## Break Hinted In Kaesong Deadlock

### Reds Listen To Proposal By UN Chief

MUNSAN, KOREA —(P)—United Nations delegates Wednesday suggested that a subcommittee be set up to break through the formality of Korean truce negotiations and attempt to settle the buffer zone deadlock.

Red delegates showed interest, a UN spokesman said. Simultaneously, UN command headquarters in Tokyo announced the Allies, if necessary, will continue "destroying or driving out of Korea" the Red Chinese and Korean armies.

### Cool Front May Douse Texas Heat

By The Associated Press

A cool front, kicked along by a 25-mile-an-hour wind, began flushing the heat out of the Texas Panhandle Wednesday.

The weather bureau said the front probably will reach into Central Texas by Thursday but will be considerably weakened by that time.

Nevertheless, the breath of cool air offered the best hope yet of widespread relief from the state's historic heat wave, which has been blamed for the deaths of 25 persons.

The weather bureau cautiously said it will be "not so warm" in the Panhandle and South Plains Wednesday night and Thursday. The same "not so warm" tag was hung on Northwest Texas on Wednesday night and North Texas Thursday.

"We have to be careful," a weather bureau spokesman said, "because this front will get the strength pretty well knocked out of it by the time it travels over a few hundred miles of hot land, and gets a beating from the sun. I wouldn't say it will be cool. Just not so hot."

But plain "not so hot" was welcome news for a state which has suffered in a month-long heat wave during which temperatures hit as high as 116, crops shriveled, cattle were herded off dry ranges for early marketing, and life generally was miserable.

After wandering thundershowers brought brief respite to some sections over the weekend, the crop-killing temperatures soared again Tuesday. College Station had 106 degrees; Fort Worth, 105; Tyler, Presidio and Dallas, 104; Junction, Waco and Austin, 103; Victoria, San Antonio and Cotulla, 102.

### Scouts, Explorers Due Here Saturday For Swimming Meet

Midland will be host Saturday to 150 Boy Scouts and Explorers here for the fifth annual Buffalo Trail Council swimming meet.

The meet will be held at Pagoda Pool, starting at 9 a. m. Eight events will be held in each of two divisions, Boy Scout and Explorer.

Entries are expected from Midland, Sweetwater, Odessa, Monahans, Kermit, Poyote and Pecos, according to C. C. Boles, who is council camping and activities chairman. Boles will be in charge of the entire meet here.

C. W. Brennan, W. R. Upham and Dr. J. O. Shannon will be in charge of a picnic lunch for all contestants and leaders following the swimming contest.

Explorer Post 65, sponsored by the First Presbyterian Church, will represent Midland in the Explorer division. Troops 53, Terminal, and 54, First Baptist Church, will compete for Midland in the Boy Scout division.

Trophies will be presented to winners in each division, with streamer awards going to units winning first, second, third and fourth in each division. Ribbons will be awarded to individual event winners.

### John D. Rockefeller Marries Wednesday

NEW YORK —(P)—John D. Rockefeller, Jr., 77-year-old multimillionaire, and Mrs. Martha Baird Allen were married Wednesday in Providence, R. I. It was announced here.

The bride, who is 56, is the widow of Arthur M. Allen, a prominent Providence lawyer and a classmate of Rockefeller's at Brown University. She is a former concert pianist.

At Kaesong, the chief UN delegate, Vice Adm. C. Turner Joy, proposed a two-man committee — one from each side — seek an end to the deadlock in an air of informality.

He proposed the subcommittee "meet around rather than across the table." They thus would escape "the formality of utterances" which he said contributed to the three-week-old dispute over where to place a military dividing line across Korea that would separate opposing armies during an armistice.

Joy asked the Communists to reply Thursday. The negotiators meet next at 1 p. m. Thursday (9 p. m. Wednesday CST).

The five Red generals "showed more visible interest in Admiral Joy's proposal than they have shown in any other statement," Brig. Gen. William P. Nuckols reported. "It was sufficiently different to call for their undivided attention," Nuckols commented.

Delegates More Cheerful

Both delegations appeared more cheerful than usual when they left the meeting place, a pool dispatch from Kaesong said. And Communist newsmen on the scene hinted the Reds might be willing to discuss a demarcation line based on the present battle front, as the Allies demand.

Delegations have been stymied since July 27 over the location of the demarcation line. North Korean Lt. Gen. Nam Il, heading the Red negotiators, Wednesday reiterated the Red demand it be along the 38th parallel. This generally is south of the battle line.

Joy made his subcommittee proposal near the close of the twenty-fourth session.

### O'Dwyer Name Bobs Up Again In Crime Committee Hearings

WASHINGTON —(P)—Irving Sherman told Senate crime probes Wednesday he left New York at William O'Dwyer's request shortly before the 1946 mayoralty election to avoid being questioned about "a terrible blast in the newspaper."

O'Dwyer, now U. S. ambassador to Mexico, was the Democratic candidate for mayor in 1945 and won the election.

Sherman, identified by the crime committee as a "known gambler and intimate" of racketeers, said he was told by a go-between that O'Dwyer wanted him to get out of town.

He said he was told "there was going to be a terrible blast in the newspapers."

He learned later, he said, that the blast was a charge by O'Dwyer's opponent, Judge Jonah Goldstein, that Frank Costello, Sherman and other figures were backing O'Dwyer's candidacy.

Costello is a well known gambler described by the committee as a dominating figure in Tammany Hall politics in New York.

Sherman, long-sought witness in the crime committee hearings, had been named by the committee as a key link in its inquiry into O'Dwyer's election and regime in New York.

### Water Exploration Project Underway

Exploration work on a 17-section tract northwest of Midland was started Tuesday to determine if it will supply the city's water needs.

City Manager W. H. Oswald said Wednesday drilling of the first well was started Tuesday afternoon by the Dwyer Texas Company, which has contracted to do the exploratory drilling.

CAREERS ENDED—Carrying their luggage, two unidentified cadets—first to leave out of a group of 90 implicated in the "cribbing" scandal—march out of the U. S. Military Academy at West Point, their professional careers as officers ended.

### Russia Will Get Rubber From Britain

TRURO, CORNWALL, ENGLAND —(P)—Russia has reserved the right to tear up a new timber contract with Britain unless the U. S. S. R. can use the proceeds to buy British rubber.

Sir Hartley Shawcross, president of the government Board of Trade, said here Wednesday Britain agreed, because Eastern Europe is "the only available source of supply" for many of this country's vital imports.

Under U. S. pressure, Britain cut off all rubber exports from her colonies to Red China in April because rubber is an important war material.

Exports to Russia have continued, although Britain says it rations the Soviet Union to an amount considered normal for civilian use.

Grain Purchases Talked

Under the wood contract recently signed, the U. S. S. R. agrees to deliver \$28,000,000 worth of timber to Britain, with the option of supplying another \$14,000,000 worth. The period covered by the contract has not been disclosed.

The two nations now have started talks on the purchase by Britain of almost 1,000,000 tons of Soviet coarse grains.

Shawcross said Russia spends more of the pounds sterling which it earns in such deals on rubber than it spends on anything else.

"We have therefore," he said, "accepted in the last timber contract that we made with the Russians a clause which entitles the Russians to decrease or suspend deliveries of timber if they are unable to buy rubber with the sterling they earn by selling us their timber."

"This does not mean that supplies of rubber to Russia will increase nor does it mean that there is any change in our ban on rubber to China."

Britain's view is that this sort of trading—particularly the exchange of timber and grains and other Eastern European food products—is indispensable and that a cutdown of such dealings would harm Britain as much, if not more, than it would the Russians.

### Joseph Whitsett, Civil War Veteran, Dies Wednesday

BONHAM —(P)—Joseph Haden Whitsett, 103, one of Texas' three surviving Confederate veterans, died Wednesday at his home here.

Almost blind and deaf, he had made his home with his niece, Mrs. Zora Arledge.

He served with Shelby's Escort in the Missouri Cavalry during the Civil War.

His 104th birthday was little more than a month away—September 18. Whitsett's death leaves only Walter W. (Colonel Will) Williams of Franklin, Texas, and Thomas Evans Riddle of Austin of Texas' once-numbered legions of Confederate veterans.

### Battle Casualties Again At New Low

WASHINGTON —(P)—Announced U. S. battle casualties in Korea reached 80,750 Wednesday, an increase of 320 since last week. This is the lowest weekly increase since the first weekly summary was issued last August 7.

The Defense Department's summary, based on notifications to families through last Friday, reported 58 killed in action, 273 wounded and 11 missing.

### Council Postpones Meeting To Thursday

The City Council lacked a quorum of its members Tuesday night and a scheduled meeting and public hearing on zoning was rescheduled for 3 p. m. Thursday.

Present were J. W. McMillen, J. B. McCoy and Mayor Perry Fickett. Councilman R. B. (Bum) Gowden, who had cancelled a trip to Colorado in order to attend, arrived after the meeting had been adjourned and about 18 citizens in the audience had gone.

A group of women, led by Mrs. Charles Klapproth and Mrs. Hope Russell, was present to seek advice of the council regarding establishment of a camp here for transient workers. The council heard these women briefly and invited them back to the Thursday meeting.

POLIO EXPERIMENT—Dr. Will Miller of Frost, Texas, prepares to administer rabies serum to a little girl, one of the 400 persons who volunteered in an experiment seeking immunization against polio. Dr. Miller and Dr. Herbert Hipps, Waco orthopedic specialist, are testing the theory that persons inoculated against rabies may be immune to polio.

### Midland Treasurer Hit By Strange Legal Quirk

Consider the plight of Mrs. Minnie Dozier, who is working without pay as Midland County treasurer.

A month ago she had, along with other county officials, an annual salary of \$6,750.

It had been \$5,400 until two months ago, when the Commissioners Court voted salary increases for all of the county's officials.

No one had questioned the raise or doubted publicly that the officials deserved it. And everyone was happy.

Then last month, an opinion arrived from the state attorney general's office with sad news for Mrs. Dozier.

Since the first of the year, it seemed, Midland County had graduated into a bigger population bracket and, through a strange quirk in the laws, Mrs. Dozier's salary was supposed to have been reduced to \$3,980.

County Judge Clifford C. Keith, County Attorney Reagan Legg, County Auditor Netye Romer and Mrs. Dozier frantically began checking the statutes.

They finally decided the opinion was correct.

There was one bright spot, however. Under a new law, Mrs. Dozier's salary can be set at any amount at the discretion of the Commissioners Court—after September 7.

So, this week, Mrs. Dozier dutifully returned \$718.89 in cash to the county.

In addition she will draw no more salary until September 7, crediting the amounts due her to the overpayments she received since January 1.

Commissioners promised to correct the situation at their first meeting after September 7.

### She Swore They Couldn't Do It; Somehow, They Did

The striking 26-year-old blonde told police officers in no uncertain terms they were not putting HER in jail.

She had been arrested shortly after midnight for creating a disturbance in a Midland restaurant and was booked a short time later for drunkenness and resisting arrest.

"Call J. Edgar Hoover," she shouted as she twisted in the arms of police officers. "Get him down here."

"Call anybody. You can't put ME in jail."

Wednesday morning, she meekly paid \$105.95 when brought before Judge J. M. DeArmond in Corporation Court.

The \$5.95 was to pay for the garbage can she destroyed while spending the night in the county jail.

### Lime Discovery Is Indicated On DST In Howard Wildcat

Standard Oil Company of Texas No. 1 Harvey L. Adams, wildcat in Northwest Howard County, indicated as a possible discovery from an unidentified lime section on a drillstem test from 9,620 to 9,647 feet.

On the test, gas surfaced in four minutes and oil in 30 minutes. The oil headed two times and died. No estimate was made on amount of oil in the heads.

Operator closed tool and started out of hole. When 13 stands of drill-pipe were pulled it unloaded light green oil for one minute.

No estimate was made on the recovery from the section in the drill-pipe above the circulating sub. There were 400 feet of salt water in the test tool below the sub.

Operator is now running a drillstem test from the same total depth of 9,647 feet.

Location is 1,980 feet from west and 600 feet from north lines of section 47, block 34, T-3-N, T&P survey.

### Slight Shows Found In Midland Wildcat

The Blackwood & Nichols Company No. 1 Hofferkamp, wildcat two and one-half miles northeast of the city of Midland and in Central-North Midland County, is being drilled below 7,947 feet in sand and shale after a drillstem test in the upper Spraberry from 7,830-79 feet.

Tool was open three hours. There was a good blow of air throughout the test. Recovery was 2,500 feet of fluid which was 720 feet of slightly gas-cut mud, 450 feet of heavily gas-cut mud, 700 feet of gas and salt water-cut mud and 570 feet of gas, salt water and slightly oil-cut mud.

Open bottom-hole flowing pressure was 380-1,115 pounds. Shut-in pressure after 15 minutes was 2,770 pounds.

Drillrate is 1,980 feet from south and 600 feet from west lines of section 19, block 38, T-1-S, T&P survey.

### Shallow Wildcat Is Spotted In NW Pecos

Thomas & Simons of Midland spotted location in Northwest Pecos County for a 2,000-foot cable tool wildcat.

It will be drilled as the No. 1 B. L. Smith, 1,650 feet from northeast and 990 feet from southeast lines of section 7, block 10, H&GN survey and 21 miles north of Fort Stockton.

Operations are to start at once.

### Cosden Schedules E-C Howard Test

Four miles north of Coahoma and in East-Central Howard County, Cosden Petroleum Company spotted location for its No. 1 W. W. Lay, Jr., which is to be drilled as a 5,000-foot Spraberry wildcat.

Drillrate is set 690 feet from north and east lines of section 23, block 31, T-1-N, T&P survey.

Drilling operations are to be started by September 1.

### C-N Howard Failure Abandoned, Plugged By Fullerton-Amcan

Fullerton Oil Company and Amcan Oil Corporation No. 1 Collins Ranch, Central-North Howard County wildcat, 20 miles northeast of Big Spring has been abandoned and plugged.

This prospector drilled to a total depth of 8,350 feet in the lower Pennsylvanian. The bottom section of that formation did not have any shows of oil or gas.

Operators plugged back to 7,978 feet in the upper part of the Pennsylvanian and tested. On the last test the recovery was 240 feet of slightly gas cut drilling mud and 90 feet of salt water.

No Shows of Oil

There were no shows of oil. Operators then ordered the exploration plugged.

Location was 720 feet from west and 600 feet from south lines of the northwest quarter of section 42, block 31, T-3-N, T&P survey.

Top of the Pennsylvanian lime was called at 7,875 feet. Elevation was 2,605 feet.

### Wildcats Scheduled For SE Schleicher

Grey-Wolfe Company of Houston is to drill two wildcats in Southeast Schleicher County.

The firm's No. 1 Mrs. W. F. Edmiston of Eldorado is to start by September 2. Drillrate will be 690 feet from north and 1,220 feet from east lines of section 34, block K, GH&SA survey and 16 1/2 miles southeast of Eldorado and eight and

 One-quarter mile southeast of the Page-Strawn field.  
 It will drill to around 9,000 feet for a test of the Strawn unless production is found at a lesser depth.  
 The firm's second wildcat, due to be started by December 1 will be on Mrs. W. F. Edmiston's land and on the west side of 122.1 acre of section 14, W. A. Binnion survey.

### Schleicher Wildcat Is Reported Flowing

Unofficial and unverified reports say Wesley W. West No. 1 Mittel, Pennsylvanian discovery in Central-North Schleicher County, is flowing to clean out and test.  
 It is reported that the flow is coming through perforations at 6,322-62 feet in five and one-half-inch casing cemented on bottom at 6,372 feet.

The discovery has been credited with flowing oil heavily on several drillstem tests over a lime section which is said to be approximately 200 feet thick.  
 Location is at the center of the southeast quarter of the northeast quarter of section 77, block TT, TC survey and two and three-quarter miles west and slightly north of the Huldale, North-Pennsylvanian field.

