

Armistice Talks Resumed At Kaesong

Kansas Flood Worst In U. S. History

500,000 Driven From Homes As New Dike Breaks

KANSAS CITY —(P)— A Missouri River dike collapsed Saturday night, pouring water into the \$100,000,000 Fairfax industrial district of Kansas City, Kan. — the fourth major industrial district of this metropolitan area of 900,000 to be inundated in the costliest flood in United States history.

The new levee break was at the mouth of Jersey Creek, normally a small stream, flowing into the Missouri a half-mile north of the mouth of the Kansas River.

Army engineers said the water would rise at least five feet in the district immediately. Shortly after the break, the torrent poured through a government warehouse which contained \$1,500,000 worth of goods. Office furniture, crates, and bales of government property were swept out of the building.

Restrictions clamped on Kansas City residents were eased slightly Saturday night to permit opening of theaters, providing no water was used in air conditioning systems. Earlier, all persons had been asked to remain in their homes and all non-essential business ordered closed.

State Of Emergency Governor Forest Smith of Missouri had proclaimed a state of emergency. He announced he planned to fly to Washington to discuss flood aid for the stricken area.

The 2,000-acre Fairfax district is the newest of the city's industrial areas, developed within the last 20 years. It is located directly across the Missouri River from the Municipal Airport of Kansas City, Mo. It houses the General Motors assembly plant. Police were escorting volunteers who were driving

Secretary Of Labor Warns Inflation Will Imperil Free World

WASHINGTON —(P)— Secretary of Labor Maurice Tobin returned from Europe Saturday with a warning that unbridled inflation in the U. S. will endanger "the entire free world."

He thus seemed to spring quickly into a free-for-all fight in Congress over economic controls. A House vote is expected Thursday on a bill to extend the Defense Production Act.

Truman Administration forces have taken a drubbing so far and are fighting an all-out rear guard action to salvage what they can of the President's proposals for strong wage, price, rent and other controls.

Tobin said his three weeks abroad "brought home to me the importance of stopping inflation — the importance not only to ourselves but to the economies of our Allies."

"In every country I visited there was great worry about inflation and whether instability in the United States would affect them."

Dangers Emphasized The dangers of inflation have been emphasized by Administration leaders in the controls fight.

They conceded, however, that a Republican-Southern Democrat coalition has power to deny Truman most of the new economic powers he asked, and modify some he already has.

During last week's House debate, the coalition won repeated victories. The Senate passed a bill reducing the President's present powers and giving him little new authority he asked. The House measure seems to be treading a parallel path.

House passage would send the bill to a Senate-House Conference Committee for ironing out differences.

Bacon Ration Cut For Hungry Britons LONDON —(P)— Britons will have less bacon to go with their scarce eggs after this month.

The bacon ration will be reduced by one ounce, back to four ounces per person a week, on July 26, the Ministry of Food said Saturday night.

The five-ounce ration had been in effect 10 weeks. FREE 5x7 enlargement with each roll film developed and printed at MIDLAND WALGREEN DRUG. (Adv.)

One Killed In Gun And Knife Battle

A 31-year-old Latin American man was killed and another wounded Saturday night in a gun and knife battle in a pool hall in the 400 block of North Lamesa Road.

The dead man was identified as Pascual Martinez, 307 North Dallas Street. He died enroute to a hospital a short time after he was shot twice in the body.

The injured man is Fred Rodriguez, 29, who suffered a knife wound in the shoulder. Police said the battle was the climax of a feud between the two men, which had smoldered more than a month until it flared violently Saturday afternoon.

Argument In Tavern Rodriguez told police he had an argument with Martinez Saturday afternoon in a tavern. Police Lt. Dick Hemingway said he was told Martinez had accused Rodriguez of taking part in beating him with a chain a month ago.

Rodriguez told the officer that when he scooped Martinez Saturday afternoon, the latter cursed him and threatened to kill him.

Rodriguez said he returned home and picked up a .25 caliber automatic. About 3 p.m., he saw Martinez again in the pool hall. He said he fled into the men's rest room and Martinez followed him and attacked him with a knife, slashing him in the shoulder.

Misses First Shot He said he drew his gun and fired once at Martinez, missing him. As Martinez went out the door, he said, he fired twice more, both shots entering his body.

Rodriguez surrendered a short time later to Sgt. Jack Tramm and Lieutenant Hemingway. Martinez was found slumped behind the pool hall by Police Chief Jim Hemingway and Police Capt. Rube Wilkerson, who were on routine patrol in the neighborhood.

Battleship Iowa To Shed Mothballs SAN FRANCISCO —(P)— The 45,000-ton battleship Iowa is to come out of mothballs, the Navy announced Saturday.

The ship has been on inactive status since March 25, 1949, with the San Francisco group of the Pacific Reserve Fleet. Preparations for her recommissioning will be started at the yard immediately, the Navy said.

★ LATE NEWS FLASHES ★ KANSAS CITY —(P)— Three new explosions in the storage section of the Phillips Petroleum Company Saturday night rocked an already-flaming industrial section here, increasing threats to a highly explosive chemical plant about 100 yards away.

DALLAS —(P)— Southwestern Bell Telephone is sending 141 men and 77 vehicles from Texas to the Kansas-Missouri flood section to help in the reconstruction of damaged telephone plants and circuits, it was announced Saturday night.

LONDON —(P)— Britain, prodded by the United States, Saturday invoked war-time powers and seized two new oil tankers built here for Red Poland.

OKLAHOMA CITY —(P)— Evacuation of lowland residents in Miami and Blackwell was underway Saturday night as flood dangers increased there from new rains and from neighboring Kansas. Six city blocks already were under water at Blackwell.

MIDLAND'S EVER-GROWING SKYLINE—Midland's remarkable skyline continues to push outward and upward in line with the city's rapid growth, as evidenced by this impressive photograph, which was taken recently from atop a building in South Midland, looking North. It is the latest in a collection of pictures assembled by Addison Wadley, retired merchant and civic leader, portraying Midland's growth from 1884 to 1951.

Midland's Booming Construction Nears Eight-Million Mark

Midland's booming construction for 1951 neared the \$8,000,000 mark Saturday. Commercial and residential building permits for the week amounted to \$285,331 to send the total for the year to \$7,913,020.

Highlighting the week's activities was the beginning of work on a new \$100,000, two-story office building at West Ohio and North Colorado Streets. The building is being constructed by the Gaylord and Bishop Agency.

Also included in the commercial permits for the week was a \$40,000 tourist court being built by Lee J. Harrison at 2520 West Wall Street. Other permits for the week included:

J. L. Davis, residence at 200 North Lee Street, \$3,550; W. M. O'Kelly, garage for Mrs. Martha O'Kelly at 108 South Dallas Street, \$481; M. S. Ware, residence at 1101 South McKinzie Street, \$1,500; A. A. Alexander, residence at 306 South Terrell Street, \$400; C. W. Nugent, residence

Picture Story Of 'Growing Midland' Now Is Available

The story of modern Midland is told in pictures and captions in a handsome brochure, "Growing Midland," prepared by The Reporter-Telegram.

Beginning Sunday, this 40-page presentation of every phase of Midland's industrial and business life: its church, school, residential and professional features will be distributed free for the asking to subscribers of this newspaper.

It may be called for at The Reporter-Telegram office, and will be given, one to a subscriber, as long as the large supply lasts.

The brochure is published on heavy white paper with a light-yellow cover, which shows air views of the downtown section in 1881 and 1949. Envelopes printed for mailing also may be obtained with the brochures.

SEALY DISSENTS—

UT Regents Vote To Ask Ruling On State Loyalty Oath

AUSTIN —(P)— University of Texas regents voted 5-4 Saturday to seek a ruling on legality of the new state loyalty oath. They also approved a \$9,272,894 budget giving teachers \$100 to \$500 salary increases for the next school year.

Regent Chairman Dudley K. Woodward, Jr., of Dallas headed the majority who favored asking Attorney General Price Daniel for his opinion on constitutionality of the oath.

The oath requirement was written into law by the 52nd Legislature as a rider on the general appropriations bill. It prohibits payment of salary to any state employee who fails to swear he never has belonged to the Communist Party nor to any subversive organization in the last 10 years.

The Communist prohibition has been in the law several years, and the subversive party membership angle is new. Considerable opposition to that phase of the loyalty oath has been expressed privately by university faculty members.

They say they may have been innocent members of an organization not considered subversive 10 years ago but now listed by the United States attorney general as subversive.

Retrospective Law They argue it would not be right to force a teacher or any other person out of a job through a retrospective law.

Whether application of the loyalty oath will deny employment to any University of Texas professor has not been disclosed. University Chancellor James P. (Continued On Page Eight)

National Guards To Return Sunday

Men of two National Guard units of Midland were to return from two weeks of summer training at Camp Polk, La., between 3 and 5 a.m. Sunday.

A spokesman at the Texas & Pacific Railway station said no definite time had been received here for the arrival of the special train returning the guardsmen to their homes.

The 48 men and officers boarded the train just two weeks ago for training with tanks and other mechanized equipment.

The two Midland units are Company E, Second Battalion, 112th Armored Cavalry Regiment (Light), and a medical detachment of the Second Battalion, 112th Regiment.

Childress, Presidio Are Texas' Hottest

By The Associated Press Hundred-degree readings at Childress and Presidio were the highest Texas temperatures reported Saturday to the U. S. Weather Bureau. The lowest was 85 at Marfa.

More than a dozen points reported some rain in a 24-hour period ended at 6:30 p.m. Amarillo had .50 inch, Brownsville .05, Beaumont .02, Corpus Christi .05, Galveston .04, Victoria .37, Alice .31, Palacios .31, and Marfa .52. Traces fell at Bryan, Lufkin, El Paso and Houston.

The forecast was partly cloudy skies, a few scattered showers, and little change in temperatures. Try the New FRIDEN Automatic Calculator. Call Baker Office Equipment Co., Dial 4-6908, 511 West Tuga.—(Adv.)

Ruling On Vacancy Claim May Require Months, Says Giles

AUSTIN —(P)— Public hearing was completed Friday on the James C. Wilson, Jr., vacancy claim to 560 acres of West Texas land.

Land Commissioner Bascom Giles said it might take several months to complete study of the transcript and reach a decision.

Opponents of the claim said Wilson erred in thinking a land gap exists because of a difference in the T&P Railway Company's original survey and subsequent surveys of Blocks 36 and 37, Townships 1, 2, 3, 4, and 5 South, in Midland, Martin Reagan and Glascock Counties.

If Wilson wins his claim he stands to win the right to lease acreage within five miles of any present oil or gas production and to buy the remainder of the acreage from the state.

Byron L. Simpson of San Angelo, (Continued On Page Eight)

Postal Station To Open Monday

Midland's first contract postal station will open Monday at the Midland Realateria, 1404 North Big Spring Street.

Postmaster N. G. Oates announced Saturday the new station will be under contract to Frank L. True and will be operated by True or his employees. No postal employees will be at the new station, he said.

The station will supply window service, money orders, stamps and will register letters and accept packages for mailing. It will not have rent boxes, make mail deliveries or provide general delivery.

Oates said the station probably will be open from 9 a.m. to 6 p.m. Mondays through Fridays and from 9 a.m. until noon Saturdays.

Adequate parking space is provided, he said, and the location should be convenient for residents and businessmen in that area.

Communists Yield To All UN Demands

SEOUL, KOREA —(P)— Two members of the United Nations armistice delegation left by jeep for Kaesong Sunday afternoon to resume cease-fire talks with the Reds.

Resumption of the talks, disrupted Thursday when the Reds barred Allied newsmen from going to Kaesong, was made possible when the Communists yielded to new "good faith" terms demanded by Gen. Matthew B. Ridgway, supreme Allied commander.

Texas Draft Quota Hiked For August

AUSTIN —(P)— An August increase of Texas' draft quota from 485 to 772 men was reported Saturday by Brig. Gen. Paul L. Wakefield.

The State Selective Service director said 57 local boards, not previously scheduled to receive a call, now would get one. He did not name them.

Wakefield, in a letter to Texas local board members, said the increase "emphasizes that Korean peace headlines do not necessarily have a bearing on manpower procurement for the nation's armed forces."

He noted that Texas local boards had furnished "better than the equivalent of a division and a half of military manpower since the Korean fight began."

"We hope in the next year demands will be less, but we want to be ready to furnish more if the needs of our country demand it," his letter continued.

The August quota increase, he said was "just another act demonstrating the resolve of our nation not to be caught unprepared again."

"The recent passage of the new Universal Military Training and Service Act, which extends our manpower procurement for another four years, is an important step toward our status of being ready," he wrote.

"It is, however, but one phase of the long range planning to maintain our domestic and foreign military commitments. I urge you all to keep this uppermost in your minds as you continue in the faithful and diligent discharge of your responsibilities."

Red Cross Prepares Packages For Allied Prisoners In Korea

TOKYO —(P)— American Red Cross officials in Japan are preparing hundreds of special packages for Allied prisoners of war in Korea, hoping cease-fire talks will permit delivery.

Oates said the station probably will be open from 9 a.m. to 6 p.m. Mondays through Fridays and from 9 a.m. until noon Saturdays.

Adequate parking space is provided, he said, and the location should be convenient for residents and businessmen in that area.

Tentative plans call for airlifting the parcels to specified advance positions in Korea, but this depends on the results of discussions at Kaesong.

Vice Adm. C. Turner Joy, senior member of the Allied delegation, and Maj. Gen. L. C. Craigie, U. S. Air Force, crossed the Imjin River by jeep and headed for Kaesong at 12:30 p.m. for meetings slated to start at 2 p.m. (10 p.m. CST Saturday).

The other three members of the delegation were expected to fly to Kaesong by helicopter.

Twenty Allied newsmen also left for Kaesong. The Allied leaders had insisted on their right to allow newsmen to go to Kaesong.

The Allies announced the 2 p.m. meeting time was agreed on in an exchange of messages between Admiral Joy and Gen. Nam Il, of the Red Korean Army.

Only two of the 18 vehicles in the Allied convoy flew the white flag Sunday afternoon. One was the lead jeep, the other the jeep which carried Joy and Craigie.

The reduced number of white flags symbolized the new conditions which Ridgway requested to insure a "neutral atmosphere."

There were 87 United Nations personnel in the convoy, including the newsmen.

Joy and Craigie decided to go by (Continued On Page Eight)

U. S. Note Rejects Russian Complaints At Japanese Treaty

WASHINGTON —(P)— The United States, in a note to Moscow published Saturday, rejected a Russian complaint that the Japanese peace treaty is a step toward aggression against Russia and Red China.

"The terms embody not merely the formality of peace, but the spirit of peace," the Russians were told.

At the same time, the note made clear that most of the World War II foes of Japan are going ahead with the signing of the treaty, no matter what Russia has to say about it.

The United States renewed its invitation to Moscow to join in signing the treaty at a 60-nation conference in September at San Francisco.

Officials doubt Russia will accept. Moscow has cold-shouldered the negotiations since February. Red China has been excluded from both the negotiations and the signing.

"Obvious Aggression" Russia, the U. S. charged, wants to deny Japan the "right of individual or collective self-defense" recognized as inherent by the United Nations, and also wants to keep Japan out of any collective security arrangements.

Moscow, in its June 16 attack, assailed the "policy of restoring Japanese militarism" and demanded that Japan be kept disarmed. Noting that under a proposed separate treaty the U. S. will retain troops and bases in and near Japan, Moscow said this was a plan of "obvious aggressive character" against Russia and Communist China.

The reply said at the outset that the U. S. "cannot accept" any proposal which would deny Japan the right of self-defense and the right to enter into collective security arrangements recognized by the United Nations.

Doctor Files Suit For Bill Against Ingrid, Rossellini

ROME —(P)— Ingrid Bergman and Roberto Rossellini were sued by their doctor Saturday for a \$4,000 medical bill covering the birth of Roberto, their love child.

Lawyer Anso Manfredoni said he filed the suit with the Rome tribunal on behalf of Dr. Giuseppe Sannicandro.

The Rossellinis, reported at their country home outside Rome, could not be reached immediately for comment.

Roberto was born Feb. 1, 1950, in a blaze of publicity. Miss Bergman and Rossellini, who fell in love while filming "Stromboli," were married after his birth.

PLENTY OF SWABBING HERE—There will be plenty of swabbing to be done in these barracks at Fort Riley, Kan., when the flood waters recede. At least 14 persons have died, and 500,000 are homeless in the worst flood in the history of Kansas.

Have a Laugh

Mrs. Effie Boren Of Tarzan Dies

STANTON — Mrs. Effie May Boren, 75, long-time resident of Stanton, died Saturday morning in a hospital in Seminole. She had been ill since last Monday.

She was the wife of T. K. Boren, a farmer and former Tarzan postmaster. The couple had moved to Seminole last March.

Funeral services will be held at 3 p.m. Sunday in the Stanton First Baptist Church, with the Rev. T. R. Hawkins, pastor, assisted by the Rev. W. C. Robertson of Tarzan, officiating. Interment will be in Evergreen Cemetery under direction of the Arrington Funeral Home.

Mrs. Boren was active in Baptist Church work.

She is survived, in addition to her husband, by four sons, Bill and Tim, both of Tarzan; Chester of Monahans; Alvin of Big Spring; four daughters, Mrs. Melissa Wright and Mrs. Rosemary Broadway, both of Hereford; Mrs. Rhoda Foutch, Seminole; Mrs. Margaret Holloway of Midland; two brothers, J. T. Lee of Winters; Vic Lee, Austin, and a half-brother, Alex Farrell of Ballinger, and 23 grandchildren.

A sports editor was walking past an insane asylum. One of the inmates was whitewashing a fence. They got into a conversation and it turned out the man was a racing enthusiast so the sports writer asked, "Who do you think will win the big race tomorrow at New Orleans?" "I like Ebony," was the reply.

Acting on a hunch, the newspaperman bet \$5 on Ebony and that horse came in last. Next day, he saw the man still whitewashing and told him, "A fine expert you are! You caused me to lose \$5 on Ebony!" The man said, "You bet on the advice of a crazy man! Here, you take the brush and whitewash a while."

Average life of the present-day automobile is estimated at 12 years, during which it travels 103,000 miles.

Gregory Peck Would Like Role in Broadway Play

By ERSKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD — Exclusively Yours: Gregory Peck, now free of all movie contracts, is telling pals he'll leave the Hollywood scene for a long period if he can find the right Broadway play.

Green Garson and MOM are no longer palay-walay. She's unhappy about lack of assignments. Red Skelton introduces a cigarette rolling routine in "Texas Carnival" that tops his famous gin-gussling act. Question about the same film: Is Keenan Wynn playing Glenn McCarthy?

Zena Marshall, Britain's threat to Dorothy Lamour, is on her way to Hollywood. Wears tiger skins and is described as a panther-type girl. I can just hear her saying: "Cheesah, old boy, come down out of that coconut palm."

Ava Gardner has switched over to Lana Turner's business manager. Betty Grable's sudden plumpness—she's on suspension from Fox—is a movietown gasp. Wedding present from the squeal set have convinced UI that Tony Curtis' marriage to Janet Leigh hasn't hurt him with the baby-sexers.

Actress Karen Verne, who's married to Peter Loren, is working as a saleswoman in a Hollywood dress shop.

Plenty Cheap
Dana Andrews' yacht, which cost him \$300,000 to build, is for sale for \$40,000. It won the 1934 Honolulu race.

On the Record: Mona Freeman, about stars picking their own stories: "I think any producer knows more in this department than all the actors in the business put together."

Label this "Eddie Bracken Week." He opens in "Room Service" at the Playhouse and Paramount has re-issued "The Miracle of Morgan's Creek." South American import Fernando Lamas will get MGM's big publicity boom in his role opposite Lana Turner in "The Merry Widow." He'll be hailed with "Built Like Gable—Sings Like Pinza." Joan Crawford vetoed a byline fan mag piece tagged, "Ten Ways How Not to Be a Wallflower." She had 10 reasons why she didn't want her name connected with it. Martin Ragaway is being covered in a humor book, "What a Day This Has Been."

Ty Power is boiling about reports that he's negotiating for a TV show. The news tidbit didn't help clear the air between Ty and Fox, on the murky side since his suspension for mixing "Lydia Bailey."

Debut of the Amos 'n' Andy show on TV, with the talents of Freeman Gosden and Charley Correll used only as production guides, is the best proof yet that film is far superior to live video. It's a great show.

Fifty Boy Scouts Leave For Camp

Fifty Midland Boy Scouts were to leave Sunday morning for a week's stay at the Buffalo Trail Scout Ranch in the heart of the Davis Mountains.

The Scouts will travel by private automobiles provided by their respective troops and will have their first meal at the ranch Sunday evening.

Midland Troops they will represent are Troop #4 of St. Ann's Catholic Church; Troop #6 of the First Presbyterian Church; Troop #13 of the First Methodist Church and Troop #13 of the First Christian Church.

Leaders who will accompany the Scouts are John Buckley, Ray Kelly, Wallace Wimberly, G. O. McFary, Althen Galloway and Oley Hedrick Jr.

Executive staff members of the Buffalo Trail Council who are scheduled to direct the camp the remaining four weeks of camp include Stuart Painter of Odessa, Henry Norris of Sweetwater and Don Galbraith of Midland.

Troop #14 of the Midland Rotary Club will go to the ranch from July 22 through August 4.

The ranch will remain open until August 12, with the final week reserved for all negro scouts of the 17-county council.

WTKC All-Breed Show To Be Held On September 16

The West Texas Kennel Club has scheduled its annual all-breed dog show for September 16 at the Ector County Pavilion in Odessa.

George Woodford of Midland, vice president of the West Texas club and chairman of the show committee, announced Saturday the club has received its license from the American Kennel Club to hold the show.

Approximately 20 Midlanders belong to the club and all are expected to enter dogs. However, Woodford said, it is not necessary to belong to the club to enter dogs in the show.

Between 300 and 400 dogs or about 40 breeds are expected to be entered. Entries will close two weeks before show time.

Additional information may be had from Mrs. George Woodford, club secretary, at 2104 West Kentucky Street, or by dialing 2-3988.

C. L. Davenport of Midland is president of the West Texas organization.

School Evaluation Conference Slated

DALLAS—More than 300 Texas principals, superintendents and supervisors are expected to attend a conference on evaluating public schools, August 1 and 2.

The meeting, sponsored by Southern Methodist University's School of Education, will be held in Karcher Auditorium in the new Legal Center at SMU.

J. R. Cuffman, vocational agriculture supervisor in Midland public schools, and possibly one other Midland teacher will attend the conference, according to School Supt. Frank Monroe of Midland.

Experts To Speak
Leading educators from over Texas will participate in the program designed to help public school leaders to evaluate their own schools.

Dr. Harold Drummond of George Peabody College, coordinator of the Southern Association of Colleges' study on the evaluation of elementary schools, will be one of the chief consultants. The Director of Professional Standards of the Texas Education Agency, Frank Hubert, also will speak at the conference.

The meeting will consist of speeches by authorities in the field of evaluation, panel discussions and group sessions for the elementary and secondary level. Members of the SMU faculty will assist in the conference.

Midland Man Fined For Drunken Driving

A 30-year-old Midland man pleaded guilty in county court Saturday to a charge of driving while intoxicated. He was fined \$100 and court costs and his driver's license was suspended for 30 days.

The driver was arrested at 8 p.m. Friday five miles west of Midland on U. S. Highway 80 by Highway Patrolmen Mac Stout and Bob Zigler.

Some kangaroos can jump a fence 11 feet high.

NEW CAL BOYKIN HOTEL OPENED

The grand opening of the new Cal Boykin Hotel at Portales, N. M., was held Saturday, with large crowds, including state officials, attending the day-long function. The \$600,000 hotel was built by the Portales Community Hotel, Inc., and leased to Cal Boykin, Midland, Texas, hotel operator. Buck Weiner is the hotel manager, and J. B. Howell, formerly of Midland, is the dining room and coffee shop manager. Co-eds of the Eastern New Mexico University acted as hostesses in showing visitors through the new hostelry.

Episcopal School Officials Plan Meetings Monday

Two officials of St. Stephen's School at Austin will be in Midland Monday to confer with prospective students and their families.

They are the Rt. Rev. John E. Hines, Bishop Coadjutor of the Episcopal Diocese of Texas, and the Rev. William Brewster, headmaster of St. Stephen's.

Built a year ago in the wooded hills overlooking Lake Austin, St. Stephen's is a modern co-educational institution for both boarding and day students. It is fully accredited and teaches grades from the seventh through the twelfth, and stresses Christian environment.

Although St. Stephen's was built and is operated by the Episcopal Diocese of Texas, it is a non-denominational school. Bishop Hines is a member of the Board of Trustees.

The Rev. Robert J. Snell, rector of Trinity Episcopal Church in Midland, said the two school officials plan a dinner at 6:30 p.m. Monday in Hotel Scharbauer for families interested in sending children to St. Stephen's and will show movies of the school and its operations at 8 p.m. in the Parish House of the Midland Church. Parents interested in attending either or both of the events are requested to contact Mr. Snell.

Both school officials will stay at Hotel Scharbauer while in Midland.

Man, Woman Held For Possession Of Bogus Money

AMARILLO—A man and woman were held under \$25,000 bond each Saturday on a charge of having more than \$17,000 in counterfeit bills in their possession.

They were named in a federal complaint filed with U. S. Commissioner Mrs. Mary Harris as Milton Simon Merrall, alias Robert James Freitas, 45, New York City, and Mrs. Mercedes Maxine Callinicos, 33, Hollywood, Calif.

The pair waved examining trial. Amarillo police arrested the two Thursday. They said they found \$17,830 in bogus \$20 bills. They said they also found two guns, handcuffs, pliers, a flash light, and files and a car equipped with a siren, red emergency light and radio telephone.

Pioneer Reports On Net Profits

DALLAS—A net profit of \$45,097.93 or 50 cents a share, after federal income taxes, was made by Pioneer Air Lines for operations the first six months of 1961, E. W. Bailey, company secretary-treasurer, reported.

This is in contrast to a net profit of \$46,902.08 earned for the similar period in 1960.

Passenger revenues for the six months of 1961 amounted to \$1,025,605.30, an increase of 23 per cent over the \$831,144.45 in passenger revenues for the like period in 1960, Bailey said.

Payments for transporting mail decreased 18 per cent from \$678,448.47 in 1960 to \$558,063.23 this year.

Gross charter revenues, including income from military charters, increased from \$8,279 the first half of 1960 to \$287,798.53 in 1961.

Operations costs increased from \$1,200 cents per revenue aircraft mile flown for the first half of 1960 to \$632 cents in 1961, a gain of 6.3 per cent.

Flocks of boobies, hunting fish, will dive in unison from a height of 70 feet and disappear in a flash.

AT FORT SILL

Sgt. Billie R. Montgomery, son of Mr. and Mrs. C. P. Montgomery of Midland, who entered the service last September and has been at Camp McCoy in Wisconsin, now is stationed at Fort Sill, Okla.

GRADUATED

Second Lt. John P. Matthews, son of J. P. Matthews of Midland recently was graduated from the associate infantry company officers course at Fort Benning, Ga.

With The Services Midlander Keeps Jet Planes Ready For Korea Combat, Given Promotion

Hershel M. Dyer, son of Mr. and Mrs. H. P. Weathers of Midland, has been promoted to sergeant in Korea, where he is attached to the 67th Tactical Reconnaissance Wing.

As an RF-80 jet crew chief, Sergeant Dyer keeps his aircraft in combat-ready condition at all times.

The pilot of his Shooting Star flies over enemy territory photographing communist airfields, troop concentrations and supply storage areas.

These photos are evaluated and used by UN ground forces and by Fifth Air Force in assigning combat missions to the various tactical units in the field.

Seaman William (Bill) Little, who has been home on leave, has returned to San Diego.

Recently promoted to seaman first class, Little will play football this season for the West Coast Submarine Pack.

At the end of the season, he will attend the torpedo school at Great Lakes, Ill., and then the submarine school in Connecticut.

He is attached to the USS Nerues As-17.

Pfc. George C. Lung, son of Mrs. Richard A. Yee, 2501 West Wall Street, has entered the Airplane and Engine Mechanics School at Sheppard Air Force Base at Wichita Falls.

During the 22-week course, he will receive intensive training designed to provide him with the thorough knowledge and the basic skills required in servicing, inspecting and maintaining every type of aircraft used by the Air Force.

Before entering the service, he was employed at the Blue Star Inn.

Lt. Cmdr. Herbert R. Smith, Supply Corps, USNR, of 400 East Maple Street, was one of 17 naval reserve officers receiving a certificate re-

cently for satisfactory completion of training in electronics supply at the U. S. naval electronics supply office at Great Lakes, Ill.

The training consisted of an intensive course in specialized electronic supply procedure, information relative to recent changes in the overall navy supply system, and a resume of the electronic equipment and spare parts needed for the operation of the fleet and shore establishments.

Cadet Charles A. Tom, son of Mr. and Mrs. J. Alfred Tom, 1611 West Texas, a student at the University of Texas, is one of more than 1,800 cadets from 37 colleges and universities attending the 1961 Reserve Officers Training Camp at Fort Eustis, Va.

Casualties in Korea

WASHINGTON—Only four Texans were named in the Defense Department's Korean casualty list No. 353, released Saturday. They are:

Wounded, Army: Sgt. 1/c Robert G. Peterson, Weatherford.

Wounded, Marine Corps: Pfc. Charles E. Clark, Sundown; Pfc. Billy K. Gibson, Waco.

Missing in action, Army: Pvt. Sherman W. Malone, Wharton.

ADMITTED FOR SURGERY
Mrs. J. E. Bruce, Magnolia Camp, was admitted to Western Clinic-Hospital Friday as a surgical patient.

