**Brown & Thorp Get Flowing Oil In Test Of Pecos Wildcat**

Flowing oil has been found in a Northeast Pecos County wildcat in the Clear Fork-Permian lime.

Brown & Thorp Drilling Company of McCombs, No. 1 O. R. White-Gulf Oil Corporation, one mile south of Girvin, and four miles east of La Gloria Corporation No. 1 Sullivan, a Clear Fork discovery completed several months ago, flowed the oil.

The show came in a drillstem test at 3,028-50 feet. Gas surfaced in four and one-half minutes and oil started flowing out at the top in 28 minutes.

**Flowed In Drillstem Test**

It flowed for an unreported length of time at the estimated rate of between two and three barrels per hour. There were no signs of water.

Operator is preparing to take electric survey. Casting probably will be run and a production test made of the pay section.

This prospector is located 660 feet from north and east lines of section 49, block 11, H&GN survey. It started out to go to 3,000 feet to try to find and test the Ellenburger.

**Ellenburger Oil Found On DST In SW Midland Test**

Sinclair Oil & Gas Company No. 3 June Tippet, wildcat in Southwest Midland County, has indicated as a possible discovery from the Ellenburger.

Operator ran a drillstem test from 12,918 to 12,993 feet. Tool was open three hours. Gas was at the surface in two hours and 25 minutes. Recovery was 5,990 feet of water blanket and 165 feet of free oil and 15 feet of oil and gas-cut drilling mud.

Operator is now coring below 12,993 feet.

The Ellenburger was topped at 12,930 feet, elevation 2,864 feet. That gives it a datum of minus 10,066 feet.

On the above drillstem test, flowing pressure was 1,670 and 30 minute shutin pressure was 2,750 pounds.

Drillsite is at the center of the southwest quarter of the northwest quarter of section 17, block 40, T-4-S, T&P survey.

**El Tee 1-96 Briley In C-W Dawson May Be Reef Discovery**

El Tee Oil Company No. 1-96 Briley, Central-West Dawson County wildcat has developed strong indications of the possible discovery of commercial oil and gas production from the top of the Pennsylvanian reef lime.

This exploration, located 15 miles northwest of Lamesa, is bottomed at 8,841 feet in the reef lime and is running 7-inch casing to bottom.

The pipe will be cemented and after the plug is cured the section of the reef so far drilled will be tested through perforations.

The indications of production came during a three-hour drillstem test at 8,802-41 feet. Gas surfaced in 20 minutes. No fluid came to top while the tool was open.

Recovery was 4,030 feet of clean oil and 420 feet of salt water. Fluid unloaded from the drill pipe while it was being pulled from the hole.

An electric log was taken after the tester had been pulled out. Operator then ordered the casing run.

Corrected top of the reef lime is at 8,750 feet. That marker had previously been reported to be at 8,620 feet. That gives it a datum of minus 5,479 feet.

Location is 660 feet from north and 860 feet from east lines of section 96, block M, EL&ER survey. The project originally started to dig to 12,000 feet to explore the Ellenburger.

**Skelly, Et Al Finish Ellenburger Opener At SE Lea Wildcat**

Skelly Oil Company, Seaboard Oil Company of Delaware and J. C. Maxwell, Inc., of Fort Worth, have completed their No. 1-J Mexico, as a flowing discovery from the Ellenburger in Southeast Lea County, New Mexico.

This important new field opener is 660 feet from south and east lines of section 22-24a-53a. It is one mile west of the multipay Dollar Hide field in Southwest Andrews County, Texas, and it is eight miles northeast of J.A.L.

The wildcat producer is about 25 miles north of Kermitt, and 35 miles south of Hobbs.

The new discovery flowed 583 barrels. (Continued On Page 16)

**400 Traffic Deaths Seen In Holidays**

DETROIT—(AP)—Over the coming Labor Day weekend, some 400 persons will die in traffic accidents.

They don't have to die that way but they will—for a variety of reasons.

Some will die because of carelessness; some in an effort to travel too many miles in too few hours, resulting in fatigue. Some will die because of a disinclination to yield the right of way to the other driver.

Mostly they will die because millions of motorists underestimate the responsibility of piloting a couple of tons of fast moving metal over heavily congested highways.

**Greatest Man-Killer**

It has been said the automobile is one of the greatest booms of the modern era. It also is one of the greatest man-killers of all time.

The 400 marked to die on the nation's highways during the coming holiday weekend will join a tragic total, numbering almost 1,000,000, who have died in motoring mishaps during the last 50 years.

That, some agencies say, is a greater loss of life than the United States has suffered in all the wars it ever fought.

Authoritative sources estimate some 35,000,000 drivers will be on the highways during the coming weekend. They estimate another 75,000,000 persons will be on the highways as passengers and that around 4,000,000,000 automobile miles will be traveled between Friday evening and Tuesday morning.

So, on the basis of past experience, the estimate of 400 probable (Continued On Page Five)

**Slaughter Ceilings On Cattle Hiked As Freight Rates Rise**

WASHINGTON—(AP)—Higher freight rates—averaging 6.6 per cent for the country as a whole—went into effect Tuesday for most commodities handled by railroads.

The new boost, the ninth since World War II, took effect at midnight throughout the nation, after a 15-day public notice authorized by the Interstate Commerce Commission (ICC).

The commission rejected plans for a new general 15 per cent boost in rates.

Instead, it gave the rail lines permission to go ahead with a nine per cent boost in the East and six per cent elsewhere. Counting dollars-a-d-cents hold-downs on about a dozen commodities moving in heavy volume, the hike works out about 6.6 per cent for the whole country.

One special hold-down was ordered for grain and grain products, on which the increase will be an even six per cent, regardless of territory. The railroads also were required to give a 30-day notice on the grain changes. These rates, therefore, will not go up until September 12.

**Despite OPS Protests**

The revisions replace the temporary two to four per cent increases granted by ICC last April.

ICC authorized the higher rates despite repeated statements from the Office of Price Stabilization (OPS) that an increase will be reflected in the general pricing picture.

OPS late Monday told slaughterers they may pay more for live cattle, effective Tuesday, as a result of the higher freight charges. This, OPS said, means higher wholesale meat prices, and eventually increases to consumers.

OPS said the actual increases will be small, ranging from five to 15 cents per 100 pounds on live cattle, and from 10 to 30 cents per 100 pounds on wholesale beef.

**Council To Discuss City Buses, Zoning Here Tuesday Night**

Hearing on zoning changes in scattered sections of the city is scheduled Tuesday night at the semi-monthly meeting of the City Council.

City Manager W. H. Oswald said the council meeting will begin at 7 p.m. with the zoning meeting to begin at 8 p.m.

The council also planned to discuss final arrangements for a bus transportation franchise for Midland.

LAKE CHARLES, LA.—(AP)—The two shearmen, indicted here for defamation of public officials and three confessed gamblers, in addition to publishing *The American Press*, are co-publishers of the *Hobbs, N. M., Daily News-Sun*; the *Roswell, N. M., Daily Record*, and the *Trinidad, Colo., News-Chronicle*.

LAKE CHARLES, LA.—(AP)—Five newspaper men who crusaded against wide open law violations are under indictment on charges of defaming three admitted gamblers and several public officials.

And the Peoples Action Group which instigated a special session of the grand jury to investigate law violations, is under order to give the grand jury a list of its members. The list had been kept secret to aid in the PAG's private investigations.

The Calcasieu Parish grand jury refused to indict Sheriff Henry Reid, whom the PAG had accused of malfeasance in office.

**Will Of Slain Oil Man Provides \$100 In Cash For Widow**

DALLAS—(AP)—The will of millionaire oil man Thomas W. Dowell, 55, who was shot to death last week as he sat in his parked car, provided \$100 in cash for his widow.

The bulk of the estate went to a brother, Houston J. Dowell, of Weatherford, Texas. The will was filed for probate Monday.

Mrs. Rebecca Dowell, 52, was charged with murder last Wednesday in the fatal shooting of her husband. Dowell died of a bullet wound inflicted as he sat with his wife in their Cadillac sedan, parked at a fashionable Dallas residential hotel where they lived.

Mrs. Dowell told officers the gun fired accidentally when she handed it to her husband.

**Strikes Rich New Pay**

Dowell recently struck a new rich pay zone in the San Juan Basin of Northwest New Mexico. Indications are his holdings in that area will earn him fabulous sums.

The will left all his "real, personal and mixed property, including cash deposited in banks," to his brother. Other bequests were \$100 each to two other relatives, Christina Schmuck Dowell and Nellie Gransden Dowell.

The Dowells were married about three years ago. Mrs. Dowell was the widow of Parren M. Morgan, also a Dallas oil man, who died in 1941, of a cerebral hemorrhage.

**Truman Will Fly To San Francisco**

WASHINGTON—(AP)—The White House Tuesday said President Truman will fly to San Francisco Monday for the Japanese peace treaty conference.

He will address the opening session at 8 p.m. (CST) Tuesday. The President also will speak Monday night for the Treasury bond drive. That will be a five-minute talk at 7:55 p.m. (CST).