### SW Kent Tester Is Drilling After DST

Kewanee Oil Company No. 1-P WL, a one and one-quarter mile north outpost to the north side of the East Polar-Pennsylvanian field of Southwest Kent County, is drilling below 7,147 feet in lime and shale.  
 Operator took a drillstem test.

3,785-75 feet, where a drillstem test recovered 2,100 feet of oil. No gauge on the flow has been reported.  
 Location is 330 feet from south and west lines of tract 16, A. Losoya survey No. 515 and eight miles northwest of Talpa.  
 In the Tex-Harvey field of Central-South Midland County, Frank and George Frankel No. 2-G L. B. and Jay H. Floyd was completed for a 24-hour flowing potential of 409 barrels of 38.2-gravity oil and no water.  
 Completion was from open hole at 6,279-727 feet after 4,500 gallons of Hydratrac.  
 Gas-oil ratio was 323-1 and tubing pressure was 230 pounds. Final was taken on a 24/64-inch tubing choke.

### Tom Green Test Is Drilling Deeper

L. E. Scherck No. 1 J. E. Kapavik, Northeast Tom Green County wildcat is drilling ahead below 4,870 feet after encountering its first porosity in the Strawn, topped at 4,708 feet which is 2,835 feet below sea level.  
 A 45-minute drillstem test was taken from 4,808-36 feet after samples showed some fluorescence, staining and porosity. A strong blow of air developed in 15 minutes and died in 30 minutes.  
 Recovery was 270 feet of heavily gas-cut and slightly oil-cut mud. There was no open flowing bottom-hole pressure. Shutin pressure after 15 minutes was 770 pounds.  
 No. Kapavik is 688 feet from north and 633 feet from east and west lines of subdivision 6, Tom Green County school land survey.  
 The wildcat is projected to the Ellenburger.

### Val-Carroll Stakes Crockett Wildcat

Val-Carroll Oil Company of Iran has scheduled a Northeast Crockett County wildcat as the No. 1 University to drill to 2,000 feet with cable tools.  
 Location will be 330 feet from north and east lines of northwest quarter of section 21, block 42, University land survey. It is 16 miles north of Ozona and one mile east and slightly north of Anderson & Starr No. 1 University, wildcat abandoned at total depth of 1,555 feet.

### Pegasus In Upton Gets New Oil Well

Magnolia Petroleum Company has completed its No. 2 John Windham as a new producer from the Ellenburger in the Pegasus field of Northwest Upton County.  
 The well flowed 24 hours through a 24 64-inch choke to make an initial production of 854.55 barrels of 53.4-gravity oil.  
 Gas-oil ratio was 1,525-1. Tubing pressure was from 815 to 850 pounds and casing pressure was zero. No water was present.  
 Production is coming from open hole between 12,774 feet where 5 1/2-inch casing is set and total depth of 13,066 feet. Top is at 12,775 feet. The open hole was treated with 5,000 gallons of acid.  
 Location of the new well is 690 feet from north and west lines of lease in section 32, block 40, T-4-S, T&P survey.

### NE Upton Field Gets New Tester

John A. Barnett and Ashland Oil & Refining Company No. 2 Harvey Braden is to be drilled as a 7,500-foot test in the Weiner-Floyd Spraberry field of Northeast Upton County.  
 Drillstem is 666 feet from south and 2,007 feet from west lines of section 20, block 37, T-5-S, T&P survey.  
 Five more completions and three more locations have been reported in the Spraberry trend of Midland, Glasscock and Upton Counties.  
 In the Midkiff-Spraberry field of Southeast Midland County, Humble Oil & Refining Company finished its No. 2 C. L. Klapproth on the pump for a daily potential of 197 barrels of 37.8-gravity oil plus 12.3 per cent water.  
 Completion was from open hole at 7,240-7344 feet after 3,000 gal-

## ★ IN HOLLYWOOD ★

### Hollywood's Reaching Back Into Files For Tricky Tags

By **ERSKINE JOHNSON**  
 NEA Staff Correspondent  
**HOLLYWOOD** — Maybe it's the influence of old movies on TV, and then again maybe it isn't, but Hollywood's reaching back into the files for tricky tags for the new face crop.  
 The trend's already started at 20th Century-Fox, where a bubbly, curly, stacked, white-eyed lass, born Mitzi Gerber is now officially known as Mitzi Gaynor.  
 Any day now I expect to hear about Hyman Farrell, Dolores Kimball Young, Bessie Mae Negri, Esther Arkubick, Betty Banky and Oscar Talmadge.  
 Not to mention Piper Gish.  
 Those monikers on the marquee may drag a lot of old-timers who've been through "The Birth of a Nation" away from parlor screens. You never can tell.

I asked Mitzi Gaynor, who was going, "Hi, doll," and, "Hi, sweetie," to everybody in the studio commissary, about the handle switch.  
 Mitzi giggled.  
 "I signed my contract as Mitzi Gerber and the name was fine with me. But one day I was informed that the New York office didn't like the Gerber. They said it sounded like canned baby food and 'pured liver.'"  
 "Then they locked me into a room with a lot of publicity men and the fellows started going through the phone book for a new last name. They'd say, 'How does Mitzi Pomerantz sound?' Or 'What about Mitzi Piusidiski?' I was dying. A couple of days later my telephone rang.

"Somebody wanted to speak to Miss Gaynor," I said. "You have the wrong number." Then the voice said, "Oh, no I haven't! This is the studio publicity department and you're Miss Gaynor, dear."  
 "After Janet Gaynor?" I asked.  
 Mitzi held back a merry, ha-ha and said that more funny, killing things had happened to her since she became Mitzi Gaynor.  
 Like the day a waitress approached her and asked:  
 "Is it true that you're the secret daughter of Janet Gaynor?"  
 Then there was the time she broke her toe doing a ballet number in "Golden Girl," the picture that's supposed to zoom her right up there with Betty Grable and June Haver as a musical comedy queen. Mitzi—who's all of 19 "but I

feel like an old hat"—had to call for a taxi to take her home. She drew a nearsighted cab driver, who peered at her wistfully as she slumped into the backseat in her leg cast.  
 "May I tell you something, Miss Gaynor?" he asked as he fumbled to close the door.  
 "Of course," smiled Mitzi, arranging her plaster of paris gam on the seat.  
 "You've been my favorite," murmured, the myopic hack, "ever since I saw you in 'Seventh Heaven.'"  
 . . . . .  
 Mitzi waved to 23 scores, directors and cameramen, got bussed in a fatherly fashion on the cheek by a producer and pushed aside her rare roast beef for a few seconds to pose with a young actor named Robert Wagner.

Then Mitzi looked at some sills of herself wearing lights in her Lotta Crabbe role in "Golden Girl."  
 Somebody commented that Hollywood was in for a cycle of shapely dolls parading around in skin-clinging tighties.  
 Marlene Dietrich was encased like sausage in "Chuck-a-luck," came the information, and didn't Lillian Russell and the belles of her day wow the boys when they squeezed into their tighties?  
 I asked her how it felt to be starred after only two movie appearances in "My Blue Heaven" and "Take Care of My Little Girl."  
 She didn't say, "I'm simply overwhelmed."  
 She turned her clear eyes on me and said:  
 "I'm a very vain girl. You have to be vain in this business."

### Terminal Lions Hold Meeting

The Terminal Lions Club held its regular meeting Tuesday night in the Police Club at Terminal with Jack Turner, president, presiding.  
 Wick Fowler of The Midland Reporter-Telegram was speaker. He stressed a living theme of good neighbor relations, civic effort and less worry over personal and international problems.  
 First sheep in America are said to have been introduced into Virginia about 1608.

### Officers Look For Missing Founder Of Panhandle Town

AMARILLO—(AP)—Texas Rangers and county officers are searching for colorful Joshua Blocher, 85, missing since Sunday.  
 Blocher founded the town of Progress, six miles west of Muleshoe, in 1908. It once was a town of several hundred persons. Now there are but a few houses along the highway.  
 The slight, gray-bearded man last was seen at the cluttered, one-room cabin where he lived in Progress. Over the door hangs a weathered sign: "This is Progress."  
 Officers said there was the possibility Blocher was robbed and murdered. Many residents of the area believe he kept money in his shack. Three years ago he was beaten by thugs, who looked for "hundred dollar bills" but got only \$18 and Blocher's pocket knife.

## Willing Workers Have Luncheon

A covered dish luncheon was held at the Tuesday meeting of the Willing Workers Circle of the Asbury Methodist Church. The circle met in the home of Mrs. Charles Alken.

During the business meeting Mrs. Carmel Pirtle was elected study leader and Mrs. Elvis Hughes, reporter.

Mrs. J. E. Skelton gave the opening prayer and Mrs. Hughes gave the devotional.

Others attending were Mrs. Stan Tucker, Mrs. Charles Lynch, Mrs. Edgar Tanner, Mrs. Jim Horton and Lois Kennedy.

## Coming Events

### THURSDAY

The Palette Club will have lunch in the studio at 604 North Colorado Street. It will be open all day for members who desire to paint.

The Ranchland Hill Country Club will hold a buffet supper for members and guests in the clubhouse.

The Welcome Wagon Club will meet at 9:30 a. m. in the home of Mrs. W. D. Gull, 1803 North Main Street.

The Intermediate Youth Fellowship of the First Methodist Church will meet at 7:30 p. m. in the Educational Building.

The Ladies of the St. Ann's Church will meet at 1:30 p. m. in the home of Mrs. Charles W. Turner, 2600 West Holloway Street, to sew for the forthcoming Family Fair. The fair will be held September 29.

The Miriam Circle of the St. Mark's Methodist Church will meet at 9:30 a. m. in the home of Mrs. T. J. Smith, 407 Maple Street.

The Naomi Circle of the St. Mark's Methodist Church will meet at 8 p. m. in the home of Mrs. Joe Lemasters, 1906 North Main Street.

**FRIDAY**  
The Young Adults Class of the First Methodist Church will have a skating party at 7:30 p. m.

The Sashaway Square Dance Club will meet at 8 p. m. in the Midland Officers Club. Guests are welcome to attend.

**SATURDAY**  
The Children's Story Hour will be held at 10:30 a. m. in the Children's Room of the Midland County Library and in the library's Dunbar Branch. At Terminal the time will be 10 a. m.

The Order of the Rainbow Girls will have an initiation service at 3 p. m. in the Masonic Hall.

The Midland Officers Club will have a dance at 9 p. m. in the clubhouse. Lee Powers orchestra will play.

**FOR IVY PLANTS**  
A piece of charcoal dropped into a bowl in which you grow your ivy or similar houseplant will help keep the water clear and fresh.

For Sunday night supper serve cold salmon loaf with crisp potato sticks and creamed spinach. Add candied dil sticks as a zesty touch if you like.

## Modern Co-Eds Are Different; It's Not Like Grandpa's Day

The casual gaiety of college life, 1951 style, contrasts sharply with the stiff, matronly costumes and sober mien of co-eds who trod Northwestern's campus back in the days when equal educational opportunities for men and women were considered pretty much a new-fangled idea.

By ANNE LARSEN  
NEA Staff Writer

NEW YORK—Many a modern young miss, busily sewing name tapes and packing her bags for college, finds mingled in her thoughts—along with trepidation concerning trig—glowing dreams of football games, cokes in the campus hang-out, and, as likely as not, a bit of mild flirting with the boy across the aisle.

These musings, as normal as they may seem in the framework of today's living, are a far cry from the considerations that occupied the thoughts, several generations ago, of a young woman about to embark upon a course of higher education.

Worrying about mathematics would have been a waste of time. Chances were that her curriculum would contain no subject more demanding than advanced china painting. Serious doubt was felt a century back that the feminine mind was capable of absorbing any sort of learning more mentally taxing than the womanly arts.

Her opportunities for social life, as it's understood in the 20th century, were equally restricted. Unless she chose to break the rules, her contact with young men was likely to be limited to an occasional half hour—in the closely chaperoned dormitory parlor—with an admirer who'd managed to procure a proper letter of recommendation.

According to spokesmen at Northwestern University, which is celebrating its 100th birthday this year, it required social evolution as well as educational progress to change the long-skirted collegian of great-grandmother's day into the jeans-clad co-ed of 1951.

Chance figured largely, too, in the annals of this particular university. It was only a happy circumstance that a courageous young man named William P. Jones chose a certain June day a century ago as his date for breaking ground for his

new school for young females. Otherwise, it's likely a greater number of years would have passed before a woman graduating from college in Evanston, Ill., could expect a bona-fide degree rather than the academically worthless "laureates" that had long been bestowed theretofore.

On this day, also, was laid the foundation stone for Northwestern University, and when Jones "borrowed" the speaker and the assembled crowd from across the grove for his own dedication ceremony, the first link was forged in a chain of events that led, 14 years later, to the absorption of the little school as the woman's branch of the university.

Since 1869, co-eds have been a part of the campus scene at Northwestern. Their changing role is aptly demonstrated by a study of women's athletics through the years. At first, a sedate stroll in full dress took care of exercise requirements. Later, after 1876 when the university's first gymnasium was erected, the young ladies—still engaged in mild indoor athletics.

Middie and bloomers were adopted by the daring about 1914; but it wasn't until the 1930's that the donning of shorts allowed sufficient freedom for seriously competitive sports.

Perhaps of greater significance, however, is the manner in which the co-eds have held their own in matters of intellect. Phi Beta Kappa, a national honorary society based upon academic standing, was established at Northwestern in 1889. Although women were not admitted until three years later, they set records from the beginning. In 1892 four women and nine men were elected. The following year an equal number of men and women qualified, three of each. Since there were at that time a great many more male than female students enrolled at the university, these records seem proportionately more important.

Today's young co-eds, examining the outmoded fashions and quaint ideas of those who occupied the dormitories before her, may very well view the various stages of educational development with more gratitude than understanding.

## Goffs Entertain Shell Employees

Mr. and Mrs. R. E. Goff were hosts to the members and guests of Shell's personnel department at an ice cream party Tuesday on their lawn.

Games were played during the evening. Those attending were Mr. and Mrs. A. H. Vineyard, Bobby and Jimmy; Mr. and Mrs. J. P. Thomas, Mr. and Mrs. G. H. Creighton, Dawn and Marjorie; Mr. and Mrs. J. E. Reid, Ronny and Judy; Robbie Goff, Mr. and Mrs. Paul Wecker, Paula and Judy; Mr. and Mrs. Aubrey Reid, C. D. Hodges.

Mr. and Mrs. Dick Starr, Margaret Ford, Natalie Walton, Jessie Mason, Flo Lampp, Mary Lou Royer, Betty Lewis, Nita Henson, Mary McNeely, Melba Kleitche, Billye Abbott, Patsie Abbott and Mary Lutz.

### BACK FROM TRIP

Mr. and Mrs. Joe C. Davis and son have returned from a vacation trip to points in Colorado.

### EMERGENCY TREATMENT

Zanada Laughlin, a welder, was dismissed from Western Clinic-Hospital Tuesday after emergency medical treatment.

## Presbyterian Circles Study Commandment, Survey Article

Bible study on the Fourth Commandment and discussion of the survey article, "Family Recreation," were the chief topics at the Tuesday meetings of First Presbyterian Circles.

Mrs. R. G. Patterson was hostess to Circle 6. Mrs. Roy Harris gave the Survey article and Mrs. Lewis Davis led the Bible lesson. Mrs. Sol Bunnell, chairman, presided over the meeting.

Others attending were Mrs. William Osborn, Mrs. Clifford Hall, Mrs. J. L. Kendrick and Mrs. E. P. Wheatdon.

Circle 7 met Tuesday morning in the home of Mrs. Robert Payne. Mrs. Butler Hurley, chairman, presided for business and led a discussion on "Family Recreation."

The Bible study on the Fourth Commandment was presented by Mrs. Roy Davis.

## French Heels Club Names Two Officers

Two new officers were named Tuesday night at a meeting of the French Heels Club in the home of Eleanor Simpson.

Ludy Whitley was chosen vice president and Julene Smith, membership chairman. Others present included Tinker Hempel, Jo Winters, Frances Eubank, Betty Kimbrough, Nancy Marshall, Rosemary Bohl, Eve Smith, Betty Simpson, Betty Perry, Ruby Miller, Jean McMillan and Patsie Abbott.