When a coot is being chased by a hawk or an eagle, it sometimes dives at full flight into water.

Overall Cotton Picture In County Somewhat Drab

Agricultural agencies in Midland report the county's cotton production outlook is somewhat improved over what it was a few weeks ago, but the overall picture still is not too bright.

Charles Green, county agent, and C. E. Champion of the Production and Marketing Administration say drouth is the critical factor and that more cotton will be lost if it does not rain soon.

Because of a July 2 rain that brought slightly more than an inch of moisture to many areas, the two men revised downward their earlier estimates of crop losses.

This is the situation as they see it:

Midland County farmers planted in the vicinity of 50,000 acres in cotton this year—the highest annual acreage for this county—and now approximately 40,000 acres are up to a fair stand, but even that is in need of moisture.

A lot of cotton acreage is skimpy, and many farmers are leaving poor stands that under ordinary conditions would have been replanted.

Irrigation Is Aid

The county's cotton production total will be bolstered considerably by some 15 cotton farms under irrigation.

With a favorable rainfall, the season's production average should reach about one-third of a bale an acre or better. The average yield normally would have been one-half a bale or more. Even with no more rain the county will produce some cotton, but not too much.

They believe the county's all-time high planting of 50,000 acres to be the result of:

- (1) The Korean War.
- (2) A request by Secretary of Agriculture Charles Brannan for a 16 million bale cotton production in the U. S. Surplus Insufficient.
- (3) Increased exports, which have reduced the "carry-over" from crops of previous years so the surplus hasn't been enough for domestic needs. This is supposed to be the first time such a condition has existed in a good many years.

Usual plantings in Midland County run in the neighborhood of 35,000 to 40,000 acres. The last big boost in the cotton acreage was in 1949, when approximately 45,000 to 48,000 acres were planted. The 1949 boost came because farmers at that time thought it was the last year of government support prices with no acreage controls.

Government support prices are in effect this year, but, even by fall, the market trend is expected to be above the support level.

Field Checks Made
Green has made several field checks in the last few weeks and found no great indication of harmful cotton insects. The county agent said this absence of cotton insects probably is due to dry weather conditions. He cautioned dry land farmers, however, to be on the lookout for "flea-hoppers" on younger cotton. And some of the irrigated fields may have cotton high enough to be subject to boll worm attacks, he said.

The two men warned the insect situation could change almost overnight, especially after a big rain—if one should come.
"This country would grow anything if it just had rain," they said. "The land is relatively fertile, and rainfall is its chief limiting factor. It's amazing that so many crops have come up, with the current drouth."

Underwriters Talk Training Course

The Life Underwriters Training Course, which will begin in October, was discussed Saturday at the monthly meeting of the Permian Basin Association of Life Underwriters in Odessa.

Members from Midland, Big Spring and Odessa attended the session held in the Elliot Hotel.

The association also discussed an advertising program which will be launched in the near future. President George Vannaman announced the next meeting will be held August 11 in Midland.

VISIT FRIENDS HERE

The Rev. and Mrs. A. P. Harrison of Dallas visited friends here Saturday enroute to California on a vacation trip. Mr. Harrison last Summer conducted services in the Trinity Episcopal Church while the rector, the Rev. R. J. Snell, was on vacation.

Puppy Finds Wailing Can Lead To Jailing

Midland Memorial Hospital is proudly celebrating its first anniversary Sunday.

But for a while early Saturday, it looked like the place was going to the dogs.

A little puppy wandered into the hospital's emergency room and at 3:22 a.m. began howling at the top of its voice to awaken startled patients.

Police hastily were summoned and the puppy spent the rest of the night in the abandoned city jail.

Hudson Resigns As Manager Midland Petroleum Club

Dan Hudson, manager of the Petroleum Club of Midland since its opening in October, 1948, announced Saturday he has resigned the position, effective August 1.

Hudson came to Midland in 1939, serving three years as manager of Hotel Scharbauer. He resigned that position to enter the armed forces, serving three years as an officer in the U. S. Army. Returning to Midland in 1946, he was engaged in the oil business before assuming the management of the Petroleum Club.

He formerly was connected with hotels in Fort Worth, Dallas, Houston, San Antonio and Big Spring. Hudson did not reveal his plans for the future.

Reported 'Corpse' Is Blinky Burglar

WACO —(AP)— Employees opening a Waco automobile house Saturday called police to tell them they had "a corpse in their tire bin."

Responding city detectives pulled an unconscious, would-be burglar from the tire rack when they arrived.

The burglar slipped and fell from a balcony while removing tires and was cooked on the head by a heavy roll of seat cover material which rolled off the balcony with him.

When aroused by cold water, the burglar asked, "Where am I?"

Now in jail, battered and bruised, he won't have trouble keeping track of himself.

Italy Denies Deaths Due To Faulty Planes

ROME —(AP)—The Italian Defense Ministry said Saturday 19 Italian pilots have died this year in crashes of American fighter planes donated by the United States to Italy. It denied, however, that inferior material in the American planes was responsible for the crashes.

The ministry's communique followed publication in Milan's weekly *Candido* last week of an open letter to President Truman asking him to shed light on Italian pilot deaths in "outmoded" American planes.

Stanley Returns To Camp Chaffee

First Lt. A. W. Stanley, Jr., who has been visiting with his family and parents, Mr. and Mrs. A. W. Stanley, 709 North Lorraine Street, returned recently to Camp Chaffee, at Fort Smith, Ark.

Lieutenant Stanley, who visited in Midland for a week, was secretary-treasurer of the Stanton-Midland National Farm Loan Association before going into the service. His wife and two children returned to Camp Chaffee with him.

BACK FROM VACATION

Mr. and Mrs. Ben Crites and sons, Billy and Charles, returned Saturday from a vacation trip to California and other Western states. They visited various West Coast points from Long Beach to San Francisco.

Midland Firemen To Attend School

Four members of the Midland Fire Department will leave Sunday for Texas A&M College to attend the 22nd annual fireman's training school.

The one-week school attracts firemen from throughout the state to study the latest techniques in fire-fighting.

Representing Midland will be Captain J. L. Brooks, Fire Marshall Bill Klatt, Lester Scott and H. O. Ponder.

COLLEGE OFFICIAL VISITS

Raymond Foy, vice chairman of the board of trustees of Hardin-Simmons University, was in Midland last week in the interest of an expansion program at the school. For almost 30 years Foy was an executive of The Dallas News.

BIG SPRING RODEO BOWL—The eighteenth annual Big Spring Rodeo and Cowboy Reunion will be staged Wednesday through Saturday in Big Spring's modern "bowl"-type rodeo plant, one of the finest in the Southwest. The bowl, completed last Summer, will seat 7,500 spectators, and is bounded by 30 acres of parking space. It is situated adjacent to West Big Spring. Performances are scheduled at 8 p.m. daily. The world's top cowhands are expected to compete in the rugged rodeo events.

Wholesale Prices Show New Decline

NEW YORK —(AP)— Wholesale Associated Press Index shows commodity prices as a whole declined last week for the eleventh week in a row to the lowest average level since last November 29, The index compared with 192.47 week before last and with 172.73 a year ago.

Birthday Greetings!

Congratulations and all best wishes are in order this weekend as the Midland Memorial Hospital observes its first birthday anniversary...

Midlanders and other Permian Basin Empire residents join in expressing "Happy Birthday" greetings to Midland Memorial Hospital...

It was just a year ago that Midland's fine community hospital opened for service, and the progress which has been made during the intervening months has been remarkable.

Few persons at that time perhaps visualized the progressive strides which have been made during the last 12 months, but all rejoice in the advancement of the institution...

The fact that the huge general hospital is being patronized more and more by Midland and area residents should offer sufficient proof that the institution is fulfilling the purpose for which it was intended...

Considering that angle, it is fortunate indeed that Midland has another fine, modern and well-equipped hospital—Western Clinic-Hospital—to assist in taking care of the medical needs of the community...

Midland Memorial Hospital, during the last year, has attracted additional highly-trained and skilled physicians, surgeons and specialists to our city, which rapidly is assuming its position as the outstanding medical center of the Permian Basin Empire...

Yes, Midland's fine community hospital has made much progress during its first year of operation.

Certainly, Midland Memorial Hospital and the services which it provides are not perfect, and surely there yet is room for improvement along various lines, but after all, the hospital is only a year old.

Complaints, some just, some unjust, as to the operation of the hospital have been received by this newspaper and by others from time to time. Most of the complaints have been investigated thoroughly by the hospital officials...

As one hospital official said recently, a little money can cure a lot of ills at Midland Memorial Hospital. Most of the problems of the hospital during its first year of operation may be traced directly to a shortage of operating funds...

The hospital, because of increased costs of constructing and equipping the four-story building, started off under a debt handicap, which now has been whittled to approximately \$170,000. A total of \$1,700 a month is required to meet principal and interest payments...

Midland Memorial Hospital is in dire need of an operating fund with which to improve its services, to provide additional equipment and to pay maintenance costs. Midland Memorial Hospital needs a reserve fund in order to meet reverses when and if they should arise...

Some individuals, organizations and groups have been most generous in furnishing equipment and services and in promoting the hospital along all lines—and to all who have assisted, thanks a million from all concerned.

Despite the complaints and despite its urgent needs, Midland Memorial Hospital has made remarkable progress during its first year, and there is every reason to believe that progress will continue at Midland Memorial Hospital, which is owned and operated by and for the residents of Midland and the Permian Basin Empire.

Birthday Greetings and Many Happy Returns of the Day to Midland Memorial Hospital.

Nobody will complain if a shortage puts an end to rubber checks.

The more deserving a person is of criticism the less he likes it.

A good motto for all Americans these days is open your eyes and shut your mouth.

Ahead Of Schedule

The Washington Merry-Go-Round

By Drew Pearson

Drew Pearson says: Truce relaxation could be Soviet bonanza; Even the Chicago Tribune tries to ride tax gravy train; Truman's senatorial opponent in Missouri comes to his rescue.

WASHINGTON—There was some simple but startling — arithmetic behind the recent warnings of Defense Mobilizer Charles Wilson and Defense Production Chief Manley Fleischmann that we must not permit the Korean truce talks to slow down our preparedness program.

While many members of Congress already are clamoring for repeal of emergency measures, including price controls to stabilize the domestic economy, here are three major worries of Wilson and other top defense leaders who know the dangers of letting down our guard: Industrial Production — The free world now outproduces the Soviet bloc three to one.

Crude Oil Reserves—Oil is the indispensable life-line of warfare and the free world now controls about 94 per cent. If the Middle East were lost to Russia, however, the Soviet bloc would have half of the world's crude oil.

Population—The people of the free world now outnumber those under Soviet rule by about two to one. However, if both Europe and Asia are lost, people under Russian domination would outnumber us by more than three to one.

Wilson's recent report to President Truman, which made headlines for one day, should be pasted in the blackboards of Congress as a daily reminder to isolationist politicians. In it Wilson pointed out that, if Western Europe fell, the Soviet Union would gain control of an additional 300,000,000 people; that Soviet steel production and electric energy then would equal ours; and its coal production would far exceed that of the democracies.

Wilson further emphasized that if Asia were to fall into Soviet hands...

Most interesting of all was the fact that the paper applied for this tax benefit on the ground that its printing plant was essential to the same mobilization program which the Times-Herald so consistently and bitterly attacks.

So far Defense Mobilization officials have refused the tax gravy.

Two Young Senators

The young men who used to serve together in the House of Representatives were elected to the Senate last November. They came from neighboring states—Oklahoma and Missouri—one with the blessing of Harry Truman, the other with his vigorous opposition. However, their unique and opposite development in the Senate has been the talk of Washington.

The man whom Truman opposed is Senator Tom Hennings of St. Louis. The President not only tried to defeat him in the primary, but failed to give him any real support in the final election. However, Hennings has risen above personal prejudices and has become a tough, vigorous fighter for some of the unpopular but courageous Truman policies.

Today, however, Monroney has lost some of that admiration. Senator Monroney's biggest opportunity was as chairman of the Senate Reactions subcommittee investigating the 1950 Maryland campaign, in which agents for the Chicago Tribune faked a picture of Senator Tydings in a supposedly friendly conversation with Communist Earl Browder.

All sorts of outside money was poured into Maryland in violation of the Corrupt Practices Act, with the campaign being directed from Chicago—not Baltimore. Few opportunities have been as clear-cut for an investigation committee to expose unfair and illegal election practices, and Republican members on the committee were inclined to cooperate.

Yet Monroney pulled his punches. Weeks have dragged by and only a milk-toast report on the Maryland campaign tentatively has been prepared. Senator Hennings, also a member of the committee, has tried to get action, but Monroney has wrung his hands, explained that he wanted to please both sides, and waited.

A charming, likable senator, Mike Monroney has proved the biggest disappointment of the new Congress. The liveliest feud under the Capitol's big dome is between two Republican senators on opposite sides of the price-control law—witty Wayne Morse of Oregon and sluggish, likable Homer Capehart of Indiana.

The argument flared into the open when Morse flung a finger at Capehart and told the Senate: "In my lifetime I've helped ring the nose of many bulls, but the livestock lobby has no ring in my nose. I want to tell the Republican Party: You'll discover in 1952 you lost a great opportunity when you did not stand for stronger controls than the Democrats." We have lost a great opportunity and will pay for it in the election.

The Indiana senator flushed. "I have listened to a political speech by the senator from Oregon, who never once appeared before the Committee on Banking and Currency," he said. "Now, in order to make newspaper headlines, he criticizes his own party and Congress."

Another Republican senator, Langer of North Dakota, demanded that Capehart take his seat for attacking a fellow member, and still grumbling, the Indiana senator did. But Morse did not take this lying down. "There is nothing that could possibly convince me more of the correctness of my position," he shot back, "than to know my views are opposed by the senator from Indiana."

So They Say

JACOBY ON BRIDGE

By OSWALD JACOBY, Written for NEA Service

Today's hand was played in an English match. Most American experts would tend to bid more with the North hand and less with the South, but the final contract would probably be the same.

When the hand was actually played, West got off to a bad start by leading the deuce of clubs. This rode around to South's jack. Declarer went into a brief trance and came out of it with a decision to play East for the queen of hearts. Hence he led a low heart to the king and returned a low heart to finesse the nine. This lost to West's queen.

West exited with another club to dummy's king. South then led to the ace of hearts, cashed the ace of clubs, discarding a low diamond from dummy and laid down

Bridge hand diagram showing North, West, East, and South hands with cards and suits.

the ace and king of spades. South had been hoping that the queen of spades would fall. Since it didn't he had to go over to the king of diamonds and run the rest of the hearts.

When the last heart was led, dummy still had the jack of spades and a low diamond, while South had the ace-jack of diamonds. East kept the ten of diamonds and the ten of spades, while West saved the queen of diamonds and the queen of spades.

Declarer led the low diamond from dummy, and East played the ten. South then went into a second trance. Who had the queen of diamonds? Should he play the ace or finesse the jack?

In sure every reader has the right answer: it's a cinch when you can see all the cards. It's not so easy when you have to sweat it out in actual play.

South knew that West might hold either the queen-ten of spades or the blank queen of diamonds. If West had no more diamonds, his original hand had consisted of three queens and a worthless doubleton in diamonds. With such a hand, however, West would have led a diamond; he would not have led away from a high card against a slam in no-trump.

Why, then, had West led from his queen of clubs? South saw the answer in a flash. West had held all four queens and had been obliged to lead away from one of them.

After this excellent reasoning South played the ace of diamonds and made his slam contract.

CARD Sense

WASHINGTON COLUMN

Statisticians Have Written Up A Consumer Fever Chart

By PETER EDSON, NEA Washington Correspondent

WASHINGTON—Thirty-two per cent of the American families feel they are better off now than a year ago. Thirty-one per cent feel their situation is about the same. And 37 per cent feel their financial position has worsened.

High prices are keeping many people from buying consumer durable goods—automobiles, houses and house furnishings. The volume of business during the latter half of 1951 will rise only if consumer incomes continue to increase, or if consumers come to the conclusion that high prices are here to stay—so make the best of it; they can, before prices go any higher.

These are the highlights of a new Federal Reserve Board survey on consumer finances. The findings were made by the Survey Research Center of the University of Michigan.

To obtain the picture of how the average consumer feels about his financial situation, the center conducted 3,400 interviews in 66 sample areas of the United States. The families interviewed were picked to give the best possible cross section of the entire American economy.

In interpreting the results of the survey, however, Irving Schweiger of the Federal Reserve Board stressed a few issues two warnings. The field survey was made in the first two months of the year. Employment conditions, consumer income and buying intentions have changed somewhat in the intervening four months. The second point is that shortages of consumer goods in the latter half of the year also may curtail buying seriously.

Other Factors Creep In

While the Federal Reserve Board survey makes no mention of them, two other important factors will influence the business level in the remainder of the year. Both will be determined by the kind of economic controls bill Congress finally approves.

If a rigid wage freeze is permitted and enforced, it will hold civilian income steady. But if wage levels are permitted to puncture the ceiling, up will go the inflationary purchasing power. And if authority to control prices is limited and prices continue to rise, buyer resistance will increase. Business interests who are opposing imposition of price controls therefore may be advocating a congressional course of action that will work to their disadvantage.

There are 53,000,000 family or consumer spending units in the United States, according to the Federal Reserve Board survey. According to the sample, about half of them, or 25,000,000 families, would show higher income early in 1951 than a

WILD WEST CHARITY STANDISH

By CHARLES JUDAH, Copyright 1951 by NEA Service, Inc.

THE STORY: In New Mexico, Charity Standish becomes engaged to Duke, but she is snatched by Angel, who is a gambler. Charity is forced to play the Four Aces and becomes the "queen" of Angel, the dark-eyed beauty who is the owner of the Four Aces. Charity meets Angel, who is the owner of the Four Aces. Charity meets Angel, who is the owner of the Four Aces. Charity meets Angel, who is the owner of the Four Aces.

PERHAPS it was the drink. Perhaps it was the relief that comes with action. Whatever it was, as she walked to the dice table...

"Mr. Rogers," she said. He looked up. "I want to play." "Got any money?" "Four hundred forty dollars."

Whatever it might be up the canyon, \$440 was not pin money at the Four Aces. Duke glanced questioningly at Angel, who among other duties, sized up the guests and if need be fattened them for the sacrifice. Angel shrugged. It meant Duke was on his own.

"Care to show it?" he asked. Charity tossed the money on the table. It was all she had. Lost, and like Douglas, she would be a pauper. Hailing from New England, by way of Ohio, she had weighed the possibility of such a disaster and marked out a line of retreat. A chambermaid at the Artex, she thought.

"My roll," she said hardily. Duke did not smile. "Dice?" She shook her head.

WILD WEST CHARITY STANDISH

By CHARLES JUDAH, Copyright 1951 by NEA Service, Inc.

played Hazard for stakes that in comparison made even the play at the Artex shrink to the dimensions of a boy's marble game, but Duke had never heard of it. Neither had Charity until the previous day when to pass the time she had picked up the only book the hotel offered, "Game of Chance." Leafing through its pages she came to Hazard. She read about it and even spent an idle hour playing it against herself, with dice Doug had given her one day as a joke. It was the only gambling game she knew the least thing about, but Doug had said not to play the other fellow's game.

The Duke thought the matter over. A few minutes earlier Angel had told him who Charity was, and about her attempt to redeem Doug Kent's debt. She had mentioned an income, not very much, he figured, but dependable, which gambled was not. Moreover, with Angel deserting him to open a casino of her own in Santa Fe he could use some one to take her place at the Four Aces. Angel had worked hard at learning to be a lady, so she could handle occasional suckers from the Artex who came to see what a real western gambling joint was like, but who could sometimes be persuaded to try their luck only by someone who measured up to their own standards of refinement.

This girl would not have to learn. It was easy to see she was born a lady. Young, too, with a freshness that offered something new to a man like Duke. Thus, behind his inscrutable gambler's mask Duke's mind raced to a decision. He decided to marry Charity.

The most remote suspicion of such impertinence would have outraged Charity immeasurably—and unjustifiably. True, Duke Rogers was not a sensitive spirit who could readily comprehend the

"It's not called main, any more," Charity explained brightly, "the new one is your 'chance.'"

"Excuse me, chance." When they were married he would enjoy teaching her not to contradict him. "After that you throw till you get your chance, in which case you win, or the original main, in which case you lose."

TRAPPED—A man (arrow) trapped at the wheel of his car when he was caught in the rushing waters of the Kaw River as it washed through the Armoundale district in Kansas City, Kan., is shown at the window of his car. Out in the current too far to be reached by rescuers, he probably was swept to his death in

King Says UN Handicaps Political, Not Military

DALLAS—(P)—Frank H. King, just back from a three months assignment in Korea and the Far East, said United Nations forces are capable of doing about as they please in Korea.

But The Associated Press general executive for the Southwest said "Ever since Moscow started the peace move, the Communists have behaved as if they were dictating the terms."

King said the UN forces' handicaps were political, not military.

He landed here Friday after touring the Korean front, Hong Kong, Formosa and Japan. King said:

"If peace negotiations should break down, the United Nations could hold its present military line until doomsday. But this has also been a tremendous propaganda war. And we haven't done so brilliantly in the propaganda department."

He said he doesn't think negotiations should stall over the issue of news coverage and regretted that news coverage had been made an issue now.

Save American Lives

"The important thing is to end the fighting and save American lives. And to get those 10,000 American prisoners from the Communists."

King went to the Far East to confer with AP Correspondents and "prepare for covering the new phase of events in the Far East."

He also wrote news stories, including an interview on Formosa with Chiang Kai-Shek, chief of the Nationalist Chinese.

Of Chiang, King said: "The important question is can the old boy pitch one more inning? He never had a fast ball. Still, he has something on the ball. And for the first time he has armies which he ought to be able to trust. The good boys have been separated from the bad on Formosa."

King said he thought the Korean war had kept America from appreciating the "tremendous importance of the recovery and rehabilitation of Japan."

Right To Be Proud
"Every American has a right to be proud of what has happened in Japan. The old militarism seems to have vanished. And the deep, major social reforms in Japan are terrific."

He said the Japanese "recovered quickly" from the shock of MacArthur's dismissal.

A high source in the United Nations command told King the Communist casualties in the Korean war haven't been exaggerated.

"This source said Communist casualties are backed up clear to Canton," he said.

King's views were given in an interview with a Dallas News reporter.

FOR TREATMENT
Mrs. Margaret Friberg of 1020 North Lorraine Street was admitted to Midland Memorial Hospital Saturday for medical treatment.

Former Film Starlet Madge Meredith Is Freed From Prison

SACRAMENTO, CALIF.—(P)—Attractive Madge Meredith, a former film starlet, was freed from prison Saturday by Gov. Earl Warren.

She had been at Tehachapi State Prison for Women since May 9, 1949 for helping to kidnap and beat up her former manager, Nicholas Gianacis, and Verne Davis, his bodyguard, in the Hollywood hills.

The commutation of her five-year-to-life sentence to time already served was recommended to the governor in March by the State Adult Authority.

Said the governor as he ordered Miss Meredith let from behind bars: "This is a bizarre case, perhaps more fantastic than any moving picture in which the defendant acted—but certainly having many of the attributes of a scenario."

Governor Warren noted that Miss Meredith has continued to claim innocence but he said, in a press statement, that she must share some of the guilt.

May Return To Films

Albert W. Tucker was convicted with Miss Meredith in Los Angeles Superior Court and still is in San Quentin Prison. Two other men, Damon Klinkenberg and James Hatfield, served short sentences in the Los Angeles County Jail.

Warren also said he had been advised Miss Meredith "still has a future in the motion picture industry if she is in position to re-enter it."

Jerry Wald, a producer a RKO, which filmed Miss Meredith's most recent picture, commented:

"Since Governor Warren felt that in the interests of justice she be released immediately, I see no reason why she should not be considered for any movie role for which she is suited."

REV. SNELL AND FAMILY TO LEAVE FOR TENNESSEE

The Rev. R. J. Snell, rector of the Trinity Episcopal Church, will leave Wednesday for Sewanee, Tenn., where he will enroll for a special course in the Graduate School of Theology at the University of the South.

Mrs. Snell and the children will accompany him to Tennessee. During Mr. Snell's absence, worship services at the Trinity Episcopal Church will be conducted by visiting ministers and lay readers of the church.

\$1,000 Book Award Offered By Sons Of Republic Of Texas

DALLAS—(P)—A new \$1,000 book award has been announced by the Sons of the Republic of Texas.

The new prize for authors is posted by Summerfield G. Robert's a Dallas member of the organization.

This year is first—the award will be offered to the "best book now in print, regardless of publication date, by a living author," about some aspect of Texas during the days of the Republic.

After this first year, the prize likewise will include for consideration manuscripts as well as books published during the calendar year. This year's contest closing date is October 1.

The Sons of the Republic of Texas is a group with Texas forebears who want to "perpetuate the memory and spirit of the men who achieved and maintained the independence of Texas."

Britain's Princess Hears Solid Jive

LONDON—(P)—Princess Elizabeth went to the Royal Festival Hall Saturday night to hear three hours of hot, solid jazz.

She listened to Britain's leading bands play all the old favorites and one new one—the "Randolph Turpin Stomp," including a solo on a scrub board. Turpin won the world's mid-dleweight boxing championship from America's "Sugar Ray" Robinson here last Tuesday night.

Elizabeth seemed to love it.

Child Dies In Tub Scalding Water

AUSTIN—(P)—Teresa Diane Beauregard, three, died in a tub of hot water in the bathroom of her home here Friday night. Efforts of firemen and doctors to revive the child proved fruitless.

Police said the child climbed into the tub and turned on the hot water while her mother, Mrs. Robert A. Beauregard, was outside.

The child's father is an Air Force officer serving with the 27th Fighter-Escort Wing in Korea.

RETURN FROM VACATION

Mr. and Mrs. Martin Deuth and children of 1601 Harvard Street have returned from a vacation trip to Gonzales.

With Unwanted Car Motorist Hooked

HOUSTON—(P)—Earl Pearson Gee, 47, a boilermaker, drove up alongside patrolmen E. G. Poehl and A. W. Bass here Friday night.

Behind Gee's car was another car, bumper to bumper. Gee, the officers said, called out to them:

"Say, how am I gonna get rid of this car behind me?"

They looked, found that the second car, driverless, had hooked bumpers with Gee's. Backing and filling in a tight parking space, Gee had hooked the car behind him, towed it half a block down the street.

Gee was charged in justice court with driving while intoxicated.

Homes Are Found For Thirty Dogs

Homes have been found for 30 dogs within the last two days, the Society for the Prevention of Cruelty to Animals reported Saturday.

A spokesman for the organization said she was gratified at the response to an appeal made Thursday to help place some of the more than 120 dogs which were confined at the city's Animal Shelter.

"We still have a fine selection of pets for children and adults alike," said the spokesman, "and they can be seen Sunday at the Animal Shelter at 1702 East Wall."

ADMITTED TO HOSPITAL

Mrs. Verjean Burgoon of 203 West Humble Street was admitted to Midland Memorial Hospital Friday as a medical patient.

It's COOL all summer in MEXICO!

greater economy engineered in! ... to do more work for your money

POWERED FOR THE JOB
Two great engines to meet your need: the 92-hp. Thriftmaster for greatest economy. The big 105-hp. Loadmaster engine for greater power.

VALVE-IN-HEAD DESIGN
No other truck-engine design can match the over-all economy and proved efficiency of Chevrolet's two great valve-in-head engines.

Blue-Flame COMBUSTION
Wings all the usable energy from every drop of gasoline. Blue-Flame combustion is possible only with valve-in-head engine design.

POWER-JET CARBURETOR
At low speed, on grades or at regular highway speeds, Chevrolet's Power-Jet carburetor maintains the proper fuel mixture for the engine.

LONG-LASTING BRAKES
The greater self-energization of Chevrolet hydraulic brakes provides smoother, safer braking—completely equalized pressure to each brake.

BONDED BRAKE LININGS
No rivets on light- and medium-duty models (Series 3000). Lining is bonded directly to brake shoes to increase life and eliminate scoring.

Production Tests Scheduled For SE Martin Exploration

Production tests are to be under- taken early in the week at an in- dicated Spraberry sand discovery in southeast Martin County, one mile north of the town of Stanton.

Permian Basin OIL & GAS LOG
James C. Watson
Oil Editor

This project had recovered 2,800 feet of clean, new oil and 500 feet of load oil during a three-hour drillstem test at 7,072-7,167 feet. There were no signs of formation water.

Superior Spots Site For Second Matador Wildcat In Oldham

The Superior Oil Company spotted location for its No. 2 Matador wildcat in East-Central Oldham County.

Seven-inch casing is cemented on bottom at 4,742 feet.

This project indicated as a possible discovery from the Strawn when a drillstem test developed 230 feet of 47-gravity oil and 250 feet of heavy oil and gas-cut mud on recovery.

Humble Is To Drill Ellenburger Wildcat In NW Sterling Area

Twelve miles northwest of Sterling City and in Northwest Sterling County Humble Oil & Refining Company will drill a 9,100-foot Ellenburger wildcat.

South Flanker Is Set To Ellenburger Oiler In C-E Scurry Area

R. Olsen Oil Company of Oklahoma City will drill No. 1 Feldman as a one-location south offset to the same location No. 1 Templeton, lone producer in the Hermleigh-Ellenburger field of Central-East Scurry County.

Benedum In Upton Gets New Producer

Republic Natural Gas Company No. 2-D Rosa H. Barnett is a new producer from the Spraberry in the Benedum-multiphase field of Central-East Upton County.

Sohio Indicator In NW Reagan Sector Is Digging Deeper

Operator is drilling below 8,815 feet in sand, shale and lime at Soho Petroleum Company No. 1 E. B. Williams, possible Spraberry discovery in Northwest Reagan County.