Truman will fly from San Francisco early Wednesday to spend the remainder of the week in Kansas City and his home town of Independence, Mo.

**Eisenhower Urges West Europe Union, American Aid Now**

WASHINGTON—(AP)—Gen. Dwight D. Eisenhower has told senators he is "very hopeful that many of our problems would disappear if x x x Western Europe were one federal union."

"I believe it so strongly," he said, "that I do not believe real security is going to be felt in the United States, in the British Empire, and other nations of the globe until that comes about."

He said he believed once the whole area of Western Europe is united in a federation "the Soviets will never be able to hold the East Germans out of it—I believe that with all my heart."

Eisenhower, supreme commander of North Atlantic Treaty Organization (NATO) powers in Europe, made those statements to a Senate Foreign Relations subcommittee which toured Europe last July. It was studying U. S. economic and arms aid programs. Testimony was released Monday after deletion of portions the group felt might involve security.

**American Leadership**

The general voiced his endorsement of the federal union idea as the senators started their tour. Then, two weeks later, as they neared the end of their trip, he told the senators:

"I realize that a lot of my professional associates are going to think that I am completely crazy, but I will tell you that joining Europe together is the key to the whole thing. And if you can do so with a European Army, I am ready to put a lot of work in it."

American leadership, help and armed forces, Eisenhower said, are restoring the confidence of Western Europeans, and he added:

"The faster they regain their confidence, the faster they will do the job of defending themselves. In my opinion, the one thing that can break the United States and give us nothing in return is to drag this thing out. We must go to the limit of our productive capacity and of the power of Europe to absorb our military assistance, and get it done now."

"If we cannot do this job within a reasonable length of time, it cannot be done," the general added. "But never let us lose sight of the fact that the self-interest of the United States dictates that we inspire in Europe the determination to defend itself."

**Copper Strike May Leave Mint Penniless**

DENVER—(AP)—Not a penny in the mint.

That's the grim prospect if the strike in the copper industry is prolonged.

A spokesman for the Denver Mint says there is only a small supply of copper on hand, and if the strike in the non-ferrous metal industry runs through September, the mint will be penniless.

**West Allies Pledge New Aid For Tito**

WASHINGTON—(AP)—The United States, Britain and France have agreed to provide \$50,000,000 in economic aid to Yugoslavia to support Marshal Tito's "contribution to the security of the free world."

The Economic Cooperation Administration, in announcing this Tuesday, said it already has allocated \$25,800,000 as an initial installment to help the Yugoslavs buy cotton, coke and steel.

Britain shortly will announce. ECA said its decision to make available \$11,500,000 to help bolster Yugoslavia's economy.

**In Next Six Months**

France also is expected to announce its contribution soon. Officials said the initial French installment would be around \$5,000,000 or \$6,000,000.

The aid will be furnished in the next six months.

The United States has given or loaned Yugoslavia \$150,000,000 for military and economic supplies since Marshal Tito's Communist regime broke with Moscow.

"The new United States allotment," the ECA said, "will help Yugoslavia overcome shortages of raw materials and other supplies vital to her economic strength and the support of her military defense effort."

The new, three-power aid program came two days after President Truman's foreign policy advisor, W. Averell Harriman, conferred with Tito in Yugoslavia.

Harriman said he talked over with Tito means of showing up Yugoslavia's strength to help it withstand any possible aggression by Russia or its Balkan satellites.

**Six Sentenced To Die For Plotting Abdullah's Slaying**

AMMAN, JORDAN—(AP)—A special military court Tuesday sentenced to death six men convicted of plotting the assassination of King Abdullah. Four other defendants were found not guilty and freed.

The six convicted are: Col. Abdullah El Tel, former governor of Jerusalem; Mousa Ahmed El Ayoubi, Dr. Mousa Abdullah El Husseini, Abd. Mahmoud Okkeh, Zakaria Mahmoud Okkeh and Abdel Kader Farahat.

The court handed down a not guilty verdict for Father Ibrahim Ayyad, Roman Catholic secretary of the Latin Patriarchate in Jerusalem; Kamel Abdullah El Kalouti, cattle dealer, and the brothers of Twfik, Salah El Husseini and Dr. Daoud El Husseini.

**Enemy Note Could Crush Truce Hopes**

TOKYO—(AP)—The United Nations Command charged Tuesday that the Communists sent one of their own planes through the motions of bombing Kaesong last Wednesday and blamed the Allies for the attack.

The charge was contained in a bulletin at Gen. Matthew B. Ridgway's headquarters. The UN commander studied a Communist note that could shatter hopes of truce in Korea.

"There is as yet no indication as to the nature of the reply General Ridgway will make to the latest Communist letter," an officer said.

The Reds offered to resume truce talks—which they broke off last Thursday. Primarily, they want Ridgway to say a UN plane bombed the Kaesong neutral area Wednesday.

He said no UN plane was even in the area. He told the Communists they manufactured the incident.

Less than 24 hours after the Reds rejected this, Ridgway's Public Information Office restated the same position in detail.

It said no UN planes were in the area at the time of the attack but that an unidentified plane was. It added:

"It is beyond doubt that this was a Communist aircraft. x x x All evidence established the clear conclusion that on the night of August 22 the Communists perpetrated a deliberate fraud."

The release said there were no bomb craters, no bomb fragments, (Continued On Page Five)

**Copper Strikers Stand Pat**

DENVER—(AP)—Union leaders Tuesday said there would be no break in the nationwide strike in the strategic minerals industry before a Washington meeting Wednesday.

A spokesman for the International Mine, Mill and Smelter Workers Union said no formal answer would be made to a back-to-work plea by President Truman and other federal officials.

"We think our attendance at the board meeting in Washington Wednesday will be sufficient answer," said the union spokesman.

Union President John Clark said the strike is going to continue "unless or until" the government presses the industry to accept the settlement offer proposed by Government Mediator Cyrus Ching in the Kennecott Copper dispute.

**Defense Effort Hprt**

That offer calls for a package increase of about 21 cents per hour. Union representatives said this offer was acceptable, but it was rejected by a mediator for Kennecott.

Quiet picketing was reported at strike-banded plants and mines across the country.

Defense officials said the strike was hitting the mobilization drive at its weakest point, since copper is the scarcest of the major metals. The strike also affects zinc, lead and silver production.

The leader of \$8,000 striking International Mine, Mill and Smelter Workers told newsmen in Denver Monday night that the strike, which began Monday, would not be called off "unless and until" the government presses industry to accept a federal proposal for ending the wage dispute.

**Cool Front Slowed In Reaching Texas**

By The Associated Press

The cool front has slowed down. Cool winds and showers probably will reach the western part of Texas Friday, the Weather Bureau said, and cover the rest of the state over the weekend.

Temperatures still ranged in the 100's. Bridgeport and Henrietta, in North Central Texas, were the hot spots Monday. Both had 107.

It was 102 at Corsicana. The coolest recorded temperature was 63 degrees in the Alpine-Marfa area.

Marfa had 43 inch of rain Monday. Midland Air Terminal recorded .09 inch. Crosbyton had .05 and Wink .02.

Until the cool front reaches the state this weekend, the Weather Bureau said it would be clear to partly cloudy over the entire state, with very scattered showers. Temperatures will continue to range in the upper 90's and 100's.

Funeral services and interment will be at Vernon. Definite arrangements however, had not been made Tuesday. The service will be held at Vernon Wednesday at the Underwood Funeral Chapel.

Mrs. Rath was born Jan 12, 1915.

**Midland, Odessa Brothers Jailed In Clothing Theft**

A Midland man and his brother in Odessa were being held by federal officers here Tuesday in connection with the theft of 80 pairs of Summer trousers from an interstate shipment.

The Odessa man was arrested in Odessa last week when he tried to sell the trousers. He said he had gotten them from his brother in Midland.

Police Chief Rube Hemingway, who investigated the case, along with sheriff's officers and agents of the Federal Bureau of Investigation, said the Midland man admitted taking them from a shipment stored in a Midland warehouse.

Charges were to be filed Tuesday with the U. S. commissioner at Pecos, Hemingway said.

### IN HOLLYWOOD

#### Hollywood Ham Is Coming Out In Nation's Sign Painters

By ERSKINE JOHNSON  
NEA Staff Correspondent

**EN ROUTE TO CALIFORNIA**  
—Coast to Coast:

Hollywood's gag writers and comedy cartoon makers, I'm discovering on a 4,000-mile jaunt around the U. S., have brought out the ham in sign painters at the nation's top tourist attractions. Prize samples:

At Niagara Falls, where you lean rain-soaked against the terrific spray of the American falls, a water-soaked sign reads: "NO SMOKING."

At the Royal Gorge, where a rock hangs over the 1,000-foot drop to the Arkansas River, a neatly lettered sign reads: "Mustn't Point."

Halfway to the top of Pike's Peak, beside the cog railroad tracks, there's an abandoned souvenir shack with a sign out front explaining: "GONE OUT OF BUSINESS. BANKRUPT BY HIGH-TAX HARRY."