### PORTABLE PIN CUSHION

Make a portable pin-cushion by sticking a few pins and needles into the torn stub of an empty matchbook. Fold the cover down to keep them neatly in place. Such a handy pin and needle carrier requires next-to-no space in your handbag or traveling case.

### TWO AT A TIME

Baking may be successfully done on two shelves of your oven at the same time, provided you stagger the pans so that no upper pan is directly above a lower one.

## Eastern Star Has Initiation Service

Elizabeth Hardie was initiated into the Order of the Eastern Star at a meeting held Tuesday in the Masonic Hall.

Opale Pope, worthy matron, presided. Guests were Florence Smith, Wichita Falls; Hazel Hamm, Blanche White and Esther Higgins, Stanton; Betty Stephens, Artesia, N. M.; Sarah Rhodes, Mineola; Hazel E. Coffman, Big Lake; Berdie G. Rodgers, Madill, Okla.; Leora Grimes, Greybull, Wyo., and Irene Craig, Dallas.

Forty-two members were present. Hostesses for the evening were Angeline Newland, Cora Molton, Lorraine Ray and Elate Cates.

## Four Generations Visit Davis Home

And it isn't even a reunion! The C. R. Davis family, Route 2, has two sets of three generations and one set of four generations visiting them Wednesday.

Mrs. C. R. Davis and her father, J. A. Warren and his father, George Warren are visiting in the Davis home from Tolar.

The four generations include Mrs. J. A. Warren from Tolar, her daughter, Mrs. C. R. Davis of Midland, Mrs. Davis' daughter, Mrs. Jack W. Settles of Midland, and her daughter, Betty Kathryn.

The other set of three generations include Mrs. Warren and her daughter and granddaughter, Mrs. L. E. Settles and Jesse Pearl.

Mrs. Charles Mason was hostess Tuesday to the Sarah Bryant Circle. Mrs. R. L. Denton gave the opening prayer and Mrs. Arnold Scharbauer discussed the business.

Mrs. Ralph Day led the Royal Service program. Mrs. Mason gave the closing prayer.

Others attending were Mrs. Rodney Vick, Mrs. J. B. Bain and Mrs. C. L. Wristen.

## Dancers Have Potluck Supper

The Circle Eight Square Dance Club was host to the Promenaders Square Dance Club Tuesday night at a potluck supper in the American Legion Hall.

Mr. and Mrs. David Johnston and Mr. and Mrs. G. R. Van Landingham were host couples. Guests included Mr. and Mrs. Bill Hogsett, Mrs. Weyman, Wanda Goodson, Mr. and Mrs. Ed Smith and Mary Lou, Mr. and Mrs. Earl Reid of Coahoma, and Mr. and Mrs. Tip Anderson, Mr. and Mrs. Jimmy Felts, Mr. and Mrs. Tommy Whitley and Mr. and Mrs. E. C. Milam of Big Spring.

Promenaders Club members attending were Mr. and Mrs. Hub Hagler, Mr. and Mrs. Floyd Bell, Mr. and Mrs. Al Olsen, Mr. and Mrs. Emmett Bradberry, Mr. and Mrs. Lee Wood, Mr. and Mrs. Lloyd Wayne, Mr. and Mrs. Winston Manuel, Mrs. Ed Halfast and Eddie, Dicie Howell and Marie Nichols.

Jim King's orchestra of Big Spring played for the dancing. Members and guests called.

Approximately 30 members of the host club were present.

**MRS HARP RETURNS**  
Mrs. Bruce Harp returned recently to Midland from San Angelo where she was hospitalized for food poisoning.

## Mrs. Hubbard Club Hostess

Mrs. Ralph Hubbard was hostess to the Gulf Town and Country Club when it met Tuesday in her home. Mrs. E. F. Taylor was co-hostess.

Games were played and refreshments served.

Others attending were Mrs. L. M. O'Neal, Mrs. Leroy Thomas, Mrs. E. E. Estes, Mrs. J. P. Sherrill, Mrs. Woodrow Wickman, Mrs. G. C. Stephens, Mrs. A. C. Barnes and Mrs. J. M. Stewart.

The next meeting will be held September 11 in the home of Mrs. G. C. Stephens.

## Lawn Party Honors New Midland Couple

Mr. and Mrs. Don W. Beauchamp, who moved to Midland recently from Peecos, were honored Tuesday night with a lawn party given by Mr. and Mrs. Fred Girdley and their son, Bobby.

A picnic supper was served. Others attending were Mr. and Mrs. Barry Boone, Mr. and Mrs. Bert Conley, Mr. and Mrs. B. F. Carrigan, Virginia Hudson, Mr. and Mrs. Frank Lassiter of Odessa, Mrs. E. F. Mears and son, Gary, of Dallas, and the honor guests' parents, Mr. and Mrs. Emmett Beauchamp.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may occur in the columns of The Reporter-Telegram will be gladly corrected upon being brought to the attention of the editor.

But refuse profane and old wives' fables, and exercise thyself rather unto godliness.—1 Timothy 4:7.

Vacations Preferred

Maybe it just seems that newspaper people are busier than anyone else, but every now and then we run across an exceptionally busy newsman who qualifies for the "busiest person" title.

Claibe Applegate, veteran editor of the Hamilton Herald-News, is just such a person.

The 60-year-old editor, for instance, never has taken a standard two-weeks, paid vacation. He has been in the newspaper business the last 17 years, and usually manages to attend press gatherings, such as the annual convention of the West Texas Press Association held last week in Sweetwater, but he says he just never has found time to take vacations.

But Applegate stayed busy even before entering the newspaper field. He was a school teacher 20 years, and found little time for vacations in that profession either. As a younger man, Applegate spent 12 years as superintendent of schools at Gary, Texas. But that one job was not enough to keep him busy, so for six of the 12 years, he served also as the Gary postmaster.

Some people seem to be just too busy to take vacations. Still we prefer, recommend and take our standard two-weeks paid vacation at least once a year.

Weakness Shows Hand

You may have noticed that Russia and the satellite countries are beginning to complain about some of the economic measures we're taking against them.

The Soviet Union had some rather bitter words to say the other day about "unfair restrictions on trade" imposed by the United States.

This is interesting information. Knowing the Russians as we do, we can be sure they are very reluctant to admit to the west that the current tactics of economic pressure have been effective in any degree. Their acknowledgement can only mean we are hurting them.

That damage must relate directly to parts of the Soviet economy involved in military preparations. Otherwise the Kremlin would hardly risk the embarrassment of admitting we have inflicted pain.

The admission tells us even more. If any of us in the free world harbored the idea that the Communist nations of Europe are self-sufficient economically, that notion should now be dispelled. The likelihood is great that they need us much more than we need them. You don't complain about losing something you don't really require.

There are in the United States and elsewhere in the west a number of men amazingly well versed in the details of the Soviet economy. They know Russian history, they study the periodicals and every available document, they seek out obscurely published statistics, they read between the lines of Moscow's propaganda.

From them our military leaders and statesmen may now gain fresh instruction, if they can be put to work analyzing the Soviet reaction to U. S. trade restrictions. In the list of materials whose flow to Russia we have cut off, where is the pinch greatest?

Careful scrutiny of the effects of our embargo surely should afford us a sounder guide than we now have to Russia's potential for war. And the knowledge is absolutely basic to many of the political and military decisions we shall make in the months to come.

More than that, it gives us a cue as to how best to apply heat to the countries in the Russian orbit. Many Americans have been saying economic blows would be the most telling—short of war—and now we have evidence to support that contention.

A lot of the things proposed by our citizens to annoy the Russians would either precipitate war or produce laughter in the Kremlin. But apparently Stalin and associates find nothing funny in these trade measures. They have real bite.

If the need arises, let's have more of them, only taking care that it is really the Russians we hurt—and not ourselves.

Might Gum Up The Situation

An eastern manufacturer has announced what he describes as a "move to aid reconstruction efforts on the part of the business community of the flood-stricken Kansas City area."

He has offered to replace all wholesalers' stocks of bubble gum which were destroyed by flood waters.

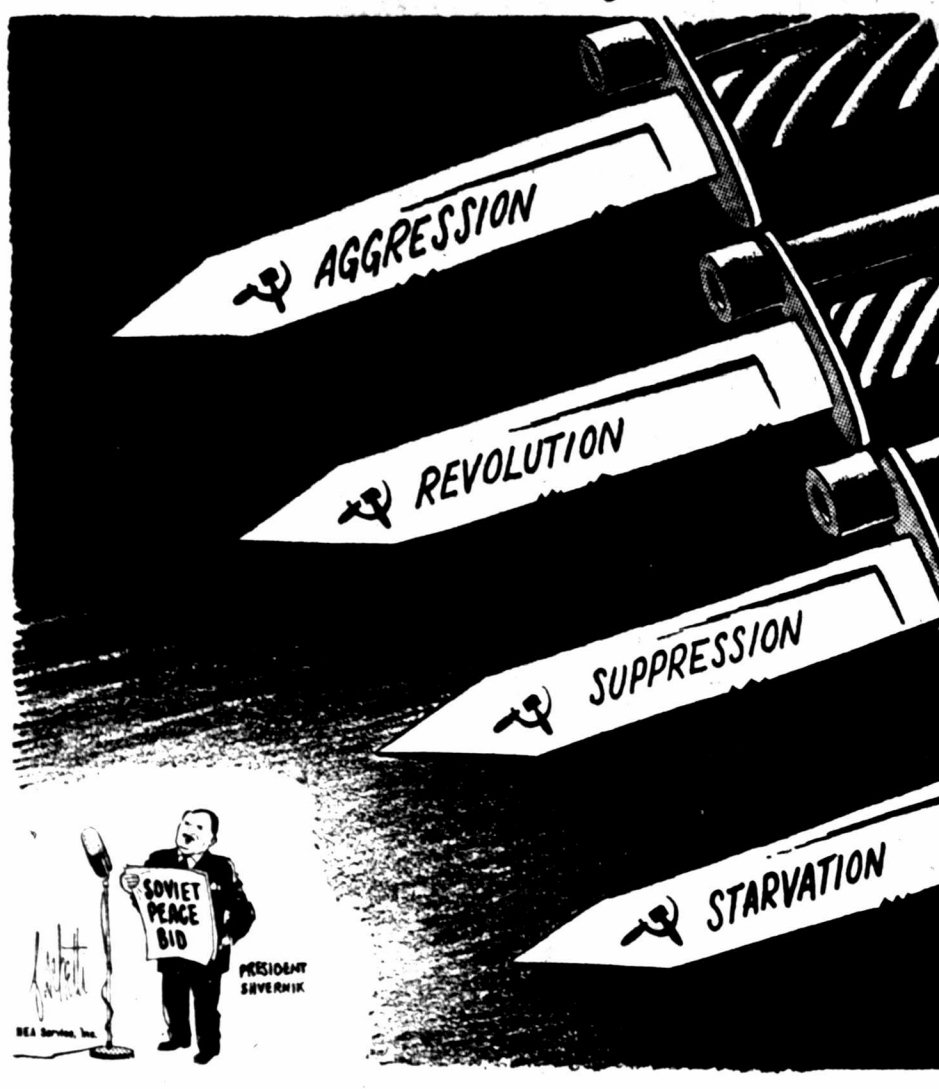

It isn't clear just how this would work. Maybe he figures the gum will keep bubble-popping youngsters busy while Ma and Pa reconstruct. Or perhaps the stuff could be used to plug some holes in the dike.

Whatever it is, Kansas City is obviously on the road back.

It's easy to be a man of your word, says an Illinois judge. Just be careful what you say.

One thing that makes some kids problem children is that they know all the answers.

Soviet Point Four Program

DREW PEARSON ON The WASHINGTON MERRY-GO-ROUND

(Copyright, 1951, by The Bell Syndicate, Inc.) Drew Pearson says: Difficult to launch freedom-friendship balloons across Iron Curtain; They easily can overshoot intended mark; Moscow would protest but there's no law against it.

SOMEWHERE NEAR THE CZECHOSLOVAK BORDER

Anyone who thinks it's easy to launch freedom-friendship balloons across the Iron Curtain has another guess coming. Once the balloons are in the air, nature and the fact that "winds of freedom blow from West to East" take care of the rest. But the real job is getting them in the air.

And that boils down to assembling hydrogen tanks to put in trucks to haul it in. German workers to fill the balloons with hydrogen and on top of all this, keeping the operation secret from the curious German population which loves intrigue. The man who deserves the chief credit for overcoming these headaches is Harry Andrews of the Dewey and Almy Rubens Company.

They were to be taken near the Czech border every night, a five-hour drive from Munich, launching balloons at about midnight, finish work at 4 a. m., then get home at nine. Naturally they wanted to know where they were going and what they were going to do.

However, after getting them a nice new bus in which to ride to the Czech border every day, they finally signed up for this mysterious assignment.

Another problem involved getting balloons into Czechoslovakia is that it is such a narrow country you easily can overshoot the mark. In other words, if the balloons drift too far, they land in Poland where Poles can't read the Czech leaflets. Therefore it has been necessary to balance a payload of pamphlets against the wind current in order to get the balloons to travel the right distance.

It also has been necessary to shift the launching site every night, depending on the winds. For this reason, we never know until our meteorologist gives the word around noon each day which way to head our truck caravan. The caravan totals nine trucks, two of them twenty-tonners, carrying hydrogen cylinders, balloons, two million leaflets and one motor generator which lights up the countryside sufficiently to arouse every farmer in the neighborhood but not sufficiently to give as much light as needed for the delicate operation of tying the nozzles of 2,000 balloons and doing it in record time.

The reason for night launchings is that the balloons are scheduled for arrival at 8 to 8 a. m., just as the Czech people are going to work. Two types of balloons are being used. One regular rubber balloon, manufactured by Dewey and Almy, carrying a load of about three and a half pounds, or 2,200 leaflets.

The other is a pillow-type balloon made by General Mills, which also contributed generously of its experts and time to help this operation. The pillow balloon, while carrying a lighter load, comes down to earth and bounces along the ground in an eerie fashion, bound to excite curiosity. Across its side, in large red letters is written "Svoboda," which means, freedom. Incidentally, "Svoboda" is the name of Harold Stassen's grandfather and it is especially appropriate, as an American of part Czech descent, that he is attending this launching.

Nobody should get the idea that this friendship balloon barrage to the people of Czechoslovakia is going to free that country over night. It isn't, though it especially timely coming as it does when the Czechs have imprisoned American Newsman William Oatis on trumped up charges. It also comes at a time when unrest in Czechoslovakia has reached greater intensity than ever before.

However, this balloon barrage is merely a test—a test of what individual Americans working separately from their government can do to promote people-to-people friendship and to make the Iron Curtain a lace curtain.

It's aim also is to raise doubts in satellite minds as to the why of the Iron Curtain. Why does their government refuse them contact with the free peoples of the West? What has Stalin got to fear from contact between them and the free peoples of the world? What is the ashamed of? In brief, why the Iron Curtain?

Moscow, of course, probably will scream that this is a violation of international law or that we are dropping poisonous candy on the children of Czechoslovakia or disseminating anthrax, wheat rust, potato bugs or other germs in bacteriological warfare. However, there's no international law forbidding one country to launch balloons in another country. If the winds carry them into certain other countries, that's a law of nature—not international law. And the more Moscow and Czech radios give alibi to their people the more it is evident that the barrage of friendship balloons is hitting them where it hurts.

It is very important (for both labor and political organizations) to foster and maintain independent thinking among the members. There is a deplorable tendency for the leaders of groups, as they grow powerful, to want only yes men in their organization.

'Oldest' Admiral Looks For Home

'Oldest' Admiral Looks For Home

SINGAPORE.—(P)—The oldest admiral afloat with the British Royal Navy is "looking for a place to make my home."

Sir Ralph Crooke, 75, arrived here on the eve of his fifth retirement from the Royal Navy. Accompanied by Lady Crooke, Sir Ralph is making a round trip from Capetown to Japan and back to see "if the climate agrees with a retiring couple" in the Far East.

