## Pennsylvanian Lime Opener In Prospect At Midland Wildcat

Good possibilities of a discovery from the Pennsylvanian lime in Southwest Midland County were indicated Tuesday in a drillstem test at Gulf Oil Corporation No. 1 John Windham.

A drillstem test in the top of the Pennsylvanian at 10,138-10,202 feet, with tool open five hours, developed 730 feet of oil and gas-cut mud, 75 per cent oil, and 230 feet of clean 32.3-gravity oil.

Open bottom-hole flowing pressure was 100 pounds. Shut-in pressure after 15 minutes was 500 pounds. No water was made on the test.

The Pennsylvanian was topped at 10,150 feet, elevation 2,884 feet. Operator is now coring the project deeper.

No. 1 Windham is four and one-half miles south of the south side of the Parks-Pennsylvanian field and seven miles north of the Pegasus-Ellenburger area.

Exact location is at the center of the southeast quarter of the northwest quarter of section 32, block 40, T-3-S, T&P survey. It is scheduled to drill to around 13,500 feet for a test of the Ellenburger.

## Discovery Indicated From Ellenburger In W-C Reagan Sector

Electric log surveys are being run in the Blackwood & Nichols Company No. 1 Hughes, wildcat in West-Central Reagan County, after a drillstem test in the Ellenburger developed 450 feet of gas-cut mud and 80 feet of oil and gas-cut mud.

The interval from 10,537 to 10,630 feet was tested three hours. Gas surfaced in one hour and 40 minutes. There was a good blow of air throughout the test period.

No water was made with the above recovery.

The Ellenburger was topped at 10,510 feet by samples, on elevation of 2,632 feet giving it a datum point of minus 7,878 feet.

One and one-half miles to the northeast Gulf Oil Corporation No. 1 Hughes, an Ellenburger dry hole on total depth of 10,770 feet, topped the Ellenburger at 10,390 feet, on an elevation of 2,557 feet giving it a datum of minus 7,833 feet.

A drillstem test in the Gulf failure from 10,519 to 10,570 feet developed some salt water.

After electric log surveys are completed in Blackwood & Nichols No. 1 Hughes, operator will decide whether to deepen the hole or run pipe to present total depth and try to complete as a discovery and new field opener.

Location is 660 feet from north and west lines of section 22, W. M. Cleveland survey.

## Flowing Spraberry Discovery Assured In SE Midland Area

Cabot Carbon Company has a flowing Spraberry discovery in an undeveloped and undrilled area of Southeast Midland County at its No. 1-B TXL.

This project, located between the southeast side of the Driver field and the Preston field, and at least one mile from the nearest completed oil well in either of those areas, flowed new oil at the rate of 15 barrels per hour, through open two-inch tubing.

The flow was from open hole in the top of the Spraberry at 7,008-7,108 feet. That zone had been Hydracraft with 2,250 gallons.

Kicked Off After Swabbing

After the well was opened up following the Hydracrafting the swab was pulled five times and the project kicked off and started flowing.

It was flowed to plus for seven hours to clean. During that period practically all of the load oil and drilling of which was in the hole was recovered.

The flow was then turned to tanks and the well produced at the approximate rate of 15 barrels of new oil per hour. There were no signs of formation water.

Operator plans to kill the flow and core about 100 feet deeper into the Spraberry and then complete the new producer.

Location is 660 feet from south and 560 feet from east lines of section 33, block 37, T-4-S, T&P survey. It is 22 miles southeast of the City of Midland.

## C-W Midland Pool Assured Producer

Magnolia Petroleum Company is assured of another producer in the Parks-Pennsylvanian field of Central-West Midland County at its No. 2 Parks.

This project, located on the south-east side of the proven area of the Parks-Pennsylvanian field, flowed eight barrels of oil in one hour.

## Midland Puts Little Faith In Peace Parleys

Midlanders place little faith in the Korea cease-fire negotiations as a guarantee of peace.

In a spot survey conducted Tuesday by The Reporter-Telegram, Midland citizens were asked if they believed the armistice talks now going on in Korea would lead to peace.

Here are their opinions:

R. C. Maxson, real estate man—"I'm very skeptical and don't have much faith in it. I think it's one of those delaying propositions by which the Reds hope we'll let down our guard, then strike in another spot. Too, it's a deal to hurt our economy."

Henry Hobbs, City Drug Store employee—"I hope we'll have peace but they're pretty slow about it. The Reds should be hollering 'calf rope' by now. They may be sincere about peace in Korea but I doubt they want world peace."

The Rev. O. N. Reed, Greenwood pastor—"I think they'll stop the fighting in Korea. It seems to me the only thing the Communists are sincere about is moving on to a new front—I don't know where. But I do believe they are sincere in this negotiation."

Edwin L. Stephens, insurance man—"I guess I'm skeptical like most people about the chances of peace. We've had so many setbacks in past dealings with the Reds and the Russian word is not worth the (Continued On Page Nine)

## U. S. Seeks To Void Bail Of 15 Reds

NEW YORK (AP)—The government Tuesday sought to revoke bail under which 15 lesser Communist leaders charged with conspiracy have been at liberty.

In the petition to revoke the bail, furnished by the Civil Rights Congress Bail Fund, the federal prosecutor charged the fund's trustees "wholly irresponsible." Three of the trustees have been sentenced to terms in jail for criminal contempt for failure to answer questions and produce the fund's records.

In a simultaneous move, the government also obtained from Federal Judge Alexander Holtzoff an order directing 16 of the 17 indicted lesser Communist leaders to appear Wednesday before Federal Judge Vincent L. Leibell to show cause why their bail should not be increased.

Mystery Writer Jailed

Twenty-one of the lower echelon of the Communist leadership are under indictment on charges of conspiracy to advocate the overthrow of the government by violence. Seventeen of them are under arrest and four are fugitives.

Mystery writer Dashiell Hammett Tuesday sought to obtain bail for himself after landing in jail for refusing to tell who furnished bond for four fugitive convicted Communist leaders.

The author of the "Thin Man" series and "The Maltese Falcon" drew a six-month contempt-of-court sentence Monday night.

Federal Judge Sylvester J. Ryan denied him bail and sent him to jail.

## New Water Well Completed By City; Pump Is Installed

A 300-gallon-per-minute water well has been completed and tested at Rosedale and will be placed in operation late this week, City Manager W. H. Oswalt said Tuesday.

"The well," said the city manager, "has just completed a 24-hour test run and it looks like it'll be one of our best wells at Rosedale."

A permanent pump is now being installed and the first water from the well will enter the city water system this weekend.

Meanwhile, Oswalt said, the first test at Midland Airpark, where the city had hoped to find additional water, proved a disappointment. Six or seven other test wells in the area will be drilled, however.

Oswalt also said the new booster pump at Wadley field now is in operation to raise the city's capacity to 10,000,000 gallons daily.

## Hot, Partly Cloudy Is Weather Pattern

Partly cloudy and continued warm was the weather picture in Texas Tuesday.

Scattered rain showers fell along the central coast in the Palacios area. Scattered thundershowers were forecast for the Panhandle, South Plains, west of the Pecos Valley, and extreme north and east portions of East Texas Tuesday night.

Somewhat cooler weather was forecast for the Panhandle Wednesday.

The temperature rose to 110 degrees at Presidio Monday.

## ★ LATE NEWS FLASHES ★

WASHINGTON (AP)—Chairman McCarran (D-Nev) Tuesday said the Senate Internal Security Committee has ordered Red 'angel' Frederick Vanderbilt Field to come before it and bring along his bank account records.

WASHINGTON (AP)—The House Appropriations Committee Tuesday recommended an 18 per cent cut in this year's funds for the State Department, but aimed none of the reduction directly at Secretary Acheson.

OTTAWA (AP)—Canada Tuesday ended her formal state of war with Germany.

WASHINGTON (AP)—The House Armed Services Committee Tuesday approved proposed expansion programs at four Air Force bases in Texas, including a whopping \$21,291,000 for Sheppard Air Force Base, Wichita Falls, and smaller sums for the bases at Lubbock, Big Spring and San Angelo.

RED PEACE DELEGATION—North Korean and Chinese Communist representatives to the preliminary cease-fire conference, shown conferring in Kaesong, South Korea, are, left to right: Lieutenant Colonel Kim, North Korean Army; Lieutenant Colonel Chai, Chinese Communist Army, and Colonel Chang, North Korean Army. The two Communists standing in the right foreground are unidentified.

## Midland Traffic Problems Serious

Midland's traffic problem continued to grow worse during June with a record-breaking number of automobile accidents reported to police during the 30-day period.

Police Chief Rube Hemingway, in his monthly report of police activities, said 96 accidents—an average of more than three a day—were reported to his department during the month.

## Air Force Eyes Midland Airpark As Auxiliary Field

The City of Midland has been approached by the Air Force on the possibility of the use of Midland Airpark north of the city as an auxiliary landing field.

City Manager W. H. Oswalt said the matter will be turned over to the City Council Tuesday night at its regular semi-monthly meeting beginning at 7:30 p. m.

The field, now leased to the West Texas Flying Service, would be used by jet craft which will be based at the Big Spring Air Force Base. In preliminary stage.

Oswalt said the discussions are only in a preliminary stage.

Under terms on which initial discussions were based, the Air Force would not have exclusive use of the field but would permit its continued use by civilian aircraft.

Airpark, the city's No. 2 air field, was used by the Air Force during World War II and by the Air Transport Command.

Oswalt said Tuesday that the council also would consider a proposal to re-surface the runways and taxiways at the Midland Air Terminal.

He said the resurfacing, now badly needed, will cost from \$45,000 to \$60,000.

## Pipe Line Workers Vote For Walkout Against Magnolia

DALLAS (AP)—An official of the Oil Workers International Union (CIO) said reports indicate employees are voting to authorize a strike against the Magnolia Pipe Line Company.

The pipe line carries crude oil to nine states in the Southwest and Midwest and gathers crude from four of these states.

R. W. Lawrence, international representative of the oil workers union, said wages were not an issue.

Lawrence said "reports down the line indicate employees are voting by a tremendous majority to authorize a strike." Some 850 workers are involved. Lawrence said strike ballots were mailed out after negotiations with the company broke down.

## Vehicle Registration 2,200 Over Last Year

Registration figures of passenger cars and trucks in Midland County so far this year show an increase of approximately 2,200 over a comparable period in 1950.

J. M. Speed, county tax assessor and collector, Tuesday said 13,830 vehicles have been issued license tags through his office from February 1 through July 1.

A breakdown of the total indicates 11,291 passenger cars and 2,239 trucks have been registered.

## Shriners Take Over New York's Streets In Colorful Parade

NEW YORK (AP)—Red-frenzied Shriners from throughout the nation treated New Yorkers to a four-hour parade down Fifth Avenue Tuesday.

Gen. Douglas MacArthur, himself a Shriner, was invited to review the parade.

The Shriners poured into New York all day Monday. With their families, they are expected to become about 100,000 strong.

Colorful Oriental costumes were everywhere in the Times Square area for the 77th annual convention of the Ancient Arabic Order, Nobles of the Mystic Shrine.

New Yorkers received a preview of Tuesday's parade as Shriners, in small groups and large, put on street corner shows Monday. Bands, floats and choral groups from various temples paraded around the midtown business section.

One Major Problem

The week-long convention produced one major problem—somebody had slipped up on arrangements for camels, traditional in every Shriner parade.

Patrols were reported out looking for the desert animals all day Monday and results of their missions were cloaked in mystic secrecy.

Several officers of the Imperial Council visited MacArthur at his hotel. They reported the general, a member of Nile Temple, Seattle, Wash., was wearing his red fez.

At Madison Square Garden, there was a day-long show by star vaudeville and show performers.

## This Transaction Handled In Really Businesslike Way

Somebody named "Dick" has \$75 he apparently didn't know was coming to him.

Mrs. E. S. Exum, 1109 Midkiff Drive, reported to police Monday afternoon that she had gone to look at a vacant house at 1310 South Colorado Street.

She saw a note in the mailbox and pulled it out.

It was a blank check, wrapped around \$75 in currency. The note, addressed only to "Dick," explained the writer had sold his car and the \$75 was "your part of the money."

She called the police and reported the matter.

## Press Again Barred From Parley Area

SEOUL, KOREA (AP)—Cease-fire representatives Tuesday "made progress toward an agenda to discuss armistice," United Nations representatives said Tuesday night.

Discussions will be resumed at 10 a. m. Wednesday (6 p. m. Tuesday CST) in Communist-occupied Kaesong.

A communique issued by UN commander Gen. Matthew B. Ridgway's headquarters said the two opening sessions on Tuesday were held in "an open and formal atmosphere."

## Reds Start Infiltration Of 'Triangle'

U. S. EIGHTH ARMY HEADQUARTERS, KOREA (AP)—Small groups of Reds Tuesday infiltrated the old Choswon-Kumhwa-Pyongyang Iron Triangle on the west-central front.

Intelligence officers said the Reds "want control of this area. They probably are sending down enough men to ambush any of our patrols."

The heart of the triangle is only 47 air miles northeast of Kaesong, where Red and Allied negotiators Tuesday began peace talks.

Sharp but relatively minor skirmishes dotted the entire battlefield. B-29 Superfortresses, through thick rain clouds and dropped 70 tons of bombs on important Red supply centers at Sampo and Kowon, on the east coast of North Korea.

The big planes flew from Okinawa. They used radar to find their targets.

The Communist radio at Pyongyang claimed big victories in both ground and air action.

The nightly North Korean communique, monitored in Tokyo, said Red planes shot down six Allied jets. No details were given.

The Red radio also said heavy damage was inflicted on Allied ground troops on the central front. It said one UN battalion was "annihilated" and 11 machine guns and four artillery pieces were captured or destroyed.

There was no confirmation of any of these reports from Allied sources.

Red troops fired on Allied patrols at five points within the triangle area. It was the first important Red reaction in five days to Allied patrols operating extensively on that sector of the front.

Attacking UN forces on the east-central front were held to gains of a few hundred yards by Red small arms fire, land mines and booby traps.

There was one brief skirmish northeast of Inje. Similar actions were reported from there to the Korean east coast.

## GI Bill For Korea Veterans Being Drawn

WASHINGTON (AP)—The Administration was reported Tuesday to be drawing up a bill to provide schooling for Korean war veterans.

Whether it might contain other benefits similar to those granted World War II veterans in the GI Bill of Rights could not be learned.

## Cattle Receipts Continue Heavy

FORT WORTH (AP)—A "fair run" of cattle and calves continued Tuesday at the Fort Worth Stockyards after Monday's receipts of 10,326 head, largest since October of 1948.