**Fancy Eatery**  
The famous Pump Room in Chicago's plush Ambassador Hotel East is known from coast to coast as THE place to dine in the Windy City. Any day now I suspect the Pump Room will be on television.

It's 45 red-coated waiters, revolving salad table, flaming words and coffee boy dressed like Tony Curtis as a movie prince, put on a better vaudeville show than Milton Berle has ever whistled through.

Hollywood glamor note in York, Pa.: A girl wearing an off-the-shoulder blouse driving a soft-drink truck.

The growth of drive-in theaters across the U. S. is astounding. The big cities have them and so do the smaller places like Laramie, Wyo. The big outdoor screen there rises just a few yards from an Indian massacre site.

Drive-ins are so popular in Milwaukee, Wis., that one, the Twin-View, requires two screens to handle its large audience. There's a north entrance and a south entrance, with the same movies playing back to back.

Theaters once gave away automobiles and groceries to lure ma and dad to the movies. Now they're concentrating on the kids. A program no kid in town could resist had the boxoffice jingling for three days in Racine, Wis. The marquee spelled it out in Pied Piper fashion: "TWENTY FIVE - County EM - CARTOONS - Two Extras."

A drive-in theater a mile from Atlantic, Iowa, has a permanent

**Billboard Mystery**  
The price of billboard space on the iron fence around the White House is the big buzz in Washington. A contractor named John MacShain is remodeling the presidential mansion. When he arrived to do the job, he stuck up his eight foot square shingle for all to see.

A couple of days later it was missing. Then it appeared again, and it's still there.

Whether MacShain made a contribution to the Democratic Party for the prize billboard space, or whether the ethics of a contractor's sign in front of the White House was considered, are two questions with no answers.

If you've wondered what happened to the good five cent cup of coffee that faded away with inflation, stop at the Ranch House in Canon City, Colo. The owner, a rugged individualist, still is serving five cent a cup coffee. Good, too.

**PROPOSAL FOR CLEANUP CAMPAIGN TO BE HEARD**  
PECOS—City Council members Tuesday night will hear a proposal from the Chamber of Commerce to initiate a city-wide cleanup campaign, according to Alton Hughes, C. of C. manager.

Hughes said the council will be told the Chamber of Commerce is ready to cooperate in organization and promotion of the campaign.

The War of 1812 ended on Christmas Eve, 1814.

**TOPPINGS ON THE ROCKS?**—Hollywood reports say that movie queen Lana Turner and husband, Bob Topping, have reached a "misunderstanding" stage in their three-year-old marriage. The couple is seen above during a more blissful period.

### JACOBY ON CANASTA

In my last column I discussed the advisability of melding early from your hand if you need only 50 points for the initial meld. I don't recommend an early meld on every type of hand even in this favorable situation.

For example, suppose you hold: Joker A Q-Q 10-10-10 7-7 6-5-2. You have just drawn, and you must decide whether or not to meld. Nobody could really kill you for melding the joker with a pair of tens, but this would not be your best course of action.

With three pairs you are in excellent shape to fight for the discard pile. Why weaken your chance against opponents who are fighting at a disadvantage? The best play, in my opinion, is to discard one of the tens.

This may persuade your right-hand opponent to throw a ten to you fairly soon. However, even if the trap play doesn't work, this discard leaves more room in your hand to accumulate other pairs. A third argument in its favor is that if the ten turns out to be a safe discard you may want to discard other tens in the hope that your side can win the pack before the opponents can do so.

The general principle is very simple. When you have as many as three pairs in your hand, and when you have no difficulty in making the count, you have a fine chance to win the discard pile. The reverse is true when you have only one set of matched cards in your hand. This gives you very little chance to win the pack. With such hands you must either play for a fast out or you must try to help your partner.

For example, you may hold four or five kings and some wild cards. That gives you a play for out, so you meld early and try to meld out as quickly as possible.

If you have nothing valuable at all, no pairs and not even any real concentration, such as four of a kind, you must play defensively. Your only hope is that your partner has a good hand, and you must watch his discards like a hawk so as to be ready to help him when the time comes.

### John Agar, Shirley's Ex-Mate, Sentenced To 150 Days In Jail

LOS ANGELES—(AP)—Shirley Temple's ex-husband, John Agar, is under sentence of 150 days in jail for drunken driving.

The 30-year-old actor was sentenced Monday to six months, with 30 days suspended, and was fined \$150. He was arrested January 13 in the San Fernando Valley on a drunken driving charge and while awaiting trial was arrested on April 8 in Hollywood on a similar charge.

Convicted by a jury on one count, he pleaded guilty on the other.

Agar blamed his drinking on his first marriage, to Miss Temple, and attributed some of his difficulties to unfavorable publicity.

### Flood Waters Rise Slowly At Tampico

MEXICO CITY—(AP)—Flood waters rose slowly in Tampico Tuesday while relief supplies began reaching stricken inland areas in volume.

The swollen Panuco and Tamesi Rivers pushed the water level at Tampico port just past the six-foot mark Monday night. Ferry services across the Tamesi, connecting with the highway to Valles, was suspended. The northern highway to El Mante remained open.

Schools and other public buildings housed 1,500 refugees from flooded lower sections by nightfall. The water still lacked four feet of going over docks and getting into central sections of the city.

Relief to thousands of acres flooded by last week's storm came from all sides. Mexico City sent a stream of Army and Petroleum Administration planes to drop food and medicines to isolated villages. A bomber from Monterrey made three trips over the flood area, dropping supplies. From Tampico, a fleet of 45 launches went up the Panuco River with food, clothing and medicines. Another three small boats took food for 300 from El Mante to Tamuin.

The Mexican toll of dead in injured was unchanged from 84 dead, to 384 injured. Damage to crops was put unofficially at \$6,000,000. Of the dead, 42 died when a dam burst at Cardenas, well inland.

The same storm took 156 lives when it swept Jamaica.

### Housing Conference Scheduled Thursday

A special conference between members of the Chamber of Commerce Housing Study Group and officers of the Midland Real Estate Board will be held at 2 p.m. Thursday in the C. of C. office, President S. M. Erskine announced Tuesday.

### Wife, Fate Spoil Man's Suicide Plans

SAN ANTONIO—(AP)—A dejected San Antonio man was alive Tuesday although he tried Monday to commit suicide by:

1. Drinking metholite.
2. Attempting to electrocute himself.
3. Turning on the gas in the kitchen.

The metholite only made him a little sick. He blew out a fuse in his house when he tried to electrocute himself, and a draft through the house carried the deadly gas away from his head.

The man's wife, who witnessed the dismal occurrences which took place in rapid succession, called policemen and firemen, who administered some oxygen and decided the man wasn't sick enough to need further attention.

### One Killed, One Hurt In Light Plane Crash

DALHART—(AP)—A flight instructor was killed and his student injured critically Monday when their light plane crashed near Channing, in the Texas Panhandle.

Edwin L. Elder, 29, manager of the Dalhart Airport, was killed. He was on an instruction flight with Donald Ray Vincent, 18.

The crash occurred on the Matador Ranch in Hartley County.

### November 22 Designated Texas' Thanksgiving Day

AUSTIN —(AP)—November 22 will be Thanksgiving Day in Texas this year, Governor Shivers said Tuesday.

This conforms to the national holiday.

It doesn't conform to the November 29 date of the annual University of Texas-Texas A&M football game.

The Legislature passed a bill designating that Thanksgiving in Texas always would be the last Thursday in November, but it does not become effective until 1952.

Last year, when there also were five Thursdays in November, Shivers designated both as holidays. That won't be tried again this year, the governor said—too confusing.

### Kaesong—

(Continued From Page One)

"no evidence on the ground of a United Nations Command air attack."

"There is every indication," the release said, that Red troops "personnel at Kaesong were accessories to a deliberate fraud. Using their military control of the conference site as a cloak of deceit, Communist personnel perpetrated a sham of unprecedented proportions."

"Creating an elaborately staged and quite obviously premeditated scene, they sought to fix upon the United Nations Command a false charge of air attacks on the conference site."

The Reds asked Ridgway to investigate again their evidence of the asserted bombing. The publicity office commented the Reds have had time to prepare "more convincing evidence of a bombing."

"The original evidence was so transparent as to immediately indicate the fraudulent nature of the bombing charge," the release said, "but this defect in the evidence could be cured."

"Should the investigation be reopened, it is probable that much more convincing evidence of a bombing attack would be presented."

Officials said it was virtually unthinkable that Ridgway would retract his charge that the entire incident was a frame-up.

Red China's Peiping radio said one of the two American liaison officers who investigated the original evidence "either lied or was incompetent" in reporting there had been no bombing.

Ridgway's headquarters reviewed the whole array of charges of neutrality violations. It said:

"From the beginning of the conference (July 10) the Communists repeatedly violated the letter and the spirit of our agreements concerning the neutrality of the conference area."

After Ridgway called them on these violations, the release continued, the Reds started making charges of their own. It added:

"Their ensuing charges can only be interpreted as an effort by them to regain the face which they lost in the eyes of their followers."