An expert on gunnery and coastal defense, the admiral was called back to duty by the Admiralty four times since his initial retirement in 1928. He joined the British Navy in 1888 as a 14-year-old midshipman.

It may be months before you see me in the well of the House again. I'd like to take this opportunity to wish you a merry Christmas and a happy New Year.

Ray, Usher L. Burdick (R-N.D.), who rarely makes House speech, at end of short talk in July.

They're self-important Government officials like all the ants caught on a log that's floating down a river. Every one of those ants thinks he's steering.

John A. McCone, Air Force undersecretary.

They only thing they're casting out there (in Hollywood) these days is aspersions.

Lady Iris Mountbatten.

It is very important (for both labor and political organizations) to foster and maintain independent thinking among the members.

JACOBY ON BRIDGE

By OSWALD JACOBY, Written for NEA Service

Bridge players find the sunniest things to argue about. The defenders in today's hand, for example, talked themselves hoarse on what seemed to be a fine point of defense. The trouble is that they both missed the sure-fire play.

West opened the queen of diamonds, and South won with the ace. He entered dummy with the king of clubs to lead a heart. When East played low, South finessed the nine of hearts. This lost to West's ten, and South had to ruff the diamond return.

Declarer remembered that the ten of clubs had dropped under dummy's king, so he hopefully laid down the ace of clubs. When East

Bridge hand diagram showing cards in North, West, East, and South hands.

dropped the queen, South drew one round of trumps with the ace and then led the five of clubs towards dummy's nine.

West thought for a second or two and then stepped up with the jack of clubs. East thought for three or four seconds and ruffed with the ten of spades in order to return a heart through South's ace-queen.

This play didn't work because South had the eight of clubs. He played the ace of hearts, drew a second round of trumps with his king and then led his established eight of clubs. West had to follow suit, and dummy discarded the last low heart. Then South was in position to ruff his queen of hearts, after which he could afford to give up a trump trick to West's queen.

East defended his ruff and heart return by pointing out that it would have been the correct play if West instead of South happened to have the eight of clubs. West said he would have returned a club if allowed to hold the trick with the jack of clubs.

Then South would have to guess a very unusual line of play to make the contract. He'd have to ruff the fourth club with the jack of spades, lead to the king of spades, and then put West in with a trump to force a heart return up to the ace-queen.

They argued for a long time about which defense was better. Should West be allowed to give declarer a guess—or should East rely on the location of the eight of clubs? They both missed the one play that couldn't fail. When South leads the third club, South should play low, allowing East to ruff. East can then return any card in his hand, and West is bound to set the contract with one more heart trick and a trump.

WASHINGTON COLUMN

Which Economic Program Is The Best? Wait And Find Out

By PETER EDSON, NEA Washington Correspondent

WASHINGTON—This is a piece to paste in the book and forget about for six months or a year. After that lapse of time, get it out and let the course of events decide which of the two exactly opposite economic programs now being urged on Congress was the right one to follow:

The first of these programs is that of President Truman. It is supported by Defense Mobilization Director Charles E. Wilson and Economic Stabilization Director Eric Johnston.

The President is of course a Democrat and Johnston and Wilson are long-time Republicans. Nevertheless, this is the Truman administration program. It is supported by the Cabinet, and by what Democrats who back the Truman program.

The second of these programs may be called the program of the National Association of Manufacturers, the U. S. Chamber of Commerce, and the American Farm Bureau Federation, for lack of a better designation. Anyway, leaders of these three organizations and their Washington spokesmen have been the most vocal in presenting the main ideas.

This program has the support of majorities in both Houses of Congress. These majorities are made up of most of the Republicans and enough Democrats who do not support the President's program to provide voting control in Congress.

Now take a look at the two programs themselves. The President's program has been most recently re-stated in his mid-year economic report to Congress.

The present world situation demands that the United States strengthen its own defenses at home and the defenses of its allies abroad. Defense expenditures, which were \$18,000,000,000 a year before the Korean invasion, have been raised to \$48,000,000,000 in the past year. Next year they will go to \$65,000,000,000 and the year after that, perhaps more.

This increased defense spending will raise personal incomes by from \$15,000,000,000 to \$20,000,000,000 a year above the current rate. Challenging steel, aluminum and other materials into defense production will create shortages of consumer goods.

The combination of these two factors—more money to spend and fewer things to buy—is bound to lead to disastrous inflation unless certain preventive measures are taken.

Among the more important are increasing U. S. taxes by some \$10,000,000,000 a year to soak up some

### Competitor Found For Crab Grass

WASHINGTON —(P)—"U-3" Bermuda grass, a highly successful turf grass selected at Savannah, Ga., 13 years ago, can compete successfully with crab grass in lawns, according to scientists in the U. S. Department of Agriculture.

"U-3", which is the name used by scientists to identify the grass, must have a sunny location to thrive, but its resistance to cold has resulted in good turf at locations well-outside the recognized Bermuda belt.

The men who have been testing the grass, expect it to have its greatest usefulness for lawns, athletic fields, playgrounds and golf courses in the crabgrass area.

### Iran Shutdown May Bring Requests For Higher Texas Flow

AUSTIN —(P)— The world oil situation may bring requests for increased Texas crude oil production.

Three officials of the Production Administration for Defense are scheduled to appear at Thursday's statewide oil prororation hearing at Abilene to discuss the impact of the Iranian oil shutdown on American production.

Railroad Commissioner Ernest O. Thompson said he anticipated the officials would urge an increase in the Texas oil flow.

Major purchasers of Texas crude indicated to the commission, meanwhile, they will want \$3,401 more barrels daily in September than they asked for August.

Their September nominations totaled 3,038,923 barrels daily.

If granted, it would be the first time in history for Texas production to break the 3,000,000 mark.

Allowable production as of last Saturday was 2,982,506 barrels daily, but commission officials estimated actual flow was about 2,780,000 barrels.

The Washington officials scheduled to appear at the prororation hearing are Richard Lawton, director of production for the PAD; A. P. Frame, deputy director, and Cecil Burrell.

### Humble Must Face Trial On 'Hot Oil' Shipment Charges

SANTA FE, N. M. —(P)— Trial of Humble Oil and Refining Company and the Humble Pipeline Company on "hot oil" charges appeared certain Wednesday after New Mexico Oil Conservation Commission rules were upheld.

Tuesday, the rules were held legal by U. S. Judge Carl A. Hatch. Although refusing to dismiss the charges, Judge Hatch ruled out for the trial use of some commission production schedules.

The indictments charge the defendants conspired to "violate the Connally 'Hot Oil' Act by overproducing Humble wells and charging the extra production to an independent and dry well owned by Paul S. Brown and his father, M.M. Brown.

Named with the Humble firms and the Browns are Jack Little, Roy Moseley and Walter Robinson, former Humble employees.

The Connally Act forbids interstate shipment of oil not produced within limits of state regulations.

The Humble companies have denied they knew what was happening and claimed such actions would have cost them money.

**SURGICAL PATIENT**

Mrs. Maryam Craig, 1106 South Main Street, was admitted to Western Clinic-Hospital Tuesday for surgery.

**TRAFFIC COPS PLEASE NOTE**—Pfc. J. B. Jones of Asheville, N. C., fixes the international SHAPE license plate on the car of French Gen. Maurice M. Carpentier at General Eisenhower's North Atlantic Treaty Organization headquarters in Paris. ### Answers To Questionnaires Bring Smiles To Top Brass

AUSTIN —(P)— State Selective Service officials have laughed off the case of a Dallas youth who fled the clutches of his local draft board and then poked fun from beyond its reach.

They were satisfied his present occupation described to them as "mountain climbing and rice farming" was reason enough to forget the whole thing.

The explanation came in a draft board questionnaire he returned belatedly after his number came up.

In the blanks devoted to agricultural employment he wrote: "I work on a rice paddy. I'm a hired hand for Matt Ridgway, who rents the place from Syngman Rhee."

He said he had been engaged in this farm work a number of months and definitely lived on the farm where he worked.

The only crop was listed as rice. Acreage devoted to it was estimated at "one hillside." Livestock numbered "one Chinese mule and one oxen."

**Police Action Fatigue**

Total value of products raised during the last crop year was listed as "unknown."

"The Chinese stole it," he explained.

The questionnaire asked: "Do you have any physical or mental condition which, in your opinion, will disqualify you from service in the armed forces?"

"Yes," was his reply. "Sore and flat feet and police action fatigue."

He gave an Army return address in Korea.

Chuckles are not unusual at State Selective Service headquarters following mail calls.

Other recent ones included this notation on a returned questionnaire:

"I would like to know if this will in any way affect my present way of life. I wish to have no more to do with the government."

**Dependents Crop up**

Another military prospect inquired:

"I want to inform you of my present address and to ask if the fact of my becoming a papa two months ago (which I did), will change my draft status."

Still another brought his draft status up to date with this:

"I would like to report that since signing up with you that I have been working on dependents and now have a wife and two fine boys."

Questioned by his draft board about his age, one registrant replied:

"In answer to your letter, I did tell you I was 42. But you're right, I'm 24. Never was good in arithmetic."

And a concerned father wrote:

"I want to repeal my son's classification. He is so stupid he can't go anywhere by himself. He gets lost. I got three other children who are stupid, too."

### El Paso Gas Firm Plans To Build Six Compressor Stations

WASHINGTON —(P)— El Paso Natural Gas Company has plans to put in six new compressor stations on its proposed western lines, a General Electric Company official testified Tuesday.

The official, J. R. Casey, testified before the Federal Power Commission. The El Paso firm is seeking a license for extending its distribution lines.

Casey said the 45,000-pound compressor turbines will go into compressor stations costing about \$1,000,000 each near Casa Grande and Benson, Ariz.; Lordsburg, Afton and Pecos River, N. M., and Cornudas, Texas.

El Paso proposes also to spend \$5,000,000 for four compressor stations in the field, \$4,000,000 on processing plants and about \$9,000,000 for 46 miles of pipe line and other work.

**\$24,288,000 Project**

Total cost of the project is about \$24,288,000 to tap fuel on the Texas-New Mexico border and send it west.

Company officials testified wells in the area have reserves to take care of the 183,000,000 cubic feet of gas El Paso proposes to send daily along its Arizona-New Mexico-Texas line.

Engineer A. L. Hill said the Permian Basin field has reserves of more than four trillion cubic feet and El Paso owns or has under contract one and one-half trillion feet of the total.

He said the company plans to capture and use about 33,000,000 cubic feet of flare gas which is escaping from wells in the Texas Panhandle area.

**Cotton**

NEW YORK —(P)— Wednesday noon cotton prices were unchanged to 20 cents a bale higher than the previous close, October 34.38, December 34.38 and March 34.44.

### Texas Mother Held As 'Master Mind' In Teen Age Burglaries

DENISON, TEXAS —(P)— An attractive, 48-year-old woman, accused by Denison officers of "masterminding" a series of burglaries by teen agers, is being held by New Orleans police.

Arrested with her Tuesday was her son, who gave his age as 16.

Denison Chief of Police Paul Borum identified her as Mrs. Helen Ingram, and her son as Larry Jack Ingram.

He said both were charged in Justice of the Peace C. C. Carroll's court here with burglary and felony theft. Borum said the son's case would be transferred to juvenile court if the youth is only 16.

Under Texas law, no one may be tried on a felony charge until the age of 17.

The mother and son were arrested by two New Orleans traffic patrolmen after they ran a red light. The patrolmen said he recognized the two from descriptions given by Denison police.

**From Prominent Families**

Borum said Mrs. Ingram and her son left Denison last Thursday while officers were investigating a burglary group into which "young boys from a number of prominent families have been drawn." Some of the boys are only 11 years old.

Mrs. Ingram and Larry have lived here five years. Borum said he had been told she was a widow.

The police chief said Mrs. Ingram was accused of "masterminding and participating in a series of burglaries during the last 18 months." He charged she cased the jobs, hauled the youngsters to the burglary scenes, then acted as a fence to dispose of the loot.

He said she frightened the boys so "they were afraid to talk to police, even when promised protection."

In the belief that his hands would defile them, St. Francis of Assisi would not touch lamps or candles.

### Legal Safecracker Solves Dilemma

MURPHYSBORO, ILL. —(P)— A safe expert opened a Masonic safe which members had been unable to open since their late secretary died in 1943 with the memorized combination.

Lodge members had been all but ready to break into the safe to see their records.

But the job was done in 10 minutes by Tobe Monday, who only twisted the dial and listened to the safe's inner workings. He did the trick in front of awed Masons who had requested the traveling safe expert to have a look at their safe.

### HOSPITAL RELEASES VICTIM OF ACCIDENT

Glenn Knapp of Big Spring, who was injured in an automobile accident Tuesday on East Highway 80 near the city limits of Midland, was dismissed from Western Clinic-Hospital after emergency treatment.

Hospital attendants said he suffered leg injuries.

# DADDY RINGTAIL

## Daddy Ringtail And Doofer

What a fine afternoon for sleeping! Daddy Ringtail was asleep all over, while Mugwump Monkey, the monkey boy, played quietly there on the floor. Oh my yes! Mugwump was playing quietly indeed. He was playing with little toy soldiers. Mugwump was wanting to be very quiet, and so he whispered to his soldiers all his words of soldier talk. "Whis-

per-whisper-whisper," was the gentle noise of Mugwump's whispering. "Oh, Mugwump," said Daddy Ringtail.

"Sir? Did you want something, Daddy Ringtail?"

"Yes, and please don't whisper and whisper to your soldiers. It wakes me up to hear you do it. Say what it is your have to say, just as you usually say it."

And so Mugwump said the words he had whispered. He said them just as he usually said them. He said them loud. He said: "Playlike SOLDIERS... CHARGE!"

Daddy Ringtail jumped straight up in the air at the noise of Mugwump's shouting. Daddy Ringtail came down again ker-bounce in the swing, and then he said: "SSshh! I'm trying to sleep."

"You told me to do it," said Mugwump, and so Daddy Ringtail said for Mugwump not to shout any more, and not to whisper and whisper, either. Mugwump please would talk in his ordinary natural voice, Daddy Ringtail said, and so Mugwump did. Mugwump's talk was neither too loud nor yet too soft. It was just right for Daddy Ringtail.

**THE DOCTOR SAYS**  
**Glandular Fever Isn't Known To Be Related To Cancer**

By EDWIN F. JORDAN, M.D.  
 Written for NEA Service

"What is mononucleosis?", writes Mrs. H. M. P. "Is it related to cancer?" Taking the second question first, the answer is "no"—so far as anyone knows infectious mononucleosis, or glandular fever as it is sometimes called, is not in any way related to cancer.

To medical men this is a most interesting disease. In all probability it is caused by a virus and one of its characteristic features is the increase of certain cells in the blood known as mononuclear cells.

The large number of these cells was formerly sometimes confused with leukemia (with which mononucleosis also has no connection) and often caused a good deal of alarm. Whatever the reasons, glandular fever seems to be something more common than it used to be; possibly, because of its usually mild nature, many people had it without knowing.

The symptoms are often hardly noticeable. Vague pains and slight loss of appetite are common. Generally there is a slight fever. Lack of pep and headaches are also frequent complaints.

Sometimes there is nausea and vomiting. The lymph glands in the arm pits, neck, groin and elsewhere are usually enlarged and this is what has given the disease its other name of glandular fever.

All of these things, of course, can accompany other disorders. In order to make sure of the diagnosis, the blood must be examined for the characteristic cells. Also there is a special blood test called

**World War II Vet, Back From Korea, Is Navy Snafu Victim**

CHICAGO—(AP)—Henry G. Olszewski thought he was in the Navy when he was ducking those Communist bullets in the Korean war zone.

Now Olszewski, 34, a little bewildered, is at the Great Lakes, Ill., Naval Training Station awaiting his official discharge. He was discharged, really, before all this came about.

This is his story: Olszewski became a machinist repairman, first class, in World War II. He saw action at Okinawa and Saipan and then came home to his wife, Loretta, in Chicago. They now have a son, Joey, 17 months old.