Tuesday morning, an estimated 5,200 cattle and 2,100 calves unloaded shortly after the 8 a. m. opening, according to William L. Pier, manager of the yards.

On the Fort Worth yards one year ago, 4,600 cattle and 2,000 calves were received.

"Lots of buying" also was reported by Pier.

## Noted Engineer Found Dead In Car

DALLAS (AP)—Carl F. Jeffries, 61, whose various engineering abilities went into the development of the PT boat, the Liberty marine engine and most Trinity River projects, was found dead in his car near Garland, Texas, early Tuesday.

Death was attributed to a heart ailment.

Jeffries became ill with a heart condition during World War II while engaged in the development of the famed PT torpedo boat and a Naval yard in Virginia. He since had been under a physician's care.

### Movie Queens Throw Weight In Battle of Sex-Appeal

By ERSKINE JOHNSON  
NEA Staff Correspondent

HOLLYWOOD — Alert command headquarters have started the big guns booming—the battle of the movie queens on the issue of blubber and sex-appeal is on full blast in Hollywood.

A couple of months ago, both Gene Tierney and Jayne Meadows slipped me the word that there's nothing like a layer of bouncy schmalz on a doll's bones to start the boys in the audience drooling right into their buttered popcorn. Sylvia Mangano, the Italian belle who waded in the rice paddies, was their Joan of Arc.

And their battle cry was "Hips, hips, hooray."  
Now a skinny blonde siren named Jan Sterling, who's about the fastest-zooming actress in celluloid alley, is saying "Phooey" to their marching song of "Heft, right, heft."

It looks like a free-for-all between Gene, Jan, and Jayne. And I hardly can wait for the hair-pulling to begin.

Jan curled her lips and made a face at the mere thought of a flicker Duse who has to squeeze into a girle.

The same kind of face that a movie executive makes when his progeny screams, "But, daddy, WHY can't we have a television set in our house?"

Skinner And Sexier Jan snickered.  
"Fat, huh? Double ough. The skinnier you are in Hollywood, the sexier. Never mind what's being said about the camera NOT putting 15 pounds on you. You still have to be skin and bones."

"It's the sticks who have the glamor. Look at Marlene Dietrich and Garbo. Maybe they're too skinny, but they have glamor. Think of Carole Lombard and Jean Harlow. Those girls didn't wear anything underneath, if you know what I mean."

Jan looked down at her thin trim form that moviegoers will be ogling in Paramount's "Ace in the Hole."

Gene and Jayne were going down in inglorious defeat.  
Making Weight  
"But they maintain that a movie charmer has more acting energy when she's — er — when she makes an impression on the scale," I said.

"Energy, schmenergy," shrugged Jan. "If you haven't got energy, you haven't got it."  
Jan wasn't denying that a lot of actresses were skipping their diets and showing up on the sound stage with Lillian Russell dimensions.

"No," said Jan. "A lot of top stars are plump these days. But if they were thin — wow — they'd knock the breath out of you. You gain 10 pounds, and you add five years to your face on the screen."  
"You want to know what's going to happen to some of the actresses who are letting themselves get heavy? One of these days their options aren't going to be picked up."

Then Jan blurted out a confession. Once she had been a poly-poly herself.  
"I'm a big eater," she admitted. "I hate to pass up food. But I'd rather be skinny than fat."  
Suddenly she shuddered and said: "My first picture in Hollywood was 'Johnny Belinda.' I was 25 pounds heavier than I am now. You know what I looked like? I'll tell you."

"I looked like a BIG, PUDGY COW."  
"Storks Don't Talk" is the title of a new movie being filmed in London. In Hollywood, they hire a press agent to publish a timetable six months in advance.

### Motorist Picks Wrong Auto To Force Off Street

A Midland motorist picked the wrong automobile to try to force off the street Monday night.

Police Officers Herb Runyon and Jack Tranum reported they were driving on West Wall Street in Runyon's private car when another automobile approached from the other direction.

The officers said they were forced from the street to keep from being hit by the other vehicle which swerved from one side of the street to the other.

The officers turned around and gave chase, stopping the other car several blocks away.

The driver was booked on charges of driving while intoxicated.

### Crude Oil Output In Nation Slumps

TULSA, OKLA. — Domestic crude oil production slumped an average of 10,300 barrels daily to 6,093,700 barrels during the week ended July 7, The Oil and Gas Journal reported Tuesday.

Leading the loss was Texas with a 9,425-barrel drop to 2,744,750 barrels. Other states which registered major declines included Louisiana, 3,025 to 610,825, and Oklahoma, 1,900 to 305,000.

### Negro Girl Claims She Was Raped; Is Treated In Hospital

A 17-year-old negro girl reported to police Monday night she was attacked and raped by a negro man as she was walking home.

The girl said she was walking through an alley in the 100 block of South Tyler Street when her assailant grabbed her.

He dragged her five blocks, she said, to a deserted place where the attack took place.

She was given emergency treatment for bruises and scratches at Western Clinic-Hospital.

### Texan Identified As Bank Holdup Man

BIRMINGHAM, ALA. — The woman cashier of a Gadsden, Ala., bank pointed out George W. Jetties, Bass of Dallas, Texas, as the bandit who robbed her of \$2,822 last Spring.

Mrs. Ruth Perkins, cashier of the First Federal Savings and Loan Association at Gadsden, identified Bass Tuesday at a hearing before U. S. Commissioner Louise O. Charlton.

Bass was ordered held for federal grand jury action and his bond was set at \$8,000.

### Boy Scout Court Of Honor Is Scheduled

A Court of Honor will be held at 7:30 p.m. Wednesday by Troop 152 of the Boy Scouts of America in the educational building of the First Methodist Church.

Awards will include a Life badge, two First Class badges and a number of merit badges.

### MIDLANDERS VISIT FAMED GHOST TOWN

BUENA PARK, CALIF. — Mr. and Mrs. Jack Hallis, 307 Cottonwood Avenue, Midland, Texas, spent several hours at Knott's Berry Farm and Ghost Town here, while visiting in Southern California recently.

Thousands of persons each week visit the berry farm's Ghost Town, which is a novel and unique reconstruction of a typical town of the western mining districts of early California.

### OIL WORKER INJURED

Gerald Adkins, 1205 West Florida Street, an employee of the Donnell Drilling Company, was given emergency treatment at Western Clinic-Hospital Monday after a piece of steel lodged in his forehead while he was cutting a wire line.

### FINGERS ARE BROKEN

Kenneth E. Bryce of Odessa, an oil field worker, caught his left thumb between two joints of pipe Monday and suffered fractures of the tips of his fingers. He was given emergency treatment at Midland Memorial Hospital Monday.

### INFANT UNDERGOES SURGERY

Richard Alan Moser, 18-month-old son of Mr. and Mrs. R. L. Moser, 908 West Washington Street, was admitted to Western Clinic-Hospital Monday for surgery.

### ADMITTED FOR SURGERY

E. B. Newland, 1704 North Terrell Street, was admitted to Western Clinic-Hospital Monday for an emergency appendectomy.

## Coming Events

### WEDNESDAY

The Garden Addition Home Demonstration Club will meet at 2 p.m. in the home of Mrs. Carl Neithardt, 501 North Garfield Street. A demonstration on slip covers will be given.

The Zeta Tau Alpha Alumnae Association will meet at noon in the home of Mrs. G. M. Graham, 1501 Harvard Street. A luncheon will be served.

The Justamere Bridge Club will meet at 1:30 p.m. in the Ranch House.

The sewing room in the Midland Memorial Hospital will be open from 9 a.m. to 4 p.m. for members of the Women's Auxiliary to the Hospital.

A putting tournament will be held at 8:30 p.m. for members and guests of the Ranchland Hill Country Club.

The Choir of the Trinity Episcopal Church will practice at 7:45 p.m.

The Gamma Phi Beta Alumnae Association will meet at 10 a.m. in the home of Mrs. Roger Northrup, 1907 West Illinois Street.

The choir of the First Baptist Church will practice at 7 p.m. Gene Shelburne, Jr., will teach the Sunday School lesson at 7 p.m. in the nursery. Prayer meeting will be held at 8 p.m.

The Quarterly Conference of the First Methodist Church will meet at 7:30 p.m. in the church.

The Princeton Seminary Choir will give a concert at 8 p.m. in the First Methodist Church.

The Knights of Columbus, the St. Ann's Mothers' Club and the St. Ann's Altar Society will have a box supper at 5 p.m. in the Midland Officers Club. Each family is requested to bring a box for three persons.

The Boone Bible Class of the First Methodist Church will have a party at 10 a.m. in the Scharbauer Educational Building.

### PLAN SWIMMING PARTY

The Rainbow Girls will have a swimming party in the VFW Pool Tuesday instead of Monday as originally reported. They will meet at 6 p.m. in the Masonic Hall.

### Brink Guard Fails Holdup Try, Kills Two Ex-Convicts

CHICAGO — Two ex-convicts were slain in a gun fight with a young Brink's Inc. guard Monday as he thwarted their attempt to hold up his armored money truck.

Julius Blanchard, Jr., 25, a guard only three months, suffered a possible skull fracture in the bloody gun battle. One of the two gunmen he killed had slugged him on the head with a shotgun after the weapon jammed. Blanchard, a former mail man, was lauded by Police.

Two other bandits escaped. Their slain companions were identified by police as well-known hoodlums and suspected members of a currency exchange robbery gang. They were Rocco Belcastro, 36, and Frank Piazza, 42.

### Phillips Declares Quarterly Dividend

BARTLESVILLE, OKLA. — At a regular meeting held Monday, the board of directors of Phillips Petroleum Company declared a regular dividend of 60 cents a share payable September 1 to stockholders of record August 3.

This is the first dividend declaration since the two-for-one split of Phillips common stock, which became effective June 19, 1951, and is comparable to the second quarter dividend of \$1.20 a share before the stock split.

### Child, Grandfather Are Victims Of Fall

CLIFTON, N. J. — Walter Slota took his 15-month-old granddaughter for a breath of fresh air Monday.

As he stood on a second story porch, tiny Gail A. Slota cuddled in his arms, she wriggled free and toppled over a railing.

Desperately, the 60-year-old Slota grabbed for her. Lost his balance and fell after her.

Both were killed in the 20-foot fall. Slota died instantly, little Gail a few hours later.

### HODIAKS HAVE DAUGHTER

HOLLYWOOD — The first child of actress Anne Baxter and her husband, actor John Hodiak, is a girl. The six-pound, seven-ounce baby was born Monday. The Hodiaks were married in 1946.

### FROM CORPUS CHRISTI

H. N. (Bud) Seever, Corpus Christi oil man, was a Midland visitor Monday.

### Mickey Cohen Gets Off With Five Years

LOS ANGELES — If inflation is here to stay, Mickey Cohen is glad of it.

The prosecution, arguing that Cohen should get a long term, Monday pointed out that the gambler had evaded about \$156,000 in taxes, roughly the same amount as the late Al Capone, who received an 11-year sentence.

"That was before inflation," snapped U. S. Judge Ben Harrison. Cohen got five years and \$10,000 fine.

### FBI Campaigns For Enforcement Of New Slot Machine Law

WASHINGTON — An intensive enforcement campaign for the new law banning shipment of slot machines over state lines was disclosed Tuesday by the FBI.

Bureau Director J. Edgar Hoover said in a statement 208 such machines have been seized and 15 persons arrested on charges of taking them across state lines.

He added that 40 other cases of alleged illegal transportation "are now under active investigation."

Hoover called on local law enforcement authorities throughout the country and "all public-spirited citizens," to report violations.

### BACK FROM VACATION

Mr. and Mrs. Woody Campbell have returned from a vacation trip to points in Canada.

### E. A. Van Alstyne, Veteran Composer, Dies At Chicago

CHICAGO — Egbert Anson Van Alstyne, famous as a composer of some of the nation's best known songs, including "In the Shade of the Old Apple Tree," died in his home Monday.

The 73-year-old composer of more than 500 songs since the turn of the century, had been in failing health several years. He suffered a stroke last April in Miami Beach, Fla., and was returned to his home by ambulance.

Van Alstyne's first major song was "Navajo," published in 1903 and his last, "This Is My Song," was published in 1938. Favorites he composed included "Memories," "Pretty Baby," "Old Pal," "Pony Boy," "That Old Girl of Mine," "Your Eyes Have Told Me So," "Sunshine and Roses," "I'm Afraid to Go Home in the Dark," "What's the Matter With Father," and "The Little Old Church in the Valley."

### ATTENDING CONFERENCE

Margaret Arrington, supervisor of the Midland Child Welfare Unit, will be in Oklahoma City, Okla., through Wednesday for the Southwestern Regional Conference of the American Public Welfare Association. Miss Arrington is scheduled to take part in the conference program.

One-fourth of a human being's nervous energy is said to be used by the eyes.

### Church Circles Have Programs, Plan Bake Sales

Programs were held and bake sales planned at the meetings of the Asbury Methodist Circles Monday.

Mrs. J. S. Grimes was hostess to the Builders Circle. Mrs. Jess Hooper gave the opening prayer and the devotional and led the study, "We Seek Him Together." She also gave a chapter from "The Art of Group Worship."

Mrs. Preston Pirtle gave the closing prayer. Others attending were Mrs. G. W. Damron, Mrs. H. H. Pickley, Grace Wright, Mrs. Cecil Hardaway and Estelle King. Plans were made to participate in a bake sale to be held by the Woman's Society of Christian Service at 9 a.m. Saturday in Piggy Wiggy No. 3.

Mrs. Betty Russell presented a talk on "The Christian's Duty as a Citizen," and Mrs. Dennis Ford spoke on "Protestantism Speaks and Acts" at the meeting of the Friendship Circle.

The group met Monday morning in the home of Mrs. J. A. Andrews. Plans were completed for the circle's bake sale which will be held Saturday in Piggy Wiggy No. 3.

Mrs. W. J. Wilson was presented with a life membership pin.

Others present were Mrs. J. P. Carson, Jr., and Mrs. George Lawless.

### Girl Scouts Plan Day Camp Work

Girl Scout Day Camp will open for all scouts, Brownies through Seniors, August 4. Saturday, July 28, a Rally program will be held in the Little House.

Leaders will meet for a training course from 8:30 to 11:30 a.m. July 23 in the Little House. The course will be continued July 25 at Cole Park.

During the week of July 23 the Little House office will be open to leaders who wish to study the Day Camp material and literature which will be available. Leaders are asked by Mrs. W. P. Crosby, Day Camp chairman, to use this opportunity to gain necessary information for their Day Camp work.