There was no hint Ridgway would retreat. He has taken a consistently firm stand with the Reds since cease-fire talks started July 10.

A headquarters spokesman said an answer can be expected, but "what the answer will be I do not know."

Ridgway previously said it was up to the Reds to say when the talks would be resumed.

"The Communists can either continue or break off the talks," a spokesman at his headquarters said Tuesday. "We are ready for anything they choose to do."

### Traffic Toll—

(Continued From Page One)

fatalities doesn't seem too high. Of course, there will be many thousands of persons injured, some slightly—some permanently.

The total could be sharply reduced through intelligent trip planning—and a realization that traffic accidents don't always happen to the "other fellow," that they can happen to you.

Common Sense Precautions

Aside from common sense precautions concerning condition of your car, intelligent advance trip planning can do much to reduce traffic accidents, according to Richard Bennett, traffic engineer.

Bennett, traffic consultant to the National Association of Mutual Automotive Insurance Companies, recommends that mileage objectives be determined in advance and that they be reasonable.

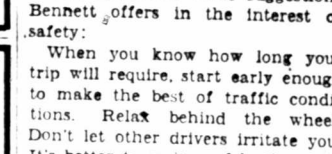

When fatigue indicates you should get off the road, the thing to do is to get off, he says. Because of varying road conditions there is no set rule for determining how far the average driver can travel safely in a day or an hour, so Bennett recommends using the facilities of the travel services provided by auto clubs and oil companies.

Here are a few other suggestions Bennett offers in the interest of safety:

When you know how long your trip will require, start early enough to make the best of traffic conditions. Relax behind the wheel. Don't let other drivers irritate you. It's better to arrive safely than win a race that may cost a life.

### Battle Rages In Eastern Korea

**EIGHTH ARMY HEADQUARTERS, KOREA** —(AP)—An all-day battle raged Tuesday in the rain-soaked hills north of Yanggu, on the East Korean front.

The rest of the front, which had flared with increasingly heavy clashes Monday, quieted under low clouds which often obscured ridgelines.

Reds took advantage of the weather and slipped small groups of infantrymen into position north of Yanggu for assaults on Allied ridge positions.

The Red attack was in the same general area where a Red attack Monday forced UN troops back almost two miles. The fight lasted until nightfall.

were fined and given suspended jail sentences.

Each of the indicted men posted \$250 bond on each count on which he was indicted. There were five indictments in all, totaling 14 counts.

Each count is punishable with a maximum of one year in jail and a \$3,000 fine.

No date was set for arraignment.

The two Shearmans, Norton and George, were not available immediately for comment.

Dixon, emphasizing that he spoke only for himself said:

"Well, I see that we are accused of defaming both law enforcement officials and admitted law breakers. That seems to put it all in a very neat package."

Said G. G. Buchanan, PAG president:

"The Peoples Action Group feels that a gross miscarriage of justice has been committed. We stand back of the indicted men and will assist them with every means that we have available."

### Music Students Entertain Club

The Optimist Club was entertained with musical selections by three music pupils of Lydie and Ned Watson at its luncheon Tuesday noon in Ranchland Hill Country Club.

Billy Evans, violinist, played "Czardas," by Monti, accompanied by Barbara Glen Long. An accordion solo was played by Connie Scott.

James Glendening and Sammie Lackey, newspaperboys who attended the District Optimist Clubs' Summer camp for boys, were introduced by Hershel Parkis, assistant circulation manager of The Reporter-Telegram. The newspaper and Optimist club cooperated in sending the boys to the camp.

Club members were reminded of "Optimist Night" Wednesday at the Texas Drive-In Theater. All children will be admitted free to see the film, "The Kid from Cleveland," starring George Brent and Lynn Bari. Adults will be admitted for the regular price.

Daddy Ringtail :: By WESLEY DAVIS

Daddy Ringtail And Don't Tell Anybody

Daddy Ringtail, your monkey friend, was about to climb down in the valley of the giants. Everyone begged him please not to do it, because the giants might do him harm. But Daddy Ringtail explained how everyone had fretted and wondered about what might be at the other end of the valley of the giants, and so now he was going to see so never again would there have to be fretting or fuming about it.

Did he need to take a gun for protection? Oh no! One gun would do no good against a hundred giants, and besides, Daddy Ringtail would never want to harm anyone, he said.

Well, did Daddy Ringtail want to take an army with him to keep the giants from doing him harm? Oh no, because one army would do no good against a hundred giants. Besides, Daddy Ringtail had along with him a striped coconut, which was really all he needed for protection, he said.

But how oh how could one coconut—even a striped coconut—protect Daddy Ringtail against a hundred giants? Everyone wondered about it, but Daddy Ringtail had climbed on down to the bottom of the valley where the voice of a giant roared out: "Fee! fee! fee! Where in the world did you come from?" And so Daddy Ringtail explained how he had come from the Great Forest up outside of the valley of the giants. Yes, and now he was

going to walk on down to the other end of the valley to see what there was to see, he said. But the giant roared out his thought of how he might pick Daddy Ringtail up, and put Daddy Ringtail away in a giant pocket, and keep him for a toy. "Oh, I wouldn't do that if I were you," said Daddy Ringtail with a smile. Daddy Ringtail then gave the striped coconut to the giant for a present. Daddy Ringtail also asked the giant please, please not to tell the other giants that a famous

giant-killer was in their valley. Oh no! Because if the other giants thought that Daddy Ringtail was a famous giant-killer, then they might hurt themselves in their great hurry to run away. And the giant promised he wouldn't tell anybody and wouldn't tell the other giants even come near Daddy Ringtail. And what do you think Daddy Ringtail saw at the other end of the valley of the giants? Why, he saw a great wall of mountain-rock where the valley came to an end just like this play-like story about it Happy day! (Copyright 1951, General Features Corp.)

### Farm Labor Parley Set At Big Spring

Midland County farm operators are invited to attend a farm labor conference scheduled at 9:30 a.m. Thursday in the Settles Hotel at Big Spring, according to information received from the West Texas Chamber of Commerce, one of the sponsors.

Regulations governing use of children of school age in the cotton harvest will be among the subjects scheduled for discussion. Rules governing the contracting of Mexican Nationals in the cotton harvest also will be explained.

P. D. Riley of Fort Worth, Department of Labor representative, and W. B. McFarland, Fort Worth, regional official of the U. S. Employment Service, will be the principal speakers.

### Goodyear Workers To Get Wage Boost

CLEVELAND —(AP)— Goodyear Tire & Rubber Company and the CIO United Rubber Workers Tuesday announced a wage agreement providing 13-cent hourly pay boosts to almost 26,000 workers in Goodyear plants in 10 cities.

The other three members of the rubber industry's big four—Goodrich, Firestone and U. S. Rubber—already have agreed to similar 13-cent pay boosts for URW members.

The Goodyear raises are subject to approval by the Wage Stabilization Board and ratification by URW locals.

### It's MacArthur, Four To One, In WEC Poll

LOS ANGELES —(AP)— Gen. Douglas MacArthur is a four-to-one choice for president over Gen. Dwight Eisenhower, the Wage Earners Committee of America announced Tuesday.

The committee, which claims a membership of 100,000 throughout the nation said it mailed out 120,000 ballots and received 70,000 back, of which 56,198 were for MacArthur and 13,052 for Eisenhower.

### Nation's Crude Oil Output Climbs Again

TULSA —(AP)— Last week's daily average domestic crude oil production regained 6,850 barrels of the previous week's 14,250-barrel loss, The Oil & Gas Journal said Tuesday.

The periodical figured output during the week ended August 25 averaged 6,151,275 daily, compared with 6,144,425 a week previously and 5,625,675 for the same week a year ago.

Texas' production was unchanged at 2,772,625 barrels, 308,675 more daily than for 1950's corresponding week.

Leading the rebound was Mississippi with a jump of 4,200 barrels to 102,650.

Good gains also were reported for Kansas and the Eastern fields. Each climbed 3,150 to 324,200 and 80,950 respectively; Illinois, up 2,100 barrels to 164,100; Michigan, up 2,000 to 40,100, and Kentucky, 1,100 to 31,400.

Colorado rose 600 barrels to 77,500, Indiana 600 to 31,700, Montana 600 to 24,400, Oklahoma 600 to 506,300 and Alabama 100 to 3,000.

The greatest decline was in Wyoming, which lost 5,300 barrels to 191,200, still 30,400 barrels greater than for the same week of 1950. California's output slumped 2,500 barrels to 976,200, a figure 88,600 barrels higher than at this time a year ago.

Louisiana lost 1,500 barrels to 610,175, Arkansas fell 1,300 to 75,900, Utah was down 300 to 4,000, Florida slumped 150 to 1,475 and Nebraska declined 150 to 6,200.

### Slaying Of Woman Hotel Clerk Seen As 'Vicious Murder'

MIAMI, FLA. —(AP)— The search for the kidnaper of Mrs. Lewana Newman, pretty Miami Beach hotel clerk, was intensified Tuesday after her body was found beside a lonely farm road.