After Olszewski returned, he was attached to a Naval Reserve unit. Then, in 1950, he applied for his discharge.

On Oct. 9, 1960, however, he was ordered back to active duty. He inquired about his discharge, but was told it hadn't gone through.

Olszewski was shipped to Korea and assigned to the Asakari, an LST. He saw bitter action in the Hungnam operation and evacuation for 10 days last December. He moved on to Pusan in April, 1951, and saw more action. He won the Korean Medal and managed to escape wounds.

One day, while Olszewski was resting up for more battles, a yeoman, or ship's clerk, approached him. He had been studying Olszewski's service record.

"Hey, bud," the yeoman said, "you might as well lay down your tools."

"Why?" asked Olszewski.

"You haven't been in the Navy since July 17, 1950," the yeoman replied. "That was the day you were discharged."

Olszewski landed back at Great Lakes June 1. He's sitting there waiting for the snarl to be untangled. A Navy disbursement officer ruled Olszewski can't be paid, because he's not in the Navy.

A Navy spokesman explained the matter was just a slipup, which might happen in any organization. Olszewski's only comment was: "I am a little bewildered."

**Mating Season Proves Trying Time For Blackie, Alpine's Beer-Drinking Crow**

ALPINE, TEXAS — (AP)—Blackie, the beer-drinking crow, is home again—weak, hungry and disillusioned.

It will take more than beer to put Blackie back on his feet. His master, Hotel Manager Frank Hofues, Jr., says his pet "is a very subdued bird."

**Death Better Than Life In Nut House, Says Richard McGee**

HUNTSVILLE — (AP)—Richard W. McGee, sentenced to death in the slaying of a Lubbock groceryman, says electrocution is better "than having to spend the rest of your life in a nut house."

A new sanity hearing, set for September 1, was ordered Tuesday for McGee by the State Court of Criminal Appeals. He had been scheduled to die September 1.

News of the new hearing was brought to McGee by the Prison Chaplain, the Rev. Francis Duffy, and Don Reid, Jr., editor of The Huntsville Item.

Reid visited McGee about two weeks ago and found him sprawled naked in his cell.

"This certainly was a much more pleasant interview than the one I had with McGee about two weeks ago," Reid said Tuesday night. "He kept insisting that he was not crazy—but occasionally irrational."

When told of the new hearing, McGee replied: "Is that good?"

Father Duffy and Reid said they thought it was good.

"That means I will probably have to go back to Lubbock and I don't know about that," McGee said.

He added: "What's more, I'm not nutty and I think dying in the electric chair is better than having to spend the rest of your life in the nut house."

McGee was convicted in the pistol slaying of R. D. Allston in Lubbock, July 7, 1948.

**Russian Subs Are Threat If Kaesong Truce Parleys Fail**

WASHINGTON — (AP)—Secretary of the Navy Kimball believes the Russians may throw submarines into the Korean war if the Kaesong truce talks fail.

"It's a very real threat and we're alive to it," he said Tuesday night in a radio interview (CBS' Capitol Clockroom). He expressed the view that the threat of Soviet submarine intervention is greater than the threat of increased Red air power.

Kimball said the U.S. Navy had sunk no foreign submarines in the Korean war. The Russians are known to have a large U-boat fleet, portions of it concentrated in Vladivostok, north of Korea.

**They Like it a Million!**

Last week Buick set a proud record. The millionth Dynaflow Drive\* was delivered to a happy owner.

That's a new peak in popularity for modern drives which take you from a standing start to any cruising speed desired with a smooth, unfaltering swoop of power.

"The biggest advance since the self-starter" is what the motorwise press called this Buick development back in 1948—and now a million owners can tell you how right that proved to be.

Here, they found, was a basically different way of delivering power. It was the first drive to get com-

pletely away from any gears which function in a series of fixed stages—the first to apply supercharging principles that did new tricks with spinning oil.

And how folks loved it!

They loved the freedom from strain in traffic. And the new "sweetness" of ride which every passenger could enjoy.

They loved the command it gives them of every traffic situation—and the relaxation it contributes to a long day's drive.

They loved its extra safety in slippery going, and the improved control in mud and snow.

As they had a chance to pile up experience, they loved the unexpected savings of rear tire wear and reduced strain on all driving parts, from engine to differential.

And finally—they loved what it does for the value of a Buick, as reflected in the extra dollars that Dynaflow\* adds to the resale price of a car.

Have you sampled this driving sensation?

There's no time like the present for discovering the thrills that more than a million Buick owners already know.

- NO OTHER CAR PROVIDES ALL THIS!**
- DYNAFLOW DRIVE\***—saves strain on driver and car
  - FIREBALL ENGINE**—high-compression, valve-in-head—gets more miles from every tank of fuel
  - PUSH-BAR FOREFRONT**—combines smart style and unsurpassed protection
  - WHITE-GLOW INSTRUMENTS**—greater clarity of night
  - TORQUE-TUBE DRIVE**—seals the chassis, steadies ride, improves driving control
  - 4-WHEEL COIL SPRINGING**—cushions ride, saves servicing costs
  - DUAL VENTILATION**—outside air fed separately to right or left of front compartment
  - SELF-ENERGIZING BRAKES**—hydraulic—multiply pedal-pressure five times at brake drive

### Livestock Slaughter Near All-Time Low

CHICAGO — Packers under federal inspection butchered only 820,108 cattle in the United States during July—the smallest slaughter for the month in eight years. These additional figures came from the U. S. Department of Agriculture Tuesday. Hog butchering during July totaled 3,826,220—smallest monthly total since last August, although a five-year high for July. Sheep and lamb slaughter was only 863,306—smallest for the month in 34 years. Packers slaughtered 408,035 calves in July—smallest for the month since 1943.

### 18-Day-Old Girl Stricken By Polio

PEORIA, ILL. — An 18-day-old girl is being treated for polio in St. Francis Hospital. Martha Louise Reed, who weighed seven pounds, two ounces at birth, was brought to the hospital Saturday from Canton, Ill. Both legs are paralyzed. The American Medical Association said in Chicago it was unusual for an infant that young to have polio. It added that no statistics were available to show whether it was a record.

Why scratch and suffer hopelessly? Find happy relief as so many others do—use soothing, medicated RESINOL, the popular ointment of many uses.

Dead Animals Removed FREE of Charge—HORSES, CATTLE, HOGS. PHONE COLLECT 2-2412. Midwest Rendering Company, MIDLAND, TEXAS.

### Spence To Address Midland Jaycees

E. V. Spence of Big Spring, general manager of the Colorado River Municipal Water District, will address the Midland Junior Chamber of Commerce at its regular meeting Friday noon. The speaker will discuss formation of the water district project and Jaycees invited the public to hear the talk.

Spence has served as chairman of the State Board of Water Engineers and as a member of the Interstate Water Compact Board. Prior to his state government position, Spence was city manager of San Angelo for four years and of Big Spring for 10 years. He is a graduate of Texas A&M College and in 1941 was called into military service as a lieutenant colonel of the Corps of Engineers. As chairman of the Board of Water Engineers he supervised an exhaustive study of water resources of Texas. On the average, it takes a streak of lightning only 1.46,500 of a second to reach the ground.

### Iran Rejects Joint Operation Proposal; Talks Are Resumed

TEHRAN, IRAN — The Iranian cabinet Wednesday rejected Britain's proposal for joint operation of the nationalized oil industry but expressed willingness to continue negotiations on the dispute. Deputy Premier Fatimi said the cabinet handed its rejection to Chief British Negotiator Richard Stokes after a special meeting at the home of Premier Mohammed Mossadegh Tuesday night. Iran's condition for continuing the talks was that they be limited to implementing the terms of the nationalization law, which placed the vast British-owned Anglo-Iranian Oil Company under Iranian government control. Stokes proposed Tuesday that the nationalized company's oil wells and refineries continue to be operated under the skilled hands of British management so the flow of vital oil might not be curtailed. No Breakdown Seen. The Iranian law calls for ousting the British from any control of the installations and maintaining the much-needed British experts and technicians as employees of the Iranian National Oil Company. There was no immediate indication that the rejection would cause a second breakdown in the talks. The negotiations broke down after only 20 minutes of the first meeting last June and were resumed only through the mediating efforts of President Truman's special envoy, W. Averell Harriman. Following the cabinet rejection, British and Iranian negotiators met once more to explain their viewpoints. Iranian officials said they still had hopes a settlement could be reached.

### McCamey News

MCCAMEY—Mrs. F. E. Carter has returned from Farmington and Albuquerque, N. M., where she visited friends last week. Mr. and Mrs. Ed Thorp and Mr. and Mrs. Curtis Thomas made a business trip to Fort Worth and Tulsa recently and also visited relatives in Shreveport. Maribeth Thomas spent the week visiting her grandparents, Mr. and Mrs. R. L. Thomas, at Florey, Texas. Louise Nathan of Sheffield, Ala., is a guest in the home of Mrs. Ed Thorp. Mr. and Mrs. William Wolf returned Monday from a two-week sightseeing trip to Columbus, Ohio, and New York. Howard Wolf and Eddie Halamiczek returned home Monday night from a two-week vacation trip to Chicago and Milwaukee. While in Milwaukee they were guests of Wolf's aunt and uncle, Mr. and Mrs. Ed Kaiser. Sgt. Edgar Paul Fitzgerald landed recently in Bremerhaven, Germany.

### Brown Named General Counsel For Magnolia

DALLAS — Earl H. Brown, a native of Corsicana, has been named general counsel of Magnolia Petroleum Company and Magnolia Pipe Line Company. He succeeds the late Wallace Hawkins. Brown joined the Magnolia legal staff at Ardmore, in 1936. He came to Dallas three years later as assistant and general counsel.

### First From UN

WASHINGTON — Just released by the secretary-general of the United Nations in New York are these photographs of two of eight designs selected for the first UN postage stamps to be issued this fall. The UN building design, top, made by Mexican artist Leon Helguera, will be used for 1½-cent and 50-cent denominations. The "Peace, Justice, Security" stamp, below, designed by Netherlands artist J. F. Doeve, will be two-cent and one-dollar stamps.

### Casualties in Korea

WASHINGTON — Two Texans are named as wounded in action in the Defense Department's Korean casualty list No. 376, released Tuesday night. They are Army Pfc Bob M. Quick, El Paso, and Marine Pfc Robert J. Hill, Dallas.

### Arrol Brown Buys Florida Street Store

Arrol Brown has purchased the West Florida Grocery and changed its name to Brown's Grocery. A veteran of the grocery business on South Main Street, Brown is a well known Midland business man. Brown's Grocery is located at 300 West Florida Street. Brown said parking space is plentiful and he invited his friends and old customers to visit the new store which carries a complete line of groceries, fresh produce and meats.

### Reidland Elected Baylor Exes' Head

New officers of the Baylor Exes Club were named at a picnic recently in Cole Park. Ken Reidland of Midland was named president to succeed Jim Kendrick and the new board of governors is as follows: Sparky Beckum, Lamesa; Corky Rutherford, Odessa; and Dr. H. Glenn Walker and Duane Estes both of Midland.

### Ruth McGraw Given Office Job Approval

The appointment of Ruth McGraw as chief deputy in the office of County Clerk Rosanella Cherry was approved Monday by Commissioners Court. She was appointed to succeed Lynelle Kestler, who resigned August 2.

### Nine-Year-Old Boy Kills Foster Mother

CAMDENTON, MO. — A nine-year-old boy, described as a model child, shot to death his foster mother Tuesday. Prosecutor Hugh Phillips said Charles Baughman told officers he killed his foster mother because she hit him with a strap after he tampered with her cosmetics case. The shooting occurred near Cable Ridge, 35 miles northwest of this Central Missouri town. The prosecutor quoted the boy as saying he shot first as she sat listening to a radio, fired a second time as she ran through the living room crying for help and shot again as she staggered into the front yard. Neighbors said Charles had lived with the Rays four or five years, had been well cared for and appeared to be a model boy. No charges have been filed.

### Aged Man Found Dead In Street Leaves \$500,000

NEW YORK — A shabbily dressed old man was found dead of a heart ailment on a Brooklyn curb Tuesday, his head propped against a rear wheel of a new automobile. Registration papers in his cashless pockets showed the car was his. Police went to his \$7-a-week furnished room. There they found about \$500,000 worth of Grade-A stocks, some cigarette "makings" and a ledger showing every penny the man had spent since 1911. Bank books showed deposits of thousands of dollars. The man turned out to be Charles Hoffman, 73. He was not known to have any relatives. His landlady said Hoffman, who had lived in the house about eight years, told her his wife died many years ago and left him a large amount of money. Papers in the room showed Hoffman drew an old age pension. A newspaper clipping told that an uncle, Charles Ferdinand Hoffman, died in 1909 in a \$4-a-week Brooklyn furnished room, and left an estate of \$3,000,000.

"Geysir" is an Icelandic word meaning "to burst forth with violence."

### U. S. Judge Orders Landlord To Jail

FORT WORTH — A. C. Arrington, Fort Worth landlord, was ordered jailed until he complies with a federal court order to pay back \$3,113 in rent overcharges to former tenants. Under terms of a judgment returned by Federal Judge Joseph B. Dooley, Arrington was to begin paying \$100 monthly on the total amount by August 1. When the payment did not arrive, Dooley Tuesday signed the order for Arrington's arrest. Congress established the U. S. Coast Guard Academy at New London, Conn., in 1876.

Pasture plants store food in their roots and crowns

STOP ATHLETE'S FOOT... with this Effective 3-WAY TREATMENT. RED ARROW ATHLETE'S FOOT LOTION and FOOT POWDER. SPECIAL COMBINATION PACKAGE 69¢

Think of it! **SOFT WATER AT EVERY FAUCET** to make every cleaning chore easier — to save you over \$100 a year!

**Dishwashing & Laundry**  
With Lindsay soft water, only a teaspoonful of any soap in sink or washing machine gives mountains of suds. No need for special soaps or detergents. You save up to 80% of soap. All washables come sparkling clean without hard rubbing. Glasses, silverware and dishes dry to a sparkle without towelings. You save time, work and money!

**Bathing & Shampoos**  
Lindsay soft water with any good soap is the perfect skin cleanser. There's no hard water scum to clog pores and cling to skin. No bath tub ring either. Hair shampooed in soft water is soft and lustrous, not dull and stringy. You can have beauty salon shampoos at home.

**Protects Piping**  
The hard water you are using forms a flinty scale inside piping. U. S. Government surveys report that scale, only 1/9" thick, wastes 16¢ of every heating dollar. Scale causes water heater coils to burn out—can increase plumbing repairs up to 25% annually. Lindsay soft water forms no scale, removes that already present!

## A good sign to "go" by!

THIS shining emblem "GMC" is the sparkling sign of the fastest growing line of trucks in the land—with sales growth unmatched this year by any other manufacturer. The reasons for this are sound ones. For in the chassis of a GMC you find "long-time, stay-with" stamina—truck-building that dares comparison with anything on the roads today. Under the GMC hood you find real power—the kind of truck-built power it takes to keep goods moving year after year. Whether it's a nimble 1/2- to 2-tonner with horsepower unsurpassed in its class, or the fabulous two-cycle Diesel which is outselling, outperforming every other make—a GMC puts more "go" to the load! And in the cabs—drivers who work in comfort and safety. They have the look of men who know their truck will get the job done quicker and better. You'll feel the same way when you try a GMC yourself. Come in—compare the facts, the features, the way they haul. Listen to the savings talk.

## Get a real truck!

# Vernon Nips Tribe, 5-2

## White, Hughes Homer

Artesia's Drillers make their final 1951 appearance in Indian Park Wednesday and Thursday nights. Game time both nights is set at 8:15 p.m. Israel Ten probably will pitch for Midland Wednesday.

### By COPE ROUTH

The dangerous bats of the Midland Indians were silenced, except for a few erratic outbursts, Tuesday night as the Vernon Dusters rolled along to a 5-2 victory behind the five-hit pitching of righthander Al Richardson.

