

Pitched Battle Looms In West Korea

Allies Drive Fleeing Reds Before Them

EIGHTH ARMY, KOREA—(AP)—Signs of an impending pitched battle in Western Korea, more than 35 miles north of Seoul, were reported Sunday by a U. S. First Cavalry Division staff officer.

He said the big battle was expected to develop during the day. Allied tanks and infantrymen were on the alert.

At dawn, American guns began laying down a barrage of white phosphorous and high explosive shells over the crags of the Yonchon Valley, where Chinese Reds were massed.

Saturday night, U. S. First Cavalry troops and Greek infantrymen beat off heavy Chinese attacks in a night-long struggle and a hotly fought action north of Yonchon, a pooled dispatch reported.

Allied forces, driving the Chinese Reds before them, seized most of their objectives Saturday in their 100,000-man western offensive.

In the east, American and French troops stormed the unopposed slopes of "Heartbreak Ridge" and won its commanding peak. Twice previously, in three weeks of bloody fighting, they had taken the height only to be hurled off.

In far Northwest Korea, some 200 miles behind the Red front, 33 U. S. jets slashed into three times as many Russian-type MIG-15's. One American plane was shot down. The Air Force reported one Red fighter probably was destroyed and two were damaged.

There still was no sign that the Red-suspended armistice talks would be resumed. The Communists continued their claims on the basis of a change in the truth side from Kiang-sung to somewhere in no-man's land.

An Eighth Army headquarters officer said Saturday night, "It looks as if our offensive is nearly over."

"It looks as if the actions now will (Continued On Page Ten)

Giants Punch Out 6-2 Win Over Yankees

NEW YORK—(AP)—Lippy Durocher's wonder boys did it again Saturday—walloped the Yankees, 6 to 2, for their second World Series victory and for the first time established themselves as favorites to capture the big playoff.

Egged on by 52,035 fans, greatest crowd ever to witness a series game in a National League park, the Giants slammed Vic Raschi from the hill in a five-run, fifth-inning uprising capped by Whitey Lockman's home run and went on to win the third contest head-to-head.

Until Gene Woodling whacked a husky homer off Ralfeher Sheldon Jopas with one out in the ninth, the mighty Bombers had collected only four hits—one of them very scratchy—off left Jim Hearn in eight and two thirds innings. They were well beaten.

Sunday, the National League champs will be playing on their home grounds again and they have Sal Maglie, the league's finest right-hander, well rested and anxious to get at Casey Stengel's crew.

With two of his top fliers, Alie Reynolds and Raseel, already knocked from the box in their two starts, Stengel was reduced to calling on Johnny Sain, veteran of many National League campaigns, who came to the Yanks on waivers during the season. Giants supporters were convinced Saturday night they had first money in the bag.

Wears Loose Control Until he finally lost his control completely in the eighth inning, Sain pitched masterly ball Saturday night and seemed well on his way to a second straight victory.

But Sain finally got the curve-baller from Atlanta. When he tossed his eighth pass of the season to Joe Collins with two away in the eighth (Continued On Page Eight)

All-Texas Air Tour Will Visit Midland Air Terminal Sunday

The Third Annual All-Texas Air Tour will visit Midland Sunday afternoon, with scores of private fliers scheduled to land at the Midland Air Terminal between 1:30 and 2 p.m. The tour is sponsored by the Texas Flying Farmers, Texas State Aviation Association, Texas Private Pilots Association and the Texas Aeronautics Commission.

The pilots will be greeted at the airport by representatives of the Aeronautics Committee of the Midland Chamber of Commerce, Clyde Shaver, Burvin Hines, R. D. (Bob) Serrage and Bill Collins who will head the welcoming committee. The public is invited to be present at the air terminal to greet the visitors.

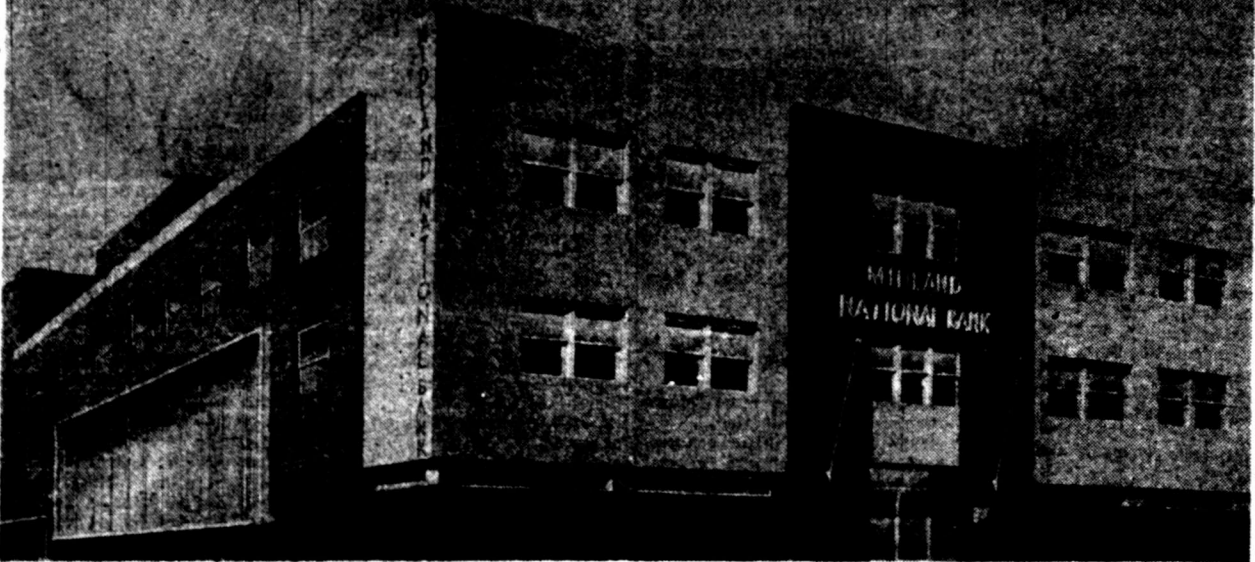

West-Long Tour The private planes left Temple Saturday morning on the 3,000 mile, week-long tour which will visit 39 Texas cities. The fliers spent Saturday night in Eagle Pass and will be in San Angelo Sunday night. They will come here after a luncheon stop at Monahans. Other overnight stops are scheduled at Plainview, Mineral Wells, Beer Field, Galveston, Brownsville and Laredo (end of tour).

As Burroughs, assistant director of the Texas Aeronautics Commission, said the purpose of the airlift is to focus attention on the need for emergency planning and to spotlight the role of private aircraft as an asset in national, state and local disaster.

Bases of stimulated supplies and medicine were loaded into aircraft participating in the tour. The supplies will be unloaded and loaded again at each stop.

W. K. Kellogg, 91, Cerebral Magnate, Dies BATTLE CREEK, MICH.—(AP)—Will Keith Kellogg, 91, who took the lovely corn flake from obscurity to a place of prominence on the American breakfast table and amassed a fortune of \$50,000,000 while doing it, died Saturday.

PROPOSED MIDLAND NATIONAL BANK BUILDING—Construction is scheduled to begin within the next two weeks on this new and completely modern building which will house The Midland National Bank. The building will be erected by the bank at the corner of Texas and Big Spring Streets. Completion is scheduled in mid-1952. Much-needed office space will be provided on the mezzanine and third floors. The exterior of the structure will be of stone, granite and brick.

Bill Would Curb Sales Of Influence

WASHINGTON—(AP)—Investigations of the Democratic and Republican national chairmen provided stage settings Saturday for a Senate move to "take the profit out of political influence."

Senator McCarran (D-Nev.) announced he would lead a drive for at least Senate approval of such a bill before Congress adjourns this fall.

McCarran told a reporter he believes recent Senate investigations, and some still hanging fire, entitle the measure to a rank among "must" bills being pressed by Administration forces for adoption before Congress quits.

No Fees Or Benefits The Senate Judiciary committee, which McCarran heads, is expected to consider Monday the bill he introduced. It is a measure sponsored by political officials of any national political party from accepting fees or other benefits for negotiations with federal agencies in behalf of themselves or others.

A Judiciary subcommittee under McCarran's leadership, reserving formal announcement, is reported to have revised Byrd's bill to impose penalties on any national committee official salaried or unsalaried, who:

- 1. Solicits or accepts anything of value from a client he represents or helps before a federal agency.
2. Solicits or receives things of value, including jobs or promises of jobs for himself or others, in exchange for his influence in any governmental affairs.
3. Accepts or solicits any of those things for his promise to use influence, even though the promise is not fulfilled or intended to be fulfilled.

Cold Front Moves Further Southward To Central Texas

By The Associated Press The cold front moved farther south into Texas Saturday, dropping temperatures as much as 20 degrees.

Late Saturday night, the front was between Austin and San Antonio. The Weather Bureau said it would form a line between Houston and Laredo Sunday afternoon.

The hottest place in Texas Saturday was Cotulla, with 96 degrees. The coldest afternoon temperature was 60 at Amarillo.

Other maximum readings were 73 at Abilene, 72 at Big Spring, 87 at Dallas, 81 at Dalhart, 80 at Houston, 94 at San Antonio and 93 at Waco.

Widely scattered showers fell. The Weather Bureau late Saturday ordered small craft warnings flown from Brownsville eastward to Morgan City, La.

Midland National Bank Lets Contract For New Building

Contracts have been let and construction will begin within the next two weeks on the new Midland National Bank Building to be erected at the corner of Texas and Big Spring Streets, bank officials announced Saturday.

The three-story and basement structure will face North on Texas Street. The Texas Street side of the building will be 90 feet in length, extending 100 feet on Big Spring Street. A total of 35,000 square feet of floor space will be provided.

The Bank Building Equipment Corporation of America has the general construction contract. The firm also has the architectural contract.

Officials of the bank said the new building will provide adequate banking quarters, along with two floors of much needed office space. Foundation for a 10-story building will be laid.

The new building is scheduled for completion about the middle of next year. All critical materials previously had been purchased and set aside for the project. Deliveries are scheduled as the materials are needed.

Reinforced Concrete The building will be of reinforced concrete construction, with the exterior of stone, brick and granite. Designed to meet the present and (Continued On Page Ten)

Reporter-Telegram's Sunday Oil Pages Now In Section Three

The Reporter-Telegram's Sunday oil pages, which previously have appeared in Section One, have been shifted to Section Three, effective with this issue.

The change was made in order to provide additional space for the complete and up-to-the-minute coverage of oil activities in the booming Permian Basin Empire.

The oil pages may be found on pages one to five, Section Three, of this issue.

OPS Hurls Tax Threat At Chiselers

WASHINGTON—(AP)—Price Director Michael V. DiSalle, whose agents have reported ceiling violations by 740 meat companies, Saturday announced a plan to penalize offenders through the tax laws.

DiSalle said the government is exploring the possibility of disallowing, in the figuring of tax returns, any business cost deductions attributable to the payment of over-ceiling payments for live cattle.

President Truman gave notice on Thursday that all federal agencies will cooperate in meat price enforcement. DiSalle's follow-up statement Saturday disclosed that the Internal Revenue Bureau may "play a major role in discouraging violators."

Truman Has Authority The Defense Production Act, DiSalle noted, authorizes Truman to decide to what extent over-ceiling payments, or fines paid for price control violations, shall be regarded by tax authorities in judging business expenses.

"We intend to consult with other government agencies to work out procedures for implementing this provision, and it would conceivably become a very expensive matter to persons consistently paying above ceilings for goods," DiSalle said.

"This penalty may be used against persons in the meat industry found paying above ceilings for live cattle."

Meanwhile, he reported, the OPS meat price enforcement drive is forging ahead and already has had an apparent effect in depressing the prices of live cattle.

Since this drive was started September 24, top prices for cattle at Chicago have gone down for all grades except prime.

Inspection of 1,953 packing plants so far has uncovered 1,949 violations by 740 packing plants, DiSalle said.

Injunction suits have been lodged against 85 slaughterers and four criminal complaints have been filed in federal district courts against two slaughterers.

Sharp Reduction Indicated In Steel For School Building

WASHINGTON—(AP)—A sharp reduction was indicated Saturday in the allocation of steel for school construction during the first three months of next year.

The National Production Authority was reported to have advised the Office of Education that an allotment of 81,000 tons will be made Monday for school construction during the current quarter was 194,000 tons.

Congress Refuses To Get In Lather Over Stalin's A-Bomb Announcement

WASHINGTON—(AP)—Congress generally refused to get excited Saturday over Premier Stalin's announcement Russia is testing A-bombs.

One member of the Atomic committee urged a vast expansion of the atomic program in light of Russian developments, but others willing to be quoted said present American plans are adequate.

Except in Russia, which heard about the latest Soviet explosion for the first time Saturday and reacted with considerable pride, a "so what" attitude seemed to prevail among those who had already heard President Truman break the news Wednesday.

No doubt was expressed that an atomic explosion had occurred and that Russia was testing new weapons. But recent information about

U. S. developments has been about a huge stockpile, perfection of new weapons, plans for new uses.

Representative Jackson (D-Wash.) of the Joint Committee on Atomic Energy urged that funds for atomic energy development be increased from the present \$1,000,000,000 a year to as much as \$4,000,000,000 to \$10,000,000,000.

He said the second atomic test in Russia has convinced him that country now is capable of beginning all-out war and that it should warn America it can hold its "commanding lead" in the A-bomb field only by redoubled efforts.

Senators Connally (D-Texas), Bridges (R-NE), and Hickenlooper (D-Iowa) disagreed. They are members of the same committee. Bridges said he saw "nothing

Masked Thug Steals \$3,161 At Gun Point From Amarillo Store

AMARILLO—(AP)—A masked thug Saturday stole \$3,161 at gun point from a grocery store.

Police, highway patrolmen, sheriff's deputies and Texas Rangers combed an area north of Amarillo in an intensive search for the bandit.

Dude Rash, 33, veteran clerk for the Oldham Grocery and Market Chain, said the man was masked with "something like cheesecloth" over his head and brandished a pistol.

Flying Boat Rescues Downed Jet's Pilot

FIFTH AIR FORCE—(AP)—An American flying boat pilot turned his craft into a mud flat Saturday and rescued a Sabre jet pilot from a mud flat deep in Red Korea.

Lt. Bill N. Garrett, Bowling Green, Ky., bailed out of his F-86 Sabre jet when it was disabled in a wholesale dogfight between 33 American Sabres and 100 Red jets in Northwest Korea.

Ex-Convict Admits Three Robberies At Snyder, Lamesa

SNYDER—(AP)—Statements admitting two robberies here and one at Lamesa were signed Saturday by Billy Jack Bennett, 23, District Attorney Bob Davis said.

The robberies and loot were: Snyder Western Union Office, \$25.50 in American Express travelers checks on July 7.

Snyder Cash Food Market of Snyder, \$1,400 in cash and \$4,000 in checks on July 10.

FLAG RAISING—The Lone Star flag is being raised at the fighting front in Korea in a ceremony arranged by Capt. Herbert S. Harris, Jr., of Midland. Captain Harris, facing camera, and another Texan do the honors.

Paul McHargue, E. B. Richards, A. L. Floyd, Paxton Howard, Leroy Hale, Jim A. Sanchez, L. A. Smith, William O. Kelly, Jr., Freeman Bell, Earl McKaskle, J. W. Bettler, R. M. Fielder, Jr., A. T. Bush, T. E. Bowers and Lawrence P. Lees.

Texans Fight Under Flag Of Their Own

United Nations or not, Texans fighting in Korea like to fight under the Texas flag.

Capt. Herbert S. Harris, Jr., of 1121 North Colorado Street, Midland, is one of those Texas-loving fighting men and he saw to it that the Lone Star flag waves over his artillery battalion.

A Midland attorney when called to active duty, Captain Harris has been overseas since July and has been at the Korean front for two months. But he didn't have a Texas flag. A letter to Gov. Allan Shivers brought results. The governor asked the Daughters of the Republic of Texas to send a flag to Harris.

Harris staged a flag-raising ceremony and brought other Texas soldiers into the act. As the big flag was raised on the pole the artillery fired a 60-round salute in the direction of the Red troops.

The Midland officer, who served in Europe in World War II, has a wife and two children, Herbert III, five and Carol, eight, residing in Midland. He is in Korea with the 69th Field Artillery Battalion of the Twenty-Fifth Infantry Division.

IN HOLLYWOOD

Billy Graham Isn't Worried About 'Wicked' Hollywood

By KERRICK JOHNSON
NEA Staff Correspondent
HOLLYWOOD—Billy Graham isn't worried about "wicked" Hollywood's soul.

"I was surprised, when given the facts and, through some personal observation, by the number of church goers and normal families in Hollywood," the young personality boy of old-time religion told me between revival meetings at the Hollywood Bowl.

"I'm going to defend Hollywood on my radio and TV shows. Just because a few movie people make the headlines doesn't mean Hollywood is a land of sin."

Billy's about to premiere a \$60,000, full-hour movie, "Mr. Texas," financed by his followers. "It's a western with biblical overtones—about a Texas oil millionaire who doesn't find true happiness and peace until I convert him."

Inspired by Glenn McCarthy? "No," Billy grinned, "but I hope he sees the picture."

Now it's Bob Hope who wants to go-star with Greta Garbo in a comedy.

There's even been some studio talk about it, Bob admitted.

"My best box office pictures have always been with women who weren't identified with comedy," Bob reasoned. "It's a sort of magic formula of beauty and the beast."

Dean Martin and Jerry Lewis are plotting another 16 mm. film satire, "Four and One Half," inspired by Arch Oboler's "Five." A Hollywood photographer, Allen Grant, has the same idea about "The Frogmen." His title: "Tadpole, Son of Frogmen."

Credit Eddie Cantor with the line about the drive-in theater showing movies for adults only. No cars under 16 year-of-age admitted.

Science Fiction Thriller
Preview Flash: Fox's "The Day The Earth Stood Still" starts where all other science fiction movies have left off. It's a celluloid H-bomb, more proof that Hollywood once again is making good movies that move.

There's a Broadway musical in tune with Mala Powers. Gene ("My Blue Heaven") Austin's ex-wife, Pony Sherrill, is one of the showgirls in the new revue at Earl Carroll's. Ed Tierney, brother of Lawrence Tierney, and Scott Brady, is writing a fan mag story titled, "My Brother's A Screwball."

Card Expert Will Address Midland K&F Club Monday

Michael MacDougall, one of the nation's foremost card detectives and platform entertainers, will be the guest speaker Monday night when the Midland Knife and Fork Club opens its 1951-52 season.

From the days when, as a young man, he was the boy at the top of the rope in the Indian Rope Trick, MacDougall has led a colorful and interesting life. He was a magician several years before his uncommon skill with cards, dice and other games of chance led him into his present profession at which he has no peer.

The dinner-meeting is scheduled at 7 p.m. in the high school cafeteria. President Carroll L. Thomas announced.

A near-capacity attendance is predicted by Newell W. Ellis, secretary.

Club officials said MacDougall, an internationally known figure, will present a fascinating program of pure escapism, with no earth-shaking problems to be solved.

"Gamblers Don't Gamble" will be the subject of his address, in which he will narrate some of his many and varied experiences, while attempting to convince the layman he cannot beat the "pros" at their own racket of gambling.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may occur in the columns of The Reporter-Telegram will be gladly corrected upon being brought to the attention of the editor.

Then the king of Israel called all the elders of land, and said, Mark, I pray you, and see how this man seeketh mischief: for he sent unto me for my wives, and for my children, and for my silver, and for my gold: and I denied him not.—I Kings 20:7.

Fire Prevention.

Fire prevention is something in which everyone apparently is interested, but at the same time it is something most of us do very little about.

This week, however, more Midlanders than ever before perhaps will join in a community-wide fire prevention campaign in observance of National Fire Prevention Week.

Yes, this is Fire Prevention Week. The success or failure of the observance depends upon YOU.

Fire Prevention Week here is sponsored by the Chamber of Commerce, Midland Association of Insurance Agents, Fire Department, public schools and other groups.

If the special observance is the success hoped for, Midland also will be a cleaner and more healthful city, since "clean-up" is a fire-prevention "must."

Fire Prevention should be the No. 1 subject of conversation throughout Midland this week.

Insurance agents, Fire Department personnel, civic and service groups and individuals long have waged continuous fire prevention campaigns here.

Still, fire prevention means more than just financial savings. It means the saving of lives and of property, which perhaps cannot be replaced at this time.

Yes, Midland has a fairly good record when it comes to fires; but still it isn't perfect. We still have fires and we still are seeking the maximum insurance credit.

Let's think, talk and practice fire prevention today and every day. Fire Prevention Week is a good time to launch such a program.

A Virginia man of 98 never had a doctor. He's the kind of a gent who could cause an apple shortage.

Courageous Little Fellow, Isn't He?

The Washington Merry-Go-Round

By Drew Pearson

Drew Pearson says: Five percenters loses on lavish dinner; Flood skeleton rests in congressional closet; GOP and Dixiecrats reluctant to realign.

WASHINGTON—Free hams and TV sets are supposed to be on the way to get government business these days, but one five-percenter lost an Air Force contract recently by throwing a lavish party.

He is Fred T. Bridges, who traveled all the way to Dayton, Ohio, to meet the right procurement officer; paid the full expenses for a friend to come from Denver, Colo., to make the introduction; then threw a \$372.92 dinner party to dazzle the Air Force.

Five-percenter Bridges figured he could impress both his clients and Brig. Gen. Phillip W. Smith by staging the extravagant dinner; so he rented a suite at Dayton's Hotel Baltimore, hired a three-piece string orchestra, and had exotic foods especially flown to Dayton.

To make sure the guests of honor would show up, Bridges paid the round-trip fares for Mr. and Mrs. J. V. Chamberlain, friends of General Smith, to come all the way from their home in Denver. Despite these carefully laid plans, however, General Smith left town and sent his regrets.

This left Bridges with a \$342.92 dinner cooking, but no guest of honor. So he asked the Chamberlains to invite Mrs. Smith and her children. At first, Mrs. Smith declined because she had a house guest, but Chamberlain persuaded her to bring both her children and her house guests. When the \$342.92 dinner finally was served, five-percenter Bridges sat at the head of the table, Chamberlain at the foot and between them sat two women and three children.

Instead of winning a new contract for Bridges, however, the abortive affair cost him an order he already had negotiated in Washington. For the story of the dinner got back to the Air Force, which promptly canceled his earlier contract.

Demagoguing Texas' elder statesman Tom Connally, Democrat, listened impatiently to a long-winded objection to the

Foreign Aid Bill by Michigan's silver-haired Senator Hugh Ferguson, Republican.

After the Michigan senator sat down, Connally leaned across the aisle and growled: "Of all the damn demagoguing I ever heard, that was the worst!"

Later, both Connally and Ferguson privately cornered the official Senate reporter to make sure the remark didn't get into the public record.

While Congress races toward adjournment, the biggest skeleton in its closet of unfinished business is the Missouri flood disaster. The flood left thousands of demolished homes, churches, schools and small business firms which for years cannot be rebuilt. While Congress voted some direct relief, it was only enough for temporary food and shelter.

Meantime nothing is being done about eroded farm lands. Thanks to the Army Engineers' project to protect big cities along the Missouri, the water backs up and floods farms in other areas.

Congress has done even less about the key problem of stopping floods—the Missouri Valley Authority program—which would provide a network of flood control dams paying for themselves through irrigation and low-cost electric power. The Army Engineers and the private utilities, however, are opposed to this.

The immediate problem of relief for flood victims is the most pressing of all. More than 25,000 homes were damaged or destroyed in the Missouri Basin. Some flood-hit families are living in tents, others in trailers, attics and basements. The few who can afford better accommodations are paying high rents because of the housing shortage.

JACOBY ON BRIDGE

By OSWALD JACOBY, Editor For NEA Service

"What is your opinion of this hand?" asks an Atlanta correspondent. "West opened the ace of clubs, and East eventually got a trump trick, so the slam was set."

"Would you say that North or that South was guilty of overbidding?" Curiously enough, I'm not able to put the finger on either player. The bidding looks perfectly reasonable to me.

If North fails to bid three diamonds at his second turn, he doesn't deserve to get good cards. And when South rebids the hearts, North naturally raises to game in that suit.

Now look at the bidding from South's point of view. North can easily have slightly stronger hearts

Bridge hand diagram showing North (D) and West/East cards.

and slightly weaker spades and; then the slam is cold. Or North can have the ace of clubs, in which case he can afford to have as little as three to the jack of hearts. There are dozens of hands that North can have which will offer much better play for the slam than North's actual hand.

Moreover, even on the actual hand South had a pretty good play for the slam. Suppose West had failed to take his ace of clubs. After all, aces are seldom led against slam contracts. If West opens a spade, South wins, draws two rounds of trumps, discards a club on dummy's third spade, and then runs the diamonds. By the time East ruffs, South has discarded all of his clubs.

Even when West makes the killing opening lead of the club ace, South still has a chance for his slam. Trumps have been known to break 2-2; or South may find a singleton honor in the West hand and guess the right play on the second round of trumps.

The mere fact that South did not make the slam this time, of course, does not mean that the hand was badly bid. The bidding should be considered sound if it will lead to successful results in the long run on similar hands.

Temporarily headed by former Senator Ed Burke, the ex-Democrat from Nebraska, the committee has held a few legislative meetings in Washington. Joining the movement are Charles Edison, former Democratic governor of New Jersey and secretary of the Navy in FDR's Cabinet; Donald R. Richberg, chairman of NRA under FDR; Albert Hawkes, former Republican senator from New Jersey; Horace A. Hildreth, Republican governor of Maine from 1945 to 1949, now president of Bucknell College; and Donald J. Cowling, ex-president of Carleton College in Minnesota.

Most of them have been out of the political picture too long to attract public attention.

Jaw-Breaking Horse GOP Senator Wayne Morse of Oregon got a chuckle over a note President Truman scrawled to Morse when he was in the hospital recovering from a broken jaw and a horse's kick.

"You're the last man on your side of the aisle I would want kicked," Truman wrote. "But let me know the name of that horse. There are other senators I'd like to sic him on."

With his jaw mending, Morse went to the White House to plead for the Northwest. But before he had a chance to talk about power and defense contracts, Truman asked: "You never told me the name of that horse!"

One of the worst scandal sheets ever to be printed in this country will appear on Washington and Baltimore newsstands shortly. It is a new, weekly, tabloid newspaper, "Flash," emphasizing sex, dope and crime, and opening up with the filthy details of Washington's worst sex case—the Reuben Rebins case.

These are sickening details which no respectable newspaper would print. The new tabloid is sponsored by John Blunt publishers of Toronto, which already puts out a similar scandal sheet in Canada. Their representative, Victor Fox, has been sent to Washington to start the paper.

The sunken Nazi battleship Gneisenau is reported raised from Gdynia Harbor in Poland. The 50,000-ton warship is a total wreck and cannot be used as the nucleus for a Polish navy—as Moscow hoped. The United States will produce a record amount of fertilizer next year, but, despite this, the expected record crop planting will leave farmers short.

Good news for arthritis victims—the price of cortisone will soon drop another 15 per cent—to about \$16 a gram (wholesale). Three years ago this same miracle drug cost \$200 a gram.

Chesapeake Bay gives Maryland 3,100 miles of tidewater frontage although it has only 31 miles of seacoast.

WASHINGTON COLUMN

New Uranium Sources Promise Unlimited A-Bomb Production

By PETER EDSON, NEA Washington Correspondent

WASHINGTON—Only half of Connecticut Senator Brien McMahon's latest big idea got much attention. This was the part that proposed mass production of new atomic weapons at a cost of \$6,000,000,000 a year.

The part that got lost was the senator's other resolution, calling on all the peoples of the world to unite for a great moral crusade for peace, freedom, and disarmament in all conventional, biological, chemical, atomic and hydrogen armaments.

To some cynics, this may appear like talking out of both sides of the mouth at the same time. On the one side it comes out, "Arm to the teeth with new and more deadly weapons." On the other side it comes out, "Let's cut out all armaments and have peace."

Senator McMahon of course likes to toss out these bomb-shell ideas. As speeches to dramatize the horrors of future atomic wars, if any, the McMahon proposals make good American propaganda. They speak softly of peace, yet wave around quite a big stick. Paradoxically, the senator offers both his proposals as economies.

It is cheaper to wage atomic warfare than conventional warfare, he argues. It would be cheaper to give away \$10,000,000,000 a year in economic aid than it would be to spend \$100,000,000,000 a year on a war.

Senator Knows His Subject There can be no denial that when McMahon talks about atomic warfare, he should know whereof he speaks. As chairman of the Joint Senate-House Committee on atomic energy, he has access to the most highly classified secrets of the Atomic Energy Commission and the Department of Defense.

He must be listened to and believed when he says, "There is virtually no limit and no limiting factor upon the number of A-bombs which the United States can manufacture, given time and given a dedication to proceed all-out."

This statement is supported by previously released information. The supply of uranium ore has been increased greatly since the end of the war. There have been new discoveries in Colorado and New Mexico. There still is a more promising discovery in the Lake Athabasca region of Canada. Uranium is being processed as a by-product of superphosphate fertilizers in Florida and gold mine tailings in South Africa.

The original Hanford and Oak Ridge plants were built to utilize the then-available supplies of uranium ore. The fact that the ore supply has been increased is obvious from the more than doubled capacity of Hanford and Oak Ridge plants plus the new AEC plants at Paducah, Ky., and Alton, S. C.

There is reason to believe that still further discoveries of uranium deposits will be made. The rules for its occurrence in nature are not yet known. Colorado deposits are in sandstone formations. New Mexico deposits are in limestone.

Flammable Material Still another factor to be considered is the possible use of other raw materials. Bombs are made of uranium.

TODAY'S QUESTION The bidding is the same as in the question just answered. You, South, hold: Spades A-Q-J-4-3, Hearts K-J-9, Diamonds 3-2, Clubs A-K-10. What do you do?

Answer Monday

What's Right? A couple tells you they are soon going to be grandparents.

WRONG: Kid them about getting old.

RIGHT: Never, even in fun, point out the unpleasant side of happy news.

NO SURVIVORS BY WILL HENRY

Copyright 1950 by WR Henry. Used by arrangement with the publisher, Random House, Inc.

THE STORY: John Clayton, a former cavalry scout, is captured and adopted by the Sioux Chief Crazy Horse. Clayton falls in love with a young girl, a little half-breed woman, but in doing so this love makes him a deserter. The old enemy of Clayton's named Kisteweyer kidnaps North Star, and Clayton sets out to rescue him. He eventually kills Kisteweyer and 30 Crow warriors who had been in the kidnapping, and then he is shot by a sleeping bear just before dawn in a camp on the trail.

THE next instant my knife was buried hilt-deep in living flesh. I struck once only, for I felt the powerful body stiffen and convulse with that all-over contracting spasm peculiar to the paralyzing shock of a lethal heart wound.

I cut Star free of her bonds and we fled. It was still dark as we stole away but morning was bare minutes behind us. Out of earshot of the camp we began to run for the hills, and I panted hoarsely, "You are all right, Star? Not injured?"

"Not with wounds, Cetan." The sound of her low voice thrilled me but her words struck my heart.

To Star I snarled out, "You have said I shall bring you the heart of a great enemy."

No answer save a silent upturn of her head. I was silent for a moment, then halting and going on, she said, "I am not afraid to ride in they didn't quite know in which direction to go."

At first glance I was as muddled as they, but Star's slim arm pointing northward gave me the first clue. Following the direction of her gesture, I saw 30 horses, standing in a wide spread line stop a small rise 400 yards up-valley of the Crows.

ORDINARILY 30 horses wouldn't cause an Indian maiden's eyes to burn with the fire now glowing in Star's. But these were special horses. Atop each one sat an impressive, war-feathered Oglaia Sioux.

Star's slender arm was now pointing southward. Fifty more horses were strung out across the south flank of the Crow camp. Here again no sound or movement came from the waiting Sioux. No wonder the Crows were showing a bit of indecision.

"Where did they all come from?" I wondered aloud, thinking of the 50-odd Sioux I had counted in the track of Crazy Horse's band. "Many Kills," she answered, indicating the south line of Sioux. Peering intently I made out a lone horseman sitting slightly in advance of his fellows. It was the old chief from the valley. Apparently his forces had joined those of Crazy Horse sometime during the night.

Below us the Crows had made their decision. I watched, fascinated, for the plains Indian is the world's finest natural cavalryman and I, something of an expert in that line, was professionally intrigued by their tactical position.

Have a Laugh

By BOYCE HOUSE Talleyrand, the great French diplomat, ever was at a loss for words—the right words. At a dinner, he was seated between the celebrated beauty, Madame DuBarry, and the brilliant but plain Madame DeStael. Talleyrand showed equal deference to each lady.

At last, Madame DeStael asked, "Suppose we were three in a boat and it overturned and you could save only one of us, either Madame DuBarry or myself—which would you save?" Talleyrand smiled and said, "Madame DeStael, you are so gifted—surely, you know how to swim!"

What's Right? A couple tells you they are soon going to be grandparents.

WRONG: Kid them about getting old.

RIGHT: Never, even in fun, point out the unpleasant side of happy news.

Your Newspaper Plant Is Factory

A newspaper is a factory. Starting with raw materials, it produces a finished product in an assembly line manned by skilled hands and trained minds. And like any other industry or business its operations must show profit.

The raw materials are newsprint, ink and the basic ideas behind advertising and news copy. Rapidly, within a few hours a day, they are integrated. One cannot supply the finished product without the others.

Whether it's a four-page weekly or a daily the size of The Midland Reporter-Telegram, a newspaper is departmentalized into news, advertising, mechanical and circulation divisions—whether all are operated by the person or by 5,000.

The news department gathers, writes and edits the local news, writes the headlines and guides them into the pages on which they are to be read. The many thousands of words which come into the editorial office daily on the leaded wires of the Associated Press likewise are handled in this manner. Photographs, in mat form, engravings or slick print must be selected and readied for the mechanical department.

When the news department is hurrying through these operations, the advertising salesmen and artists are helping advertisers with the wording, illustrating and laying-out of their advertisements, both display and classified. There must be a proportionate balance between news and advertising volume in the newspaper, and the volume of advertising decides the number of pages an edition will have.

From early morning until mid-afternoon, when editions roll from the presses, the mechanical department is setting body type on the Linotype machines and the headlines. They are placed in page forms with the advertising type and engravings. When filled, these page forms are the final form of the newspaper and are ready to be impressed and molded into lead castings for the press.

To accomplish this task the operator must be smooth and geared against the deadline—that last minute when copy may be sent to the mechanical department—and press starting time.

Chrysalis Takes Over
The press starting time is vital, for the newspaper must be placed on buses and trains within a few minutes after the press starts humming.

And all this time the circulation department, its trucks, route salesmen and street sales boys are standing by to gather the papers for delivery. No time is lost. They grab them from the high speed press as fast as they are printed and folded. Within a few minutes the newspaper is on the streets, ready for the reader. A short time later it is in the homes.
The daily paper has been published.

TO SPEAK HERE SUNDAY

Evangelist Reed Chappell of Sonora will be the speaker at the morning service Sunday in the Church of Christ, 907 South Terrell Street. Evangelist Edwin S. Morris of Midland previously had been scheduled to speak in the services at 10:30 a.m. and 8 p.m.

Churches Observe Communion Day

By CAROLYN ROBINETT

Worldwide Communion Day will be observed Sunday, and at least 23 Midland churches will join in the observance.

The National Council of Churches, composed of 77 leading church groups, since 1940 has set aside one Sunday in the year for this demonstration of close fellowship among churches over the world.

Of the 35 Midland churches contacted, eight have Communion each Sunday: First Christian, North Side Church of Christ, South Side Church of Christ, Church of Christ, 907 South Terrell Street, Church of Christ, 710 South Colorado Street, St. Ann's Catholic Church, St. George's Catholic Church and the Trinity Episcopal Church. Four churches observe the Lord's Supper once a month. They are Assembly of God, First Methodist, Holiness Mission and Foursquare.

Communion services are held quarterly in 13: First Presbyterian, St. Andrew's Presbyterian, Church of the Nazarene, Calvary Baptist, First Baptist, Belview Baptist, Bible Baptist, First Free Will Baptist, West Side Baptist, Church of God, Grace Lutheran, Asbury Methodist and St. Mark's Methodist. The Trinity Baptist congregation partakes of Communion twice a year.

In the Christian Science Church, Communion services are held twice a year when new members are received. To Christian Scientists, Communion is spiritual fellowship with God and the physical symbols of bread and wine are not used. The congregation is invited to kneel in silent prayer for communion.