Recent Discovery In NE Borden To Get South Offset

One location south of a recently completed Mississippian discovery in Northeast Borden County, The Superior Oil Company and Intex Oil Company have staked location for a confirmation project.

C-W Upton Opener Files New Potential

Gulf Oil Corporation has filed a new potential for its No. 1-H McElroy Ranch Company, Pennsylvania discovery in Central-West Upton County.

11,255 feet of drilling later, one crew brought in the first well in the promising new Blackjack field. It's a "whooper." Opened up "full throttle," it would flow at the rate of 86 million cubic feet a day, probably enough natural gas to supply all the homes in a city the size of Philadelphia for a year.

Drillers hope to have a second Blackjack well producing—quietly—before the whooping cranes come back to their winter sanctuary in the marshes.

The United States census of 1950 is credited with being the first on a major scale where a population count was made by government employees.

Independent Oil Men Would Send Technicians To Aid In Keeping Iran's Oil Flowing

WASHINGTON (AP)—Petroleum industry representatives here differ on what role the American industry should play in the Iranian oil crisis.

Russell B. Brown, chief counsel for the Independent Petroleum Association of America, favors sending U. S. technicians to Iran to fill the gap if the British withdraw.

If this country doesn't, he says, the Russians will.

Another segment of the domestic industry holds that it should not take this kind of initiative.

Asking that he not be quoted by name, the spokesman for a big oil organization, which numbers many major companies among its members, takes this position:

"We're leaving the problem up to the State Department. This is high international policy matter. It's above our heads, but of

course we are ready and anxious to do whatever our government feels is in the best interest of the nation."

Opposing Viewpoints

These opposing viewpoints were expressed to a reporter as W. Averell Harriman prepared to leave for Iran as President Truman's personal emissary to seek a settlement of the grave international problem.

Asked if he thought Harriman would be successful, Brown said: "It all depends on whether he is trying to back up the British in their foolishness. If so, we may lose this whole thing."

"The idea of telling Iran that we won't let them have technical advisors, simply to back up the British in their imperialist position, is awful. If Iran can't get help from us, they'll turn to Russia."

While the situation awaited Harriman's talks in Iran, some American companies were reported to have offered to recruit immediately large numbers of technical men for

a voluntary mission to Iran to keep its oil flowing to Europe.

"That's another thing," Brown added.

"About all we have been doing to date is talk about dividing up the Iranian market. That won't improve the international situation, grabbing off customers who might not return if and when the crisis is settled."

Nineteen American oil companies operating abroad have met at the suggestion of this government to plan a pool of their resources for the purpose of supplying Western Europe the fuel it has been getting from Iran.

Too Much At Stake

Representative Lane (D-Mass.) told the House this week:

"We cannot sit back waiting and hoping for a workable solution. There is too much at stake."

"I believe that we should offer the know-how of American technicians to keep the Persian oil resources in production. American companies would be only too willing to assist with skilled personnel."

"It remains for our government, through the State Department, to reverse its position and, after contacting the leaders of the industry, offer assistance to head off a shut-down or a run-down affecting this biggest (Abadan) of all refineries."

Rep. Oren Harris (D-Ark.) has introduced a resolution which would authorize the secretary of the Interior, in cooperation with the American companies, to make available to Iran enough U. S. technicians to keep its industry operating.

Sheer Stupidity

In submitting the measure, which was referred to the House Foreign Affairs Committee, Harris asserted the "hogish attitude" of the British had brought on the present crisis.

"The deplorable fact is that the present crisis has been precipitated over the degree of profit which the British insist that they must have," Harris said.

Criticizing the earlier announced position of this government to back up the British and refuse to send technicians to help Iran, Harris added:

"This is sheer stupidity. It is direct invitation for the Iranians to ask Russia for the trained men which Iran cannot get elsewhere."

Some major American oil companies are understood to be sympathetic with the British position because they fear risk to their own investments abroad.

They have expressed the fear that if Iran gets all it is demanding, other foreign governments may take similar expropriation and nationalization steps.

Green Resigns Job With Texas Gulf To Join Independents

Charles C. Green, who has been division geologist for Texas Gulf Producing Company since that concern started operations in the Permian Basin in June 1945, has resigned to join the ranks of the independents in Midland.

Green will work as a consulting geologist and will also be associated with Cactus Drilling Company. For the time being he will maintain his office at his residence.

Although he has resigned his full time official position with Texas Gulf he will continue to work with that concern at times on a consulting arrangement.

Cactus Drilling Company is now operating eight rotary drilling rigs in West Texas. The concern is owned by Frank Late of San Angelo. General offices of the company are at San Angelo.

However, Green said Saturday that Cactus would establish an office in Midland as soon as suitable quarters could be secured.

Green took a degree in geology from the University of Oklahoma in 1937. Soon after finishing school he went to work as a geologist for Shell Oil Company.

He was employed by Shell for nine years. The last five years of that service was in that concern's office in Midland. He left Shell to take the executive position with Texas Gulf in 1945.

W. Winston Hull, division manager in Midland for Texas Gulf, has not announced the identity of the person who will take Green's place with that company.

Solve Iran Oil Situation, Says IPAA President

J. Ed Warren of Midland, president of the Independent Petroleum Association of America, Saturday sent the following telegram to the President of the United States:

"We note your announced intention to send your personal representative to Iran.

"Many in the domestic oil industry are concerned with the outcome of the controversy between the British interest and the Iranian Government with regard to oil produced and refined in Iran.

"Failure to solve this problem resulting in the free countries of the world being deprived of Iranian petroleum products might have serious repercussions of wide spread effect. It would cause unanticipated demand on oil from the United States where steel shortages may interfere with our ability to supply such demand.

"It could turn this supply into channels where it might be made available to our possible enemy.

"It seems desirable that our paramount concern in this problem is the retention of Iranian oil supplies for established channels of consumption.

"Our principal effort should be directed towards assuring the peaceful attainment of that goal."

Metz Has Returned To Midland As Manager Of Exploration For Shell

M. S. Metz has been named exploration manager for the Midland Area of Shell Oil Company. He comes from Shell's Calgary, Canada, office where he was exploration manager.

Metz replaces H. M. Fritts who is being transferred to New York to become a member on the staff of Shell's vice president in charge of exploration and production.

The changes were announced by Joe T. Dickerson, vice president in charge of Shell's operations in West Texas and Southeast New Mexico.

Metz was Shell's senior geologist in the Midland area from 1946 to 1949. He joined the company as a junior geologist in the Texas-Gulf area in 1937 and later held various positions in the exploration department in Houston and San Antonio.

He was sent to Calgary as area geologist in April 1949 and became exploration manager there in June of the same year. He was born in Kennedy, Texas, and is a graduate of Texas A&M College.

Fritts has been exploration manager of the Midland area since June 1949. He joined Shell in 1926 as an instrument man in the exploration department in Coleman, Texas.

A year later he was made a geologist in San Angelo and subsequently served in various positions with the exploration department in the Texas-Gulf area.

Early in 1949 he became exploration manager in Calgary where he remained until coming to Midland. He is a native of Kansas and a graduate of Kansas University.

Merkel Man Named To High REA Post

WASHINGTON (AP)—S. Riggs Sheppard of Merkel, Texas, has been appointed assistant administrator of the Rural Electrification Administration.

The appointment was announced Friday by the Agriculture Department.

Sheppard succeeds William C. Wise, who recently was named deputy administrator succeeding George W. Haggard, Colorado City, Texas, who was killed last month in a plane crash.

Sheppard has been manager of the Taylor Electric Cooperative of Merkel since 1941.

When James K. Polk was President, Mrs. Polk abolished dancing at White House parties.

SW Stonewall Test Plugged, Abandoned

General Crude Oil Company has plugged and abandoned the No. 1 Pauline Ybarra, wildcat in Southwest Stonewall County nine and one-half miles southwest of Aspermont at total depth of 6,427 feet in Ellenburger showing sulphur water.

The failure was 1,980 feet from west and 2,080 feet from north lines of section 174, block 1, H&TC survey.

Permian Pete ...

Production Tests—

(Continued From Page Six)

at 7,151-7,155 feet. That section had been given a 3,000-gallon Hydrafrac treatment.

Gas-oil ratio was 679-1 and tubing pressure ranged from 500 down to 125 pounds during the completion test, which was on a one-half-inch choke.

Location is 660 feet from south and east lines of section 1, block 37, T-2-S, T&P survey.

Seaboard Oil Company of Delaware No. 1-12 B. T. Hale was completed from open hole at 7,173-7,266 feet for a daily flowing potential of 212.98 barrels of 39-gravity oil.

A three-eighths-inch choke was used for the potential.

Gas-oil ratio was 850-1.

Location is 2,326 feet from north and 660 feet from east lines of section 12, block 37, W. Glendening survey.

New Site, New Oiler Listed For Driver

Cahot Carbon Company spotted location for a new project in the Driver-Spraberry field of Southeast Midland County and James H. Snowden and associates completed another oiler in the same field.

The new test will be No. 2-B TXL, 1,980 feet from south and 560 feet from east lines of section 33, block 37, T-4-S, T&P survey.

Snowden No. 2-16 Driver was completed for a daily flowing potential of 353.8 barrels of 36.7-gravity oil and no water.

Open hole from 7,068 to 7,214 feet was given a 3,000-gallon Hydrafrac treatment.

The final test was made on a 25-64-inch tubing choke.

Location is 660 feet from south and east lines of section 16, block 37, T&P survey, T-4-S.

Midland Prospector Drilling After PST

The Texas Company is drilling below 8,010 feet in lower Permian lime on its No. 1 Fletcher Curry, wildcat in Central-West Midland County.

Operator took a drillstem test from 8,190 to 8,193 feet. The tool was open four hours. No shows of oil or gas were encountered.

The wildcat topped the Ellenburger at 7,966 feet at a minus datum point of 5,906 feet. The upper section of the Ellenburger did not show any signs of possible production.

Drillite is five miles north of the Yates Pool and 1,950 feet from north and 660 feet from east lines of section 28, block H&TC, GC&SF survey.

NW Crockett Test Is Running Surveys

The Texas Company No. 1 Marrs, wildcat in Northwest Crockett County is running electrical surveys after a recovery of 1,850 feet of sulphur water on a drillstem test from 8,190 to 8,193 feet. The tool was open four hours. No shows of oil or gas were encountered.

The wildcat topped the Ellenburger at 7,966 feet at a minus datum point of 5,906 feet. The upper section of the Ellenburger did not show any signs of possible production.

Drillite is five miles north of the Yates Pool and 1,950 feet from north and 660 feet from east lines of section 28, block H&TC, GC&SF survey.

McCamey Outpost Scheduled By Green

Six and one-quarter miles northeast of McCamey, John L. Greer Drilling Company, Inc. will drill a one mile north-northwest outpost to the McCamey field in Upton County as the No. 1-A Shirk estate.

Drillite will be 330 feet from south and east lines of section 25, block 2, M&CT survey.

Cable tools will be used to go to 3,000 feet beginning at once.

Shallow Wildcat Is Spotted In Concho

Seaboard Oil Company of Delaware has staked location for a 4,000-foot wildcat in Northwest Concho County.

It is No. 1 Ellen Sims and is 800 feet due west of the northwest corner of section 49, Julius Grapel survey but in the P. H. Brooks survey No. 2.

Location is on a block of 7,278 acres.

Drillite is three miles northwest of Paint Rock.

NE Rannels Area Gets Prospector

T. W. Murray and Skiles Oil Corporation staked location for two 5,000-foot wildcats in Northeast Rannels County, three and one-half miles southeast of Winters.

No. 1 J. O. Phelps will be 330 feet from north and east lines of lease in block 535, E. Mather survey.

No. 1 Claude R. Hightower will be drilled 330 feet from south and east lines of a lease in the E. Mather survey.

Strake Schedules Rannels Venture

G. W. Strake of Houston has staked location for his No. 2 Harris Davenport as a wildcat in Northeast Rannels County.

Drillite is 330 feet from north and west lines of tract 9, J. X. Jimlines survey No. 265 and four miles northwest of Crews.

It is one and one-half miles northwest of Strake No. 1 Davenport, a 4,603-foot failure which was plugged this year. It is also three miles south and slightly west of the Sykes-Morris sand field.

Projected depth is 5,000 feet. Rotary tools will be used to drill, beginning immediately.

NE Rannels To Get Two New Ventures

G. B. Cree of Abilene No. 1 H. A. Stephens is a new wildcat in Northeast Rannels County.

Location is three miles northeast of the Crews field and 15 miles east of Winters. It is 330 feet from west and 446 feet from south lines of the O. C. and S. L. Davenport survey No. 12.

Rotary tools will be used to drill the prospector, beginning in the near future.

Prospector In Kent Testing Ellenburger

Gulf Oil Corporation No. 2 A. C. Cairns, wildcat in Central Kent County, is taking a drillstem test from 7,520 to 7,535 feet in the Ellenburger.

That formation was topped at 7,520 feet with a minus datum point of 5,319 feet. That makes it 71 feet low to the same company's No. 1 Cairns, failure two and one-half miles to the northeast.

Location is 660 feet from south and west lines of section 52, block O, N&NW survey and five miles southwest of Clairmont.

CUT BY GLASS

Bob Durdahl, 107 West Louisiana, an employee of the Pittsburgh Plate Glass Company, was treated at Western Clinic-Hospital Friday after a piece of glass on which he was kneeling broke and cut his knees.

SEG Pacific Section Is To Hold Annual Meet In November

The Pacific Coast Section, Society of Exploration Geophysicists, will hold its annual Fall meeting on November 1 and 2 at the Ambassador Hotel in Los Angeles, it was announced Saturday by Robert Dyk, of General Petroleum Corporation, Bakersfield, president of the section.

The meeting will again be held in conjunction with the annual sessions of the local AAPG and SEPM groups and coordinated programs will be presented.

Flint Agee, of United Geophysical Company, Pasadena, and vice president of the southern division of the Pacific Coast Section, will be in charge of program and arrangements for the SEG.

More than 200 exploration scientists on the West Coast are members of the Pacific Coast Section. Officers of the society are: Robert Dyk, president; John Sloat, Union Oil Company of California, Bakersfield, vice president; Northern District: Flint Agee, vice president; Southern District: O. K. Fuller, Jr., Humble Oil & Refining Company, Los Angeles, secretary-treasurer; John D. Hale, Seaboard Oil Company, Bakersfield, district representative to the SEG; and V. E. Prestine, Western Geophysical Company, Los Angeles, district representative to the SEG.

Mouton—

institutions and government organizations.

He has handled title work assignments in Missouri, Illinois, Indiana, Kentucky, Mississippi, Florida and Texas.

Midland Map Company has just completed and is now ready to deliver new oil maps on Hale and Sutton Counties. With the completion of those two maps the concern has 25 West Texas counties mapped and available for use.

Other Maps Soon

Maps will soon be completed on Tom Green and Seury Counties and work is under way on Cochran, Lamb, Andrews and Gaines Counties.

The concern will soon start building oil maps on Ector and Crane Counties.

C. E. (Ed) Prichard, manager of Midland Map says he and his associates hope to have maps completed on every active county in West Texas and Southwest New Mexico by the end of this year.

The concern now employs 13 persons, full time in its Midland plant and office and is using a large number of other persons on contract work in various counties of the region.

BITTEN BY INSECT

O. M. Wylie, 711 South I Street, was given emergency treatment at Western Clinic-Hospital Friday after he was bitten on the foot by an insect.

The sun gives out as much energy in one minute as mankind uses in a year.

GEOLOGIST WANTED

Established independent oil company requires Geologist with general knowledge and experience in petroleum engineering, leasing, reserve studies, contract analysis and negotiations. Must have college degree, minimum of eight years' experience in field and office work, and be qualified to direct leasing, exploration and development involving up to \$2,000,000 yearly. Permanent position, located in Shreveport, Louisiana. Replies will be treated confidentially.

Give complete relevant information in letter directed to P. O. Box 4157, Centenary Station, Shreveport, Louisiana.

The Oil Pusher

Keller & Peterson Open Shallow Pay For Chaves Field

HOBBS, N. M.—A new and shallow pay has been opened up in the Chisum field of Southeast-Central Chaves County.

Keller & Peterson of Midland (formerly McMillam & Peterson) No. 1-A State was completed from the San Andres at plugged back total depth of 2,056 feet.

No. 1-A State is 100 feet south of Honolulu Oil Corporation No. 1 State, Silurio-Devonian producer in the field.

Keller & Peterson completed their discovery from open hole at 2,023 to 2,056 feet after that interval had been shot with 142 quarts of nitrogen.

The well was potential for 62 barrels of oil on the pump.

V. G. Feather took a farmout from Honolulu to drill the well and turned it to Keller & Peterson keeping an interest.

Location is 1,880 feet from south and 1,980 feet from east lines of section 13-11s-27e.

Additional shows for production from the Fusselman in Skelly Oil Company, Seaboard Oil Company of Delaware and J. C. Maxwell, Inc., of Fort Worth, No. 1-J Mexico, wildcat and indicated discovery from the Clear Fork in Southeast Lea County, developed on a drillstem test from 8,629 to 8,633 feet.

Test tool was open three hours. Recovery was 1,980 feet of clean oil and 360 feet of oil and gas-cut mud.

Previously, on a drillstem test from 8,545 to 8,623 feet the project recovered 90 feet of oil and 360 feet of heavily oil and gas-cut mud.

The project is now at total depth of 8,725 feet where another drillstem test is being run.

No markers on the Fusselman have been released.

Location is 660 feet from south and east lines of section 32-24s-32e.

In Northwest - Central Eddy County Malco Refineries, Inc., staked location for a 3,500-foot upper Permian wildcat.

It will be drilled as the No. 1 W. M. Boyd and others, 660 feet from south and west lines of section 14-19s-25e.

Operations are to start at once.

One location south of the closest production in the Saunders field of Central-West Lea County, Amarda Petroleum Corporation will drill its No. 6-SB State as a Pennsylvania test to 10,000 feet.

Drillite is 1,980 feet from south and east lines of section 3-15s-33e.

Gulf Oil Corporation staked location for a 12,500-foot Devonian test at the east side of the Denton-multipay field of Central-East Lea County.

It will be dug as the concern's No. 2-G Lea-State, 660 feet from south and east lines of section 2-15s-37e.

Southern California Petroleum Company will drill its No. 1 Bettie H. Reid as a one-location southeast offset to its No. 1 Valley Land Company, assured Delaware sand discovery in Southeast Eddy County.

The new test will be 2,310 feet from south and east lines of section 7-24s-29e.

No. 1 Valley Land Company swabbed and flowed 50 barrels fluid, 30 per cent water and the rest oil during the last 24 hours test. Production is coming from perforations at 1,774-79 feet.

No. 1 Reid is contracted to drill to around 2,790 feet.

Estelle H. Yates No. 2 Lane-Permian, wildcat in Central-East Eddy County, has been plugged and abandoned on total depth of 1,899 feet in the Delaware.

No shows of oil were reported. Location was 1,920 feet from north and 2,000 feet from east lines of section 19-19s-30e.

R. E. McKee No. 1 McKee-State wildcat in Northeast Eddy County, has been plugged as a failure of total depth of 1,559 feet in an upper Permian sand.

Location was 660 feet from north and 1,980 feet from west lines of section 2-20s-29e.

Wadell Associated, Inc., No. Edwards, wildcat in the south side of the Maljamar-multipay field of Central-West Lea County, has been plugged and abandoned in the Drinkard at total depth of 630 feet.

Location was 660 feet from south and west lines of section 22-18s-32e.

Wilson Oil Company No. 1 Sunray-State, wildcat in South-Central Lea County, has been plugged as a failure on total depth of 3,550 feet in an unidentified formation.

The test had sulphur water at total depth.

Location was 4,620 feet from south and 1,980 feet from west lines of section 5-21s-34e.

George P. Livermore, Inc., No. David O. Bilberry, Southeast Roosevelt County wildcat, has been temporarily abandoned on total depth of 4,450 feet in lime, with no shows reported.

Location is 1,980 feet from south and 660 feet from west lines of section 1-7s-37e.

Seattle, built on seven hills between Lake Washington and Puget Sound, Wash., has 200 miles of waterfront.

Thompson Directs Successful Battle To Conserve Vast Texas Oil Deposits

AUSTIN —(AP)—Texas' ability to meet current vital demands for its oil is the direct result of a battle that has been the efforts of forward-thinking leaders to conserve the state's natural resources by supplying one-fourth the world's production.

Directing and fighting the conservationists' battle 19 years and four months of the way has been Ernest O. Thompson, a name known internationally as a petroleum authority.

Thompson, 59, is back on the job after a recent illness. He became ill at the World Petroleum Congress in Holland, where he was one of the nation's two official representatives.

The Texas war for conservation broke violently in August, 1931. It took martial law and a special session of the Texas Legislature to cope with operators engaged in an out-throat battle of frenzied production.

16 Cents Per Barrel

Oil flowed like water from a cloudburst with discovery of the big East Texas pool. The \$1.10 per barrel price prevailing at the out-set

plummeted to an unbelievable low—10 cents per barrel.

Into that furore, in June, 1932, came then-Amarillo-Mayor Ernest Thompson to fill a vacancy on the Railroad Commission by appointment of Gov. Ross Sterling.

New and far-reaching oil-regulatory weapons were granted the commission by the Legislature. With Thompson's backing, one of the powers became effective five months after he came to the commission. It authorized the commission to decide how much Texas oil would flow daily on the basis of a market demand formula.

That law still is the basis of determining Texas production. It requires oil operators to "nominate" their probable market outlet in advance of the commission order fixing production. Customarily, that's once a month.

Order Out Of Chaos

Railroad Commission orders began to stand up in court tests.

Order soon came out of chaos. The life of the East Texas pool and other Texas reservoirs was prolonged. Prices rose back to economic stability. Into the state treasury rolled tax dollars that otherwise would have been lost.

Important oil was saved for the then-unexpected international crisis ahead.

In succeeding years, Thompson continued to fight for stronger conservation, fought against federal control efforts, was a guiding organizer and many times chairman of the Interstate Oil Compact Commission, worked at finding and attracting new markets for Texas oil and gas, and fought wasteful flaring of gas produced incident to oil.

Vital Defense Material

Thompson's interest in petroleum is tied personally to military as well as civilian needs. As a lieutenant general, he is commander of Texas National Guard. He trained two regiments in World War II, and often was consulted on war oil problems. He was a machine gun battalion commander in the Argonne in World War I.

"Petroleum is our most vital defense material. We want to have an ample reserve supply for defense should war be forced upon us," Thompson said recently.

It also is Thompson's conviction that the "wheels of progress turn on oil and its products."

It is not difficult, therefore, to understand one of his greatest desires—"more oil for a free world."

Washington Oil Battle Over Gas-Heating Installations May Result In More Pipe For Industry

By JOSEPH HUTTLINGER

WASHINGTON—The battle over plans to curtail gas-heating installations east of the Mississippi River may coax forth more line pipe for the oil and gas industry.

Manly Fleischmann, head of the National Production Authority, alarmed by the gravity of the issue, now wants to channel more pipe to the gas industry, a change of mind.

To Capitol Hill, which has protested the forthcoming curtailment order, the Petroleum Administration for Defense explains the sooner pipe is available, the sooner the ban can be lifted.

The Gas Appliance Manufacturers Association, fighting the proposed order with a "let-the-states-do-it" slogan, is entering the scrap for more line pipe.

"Our work has only begun, and our strategy must be directed at impressing Congress, government bureaus and agencies and regulatory bodies that gas is essential," says H. Leigh Whitelaw, managing director, in a letter to members.

"Only then will the need for higher priorities and a larger allocation of line pipe be recognized so that pipe line projects under construction and others already authorized by the Federal Power Commission can be completed during the national emergency."

A substantial allocation of line pipe for gas lines in the fourth quarter of this year, perhaps the full 600,000 tons the industry seeks, is likely. For the current quarter, the prospects are the pipe mills will turn out only half the 878,000 tons the gas line industry needs.

More oil burner sales may be expected, says defense planners, who believe signs of a gas-to-oil shift will be seen very quickly.

Just come from A. P. Frame, assistant deputy administrator of the PAD.

"A lot of operators simply kited their requests (for oil country tubular goods) in the hope of securing for themselves a preferential position as regards some other operator," he said.

The PAD recently asked oil producers how much steel they needed. When the replies were added up, said Frame, they totaled 1,200,000 tons of steel, three times the amount available, three times the amount which had been used in the past. There would not have been the rigs, manpower or locations to mount them, he added, in a public speech.

The black market operator interested only "in making a fast buck" was one reason, but not the only one for the high figures, he said.

"One operator filed a request for 100,000 tons of tubular goods for the third quarter, almost one-third of the total available for all domestic operators, and then had the gall to say that it was impossible for them to state where it was going to be used until they were sure they could get it. P. S.—They didn't get it."

The PAD tried "to wring all the water" out of such requests, Frame said, and he wouldn't feel too badly if "some of the substance" was wrung out too.

Arthur R. Kuhl, for 10 years with the editorial staff of the St. Louis Star-Times, has joined the Petroleum Administration for Defense as assistant director of public information. He is a 1934 graduate of St. Louis University, where he was a member of the scholastic honor society, Alpha Sigma Nu.

A resolution of Representative Oren Harris (D-Ark) to recruit technicians to run Iran's oil properties if Iran asks, is credited today with prompting the British to remain in Iran.

They were all set to pull out two weeks ago, and using "military threat" towards Iran, according to the Arkansas, chairman of the House Commerce Oil subcommittee.

The deplorable fact is that the present crisis has been precipitated over the degree of profit which the British insist that they must have, Harris says.

"It is inconceivable that we have sat idly by during all this process. It is inconceivable that now we plan to help them out of the dilemma they have brought upon themselves by saying that we will supply them with the oil that they refuse to take from Iran."

On the voluntary program whereby American companies are trying to make up any British and European shortages, says Harris, America gives "an open invitation to the British to continue these steps which are placing in jeopardy an adequate supply of oil for a free world."

"On the contrary, we should announce immediately that we will not supply them with any oil from our own tight supply."

"It has been amazing to note that our State Department has been reported as having threatened that if the Abadan refinery was closed down owing to the pulling out of British technical personnel that we, too, would find ourselves unable to assist with any such personnel."

Kansas Flood—\$10,000 Cash Bail For Jailed Author Offered, Withdrawn

(Continued From Page One)

fleets of new cars from the plants in an effort to save them.

The newest break had the flood lapping at a temporary dike that protects the Kansas City, Kan., water plant. Engineers said they were sure the hastily-built earthen wall would save the water plant. Sandbag crews were standing guard.

New Fire Threat Looms

The threat of fire loomed in the Fairfax district. Stirrings of boxcars were being shifted by the flood. Engineers feared the cars might wash into the huge petroleum tanks of the Phillips Refinery and touch off a fire.

In another part of the city, four giant tanks—each containing 50,000 barrels of gasoline—had broken loose. Three were bobbing in 27 feet of water dangerously close to the bridge that connects the Argentine and Armondale districts.

J. M. Koonce, area manager of the Sinclair Company, said Navy boats are being sent from Chicago and will be used in an attempt to anchor the tanks—if the boats arrive in time.

Emergency Appropriation

President Truman, himself a resident of suburban Independence, asked Congress to rush an emergency appropriation of \$10,000,000 for flood relief in Kansas and Missouri.

Mr. Gen. Lewis A. Pick, chief of the Army Engineers, estimated damage from the flood would exceed \$500,000,000 and that 500,000 persons were displaced.

The President designated flood areas of Missouri and Kansas as disaster areas and put Housing Administrator Raymond M.oley in charge of administering federal aid.

A House Appropriations subcommittee in Washington quickly approved the grant, which will be submitted to the full committee Monday and to the House later that day.

Secretary of Agriculture Brannan took steps to ship unlimited surplus food supplies into the stricken areas. The flood still was bad in Kansas but the Kansas City area was farthest.

Citizens were instructed to boil all water. Typhoid immunization stations were set up.

The water supply in Kansas City, Mo., had diminished to a trickle in some areas. It was cut first by the flooding of the main Turkey Creek pumping station. The water supply was diminished further as firemen fought a blaze that devastated two square blocks in the flood area. Much of the fire-fighting water, however, was pumped from the flood itself.

Explosions Spread Fire

New explosions spread the fire 24 hours after a blast touched it off. Firemen said damage from the blaze might exceed \$1,000,000.

Ten firemen have been injured. The known death toll for the two states from the flood rose to 14 as a sailgazer drowned in the Missouri River flood water.

The crest from the Kansas River passed into the Missouri. But there was little relief immediately for upstream cities. Junction City, Kan., was the only exception. There the water had receded sufficiently for some people to return to their homes and start the job of cleaning up.

At Great Bend, Kas., the Arkansas River breached its dikes early Saturday, flooding 100 blocks, about a third of the city. Five hundred persons were evacuated.

All Travel Blocked

Other evacuations were ordered at Abilene, Kan., on the Smoky Hill River, and Glen Elder and Asherville on the same river.

At Junction City, General Pick predicted it would be two weeks before the Kansas River is back in its banks.

All cross-country travel by highway and train is blocked in Kansas. Coast-to-coast traffic can move through Omaha and Denver, or over the southern route via Memphis or New Orleans.

The huge terminal yards at the Kansas City Union Station, where normally around 150 trains arrive and depart daily, were silent Saturday. The tracks usually used by arriving and departing trains served as storage yards for locomotives—refugees from flooded roundhouses.

Kansas City's Municipal Airport was evacuated and through air traffic was using the Grandview Airport south of here.