The victory gave the Dusters, who played an airtight defensive game, a split for the two-game series as the Indians prepared to open here Wednesday night against the Artesia Drillers.

Although the Indians smashed out two home runs, a double, a triple and a single, they were otherwise handcuffed by the blazing fastball of Al Richardson.

In four innings, Richardson faced only 13 men and did not relinquish his first hit until the fifth inning when first baseman Gordon Tanner smashed a triple into right field, only to be left stranded on base.

In the sixth inning, little Scooter Hughes caught hold of a low one and sent it sailing over the left field fence for Midland's first score. Before the fans had settled in their seats, Stan Wilcox lifted a double into left field but he, too, failed to move any farther.

A walk and a single by Tanner in the seventh gave the Midland fans new hope but the rally was snuffed off with a fast double play.

The final Indian hit and run came in the final inning when Hayden White lifted a high one over the left field fence. It was his sixteenth home run of the year.

And, save for some sensational fielding, that was Midland's story

of the game. For four innings, the Dusters themselves played a deadlocked game as Dave McKenzie gave up only three scattered hits. Leon English, the Vernon leadoff man, started off the game with a two-bagger but was caught for the third out as he tried to steal home. Again in the third inning, he singled and then was picked off first for a third out.

In the fifth inning, however, the Dusters exploded. Catcher Art Herring seized a single through the pitcher and moved to second as Tanner dropped a throw from Hughes to leave Richardson safe at first.

Manager Horace Matney came through with a single over second to score Herring and John Pollis ripped a two-bagger down the first-base line to score Matney and Richardson. Pollis came on in with the fourth run on McKenzie's wild pitch.

In the next inning, Lou Ehlinger lifted a blooper into right center and Hayden White raced in to make a sensational one-handed running catch off his shoestrings.

Hughes came through with another brilliant play in the eighth as he raced back to make a leaping one-handed catch of Red Dial's line drive toward left field.

The Dusters' fifth run came in the seventh when English singled for his third hit of the game, moved to third on Matney's single and scored on Pollis' grounder to second base.

The Vernon infield was kept busy

all night as Richardson kept the Indians pounding the ball into the dirt.

Big John Reimold accounted for 16 of the putouts with Pollis credited with 10 assists and Dial, the third baseman, four more.

CHICAGO —(P)—Will that old Brown magic work against the college all-stars Friday night, or will the pro champion Cleveland Browns find that youth must be served, as did the aging Philadelphia Eagles last year?

The question is a toughie. The hot glare of the Soldier Field arc-lights on a sultry August evening has had a way of revealing unsuspected wrinkles on the title-winning beauties of the National Football League.

Some say Paul Brown's play-for-lads are getting slightly decadent. Reports from the Browns' Bowling Green, Ohio, training base are listing aches and pains seldom before found on a Brown-conditioned squad.

These same observers contend that the Brown machine which massaged opposition in the defunct All-American Conference in 1947 and 1948 would push the all-stars right into Lake Michigan. But the front line squad age average then was around 25. Now it's 28.

Last year, the proud Eagles lost to the all-stars, 17-7, and then limped on to be rudely dethroned by the Browns with a 6-6 NFL record after copping in 1949 with 11-1.

On the comeback of old Joe Walcott as heavyweight champion, after he had quit being several times and had suffered more defeats than some of Billie Crosby's not-so-famous horses.

It's a strange thing, and we don't have the answer. But for that matter, neither does anyone in sports.

DOTS AND DASHES: Rogers Hornsby to head the St. Louis Browns next Spring. It has been announced. Chuck Ortman of Michigan and Bob Williams of Notre Dame to do the passing for the college all-stars in their clash with the pro Cleveland Browns Friday night. Of course, Otto Graham, the ole Northwestern Wildcat, will ram-rod the pro grid-ders. Ex-heavyweight Champ Gene Tunney points to youngster Rocky Marciano as the man who eventually will wear the heavyweight crown.

The Eddie Mellios—he's the Midland infielder—expect an heir sometime in September. The Eddie Jacques also look for a little pitcher in November. They have two already, and both are real baseball fans. When Dick Campbell singled and came home on a three-base error Monday night against Vernon, fans paid him for his "home run" anyway. Reports say he got about \$39. In San Angelo, the papers rave about players hitting the jackpot for \$30-home runs. Shucks, these Midland people pay close to \$100 for a four-bagger and think nothing of it. Grid drills for the MHS Bulldogs begin August 27. The first game is less than a month away. September 14, with San Angelo here. The press members to be served fried chicken at the half of the Permian Bowl grid game in Odessa Friday night. Yum, yum. End of the Row!

WINS WITH STRAIGHT SANTA BARBARA, CAL.—Frank White, young hurling ace for the Santa Barbara club, recently won his 13th consecutive game to set a California League record. White lost his first three games before starting the streak. Santa Barbara is a Brooklyn Dodger farm club.

Eddie Leonard, one of the two new owners of the Baltimore Bullets in the NBA, was a flyweight boxer back in the Twenties.

STEP LIGHTLY—Dodger shortstop Pee Wee Reese raises his arm to light himself from the flying feet of Alvin Dark of the Giants, who gets the ball off to first base after forcing Reese at second. Action came in the heated series at Ebbets Field when Duke Snider hit a grounder to Eddie Stanky, who flipped to Dark. The New York shortstop's relay to Whitey Lockman caught Snider for a double play. (NEA)

What makes an athlete great one year and horrid the next, superb on one team and a bum on another? No one seems to have the answer. But it happens often in the world of sports.

Take the case of Bob Crues, large and powerful outfielder who has been at the top and at the bottom in minor league baseball.

Crues tied the minor league home run record in 1949, smashing out 69 round-trippers while with Amarillo in the West Texas-New Mexico League. Many a manager further up organized baseball gazed on him with gleaming eyes.

But Crues recently was released from the San Angelo Colts in the Class C Longhorn League—only two years after his greatest triumphs. He had hit only nine home runs all year with the Colts. Now, he's with Lubbock in the old W-T-N League but hasn't found the sensational form and power which made him the rave of the minor leagues only a short time ago.

Or take the case of Bill Hornsby who worked in the outfield for Midland awhile this year. Hornsby, son of the famed Rogers Hornsby, couldn't get his hits in the Longhorn League. He was batting an anemic .245 when released.

As a member of the Oklahoma City Indians in the Class AA Texas League he's batting about .290 in spite of the jump in classification. Even more astounding is the rise of Bob Feller, washed up as a Cleveland pitcher last year and now the American League's leading hurler with a 19-4 mark.

Or the comeback of old Joe Walcott as heavyweight champion, after he had quit being several times and had suffered more defeats than some of Billie Crosby's not-so-famous horses.

It's a strange thing, and we don't have the answer. But for that matter, neither does anyone in sports.

DOTS AND DASHES: Rogers Hornsby to head the St. Louis Browns next Spring. It has been announced. ## Scores Mount, Players Chased In Longhorn Loop

By The Associated Press  
Tempers flared and bats trailed as the hot weather began to have its effect on the players in the Longhorn League. Scores mounted and players were chased Tuesday night in league play.

Odessa showed the most outstanding symptoms as the Oilers trailed Sweetwater pitching for 20 hits and a 23-4 victory. To add to the fun, one Odessa batter was chased for arguing over a called strike although his club was ahead 19 runs at the time.

Three players in all, two from Sweetwater, were chased in that wild game which saw every man on the Swatter squad go into action in a vain attempt to stop the upsurging Oilers. Odessa scored in every inning and was held to one run in only two frames.

San Angelo whammed Artesia, 12-1, in another wild game while the other two were just run of the mill contests. Vernon shaded Midland, 5-2, and Big Spring trimmed Roswell, 6-4, in pitchers battles.

The Colts got 17 hits, including Wayne Wallace's twenty-seventh home run of the season, off Artesia pitching. Bob Garza held the Drillers to four.

Al Richardson handcuffed the Midland Indians with five hits to pitch Vernon to a split of the series. Two of the five were home runs by Scooter Hughes and Hayden White.

Lafy Mercovich walked two men with the bases loaded in the sixth frame to hand Big Spring its two-run victory over Roswell. Mercovich had replaced starter Jess Grimes, who was chased by the umpires in the fourth.

Sweetwater 200 100 100-4 9 6 Odessa 451 125 32x-23 20 1 Sadler, Presley, Hale and Ortocky; Ortis and Castro, Flores.

Roswell 000 200 020-4 7 2 Big Spring 000 212 10x-6 9 2 Grimes, Mercovich, Otter and Sanders, Hayes, Laurence, Fernandez and Valdes.

Artesia 010 000 000-1 4 3 San Angelo 220 003 41x-12 17 2 Miller, Moss, Greer and Brown; Garza and Moore, Petschow.

Anton Karl, former pitcher for the Philadelphia Phillies and the Boston Braves, is now pitching for the New York Athletic Club team.

## Bowl Squads Prime For All-Star Battle

By LARRY KING  
Reporter-Telegram Staff

ODESSA — They may not know who's going to win the Permian Bowl football game, but the coaches at least know or have an inkling of who is going to play.

Texas' Ed Price—boss of the East squad—took time off from his drills Tuesday to give a lineup he said "might start the ball game."

Jess Neely, boss of the West, isn't as talkative about his boys. Neely, however, has less basis to name a starting eleven. He hasn't pushed his boys in workouts as much as has Price. While the East was knocking heads the first day, Neely was concerning himself with getting timing down on his squad. However, both teams saw plenty of action in workouts here Tuesday and Neely is expected to make his starting choices public sometime Wednesday.

Bill Baker, Coleman's tall and sharp passing quarterback was getting the nod as the East's quarterback Tuesday. Price was using Gerald Sandusky of Bronte, Jim Rosser of Cleburne and Billy Quinn of San Antonio as his first string backs, along with Baker.

Quinn, who started with the West team, was allowed to move to the East because he will attend the University of Texas this fall, and soon will have Price for a coach. Merris Stone, Kerrville star who plans to enter Rice, went to Neely's West squad.

Eastern line prospects were headed by Ernest Mendoza, Marfa, and

Weldon Dacus, Brady, ends; Erice Knebel, San Antonio and Jimmy Magill, San Angelo, tackles; Ray Barrett, San Angelo, and Marvin Tate, Abilene, at guards, and Dick Harris, Wichita Falls' all-stater at center.

On the West side of the ledger, Stanton's Kenneth Henson is holding down the quarterback post; Bobby Jackson, the Odessa flash; Tommy Fields of Wichita Falls and Jack Weldon of Lubbock rounded out the backs.

Midland's Duane Bush also was running on the first offensive unit. He is an end.

Back Reed Gilmore was at a defensive halfback post, and Center Jimmy O'Neal was the defensive center. Both are Midland boys. Another Midlander—Jack Burris, a back saw some offensive action.

The coaches agreed to use some form of six-man line throughout the game, until the offensive team reaches the five-yard line. Then, anything goes.

AUSSIES HOPE FOR FINANCIAL SUCCESS, TOO  
NEW YORK —(P)—Australian Davis Cup officials hope to make the Davis Cup Challenge Round Matches a gigantic financial success this Winter. The authorities have approved a ticket price of 4 pounds for best seats at White City courts Dec. 26, 27, 28. This is equivalent to about \$18 per seat. All tickets will be sold in series of three and none will be available for single days. Less expensive seats, of course, will be on sale each day.

**SQUADS**—Above, the West all-star football squad which will meet the East team in Odessa's Permian Bowl grid clash at 8 p.m. Friday in Broncho Stadium. The East squad is pictured below.

**THE WINNAH-AH-OH!**—Clare Lippert, of Tarentum, Pa., smiles happily after being named Miss Pennsylvania of 1952 at the state beauty contest at Harrisburg. Next month she'll compete in Atlantic City for the title of Miss America.

**Ocean Floor Life Is Plenty Ancient**

LA JOLIA, CALIF. (AP)—Bacteria found in sediments deposited on the floor of the Pacific several millions of years ago still are capable of reproducing themselves, according to Richard V. Morita, of the University of California's Scripps Institution of Oceanography.

Whether they are, as has been claimed, "the oldest living things on earth," is as yet impossible to determine, says Morita.

One theory is that the bacteria in the lower layers of sediment have existed in a state of suspended animation for some millions of years.

A contradictory theory is that they have been able to carry on normal functions, reproducing and dying throughout the eons they have been locked in the mud at the bottom of the Pacific. Neither theory can be proved absolutely as yet, Morita states.

**Funeral Rites Set For Jack Colbert**

Funeral services will be held Thursday at Duncan, Okla., for Jack Colbert, 32, scout and landman for Continental Oil Company, who died Monday at Roswell, N. M.

Colbert lived in Midland three years before moving to Roswell July 1.

Funeral services will be held at 2:30 p.m. under direction of the Grantham Funeral Home of Duncan. Interment also will be at Duncan.

Colbert is survived by his mother, a brother and a sister.

**THEN THERE WERE THREE**

LAKE FOREST, ILL.—(AP)—Elmer Angsman, Chicago Cardinals half-back the last five seasons, is one of three players left from the Cards' world's championship team of 1947.

The other two vets are Charley Trippi and Garrard "Buster" Ramsey. The Chicago team won the title by defeating the Philadelphia Eagles 28-21 on Dec. 28, 1947.

**Turner Wins Pro-Am Golf Tourney At Ranchland Hill Club**

Dick Turner of Amarillo won the low pro division in the one-day Pro-Am Tournament at Ranchland Hill Country Club Tuesday. He fired a 66, three strokes better than Elroy Marti of Houston. Abe Beckman of Ranchland Hill was third with 71.

The low-ball foursome was a tie between two teams, posting 62's. The first was Elroy Marti and Bob Wortman, A. A. Jones and Bob Maberry. The other team was Turner's, with Ken Balcer, J. Beer and Frank Flournoy.

Tied for second with 63's were Gene Mitchell of Lubbock, Ray Mitchell, Bill Mitchell and Henry Bray, along with Foy Fanning, Abilene, Leon Pickett, C. H. Martin and Jerry Scott.

**Many West Texas Projects Included In Military Bill**

WASHINGTON (AP)—Texas projects amounting to more than \$300,000,000 were authorized Tuesday by the House in a military construction program sent to the Senate.

The largest item on the Texas list is \$63,753,000 for Lackland Air Force Base at San Antonio.

The authorized program includes these West Texas projects:

- Amarillo Air Field, expansion and improvement, \$13,814,000.
- Big Spring Municipal Airport, reactivation, \$3,133,000.
- Goodfellow Air Force Base, San Angelo, expansion and improvement, \$1,583,000.
- Laughlin Air Force Base, Del Rio, reactivation, \$13,701,000.
- Reese Air Force Base, Lubbock, improvements, \$967,000.
- Sheppard Air Force Base, Wichita Falls, expansion and improvements, \$21,291,000.
- Fort Bliss, El Paso, \$21,709,830.
- Bugs Air Force Base, El Paso, \$7,883,000.
- Camp Wolters, Mineral Wells, \$14,807,000.

**Dismissed Army Gridders Get Cold Shoulder From Loops**

NEW YORK (AP)—Most of the nation's colleges have no strict rules that would prevent them from admitting West Point's ousted football players, but many of them have assumed a wary "hands off" policy.

This was particularly true in the conservative Ivy League and in the not-so-conservative Dixie belt, where open grid scholarships long have been advocated.

Columbia University said Wednesday it normally does not take in transfer students and would "not even consider" accepting students from another institution.

This appeared to be a rather common attitude in the Ivy League. Army cadets, facing dismissal for violation of the Military Academy's honor code, said they were getting a "cold shoulder" in the East.

Won't Be Admitted

The University of Virginia, to which a number of the Army gridders were pointing, announced that a student "suspended or dropped from another college will not be admitted."

The Southeastern Conference, home of such powerhouses as Kentucky, Tennessee and Alabama, has the normal year residence rule but the Birmingham News wrote:

"It's firmly believed that none of the West Point players will ever play for Southeastern Conference teams. Most of the college presidents are against it. Most of the athletic directors are against coaches bringing in some of the Army players with a year or two of eligibility left."