An extra unit has been added to the Day Camp for the use of the Senior Scouts.

### Lodge Meets, Appoints Committees

Committees for the year were appointed Monday at a Rebekah Lodge meeting in the Masonic Hall.

Those named were Bertha Reven, Lorraine Robinson and Elizabeth Wilson, gift committee; Thelma Jobe, Mable Biggs and Minnie Hancock, finance committee; Grace Roberts and Hilda Henshaw, refreshments, and Ora Riley, Joyce Carrell and Etta Mae Friday, visiting. Mrs. French was a guest at the meeting.

### Crane News

CRANE—Mrs. Hazel Sullivan and daughter, Sylvia, and Joyce Parker were in Oklahoma recently where Mrs. Sullivan attended a school homecoming banquet.

Jackie Lou Mackey, Lila Kinsey, and Calvin Hade, who are attending business college in Abilene, are in Crane for a 10-day vacation.

Mr. and Mrs. James Stewart of Hearne visited friends in Crane recently.

Mr. and Mrs. Durwood Jones and children have returned from a two-week vacation in Midway, Calif., where they visited his mother, two sisters and brother.

Mr. and Mrs. Glenn Owens and daughters, Dee and Brenda, are on a fishing trip on Devil's River.

Mr. and Mrs. Earle Teague of Uvalde are guests of his parents, Mr. and Mrs. George Teague.

Mr. and Mrs. J. F. Branan returned recently from an extended trip through California, Kansas and East Texas.

Mr. and Mrs. Oran Faircloth and son, Wayne, and Mr. and Mrs. E. T. Coleman are spending a vacation at Lake Texoma, near Denison, and in Oklahoma.

Paul Drake is the guest of his grandmother, Mrs. Inez Elmore, school and county librarian.

Eugene Hogan has returned from a business trip to Los Angeles, Calif.

Mr. and Mrs. Tyra Hamilton and children are on vacation in Graham.

### Snider-Scott Reunion Held

An annual reunion honoring Mr. and Mrs. J. B. Snider, 319 South Fort Worth Street, and Mrs. J. N. Scott of San Angelo was held Saturday and Sunday in Christoval.

Mrs. Snider and Mrs. Scott are sisters.

Attending from Midland were Mr. and Mrs. A. R. Snider, Mr. and Mrs. Morris Snider, Mr. and Mrs. G. W. Burt and Mr. and Mrs. Tom L. Tibbets. Mr. and Mrs. Rollie C. Barnes of Norwalk, Calif., and S. R. Snider and daughters, Sarah and Nell, of Jai, N. M., also attended.

Approximately 125 guests attended.

### Plain Violinist Is Music Director

Carlos Gruber, violinist from Plainview, is directing the music for the revival being held at the Bellevue Baptist Church. The revival began Sunday and will continue through July 22.

Gruber, born in Riga, Latvia, has studied violin with Frank Smith in Prague, Max Modern in Berlin and Professor Pfeiffer in New York.

He taught violin in the Baptist College at Sao Paulo. He has worked for approximately 125 revivals in many of the leading churches in the Southern Baptist Convention. Gruber will speak at civic club meetings this week.

The Rev. J. A. Pennington of Oklahoma City is the speaker. Services are held at 10 a.m. and 8 p.m.

### Midland Man Shown With MacArthur

An Associated Press wirephoto appearing in The Dallas News Tuesday showed a Midland business man at a baseball game with the Douglas MacArthur.

Standing alongside the famous general and his wife as they cheered a home run in a game Saturday between the New York Giants and the Boston Braves was John Casselman, Sr., manager of the Hotel Scharbauer Coffee Shop.

### Have House Guests

Dr. and Mrs. Waldo Leggett of Midland have as their week guests Mr. and Mrs. E. M. Wood and E. M. Jr. of Corpus Christi and Mr. and Mrs. Glenn Ratliff and Adair, John and Joe of Monahans. The visitors arrived Sunday.

### MR. HALL TO SPEAK

The Rev. A. L. Hall, pastor of the Valley View Baptist Church, will speak at 8 p.m. Wednesday at the mid-week prayer service in the West Side Baptist Church. The Rev. Alton Towery is the West Side pastor.

### BAPTIST CIRCLE TO MEET

The Janelle Doyle Business Women's Circle of the First Baptist Church will meet at 7:30 p.m. Tuesday in the home of Mrs. James C. Huett, 1005 1/2 West Kentucky Street.

### MEDICAL PATIENT

Mrs. Ruth Mitchell of 1406 West College Street was admitted to Midland Memorial Hospital Monday as a medical patient.

### SURGICAL PATIENT

Mrs. Jess Fuhrman of 705 West Storey Street was admitted to Midland Memorial Hospital Monday for surgery.

# SOCIETY

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JULY 10, 1951-3

### Three Circles Have Meetings For Bible Study

Circles 1, 3 and 4 of the First Presbyterian Church met Monday for Bible study.

Mrs. R. L. Miller was the study leader for Circle 1. The group studied the Third Commandment and discussed an article on "Christian Citizenship." Mrs. P. R. Pattison gave a report on the executive board meeting.

The program was opened with a prayer by Mrs. L. Ross Lynn and was closed with sentence prayers. Others present were Mrs. W. T. Harris and Mrs. W. P. Knight.

Mrs. W. E. Lyle was hostess to Circle 3 Monday. Mrs. R. W. Watson was the guest Bible study leader and Mrs. M. A. Murphree discussed "What a Layman Desires in His Minister."

Other members present were Mrs. H. T. Scott, Mrs. Bob Sutton, Mrs. D. A. Bliven, Mrs. W. E. Mitchell, Mrs. Allen J. Watts, Mrs. Paul Lathrop, Mattie Collins and Verna Harper.

### Marion Cantrell, Grover Williams Plan Wedding

COLORADO CITY—Mr. and Mrs. Clyde M. Cantrell of Colorado City announce the engagement and approaching marriage of their daughter, Marion Sue, to Grover Courtney Williams of Midland.

Williams is the son of Mr. and Mrs. Grover C. Williams of Fort Worth.

The wedding will take place August 25 in the All Saints Episcopal Church in Colorado City. The Rev. William D. Boyd of Big Spring will perform the ceremony.

Miss Cantrell is a graduate of Colorado City High School and attended Radford School for Girls in El Paso, Hardin-Simmons University, Abilene, and the Institute of Radio Broadcasting in Dallas.

Williams is a graduate of Colorado City High School and Texas Christian University. He is employed by the BBM Drilling Company in Midland.

### Members Call For Single Saddle Club

Members of the Single Saddle Square Dance Club called for the club's dance held Monday in the Midland Officers Club.

Guests were Ted Brooks, Irene Craig, Barbara Fessler and Bill Wolf.

Members present were Juanita Anderson, Novella Bailey, John Caselman, Jr., Lily Gilbert, Bob Gay, Al Gill, Doyle Lowery, Jim Moore, Billy Nickels, Dorothy Wolf, Joe Williams, Jean Webb, Hal Shamer, Curtis Regan, Lillie Riehmeyer, Natalie Walton, Georgia Wise, Nancy Gill, Wilbur Gallaway, John Gray, Harold Longino, Jimmy Means, Jack Rowan and June and Jean Sauer.

Next time you are making a tomato aspic, flavor the tomato liquid used with basil or bay leaves. Makes it taste a little different!

### WSCS Circles Meet For Study

All circles of the Woman's Society of Christian Service of the First Methodist Church met in a joint session Monday night in the Scharbauer Educational Building.

Mrs. J. H. Frazier gave the opening prayer. The first lesson from the new study, "Toward A Christian Community," was given by Mrs. W. E. Chapman.

Mrs. Joe Birdwell was presented a life membership pin by Mrs. Frank Prothro. Mrs. Terry Tidwell gave the scripture and the opening prayer was given by Mrs. Luther Kirk.

It was announced that the Irene Nix and the Mary Scharbauer Circles would be hostesses at the next meeting, July 23.

The Kate Oates and Winnie Prothro Circles served refreshments to 45 members.

### Home Freezing of Fruits and Vegetables

MADE EASY BY IMPERIAL Pure Cane SUGAR

THE PURE CANE quality of Imperial Sugar assures success in the home freezing of fresh berries, fruits and other foods. Imperial is pure cane of finest quality. To guard the full natural taste, preserve vitamin content and provide the wanted sweetness with no "off-taste," be sure to use Imperial Pure Cane Sugar. Better for dry pack or syrup freezing.

**Lamb's Super Station Offers Complete Service**

For complete service for your automobile, Lamb's Super Service Station, 601 West Wall Street, has everything in equipment and know-how for a thorough job. Just drive in and let Lamb take care of the rest—from checking your battery to complete lubrication.

Lamb's Super Service handles all popular brands of motor oil, Chevron gasolines, and Atlas batteries and accessories. Washing, lubricating, polishing and undercoating are performed by experts.

Automobiles are called for and delivered. The dial telephone number is 4-3751.

A complete road service is offered.

Traffed mechanics are on duty to handle repair work not of a major nature. There is a complete line of repair parts for brakes, generators and other parts of the automobile. Many motorists take advantage of a check-up service when stopping for fuel and lubrication, and many times the need for repairs is noticed and the work then performed in short time. In many instances, this prevents costly breakdowns on the road.

Open Every Day  
The station is open from 8 a.m. to midnight seven days a week. Elmer Lamb operates the station. He previously was in the production department of the Tide Water Associated Oil Company.

You are invited to go by and get acquainted with the friendly personnel and try Chevron's dependable products.

The washing, greasing, polishing and undercoating are done by skilled service men and the cost is as moderate as that to be found anywhere.

Missionary work in the Pacific began with Magellan's visit to the Philippines in 1521, according to the Encyclopedia Britannica.

**TWENTY-FOUR-HOUR SERVICE**—For fine foods in clean, cool and comfortable surroundings, many persons will recommend the Steak House, located at 605 West Wall Street. Open day and night, the popular restaurant serves meals and short orders. Reservations are taken for parties and special occasions.

**Beauchamp's Offers Latest In Fine Electric Appliances**

Dependable Norge refrigerators, now on display at Beauchamp Refrigeration Service, 216 North Main Street, offer the latest development in this type of appliance. You are invited to come in and look over these items, as well as the many other items in the appliance line.

Beauchamp Refrigeration Service also maintains a repair service. Its staff of experts can provide a quick diagnosis of the trouble and get the equipment back in working order with the least possible delay. The cost of this service is moderate.

Other appliances stocked by Beauchamp's include Apex washers and sweepers and Empire gas ranges. RCA radios also are stocked.

Air conditioning sales and service are a feature of the firm.

Among the line of smaller appliances handled by the concern are electric mixers, waffle irons, coffee makers and many other items.

**Dependable Ice Machine**  
The Carrier ice machine, which is stocked by Beauchamp's, is capable of producing 410 pounds of cubes per day and is designed especially for restaurants, hospitals, hotels and other establishments.

It is estimated the machine will produce ice at a cost of approximately 15 cents per 100 pounds and its convenience is unquestioned.

The Carrier Weathermaker, with new even-flo air distribution and whisper-quiet operation, has controlled cooling.

It is not too late for the installation of air conditioning, since there will be many more warm days ahead. In addition to bringing comfort, air conditioning also improves efficiency, tests have shown.

### Permian Basin Oil And Gas Log— Midland Wildcat Is Preparing To Swab

(Continued From Page One)  
through a five-eighths-inch bottom hole choke, on a drillstem test in the Pennsylvanian at 10,435-505 feet.

The testing tool was open four hours and nine minutes. Gas surfaced in eight minutes. Mud flowed out at the top in two hours and 53 minutes and oil started flowing at the surface in two hours and 54 minutes.

**Flows To Tank**  
The oil was flowed to pits for 15 minutes to clean and it was then turned to the tanks for one hour. It was during that period that the eight-barrel flow was made. There were no signs of formation water.

Gas-oil ratio was 1.510-1. Gravity of the oil was 44 degrees. Open flowing bottom hole pressure was 775 pounds. Shut-in bottom hole pressure, after 15 minutes was 4,000 pounds.

Operator is now taking electric log surveys. The new well is 11 miles southwest of the City of Midland and 660 feet from north and 900 feet from east lines of section 10, Matt Daugherty survey, A-885.

Los Nietos Company, (Union Oil Company of California), No. 1 Joe Youngblood, Central-South Midland County wildcat, 20 miles south of Midland, is at total depth of 8,280 feet and is running tubing to swab the open hole between 8,219 feet, where 5 1/2-inch casing is set and total depth.

The open hole section has been completed as the fourth oiler in the Huddale, North-Lower Canyon field of Central-North Schleicher County.

Operator plugged back to approximately 7,350 feet and set a whipstock and then drilled a new bore hole from there down to the present depth of 8,280 feet in the Spraberry.

This prospector topped the Spraberry at 7,633 feet, to have a datum of minus 4,736 feet on that marker. The sections between that point and the old total depth of 8,807 feet had shown interesting indications of possible production in several streaks.

The reason for cutting a new bore was to get a fresh look at the pay section. The pay in the old hole had been subjected to exposure to various sorts of drilling fluid and other materials and that is thought to have contaminated the possible producing formation to such an extent that an accurate test of the petroleum yielding ability of the zone could not be secured.

Location is at the center of the southeast quarter of section 40, block 39, T-4-S, T&P survey.

**C-N Schleicher Gets Another Well**  
Sinclair Oil & Gas Company No. 1 W. A. Davis estate has been completed as the fourth oiler in the Huddale, North-Lower Canyon field of Central-North Schleicher County.

It was potentialized on the pump for 61 barrels of 35.9-gravity oil in 24 hours.

Production is through perforations at 8,642-47 feet in five and one-half-inch casing cemented, on bottom at 5,701 feet.

The perforations were washed with 500 gallons of mud acid. The Strawn lime was topped at 5,578 feet on a datum point of minus 3,376 feet.

Location is 660 feet from north and west lines of section 55, block M, GH&SA survey.

**Skelly Stakes NE Sutton Prospector**  
Skelly Oil Company has staked location for a 5,200-foot rotary wildcat in Northeast Sutton County.

That concern's No. 1 E. D. Reilly will be 1,980 feet from north and 660 feet from east lines of section 42, block 5, TWNG survey. It is four and one-half miles south of the Schleicher County line and nine miles east of the Kimbrie County line.

**Tom Green Tester Drilling Ellenburger**  
J. Roy McCoy of Lubbock and others No. 1 Tupper, East-Central Tom Green County wildcat, is drilling below 4,843 feet in Ellenburger dolomite which was topped at 4,762 feet.

