I ask," bristled he wouldn't answer questions that take in yielding to Cabinet advisers Hunt. "If you don't care to answer, might incriminate him. that something will be done, regardless of whether it is baseball or some other civic endeavor.

In this case it is baseball, and the stage now is set for a personal crusader against the Humphrey flung back. a continuation of the great American sport in Midland.

It is up to the fans to determine just how successful controls Midland's community-owned baseball club will be from here on out. The success or failure of the venture will be President really let loose at the big ing." grumbled "The Camel." determined largely by the number of turnstile clicks at the meat packers. HADACOL Helps Folks With Weak, Run-Down Conditions, Poor Appetite, When Caused by Deficiencies of Vitamins B1, B2, Niacin and Iron

A weak, run-down condition can make life mighty drab for folks who feel that way. Imagine not having a good appetite. Loss of weight and energy oftimes accompany this condition. When Mrs. Ardena Longaker, a minister's wife, who lives at Rt. 5, Meadowbrook Rd., North Kansas City, Mo., began feeling that way she began tak-ing HADACOL for she had heard how it was helping people with weak, run-down conditions and poor appetite, when due to a deficiency of Vitamins B1, B2, Niacin and Iron.
Now, Mrs. Longaker says she feels
good and is recommending HADACOL to her friends.

Here is what she says:
"I am a minister's wife and am
39 years old. I was run-down, lost
weight, was listless, and had no appetite at all. I'm on my fifth bottle now and am amazed at the results. I want to eat all the time now. Most of all, I'm glad to say, I've gained several pounds. HADACOL is so economical, I believe almost anyone can afford it, and I do recommend

Can you beat this measure of car value?

Those who own taxicabs are experts on car value. They have to be! Their very living depends on their judgment in selecting the right car. This selection is not made on "hunch"

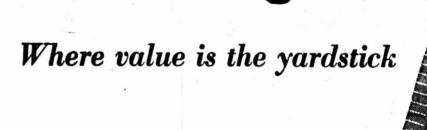

or "sentiment" or loyalty to any make.

In the cold light of fact, taxicab owners test all makes of cars for everything roominess, riding comfort, handling ease, braking action, maintenance cost, dayand-night dependability-everything!

As the result of these continuous tests, the overwhelming majority of taxicab owners say: "The car for our money is Plymouth!"

Isn't this pretty convincing proof that Plymouth is the car for your money, too? But you don't have to take somebody else's word for it. Your Plymouth dealer will gladly arrange a demonstration now. Then you can put the Plymouth through your own tests and see for yourself.

# POWER--and then some!

THERE are a lot of reasons you can expect a I new GMC to keep hauling a lot longer than any other truck you can buy.

First is the fact of horsepower. Whether it's a, gasoline-powered 1/2- to 2-tonner with horsepower unbeaten in its class, or one of the new heavy-duty Diesels-you can't beat a GMC for "go"!

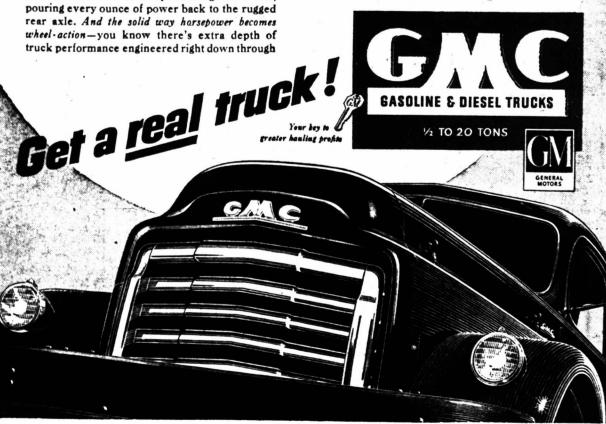

But the extra value you find in these great trucks doesn't end at the power plant.

There's the smooth GMC Synchro-Mesh Transmission linked to a sharp-shooting drive line, pouring every ounce of power back to the rugged rear axle. And the solid way horsepower becomes wheel-action-you know there's extra depth of truck performance engineered right down through

THESE folks are enjoying something that's 1 being pioneered by Buick.

It's freedom from the blinding glare of bright summer sunlight.

It's freedom from hot laps—caused by the sun's rays beating down through the broad expanse of windshield.

These freedoms trace to a new feature you may have noticed in '51 Buicks—a new kind of glass with a cool, soft, blue-green tint, in every glass area of the car, front, side and back.

Buick engineers tell us that this "Buick first" reduces glare 18% over conventional glasscuts sun heat as much as 45% – and Buick engineers are very conservative fellows.

This glare-and-heat-reducing Easy-eye glass is factory-installed at moderate extra charge. It gives you a built-in transparent "sun visor" right in the windshield—and it also dulls the dazzle of oncoming headlights at night.

#### Rail Board Begins Hearing Testimony On Allowable Cuts

AUSTIN -(AP)- The Railroad Commission began hearing testimony at 2 p.m. Wednesray to determine whether allowables in 46 West Texas pools should be cut in order to eliminate the venting of casinghead gas.

Operators have indicated they think uniform schedules of flow would help stop the venting. However, they want a tolerance on gas production to allow for mechanical troubles. One possible way to avoid reduc-

ing oil allowables, according to some operators, would be to reduce gas well production entering the pipe line serving the area. This would allow the taking of casinghead gas where limited outlet facilities force the venting.

Producing horizons in the Fullerton, slaughter, TXL and Wheeler areas are involved. The commission's findings may be

incorporated in the July oil allowable, which will be announced after Friday's statewide proration

#### Airport Zoning Board Sets Public Hearing

The newly-created Joint Airport Zoning board Tuesday called for a public hearing June 19 on a proposed zoning ordinance for Midland's two airports. The board was created to approv

an ordinance soning the areas around the Airpark and Midland Air Terminal to conform to CAA regulations. The board named a special com-

mission of J. T. Baker, Tommy Wilson, Jr., Jack Wicker, Ray Ford and Ish McKnight to study the zoning needs.