"It would be a terrific indictment against the SEC if it went after the players dismissed from West Point. It would be hard to convince many that the players weren't getting something extra."

Only the Southwest Conference is bound by rules not to let transfers play football. An upper classman with previous varsity grid experience is automatically ineligible to continue his football career.

The other conferences have a year's residence rule, meaning a transfer must be in school a year before he can go out for the team. Members of these conferences, however, pass on admissions individually.

**Weights Big Factor In Louis, Bivins Wednesday Fight**

BALTIMORE (AP)—There was so much interest in Joe Louis and Jimmy Bivins getting weighed Tuesday morning you'd think they were going to have a beauty instead of a boxing contest Wednesday night.

What they'll weigh for the 10-round go in Baltimore Stadium has become for one reason or another a factor in the prefight speculation.

For one thing, both camps have been extraordinarily shy about telling exact weights.

At the Louis camp, they've been worrying a little that the 37-year-old former heavyweight champ might be too light—all of all things. It wasn't long ago after the Brown Bomber gave up his crown and started this comeback everybody wondered when he'd stop putting on pounds.

Now they hope Louis will make 210. The best advance report from Marshall Miles, his manager, was that he went "207 or 208," the weight at which he whipped his last opponent, Caesar Brion.

Whatever Louis weighs, he's going to have a terrific bulge on Bivins.

**Look! 2-1 Score In WT-NM League**

By The Associated Press

Just about everything happens in the West Texas-New Mexico League but seldom do two clubs battle 14 innings to a 2-1 decision. It can happen, though. In fact, it did happen Tuesday night.

The Lubbock Hubbers were forced to go 14 innings to shade the Borger Casars by that score. A double by Chuck Novotny with two outs broke up the game.

Rene Vega and Bob Michaels went all the way for Borger and Lubbock respectively. Vega allowed seven hits, Michaels nine.

Baseball and boxing were mixed at Pampa as Clovis took an 11-8 decision over the Oilers. Abilene nipped Albuquerque, 10-8, and Lamesa pounded Amarillo, 13-4.

Joe Borrego charged the umpire with fists swinging in the ninth inning as a ball was called on the batter. The bases were loaded at the time. Three runs already had scored, two more came in but the rally fell short.

**Turpin To Stick To English 'Vittles' In Training For Bout**

SOUTHAMPTON, ENGLAND (AP)—Randy Turpin, world middleweight champion, is going to stick to English cooking when he trains in the United States for his return title with Sugar Ray Robinson on September 12.

"Good plain English cooking like my mother gives me will be good enough for me," he asserted Tuesday on the eve of his sailing on the Queen Mary.

The Queen Mary chef, Frank Ninim, has been assigned to see that Turpin gets the food he likes. When the ship docks in New York he will go along to Turpin's training camp.

**The SCOREBOARD**

**TUESDAY'S RESULTS**

**Longhorn League**  
VERNON 5, MIDLAND 2.  
Odessa 23, Sweetwater 4.  
San Angelo 12, Artesia 1.  
Big Spring 6, Roswell 4.

**WT-NM League**  
Lubbock 2, Borger 1 (14 innings).  
Abilene 10, Albuquerque 8.  
Lamesa 13, Amarillo 4.  
Clovis 11, Pampa 8.

**Texas League**  
Houston 3, Dallas 2.  
Fort Worth 9, San Antonio 4 (10 innings).  
Shreveport 9, Oklahoma City 3.  
Beaumont 5, Tulsa 4 (10 innings).

**National League**  
New York 4, Brooklyn 2.  
Boston 4, Philadelphia 2.  
Chicago 5, St. Louis 4.  
(Only games scheduled).

**American League**  
Cleveland 6, Detroit 5 (10 innings).  
New York 6, Washington 3.  
Boston 7, Philadelphia 4.  
(Only games scheduled).

**LOU BRISSIE'S ONE REASON—**  
**Cleveland Stays In Front On 12th Straight Victory**

By RALPH RODEN  
Associated Press Sports Writer

Lou Brissie is the unheralded cog in the Cleveland Indians' stirring drive for the American League pennant.

Brissie is to the Indians what Joe Page was to the New York Yankees in their successful 1947 and 1949 pennant campaigns. But unlike the former gay reliever of the Bombers, Brissie hasn't drawn the headlines.

Although the "big four" of Bob Feller, Mike Garcia, Early Wynn and Bob Lemon have received most of the credit Brissie has contributed handsomely to the two and one-half game lead the Indians now enjoy over the Yankees.

The 27-year-old lefthander, seriously wounded in Italy during the war, pitched three scoreless innings in relief Tuesday to gain credit for the Indians' 6-5, 10-inning victory over the Detroit Tigers for their twelfth straight win.

The Yanks kept pace by defeating the Washington Senators, 6-3. The third-place Boston Red Sox also won, downing the Philadelphia Athletics, 7-4.

In the National League, the New York Giants turned back the Brooklyn Dodgers, 4-2, the Boston Braves beat the Philadelphia Phils, 4-2, and the Chicago Cubs edged the St. Louis Cardinals, 5-4. The other clubs were idle.

Brissie, making his thirty-fourth appearance for the Indians, gained his third triumph. However, it marked the twelfth time he successfully has bailed out a faltering starter. Brissie now has pitched 19 1/2 consecutive scoreless innings.

The lanky southpaw came to the Indians from the Philadelphia Athletics in a three-cornered deal with Chicago on April 30. The Indians had to give up Orestes Minoza to the White Sox to obtain Brissie. At the time, Indian General Manager Hank Greenberg was criticized for making the deal.

Greenberg said, "We didn't want to give up Minoza. He has the chance to become one of the really good ball players of our time. Minoza has lived up to Greenberg's expectations but the work of Brissie has enabled the Indians to go all out for the pennant."

Lemon started for the Indians against Detroit's Fred Hutchinson. The Tigers knocked Lemon out with a three-run rally in the sixth. Brissie took over in the eighth and held the Tigers at bay the remainder of the way Jim Hegan singled home Harry Simpson from second base with two out in the tenth to break up the game. Hank Borowy was the loser. Ray Boone and Simpson homered for the Indians and Dick Kryhoski and Vic Wertz for the Tigers. The victory was the Indians' fifteenth in 16 meetings with Detroit.

The Yanks scored three in the ninth with two out to down the Senators. Relief Pitcher Bob Kuzava singled home the first run and Phil Rizzuto's double drove the final two across the plate. Home runs by Gene Woodling and Hank Bauer accounted for the first two Yankee runs.

Ted Williams drove home three runs on a pair of homers to lead the Red Sox to victory over the Athletics. The homers enabled Williams to wrest the league lead from the A's Gus Zernial, 25 to 24, and also boosted his RBI output to 100 tops in the majors. Mickey McDermott started for Boston but left in the sixth, complaining of a pain in his left side. Chuck Stobbs and Walt Masterson finished up. The Sox pulled a triple play in the eighth.

The Giants' relief specialist, George Spencer, made his first start since May 15 and checked the Dodgers on six hits. He lost his shutout in the eighth inning when Billy Cox and Duke Snider homered. The Giants sewed it up in the end by Don Mueller and Whitey Lockman off Erv Palca. The victory was the Giants' first over the Dodgers in seven games.

Home runs by Ebbas St. Claire and Sam Jethroe featured the Braves' triumph over Robin Roberts and the Phils. Rookie Chet Nichols scattered eight Philadelphia hits to bag his seventh victory.

Hank Sauer drove home all five Chicago runs in the Cubs' conquest of the Cards. Sauer blasted a two-run double and his nineteenth and twentieth homers. Cliff Chambers was the victim of Sauer's blasting. Reliever Monk Dubiel picked up his first victory.

Freddie Martin pitched no-hit ball for six innings and gave Dallas only three all the way in pitching the Buffs to a win that squared that series. The Eagles tied the game with two runs in the seventh when they solved Martin's offering for the time. Houston took the lead for keeps in the last of the inning with Martin driving home the winning run.

The Sports batted around in their big third inning to give Joe Budny a comfortable lead. Budny homered with two on in the big inning to help his own cause.

The Sports had counted all their runs before the Indians broke through on Budny in the sixth to spoil his shutout. Then scored single runs in the sixth, seventh and eighth.

DURHAM, N. C.—(AP)—Teddy White had to learn practically a new name of golf when he came to the National Junior Chamber of Commerce tournament, but learn it he did and he learned it well.

The long, lean high school kid from Roswell, N. M., won the Jaycee medal with 73-67-140 Tuesday even though:

1. He played on Bermuda greens while he's accustomed to the new Mexico's bent grass and sand greens.
2. He played on Hope Valley course's tree lined fairways while he usually plays on the wide open spaces of the far West, and
3. He played in the rain on a soggy course while he's far more accustomed to the dry, thin air of his homeland.

**Midland's Junior Olympics Team Scores 31 Points**

HOUSTON—Midland's Junior Olympic track squad scored a grand total of 31 points here Tuesday night, placing second in the 16 and 17-year age bracket for boys. Hundreds of athletes from Texas, Mississippi, Louisiana, New Mexico and Alabama entered the U. S. Junior Olympics here.

Roy Kimsey put on a stirring finish to lead the Midland mile relay team to a first place in that event. Kimsey took the baton more than 20 yards behind the leader and romped home 10 yards in front. The time was 3:44.4.

Kimsey also took second in the 440-yard dash, with a 53.6 time. Other Midland results: 120-yard high hurdles: Robert Keisling, fifth, time: 16.0; 200-yard low hurdles: Harold Hensley, fourth, time: 24.1; 100-yard dash: Johnny Kennedy, fourth; 880-yard run: Jess Hatfield, fifth.

In the 14-15-year age bracket, Joe Ewing placed fifth in the 100-yard dash; Ewing, Dale Jobe, Jerry Green and Bill Mims finished third in the 440-yard relay, and Ewing was third in the broad jump, with a leap of 18 feet, three inches.

The first-place mile relay team from Midland was composed of Robert Keisling, Johnny Kennedy, Jess Hatfield and Kimsey. Bill Gildewell, Midland Youth Center director, was in charge of the Midland team.

The Midland JayCee swimming team ran through preliminary workouts at Shamrock Pool Tuesday afternoon, and entered the swimming tournament, which started Wednesday morning.

The 10 Westerner brothers of Egin, Ill., participated in the annual Ten Brothers Bowling Tournament for 22 consecutive years.

Freddie Martin pitched no-hit ball for six innings and gave Dallas only three all the way in pitching the Buffs to a win that squared that series. The Eagles tied the game with two runs in the seventh when they solved Martin's offering for the time. Houston took the lead for keeps in the last of the inning with Martin driving home the winning run.

The Sports batted around in their big third inning to give Joe Budny a comfortable lead. Budny homered with two on in the big inning to help his own cause.

The Sports had counted all their runs before the Indians broke through on Budny in the sixth to spoil his shutout. Then scored single runs in the sixth, seventh and eighth.

EVERY DAY IS A GOOD DAY TO READ THE CLASSIFIED ADS

COMRADE'S SALUTE—A new Communist salute, an "over the head double handclasp," emerged from a three-day, Red-sponsored "Peace Crusade" at Tehran, Iran. Here, a member of the "peace crusaders" shows a crowd of demonstrators how the handclasp "works." One Iranian suggested that the salute was "copied from an American boxing movie."

33 Accused Cadets Leave West Point; Others To Follow

WEST POINT, N. Y.—(AP)—Thirty-three of the 90 accused Military Academy cadets were civilians Wednesday, most of them slated for early dates with their draft boards unless they gain admittance to other colleges. The glum exodus from the Academy marked the beginning of the greatest mass expulsion in the 150-year history of the "Point." All 90 are accused of violating the West Point honor code by cheating on examinations. Col. James B. Leer, Academy Information officer, said Tuesday "almost all" of the departing 33 had resigned—rather than being walked out of the Army under administrative discharges. The cadets who resigned left under an administrative order, which implies neither an honorable nor a dishonorable discharge. At least 10 more of the accused cheaters were to be processed Wednesday and take their "last walk" through the Academy gates. The remainder of the 90 are expected to be gone by the end of the week. The names of the accused cadets never have been made public, except when individuals identified themselves as part of the group.

Truce Talks—

(Continued From Page One) fifth Kaesong session. It was the fifteenth in which the negotiators had argued over the buffer zone. He advanced the idea, the official UN communique said, after both sides "expressed their respective but divergent views on the effectiveness of naval and air operations on the present overall military situation." Nam II conceded that UN air and naval bombardments had a "definite amount of effect" on Red troop movements. To Avoid Formality. Joy's proposal called for a joint committee of one delegate from each side, aided by not more than two staff assistants each, including interpreters. He said he was willing to name his men immediately, if Nam accepted the idea. Joy said "We have hung in dead-lock on the buffer zone 'for many days." "We show no progress along present lines of procedure," he said. "One of our difficulties is the formality of utterances of each delegate regarding the point at issue." He said this was necessary in formal sessions, but a subcommittee could avoid it. Joy suggested subcommittees meet around, rather than across the table, and seek objectively to work out a solution to our present problem. Nam II asked for and received a copy of Joy's proposal for further study.

45 Powder Puff Pilots Take Off In Annual Derby

SANTA ANA, CALIF.—(AP)—Forty-five powder puff pilots got the takeoff flag at noon Wednesday to start the fifth annual All-Women Transcontinental Air Race. This year the dash ends in Detroit, with Fort Worth, Texas, the only required check-in point. The number of planes in the race narrowed to 45 when five planes were cancelled Tuesday. The women pilots are not allowed to fly at night, and other stops will be made at various cities along the route to refuel and check weather conditions. The race ends officially August 19, the last day of the National Air Races in Detroit. Possible stopping places on the 2,348-mile stretch include Ellythe, Calif.; Phoenix and Tucson, Ariz.; Columbus, N. M.; El Paso, Odessa, Abilene and Fort Worth, Texas; Tulsa, Okla.; Springfield, Mo.; St. Louis, Indianapolis and Fort Wayne.

V-J Day Passes Almost Unnoticed By U. S., Japanese

TOKYO —(AP)—The sixth anniversary of Japan's surrender passed almost unnoticed Wednesday by both occupation personnel and the Japanese. There were no ceremonies, no speeches, no flags in the streets. Shops and offices did business as usual. It appeared that most Americans, anyway, were not even aware the bloody Pacific war came to a halt just six years ago. Only one of Tokyo's four major metropolitan newspapers commented on the anniversary. It dwelt largely on the effects of facing "the buffeting of the world" alone after Japan's peace treaty is signed. Gen. Matthew B. Ridgway, occupation chief in his role as supreme commander of the allied powers, issued no statement and instead left for a brief vacation at a mountain resort.

Schools—

(Continued From Page One) would be designated for local maintenance and \$446 cents would go into the various sinking funds. The board estimated the enrollment of Midland schools at 6,350 for 1961-62, an increase of 1,185 over 1960-61. School employees for 1961-62 will total 237 as compared with 183 for the last school year. In other action the board authorized—increased in pay for substitute teachers from \$8 to \$10 a day; sanctioned paving around the David Crockett Elementary School and the bus garage on E Street; purchased sound elements for the DeZavala-Sam Houston Elementary and Carver schools; authorized purchase of playground equipment for two new schools—Sam Houston and DeZavala; heard a report on the inservice school now in progress for teachers and parents; tabled the naming of new junior high and elementary school buildings until the next meeting; discussed zoning for the Sam Houston Elementary School (sector of city from which it would draw students) and set \$1,500 to receive bids for the sale of \$1,500 in bonds. Also, the board named Frank Monroe, superintendent, its representative to administer the federal school lunch program; examined securities posted by the First National Bank official school funds depository for two years; granted the Junior band band director, industrial arts teacher and cafeteria supervisor increases in salaries.