In Kansas City, Kan., the heavily industrialized Armourdale district, site of three major packing plants and two soap factories, among other industries, is deep under water, as is the low-lying portion of the Argentine district. This is the location of the great transfer yards and shops of the Santa Fe Railroad.

Wichita Spared

Wichita, Kan., which had been warned to prepare for a devastating flood of the Little Arkansas River for two days, apparently was spared. River forecasters said driftwood upstream had clogged the stream sufficiently to slow down the torrent to the point where the river could handle it.

The situation was critical on other Kansas streams, including the Neosho, Marais Des Cygnes and smaller rivers.

Chanute and Iola on the Neosho were flooded badly.

A spokesman for the Army Engineers said this river would not be back in its banks before August.

Meanwhile, flood warnings were going up downstream on the Missouri River, and volunteers began the job of bolstering dikes which have just withstood two heavy floods. The situation was expected to remain critical all the way to St. Louis for some time.

Production of one ton of soda ash, important ingredient in the manufacture of glass, requires the use of 3,000 pounds of coal.

Lubbock Surgeon Reports 'Miracle' Heart Operation

LUBBOCK —(AP)—Dr. J. A. Finer, an osteopathic surgeon, Saturday night reported an operation in which a young German war bride's heart was massaged back to life eight minutes after it had stopped.

The doctor said she had about a 30 per cent chance to recover. The patient is Mrs. Felipe Venegas, 24, former Munich, Germany, girl who has been in the United States three years.

These details were given: The woman's heart stopped as she was being operated on for a tubular pregnancy rupture. Finer made an incision.

"It was just like a miracle," he said. "I squeezed the heart in my hand and pretty soon I could feel a slight pressure responding from it. The pressure grew stronger and eight minutes after the heart had stopped, it started beating again, and the woman started breathing."

Three other doctors—L. J. Lauf, B. J. Souders, and Richard M. Mayer—all members of an osteopathic hospital here—witnessed the operation. They called it "miraculous."

DIPLOMATS SUSPENDED—O. Edward Clubb, right, director of the State Department's Office of Chinese Affairs, has been suspended while being investigated on security charges. Another top expert on China, John Patton Davies, Jr., of the policy planning staff, left, also has been suspended. the raging waters.

Washington Oil Battle Over Gas-Heating Installations May Result In More Pipe For Industry

WASHINGTON—The battle over plans to curtail gas-heating installations east of the Mississippi River may coax forth more line pipe for the oil and gas industry.

Manly Fleischmann, head of the National Production Authority, alarmed by the gravity of the issue, now wants to channel more pipe to the gas industry, a change of mind.

To Capitol Hill, which has protested the forthcoming curtailment order, the Petroleum Administration for Defense explains the sooner pipe is available, the sooner the ban can be lifted.

The Gas Appliance Manufacturers Association, fighting the proposed order with a "let-the-states-do-it" slogan, is entering the scrap for more line pipe.

"Our work has only begun, and our strategy must be directed at impressing Congress, government bureaus and agencies and regulatory bodies that gas is essential," says H. Leigh Whitelaw, managing director, in a letter to members.

"Only then will the need for higher priorities and a larger allocation of line pipe be recognized so that pipe line projects under construction and others already authorized by the Federal Power Commission can be completed during the national emergency."

A substantial allocation of line pipe for gas lines in the fourth quarter of this year, perhaps the full 600,000 tons the industry seeks, is likely. For the current quarter, the prospects are the pipe mills will turn out only half the 878,000 tons the gas line industry needs.

More oil burner sales may be expected, says defense planners, who believe signs of a gas-to-oil shift will be seen very quickly.

Names Tacked On West Texas Pools

The Railroad Commission of Texas has named four more new oil fields in West Texas.

The new field opened in Dawson County of District 8 by Amerada Petroleum Corporation No. 1 D. L. Adcock has been named Adcock-Siluro Devonian.

Also in Dawson County is the new Snowden-Sprabery field discovered by James H. Snowden and Associates No. 1-30 Carrie S. Dean. Parochial-Bade Queens Sand is a new field in Sterling County operated by Parochial Petroleum Company No. 1 Bade.

In District 7-C the rail board named the pool opened by Continental Oil Company No. 1-A J. M. Shannon the Klhorn-Ellenburger field. It is in Crockett County.

Two Men Jailed, Marihuana Seized

LAREDO —(AP)—Two men were arrested and 25 pounds of refined marihuana worth about \$100,000 at retail in the East were seized near Laredo, U. S. Commissioner Frank Y. Hill said Saturday.

The marihuana was under the running gear of the car seized by U. S. customs agents six miles north of here on U. S. Highway 81.

George Hudanich of the New York City was arrested with the car. Benny Amesaquita of New York City was arrested as he stepped from a bus at San Antonio. Federal agents said the men crossed the border together.

Hudanich was jailed here. Amesaquita will be returned from San Antonio.

Armistice—

(Continued From Page One)

jeep "to see the road we have been flying over." The jeep trip also would enable them to see to what extent the Communists had carried out their agreement to neutralize the Kaesong area and the road leading to the conference city.

Also in the admiral's jeep was Col. James C. Murray, one of the preliminary negotiators and now a staff adviser.

General Ridgway had demanded the removal of armed guards from Kaesong, establishment of a neutral zone and the inclusion of Allied correspondents in the personnel accompanying the United Nations delegation.

Official Copy Delivered

An official copy of the Communist reply to Ridgway's message was delivered Sunday morning by two North Korean officers to an Allied liaison officer near Parallel 38.

This cleared the way for the third meeting of United Nations and Communist negotiators.

The message, asking for consultation on other points, but terming all the Allied demands "side questions," already had been broadcast Saturday night and Sunday morning by the Pyongyang and Paeping radios.

Two North Korean officers delivered the official reply to U. S. Col. Andrew J. Kinney at Pan Mun Jon, six miles east of Kaesong. The message was written in Korean and Chinese.

The Korean Red officers translated it for Kinney.

Wave Of Optimism

The armistice talks began Tuesday but were suspended by the Allies Thursday after Red armed guards stopped an Allied truck convoy because it contained 20 news correspondents.

The Red reply to Ridgway labeled the correspondent issue "trifling."

A wave of optimism swept through the Allied "peace" camp at Mun-san.

This marked one of few times the Reds have acceded so fully to United Nations demands. It was viewed in Seoul as indicating the Reds might be interested sincerely in ending the war, now in its fifty-sixth week.

The Red reply was signed by Kim Il Sung, supreme commander of the North Korean Army, and Peng Teh-Hual, commander of Chinese Reds in Korea.

They agreed to clear armed guards from Kaesong and also "from the routes through which your delegation and ours travel to the area of the meeting place."

Correspondents would be permitted to visit Kaesong but would not be admitted to the residence where the talks have been held.

Thursday, after the 20 newsmen were turned back by armed Reds, Vice Adm. C. Turner Joy, chief Allied delegate, notified North Korean Gen. Nam Il, chief Red delegate, that the Allied team was prepared to resume the talks if the correspondents were passed.

Britain Not Surprised

About the time General Nam rejected the proposal, Ridgway issued his neutrality demands, which made the correspondents only one of the issues.

Ridgway's demands, while including the press question, emphasized views in Seoul as indicating the Reds might be interested sincerely in ending the war, now in its fifty-sixth week.

They agreed to clear armed guards from Kaesong and also "from the routes through which your delegation and ours travel to the area of the meeting place."

Correspondents would be permitted to visit Kaesong but would not be admitted to the residence where the talks have been held.

Thursday, after the 20 newsmen were turned back by armed Reds, Vice Adm. C. Turner Joy, chief Allied delegate, notified North Korean Gen. Nam Il, chief Red delegate, that the Allied team was prepared to resume the talks if the correspondents were passed.

Britain Not Surprised

About the time General Nam rejected the proposal, Ridgway issued his neutrality demands, which made the correspondents only one of the issues.

Ridgway's demands, while including the press question, emphasized views in Seoul as indicating the Reds might be interested sincerely in ending the war, now in its fifty-sixth week.

The Red reply was signed by Kim Il Sung, supreme commander of the North Korean Army, and Peng Teh-Hual, commander of Chinese Reds in Korea.

George Of Georgia Sees No Chance For National Sales Tax

WASHINGTON (AP)—Chairman George (D-Ga) Saturday said the Senate Finance Committee probably will reject proposals to impose a national sales tax.

George also said he doesn't like a provision of the \$7,300,000,000 House-passed tax increase bill which would boost individual income taxes a flat 1 1/2 per cent.

The Georgia senator made it clear he believes individual taxes will have to be increased, but he said he hopes to work out some formula other than the one approved by the House last month.

The Finance Committee is conducting hearings on the House measure and the Administration's request for a larger tax increase, totaling \$10,000,000,000.

Besides boosting individual income taxes \$2,847,000,000 the House bill would hike corporation income and excess profits levies \$2,855,000,000 and excise taxes \$1,253,000,000. Miscellaneous changes in the revenue laws would raise an additional \$948,000,000.

Business groups, including the National Association of Manufacturers (NAM), have urged a bill which would raise most or all of needed defense revenue through a national sales tax.

George has said he believes the pending tax bill will be the last enacted during the current defense build-up unless there is a world war.

He said, however, that if there were a world conflict, it probably would be necessary for Congress "to consider a sales tax or some tax of that character." He said that to increase conventional taxes enough to meet the need under those circumstances would "run the rates through the ceiling."

WASHINGTON (AP)—How Texas members of Congress were recorded as voting on recent roll calls:

House: On motion to send Labor-Federal Security Agency Appropriation bill back to Senate—House Conference Committee with instructions to insist on Jensen (R-Iowa) amendment which would prohibit filling of more than 25 per cent of job vacancies occurring in year ending June 30, 1953; adopted 225 to 170; Wilson, Pickett, Lucas, Regan, Burleson, Rogers and Fisher, for the motion; Patman, Combs, Beckwith, Teague, Thomas, Thompson, Thornberry, Poage, Lyle, Bentsen, Mahon and Kilday, against; Gossett, not voting.

Citation's Pursues Hit Million Mark

INGLEWOOD, CALIF. (AP)—Proud Citation reached his golden goal of \$1,000,000 Saturday with a magnificent triumph in the \$100,000 Hollywood Gold Cup Handicap.

Citation's stablemate, Bewitch, finished second to become the biggest money winning mare in history. The win sent Citation's earnings to \$1,085,780.

The six-year-old champion of champions thus became the first horse millionaire in the history of the turf, and finally realized a dream of his late owner and master of the Calumet Farm stable, Warren Wright.

Third was Andrew Crevelin's Be Fleet, beaten out of second by Bewitch by a nose in a photo finish. Bewitch collected \$20,000 and boosted her lifetime earnings to \$462,905.

Citation, with Bewitch and All Blue the odds-on favorite, returned \$2.70, \$2.40 and \$2.10 across the board; Bewitch \$2.40 and \$2.10, and Be Fleet 4.10.

WILLIAMSPORT, PA. (AP)—The Little League World Series will be played here the week of August 21, with teams from throughout the United States participating.

Before the series here, state and district tournaments will be held. Midland, Texas, gets a district tournament, but the date is undetermined. Before the Midland meet, four subordinate tourneys — at Abilene, San Angelo, Odessa and El Paso — will be played. The winner of each meet will play in Midland. Midland will play in the San Angelo tournament to see if it earns a berth in its own meet.

Boys will be an all-star group selected from teams in each city. Winner of the Midland play will go to Houston August 13 through 18 for the state playoff, and the winner comes here — the highest honor a Little League team can win.

Lewis Williams, league secretary, will be director of the Midland meet.

The quick-growing banana plant produces its fruit within 15 months after the root-stock is planted.

ESCOBAR SMACKS FOUR-BAGGER—

Indians Defeat Rockets 10-2; Blumenthal Wins

A screaming, blue-darter double by Eddie Melillo put the Midland Indians in front of the Roswell Rockets and a home run and a two-run single by Rudy Escobar kept them there Saturday night as the Indians took a 10-2 game from their tormentors who had defeated them four straight times.

Bruce (Gabby) Blumenthal went the distance to get the win, turning in one of the most impressive Redskin mound performances of the year. Blumenthal had near-perfect control, allowing but one walk. And he was double tough with men on base.

Al Monchak, Rocket head man, was bounced by Umpire Sikes in the Midland sixth, after protesting a play at third base. Reluctant Al attempted to return to the field in the eighth frame and had to be escorted from the field by Officer Bill Keel.

The Indians, behind 2-1 after Monchak had homered over the left field wall in the fourth with the bases unoccupied, came unhooked for four runs in the sixth. It started when Rudy Escobar walked and stole second, scoring on a hit by Hayden White. Zeke Bonura then laced a single, with White taking third at the waving command of Base Coach J. B. Gibbs, who had the Indians running. Melillo then stepped in and lined a sharp double to the center field wall, with White scoring. Bonura, huffing and puffing like a steamboat, was waved around third by Gibbs, staggered into the Rocket catcher and scored as the throw-in bounced off the ground high into the air.

The rest was an anti-climax, although Escobar homered for the fourth time this year over the right-center field fence in the seventh to lead off the inning, and singled to right to score a pair of runs in the four-run eighth.

The Rockets tried to rally with a walk and an error in the last inning, but Blumenthal disposed of them in fine style. Only one of the tallies off him was earned.

MORRIS WILLIAMS WINS AT C GOLF TOURNAMENT

SAN ANTONIO (AP)—Morris Williams, Jr., of James Connally Air Force Base fired a 70 Saturday to win the Air Training Command Golf Tournament with a 72-hole total of 294.

Capt. Fred Mosely, San Antonio, was second with a 296.

New York state's orchards and vineyards rank third in the nation and cover 280,000 acres.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JULY 15, 1951—9

UCLA Entry Wins Public Links Title

MILWAUKEE (AP)—Dave Stanley, 20-year-old UCLA junior, defeated Ralph Vranesic of Denver on the thirty-eighth hole Saturday to win the twenty-sixth National Public Links championship.

Vranesic, five down at the end of 27 holes, clipped a stroke off par to square the match in the stretch drive, dropping a six-footer on the thirty-sixth to send it into extra holes.

They halved the thirty-seventh in five, one over par, as Stanley muffed an 18-inch putt, but Vranesic ran into trouble on the thirty-eighth and Stanley's par four was good.

On his stretch drive, 25-year-old Vranesic was red-hot on the greens as he ran down putts of 20, 40, 25 and six feet for wins—two with birdies—to square the match after taking the twenty-eighth with a par.

Crane Wins Way Into Softball Finals 8-0

CRANE—Red Johnson allowed but two hits in pitching the Crane Gulf Oilers to an 8-0 victory over Odessa's Tennessee Milk team here Saturday night.

The win gave Crane the Shaugnessy playoff by a 2-0 margin and sends it against McCamey for the Permian Basin Softball League crown.

Guy Weeks led Crane at the plate with four for four, including a triple.

Crane and McCamey meet Wednesday night in McCamey, then shift here Thursday night. If a third game is necessary, a site will be determined after the first two games are played.

Indians, Dusters To Meet Sunday

Midland and Vernon square off in a baseball game at 3 p.m. Sunday. Manager Bonura has named Eddie Jacome to pitch for Midland.

Japan entered Davis Cup competition for the first time in 1921 and defeated Australia 4-1 in the Final Round, but lost to the United States in the Challenge Round, 5-0.

Walcott Gets Third Crack At Charles Wednesday Night

PITTSBURGH—Jersey Joe Walcott, Cinderella man of the ring who says he's still hungry, gets another chance at a meal ticket when he meets Essard Charles for the heavyweight crown Wednesday night (8 p.m. CST) at Forbes Field.

It will be the 37-year-old Walcott's fifth crack at the title and his third against Charles. Walcott twice lost to Joe Louis.

Charles, just 30, will be making his ninth defense in slightly more than two years.

Athletics Triumph Over Browns 10-6

ST. LOUIS (AP)—The Philadelphia Athletics combined 11 hits and 13 walks for a 10 to 6 triumph over the St. Louis Browns Saturday with Dave Philley leading the A's attack.

Philley drove in four runs on two hits, one of them a double.

Three Browns—Sherman Lollar, Dale Long and Jim Delasing—hit home runs as the Browns tried to get back in the game.

Jim Suhecki and Morris Martin pitched hitless ball until the fifth, when the A's broke loose for four runs.

The score: Philadelphia . . . 000 043 300—10 11 0
 St. Louis . . . 000 023 010—6 13 1
 Martin, J. Coleman and Tipton; Suhecki, Hogue, Starr and Lollar.

Coaches Named For Sooner Oil Bowl

WICHITA FALLS (AP)—Two of Oklahoma's top high school coaches accepted bids Saturday to coach the Sooner All-Stars in the Oil Bowl here August 24.

They are Paul Young of Muskogee, who won the Class A title last fall, and Alton Kelly of Sayre, winner of Class B.

Joe Golding of Wichita Falls and Johnny Kitchen of Austin will coach the Texans in this Shrine Charity game.

Indians Buy E. Nelson, Rudy Lorano

The purchase of two pitchers—Ernie Nelson and Rudy Lorano—was announced Saturday by Zeke Bonura, manager of the Midland Indians.

Bonura said Nelson's contract had been purchased from Vernon, while Lorano was obtained from Artesia. No price was disclosed on either pitcher.

Nelson is not new to Midland fans. He pitched here in 1947, 1948, 1949 and part of the 1950 season before buying his contract from the Indians.

Ernie Nelson and signing with Vernon. He has not been active this year, devoting his time to a cigarette vending business here.

"I'm in pretty good shape, although I haven't played any this season," Nelson said Saturday, "and I expect to report to the Indians Sunday." The veteran southpaw won 21 games and lost nine last season. One of his efforts was a 3-0 no-hit job against Vernon, shortly before he left the Midland team.

Lorano, a limited service pitcher, performed with Artesia early in the year but had a salary squabble with officials of the ball club and quit the team. He since has been working in Abilene. Bonura said he didn't know when Lorano would report, but said "it should be within a few days."

Lorano also has a no-hitter to his credit. He ended a record-breaking string of 19 consecutive victories by San Angelo this season with a 2-0 hitless affair.

1951 Crane Grid Schedule Announced

CRANE — The football schedule for the 1951 football season has been released by Brady Nix, principal. All games are to be played at 8 p.m., unless otherwise noted.

- The schedule:
- September 14—Crane at Jal. N. M.
 - September 21—Brady at Crane.
 - September 28—Andrews at Crane.
 - October 5—Wink at Crane.
 - October 12—Crane at Big Lake.
 - October 19—McCamey at Crane.
 - October 26—Crane at Iraan.
 - November 2—Crane at Alpine (7:30 p.m.).
 - November 10—Marfa at Crane (2 p.m.).
 - November 16—Crane at Fort Stockton (2 p.m.).
- The title with Wink, Big Lake, McCamey, Iraan, Alpine, Marfa and Fort Stockton are conference games. Ted Kirby is head mentor of the Golden Cranes, with Dan Anderog assistant.

Monchak's Nine Trips Tribe 9-4

Al Monchak's Roswell Rockets moved into Indian Park Friday night and picked up where they left off in Roswell, defeating the Indians 9-4. It was the fourth straight win for the Rockets over Zeke Bonura's Tribe.

Dave McKenzie started for the Indians and blanked the winners the first three innings, but the Rockets banged him for three runs in the fourth, two in the fifth and three in the sixth before Lew Ballard relieved.

Ballard pitched good ball in his relief stint, giving up but two hits and striking out four. He also got

Longhorn League—

Things in Longhorn Circuit Going Along According To Form

By The Associated Press
Things are going according to form in the Longhorn League. First division clubs won, second division clubs lost Friday night in the Class C circuit.

As a result there were no changes in the standings, although the Vernon Dusters lost ground in their three-way battle for third place. The Dusters are two full games out of fourth place.

The games were pitchers' duels for the most part with one run deciding three of the four contests. Vernon lost a 3-2 decision to Big Spring to lose ground to Roswell and Odessa, third and fourth place clubs.

Odessa edged Artesia 4-3 while Roswell won by the largest margin of the night, taking a 9-4 victory over Midland. San Angelo nipped Sweetwater 3-2 to round out the night.

Fourth in Row
The defeat at the hands of Roswell was the fourth in a row for Midland to drop to the Rockets. It also was the eleventh loss in 13 games for the Indians.

Manager Pepper Martin was the hero of the Odessa victory. His home run with a mate aboard in the eighth inning broke up the ball game.

Big Spring came from behind to win. The Broncos scored two runs in the last of the ninth inning to nip Vernon. Manny Junco doubled the two runs across.

San Angelo and Sweetwater got their scoring over early then settled down to scoreless baseball. The Colts pushed across the winning run in the fifth inning. The Swatters got both their runs in the fourth.

Artesia 100 000 200-3 9 5
Odessa 010 000 12x-4 8 2
Kimball and Perez; Ortega and Castro.

Vernon 000 101 000-2 10 0

King's Row

By LARRY KING

Manager Zeke Bonura entered the clubhouse, took off his hat and mopped his partially bald head Friday night after Midland lost to Roswell 9-5 and said:

"That's the way it's gone the last 10 days on the road trip. No pitching. We can't win without it."

"I thought we had it for awhile tonight," Zeke said. "McKenzie looked like he had his stuff, but they (Roswell) got to him."

"I've seen the same thing happen for 10 days," he repeated. "They knock us out of the game before it's started good."

"We got the idea Zeke was about ready to throw in the towel—but he quickly assured us he wasn't."

"My pitchers are just in a slump," he said. "You know how hitters get in a slump and can't hit the ball? My whole pitching staff's like that now. They can't get the ball over, or when they do it's knocked all over the park."

"That tires our outfielder too," he said with a sweep of his brawny arms.

"But I have confidence they'll shake out of the slump," continued Zeke, "and when that happens maybe our hitting will go along with it. It takes coordination of the two to win ball games."

Zeke felt that with Ernie Nelson and Rudy Lorano coming to the staff, perhaps it will inject new life into it and win some games for the Indians.

"That's about all I can say for tonight," Zeke said. "I put him in against Artesia and Roswell before and he had a tough time. But tonight he looked good. I'll give him another chance to start Monday."

"There's no doubt we've been in a slump," Zeke said, going back to the subject that has been his main worry.

"Jacome seems to be tired, after all the pitching he's done, and they've been hitting everything he throws up there. Reed's getting hit, too. McKenzie is having his troubles and before tonight Ballard couldn't find the plate."

"Blumenthal pitched the only good game we had on the road trip," Zeke said. "And, we couldn't get any runs and lost to San Angelo 2 to 1."

"But then he wasn't effective at Artesia, although he won." Midland capped that game 10-8.

"Still," Zeke said, "you can tell the fans I have confidence my pitchers are going to shake out of their slump and win some ball games."

"That will be welcome news to Midland fans. The team is going to have to start coming through

if it has any hopes of being in the first division.

Right now, the Indians must win 23 straight games to be playing one game over 200 baseball—and no team in the first division has a percentage that low.

Which means it's going to be a long hard row, but with luck, hustle, pitching and timely hitting, perhaps they can make it.

—KR—
DOTS AND DASHES: Ben Peeler, the Odessa sports scribe who dotes on predicting, already is calling the Texas A&M-Oklahoma U game slated for October the "battle for the National Championship."

Hear the fishing is good at Lake Colorado... Also not too bad at Lake Sweetwater... The Midland Indians stole an incredible 98 bases, to lead the league... They also lead in double plays... But are last in fielding and batting, according to official releases... J. W. Thompson, the ex-Odessa all-state grizzer and a performer of note for Texas Tech for four years, now is in the Army... He's wearing second lieutenant's bars at Sheppard Air Force Base, Wichita Falls... Jimmy Chauncey, ex-MHS athlete now is home from his Air Force base in San Antonio for a few days... Stu Williams, former Ballinger player in the Longhorn League, made the Gulf Coast all-star team... And Jess Priest, Albuquerque hurler, made the West Texas-New Mexico select group... Priest once hurled for Sweetwater in the Longhorn loop... Some fans said the Roswell pitcher was throwing spit balls in the game against Midland Friday night, but if so we didn't catch it... Neither did Zeke Bonura, or he'd have raised a rumpus about it... Hayden White has smacked 14 home runs, not 13 as we said in this column a few days ago... SPCA reports it still has some dogs that would make nice pets for children... Jim O'Neal, named to play in the Permian Bowl football game, recently underwent an appendectomy, but hopes to be okay by August 17... End of the Row for now.

Sports Figures To Be Dime A Dozen At Permian Bowl

ODESSA—Sports figures will be a dime a dozen when the Permian Bowl football game is unveiled here August 17.

The top senior football players in West Texas will be present, with a smattering of well-known coaches.

Mentors for the game include Ed Price, University of Texas; Jess Neely, Rice; Pete Sikes, San Angelo; Harold King, Coleman; Pat Pattison, Lubbock; and Neal Dillman, Kermit. In addition, a \$7,500 pro-am golf tournament will be held here the same week.

Midland will have four players in the Permian Bowl contest, performing for the west. They are Jimmy O'Neal, center, Reed Gilmore, back, Duane Bush, end, and Bob Wood, tackle.

Tickets for the game now are on sale at 219 1/2 West Third Street in Odessa, or may be ordered by mail. Mail requests should be accompanied by a check or money order, payable to the Permian Bowl, and mailed to post office box 2567. Choice seats are \$1.80 each, with other tickets going at \$1.50. No general admission or student tickets will go on sale until the day of the game.

ODESSAN IN HOSPITAL
Joylyn Whiteley of Odessa, was admitted to Western Clinic-Hospital Friday for surgery.

Thirty-nine per cent of Idaho's area is forest land.

GOLF TRANSPORTATION—Trained burros caddy at Las Vegas, Nev. They're available for the catching in nearby mountains. The only cost is feeding. And what and who wouldn't follow Joy Walker around? A motor-driven cart carries a foursome and two caddies at Milwaukee's Blue Mound Country Club. Owner Frank Hoy is driving, left to right in the front seat, Fred Six, Tom Brickley and Fred Oeffeln, president of the club. (NEA)

Sports Figures To Be Dime A Dozen At Permian Bowl

ODESSA—Sports figures will be a dime a dozen when the Permian Bowl football game is unveiled here August 17.

The top senior football players in West Texas will be present, with a smattering of well-known coaches.

Mentors for the game include Ed Price, University of Texas; Jess Neely, Rice; Pete Sikes, San Angelo; Harold King, Coleman; Pat Pattison, Lubbock; and Neal Dillman, Kermit. In addition, a \$7,500 pro-am golf tournament will be held here the same week.

Midland will have four players in the Permian Bowl contest, performing for the west. They are Jimmy O'Neal, center, Reed Gilmore, back, Duane Bush, end, and Bob Wood, tackle.

Tickets for the game now are on sale at 219 1/2 West Third Street in Odessa, or may be ordered by mail. Mail requests should be accompanied by a check or money order, payable to the Permian Bowl, and mailed to post office box 2567. Choice seats are \$1.80 each, with other tickets going at \$1.50. No general admission or student tickets will go on sale until the day of the game.

ODESSAN IN HOSPITAL
Joylyn Whiteley of Odessa, was admitted to Western Clinic-Hospital Friday for surgery.

Thirty-nine per cent of Idaho's area is forest land.

Standard Wins Playoff Tilt

Standard of Texas won a berth in the City Major softball finals Friday night, defeating Rotary Engineering Company 6-3 at Wadley Park. The win gave Standard a 2-1 split in the series playoff.

Standard now will meet Western Plastic in a best-three-out-of-five series beginning at 8:15 p.m. Monday.

The series—if it goes the limit—will run through Friday night. The Plastics, regular season winners, swept two games from Shell Oil earlier in the week to advance to the playoff finals.

Milt Montgomery allowed eight in hurling the win, defeating Jerry Matajek who also allowed eight hits. The loss was Matajek's fifth as against 12 wins, and he ended the season as the loop's top hurler in games won and lost.

A five run outburst in the second inning sent Standard well on the way. The big blow was a double by Bodie Neal, which sent two runs across the plate.

The score: R H E
Standard 050 060 1-6 8 14
Rotary 001 003 0-3 8 3
Montgomery and Davis; Matajek and Hillard.

HOSPITALIZED FRIDAY
Rhea Paschal was admitted to Midland Memorial Hospital for medical treatment Friday.

MR. THUMP—Here are the eyes, tremendous hands, grip and finish of the swing that threaten to make Gil Hodges the major leagues' new home-run king. The Dodgers' big first baseman has all the best of it playing half his games in the home-run factory, that is Ebbets Field, (NEA)

Sports

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JULY 15, 1951—11

Snead And Fazio Tie For First Place In Meel's Third Round

DAVENPORT, IOWA —(P)— Sam Snead, defending champion, and George Fazio, Pine Valley, N. J., battled to a 292 first-place tie Saturday to lead the Western Open Golf Tournament through the third round.

Slamming Sam came home with a 65, five under par for the Davenport Country Club course.

Fazio, who opened the tournament with a record-breaking 63, shot a 34-33-67.

Lloyd Mangrum of Niles, Ill., fired a 66 for a 203 figure and third.

Cary Middlecott, Memphis, Tenn., blasted out a 64 for the best round of the day. He landed in a fourth place tie with Marty Furgol of Le-mont, Ill., and Johnny Palmer of Badin, N. C., at 205.

Chuck Klein, San Antonio, got a 68 and Doug Ford, 28-year-old Harrison, N. Y., entrant, had 70 to deadlock at 206 in seventh place.

Chick Harbert of Detroit and Ed Furgol of Royal Oak, Mich., were tied for ninth at 208.

Fred Hawkins, El Paso, Texas, had a 70 Saturday for a total of 213.

Cubs Snare Double Bill From Bums

BROOKLYN —(P)— The big bats of Hank Sauer, Randy Jackson and Bruce Edwards ended Chicago's victory famine at eight games Saturday as the Cubs bounced Brooklyn's league-leading Dodgers 5 to 4 and 11 to 7 in a double-header.