Wine is used in the communion services of the Episcopal, Lutheran and Catholic Churches, while unfermented grape juice is used by most of the other churches. Unleavened bread is the other element common to most of the churches.

Three Midland churches, Trinity Episcopal, South Colorado Church of Christ and Grace Lutheran still use a common wine cup similar to the one which was reported by the Gospel to have been used by Christ at the Last Supper. The Lutheran group alternates individual wine glasses one month with the common cup the next month.

"In order to receive Communion," Father Kennedy continued, "members should have taken nothing in the way of food or drink from midnight until after receiving sacrament. They must be free from grievous sin, so many go to confession at the appointed hour before the Mass. Catholics receive Communion frequently, often daily."

Many of the Midland churches provide Communion services for the shut-in members at their homes and in hospitals.

Midland pastors said Communion shows widespread unity of belief among religious groups, in spite of diversity of organization.

Members of the Seventh Day Adventist Church observe their Sabbath day from sundown Friday until sundown Saturday with Communion.

District Scouting Leaders Will Meet

District Commissioners of the 17-county Buffalo Trail Council, Boy Scouts of America, will hold a council-wide meeting at 6:30 p.m. Tuesday in the council headquarters at 318 North Colorado Street.

The session is being held for the purpose of planning the commission's part in the new "three year program" presently being launched by the Boy Scouts of America, according to Lyman Wren, council commissioner from Snyder, who is in charge of the meeting.

Livestock

FORT WORTH —(AP)—Livestock compared to week ago: cattle and calves sharply lower. Stocker and feeder lambs and yearlings \$1 to \$2 lower. Hogs \$0 to 75 cents higher. Slaughter steers and yearlings 20-37, slaughter cows 14-29, slaughter calves 17-33.50, stocker calves 23-38, stocker yearlings 20-34. Hog top 21.50-21.75; sows 20.50 down, pigs 19-20. Slaughter lambs 15-31.50, stocker and feeder lambs 22-28, fat yearlings wethers 28.00 down, stocker and feeder yearlings 20-24, slaughter ewes 10-16.

Baker Hotel Sues Uncle Dud's Hadacol

DALLAS —(AP)—A suit for \$1,439.23 and another to garnish the company's properties and assets with three drug companies here was filed by the Baker Hotel Friday against the Leblanc Corporation of Lafayette, La. Leblanc makes Hadacol. The hotel's petition listed seven checks which it had honored between September 5 and September 18, signed on behalf of the corporation by George Berry, "its duly authorized agent."

Casualties in Korea

WASHINGTON — One of the longest casualty lists in recent months (No. 412) was released Saturday by the Defense Department. Included are names of 19 Texans killed in action, two cases of wounds, one missing in action and many wounded.

Killed in action, Army: Pfc. William O. Carsthorpe, Dallas; Pfc. Mac A. Handley, Houston; Pfc. Lee P. Hines, Houston; Pfc. Robert M. Knight, Athens; Pfc. Eugene A. Macek, Corpus Christi; Pfc. Charles L. Phillips, Dallas; Pfc. James L. Wallace, Blum; Sgt. 1/c William H. West, Hillsboro.

Killed in action, Marine Corps: Cpl. Ruben G. Avila, El Paso; Pfc. James T. Hamilton, Amarillo.

Died of wounds, Army: First Lt. William M. Farris, Houston.

Died of wounds, Marine Corps: Cpl. Eric Whitefield, Jr., Houston.

Wounded, Army: Cpl. Ernest F. Beard, Jr., Timpson; Pfc. Noe C. Benavides, Premont; Pfc. Earl D. Chapman, Wells; Pvt. John H. Coyle, Amarillo; Pvt. Arnold W. Grabs, Taylor; Sgt. 1/c James W. Dibble, Chilton; Sgt. Jack Harper, Silsbee; Pfc. L. O. Johnson, Rosebud; Pfc. James M. Jordan, Shepherd; Cpl. Wilton Mayfield, Sheppard Air Force Base; Cpl. Frank J. Meeks, Fort Worth; Pfc. Jesus Melendez, San Benito; Pfc. Edgar M. Schulze, San Angelo; Sgt. Roosevelt Sheffield, Tyler; Pfc. J. L. Smalling, San Antonio; Capt. John F. Taylor, Austin; Pvt. James A. Welch, Temple.

Wounded, Navy: HC 2/c James H. Clime, Pampa; HC 3/c Lloyd F. Moore, Marshall; HA Roberto Serrano, El Paso; HC 3/c Hayden P. Summerfield, Dallas.

Wounded, Marine Corps: Cpl. Clayton J. Alverson, Dallas; Pfc. Donald D. Amos, Texas City; Pfc. Gabe D. Arnold, Jr., Houston; Pfc. Raymond L. Barrow, Beaumont; Cpl. Donald E. Baxter, Bowie; Pfc. Will A. Beatty, Austin; Cpl. Charles A. Blahuta, Jr., Abbot; Cpl. James E. Blakey, Tioga; Pfc. George R. Boyett, Fort Worth; Pfc. George S. Broussard, Fort Arthur; Pfc. Carl W. Brown, Wichita Falls.

Pfc. Edwin A. Cannon, Houston; Cpl. Daniel C. Carraval, McAllen; Pfc. Max D. Crusetier, Snyder; Pfc. Gail M. Davis, Edna; Pfc. Jack Domingue, Port Neches; Cpl. Tommy H. Duncan, Somersett; Second Lt. Parker C. Folsie, Jr., Beaumont; Cpl. Graves Francis, Houston.

Pfc. Joe D. Franklin, Galveston; Cpl. Val Garrick, Dallas; Cpl. Johnnie H. Gifford, Eden; Pfc. Joe M. Gilliam, Baird; Sgt. William E. Harrison, Temple; Pfc. Thomas P. Hay-

es, Jr., Harlingen; Cpl. Oliver K. Hill, Austin; Pfc. John E. Hines, Jr., El Paso; Pfc. Dan E. Johnson, Galveston; Pfc. Wallace A. Johnson, Galveston.

Pfc. Steve C. Kerr, Beaumont; Pfc. Frank S. Komarek, Dayton; Pfc. John A. Lindkvist, San Antonio; Pfc. Felix O. Mancha, Jr., San Antonio; Pfc. Alfred R. Marek, Pleasanton; Pfc. James P. Montgomery, Fort Worth; First Lt. Tom D. Parsons, Dallas; Pfc. Billy J. Pritchett, Texarkana; Pfc. Rito S. Rangel, Corpus Christi.

Pfc. Martin T. Rivas, San Antonio; Pfc. Donald G. Rowsinsky, San Antonio; Pfc. Roy B. Runyan, Texarkana; Pfc. Rogelio Sanchez, Jr., El Paso; Pfc. Johnny L. Shields, San Antonio; Cpl. Alvin L. Soderberg, Texas City; Pfc. Webster R. Stone, Houston; Pfc. Billy E. Taylor, Dallas.

Pfc. Durland W. Thomas, Galveston; Sgt. Henry L. Vesely, Edna; Cpl. Frank B. Westfield, McGregor; Pfc. Freeman T. White, Lytle; Cpl. Alfred J. Zbrunek, Garwood.

Injured, Army: Pfc. Glenn E. Duvy, Eagle Lake; Cpl. Karl K. Hicks, San Antonio; Cpl. Julian N. Perez, San Antonio; Cpl. Carleton O. B. Wallace, Farmersville; Pfc. Willie A. Webb, Gilmer.

Missing in action, Army: Pfc. Hartley B. Bell, Palestine.

Scottish Rite Club Plans Observance

The Midland Scottish Rite Club, oldest in Texas, will observe the Feast of the Tabernacles October 17 with a special program.

The dinner preceding the observance program will start at 7 p.m. and will be held in the Crystal Ballroom of Hotel Scharbauer. President Emil Haseman announced. All Scottish Rite Masons are invited.

Principal speaker for the occasion will be E. A. Wells, who is secretary of the El Paso Rites, Ancient and Accepted Scottish Rite of Freemasonry of the Southern Jurisdiction of the United States. The meeting will mark the club's twenty-third annual observance since it was organized April 8, 1909.

The program will include a concert by the A Cappella Choir of the Midland High School, under the direction of Robert C. Michener and the official committal from John H. Cowles, sovereign grand commander, which will be given by John P. Butler.

Charles L. Klapproth will give the invocation. Other featured messages will be given by Ken Regan, Allen Waits, A. A. Jones, John H. Hughes, A. H. Vineyard, O. J. Hubbard and J. A. Matthews.

WILL MEET TUESDAY
The Symphonic Music Group of the American Association of University Women will meet at 8 p.m. in the home of Mrs. John Morris, 2211 West Louisiana Street.

Travancore is a popular vacation area in India.

Business of Your Own

If you are a man with sales ability, experience and following in the building or industrial trade and are enjoying an unimpeachable reputation we will put you in business and supply stock without an investment on your part. We are manufacturers of nationally known products found in many government specifications. We will assist in hiring salesmen and building of a successful organization. You will have a protected territory and substantial advertising assistance. Send all information concerning yourself in first letter and we will arrange for an interview in your city. Write Box 286, care Reporter-Telegram, Midland, Texas.

Quality Ingredients

Your doctor knows that the reason our accurately compounded prescriptions hit their mark is because they are made from fresh, potent, nationally known drugs.

C. of C. Directors Will Meet Monday

The October meeting of directors of the Midland Chamber of Commerce will be held at 4 p.m. Monday in the Private Dining Room of Hotel Scharbauer. President Stanley M. Erskine announced Saturday.

A number of important matters will be discussed and several committee reports will be heard, he said.

The directors are expected to approve the action of the Chamber's Highway Committee in recommending that a county bond election be called promptly to determine the wishes of citizens in providing funds for the paving of a highway into the Spraberry Trend areas to the Southeast.

Erskine urged a large attendance of directors at the session.

The United States owns more than a dozen small Caribbean islands, mostly uninhabited, which were originally acquired for their supplies of guano fertilizer.

The Number One American Habit

The thud of the paper on the front porch, tossed there by the bright-eyed lad, starts people reaching for the facts of life . . . all over town. Ever think of it that way? It's the great American Habit, this eager reaching for the truth, this wanting to know what's going on . . . everywhere and without the slightest delay at all.

It's a good habit, too, for here is the foundation of the freedoms we cherish so deeply. In knowing what's going on lies our capacity for the making of choices, the very essence of our individual liberty.

It is at this point that our favorite newspaper becomes so important to our way of life. For in its pages are presented the kaleidoscopic changes occurring constantly . . . the truth of what's going on in the world . . . the facts from which we, as individuals, determine for ourselves how we will vote, whom we will patronize, what we will think, and what we will do.

ACC Downs Miners, 20-13

Texas Aggies Smash Mighty Sooners, 14-7

COLLEGE STATION—(AP)—Texas A&M Saturday night cut down the swashbuckling giant of college football, smashing Oklahoma, 14-7. The Aggies beat last year's national champions with a brutal defense and a tremendous ground game.

It was the A, B, C brand of ball the coaches preach: Tackle low, run hard, body block.

The capacity crowd of 40,000 sat rain-soaked in cold, windy weather and watched A&M reel off its A, B, C's letter perfect.

Goode Scores Three TD's As H-SU Wins

WICHITA FALLS—(AP)—Hardin-Simmons' Cowboys turned back Midwestern, 27-21, here Saturday night before 13,500 fans.

The Indians broke in front eight minutes deep in the first quarter when Bobby Flippin shot a pass good for nine yards to End Salty Thomason at the goal line. Harry Hanzler kicked the extra point.

Hardin-Simmons had its first touchdown two minutes later, on the series of downs that followed the kickoff as Dunny Goode—ex-Midlander, unleashed a sparkling 53 yard broken field run. The try for extra point was wide.

The Cowboys lassoed their second six-point midway in the next period as Bill Davis smacked two yards to pay dirt. Again the extra point try was no good.

Hardin-Simmons ripped the game open in the third period with two touchdowns. Goode carrying across on both of them. Both were one-yard line bucks. Boggs was good on both extra point tries.

In the fourth quarter, Harry Hanzler scored two markers for Midwestern both on one yard bucks. He also split the uprights with his extra point attempts.

Bill Davis closed out Hardin-Simmons' scoring in the last period with a two yard drive.

SEVENTH GRADERS TRIP ODESSA ELEVEN, 7-0

The seventh graders of John M. Cowden High School downed the Odessa eleven from Odessa for the second straight week, 7-0, here Saturday.

Dennis Patton made the touchdown and a pass, Jim Owens to Larry Cooper, accounted for the extra point.

Fourth Quarter Tells Tale

Ablene Christian College's Wildcats clawed the Texas Western College Miners, 20 to 13, in Midland's neutral Memorial Stadium Saturday night before a shivering crowd of 6,000 West Texans. It was the second annual Optimist Club-sponsored college grid game here.

ACC's bruising ground game punched over a fourth quarter TD that broke a 13-13 third quarter deadlock and brought victory to Coach Garvin Beauchamp in a private strategy sidelight over Coach Mike Brumbelow. Both are former Midlanders.

The Miners scored first. With but three minutes and 25 seconds gone on the clock, they had a tally. Billy Bob Plumbler, Yuletia-ex, a 160-pound quarterback, tossed a 13-yard pass to Clovis Riley, halfback, for the score. Ed Ammons, end, place-kicked extra point.

The Miners were in ACC territory on the 18-yard line as the result of a Wildcat fumble, which Guard Salvador Ramirez of the El Pasoans recovered.

ACC Ties It Up
Halfway in the second quarter, ACC tied it up at 7-7. Tommy Hinson, 177-pound fullback, found a gaping hole in the middle of the Miner line, and thrust over a TD. He went nine yards. Pave Treadway, guard, place-kicked extra point.

It was 7-all at the half. The Border boys went ahead again in the third quarter when John Connell, fullback, bruised two yards for a touch. Ammons' kick was wide. The Miners found pay dirt after a 25-yard drive, set up

GAME AT A GLANCE	
ACC TEXAS WESTERN	
13	First Downs
314	Net Yards Rushing
0 of 7	Passes Completed
0	Yds. Gained Passing
4	Fumbles (loss ball)
5 for 27	Punts, Av.
4 for 10	Pen. No. Yds.
Scored by periods:	
ACC 6-7-6-7	
TWC 7-0-0-0	

by recovery of a Wildcat fumble. Deep in the third quarter, ACC tied it up again. Hinson bounded six yards standing up over tackle for the score. Treadway's placement was blocked. It was 13-13.

West in Fourth
ACC won it in the fourth quarter. Ted Sifton, quarterback, faked two handoffs, and then raced around end and over with the Miner line bunched in the middle looking up the chimney. Treadway pumped through an extra point. The Purple got a break for this drive by blocking a Miner punt on the Miner 29-yard line.

ACC's line figured strongly in the victory. The Wildcat forwards charged viciously while Sifton and his mates danced around with magic deft in the backfield. Once an ACC runner started, he bolted. It was just more than the stout-hearted Miners could take. And the ACC defense held TWC to 87 yards rushing.

Say for the Miners, they were always in the ball game. Fumbles hurt both clubs.

Both elevens were studded with West Texas boys, and the mingled crowd cheered them all. Jack Burris, Midland ex, showed to good advantage with some spirited running for Texas Western. Billy Medart, another ex-Bulldog, started for the Miners. There were boys from Odessa and other Permian Basin cities on the field for TWC. This time they lost to the boys from down Sweetwater and Stamford way.

Pep legions and bands from both colleges put on colorful half-time performances.

Vanderbilt Upsets Crimson Tide, 22-20

NASHVILLE, TENN.—(AP)—Halfback Dick Foster, slashing, dashing and kicking demon, powered an underdog Vanderbilt Commodore eleven to a spine-tingling, 22-20 upset victory over Alabama's Crimson Tide here Saturday in the Southeastern Conference football game watched by 23,000 in 90-degree heat.

It was Foster's zooming, 38-yard field goal in the third period which was the eventual margin of victory, and in addition, he churned his way to a personal total of 106 yards on 15 carries with the ball, which was instrumental in all Vanderbilt's scoring.

Vanderbilt twice came from behind to beat the Alabama, who were favored three to four touchdowns.

The win maintained the Commodore's mastery over the Tide. They haven't lost since 1946, racking up four wins and a tie in that stretch.

CRUSADERS CRUSH RAMS
WORCESTER, MASS.—(AP)—After assuring itself its famed forward passing attack was in good working order, Holy Cross settled down to its running game Saturday to snap Fordham's nine-game victory string with a crushing 54-20 victory.

STOPPED—Ray Masters, Brownwood back, is stopped by a host of Bulldogs after a short gain in the Friday night clash, won by Brownwood, 19 to 13. Pictured are Bill Mims (66), Larry Friday (15), M. A. Rose (16) and Pete English (67), all of Midland. Number 61 is Brownwood's Robert Hutchinson.

Princeton Aerials Beat Navy, 24-20

ANNAPOLIS, MD.—(AP)—Three aerial touchdowns by all-American Halfback Dick Kazmaier flashed Princeton to its fifteenth straight triumph by a 24-20 score over Navy in a spectacular display of offensive fireworks.

Navy came close to beating the Tigers for the first time since Cornell turned the trick in the middle of the 1949 season, with a second half comeback that netted all the Middle points.

The Tigers sprung away to a 17-0 halftime lead. Then Navy unfurled second half touchdowns of the skyrocket variety and missed what might have been the winning score on a dropped pass over the goal.

Indiana Hoosiers Down Pittsburgh

BLOOMINGTON, IND.—(AP)—Indiana whipped Pittsburgh's football team, 13-8, Saturday on two touchdowns by Fullback Eugene (Pat) Oedman. The Duquesne, Pa., lad ran 85 yards for one and caught a 16-yard pass from Quarterback Lou D'Achille for the other.

Pitt, beaten last week by Duke, 19-14, played heads-up ball and made the most of Hoosier fumbles, but didn't have the scoring punch to win.

Illini Surge From Behind To Defeat Wisconsin, 14 To 10

CHAMPAIGN, ILL.—(AP)—Illinois surged from behind for a fourth period touchdown Saturday to defeat Wisconsin, 14-10, in a Big 10 game of lucky breaks and hot tempers.

Illinois barged ahead 7-0 in the first four and one half minutes on a 71-yard drive capped by Johnny Harris, who stabbed across from the six-yard line.

Wisconsin tallied at the outset of the second period and added a field goal for a 10-7 half-time lead. Illinois broke the Bangers' back at the start of the finale.

Quarterback Don Engels, finding himself bottled up, tossed a desperation pass for 30 yards, bouncing out of the hands of End Steve Nosek, the intended receiver, and into the arms of his teammate, Rex Smith. It put Illinois on the Badger eight.

Karras churned the final three for his second touchdown.

PENN SPANKS DARTMOUTH

PHILADELPHIA.—(AP)—Glenn (Bones) Adams, a 20-year-old aerial specialist, hurled four touchdowns passes Saturday to lead Pennsylvania to an easy 39-14 triumph over Dartmouth.

Stanton Buffs Lose To Crosbyton, 6-0

CROSBYTON.—A green Stanton Buffalo eleven staged a strong defensive battle against the Crosbyton team here Friday night but came out on the short end of a 6 to 0 decision.

The Buffaloes, who have failed to score on an opponent in four games this season, crossed the goal line in the third quarter when Billy (Scouter) Polk, intercepted a Crosbyton pass on his own goal line and ran it back 100 yards for the touchdown.

But the play was nullified on a clipping penalty. Playing without the services of three regular starters, the Stanton team came close to victory but a Crosbyton touchdown in the third quarter on a quarterback sneak was enough for the victory.

Wyoming Cowboys Plaster Utah State

LARAMIE, WYO.—(AP)—The Wyoming Cowboys showed the stuff that gave them two Skyline Conference football crowns in a row and passed-smashed their way to a 37-0 win over Utah State Saturday.

The Farmers threatened only once during the entire game. Tailback Harry Geidien led the Cowboy attack with a 99-yard run for a touchdown after receiving the third period kickoff on his own one-yard line.

SMU Rolls Over Missouri, 34-0

DALLAS.—(AP)—Benton Musslewhite, a little fellow who runs like a cotton tail rabbit in the Texas piney woods, brought memories of the great Doak Walker Saturday night as he led Southern Methodist in a 34-0 storming of Missouri.

Engineering a mighty ground game, the Methodist quarterback set up two touchdowns with his running and dashed 71 yards for a score himself. A crowd of 40,000 marveled at the resemblance of Musslewhite to Walker, the SMU immortal now a star of professional football.

The crowd was carried back also to Kyle Rote, who played with and after Walker at SMU and was one of its all-time greats. A big fellow named Jerry Norton looked a great deal like Rote with his hammering runs. He even wore Rote's old number—44.

The bull-shouldered Norton, a sophomore who has been starting with his punting until now, made

73 of 80 yards in an SMU touchdown drive in the third period. He scored it himself from the Missouri four-yard line.

The crowd felt like going home at the SMU exhibition most of the first period. The Methodists had the ball only four times, once fumbling it away to Missouri, kicking on first downs the next two tries, then finally getting a touchdown drive under way as time ran out in the quarter. Twice the Methodists gave Missouri the ball deep in their territory on fumbles, one bobble being of a punt. But the impotent Tiger offense couldn't take advantage of anything.

Even Fred Benner, the SMU passer who never runs with the ball, scored on Missouri—with a run. His passing and ball-carrying pushed the Methodists along 30 yards for the final touchdown in the fourth period. It was Benner's first touchdown in three years of college football.

Forester Scores
And then came the most ludicrous happening of the game. Sam Stollenwreck, back to try for the extra point, bobbled the ball, tried to run, then after being rushed back 10 yards, passed to Bill Forester, who ran across for the point.

The first SMU score was on a 70-yard drive with a 41-yard run by Musslewhite setting it up. Henry Stollenwreck got the touchdown from the two-yard line. The next one came when Bill Burkhardt fumbled on the Missouri 24 and Bob Hooks recovered for SMU. In seven plays, SMU scored with Stollenwreck again making it on a two-yard smash. Then came Musslewhite's 71-yard dash for a score and the personal Norton drive. Sam Stollenwreck kicked three extra points and passed for the other.

Southern Methodist racked up 263 yards on the ground and only 62 in the air. In fact, the Ponies tried only 14 passes—a low for the celebrated SMU aerial circus.

Sam Houston Wins; Crockett, DeZavala Play To 6-6 Standoff

A Sam Houston Elementary football team scored twice in the first quarter and once in the third to defeat a Terminal Elementary team 18-6 here Saturday morning.

Dennis Burton scored the first two touchdowns and set up the third. Garry Littlejohn carried the ball over for Sam Houston's final marker.

In other elementary games, Crockett tied the DeZavala team 6 to 6. Crockett scored first in the opening quarter on a 15-yard right end run.

Lupe Hernandez tallied for DeZavala on a similar play in the fourth quarter from 10 yards out to tie the game up.

Brownwood Nudges Bulldogs

Fumbles, Fry Stop Midland

By LARRY KING
Reporter-Telegram Sports Editor

Opportunity knocked but the Midland Bulldogs couldn't answer as the Brownwood Lions toughed it out for a 19-13 win Friday night in Memorial Stadium before 9,000 fans in a thriller of a ball game.

Twice the Bulldogs bared to within the shadow of the visitors' double-stripe, only to be stopped cold by an outweighed but rugged Brownwood line.

Even so, Midland amassed 333 yards on the ground, with Tailback Ralph Brooks rushing personally for 251 steps.

The Bulldogs passing game, however, was held to a standstill. Four yards was all Midland could net on 13 passes while Leonardus Fry hit 11 of 31 for 148 yards in pacing Brownwood to its victory. He received valuable assistance from Wingback Bobby Leverett, who ran for most of the 126 yards picked up by the Lions on the ground.

Midland scored first, romping for varied gains on a 70-yard drive in the initial quarter, the mightiest of which was a fighting, driving 50-yard ramble by Brooks around his own right end. Brooks then went toward the middle, cut back by the linebackers and moved into the end zone on a 39-yard run. Larry Fry's successful conversion, with Freddy Bilbo holding, put the Purple in front, 7-0, at 6:32 of the first quarter.

Lions Come Back
But Brownwood came back in a hurry, with Fry at the helm, to score on an 80-yard advance. Gains of 16 and 22 yards on the ground by Fry, plus his 10-yard pass to End

and leaped 32 yards to paydirt with a five-man escort.

Long Punt
Midland desperately tried to come back in the game, but couldn't make it. Robert Keisling turned in a 78-yard punt with a beautiful roll in the final minutes, but Brownwood froze the ball and that was all they needed.

Bill Leonard, junior tackle, and Bill Mims, sophomore end, were the Midland line standouts for the night. Jimmy Linbarger also performed well for the Bulldogs on defense, but the AAA top game-of-the-week seemed destined for Brownwood, as Midland had fumble-lis to go along with its other troubles.

Midland plays Poly of Fort Worth, in Fort Worth, next Saturday night.

Undefeated Schoolboys Dwindling

By HAROLD V. RATLIFF
Associated Press Sports Editor

The list of undefeated, untied teams in Texas schoolboy football was a shadow Sunday with standouts such as Midland and Breckenridge among more than a score of those whose records were cracked.

Breckenridge, heralded power of Class AAA, took a 19-0 licking from Abilene of AAAA Friday night. Midland fell in its own class by Brownwood, 19-13. The result projected Brownwood as one of the championship favorites in AAA.

In the feature game of the state, Lamar of Houston stepped down into Class AAA to wallop Brownwood, 40-13. It was a battle of undefeated, untied teams as were the Breckenridge-Abilene and Midland-Brownwood games.

Tumbling out of the unbeaten, untied class in Class AAAA were Miller of Corpus Christi, a 13-6 victim of Austin, and Jeff Davis of Houston, licked, 28-0, by Port Arthur.

Four Fall in AAA

Four unbeaten teams lost in Class AAA — Midland, Breckenridge, Brownwood and Cleburne, victim of undefeated, untied Longview, 43-13. Mighty Lubbock and Odessa rolled on in Class AAAA where a major upset saw Harlingen crack Thomas Jefferson of San Antonio, 27-21, in a District 6 conference game. Lubbock spanked North Side (Fort Worth), 39-0, and Odessa whipped Paschal (Fort Worth), 42-6.

Temple, top favorite in Class AAA, slammed Denton, 71-0.

There now are 18 undefeated, untied teams left in Classes AAAA and AAA—Pampa, Borger, Amarillo, Abilene, Lubbock, Ray (Corpus Christi), Lamar, Milby (Houston), Brownwood, Stephenville, Weatherford, Grand Prairie, Gladewater, Galena Park, Freeport, Kingsville, Palestine and Longview. Undefeated but tied are Odessa and Sunset (Dallas).

Quannah, Hamlin, Handley, Carrollton, Pittsburg, Hamilton, San Marcos, Wharton and South San Antonio were among the teams taking the plunge in Class AA. The defeat of Wharton, a championship favorite, could be considered an upset. Wharton took it on the chin from undefeated, untied Cuero, 13-7.

GAME IN FIGURES	
MIDLAND	BROWNWOOD
333	Yards Rushing 126
12	First Downs 13
3 of 13	Passes Completed 11 of 31
4	Yards Passing 148
3	Fumbles Losing Ball 0
5 for 197	Punts & Yardage 8 for 251
4 for 20	Penalties 8 for 60
1	Passes Intercepted 1

Jimmy Ellis, helped move the ball to the 25-yard line, from which point Leverett swept to his own left side on a reverse and traversed the distance to paydirt. Fry's kick knotted the count at 7-7.

Three minutes deep in the second quarter, Fry laid a perfect pass in the hands of Ellis who was all alone for marker and Brownwood left with a 13-7 halftime edge.

Then came the frustrating second-half.

Midland halted a Brownwood stab on the Bulldog 34-yard line, forcing Fry to boot and the ball sailed out of bounds on the Midland seven.

Roy Kinsey went to the left on a reverse, cut into the clear and scampered 43 yards to midfield. Brooks then ripped 46 yards off his own right tackle for a first down on the two-yard line. Four running plays netted but a yard, and the Lions kicked out to Dan Black at the 40, he returning to the 10.

Midland moved again, Brooks going on the big ground-eater for back to the 12-yard line on losses. Brooks then passed to Linebarger at the four, bringing fourth down. Brooks was stacked at the one, and the stubborn Lions look over again on their own one-yard stripe.

Fry's rifle-shot arm paid off for Brownwood again in the fourth quarter, as he connected on throws of 10, 11 and 15 yards, the latter to Leverett for a touchdown.

The Bulldogs came back with a boom. Charley Patterson ran the kickoff back nicely from his own five to the 48 YL. Brooks then swept to the right, got a key block by Freddy Bilbo which knocked the Brownwood defensive end for a loop.

BLOCK 'EM—Charlie Patterson sets to slam a Brownwood defender as Ralph Brooks carries. Other Bulldogs shown are Loren Roberts (59), Robert Keisling (58) and Pete English (67). Brownwood won Friday night in Memorial Stadium, 19 to 13.

Tough Levelland Rips Lobos, 20-0

LEVELLAND — The Monahans Lobos displayed a surprisingly strong defense here Friday night but lost a 20 to 0 decision to the powerful Levelland eleven.

Langford Sneed led the way for Levelland, scoring in the first quarter on a nine-yard sprint around right end. McCauley kicked the extra point.

Sneed struck again in the first period when he intercepted a pass thrown by Monahans Quarterback Jenkins on the Monahans 30 to go all the way for the TD. McCauley failed to convert.

McCauley scored the final touch-

Snyder Tigers Rip Andrews Ponies

SNYDER — Jackie Grimmett plunged the lines twice here Friday night to give Snyder two touchdowns for a 12-7 win over Andrews in a non-conference game.

Grimmett's first plunge was from the two yard line in the first quarter and a similar dive in the third quarter sealed the game. Andrews scored in the fourth when Earle passed to Green for 16 yards and a score.

Snyder made 11 first downs to Andrews' 6.

Pecos Throttles Jeff El Paso, 41-6

PECOS—Two Pecos Eagles scores, rambling Thomas (Sonny) Langham and strong armed Orlando Gutierrez, led their team to a lopsided 41 to 6 victory over Thomas Jefferson High School of El Paso here Friday night.

Langham, a great break-away speedster, scored 21 of his teams 41 points while Gutierrez threw two touchdown passes, once for 38 yards to Read and again for 39 yards to Johnny Cook.

DeVerie Gray scored the last marker for Pecos on a 35 yard dash. Thomas Jefferson scored its only touchdown in the last three minutes of play after recovering a Pecos fumble on the 14-yard line. Samanigo passed 11 yards to Bora, who went over for the score.

The Eagles wasted little time, scoring one minute and 40 seconds after the game started, then added another before the first quarter was over to lead, 14 to 0, at halftime.

They added another score in the third quarter and three more in the last quarter to win handily. Eagle substitutes moved in and out of the game freely with most of the team seeing action. Frequent penalties were called against both sides to slow up the contest.

Ysleta Plasters Big Spring, 40-0

BIG SPRING—Ysleta rolled over Big Spring's Steers Friday night, 40-0.

Ysleta Back Enrique Mata, scored three of the Ysleta TDs on two runs of four yards each, and one of nine.

END OF THE LINE—Ralph Brooks is hauled down by Brownwood's Ray Masters after he gained a few of the 251 yards he picked up running in the Friday night game. The Lions defeated Midland to end a three-game Bulldog winning streak, 19 to 13.

Broncs Roll In Last Half To Crush Paschal

FORT WORTH—Held to a 7-point lead during the first half, the Odessa Bronchos stormed back in the second half to defeat Paschal High School of Fort Worth, 43 to 6, Friday night before 7,000 fans.

Neither team scored in the first period, but Odessa tacked up seven points in the second quarter, added 11 in the third period and 21 in the last quarter to win going away.

Paschal scored its lone marker on the opening kickoff of the second half when Swain Adams let the ball roll over the goal line. Don Griffin, Paschal center, pounced on it for the score.

Carl Schlemeyer, Odessa's sophomore quarterback, threw a 25-yard pass to end John Held in the second quarter and Held raced on from the 10 for the score. Robert Baker kicked the first of his six extra points to give Odessa the lead, which it never relinquished.

Jockey Joe Culmone rode the first winner of his career at Monmouth Park two years ago. He piloted Oestone.

McCamey Rolls Alpine, 28-0

McCAMEY—With Gary Davidson and Mack Patterson leading the attack, McCamey rolled over Alpine here Friday night in a 5-A victory, 28 to 0.

McCamey posted a three-touchdown lead in the first quarter. Patterson pushed over from 22 yards out to end a 50-yard drive, and Raymond Garrison kicked the extra point, as he did after each of the McCamey touchdowns.

The second McCamey score was set up by Davidson's pass interception on the Alpine 30. He returned to the 17 and four plays later the ball was carried over by Billy Stokes.

Then Davidson snatched an Alpine pass and ran 11 back 49 yards for the third McCamey touchdown. The fourth score came when McCamey drove 93 yards with Patterson carrying the ball over.

Alpine threatened twice, pushing to the McCamey five in the second period where Stokes intercepted a pass. McCamey then marched to the Alpine seven.

This was the first conference game for both teams and was witnessed by 3,000 fans. It was the third victory this season for the Badgers.

what sets the pattern in a well-groomed shirt design?

styles by **GAYSON**

\$3.95 \$4.25

It takes the skill, experience and superb craftsmanship of Jayson's 68 years' experience to create the last word in shirt styles that look as luxurious and colorful as these. First, all Jayson designs are woven thru the fabric... that means a rich, expensive appearance—yet Jayson shirts cost you no more. Fifth-Frame Uprising Gives Durochermen 2-1 Series Lead

(Continued From Page One)

to force across the Yankees' first run and leave the bases loaded. Durocher waved in Jones to retire Hank Bauer on a tap to the mound. That was about the most dramatic moment of an otherwise one-sided contest.

It was a rather raggedly fielded game, each team committing a pair of errors. The Yankees made their two early in the Giants' big fifth chapter, and so none of the five runs which poured across were earned—Not even the three which scored on Lockman's line shot into the stands near the right field foul line.

However, the Giants' first run in the second frame was clean and above board, and it looked almost to the last that it was going to stand up. Bobby Thomson opened the inning with a scorching double down the life field line and scored a moment later when young Willie Mays got his first hit of the series, a banjo single into right field. Previous to that, Willie had gone on for 19 in the playoff games and 16 Yankees Left Stranded.

which came in the wake of Eddie's little stunt, Woodling's ninth-inning blow might have been the decider. One was out and Raschi was looking very tough when the ball worked him for a walk on a 3-3 pitch. With Al Dark at bat, Eddie set sail for second. The ball was a pitch-out, and Berra's peg to Rizzuto at second was there in time of time. He made the tag with his gloved hand and Umpire Bill Summers gave the big out sign, but an instant later he changed it when the ball flew from Rizzuto's glove and rolled toward the outfield.

Mighty Tennessee Knocks Duke Eleven From Unbeaten List

KNOXVILLE, TENN.—(AP)—An alert Tennessee team scooped up Duke fumbles and turned them into touchdowns Saturday to smash the Blue Devils from the nation's unbeaten football outfits, 26-0.

Not even the chill of Hurry's Hugh McElhenny's 400-yard runback of a punt to tie the count at 13-all in the fourth quarter could upset the march of Troy to its second Pacific Coast Conference triumph.

Coach Jess Hill sent sub Quarterback Rudy Bukich in to break the deadlock, and he engineered a 75-yard drive to the winning points in five knifing plays, three of them his own passes to Frank Gifford and Cutri.

GROUND GAINER—Crane Fullback Malcolm Garrett chugs down the field for nice yardage against the Wink Wildcats but the Golden Cranes bowed, 42-20, in a thriller Friday night at Crane. Charging in for the tackle are Rainy Thomas (14) and Paul Jette (30). Bowlius West (75) is the would-be blocker.

Trojans Engineer 20-13 Upset Over Favored Huskies

SEATTLE—(AP)—A last-ditch, what-the-hell, let's shoot-the-works pass in the final tricks of the first half nestled in the arms of Cosimo (Scooter) Cutri, netted 57-yards and set up the touchdown that paved the way for a 20-13 Southern California football victory Saturday over the favored Huskies of Washington.

Northwestern Nips Fighting Army, 20-14

EVANSTON, ILL.—(AP)—A desperation, 33-yard touchdown pass with a minute and a half left gave Northwestern a 20 to 14 victory over Army's inspired football leftovers before 40,000 at Dycie Stadium Saturday.