Polio Victim Talks To Lions

How it feels to be a victim of polio was described to members of the Midland Lions club at its luncheon meeting Wednesday by Lahoma Gardner, who spoke from a wheelchair. The speaker was stricken by polio while living in Tennessee. She now is a resident of Midland. A chronological account of the treatment steps and the long fight to "walk again" were outlined. "It takes a lot of help from everyone, and most of all God, to whip polio," she said. Program chairman was Duke Jimerson, J. P. (Kit) Carson president. Jimerson gave an account of the life of Stuart Hamblen, who was converted by the famous evangelist, Billy Graham. It was announced the club would sponsor a circus performance here October 3. Proceeds will go to charity funds of the organization.

Livestock

FORT WORTH —(AP)—Cattle 3,000; calves 2,000; market steady. Good and choice slaughter steers and yearlings 31.00-35.00; beef cows 22.00-27.00; good and choice fat calves 30.00-34.00; good and choice stocker calves 22.00-27.00; good and choice stocker steer yearlings 30.00-33.50; stocker and feeder steers 20.00-24.00; stocker cows 20.00-28.00. Sheep 2.50; sheep steady to strong; good and choice slaughter Spring lambs 30.00-31.00; slaughter yearling wethers 25.00-28.00; two-year-old wethers 22.00 down; aged wethers 17.00 down; good ewes up to 15.00; feeder lambs 25.00-28.50; feeder yearlings 23.00-25.00.

Senate Will Hear Two RFC Reports

WASHINGTON —(AP)—Senators who dug for months into RFC lending decided Wednesday to send the Senate two reports on what they found—one written by a Democrat and one by a Republican. Chairman Maybank (D-SC) said the Senate Banking Committee did not endorse either. The two reports are to be delivered to the Senate Monday. The banking committee ordered that they be kept secret in the meantime. One report was written by Senator Fulbright (D-Ark), who headed a subcommittee which held extensive hearings on loans by the Reconstruction Finance Corporation. Republican Senators Capethart (Ind) and Bricker (Ohio) prepared the other report.

Pricing Regulations Will Be Discussed

Merchants of Midland and area counties will meet with Office of Price Stabilization representatives in a discussion of pricing regulations Wednesday night in the Midland County Courthouse. I. R. Shaddix of the OPS district office in Lubbock, will preside. Merchants from Midland, Reagan, Glasscock, Upton, Howard, Martin and Andrews counties are invited to attend the session to be held in the district courtroom. Business firms dealing in retail services will be instructed as to compliance with ceiling prices regulation 34, the OPS said.

Smallpox Strikes Island

SINGAPORE —(AP)—The Singapore Government has declared Makassar, in the Celebes Islands, to be an "infected place." An official announcement said information had been received that "a dangerous disease, smallpox, exists in Makassar." The Mississippi River was formed during the latter part of the Ice Age, at least twenty thousand years ago.

Old Maids Gather In Second Annual Shindig At Denton

DENTON —(AP)—Old maids—those with the courage to admit it—gathered here Wednesday and joked about their unmarried status. It's the second annual Old Maids Day in Denton, officially proclaimed by the mayor. There are free movies, corsages, programs and other festivities for the spinsters. The tongue-in-cheek project was originated last year by Dorothy Babb, teacher in North Texas State College here. She decided old maids always had to buy baby presents or wedding gifts for other people but never had a chance to receive gifts. Old maids don't have birthdays, she says. So husband is the only requirement for the unofficial organization. Age doesn't matter. Last year, plenty of girls under 30 celebrated. This year, one of the oldest active members is Jennie Tanner of Dallas—age "82 plus." She can't attend, but for several weeks she has been writing other old maids expressing wholehearted approval of the idea.

Dancing Program To Open Friday

The Champagne Hour will open Friday night at Donohoo's. It will feature an hour of professional and audience-participation dancing under direction of instructors of the Town and Country Dance Studio. Prizes will be awarded. Patricia Watley will open the show with a conga. Instructors Jim and Josephine Lovins, and Bob and Emerald Green will demonstrate the zomba, tangos, rumbas and waltz and then ask those in the audience to dance with them or choose their own partners. The Champagne Hour will be held at 10:30 p. m. each Friday for six weeks and winners chosen by the audience will be given a prize and be eligible to compete for the grand prizes at the end of the six-week period.

UN Aid Asked For Imprisoned Newsmen

GENEVA, SWITZERLAND —(AP)—The United States Wednesday asked the United Nations to urge revocation of sentences arbitrarily imposed upon news correspondents performing their duties. The resolution did not mention Associated Press Correspondent William N. Oatis by name, but the U. S. delegate's speech introducing the measure bitterly denounced Czechoslovakia for imprisoning the newsmen. U. S. Delegate Walter Kotschinger presented the resolution to the UN Economic and Social Council, which is in session here.

**IS FOG SPRAY The Answer To POLIO?**

Science has so far been unable to determine very much about polio. But it is generally known and agreed that the common house fly, and perhaps other house pests, aid in spreading the dread disease. Marked decrease in the incidence of polio have been noted following campaigns against flies and other insects.

**KILL ALL INSECTS With One Application!**

Flies, moths, roaches, spiders, and other common house pests may be completely destroyed FOR MONTHS with one application of FOG SPRAY, as applied by the TIFA (Todd Insecticidal Fog Applicator) method.

Complete safety for your family, your pets, and for delicate fabrics is assured with the TIFA Fog Spray application.

Here is your opportunity AT VERY LOW COST to rid your home of the discomfort and health hazard of flies and other insects. The nationally known and widely endorsed TIFA application is your best answer to house pest problems. Call us today for free estimate on insect-proofing your home or other buildings.

'King' Is New Kind Of Star;  
Creating Broadway Legend

By GAILE DUGAS  
NEA Woman's Editor

NEW YORK—In the St. James Theater, just across the street from the spot where Ezio Pinza made theater history, a new kind of star is creating what's known as a Broadway legend. Like Pinza, this star doesn't fit the popular conception of the matinee idol.

For Yul Brynner is a paradox. He could not, by any stretch of the imagination, be called handsome. Not handsome in, say, the Barymore tradition. He appears on stage with his head shaved; he speaks in a high, shrill voice.

He is, nevertheless, a tremendously popular theatrical personality. He is also a witty, graceful man whose

Yul Brynner: In 1951, a new kind of star on Broadway.

eyes are lighted by a deep intelligence. He has great personal charm, a charm that seems to connect and hold his audience in the darkened theater night after night.

He has, as the leading man in the highly successful musical, "The King and I," what he himself calls one of the best male roles of this or any century. Yet, he's an actor who's happiest when he's directing.

Sitting in Sardi's over a cup of coffee, Brynner talked about the problem of keeping a role in a long-run musical fresh and important each evening.

"It's not so much of a problem for me," he said. "For one thing, I have fun in this play. I really enjoy it. If I didn't, I'd be exhausted. It's

long; it runs three hours. I don't use my own voice. I speak on a high, shrill note. The make-up and the costumes and everything about the production are complicated.

"So I never play the role exactly the same way twice. For one thing, the audience is never the same and my mood varies in ratio to the audience. That makes a difference in keeping the role fresh. Circumstances are different each time I step onto the stage."

What was Brynner doing when this part came along?

"Well, I was doing all right," he said. "Mine is no Horatio Alger story. I was directing a drama series on television. I put in a 14-hour day, made a \$1,000 a week and wasn't a bit unhappy. Matter of fact, I was having a good time, doing just what I'd always wanted to do."

"Then came this offer. I hadn't read the book and I hadn't seen the movie, so it didn't mean anything to me. I turned it down. But it turned up again and again and finally, I was convinced that it was for me."

Because he was born on Sakhalin, an island off Japan, of a Swiss father of Mongolian descent and a mother who was a Romany gypsy, Yul Brynner looks impressively right for the role of the king. But he is not actually baldpated. His valet, with the aid of a pair of poodle clippers, takes care of this deflection every other day.

**New Archeological Discoveries Made**

CAIRO—(P)—Wendell Phillips, American archeologist of Concord, Calif., told reporters here he soon would open a display at the Carnegie Museum, Pittsburgh, of objects found in the ancient city of Timnah buried under Arabian sands.

One will be a gold necklace dating back more than 2,300 years. A number of bronze and alabaster statues also will be shown. An expedition led by Phillips found the buried city in 1949.

LOST 70 POUNDS WITH  
THIS HOME RECIPE

Beverly is the original grapefruit juice recipe for losing 70 lbs. It's simple. Just go to your drugstore and ask for 4 ounces of liquid Brevinate. Pour the contents into a pint bottle. Add 12 ounces of canned grapefruit juice. Then take just two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves—if rotund pounds and inches of excess fat don't just seem to disappear almost like magic from neck, skin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. No starvation diet with Brevinate.

**Lost 70 Pounds**  
"I have lost a total of 70 pounds taking Brevinate and am feeling fine," writes Mrs. J. A. McBoe, Box 24, Devine, Texas.

**Lost 10 Pounds**  
"I am very much satisfied with Brevinate. I lost 10 pounds in 7 weeks," says Mrs. Albert Stevens, 1444 E. Van Buren, Brownsville, Texas.

Truman Takes Slap  
At 'Hate-Mongers'  
In Capital Address

WASHINGTON—(P)—President Truman Tuesday night asserted hate-mongers and character assassins seek to make the American people "so hysterical that no one will stand up to them for fear of being called a Communist."

Senator McCarthy (R-Wis.), who was not named by Truman, immediately challenged the President to a showdown at the polls in 1952. For a year and a half McCarthy has been contending the government is infested with Communists and sympathizers.

The President spoke at the dedication of a new Washington headquarters of the American Legion. **Pulls No Punches**

He pulled no punches in lambasting those he said are trying "to create fear and suspicion among us by the use of slander, unproved accusations and just plain lies."

"These people, Truman declared, are attacking basic freedoms far more effectively than the Communists have ever been able to do."

Senator Benton (D-Conn.) promptly nominated McCarthy as the object of the attack. Benton has proposed that the Senate formally consider ousting the Wisconsin senator.

McCarthy, accepting the designation, flung a challenge back at the President. He said:

"If Truman wants to make the fight against communism—which he calls 'McCarthyism'—an issue in the campaign, I will welcome it. It will give the people a chance to choose between Americanism or a combination of Trumanism and communism."

Phoners At Houston  
Stage Short Strike

HOUSTON—(P)—Southwestern Bell Telephone Company operations here were back to normal Tuesday with all operators back on the job. They quit Tuesday in a protest walkout against lack of air-conditioning equipment in the company's main building.

Earl Scruggs, division commercial superintendent, said the situation has been normal since 5 p.m. Tuesday.

CUBA STARTS MOVEMENT  
TO EXPROPRIATE CATTLE

HAVANA, CUBA—(P)—A move to expropriate cattle in an effort to end a meat shortage is being made by the government of Cuba. Ranchmen have been slow to sell cattle this season. They say the animals are thin and that the official price of 12 cents a pound on the hoof is low.

Beasley, Apodaca  
Must Serve Terms  
In Federal Prison

SANTA FE, N. M.—(P)—Two former New Mexico peace officers have lost out in their try for early freedom from La Tuna, Texas, Federal Reformatory.

Herbert Beasley, former state police chief, and A. L. Apodaca, former Dona Ana County sheriff, asked that their one-year sentences for torturing a suspect be reduced. They claimed impaired health and hardships wrought on their families.

"I can not grant their requests and keep faith with other prisoners I have sentenced under similar circumstances," U. S. Judge Carl Hatch said Tuesday in denying their motions.

"I realize I gave the maximum sentence. But these men were convicted of violating the thing that makes this nation different from others: freedom of the individual."

Beasley and Apodaca were convicted by a federal court jury of torturing a suspect in an attempt to obtain a confession in the unsolved death of Ovada Coogler, Las Cruces waitress, two years ago.

Air Force Officer  
Found Dead Near  
Hereford, Arizona

BISBEE, ARIZ.—(P)—The body of a man found Tuesday beside the Southern Pacific Railroad tracks near Hereford, Ariz., 10 miles west of here, was identified Wednesday as that of Second Lt. William Claude Rodenberry, 23, of the U. S. Air Force. He was the son of Mr. and Mrs. C. C. Rodenberry of Kingsville, Texas.

A coroner's jury presided over by John Sebring, justice of the peace of Tombstone, Ariz., ruled death was due to a blow on the head received when Rodenberry apparently fell from a west-bound passenger train.

The finding was upheld by an autopsy performed by an Army surgeon from Fort Huachuca, Ariz.

Further investigation is being conducted by the Cochise County (Bisbee) sheriff's office and the Southern Pacific.

Lieutenant Rodenberry was born in San Marcos, Texas. He attended Texas A&M from 1946 to 1948. At the time of his death, he was returning from a home leave to the Camp Stoneman, Calif., Overseas Replacement center.

Cox Warns Against  
Giving Rabies Shots  
As Polio Preventive

AUSTIN—(P)—State Health Officer George W. Cox considers rabies shots to prevent polio "dangerous" and "a shot in the dark."

His comments followed the giving of rabies shots to several hundred men, women and children at Frost Monday and Tuesday by Dr. Herbert E. Hippius and Dr. Will Miller to test the theory.

Dr. Hippius is orthopedic counselor at the Waco Crippled Children's Hospital and Dr. Miller is head of the Navarro County Health Unit.

"You use rabies shots in an emergency, when a person has been bitten by a dog or some other rabid animal," Dr. Cox said. "You take the risk because it's the only thing left to do."

He speculated that unnecessary use of rabies shots might cause paralysis.

"I think it would be a lot cheaper to do experimental work on monkeys, not on children. It's dangerous, to say the least," he said.

Dr. Miller said Monday the testing of Dr. Hippius' theory was strictly a private program.

"The American Medical Association didn't sanction it, and the State Health Department didn't sanction it. If it goes astray, Dr. Hippius and I will be out on a limb," he said.

The Frost citizens volunteered for the shots after seven of 900 inhabitants of the Central Texas community have suffered polio this year.

Electronic Fishing  
Is Envy Of Anglers

MADISON, WISC.—(P)—Most fishermen would trade any three of their favorite tricks for the "Impulse" is a \$12,000 reconditioned Navy launch loaned to University of Wisconsin lake scientists by the Office of Naval Research, and she can literally sound out the spots where the fish are swimming.

If this sounds like a whale of a story, ask any old Navy man about the echo-sounder. He'll say it's an electronic device to send out split-second sound waves and then calculate and record water depth from the echo. The echo-sounder will also detect other objects in deep water—such as schools of fish.

The scientist here hope to be able to track some of Wisconsin's best known game-fish species by bouncing the sound waves off their backs. As soon as the echo-sounding instruments have been adapted to shallow water, the scientists intend to use the launch to locate schools of fish and chart both size and daily movements of the school to and from feeding grounds.

**Arthur Wasson Life Story Is Published**

ABILENE—The life story of Arthur Lee Wasson, Big Spring rancher, oil man and philanthropist now is being published by the Naylor Company of San Antonio. Entitled "Adventuring with a Purpose," the book is authored by Dr. Rupert N. Richardson, president of Hardin-Simmons University.

Wasson, with his late wife, is donor of approximately \$2,500,000 in trusts to institutions supported by Southern Baptists.

Wasson's interests have covered a vast expanse of territory, Richardson points out. They have extended more than halfway across Texas, and have taken him to Montana, northern Mexico, southeastern Arizona, New Mexico, Oklahoma and Colorado.

**Outlook Brighter For Retirement**

LOS ANGELES—(P)—Retirement age is no longer a time of lonely, static existence, but a period of productive, active living, says Dr. Norman P. Miller, assistant professor of physical education at the University of California.

Miller says retirement these days is known for its "creative living, community activity and profitable avocations."

He recommends advance planning for those about to retire from regular jobs. First, the right place to settle down for each individual should be selected, then the right kind of hobbies, and the right kind of group or club to join should be carefully chosen, says Dr. Miller.

HOMES FOR HAITIANS—For the first time in the colorful history of the western hemisphere's only French-speaking republic, low-cost housing is being built for Haiti's "little man." The first "Workers' City" is nearing completion at Port-au-Prince, where these workers are seen building one of the new homes. A wide-spread social and economic reform program of President Paul Magliore calls for 15 low-cost housing projects throughout the island at a cost of about \$564,000.