The Ellenburger lime was entered at 4,705 feet, 2,918 feet below sea level and 95 feet low to H. G. Spiller No. 1 John E. Melde, wildcat 1,900 feet from south and 660 feet from east lines of Peter Kessler survey.

No. 1 Melde topped the Ellenburger at 4,620 feet, 2,825 feet below sea level.

No. 1 Tupper took a drillstem test from 4,764 feet to 4,790 feet with the tool open 40 minutes. Recovery was 140 feet of drilling mud.

A very porous Strawn reef type section with scattered streaks of dense lime was logged from 4,312 feet, 2,376 feet below sea level.

Drilling is to continue to 5,000 feet, contract depth.

Location is 467 feet from east and north lines of section 1646, D. Burgdorf survey and two and one-quarter miles southeast of Mereta.

**Midland Tex-Harvey Gets Another Test**  
In the extreme south side of the Tex-Harvey field of Central-East Midland County, A. N. Hendrickson No. 2 Mrs. W. A. Hutchison is to be drilled as another Spraberry project.

Drillsite has been made 662 feet from south and 660 feet from east lines of the northeast quarter of section 36, block 37, T-3-S, T&P survey.

It will be projected to around 8,000 feet, starting at once.

**C-N Dawson Tester To Run Casing, Test**  
Chicago Corporation No. 1 Huddleston, north offset to production in the Smith-Spraberry field of

Central-North Dawson County, is running Schlumberger surveys preparing to run seven-inch casing and make production tests.

Operator took a drillstem test from 7,525 feet to 8,964 feet. Tool was open five and one-half hours. There was a strong blow of air throughout the test.

Recovery was 1,400 feet of pipe line oil and 200 feet of heavily oil cut mud.

Location is 660 feet from south and west lines of block C-41, pal survey and 13 miles northeast of Lamesa.

The Smith-Spraberry pool was opened by Standard Oil Company of Texas No. 1 Mrs. M. V. A. Smith, up to now the only producer in the field.

**Killam Is To Deepen Jeff Davis Project**  
O. W. Killam is deepening to 10,000 feet at his No. 1 Cole Means, wildcat in Jeff Davis County and 330 feet from north and 660 feet from west lines of section 199, block 4, H&TC survey.

Operator is now drilling below 7,222 feet in lime. Original contract was to go to 7,000 feet.

It is one mile northeast of Valentine.

**West Berlin Honors U. S., British Airmen Who Died In Airlift**  
BERLIN —A grateful West Berlin Tuesday immortalized 51 American and British fliers who gave their lives to the mighty airlift that broke the back of the Soviet blockade two years ago.

West German and Allied officials joined in the dedication of a memorial to the men who died in crashes during the 11-month siege in which the anti-Communist West Berliners was fed by air alone.

The 63-foot high stone statue, symbolizing the three "air corridors" to Berlin used by the airlift, was erected at the big American base at Tempelhof.

Uruguay is the smallest republic in South America, having an area of 72,153 square miles.

### ran, Supporters an Power Bid In ish Labor Party

NDON — Former Health  
er Anurin Bevan and left  
supporters launched a bid for  
r in the Labor Party Tuesday  
a manifesto urging a slash in  
Atlantic Pact rearmament pro-

the opening phase of a cam-  
to change the Labor govern-  
s home and foreign policies,  
n and 24 followers, issued a  
phlet laying down a set of  
pplies they think Britain should  
w.

van and his group indicated  
will battle for their program at  
Labor Party's annual conference  
October. Their aims hinge on  
premise that Britain and her  
a should switch much of their  
and resources to a mutual aid  
ram for fighting poverty  
hroughout the world and at the  
a time keep a restraining hand  
any American drift toward war.  
gremise With Reds

ith a wary eye on American  
ber bases in Britain, the Bevan  
en called for an absolute British  
on any United States offen-  
sion from British soil.  
be group's aims, as outlined in  
manifesto include:

"supreme" Western effort to  
h a settlement with Russia in  
next two years, because after  
it may be "too late."

program of economic and tech-  
aid that would dwarf Presi-  
 Truman's Point Four plan.

general settlement of all issues  
n which the cold war has de-  
veloped, including control of the  
ld's oil supplies and of such in-  
ernational waterways as the Dard-  
lles and the Suez and Panama  
als.

Full-scale review of British-  
merican relations.

a negotiated settlement of out-  
nding questions with Red China.  
Abandonment of plans to rearm  
st Germany or to bring Franco  
ain into the Atlantic Pact.

There appeared little chance the  
hlist elements in the Labor  
arty would go along with Bevan's  
ampaign to deemphasize rearmam-  
nt.

A genuine diamond can be dis-  
tinguished from an imitation stone  
touching it with dry ice; the real  
m will squeak when touched.

### State Cancer Drive Is Short Of Goal

TEMPLE—Cancer Crusade results  
in Texas have exceeded \$465,000  
this year, according to Dr. G. V.  
Brindley of Temple, Executive Com-  
mittee chairman of the American  
Cancer Society, Texas Division.

"The prospects are that our volun-  
teer workers will reach \$490,000  
when they make final reports," Dr.  
Brindley said. "This would be only  
\$19,000 short of the state need,  
which was set at \$500,000 by the  
Executive Committee."

"Every additional gift at this time  
is vital to the success of this work,"  
he added.

Meetings Being Held  
Sixty-one counties have exceed-  
ed their goals, and several more ex-  
pect to make the mark with last-  
minute contributions. Of the 254  
counties in Texas, 175 were or-  
ganized for the Texas Cancer Cru-  
sade this year, the physician said.

The Cancer Crusade is an annual  
educational and fund-raising event.  
Funds are used to further a three-  
fold program of public and profes-  
sional education, volunteer service  
for cancer patients, and a vast can-  
cer research effort.

Dr. Brindley compiled results to  
date in preparation for a series of  
committee meetings this week which  
will appropriate funds to support  
tumor clinics, hospital projects, lo-  
cal information centers and state-  
wide educational and service opera-  
tions in the coming years.

Midland County exceeded its  
quota.

### India-Switzerland Commerce Thrives

NEW DELHI — (AP) — Indian  
printed cotton textiles are in great  
demand in Swiss markets for mak-  
ing ladies' garments, official sources  
here said.

Even otherwise, they added, Indo-  
Swiss trade has been on the in-  
crease and in March, 1951, India ex-  
ported goods worth 3,500,000 Swiss  
francs and imported articles valued  
at \$200,000 francs.

India imported a large quantity  
of Swiss watches and clocks, drugs  
and pharmaceuticals, dyestuffs, ma-  
chine tools, leather, precious stones,  
rubber goods and chemicals.

There are between 300 and 400  
known active volcanoes in the world,  
according to the Encyclopedia Brit-  
annica.

### St. Andrews Building Fund Campaign Is Past Halfway Mark

Optimism was the watchword  
Monday night as Midland Presby-  
terians held the initial report  
meeting in connection with a \$90,-  
000 finance campaign to erect the  
first unit of a new church plant  
for the St. Andrews Presbyterian  
Church.

"Victory is in sight," campaign  
workers said as they viewed figures  
tabulated on a huge blackboard in  
the Fellowship Hall of the First  
Presbyterian Church.

A total of \$31,164 in gifts and  
pledges was reported at the dinner-  
meeting. The figure represents 52  
per cent of the quota, with 83 per  
cent of the prospect cards out-  
standing.

Second Meet Set  
A second report meeting is sched-  
uled at 8:30 p.m. Thursday in the  
First Presbyterian Church, with all  
campaign leaders and workers in-  
vited and urged to attend.

A breakdown of the gifts by sec-  
tions reported at the Monday night  
gathering is as follows: General  
Gifts—\$2,709; Special Gifts—\$19,-  
930; Big Gifts—\$8,125; Friends—  
\$413.

The campaign was launched last  
week by members of both the First  
and St. Andrews Presbyterian  
Churches. The St. Andrews Church  
was organized last December under  
the sponsorship of the First Church.

Livestock

QUEEN KING—Comely Linda  
King, of Jasper, Ind., is the  
queen of the annual All-States  
Picnic at Ontario, Calif. The pic-  
nic is sponsored by the Federa-  
tion of All States, composed of  
residents of states other than  
California who have settled in  
Ontario. Thousands of visitors  
are served at the "world's long-  
est picnic table," two miles long.

### Traffic—

(Continued From Page One)  
into court for driving without a  
license, compared to 27 for the pre-  
vious month.

Aside from the traffic problem,  
the police department still had a  
busy time during June.

The number of drunkenness ar-  
rests increased from 115 to 130  
during the one-month period, to  
bring the six-month total to 655.

Thirty-four persons were arrested  
for disturbing the peace during  
June, more than twice the number  
for the preceding months.

Other arrests ranged from 19 for  
assault down to small numbers for  
minor offenses.

Officers traveled a total of 17,656  
miles during the month, the small-  
est of any month of 1951, recovered  
stolen property valued at \$11,803 and  
brought \$3,266 into the city's coffers  
through corporation court fines.

### Red Infiltration Of Radio's 'Voice' Program Reported

WASHINGTON — (AP) — Senate in-  
vestigators reportedly cocked an  
eye at a State Department office  
in New York Tuesday in checking  
charges that Red sympathizers have  
infiltrated the "Voice of America."

Senator McCarran (D-Nev.) said  
these charges about the govern-  
ment's radio program were made  
Monday at a closed hearing con-  
ducted by two Senate groups he  
heads. He declined to name the wit-  
nesses who made them, but said in  
his opinion there was "no doubt"  
their testimony was correct.

Officials of the State Department  
were not available for immediate  
comment.

### Fred Underwood Enters Annapolis

ANNAPOLIS, MD. — Fred G.  
Underwood, 18-year-old son of Mr.  
and Mrs. W. S. Underwood, 907  
West Illinois Street, Midland, was  
among 800 first-year men entering  
the Naval Academy here July 2.

Underwood was graduated from  
Midland High School last Spring.  
He had passed his preliminary ex-  
ams for the Academy while still in  
high school.

A glider at Midland High School,  
Underwood hopes to play football  
for Navy.

He received his appointment from  
Congressman Ken Regan of Mid-  
land.

### Congratulations To Lions Place 254 Gum Ball Machines

The Midland Lions Club Tuesday  
had placed 254 gum ball machines  
in the club's new campaign to pro-  
vide funds for its charity work.

Chamber of Commerce Manager  
Delbert Downing said the final fig-  
ure probably will be higher because  
some workers had not made reports.

Thirty-five members of the club  
are working to reach the drive's  
goal of locating 300 machines.

Funds from the project will be  
used to bolster the Lions' charity  
purse, which, among other projects,  
has been used to pay for eye ex-  
aminations and glasses and to pro-  
vide transportation for school chil-  
dren who otherwise have no way to  
get to school.

CHANGES MEETING TIME  
The Delta Delta Alumnae Associa-  
tion will meet at 8 p.m. Wednes-  
day, instead of Thursday as pre-  
viously announced. The meeting will  
be held in the home of Grace Baker,  
516 Holmaley Street. Ann Tucker  
will be co-hostess.

Tarpon Springs, Fla., is the center  
of the largest sponge industry in  
the world, with a fleet of 175 boats  
plying the Gulf.

### Grab-Run Thief Gets \$20 From Cash Box

A grab-and-run thief took a cash  
box containing approximately \$20  
Monday afternoon from Dunlap's  
Department Store at 117 North  
Main Street.

Police reported a negro girl, stop-  
ping in front of the cosmetic coun-  
ter, grabbed the box and fled.

Store employees chased her a block  
and a half before she escaped.

### Billy George McCune Sentenced To Death

FORT WORTH — (AP) — Billie  
George McCune, 21, the convicted  
rapist of a Fort Worth housewife,  
Monday was sentenced to die in  
the electric chair by Criminal Dis-  
trict Judge Dave McGee.

After the sentence was imposed,  
McCune repudiated his defense plea  
of insanity to District Attorney  
Stewart Hellman.

# It's Good for You!

Standard equipment, accessories and trim illustrated are subject to change without notice.

These are days to try the mettle of a man. There's his world  
to worry about—his country—his business—his family. And  
there are his own hopes and aspirations.

And, yet, a man must go on. Everything he has, and  
plans for, demands a tilt to his head and a lilt to his spirits.

And that's where his Cadillac comes into the picture—  
for here, beyond all question, is one of the world's great  
therapeutics for a world-weary man.

Just to look at it, in the driveway, is an inspiration—  
proud, beautiful, eager and substantial.

And, oh, how you rest when it takes to the highway!

There's the deep-throated lullaby of its powerful engine;  
there's the soothing, restful, relaxing ride; and there's the  
soft swish of the wind as it flows past the streamlined body.

Men look forward to it throughout the day.

We have it on the word of a great statesman, and a great  
surgeon, and a great general, and a great business man—and  
simply thousands of others who are weary with the heavy  
burden of things as they are—that the hour at the wheel of a  
Cadillac is the relaxing one of the twenty-four.

So there you have the prescription. Better come in and  
see us today—and make arrangements to have it filled.

## Drillers Trip Indians 8 To 5

Box score on the Midland-Artesia baseball game, played in Artesia Monday night, was unavailable at press time. The Monday night box score will appear in Wednesday's edition of The Reporter-Telegram, along with Tuesday night's box score.

ARTESIA—Six runs in the first two innings sent the Artesia Drillers away to an early lead and gave the Drillers an 8-5 win over the Midland Indians here Monday night.

Lew Ballard, who joined the Indians from Tallahassee, Fla., Sunday, started on the mound for the Tribe but was greeted roughly by the Drillers. A triple by Ace Fleitas sent the Artesia team in front 4-0 in the initial inning. Ballard was replaced by Dave McKenzie in the third, when he walked four straight men—forcing in a run—after two were out.

McKenzie turned in a good relief performance, and Midland promptly hacked at the Driller lead, cutting it to 7-4 with four runs in the fourth frame. Big blows of the inning were a double by Dick Campbell, another by Hayden White and a single by Kenny Jones. Midland added a lone tally in the ninth, but it wasn't enough.

Israel Ten went the route to chalk up the win for the Drillers.

The score:

|                                |
|--------------------------------|
| R H E                          |

## Texas League— Buffs Add To Margin As Eagles Split With Tulsa

By The Associated Press  
Wilmer (Vinegar Bend) Mizell, the promising Houston southpaw, pitched himself to another victory in the Texas League, his tenth, and the Houston Buffs added another half game to their lead.

The kid, called one of the most promising rookies in the Cardinal camp last Spring, gave up eight hits and struck out eight men in beating Shreveport 5-2 Monday night.