Brooklyn's eight-game winning streak was snapped as Sauer smashed across four runs on a double and two home runs.

Jackson and Edwards knocked in nine of Chicago's runs in the night-cap, with Jackson accounting for five.

While the respective eight-game winning and losing streak were halted, Frankie Frisch's string of being chased from the field was extended to three straight days. The Cubs' manager was tossed out in the fourth inning of the opener after arguing with Umpire Lee Bal-lanfant.

Breaks Up Tie

Sauer broke up a 3-3 tie in the seventh inning of the first game with a two-run homer. It was his second home run of the game and thirteenth of the season. It gave Turk Lown, former Brooklyn farm-hand, his second victory.

In the second game, the Cubs pounded Dan Bankhead for five runs in the first inning. Two came on Bruce Edwards' fourth homer of the season, a two-run shot into the left field with Jackson aboard.

The twin losses, coupled with St. Louis' win over New York, cut Brooklyn's lead to nine games over the Cardinals. Kelly was credited with his first victory. Bankhead suffered his first loss.

First game:

R. H. E.
Chicago 101 100 200-5 11 1
Brooklyn 090 000 010-4 6 0
Lown, Leonard and B. Edwards; Erskine, Podbielniak and Campanella.

Second game:

R. H. E.
Chicago 503 010 002-11 12 2
Brooklyn 200 001 040-7 12 1
Kelly, Minner, Klippstein and B. Edwards, Owen; Bankhead, Haug-stad, Falica and Walker, Campanella.

Ken Raffensberger Blanks Braves 5-0

BOSTON —(P)— Veteran left-hander Ken Raffensberger of Cincinnati blanked Boston with six hits Saturday 5-0, while his mates socked out 12 safeties to make it two straight Red shutouts over the Braves.

The 34-year-old Raffensberger struck out six—including Sam Jeth-ro four times—and walked one. It was his ninth victory of the year against nine losses.

Cincinnati's solid offensive was led by Johnny Wyrostek, who belted a double and two singles. Johnny Sain, who suffered his tenth loss against but four wins this season, gave up 10 hits, including Joe Ad-cock's eighth home run.

The score:

R. H. E.
Cincinnati 001 022 000-5 12 0
Boston 000 000 000-0 6 0
Raffensberger and Howell; Sain, Cole, Paine and Cooper.

Palestinian Captures Brooklyn Handicap

NEW YORK —(P)—Palestinian, a fragile five-year-old from the stable of Isaac Bieter, sneaked through a tight hole along the rail, a sixteenth of a mile from home Saturday and captured the \$57,100 Brooklyn Handicap at Aqueduct Race Course.

Sheilas Reward, owned by Mrs. Louis Lazare, finished second. Third was the Rokeby Stable's County De-light.

Palestinian stepped the route in a good 2:03 2/5 on a fast track. His backers picked up \$9.50, \$4.80 and \$3.40 for \$2. Sheilas reward kicked back \$13.20 and \$7.40 to place, and County Delight paid \$4.40 to show.

Britain Sends Four Warships Into Area Of Spat With Egypt

LONDON —(P)—Britain is sending four destroyers from the Mediterranean into the Red Sea, where Egyptians dared humble the Union Jack a fortnight ago.

The warships will pass through British-guarded Egyptian territory, via the Suez Canal.

The Admiralty order follows an indignant British protest over the stopping and search of the small freighter Empire Roach in the Red Sea by an Egyptian corvette July 1.

After protesting to the Egyptian ambassador, Foreign Minister Herbert Morrison told Commons last week he was asking the Admiralty to send warships to protect British shipping at sea.

The Empire Roach was bound for the Jordan port of Aqaba with supplies for the British-supported Jordan Arab Legion. Her captain said the armed corvette crew looted the ship's stores, smashed the radio, and kept the freighter's crew below decks for 13 hours. The Empire Roach now is at Adabia, near Port Suez, Egypt, reloading for another voyage to Jordan.

Blockade Against Israel

Egypt otherwise has stopped only ships entering the Suez Canal from the Red Sea on the ground they might be carrying war supplies to Israeli ports on the Eastern Mediterranean.

The Suez stoppage has led to reduced output of the oil refinery at Haifa, Israel, and to a complaint from Israel asking the United Nations Security Council in New York to take action toward breaking the Egyptian canal blockade. The council is expected to meet in mid-week.

Besides their smouldering enmity for Israel, the Egyptians again are at lively odds with Britain. Egypt demands removal of British troops from Suez Canal guard duty and an end to British partnership in the rule over the Anglo-Egyptian Sudan. Egypt wants to absorb the Sudan under the crown of King Farouk.

Both the Suez and Sudan questions are covered by the 20-year mutual defense pact Britain and Egypt signed in 1936. Egypt now threatens to denounce the treaty.

Satchel Paige To Follow Bill Veck To St. Louis Club

ST. LOUIS —(P)—Ol' Leroy (Satchel) Paige will follow Bill Veck to the St. Louis Browns.

The club announced Saturday that the negro hurler will report Monday to sign a contract. He has been pitching for the Chicago Giants, a negro club.

Paige broke into major league ball under Veck when the Browns' new owner controlled the Cleveland Indians.

Despite his year he hurled six victories against one defeat for the Indians in 1948.

Solon Seeks Way To Cut Off Flood Of Red Propaganda

WASHINGTON —(P)—Russia and other Iron Curtain areas are using the United States mails to flood this country with Communist propa-ganda, Senator O'Connor (D-Md) said Saturday.

Hoping to find some way to halt this, O'Connor said he is consulting with postal officials, customs au-thorities and the Department of Justice.

O'Connor is chairman of one of the "task forces" under the Internal Security subcommittee, set up by Chairman McCarran (D-Nev) of the Senate Judiciary Committee.

Most of the incoming material is prepared in foreign languages "in the form of bulletins, newspapers and magazines which are cunningly designed to appeal principally to our citizens whose ancestry is traceable to one of the countries which has been taken over by the Communists," the senator said.

O'Connor called it a "real threat to the continued loyalty of many first- and second-generation citizens."

Postal officials said they now have authority to ban four classes of mail: obscene, indecent, profane, or promoting a lottery.

O'Connor said he is having existing laws reviewed to see what is needed to stop the Communist propaganda, saying:

"Surely the United States government is not helpless to deny the use of the United States mail service to the Kremlin's propaganda agents."

BLUM WINS SOUTHERN COLUMBUS, GA.

—(P)— Arnold Blum, Macon, Ga., calmed an erratic game Saturday to beat 18-year-old Eddie Merrins 3 and 2 and win the Southern Amateur Golf Tournament.

The first minor league player to hit four home runs in one game was Billy Bottoms, Springfield, Eastern League (now the International League) in 1951.

Roswell's Cearley Zooms To Front Of Batting Class

ABILENE—Roswell's Bill Cearley took the lead from Pat Stacey in Longhorn League batting last week, compiling a .394 mark.

San Angelo's John Tayoan has banged out the most base hits, 121. Ken Cluley of Artesia went in front with doubles, with 25, while Warren Sitter, of Sweetwater leads in triples with nine. Wayne Wallace, San An-gelo's big first sacker, has smashed 21 home runs for the loop lead. Ros-well's Cearley also leads in RBI's with 86.

On the pitching side, Ray Sims of Odessa has an 11-1 record to top the percentages, posting a .917 mark. Dean Franks of Roswell drew even with Eddie Jacome in games won, both having 17 wins.

Jacome has pitched the most in-nings—209—and has appeared in the most games—36. He and Franks have completed 19 games each to top that department. Vernon's Marshall Epperson—a combination wild man and strike out artist—still leads in strike outs and walks. He has whiffed 121 and issued 114 bases on balls.

Don Johnson Blanks Detroit Tigers 8-0

DETROIT —(P)— Don Johnson, 24-year-old Washington Senator right-hander, faced only 29 batters—two more than the minimum—as he blanked the Detroit Tigers 8-0 with three hits Saturday.

George Kell, Jerry Priddy and Joe Ginsberg rapped singles off Johnson, but Ginsberg was erased by a double play. They were the only bat-ters to reach first.

Johnson recorded his fifth win against four losses.

The score:

R. H. E.
Washington 120 014 000-8 12 0
Detroit 000 000 000-0 3 0
Johnson and Klutz; Newshower, Trout, Borowy and Ginsberg.

Umpires Assigned For All-Star Game

ABILENE —(P)— Umpire assignments for the Longhorn League all-star game at Roswell next Thursday night were announced Saturday by League President Hal Sayles.

The arbiters will be A. B. Sykes at the plate, Bruce Averill at first base, Bill Nugent at second base and Clarence Weikel at third base.

Little League Game To Precede Longhorn Tilt

Members of Midland's Little League will hook up in a three-inning exhibition tilt prior to the Midland-Vernon baseball game at Indian Park Tuesday night. The small-try contest is slated for 7:30 p.m.

Twenty-four boys—12 for each team—were selected for the game. Each team will use two catchers and three pitchers, with each hurler working one inning.

Boys to play on the Eagles-Cards-Yankers team include Dwight Lind-sley, Jim Owens, Douglas Hampton, Wayne Kiser, Dennis Patton, Don Henderson, Bob Hillin, Milton Wil-liams, Fred Hedges, John Redfern III and Bill Faria.

On the Cubs-Realtors-Lions nine, Larry Cooper, Gregor Smith, Frank Parks, Douglas Hatfield, James Tom, Don Kidwell, James Horton, Clay Stringer, S. L. Vann, Lupe Her-nandez, Joe Stout and Gary Sam-ford will see action.

All members of the Little League will appear at the game Tuesday in uniform. They'll be selling—at 50 cents each—tickets to the Shorthorn League all-star contest billed for July 28. The seven-inning game will be played in Indian Park, with all money going into the Mid-land Junior Baseball Association.

Youths At Hidden Valley Camp Lead Life Of Riley

BRECKENRIDGE, COLO. — Citizens of this ama town nestled between surrounding mountains don't eve stop to gape when a herd of sun-tanned youngsters de-scends on the town's theaters, ice cream parlors and swim-ming pools. For they know it is only a group of fun-seek-ing boys from the Hidden Valley Camp For Boys, located

three miles from Brecken-ridge and operated by three high school coaches from Midland, Texas—T. L. (Tug-boat) Jones, Red Rutledge and Audrey Gill.

Approximately 50 boys—only three of them from Texas towns other than Midland—are at the Hidden Valley Camp. And the local citizens love 'em.

Recently an old prospector—grizzled Louis Copous—took 15 of the Midland boys and Gill along with him to pan cool mountain streams in search of gold. The boys received a big thrill when they came up with a goodly portion of the sparkling stuff.

Healthy But Busy

The life at Hidden Valley Camp is healthy but busy. "Reveille" is at 7:30 a.m., with breakfast at 8 a.m. Sports take up the morning. Basket-ball, football, baseball, archery and target practice on the rifle range

make up most of the program. After a hearty lunch prepared in the camp's kitchen, the boys rest until 2 p.m., then they are off on a series of riding, fishing and hiking expedi-tions until 7 p.m. Then comes the night meal, with a movie at Brecken-ridge or near-by Dillon theater some nights, or a camp-fire wisecrass with much cowboy singing.

Gridders In Shape

The boys live in five cabins, and are under the supervision of coun-selors, Jones, Rutledge and Gill, but the counselors, with Bob Wood, Pat Patterson, Reed Gilmore and Jimmy Williams helping out, Jimmy Lineberger, Dick Spencer and Fred-dy Bilbo are junior counselors. All these boys are MHS graders, and according to their coaches are in "fine shape."

Midland people drop by for visits regularly. Recent visitors included Mr. and Mrs. Bruce McKague, Mr. and Mrs. Phil Yeckel, Mr. and Mrs. W. H. Gilmore, Mr. and Mrs. Phil-lip Hubbard, Mr. and Mrs. LeRoy Stuart, Mr. and Mrs. Ralph Cham-bers and Mr. and Mrs. Kit Carson.

Due to arrive Sunday were Mr. and Mrs. Roy McKee, with Frank Monroe, superintendent of the Mid-land schools, slated to arrive Mon-day and the Lloyd Mackeys due to visit later in the week. Guests stay in Breckenridge and take their meals at the Hidden Valley camp.

Broken Nose

Only one casualty has been chalked up this summer—and that when Coach Pat Patterson suffered a broken nose while exhibiting fancy diving tricks.

All of the boys, with the exception of eight and nine year olds, have been on an overnight camping trip. They slept in bed rolls under a cool Colorado sky, and acclaimed Gill as a fine cook.

Also slated for the older boys is a three-day excursion into the out-doors.

It's a wonderful way to spend a Summer.

Chicago, Bosox Go 19 Innings

CHICAGO —(P)— Friday the thirteenth may have been the luckiest day of the season for the courageous Chicago White Sox, who Friday night beat the first-place Boston Red Sox 5-4 in 19 record-making innings.

The thrilling extra-inning victory snappd the league leader's eight-game winning streak.

Fighting tooth and nail, the White Sox staged a story book finish to defeat the Red Sox, who the night before had whipped them twice in another marathon session.

This incredible series at Comia-key Park which concluded with an afternoon single game Saturday produced a new American League record for consecutive innings played in overtime competition.

36-Inning Span

That was a span of 36 innings, starting Thursday night with Bos-ton's 5-4 17-inning win after cop-ping a nine-inning opener 3-2 and stretching through Friday night's epic 19-inning battle.

The former league record was 33 innings set in 1913 by the New York Yankees who went 14 and 15 innings against two different foes.

"That game was beyond talking about," gasped Manager Paul Rich-ards of the White Sox, who desper-ately needed the victory to keep floating as the season's "miracle team."

The White Sox, playing sensa-tional defensive ball all the way, seemed headed for a 4-3 defeat when the Red Sox lashed across two nine-teenth inning runs.

But in their half of the nine-teenth, the Pale Hose sprang back for three runs on five straight hits.

America's Leading Fem Golfers Sweep Weathervane Meet

SUNNINGDALE, ENGLAND —(P)—America's leading women golf profes-sionals, headed by Patty Berg and Mrs. Mildred (Babe) Zaharias, completed a 9-0 sweep over an in-ternational amateur team in the first international Weathervane Cup competition Saturday.

The visitors swept all six of the 36-hole singles matches over the 3,819-yard Sunningdale women's course.

Philomena Garvey, 24-year-old Irish champion, was the only mem-ber of the home squad to offer re-sistance. She lost to Mrs. Zaharias 1 up.

Betty Rawls of Austin, Texas, youngest member of the American team, won from former British champion Frances Stephens 2 and 1.

Miss Berg, who bested Mrs. Zaharias in the playoff of the recent 144-hole American Cross-Country Tournament, overpowered the Vicomtesse De Saint Sauveur of France, last year's British champion, 7 and 6.

Betty Jameson of San Antonio de-feated Jean Donald of Scotland 5 and 4; Peggy Kirk of Findlay, Ohio, best Mrs. Joan Gee of England 3 and 2, and Mrs. Betty Bush of Ham-mond, Ind., defeated Mrs. Ian Cow-per of Scotland 3 and 2.

The American women will play a team of British men amateurs next, and then starting Thursday will play a mixed round robin tour-nament for 1,000 pounds (\$2,800) prize money with six British men professionals at Ganton in Northern England.

Pete Schneider, in a Pacific Coast League game May 11, 1923, hit five home runs. Two came with the bases loaded.

1-0, 26-21 Games, Highlight Little League Contests

Little League baseball went from one extreme to another Friday and Saturday.

Dennis Patton got the nod in a stirring mound duel Friday, as his Cards edged Jim Owens and the Eagles 1-0 in an eight-inning game.

But Saturday morning, the joint jumped with base hits as the Lions rolled over the Cubs 26 to 21.

Patton struck out 14 and allowed but four hits in his stint—but, other than losing the game, Owens had the better of the duel. He fanned 15, allowed but three hits. The winning run came when Eddie Pierce singled, went to second on a passed ball and third on a wild pitch, and scored on an error, with two out.

Saturday, Lupe Hernandez led the assault as the Cubs scored 26 runs to win. He hit two home runs and a triple. Calvin McKenzie got the win. Larry Parks went all the way to lose.

The scores:

R. H. E.
Eagles 000 000 00-0 4 1
Cards 000 001-1 3 0
Owens and Kiser, Fletcher; Pat-ton and Hillin.

R. H. E.
Lions (11)05 622-26 21 3
Cubs 21310 501-21 19 8
McKenzie, Hernandez and Stout; Parks and Logsdon.

The Standings

W L Pct.
Cards 4 0 1.000
Eagles 3 1 .750
Yankees 3 1 .750
Cubs 1 3 .250
Lions 1 3 .250
Realtors 0 4 .000

Vengeful Indians Blank Yanks 8-0

CLEVELAND —(P)—The vengeful Cleveland Indians, smarting from their no-hit defeat Thursday, pulled to within one game of third-place New York Saturday by handing the Yankees an 8 to 0 drubbing behind Early Wynn's two-hit pitching.

It gave the Tribe a 2 to 1 margin in their three-game series.

Wynn, big 31-year-old right-hander, registered his ninth victory against as many defeats as the Tribesmen—still angry over their no-hit loss to the Yanks' Alie Rey-nolds—pounded four hurlers for 11 safeties.

The score:

R. H. E.
New York 000 000 000-0 2 1
Cleveland 002 024 00x-8 11 0
Lopat, Ostrowski, Overmire, Kra-mer and Berra; Wynn and Hegan.

Trautman May Give Veck More Time To Get Rid Of Club

DALLAS —(P)—George M. Traut-man, minor league baseball's czar, said Saturday he would consider giving Bill Veck more time to dis-pose of his double interest in the Texas League.

He told Texas League President J. Alvin Gardner in a telephone conversation "write him full de-tails" of the request and he would give the matter "full consideration."

Trautman had given Veck, new owner of the St. Louis Browns, un-til July to get rid of his interest in either Oklahoma City or San Antonio. Texas League directors asked for more time. O. C. and San Antonio meet July 22.

Trout, Moore Gain Tri-State Finals

AMARILLO —(P)— Defending Champion Chick Trout of Lubbock and Dr. C. D. Moore of Oklahoma City Saturday moved into the finals of the 17th annual Tri-State Senior Golf Tournament.

Trout eliminated George Hale of Albuquerque 2 and 1. Moore side-lined Tom Davis of Petersburg, Texas, 4 and 3.

They meet Sunday in the 18-hole final.

Dial 2-3982

It Is Generally Known and Agreed That POLIO Is Transmitted By FLIES and Other Pests

While science has been unable to definitely determine the methods by which polio is spread, it is generally conceded that flies and other insects play a serious part in the propagation of this dread disease.

KILL Flies, Roaches, Moths & Other Insects with FOG SPRAY

Insects CANNOT LIVE in a building or area that has been FOG SPRAYED by the TIFA (Toxic Insecticidal Fog Applicator) method.

This method assures you of absolute safety for your family, for your pets, and for delicate fabrics that might be injured by harsher, less effective methods.

TIFA is endorsed by Better Homes & Gardens, House Beautiful and Life magazines. Phone us today for free estimates.

Woman's Auxiliary Promotes Hospital

In January, 1950, approximately six months before the Midland Memorial Hospital was formally opened, a group of women met in the KCRS studio to organize a Woman's Auxiliary to the hospital.

Sunday that auxiliary is helping the hospital observe its first anniversary with an open house from 2 to 5 p.m.

Charter officers were Mrs. Leslie W. Sager, president; Mrs. Ralph Barron and Mrs. John P. Butler, vice presidents; Mrs. R. A. Estes, secretary, and Mrs. C. J. Kerth, treasurer.

The auxiliary's three-fold purpose is to help raise money for the hospital; to serve as a link between the hospital and the public; and to provide special services for the convenience and pleasure of the patients.

Among the projects undertaken by the group were the purchase of an oxygen-air pressure lock for premature babies; the equipping of the hospital's sewing room and the decorating and furnishing of two children's rooms and the nurses' lounge, which is a recreation room for the nurses and their guests.

A project in the offing is a nurses' aide course which, it is hoped, will be opened this fall. The purpose would be to train a number of qualified workers who could help in emergencies and to promote interest in the nursing profession.

The auxiliary has a number of committees to assist both hospital personnel and patients. One of these is the library committee which furnishes books and magazines for the patients and the waiting rooms. Magazines are circulated through

the patients' rooms three times a week by means of a library cart. Next year the committee hopes to add a variety of books to the supply of reading material available.

Another active group is the sewing committee. This committee is in charge of the sewing room located in the basement of the hospital. The room is open each Wednesday from 9 a.m. until 4 p.m.

Present officers are Mrs. K. C. Heald, president; Mrs. Waldo Leggett, first vice president; Mrs. John Leigh, second vice president; Mrs. Harry Russell, secretary, and Mrs. K. A. Moore, treasurer.

Others on the executive board are Mrs. L. W. Sager, Mrs. E. W. Cowden, Mrs. Katie Black and Mrs. John P. Butler.

Membership is open to all Midland women. Meetings are held on the fourth Friday of each month.

Money-making projects sponsored by the hospital auxiliary include two style shows and a program at which a silver offering was taken. Robert E. Stripling was the program speaker.

Mrs. Milton Loring was the director of both style shows, each of which raised between \$1,000 and \$2,000 for the hospital.

The organization of a group of hospital aides is another auxiliary undertaking. The aides will work in the central supply room and, in addition, will answer telephones, run errands, circulate trays and ice water, decorate trays during the holiday season and distribute flowers, which are donated to the hospital, among the patients.

LIBRARY CART—Mrs. Walter H. Mork selects a magazine from the library cart, while Mrs. Robert E. Griffith of the Woman's Auxiliary to the Hospital looks on. The cart, an auxiliary project, carries a variety of current magazines, pocketbooks, digests and even comic books for the children. The purpose is to provide for the patients a form of entertainment which will make their stay in the hospital more interesting.

HOSPITALITY SHOP—Mrs. John Leigh of the hospital auxiliary helps Mrs. M. D. Gage, a visitor of the hospital, choose a hand-made doll from the shelves of the Hospitality Shop. The shop is operated and supplied by auxiliary members. Merchandise includes hand-made baby clothes, dolls, crocheted purses, toilet articles, puzzles, pocketbooks, magazines, plants, candy and chewing gum.

FLOWERS ARE GET-WELL-QUICK AID—The members of the Woman's Auxiliary to the Hospital realize a cheerful room is a great morale builder. Accordingly, the members make an effort to brighten up each room. Here Mrs. Jack Riggs, auxiliary member, puts the finishing touches on a flower arrangement in the room of Mrs. William C. Liedtke. This activity comes under No. 3 of the three-fold purpose, "to provide special services for the convenience and pleasure of the patients."

SEWING ROOM—More than 4,000 articles for the hospital have been made here by auxiliary members. The sewing room was equipped through funds provided by the presentation of style shows, under the direction of Mrs. Milton Loring. Those pictured are Mrs. Ralph Barron, left, and Mrs. John Galley, at table; Mrs. Ralph Geisler, left, and Mrs. Vernon Redpath, at machines, and Mrs. Kate Black, standing.

CENTRAL SUPPLY ROOM—Mrs. Pauline Rogers, standing, supervises the members of the auxiliary to the hospital as they work in the central supply room. Pictured, left to right, are Mrs. Ray Gwyn, Mrs. W. C. Tillet and Mrs. John P. Butler. They are shown wrapping gloves and hypodermic needles to be placed in the sterilizer. One of the auxiliary's future projects will be the organization of a group of hospital aides who will help out in the supply room.

OXYGEN-AIR PRESSURE LOCK—Mrs. K. C. Heald, Jr., president of the Woman's Auxiliary to the Hospital, presents a check for the air pressure lock to Dr. Richard Harrell, hospital administrator. Looking on are Mrs. K. A. Moore, auxiliary treasurer, and Mrs. G. R. Saunders, nurse. A part of the auxiliary's yearly profits were used for the purchase of the lock. It is a machine used to supply oxygen to the bodies of premature babies and to assist in starting their breathing. Hospital personnel estimated the lock would save from three to five lives per year. One of the auxiliary's three-fold purposes is to raise money for the hospital.

HD Council Sets Festival Date

The Midland County Home Demonstration Council planned an August festival when it met Friday in the assembly room of the court house.

The festival is scheduled for August 19 from 8:30 until 4 p.m. on the Midriff Ranch. Committees named to complete arrangements were Mrs. L. H. Moncrief and Mrs. H. E. Benton, drink committee; Mrs. Sherman North, Mrs. J. D. Bartlett, Mrs. Joe Heideberg, Mrs. H. A. Palmer and Mrs. B. L. Mason, games committee; and Mrs. Jack Anderson, Mrs. J. Howard and Pauline McWilliams, county home demonstration agent, handicraft committee.

The presidents of the West Side Valley View and Prairie Lee clubs made their reports to the group. Mrs. L. H. Moncrief, yearbook committee; Mrs. Heideberg, finance; Mrs. Howard, marketing, and Miss McWilliams, 4-H Club sponsor, also gave reports.

The council chose for September's demonstration topic, "Short Cuts in Sewing and Dress Trimming."

Fashion Designer Selects Ten Best Bathing Suit Figures

By BOB THOMAS

HOLLYWOOD—(AP)—Don't despair, girls; you can look like a movie queen on the beach this Summer.

Well, almost like one, anyway. Or so claims Edith Head, the ace fashion designer of Paramount Studios. Now that the swim season is here, I went to her for some words of wisdom. First of all, I got her to climb 'way out on a limb and select the 10 best bathing suit figures in Hollywood. Her choices:

Corinne Calvet, Joan Crawford, Mona Freeman, Betty Hutton, Ginger Rogers, Jane Russell, Jane Fonda, Elizabeth Taylor, Esther Williams and Jane Wyman.

Miss Head remarked that she would like to design swim suits for any of these actresses. In fact, she created one for Lis Taylor to wear in "A Place in the Sun." Miss Head claimed Lis would look good in any kind of suit, and who is there to argue?

However, most women aren't as well endowed as Lis. How would they go about buying a suit?

"If they shop correctly, there is no reason why they can't look good in a bathing suit," the designer remarks. "Manufacturers have created outfits which will compliment all but the most impossible of figures.

Don't Take Time

"The trouble is that most women don't take time to pick the right suit. They should spend more time selecting a beach outfit than they do a dress. You see, a woman shows more of herself on the beach than

RUTH MILLETT

Read This And Rate Yourself On Your Feminine Subtlety

By RUTH MILLETT
NEA Staff Writer

Lots of women manage their husbands to the extent of getting their own way in important matters. But here are many degrees of subtlety in the way in which they "manage."

At the bottom of the list is the woman who announces flat-footedly that she wants this or that—and doesn't give her husband a peaceful moment until she gets it.

Just one step above her in managing skill is the woman who gets what she wants by continually pointing out how much other women have, shaming her husband to the point of giving in.

Then comes the woman who goes ahead and does as she pleases and goes all out to sell her husband on the idea that her course of action was the wise or even the only one.

Then there is the woman who manages much more subtly than any of these. She gets an idea and sells it to her husband so gradually that he eventually thinks it was his own. Such a woman is perfectly content to let him think so—just as long as things work out the way she wanted them to.

But that's not the height of feminine subtlety. The woman who is at the top is the one who "manages" her husband so well that he has to sell HER on what she wanted in the first place.

If you don't believe that can be done, next time you hear a man apparently trying to sell his wife on the idea of a long vacation trip, an addition to the house, or whatever, against her easily answered protests—sneak a glance at the satisfied look on the face of the wife.

She has not only succeeded in selling an idea to her husband but done it so cleverly he is trying to let it back to her. That's the peak of feminine management. For them if the idea turns out to be a dud, the little woman can always say: "Well, you know I had my doubts about it all along."

Good quality rubbers should be fresh, firm, crisp and tender with stems of red or pink color.

Lions Club Names Committee Workers

GRAND — President Brady Kix of the Crane Lions Club has named the following committees to work on club projects during the coming year:

Attendance, J. W. Teague and Tom Hogan, Sr.; construction, Steve Thomas and A. T. Carroll; conventions, J. A. Beyer and L. M. Pittman; finance, J. R. Todd, A. L. Hood and Darrell Keitner; Lions information, Clarence Key; membership, Pete Mattox, Jack Kendrick and Lloyd Wimberly.

Program, Jess Miller, Jack Ramsey and Don Chaney; publicity, G. G. O'Neil; citizenship and patriotism, John A. Bindman; boys and girls work, Dean Culp; civic improvement, Bob Tomlinson; community betterment, John Hodges and C. E. Deaton; education, Ken Spencer; health and welfare, J. R. Padden; safety, Vernon Stell and Herb Ray; sight and conservation, Hayden Wilmoth; United Nations, W. W. Allman; greater committee, R. E. Weberry and Bob Tomlinson; agriculture, G. C. Swift and Jack Boyd.

WHERE?

Let us ask this question: Where do you go when you need medical attention? To your doctor, of course. Your doctor is the person who helps you. But not only your doctor helps you, for every doctor must have someone to compound what he prescribes for you. We are that someone. We fill accurately and swiftly your prescriptions so that you may benefit immediately from your doctor's care. So next time you need a prescription compounded, don't ask "Where?"... bring it to us. We know you'll be satisfied.

Enroll Now For Job Security—

Success stories begin with sound training in the secretarial skills that modern business demands. Step from plodding routine into an attractive career by enrolling for a course at MIDLAND BUSINESS COLLEGE, 904 South Main (downstairs). New classes are now being formed in typing, shorthand, accounting and drafting with individual instructions. Dial 2-1091 for information on enrollments.