Yanks Wail Loudly Over Disputed Decision At Second Base; Stanky Grins, Says Little

NEW YORK—(AP)—"We got beat by a field goal," said the Yankees' crusty Stengel.

Stanky's kick, described by crusty Manager Casey Stengel as a "field goal good for 40 yards," was the turning point of this vital third game and perhaps of the entire series. The Giants now lead, 2-1, with their ace pitchers coming up.

Longhorns Explode To Crush Tarheels

AUSTIN—(AP)—Texas found the running attack it has been searching for Saturday and combined it with a proven defense to crush North Carolina, 45-20.

Left Half Gib Dawson, a 170-pound speedster from Douglas, Ariz., finally ran the way Texas coaches knew he could, and hit pay-dirt twice. He opened the Longhorn scoring by catching Quarterback T. Jones' 10-yard pass in the end zone.

Isbell Sparkles As Baylor Rolls Over Tulane, 27 To 14

NEW ORLEANS—(AP)—Baylor Quarterback Larry Isbell scored one touchdown and passed for another in masterminding a brilliant 27-14 victory over underrated Tulane Saturday.

Isbell gave a near-perfect performance, punting Baylor out of holes, setting up most of the runs with his deceptive ball handling and passing with deadly accuracy.

Kermit Pounds Out 26-6 Decision Over El Paso High Tigers

EL PASO—The Kermit Yellow Jacket pulled a wide assortment of scoring tricks out of the hat here Friday night to down the El Paso High School Tigers, 26 to 6 in Jones stadium.

A 50-yard touchdown dash, a long pass play, an intercepted pass, a safety and a final quarter touchdown pass were combined for the victory.

Despite Kermit's assortment of scoring plays, El Paso had the distinction of scoring first on a fourth down pass play that covered approximately 35 yards and the TD Mike Aguirre passed to End William Abraham in the flat with less than three minutes gone in the first quarter for the marker.

Don Handlin returned the ensuing kick-off to the 50-yard line. Then, on the second play from scrimmage, halfback Billy Mitchell cut through right tackle and ran all the way for the touchdown.

Kermit scored twice in the second quarter, once on a pass to Jack Krellend from Bobby Almond for a 40 yard TD, and again when Krellend slapped an attempted pass into the air, caught it and scampered all the way for the score.

Halfback Bob Yost broke through to nail an El Paso runner behind the goal for a safety. Almond threw a fourth quarter pass to second string end Tom McElvey for the final tally. Kermit failed to convert any of their points after the touchdown.

Bobby Almond completed 7 of 11 passes for a fine night offensively while Kenneth Ives, 200 pound Kermit tackle, was a stand-out on defense.

Villanova Defeats Penn State, 20-14

ALLENTOWN, PA.—(AP)—Two sensational pass catches by Co-captain Joe Rilo and the bull-like rushes of Fullback Bob Haner, who scored three touchdowns and placed a pair of conversions, rallied unbeaten Villanova to a 20 to 14 victory over Penn State Saturday.

Already owners of a win over Army, the Wildcats stepped out in front with a first-quarter score by Haner, dropped behind, 7-6, on a great Penn State pass play and then took charge again in the third quarter, with Haner twice more powering across the payoff stripe.

C Squad Bows To Odessa

The Midland High School C team lost in Memorial Stadium Saturday afternoon to Bowie School of Odessa, 6-13.

It was the second meeting of the season between the two teams. Odessa also won the first, 18-7.

Bowie scored the first time it got the ball, when Stan Clark tossed a 12-yard scoring pass to Fred Crowley. Crowley's extra-point line plunge was good.

But early in the second quarter Midland's Willie Brooks swept around his right end for 11 yards and a score. The extra point try failed.

Odessa came right back and led the game. Bill Childers romped 62 yards on a pass play to score, but the extra point try was no good.

Second Half Strides
Both teams threatened in the second half but couldn't dent the defense to score. Midland drove to the Odessa nine-yard line late in the fourth period but a bad pass from center and a couple of running setbacks nullified the threat. Bowie was on Midland's 14-yard line when the game ended.

Midland made 10 first downs, Odessa eight.

The C Bulldogs include: Cooper, Yeckel, Hicks, Larry Brooks, Ivy, Lockhart, Crist, Roberts, Chambers, Doyle, Brooks, Claiborne, Palmer, McKandless, Booth, Watson, Jobe, Stringer, Morris, Whitaker, Kelly, McDaniel, William Brooks, Scharberum, Carson, Greene, Johnson, Beall, Leggett, Grissett, Baker, Williams, Jones, Long, Stager, White, Noll, Strum, Harris, Cole, Bough and Evans.

Bowie boys were DeHart, Crowley, Clark, Childers, Parker, Hitt, Ethredge, Scott, Windsor, Jennings, King, Hinds, Randolph, Fulkerson, Monk, Britt and McClendon.

A GOOD TRY—Barna Richards, Wink, scoops in a pass intended for Crane's Harold Hunter (69) during a tense moment at the game played Friday night in Crane.

Bunts Send Yanks To 3-1 Second Tilt Win

NEW YORK—(AP)—Mickey Mantle's surprise drag bunt opening Friday's game was an important factor in the Yank win 3-1 over Larry Jansen in the world series.

When Phil Rizzuto followed with another bunt single that Whitey Lockman threw wild to first, Mantle scooted to third. He scored early on Gil McDougald's blooper to short right in front of Thompson. Joe DiMaggio, still looking for his first hit, bounced into a double play and Yogi Berra struck out to let Jansen wiggle out with only one run.

Joe Collins' 310-foot homer into the lower right field seats with two in the second was the last run off Jansen.

George Spencer, his relief blew down the next three Yanks before Bobby Brown singled to open the eighth. With Billy Martin running for the slow-footed doctor, Lopat helped nail down his own game with a scoring single to center.

Working easily with his tantalizing slow stuff, screw ball and an occasional Lopat-style fast ball, the chunky lefthander allowed only one hit in five innings.

In the seventh, Lopat had his own stormy time. Singles by Irvin and Lockman started things. Willie Mays, trying to move the runners with a bunt, forced Lockman at second. When Wes Westrum walked on a 3-2 pitch to load the bases, Lopat was in a jam.

Billy Rigney, batting for Hank Thompson, lofted a long high fly to Hank Bauer that gave Irvin plenty of time to score.

EAGLES WIN PRO TILT
PHILADELPHIA—(AP)—Two sensational touchdown pass catches by Speedy Clyde (Smackover) Scott helped the Philadelphia Eagles upset the favored San Francisco Forty-Niners Saturday, 21-14, before 22,432 National Football League fans at Shibe Park.

Most species of sturgeon enter fresh water only to spawn.

LSU Tigers Nudge Rice Owls, 7-6

BATONROUGE, LA.—(AP)—Quarterback Jim Barton turned Fancy Dan halfback Saturday night to push Louisiana State University to a 7-6 victory over Rice Institute in a drum-tight defensive football game here.

Some 44,000 fans groaned and screamed through 60 minutes of the tightest defensive play seen here in many a moon.

What with fumbles from bone-rattling tackles and pass interceptions, it appeared a cinch to be a scoreless tie.

Then, Barton, who used to be a halfback but switched to T quarterback last year, took his old job back. He reeled off 30 yards. Next he caught a pass from Quarterback Norman Stevens and the ball was on Rice's three.

Halfback Chet Freeman crunched across, and LSU's Cliff Stringfield kicked what proved to be the winning point.

That was two minutes before the end of the third quarter.

In the final period, Rice took over on the LSU 15-yard line when End Sonny McCarry recovered LSU Fullback Billy West's fumble.

Quarterback Leroy Fentemarker tossed to Back Billy Daniels in the end zone.

Bill Wright's extra point try failed.

Fumbles were as numerous as ants at a picnic.

In the second period alone, the ball changed hands eight times on fumbles.

Frogs Turn Back Razorbacks, 17-7

LITTLE ROCK, ARK.—(AP)—Texas Christian University's fighting Horned Frogs staved off a series of Arkansas threats and then roared to a 17-7 victory in the opening game of the Southwest Conference football race before 29,500 fans Saturday night.

A 14-yard field goal by Keith Flowers with about seven minutes left to play broke a 7-7 deadlock and actually was all the underdog Frogs needed.

But they kept going strong and with Tailback Gilbert Bartosh putting on a brilliant one-man offensive show, rolled over the heavier but tiring Razorbacks for a touchdown that insured the victory.

TCU didn't pass up an opportunity. A pass interception gave the Frogs the ball on the Arkansas 12 yard line in the first quarter and three plays later Malvin Fowler circled right end untouched to score from five yards out.

Flowers kicked the point.

For the rest of the opening period, the Frogs gobbled up fumbles and intercepted another pass to keep the Razorbacks bottled up in their own territory.

But Arkansas began to move in the second quarter. A 52-yard drive, interrupted only by a quick exchange of fumbles at the TCU eleven, produced a touchdown.

Paul Cameron Paces Bruins To 44-17 Win

LOS ANGELES—(AP)—Sophomore Halfback Paul Cameron, as hot as the 120-degree weather on the floor of the coliseum, passed and ran the UCLA Bruins to a 44-17 win over Santa Clara Saturday.

The 19-year-old, 180-pound back passed for four touchdowns and ran for two others. Red Sanders Bruins racked up seven touchdowns in all.

Frankie Branch, state's 126-pound signal caller, sparked the first quarter five-play touchdown drive that proved to be the Georgians' downfall.

And it was defensive Fullback Joe Fortunato who batted the ball away from Zeke Bratowski's bulldog receivers as the Danville, Ill., quarterback pegged 39 passes to set a new conference record for an individual. He completed only 14.

West Elementary Downs South, 24-0

The West Elementary gridders dented the South Elementary crew, 24-0, Saturday in a game played on the West field.

John Cisneros made two 30-yard runs and a seven-yard dash for three touchdowns.

Erwin Pope went over from the two for the other marker.

Inspired Brown Crew Upsets Yale, 14-13

NEW HAVEN, CONN.—(AP)—Brown's inspired football forces halted Yale inches from the goal line in the last seconds of a thrilling battle and scored a 14-13 upset Saturday.

Yale raced back to climax a 65-yard drive in 4:20 of the final period, with Ed Woodsum tallying after falling on a loose ball in the end zone.

Travancore state is cut off from the rest of India by mountainous jungles.

K-Staters Hold Nebraska To Standoff

MANHATTEN, Kan.—(AP)—Kansas State's green Wildcats, Big Seven conference doormats for years, outplayed the highly regarded Nebraska Cornhuskers for fifty-four minutes but had to settle for a 6-6 tie in a conference football game Saturday.

Kansas State made four genuine scoring threats before getting a TD in the third quarter.

A Reminder

Are you sufficiently protected with insurance on your home and furniture. Valuations have increased so rapidly — perhaps since your present policy was written. The extra cost is so small compared with a loss you may have by fire. Re-check your policies today and if not fully protected, call us immediately.

New Building Regulations Now In Effect!

- Did you start construction on your home before October 1?
- Do you want a larger-than-average home — one with at least three bedrooms and two baths?
- Do you feel that you have waited too long to build — and still be able to apply the proper amount of steel?
- Do you want copper plumbing in your new home?
- Do you want all the things that you feel you could have had if you had started your home before October 1?

IT IS NOT TOO LATE!

FINANCING

We are happy to announce that we now have facilities to handle the financing of your new home on a conventional basis at an interest rate of 3% over a period of SEVENTEEN AND A HALF YEARS meaning lower monthly payments for the prospective home owner.

After a very careful study and analysis of the new M-4A Government regulation, we have found that we can still fulfill your home-building requirements.

However, we can continue to build this type of home only as long as those critical materials are available. Due to the stepped-up building program, we feel that there may be a more serious shortage of copper and steel in the future.

REAL ESTATE WANTED

IS YOUR PROPERTY FOR SALE?

In the past month, we have sold better than \$300,000 worth of property, and now we are practically out of small home listings. We have cash buyers coming to our office each day, and we have to turn them away because we do not have a variety of small homes. Regardless of where your home is located, we would like to have the sale of it. If your home or property is for sale, list it with us for immediate action!

ARTISTS' SELECTION—Mrs. N. A. Lancaster, right, member of the Palette Club Art Center, and Inez Parker, art consultant for the Midland schools, select the pictures to be reproduced on the historical plate. Mrs. Bryan Denson also assisted the committee. The picture was taken in Mrs. Lancaster's home at 1705 West Indiana Street.

STEERING COMMITTEE—Mrs. Brandon E. Rea, chairman of the project committee which planned the historical plate, displays a similar plate from Marshall, Texas, which her committee used as a model. Looking on, left to right, are Mrs. Leonard Thomas, Cordelia Taylor, standing, and Mrs. Earl Johnson. Fannie Bess Taylor is also a member of the committee.

LOOKING TOWARD THE FUTURE—Mrs. Harry Rhodes, standing, president of the Midland Woman's Club, Inc., and Mrs. C. A. Goldsmith, past president of the organization, look over plans for the proposed Woman's Club building. Proceeds from the sale of the historical plate will go into the club's building fund. The picture was taken in Mrs. Rhodes' home at 800 North Pecos Street.

Historical Plate

Midlanders soon will be able to absorb their city's colorful past along with their daily bread.

The reason is an historical plate tracing Midland's development from cowtown to thriving city. As shown above, the plate features oil wells, skylines and time-worn landmarks encircled by a ring of popular local cattle brands.

The plate, a project of the Midland Woman's Club, Inc., will be available by the middle of November, although orders for the plate are now being taken.

Proceeds from the project will be used for the Woman's Club building which the organization hopes to build in the near future.

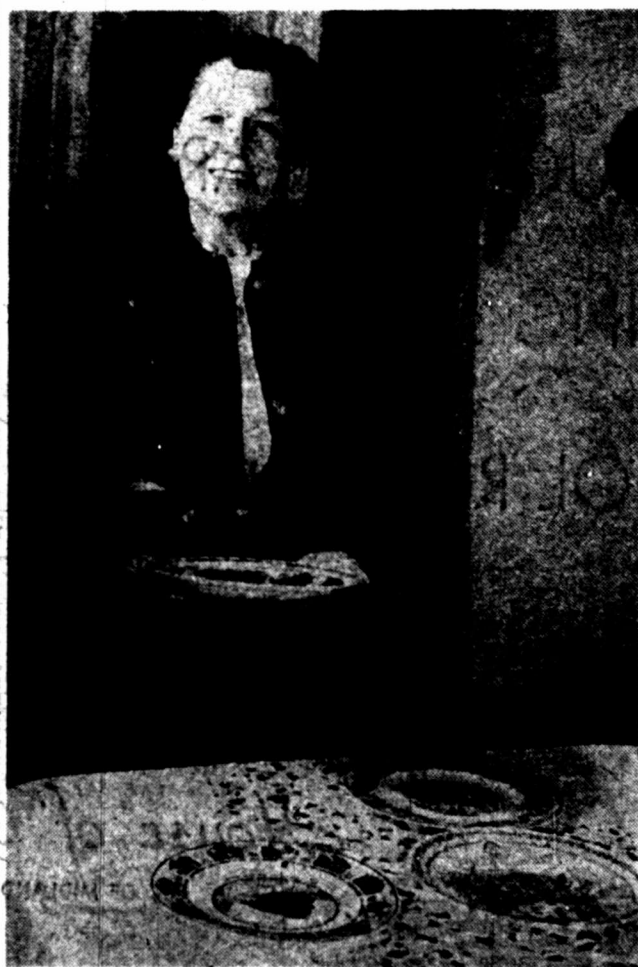

President of the club is Mrs. Harry Rhodes. Other officers are Mrs. G. H. Hidgon, first vice president; Mrs. L. G. Byerley, second vice president; Mrs. Bryan Denson, corresponding secretary; Mrs. Bert Cole, recording secretary; Neta Stovall, treasurer; Mrs. Joe Birdwell, reporter; Mrs. Guy Vanderpool, historian; Mrs. Harry A. Miller, parliamentarian, and Fannie Bess Taylor, auditor.

Affiliated clubs are the Fine Arts Club, the Modern Study Club, the Progressive Study Club, the Twentieth Century Study Club, the Woman's Wednesday Club, the Yucca Garden Club, the Pyracantha Garden Club, the Tejas Garden Club, the Midland Garden Club, the Business and Professional Women's Club and the American Association of University Women.

The Midland Woman's Club, Inc., was organized in 1930 "to bring the varied women's clubs and individual women of Midland County into a closer and more effective unit for the furtherance of their common interests in local, state and national affairs and to afford opportunity for further development of inherent abilities." It is non-partisan, non-sectarian and non-profit.

The building committee is composed of representatives from each of the affiliated clubs. Mrs. C. S. Britt is chairman. Other members are Mrs. Wilson Bryant, Mrs. C. H. Shepard, Mrs. W. E. Cox, Mrs. C. W. Chancellor, Mrs. M. C. Ulmer, Mrs. I. E. Daniel, Mrs. James O. Simmons, Jr., Mrs. Nelson Puett, Mrs. Coe Mills, Mrs. John B. Mills, Mrs. J. C. Atkinson, Mrs. James L. Daugherty and Mrs. Lloyd C. Mills.

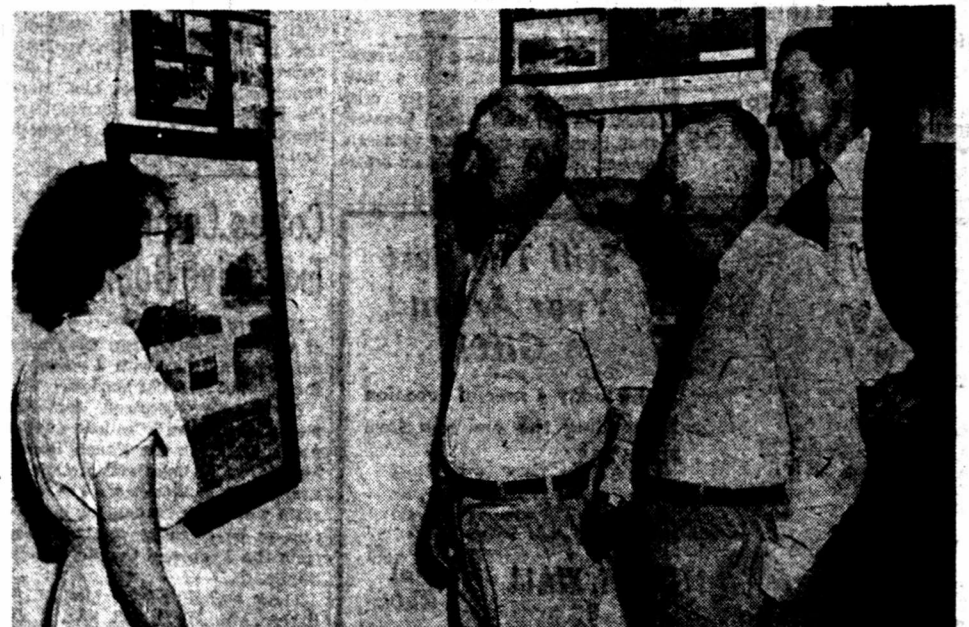

Orders will be taken beginning Monday at the Midland Hardware and Furniture Company, The Book Stall, Vosatko's, the Midland Drug and the Midland Floral Company.

STATE PRESIDENT — Mrs. J. Howard Hodge, Woman's Club member and president of the Texas Federation of Women's Clubs, adds the Midland historical plate to her collection, which already includes a plate depicting the Woman's Club building in Austin. The Midland organization hopes to have a club building of its own in the near future.

BUILDING COMMITTEE—Members of the Woman's Club, Inc., building committee shown above are, seated, left to right, Mrs. John Mills, Mrs. J. C. Atkinson, Mrs. C. S. Britt, Mrs. J. L. Daugherty, Mrs. E. V. Mitchell and Mrs. C. H. Shepard. Standing, left to right, are Mrs. Lloyd C. Mills and Mrs. J. V. Birdwell.

OLD-TIMERS—Mrs. Mike Conner, museum director, points out early-day Midland to, left to right, Lum Daugherty, Addison Wadley and R. A. Estes, old-timers who furnished several pioneer scenes for the plate.

Helena Rubinstein offers Stay-Long lipstick sampler with make-up analysis free!

Helena Rubinstein's beauty consultant will be here this week only. Gives you free make-up analysis, skin-care chart and new Stay-Long lipstick sampler!

HERE is your opportunity to get the personal advice and help of a specially trained beauty expert! Helena Rubinstein's Beauty Consultant will be here all this week to help solve your beauty problems. She will analyze your skin, chart your proper make-up shades, give you an individual beauty guide... all without charge.

She will show you how to make up like the glamorous stage and screen stars. She will teach you how to tilt your eyes, how to paint a luscious smiling mouth, how to rouge. All three techniques emphasize the thrilling young "winged"

look that's caused such a sensation in fashionable Harper's Bazaar! Learn how Helena Rubinstein's "Make-up-on-the-Wing" gives a youthful "lift" to your whole face! Discover the secret of flawless all-day make-up!

FREE LIPSTICK. After your beauty analysis, you will receive one of Helena Rubinstein's sensational new Stay-Long samplers in a bright new shade for fall... one that's right for your coloring. Helena Rubinstein's new creamy, smear-proof formula lasts all day, won't come off on cups or napkins, cigarettes or people! And Stay-Long lipstick actually protects your lips against dryness.

Helena Rubinstein's Beauty Consultant will be here this week only, so make your appointment now.

Library Adds New Volumes

Fourteen fiction and 11 non-fiction books recently were added to the shelves of the Midland County Library, according to an announcement by Lucille Carroll, librarian.

The fiction list included: *The Plunderers* (Blond); *A Brave of Morning* (Morgan); *Storm Center* (Standish); *When the Tree Flowered* (Fitzgerald); *The Captive* (Van Dine); *Mission of Justice* (Tinsley); *Don't Touch Me* (Kassner); *A Rough Street* (Barnes); *The Big Play* (Fryer); *By Rope and Lead* (Hayden); *Henry's Daughter* (De la Roche); *Woman in Love* (Covey); *The Black-eyed Stranger* (Armstrong); and *Pressure* (Coe).

Non-fiction books recently acquired are: *Photography* (Benton); *Men of Other Planets* (Horton); *The School in American Culture* (Mead); *India Since Partition* (Mitter); *So Sure of Life* (Wood); *Immigrant's Return* (Polignac); *Fifty Billion Dollars* (My 12 Years with the RPO (Jones); *Monks and the Marquis* and *Men of Heron's Hoop* (Baudouin); *House Beautiful's Home Maintenance and Building Manual* and Blackston's new Gould Medical Dictionary.

PALETTE CLUB PLANS TUESDAY MEETING
The Palette Club, 604 North Colorado Street, will be open at 7:30 p.m. Tuesday for members who desire to paint. John Koenig will supervise. All persons interested are urged to attend.

Next time you make a cheese rarebit try seasoning it with a little curry powder. Serve over crisp toast and top with broiled tomatoes that have been sprinkled with salt, pepper, and a little sugar before broiling.

Music Association Plans Annual Membership Drive

Captains of the working force for the annual membership drive of the Midland Civic Music Association met Thursday in the Presbyterian Church parlor. The purpose of the meeting was for the captains to turn in final lists of their team members and to receive instructions.

Mrs. Joseph I. O'Neill and Mrs. John Healy, co-chairmen of the campaign, presided.

All workers will be guests of the association at 7 p.m. Monday for the annual kick-off dinner to be held in Hotel Scharbauer. Don Hopkins, field representative of Civic Concert Service, asked the captains to turn in dinner reservations for team members by Saturday morning.

Division chairmen this year are Mrs. Herschel Bell, Mrs. Toby Hillard, Mrs. T. June Melton, Mrs. Eric Bucher, Mrs. Don O'Shaughnessy, Mrs. Luke Thompson and Mrs. Edwin Magruder.

Captains are Mrs. Jake Roden, Mrs. John Younger, Mrs. Charles Lipehan, Mrs. Harry Russell, Mrs. Holt Malone, Mrs. Bobby Van Meter, Mrs. John Dorn, Mrs. Margie Riggs, Betty Perry, Bill Sheehan, Mrs. Ruth McKinley, Mary Souler, Billie Houston, Ruth Terrell, Mrs. Charles Hill, Mrs. Tom Fiegener, Ted Kruger, Mrs. Mamie Kromlein, Lotta Williams, Mrs. Dick Hugston, Mrs. O. J. Colwick, Mrs. Don Woodward, Chuck Herringer, Mrs. Harrie Mast, Mrs. William Stewart, Mrs. Ed Stephens, Mrs. L. H. Anderson, Charles Henderson, John Beatty, Mrs. Luke Thompson, Ann Tolbert, Mrs. Marsha Christensen, Mrs. Joanna Carrigan, Diana Neisel and Elizabeth Ann Cowden.

FROM SCOUT TO LEADER—Jean McMillian, right, was the first Midland Girl Scout to become a Scout leader. A member of one of the first troops in Midland, Miss McMillian now is leader of Troop 20. Others pictured, are Mrs. John Dorn, left, and Mrs. Robert Peyton.

David Crockett Room Mothers List Annual Carnival Projects

Mrs. Carl Schwabbe, *Halloween Carnival* chairman, led a discussion of carnival plans Wednesday night when the David Crockett School room mothers met in the school auditorium.

Room projects chosen and the mothers in charge are as follows: Turtle race, Mrs. Roger's room, Mrs. Frank L. Kay and Mrs. R. K. Richards in charge; ball throwing, Mrs. Burton's room, Mrs. E. E. Young and Mrs. L. R. Davis in charge; wishing well, Mrs. Lovelace's room, Mrs. R. D. Morgan; fish pond, Mrs. Williamson's room, Mrs. James C. Potter; penny ride, Mrs. Kingon's room, Mrs. Leonard Storey and Mrs. C. L. Schwabbe.

Hot dogs, Mrs. Rhodes' room, Mrs. Jerry Covington; grab bag, Mrs. Nelson's room, Mrs. A. W. Suban; pie, cake and coffee, Mrs. Hill's room, Mrs. D. L. McDonald and Mrs. H. C. Morrison; doll show, Mrs. Funderburk's room, Mrs. Clarence Robison; country store, Mrs. Kerr's room, Mrs. R. F. Correll and Mrs. Woody Campbell; cake walk, Mrs. Mitchell's room, Mrs. A. F. Blount and Mrs. Charles Pool; bingo, Mrs. Lindstedt's room, Mrs. R. M. McCleary.

Shooting gallery, Miss Grundy's room, Mrs. Flora George and Mrs. M. L. Savage; candy booth, Mrs. Beasley's room, Mrs. L. P. St. Onge; sweet house, Mrs. Kay's room, Mrs. Scott Gray and Mrs. Joe Smith; fortune telling, Mrs. Lynn's room, Mrs. O. L. Bryant and Mrs. Audrey McMini; bingo, Mrs. Stimmitt's room, Mrs. Chuck Houston; spaghetti, Mrs. Webb's room, Mrs. Floyd Countess; cold drinks, Mrs. Ham's room, Mrs. W. H. Moore, and movies, Mrs. Kallhauser's room, Mrs. W. D. Whitledge.

Mrs. Gerald Market, vice president, presided at the meeting and discussed the duties of the homeroom mothers. Mrs. Jack Leake, hospitality chairman, and Mrs. Delbert King served the refreshments.

The pearls in American systems have little or no commercial value.

Coffee Compliments Executive Board

Members of the executive board of the Welcome Wagon Club were honored Thursday with a coffee in the home of Mrs. Pat Marlow.

Plans were discussed for the monthly luncheon to be held at 1:30 p.m. Tuesday in the Ranch House. Mrs. M. L. Feldman and Mrs. John Evans will be hostesses. The program will feature a dancing exhibition to be given by an instructor from the Town and Country Dance Studio.

Those attending were Mrs. M. F. Barber, Mrs. W. D. Gill, Mrs. H. O. Stewart, Mrs. Morris Howard, Mrs. J. M. Orman, Mrs. Feldman, Mrs. Evans and Mrs. Pat Marlow.

Eastern Star Has Initiation

McCAMEY—New members were initiated at the Thursday meeting of the Order of the Eastern Star.

New members are Mr. and Mrs. A. W. Fisher and Mr. and Mrs. Dan Gibson of McCamey and O. I. Courtney of Big Lake.

Refreshments were served by the hostesses, Peggy Smith, Bess Moorman and Edna Earl to 38 members and six guests.

Mrs. Miller Is Shower Honoree

Mrs. Don Miller was honored with a pink and blue shower Thursday in the home of Mrs. L. A. Snodgrass. Co-hostesses were Mrs. Roy White, Mrs. B. C. Bryson and Mrs. Grady Burkhalter.

The table was centered with a large stork sitting in a large imitation pink and blue flower. Pink and blue ribbons were hanging from the chandelier to the corners of the table. Pink and blue tapers completed the decorations.

Others attending were Mrs. Ted Heath, Mrs. R. L. Pressley, Mrs. Bill Greene, Mrs. W. J. Blanscett, Mrs. C. H. Moss, Mrs. Zole King, Mrs. Ruby Burkhalter, Mrs. Loy Blanscett, Mrs. Ray White, Mrs. Ethyl King, Mrs. Bill Blanscett, Violet Davis and Patsy Blanscett.

Prehistoric Indians left a pile of oyster shells in Maine estimated to contain 8,000,000 bushels of shells.

Art Cole Directs Theater For Sixth Year

By Jane Harless
In February, 1946, when Art Cole came to Midland to organize the Community Theater, he said he would gamble a year. In that year, the Civic Theater was put on a community basis and became the Community Theater.
Midland has the only Community Theater in Texas in a city its size with a full-time paid director. Other theaters are in Houston, Dallas and Fort Worth.
Cole just had finished four years in the Army when he came to Midland. He openly admits that his training in the theater was not gained through a college education but by growing up around the Rogers Producing Company as a child in Puffria, Ohio.
Career Starts At Nine
At nine he started appearing in several shows a year with the Rogers Company and later went to

work for them. Their headquarters were in Postoria where Cole grew up.
It was with this company that the Ohioan learned his directing. He worked in indoor plays and outdoor pageantry, both as a director and actor. As a child he sang, but now he sticks to directing.
The gamble that Cole took proved to be a good one, for he has been here six years and has just finished producing his thirty-sixth play, not including the minstrel and other community acts he has performed for Midland.
Art has made the Community Theater a thing to look forward to every year. In fact, he has made it such a going concern that the project has outgrown the building in which it is housed.
"We are having to take scenery to pieces every day," he said. "It isn't as much the money that is

stored up in the properties as it is the persons' time. You cannot measure the time and energy that people have spent making this scenery in dollars and cents."
"Some of the scenery that could have been used again had to be

Art Cole

office, and Cole's work is never done.
One play is barely over before another is being cast. Cole is directing the Kiwanis Club Minstrel this year, as in the past years. He does this in the capacity of a director and because the proceeds go to underprivileged children.
"Since Cole came to Midland, Theater Arts Magazine has published pictures of several of the Theater plays.
"Though pictures can't tell the story of how good or how bad the plays are, it is a great tribute to Midland to have them mentioned," he said.
There are only 100 members in the National Theater Conference and Art Cole is one of them. It is a Rockefeller Foundation sponsored work. In order to become a member of the conference, six years organization and strict requirements must be met. Through the work of Cole, Midland became a member in the middle of its fifth season.
The theater is checked into thoroughly to be sure it will pass the standards set up by the foundation, one of which is a minimum of six productions a season.
Cole's greatest ambition is to make the theater a year-round producing organization.
"But with the West Texas Summers and no air-conditioning, well, no play is worth asking the people to sit through the heat and pay for it too," Cole said.
"I would like to keep the Children's Theater operating in the Summer. Also, I would like to get the college students interested in the work during their Summer vacations."
Works In East
Until last year the director went East each Summer to work in Summer Stock productions as company stage manager and playing bit parts.
From his Summer work, Art would like to organize a four-week Summer stock schedule here for the youngsters.
Cole is a member of the Southwest Theater Conference and has participated in several annual meetings. During the Thanksgiving holidays he plans to attend the annual meeting of the National Theater Conference in New York City.
Cole isn't the type to want to take the credit for his work. During the interview he constantly was giving tribute to the Midland Service League Committee, without whom the Children's Theater would not be possible, to the persons who work backstage and on the sets, and to those who are willing to give their time and energy to the theater without personal credit.
The untiring director is a family man at work and at home. He has two small children. He keeps children's books in his office at the Community Theater to entertain them while he is working. With one eye on the children, he is never too busy to see anyone. He is constantly on the go.
Cole is the backbone of the Theater and no story could be written about him without the Community Theater highlighting it.

stored outside and, well, you know what the weather would do to it," frowned the director.
Lives the Theater
The five foot six inch Ohioan lives, eats and dreams his work. There is never a dull moment around the Community Theater

Mrs. Ted B. Lacaff, Jr.

Mary Conley Jones Weds Ted Lacaff

Mary Conley Jones, daughter of Mrs. E. Murray Jones of Lubbock, became the bride of Ted B. Lacaff, Jr., son of Mrs. Harold W. Fisher of Dallas and Ted B. Lacaff, Sr., of Kansas City, Mo., Saturday in St. Elizabeth's Church in Lubbock.
The Rev. William F. Blakesley read the double-ring ceremony. Mrs. Jack Henry played a program of wedding music and accompanied Mrs. Jack Boren who sang.
The ceremony took place before an altar surrounded by white chrysanthemums. Gardenias decorated the prier dieu.
Mrs. Kenneth D. Tanner of Houston, sister of the bride, was the matron of honor. Bridesmaids were Jo Winders and Mrs. Allen Wemple, both of Midland.
The bridegroom was attended by Richard C. Overlay of Midland. Groomsmen were Don Steward of Wichita Falls and Harry Libby of Lubbock. Ushers were Phillip Johnson and Paul Karcher, both of Midland.
Accents Simplicity
The bride, given in marriage by her brother, S. Sgt. Murray Jones, wore a gown of old ivory lace accenting simplicity. The fitted bodice was topped by a dropped shoulder yoke of imported French lace, sprinkled with hand-sewn iridescent sequins and seed pearls.
The waistline was marked with a fine rolled cord and the free lance skirt was festooned in back with an ivory satin bustle bow. Long fitted sleeves, trimmed at the wrists with tiny covered buttons, came to a point over the bride's hands. Her French illusion veil fell from a coronet of old lace trimmed with seed pearls and sequins carrying

Mayer To Discuss Problems Of City

Mayor Perry Fiebert will address the Christian Men's Fellowship group at the First Christian Church at 8:45 p.m. Monday in the church recreation hall.

"Some Problems of Our City," will be his topic.

Every man of the church is urged to attend and bring a guest. A dinner, prepared by the women of the church, will be served.

Henry Conkling was recently elected to serve as president of the group for the new year. He served as vice president during 1961. Other officers elected were Clyde McHam,

vice president, and Zack McElroy, secretary-treasurer.

Conkling has appointed Vern Chapman as general to organize teams primarily concerned with promoting attendance.

RETURN FROM ABILENE

Mr. and Mrs. J. M. Hughes have returned from Abilene where Mrs. Hughes has been taking treatments. They will return to Abilene Thursday.

Music Club To Have First Program Meet

The Midland Music Club will have its first program meeting of the season at 8 p.m. Tuesday in the North Elementary School Auditorium. The public is invited to attend.

M. O. Oitson is the program leader. Mrs. J. C. Noland, soprano, will sing "Quines Alfin il Memento," Mozart, and Mrs. A. G. Bruton, cellist, will play "Romance Sans Paroles," Toulhurst, and "Sou-see Opus 24," Squire.

"Omesa Mal Fa," Handel, will be sung by Charles Dixon, baritone, and Mrs. W. E. Thurston, soprano, will sing "Carmena," Wilson.

A duet, "Indian Love Call," will be played by Mrs. J. S. Ross and Mrs. Henry Shaw, Jr.

Mrs. L. S. Melsner, contralto, will sing "Secrecy," Wolfe, and "O That I Were So," Bridge. A violin solo, "Sonata in E Major," will be played by Mrs. S. L. Hake.

Lillian Christopher, will sing "Spirit Flower," Tipton, and "Life," Curran. Emily Hamilton will do a dance from the "Nutcracker's Suite," Tchaikowsky.

Mercantile Fires Threaten Jobs, Fire Chief Warns

Calling for a fire safety program in stores and factories this Fire Prevention Week, Chief Jim Walker asked all store owners and employees to assist in a town wide effort to cut down mercantile fires.