The Dallas Eagles could get only one hit, a single by Jodie Beefer in the fourth inning, off Joe Nuxhall in the first game with Tulsa. Hal Erickson gave the Oilers only five hits but three were bunched in the fourth for a 1-0 victory.

The Eagles came back strong in the second game to take an 8-6 decision in a wild game.

The Beaumont Roughnecks moved back into third place in their see-saw battle with San Antonio. The Necks decimated the Missions 5-2.

The Oklahoma City Indians took advantage of wildness to beat Fort Worth 11-2. Rex Barney was given another chance in a relief role but showed no improvement.

Barney took over the mound duties in the fifth inning with the Indians leading 6-1. He beamed two hitters and walked five besides allowing one hit. The Indians touched him for five runs before he could be relieved.

Frank Isbell, first baseman for the Chicago White Sox in 1961, led the American League in stolen bases with 48 that first AL season.

## League Standings

Big Spring at Roswell  
Vernon at Odessa.

### Longhorn League— Broncs, Colts Oilers, Drillers Cop Loop Games

By The Associated Press  
The Big Spring Broncs and the Roswell Rockets opened a crucial two-game series in the Longhorn League Monday night but one game changed the picture. A dust storm took a hand as Big Spring beat the Rockets and all but ended the crucial part.

The Broncs entered the series a game and a half in front of the Rockets in their battle for second place. But a 5-4 victory in the opener made their lead safe—for this series at least.

With the two clubs deadlocked in a scoreless battle, going into the fifth inning, a dust storm blew in to hamper play. Big Spring scored four runs in the top of the inning and Roswell two in its half. Then the storm blew itself out, but the Broncs had their lead.

The league-leading San Angelo Colts turned their heavy artillery loose on lowly Sweetwater and with the aid of five costly errors handed the Swatters an 11-6 drubbing. Artesia built up an early lead then fought off Midland for an 8-3 win, and Odessa ran wild to swamp Vernon 18-6.

Sweetwater fought gamely but their miscues were too much handicapped. Pitcher Jesse Torres, the loser, hit a three-run homer in the second inning. Wayne Wallace hit his 22nd of the season for the Colts.

Six hits, four walks and an error gave Artesia seven runs in the first three innings and the lead was more than Midland could overcome.

Odessa collected 19 hits off Vernon pitchers. Seven Duster errors didn't help keep the score down.

The scores: R H E  
Vernon.....001 211 100—6 18 7  
Odessa.....103 525 20x—18 19 2  
Reimold, Malone and English; Guerrero and Castro.

San Angelo.....301 002 500—11 13 0  
Sweetwater.....040 001 010—8 8 5  
Beltran, Saldano and Schmeegold; Grajeda, Torres and Ortosky.

## Rotary, Plastics Win Playoff Tilts

Western Plastic and Rotary Engineering Company came through with first-round wins in the City Major softball playoffs Monday night, the Plastics defeating Shell Oil 6-4 and Rotary taking Standard of Texas 9-5.

Western Plastic scored two runs in the fifth to overcome a 4-3 Shell lead. Joe King reached base by error and was singled in by Tommy Flourinere. Flourinere scored when interference was ruled on the Shell manager, who attempted to throw a wild pitch back into play. Jack Dunlap got the pitching win, allowing but six hits. Jack Smith was the loser.

In the second game, Jerry Matajak hung up win number 12 of the season in defeating Standard, in spite of a one-man assault by Evans of Standard, who hit four for four. One of his blows was a home run with the bases uncoccupied in the sixth. Fleming, catcher, paced Rotary with three for five.

Wednesday night, the same teams meet again, with Rotary and Standard playing at 7:45 p.m. and Shell and the Plastics going together in the second contest.

Chamber of Commerce Manager Delbert Downing has drawn up a plan which will allow some Midlanders to pick up 13-cent tickets at the Chamber office. This may be done by Midlanders who are: (a) 13 years old this year, (b) celebrating their thirteenth year of marriage this year or (c) celebrating their thirteenth month of marriage during the month of July.

Downing said the tickets will be available for 13 cents only at the C. of C. office, and must be purchased before the game.

## Youth Centers In Baseball Battle

A "charity" baseball tilt at 8:15 p.m. Tuesday in Indian Park will pit the Midland Youth Center baseball team against the Latin American baseball nine.

Officials said admission to the game will be free, but donations will go to the Latin American Youth Center Fund.

Bill Gilwell will handle the Midland Youth Center team, while Ray Protzman guides the Latin American team. Billy Medart will hurl for Gilwell's team. No hurler has been named by Protzman.

## Roberts, Garver Hurl 'Star Tilt

DETROIT—(AP)—At least three members of Casey Stengel's American League, all-Star team were "ailing" here just before game time Tuesday, but Stengel said nobody would be excused.

Manager Eddie Sawyer of the Nationals, on the other hand, reported his squad in tip-top shape. Stengel refused a request by Cleveland Manager Al Lopez to excuse Larry Doby, Indian outfielder, from action. Lopez pleaded Doby was handicapped by a pulled leg.

But Stengel, in refusing the request, pointed out he was using Larry (Yogi) Berra, his own catcher, behind the plate for the entire game although Yogi is bothered by a bad back. Joe DiMaggio, another Yankee, is bothered by a leg injury, and Chico Carrasquel, White Sox shortstop, still is not fully recovered from a spike wound in his foot.

In spite of the injuries, the Americans remained 7-5 favorites to win, although National League touthumpers pointed out the Nationals have walloped 180 homers to 137 for the Americans and the pitchers have hurled 13 shutouts to only seven for their rivals.

Ned Garver (11-4) of the St. Louis Browns was to start for the American Leaguers, with Robin Roberts (10-7) slated to go for the Nationals.

MIAMI, FLA. — (AP)—Football teams playing in the Orange Bowl next January 1 will receive approximately \$91,000 each and increased radio and television revenue will permit payment of at least \$100,000 each in 1963 and 1964.

The Orange Bowl Committee said its ultimate goal is \$120,000 for each team. Last January 1, Miami and Clemson received \$75,000 each.

MIAMI, FLA. — (AP)—Football teams playing in the Orange Bowl next January 1 will receive approximately \$91,000 each and increased radio and television revenue will permit payment of at least \$100,000 each in 1963 and 1964.

The Orange Bowl Committee said its ultimate goal is \$120,000 for each team. Last January 1, Miami and Clemson received \$75,000 each.

## Sugar Ray Favored Over Turpin 4-1

LONDON—(AP)—Sugar Ray Robinson puts his world middleweight title on the line Tuesday night against the hardest puncher ever developed in Britain, 23-year-old Randolph Turpin.

The chances are so strong Robinson will keep the crown that if you back the champion you have to risk four bucks to win one.

If you like Turpin—most folks seem to feel he's a nice young lad being tossed to a hungry tiger—you can get odds of three to one.

## Cards Defeat Realtors 10-4

The Cards defeated the Realtors 10-4 in a Little League game Monday, with Bobby Fisher going all the way to win. Charles Sabin was the loser.

Eddie Pierce paced the winners with a double and a triple. The Cards performed three double plays. The score: R H E  
Cards.....115 12x—10 10 2  
Realtors.....000 310—4 8 3  
Sabin and Stringer; Fisher and Hillin.

## WT-NM League Pampa Wins Pair On Good Pitching

By The Associated Press  
The Pampa Oilers tangled with Borger Monday night in a twin bill, taking both ends of the card. They won the first game 5-3 behind the four-hit pitching of George Payte. They got the second 6-1 with Mack Hyde tossing a two-hitter at the Gassers.

Albuquerque and Abilene tangled in the best game of the night, the Blue Sox taking a 2-1 decision after eight scoreless innings. Izzie Leon doubled with two men on base to break the scoreless tie.

Amarillo came from behind to beat Lubbock 7-6, and Lamesa had a field night against Clovis, winning 16-8.

## Black Indians Lose To Paris Bombers 4-2

The Paris Brown Bombers defeated the Midland Black Indians Monday night 4-2. Lucky Mitchell whiffed 15 Midland batters.

Wednesday night, the Lubbock Black Hubbers will invade Indian Park for a tilt with the Black Indians. Game time is 8:15 p.m.

The MATURE PARENT Teen Drug Addicts Show Group Acceptance Folly

By MURIEL LAWRENCE Of boy and girl drug addicts with whom she has been working, a social worker friend of mine says: "They use the needle because their group rates them on the number of arm punctures they can display."

Oh, we say, but our teenage sons and daughters are not that dependent! If that's what we think, we'd better read "Profile of Youth," a recently published survey of some 15,372,000 teenage Americans.

Midlanders— (Continued From Page One) Jack Merritt, constable, who has a 21-year-old son with the First Cavalry Division in Korea...

Mrs. John Cornwall, housewife of 801 North A Street—"I think the peace talks will be successful, and they certainly won't hurt us any. But we should see that Russia won't start out again in some other place. I don't know whether the Communists are sincere, but I hope so."

Timed Right For Russia Mrs. J. S. Roden, president of the League of Women Voters—"I think the cease-fire talks were timed right for the Russians in that they interfere with our defense production act and throw us off guard. However, I am optimistic enough to think it will lead us to a settlement. But it will take a long time. These talks, however, have gone farther than most."

Mrs. Laurence F. Lees, housewife—"The cease-fire order in Korea reminds me of two boys who were fighting and one said, 'Hold on a minute. I have something in my eye.' When his opponent had his guard down he hugged him. Peace negotiations are fine but we need to do some realistic horse-trading and put our faith in our strength rather than in some imaginary integrity of the enemy."

Mrs. A. A. Upchurch, housewife—"I am most hopeful for a successful peace settlement. I believe the Communists are sincere this time because they are beaten. We have shown a great potential strength in Korea."

J. V. Hobbs, 101 East Ohio Street—"It's my honest opinion that we won't have peace, but I hope we do. I think the Reds are just stalling for time and are insincere, and I don't think I'm just being pessimistic."

Doubt Reds' Sincerity Roy Harrison, Jr., Midland policeman—"No, I don't think we'll get peace from these talks. I don't believe the Communists are sincere, not if you check the history of Russia. They'll shake with one hand and stab you with the other."

Mrs. R. Luther Kirk, housewife and church worker—"To have peace in the future will require more work than ever before. It won't come free but will cost us a lot."

Mrs. R. L. Peek, admitting clerk at Midland Memorial Hospital—"I just hope it will mean peace." Mrs. J. D. Dillard, clubwoman—"There's a possibility that the talks may work. All I can do is hope."

Why Continue to "Put Up" With BUGS in Your Home or Business Building? FOG SPRAY is the long-term answer to ROACHES-ANTS-FLIES-MOTHS, Etc.
Insects can't live for months in your home or other buildings after FOG SPRAYING. The TIFA (Todd Insecticidal Fog Applicator) method of insect-proofing is absolutely safe for humans and pets, but is sure death for bugs. Fog Spraying is now available for the first time in this area, and it is already proving itself here, as it has in other parts of the country, as the BEST and CHEAPEST protection against the damage and discomfort of insects. Approved by House Beautiful, Homes & Gardens and Life magazines.

TOP VALUES
Cottage of two good-sized rooms and bath, located on large lot. Ideal buy for young couple who would like to live economically now, later build larger home on front of lot.
Good small farm, well improved, with oil production all around it, royalties included. Will sell or trade for Midland property.

MIDLAND, TEXAS, TUESDAY, JULY 10, 1951

SECTION TWO

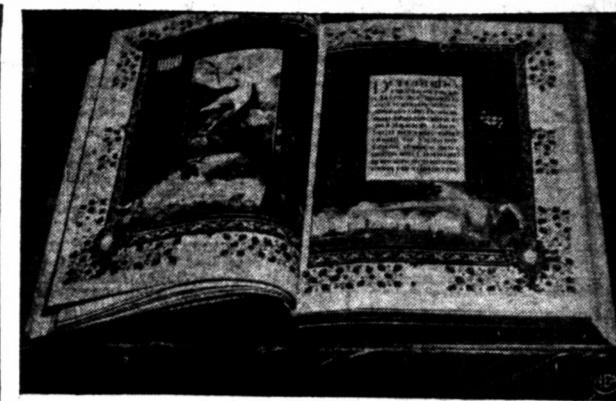

**GENERALS AND THEIR TRADE MARKS**—Each of these United Nations generals in Korea has his own special trade mark. They are, left to right: Canadian Brigadier John M. Rockingham, with his cane; Maj.-Gen. R. H. Soule, with his helmet liner; Lt.-Gen. James A. Van Fleet, with his gloves; Gen. Matthew Ridgway, with his famed harness and hand grenades, and Lt.-Gen. Frank W. Milburn, with sun glasses and his pet dachshund, "Puckha," which has followed him through the Korean battle and in World War II. The meeting took place near the front lines just prior to General Ridgway's cease-fire proposal. (Canadian Army photo from NEA.)

## Burglar Can't Be Dry Behind Ears

**VAN NUYS, CALIF.**—(P)—Here's a burglar who can't be dry behind the ears. He's the guy—Dr. Sidney G. Milford reported to police—who stole a light from the bottom of the doctor's swimming pool. The pool was full of water at the time, the doctor added.

## Poaching Penalties Are Made Stiffer

**WASHINGTON—(NEA)**—Poachers and others preying on wildlife are finding it increasingly difficult to make a buck these days. State legislatures are acting to take the profit out of unsportsmanlike rackets. Tennessee, for example, where the fine for shooting deer out of season was lower than the black market value of the carcass, slapped a \$50 fine, plus 30 days imprisonment for the first offense with optional confiscation of automobiles and firearms. New York and West Virginia have stiffened poaching fines as well, added lengthy jail sentences to penalties. Grand Coulee Dam easily could house in its structure the greatest of the pyramids of Egypt.

**BOOK HONORS HEROES**—These are typical pages in a magnificently illuminated Book of the American Dead, honoring U. S. personnel who were killed while based in Great Britain during the World War II. It contains an honor roll of 28,000 names. After being presented to the British people by Gen. Dwight Eisenhower it will be placed on exhibition in the American Memorial Chapel at St. Paul's Cathedral in London.

## Hurdles Handicap Plan To Raise Europe's Production

By BRUCE BOSSAT  
NEA Staff Writer  
(Last of a series)

**WASHINGTON**—The need for economic recovery was Europe's first great postwar crisis. The United States, newly come to world leadership, met the problem with the Marshall Plan, a noble, inspired human experiment which worked.

But now Europe revived in economic strength and in spirit, confronts another kind of crisis. The menace of aggressive Russia compels all free men to rearm. Coming so close on the heels of Europe's well-remembered distress, the burden of rearmament appears to the Europeans almost intolerable.