A Complete Sanitation System—

4-6581

The Kirby Vacuum Cleaner, featured by THE KIRBY COMPANY, 203 South Main, is a complete sanitation system. It breaks down into nine different units for every home renovation task. It's a floor portable, a hand portable, a shoulder portable, a duster and buffer, a power floor polisher, a furniture polisher, a rug cleaner, a moth and insect exterminator and a sweeper. Touch control adjusts height of nozzle to rug thickness. Dial 4-6681 for free demonstration.

Check Trouble Before It Checks You—

When you drive up at WOODY ASCUE'S HUMBLE SERVICE STATION, 703 West Wall, you get only the finest in petroleum products. A complete line of Humble Products and the finest of auto accessories and supplies are featured. When you drive in here for a check up, you're protecting your car and your pocketbook... against sudden breakdown. You'll thrill to the instant pick-up power when you "fill up" here with quality gas and oil. Dial 2-1911 for information on service.

Reproductions—

Dial 4-8261 for prompt pick-up and delivery on reproductions. WEST TEXAS REPRODUCTION COMPANY, 300 North Colorado, specializes in photostats, blue prints, reproduced tracings, dry prints and city maps. The company is conveniently located to give you the fastest service possible. Experienced operators give you clear photostats and reproductions of the best quality. The company is owned and operated by Charlene Koonce and Maurice Crowley.

For Children Of Working Mothers—

Mothers can be career women only when they know their children are in good hands. If you are working downtown you can leave your little ones at THE HOME NURSERY, 806 South Pecan, where they can play all day with other small children of pre-school age. They will be capably supervised while they play in a shaded, fenced yard. The nursery also keeps children at night if you want to go out for the evening. Dial 4-5897 for more information.

Be Snug At Home This Winter—

Insulate! That's the warranted way to cut costs. Insulation reduces the passage of heat in and out of your home, keeping it warm in winter without using extra fuel. Beat the heat this summer with Johns-Manville Rock Wool Batt Insulation, available at THE HOME LUMBER COMPANY, 401-09 South Main. The batts are easy to install. It pays its way in savings and comfort... summer or winter. Dial 2-4253 for estimates.

The Effect You Desire—

When you have your rooms re-papered, you want to be sure of lasting satisfaction. We suggest a professional job! Paint and wallpaper cannot be applied in a haphazard manner and give the effect you desire. To save money and the risk of disappointment, let an expert decorator give your home a genuine air of charm with the color magic of paint and wallpaper. HANS ROWECK, 1301 West Washington, is an experienced decorator, often doing the job himself or he can supply experienced decorators for your complete satisfaction. Dial 2-1371.

But Someone Was Wrong!—

In an auto accident, you may be forced to carry the financial burden of settlement. Learn how you can have maximum protection against any accident with FARMERS INSURANCE GROUP, 1612 South Main. This is a complete auto and truck insurance with all claims settled by the district agent. At present the company is paying a 30% current dividend every 6 months on auto insurance, 25-35% on truck insurance and 39% on fire. Contact Jim Valentine, telephone 3-2284.

Mrs. Thrifty Knows—

2-3401

... Because experience has taught her that serving quality foods means greater health for her family and more economy in the long run. "Mrs. Thrifty" and every other budget-wise housewife has learned, too, that you can get greater food savings by buying quality brands... by making a point to stop at the market of WHITSON'S FOOD STORE, 2000 West North Front, where prices are kept as low as possible, every day in the week. Dial 2-3401 for more information on food items. There is plenty of parking space and S & H Green Stamps are given with purchases.

How To Enjoy A Carefree Summer—

It's as simple as a telephone call. Just dial 4-8709 to have Watson Carpet Company, 1108 West Washington, send you a mechanical proof your carpets with BERLOU MOTI-PROOFING SERVICE so you'll have no worries on that score. Loans are made to qualified persons in amount of \$50. to \$1,500. Dial 2-4369 for more information.

Mrs. Curry And Montey Morrow Exchange Vows

Mrs. Lena M. Curry of Dallas and Montey Morrow of Midland were married Wednesday in the Bellview Baptist Church. The Rev. J. H. Goins performed the ceremony.

The bride is the daughter of Mr. and Mrs. S. H. Christian of Frisco. Morrow is the son of Mr. and Mrs. O. H. Morrow of Trinity.

The attendants were Mr. and Mrs. Cecil Davis of Midland.

For her wedding the bride wore a navy blue shantung suit with white accessories.

After the ceremony a dinner was held at Donohoo's. The couple will live in Midland where Morrow is employed by the Texas Highway Department.

Moonlight Marriages Don't Disturb Sleep Of Justice Of Peace

Justice of the Peace L. C. Stephenson has had no experience with midnight ceremonies since he took office in January, perhaps because of the three-day blood test required by the state for couples before marriage.

The judge, who has performed 29 weddings during his term, was quite nervous at his first experience as officiator but now takes it in his stride. He always gives a preliminary talk on the meaning of marriage before his short legal ceremony.

Wanting to renew their marriage vows after several years of married life, one Midland couple, who had never been separated, had the judge perform a second ceremony using their original marriage license.

Only two couples have come to the judge's home for their marriages and both of these had appointments, said Stephenson. "But I'm on 24-hour duty and wouldn't be surprised to find two young people knocking on my door unexpectedly at any time," the justice of the peace said with a smile.

Mrs. E. W. Anguish, Jr.

Amelung, Anguish Marry In Austin

In a double-ring ceremony Tuesday Agnes Elizabeth Amelung became the bride of Ernest Walter Anguish, Jr. The wedding took place in the Presbyterian Theological Seminary Chapel in Austin, with Dr. R. Matthew Lynn, pastor of the First Presbyterian Church in Midland, officiating.

The bride is the daughter of Mr. and Mrs. Karl Amelung of San Antonio. Anguish is the son of Mr. and Mrs. E. W. Anguish of Midland.

The church was decorated with a fan-shaped arrangement of emerald foliage and white chrysanthemums. Max Bellah, organist, played Lohengrin's wedding march and other traditional wedding music.

Attendants Named

Lil Daniel of Granger was the maid of honor. E. W. Anguish, father of the bridegroom, was the best man. Billy Amelung of San Antonio and Rex Wayland of Dallas were ushers.

The bride, given in marriage by her father, wore a suit of white shantung with white accessories. She carried a white prayer book topped with a bouquet of baby orchids.

The maid of honor wore a tan rayon suit with white accessories and a pink corsage. For her daughter's wedding, Mrs. Amelung wore a royal blue silk dress with black accessories. Mrs. Anguish chose a lilac crepe dress with black velvet accessories.

After the wedding, a reception was held at the Gamma Phi Beta Sorority House. The couple was assisted in receiving by their parents.

Those in the house party were

Mr. B. T. Sampson, Lois Mechem, Jerry Lynn Lever, Jean Rhuobotham, Corinne Beall, Gloria Anguish and June Knox.

The bride's table was covered with a white cutwork cloth and centered with a floral arrangement in a double-wedding ring design of white chrysanthemums. A double wedding cake and a crystal punch bowl completed the decorations.

Take Wedding Trip

After a wedding trip to Galveston the couple will be at home in Midland. Anguish is employed by the McFarland Drilling Company. After September 15 the couple will live in Austin.

The bride is a graduate of Brackett High School in San Antonio and the University of Texas. Anguish is a graduate of Midland High School and is a senior geology student at the University of Texas.

Out-of-city guests at the wedding were Mr. and Mrs. Strodderman of New Braunfels, Mr. and Mrs. H. Riemer, Mr. and Mrs. Ernest Reimer, Mr. and Mrs. W. M. Walraven, Mr. and Mrs. Ralph Herrmann and Ralph, Mr. and Mrs. Clarence Miegbauer, Shirley and Jerry of San Antonio, Mrs. S. S. Stinson of Midland and Mrs. W. H. Gibson and Mary of Houston.

Hand Is Injured

Shesley Finoly of 1000 West Dakota Street, received emergency treatment at Midland Memorial Hospital Friday for injuries to his right hand received when his fingers were caught between some drill pipe.

The time used in the Hawaiian Islands is 30 minutes later than the standard time of that zone.

MARRIED RECENTLY—Mr. and Mrs. Edward N. Newman are at home in Midland after their recent marriage in the First Presbyterian Church here. Mrs. Newman is the former Dolores Jane Pattison, daughter of Mr. and Mrs. P. R. Pattison of Midland. Newman is the son of Mr. and Mrs. D. M. Newman of Paris.

'Under The Tents' Vacation School To Open Monday

The tents are up, instructors have been assigned and everything is in readiness for the opening Monday of the "Under the Tents" vacation church school to be held this week at a location in the 1700 block of South Main Street.

The church school is sponsored by the First Presbyterian Church, with Mr. and Mrs. Ralph D. Bucy serving as directors. The vacation event was arranged at the request of persons residing in the South Park and adjacent additions.

All youngsters, particularly those residing in South Midland, are invited and urged to attend the school, which will meet at 8:30 a.m. Monday through Friday. A Family Fellowship Hour is scheduled at 8 p.m. daily, with the public invited. Special features will include singing, religious films and stories.

Teachers Listed

Faculty members of the church school were announced Saturday by the directors. Leora Mann will teach the kindergarten group, assisted by Glenda Crays, Margaret Gibson and Nona Lynn. Mrs. M. O. Gibson and Mrs. Jack West will be assisted by Martha Frick and Fran-

ces Hefren in the Primary Department. Shirley Winter, Mrs. Paul Laverty, Jean Watts and Mary Ann Hill will teach the Juniors.

Refreshments will be served each morning by Women of the Church of the First Presbyterian Church.

Members of the senior high and college classes of the First Church will be in charge of the evening programs.

The meeting place site was cleared by junior high young people and Boy Scouts, and the tents were pitched by the Men of the Church.

Postmaster Reports 'Astonishing' Hike In Postal Receipts

PECOS—An unprecedented rise in postal receipts here "astounded" even the postmaster, M. W. Collie.

Receipts for the quarter ending June 30 showed a 35 per cent increase over the same period in 1950, and more than 12 per cent over the first three months of this year.

The increase was said to be in first class mail, too, rather than in parcel post.

"You can quote me as saying this is the largest quarterly increase we've had in 10 years," Collie said.

The postmaster contends the jump was caused by a proportionate rise in population here. The quarter ending last month ordinarily is the slowest period of the year, Collie said.

Baptists Attend Youth Camp

STANTON—The Royal Ambassadors of the First Baptist Church returned Wednesday from the Baptist Youth Camp, District 8, in Big Spring.

Those attending were Dee Cravens, J. R. Hamilton, Nolan Bell and Granville Graves.

Those assisting in the camp were G. H. Goolsby, Mr. and Mrs. Walter Graves, Phillip White and the Rev. T. R. Hawkins.

MEDICAL PATIENT

Mrs. Mueril Edwards was admitted to Midland Memorial Hospital Friday as a medical patient.

Mrs. Bobo Is New Chairman

Mrs. Tom Bobo was named chairman of the nominating committee of the Alathean Sunday School Class at a meeting Friday in the home of Mrs. W. B. Preston. Mrs. C. M. Goldsmith was co-hostess.

Other committee members chosen were Mrs. J. R. Harrison and Mrs. Zeb Wilkins. Mrs. Fred Wycoff gave the devotional on "Happiness."

Looking at a picture of the initial Alathean meeting in 1907 was one of the meeting highlights. The picture was brought by Mrs. Goldsmith. Mrs. C. A. Barton, first vice president, presided at the punch bowl. The dining room was decorated with bouquets of garden flowers. Mrs. C. A. Wuls of Hunter, Okla., and Jan Howell, daughter of Mrs. Harlan Howell, were guests.

Others attending were Mrs. Lenton Brunson, Mrs. G. C. Rhodes, Mrs. Richard Jones, Sr., Mrs. A. W. Wyatt, Mrs. E. H. Barron, Mrs. Howell and Mrs. M. D. Cox.

Congratulations To

Mr. and Mrs. J. M. Caddell, Route 1, on the birth Friday of a son, Jesse Martin, Jr., weighing seven pounds, three ounces.

Mr. and Mrs. J. C. Barnes, 709 Kent Street, on the birth Friday of a daughter weighing six pounds, four ounces.

Mr. and Mrs. W. D. Trumbley, 608 West Nobles Street, on the birth Friday of a daughter weighing seven pounds, nine ounces.

FINGERS ARE INJURED

Bennie D. McAlpine of Big Spring was given emergency treatment at Midland Memorial Hospital Friday for lacerations, abrasions and contusions of his right fingers. His hand was caught between a boomer and the rear of a trailer while at work.

Mexicans have 80 public holidays a year. Mohammedans have 62, while England has only seven.

AT HOME IN MIDLAND—Mr. and Mrs. Macon Cecil are at home in Midland after returning from a wedding trip to Cloudercroft, N. M. The couple was married recently in the home of the bride's parents, Mr. and Mrs. Ted Presley of Midland. The Rev. J. H. Goins officiated. For her wedding the bride wore a blue lace ballerina length dress with a corsage of white carnations. Mrs. Leonard Presley was the matron of honor and the best man was Leonard Presley. A reception was held in the Presley home after the wedding.

EMERGENCY PATIENT

S. M. Miller of Odessa was given emergency treatment at Midland Memorial Hospital Saturday for lacerations of his right hand suffered when a piece of metal was run through his hand while he was pulling pipe.

EMERGENCY PATIENT

James E. Jones of Midland, an employe of Bosworth Drilling Company, was given emergency treatment at Midland Memorial Hospital Friday for lacerations of his right ear and cheek received while at work.

Couple Exchanges Vows In Garden

A garden ceremony was read Saturday night at the home of Mr. and Mrs. J. O. Hyde for Colleen Virginia Roquemore of Midland and James Alfred Rose of Hobbs, N. M. F. I. Stanley, minister of the Southside Church of Christ, performed the double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Roy Roquemore of Sylvester. Rose is the son of the late Mr. and Mrs. C. E. Rose of Temple. Vows were repeated before an arch banked with greenery and flanked by baskets of white gladiolus.

Mrs. Ronald James, pianist, played "Ah, Sweet Mystery of Life," Herbert; "Serenade," Schubert; "I Love Thee," Grieg; "Bridal Chorus," Wagner, and "Because," D'Hardelot.

The bride, given in marriage by her father, wore a ballerina length gown of white over taffeta. It was designed with a high neckline and three-quarter length sleeves. Her fingertip veil of illusion cascaded from a crown adorned with seed pearls and her mitts were of white lace trimmed with nylon net. She carried a Bible topped with an orchid and lilies of the valley tied with white satin streamers.

Attendants Named

Mrs. Clyde H. Pickens of Midland was the matron of honor. She wore a white chantilly lace dress fashioned with a sweetheart neckline and a full skirt. She also wore a white nylon picture hat and white linen pumps and carried a bouquet of pink Marconi daisies.

Nan Parnell and Betty Ratliff, both of Midland, were the bridesmaids. They wore identically fashioned organza over taffeta dresses, one of pale blue and the other of pale orchid. The dresses were styled with round necklines and bouffant skirts. The attendants wore white nylon hats and white linen pumps.

Jack Cole of Sweeny was the best man. Ushers were Clyde H. Pickens and Bill Black of Midland.

For her daughter's wedding, Mrs. Roquemore chose a navy blue marquisette dress trimmed with bows of matching taffeta and complemented with a pink carnation corsage.

Reception Honors Couple

A reception was held following the ceremony in the home of Mrs. Hyde. The bride's parents and the bridal attendants assisted the couple in receiving guests. Mrs. Bill Black of Midland presided over the punch bowl and Mrs. Dave Watson, also of Midland, served the cake. Mrs. J. P. Olmstead, Jr., of Lubbock was in charge of the bride's book.

The lace-covered table was decorated with fern and gladiolus arrangements and a three-tiered wedding cake topped with bride and bridegroom figurines. The buffet was centered with an arrangement of pink and white daisies.

For the wedding trip to Colorado and Wyoming, the bride chose a pink rayon gabardine suit with brown and white accessories and an orchid corsage. After August 1, the couple will be at home in Hobbs, N. M.

The bride was graduated from Sylvester High School and attended Draughon's Business College in Abilene. For the last 10 months she has

Mrs. John F. Warren

Patrica Payne And John Warren Wed

Patricia Anne Payne and John F. Warren were married Saturday in the Trinity Episcopal Church. The single ring ceremony was performed by the Rev. Robert Snell, pastor.

The bride is the daughter of Mr. and Mrs. Jimmie Sturgis Payne of Rio de Janeiro. Brazil. Warren is the son of Mr. and Mrs. J. Ed Warren of Midland.

Jack Thomas of Midland was the best man and Delores Dyer of Dallas was the maid of honor.

The bride, given in marriage by her brother, Jimmie S. Payne, Jr., wore a white silk chanting suit trimmed with white lace. She wore a matching hat of white lace and carried a bouquet of white orchids.

The maid of honor wore a slightly tailored lavender dress with navy blue accessories. She carried a colonial bouquet of pink carnations.

After the ceremony a reception was held in the Midland Country Club. The couple was assisted in receiving by Mrs. Warren and Miss Dyer.

Those in the house party were Mrs. Harry Lawson, Mrs. William Kerr, Mrs. Thornton Hardie, Mrs. Robert L. Wood, Mrs. Irby Dyer, Mrs. John House, Mrs. Phil Yeckel, Mrs. Steve Hazlip and Mrs. John W. Starr.

The table was covered with a white satin cloth and centered with the wedding cake.

After a wedding trip to Colorado the couple will be at home at 512 North Main Street. For traveling the bride chose a brown linen suit with brown and white accessories.

The bride attended the University of Texas where she was a member of the Gamma Phi Beta sorority. Warren attended New Mexico Military Institute and the University of Texas. He belonged to the Phi Kappa Psi fraternity.

Out-of-city guests were Mrs. Haskell A. Dyer and Mrs. John Minier of Dallas and William Stokes of Tyler.

Two All-Star Wives Find Life More Fun

By JUDY RANDOLPH

Life as wives of baseball players is more fun than other married life, believe Mrs. Eddie Melillo and Mrs. Kenny Jones. Of course, they know they may be a bit prejudiced.

While the team was gone on a 10-day road trip, Mrs. Melillo and Mrs. Jones took advantage of their husbands' absence to clean house, write letters and attend the Stamford rodeo. "You can't get much done around the house while they're in town," commented Mrs. Melillo. The baseball wives often are glad to see their husbands leave for a while so they will have a chance to get their "homework" done, but after one or two days of separation, they can't wait to have the Tribe return to its camping grounds.

Mrs. Melillo and Mrs. Jones and their all-star husbands live together in a two-bedroom home on Carrizo Street. This makes it convenient for the "widows" to keep each other company while their husbands are out of town.

Living together has other advantages, laughed the two youthful wives. When something goes wrong in the kitchen, neither Kenny nor Eddie can tell whose fault it is. And since neither wants to fuss at the other's wife, a fallen cake brings no argument from the husbands in this house.

"Oh, I can't think of any," exclaimed the newlywed Mrs. Jones when asked of the disadvantages of being married to a ball player. But it must not be just because she still is on honeymoon, for Mrs. Melillo, who has been married since 1949, couldn't mention any either.

Mrs. Jones is a newcomer to Midland, having moved here in May. She met her husband between baseball seasons in 1949 in Warrensburg, Mo., their hometown. The Jones have been married since January.

Community Theater Plays Cupid. It was a minstrel show which brought Eddie and his wife together. Both were working in the Community Theater about three years ago. After a swift courtship, they were married in 1949. Mrs. Melillo, who is originally from Stamford, was working for the Union Oil Company at the time. Now with the owl-like life they lead during baseball season, neither has time to be active in the Community Theater or other organizations.

The blue-eyed Mrs. Melillo said the ball-playing husbands were very easy to get along with. "They carry out the sportmanship they learn on the field in the home," continued Mrs. Jones. They even help around the house, the two wives grinned, saying they weren't sure if they their

respective husbands would want that widely known.

Mrs. Melillo, who has just finished knitting her first pair of booties, is starting on her first baby gown for the new member of the family expected in September. "I say I don't care whether it is a boy or girl, but everything I get for the baby is blue," Mrs. Melillo explained.

"Our hobby is our husbands," Mrs. Jones and Mrs. Melillo unanimously agreed without a moment's hesitation. As for entertainment, the life of a baseball player only allows for Sunday nights off. So shows and card games complete most of the recreation for the Melillo and Jones families.

The two wives remarked the Midland fans are wonderful to themselves and their husbands. Mrs. Jones recalled how one fan invited her and her parents to sit in a box seat immediately after she was introduced over the speaker system at her first ball game here.

"Of course," they continued, "we get pretty burned up when some of the fans start riding our husbands for making an error."

Both Melillo and Jones work during the winter months. But according to their wives, they start talking baseball before a month is up and can't wait until April comes around.

Mrs. Jones always has liked baseball, especially since her brothers have played high school and semi-pro ball, but Mrs. Melillo said she had only been to a few games before she met Eddie. Now neither would miss a game that is played in Indian Park.

"This life is just like a vacation," stated Mrs. Jones, with Mrs. Melillo nodding in agreement. From the looks of both they really are enjoying their life as wives of Indians.

Delores Anderson, Vivie Lee Jones Exchange Vows

RANKIN—Delores Anderson and Vivie Lee Jones were married recently in the Church of Christ in Rankin. Leon Kessler, pastor of the Rankin Church of Christ, officiated.

The bride is the daughter of Mr. and Mrs. E. E. Anderson of Rankin. She is the son of Mr. and Mrs. D. Jones of Hico.

For her wedding the bride chose a blue dimity street dress with navy and white accessories. She carried a nosegay of white carnations.

Adrienne McDaniel of Rankin was the maid of honor and the best man was Don Fair of Clovis, N. M. The bride attended Rankin High School. Jones is employed by the Spegley Drilling Company in Rankin where the couple will make their home.

After the ceremony the couple left for Hico to visit the bridegroom's parents.

Out-of-city guests at the wedding were Mrs. Don Fair and Mr. and Mrs. Joe Dennington of Clovis, N. M.; Mr. and Mrs. Edwin Moore of Dallas, Mr. and Mrs. Charles Justice and Mr. and Mrs. Odell Justice and family of Crosbyton, Mr. and Mrs. W. A. Bird and Mr. and Mrs. Lovell of Texon.

Those attending from Rankin were Mr. and Mrs. Anderson, Mr. and Mrs. R. A. McDaniel and Mr. and Mrs. James W. Kennedy and family.

RECENT BRIDE—Sgt. and Mrs. T. R. Abbott, Jr., are on their wedding trip to Midland and points in East Texas, following their recent marriage in the Larkin Street Baptist Church in Houston. Mrs. Abbott is the former Wanda Jean Smith, daughter of Jack Smith of Houston. Abbott, the son of T. R. Abbott, Sr., of Midland, is stationed at Lackland Air Base in San Antonio. Cpl Jimmy Black, also stationed at Lackland, was the best man. Lanef Morton of Houston was the bride's only attendant. The bride wore a blue dress with white accessories and a white carnation corsage. A reception was held in the church recreation hall following the ceremony.

ON VACATION TRIP

Mr. and Mrs. Frank Monroe and children will leave Monday on a vacation trip to Colorado. Monroe is superintendent of the Midland public school system.

The experience, tact and neighborly interest...

WHICH MEANS SO MUCH IN TIME OF SORROW

Our Service is essentially one of neighborly help at a time when dozens of distressing new problems must be faced—often for the first time.

So, remember, one phone call to us places everything in sympathetic, experienced hands.

McCamey News

Mr. and Mrs. J. L. Pugh are the parents of a girl born July 3 in the Cooper Hospital. She weighed five pounds, six ounces and has been named Vikle Lynn. Mrs. Pugh is the former Sybil Brown.

Mr. and Mrs. Roy McDonald of the McDonald Ranch near Girvin are the parents of a boy, born July 6 in the Crane hospital and weighing seven pounds, 13 1/4 ounces. The baby was named John Angus.

Mr. and Mrs. Derwood Langston are the parents of a girl born Thursday in the Cooper Hospital. The baby weighed six pounds, two ounces.

Mr. and Mrs. George Tompkins and family spent the fourth of July holiday sightseeing in the Big Bend Park.

T. J. McNamara of Denton was a visitor in the home of his brother and family, Mr. and Mrs. A. F. McNamara, during the last week.

Mr. and Mrs. O. R. Sharp and daughter Linda, Mr. and Mrs. Bob Turpin and daughter, Sue, and Mr. and Mrs. Hal Holmes spent the week at Possum Kingdom Lake.

Mrs. Lefty Williams returned to her home Thursday where she is recuperating following an operation in the McCamey hospital.

Miss June Tension returned to her home Tuesday after a several days illness in the Crane Hospital. Mr. and Mrs. J. T. Gibbs have as their guest his mother, Mrs. E. S. Dollar of Amarillo. Mrs. Dollar was accompanied by Mrs. Stouty Jones who returned to her home in Amarillo after a visit. Other guests last week in the Gibbs home were their daughter, Mrs. H. E. Van Note, and daughters, Vannie and Vansette of Burbank, Calif.

Mr. and Mrs. C. Ramsey returned recently from a three-week vacation trip to Hattiesburg, Miss., Houston, Galveston and Dallas. Mrs. Tom Rowell and Susan and Mrs. Bernice Rowell visited in Odessa Monday.

Mr. and Mrs. W. E. "Bill" Moore and children, Margaret Ann and "Stuff" left Thursday afternoon for a visit in Austin.

Mr. and Mrs. Guy Williams and daughter Barbara left Friday for

Lake Walk to spend a weeks vacation.

Mr. and Mrs. W. F. Clinton of Moran, Texas, are guests in the home of their son, Cahal Clinton. E. and Judy Williams, son and daughter of Mr. and Mrs. Burl Williams, left Friday with their aunt and uncle, Mr. and Mrs. O. D. Worthy of Colorado City, for a tour of California, Oregon and other states.

Mr. and Mrs. N. C. House and daughter, Aileen and son Kenneth, returned home from a vacation trip to points in Colorado and Arizona. The Westside Church of Christ has closed a successful 10-day meeting. Visitors were present from Junction, San Angelo, Brownfield, Denver City, Rankin, Fort McKavitt, Texon and Sheffield. J. L. Pritchard of Brownfield conducted services and singing was led by David Murr.

When buying breakfast cereals look for those which have been enriched with such food values as niacin, thiamine and iron.

WHITE DEER SCHOOLMEN INSPECT FACILITIES HERE

A group of White Deer public school officials, headed by Supt. Hulyn Laycock, was in Midland Friday to inspect the facilities of the Midland school system.

Frank Monroe, superintendent of Midland schools, escorted the visitors on a tour of the city's school buildings.

RUBY MILLARD ATTENDS WACO WEDDING

WACO—Ruby Millard of Midland Saturday attended the wedding of Marie Johnson of Waco and James E. Prothro of Wichita Falls. Mrs. Prothro and Miss Millard were friends at Baylor University. During the week before the wedding Miss Millard entertained the bride with a luncheon.

'Bonnie' Wedding A Bit Of Scotland Accents Ceremony

Keeping a slight touch of their native Scotland, Mary Elizabeth Snodgrass and Joseph Lorimer Lindsay were married Friday evening in the First Presbyterian Church in a single ring ceremony. Dr. R. Mathew Lynn, pastor, officiated, at the single-ring ceremony.

Mrs. Lindsay, who came to the United States three weeks ago from Bridge-of-Weir, Renfrewshire, Scotland, is the daughter of Mr. and Mrs. W. G. Snodgrass, also of Bridge-of-Weir.

An employe of the Shell Oil Company, Lindsay arrived in the United States in January. He is the son of Mrs. James Lindsay of St. Andrews, Scotland, and the late James Lindsay.

The bridegroom's family, which decorated the cake table. The reception was held in the private dining room of Hotel Schaeffer.

The couple turned to the highlands for their wedding trip—Davis Mountains in this case instead of the hills of Scotland. The bride chose a light blue and white silk dress and a white picture hat for travel.

Graduates Of St. Andrews
Lindsay is working for Shell Oil Company as an administrative trainee. He received his degree in Geology from the University of St. Andrews in Scotland.

Mrs. Lindsay also attended St. Andrews where she majored in foreign languages.

FUTURE BRIDE—Mr. and Mrs. Tom A. Rowell of McCamey announce the engagement and approaching marriage of their daughter, Susan Olivia, to Jerry Lee Nye, son of Mr. and Mrs. H. B. Spence of Bakersfield, Calif. The wedding will take place August 11 in the First Baptist Church in McCamey. The Rev. W. I. Lee will officiate.

+ Stanton News +

STANTON—Mr. and Mrs. E. D. Steele and Deanna and Linda, formerly of Throckmorton, arrived in Stanton last week to make their home. Steele will be the vocational agriculture teacher in the Stanton schools.

Mr. and Mrs. Clifton Odell and children have returned to their home in Pecos after spending last week visiting in the home of his parents, Mr. and Mrs. W. C. Odell of Lenora.

Mr. and Mrs. Alvin Morgan and Janet of Banning, Calif., are visiting relatives in Stanton.

Mr. and Mrs. Phil Berry and Betty are vacationing at Yellowstone National Park.

Mr. and Mrs. Jack Young recently observed their twenty-fifth wedding anniversary at a dinner in the home of their daughter, Mrs. Allen Hopper.

Mr. and Mrs. Jack Bentley have returned from a six-day vacation in Rudoso, N. M.

FLAT WORK

Optimists' Buffet Dinner Set July 24

A buffet dinner for members of the Optimist Club and their families will be held at 7:30 p.m. July 24 in the Ranchland Hill Country Club. It was announced Saturday by Nub Jones, chairman of the entertainment committee.

The meeting will replace the noon luncheon Tuesday of next week.