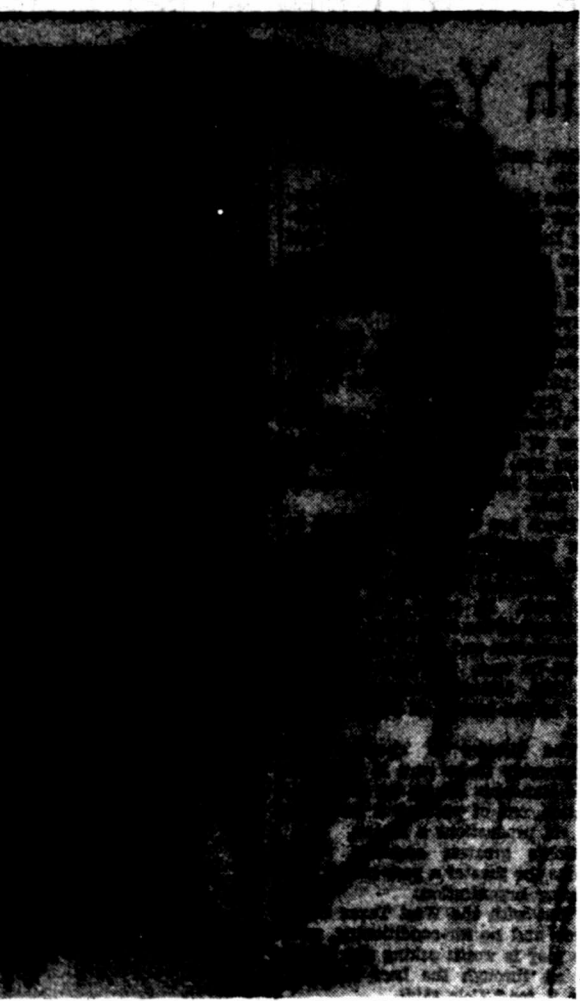

Employees have proportionately as large an investment in the fire safety of the store or factory in which they work as the owner, the fire chief reminded town workers.

In case of a serious fire forcing the plant or shop to close, employees would be put out of work until repairs are made.

The worst problem in store fire safety is smoking, Walker said. Here, he warned, employees' tact and diplomacy are needed to suggest to a customer that he ought not to smoke in the store. Employees should themselves set a good example by smoking only in those areas set aside as safe for smoking.

One person or more, depending upon the size of the shop, should be designated to check at closing time for lighted cigarettes. Many fires break out an hour or two after closing when lighted cigarettes may have burned into combustibles.

Fire is the leading cause of all disasters and catastrophes in the United States. The American National Red Cross reports that fire is responsible for more disaster relief calls than all other causes combined.

BRIDE-TO-BE—Mr. and Mrs. E. R. Ervin, 811 North Carrizo Street, announce the engagement and approaching marriage of their daughter, Gwendolyn Sue, to Horton Lee Adams, son of Mr. and Mrs. M. W. Adams, 1401 South Fort Worth Street. The wedding will take place Wednesday in the North Side Church of Christ.

Lucky 13 Club Plays Forty-Two

Study Club Adds Four New Members

MCCAMEY—Mrs. B. E. McDonnell, Mrs. Buri Williams, Mrs. Curtis Thomas and Mrs. W. W. Freif were elected to membership in the McCamey Women's Study Club Tuesday at a meeting in the home of Mrs. W. J. Campbell, Sr., president.

The year's program was discussed by Mrs. Charles Adkisson and a parliamentary drill was given by Mrs. John Kellerman. Mrs. Dee Locklin gave the critic's instruction. Mrs. L. E. Windham and Mrs. W. L. Van Atta were hostesses.

Delicious filling for nut bread to accompany a Summer salad; grind equal parts of prunes, raisins and walnuts together and moisten with mayonnaise of creamy salad dressing.

CT Gives Final Performance Of 'The Heiress'

The final performance of "The Heiress," by Ruth and Augustus Goetz, was given Saturday night in the City-County Auditorium. The play was produced by the Midland Community Theater, Inc., under the direction of Art Cole.

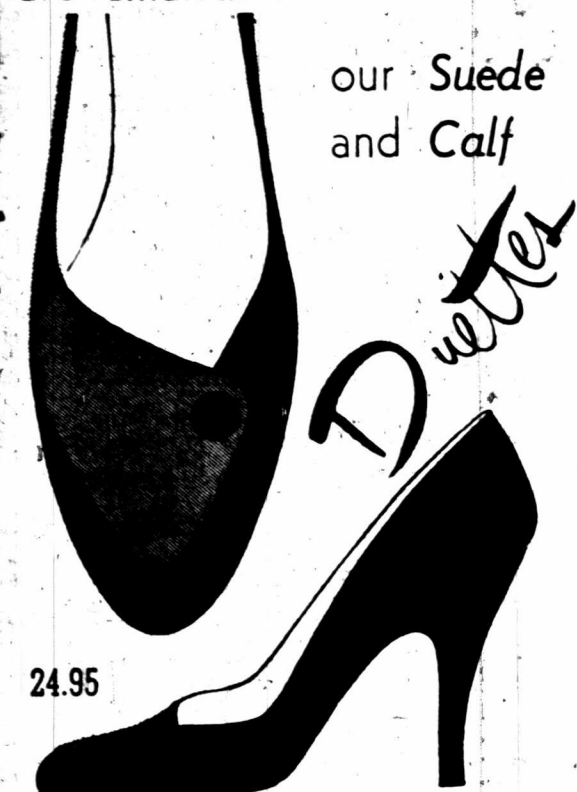

W. W. Cumberland, Jr., was the stage manager. The play was the thirty-sixth production of the Midland Community Theater.

The cast included Sarah Ward Connolly, as Maria; Charles Hughes, Dr. Austin Sloper; Elma Graves, Lavinia Penniman; Nancy Bucher, Catherine Sloper; Joan Thatcher, Elizabeth Almond; W. W. Cumberland, Jr., Arthur Townsend; Nancy Neeley, Marion Almond; George W. Farrell, Morris Townsend; and Dorothy Perkins, Mrs. Montgomery.

The action of the two-act play took place in the home of Dr. Sloper in Washington Square in 1850.

The next play has not been selected but will be produced in December. "Circus Day" has been selected as the next play for Children's Theater. It will be produced in November.

BRIDE-ELECT — Mr. and Mrs. Cecil Hubbard of Osona announce the engagement and approaching marriage of their daughter, Frances Marilyn, to Frank Charles Ashby, Jr., son of Mr. and Mrs. Frank C. Ashby, Sr., of Midland. The wedding will take place October 20 in the First Baptist Church of Osona. Miss Hubbard is a graduate of Osona High School and is attending the University of Texas. Ashby is a graduate of Schreiner Institute and is attending the University of Texas.

JACOBY ON CANASTA

By OSWALD JACOBY
Written for NEA Service

"Since the new rules came out," writes a Pittsburgh fan, "I've run into quite a little controversy on touching the stock pile or the discard pile."
"It's my understanding that a touched card is a played card, yet one of the printed rules says that you may examine the discard pile before you make your first play. Does this mean that you can actually look at the cards in the discard pile during the first round of play after the deal? I can't see that there would be any great advantage in that since there couldn't be more than three or four cards in the pile."

"Also, what about the stock pile? If you are holding back a good many cards instead of melding them, it is quite necessary to know when the stock pile is getting low. But here again, if you touch the stock pile don't you have to draw a card from it?"
In general, a touched card is a played card, but there are exceptions to this rule. If your intention is clearly something other than a play, the rule doesn't apply. For example, you may merely wish to straighten out the stock pile or the discard pile. The situation usually makes your intention very clear, but it is always all right to mention your purpose.

The rule about looking at the discard pile during the first round of play was written into the book to legalize what most players did anyway. At the beginning of a hand, somebody is usually shuffling, somebody else may be writing down a score, and so on. The others can go ahead with their first plays while you do your chores, provided that you can catch up on what happened by examining the cards in the discard pile.

If you were not allowed to do that, you would insist that everybody hold up the new hand until you had finished writing down the score, or shuffling the pack, or whatever. That would be a nuisance to everybody else, of course.
Now for the stock pile. You have a right to count the stock pile whenever it is your turn to play or whenever your partner asks for permission to meld out. You don't bother to count the stock pile if it obviously contains a goodly number of cards. But it is often very sensible to do so when the pile dwindles down to a small number of cards. For example, you may want to make sure that you'll get another chance to play; or you may wonder how many more discards you will be called upon to make.

When you're poaching fish and want to put some mixed pickling spices in the cooking water, tie the spices in a small cheese cloth bag and they'll be easy to remove when the fish is done.

OCTOBER BRIDE—Mr. and Mrs. J. N. Courtney of Houston announce the engagement and approaching marriage of their daughter, Norma Loyce, to Robert Dale Bissell, son of Col. and Mrs. C. E. Bissell of Midland. The wedding will take place Friday in the Garden Oaks Baptist Church in Houston. Miss Courtney attended the University of Texas. Bissell received his BA degree from Texas Tech and his MA degree from Middlebury College in Vermont.

Once the grids of your waffle iron are seasoned, don't wash them; brush them clean while still hot, then leave the waffle iron open so the grids can cool. If there's grease or batter around the hinges be sure to wipe off.

Since a soiled mop is a poor aid in keeping your floors spotless, try sudsing this important household equipment at frequent intervals. Push the mop up and down in thick soap suds until it relinquishes its soil, then wring dry.

Stone Markers Replace Crosses

HONOLULU—(P)—The long rows of wooden crosses marking the grave of 13,000 World War II and Korean war dead are being removed from Punchbowl Cemetery. Flat stone markers are replacing the white crosses.
Army authorities said the change is being made because the wooden crosses deteriorated too rapidly in Hawaii's climate.

Machine Tests Ties For Railroad

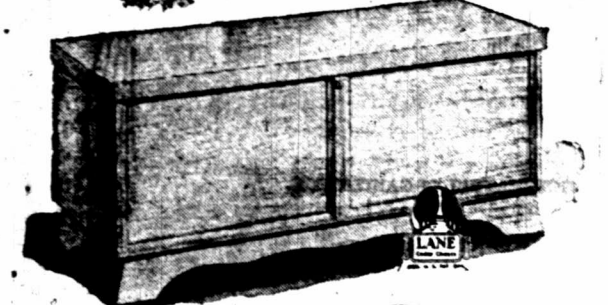

WASHINGTON—(P)—A machine that puts a railroad tie through its paces in the comparatively short time of 800 hours has been developed by the Timber Engineering Company here.
The machine puts the tie through the same mechanical wear that normally takes 20 years of service to produce. Most railroad ties are removed from service because of mechanical damage rather than decay. In 1950 36 million ties were taken out of service at a replacement cost of \$180,000,000.

CO-CHAIRMEN—Mrs. Joseph I. O'Neill, left, and Mrs. John H. Healey serve as co-chairmen for the annual membership drive of the Midland Civic Music Association. The picture was taken in Mrs. O'Neill's home at 1609 West Kansas Street.

No community can achieve industrial pre-eminence unless, in addition to its natural advantages, it has the assets that contribute to diversified cultural opportunity. The broad variety of these cultural advantages, developed and enjoyed by the people who live in Midland and West Texas, have played an important role in making this the great oil, agricultural and industrial empire of the Southwest.

The biggest entertainment value in Midland is your Civic Music Membership. During the past three seasons it has been your privilege to see and hear such outstanding attractions as the Dallas Symphony, Vienna Choir Boys, The Four Piano Ensemble, The National Male Quartette, the San Antonio Symphony and Kirsten Flagstad. This season, The Civic Music Association again plans to bring to you nationally known artists and groups. The cost of this superlative entertainment is only \$6.00 for the season, \$3.00 for students. We urge you to secure your memberships for the 1951-1952 season promptly... either by calling at headquarters in person, or mail the coupon below with remittance.

Nationwide Fire Loss Hits Highest Point In History

Americans suffered greater fire loss in the first six months of 1951 than in any previous 6 months in the nation's history.

The \$287,441,000 waste, six per cent over the first half of 1950, tops a previous six-month high of \$286,400,000 set in first-half 1948 and exceeds the whole year's total for 1949, say the National Board of Fire Underwriters.

Inflation A Factor
Declining dollar value is held responsible for the record destruction. NFBU officials say a comparison of 1951 dollar losses with 1948

figures shows substantial progress in fire prevention. While prices have risen 18 per cent to 20 per cent since 1948, fire loss figures are up less than one per cent.

In 1950, there were an estimated 636,148 fires, 280,390 of them in homes.

Fire daily takes 30 lives. Chief victims: children and the aged. Public officials, fire experts and other groups are fighting to lower fire's toll. Public education is growing; efforts to secure more and better building codes continue; inspections by fire authorities tighten.

Fire Avoidable
Experts agree nine in 10 home fires are preventable. They stress more careful smoking and match-disposal habits; proper use of electrical equipment; properly functioning heating apparatus, chimneys and flues; cautious handling of flammable liquids.

Topping the list of ways to prevent fires from spreading is use of fire-resistant materials wherever possible in home construction. The home-owner can protect home and family by installing an insulated ceiling in the basement; by fire-stopping wall spaces with non-combustible insulation or two-by-four; by using fire-resistant Kentele asphalt tile on floors; by fire-proofing fabrics; by installing a heavy flush door at the head of basement stairs; and by installing a solid door between attached garage and house.

The peach tree moved across America in advance of English and French settlement through use of the tree by the Indians.

Officer Election Continues Among Girl Scout Troops

Election of officers continued last week among the Girl Scout troops. Plans for the next meetings were made.

Troop 30 planned a cook-out for the next meeting. Mr. R. H. Friswell built an 800 house and the Brownies filled it with ants.

Those present were Ann Brandt, Clara Lou Butcher, Carolyn Chaplin, Nancy Conner, Mary Wilson Ervin, Anita Lou Friswell, Mable Gibbs, Judy Hawkins, Mary Elizabeth Monroe, Janice Seifert, Sandra Taylor, Mary Walden, Shirley James and the leaders, Mrs. Friswell and Mrs. Frank Monroe.

A circus play was staged by Brownie Troop 43. Officers elected were Bett Davis, chairman; Anita Queen, secretary, and Carolyn Warren, reporter. Adult visitors were John Fitzgerald and Roberta Stewart.

Members present were Nancy Busher, Ann Bodenman, Bettie Jane Crum, Betty Davis, Mary Ann McCarthy, Patti Peck, Barbara Porter, Anita Queen, Carolyn Warren and Carol Wright.

Brownie Troop 10 planned a cook-out for October 24 and elected the following officers: Kay Keller, chairman; Linda Tillson, refreshment chairman; Karen Tennis, monitor, and Judy Dawson, reporter.

Those present were Loretta McCarty, Patricia Porter, Linda Six, Barbara Marler and the leaders, Mrs. W. O. Keller and Mrs. Norman Sax.

A new type of troop balloting, which is based on the Texas Ballot System, was used for the election of officers for Intermediate Troop 36.

Joyce Sheen was elected chairman; Nancy Brooks, program chairman; Jean Ann Crawley, refreshment chairman; Jan Drake, secretary; Virginia Martin, treasurer; Carol Jean Wilson, reporter; and Dolores Brashears and Maudie Bell, troop housekeepers.

Others present for the meeting were Linda Kay Conover Barbara Crimes, Shirley Smith, Lynda Muri Strasser, Roma Newman, Carla Jane Martin and Mrs. A. P. Melcher and Mrs. P. Brooks, leaders.

Troop 34, during a walk, observed the trees, flowers and birds. Those present were Mary Jane Potter, Mariel Oates, Ronda Horn, Sue Miller, Diane Hoover, Nancy Bates, Mary Crooks and Mrs. L. W. Oates and Mrs. R. A. Estes, leaders.

Officers elected by Troop 41 were Barbara Ponder, president, Louise Gibson, secretary; Becky Payne, hostess, and Brookside Williams, clean-up.

Others attending were Linda Bowers, Marjorie Jo Crisman, Kathleen Cunningham, Louise Gibson, Georgene Peters, Verna Wells, Elaine Gunther, Mariana Miller and a visitor, Carol Sue Ernst.

Games were played and get-well cards were written by Brownie Troop 81. Those present for the meeting were Joanna Beadie, Patricia Smith, Kristi Carlson, Carol Convington, Elsie Howell, Sue McAllister, Jerry Lee McMillan, Martha Miller, Phyllis Sue Parks, Judy Lynn Uhrig, Joyce Lynn Wilburn, Sally Moore and a new member, Kathy Walden. Mrs. David Breth was a visitor.

Work on the minstrel badge and election of officers highlighted Troop 87. Officers are Judy Pogue, chairman; Cathryn Conant, vice-president; Becky Douglas, reporter, and Shirley Carlister, monitor.

Others present were Kathy Tillson, Shirley Brubaker, Mollie Ray, Jan Burke, Cynthia Dupey, Cath-

Fine ORGAN MUSIC

The comfort and
solace of beautiful music at time
of bereavement is widely recog-
nized. That's one reason why we
have installed our beautiful or-
gan. Well-known for its tonal
beauty and its soul-stirring notes,
we consider it essential to a
complete service.

Room Mothers Plan Hallow'en Carnival

Fifty persons attended the meeting of the Junior High School Room Mothers Thursday. Plans were discussed for the membership drive to start Monday and the annual Hallow'en Carnival to be sponsored by the Parent-Teacher Association.

It was decided there would be no soliciting of prizes from Midland merchants and no games of chance conducted.

The purpose of the room mothers organization is "to provide close contact between the P-TA and the parents and teachers of the pupils in each room; to promote growth of interest and attendance at P-TA meetings; to establish friendly relations with parents, and to cooperate with other groups to promote the work of the P-TA."

Underground wire cables often are wrapped in steel tape to prevent gophers from biting into them.

Style Show To Be Staged Tuesday

The Maternity Shop, 501 West Texas Street, will have a maternity style show at 8:15 p.m. Tuesday in the Scharbauer Hotel Ballroom. The show will feature a complete showing of the latest styles of America's foremost designers. Models will be Mrs. Charles Lamb, Mrs. John Leigh, Mrs. Ross Brunner, Mrs. S. C. Lochte, Mrs. Nolan Hirsch, Mrs. Don Gaddis and Mrs. W. J. Sowers.

OLD CAMERA EXHIBITED

LONDON—(AP)—A camera bought in 1887 for 25 shillings, is one of the exhibits at the jubilee exhibition of the Institute of British Photographers. A British all-metal camera, it has plates 1 1/4 inches square and a simple drop-shutter.

Mathematicians say that a machine could be built to play perfect chess or to orchestrate a melody.

Skyscrapers Enjoy Era Of Prosperity

NEW YORK—(AP)—Wall Street era of prosperity after many years before the war of bankrupting vacancies.

The 70-story Bank of Manhattan Building at 40 Wall Street, one of the tallest downtown structures, is fully occupied for the first time in 20 years with an annual rent roll reported at \$3,600,000.

John H. G. Pell, president of the building corporation, reports the 815 square feet of office space is rented at an average of \$4.42 per square foot, with some tower leases bringing as much as \$6. This equals the rate of some of the newest skyscrapers in the Midtown.

ATTENDS GOUCHER

BALTIMORE, MD.—Lois Jane Black of Midland, daughter of Mr. and Mrs. J. J. Black, is one of 618 students who have enrolled in Goucher College for the Fall term. She is entering her junior year.

PROVISIONALS—The Midland Service League Provisionals were honored recently at a morning coffee in the home of Mrs. Harvey Herd. Provisionals pictured, left to right, are Mrs. Fred Gaarde, Mrs. Bill Reeder, Mrs. Jack Matthews, Mrs. Herschel Ezell, Mrs. Emil Rassman, Mrs. Clarence Scharbauer, Mrs. Ed Magruder, Mrs. Frank Cowden, Jr., and Elizabeth Ann Cowden.

Key To Happiness Is Forget Yourself

LOS ANGELES—(AP)—Want the key to happiness while at work?

"Forget yourself; do the job in the best way possible," says Dr. George F. J. Lehner, associate professor of psychology at the University of California at Los Angeles.

Don't concentrate on what kind of impression you're making. That's ego-centered and brings anxiety and negative results. If you try to do the job as well as you know how and accept criticism and profit from it, the job will become easier. And you'll be a better person to work with.

WHALES BITING

ST. JOHNS, NEWFOUNDLAND—(AP)—While the northern whaling season does not end until the middle of October, one firm which operates six vessels out of Hawkes Harbor, Labrador, reports a total catch of 270 whales up to the end of August. The same firm caught 237 in the same period a year ago.

FINE ARTS PROGRAM—The Twentieth Century Club will have a fine arts program at its Tuesday meeting in the home of Mrs. Robert Donnell. Inez Parker, left, art director of the Midland schools, will be the featured speaker. Mrs. Frank Thompson, right, will present a musical program. An art exhibit will feature art of the Southwest and the Midland area. Tuesday will be guest day.

Georgia calls itself the Peach State and Delaware has the peach blossom for its state flower.

The place of security

There is a realm where hope is no longer precarious. It is the realm of unwavering spiritual understanding. It is the realm of Truth.

How may we find it? Through knowing (understanding) the same truth which Jesus knew, and which he promised would "make us free."

The Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, plainly shows the way. To any sincere student this great book steadily unlocks the treasures of truth in the Bible and proves, by healing the sick, their practicability today.

It may be bought, borrowed or read at all Christian Science Reading Rooms. The coupon is also for your use.

Rankin News

RANKIN—Mrs. J. W. Garner, who has been ill for several weeks, recently was transferred to Shannon Hospital in San Angelo.

Mr. and Mrs. Vermillion of La-fors have been visiting here recently with her children, Mrs. Clara Huffman of McCamey, and B. G. Langford and Mrs. L. Z. Fitzworth of Rankin.

Francis Lay, home economics teacher; Mrs. Walton Hargal and daughter, Amaryllis, and Mrs. Darby Anderson and daughter, Mary, attended the wool show last week in Merryville.

Mr. and Mrs. Cecil Copeland and Mr. and Mrs. George H. Stephenson visited in Dallas last weekend, attending the Texas A&M-Texas Tech football game.

Hamp Carter was a recent medical patient in Shannon hospital in San Angelo.

Mr. and Mrs. F. G. Mears have moved to their farm in Arkansas after operating a drive-in cafe on highway 349 for several years. The cafe has been leased to Mr. and Mrs. Ollie Brown.

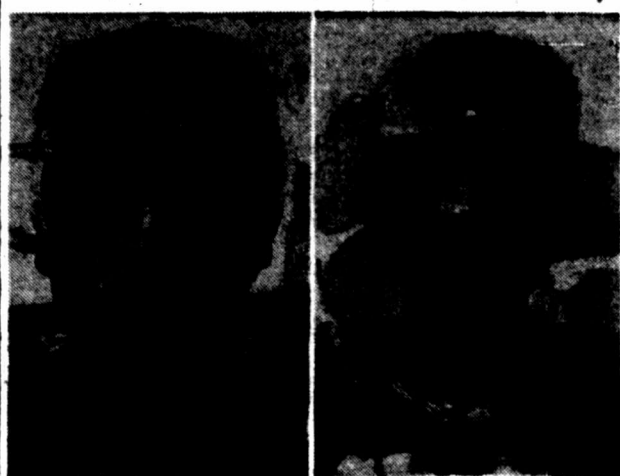

Mr. and Mrs. Clint Shaw returned recently from a 10-day trip to Mexico City.

VISITS PARENTS

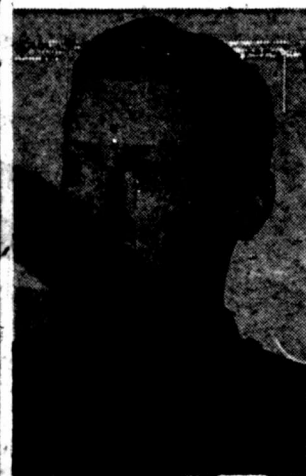

Jane Bradford, a sophomore at Texas Christian University in Fort Worth, is spending the weekend with her parents, Mr. and Mrs. A. A. Bradford.

BACK TO KOREA—Cpl. Mac Axe, son of Mrs. Winnie Axe, 309 West Taylor Street, an 18-month veteran of prewar Korea, will leave soon for the West Coast for a return to war-torn Korea. Stationed with the Army Signal Corp., Axe recently spent a week in Midland with his mother. A graduate of Abilene High School, Axe enlisted in the Army Oct. 18, 1948.

FORMER BULLDOGS JOIN AIR FORCE—Two former Midland High School Bulldogs, who have been together a number of years in school and out, enlisted in the Air Force here last week and since have reported to Lackland Field, San Antonio, for basic training. They played junior high school football together and both lettered three years on the MHS varsity. They are L. C. Thomas and Charles Crowley.

VISITING PARENTS—Cpl. Dennis Rhodes, who has been stationed at the atomic proving grounds on Eniwetok in the Marshall Islands, is visiting his parents, Mr. and Mrs. W. Harry Rhodes here, en route to a new assignment at Monmouth, N. J. Corporal Rhodes, who has been in the service two years, is with the Signal Corps. He is a graduate of Midland High School and attended Texas A&M College.

13,000-Square-Foot Concrete Slab Poured

A 13,000-square-foot slab of concrete was poured Sunday at the Gaylord and Wilcox office building being constructed at Big Spring and Illinois streets. The builders said it was the largest slab ever poured in Midland.

A slab 7,500 feet square was laid at the Allen Building, also completed by Gaylord and Wilcox. The concrete was poured by Paul Bell Brothers and the finishing was done by Leason and Son.

It is believed that the first pour of this size was made in 1904.

With The Services Naval ROTC Tests Will Be Held Here

Competitive examinations for entrance into the Naval Reserve Officers Training Corps will be held in Midland on December 8, the Eighth Naval District headquarters in New Orleans announced last week.

Successful candidates between the ages of 17 and 21 will be given a four-year college education with government assistance. Upon graduation they may be commissioned as officers of the Navy or Marine Corps.

NROTC students are deferred from Selective Service induction, but must agree to serve three years on active duty upon commissioning.

Applications for permission to take the written test may be obtained at most high schools and colleges or by writing any naval recruiting office or office of naval officer procurement.

Applications must be mailed to reach the navy examining board, Princeton, N.J., not later than midnight, November 17. Students then will be notified where to take the examination.

Area Engineer Is Andrews Speaker

ANDREWS — Frank Clements, area engineer for Stanolind Oil and Gas Company, was guest speaker at the Andrews Study Club meeting Tuesday in the Community Building.

His topic was "Petroleum Progress in Andrews County." He gave a resume of the county's oil developments, using charts to illustrate the geology, various formations, field locations and the drilling and production of petroleum.

Mrs. Clements, wife of the speaker, and the members of the Progressive Study Club, were guests. Hostesses were Mrs. Marvin Fisher, Jr. and Mrs. Bill Ayers. Decorations in the club room carried out a Halloween theme.

Mrs. L. B. Williams presided over the business session and Mrs. B. F. Seay gave a report on the recent district board meeting and president's party held in Fort Stockton.

Mrs. David Choate and Mrs. Joe Stickney were elected to membership.

The skunk ranges from Hudson Bay to Patagonia.

Major Jack M. Kirkland of Lakeland, Fla., recently began study in Industrial Engineering at USAP Institute of Technology, Wright-Patterson AF Base, Ohio.

He is the husband of the former Miss Marjorie Hall, daughter of Mrs. Lockley Hall, 106 South Marientfield Street.

Chief Charles T. Baylor of the navy recruiting station in San Angelo, will be in Midland Monday to interview young men or women interested in enlisting in the Navy.

Recent enlistees from this area include Hal Hunt, son of Hal Henry Hunt, Route 2, Midland.

Numerous vacancies exist in the Mobilization-Day reserve training program for Air Force officers and airmen in this area.

Lt. Edgar W. Biggers, air reserve coordinator at Goodfellow Air Force Base at San Angelo, has urged reserve officers to contact his office concerning the possibility of assignment to weekly training periods at the base.

Pvt. Johnny B. A. Moore, son of Mrs. Myrtle Price, 1801 East Wall Street, has arrived on the Karlsruhe Military Sub-post in the U.S. Zone of Germany for duty with the 62nd Transportation Truck Company.

Moore attended school in Midland, where he was employed by the L. W. Sweet Company for four years before he entered the Army last December. Prior to his overseas assignment he was stationed at Fort Story, Va.

William L. Hoey, airman apprentice, USN, son of Mr. and Mrs. W. T. Hoey of 818 West Storey Street, has been chosen honor man of his recruit training company at the

McCamey News

McCAMEY—The Ladies Auxiliary of the Country Club will sponsor a dance to be held October 20 in the clubhouse. Dixie Williams and his band will furnish the music.

C. W. Brown announced the purchase of the Discus Building in McCamey last week. The purchase includes the property now housing the Mu-Way Dry Goods and Grocery and the office building now occupied by Dr. Robert Wright.

Mr. and Mrs. Tom Cox were honorees recently at a covered dish supper given by members of the Country Club in the clubhouse. The Coxes are planning to move to Odessa where Cox will be associated with the Permian Mud Company.

The Women's Missionary Union of the Eastside Baptist Church met recently for a Royal Service program. Mrs. Emil Moellering gave the devotional. Six members attended.

Mrs. R. L. Zimmerly, president of the Big Spring District of Catholic Women's Council, and Mrs. A. V. Langford attended the annual convention of the Amarillo Diocesan of Catholic Women recently in Odessa.

WILSON'S

Open House Fetes George Chranes

CRANE — Mr. and Mrs. George Chranes were honored at an open house Thursday in the home of Mr. and Mrs. John E. Clark. Mr. and Mrs. Hugo Huffman were co-hosts.

The entertaining rooms were decorated with Fall flowers. A white linen cloth covered the refreshment table, which was centered with an arrangement of yellow marigold daisies. Mrs. Huffman poured. Guests were greeted by Mrs. Clark and the honorees.

Mrs. Chranes wore a yellow chrysanthemum corsage. A lamp was presented to the honor guests. Approximately 54 guests called.

Many ceramic materials even withstand higher temperatures than metals, but ceramics are brittle and, consequently, their use has been very limited in engineering applications.

Moore Ellenburger Opener In Crockett Makes 250 Barrels

Moore Exploration Company and others have completed their No. 1 W. M. Noelke as an Ellenburger discovery in South-Central Irion County.

The new pool opener was completed for a calculated 24-hour flowing potential of 250.32 barrels of 44-gravity oil through a 20/60-inch tubing choke. The well's capacity was based on an actual 17-hour flow of 177.33 barrels of oil.

Gas-oil ratio was 682-1 and tubing pressure ranged from 128 to 150 pounds. Casing pressure gradually built up during the 17 hours of testing from 150 to 976 pounds.

Operator used 2,000 gallons of acid to complete the well.

Production was from open hole at 7,806-7,838 feet. The Ellenburger was topped at 7,804 feet, elevation 2,498 feet. Location is 600 feet from south and west lines of section 1150, TC survey and two and one-half miles north of the Schleicher County line and 10 miles southwest of Mertzon.

NW Reagan Strike Offset Completed

Tide Water Associated Oil Company No. 1 E. G. Wilde has been finished as a one-location south extension to Sohio Petroleum Company No. 1 E. B. Williams, recently completed Spraberry strike in Northwest Reagan County.

The new well was finished through an one-half-inch tubing choke for a daily potential of 222 barrels of 38.5-gravity oil. Gas-oil ratio was 643-1 and tubing pressure was 75 pounds. Operator used 4,500 gallons of Hydratrac to complete the well. Location is 600 feet from north and west lines of section 30, block 36, T-3-S, T&P survey.

Another Test One and three-quarter miles southeast of No. 1 Wilde, Tide Water staked location for its No. 1-A Stella Wilder Schwartz as a 7,500-foot Spraberry test.

Drill site is in Northwest Reagan County and 1,900 feet from east and 600 feet from south lines of section 20, block 36, T-3-S, T&P survey.

L. B. Jackson Company of Midland spotted location for wildcat in Northwest Reagan County, three miles south of the Aldwell-Spraberry field. It will be dug as No. 1 F. A. Bird, 600 feet from north and east lines of the northwest quarter of section 33, block C, L&SV survey. It is to go to a possible bottom of 8,000 feet for a test of the Spraberry.

Werner-Floyd Rowan Drilling Company No. 2 W. H. Wilde is a slated 4,700-foot test in the Werner-Floyd field in Northwest Reagan County. It will be drilled 600 feet from south and west lines of section 33, block 37, T-3-S, T&P survey.

One and one-half miles south of the Aldwell-Spraberry field of Northwest Reagan County, Lion Oil Company staked locations for two more Spraberry tests.

The firm's No. 5 Mrs. Ruby J. Wright will be 1,908 feet from north and 600 feet from west lines of section 21, block C, L&SV survey. Lion No. 6 Mrs. Ruby J. Wright will be dug 1,908 feet from north and 1,900 feet from west lines of the same section.

Phillips Phillips Petroleum Company staked sites for five projects in the Tex-Harvey field of Central-East Midland County.

All will be drilled in section 35, block 37, T-3-S, T&P survey and will carry the fee name of Beth. No. 8-A is 600 feet from west and 1,987 feet from south lines of the section. No. 9-A is 604 feet from north and 1,975 feet from east lines. No. 10-A is 603 feet from north and 1,975 feet from west lines of the section. No. 11-A is 600 feet from west and 602 feet from north lines of the section and No. 12-A is 600 feet from west and 1,996 feet from north lines of the same section.

In Southwest Glasscock County and in the Driver-Spraberry field, Tide Water Associated Oil Company No. 3 Norma R. Calverley is to be dug as a 7,500-foot Spraberry test. Site is 600 feet from south and 1,980 feet from east lines of section 3, block 36, T-3-S, T&P survey.

Placid Placid Oil Company No. 2 William Howard is to be drilled as a two-location east offset to the same company's No. 1 Howard, wildcat in Southwest Glasscock County which is now in the Spraberry testing for production.

No. 2 Howard will be dug 600 feet from north and 1,975 feet from east lines of section 30, block 35, T-3-S, T&P survey.

Texas Crude Company No. 4-15 J. W. Driver is a new test in the Driver-Spraberry field of Southeast Midland County. It is 600 feet from south and east lines of the northeast quarter of the southwest quarter of section 15, block 37, T-4-S, T&P survey.

Superior The Superior Oil Company No. 3-44 Wraga-Hendrickson, 600 feet from north and 1,900 feet from west lines of the lease in section 44, block 34, T-3-S, T&P survey and in the Tex-Harvey field of Central-West Glasscock County, was completed for a daily flowing potential of 216.8 barrels of 38.2-gravity oil

Deep Venture Is Set In C-W Terry By Coroco Drilling

A new deep wildcat has been staked in Central-West Terry County as Coroco Drilling Company of Dallas No. 1 Atlas Life Insurance Company.

Location is 1,900 feet from south and west lines of section 13, block D-11 Cabot survey and 13 miles west of Brownfield.

Rotary tools will be used to drill the venture, beginning at once. Projected depth is 12,000 feet which is due to test the Devonian and possibly the Ellenburger.

No. 1 Atlas Life is on a farmout from Union Oil Company of California and is 13 miles northeast of nearest production which is in the Wellman pool of Central-South Terry County.

Strawn Prospector Set For Immediate Drilling In Scurry

H. S. Moss of Dallas and others have staked location for a 7,400-foot wildcat in South-Central Scurry County as their No. 1-A John W. Voss.

Location is two and one-quarter miles south of the nearest production in the Kelley-Snyder field and 600 feet from south and west lines of southeast quarter of section 173, block 97, E&TC survey.

Rotary tools will be used to drill the prospector. Operations will begin immediately. Projected depth should take it to the Strawn.

Dollite is on a farmout from Magnolia Petroleum Company and eight miles south of Snyder.

SW Glasscock Project Testing Spraberry For Oil Production

Placid Oil Company No. 1 William Howard, wildcat in Southwest Glasscock County is bottomed at 8,596 feet in the Spraberry making production tests.

Open hole section was treated with 3,000 gallons of Hydratrac. After that treatment it was swabbed for 235 barrels of load oil and 86 barrels of new oil in 24 hours. Operator is continuing to swab and test.

Location is 600 feet from north and west lines of section 30, block 35, T-3-S, T&P survey.

North Pecos Region Gets Two Wildcats

Two new wildcats have been spotted for immediate drilling in North Pecos County.