She had been shot through the head and thrown into a weed patch. O. D. Henderson, chief sheriff's deputy, called it a "vicious murder" by a robber.

The 23-year-old woman was last seen alive before dawn Wednesday at the desk of the Gould Hotel on the ocean front, north of Miami Beach. The next morning, bloodstains, one of her shoes, a belt buckle and an earring were found outside the hotel entrance.

A cash drawer had been looted of \$225.

A search of the sand dunes and back roads of the North Miami Beach area by Marines, police and civilians was climaxed Monday by the finding of her body.

Henderson said the killer placed her head on the roadway, stood over her and fired a bullet through her brain, then dragged her into the underbrush.

Several pistols and revolvers belonging to boy friends of the young woman have been rounded up, Henderson said, and will be checked by ballistics experts.

Mrs. Newman was separated from her second husband, Her six-year-old son, Jimmy, was not told immediately about his mother's death. District lodges of Knights of Pythias "adopted" him Monday

### Marciano Flattens Freddie Beshore

Boston —(AP)—Brookton's unbeaten Rocky Marciano had a heavyweight boxing record Tuesday of 32 knock-out victories in 37 professional starts. He made Freddie Beshore of Harrisburg, Pa., his latest victim by flattening the roly poly battler at 50 seconds in the fourth of their scheduled 10-round bout Monday night.

### Bowling Meet To Be Held Tuesday

A civic-fraternal bowling league for the 1951-52 season is to be organized at 7 p.m. Tuesday at Plamor Lanes.

Officers for the new year will be elected at the meeting. League rules also will be drafted.

The Icelandic Althing, or parliament, dates from 930.

night and voted to make his welfare part of their program. Henderson called the slaying a "local job." He ordered every available deputy into the hunt for the killer.

### Police Help Solve Clothing Problems

An automobile parked outside Police Headquarters early Tuesday kept honking insistently. Lt. Chester Sprague and Officer Glenn Gray investigated, found a woman in the car, clad only in a T-shirt.

She complained her husband had locked her out of the house and she wanted to get some clothes and see about her three children.

The two officers went home with her, talked to the husband, saw the woman safely inside and left. All was quiet and serene again.

### Aged Woman, Son Are Suicide Victims

NEW YORK —(AP)— An 81-year-old woman and her 49-year-old son were found dead of carbon monoxide in their parked automobile early Tuesday, and police said the case apparently was a double suicide.

The victims were identified tentatively as Mrs. Clara Manz and William Manz, both of Manhattan.

They were found in a parking lot by a patrolman who heard the auto's motor running.

The victims, police said, sat side-by-side in the front seat, and a hose ran from the exhaust pipe through the trunk to the rear seat.

### YOUNG TIGERS

BATON ROUGE, LA.—(NEA)— Age average for Louisiana State's football squad is 19.9, with the range running from 17 to 23.

### Thousands Watch Man's Death Plunge

NEW YORK —(AP)— A ninth-floor window of Macy's Department Store. A man teetering on the ledge. Thousands gazing anxiously from below. Then a plunge.

This was the real life drama enacted during the height of Monday night's rush hour in the heart of Manhattan's shopping district.

Police said many were endangered by the plunging body of John Pilgrim, 70, a Hoboken, N. J., iron moulder.

The body landed on a metal awning, then rolled to the edge and dropped seven feet to the sidewalk.

Later, Pilgrim's widow, Anna, said he had been ill recently. He had come to New York to shop on his day off.

### Cadets Applying At Notre Dame Total 32

SOUTH BEND, IND. —(AP)— If all the expelled West Point cadets who have applied for admittance to Notre Dame are accepted it will cost an anonymous benefactor \$48,000 a year.

The donor recently offered to pay room, board and tuition at Notre Dame for any of the 90 cadets, under certain conditions. So far 22 have applied, 16 of them Monday. University officials estimate the cost at \$1,500 each per year.

**N**OW—through its leadership in paint research—Pittsburgh perfects an epochal advancement in home decoration: WALLHIDE rubberized Satin Finish.

- This new kind of wall paint is scientifically formulated from the best of traditional paint materials and the newest chemicals to give properties and results never before obtainable, including rubber-like characteristics. It makes wall painting easier, speedier and provides a new standard of wall beauty and durability.
- With new WALLHIDE rubberized Satin Finish even the most inexperienced painter can give walls an entirely new velvet-like sheen that's not too flat or too shiny. New WALLHIDE is amazingly easy to apply and dries in less than an hour. Because it has no objectionable odor, you can eat, sleep or cook in a room that's been freshly decorated. Its live-paint protection will keep your walls looking fresh and new for a surprisingly long time.
- Visit your nearest Pittsburgh dealer and let him demonstrate the many outstanding advantages of new WALLHIDE rubberized Satin Finish—or test them yourself. See the wide range of exquisite colors—delicate pastels and luscious deep tones—designed for today's home decorating needs. Then try the new WALLHIDE in any room in your home.

▶ **Glides On With Amazing Ease**

Even if you've never painted before you can do an expert job with either brush or roller. Stop or start any place. You'll leave no apparent brush- or lap-marks. Even missed spots can be filled in without impairing the final uniform appearance.

▶ **Cleans In A Jiffy**

New WALLHIDE'S non-porous surface prevents dirt or soot from penetrating. Stubborn stains, grease, crayon, ink spots, mercuriochrome, lipstick or finger smears can be washed off in a jiffy without harm to the soft, mellow sheen.

▶ **Withstands Hard Family Usage**

No need to worry about lively children scuffing or marring the walls. The modern chemicals used in new WALLHIDE make it extra tough and durable. It dries speedily to a tough, elastic film that will not crack, chip, or rub off.

## CONGRESS IS INCREASING YOUR TAX LOAD...

... but has done nothing to tax more than 35,000 profit-making business corporations!

Congress is cracking the tax whip again... for YOU! But not for the more than 35,000 profit-making corporations that Congress has been giving a *FREE RIDE* for over 35 years. Cooperatives, Building, Savings and Loan Associations, Mutual Savings Banks, Credit Unions and many Mutual Fire and Casualty Insurance Companies are either completely or virtually income tax free. They are excused by Congress from paying *ONE BILLION DOLLARS* annually on their corporate profits.

Because this is true, that huge amount of tax must be added to your tax load. Congress has not hesitated to do it. The House of Representatives has already voted a 12½% boost for you as an individual, another 5% if you own or hold shares in an incorporated business.

THERE IS STILL TIME TO PROTEST THIS TAX INJUSTICE!

The tax bill is now before the Senate! Write your two United States Senators immediately. Demand that they tax the untaxed before increasing your taxes again.

No formal or fancy letter is required. The simpler the better. But be sure to protest vigorously the loading of *MORE* taxes on you while these profit-making co-op and mutual corporations are permitted to continue their *FREE RIDE*. Write today. Remember—this legislation is NOW before the Senate and immediate action is required if this tax discrimination against you by Congress is to be stopped.

### West Point Boys Victims Of 'Ambitious Demands'

By MURIEL LAWRENCE

A wise old man once wrote a hymn, "Lead Kindly Light."

In it he refused to consider the "distant scene." He declared that one step at a time was good enough for him.

Something of the philosophy behind "Lead Kindly Light" might have saved the 90 cadets charged with cribbing at West Point. It might have saved many of them from demanding the high and remote ideal instead of the one good and honest step at a time which doesn't frighten our children into dishonesty.

I think of the 90 cadets as just more kids victimized by somebody's ambition for the tangible result—the passing school grade. Their case was complicated by another ambitious demand—the demand for a winning football team.

They have been distorted and harassed as children always are when they are pressed to produce a material end. They are the effects of bad thinking by people who are too busy to consider the meaning of the phrase "to make good."

Does that phrase mean to us that

honor is composed of self-respect, humility and awareness? Don't be silly. To most of us, it means a be-ribboned diploma, a three-car garage, membership in an exclusive club.

It's a tough business—getting an education free on the basis of character. It puts terrific psychological heat on young people who are required to live up to such high standards should be given most careful direction on how to insulate themselves against other people's expectations of them.

**Mental Muscles?**

Some of the attention given to training their physical muscles should be diverted to training mental muscles able to resist pressures to "make good" in the false and material way.

People who get an education because of character should be advised on the meaning of character. They should be informed that character is what God knows about them; that reputation is what the yelling crowds in the stadium know about them. They should have been told why what God knows about a man is more important than what other men know about him.

Oh, why do we push our children around to produce results for us? Perhaps because those results will show the neighbors that our training has been good. The boss or the neighbors put the heat to produce on us, we transfer it to the children, and not a man jack of us ever rises up and says, "Hold on here. Anyone who is interested in making me guarantee tomorrow better pray to God, whose business tomorrow is."

No wonder the big children up at West Point cribbed their way to the results that were demanded of them. Poor lads, they've been taught how to deal with a foul football tackle, but somebody's forgotten to tell them how to deal with pressure to produce those passing grades, that winning team.