No solist was used in the wedding. Instead, as customary in Scotland, the guests joined in singing the opening psalm and the closing hymn which were printed in the formal program. These programs, printed in silver, may seem strange to an American wedding but are typical of the Scottish marriage services.

Mrs. Frank Miller, organist, played the traditional wedding marches. Dress From Scotland

The bride, given in marriage by A. H. Vineyard, wore a full length dress of white lace and net which she had brought over from Scotland. The dress was fashioned with long sleeves and a heart-shaped neck.

Symbolic American orange blossoms and Scottish white heather covered the bride's headpiece which held a long, flowing veil. Both of these had belonged to the bride's mother.

Mrs. Lindsay carried a bouquet of red roses.

White gladiolus and Marconi daisies decorated the church and four candelabras lighted the service.

Attending the couple were Mr. and Mrs. J. Lawnick, formerly of Scotland and now of Wichita Falls. J. Newman served as usher.

The matron of honor wore an orchid dress of lace and chiffon and carried a bouquet of pink roses.

Tartan Decorates Table
Scottish tradition calls for a dinner to be served to the reception guests, but Mr. and Mrs. Lindsay chose to follow their new country's style and just serve punch and cake.

However, a reminder of their former land was found in the Lindsay tartan, a design distinctive of the

Habit Cleaners

Because you, our friends and customers, know the importance of good grooming — we're celebrating our seventh anniversary. And because we know that you are responsible for the success of these past seven years, we say Thank You sincerely for your fine patronage.

You can depend on the same courteous service in the future... on our handling your clothes with meticulous care... cleaning them with the finest solvents... the most skilled attention. And may we remind you, that now is the time to clean your winter wardrobe before storing... your summer wardrobe before wearing.

Dry Clean for Longer Life!

107 North, Pecos

Ray Kelly

Pecos Credit Files Show Big Increase

PECOS—Your credit, like your shadow, follows you.

This is the slogan of the Retail Merchants Association here, according to Mrs. Ruth Dunn, owner-manager.

Mrs. Dunn purchased the Pecos concern in June, 1947, several months after the death of her husband, Ben Dunn. Since then she has almost doubled her membership and has increased her files by more than 25 per cent.

Her first year at the helm was completed alone. Now she has one full-time employe, Mrs. Ruth White, and three part-time workers, Mrs. Sue Rogers, Catherine Cain and Jan Dunn, the owner's daughter. Has Other Jobs

Presently Mrs. Dunn has a total of 153 members. And in her files are listed credit histories of more than 25,000 persons.

In addition to her credit work, the middle-aged woman carries on investigation work for life, fire and accident insurance companies, operates a collecting agency, does stenographic and mimeographic work for the general public and is a notary public.

Of her retail credit office, Mrs. Dunn says, "This is a business... not only for credit information, but also to protect all retail merchants against racketeers, subversive organizations and hot check artists."

Finely shredded carrot added to a green salad helps to give it attractive color.

Alcoholics Anonymous
Closed Meeting Tues. Night
Open Meeting Sat. Night
Dial 4-8215
118 S. Baird St. P. O. Box 536

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JULY 18, 1951-7

Cottage cheese is much like milk in food value and should be used generously in Summer meals. Use it sometimes as a panache filling and serve with sour cream or maple syrup or fruit preserves; let it accompany fruit and vegetable salads. It also makes a good sandwich filling when it is teamed with chopped radishes, cucumbers, and green pepper.

A nutritious breakfast is just as necessary in Summer as it is in Winter. Medical and dietetic authorities agree that when the body has been without food for 10 to 12 hours it should be supplied with nutrients for the morning's activities. Studies show that workers who skip breakfast get less done in the first morning hours than those who eat a good breakfast.

Modern Equipment Fills Midland Memorial's Kitchen

Modern equipment increases the speed and efficiency of the Midland Memorial Hospital's main kitchen. The hospital kitchen has five walk-in refrigerators, each with a different temperature for specific food storage ranging from frozen foods to dairy products and vegetables. A large storage room in the basement is within quick access to the kitchen workers, as are the stainless steel utensils which hang near the work centers. Mechanical devices such as food

mixers, blenders, potato peelers, etc., out time-consuming tasks. Ventilation and light is provided in the kitchen by the large windows which fill two walls of the room. The kitchen is equipped with two large steam ovens which are used to process meat to a more digestible quality and yet conserve more of its food value. Each tray is checked by the dietitian before it is sent by enclosed carriers with warming controls to the various floors.

Those patients requiring diets have their food prepared in the special diet kitchen. All formulas for the babies are prepared in another separate kitchen. Besides the main kitchen each floor has a small well-equipped one of its own, served by dumb-waiters from a central cooking room. These kitchens are used for between-meal refreshments for the patients. Mrs. Goolsby of Stanton is in charge of the hospital's kitchen. Read The Classifieds.

EPISCOPAL CHURCH SCHEDULE ANNOUNCED

The Trinity Episcopal Church will have Holy Communion at 8 p.m. Sunday. Church school will be held at 9:30 a.m. The Rev. Robert Snell, pastor, will speak on "The Family of God."

TO VISIT McNEILS

Mr. and Mrs. Earl Wick of Los Angeles, Calif., will arrive in Midland Sunday for a visit in the Lloyd McNeil home. Wick is a brother of Mrs. McNeil.

Many people like to use a good paste wax for all surfaces such as table and chest tops that get a good deal of use.

Blood Bank Is Vital To Life Saving

Thirty years ago when a person needed blood it was necessary to give a direct transfusion of fresh blood from the donor. Today, when blood is needed a doctor simply takes a bottle from a refrigerator. The factor behind this notable advance in medicine is the blood bank. Midland Memorial Hospital has its own well-equipped blood bank with everything necessary for the extracting work of typing blood and having it ready when needed. Blood, the shock preventer, is called for many times when there is an excessive loss of the fluid during an operation or because of an accident. Before blood can be transfused, it must go through many channels as a check that it will be compatible with the patient's blood. Supply Is Problem. Donated blood is never touched by human hands. First it flows through a small tube from the donor into a pint bottle which also contains a preservative. A small amount of blood that remains in the tube is used for all tests and typing. After determining the blood type and its Rh factor, the bottle is stored under refrigeration. It may be used at any time up to three weeks after donation. One of the most perplexing problems facing the man in charge of the blood bank is that of keeping the supply equal to demand. Dr. Donald McGrew, a pathologist for Midland Memorial Hospital, is director of the blood bank.

FLUFFY RICE WITH SAUCE

If your family likes kidney, serve them sometimes in a creole sauce over fluffy cooked rice. Make the creole sauce of canned tomatoes thickened with a little cornstarch or flour, and seasoned well with salt, pepper and finely grated onion. Add a little dried green pepper to the sauce just before serving for crisp texture.

The Midland Officers Club will have a dance at 9 a.m. in the club house for members and guests. Lee Powers and his orchestra will furnish the music.

A six-ounce can of boned turkey chopped and mixed with two or three tablespoons of cream cheese and sweet pickle relish to taste, makes a delicious sandwich filling.

Scented Talc A Deodorant Aid

By ALICIA HART
NEA Staff Writer

Today's woman, intent upon protecting her daintiness this Summer, will find a large selection of deodorants and anti-perspirants from which to pick. Liquids, solids, creams—all are yours for the choosing.

Powder deodorants are available, too, for those who aim at tip-toe freshness rather than spot-control.

A silk-smooth deodorant talc offers a young woman all-over hot-weather protection as well as a fresh fragrance.

One firm offers a protective talc in a fragrance as fresh as April showers.

One important virtue of this powder, they claim, is its soothing quality. Silky in texture, it can be applied immediately after shaving or using a depilatory. Since this product contains no powerful astringent, it is non-irritating to normal skin as well as non-damaging to fabrics, according to its makers.

For long-lasting protection, dust this powder on freely after your bath, remembering to give special attention to such danger spots as your under-arms, the area between your shoulder blades, and your between-toes crevices.

For a pleasant supper dish top large stuffed potatoes with Vienna sausages (using two sausages for each potato) and bake in a hot oven for ten minutes or until lightly browned and heated through.

MARTIN COUNTY SETTLERS—Christian D. Peters, a 68-year resident of Martin County, is served a plate of barbecue and all the trimmings by Neva Fisher, 19-year-old native of Martin County, at the Old Settlers Reunion held recently in Stanton. More than 500 persons attended the annual event. Peters, 75 years young, is a native of Germany. Miss Fisher is a student at Abilene Christian College.

Young People Visit Balmorhea State Park

STANTON—The young people of the Church of Jesus Christ of Latter Day Saints spent two days at Balmorhea State Park recently.

The group had a swimming party and sunrise prayer services. Chaperones were Mr. and Mrs. Douglas Church of Stanton and Mrs. Opal Reeder of Odessa. Those attending were Fred Church, Earl and Gearl Koonce, Roy Koonce, Sarah Standefer and Billy Hamm of Stanton; Edward and David Sader of Midland; Kent and Mac Smith of Wendall and Lynnie Parker and Jean Griffith of Odessa.

Chopped dates and coarsely broken walnut meats are delicious added to a simple bread pudding.

WHY STARVE TO TAKE OFF FAT?

When you buy Barconstrate, you buy a preparation for taking off weight. You do not pay for a printed diet. Barconstrate is not a vitamin tablet to fortify you against weakness while on a starvation diet. You need never know a hungry moment, while reducing with Barconstrate. It contains no harmful drugs, but does contain ingredients to make you feel better.

Barconstrate when mixed with grapefruit juice does this: First, cuts down your desire for sweets and fatty foods, but you do not have to FORCE yourself. Barconstrate takes care of your DESIRE. Second, dehydration and elimination, so that water is carried away—almost like melting fat. At the same time you feel better, more happy, more alive, but never starved or hungry.

Lost 37 Pounds
"I wish to state that I lost 37 pounds taking Barconstrate," writes Mrs. J. L. McCarty, Dearyville, Texas.

Lost 14 Pounds
"Without a diet, I have lost 14 pounds taking Barconstrate," writes Mrs. E. M. Hensel, 1308 Werner Ave., Austin, Texas. "I am glad to recommend Barconstrate to anyone."

10 Pounds Lost
"I wish to state that I have had very satisfactory results taking Barconstrate," writes Mrs. Louise Skipper, 427 W. Lost Ave., Kuyaville, Texas. "I lost 10 pounds and ate anything I wanted."

What D'Ya Think, Case Of Measles?

A stranger walked into police headquarters Saturday morning and asked for the officer in charge.

"I want to know what action has been taken on my case?" he asked.

Lt. Dick Hemingway and Dispatcher Sabre Thorn, who handle scores of police cases daily, looked at each other questioningly.

"What case is that?" asked Lt. Hemingway.

"My suitcase," replied the stranger, without batting an eye. "It was stolen."

FORMER RESIDENTS VISIT
Mr. and Mrs. Joe T. Talley and son, Thomas, visited relatives and friends here Thursday and Friday enroute to their home in Waco after having visited another son, Billy Joe, at a Marine base in California. The Talleys formerly resided in Midland. Mrs. Talley is a niece of Mr. and Mrs. John Drummond.

Dirt, Squirt and Quirt

— FARM, DAIRY AND RANCH NEWS —

The market at the Midland Livestock Auction Company sale Thursday was steady on better grade butcher cattle and good and choice stockers, but weaker on other classes of cattle. Plain and common stocker cattle were \$1 to \$2 a hundred lower than the week before. The run of 740 head was the heaviest since price roll backs were announced.

Fat calves and yearlings sold for \$31 to \$35, mediums \$25 to \$31, commons and culls \$18 to \$25. Fat cows drew \$22 to \$27.50, mediums \$19 to \$22, canners and cutters \$14 to \$19. Bulls, none extra good, cleared at \$23 to \$27.

Stocker steer calves auctioned for \$32 to \$36.50 and heifer calves for slightly less. Cow and calf pairs cashed from \$257 downward.

Consignors Listed
Principal consignors were Ellison Tom of Midland and Andrews, 59 head; J. T. Marchant, Midland, 49; Sig Faircloth, Eastland, 37; McNary Land Company, McNary, 24; Mrs. Jess Williams, Midland, 13; O. S. Harrington, Van Horn, 13; Ratliff and Bedford, Midland, 12; Buster Cole, Midland, 11; Deakins and Roberson, Pecos, nine; J. E. Airhart, Sparsburg, nine; R. H. McCrummen, Seminole, 19; D. L. Wells, Wickett, eight; A. Harvey, Arden, seven; J. C. Hunter, Midland, six; Dick Christopher, Van Horn, seven; Frank Harris, Ackerly, five; J. C. Hunter, Alpine, five; Marvin George, Midland, five, and smaller consignments by A. L. Hallman, M. F. King, J. T. Fisher, Melvia Cross, Bud Rotan, A. A. Wilson, Scharbauer Cattle Company, C. B. Fisher, Jesse P. Webb, A. R. Bauman, A. M. White, J. C. Brooke, Eddie Sims, Fred Oaks, L. O. Griffith, S. O. Golladay, all of Midland.

The West Texas Chamber of Commerce is trying to determine whether adequate rural fire protection can be obtained on a voluntary basis without resorting to creation of a new taxing agency.

James F. Melton, manager of the taxation and legislation department of the WTCC, has asked managers of local chambers of commerce of the 132-county region to report creation of any voluntary protective association, how they were created, and their ability to solve rural fire problems.

One of five constitutional amendments to be submitted to Texas in November, 1951, would open the way for creation of rural fire prevention districts and authorize maximum tax levy of 50 cents per \$100 valuation to finance them.

Guy Branch of Rankin was among the purchasers at the annual Rambouillet ram sale held Wednesday at San Angelo. The Rankin rancher bought two rams for \$770.

Four hundred and eighty-two rams were sold at the auction, averaging \$140 a head.

Wednesday will begin rodeo time in Big Spring. That city's eighteenth annual Cowboy Reunion and Rodeo will be held in an all new concrete rodeo bowl just west of the city. With a seating capacity of 7,500, the Big Spring plant is one of the finest in the Southwest. The show continues through Saturday.

An RCA sponsored event, the Big Spring show, with \$3,400 added to the purses, annually attracts the world top cowhands.

At least one champion is assured for competition. He is Toots Mansfield, a Big Spring resident and seven times winner of the world's championship calf roping title. Mansfield is a director in the Big Spring Rodeo Association.

An opening day parade, with the famous Hardin-Simmons Cowboy Band as a feature attraction, will begin at 4 p.m.

Besides the Cowboy Band several West Texas Sheriff's Poses, including the Midland unit, also will ride in the parade.

Produced by the Buetler Brothers organization, the eighteenth annual Big Spring Rodeo promises to be the biggest rodeo event ever staged in Big Spring.

The Dublin, Texas, Rodeo Association has announced the dates of its annual Pre-Madison Square Garden Rodeo. This year's rodeo at Dublin will be presented August 29, 30, 31 and September 1. Plans have been made for the toughest of all rodeos and exceptionally good special events. Immediately following the Dublin rodeo, a special train will leave for New York and the Madison Square Garden Rodeo.

Everett Colborn, the famed producer of the World Championship Midland Rodeo and other big-time attractions, is the daddy of the Dublin attraction, which last year attracted more than 30,000 rodeo fans.

And still another West Texas rodeo is in the offing. It is the annual Sterling City Rodeo, which will be held the nights of July 27-28, with a dance scheduled each night following the rodeo events. A free barbecue is scheduled preceding the initial performance.

Events include girls' barrel race, cutting horse contest, calf roping, ribbon tying and matched roping.

Officials of the Sterling City Show are John Reed, chairman; Taylor Garrett, vice chairman; Riley King, Foster Conger, Bill Reed, Temp Foster, Bill Green and Bubba

Stockmen in Donley County have realized the need for a veterinarian and have done something about getting one.

A unique, new type of agriculture show—more of a spectacle than an exhibition—will be presented at the 1951 State Fair of Texas, Dallas, October 6-21.

A "Storybook of Texas Agriculture" will tell the glamorous true story of how the soil of Texas is tilled to produce the necessities—and many luxuries—of life.

The mammoth free show in the Agriculture Building will portray agricultural products of prime importance in each of the 14 Extension Districts of the Texas A&M College System.

In 14 colorful sets, simulating eight-size pages of an open book, the story of each district will be told with three-dimensional effect. The districts are the Panhandle, South Plains, Rolling Plains, North Texas, Northeast Texas, Big Bend, Edwards Plateau, Heart of Texas, Piney Woods, Central Texas, Hill Country and Winter Garden Area, South Texas, Gulf Coast and Rio Grande Plains.

Breeders From Three Countries Meet To Work Out Future Of New Santa Gertrudis

KINGSVILLE — (AP) — Cattle breeders from three countries met here to work out the future of a relatively new breed—the Santa Gertrudis.

Their hope is to set standards for the big, hump-backed animal developed especially to resist the heat and fatten on the grasses peculiar to the U. S. Southwest, Southeast and Middle Americas.

The Santa Gertrudis, the only successful new breed of beef cattle in 300 years, was developed by Texas' famed King Ranch. It is a cross between Brahman bulls and Short-horn cows. It has the long, downturned ears of a Brahman. Some are cream or tan-colored, others are a rich brown.

To be sure that the new breed develops properly, the cattle men organized the Santa Gertrudis Breeders International at a meeting in this city which was named after the King Ranch which surrounds it.

The first president is Walter Caldwell of Luling, C. C. Peters of Lake Wales, Fla., is vice president, R. W. Briggs of San Antonio is treasurer and Peter A. Larkin, Kingsville, secretary, to officers.

Named By Mail Vote
All the officers were elected by a mail vote preceding the meeting here. Twelve directors were elected, four each for one, two and three year terms. Directors whose terms expire at the next annual meeting are Sumner Pinkree, Ermila, Oriente, Cuba; T. C. Montgomery, Arcadia, Fla.; J. T. Mallsberg, Coahuila, and Dr. J. K. Northway, Kingsville.

The two-year directors are J. Arthur Pancoast, Uleta, Fla.; Richard M. Kleberg, Jr., Kingsville; Vachel W. Lackey, San Antonio, and John Martin, Alice. Three-year directors are Leroy G. Denman, Jr., San Antonio; Tobin Armstrong, Armstrong; C. Hunter Strain, San Angelo, and John Armstrong, Selma, La.

This advisory board was named: Kleberg, Richard King of Corpus Christi, Dr. A. O. Rhoad of Turrillaba, Costa Rica; E. J. Berker of Moron, Cuba; and Raymond Hollingsworth of Raymondville.

Kleberg is present head of King Ranch. Dr. Rhoad is chief of the Animal Industry Department, Inter-American Institute of Agricultural Sciences, at Turrialba.

Much of the work so far has been done by Dr. Rhoad. In a report to Santa Gertrudis breeders, he told of visits to herds of the cattle with the aim of establishing minimum qualifications of breeding stock for registration.

Whatever system of registry is set up, said Dr. Rhoad, must be genetically sound, fit into ranching practices and must be administratively workable.

There are more Santa Gertrudis cattle than most cattlemen had realized, the Costa Rican emphasized. This is fortunate in a way, he said, because it will mean standards for breeding stock can be set higher than if there were few of the animals.

Advice Plentiful On Stopping Hurricanes

PORT ARTHUR — (AP) — With the hurricane season at hand, the Naval Hurricane Service is getting its usual quota of suggestions from the public on how to stop hurricanes before they start.

Capt. Paul R. Drouilhet, chief of the Naval Hurricane Warning Station at Miami, enumerated these helpful hints received:

1. Tow icebergs from the Arctic Ocean to the Caribbean Sea to counteract the humid atmosphere in which hurricanes are spawned.
2. Strew millions of bales of government-owned surplus cotton over the Caribbean and lower the Gulf to "stabilize" the water and interfere with the formation of winds.
3. Let the U. S. Atlantic Fleet surround the hurricane area and bombard it with big guns.
4. Drop an atom bomb on hurricanes.

ODESSAN HOSPITALIZED
Mrs. O. L. Spark of Odessa was admitted Saturday to Midland Memorial Hospital as a medical patient.

MEDICAL PATIENT

Approximately 70 members attended.

**GUARDIAN OF FINANCES—
County's First Auditor Has Books And Accounts All Set Up For Business**

By BILL WOODS

The newest and one of the most important jobs in the administration of Midland County is held by Mrs. Nettie C. Romer, newly-appointed county auditor who is guardian of all county finances.

Mrs. Romer received her appointment as the first Midland County auditor last April. On May 1 she took over her new duties, which require that she have a "general oversight" of all books and records of county, district or state officers who receive or collect money or other property belonging to the county.

She now can report she has set up all books and accounts necessary in her job and that last month she began checking on the financial standing of the many county offices.

To a certain extent, Mrs. Romer also acts as a purchasing agent for the county. The county commissioners court has to authorize all expenditures, and each office does its own buying, but Mrs. Romer must approve all purchase orders.

She does have authority to make small purchases before action by the commissioners court, but that body still adds the final stamp of approval.

Duties Are Listed

Among her duties as auditor are provisions that she:

1. Examine orders of the commissioners court relating to finances of the county;
2. Count, at least once each quarter, cash in the hands of the county treasurer or in the bank holding county funds;
3. Keep an account with each officer;
4. Audit and approve all claims against the county;
5. Maintain a general set of books showing all transactions of the county relating to accounts, contracts, indebtedness, and county receipts and disbursements, and make a tabulated report on such matters at each regular meeting of the commissioners court;
6. Prepare and submit to the commissioners court annually an estimate of expenses and revenues, from which the court can make a budget for appropriations; and
7. Receive all bids submitted to the county.

Named By Judge

Mrs. Romer, who before creation of the auditor's post had been a long-time district clerk, was appointed to the new position by District Judge R. W. Hamilton.

Texas statutes provide the office of county auditor may be created when the assessed valuation of the county reaches \$10,000,000. The assessed valuation of Midland County was a little more than \$10,000,000 in 1950.

Her new job, which will not be subject to election, apparently brought to a close a long series of successful political campaigns which had established Mrs. Romer as dean of the county's elected officials.

She began her courthouse career in 1928 as a deputy county and district clerk. In 1930 she was appointed county and district clerk on the death of J. M. Shelbourne. A year later she was named district clerk when the two offices were separated.

Then came 10 victorious elections, her latest term beginning in January.

Rankin News

RANKIN—Mrs. H. Wipeler has returned from a visit with her daughters in Dallas.

Mr. and Mrs. Randolph Jackson and children visited recently with Mrs. Jackson's parents, Mr. and Mrs. A. F. Eades.

Mrs. Elj Sterling has been returned to her home here following major surgery in a Big Spring hospital.

Jim Norwood, Plymouth Oil Company employe whose home is at Benedum Field, is convalescing in a San Angelo hospital following surgery.

Mrs. Boyd Cox spent Tuesday in Ozona at a reunion of her family.

Mr. and Mrs. A. F. Eades are spending the weekend in Lubbock. On Friday they attended the Bilberry family reunion in Lubbock Park.

Peggy and Karen Owens spent the week here with their grandparents, Mr. and Mrs. Roy L. Bell. Their home is near Crane.

Mr. and Mrs. Hamp Carter spent Monday and Tuesday in Roswell, N. M.

Mrs. E. G. Branch and daughter, Carolyn, visited in San Angelo several days last week.

Family Reunion

The little one-and-a-half-year-old daughter of the Rev. and Mrs. Warren L. Capps has been ill the last week.

Mr. and Mrs. R. O. White visited relatives in Santa Anna and Brownwood. They attended a family reunion and visited friends.

Commissioner Sam Holmes has been confined to his home recently because of illness.

Five members of the Rankin WSCS attended a sub-district meeting of the society in Big Lake Wednesday. They were Mrs. D. S. Anderson, Mrs. A. R. Pool, Mrs. D. O. McEweh, Mrs. M. C. Duer and Mrs. R. O. White.

The infant daughter of Mr. and Mrs. Junior Moore who has been seriously ill in a San Angelo hospital the last two weeks is reported "slightly improved."

TO SPEAK—J. T. Brose of Fort Worth will be the guest speaker Sunday at the morning and evening services of the Church of Christ, 907 South Terrell Street. Services will be held at 10:30 a.m. and 8 p.m.

Dr. W. E. Ryan Opens Animal Hospital

Dr. W. E. Ryan has opened his veterinary practice in Midland. His office, adjacent to his residence, is located near the intersection of Golf Course Road and Garfield Streets—the second house west of Garfield on Golf Course Road. At this location he has equipped a hospital for small animals.

For work with large animals in the ranching country, Dr. Ryan has equipped a panel truck as a mobile veterinary hospital. It is fully equipped for any type of treatment and surgery and includes cabinets of vaccines, surgical equipment and refrigeration for perishable medicines.

A former Midlander, he is well known here. His father, the late Dr. W. E. Ryan, M. D., was killed in World War II where he served with a hospital unit. His mother is Mrs. Quincy Belle Snow of Abilene.

Dr. Ryan was graduated from Oklahoma A&M College's School of Veterinary Medicine in 1951 with the first class of the new school. He had completed his education following service in World War II. As a youngster he worked as a cowboy and it was this experience that decided his career as a veterinarian.

Dr. and Mrs. Ryan have two children, Sharon Ann, six, and Sheila Kay, three. He is a new member of the Midland Rotary Club of which his father was a long-time member.

Rev. Joe White Is Guest Speaker

The members of the Women's Missionary Society of the West-side Baptist Church were guests of the Brotherhood at the family night Thursday in the church.

The guest speaker was the Rev. Joe White, pastor of the Cotton-Flat Baptist Church. He spoke on "Jonah."

Approximately 50 persons attended.

Twins At Lackland Harass Instructors

SAN ANTONIO—Two lads from Indiana have arrived at Lackland Air Force Base here for indoctrination training.

Instructors are discovering they must do some training as a result. The two are Orbie and Norbie Derrington, twins from Evansville. Both are six feet, three inches tall. Both part their hair on the left side, have the same pale blue eyes, the same shape ears, eyes, nose and mouth.

In fact, harassed Air Force people will tell you, they look alike.

The Catakills represent the subtraction type of mountain. They are a remnant of a tableland of level layers of red sandstone.

MARRIED RECENTLY—Mr. and Mrs. B. J. Fleming are at home in Lubbock following their recent marriage in Clovis, N. M. The bride is the former Sabra Jean Farley, daughter of Mr. and Mrs. H. A. Farley of Midland. Fleming is the son of Mr. and Mrs. J. A. Fleming of Lenders, Texas. Mrs. Fleming was graduated from Central High School in Tulsa, Okla., and attended Texas Technological College in Lubbock. Fleming will receive his degree in civil engineering from Texas Tech this Summer.

THAT 38TH PARALLEL AGAIN—The same 38th parallel that divides Korea comes close to marking the boundary of the second "hottest" frontier between communism and the free world. The boundary between troubled Iran and troublesome Russia lies just north of the 38th on the western side of the Caspian Sea, and just south of the 38th on the eastern side. Should the Russians move in to the Azerbaijan province of Iran, it would be another case of aggression across the 38th parallel.

Laboratory Has Answers To Hopes And Fears Of Hospital's Many Patients

Among the test tubes and the microscopes of the laboratory are found the answers to the hopes and fears of the hundreds of patients who have entered Midland Memorial Hospital.

Located on the first floor of the east wing of the hospital the laboratory presents a puzzling picture to the laymen with its white cleanliness and its elaborate equipment. But in the experienced hands of Dr. Donald McGrew the hospital's pathologist, and his assistant, it becomes a chamber of miracles.

For from the laboratory comes the confirmation of earlier diagnoses or the assurances that no cancer or other dread diseases exist. Typical of the examinations made is that of a patient suspected of having cancer.

Slices Away Tissue
On the operating table, the surgeon slices away a tiny bit of the suspected tissue, which is rushed to the laboratory. Within a few minutes, the pathologist can report on his findings. Happily, Dr. McGrew estimated, around 90 per cent turn out to be free of cancer.

To the laboratory comes blood samples for study as well as specimens taken during surgery.

The study of blood—or hematology—is an important work of the laboratory.

For instance, numerous patients suspected of having leukemia have been brought to the hospital, where careful tests are made. One of these include the extraction and laboratory examination of bone marrow specimens.

The lives and health of babies have been saved, too, by the quick determination of the Rh factor of the blood. On the basis of these tests, necessary transfusions are made.

In Italy and Spain, the cow is superseded by the goat as a milk giver.

Curious cemetery custom in some parts of North Carolina is the decoration of graves with burned-out electric light bulbs.

William Roughead is England's leading writer on crimes of real life. He has produced more than 20 volumes on the subject, and in addition has edited the transcripts of many famous British and Scotch trials.

Enfield is 15 feet under water. It was one of a few communities swept away when a reservoir was built more than 10 years ago.

TRACK USED FOR EXECUTIONS
HONG KONG — Chinese Communists are using Shanghai's once-fashionable "Canidrome" race track for everything from slaughter to satire. Two weeks ago the open-air park was used for a public exhibition of Russian posters, cartoons and satirical art. And two weeks before that, it was the site of a public execution.

The Chamber of Commerce got a call recently from a man who wanted to know where the Town of Enfield is located. The man said he thought he owned property there.

There's water in the cellar, no doubt.

The Nurses Home adjacent to Midland Memorial Hospital is a combination of attractiveness and utility.

The home's well-lighted living room is decorated according to green color scheme that blends among walls, flooring and furniture a variety of shades.

A few apartments are provided, but most of the nurses live in rooms designed for two girls. Among other physical facilities are a kitchen, a small dining room and a laundry room.

Tibet is the highest country in the world, averaging 16,000 feet above sea level, according to the Encyclopedia Britannica.

Complete X-ray equipment is provided in the radiology for diagnostic study, X-ray therapy and treatment. In addition to hospital patients, an average of 10 patients a day receive X-ray therapy treatments.