Four miles southeast of Brown & Thorp Drilling Company of McCamey No. 1 White-Gulf, wildcat in process of completing as a Clear Fork discovery, the same company has staked No. 1 Louise Sanders.

Drill site is 330 feet from north and east lines of section 32, block 11, E&GH survey and six miles southeast of Clinin. Combination cable and rotary tools will be used to drill to 5,000 feet for a test of the lower Permian. The other new prospector is Leland Thompson, Jr. of Midland No. 1 J. A. McDonald. It is five (Continued On Page Three)

MIDLAND, TEXAS, SUNDAY, OCTOBER 7, 1961

SECTION THREE

MAKING IT OFFICIAL—Mayor Perry Pickett of Midland signs the official proclamation making October 14-20 Midland Oil Progress Week. Left is John Ed Cooper, vice president of The Western Company, and chairman of the Midland County Oil Industry Information Committee, sponsor of the week for this city and county, and right, Joe T. Dickerson, vice president of Shell Oil Company and manager of that concern's Midland area. A variety of activities is planned by Cooper's committee for Oil Progress Week in an effort to tell the story of the petroleum industry's contribution to the American way of life.

PROCLAMATION

WHEREAS America's growing defense program is straining the production facilities of our nation, our state and our community and

WHEREAS many people are asking whether those facilities, and the natural resources upon which they depend, are equal to the demands being placed upon them, and

WHEREAS it has been brought to the attention of this office that October 14 to 20 has been designated as Oil Progress Week, when members of the American petroleum industry strive to inform the public regarding what they are doing to produce more and better petroleum products to meet the growing civilian and military needs of the United States, and

WHEREAS residents of our community who are engaged in this important industry are desirous of participating in the observance of Oil Progress Week by arranging various exhibits and engaging in other activities which show how they, and their competitive progressive companies contribute to our high standards of living which must be preserved along with our democratic freedoms.

NOW, THEREFORE, I, Perry D. Pickett, mayor of Midland, Texas, do hereby proclaim the week of October 14 to 20, inclusive, to be

MIDLAND OIL PROGRESS WEEK

and do call to the serious consideration of all citizens the many services and contributions which the oil men who work and live amongst us have made and are making to the betterment of our public, social, business and private lives, as well as to the security of our beloved country.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of Midland, Texas, to be affixed.

(Signed) PERRY PICKETT,
Mayor, City of Midland, Texas.

Upton And Lea Continue To Lead Permian Basin Sector In Active Rotary Projects

Upton and Lea Counties continued to be number one and two in the semi-monthly survey of rotary drilling rigs in the West Texas and Southeast New Mexico areas of the Permian Basin. The survey is taken each month by Reed Roller Bit Company.

On October 1 there were 99 rigs operating with rotary equipment in Upton County and 86 in Lea County. Upton County jumped from 96 in September 15 and Lea County moved up from 82.

Midland slipped past Glasscock to gain third spot after being ousted by the latter September 15. Midland, on October 1 had 68 rotaries, the same as the count 15 days earlier. Glasscock lost from 75 to 61, but dropped no lower than fourth.

Lea County followed Glasscock with 53 operations. Next in line was Scurry County with 32, an increase of one over the September 15 count. The total number of rotaries operating in the area covered by the Reed survey on October 1 was 678. That showed an increase of five during the 15 days since September 15. One year ago, on October 1, there were 672 active rotaries in the area.

Other counties included in the Reed survey, with September 15 figures listed first and October 1 figures listed second, were: Andrews, no count—39; Borden 8-13; Crane 12-11; Gaines, no count—31; Howard 22-16; Kent, 12-11; Martin, 5-4; Pecos, 12-15; Terry, 8-13; and Reagan, 20-19.

Chase Is Made Area Chief Of Production For Lario Oil, Et Al

Dean Chase has been named division production superintendent for Lario Oil & Gas Company for the Permian Basin territory of West Texas and Southeast New Mexico. Announcement of Chase's appointment to his new position was made by H. E. Miller, general production superintendent of Lario, from the headquarters offices of the company at Wichita, Kan.

Chase will assume his duties in the near future and will work out of the Lario division offices in Midland.

An Affiliated Concern Lario is affiliated with Globe Oil & Refining Company and with Amcan Oil Corporation. The new Permian Basin division superintendent will handle the production work of all three concerns in this territory.

Wallace (Pete) Montgomery has joined the Lario-Globe-Amcan organization as a scout. He will start work at once.

Don E. O'Shaughnessy is division manager in Midland for Lario and affiliated oil concerns.

and a trace of water. Gas-oil ratio was 612-1 and tubing pressure was 200 pounds. Choke size was one-half inch. Operator used 4,000 gallons of Hydratrac.

Mayor Pickett Signs Midland Oil Progress Week Proclamation

Mayor Perry D. Pickett Saturday proclaimed October 14-20, inclusive, as Midland Oil Progress Week.

The observance has been officially recognized, said the proclamation, so that oil men who live and work in this city and adjacent areas may give an annual report to the public on the ways in which they are making more and better petroleum products available to meet the growing civilian and military needs of the United States.

The proclamation added that, during the week, those engaged in marketing, transporting, refining and producing petroleum products plan to arrange exhibits and engage in other activities showing how they contribute to our high standards of living and our domestic freedoms.

In conclusion, Mayor Pickett reminded all the residents of Midland of the many services and contributions which the petroleum industry make, to "the betterment of our public, social, business and private lives, as well as to the security of our beloved country."

A group of special events, such as film showings, luncheons and speeches to community audiences by oil men will mark Midland Oil Progress Week, according to John Ed Cooper, chairman of the Midland County Oil Industry Committee.

Other members of that group include: Jess V. Lindsey, Charles M. Chase, Francis E. Weaver, E. M. Braselton, W. B. Neely, Jr., Mrs. Joe Beskey, Richard E. Gile, R. F. Peters, John Fletcher, Reese Cleveland, J. H. (Harvey) Herd, W. D. Anderson, Delbert Downing, Frank Monroe, Leslie Hines, Tom Flewarty, Paul L. Davis, J. P. (Pat) Ruckman, O. C. Harper, S. M. Erskine, J. Ed Warren, and Dr. V. P. Neisell.

80-Acre Allowable (1) Each well which, on the effective date of this order, has been completed as a producing oil well or is in the process of being drilled and is located on a 40-acre spacing pattern, and each well thereafter drilled on an adjoining tract under separate lease ownership of record October 1, 1961, and on a 40-acre spacing pattern as a direct offset

thereto, or as a direct offset to a well drilled on a 40-acre spacing pattern in a Spraberry area to which this allocation and spacing rule is not applicable, shall have an allowable of the same number of barrels of oil per day as one well producing from an 80-acre proration unit; and,

(2) A well drilled on a lease of record on October 1, 1961, and covering less than 80 acres of land, but not less than 40 acres of land, shall have an allowable of the same number of barrels per day as one well producing from an 80-acre proration unit; and,

(3) Each well drilled after the effective date of this order on an adjoining tract under separate lease ownership of record October 1, 1961, and on a 40-acre spacing pattern as a direct offset to a well coming within the provisions of (1) or (2) above, shall have an allowable of the same number of barrels of oil per day as one well producing from 80-acre proration unit.

When the average calendar day allowable per well of two wells on 80-acre units to which top allowables are assigned is reduced to 80 barrels or less for calendar day, the allocation formula shall be 100 percent well.

These rules shall apply only to the Spraberry area in Midland, Glasscock, Upton, Crockett, and Reagan Counties, Texas, lying south of the south line of township 3 south in Midland and Glasscock Counties, Texas.

This order shall be a temporary order for a six months' duration, and the presently existing rules affecting the area subject to this order shall again be in effect at the expiration of the six months unless further action is taken at that time to extend the effective period of these temporary rules.

Midland Man W. P. Z. German, Jr., Midland attorney of the firm of Perkins, German, Mims and Bell, was one of the nine men who composed the committee which formulated this recommended plan. German stated, "It would be difficult to emphasize upon the general statement released by Marshall, but perhaps emphasis should be placed on the fact that the committee explored every suggestion received by the various members of the committee before finally deciding to recommend any particular course of action."

"Suggestions of royalty owners, small independent operators, large independents and major companies were given serious consideration. I think that it should be pointed out that the recommendation of the committee is based upon a six

months order," German said, "and one of the reasons why the committee felt that any recommendation which the operators and land owners make to the railroad commission should suggest an order of short duration is that no one of the committee members agreed that such provision of the recommendation is what he might desire."

"The committee was made aware, through its members, of various contractual and other circumstances existing between lessors and lessees and others interested in what would appear to be the Spraberry area, and it was felt that equity would better be served by limiting any plan to one of short duration so that the railroad commission and all persons interested in the Spraberry will have a definite and certain opportunity within a short period of time to uncover defects in the plan and perhaps modify it to correct unforeseeable inequities."

Urged To Attend German urged that every person with any interest in the Spraberry area give thorough study to the recommendation of this committee, and be prepared to attend and participate in the discussion of the matter when the committee report is made at the meeting in the Scharbauer Hotel in Midland next Thursday at 1:30 p.m. The very purpose of holding the next general meeting in Midland is to encourage and make it easy for land owners and royalty owners of the West Texas area, as well as operators, to attend this meeting, German said.

Livermore Organizes New Oil Concern; Will Do Contract Drilling

George F. Livermore of Lubbock has organized the George F. Livermore Oil Company. The concern will engage in contract oil well drilling.

Livermore announced that he had ordered three new rotary rigs and would have them ready to go to work before December 1.

Offices for the new concern have been opened in the Lubbock National Bank Building in Lubbock. Quit Other Concerns

Livermore is a pioneer oil operator and drilling contractor in the Permian Basin. He resigned recently as president of George F. Livermore, Inc., and of Great Western Producers, Inc.

Both these concerns are corporations in which Livermore had stock interests.

Spraberry Drilling Plan Is To Be Presented Thursday

The special committee was appointed by Rowan at a recent meeting of Spraberry operators in Fort Worth.

J. Howard Marshall, chairman of the committee, emphasized that these suggestions and recommendations, while adopted unanimously by the committee, did not represent the exact views of any individual on the committee, but were proposed as a reasonable compromise of conflicting points of view after consideration by the committee of the present shortages of critical materials, possible pipe line proration, the position of land owners and small operators, the prevention of waste and the protection of correlative rights.

The committee pointed out that of course the decision as to what specific type of spacing and proration orders should be issued to regulate the development and production of the Spraberry was a matter for the Railroad Commission, but that it is hoped the principles embodied in such general suggestions and recommendations as may be approved by Spraberry operators and other interested in this production would prove helpful to the commission.

All those interested in Spraberry production are urged by the committee to attend, at which time the following report of the committee will be presented for discussion and consideration:

Wells may be drilled on a 40-acre or an 80-acre spacing pattern at the option of the operator, and the Railroad Commission's steel conservation order shall not apply to a well drilled on a 40-acre pattern. The proration unit shall be 80 acres.

The allocation formula shall be 80 percent to acreage and 20 percent to well, and the allowable of a well drilled on a 40-acre spacing pattern shall be calculated on the basis of such formula; provided, however:

(1) Each well which, on the effective date of this order, has been completed as a producing oil well or is in the process of being drilled and is located on a 40-acre spacing pattern, and each well thereafter drilled on an adjoining tract under separate lease ownership of record October 1, 1961, and on a 40-acre spacing pattern as a direct offset

thereto, or as a direct offset to a well drilled on a 40-acre spacing pattern in a Spraberry area to which this allocation and spacing rule is not applicable, shall have an allowable of the same number of barrels of oil per day as one well producing from an 80-acre proration unit; and,

(2) A well drilled on a lease of record on October 1, 1961, and covering less than 80 acres of land, but not less than 40 acres of land, shall have an allowable of the same number of barrels per day as one well producing from an 80-acre proration unit; and,

(3) Each well drilled after the effective date of this order on an adjoining tract under separate lease ownership of record October 1, 1961, and on a 40-acre spacing pattern as a direct offset to a well coming within the provisions of (1) or (2) above, shall have an allowable of the same number of barrels of oil per day as one well producing from 80-acre proration unit.

When the average calendar day allowable per well of two wells on 80-acre units to which top allowables are assigned is reduced to 80 barrels or less for calendar day, the allocation formula shall be 100 percent well.

These rules shall apply only to the Spraberry area in Midland, Glasscock, Upton, Crockett, and Reagan Counties, Texas, lying south of the south line of township 3 south in Midland and Glasscock Counties, Texas.

This order shall be a temporary order for a six months' duration, and the presently existing rules affecting the area subject to this order shall again be in effect at the expiration of the six months unless further action is taken at that time to extend the effective period of these temporary rules.

Midland Man W. P. Z. German, Jr., Midland attorney of the firm of Perkins, German, Mims and Bell, was one of the nine men who composed the committee which formulated this recommended plan. German stated, "It would be difficult to emphasize upon the general statement released by Marshall, but perhaps emphasis should be placed on the fact that the committee explored every suggestion received by the various members of the committee before finally deciding to recommend any particular course of action."

"Suggestions of royalty owners, small independent operators, large independents and major companies were given serious consideration. I think that it should be pointed out that the recommendation of the committee is based upon a six

months order," German said, "and one of the reasons why the committee felt that any recommendation which the operators and land owners make to the railroad commission should suggest an order of short duration is that no one of the committee members agreed that such provision of the recommendation is what he might desire."

"The committee was made aware, through its members, of various contractual and other circumstances existing between lessors and lessees and others interested in what would appear to be the Spraberry area, and it was felt that equity would better be served by limiting any plan to one of short duration so that the railroad commission and all persons interested in the Spraberry will have a definite and certain opportunity within a short period of time to uncover defects in the plan and perhaps modify it to correct unforeseeable inequities."

Urged To Attend German urged that every person with any interest in the Spraberry area give thorough study to the recommendation of this committee, and be prepared to attend and participate in the discussion of the matter when the committee report is made at the meeting in the Scharbauer Hotel in Midland next Thursday at 1:30 p.m. The very purpose of holding the next general meeting in Midland is to encourage and make it easy for land owners and royalty owners of the West Texas area, as well as operators, to attend this meeting, German said.

Livermore Organizes New Oil Concern; Will Do Contract Drilling

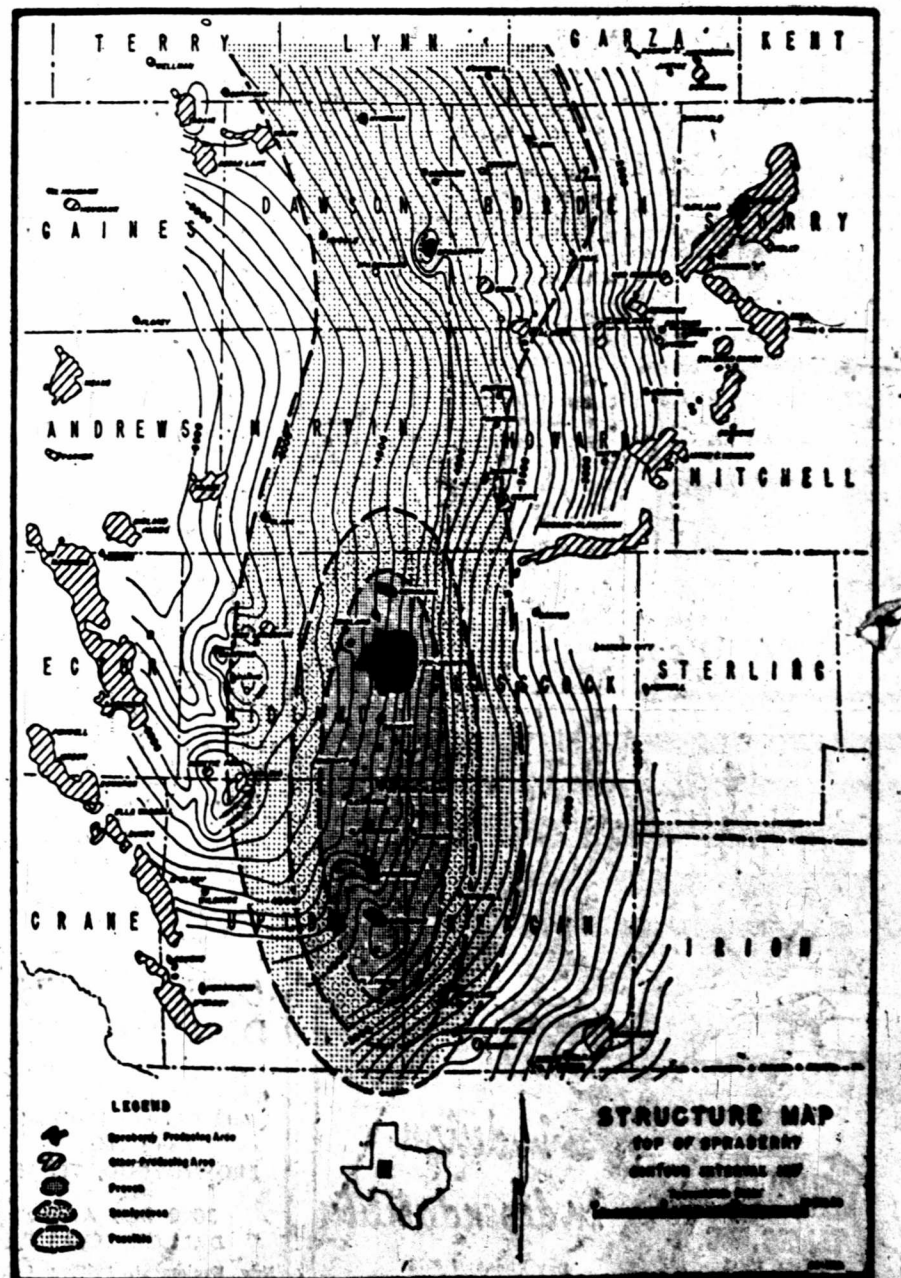

George F. Livermore of Lubbock has organized the George F. Livermore Oil Company. The concern will engage in contract oil well drilling.

Livermore announced that he had ordered three new rotary rigs and would have them ready to go to work before December 1.

Offices for the new concern have been opened in the Lubbock National Bank Building in Lubbock. Quit Other Concerns

Livermore is a pioneer oil operator and drilling contractor in the Permian Basin. He resigned recently as president of George F. Livermore, Inc., and of Great Western Producers, Inc.

Both these concerns are corporations in which Livermore had stock interests.

SPRABERRY—Structure map of the vast Spraberry Trend of the Midland Basin in West Texas is pictured above. Some oil men now estimate the area may cover 2,000,000 acres, making it the world's largest oil reservoir in area. It also has been estimated that 1,000,000 acres already are semi-proven.

Moore Ellenburger Opener In Crockett Makes 250 Barrels

Moore Exploration Company and others have completed their No. 1 W. M. Noelke as an Ellenburger discovery in South-Central Irion County.

The new pool opener was completed for a calculated 24-hour flowing potential of 250.32 barrels of 44-gravity oil through a 20/60-inch tubing choke. The well's capacity was based on an actual 17-hour flow of 177.33 barrels of oil.

Gas-oil ratio was 682-1 and tubing pressure ranged from 126 to 150 pounds. Casing pressure gradually built up during the 17 hours of testing from 150 to 975 pounds.

Operator used 2,000 gallons of acid to complete the well. Production was from open hole at 7,600-7,828 feet.

The Ellenburger was topped at 7,604 feet, elevation 2,496 feet.

Location is 690 feet from south and west lines of section 1150, TC survey and two and one-half miles north of the Schliecher County line and 10 miles southwest of Mertzon.

Deep Venture Is Set In C-W Terry By Coroco Drilling

A new deep wildcat has been staked in Central-West Terry County as Coroco Drilling Company of Dallas No. 1 Atlas Life Insurance Company.

Location is 1,980 feet from south and west lines of section 93, block D-11 C&M survey and 12 miles west of Brownfield.

Rotary tools will be used to drill the venture, beginning at once. Projected depth is 12,000 feet which is due to test the Devonian and possibly the Ellenburger.

No. 1 Atlas Life is on a farmout from Union Oil Company of California and is 12 miles northeast of nearest production which is in the Wellman pool of Central-South Terry County.

Strawn Prospector Set For Immediate Drilling In Scurry

H. S. Moss of Dallas and others have staked location for a 7,400-foot wildcat in South-Central Scurry County as their No. 1-A John W. Voss.

Location is two and one-quarter miles south of the nearest production in the Kelley-Snyder field and 690 feet from south and west lines of southeast quarter of section 173, block 97, H&TC survey.

Rotary tools will be used to drill the prospector. Operations will begin immediately. Projected depth should take it to the Strawn.

Dollite is on a farmout from Magnolia Petroleum Company and eight miles south of Snyder.

SW Glasscock Project Testing Spraberry For Oil Production

Piacid Oil Company No. 1 William Howard, wildcat in Southwest Glasscock County is bottomed at 5,596 feet in the Spraberry making production tests.

Open hole section was treated with 3,000 gallons of Hydracrac. After that treatment it was swabbed for 235 barrels of load oil and 86 barrels of new oil in 24 hours. Operator is continuing to swab and test.

Location is 690 feet from north and west lines of section 30, block 35, T-5-S, T&P survey.

North Pecos Region Gets Two Wildcats

Two new wildcats have been spotted for immediate drilling in North Pecos County.

Four miles southeast of Brown & Thorp Drilling Company of McCamey No. 1 White-Gulf, wildcat in process of completing as a Clear Fork discovery, the same company has staked No. 1 Louise Sanders.

Dollite is 330 feet from north and east lines of section 32, block 11, H&GN survey and six miles southeast of Givrin.

Combination cable and rotary tools will be used to drill to 5,000 feet for a test of the lower Permian.

The other new prospector is Leland Thompson, Jr. of Midland No. 1 J. A. McDonald. It is five (Continued On Page Three)

NW Reagan Strike Offset Completed

Tide Water Associated Oil Company No. 1 E. G. Wilde has been finished as a one-location south extension to Schio Petroleum Company No. 1 E. B. Williams, recently completed Spraberry strike in North-West Reagan County.

The new well was finished through an one-half-inch tubing choke for a daily potential of 325 barrels of 36.5-gravity oil. Gas-oil ratio was 643-1, and tubing pressure was 75 pounds. Operator used 4,500 gallons of Hydracrac to complete the well. Location is 690 feet from north and west lines of section 30, block 36, T-5-S, T&P survey.

Another Test One and three-quarter miles southeast of No. 1 Wilde, Tide Water staked location for its No. 1-A Stella Wilde Schwartz as a 7,500-foot Spraberry test.

Dollite is in Northwest Reagan County and 1,980 feet from east and 690 feet from south lines of section 29, block 36, T-5-S, T&P survey.

L. B. Jackson Company of Midland spotted location for a wildcat in Northwest Reagan County, three miles south of the Aldwell-Spraberry field.

It will be dug as No. 1 F. A. Bird, 690 feet from north and east lines of the northwest quarter of section 33, block C, L&SV survey. It is to go to a possible bottom of 8,000 feet for a test of the Spraberry.

Werner-Floyd Rowan Drilling Company No. 2 W. H. Wilde is a slated 8,700-foot test in the Werner-Floyd field of Northwest Reagan County. It will be drilled 690 feet from south and west lines of section 33, block 37, T-5-S, T&P survey.

One and one-half miles south of the Aldwell-Spraberry field of Northwest Reagan County, Lion Oil Company staked locations for two more Spraberry tests.

The firm's No. 5 Mrs. Ruby J. Wright will be 1,980 feet from north and 690 feet from west lines of section 21, block C, L&SV survey.

Lion No. 6 Mrs. Ruby J. Wright will be dug 1,980 feet from north and 1,980 feet from west lines of the same section.

Phillips Phillips Petroleum Company staked sites for five projects in the Tex-Harvey field of Central-East Midland County.

All will be drilled in section 35, block 37, T-3-S, T&P survey and will carry the name of Beth.

No. 8-A is 690 feet from west and 1,987 feet from south lines of the section. No. 9-A is 664 feet from north and 1,975 feet from east lines. No. 10-A is 663 feet from north and 1,975 feet from west lines of the section. No. 11-A is 690 feet from west and 662 feet from north lines of the section and No. 12-A is 660 feet from north lines of the same section.

In Southwest Glasscock County and in the Driver-Spraberry field, Tide Water Associated Oil Company No. 2 Norma R. Calverley is to be dug as a 7,500-foot Spraberry test. Site is 690 feet from south and 1,980 feet from east lines of section 3, block 36, T-5-S, T&P survey.

Piacid Oil Company No. 2 William Howard is to be drilled as a two-location east offset to the same concern's No. 1 Howard, wildcat in Southwest Glasscock County which is now in the Spraberry testing for production.

No. 3 Howard will be dug 690 feet from north and 1,975 feet from east lines of section 30, block 35, T-5-S, T&P survey.

Texas Crude Company No. 4-15 J. W. Driver is a new test in the Driver-Spraberry field of Southeast Midland County. It is 690 feet from south and east lines of the northeast quarter of the southwest quarter of section 15, block 37, T-4-S, T&P survey.

Superior The Superior Oil Company No. 3-44 Wraga-Hendrickson, 690 feet from north and 1,980 feet from west lines of the lease in section 44, block 36, T-3-S, T&P survey and in the Tex-Harvey field of Central-West Glasscock County, was completed for a daily flowing potential of 216.8 barrels of 36.2-gravity oil of Hydracrac.

Don E. O'Shaughnessy is division manager in Midland for Lario and affiliated oil concerns.

Lario is affiliated with Globe Oil & Refining Company and with Amcan Oil Corporation. The new Permian Basin division superintendent will handle the production work of all three concerns in this territory.

Wallace (Pete) Montgomery has joined the Lario-Globe-Amcan organization as a scout. He will start work at once.

Don E. O'Shaughnessy is division manager in Midland for Lario and affiliated oil concerns.

and a trace of water. Gas-oil ratio was 612-1 and tubing pressure was 200 pounds. Choke size was one-half-inch. Operator used 4,000 gallons of Hydracrac.

Upton And Lea Continue To Lead Permian Basin Sector In Active Rotary Projects

Upton and Lea Counties continued to be number one and two in the semi-monthly survey of rotary drilling rigs in the West Texas and Southeast New Mexico areas of the Permian Basin. The survey is taken by Reed Roller Bit Company.

On October 1 there were 99 rigs operating with rotary equipment in Upton County and 83 in Lea County. Upton County jumped from 96 in September 15 and Lea County moved up from 82.

Midland slipped past Glasscock to gain third spot after being ousted by the latter September 15. Midland, on October 1 had 68 rotaries, the same as the count 15 days earlier. Glasscock lost from 75 to 61, but dropped no lower than fourth.

Ector County followed Glasscock with 52 operations. Next in line was Scurry County with 32, an increase of one over the September 15 count. The total number of rotaries operating in the area covered by the Reed survey on October 1 was 678. That showed an increase of five during the 15 days since September 15.

One year ago, on October 1, there were 872 active rotaries in the area. Other counties included in the Reed survey, with September 15 figures listed first and October 1 figures listed second, were: Andrews, no count—29; Borden, 8-12; Crane, 12-11; Gaines, no count—21; Howard, 22-16; Kent, 12-11; Martin, 5-4; Pecos, 12-15; Terry, 8-13; and Reagan, 20-19.

GEOLOGY CLUB AT TEXAS TECH ELECTS OFFICERS

LUBBOCK—New officers of the Texas Tech Geology Club are Jerry Raun, Odom, president; Don Ford, Murchison, vice president; Wade Hardisty, Crosbyton, secretary; Bob Morris, Electra, treasurer; Don Wade, Fort Worth, reporter; and Thomas Biggs, Colorado City, social chairman.

Mayor Pickett Signs Midland Oil Progress Week Proclamation

Mayor Perry D. Pickett Saturday proclaimed October 14-20, inclusive, as Midland Oil Progress Week.

The observance has been officially recognized, said the proclamation, so that oil men who live and work in this city and adjacent areas may give an annual report to the public on the ways in which they are making more and better petroleum products available to meet the growing civilian and military needs of the United States.

The proclamation added that, during the week, those engaged in marketing, transporting, refining and producing petroleum products plan to arrange exhibits and engage in other activities showing how they contribute to our high standards of living and our domestic freedoms.

In conclusion, Mayor Pickett reminded all the residents of Midland of the many services and contributions which the petroleum industry make to the betterment of our public, social, business and private lives, as well as to the security of our beloved country.

A group of special events, such as film showings, luncheons and speeches to community audiences by oil men will mark Midland Oil Progress Week, according to John Ed Cooper, chairman of the Midland County Oil Industry Committee.

Other members of that group include Jess V. Lindsey, Charles M. Chase, Frances E. Weaver, E. M. Brazelton, W. B. Neely, Jr., Mrs. Joe Beakley, Richard E. Gie, R. F. Peters, John Fletcher, Reese Cleveland, J. H. (Harvey) Herd, W. D. Anderson, Delbert Downing, Frank Monroe, Leslie Hines, Tom Flew-harty, Paul L. Davis, J. P. (Pat) Ruckman, O. C. Harper, S. M. Erskine, J. Ed Warren, and Dr. V. P. Neisli.

Large Attendance Is Expected For MGS Barbecue

A large number of oil field service concerns are co-operating with the Midland Geological Society on its annual barbecue and outdoor social to be held Saturday at Cole Park in Midland.

An attendance of at least 500 is expected for the affair. It will start at 4 p.m. Games and contests will be followed by a chuck wagon barbecue.

Allen Ehlers, president of MGS said that all who plan to attend should secure tickets immediately.

A definite count of the number of persons who will be present will have to be given to the caterers Monday, Ehlers said.

Tickets Available Tickets may be obtained from Fred Forward, Phillips Petroleum Company; Clem George, Anderson-Prichard Oil Corporation; L. E. (Ed) Pettit, Louisiana Land & Exploration Company and Charles Anderson, 410 First National Bank Building.

Among the oil field service concerns co-operating in staging the affair are: Schlumberger Well Surveying Corporation, West Texas Electrical Log Service, Dowell, Inc., The Western Company, Permian Basin Sample Laboratory, Rotary Engineering Company, Rotary Engineers Laboratories, Diamond Well Drilling Company, Halliburton Oil Well Cementing Company, Muldrow Reproduction Company, Hughes Tool Company and Lane Wells Company.

Spraberry Drilling Plan Is To Be Presented Thursday

A suggested drilling plan for the Spraberry Trend of the Midland Basin will be presented to operators and land owners at a meeting Thursday in Midland by a special operators committee appointed by Arch Rowan to study and make recommendations to Spraberry operators and land owners.

The gathering will be at 1:30 p.m. in Hotel Scharbauer.

The special committee was appointed by Rowan at a recent meeting of Spraberry operators in Fort Worth.

J. Howard Marshall, chairman of the committee, emphasized that these suggestions and recommendations, while adopted unanimously by the committee, did not represent the exact views of any individual on the committee, but were proposed as a reasonable compromise of conflicting points of view after consideration by the committee of the present shortages of critical materials, possible pipe line protraction, the position of land owners and small operators, the prevention of waste and the protection of correlative rights.

RRC To Decide The committee pointed out that of course the decision as to what specific type of spacing and production orders should be issued to regulate the development and production of the Spraberry was a matter for the Railroad Commission, but that it is hoped the principles embodied in such general suggestions and recommendations may be approved by Spraberry operators and other interested in this production would prove helpful to the commission.

All those interested in Spraberry production are urged by the committee to attend, at which time the following report of the committee will be presented for discussion and consideration:

Wells may be drilled on a 40-acre or an 80-acre spacing pattern at the option of the operator, and the Railroad Commission's steel conservation order shall not apply to a well drilled on a 40-acre pattern. The proration unit shall be 80 acres.

The allocation formula shall be 50 per cent to acreage and 50 per cent to well, and the allowable of a well drilled on a 40-acre spacing pattern shall be calculated on the basis of such formula; provided, however:

(1) Each well which, on the effective date of this order, has been completed as a producing oil well or is in the process of being drilled and is located on a 40-acre spacing pattern, and each well thereafter drilled on an adjoining tract under separate lease ownership of record October 1, 1951, and on a 40-acre spacing pattern as a direct offset

thereto, or as a direct offset to a well drilled on a 40-acre spacing pattern in a Spraberry area, to which this allocation and spacing rule is not applicable, shall have an allowable of the same number of barrels of oil per day as one well producing from an 80-acre proration unit; and,

(2) A well drilled on a lease of record on October 1, 1951, and covering less than 80 acres of land, but not less than 40 acres of land, shall have an allowable of the same number of barrels per day as one well producing from an 80-acre proration unit; and,

(3) Each well drilled after the effective date of this order on an adjoining tract under separate lease ownership of record October 1, 1951, and on a 40-acre spacing pattern as a direct offset to a well coming within the provisions of (1) or (2) above, shall have an allowable of the same number of barrels of oil per day as one well producing from 80-acre proration unit.

When the average calendar day allowable per well of two wells on 80-acre units is reduced to 50 barrels or less for calendar day, the allocation formula shall be 100 per cent well.

These rules shall apply only to the Spraberry area in Midland, Glasscock, Upton, Crockett, and Reagan Counties, Texas, lying south of the south line of township 3 south in Midland and Glasscock Counties, Texas.

This order shall be a temporary order for a six months' duration, and the presently existing rules affecting the area subject to this order shall again be in effect at the expiration of the six months unless further action is taken at that time to extend the effective period of these temporary rules.

Midland Man W. P. Z. German, Jr., Midland attorney of the firm of Perkins, German, Mims and Bell, was one of the nine men who composed the committee which formulated this recommended plan. German stated, "It would be difficult to improve upon the general statement released by Marshall, but perhaps emphasis should be placed on the fact that the committee explored every suggestion received by the various members of the committee before finally deciding to recommend any particular course of action."

"Suggestions of royalty owners, small independent operators, large independents and major companies were given serious consideration. I think that it should be pointed out that the recommendation of the committee is based upon a six

months' order," German said, "and one of the reasons why the committee felt that any recommendation which the operators and land owners make to the railroad commission should suggest an order of short duration is that no one of the committee members agreed that each provision of the recommendation is what he might desire."

"The committee was made aware, through its members, of various contractual and other circumstances existing between lessors and lessees and others interested in what would appear to be the Spraberry area, and it was felt that equity would better be served by limiting any plan to one of short duration so that the railroad commission and all persons interested in the Spraberry will have a definite and certain opportunity within a short period of time to uncover defects in the plan and perhaps modify it to correct unforeseeable inequities."

Urged To Attend German urged that every person with any interest in the Spraberry area give thorough study to the recommendation of this committee, and be prepared to attend and participate in the discussion of the matter when the committee report is made at the meeting in the Scharbauer Hotel in Midland next Thursday at 1:30 p.m. The very purpose of holding the next general meeting in Midland is to encourage and make it easy for land owners and royalty owners of the West Texas area, as well as operators, to attend this meeting, German said.