## Pioneer Will Start Commuter-Type Air Schedules On Friday

DALLAS — Pioneer Air Lines will begin new commuter-type service between Dallas and eleven other cities Friday.

Waco, Temple, Fort Hood, College Station, Bryan, Houston, Abilene, San Angelo, Midland, Odessa and Lubbock will be served.

Pioneer said flight schedules have been arranged so a Dallas businessman can leave home early in the morning conduct a full day's business at his destination, and be home the same evening.

"Commuter-type air service such as this provides the businessman a real saving not only in his valuable time, but in expenses which he would incur at the city where he otherwise would have to remain overnight," said Harding L. Lawrence, vice president of traffic.

There will be seven flights daily between Dallas and Midland, Odessa and Lubbock, six flights between Dallas and San Angelo, four between Dallas and Abilene, and two to Waco, Temple, Fort Hood, College Station, Bryan and Houston.

## Two Midland Flight Schedules Affected

O. H. Morgan, Pioneer station manager at the Midland Air Terminal, said under the new schedule a Pioneer flight to Dallas will leave Midland at 3 p. m. and arrive at Dallas at 5:50 p. m. with stops at Big Spring, Sweetwater, Abilene and Fort Worth.

Another schedule change affecting Midland will be an earlier flight from Dallas, leaving that city at 5:45 p. m. and arriving at Midland at 8:22 p. m.

Other flights from here to Dallas, not affected by the new schedule, leave Midland at 6:35 a. m., 1 p. m. and 6:50 p. m.

"This means faster and more convenient service to those wanting to make a single-day round trip," Morgan said.

## Texaco Finds New Gas-Distillate Field In Anderson County

HOUSTON — A new field 17 1/2 miles north of Palestine, Texas, in Anderson County, has been opened with the completion of a distillate-gas producer. The Texas Company has announced.

The well is the C. W. Hanks No. 1, drilled to a depth of 10,758 feet. It is in the Isaac Lindsay survey, seven and one-half miles northeast of the nearest production in Blackfoot field.

The well, perforated from 10,090 feet to 10,104 feet, flowed at the rate of 270 barrels of 55.2 gravity distillate and two million cubic feet of gas per day. A 10-hour test was completed through a 11/64-inch choke with tubing pressure of 3,700 psi. The gas ratio was 7,400 to 1.

## Senate Trims House Boost In Corporate Taxes

WASHINGTON — The senate finance committee has voted tentatively to knock out about one-fourth of the corporation tax increase voted by the House.

Most of the excess profits tax boost was eliminated Monday from the House-passed \$7,200,000,000 tax hike bill. The senators kept the five per cent increase in corporation income taxes but jugged rates to make the hike lighter on small companies with incomes of \$25,000 or less a year.

Even with this softer treatment, the higher corporation levy rates would yield an estimated \$2,280,000,000 a year in additional revenue — \$760,000,000 less than under the House bill.

## First National Bank Adds New Assistant Cashier And Teller

Mr. and Mrs. C. M. Burke, both well-known in West Texas banking circles, have moved here from Big Spring to join the staff of The First National Bank, officials announced Tuesday.

Burke has been named an assistant cashier in charge of the bank's bookkeeping, transit and proof departments, and Mrs. Burke has assumed her duties as a bank teller.

For the last two years, Burke has been associated with the State National Bank in Big Spring, as an assistant cashier in charge of the personal loan department. He was with the Panhandle State Bank at Borger before going to Big Spring, and prior to that he was an assistant national bank examiner.

Mrs. Burke formerly was employed as a teller in banks at Big Spring and Borger.

## New City Paving Surveys Underway

Preliminary engineering work on a new paving project for Midland has been started, City Manager W. H. Oswald said Tuesday.

Petitions for paving, to be included in the new project, now are being accepted.

"It has been the policy of the City Council," said Oswald, "to include all areas in which the property owners want paving."

Contract for one 125-block paving project has already been awarded the Collins Construction company and construction work is expected to begin within the next three weeks.

It takes money from a lot of **PIGGY BANKS** to build a power plant!

Yes, money from piggy banks, and commercial banks too money from the savings of a lot of people. Thousands of people supplied the money for Texas Electric Service Company to build power plants, power lines and the other facilities that provide your dependable electric service. They invested their savings in the securities of our company, or they have a stake in this company as owner of an insurance policy or shares of a trust fund in the large groups of insurance companies and trust funds that have investments in our securities.

The part of Texas we serve is growing rapidly and the need for electric service is growing even faster. Texas Electric Service Company has spent more than \$60,000,000 since 1946 to build new power plants, power lines and other facilities so Reddy Kilowatt can provide plenty of dependable electric power for the areas he serves. Yes, this construction program is still under way and is costing a lot of money. Most of it is "borrowed" through the sale of securities to folks who have faith in our future, and in the area we serve. The money you pay for electric service is used for the most part to pay our day to day expenses, such as wages, fuel and other costs of doing normal business, including the wages of capital. The additional new capital which is constantly being needed must come from the sale of securities.

### 10 Lettermen Return To Vernon Team

**VERNON**—The Vernon Lions will be long on backs and short on linemen for the 1951 season. At least, that was the outlook as the Lions ran through their initial grid drills Monday. Of the 10 lettermen counted on by Coach Buster Dixon, are six backs. They include Dan Borchardt, Duane Blair, Dale Dillingham, Jimmy Layne, Howard Thomas and Raymond Towry. Linemen lettermen are Joe Wayne Brock, Phillip Dillon, Bill Herschman and Jerry Thomas. Dillon, last year's starting center, broke his left foot recently and will be out until mid-season. The towers of strength in the line are Herschman, a 220-pound tackle, and an end up from the 'B' team, 185-pound Jimmy Calhoun. Playing in the new I-AAA district, the Lions will meet Midland in a conference game November 2. The game is to be played in Midland.

### Bufs Lose, But Have Comfortable Texas Loop Lead

By The Associated Press  
 Texas League leaders found the going rough Monday night. Houston and San Antonio were shut out by second division clubs. The defeat didn't hurt the first place Bufs, who have 12 1-2 game lead. The Missions couldn't afford the loss. They lead third-place Beaumont by a game, Dallas by a game and a half and Fort Worth by three and a half games. Oklahoma City handed the Padres a 10-0 drubbing. The Indians got 17 hits. Houston and Tulsa tangled in a pitchers' duel with the Oilers taking a 2-0 victory. Jim Blackburn scattered seven Houston hits. Dallas made another great comeback to shade Beaumont, 7-6, and move to within a half game of third place. It took 10 innings and 15 hits. Fort Worth stayed close with a solid 11-7 triumph over Shreveport. Grant and Lee met at Appomattox Court House, Va., on Palm Sunday 1865 to end the Civil War.

## Allows But Two Hits In Gaining 26th Win Of Year

SAN ANGELO—A pair of San Angelo Colt singles prevented Eddie Jacome from hurling a perfect game here Monday night, as the Midland Indians took the league leaders, 2 to 0.

Jacome, who won his twenty-sixth game as against 12 defeats, had perfect control. He failed to issue a single base on balls, and struck out four. Only 29 Colt batters faced the sharp right-hander. He gave up a single to Jess Serrano in the second inning, then batted the way until the ninth, when Pinch Hitter Jimmy McClure singled. The runners were the only Colts to reach the initial safe safely.

The win was Jacome's eleventh straight. Midland scored in the initial inning, with Julio de la Torre driving in Stan Wilcox, who had singled and advanced to second on a single by Hayden White. In the seventh, the Tribe added another. Dick Campbell, Jacome and Scooter Hughes singled, with Campbell scoring on an infield error. Indio Beltran got the loss, his sixth against 18 wins. It was his first loss to Midland this year. He has beaten the Tribe four times. The same teams meet here again Tuesday night.

### Football Tickets To Go On Sale In School Auditorium

The site for sale of season tickets to Midland High School's home football games of 1951 has been changed to the high school auditorium. The date remains September 4, and the time is 8 p.m. Previously, the ticket sale was scheduled in the lobby of Hotel Scharbauer. Parking space available at the high school auditorium proved to be the deciding factor for the change. The 6 p.m. time was set for the convenience of working Midlanders. School officials and Booster Club members will handle ticket sales. The ticket booth will be set up in the auditorium's entrance. For the first time in Midland history, there may be a sellout of season grid tickets. It will be first-come, first-served, with no telephone orders.

### Hurler Wins Own Game With Big Hit

By The Associated Press  
 Izzy Leon of Abilene turned in his eighteenth West Texas-New Mexico League victory Monday night but he had to use his bat to do it. He singled home the winning run in the ninth for a 7-6 win over Lubbock. Amarillo choked off a ninth-inning rally to beat Clovis, 10-7. Pampa pounded Lamesa, 12-7, and Albuquerque beat Borger 9-5. Three home runs, four doubles and a triple were among the 12 hits Amarillo collected in beating Clovis. A grand slam home run by Joe Fortin in the sixth gave the Dukes their victory. Pampa pounded Ted Wyberanec for 17 hits to win easily.