Complete emergency facilities are located on the ground floor at the ambulance entrance.

Twenty graduate registered nurses are employed at the hospital. There are two full-time registered anesthetists, two surgical nurses, two

Drivers Education Course Is Designed To Reduce Accidents

WACO —(AP)— Baylor University and a Waco car dealer are going to do their part to reduce automobile accidents.

The university has established a course in drivers' education and training, as a regular part of the physical education curriculum.

Not only regular Baylor students, but also public school teachers who want to qualify themselves to teach others how to drive, are enrolled.

The car dealer has donated a new car, equipped with dual controls. He looks on it as an investment in automobile safety.

A friendly, freckled-faced red-head, Dr. James G. Mason, is teacher of the class. He prepared himself by taking a course at Columbia University, sponsored by the American Automobile Association.

The students learn elementary care of a car, and functioning of its parts, as well as how to drive.

Functions Explained
"We do not try to make a mechanic out of the new driver," Mason explains, "but we do help him to understand how a car operates. We tell him the functions of the fuel system, the radiator, the spark plugs and pistons, the crank shaft and the transmission. We want him to be somewhat familiar with the machine he will operate."

With Dr. Mason handling the dual controls to the right of the usual driver's seat, he takes a carload of students to the 100-acre Baylor Stadium property. That is the training ground. Each class also spends one session at James Connally Air Force Base because there is equipment there which is not available at Baylor.

Lloyd Russell, chairman of the physical education department, said such training has been shown to reduce accidental potential by 50 per cent. Russell said it reduces the tendency to law violation more.

There's water in the cellar, no doubt.

More Than 3,800 Persons Admitted Since '50 Opening

Midland Memorial Hospital Sunday will open its hospitality to Mr. and Mrs. West Texas in celebration of the institution's first birthday.

From 2 until 5 p.m. visitors will be treated to conducted tours through the maze of modern medical facilities which rapidly are making Midland the medical center of this area.

Refreshments will be served and a huge birthday cake topped with the traditional single candle will add to the observance.

Since the hospital opened its doors to patients a year ago it has admitted 3,800 and approximately 500 persons have received emergency treatment without being admitted. Approximately 1,200 other persons have received non-emergency treatment within the hospital.

Its bed capacity of 102, plus accommodations for 30 new-born infants, gives Midland a hospital to cope with the city and area growth for some years to come.

Top in 23 Counties
The laboratory and X-ray facilities are equaled only by those in Dallas, Austin and Houston. A pathologist and a radiologist are employed full time by the hospital to head these two departments.

Dr. Richard Harrell, administrator of Midland Memorial, said all known types of pathological examinations can be made immediately. This saves needless waiting and suffering of patients as the diagnosis and treatment of their condition can be determined accurately in a short time.

The blood bank has a constant reserve of more than 100 pints of blood that is available when patients need it.

Complete X-ray equipment is provided in the radiology for diagnostic study, X-ray therapy and treatment. In addition to hospital patients, an average of 10 patients a day receive X-ray therapy treatments.

Complete emergency facilities are located on the ground floor at the ambulance entrance.

Twenty graduate registered nurses are employed at the hospital. There are two full-time registered anesthetists, two surgical nurses, two

(Continued On Page Three)

These facilities were the determining factors in making Midland Memorial Hospital the only diagnostic cancer clinic in a 22-county area.

Travel Cut Down
And, the hospital staff emphasizes, treatments now are available at the hospital for which residents once traveled hundreds of miles. Not only can residents of Midland and this area remain here for examination and treatment but the city rapidly is becoming the medical center of West Texas.

The Midland Children's Diagnostic Clinic also is located in the hospital and through this service many children receive medical care and treatment which might otherwise be impossible for them to obtain.

In the hospital's first year of operation an average of 58 babies have been born each month in the two modern delivery rooms. Available for the prematurely-born infants is the oxygen air-pressure lock, the only one in the West Texas area. Two nurseries are provided and there is one isolation nursery. Among special equipment are four automatic incubators.

The hospital drug room has a stock valued at \$30,000, including more than 500 different medicines. Used solely for surgery the fourth floor contains two major operating rooms, three minor operating rooms and a fracture room.

Complete emergency facilities are located on the ground floor at the ambulance entrance.

Twenty graduate registered nurses are employed at the hospital. There are two full-time registered anesthetists, two surgical nurses, two

DADDY RINGTAIL

Daddy Ringtail And Demosthenes

Senator Algyon always had to be a senator, but never in his life. The senator himself never had been good enough to do it. But pretty speeches are things that help the senator-business, and in the city would come the time when people would gather to hear the speeches, and so of course Senator Algyon had to be a senator. Senator Algyon getting a pretty speech to say. The secret is this: Senator Algyon now had discovered that his name was Senator Demosthenes.

And did you know there once was a famous speech-maker with the name of Demosthenes? Senator Algyon knew it, and so now he made ready to practice just as Mr. Demosthenes once had practiced.

West down by the sea. He stood on the rocks all alone where the waves foamed with water of white, and the noise of the sea and the wind and the waves was like a roar that never stopped.

It was there that Senator Demosthenes Algyon practiced to talk all loud as he could and even louder, trying to hear his pretty speech above the sound of the wind and waves. He wanted his voice to be both strong and sweet. Yes, he was going to be a senator now sure enough, all because of the pretty speech he was going to make.

And so at last came the day in the city when all the people were gathered together to hear the pretty speeches. Would Senator Demosthenes Algyon's pretty speech be pretty enough this time for him to be a senator at last? Everyone waited to see, because now he was stand-

ing up before them. He opened his mouth. Everyone waited. Everyone waited for the pretty speech. But then, Senator Demosthenes Algyon closed his mouth again, poor fellow. He could not say the pretty speech, because he now had forgotten the words.

Well, he won't have another chance to be a senator until maybe next year, but don't you worry about him. He'll be just as happy with wanting to be a senator as any senator ever was to be one. It's the being happy that matters. Happy day!

Hospital Laundry Has Six-Day Week For Huge Washing

Washday comes six days a week at Midland Memorial Hospital, and Monday, the traditional day of scrub board exercise, is double busy. Sunday is the only day the large hospital laundry isn't in operation, so employees are faced Monday morning with twice the usual daily quota of 1,000 to 1,200 pounds of soiled linens and uniforms.

Washing arrives in a steady stream at the laundry that fills the end of the west basement wing and must be washed, sterilized, starched and ironed to hospital crispness for a new day's work.

Mrs. Mary Reed, in charge of the laundry, is one of the original employees of the hospital. In fact, she started to work before the hospital opened.

The laundry room is equipped with a huge washer which will process 235 pounds of linens in dry weight at a time, a smaller washer, an extractor, a tumbler to fluff-dry the wash, a flat-work ironer and three presses for finishing uniforms.

Dinosaur Tracks Are Discovered

KERRVILLE.—What a lot of persons believe are thousands of dinosaur tracks have been found in a rock stratum of the Guadalupe River near Kerrville.

John Peter Jurrius, a retired engineer, who found them, said they stretch continuously, partially exposed and partially under water, along a section of the river half a mile long.

They are some four miles southwest of Hunt, Texas. Jurrius said he was walking along the highway which overlooks the river, looked at the impressions and noticed they followed a definite, extended course and among them were long grooves.

Jurrius said he suddenly thought of a pre-historic scene of heavy amphibious animals moving down the river.

He said he found the marks of three toes common to certain dinosaurs which once roamed Texas. He decided the grooves were made by the heavy tails of the animals.

That was back in 1934. Jurrius went to the Dutch Isle of Guaraao where he was stationed for the next 15 years. He came back here to retire this Spring.

He told his story to staff members of the Audubon Camp of Texas. They went to see the impressions, and at least three of them agreed that what Jurrius found was dinosaur tracks.

Alexander Sprung, Jr., for 18 years a staff representative of the National Audubon Society, said he believed the tracks were from two types of dinosaurs—the tyrannosaurus and the brontosaurus—both huge, lizard-like animals.

The tyrannosaurus walked on its hind legs, was carnivorous and had three toes. The brontosaurus was a lumbering, herbivorous monster with a heavy tail, and moved on all four limbs, leaving round tracks.

Jurrius himself is inclined to attribute the tracks to a single type of animal, the titanosaurus, a long-tailed animal that walked on all four legs. The forefoot of the titanosaurus bore a large single claw on its hind feet were equipped with claws. The animals are believed to have been aquatic in their habits, and to have fed on water plants. They are connected with the Jurassic Period, which is estimated to have existed some 160 million years ago.

Uncle Sam Slips Up On Batch Of Money

HIAWATHA, KAN.—Roy Ruth, president of the Home State Bank at nearby Everest, broke open a bundle of new \$5 bills and carefully counted them.

They totaled \$500. Then he turned them over and recounted. This time he got \$530.

On the next check he studied each bill carefully and discovered—

Six of the notes, fresh from the government's presses, were \$5 bills on one side and perfect \$10 reproductions on the other.

Tennessee, which grows between 430,000 and 700,000 crates yearly, is the second-ranking strawberry producing state of the Union.

BABIES ARE HER JOB—Mrs. Naomi Pass, Midland Memorial Hospital nurse, is shown taking care of one of her very new charges in one of the nurseries.

Any Baby Would Be Proud Of Nursery At Memorial

Midland Memorial Hospital's nursery is a spotless first home any infant can be proud of. Constructed to accommodate as many as 30 babies at one time, it is air conditioned in the summer and heated in the winter.

Hospital—

(Continued From Page One) delivery nurses, three nursery nurses and three nurses for emergencies, in addition to floor-duty nurses who give routine care to patients. Assisting the registered nurses are 28 undergraduates, nurses aids and male orderlies.

The laboratory and X-ray departments employ a total of five trained technicians. A dietitian, two cooks and six other employees assist in preparing and serving more than 375 meals daily for patients, guests and employees.

A full-time engineer maintains the machinery and boilers and six persons are employed in the laundry. The hospital staff consists of eight persons.

32 Doctors On Staff Midland Memorial Hospital now has 32 doctors on its staff and they include specialists in every field. Seven are certified by the American Board and American College of Surgeons.

"The first year for any new business is a difficult one and Midland Memorial Hospital has met its share of trials and problems," Dr. Harrell said. "Yet this hospital has progressed far faster than was expected and has surpassed any other hospital of comparable size."

Midland Memorial Hospital has been measured and approved in all respects by the highest national standards. It is now approved by the American Medical Association and the American Hospital Association and has received provisional approval by the American College of Surgeons.

Rows of cribs bearing pink or blue cards are provided for the new comers. During a baby's stay at the hospital, usually for three days, it is individually cared for by one of three nurses who are in constant attendance.

The main nursery actually is composed of four small ones. Three of the rooms are adjoining and are used for general, premature and out-patient infants. The children found in the general nursery are new-born babies, while those in the out-patient room have been readmitted to the hospital for additional treatment.

Isolation Ward Across the hall from the main nursery is an isolation ward for children with contagious ailments. Each room is equipped with special germicidal lamps as a protection against bacteria.

While the nursery has all that could be expected of a modern hospital, the waiting room for expectant fathers at Midland Memorial is a vision-shattering sight.

The waiting room is no smoke filled cubicle, for hanging on the modern walls are signs that shout "No Smoking" to anxious fathers-to-be.

Proud fathers, grandparents and friends may peer through large plate glass windows in each of the nursery rooms to see the tiny occupants.

The Women's Auxiliary to the Hospital has donated an oxygen air lock machine located in the delivery room to help new-born infants take their first breath.

One of the few machines of its kind in one Southwest, the oxygen air lock is a source of pride to the hospital.

DOCTOR TAKES VACATION

Dr. Dorothy Wyvell, Midland pediatrician, is on a month's vacation trip. Dr. Rhessa Penn will be at her office during her absence.

LEAVE ON VACATION

Mr. and Mrs. George E. McCray left Saturday for a two-week vacation trip to various points in Oklahoma and Kansas.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, JULY 15, 1961-3

On the best soil, young Douglas fir trees grow more than three feet each year. The planet Neptune was discovered with only pencils, paper and logarithm tables as instruments.

WHY?

should YOU choose

G-E now!

Here are 5 Good Reasons!

Model LC-8

Many Models to Select From

- with such famous G-E features as.
- NEW ROLLA DRAWERS for fruits and vegetables glide quietly in and out with a touch.
- REDI-CUBE ICE TRAYS let you take out one at a time—or as many as you want.
- A REAL FREEZER Engineered to give you more inside space with less outside space.
- NEW BALANCED DESIGN Assures air circulation and even temperature throughout cabinet.

MODEL NHX-8

GE DEPENDABILITY

The famous G-E sealed-in refrigerating system is your assurance of years of service. Fully guaranteed for years of satisfaction.

- NOW is the time you need dependable refrigeration the most. For summer enjoyment and food savings get a model engineered by the world's foremost manufacturers.
- NOW G. E. refrigerators are available . . . in the size to fit your particular needs. And it will give you 1/3 more refrigerated food-storage space than most refrigerators now in use! Yet it occupies no larger floor area in your kitchen.
- NOW you can have a refrigerator designed and built to be tops in style and performance for YEARS to come. With far-ahead features that make it a pleasure to use . . . and remember, the refrigerator section NEVER needs defrosting!
- NOW you can have refrigeration at the lowest cost in history. The new G. E. sealed-in unit requires no servicing, no lubrication, no adjusting. It is pre-set to give the maximum economy of operation . . . at all times!
- NOW we can offer you terms to enable you to have one in your home . . . with easy payments while you use and enjoy it. Let us show you how it will actually PAY you to own a G. E.

Designed for gracious, carefree living in a relaxed, comfortable atmosphere is this three-bedroom home featuring a spacious recreation area which can be made part of the living area by opening the large, sliding glass doors.

The living and dining areas also are continuous except for an ornamental grill which provides partial room division. The entire wall of the recreation area is entirely of glass. The architect specifies extensive hardwood plywood interior construction for strength, durability and cost economy, with richly-figured face veneers in living and dining area wall paneling. Abundant storage space is provided throughout the house and each of the bedrooms has plywood wall closets with wardrobe-type sliding doors.

built-in vanities and chests of drawers. Either stone or brick veneer construction is suggested for the exterior of this one-story structure which has an attached two-car garage. Because the architect designed this house for a moderate budget, he specifies materials which provide economy in first cost and upkeep—for example, asphalt shingles for the roof which are available in a wide array of blended or solid colors to harmonize with the stone or brick veneer sidewalls.

Residence Painted With Polka-Dots

WARWICK, R. I. —(AP)— Now if anybody asks where Emery R. Jernquist lives they'll be told: "You can't miss it—it's the house with polka dots." Jernquist just finished painting his house a solid black interspersed with five-inch polka dots in turquoise blue, and, orange, yellow, cream and coral.

Renailing Moulding At Baseboard Line Eliminates Cracks

Flooring and baseboards in any house expand and contract with atmospheric changes. As a result, unsightly gaps often appear between the floor and moulding at the bottom of the baseboards. This is because the moulding was improperly installed by nailing it directly to the baseboard or the finish flooring.

This defect can be remedied by carefully prying off the moulding and renailing it with long finishing nails that go diagonally between the bottom of the baseboard and finish flooring, without entering either, into the sub-floor or beam beneath.

Subsequent expansion and contraction will cause the floor and baseboard to move, but the moulding will not shift and therefore no gap will show between floor and moulding.

DREW PEARSON ON The WASHINGTON MERRY-GO-ROUND

(Copyright, 1951, By The Bell Syndicate, Inc.)
Drew Pearson says: Navy won't help bomb Russia under Air Force command; Korean cease-fire—a prelude to another Pearl Harbor?

WASHINGTON—It probably will be denied, but the Navy has refused to take part in bombing Russia, in case of war, rather than submit to Air Force command.

This is another flare-up in the bitter, Navy-Air Force feud over whose planes should drop the atomic bomb and spearhead the air offensive. The Navy has sought the strategic air role for its carriers, but the joint chiefs of staff repeatedly have overruled the Navy and assigned strategic bombing to the Air Force.

However, Chief of Naval Operations Admiral Sherman came up with a new offer at a recent meeting of the joint chiefs. He accepted a secondary role for his carriers, but offered naval air support in case of strategic air operations against Russia. The joint chiefs in turn agreed to use carriers for strategic bombing, provided they took their orders from the Air Force.

This was too much for Admiral Sherman. He flatly refused to take part in strategic bombing unless the Navy commanded its own flight missions.

Another Pearl Harbor? During backstage talks in the State Department the question has arisen more than once. "What if the cease-fire moves in Korea could be the prelude to another Pearl Harbor?"

It was just before Pearl Harbor, of course, that Japan sent special negotiators to Washington, ostensibly to patch up our rupturing relations. Suppose history repeats, now ask some of our diplomats.

Unfortunately certain world developments appear to justify this question mark. One is the steady concentration of Chinese troops on the French Indo-China border. Another is the heavy shipment of kero-

sene from Manchuria south toward French Indo-China. Kerosene is used to fuel jet planes.

Another is troop concentrations reports of troop maneuvers on the Yugoslav border, plus Red army movements in East Germany and Poland. The latter have gone on for some years, and may or may not mean anything.

However, it is important that the United States is winning the friendship battle in both Japan and Germany, while the Soviet is losing out. And when a nation finds itself slipping, the usual move in a dictatorship is military action.

Another suspicious factor is the sudden flag-waving for peace now inspired by Communist groups. Word is reported to have gone out from Moscow that the new Communist line is to plug for peace at any price.

This is what makes sincere and genuine peace negotiations more difficult. Ninety per cent of the American people devoutly want peace. An equal proportion of West Europeans also want peace, are even more devoutly anxious for it than we—because they are tired, extremely war-weary and would not follow us in a war that came too soon.

Furthermore, they would not follow us now if we did not bend over backward to accept any and all Communist peace moves in Korea.

This was one reason why General Ridgway accepted the Communist proposal to meet in unneutral Kaesong rather than on a neutral Danish hospital ship. This also was why he has put up with the rebuff of having our negotiators surrounded by armed Communists. For, when the public and your allies are peace-hungry, they expect their military commanders to meet almost anywhere.

However, what the American public has to remember is that peace obtained at any price is never a lasting peace, and that as far as preparedness is concerned, this is no time for us to relax.

Washington Pipe Line Democratic Chairman Bill Boyle was warned by White House advisers not to send telegrams to Democratic national committee members urging them to pressure Congress on price controls. "We've got 30 to 40 Republican votes lined up," Boyle was warned, "and we may lose them if this looks like a Democratic issue."

Erudite Senator Joe O'Mahoney of Wyoming is so overworked that his secretaries and executive assistants have come to the radio recording room of the Senate in order to squeeze in a word with him.

Nervous Senator Cain of Washington got in wrong with other GOP-ers for jumping the gun on part of the MacArthur committee report on the eve of cease-fire talks in Korea. Senator Brewster of Maine begged him to wait, but Cain wouldn't. The globe-trotting Senate Foreign Relations committee gave out quite an imposing list of people it would interview abroad. But it omitted one name—Franco. Apparently the soldiers weren't enthusiastic about publicizing their visit with the dictator.

AIRBORNE MACHINERY Special road-building and other earth-moving machines, suitable for transportation by airplane, have been developed. A combination of strength and lightweight is the aim.

FLY CONTROL PLANNED PRINCE ALBERT, SASK. —(AP)— A new control method is being used against the black fly menace in Saskatchewan this Summer. The program involves dumping a mixture of oil and DDT in rivers.

Five babies are born every minute in the United States.

TEXANS IN WASHINGTON—

Number Of Bills Passed Isn't Only Yardstick To Measure Congress' Work

By TEX EASLEY

WASHINGTON—(AP)—The number of bills Congress passes isn't the only yardstick for measuring the amount of work it does.

Hundreds of bills are introduced on the opening day of a session. As of July 1 the number introduced totaled 4,679 in the House and 1,790 in the Senate, plus several hundred resolutions offered in each body.

Of this grand total of 6,469 bills, only 53 were signed into law by President Truman as of July 1. In addition, out of 361 joint resolutions of the House and Senate, 16 were signed by the President.

These joint resolutions largely were measures granting temporary extensions of laws about to expire, so more time could be devoted to consideration of permanent legislation.

A big percentage of bills introduced never have any chance whatever of becoming law; many are introduced purely for political effect. They all are referred to committees, and that's where their fate usually is decided.

Almost Continuous So, although only a handful of measures were enacted during the first six months of the year, the various committees have been in almost continuous session. This is particularly true of those committees dealing with taxation, appropriation, economic controls, foreign relations and the armed forces.

The Defense Production Act of 1950, for example, was considered for months by the Banking and Currency Committees of the House. Rep. Wright, Chairman of Texas' House group, which reported an 84-page bill to the floor for action.

Virtually every page contained provisions of vital interest to some part of the country or to some segment of the nation's economy.

One provision, strongly backed by Patman, establishes a Small Defense Plants Corporation to assist smaller concerns in obtaining a fair share of defense contracts and scarce materials and to aid them in obtaining loans for financing construction or expansion.

Provides Authority One section provides broad authority for a system of priorities of scarce materials. Another deals with expansion of defense manufacturing plants by loans and other forms of governmental assistance.

And another section deals with price and wage controls. The big new tax bill finally was sent to the House floor after months of intense study by the Ways and Means Committee, on which Rep. J. M. Combs of Beaumont is the lone Texas member.

Passed by the House the bill went to the Senate Finance Committee. Senator Tom Connally serves on that group, as well as holding down the chairmanship of the Senate Foreign Relations Committee.

Both Connally and Senator Lyndon B. Johnson, the latter a member of the Armed Services Committee, served on the group which held weeks of study into the MacArthur controversy. That was the combined Armed Services-Foreign Relations Committee.

The House Appropriations Committee was in session almost every day, Saturdays included, during

first six months of the year. The fiscal year of the government ended June 30, so they were trying to finish hearings on money measures for all the departments and agencies by that time.

Mahon Is Chairman Chairman of the Armed Services subcommittee on appropriations is Rep. George Mahon of Colorado City and Lubbock. A constant stream of admirals and generals, flanked by subordinates ranking from sergeant to colonel and yeoman to commander, paraded week after week into Mahon's committee room to explain the need for billions of dollars.

Likewise, Houston's Congressman Albert Thomas headed a subcommittee which heard top officials of various other agencies justify or attempt to justify their requests for large sums.

With all these facts in mind, it is clear that any reference to the number of bills Congress has passed is little indication of the work it has done.

The number of bills passed at this stage also fails to reflect the progress of legislative studies, for many committees carry on hearings by their subcommittees simultaneously. Toward the end of a session they report out a number of bills within a short period.

While some bills require months of study, others of relative unimportance or of an uncontroversial nature may be passed by unanimous consent by either body after brief study in committee.

Salzburg Puppets To Tour America

SALZBURG—(AP)—Salzburg's famous Puppet Theater is scheduled to tour the United States during the Autumn of 1951.

With more than 700 puppets, the theater will make its first appearance at Boston some time in October. Seven operas, one of them figuring the life of Mozart, and fairy-tales, like "Snow White" and the Seven Dwarfs" will be shown in the United States.

Four-fifths of the water consumed in the United States comes from streams and lakes, with wells providing the remainder.

FLOATING ALONE—Capt. Norman N. E. Brocker, of the British forces in Korea, decided to take a nice cool dip after reading the headlines which read "All Quiet on Front." But being on the front himself, he wasn't ready to believe everything he reads, so he donned his steel helmet—just in case. Or anyhow, that's what the man said.

X-Ray Machines Allow Extra Services

IT'S REALLY VERY SIMPLE — Dorothy Dodson, X-ray technician at the Midland Memorial Hospital, explains to Charlie McCarthy just how the X-ray will be made.

Midland Memorial Hospital can give service not offered by any other hospital of comparable size in West Texas because of two new machines for X-ray treatments.

The machines, one for superficial therapy on skin diseases and surface cancer and the other for deep therapy, are the pride of Dr. H. D. Gilliam, radiologist at the hospital, and the staff X-ray technicians.

The extra service brings to the hospital patients from surrounding towns and other cities as far away as Clovis and Hobbs, N. M. The machines, used primarily for treatment of cancer, have been installed in rooms where walls and doors are coated with lead as a protection against possible harmful rays. Windows in the rooms are treated with lead.

The superficial therapy machine is a gift of the Midland Diagnostic Cancer Clinic and cost approximately \$5,500. The other machine is valued at about \$20,000 and is now being used to give treatments to some 50 patients.

Dr. Gilliam, a physician with a specialized field, is a member of the American Board of Radiology. Ala. Joe Oliver, head technician, came to Midland January 1 from a similar position in Lubbock, where she had worked more than six years. She is a member of the American Registry of X-ray Technicians.

Dorothy Dodson, the other staff technician, came to the hospital in May, also after experience in Lubbock. Workers in the department, in addition to giving X-ray therapy,

make the diagnostic X-rays which are more familiar to most patients—the shot of the collar bone Junior broke when he fell off the porch or

Central Supply Room Important Division Of Modern Hospital

One of the most vital departments of a modern hospital is the Central Supply room.

At Midland Memorial Hospital the steady stream of supplies coming from this department is directed by Mrs. Pauline Rogers, a slender, dark-haired brunette clad in a white cotton uniform.

Hers is the job of keeping tab of some 2,000 items in the drug supply room—worth about \$25,000—sterile cotton sheets, sponges, surgical instruments and hundreds of other routine items.

In addition, Mrs. Rogers also serves as nurse for emergency calls in the afternoon and assists in the operating room, helping the doctors and nurses scrub, put on their gloves and don their surgical gowns.

Is Main Responsibility

But her main job is keeping the supplies moving.

For each major and minor operation there must be a surgical pack, containing all the necessary linens, which must be assembled and placed in the autoclaves for sterilization.

There are some 500 hypodermic syringes used daily in the hospital and each of these must be disassembled, cleaned and wrapped again by hand.

Every day all the rubber gloves have to be cleaned, powdered and wrapped. The cleaning and wrapping are done by hand but they are placed in special machines for powdering. More than 100 pairs of gloves are used daily.

Operating from her supply room, she sends required articles over a gleaming "dumb waiter" which connects with each floor in the hospital.

11-Member Board Directs Hospital

An 11-member board of trustees guides the policies of Midland Memorial Hospital.

The present board consists of George T. Abell, chairman; Ralph Barron, Hilory G. Bedford, John P. Butler, A. N. Hendrickson, Mrs. J. Howard Hodge, John W. House, J. W. McMillen, Mrs. Ruth Scharbauer, Frank Stubbeman and Dr. John B. Thomas.

a view of the baby's interior after he swallowed the button—and the fluoroscopic studies used in diagnosing some diseases of the digestive tract.

A supply of radium, used chiefly for treatment of cancer, is kept in a suite of rooms in the east wing of the hospital's first floor.

Other equipment includes a large machine for diagnostic X-rays and two mobile machines which may be taken to the operating room or to a patient's room, film developing equipment and view surfaces especially lighted for study of X-ray film.

Big Spring Boosters Will Visit Midland

A group of Big Spring goodwill trippers, publicizing the eighteenth annual Big Spring Cowboy Reunion and Rodeo, July 18-21, will arrive in Midland at 5:30 p.m. Tuesday, according to information received by the Chamber of Commerce.

The boosters will present a brief program and will scatter over the business district to advertise their annual celebration.

Police Chief Erbe Hemingway said a police escort will meet the Big Springers at the west city limits, escorting them into the city.

HIDES TO SHOES

The 500,000,000 pairs of shoes made in the United States during an average year require the use of 22,000,000 cattle hides, as well as hides of other animals.

PARASITIC FISH

Lampreys are eel-like primitive fish, with well-developed sucking mouths. Some are parasitic and attach themselves to fish and obtain nourishment from the body of their host.

Gift Spirit Makes Clinics Possible

Midland Memorial Hospital is more than a haven for the sick and the stricken.

The spirit that is behind the hospital has given impetus to the creation of two other organizations, whose work is tied closely to that of the hospital and whose influence has already been felt throughout West Texas.

One is the Midland Diagnostic Cancer Clinic, organized only eight months ago but already holding official recognition from the American Cancer Society.

The other is the Midland Children's Diagnostic Clinic, which has offered diagnostic aid to dozens of unfortunate children whose medical cases possibly would never have been brought to light.

Their services are not limited to Midland or Midland County but are made available to more than a score of counties in West Texas and are helping to build Midland into a medical center.

The cancer clinic long had been a dream of a number of Midland citizens who were concerned with battling the dread disease.

The opening of Midland Memorial Hospital, with its modern facilities and equipment, cleared the way for positive action and on February 1, the cancer clinic opened its doors for the first time.

It was financed through gifts of local citizens interested in the problem and it was their money which kept the clinic going through its early days.

Formally operated by the Midland Diagnostic Cancer Clinic Foundation, headed by Jack Wicker as chairman of the board of directors, the clinic staff is headed by Dr. Kurt Lekisch.

Other members of the hospital staff have made their services available to the clinic.

In March, the American Cancer Society gave its first recognition to the clinic by approving a \$1,200 grant. Only recently another society grant has been approved.

These funds still are supplemented by Midland contributions.

Patients are referred to the clinic by their personal physicians in cases where tumors are suspected. The diagnostic work is carried on without charge, other than that for actual expense of materials used. Reports of the clinic's findings are referred back to the physician for further treatment.

Operating on a similar basis is the children's clinic.

This agency, too, has long been in the planning stage with the help of the Midland Service League and the Children's Service League and finally opened last March.

The primary purpose of this clinic is to offer diagnostic services to underprivileged children and doctors, clubs or public agencies have referred numerous cases for study. The clinic itself does not undertake treatment.

Sessions are held each Tuesday afternoon and appointments can be made with Mrs. Tom Potter, the registered nurse in attendance.