Livermore Organizes New Oil Concern; Will Do Contract Drilling

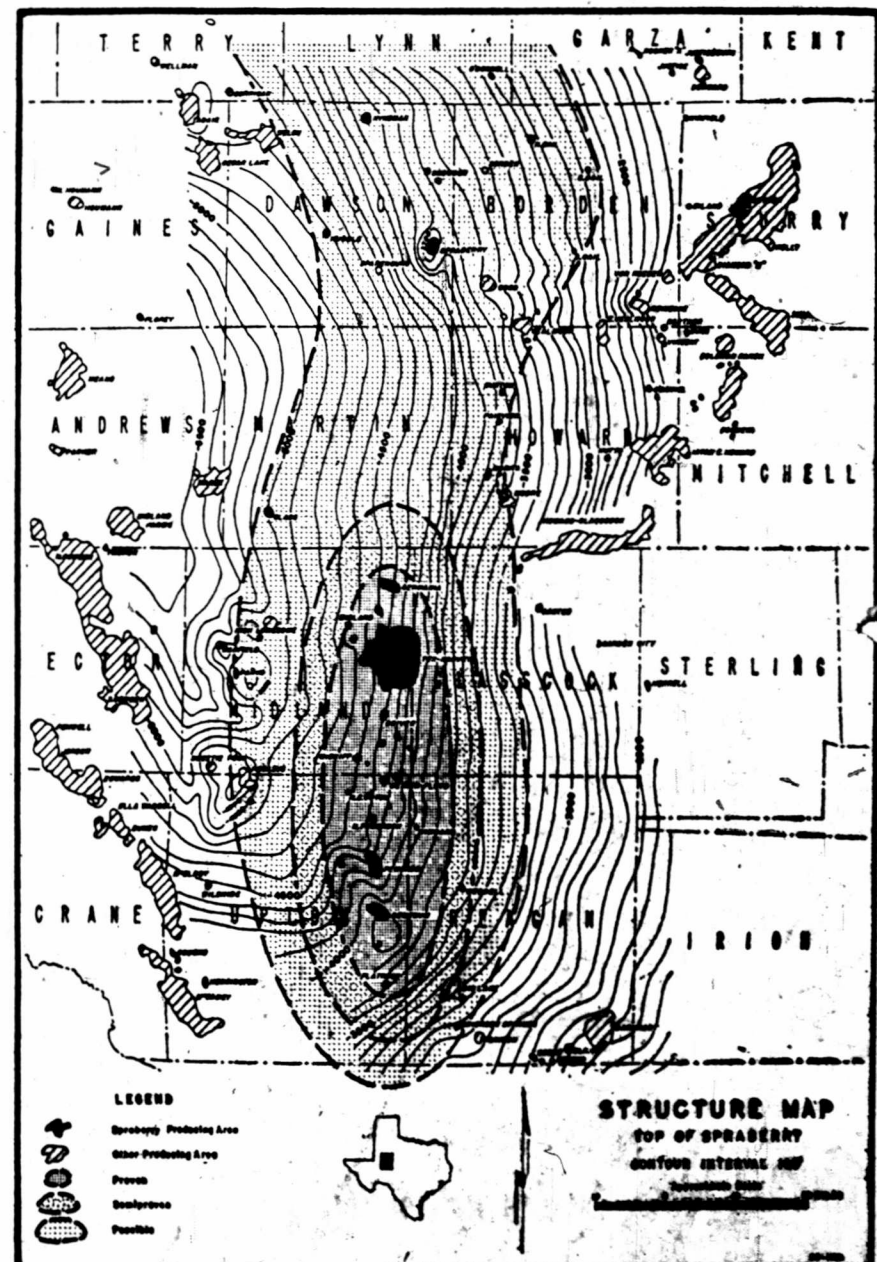

George P. Livermore of Lubbock has organized the George P. Livermore Oil Company. The concern will engage in contract oil drilling.

Livermore announced that he had ordered three new rotary rigs and would have them ready to go to work before December 1.

Offices for the new concern have been opened in the Lubbock National Bank Building in Lubbock.

Livermore is a pioneer oil operator and drilling contractor in the Permian Basin. He resigned recently as president of George P. Livermore, Inc., and of Great Western Producers, Inc.

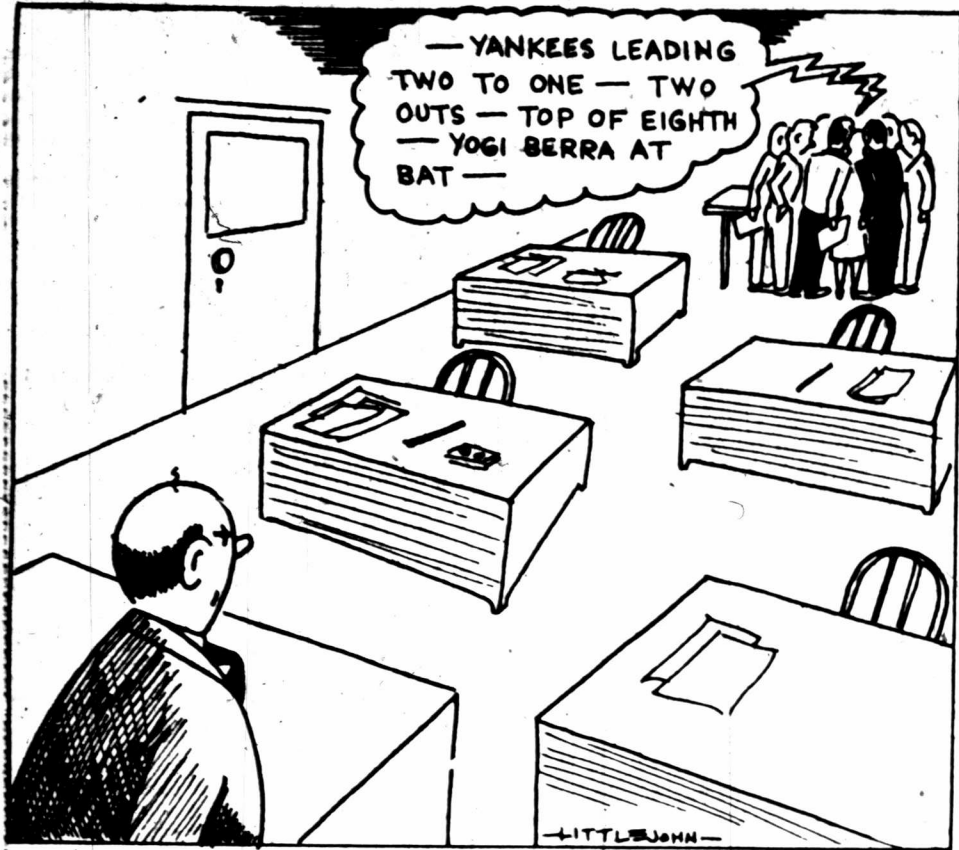

Both those concerns are corporations in which Livermore had stock interests.

SPRABERRY—Structure map of the vast Spraberry Trend of the Midland Basin in West Texas is pictured above. Some oil men now estimate the area may cover 2,000,000 acres, making it the world's largest oil reservoir in area. It also has been estimated that 1,000,000 acres already are semi-proven.

Washington Oil— 'Where To Get More Oil' Pops Up As Immediate Concern Of Congress, PAD

By JOSEPH HUTTLINGER Reporter-Telegram Washington Oil Correspondent WASHINGTON—The problem of where to get more petroleum popped up last week as an immediate concern of the Congress, the Petroleum Administration for Defense, and in a Tariff Commission hearing.

In the corridors of Congress, the word got around that military demand, in the event of war, might reach well above 3,000,000 barrels daily, the highest estimate yet put forth. The source was unimpeachable.

The estimate, it is understood, served to turn back the drive against the depletion allowance by the weighty Senate vote of 71 to 9. The vote was so lopsided that chances are the law allowance is safe for years to come.

The PAD held forth little hope, meanwhile, of finding new crude sources at once enabling the United States to share back production to avert wastage.

Even further world petroleum shortages may be ahead, wrote Bruce K. Brown, deputy PAD head, to S. L. Digby of the Louisiana Conservation Department.

Digby had written the State Department his state's intention to shut back production to the August level of \$60.994 barrels daily by next November. Ernest O. Thompson, Texas Railroad commissioner, wrote Secretary of State Dean Acheson of "terrible damage" being done in Texas. He appealed for speedy settlement of the Iranian dispute.

The State Department is expected to send unspecific replies speedily. Undaunted, however, coal producers and the Independent Petroleum Association of America went before the Tariff Commission to fight a planned reduction in tariffs on Venezuelan crude oil to about five cents a barrel.

Executives of eight American oil companies, of four marketing associations, and of Petroleum Mexicanos went before the Tariff Commission last week and endorsed a reduction to 5.25 cents a barrel in the duty on crude oil and residual oil imports from Venezuela.

The duty now is 10.5 cents a barrel. There is neither a need or justification for further reduction of concessions as to petroleum import duties," said Brown. The coal association went much further, and asked the commission to recommend use of the "maximum import tax on residual," that residual imports be limited to five per cent of domestic demand, and that action start looking toward a tax of \$1.05 a barrel on residual in the future.

ing oil import duties to the minimum level. It is significant that only one petroleum producing association put in an appearance. Future Demands Cited

The situation was summed up succinctly by Harding, who said: "The increase since the end of the war has averaged between six per cent and seven per cent a year. If in the period from 1952 on to 1960, the increase is at least half that rate—say three per cent a year—the total United States demand by 1960 will nevertheless have reached more than 10,000,000 barrels daily with say 9,000,000 daily by 1955. There would seem to be every reason to believe that these are reasonable expectations.

"With the probability of a demand increase of almost 5,000,000 barrels a day in the 15 years ending in 1960, or of 3,200,000 barrels a day in the 10 years ending in 1960, it seems obvious that imports will have a very important role to play in our domestic oil economy. Under such circumstances, it would surely be unwise, to say the least, to place improper impediments in the way of continued development of foreign sources of supply by American nationals."

New Twist Considered A new twist was to be considered in that the Tariff Commission, under the law as changed last year, is directed to consider the impact of imports not only on domestic production of oil, but also on "directly competitive" products. This section, quietly slipped into the law, was designed to give coal the right to protest to imports of oil, a right of which it is taking every advantage in the tariff hearing.

While the Tariff Commission must consider the impact on coal, its recommendations may be ignored by higher authorities, including the President of the United States, under the law, although the President ignored the commission finding. The finding of the commission of a "peril point" below which a tariff may not go without harm to domestic industry is only the first, and most public step in tariff negotiation. After that, a series of interdepartmental committees, and the State Department takes over.

The next day Russell B. Brown, counsel of the Independent Petroleum Association of America, Robert E. Lee Hall of the National Coal Association, and William H. Maddox of the Property Owners Committee of Washington, D. C., on behalf of coal producers, urged the commission to stand pat against any reduction in the present tariff.

"There is neither a need or justification for further reduction of concessions as to petroleum import duties," said Brown. The coal association went much further, and asked the commission to recommend use of the "maximum import tax on residual," that residual imports be limited to five per cent of domestic demand, and that action start looking toward a tax of \$1.05 a barrel on residual in the future.

The world petroleum supply situation, of course, is such that most impartial observers, and several government agencies, favor reduction of the tariff.

Construction on the plant, which extracts casinghead gasoline and other by-products from natural gas, was begun in July 1960. It went into operation in June 1961.

SNYDER (P)—Dedication ceremonies for the \$8,000,000 Snyder gasoline plant will be held Oct. 24. Sunray Oil Corporation operates the plant for 30 companies and 60 individuals owning leases in the Kelly-Snyder pool.

Wind-Up Session Is Slated Monday For Texas' Oil Birthday

BEAUMONT—The year's wind-up event, the 50th Anniversary celebration of the birth of Texas' booming petroleum industry begins here Monday when the state's oil and gas operators assemble for the 32nd Annual Meeting of the Texas Mid-Continent Oil & Gas Association.

Oil and gas operators, industry leaders and high government officials from over the nation will be drawn by a combination meeting which includes the annual get-together of the state's largest oil men's organization, the dedication of a new engineering building at Lamar State College of Technology and an important statewide meeting of the Railroad Commission of Texas.

The event will pay tribute to the famous Spindletop discovery of 1901, the year the Texas petroleum industry was born.

Speakers will include Secretary of the Interior Oscar L. Chapman; Secretary of the Army Frank Pace, Jr.; W. Alton Jones, president of Cities Service Company and chairman of the American Petroleum Institute; L. S. Weacoat, president of The Pure Oil Company; Ladd Haywood, agricultural counselor for the American Petroleum Institute; and R. B. Anderson, president of the

Texas Mid-Continent Oil & Gas Association.

Monday morning speakers and their subjects will be: R. B. Anderson—"Beds of Texas Prosperity;" and W. Alton Jones—"Communist Is a Communist Don."

The association's Distinguished Service Awards will be presented during the morning session.

Monday afternoon speakers will be Ladd Haywood, who will present "What's Ahead for Petro-Agriculture," and L. S. Weacoat—"Can Petroleum Do Its Job?"

Election of officers will be held during the afternoon session, also. Secretary Pace will speak at the annual directors' dinner, Monday night.

Secretary Chapman will dedicate the new Lucas Engineering Building at Lamar Tech Tuesday morning.

Following the ceremonies, members will inspect refinery and chemical plant facilities en route to Fort Arthur for lunch. Others will participate in the Annual Golf Tournament at the Beaumont Country Club.

The Texas Railroad Commission will hold a statewide hearing in Beaumont Hotel, Tuesday, at 3:00 p.m.

The annual membership dinner—the Spindletop Boom Town Jamboree—will be held Tuesday night in the Harvest Club at the South Texas Fair Grounds. Atmosphere at the dinner will be in keeping with early Spindletop boom days.

OIL MAP AVAILABLE

A new Andrews County map showing all completed wells, active drilling projects, land, lease and mineral owners is now ready for distribution by the Midland Map Company.

It is available on paper or cloth.

Permian Basin OIL & GAS LOG
James C. Watson
Oil Editor

(Continued From Page One) miles southeast of the possible new field opener.

It is projected to 3,100 feet with rotary tools.

Location is seven miles southeast of Olvryn and 600 feet from north and 1,900 feet from west lines of section 45, block 12, H&GN survey.

Mitchell Wildcat Flowing To Test

Richardson & Bass No. 1 McCabe, wildcat in Southeast Mitchell County, is flowing to test through perforations in the Pennsylvanian sand at 4,045-4,060 feet.

On the last gauge reported, it made an estimated six to seven barrels of oil per hour. Flow was through a one-quarter-inch choke.

Location is 600 feet from north and east lines of section 5, block 12, H&TC survey and 20 miles southeast of Colorado City. That makes it five miles north of the Jameson field.

W-C Upton Tester Finds More Shows In Pennsylvanian

Greenbrier Oil Company, Mendota Oil Company and Anderson-Prichard Oil Corporation No. 1 R. S. Windham, West-Central Upton County wildcat, is drilling below 100 feet in the Pennsylvanian after a drillstem test from 10,134 to 10,170 feet developed more shows of production.

Tool was open two hours. Gas surfaced in 22 minutes. There was a strong blow throughout the duration of the test. Recovery was 300 feet of oil and no water. Shut-in bottom hole pressure after 20 minutes was 3,425 pounds.

Operator called tentative top of the Strawn at 9,900 feet, datum point minus 7,968 feet. Porosity was encountered at 10,110 feet.

Location is at the center of the southwest quarter of the southwest quarter of section 108, block D, OCS&RNG survey.

Lower Spraberry Yields Petroleum In NW Reagan Area

Humble Oil & Refining Company No. 1 Eva Woods, project one location north of the discovery well of the Aldwell-Spraberry field of Northwest Reagan County, is at total depth of 7,728 feet in the lower Spraberry flowing to test for completion.

The last two hours gauged, the project made 74 barrels of fluid in two hours. It was 90 per cent new oil and 10 per cent formation water. The section being tested was given a Hydratrac treatment.

The discovery well of the field is producing from the upper Spraberry. That section has not been tested in No. 1 Woods.

The Humble project is 600 feet from south and west lines of section 10, block C, L&SV survey.

New Gas Producer Listed In McCulloch

Prince Brothers & Gehle No. 1 W. C. Johnson, wildcat in West-Central McCulloch County, has been completed as a new gas well.

The well was finished for a daily flow of 1,500,000 cubic feet of gas through a 14/64-inch tubing choke. Production is coming from perforations between 1,591 feet and 1,612 feet. Total depth of 1,674 feet.

Location of No. 1 Johnson is 330 feet from south and west lines of section 10, block 12, A Neundorff survey and 1.5 miles northeast of the Jameson field.

O. H. ... Dallas has ... 2,000-foot rotary wildcat.

It is No. 1 W. H. Bloomer. Location is one and one-half miles southwest of Lohn and 150 feet from south and 351 feet from east lines of the 104.7-acre lease in John Patrick survey No. 1053.

Scores of messages can be sent at the same time—and in both directions—over modern submarine cables.

Midland Wildcat Is Pulling Tool On DST

The Mackintosh & Nichols Company is coming out of the hole with tool after a drillstem test at 11,060-100 feet in the Pennsylvanian on the No. 1 Hoffmann, wildcat in North-Central Midland County, was and one-half miles northwest of the city of Midland.

Tool was open 50 minutes on the test. There was a slight blow of air for 30 minutes.

Location is 1,900 feet from south and 600 feet from west lines of section 10, block 22, T-1-S, T&F survey.

Coke Project Gets Oil Shows In DST

Sun Oil Company No. 1 Blank-Parkins Unit, southwest offset to the recent discovery in the South Logan-Caddo field of Northwest Coke County has developed some shows of production on three drillstem tests.

One test from 4,011 feet to 4,088 feet, with the tool open three hours, recovery was 26 feet of gas out drilling mud with a rainbow show of oil and no water.

Operator drilled stem the section at 4,008-4,028 feet. Gas came to the surface in 48 minutes. Tool was open three hours. Recovery was 100 feet of clean oil and 150 feet of oil and gas out mud which was estimated to be 85 per cent oil.

Recovered Oil Recovery was 20 feet of 41.4-gravity oil and 75 feet of oil and gas out mud, estimated to be 80 per cent oil, on a one-hour test at 4,007-4,018 feet. Gas surfaced in 54 minutes.

All these drillstem tests were taken in the Pennsylvanian sand.

Operator is now drilling ahead below 4,000 feet.

Location is 1,900 feet from north and 600 feet from east lines of S. M. Conner survey No. 72.

NE Runnels Gets Two Prospectors

Two wildcats have been staked for immediate drilling in Northeast Runnels County.

Warren Oil Corporation spotted its No. 1 John W. Harris 1,263 feet from north and west lines of section 10, block 22, F. Veyersal survey.

Location is 1,500 feet from north and 600 feet from east lines of section 10, block 22, F. Veyersal survey.

North-Central ... Plains Corporation ... No. 1 N. J. Whitley.

Drillsite is 1,300 feet from north and 1,190 feet from east lines of the Isaac P. Wallace survey No. 139 and three miles southeast of Crews.

Projected depth is 5,000 feet. Rotary tools will be used to drill the test.

Oilers' MER In Tex-Harvey And Germania Set By RRC At Not Less Than 121 BOPD

The Railroad Commission of Texas last week determined the maximum efficient rate of production of wells in the Tex-Harvey and Germania fields in Midland County is not less than 121 barrels per day.

On July 12, the commission issued a show-cause order requiring all interested persons to appear on August 17 to show that the 121 barrel per well allowable should not be reduced and based on a top per well allowable of 83 barrels per day for a period of six months to determine the effect of the lower rate of production upon the efficiency of the recovery mechanism in these fields.

That order was issued upon the recommendation of the commission's engineering department as a result of a study of the reservoir pressures submitted by the operators in these fields earlier this year.

At the hearing held in Austin on August 17, W. F. Z. German, Jr., Midland attorney representing the Home-Stake Companies of Tulsa and acting in cooperation with Texas Crude Company and others, presented testimony in opposition to the reduction of the MER in these Spraberry fields.

The basis for the opposition was engineering data indicating that the Spraberry sands are unique in that they are of extremely low permeability, relatively low porosity and are highly and irregularly fractured.

The data presented further indicated that the sands and not the fractures contain the bulk of the oil storage capacity, and that reservoir energy in these fields is furnished by solution gas.

John L. Cox, petroleum engineer for Texas Crude Company, and L. F. Peterson, consulting engineer of Midland, testified that in their

... would tend to cause waste of that being caused at rates of production, and probably result in smaller recoveries of oil from the reservoir.

In testimony given at the MER hearing, the MER of an MER for based on a top

Slaver Is Named District Geologist On Honolulu Staff

A. D. (Donnie) Slaver has been promoted to district geologist with Honolulu Oil Corporation in the company's Midland office. He has been employed by Honolulu for the last three and one-half years.

This announcement was made by Alden S. Donnelly, of Midland, vice president of the corporation and manager of its Mid-Continent Division.

Slaver's promotion became effective October 1.

Rotary ENGINEERING Well-Logging Service!

2-way Radio Communication

from your well to Midland Headquarters (within workable range)

Here's important news for operators, drillers, engineers, and geologists! The ROTARY ENGINEERING Well-Logging service now offers 2-way radio communication systems for all ROTARY Well-Logging units. You can literally be "right on the spot," even though miles away. You can make those important decisions without delay, without loss of time, without unnecessary shutdowns. You can keep in constant touch with "what's going on at the well."

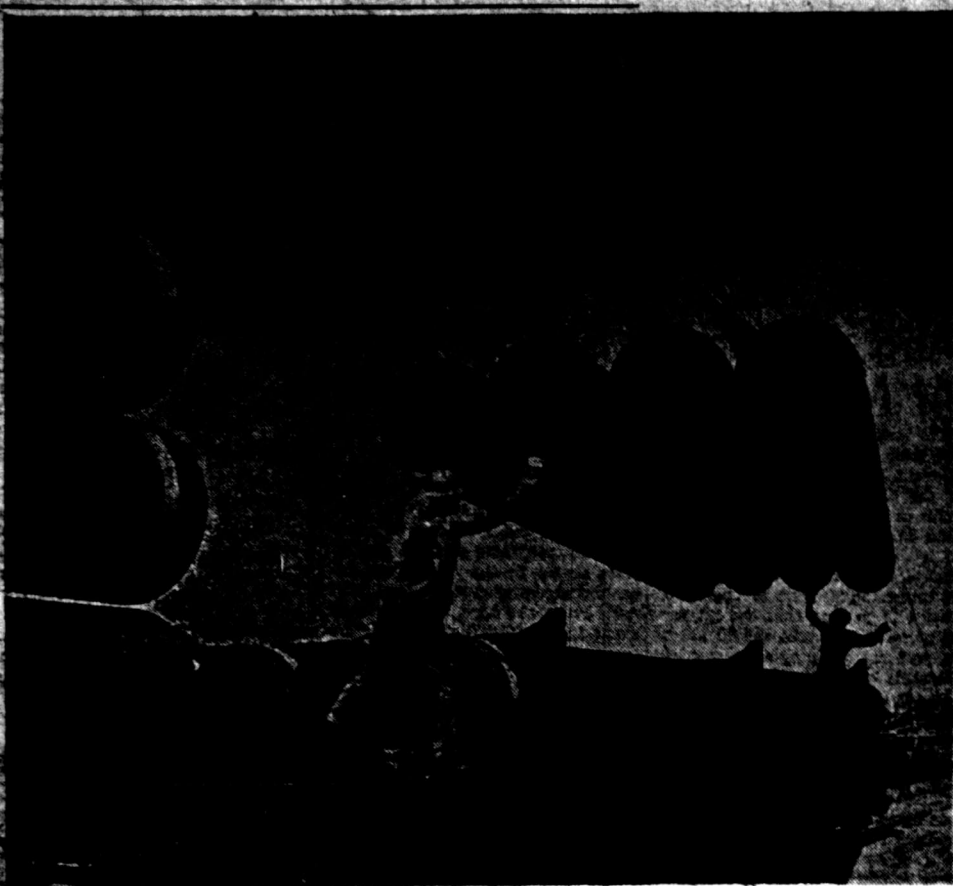

- THIS SERVICE "PUTS YOU ON THE SPOT" by giving immediate news of any shows or changes
- YOU CAN KNOW EVERY CHANGE ON THE SPOT AS IT OCCURS by use of this new ROTARY ENGINEERING service.
 - YOU CAN MAKE IMPORTANT DECISIONS WITHOUT DELAYS, minimizing shutdowns and lost time.
 - YOU CAN KEEP IN CLOSER TOUCH WITH WELL'S PROGRESS and have fingers on your wireless operations at all times.
 - YOU CAN RECEIVE DAILY SCHEDULED WELL PROGRESS REPORTS, as well as unscheduled reports of needed repairs, supplies, mud control, or shutdowns.

BIG INCH—Like a battery of fantastic gun barrels, sections of 30-inch pipe go aboard a railroad flatcar. This huge pipe is destined for Shell Pipe Line Corporation projects across the nation. Many hundreds of miles of such pipe will be laid during the next year by Shell and other companies to help meet the ever-increasing civilian and defense demands for petroleum products.

A&M's Graduating Engineers Choose Work Preference

COLLEGE STATION—Harold Vance, head of the petroleum department, Texas A&M College, has completed a survey of the seniors in his department.

Forty-seven students in the department expect to get degrees in 1952, four of them in February, 41 in June and four in the summer.

Thirty-seven expect to receive a bachelor of science in petroleum engineering, three a bachelor of science in petroleum engineering and mechanical engineering, 13 a bachelor of science in petroleum engineering and geological engineering and two a bachelor of science in petroleum engineering and business administration.

Twelve of the 49 have had military service, ranging from 13 to 40 months, and two held commissions.

Thirty-four have or will have on date of graduation, a commission as a reserve officer.

Nine of the students express preference for work in foreign countries; 25 prefer to work for major companies; 17 prefer independent oil operators as employers, and seven, drilling contractors.

Mitchell Securities Opens Offices In Allen Building Here

The Mitchell Securities Corporation, organized by Bancroft Mitchell to conduct a general investment brokerage and advisory business, with emphasis on oil securities and oil royalties, has established its office at 129 Allen Building in Midland.

The firm is the correspondent in Texas for A. M. Kidder & Company, members of the New York Stock Exchange and other principal stock and commodity exchanges.

The firm here will communicate directly by teletype with the Kidder company in New York, with other financial centers, and with oil companies.

A. M. Kidder & Company was organized in 1925, and its capital funds last April totaled \$23,964,341. C. V. Bay of the Bay Petroleum Corporation is the senior partner in the Kidder firm.

Bancroft Mitchell is a graduate of Princeton and attended the Harvard Graduate School of Business Administration, and the Graduate School of Banking. He has had wide experience in the investment field, having been associated with several of the nation's largest investment firms and banks.

The firm's New York Council is William D. Mitchell, father of Bancroft Mitchell, and attorney general of the United States in the Hoover Administration. He was the only Democrat in the Hoover Cabinet.

The firm's Midland counsel is Perkins, German, Mims and Bell.

Oilers, Drillsites Given Tex-Harvey In Midland, Glasscock

Four new producers and drillsites for four more tests have been added to the Tex-Harvey field of Central-East Midland and Central-West Glasscock Counties.

In the Midland County side of the field, A. N. Hendrickson and Midland will drill No. 1-31-A and No. 2-31-A. C. A. McClintock. Both will be drilled in section 31, block 36, T-3-S, T&P survey.

No. 1-31-A will be dug 1,250 feet from north and 900 feet from west lines of section 31.

No. 2-31-A will be drilled 1,200 feet from north and east lines of section 31.

Approximately one mile north and slightly west of Devonian production in the Denton multipay field of Central-East Midland County, Phillips Petroleum Company completed No. 1-17-A for a daily flowing potential of 1,344 barrels of 47.5-gravity oil.

Production was through a one-half-inch tubing choke and perforations opposite the Devonian at 12,564-639 and 12,568-710 feet.

Tubing pressure was 600 pounds and gas-oil ratio was 1,238-1.

This new extension to Devonian production in the Denton field is 664 feet from north and 900 feet from east lines of section 34-14-37e. That puts it 11 miles northeast of Lovington.

Magnolia Petroleum Company has completed a one and one-half mile west extension to the Pennsylvanian production in the Cross Roads multipay field of Northeast Lea County.

It flowed 243 barrels of 47.8-gravity oil daily through a 24/64-inch tubing choke and perforations from 9,813 to 9,826 feet. Gas-oil ratio was 1,913-1. Location is 660 feet from north and east lines of the northwest quarter of section 29-9s-36e.

One-half mile east and slightly north of Magnolia No. 1-D Santa Fe, the same operator is to re-enter and deepen a San Andres fracture on total depth of 4,886 feet.

It will be deepened as the No. 1-A-1 Santa Fe, 660 feet from south and east lines of section 20-9s-36e. It will go to around 9,700 feet for a test of the Pennsylvanian.

The Texas Company staked two offsets to Amerada Petroleum Corporation No. 1-ECA State, recently completed Devonian discovery in Northwest Lea County, five and one-half miles west of the Bagley-multipay area.

One location west of the Amerada well, Texas will dig 1-18A State, 600 feet from north and west lines of section 14-12s-22e. A north offset to the discovery is No. 1-18B State, 600 feet from south and 1,900 feet from west lines of section 11-12s-22e.

Amerada Petroleum Corporation No. 3 Mather is a new producer in the Saunders field of Central-West Lea County. It was completed for a 24-hour flowing potential of 206 barrels of 46-gravity oil. Gas-oil ratio was 643-1. The final was through a one-half-inch tubing choke and perforations at 9,046-62 feet. That set was washed with 500 gallons of acid. The well is at plugged back total depth of 9,430 feet. Pay was topped at 8,673 feet.

Location is 1,900 feet from south and east lines of section 2-12s-33e.

Phillips Petroleum Company No. 1-F Mabel, located in the Midland County side of the Tex-Harvey field and 600 feet from east and 603 feet from south lines of the lease in section 21, block 37, T-3-S, T&P survey, was completed for a daily flowing potential of 481 barrels of 37-gravity oil through a one-half-inch tubing choke and from open hole at 7,020-7,310 feet. Gas-oil ratio was 298-1 and tubing pressure was 110 pounds. Operator used Hydratrac to complete the well.

Tippetts Land & E. E. Fagelson and Edwin W. Fauley No. 4 Tippetts is a new offset in the North Pembroke field of Northeast Upton County. It was completed for a 24-hour flowing potential of 443 barrels of 37.7-gravity oil through a one-half-inch tubing choke and from open hole at 7,110-7,265 feet. That section was treated with Hydratrac.

Location is 600 feet from south and west lines of the northwest quarter of section 1, block M, H&W-T survey.

Stanolind Oil & Gas Company No. 3 O. F. Boyd, projected to 7,000 feet with rotary will be drilled on the southwest side of the Weddell-Sprabery field of Northwest-Central Reagan County.

Conoco Spots Sand Wildcat To 7,800 Feet In C-E Lea

HOBBE, N. M.—Continental Oil Company staked for its No. 2-3-3-3 W. C. Hawk-Federal at the north edge of the Saunders field of Central-East Lea County. It will be dug as a wildcat to 7,800 feet to test for production in the McKee sand of the Stimpson.

The closed production from that formation is two miles to the south. Location for the new test is 2,130 feet from south and 600 feet from east lines of section 7-31s-37e and six and one-half miles northeast of Eunice.

J. Don Hodgson, Inc., Westaway and Montgomery No. 1 State is to be drilled as a 1,700-foot wildcat in Southeast Chavis County. It will be dug 1,900 feet from south and west lines of section 23-12s-22e. That puts it 30 miles southeast of Berwell.

Stanbury & Webb Company No. 1 Jante Kinahan-Federal is to be drilled as a 3,800-foot wildcat in extreme Southeast Eddy County. Drillsite is 600 feet from north and 1,900 feet from east lines of section 30-28s-29e.

Malco Refineries, Inc., has moved in rotary tools to deepen an old San Andres fracture in North-Central Eddy County. It was plugged and abandoned by the same concern on total depth of 4,705 feet. It will be deepened to 8,000 feet for a test of the Pennsylvanian.

The project is No. 1-A State, 330 feet from north and 900 feet from west lines of section 2-18s-27e.

One mile west of Atlantic Refining Company No. 1-AN State, recently completed north extension to the Saunders field of Central-West Lea County, Atlantic spotted location for its No. 1-U State.

It will be drilled as a Pennsylvanian test to 10,000 feet. Site is 600 feet from south and east lines of section 21-14s-32e.

Approximately one mile north and slightly west of Devonian production in the Denton multipay field of Central-East Midland County, Phillips Petroleum Company completed No. 1-17-A for a daily flowing potential of 1,344 barrels of 47.5-gravity oil.

Production was through a one-half-inch tubing choke and perforations opposite the Devonian at 12,564-639 and 12,568-710 feet.

Tubing pressure was 600 pounds and gas-oil ratio was 1,238-1.

This new extension to Devonian production in the Denton field is 664 feet from north and 900 feet from east lines of section 34-14-37e. That puts it 11 miles northeast of Lovington.

Magnolia Petroleum Company has completed a one and one-half mile west extension to the Pennsylvanian production in the Cross Roads multipay field of Northeast Lea County.

It flowed 243 barrels of 47.8-gravity oil daily through a 24/64-inch tubing choke and perforations from 9,813 to 9,826 feet. Gas-oil ratio was 1,913-1. Location is 660 feet from north and east lines of the northwest quarter of section 29-9s-36e.

One-half mile east and slightly north of Magnolia No. 1-D Santa Fe, the same operator is to re-enter and deepen a San Andres fracture on total depth of 4,886 feet.

It will be deepened as the No. 1-A-1 Santa Fe, 660 feet from south and east lines of section 20-9s-36e. It will go to around 9,700 feet for a test of the Pennsylvanian.

The Texas Company staked two offsets to Amerada Petroleum Corporation No. 1-ECA State, recently completed Devonian discovery in Northwest Lea County, five and one-half miles west of the Bagley-multipay area.

One location west of the Amerada well, Texas will dig 1-18A State, 600 feet from north and west lines of section 14-12s-22e. A north offset to the discovery is No. 1-18B State, 600 feet from south and 1,900 feet from west lines of section 11-12s-22e.

Amerada Petroleum Corporation No. 3 Mather is a new producer in the Saunders field of Central-West Lea County. It was completed for a 24-hour flowing potential of 206 barrels of 46-gravity oil. Gas-oil ratio was 643-1. The final was through a one-half-inch tubing choke and perforations at 9,046-62 feet. That set was washed with 500 gallons of acid. The well is at plugged back total depth of 9,430 feet. Pay was topped at 8,673 feet.

Location is 1,900 feet from south and east lines of section 2-12s-33e.

Phillips Petroleum Company No. 1-F Mabel, located in the Midland County side of the Tex-Harvey field and 600 feet from east and 603 feet from south lines of the lease in section 21, block 37, T-3-S, T&P survey, was completed for a daily flowing potential of 481 barrels of 37-gravity oil through a one-half-inch tubing choke and from open hole at 7,020-7,310 feet. Gas-oil ratio was 298-1 and tubing pressure was 110 pounds. Operator used Hydratrac to complete the well.

Tippetts Land & E. E. Fagelson and Edwin W. Fauley No. 4 Tippetts is a new offset in the North Pembroke field of Northeast Upton County. It was completed for a 24-hour flowing potential of 443 barrels of 37.7-gravity oil through a one-half-inch tubing choke and from open hole at 7,110-7,265 feet. That section was treated with Hydratrac.

Location is 600 feet from south and west lines of the northwest quarter of section 1, block M, H&W-T survey.

Stanolind Oil & Gas Company No. 3 O. F. Boyd, projected to 7,000 feet with rotary will be drilled on the southwest side of the Weddell-Sprabery field of Northwest-Central Reagan County.

Drillsite is 600 feet from south and east lines of section 18, block E, H&W-T survey.

Amerada Petroleum Corporation No. 2-3B State is to be drilled as a 3,800-foot project in the Saunders field of Central-West Lea County. Location is 600 feet from north and 600 feet from east lines of section 4-12s-22e.

Edgely Lower No. 2-D Dickinson is to be drilled as a 2,500-foot Wolfcamp project in the Denton-multipay field of Central-East Lea County.

Site was set 1,900 feet from south and 900 feet from west lines of section 26-14s-37e.

John E. Blissom No. 1 Johnson, wildcat in Northwest Eddy County, has been plugged and abandoned as a failure on total depth of 1,394 feet in Delaware Luma. Location was 2,316 feet from south and 230 feet from west lines of section 26-17s-25e.

PB Corrosion Tour To Draw Big Crowd From All Sections

Advance registrations from nine states and Canada indicate the wide interest in the fourth annual Permian Basin Corrosion Tour to be staged October 14-16. The tour, only event of its kind in the field of corrosion, is expected to attract about 200 men.

Field trips in this most active oil drilling and producing region in the world will take visitors to gasoline plants and refineries, production leases, pipe line tank farms, salt water disposal facilities and many similar installations.

Night sessions will be held each day to allow summaries of each visit of each chartered bus load. Talks will be given by experts in corrosion and open discussion encouraged on all types of problems.

A special attraction for visitors from the East and North will be the stork wagon barbecue the closing night.

Advance registrations may be made by mail to Corrosion Tour, Box 2952, Odessa. Registration will be handled from 2 to 6 p.m. and 7 to 10 p.m. October 14 and from 6 to 8 a.m. October 15.

Texas is the leading state in early registrations with Kansas, Oklahoma and New York following. Cities include New York, Detroit, Chicago, Toronto, Louisville, Wilmington, Fort Arthur, Dallas, Houston, Wichita, Ponca City, Tulsa and Wichita Falls.

John Shelton, National Tank Company district manager at Odessa, is chairman of the steering committee. The host will be the Permian Basin section of the National Association of Corrosion Engineers.

The \$18 fee covers both days' bus trips, evening sessions, and itinerary with printed history of each exhibit, the Tuesday night barbecue and a printed report to be mailed after the tour.

The Permian Basin section of the National Association of Corrosion Engineers will meet Monday at 7:30 p.m. in the auditorium of the Gulf Building in Odessa.