### Popular opinion with most sports writers and many players in the Longhorn League is that the best team in the loop won't reach the playoffs this year.

Midland's Indians—now double tough under Zeke Bonura—are tabbed as about the best around now. San Angelo's Hugh Welch and Odessa's Ben Peeler recently got out their crystal balls when we were at the Permian Bowl game in Odessa, and predicted the Indians would win the playoff if they could make it. Unfortunately, Zeke and his boys started too late.

Still, they have won 41 games and lost 31 since Zeke took over—a .569 percentage. Compare that with the 17-37 record before the new regime. The .315 percentage is hardly better than a rookie pitcher's batting average.

And, actually, the percentage of ball played by the Indians in recent weeks is around .750. That's a big improvement, to say the least, and promises a good season for next year. Fans may show their appreciation for the "New Deal" by chipping in generously when a collection is taken the last home game of the year, September 3, against San Angelo. The donations will be distributed evenly among the Indian players.

Midland High School's gridgers are in amazingly fine physical condition. Coaches Jones, Gill and Rutledge put the boys through a rugged workout Monday morning, then had them run the mile. The boys responded well for the most part, with Jimmie Lineberger, Robert Keisling, Jesse Hatfield, Ralph Brooks, A. W. Booth and Dalton Byerley finishing in fine style.

Stan Coker, the huge tackle, is having to work harder than most of his teammates. Coker reported with a "spare-tire" around his middle, and isn't as effective as he could be—but Line Coach Audrey Gill will work that off, you can bet.

## Yanks Win In Playoff

Bennie Sanchez and Bill Faris teamed to lead the Yankees to a 4-1 victory over the Cubs at Little League Field Monday afternoon, in the first game of a two-of-three series for the Little League City Championship. Sanchez allowed but two hits in hurling the win, and fanned 11. Faris drove in three of the four Yank runs with his big bat. Larry Cooper was the loser, although he fanned nine and smacked a double. The Yankees broke the ice in the third frame with a pair of runs. Fred Hedges led off with a booming triple, scoring when Sanchez helped his own cause with a double. He took third on a passed ball and crossed the plate as Paris grounded out. The Cubs' lone tally came across in the fourth. Gregor Smith, shortstop, singled, stole second and advanced to third on a passed ball. He scored on an infield error. Paris singled in two runs in the fifth after Hedges had reached base by being hit with a passed ball and Sanchez singled. A second game will be played at 5:30 p.m. Wednesday at Little League field. A third game, if necessary, will be unrec'd Friday at the same time and site. The score: R H E

### Water Famine Threatens Temple

TEMPLE, TEXAS.—(P)—Residents of this Central Texas city Tuesday faced the prospect of being without water in 10 days. That is the estimated supply in the Leon River Reservoir. Well drilling crews are working "around the clock," hoping to strike water before the reservoir runs dry. Citizens were ordered Monday to disconnect all water hoses from home coolers. City Manager W. E. Routh said he would ask the City Council Tuesday to offer a reward for persons who report water wasters. A city ordinance prohibits anyone from using water from an outside hydrant. It carries a fine ranging from \$50 to \$200 and the threat of having city water service cut off.

## MHS Grid Drills Into Second Day

Aching muscles creaked in protest, but the Midland High School football hopefuls ran through two lengthy sessions Monday, then took another turn on the gridiron Tuesday morning. Nothing out of the ordinary happened at the workouts, with the linemen, ends and backs working hard. A scrimmage session Monday afternoon was featured by a lot of hard work. Coach Tugboat Jones said he was "pleased with the physical condition of the squad" and hinted more rough stuff was in store all week.

## Giants Increase Winning String To 16 Straight Games

By RALPH RODEN  
 Associated Press Sports Writer  
 There's no evidence of panic in Brooklyn but the citizens of Flatbush are growing uneasy over the exploits of Leo Durocher's surging New York Giants. The hot shots from the banks of the Harlem River have soared to within five games of the pace-setting Brooklyn Dodgers on the wings of a sensational 16-game winning streak.

The Giants increased their unbeaten streak Monday as they took a doubleheader from the Chicago Cubs, 5-4 in 12 innings and 6-3. The Dodgers split a twin-night doubleheader with Pittsburgh, winning the opener, 5-0, but losing the second game, 5-2.

The contenders in the tight American League scramble were idle. The Athletics shaded the Detroit Tigers, 1-0, in the only American League game Monday. In other National League games, the Boston Braves captured a twin-night doubleheader from the St. Louis Cardinals, 6-3 and 4-2, and the Philadelphia Phils swept a twin-night program from Cincinnati, 2-0 and 3-0.

Larry Jansen posted his seventeenth victory for the torrid Giants in the opener against Chicago. The Cubs pushed home a run in the top of the twelfth but the Giants came right back with two in their half to pull it out. Whitey Lockman singled with the bases loaded to send home the tying run, and pinch-hitter Bill Rigney knocked in the winning counter with a fly ball. The Giants encountered easier sailing in the second game, running up a 6-1 lead in seven innings. Home runs by Ed Stanky and Monte Irvin eased Rookie Al Corwin to his fifth straight victory without a loss. Home runs by Hank Sauer and Bob Ramazzotti accounted for all of Chicago's runs. New York's amazing winning spell is the longest in the majors this year. The previous high was 14 compiled by the White Sox in May. It also is the best Giant streak since the 1936 club won 15 straight and the longest in the National since the Cubs put 21 together in 1935.

### NW Runnels Region Gets 4,500-Foot Test

In Northwest Runnels County, two miles southwest of the North Winters field, Heep Oil Corporation and Herman F. Heep of Austin are to drill a 4,500-foot wildcat.

It will be in a 255-acre lease in section 401, B. M. Walker survey, and 330 feet south and 1,180 feet east of the southwest corner of section 81, CT survey.

Name of the fee owner of the land on which the project is to be drilled has not been reported. Operations are to begin in the near future.

### Dental Patient Dies In Accidental Blast

WATERLOO, IOWA—(AP)—An accidental explosion which occurred while he was being given an anesthetic in a dentist's office brought death to Owen Hindal, 20, Monday.

Hindal died of a burned throat and ruptured lungs. Dr. George Foster, the dentist, said he did not know what caused the explosion.

### SUFFERERS INJURIES

George W. Farrell was treated at Midland Memorial Hospital Tuesday for arm injuries.

### Sinclair Will Dig Deep Prospector In S-C Glasscock Area

Sinclair Oil & Gas Company No. 1 Henrietta Long is to be a 10,500-foot wildcat in South-Central Glasscock County to explore the Ellenburger.

It is located 660 feet from south and east lines of section 15, block 33, T-4-S, T&P survey, and five miles southeast of Garden City.

Drilling is slated to start soon.

The deep development is approximately 15 miles southeast of the nearest production from the Spraberry in the Tex-Harvey field of Central-West Glasscock and Central-East Midland Counties.

### Conoco Schedules Crockett Wildcat

Continental Oil Company No. 1-A C. T. Harris will be drilled as a 7,600-foot rotary wildcat in East Crockett County.

Drill site has been staked 3,300 feet from south and 1,980 feet from east lines of section 1, TO survey and eight miles northeast of Iran.

That puts it five and one-half miles southwest of the Lula-Devonian field and three-quarters of one mile northwest of Continental No. 1-B J. M. Shannon active wildcat which plugged back to 7,216 feet after having recovered water in the Ellenburger.

An amended location has been filed for Lion Oil Company No. 2 Neal, wildcat in Central-North Crockett County, 16 miles southwest of Big Lake. The amended location is 660 feet from south and west lines of section 66, block BB, TO survey. Originally it was filed as 660 feet from south and 460 feet

### Reagan Exploration Might Be Plugged

In Southeast Reagan County, three and one-quarter miles west of the Barnhart-Ellenburger field and four and one-half miles southeast of the town of Big Lake, Continental Oil Company is to plug and abandon its No. 1-3 University, according to unofficial and unverified reports.

The prospector is at total depth of 9,775 feet, in an unidentified formation, probably Ellenburger.

A drillstem test was made from 9,724-75 feet. Recovery was 270 feet of mud and 810 feet of salt water.

Location is at the center of the southeast quarter of section 3, block 49, University lands survey.

### Two Producers Are Fined In Pegasus

Magnolia Petroleum Company has added two producers to the Pegasus-multipay field of Northwest Upton and Southeast Midland Counties.

In the Midland County side, the firm completed its No. 7 Roy Glass as a Pennsylvanian oiler. Completion was through perforations at 10,470-490 feet and 10,500-555 feet. The new well rated a daily flowing potential of 492.71 barrels of 44.3-gravity oil and no water

In Southeast Reagan County, three and one-quarter miles west of the Barnhart-Ellenburger field and four and one-half miles southeast of the town of Big Lake, Continental Oil Company is to plug and abandon its No. 1-3 University, according to unofficial and unverified reports.

The prospector is at total depth of 9,775 feet, in an unidentified formation, probably Ellenburger.

A drillstem test was made from 9,724-75 feet. Recovery was 270 feet of mud and 810 feet of salt water.

