Trouble Is Foreseen

The United States does not believe any good can come from Russia's decision to take part in the Japanese peace treaty conference at San Francisco next month.

First of all, the Soviet Union plainly has no intention of signing the treaty. The Kremlin is expected, therefore, to use every device at its command to obstruct or delay its approval by the free world.

To understand what lies ahead, we have to remember that industrial Japan and Germany are prime objectives in Russia's projected course of world conquest. Hence Moseow cannot sit idly by and watch Japan pass into the Western orbit, as would be the case under the proposed treaty.

In accepting a bid to attend at San Francisco, the Russians informed the West they would have their own treaty preposals to offer. They do not expect to win general endorsement of these, nor can they block the signing of the tentatively approved pact. There will be no veto at the conference, and any nation that wishes may

At the very minimum, the Russians intend to exploit the meeting for propaganda purposes. They see it as a forum comparable to the United Nations, since the world's eyes will be upon San Francisco in September.

But they certainly have larger hopes. India, Burma, Indonesia and the Philippines indicate they dislike some features of the treaty draft. The Soviet Union, failing broader gains, probably will strive to persuade these and other Asiatic countries not to sign. It might then be able to win the label, "white man's treaty," on the document fashioned so painstakingly by John Foster Dulles and

Beyond that, the Russians may seek indefinite delay on a general signing of the pact, by diverting participants' attention to prospects of a broad Far Eastern settlement.

In this tactic, the Korean cease-fire negotiations con- ror and incredulity. "Are we going ceivably could play a part. The Kremlin might stage- to have war?" manage the talks so that an armistice occurs on the very eve of the treaty conference. This would be offered as proof of Russian reasonableness and sincerity. Willowy Asiatics like Prime Minister Nehru unquestionably would be impressed. Pressure for Far Eastern talks might be considerable.

On the other hand, Moscow might stall the Korean negotiations until the San Francisco session is well under way. It might then try to fit them into a wider Far Eastern settlement, possibly with the idea of trading a ceasefire for political concessions affecting Formosa and Communist China.

Clearly the possibilities are legion. Of one thing Western diplomats are positive. Russia's entry into the peace treaty scene spells trouble. The history of Soviet San Francisco Japanese treatyparticipation in international conferences from 1945 on is a frustrating story of delay, disruption, confusion and futility. No one figures it to be different this time.

The West will be lucky if it now can carry off this meeting in the scheduled four days. But it must do everything within reason to defeat the Russian game without seeming to deny them a fair hearing. If that means stringent rules to limit debate and deal with violators, well and good.

The proposed Jap treaty is a milestone of fine Asia and the whole world get ourselves caught in the middle?"

That is one stake in the range plan of the Kremlin.

This, it should be noted, is not B. The leaders of the I tion of the free nations coming to San Francisco. It must be the West's resolve to see this goal achieved, obstructive Russia's efforts to the contrary notwithstanding.

WASHINGTON — When Bernard Baruch returned from his recent trip to Europe, he got a call from a New York reporter who asked for comment on the burning of a Ku Klux Klan cross near the Baruch Carolina estate. The demonstration had been accompanied by some uncomplimentary remarks by a klanaman on Baruch's ancestry.

Anyway, when Baruch heard about what had hap, wanted the United State to star all-out detense production. When Baruch was reminded of this, he admitted that his comparison to Eisenhower had not been so good. He had wanted to compare Eisenhower to Joan of Arc, but decided he'd better not bring a girl into it. So he settled on Feter the Hermit, which he thought would be a nice compliment to Eisenhower's present, second crusede in Europe. If he had the comparison to make over again, Baruch declares, he would make it to Richard the Lion

In Europe today, Baruch believe General Eisenhower has to be the leader through inspiration. He can't be what Baruch calls "the wicked partner." He can't go around raising Cain, driving European tary leaders to greater effort.

Baruch took on some of this role of the wicked partner during his visit to Europe. In talks with British, French and German leaders Baruch emphasised repeatedly that the United States was in no mood to do the whole job in Burope. The control tower operator, Sea man M. R. McMahon, said the pilot of the twin-engined patrol bomber apparently retracted his landing gear in an effort to get the craft into the air at the end of the 4,000foot runway.

Lt. Comdr. Thomas H. Rentz, public information officer, said the plane rolled end over end down the cliff before coming to rest 300 yards from the heavily traveled U. S. Highway 23, running at right angles to the runway above.

How much in EXTRA INCOME TAXES can your pocketbook stand?

loday, with skyrocketing living costs, every dollar of your family budget must count. When you have to pay EXTRA income taxes—over and above your fair share—because Congress permits cooperative and mutual corporations to pay little or nothing, you have LESS money with which to meet the needs and pleasures of your family or yourself.

AT THE PRESENT TIME—and for more than 35 years—the Congress permitted more than 35,000 cooperative and mutual profit-making businesses to pay little or no Federal income tax. Last year these tax-exempts earned more than THREE BILLION DOLLARS in corporate profits and escaped income tax to the tune of ONE BILLION. Make no mistake about it—that Billion Dollars had to be loaded onto the backs of you and every other taxpayer. In other words, YOU paid an EXTRA amount over and above your rightful share because Congress played favorites with these tax-exempt businesses and discriminated against you, a taxpayer.

Congress is getting ready to boost your Income Tax again!

The House of Representatives has already done so. They voted to raise your personal income tax 12½%—your business tax another 5%. Now the tax bill is before the United States Senate.

NOW IS THE TIME TO PROTEST THIS TAX INJUSTICE

Write your two United States Senators immediately. Demand that they act to TAX THE UNTAXED before increasing your taxes again. There is still time to put a stop to this tax favoritism and discrimination by Congress. But you must act at once. Write today.

Yankee Manager Casey Stengel selected Overmire for the important second game because both of his previous choices, Allie Reynolds and Bob Kuzava, are afflicted with injuries.