This is the last sectional meeting before the fourth annual corrosion inspection tour which will be held October 14, 15 and 16. Final plans and arrangements for the tour will be made at this gathering.

Advanced registration indicates that this tour will have greater attendance than ever before.

Everyone connected with the corrosion business in any way is urged to attend this meet.

E. B. Ray is Chairman, E. A. McClendon is first vice-chairman, R. L. Atkins is second vice-chairman and C. O. Bundrant is secretary-treasurer of the organization.

He is a member of the Dallas Engineers' Club, a past president of the Petroleum Engineers' Club, and is vice chairman of the Southwest Technical advisory committee on Vocational training for the American Petroleum Institute.

Public Auction Is Slated For University Of Texas Lands

A public auction of oil and gas leases on 148 tracts of University of Texas lands will be held by the Board for Lease of The University of Texas Lands to the Stephen F. Austin Hotel, Austin, starting at 10 a.m. November 23.

Included in the tracts are 13 drilling blocks. The purchaser of each of the drilling blocks will be obligated to start a well within 180 days from date of purchase.

Tract No. 17, in Andrews County, comprising nine parcels of land and containing 2,569.13 acres, requires the drilling of a 12,500-foot depth or to commercial production of oil or gas at a lesser depth or to salt water in the Devonian.

Tract No. 26, also in Andrews County, comprising nine parcels of land containing 2,539.31 acres, requires the drilling of a 2,000-foot or San Andres wildcat, or to commercial oil or gas production at a lesser depth.

Tract No. 47, in Martin and Andrews Counties, comprising nine parcels of land containing 2,583.30 acres, requires the drilling of a 5,500-foot or San Andres wildcat, or commercial oil or gas production at a lesser depth.

Tract No. 63, also in Andrews County, comprising eight parcels of land containing 2,649.25 acres, requires the drilling of an 8,500-foot test, or to commercial production of oil or gas at a lesser depth.

Tract No. 68, in Andrews County, comprising eight parcels of land containing 2,694.30 acres, requires the drilling of an 8,500-foot wildcat, or to commercial production of oil or gas at a lesser depth.

Tract No. 88, in Upton County, made up of eight parcels of land, containing 2,660.80 acres, requires the drilling of a 10,500-foot or Ellenburger wildcat, or to commercial oil or gas production at a lesser depth.

Tract No. 113, also in Upton County, comprising seven parcels of land containing 1,407.75 acres will require the drilling of a 7,700-foot or Sperry wildcat, or to commercial oil or gas production at a lesser depth.

Tract No. 114, in Upton and Reagan Counties, comprising five parcels of land containing 1,469.25 acres, will require the drilling of a 7,500-foot or Sperry wildcat, or to commercial oil or gas production at a lesser depth.

Tract No. 115, in Reagan County, comprising seven parcels of land containing 1,514.49 acres, requires the drilling of a 3,500-foot or San Andres wildcat, or to commercial oil or gas production at a lesser depth.

Tract No. 118 in Crockett County, made up of seven parcels of land containing 2,072.59 acres, will require the drilling of a 2,000-foot or San Andres wildcat, or to commercial oil or gas production at a lesser depth.

Tract No. 130, in Crockett County comprising eight parcels of land containing 1,982.40 acres, will require the drilling of a 2,000-foot or San Andres wildcat, or to commercial oil or gas production at a lesser depth.

Tract No. 135, in Crockett County, comprising three parcels of land containing 900 acres will require the drilling of a 1,900-foot or San Andres wildcat, or to commercial oil or gas production at a lesser depth.

Before a skunk uses his defensive liquid he is likely to give warning by hissing, clicking his teeth and patting the ground.

ANOTHER MAJOR ADVANCE—

Rotary Engineering Is Now Operating Its Own Radio Telephone Network

BUEZZING THE OFFICE—Jack Kraemer, operator of a Rotary Engineering Company portable mud logging unit calls the concern's headquarters office in Midland to report on the samples from the wildcat well he is checking. The Rotary logging units now maintain constant communications with the main office by means of the concern's new radio telephone network.

By JAMES C. WATSON
Oil Editor

Another significant advancement in the rapid progress and expansion of Rotary Engineering Company of Midland was taken a few days ago when that concern started operation of its own radio telephone communication system.

That facility, installation of which represents the expenditure of a large sum of money, will make possible immediate, constant and accurate reports to Rotary Engineering Company's headquarters offices in Midland from all of the concern's 26 portable well logging units now working in the Permian Basin.

24-Hour Contacts
The receiving and transmitting equipment is on the desk in each trailer and the man in charge of the trailer can talk to the headquarters office at any and all times—a central office will be operated 24-hours per day.

In addition, all important reports from each of the trailers will be tape-recorded so they can be checked back. This will guard against errors creeping into the reports that are given to the operators or owners of the oil exploration which Rotary's portable units are checking.

The central control unit of the new radio telephone system which has been installed by Rotary Engineering Company is located at its Midland headquarters offices.

A 132-foot tower, with a directional control for its radio waves, has been erected at the Midland office on South Pecos Street.

Extra Range Provided
That tower transmits the radio impulses generated at the Midland control center to a 148-foot tower located on the Big Spring Mountain in the southwest side of the city of Big Spring.

The Big Spring tower was erected and is being used in the Rotary network, because it gives a wider range and a stronger signal than could be secured by use of the Midland tower alone.

The Big Spring tower, and the transmitting unit which is connected with it, provide an automatic relay of all messages going from and coming to the Midland headquarters.

The Midland control station and its tower can send and receive messages in an emergency without the use of the Big Spring tower and station—but such messages would not have the range or the volume they will have when they go to the Big Spring relay.

Has Wide Radius
During the last few days the new system has made satisfactory contacts with a portable well logging unit of Rotary Engineering Company located near Caprock, N.M., with another such unit in Reeves County; another trailer located south of Fort Stockton in Pecos County; another on a well south of San Angelo and one on a location east of Snyder.

Another feature of the Rotary radio telephone system is that each of the trailers in the field can serve as a relay station.

That arrangement works in this manner. Say one trailer is near enough to be in range of the Big Spring relay. That trailer can maintain direct contact with the Midland headquarters, through the Big Spring station.

Another Feature
The trailer in the field can then stay in contact with other trailers which may be inside its range—but which are beyond the Big Spring station.

Thus the trailer which is in direct contact with headquarters can relay reports from the outside units—and thereby greatly extend the effective range of the communications system.

Most of the equipment in the new Rotary network was designed in the company's own electronics laboratory in Midland.

Another Feature
The trailer in the field can then stay in contact with other trailers which may be inside its range—but which are beyond the Big Spring station.

Thus the trailer which is in direct contact with headquarters can relay reports from the outside units—and thereby greatly extend the effective range of the communications system.

Most of the equipment in the new Rotary network was designed in the company's own electronics laboratory in Midland.

The job of building that equipment and of providing other parts of the system was turned over to Motorola Communications.

That concern also assisted in installing the units and setting up the control units and the towers.

The entire system has its own individual power generating units—which were especially designed and built. That feature of the network makes possible its operating when other sources of power are inoperative or unavailable.

That arrangement will allow the Rotary communications system to give service in emergencies—either of a local or of an area-wide nature.

The new facility was designed and installed and will be operated by Rotary Engineering Company to give faster and more efficient service for the oil companies and oil operators for which it logs drilling wells with its portable laboratories.

Through the use of the radio telephone system operators of wells which Rotary is logging can be given quick reports on any developments on their projects which need immediate decisions.

Those decisions can then be made with a minimum of lost time on the rig. The savings such procedure will bring is the major reason Rotary installed the new communication system.

In Charge of Joseph
Art Joseph, manager of Rotary Engineering Company's electronics department supervised the designing, building and installing of the new radio telephone system.

He had the assistance of several of the technicians in his department and of numerous other employees of the concern.

He will direct the operation of the system.

Rotary Engineering Company began operations early in 1944, with one portable well logging unit. Original headquarters were in Midland. Olin R. Prather, Jack E. Bliss, and J. R. (Frenchy) Mayeaux started the concern.

The first well logging unit was operated for Big Lake Oil Company on its No. 1-D University, a deep wildcat in Reagan County, which was completed as a dry hole. Was a Family Job

Mr. and Mrs. Olin R. Prather operated that unit. Prather says they worked around the clock on the unit. During the time that first unit was doing its first job Bliss and Mayeaux were hunting

for more business and doing other things connected with getting the concern completely arranged.

In 1946 R. E. (Dick) Gile acquired Mayeaux's interest in the company and Mayeaux went into another business in another section of the country.

Prather, Bliss and Gile are still the major owners of Rotary Engineering Company and of Rotary Engineering Manufacturing Company, an affiliated corporation.

Others Are Interested
Associated with them in the ownership of the Rotary Engineering

Company are Hugh Gilmour, secretary-treasurer; Mary Caesar, assistant to the secretary-treasurer; Art Joseph, manager of the electronics department; John W. Rahfs, sales manager; W. C. Hammitt, general field superintendent; R. W. Mangum, field superintendent, and Dwight Fleming, of the electronics department.

Rotary Engineers Laboratories of Midland is another affiliated organization. A. E. Patterson and Jack Locke are co-managers and partners in that operation.

Prather, Bliss and Gile, and some

CHECKING THE POWER—Art Joseph, manager of Rotary Engineering Company's electronics department, checks the main transmitting unit in the Big Spring relay station of the concern's new radio telephone communication system. Joseph is turning up a dial to increase the power on the transmitter.

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, OCT. 7, 1951-3

of the other executives of the parent company are also interested in the laboratory unit.

There are also two foreign affiliates of the original Rotary Engineering Company in operation.

They are Rotary Engineering Company of Canada, with offices at Calgary, and Rotary Engineering Company (S.A.), of Mexico, with offices in Mexico, D. F.

Both the foreign units have portable well logging units in operation in addition to the 26 which are working in the Permian Basin for the parent company.

Rotary Engineering Company started early in 1944 with one logging unit and four persons working for it. Today the same concern has more than 110 persons on its regular payroll and it frequently has a large number of other employees on temporary duty.

The growth and development of Rotary Engineering Company shows what can be and what has been done in the Permian Basin of West Texas and Southeast New Mexico in recent years.

Fifty New Films Bought By School

Fifty new films have been purchased for the Midland Public Schools' Film Library.

Midland school children are being shown an increasing number of films since scientists have shown by laboratory tests that 83 per cent of a child's information comes to him visually.

Each school is equipped with its own projector, and the movies are shown in the auditorium. The Senior High School has a new 9-by-12-foot screen in the auditorium which will allow the whole student body to see a film at one time.

In addition to the movies, each school is building its own film strip collection.

DELAYED REACTION

MT. VERNON, IND.—(AP)—After years of taking automobiles as they came, Lester Redman's team of horses shied away from a passing car, threw him off his farm wagon and broke his arm.

Miles Hall Named GM Relations Head

General Motors has named Miles F. Hall, Midland, as GM's Community Relations chairman for Midland and the vicinity. The chairmanship carries a community service responsibility.

GM's Department of Public Relations has available to the public a variety of interesting and educational materials in the form of motion pictures, booklets and presentations. As GM's Community Relations chairman, Hall will also be in a position to cooperate with club groups, schools, or any other local organizations which may find the General Motors material of interest in the development of programs.

General Motors also is the sponsor of the National 4-H Club Farm Safety Contest and Hall will be able to aid local 4-H Clubs which have members participating in that contest.

Rubber is a native of the Americas, but 80 per cent of the world's supply of natural rubber now comes from Southeast Asia.

Fire Hazard Quiz

Q—What is the first rule of fire prevention?

A—Good housekeeping. Fires breed in accumulations of old newspapers and magazines, discarded furniture and mattresses or other combustible material. Clear out cluttered attics, basements and closets, and turn waste paper and rags in for salvage.

Q—How many fires occur in homes each year?

A—Almost 400,000 which take a toll of about 7,500 lives. The National Fire Protection Association sponsors Fire Prevention Week, October 7-13, to encourage the removal of common fire hazards which cause nine out of 10 home fires.

Q—What structural hazards account for 80 per cent of all residential fires?

A—Half of the fires occurring in homes are caused by defective chimneys and heating apparatus, flammable roofs, and electrical defects. These hazards can be minimized by regular inspection, cleaning and repair of the chimney and heating plant, replacement of worn electrical wiring, repair of defective appliances, and use of fire-resistant roofing.

Q—Where is a safe place to store gasoline or kerosene?

A—In underground tanks. If underground storage cannot be provided, the best place is a small shed apart from the house or other main buildings.

Q—How can grease fires in a kitchen stove be avoided?

A—Clean the oven regularly to avoid accumulation of grease, and keep grease containers away from the stove. If a grease fire should occur, put a large, flat cover over the burning pan or smother the fire by sprinkling a quantity of ordinary baking soda on it. Don't use water—it will cause the burning grease to splatter.

Q—What is still the nation's No. 1 fire hazard?

A—Carelessness with cigarettes and matches used to light them, the source of more than 91,000 home fires annually.

How To Protect Children From Fire In Home

Almost 4,000 children die in fires every year, largely because parents fail to follow the few simple safety rules which can safeguard children's lives.

Insurance statistics show that more pre-school children die from burns than from any other accidental cause except automobile accidents. Among year-old children, fire is the top cause of accidental death.

Fire fascinates children of all ages. Matches should never be left where children can find them. Keep matches in a metal container on a high shelf.

Don't Leave Children Alone

Fire-fighting authorities urge that children never be left alone in a house. A mature baby-sitter carefully instructed in what to do in case of fire will protect the children and relieve parents of anxiety.

Caution dictates use of fire-resistant materials wherever possible in and adjacent to children's rooms.

Fire-stops in wall spaces surrounding the room with retard fire for a considerable period. Flame-proofed fabrics will not support a fire; nor will Kentele flooring, which is composed mainly of asbestos.

In choosing children's clothing, avoid flimsy, quick-burning materials. When children reach the toddling stage, open fires become a real danger. Be especially watchful of children near bonfires, and avoid using candles at children's parties.

Authorities advise holiday decorations impregnated with fire-proofing solutions, use of asbestos instead of cotton wool for "snow," and substantial holders for candles. Candles should never be put in windows or on trees. Never put candles in paper Halloween lanterns.

HOME FIRES NUMEROUS

More than half of all fires occur in homes. About 7,000 people are burned to death, and about twice that number are injured, every year in home fires.

DOUBLE FIRE HAZARD

Rubbish is a double fire hazard because it may either ignite spontaneously or serve as quick fuel for a stray spark or a carelessly tossed cigarette.

Emergency Fire Devices Urged In All U. S. Homes

Every home should have at least one good fire extinguisher, preferably more, say fire prevention authorities.

One should be kept in the kitchen, another in the basement, a third in the second-floor hall, and one in the garage. They should be in easy reach of every member of the family, including children, near the entrance and not close to furnace, stove or other potential fire source.

Fire extinguishers must be inspected regularly, kept filled, and in good working order, and every member of the family should know how to use them.

Good hand extinguishers include the pump type, a glass bulb which is thrown at the base of a fire, and a larger type which, when inverted, sends a stream of liquid at the base. Information on the best type for individual conditions can be obtained from fireman or insurance agent.

Reliable extinguishers bear a label from the Underwriters Laboratories of Factory Mutual Laboratories and this label usually tells when to recharge the extinguisher.

C. W. Chancellor To Address Rotary Club

C. W. Chancellor, who, with Mrs. Chancellor, returned recently from a three-month tour of Europe, will address members of the Midland Rotary Club at their meeting Thursday noon in Hotel Scharbauer, Dr. J. O. Shannon, president, announced Saturday.

The speaker will discuss the economic conditions of Europe while relating interesting experiences and describing points of interest.

Chancellor spoke at a Rotary Club meeting in England while visiting in that country.

DADDY RINGTAIL

Daddy Ringtail And Three Strong Men

Shep was the father, and he was a large dog with long pants with one suspender, and long, long hair from the top of his head to cover his ears and eyes and all of his face.

Romulus was the son, and he was a small dog with short pants and no suspender, but Romulus also had long, long hair from the top of his head to cover his ears and eyes and all of his face.

Shep was needing a haircut, and Romulus was needing a haircut, and now they had gone to the barber shop in the Great Forest where the Gibberwink Monkey was the barber.

Well, Shep, the father, said he would not get a haircut, because he never in his life had had one, and maybe he was a little afraid, he said, the silly fellow.

And Romulus, the son, said he would not be getting a haircut, he

hoped, until his father had one. Yeah, and Shep even crawled up in the barber's chair to show little Romulus just how to sit for a hair-

cut, but Romulus wouldn't do it. No sir, he wouldn't, because he wanted Shep to have his own haircut first.

"We shall see about this," said Shep, "and if I have to get three strong men to hold you, then I'll do it, but you shall have your haircut."

Having said those words, Shep, the father, now began to shout for three strong men to come and hold

Dirt, Squirt and Quirt

FARM, DAIRY AND RANCH NEWS

The market at the Midland Livestock Auction Company sale Thursday was stronger than the week before on all classes except old stocker cows. Thin but good quality stocker cattle continued moving to market but receipts of 1,168 head were considerably lower than last week's record run. Several large lots of cows went to buyers from Nebraska, Oklahoma, North Texas and the Marfa country.

Stocker steer calves auctioned for \$29 to \$38 and heifer calves for \$21 to \$27. Stocker steer yearlings went at \$20, stocker cows \$18 to \$22. Fat calves and yearlings brought \$28 to \$34, medium \$24 to \$28, commons and culls \$18 to \$24. Fat cows cleared at \$23 to \$27, medium \$19 to \$23, canners and culls \$15 to \$19. Bulls drew \$24.50 to \$27.50.

At least five cowboys lost all their personal belongings, including boots, hats, shirts and pants, in the roaring blaze which destroyed the bunk house at the C Ranch headquarters north of Midland last Wednesday night. Losses are said to have run as high as \$400 each for several of the cowhands.

Those "burned out" included Doc Brown, T. P. Edwards, Junior Hoy, Tom Whaley, Booty Houston and John Bleiby.

T. Paul Barron reports one of the boys got out with only one boot, and after getting at the blaze for a few minutes, he tossed the lone boot into the fire, stating: "Go back to your brother."

We were not aware of it at the time, but Mrs. Foy Proctor calls our attention to the fact that the Jess Harper who was in Midland recently to receive 400 head of cows he bought from Foy Proctor, is the

former Coach Jess Harper of Notre Dame. Harper tutored the late Knute Rockne during his college days, and then after Rockne's untimely and tragic death, Harper went back to Notre Dame for a time as acting coach until a new head mentor could be engaged.

In last week's edition, by the way, DSG referred to Foy Proctor's new office in the First National Bank Building, as his (Proctor's) first downtown office. That was in error. The Midland ranch maintained an office in the Petroleum Building back in the days when office space was not in such great demand by oil companies. He perhaps could have had several office/suities at that time. Proctor, incidentally, helped finance the erection of the 12-story structure. It was a long time between offices, was what confused DSG. We are told the desk in Proctor's new office is the same one he used in his former Petroleum Building set-up.

Fire Prevention Week opens Sunday throughout the nation, and its observance is just as important to farm and ranch dwellers as it is to city residents. Midland's fire prevention program is county-wide in scope and every rural dweller should join wholeheartedly in the all-out campaign to reduce fire losses on a year-round basis.

The National Fire Protection Association emphasizes rural fires will take 3,500 lives and cause property losses of \$102,000,000 this year if the present rate of losses is not curbed. The association also reports that 90 per cent of all farm fires are preventable and can be traced to one or more of the following hazards:

- (1) Failure to protect buildings

with lightning rods; (2) defective, sooty, and poorly constructed chimneys; (3) sparks from chimneys and bonfires falling on flammable wood shingle roofs; (4) defective stoves and furnaces; careless smoking habits; (5) improper storage of gasoline and kerosene; (6) spontaneous ignition of hay; (7) overloaded electrical circuits, failure to replace worn cords, and defective electrical appliances.

Farmers and ranchers should correct these hazardous conditions during Fire Prevention Week, before the Winter heating season starts when fires are more prevalent.

The greatest sporting event scheduled in the entire Southwest during the month of October will kick off promptly at 2 p. m. Sunday in Frisco Stadium, Huntsville. It's "Tough as a Rough"—the 20th Annual Texas Prison Rodeo.

This and subsequent performances on October 14, 21 and 28 will feature the toughest of Texas' outlaw riders and the roughest of the state Prison System's outlaw livestock.

Convict "top-hands," after viewing the stock at tryouts held for aspiring contestants last Sunday, predict a lot of spills for "somebody" in this year's show.

More than 4,000 head of livestock from 15 states are competing for total premiums of \$94,914 in the greatest livestock show in the 66-year history of the State Fair of Texas, which opened Saturday.

Twenty-six breeds of beef and dairy cattle, horses, sheep, swine and goats are included. Cattle and horses will be shown in the fair's new \$125,000 livestock judging pavilion.

Headliner of the livestock shows is the Pan-American National Hereford Show, which offers \$25,000 in premiums. More than 400 Herefords from seven states will be shown, and 200 other beef cattle representing Aberdeen-Angus, Brahman and Shorthorn breeds will compete at the same time for an additional \$9-

600 in awards. Climax of the show will be the Parade of Champions Tuesday night.

Four dairy breeds, Guernsey, Holstein-Friesian, Jersey, and Milking Shorthorns, will compete October 15-19 for \$15,400 in premiums. Nine breeds of swine will vie for \$11,178 in awards, and six breeds of sheep and Angora goats will compete for \$3,237.

In the Junior shows, October 15-20, Texas Future Farmers and 4-H Club members will show more than 2,000 head of beef and dairy cattle, swine and sheep for \$14,998 in prize money.

More than 150 Quarter horses will be shown October 15, 18, and 19 with \$2,400 posted in bales and premiums. Cutting horses will compete October 19, 20 and 21 for an additional \$2,000.

Four Plains are a Future Farmers of America boys have been named winners of the Santa Fe Railway educational awards for 1961 by Vannoy Stewart, State FFA adviser, of Austin.

The winners are: George Petrus, Jr., Harold, Wilberger County; Richard Atterbury, Lamesa, Dawson County; Dr. Wain P. Smith, Hale Center, Hale County.

The winners have received checks from the Santa Fe Railway sufficient to take care of all their expenses to attend the National FFA convention at Kansas City this week. The awards are made annually by the railway to encourage agricultural achievement in the states it serves.

ALL IN LEAVES The Pennsylvania Department of Forests and Water found that a ton of dry oak leaves contains 2.8 pounds of phosphate, 18.8 pounds of nitrogen, and seven pounds of potash.

Congratulations To

Mr. and Mrs. E. R. Coleman, Route 1, on the birth Friday of a daughter, Deborah Gail, weighing seven pounds, six ounces.

Mr. and Mrs. Joe S. S. Street, on the birth Thursday of a son, Gabriel, weighing six pounds, six ounces.

Porter Routh Thinks Southern Baptist Convention To Grow

NASHVILLE, TENN. (AP)—Dr. Porter Routh, a big Texan with a ready smile, believes the Southern Baptist Convention will continue to grow at a rapid pace.

Routh has just taken over as executive secretary of the convention, which embraces a membership of more than seven million people in 23 states—the largest Baptist constituency in the world.

He succeeds Dr. Duke McCall who had served in the post since 1946. McCall recently resigned to become head of the Southern Baptist Theological Seminary at Louisville, Ky.

Routh is the first layman to hold the organization's top administrative position.

With the exception of a brief interlude, Routh has been engaged in church and church school work since his graduation in 1934 from Oklahoma Baptist University at Shawnee.

When he finished school, Routh worked in an interview, he accepted a job as a reporter with the Shawnee News and Star.

He added, with a grin: "If they'd paid me the \$14 a week I thought I was worth—instead of the \$12 a week they thought I was worth—I probably would have stayed."

Born in Lockhart, Texas, in 1911, a son of Dr. and Mrs. Eugene C. Routh. The family moved to Dallas and later lived in El Paso.

The elder Routh served as editor of the Texas Baptist Standard, the church's state publication, from 1914 to 1928.

In 1928, Dr. Routh moved his family to Oklahoma City, Okla., where he became editor of the Baptist Messenger.

Young Routh worked his way through Oklahoma Baptist University and after leaving the Shawnee News and Star, he returned to the school as a political science instructor. During 1935 and 1936, he was manager of the university press.

In 1937 Routh went to the Southern Baptist Theological Seminary for a year's study. He is one of the few laymen ever to attend the school.

The following year, he attended the University of Missouri School of Journalism and then returned to Oklahoma Baptist as director of

publicity and journalism instructor. In 1940 he became associate secretary of Sunday school training for the Oklahoma State Convention and three years later succeeded his father as editor of the Baptist Messenger.

Named Senior Secretary In 1945, Porter Routh came to Nashville as secretary and statistician for the Southern Baptist Convention. In 1946 he was named senior recording secretary.

He held both positions until his recent appointment as executive secretary.

One of Routh's prime objectives in his new work is the stimulation of interest among laymen in the church.

"There can be no great advance through the activities of ministers alone," he said. "The assistance and cooperation of laymen in the congregation is essential."

He added: "The only solution to the problem we face is an increased interest in Christianity—not religion."

The convention, which has doubled its membership within the last 25 years, will continue to grow rapidly, Routh believes, because "Southern Baptists now are working in areas where opportunities for expansion are very great. This is particularly true of California and other sections along the West Coast."

Routh's more than passing interest in journalism is shared by other members of his family. A brother, Cope Routh, is a staff member of the Midland, Texas, Reporter-Telegram. A sister, Mrs. Wendel Arnett, is married to the art director for the Louisville Courier-Journal's promotion department.

Synthetic fibers developed during the past few years threaten to push wool into the background.

SHOPPING 'ROUND TOWN with BARBARA

Forever Is The Word For Your Diamond!

Opportunity Knocks At Your Door—

It seldom knocks more than once. We are trying to say that, if you're interested in a career as a vocalist, you'll seldom have a better opportunity for training than that offered by LILLIAN CHRISTOPHER'S VOCAL STUDIO. Miss Christopher offers you the benefits of her experience in opera and she has a background of teaching experience. Dial 4-789 and arrange for an audition at the studio.

Slipcovers, Draperies And Upholstering—

Here's an economical way to give your furniture a smart new outlook. Dial 2-432 and let DAVIS UPHOLSTERING SHOP, 600 East Florida, cover your furniture with decor-right slipcovers expertly cut right on your furnishings. You can also have sparkling window settings with custom made draperies designed by the shop and rejuvenation and upholstery of your furniture by experts using your favorite fabrics.

Framed In Beauty—

Let MIDLAND STUDIO, 317 North Colorado, enhance that favorite picture or painting with a custom made frame. Your pictures will be lovelier when framed by picture framing specialists who can add new beauty by using a frame that brings out the subject. Odd-sized documents can be framed here, also, and you have a choice of moldings. Take your picture to the studio and select a frame to harmonize with it.

Terrific Teen-Age Fashions—

Come see the sparkling group of campus-styled dresses and suits at GIBBS-BLATHERWICK (formerly Pauline's Style Shoppe) 211 North Main. Select from styled, tunic-topped and slim-skirted frocks styled especially for teen-agers. The young miss, difficult to fit, will find dozens of junior dresses in her favorite styling. There are corduroys, wool jerseys and velveteens designed by Miss Modes, Irene Karol and Justin McCarty, in sizes 7-15. Suits are also featured in junior sizes.

Tropical Fish And Aquariums—

Colorful, tropical fish serenely swimming in a crystal aquarium lend restful charm to your home. They are inexpensive pets and require little care. ROSAMOND TURNER, 609 North Cartiso, can supply you with almost any species in elongated crystal aquariums. Some of her newest species include Pink Klasing Gourami, Chinese Neons, Mated Angel Fish, Green Wag Tail, Pearl Gourami and Vell Tail Guppy. Large aquariums and plants are also available. Dial 4-8656.

Magic Carpets? This Way Please—

They don't fly through the air, but they work magic for your home and your budget. Carpets blended of wool and Alvisco "15" (carpet rayon) . . . the latest scientific advance in carpet blending, are featured by WATSON CARPET COMPANY, 1108 West Washington. Ask to see the Magic blend—miracles of color, pattern and beauty. They wear as well as all wool . . . cost less! Buy your carpets from this company and receive free installations. Dial 4-8707 for more information.

Special Rates For Couples—

Dial 2-3143 and ask about the Harvest Moon Special at TOWN AND COUNTRY DANCE STUDIO, 319 North Colorado, which enables two people to dance for the price of one. Now you can learn dancing or improve your steps at a savings. Gain confidence and added pleasure which knowing how to dance provides. The speedy, thorough course teaches you popular steps in jig time. Be in the swing at Christmas and New Year's parties. Enroll now!

Buy Your Hoover Now And Save—

Hoover Triple-Action Model 115—\$54.95 and your old cleaner

Buy your Hoover Cleaner before the new excise tax becomes effective, or have it put on lay-away at MIDLAND HARDWARE AND FURNITURE COMPANY. The Hoover Triple-Action, Model 115, is a compact, lightweight, cleaner that does a big cleaning job. It beats, as it sweeps, as it cleans. Dial 3-3391 for information on low down payments and monthly terms.

Tantalizing Chinese Dinners—

What else plans for the evening begin with dinner at THE BLUE STAR INN, 2501 West Wall. A full course dinner there will put you in a festive mood. You'll find tantalizing Chinese foods and fried chicken on the menu. The restaurant is entirely done in Chinese decor and the beautiful dining room affords spacious party room. Hours are from 11 a.m. 'til 11 p.m. Dial 2-4231 for reservations.

Have A Ripping Time—

You can take that whole stack of bills and rip them into tiny pieces by consolidating your debts into one easy loan! Doing this may actually save you money and will preserve your credit rating, too. Consult PACIFIC FINANCE LOANS, 201 East Wall, about an easy, low cost loan. There are no complex forms nor procedures and the loans are kept strictly confidential. See Bob Finley or call 2-4369 for more information. If you need a loan on your car, furniture or if you are qualified you can get a confidential loan on your salary.

Gets The Imbedded Dirt—

Due to the steel shortage, we are informed there may be a shortage of Air-Way Sanitizer Cleaners, since they are of all metal. AIR-WAY BRANCHES, INC., 510 South Big Spring, features this completely sanitary vacuum cleaner with the throw-away bag. Sanitizer makes house cleaning a snap with its extra length hose, its deep dirt nozzle with its gentle but powerful suction and the wand that cleans under furniture. Dial 2-2882 for a demonstration.

Look! Necchi is In Town!

See it — try it — you're sure to buy it. In addition to all ordinary sewing, the Necchi Sewing Machine does zig-zag stitching, embroidery, monogramming, buttonholes, sews on buttons and does blind stitching without any special attachments. It has instant control for backward or forward sewing, drop feed adjustment for darning, floating pressure foot and make-up to blend with the new Fall colors of your wardrobe. Dial 4-2915 for more information.

A Precious Portrait—

Keep with you always a picture of baby as he (or she) is today! Let FRANK MILLER STUDIO take a captivating photograph of your baby . . . in true-to-life color or black and white. Dial 4-5371 for an appointment. A wide selection of proofs is offered for your choice. The studio is located at 606 West Missouri, specializes in baby portraits, including the individual charm and enchantment of each child.

For The Interior Of Your Home—

It requires skill to restore furniture to its original gloss and smoothness and skill is just what the expert craftsmen at HINES-WOOD FURNITURE SHOP, 206 North Marinfeld, can give you. They specialize in refinishing furniture for home or office and can restore those favorite pieces to their original beauty. Upholstering, slip covers and drapes are done at the shop. Rug cleaning is another service offered. Dial 4-8412 for pick up and delivery.

Save Fuel And Money—

Install the latest in automatically controlled heating systems and you invest in comfort, economy and convenience. See the complete line at SANITARY PLUMBING AND HEATING COMPANY, 2618 West Wall. There is a selection of Utility, Mission, Holly, Panel-Ray and Sunair Wall Heaters and Empire and Hollyflat Floor Furnaces. The company installs and services all types of floor furnaces. Dial 3-3011 for needed repairs and installations.

The Looking Glass—

You know the old saying, "Beauty is only skin deep," but that is deep enough for most men. It is usually the attractive girl who is the most admired. If you have skin problems, BEAUTY COUNSELOR COSMETICS can help you. Your beauty counselor, Mrs. Roberta Sant Andrews Highway, has a special treatment for every skin problem and make-up to blend with the new Fall colors of your wardrobe. Dial 4-2988 for a demonstration.

Plenty Water—And No Bills To Pay—

It is commendable to economize on water during the dry months, but it's hard to watch your prized shrubs and your beautiful lawn die for lack of water. When you have a Pacific Water System, you can enjoy an abundant water supply with no excessive bills to pay. PERMIAN EQUIPMENT COMPANY, 913 South Main, is the Midland dealer for Pacific Pumps. Let the company install a pump for your convenience. It will be an investment because your property value is boosted with a fine water system.

An Ounce Of Prevention—

Balance in your car's wheels means the difference between a car that can't keep wheels aligned, that steers hard and burns up tire rubber. With Winter coming on, it would be wise to stop in at SKINNY'S ALIGNMENT SHOP, 1910 West North Front, for a check-up. The well-equipped shop specializes in wheel alignment, straightening, rebalancing and replacement of damaged parts. Dial 2-4191 for estimates.

Tops In Tasteful Color And Protection—

Your pattern . . . the right pattern for any room in your home . . . is waiting for you at STOREY FLOOR COVERING COMPANY, 402 South Main. Choose lasting Armstrong's Inlaid Linoleum. Patterns are smart and there is a wide selection. You can use Armstrong's Inlaid Linoleum anywhere. The decorative, good looking patterns are in keeping with today's vogue of simple, casual living. Custom installations are made by the company. Dial 2-4631 for further information.

Mexican Combination Plate—

Here's a sample menu from THE PARK INN CAFE: Mexican combination plate, tacos, enchiladas, fried beans and salad and the choice of drinks. Savory Mexican dishes, chops, steaks and fried chicken are in season now and The Park Inn Cafe offers a menu chock full of your favorite foods. The food is delightful to the eye as well as to the palate and the prices are kind to your budget.

Quicker, Better Heat—

Toridair Air-Conditioner Furnaces incorporate the latest refinements of heating design, the result of years of research and testing. Scientifically designed burners get every last bit of heat out of the gas. Inexpensive, easily removable filters take out dirt, pollen and germs. A quietly-operating fan blows the air to wherever it's needed. The Toridair Air-Conditioner Furnace is featured by AUSTIN SHEET METAL COMPANY, 3510 West Wall, in a model for every heating need.

Go To The Movie Theatre Today—

Believe me, if it's romance and drama you like, "His Kind of Woman," showing at the Yucca Theatre and starring Robert Mitchum, and Jane Russell, is an experience. At the Ritz, "Jim Thorpe, All American," starring Bob Lancaster, will appeal to any red-blooded American. If it's laughs you want, you'll love Bob Hope in "The Lemon Drop Kid," showing at the Tower. Anything we say about "His Kind of Woman," starring Loreta Young and Joseph Cotten, at the Chief, would be insufficient praise. It's a gala show season during MOVIE TIME, U.S.A.

Protect Your Investment—Repair Now!

You will enjoy your home more when it's fixed-up for winter! Make those needed repairs or alterations now. MID-WEST LUMBER COMPANY has everything you need to put your home in tip-top condition. The company is now located at 210 West North Front Street and you'll find the yard well-stocked with quality lumber and other building supplies that will do a long lasting job for you. Dial 4-5621 for information and estimates.

Specializing In Bicycle Repairs—

When you want a soda you go to the drug store—but you don't take your bicycle there for repairs. No air! You want a specialist to do the job. For expert repairs, take your bicycle to ART'S BIKE SHOP, 108 South Cartiso. The shop can restore that bicycle to good condition, perhaps save the price of a new one by making repairs and replacements. The owner is experienced in the bicycle business and has a well-equipped shop. Dial 2-3082 for more information.

Bottled In Midland—

Vilo Water is highly recommended because it contains the minerals necessary to health. It is bottled in Midland by SPRING VALLEY WATER COMPANY, 613 West Missouri, in five-gallon bottles for 70¢. Good drinking water is essential to the health of your whole family and these large bottles will last a family for weeks. Dial 4-4351 for deliveries.