Location is at the center of the southeast quarter of section 3, block 49, University lands survey.

### Oil And Gas Log—

(Continued From Page One)  
rels of 41.8 gravity oil, naturally, in 24 hours on the official completion test gauge. The flow was through a three-quarter inch tubing choke.

The oil came from perforations in the casing at 10,210-230 feet. Gas-oil ratio was 262-1.

It has been assigned an allowable of 243 barrels of oil per day and is now on regular production.

This wildcat topped the Ellenburger at 10,135 feet, which is on a datum of minus 6,955 feet. Top of the pay in the Ellenburger is at 10,140 feet.

The well flowed oil in drillstem tests from 10,175 feet to the total depth at 10,245 feet. A string of casing was cemented on bottom.

Other Pay Cased Off

The upper part of the Ellenburger pay has been left cased off. This well also discovered commercial production in the Queen sand of the upper Permian, in the Tubb section of the Clear Fork, in the Wichita-Albany lime, in the Devonian and in the Fusselman. All of the upper pay zones are cased off for later production.

### Reef Makes Free Oil In Southland's Crockett Wildcat

The top of the crinoidal reef lime showed possibilities of making an oil well at a Central-Northwest Crockett County wildcat.

The prospector is Southland Royalty Company and associates No. 1-8 Todd, located four and one-half miles southwest of the Todd multipay field.

After topping the crinoidal reef lime at 6,614 feet, on a datum of minus 4,064 feet, the wildcat penetrated to 6,640 feet and took a two hour drillstem test at 6,615-40 feet.

There was a good blow of air for one and one half hours. No fluid came to the surface while the tester was open.

No Formation Water

Recovery was 110 feet of free 36.8 gravity oil and 198 feet of drilling water. There were no signs of formation water.

All pressure were zero during and after the test.

Operator was to drill about 25 feet deeper and take another test.

Location is 1,993.3 feet from south and 660 feet from east lines of section 8, block WX, GC&SF survey.

The indicated discovery is about two and one-half miles southwest of Amerada Petroleum Corporation No. 1-H Todd, a crinoidal producer, which is about two miles south of the main Todd field.

### McKnight-Parker To Drill To San Andres At C-W Cochran Site

Ish McKnight of Midland and Parker Drilling Company of Tulsa No. 1 J. G. Nichols is to be a 5,000-foot San Andres-Permian wildcat in Central-West Cochran County.

Location is 440 feet from north and west lines of the northeast quarter of section 8, block Y, ps1 survey. That makes it one-half of a mile southeast of the Bledsoe town-site.

The No. 1 Nichols is two miles southeast of Shell Oil Company No. 1 Pittman, wildcat almost on the east line of Roosevelt County, New Mexico, which has already shown for a discovery from the San Andres and which is now drilling below 9,300 feet, on a contract to go to 11,750 feet to try for production in the Devonian.

Drilling at the McKnight and Parker prospector is to start immediately.

### Nine Drillsites, Six Producers Added To Spraberry Trend

The staking of nine prospectors and the finalizing of six producers Monday highlighted activity in the Spraberry Trend of Midland, Upton, Glasscock and Reagan Counties.

Two of the explorations are wildcats and one of the completed wells is a small pumping discovery.

In the Tex-Harvey field, site for five of the new locations, Hubbard S. Russell and others will drill No. 13-A and No. 14-A Wrsge-Hendrickson. The tests will be dug in the Glasscock side of the field.

No. 13-A will be 1,986 feet from south and 678.5 feet from west lines of section 16, block 36, T-3-S, T&P survey. The No. 14-A Hendrickson will be drilled in the same section, 662 feet from south and 678 feet from west lines.

A. H. Hendrickson

A. N. Hendrickson will drill No. 3 Mrs. W. A. Hutchison and No. 4 Mrs. W. A. Hutchison in the Midland side of the Tex-Harvey field.

No. 3 will be 662 feet from north and 660 feet from east lines of section 36, block 37, T-3-S, T&P survey. No. 4 will be dug 662 feet from south and 660 feet from west lines of the southwest quarter of section 36, block 37, T-3-S, T&P survey.

Allied-Abland Tankers, Inc., of Midland will dig No. 1-32 Wrsge-Hendrickson in the Glasscock County side of the Tex-Harvey field.

Drill site has been set 1,980 feet from east and 660 feet from south lines of section 32, block 36, T-3-S, T&P survey.

Driver Pay

DeKalb Agricultural Association Inc., spotted location for its No. 4-F TXL in the Southeast Midland County side of the Driver-Spraberry field.

Location is 660 feet from east and 1,984 feet from north lines of sec-

### tion 21, block 37, T-4-S, T&P survey.

Argo Oil Corporation No. 1 Charles J. Cox has been completed as a one-location east extender to the Driver-Spraberry field in South-west Glasscock County.

Operator filed a daily flowing potential of 569 barrels of 36.7-gravity oil and no water.

Completion was from open hole section at 6,878-7,116 feet. Pay was gauged on a one-half-inch tubing choke.

Gas-oil ratio was 540-1 and tubing pressure was 200 pounds.

The new well is 660 feet from south and west lines of the lease in section 48, block 37, T-4-S, T&P survey.

Cabot Carbon Company of Midland No. 2-B TXL, 660 feet from east and 1,980 feet from south lines of the southeast quarter of section 33, block 37, T-4-S, T&P survey, is another new oiler in the Driver field. It is in the Midland County side.

Operator reported a 24-hour flowing potential of 182 barrels of 35.1 gravity oil and no water from open hole at 7,040-7,150 feet. Completion was through open two-inch tubing.

Gas-oil ratio was 423-1 and tubing pressure was 75 pounds.

In the Tex-Harvey field of Central-East Midland County, Frank and George Frankel completed their No. 11-A and 10-A L. E. Floyd and others.

No. 11-A was finished for a daily flowing potential of 184 barrels of 39.4-gravity oil and no water.

Completion was from open hole section at 7,079-7,325 feet. Pay was topped at 7,106 feet. Location is 670 feet from west and 662 feet from north lines of the lease in section 2, block 37, T-3-S, T&P survey.

199 BOFD

Frankel No. 10-A L. E. Floyd and others was completed on a one-half-inch tubing choke for a daily flowing potential of 199 barrels of 39.2-gravity oil and no water.

Production is from open hole section at 7,034-7,306 feet. Pay was topped at 7,091 feet.

Gas-oil ratio was 484-1 and tubing pressure was 35 pounds.

Location is 660 feet from west and 1,986 feet from north lines of the lease in section 2, block 37, T-3-S, T&P survey.

Small Discovery

Stanolind Oil & Gas Company has completed on the pump its No. 1-A F. E. Wade, Northeast Reagan County wildcat.

It potential from the Spraberry for five barrels of 37.6-gravity

### oil plus 91 per cent water daily.

Top of the pay is at 5,890 feet. Total depth is 5,922 feet. Casing is cemented at 5,920 feet.

Operator used 9,000 gallons of Hydratrac to complete the well which is located 660 feet from west and 1,987 feet from south lines of section 213, block 2, T&P survey and eight and three-quarter miles northeast of Stiles. That puts it 13 miles northeast of the Weddell-Spraberry field.

Two Wildcats

Two Spraberry wildcats and an outpost to Spraberry production were staked in Upton County.

Goldston Oil Corporation No. 1 B. Sherrod will be drilled to around 8,000 feet with rotary 660 feet from north and west lines of section 19, block C, L&SV survey and four miles east of production in the Pembroke field.

Sohio Petroleum Company No. 1 Mildred W. Smith and others will be dug as the other wildcat to around 7,300 feet. Location is 660 feet from south and 1,980 feet from east lines of section 23, block D, EL&RR survey and two miles northeast of production in the Pembroke field.

Outpost Set

American Republics Corporation No. 1 J. E. Hill will be dug as an outpost to production in the North Pembroke field.

Drill site is 618 feet from north and 704 feet from east lines of section 20, block D, EL&RR survey.

Ashland Oil & Refining Company No. 1-6 Sherrod is a new oiler in the North Pembroke field of Northeast Upton County.

It was completed for a 24-hour pumping potential of 14,98 barrels of 36.8-gravity oil.

Completion was from open hole at 6,955-7,180 feet. Pay top was called at 6,880 feet. Gas-oil ratio was too small to measure.

Open hole was shot with 706 quarts of nitro and treated with 2,250 gallons of Hydratrac.

Location is at the center of the northeast quarter of section 6, block C, L&SV survey.

### Sunray Abandons Failure In Howard

Sunray Oil Corporation has plugged and abandoned its No. 1 J. H. Harper, North-Central Howard County wildcat, four miles northeast of Big Spring.

The prospector bottomed at 9,505 feet in barren Mississippian lime. That formation was topped at 9,400 feet, on a datum of minus 6,813 feet.

Top of the Pennsylvanian line was at 8,277 feet. The Pennsylvanian had some shows of oil, but not enough to make a producer.

Location was 660 feet from south and east lines of section 15, block 32, T-1-N, T&P survey.