Into this new crisis, faithful America has injected another imaginative proposal. Its leaders are saying: "If rearmament imposes too great a strain on present European economies, let's solve the difficulty by enlarging those economies so they can take the blow."

Will America's plan for higher European productivity really work? American businessmen and gov-

ernment officials in most intimate touch with Europe's problems concede a healthy handful of obstacles. For one thing, customs and traditions will form a barrier. U. S. productivity symbolizes all the efficiency techniques ever devised in our factories. Many of these inevitably smash the crust of custom with ruthless unconcern. Family habits, labor union practices, many another custom may have to go if the plan is to work unhindered. European labor is governed by a mass of rules. And secondly, European psychology is naturally unique. Distinct Way Of Life.

Europeans lead a distinct way of life. They like it. We could err badly if we assume automatically that they will embrace gladly production methods which may drastically alter the patterns they know. How can we be sure "productivity" may not be just an empty phrase to them, or worse, an actual threat to much they hold dear?

In their hearts the Europeans know that today we are the strongest free power and hence must lead them. But they have an understandable reluctance to acknowledge this state of affairs, since they see themselves as more experienced than we. They perhaps are too ready to see "dictation" in our efforts to guide and assist. They may view "productivity" as an attempt to impose our way of life upon them. That the fear is unreasonable does not necessarily minimize it.

Even more practical difficulties loom. Raw materials needed to fuel an expanding, more productive European economy are in seriously short supply. The world deficit comes to 20 per cent in copper, 10 per cent in zinc, five to 10 in lead, 10 to 20 in sulphur, 15 in wood. There are many other deficiencies. If you haven't the raw stuff of production, where is the advantage in improved production techniques? Philip Reed, chairman of General Electric and until mid-June head

of the International Chamber of Commerce, envisages still other handicaps. Productivity gains come slowly at first, gathering speed with time. In this delicate first phase, he believes Europe cannot avoid some belt-tightening. It will be hard to prevent popular discouragement in this interval.

The fact is recognized, he says, that people deeply are affected by the trend of their welfare. If it has been upward, even slightly, then a halt or a downturn can have damaging effect.

All these obstacles have a tough core of reality in them. They raise the question whether America's shining proposal may not prove a pipe dream. Cynics treading European halls snort that the plan won't work.

But the most seasoned American analysts of Europe are not so pessimistic. They foresee no miracle. They don't necessarily believe Europe will add that projected \$100 billion of new output by 1961. But they are convinced enough of this productivity crusade will rub off on the Europeans to make a real impact, to keep them hopeful, to bolster their defenses and help the free world stand off the endless threat of communism.

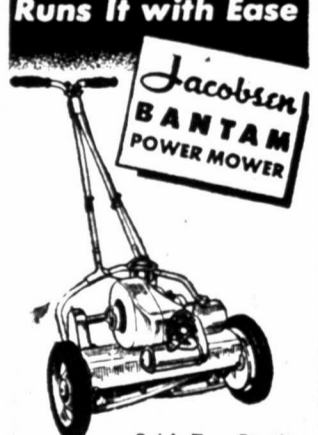

One of six federally-inspected horsemeat plants in the United States is located at Redmond, Ore.

Whether it be good, or whether it be evil, we will obey the voice of the Lord our God, to whom we send thee; that it may be well with us, when we obey the voice of the Lord our God.—Jeremiah 42:6.

et After Narcotic Sellers

For the teen-age victims, it began as a lark—an excursion into the unknown, like the first ride on a roller-coaster. It started as a challenge—the proof of daring so they could keep up with the crowd and not be called a "square."

All of these ideas, added together, are only part of the answer. The big factor is that the stuff that makes addicts is available—as available, in many cities, as cream and candy.

What would happen if we got tough? The same thing that happens when the rats find their poison around the orn crib. In St. Louis, Anslinger points out, an 18-year sentence for a convicted peddler started the rest of them unning out of town.

Other things would help, too. Although Anslinger doesn't agree, many experts put up a sound argument for education—a carefully planned program to drive home to our youngsters the horrible facts of dope. And it's only merciful that we take steps to provide hospitals where those who have already been victimized can be treated, even if the treatment is only a dim hope for escape from the nether-world of addiction.

There's a chance for the rest of our children. There are laws pending in Congress and in many states that would require minimum sentences of two, five and 10 years for first, second and third convictions of drug peddlers. There's even a proposed federal law with a death penalty for peddlers who sell to minors.

We hope Congress was listening when the teen-agers spilled out their stories of the lark that turned out to be a roller-coaster on the road to horror.

Proof Of The Pudding

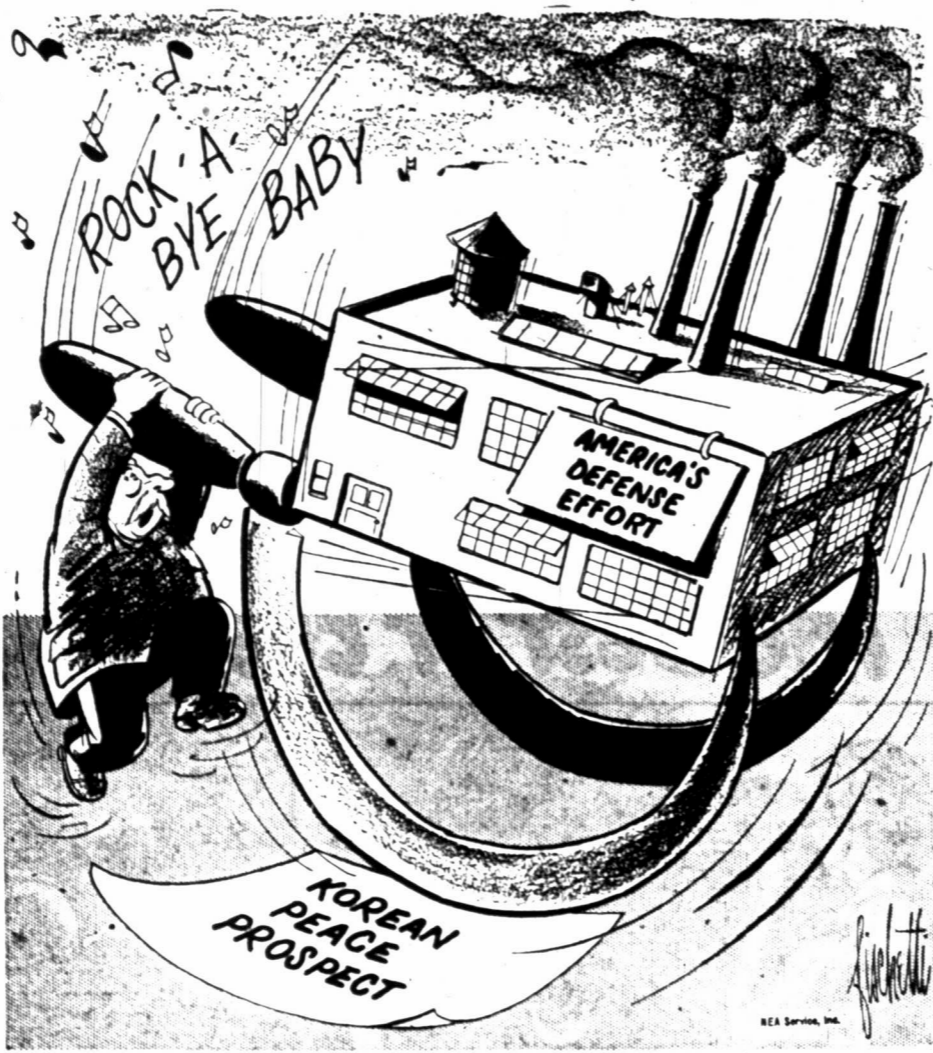

Federal highway authorities may read with profit the recent comment of an official of the Pennsylvania Turnpike Commission. Federal men like to assail the super-toll road as an extra tax burden, as damaging to a state's regular highway web, as possibly hurtful to a state's economic life.

Some facts in rebuttal: Since the Turnpike has been operating (13 years), Pennsylvania has spent more money on improvement of parallel routes than the toll road itself cost, and all these secondary highways today are carrying a full traffic load.

One wonders how long the Public Roads Administration will continue to regard such turnpikes as uneconomic and unwise.

An unexpected bouquet or box of candy indicates real love—of late hours.

Industrial Designer

DREW PEARSON ON THE WASHINGTON MERRY-GO-ROUND

Copyright, 1951, By The Bell Syndicate, Inc.
Drew Pearson says: Early-morning price debate revealed special-interest senators; Senator Ferguson was defeated on automobile roll-up amendment; Senators shouted down Lehman amendment to help families with children.

WASHINGTON—The public was asleep at 3 a.m. when the Senate staged its most revealing debate on price control. Asleep also were many newspapermen.

About 2:30 a.m., up spoke Senator Homer Ferguson of Michigan, his silver hair more awry than usual. He had an amendment which would have increased the price of automobiles throughout the nation.

Later, Anderson read a telegram to show that he was supported by some meat packers.

Other things would help, too. Although Anslinger doesn't agree, many experts put up a sound argument for education—a carefully planned program to drive home to our youngsters the horrible facts of dope.

There's a chance for the rest of our children. There are laws pending in Congress and in many states that would require minimum sentences of two, five and 10 years for first, second and third convictions of drug peddlers.

We hope Congress was listening when the teen-agers spilled out their stories of the lark that turned out to be a roller-coaster on the road to horror.

An unexpected bouquet or box of candy indicates real love—of late hours.

Jacoby On Bridge

By OSWALD JACOBY
Written for NEA Service

Today's hand, played in a duplicate tournament, started an interesting argument. West began the defense by leading the king of diamonds. When that held he promptly shifted to a trump South won, cashed the ace of spades and ruffed a spade in dummy. He then ruffed a diamond in his own hand and ruffed another spade in dummy.

Table with 4 columns: NORTH, WEST, SOUTH (D), EAST. It lists card holdings for a bridge hand, including suits like hearts, diamonds, clubs, and spades.

Why don't you think before you criticize my better," asked West amiably. "I could have led my grandmother's shoe and I still couldn't beat two hearts."

"I'll bet all the tea in China," East replied. "That a trump opening beats two hearts."

"Let's run through the play. West leads a heart, and South wins. South cashes the ace of spades and ruffs a spade in dummy. Then he gives up a diamond trick."

South now leads a fourth round of spades. That leaves him with the last spade and the last trump. Hope you didn't lose any tea on this one.

TODAY'S QUESTION
The bidding has been:
North East South West
1 Heart Pass 1 Spade Pass
1 N.T. Pass 3 Diamonds Pass
3 Spades Pass ?

PETER EDSON'S Washington News Notebook

'Smiling Bob's New Grin Calculated To Win Voters, Influence Politicos

WASHINGTON—(NEA)—Senator Robert A. Taft of Ohio already has started to wear his presidential candidate smile, and apparently wants to be known as "Smiling Bob." He has confided to a number of people that he definitely has decided to run for the Republican nomination next year, and he's doing everything in his power to further that ambition.

But he now is taking steps to overcome the handicap. He is doing everything he can to make himself more likable. He ever has gone to the extent of stretching his mouth wider so that his smile will be more winning. And he's training himself to open his mouth to smile the moment he stands up to speak.

Next trouble spot where the Communies may try to give the business to the anti-Communist countries is Berlin. The time will be August and the occasion will be an East Berlin, Russian zone propaganda show. The so-called Free German Youth movement is being rallied for a demonstration there in the customary pattern.

So They Say

My Business, your business and the livestock business is being run by a bunch of lawyers and dogooders who don't know what they're talking about.

At the front we were all alike before God. All prayed to our God in heaven.

WILD WEST CHARITY STANDISH

THE STORY: Charity Standish, before the turn of the century, goes West to get rid of his fever. In San Lorenzo, N. M., she forgets his fever and thinks of love, particularly Douglas Kent. She accepts his proposal, then learns that Doug is a gambler.

CHARITY STANDISH wore her finest gown to the Aztec with Douglas Kent that night and was nervous lest it be not half fine enough. The Aztec was one of those fantastically impossible dreams that come true only in strange corners of America. It was castle-on-the-Rhine, chateau-on-the-Loire and hunting-lodge-in-the-Black Forest, all rolled into one.

Under a high paling moon that a few hours earlier had risen in orange splendor above the mesa she kissed him.

HE knew he could make a living on a ranch. This was good sheep country and fair for cattle. During the years in the West he had picked over more than one financial crisis by taking any job that offered itself. It added up to considerable experience. Yes, he could make a living on a ranch. He could picture Charity, on the veranda of the long adobe ranch house, waiting for him or, better yet, too impatient to wait, riding to meet him.

Questions and Answers

Q—Do the Northern Lights have any effect on the weather?
A—No. The Northern lights, or aurora borealis, appear at heights of 80 miles or more above the surface of the Earth, far above the lower and denser regions of the atmosphere where the weather is determined.

Q—Why is the Air Force interested in the huge "ice islands" found in the Arctic last year?
A—These flat icebergs, miles square and smooth enough for landing strips, could be used by scientists and weathermen as observation stations.

Q—Who was the first President of all the forty-eight states of our Union?
A—William Howard Taft. The last two states, New Mexico and Arizona, joined the Union in 1912 while Mr. Taft was President.

Q—Is the flight of the bats from Carlsbad Caverns a daily occurrence?
A—One of the great spectacles of the caverns is the flight of the bats about sundown from the Bat Cave, which is not open to the public. Hundreds of them in a black cloud stream out over the rim in a southerly direction, not to return until dawn.

out of sheer rage that life should be all drudgery. "I can't do it, Char! honey. I just can't," he muttered.

SHE kissed him again and told him that she had been foolish, and that it did not matter. He was relieved that she had decided to be sensible, that the matter was thus settled so satisfactorily. But when they were riding down the canyon together something stirred within him, something he had brought from South Carolina, some deep instinctive thing that he knew about women like Charity, and men like himself. He sensed uneasily that a smooth skin and eagerness for love were not all that he required of a wife. That life was he offering as an alternative to the one which he insisted Charity relinquish?

Living in dreary hotel rooms, waiting alone night after night, hoping nervously that his luck would be good. Or if that proved intolerable she might accompany him, not to Casinos like that of the Aztec, but to places like Duke Roger's Four Aces, where she could exchange amenities with the boys, or chat with women like Angel. But if he attempted ranshing what would he use for money? He had exactly \$180. Of course Ken Montijo owed him a good deal, but Ken was in the Apache country; there was no telling when he might get back.