Time For A Fall Tune-Up—

Let HALL'S GARAGE, 210 South Fort Worth, take the wear and tear of summer out of your car with an expert motor tune-up. This well-equipped garage will recondition your motor, from fan belt to clutch, readjusting and cleaning all mechanisms throughout and installing new parts where necessary. There's not a bolt or washer the skilled mechanics don't know about and that means better repairs at lower costs. Complete brake service is also a specialty.

Plumbing Sales And Service—

Choose your automatic water heater from the supply of Pioneer Water Heaters at R. T. DRUMMOND PLUMBING COMPANY, 608 North Edwards. The 50-gallon capacity suits for \$69.99, with a one-year guarantee. All kinds of bathroom fixtures include nationally advertised brands and a choice of colors. Mr. Drummond is a licensed plumber and makes all types of appliance installations. Dial 4-5695.

Fast Confidential Service—

STUART PHOTO PRINT SHOP, conveniently located at 215 North Colorado, is equipped to give you the best quality in reproduction. The service is fast and confidential. Security measures are observed for your protection. Photostats and reproduced tracings are done with the finest equipment. Prompt pick-up and delivery service is given and experienced operators give you excellent work on all reproduction. Ben H. Bland is owner and manager of Stuart Print Shop. Dial 2-3001 for pick-up and delivery service.

Building Materials—

Build that extra room or garage, repaint or re-roof. It can all be arranged with a Title I Loan made through FELIX W. STONE-HOCKER LUMBER COMPANY, 405 North Baird (in alley). The company features the most complete building service you'll find anywhere. Millwork includes window units and doors of birch, gum and fir. Paints and oil colors for interior and exterior painting are featured, in Glidden, Pratt and Texolite. Dial 2-4031 for estimates.

A Complete Line Of Seatcover Fabrics—

MILLER BROTHERS TRIM SHOP, West North Front and K Street, has a complete line of fabrics in all colors for auto seat covers. Experienced craftsmen will custom cut and fit them to your car. See the new patterns in Baran, the woven plastic that is water-proof, dust-proof and flame-resistant. Baran will last and last and the colors will remain bright because they are "built-in." If your car is older, you can dress up the interior with custom made seat covers at reasonable cost. Dial 4-8461 for estimates.

Good Hunting Starts Here—

Even Dan'l Boone needed a gun that hit where it was aimed. Good hunting has to have good equipment, one of the reasons GUYTON C. ROGERS' GUN SHOP, 304 South Main, Room 11, is so popular with sportsmen. Get your guns in prime condition for the deer season. If you need any repairs done on your hunting piece or if the gun needs cleaning, Mr. Rogers can offer complete satisfaction and will give a free check-up and inspection.

So You Want To Play The Piano?—

Music is a natural expression creating a symphony that is called the "American Way of Life." If you want to play the piano or harp—enroll now at SHAW PIANO AND HARP STUDIO, 413 East Pecan. Enrollment is limited, so dial 4-5375 for information. Mrs. Henry Shaw, Jr., is a graduate of North Texas, where she majored in piano and harp. She plans to give lessons in the afternoon from 2 to 5:30 or 6 p.m. She will take pupils from school age up.

For Every Plumbing Need—

For safety and economy, be sure your plumbing equipment is in tip-top condition. Call JAMES PLUMBING COMPANY, telephone 3-1412, for expert installations and repairs. Years of experience and skillful know-how add up to a job well done on your plumbing repairs. The company's motto is "a satisfied customer is the best advertisement," and this is proven by a record of satisfaction. A complete line of plumbing equipment is also featured.

Service When You Need It!—

By purchasing your fuel at ASCUE'S HUMBLE SERVICE STATION, 703 West Wall, you are assured that auto service experts are keeping a watchful eye on important automotive check points. When you drive in for a car wash or lubrication job, you get fast, efficient service every time. It's more important than ever to prolong the life of your car . . . and one of the most vital services that will keep your car rolling is proper lubrication.

Better Market Values—

No matter how far you can depend on MINISPAK FEED AND SUPPLY, 403 East Florida, for your answer, just specify your needs and the company will deliver exactly the mixture you need. Order your feed today from Minispa Feed and Supply for better market values tomorrow. Further, it is also available, including lawn fertilizer to make your lawn grow again. Dial 4-5641 for orders. Deliveries are made in town.

THE BULLDOG

Written By The Journalism Class Of Midland High School

An Important Institution

(An Editorial)

Throughout the United States National Newspaper Week is being observed in honor of the many newspapers which are published to keep citizens informed of day-to-day events. The newspaper is a very important institution in an American's daily life.

For a comparatively small price a person can know what important events have taken place around the world, throughout the nation, and within his state and community. He has an opportunity to judge the opinions of many men and thus form a separate opinion of his own. If he is not in agreement with the views expressed by his paper, he is free to tell them so or read a different paper.

He can learn what his government is or is not doing to help him. His newspaper provides him with facts to help protect him from corruption in his government. In turn, his rights as an individual are protected against falsehood and slander, because of laws passed by his government. Because of this, a good newspaper can serve the interests of its readers.

In a democracy such as ours everyone is allowed to express his views freely. With this system, a better understanding can be brought about between different groups or individuals. The Bulldog in a much smaller way tries to better serve the interests of its students.

If you, the reader, know of some way the Bulldog can better serve you, why not drop the editors a letter in the mailbox which is in the principal's office? We, the staff, will always appreciate helpful criticism.

'Howdy Week' At MHS Reported To Be Success

"Howdy! My name is Sue! Will you sign my book?" This was a familiar phrase heard in and around Midland High School as last week was "Howdy Week."

The starting time was 1:30 p.m. Monday. At that time 1,000 "howdy" tags and autograph books went on sale.

All the students have entered wholeheartedly into the spirit of Howdy Week. Students have been friendlier, more courteous, and more polite to their fellow students and teachers.

By TOMMY VANNAMAN

On Monday, which was designated as "Girls Be Nice to Boys Day," the girls seemed quite helpful with homework. Tuesday, which was "Boys Be Nice to Girls Day," several of the boys to whom the courtesy was known were seen carrying girls' books. Several big red apples were on teacher's desks on Wednesday, "Students Be Nice to Teachers Day." On Thursday, "Teachers Be Nice to Students Day," the teachers showed more than their usual kindness and patience. Friday was "General Howdy Day" and was probably the friendliest day in MHS.

"Howdy Week" was a success in every way due to the fine cooperation of the students and the faculty.

Now that "Howdy Week" is over, don't let your friendliness lag—make every week a "Howdy Week."

Ad Committee For Calico Is Named

After a briefing session by Helene Milley, sponsor, the Calico Ad Committee will begin to call upon Midland merchants to interest them in buying an ad for the 1961-62 yearbook.

Every ad requires time for layout, cuts, setup, having proofs accepted by the advertisers, billing and collecting.

When you open your Calico observe the ads which made the annual possible. The cost of the yearbook would be many times greater if our merchants did not support it.

The ad committee includes: Emily Hamilton, business manager; Jean Waddill, Sherry Page, Frances Heffern, Jane Beakey, Diane Nichols, Madelon Schabarum, Faye Henshaw, Gail Black, Barbara Ware, Peggy O'Neal, Jackie Statton, Ruth Nell Kuykendall, Anne Billingsley, Sara Ann Cameron, Carole Loop, Nancy Warren, Margie Hensley and Nina Wendt.

Time At Hand For Six-Weeks Tests

It's that time again! For those not so well versed on what time it is, and if you're wondering why so many people are spending all their time cramming—the first six-weeks tests are at hand. Now don't faint or make a mad dash for your Algebra book for there is a bright side to the story.

For as you read this, you may well realize that there remains only 30 weeks of high school for the seniors, 66 weeks for the juniors, 102 weeks for the sophomores, and only the teeny weeny amount of 138 weeks for the freshmen. Now is it that bad?

Linebarger President Of Seniors

If you would care to get a view of the 1961-62 senior class president, just see to it that you honor Memorial Stadium with your presence at the football games and look around for Number 52, a Bulldog named Jimmy Linebarger.

Jimmy has held many offices during his high school career, including president of the junior class. John Van Buickirk, also an able leader, was elected to the office of vice president of the senior class. John specializes in making those baskets for the Bulldog cagers. He was also elected secretary for the Student Council this year. During his high school career, John has been popular and successful.

Emily Hamilton was chosen to care for the business matters for the senior class by filling the position of secretary. Emily can be spotted by her majorette costume at the football games as she leads the Half-Timers through their maneuvers.

The remaining officers still remained to be chosen due to the lack of time at the class meeting.

Robert Payne Is Elected President Of Junior Class

The junior class met in the gymnasium last week to elect class officers.

Robert Payne was named president. He came to Midland from San Antonio. His activities include the honors of being the vice president of the sophomore class and vice president of his home room.

Robert enjoys sports and claims baseball as his favorite.

Robert Keisling, newly-elected vice president of the juniors, is a tall blond-haired boy everybody recognizes. You have seen him on the football field, the basketball court and he has made high hurdles look like hop scotch.

The secretary is a blond burr-haired fellow who goes by the name of Jim Tan Eyck or "Weed." He is a member of the football team but claims his favorite pastime is shooting pool at the Youth Center.

Ruth Nell Kuykendall, better known as "Kirk", has been very busy during her high school days, holding such offices as secretary of the sophomore class, president of her home room, and lieutenant in the "Gold Jackets." She was sophomore favorite last year. She is the new treasurer of the junior class.

A. W. Booth, center for the Bulldogs, was elected sergeant-at-arms.

Question Box

"If you were asked to get a dodo bird, where would you go to find it?"
Lynn Tiller—"To the museum."
Jerry Martin—"Room 204, in homeroom."
James Ball—"Room 120, math class."
Jane Stuart—"South America."
Wayne Cutbirth—"Dalton By-erley."
Maxine Hill—"Coach Mashburn's office."
Eva Dillon—"Asia."
Jackie Ewald—"To some island, I think!"
Martha Frick—"Coach Jones has him out at the football stadium."
Faye Jean Crawford—"Well, you wouldn't find one around here."
Bill Cartwright—"Norway, or in Eastern Siberia."
Martha Stone—"I know, but I'll never tell."
Jackie Brady—"Corky's back yard."
Nancy Klingler—"T.G.U."
James Doster—"To the darkest part of Africa."
Leon Measures—"Downtown to the show."
Fred Meisner—"I wouldn't."
Shirley Bay—"In a funny book."
Emily Hamilton—"Upper-Lower Slobovia University Reform School (Ulsura)."
Jane Beakey—"In the back of Dan Black's car on Friday night."
Joe Turner—"I think I saw one in James Doster's car—I'm not sure."
Kitty Anderson—"In Africa somewhere, I guess."
Phil Slough—"What's a do-do bird?"

The boys physical education classes have completed a baseball tournament which was held in each class. The teams who won were: first period, team No. 4, with Ray Mills, Captain; third period, Captain Kermit Lewis team No. 3, and fourth period, Dedwood Paton's team No. 4.

The boys now are playing tough football and letting the team captain see what kind of player each fellow is. Then the captains will choose teams and start a football tournament.

Coach "Red" Rutledge tells us his P. E. classes are very large and describes the method of teaching health as taking a sixth of each class each six weeks and letting Mrs. Blair teach them.

'Alma Mater' Takes Prominent Place

"Alma Mater" has taken a prominent place in all our hearts as Midland High School students.

The song was written in 1943, with words by Marilyn Boynton and music by Merl Cornelius, then director of the Midland High School Band and a Capella Choir.

Newcomer To U. S. Is Student In MHS

By MADHEON SCHABARUM

Maria Schieffer is 16 years old and a junior in Midland High School.

Her eyes are big, bright and shiny. Her smile is flashing and infectious. The brown of her eyes is accentuated by delicate coloring in her vivid skin.

Maria arrived in the United States only nine weeks ago from Salzburg, Austria, and since that time she has seen many strange and interesting things.

Maria finds Midland schools quite different and much easier than those in Austria. She is taking English, algebra, American history, physical education and home economics. In Austria she studied religion, German, English, shorthand, cooking, history, chemistry, drawing, writing, botany, arithmetic, knitting and the people and customs of the peoples of the world.

The hours, too, are easier. In Austria, Maria went to school from 8 a.m. to 6 p.m. during the week, and from 8 a.m. to 1 p.m. on Saturday. Schools in Austria are co-educational, but not classes.

"Figures are the same and I find algebra the easiest subject," says Maria. She has amazed her classmates with her ability to speak and write English, which she had studied only one hour a week for one year.

Maria's favorite hobbies are swimming and reading. She also enjoys the winter sports but does not believe she will participate in them for some time due to the climate.

Maria, her nine-year-old sister, and her mother and father came to Midland with Mrs. N. A. Lancaster, 1705 West Indiana Street, as their sponsor.

When asked what she liked most about Midland, Maria said, "I like the friendly people and everything."

High School Band Makes Recording For Recording

The Midland High School Band, under the direction of Ralph Mills, made a recording Tuesday for the first of a series of broadcasts presented by the Midland Public Schools every Thursday at 1:45 p.m.

With Robert Stubbeman announcing, the band began the program by playing the parade march, "Rifle Rangers," by K. L. King, followed by John Phillip Sousa's "Washington Post," and the familiar "March Gloria," by J. H. Losey.

Then came a variation with Vi Williams' arrangement of "Swing March, Number One." Next was the school "Alma Mater" and "On Wisconsin" by W. T. Purdy composed the program.

An extra recording was made of the program.

Posters Are Made By Art Department

The Art Department, under the supervision of Inez Parker, has an enrollment of 48 students, and this number is divided into two classes. They can be found industriously working on crayon etchings, textile painting, silk screen printing and other arts, but two of their most important jobs are making posters for various events, and painting stage props for plays that are presented in the auditorium. They also decorate the building at Christmas time.

Entries will be made February 1 in the state art contest. Previously, students have won places in state and national contests. Miss Parker is on the arrangements committee for the contest this year, in which she and five others chosen from the state will arrange paintings at Stimping's in Fort Worth, for the contest.

Two art students from last year won \$200 Art Scholarships to Texas Western College. They are majoring in art.

Coming Events

- October 10: Assembly—A Midland minister.
- October 11: Pep rally for the game with Poly of Fort Worth.
- October 13: Game with Poly of Fort Worth at Farrington Field.
- October 17: Assembly—Junior Play starts.
- October 22: Junior Play.
- October 23: Junior play.
- October 24: Assembly—to be filled.
- October 26: Pep rally for game with Lamson; home game with Lamson.
- October 31: Assembly—A Cappella Choir—Annual Halloween Carnival in the gym beginning at 6:30.

EXPRESSION OF SYMPATHY
The student body, faculty and Bulldog staff express their deepest sympathy to Ruddy Braun on the death of his mother.

Asphalt mixed with rubber is said to make roads cheaper than when the rubber is used.

Rambling Rows

By MARION SEVIER

Howdy! Howdy Week has come and gone for another year. I think it is the most worthwhile of all Student Council projects because it encourages so many new friendships. The winners of the annuals weren't ready to be announced yet so that will be saved until next week. I want to thank Jane Beakey, Pat Boles, Maxine Hill, Jackie Ewald, Betty Pitzer and Elaine Conger for their help in making the Howdy Week posters. I hope everyone noticed a new poster each day designating which particular day it was.

Two of our students have received high honors in different organizations. Earlene Hancock was elected as FFA Area II historian and reporter. She was invited and attended the executive council meeting held in Austin September 15. Nancy Klingler was chosen as worthy advisor for the Rainbow Girls.

Jack Pennington is doing well for himself drawing sports cartoons for The Midland Reporter-Telegram. Everyone is invited to the dances after each a squad football game at the Youth Center. So far they have been a big success.

Jack Pennington is doing well for himself drawing sports cartoons for The Midland Reporter-Telegram. Everyone is invited to the dances after each a squad football game at the Youth Center. So far they have been a big success.

John Cross of Fort Worth who were married September 30 and plan to live in Fort Worth, and to Sherry Wilson and Billy Beane of Odessa who are living in San Antonio. Patay Wilson has withdrawn from school to go to live with them.

R. Ross Mitchner, choral director, took measurements for some new A Cappella robes and issued the last year's robes.

Our thanks go to Jerry Wallace and Maxine Hill for making the "mailbox" for suggestions and letters to the editors that is located in Mr. Mitchner's office.

I saw quite a few exes at the Crozier Tech-Midland football game. Some of them were Shirley Harrison, Jo Ann Nelson, Mary Jan Forrest, "Doozie" Cooper, Guy Vanderpool, Leo Hatfield, Winfred Brinson, John Midkiff, Frank Ingham, Tom Sloan, "Christmas" Barber, Buddy Johnson, Graham Mackey and "Hare" Dickinson.

Safe Place For Money
Kay Colwick was seen skipping down the hall with one shoe off and one shoe on. It seems she finds that is the safest place to keep her money?

Girl Scout troop I had a weiner roast at the Little House Monday night. Those attending were Nina Brown, Nancy Stedman, Sara Hendricks, Jackie Brady, Diana Daugherty, Jo Dean Downing, Nancy Cooper, Mona Sue Biggs, Emily Studdert, Ann Arick, Emily Hamilton, Sue Francis, Martha Stone, Nancy Roberts, Gail Baker, Camille Birkhead, Pat Boles, Madelon Schabarum, Gail Baker and Dianne Anderson.

Notice Joan and Ann Fitzgerald's twin dresses! Every day they come to school dressed alike but in different colors.

Wanda Burnside who graduated last year has been appointed to the staff of the 1961-62 Baylor yearbook. The question of the week that I will leave you with is—What makes Stanley Krist's eyelashes curl? Does he use an eyelash curler along with his monthly Toni????

High Schools Gets New Grand Piano
Midland High School students are the fortunate recipients of a new ebony black Steinway grand piano. The piano will be placed on the stage in the auditorium to replace the one being returned to the junior high school.

Don Stringer Named Freshman President
Don Stringer has been elected president of the freshman class. Don was outstanding in track and football last year in junior high. Margie Neill, the new vice president, was a cheerleader and president of her home room in the eighth grade. Secretary Barbara Tom was accompanist for the mixed chorus and secretary of her home room last year.

Helene Milley is freshman class sponsor.

Dramatics Class Presents Program In MHS Auditorium

"There is more to acting than is commonly noticed by the audience," was the theme of the program presented by Verna Harris' dramatics class Wednesday in the high school auditorium.

A demonstration of characteristic walks was given. This was followed by demonstrations of the correct and incorrect ways in which to sit, stoop, gesture, and stand in conversation on the stage.

The Midland bulldog, firecracker, china teapot, fish and a windshield wiper were a few of the animate and inanimate objects characterized.

The importance of bodily action plus facial expression was shown by demonstrations of fear, hunger, failure, happiness and surprise. The sophomore students were asked to pay special attention to a few expressions of Silas Marner.

The program closed with several models depicting a Neiman-Marcus show window.

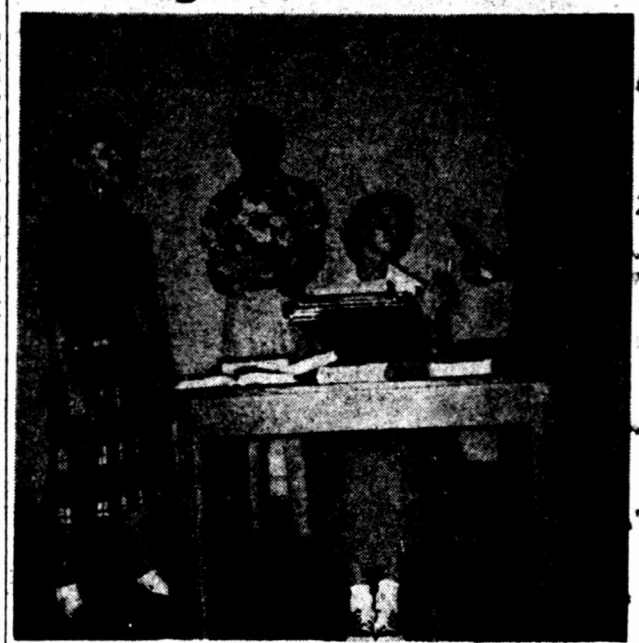

Western Theme Is Stressed At Game

The Wild West provided the theme for the Midland High School Band's special formations during halftime of the Midland-Brownwood game. After doing a flashy, but complicated, double spiral, the band formed a bow-legged cowboy with a revolving lariat in his right hand.

"I'm an Old Cowhand" then was played while the majorettes performed a rope-twirling routine. Next the stadium lights were out and the band formed the outline of a covered wagon with lights on their caps. The wheels turned to the tune of "Wagon Wheels" and the majorettes did a special lighted baton routine.

When Stuyvesant was Dutch governor of New York, his authority also extended to Aruba and Bonaire, two Caribbean islands.

Two Girls, Two Boys Have Leading Roles In Drama

They share leading roles in play

The four persons pictured, left to right, Kathryn Carter, Bill Robitsek, Evelyn Heil, and Robert Stubbeman are sharing the leading roles in the Junior play, "Ever Since Eve," to be given October 22-23, in the high school auditorium.

"Cookie" Carter, when asked her opinion of the play, said that it is a comedy that everyone will be certain to enjoy, and especially teenagers, since the production deals with the problems concerning the particular age group.

The director of the play is Verna Harris, and the equally important members of the "silent soldiers" are Grace, Boles, student director, and the stage managers are Benny Bedford, Waldo Leggett and John McGuigan.

Her Own Tool Kit Will Make Mama 'Mrs. Fix' Panic Often Causes Fire To Spread

By MR. FIX
Distributed By NEA Service
Since the man of the house generally is supposed to be able to fix things, either by inborn talent or necessity, his weekends likely are to be cluttered up with a backlog of little chores which put a damper on either more ambitious projects or just plain loafing, depending on the nature of the beast.

You'll be surprised at what a handy Mrs. Fix Mama will turn out to be if she has her own little tool kit.

household troubles can make a lot of difference, in either case. There are plenty of simple Mr. Fix problems that Mrs. Fix could do on the spot, without waiting for her husband to get into the mood—or be shamed into it. What seems to be holding up the idea is that most men think women want to tackle repair jobs only with hairpins or nail files.

While the average housewife seems to work miracles with such crude implements, it is probably through sheer necessity. Nobody has taken the trouble to show her where the hammer and nails are kept, or how to use them. So she uses the heel of her shoe instead. A remedy we have in mind for this is a set of simple tools that the man of the house can assemble for his wife, with a few pointers on what the items are for. They can be stashed away in a little box or carry-all in the kitchen sink. An inexpensive metal tackle box, with a compartmented tray for nails, screws, washers, etc., is ideal. Every-Day Emergencies It should be planned for simple, but every-day emergencies, like a loose hinge on the screen door, a bracket that's become wobbly, a leaky faucet or a mildly stopped-up sink.

A lady-sized hammer, to start with; an assortment of screwdrivers; what could be handled with one with a master handle in which the various-sized blades are kept? Pliers. A small wrench, suitable for taking water faucets apart. An assortment of nails, screws, cuphooks, thumbtacks, sticky tape, washers. And a wood awl.

Basic List
You can figure out your own basic list by what's going to confront your wife. But take time to explain how to use each item. The wood awl, used to start a hole for screws when your wife's putting up a kitchen fixture for instance, will save her a lot of exasperation. Don't forget a plumber's helper—that handy rubber plunger on a stick. Wouldn't you rather have her take her temper out on a balky drain than save up both the temper and the drain for your homecoming?

And by all means, put in a can of oil. There are no accurate statistics, but a lot of household troubles seem to be aggravated by squeaking door hinges that the busy men never seem to get around to fixing.

Panic Often Causes Fire To Spread

If you were returning home late one night and suddenly saw flames shooting up from your house, what would be the first thing you would do? Or if fire broke out in your place of work, what would you do?

Fire department reports show that fires often get out of control because of panicky behavior of people involved in them. Some of the factors which contribute to the spread of fires are: putting off calling the fire department while occupants try to fight the fire themselves; calling the police instead of the fire department; wasting time tracking down the origin of the fire before calling the fire department.

Prompt action in case of fire can prevent a small home fire from turning into a real catastrophe. In all fires, the fire department should be notified immediately, before you tackle the fire with extinguishers. The National Board of Fire Underwriters has prepared an illustrative booklet, "The Fire Safe Home" which outlines effective home fire fighting as well as household fire prevention. It is available without charge at the National Board of Fire Underwriters, 85 John St., New York 38, N. Y.

New Dwellings Should Be Designed To Resist Fires

CHICAGO—When building a home, you owe it to yourself and family to make it fire-safe. The 300,000 fires which occur in homes every year are testimony not only to human carelessness, but also to the fact many homes are not adequately protected structurally against fire, according to John A. Arnold, vice president of National Retailers Mutual Insurance Company.

Importance Of Home Fireproofing Rises As Shortages Mount

The use of fireproof materials in home modernization has increased in importance because of shortages arising from the national defense program. This warning for Fire Prevention Week comes from the Tile Council of America, which cautions home owners that, if present trends continue, reconstruction after fires may be difficult due to possible shortages of essential building materials.

Noting that purchases of older houses for remodeling have risen this year over 1950, the Council offers the following advice concerning modernization plans:
1. It is wise to spend the major portion of remodeling funds on materials such as clay tile to provide the long-range durability and protection against fire, especially in kitchens, walls, furnace rooms, and other areas that are vulnerable to flames.
2. The more extensive the installation of fireproof materials in a house, the better the building's insurability.
3. Every home-modernization plan should include complete renovation, repair, or replacement of the heating system.
4. Because cooking accidents are responsible for a large percentage of residential fires, special care should be taken during modernization to install fireproof material around the range area.

Although the average person drinks less than half a gallon of liquid a day, more than a thousand gallons of water per capita are needed daily in the United States. In spite of America's 7000 ice manufacturing plants, much material is cut for summer use on lakes and rivers of the northern states.

18 Ways Prevent Fire

1. Avoid accumulation of old newspapers, oily rags or rubbish.
2. Keep matches out of reach of children.
3. Never smoke in bed.
4. Be sure to extinguish matches and cigarettes completely before disposing of them. Provide plenty of ashtrays.
5. Refrain from smoking in the garage.
6. Keep heating equipment clean. Do not operate furnace under forced draft.
7. Peel the walls and ceiling near the furnace. If they're hot, you may need additional insulation.
8. Whenever possible, employ fire-resistant materials.
9. Use correct-size fuses and do not overload electric circuits.
10. Do not run electrical wiring under rugs or hold it in place with nails. This will break the insulation. Call Electrician.
11. Call an experienced electrician to extend or repair wiring.
12. Shut off the electric iron when called to telephone or door.
13. Never use gasoline or other flammable liquids for dry cleaning.
14. Do not use kerosene to kindle or speed up a fire.
15. Keep grease containers away from the kitchen stove.
16. Do not hunt for gas leaks with a match.
17. Thaw frozen pipes with hot water or call a plumber. Never use a blow torch or open flame.
18. Place a metal screen before fireplace to catch sparks and coals.

COOPERATION PRAISED

BALLARAT—(AP)—Norman Makin, former Australian Ambassador to the U.S., said here that the greatest contribution that the British people could make to world peace would be to continue friendly relations with the Americans. The combination of the British Commonwealth and the U.S. is the strongest factor in preserving world peace, he said.

SOAPY INK
A war spy carried invisible ink by having it mixed in a cake of toilet soap, the lather of which contained enough of the fluid to write a message.

Many Homes Are Under-Insured For Fire Loss

Would you sell your home today for the valuation appearing on the face of your home fire-insurance policy? If not, your home is under-insured. This question is a good yardstick for determining if dwelling policies are of sufficient valuation, say insurance authorities.

Since home values have far outstripped insurance coverage, fire would cause many owners irreparable financial hardship. The latest construction-cost index reveals that \$1 worth of construction in 1940 costs \$3.31 in 1951. If a house built 11 years ago for \$5,000 is destroyed by fire today, it costs \$11,550 to replace it. Home owners still carrying 11-year-old protection are courting trouble, warns the Construction Research Bureau, national clearing house for building information.

Similar figures apply to household furnishings and other personal property. Statistics show that the amount spent for home furnishings has tripled over 10 years ago. From 1940 to 1950, the value of home electrical appliances multiplied by six.

Fire protection has lagged far behind. Insurance firms report they normally can pay only about 40 per cent of fire-inflicted furniture losses each year due to noncoverage. The home-owner should survey his protection and increase coverage if his present policies will not replace structure and furnishings at current costs.

At best, adequate coverage can only minimize loss. Housing and materials shortages, plus loaf of irreplaceable heirlooms, keepsakes and documents, are bound to inflict some non-insurable loss. Urge Fire-Safety For this reason, maximum fire-safety in homes is urged through proper use of electricity; careful smoking habits; perfectly functioning heating equipment; and use of fire-resistant materials. It takes the average family from 15 years to a lifetime to pay for a home and its contents. Structural fire-safety coupled with adequate insurance protection will assure the home-owner that his investment will not end in tragic loss.

Freezing Makes Beef More Tender

WASHINGTON—(AP)—U.S. Department of Agriculture scientists have announced freezing seems to make beef somewhat more tender than unfrozen cuts.

R. L. Hiner and O. G. Hankins of the bureau of animal industry report they studied the tenderizing effect of freezing on a variety of representative cuts from veal calves, 500-pound steers, 900-pound steers, three year-old barren heifers, and 12 year-old cows. In general, they said, natural tenderness which decreases with age of the animal, was increased by freezing.

In these experiments all the beef was "aged" at temperatures just above freezing. Tenderness was measured by a mechanical shearing device. After aging, samples from the same animals were frozen and tested after thawing.

Carolina Tobacco Struck By Disease

RALEIGH—(AP)—Tar Heel tobacco growers today face one of the greatest challenges in years, tobacco specialists at North Carolina University say.

Diseases, notably "black shank", have hit the flue-cured crop in North Carolina harder this Summer than ever before. A large number of growers tried to get by with non-resistant varieties and in many cases the results were disastrous. Research is being continued and every effort is being made to find varieties of good quality, good yields, and higher disease resistance. Tobacco experts recommend planting more acreage with a strongly resistant variety of tobacco known as "Dixie Bright, 101."

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1951, By The Bell Syndicate, Inc.)
 Drew Pearson says: Soybeans take strange nose dive; General Bradley explains MacArthur reversal; Tennessee feud erupts on Senate floor.

WASHINGTON — The soybean market took a strange nose dive last month, which looks suspiciously as if someone is tampering in soybeans again. Previously, a grain of Chicago speculators rigged the market, so the price of soybeans shot up \$1 a bushel. This time, however, the price dropped from \$3.14 to \$2.70 a bushel, so that speculators betting on the short side of the market were able to make a killing. American farmers took the loss.

The Agriculture Department is required by law to investigate any suspicious activity on the commodity market.

If Secretary of Agriculture Brannan will look into the mysterious manipulations in both soybeans and rice, this column can provide him with sworn witnesses who will testify that certain high Chinese have been interested in both commodities. These same Chinese are able to make a profit on the commodity market without paying U. S. taxes, then use the money to finance the smear campaigns against such men as Secretary of State Acheson and ex-Secretary of Defense Marshall.

MacArthur Reversed. Conscientious Gen. Omar Bradley was cross-examined by friends of General MacArthur in a closed-door session of the Armed Services Committee the other day as to why the Air Force recently bombed Rashin near the Siberian border—the same city which MacArthur was ordered not to bomb.

Bradley also warned senators during the same meeting that the big public hullabaloo about secret weapons might be dangerous, since development of these weapons was "four, five or six years away."

The chief quizzing of the chairman of the joint chiefs of staff was conducted by Senator Harry Cain, Republican of Washington.

"This is where I came in," observed Cain, when Bradley explained that General Ridgway's orders still were the same about bombing Manchuria as those given to MacArthur.

Cain countered by reminding General Bradley that MacArthur had been forbidden to bomb Rashin, a transportation center on the Korean-Siberian border. Cain asked why those orders had now been reversed.

Bradley replied the MacArthur hearings naturally had been read in the Kremlin, and as a result, Red Army leaders were convinced Rashin was absolutely safe. Therefore, they had built up huge supplies with no protection whatsoever.

The reason MacArthur had been ordered not to bomb Rashin still held, Bradley explained—namely, that it was only 20 miles from the Russian border and we didn't want to take the risk of overshooting into Siberia. Therefore, the Air Force was ordered to bomb Rashin in clear weather at a low altitude, and by visual recognition, not instruments. The result was heavy enemy destruction.

Russian Air Superiority. Bradley also told senators the biggest threat to U. N. forces was still the Russian air force. Senator Wayne Morse of Oregon asked whether we could hold our air superiority if Russia got into the war. Bradley replied with a flat no, stressed that Russia has air superiority.

On the ground, Bradley predicted a winter stalemate with neither side strong enough to wage a successful offensive. He said our plan was to stay on the "active defense," harass the enemy and wipe out as many Chinese as possible. He seemed pessimistic about the truce talks.

Senator Russell of Georgia pointed out the public has been encouraged to pin its faith on new, mighty weapons with the power to achieve "fantastic results."

Bradley replied that the Defense Department is working on such weapons, but warned they are "four, five or six years away." Decrying the talk about secret weapons, he warned that such talk is a disservice to the public. "The armed services aren't able to 'perform miracles,'" said Infantryman Bradley, and urged Chairman Russell to issue a statement, playing down the importance of secret weapons.

McKellar Rages. The public record has been toned down, but a Tennessee feud erupted on the Senate floor the other day in all its mountain fury. It brought creaky Senator Kenneth McKellar to his feet in a wild rage, thumping his cane angrily and shaking a gnarled fist at his Tennessee colleague, soft-spoken Senator Estes Kefauver.

McKellar has been carrying on a one-sided feud against Kefauver for months, but this is the first time it has broken out on the Senate floor. What provoked the aged Tennessean was an attempt by Kefauver to create a roving judge for both Middle and Western Tennessee, instead of confining him to the middle district alone.

Disregarding rules of Senate courtesy, McKellar bitterly accused his colleague of "playing politics" and "violating his word."

"I believe in trying to settle these matters on the facts, and I am not going to get excited about it," broke in Kefauver calmly.

"The junior senator wouldn't know a fact if he saw one in the middle of the road," rapped McKellar, shaking with anger. Then the old man thumped down in his seat, scattering a sheaf of papers on the floor.

"I have another opinion about that," shot back Kefauver.

"Yes, the senator has, but no one else has," shouted McKellar from his seat.

Senator John Sparkman of Ala-

bama, sitting in temporarily for Vice President Barkley, rapped for order. Then North Dakota's cigar-chewing Senator Bill Langer jumped up and soothingly inquired: "I need to know which senator should like to know which senator from Tennessee represents the Hatfields and which one represents the McCoys."

New Defense Secretary Lovett has received only one message from General Eisenhower since taking office—an invitation to visit Ike's headquarters in Paris. . . . All American diplomatic couriers in the Balkans have been ordered to travel in pairs. Too many couriers traveling alone have been beaten up by the secret police and their dispatch cases rifled. . . . One of the men recently traveling around the U. S. A. with

Philippine President Quirino is Jose Yulo—an active Japanese collaborator during the war. Yulo was so helpful to the Japs that he was decorated in Tokyo—with the order of the Rising Sun. While President Quirino is most welcome over here, some people think he ought to be careful about whom he brings with him.

NOT ALONE
 Europe contains several leaning towers in addition to the famed tower of Pisa, Italy. One at Saragossa, Spain, is said to deviate farther from the perpendicular than does the Pisa tower, and there are two such twelfth century towers at Bologna, Italy.

Six Midlanders To Attend District Meet Of Legion In Alpine

Six Midland men will go to Alpine October 13 and 14 to attend a meeting of the sixteenth District of the American Legion.

Chairman A. Z. Sturges will head the delegation from Midland's Woods W. Lynch Post No. 19 and will be accompanied by Homer E. Jackson, T. V. Drury, Floyd O. Rhoden, W. G. Abbott and Elmer Logsdon.

will be a prelude to the National American Legion Convention which will convene in Miami, Fla., October 18, 19, and 20.

T. E. (Red) Steele and G. M. (Shine) Shelton, both of Midland, have been named to represent the sixteenth District at the national meet.

Six other Legion members from Midland will make the trip to Miami with the two representatives. They are Wade Heath, H. C. Cope, Joe Buttry, Ben Gay and L. R. Logsdon.

An American Legion bus from Midland will transport the delegates to Miami.

WOMEN'S WORK
 In Kibera, East Africa, the dusky ladies completely own, manage and work the one industry, salt-making, while the gentlemen gather firewood and run errands to earn their salt, the medium of exchange.

There are ten species of skunk in the Americas.