"What's the horse's name?" Charity demanded plaintively. He came back to her slowly. "Horse's name? Why?" "I'd like to be properly introduced so I could talk to him. You won't even answer my questions."

"I'm sorry. Guess I was too busy loving you." "What a nice way to pass the time; but isn't it a bit difficult—being on different horses and all that?"

"We could dismount and look at the moon." "Not tonight. Tonight I'm asking questions. Do you spend much time at the Aztec?" "Not much. As a matter of fact I move around—Texas, Colorado, New Mexico. In San Lorenzo I go mostly to the Four Aces." (To Be Continued)

# Woman Doctor Leads The Fight As India Battles Critical Child Health Problem

**Dr. Sharyu Pandit:** As health improves, birth rate declines in India. She is co-sponsoring a program to train rural health workers in Europe to continue her studies.

NEW YORK (NEA)—She had presented a formally engraved calling card that read: "Dr. (Miss) Sharyu Pandit." But it was the woman, not the scientist, that came to the surface when she explained why she was in America.

"Forty per cent of all the children in India die before they reach ten," she said, with a solemn look on her round face. "That is too much. That shouldn't be."

Because of that cold statistic, Dr. Pandit is just completing a station-wide tour to study maternal and child care here. She has been here since December. On her way back to India, she'll stop off at many

To fill the void, UNICEF has earmarked half of its \$3,421,000 allocation to India for training programs. Almost \$1,000,000 will go to the All-India Institute in Calcutta, which will train public health nurses and maternal and child care experts. The Indian Government is matching UNICEF funds in this project.

The Institute is training people from all over Asia, not merely India, because the problem is widespread.

Another \$300,000 is going for a program to train rural health workers. This is co-sponsored by India and the WHO. More funds are going to equip properly 200 health centers maintained by India and the Indian Red Cross. These centers are staffed by women "health visitors" who go to homes and train expectant mothers in infant care.

UNICEF funds for equipping these scattered centers, are spent on everything from nailbrushes to blood pressure machines. One big need, Dr. Pandit says, is for "mid-wives' maternity bags." These cost about \$15, contain everything a practicing mid-wife needs, and the native women strap them on their backs. They make their calls.

Dr. Pandit doesn't think the dew-drops groups don't confine their help to the one problem. They aid in combating tuberculosis, malnutrition, polio, venereal diseases and other health problems. But she is most concerned with maternal and child care.

**Notices Big Gains**

In areas where health aid has been most widespread, she has noticed great improvement. The death-rate of infants, in those areas, has been cut from 176 per 1,000 births to around 100.

Dr. Pandit doesn't think the decrease in the infant death rate will result in a disastrous population rise in already over-populated India.

"After all," she says, "if you had a rose bush, you'd rather have two beautiful, healthy roses than a bush crowded with sickly, straggly flowers. Same way with people—if they can have two or three healthy children, they won't want lots of children. As the health improves the birth rate will decline."

**Long Way To Go**

"You know," she said, "in India there is one doctor for every 6,000 people, and only one mid-wife for 60,000 people. Four out of every five births are unattended. We have a long way to go."

But a start has been made, through international organizations like the UN International Children's Emergency Fund. Dr. Pandit, who is an adviser on maternity and child health to India's directorate-general of health services, has had a large hand in setting up the aid programs.

The keynote of all help, Dr. Pandit feels, should be training. Lack of pre-natal care, in her opinion, is the chief reason for the high infant mortality rate, although lack of proper nutrition is also vital. But it's the almost complete absence of education for prospective mothers that does most of the damage.

**Rankin News**

**RANKIN**—Mrs. Johnnie Ruth Gary and children, Wallace, Jr. and Nancy, are vacationing in New Mexico and Colorado.

Mr. and Mrs. Heiman Hamilton are on a vacation trip to Florida, where they are visiting relatives.

Mrs. Jack Smith left Friday to visit her son, Lewis M. Smith, and family in Spokane, Wash. She also expects to see Mr. and Mrs. Johnnie Rankin and children, who now are in Spokane. On the return trip they will visit relatives in Los Angeles.

Mr. and Mrs. Preston Patton and Bob returned recently from a visit in New Orleans and Galveston. Mrs. Patton has closed out her dress shop in Rankin and the family is living on the ranch north of town for the summer.

Charlie Glebe left Thursday for Duluth, Minn., for an indefinite stay. Glebe has closed his plumbing shop here due to ill health.

Mr. and Mrs. Jack Marshall and children left Friday for Ogden, Utah, where Marshall has accepted a position with the Civil Service Commission. The Marshalls have sold their home here to O. C. Scarborough.

Mary Anderson and Nancy Shirley entertained the children who attended the Story Hour at the Rankin Library Saturday. Stories told were "Funderbuck" and "The Turnip" from Grimm's Fairy Tales, "A Tale of Peter Pig" by Esther Cooper, "Tony Baloney, the Marionette" by Rowena Bennett. The girls also read from the book "Martin Butterfield."

Forty-six young people attended the Youth Council Party at the Rankin Park Building Saturday night. Mrs. Johnnie Ruth Gary was the adult director. She was assisted by Walter Rae McSpadden from the youth group. Refreshments were served by the chaperones, Mr. and Mrs. R. H. Johnson and Mr. and Mrs. D. S. Anderson.

Mrs. Ted Hogan is visiting in Vicksburg, Miss., with a sister who is to leave, shortly for Turkey. The sister is a United States government employee who is being transferred to Europe.

The Wesleyan Guild will meet at the Methodist Church at 8 p.m. Monday. Mrs. Randolph Moore is president of the guild for 1951-52.

# Children's Problems Keep Official Busy

By **BILL WOODS**

Solving other people's problems is a job that keeps a tall young woman "running in circles" at the Midland County Courthouse.

She is Margaret Arrington, supervisor of the Midland Child Welfare Unit, an agency organized as part of a state program to provide guidance and care for neglected, abandoned or abused children.

Foremost among several areas of need handled by Miss Arrington concerns care for neglected and dependent children, kids left alone by their parents to shift for themselves.

One such case was that of a young mother of three small youngsters who frequently would leave them unattended at home while she got drunk.

"Just a no good hussy," a lot of people would say, but Miss Arrington insists that sometimes you can't feel too harshly toward a woman who drinks excessively, "especially when you know what's behind all the trouble."

This 21-year-old mother, for example, was orphaned at the age of eight, and even before her parents died she had an unhappy home life. She married in a quest for happiness and security, but her husband died, leaving her to support the children by herself.

At the time of her husband's death she already was bewildered at the responsibility of caring for her children, and with the new tragedy her problems became too much for her.

She began to drink as an escape. In tackling the situation, Miss Arrington first placed the children in a temporary home. Medical aid was provided for the mother. Now, with a job and a housekeeper to look after her children, she can give the children good care.

**Alcohol Is Symptom**

Alcohol is not a problem in itself, Miss Arrington says, but instead it is a symptom of a problem. "People resort to alcohol as an escape from an already existing conflict. What we try to do is rehabilitate troubled parents to rebuild the family."

And placing children in boarding homes is only an intermediate step—a temporary means of care until some permanent adjustment can be made. The agency uses private homes in Midland County that have been studied and

licensed by the agency.

A need for more acceptable boarding houses for children is one of the hair-pulling problems Miss Arrington is faced with now.

A great effort is made to help solve problems in the family so children may be returned to parents, but if this isn't successful the youngsters may be turned over to relatives. Some children are sent to a children's institution such as Boys Ranch near San Angelo. Few youngsters have to be placed by adoption, the child welfare supervisor says.

Abandoned children present a similar problem. Some kids are abandoned because the mother seeks a way out of an impossible situation. She may be out of work with no home and no one to turn to, and in desperation walks off and leaves her offspring.

Some deserted children are born out of wedlock. Miss Arrington's sphere of responsibility includes helping unwed mothers by working out plans with them for maternity care and plans for the child after birth.

Occasionally a case will come up in which a parent exploits children. A woman in Midland, for example, taught her 10-year-old daughter to beg. The child, dirty and bedraggled, was turned out on the street to tell a sad tale of her sick mother who had no money or clothes and needed help. The girl was taken from her mother by court order and sent to relatives.

**Mud Puddles Inviting**

Another phase of her work leads Miss Arrington into the field of behavior problems and working with children who are maladjusted.

**the HOWARD** Company

BEST OF EVERYTHING In P. & T. C.

to home life. Service in these cases is offered both to parents and children.

But it isn't always the child who is maladjusted. A third case cited by Miss Arrington was that of a young father who was trying to care for his four children after his wife had died.

An Army veteran of World War II, he had not completely readjusted after returning to civilian life. Finally he took an overdose of sleeping pills in an attempt at suicide.

His children were placed with relatives and the father was hospitalized for psychiatric treatment.

The Child Welfare Agency also functions as a service arm of the district courts in cases involving children. Custody squabbles are the most common of these cases, but Miss Arrington has had her share of work in crimes involving children.

While most of her work deals with genuine problems and often is distasteful, Miss Arrington sometimes finds a little humor in "crank" calls. She gets telephone complaints about "that woman next door" who never bathes her children and something ought to be done about

it. A lot of times the good neighbor doesn't know enough about children to realize they are by nature attracted to a spree in a mud puddle or sand pile.

# DADDY RINGTAIL

By Wesley Davis

## Daddy Ringtail And Wiggling And Squiggling

Daddy Ringtail, your monkey friend, was out in the forest to look for the coon that Uncle Bunkum had sent for a present from the zoo. The coon was a wild coon. Oh, he wasn't dangerous, of course; he just hadn't learned that the folks there at the monkey house were now to be his friends. He had run away.

Where, oh where could he be? Daddy Ringtail was wondering about him, and then, suddenly, Daddy Ringtail saw the coon just ahead on the Elephant Path. At the same time, the coon saw Daddy Ringtail. Up a tree went the coon in a hurry.

Daddy Ringtail climbed up after him. Up, up, up and up. Why, a coon can climb like a monkey, it seems, almost. Daddy Ringtail was

reaching out his hand to grab the coon when the coon ran in a hole in the tree.

"Aha!" said Daddy Ringtail to himself. "Now I'll get the old fel-

low, all right—I hope." Daddy Ringtail sat down with his legs around the limb of the tree. Daddy Ringtail reached down in the hole where the coon had gone. Daddy Ringtail could just manage to catch hold of the coon's tail. Very gently, now, Daddy Ringtail began to pull the coon out—slowly—gently. There!

The coon was out, and Daddy Ringtail had reached in a hurry to hold the coon by the loose fur behind the neck, and now with the other hand he had to grab the coon's back feet to keep them from scratching him. And so now he had caught the coon, all right, and was all ready to take him home to teach him how to be friends and a fine pet.

But how, oh how, was Daddy Ringtail ever to climb down—the tree when his hands were busy holding the coon? No, he couldn't climb down with only his feet and his tail to climb with; the coon was wiggling and squiggling too much. Well sir, I'll tell you now that Daddy

# French Miners, Better Off Than Ever, Want Sons To Be White Collar Workers

Minefield landscape: Often compared to the Ruhr, this is how Northern France looks from the air. Dimly seen in background are modern "cities" springing up in the shadow of coal piles.

LENS, PAS-DE-CALAIS, FRANCE (NEA)—The French miner's rights and privileges were reduced to a formal code in the 1946 law that nationalized the mines. Thus began a vast modernizing of France's mining industry, and programs for the housing, health and recreation of the miners.

In this area, scene of the most important coal fields in France—sometimes compared to the German Ruhr—the welfare of 310,000 miners presents a real problem. World War I left Lens a heap of rubble. By 1939 some 80,000 new homes had been built and the mines were going full blast. Then came World War II and 150 bombing attacks damaged or destroyed 28,000 of those houses.

Between the two wars effort was made to erect attractive workers' homes to replace the dismal, drab, endless rows of "serons" or miners' dwellings. The new houses lacked, however, such elementary facilities as running water, gas, and inside sanitary installations.

Cities Spring Up  
Today gay modern "cities" are springing up around the mines, with every home planned to enjoy maximum light and sun, and provide all the amenities. They are remote from through roads, so children can play safely. Were it not for the pyramid-like black heaps which form their back-drop, these might be taken for the suburbs of a large town.

By the end of 1950, almost 3,000 of these new houses had sprung up, but there is need for at least 30,000 more.

Paul Brossard, who is entrusted with all the social activities of the Lens group of the Pas-de-Calais minefields, is an ex-mine engineer with a thorough understanding of the miner's mentality.

"They are 'all peasants at heart,' according to him. 'You will never get a miner to live in an apartment building, no matter how attractive,' he said. He wants the privacy of a house and a patch of garden in front."

To avoid any kind of paternalism, each of the nine groups which make up the Nord and Pas-de-Calais basin is fostering recreation and sports clubs or associations which the workers operate themselves. From the three per cent taken from the minefields' gross earnings they are given funds to support all sorts of activities.

Wide Range  
These range from football, baseball, basketball, volleyball for the younger men, to fishing, shooting, pigeon-breeding and gardening for the old-timers. There are 10 play-

Down under: Despite new advantages they have above ground, French coal miners still work with horses in some mines.

ing fields in Lens alone and over 1,000 young men enrolled in the different sports groups.

One feature peculiar to northern mining centers is the brass bands. Lens is noted for its 60-piece "harmonic" which was invited to give concerts in various Swiss towns last year.

Fewer women now are employed in the mines. They number around 800 for the entire group. They work as "sorters" and "lamp fillers," get equal pay for equal work. Generally speaking, the miner's wife does not work outside her home. For her and the unmarried women there are classes in cookery and all branches of domestic economy.

Each mine has an expert to advise on every branch of gardening. "Perhaps the most popular contest of all is the yearly best garden plot," says Brossard. "They really do wonder and the miners take great pride in having the largest strawberries or the most beautiful roses."

For the first time, camping par-

**Misleading Ad Misleads Thief**

JACKSONVILLE, FLA.—A furniture store rigged up a display of a bushel basket with dollar bills all but spilling over its top, using the money as a come-on in an advertising contest.

Someone broke in at night, made off with the basket and what he probably thought was a small fortune. Instead, it was 50 one dollar bills artfully used as top dressing for a basket full of waste paper.

NEVER SAY DIE  
NEW LISKEARD, ONTARIO.—James W. Billow of Henwood Township, who still enjoys driving a team of horses, is at present building a new house with the help of his wife. They have just celebrated their sixty-fifth wedding anniversary.

## Inventor Plans Treasure Hunt

WINDSOR, ONTARIO (AP)—A 33-year-old Windsor inventor plans an underwater treasure hunt in Lake Erie with a new "waterscope" on which he's completing work.

The treasure seeker, Peter J. McLean, tested his invention recently in the Detroit River. He plans to start looking for cargo-laden sunken wrecks on August 1.

His waterscope is a long tube, equipped with a 3,000-watt light and reflecting surfaces at the base and a revolving eyepiece at the top. McLean says with it he can see for at least 60 feet in any direction from its underwater end.

With it he plans to investigate sunken hulks. Once he identifies a sunken ship with valuable cargo, a salvage company will take over.

Among the vessels he plans to seek is one which carried 110 barrels of whiskey and \$300,000 in gold bullion when it went down. Another sunken ship was loaded with oak timbers valued at \$173,000.

## School Curriculum In Tel Aviv Assailed

TEL AVIV (AP)—Forty seven delegates representing 15,000 pupils from 25 schools in Israel met in conference in the coastal plain town of Hederah to demand more modern instruction, from their teachers.

They did not oppose the central role the Bible is playing in Hebrew schools but they said—except in so-called "religious schools"—the Holy Book of the Books should be read and explained primarily from historic, scientific and literary aspects. They also charged their school curriculum with neglecting biology, psychology, sociology and history of art.

## Answer to Previous Puzzle

## Power Failures Are Part Of The Game

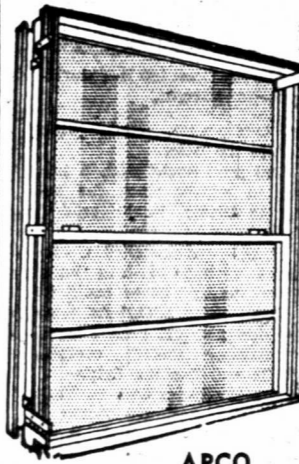

SINGAPORE (AP)—Power failures have become so common in this British crown colony that gamblers are making book on their duration. Winner takes the entire "kitty." Blackouts usually last about two hours.

Even school children are indulging in this game.

UNCLE SAM'S BIGGEST—Here's one of the first pictures of the U. S. Army's new monster 73-ton tank, still in the experimental stage. Designated the T-30, it carries a crew of six, has a 155-mm. gun and an air-cooled, 810-HP engine capable of driving it 27 miles per hour. The tank is shown at New York City, where it will be part of an 18-car exhibition train at the U. S. Army's salute to the Erie Railroad's 100th anniversary.

## HOW YOU CAN MAKE AMERICA STRONG — II

# WORK LIKE YOUR LIFE DEPENDED ON IT — IT DOES!

Let's stop talking about this crisis, and do something. All the words in the world aren't going to make us strong enough to defend ourselves from attack.

Work will.

Plain, unadorned, dull, routine work. We are the people who have got to provide the things needed to protect our freedom. Not necessarily working in a defense plant, either. Some of us will be making defense materials, but most of us must remain at our jobs.

And we must work hard at those jobs.

We don't have to wait for a go-ahead from the government.

We can start today. Work harder, work better, produce more. The more we put out, the more we produce.

Multiply that a few million times, and America has more goods, more products, more wealth, to foot our freedom bill.

It's going to be a big bill.

American brawn and brains can pay it.

Let's get going.

Yours is the power to make us strong spiritually, morally, politically and economically. Write today for a reprint of the article, "The Four Pillars of Freedom—Work, Save, Vote and Pray." Mail your request to: J. B. Shores, Public Relations Department, Texas and Pacific Railway, Dallas, Texas. No charge, of course!

## His 'Gismo' Reads, Plays Music—Talks Back Too

"Gismo" listens while David Shepard and Harvey Cook tell it a story. Story will emerge through typewriter at right.

FALLS CHURCH, VA.—(NEA)—David H. Shepard has an "Automatic Reading Gismo" in his attic that knows and understands the three R's. It also comprehends the Morse Code, knows how to read music, and reads aloud from a printed page.

Shepard, 27, works for the Defense Department as a research scientist. In his spare time he puts around at his home in Falls Church, where Mrs. Shepard sometimes has to stop using the washing machine because "Gismo" uses so much electricity.

Gismo occupies a long rack in the attic. When Shepard puts a typewritten page in one end of it, the same page—in duplicate—comes out the other end.

If Gismo comes across something it doesn't understand (like a Greek letter or a Chinese symbol), the machine throws in the sponge and calls for help—by means of a bell or a red light.

### Through Speaker

Gismo can be fixed so a sheet of music stuck into one end produces the actual tune through a loudspeaker at the other.

Or you can pump Morse code into one end, and the code comes out—in the "clear"—on a typewriter at the "output" end.

Shepard admits that similar contrivances have been rigged up, but he claims "mine is the most intelligent of all—and the most practical."

It works like this: The printed page is swept by a scanning device, which throws a picture of each letter on a spinning disc. The disc "looks" at the letter, makes some quick computations, figures out by its shape what letter it is, and passes this on to the next section.

The middle section "tells" the "output" (a typewriter, teletype-

writer, loudspeaker, etc.), which reproduces the letter.

A blind man could stick a page of printed matter into the machine, and Gismo would read it to him a letter at a time.

At 16, Shepard installed a dial-telephone system in his house, "and the family never could get used to all those bells." At seven, he had designed and built a small-scale elevator system complete with bells and flashing lights.

He figures Gismo will be about 99.9 per cent accurate when it gets into production, and it will sell for about \$1000 to anyone who wants a brainy machine around the house.

Does he think this is a step toward machines that are smarter than men?

"I doubt it," says Shepard, with a grin. "This machine isn't really so smart. A human being could easily confuse it."

### Shower Washes Away Singaporean's Illness

SINGAPORE.—(P)—A local man perspired and turned purple. Then, he became sick with fear and he left his place of business.

Back home he called a doctor. But first he took a bath. He sighed with relief when the purple was washed away by the shower. The purplish man reconstructed his day's activities in search of an explanation. It came, in a chemist's shop a fan had blown dust in his face. The dust had been gentian violet powder. The heat of the day did the rest.

The polar aurora, or "northern lights," occurs often and extends farther south in the sky just before and after the equinoxes, March 21 and September 21.

## U. S. Rail Transportation In Far Better Condition Than Russia's, Expert Asserts

By COL. GUSTAV METZMAN, President, New York Central System

NEW YORK.—(NEA)—One evening last November, a special freight train 102 cars long left Schenectady, N.Y., and highballed westward.

On the other side of the world, the United Nations' apparently conclusive victory over the North Koreans was being turned into an alarming, full-fledged retreat by the unexpected intervention of hordes of Chinese Communist troops who were pouring across the Manchurian border.

All 102 cars of that special train were jammed with Army sleeping bags for the unforeseen Korean Winter campaign—a military situation so serious that a forced evacuation of Korea seemed to be unavoidable.

Given a clear track and pulled by a 4,500-horsepower Diesel-electric giant, the train with its vital cargo was sped to Joliet, Ill. where it was turned over to a western railroad for completion of its dash to a West Coast port.

### Into Special Train

The New York Central gathered those 102 cars, switched them for loading, assembled them into the special train, and had them on their way within a day after the first notification from the U. S. Army.

Generally, there is more notice, but this is typical of the work which the nation's railroads are quietly doing every day for the Army and the other military services, as well as for the innumerable private industries whose rearmament output flows to the services. And this is why a nation which is preparing for the worst while hoping for the best can be no stronger than its railroads.

In World War II, the American railroads teamed together to carry 90 per cent of the war freight and 97 per cent of the organized military travel in this country. In this obviously vital role, how do our own railroads compare with the railroad system of Soviet Russia?

From time immemorial, Russia's worst bottleneck has been transportation. It still is. The United States railroads with their efficiency constantly whetted by spirited competition among themselves and with other forms of transportation, can and do outperform the nationalized Soviet rail system.

The Soviet rail capacity is estimated at about 330 billion ton-miles a year. In contrast, American railroads moved 737 billion ton-miles in wartime 1944, and have even greater capacity today because of their ex-

tensive post-war improvement and preparedness programs.

Gen. Omar Bradley, chairman of the Joint Chiefs of Staff, testified recently that transportation "has always been one of Russia's weaknesses in the Far East, the fact that she has only one railroad line."

As General Bradley also noted, the Trans-Siberian Railroad has been double-tracked to increase its capacity. Even so, a leading government transportation authority estimates that its capacity in carrying the complete Russian rail load to the Korean area is one million tons a month.

In contrast, the New York Central alone can transport about 20 times that much. So America is far ahead in rail capacity.

At the same time, there isn't the slightest room for complacency. At the end of the last war, every rail-

road man could probably say that nowhere in all the world was the military might of America lessened, or the striking power of its armed forces diminished, by any failure of rail transportation here at home. In the unhappy event of another war, we must be able to say that again.

Since the end of World War II, the United States railroads have placed in service approximately 370,000 new freight cars and 12,000 units of new locomotive power. The cost is about three billion dollars.

For improvements to their fixed plant—better tracks and terminals, shops and signals, and all the other things it takes to make a smooth-working railroad—they have spent another two billion dollars. And they plan to spend this year, for improvements of all kinds, another one and a quarter billion dollars.

These programs were financed to

a substantial degree from the wartime earnings. Unfortunately, these funds have been drying up because the railroad industry has been trapped in a succession of inflationary spirals during the post-war period.

To carry on its improvements to meet America's full needs, in peace or in war, the industry urgently requires the better earnings which would result from more adequate rates.

The railroads have another urgent need which must be met to permit them to do the job which the American people expect. That need is for ample supplies of steel and other materials which the railroads must have both to replace and repair old equipment in order to further expand their capacity.

That expansion is vital—for without railroad transportation, basic commodities would not reach the industries which process them into instruments of war would not reach the armed services. Any bottleneck in that process would retard the very military equipment production which the nation must have to retain its freedom.

## Ration Cards For Opium Requested

NEW DELHI.—(P)—Opium-eaters of the Punjab State in India desire opium distribution on food ration cards.

A resolution to this effect was passed at a recent opium-eaters' conference at Moga in the Punjab. The resolution, however, advised the younger generation to "keep away from opium-eating sin."

## How To Catch Fish In West Virginia

MORGANTOWN, W. Va.—(NEA)

—A. B. Chaplin is a man who likes his fishing—and he isn't one to let a little thing like an incapacitated arm keep him from it.

With his body, from waist to neck, encased in a cast as a result of an automobile accident, Chaplin went to the back waters of Cheat Lake and cast with his good right arm. He hooked six bass, landing three ranging in size from one and a quarter to four and a half pounds.

Virtually all of the hops of the United States are produced in the states of California, Oregon and Washington.

BIRTHDAY BALLOON—A replica of the Montgolfiere, a hot-air balloon that made its first flight in 1783, takes off during colorful ceremonies celebrating the 200th anniversary of Paris. French actors and actresses, in 18th century garb, add atmosphere to the scene that took place in Paris' Parc de la Muette. (NEA-Acme photo by Staff Photographer Rene Henry.)

## ★ THE DOCTOR SAYS ★

### Cause Of Polio Is Known, But It Isn't Total Answer

By EDWIN F. JORDAN, M. D.  
Written for NEA Service

The cause of poliomyelitis has been known for some years. It is a virus which is a tiny living organism too small to see under the ordinary microscope. Knowing the cause, however, has not brought all the answers to the disease and there are many things still to learn.

One difficulty which has prevented more rapid progress is the fact that there are few experimental animals which are susceptible to the virus and its behavior is therefore difficult to study. Furthermore there are at least two kinds of polio virus and what happens to them in the cold months or at other times and places when polio practically disappears has remained something of a mystery.

Nevertheless knowledge of the cause has brought some practical benefits. It is believed that the virus is spread by close contact between someone who harbors the virus and a susceptible person. Thus some people may carry the virus without having the disease; they have enough resistance to avoid symptoms and yet may spread the virus to others.

The virus, too, has been found in water which has been contaminated by human waste and this mode of spread is a possibility though generally believed less likely than direct contact. At any rate, from a practical point of view this leads to the conclusion that it is unwise to go heedlessly into an area where polio is more than usually common or to mingle more than necessary

in crowds at such times.

Medicine cannot yet offer an accepted vaccine which will build up resistance to polio though experiments along these lines have been made and eventually may prove successful. But it is important to use certain precautions which lessen the risk.

### Check On Fevers

In addition to avoiding unnecessary contacts when polio is frequent, all children who develop unexplained fever at such times should be promptly put to bed and kept away from other youngsters until a diagnosis of the cause has been made. This is not only best for the sick child (and the illness turns out to be something else more often than not), but also aids in preventing the spread of the disease.

Other steps which are advised are the avoidance of unnecessary operations, especially around the nose or throat, and excessive exercise after any sign of indisposition. It must be emphasized that these precautions are recommended only when there is an unusual amount of polio in the community; trying to wrap children in cotton wool all Summer from unreasonable fear is unwise and unnecessary.

## MAKE THE 2-Way Test

# ...prove Mercury best!

### 3-WAY CHOICE!

For "the drive of your life" Mercury now proudly makes available a high choice in transmission, Merc-O-Matic Drive, the new simpler, smoother, more efficient automatic transmission—or Thrifty Touch-O-Matic Overdrive are optional at extra cost. There's also steel-case standard transmission.

### ① Road-Test a Mercury for Proof of Performance!

Get into a Mercury and out on the road—that's where you find out what's under the hood. You'll find power, smooth and purring V-eight power, and more of it than you may ever need.

Now really put this value-packed performer to the test. Swing into traffic and discover what a joy it is to handle. Climb a hill. Try an S-curve. Turn down the roughest road and see how Mercury's special springing smoothes the bumps.

Comfort? There's move-around space for six. It's room with a view; big windows all around for visibility. Yes, this is a great car, this Mercury. Drive it a mile or two and you'll want to drive it home.

### ② Budget-Test a Mercury for Proof of its Rock-Bottom Economy!

Does it have a down-to-earth first price? Mercury's price tag you can understand—a big dollar's worth for every dollar invested.

Will you be sure of good gas-line mileage? Mercury has proved its economy by winning officially sponsored economy tests.

Is it famous for long life? It is indeed! 92% of all Mercurys ever built for use in this country are still on the road, according to latest official annual registration figures.

Will upkeep stay low? You'll save money year after year. Mercury's famous stamina keeps repair bills at a rock-bottom low.

Will trade-in value stay high? Mercurys keep their value; and used car market reports consistently prove this to be true.

Does it represent solid value? Mercury owners say YES! So will you when you get the rest of the story. Make the Mercury 2-Way Test—at your nearby dealer.

Try it today—
