Atlantic Has Flowing Oil From Sand Pay At SW Irion Wildcat

The Atlantic Refining Company appears to have a small flowing discovery from a sand in the Pennsylvania at its No. 1-P Noelke Southwest Irion County wildcat 13 miles southwest of Merton.

This project was originally drilled by Moore Exploration Company as its No. 1-P Noelke. That concern drilled into barren Ellenburger.

That formation made salty, sulphur water in the bottom.

Had Ellenburger Water

Atlantic, one of the contributors to the wildcat, and the holder of large amounts of leases in the regions adjacent to it, took the project over after it found the Ellenburger water.

That concern had an idea that the Pennsylvania sand which developed spray of oil and gas in a drillstem test at 7,400-66 feet, might yield petroleum in commercial amounts.

A string of 5 1/2-inch casing was cemented in the Pennsylvania at 7,855.5 feet. That casing has been perforated at 7,413-66 feet and that interval has been hydraulically fractured with 2,250 gallons.

Load And Residue Out

The load and residue from the fracturing operation was recovered and the well was then shut in for 48 hours. It was opened up at 5 p.m., Wednesday and in the 14-hour period which ended at 7 a.m., Thursday the wildcat flowed 69.6 barrels of 40 gravity oil and no water, through a one-half inch tubing choke.

Operator representatives say all of the 69.6 barrels of oil which was produced in the 14 hours of flowing was new oil from the formation. The project was shut in at 7 a.m., Thursday.

To Try To Complete

The drilling rig will be moved off and the wildcat will be tested further and an effort will be made to complete it as a commercial producer.

In taking the project over Atlantic acquired the well and the 40-acre lease on which it is located. Moore Exploration Company retains ownership of a considerable spread of leases in the vicinity of the No. 1-P Noelke.

Location is 690 feet from north and east lines of section 11, G&C&S survey, A-148, certificate 3273.

NE Ector Discovery Gets More Pay And Finds A Little Water

J. V. A. Brill and associates No. 1 Ratliff, flowing discovery from the lower Wolfcamp of the Permian in Northeast Ector County, appears to have found a little more pay and a small amount of salt water.

They came in a drillstem test at 9,700 feet. The tester was open four hours and 23 minutes. Gas surfaced in seven and one-half minutes and oil started flowing out at the top in 33 minutes.

Flow Estimated

The oil flowed for the remainder of the test period at the estimated rate of between 25 and 30 barrels per hour. The flow was through a 5/8-inch bottom hole choke and a one-inch top opening.

All of the fluid recovered in the drill pipe during the test unloaded while it was being pulled except 75 feet of salt water which was in the bottom of the string.

Open flowing bottom hole pressure was between 2,375 pounds and 2,025 pounds. Shut in bottom hole pressure after 45 minutes was 2,250 pounds.

Waiting On Orders

This project is now conditioning the mud while waiting on orders.

Location is 10 miles north of Odessa, 20 miles west and a little north of Midland and 660 feet from north and west lines of section 11, block 42, T-1-S, T&P survey. That makes it three miles west of the North Cowden-Grayburg shallow field.

Had Flowed Heavily

Brill No. 1 Ratliff had flowed heavily in a drillstem test at 9,690-9,704 feet. The tool was open 27 minutes. Gas was at the surface in four minutes and mud started flowing out at the top in 17 minutes.

Oil surfaced in 20 minutes and it flowed for seven minutes. Operator representatives would not make any estimate on the volume of the oil flow during that seven minutes.

Some unofficial estimates had that flow at the rate of between 100 barrels and 150 barrels per hour.

Official sources say the flow on the 9,690-9,704 foot test was heavier than was that on the zone at 9,704-14 feet.

All Field Unloaded

All of the fluid left in the drill pipe from the test at 9,690-9,704 feet unloaded from the pipe. There were no signs of water. Gravity of (Continued On Page Four)

Initial Steps Taken To Send Letters To Prisoners In Korea

TOKYO —(AP)—The Allies and the Communists took steps Thursday to clear the way for prisoners of war to exchange letters with loved ones at home.

UN spokesmen said relatives and friends writing Allied prisoners held in North Korean camps should address letters to:

AP0 100, care Postmaster, San Francisco.

Col. C. C. B. Warden, adjutant general of the Far East Command, said letters sent this address "will be held until permission is given to effect the delivery." That must come from the Communists.

When the Reds give an OK, presumably mail to Allied prisoners will be handled in the same fashion as mail from them—passed from one side to the other over the truce negotiation table at Panmunjom, Korea.

The Reds delivered 803 letters Wednesday. They arrived in Tokyo Thursday and were turned over to U. S. Army postal authorities.

More letters are on the way from the prison camps in North Korea, a Communist spokesman said at Panmunjom.

Wilfred Burchett, Communist correspondent for the Paris Ce Soir, said Wednesday's letters all were from one camp. He said other bundles were on their way from other prison camps.

He said they probably would reach Panmunjom in a few days. Burchett said the Allies could expect bundles every few days until the first crush is cleared.

Burglars Make Off With Radios, Tires

The ninth burglary in four days in Midland was reported Thursday to city police.

Burglars Wednesday night broke into the Ace Motors Company by shattering a glass window.

Missing were four radios, three tires and one tube. A box had been filled with automobile accessories but was not taken.

Eight burglaries Sunday and Monday nights were reported.

Man Dies As Fire Destroys Three Stores At Crowell

CROWELL —(AP)—One man was burned to death Thursday in a blaze which destroyed three stores in Crowell, 29 miles west of Vernon.

The victim was G. R. Smith, about 63, housepainter, who lived in a room over a hardware store.

The Robinson Hardware Store, Fish Dry Goods Store and Henry Dickson Jewelry were destroyed.

All of the buildings had been constructed since 1942, when Crowell was destroyed by a tornado. It was Crowell's first major fire since.

Foard County Sheriff Pete Gobin estimated the loss at \$250,000.

The fire started at 6:15 a.m. and raged almost three hours.

Brain Surgeon Will Battle For Life Of Beaten Vernon Lad

DALLAS —(AP)—A Dallas brain surgeon was enlisted Thursday in a battle for the life of four-year-old William Thomas Yates, who was beaten into unconsciousness Christmas Eve at his home in Vernon.

The boy was sent to Baylor Hospital here on orders of Wilberger County Judge A. D. Green. He was accompanied by a county nurse.

Earlier, the child's mother and stepfather, Mr. and Mrs. Robert Dale Simpson, were placed in jail in Vernon after charges in connection with the beating were filed.

Right Side Paralyzed

Hospital attendants held out hope the boy would survive what they described as a serious brain concussion. They said the right side of his body still was paralyzed and that he had been having convulsions.

"He was black and blue all over and his little feet were swollen," an attendant said.

Chicago Girl Weds Defrocked Priest

MILAN, ITALY —(AP)—Claire Young, a blonde Chicago girl, 21, was married Thursday to Luciano Negrini, 43, a former Roman Catholic priest and missionary.

The way to marriage had been tangled with red tape that took months to untangle.

Glaire gave up her American citizenship. Negrini was defrocked by the church during his romance.

The ceremony took place in Milan's City Hall.

Hungary Still Holds U. S. Airmen

Korean Cease-Fire Pact Expires

No Indication Of Plans To Extend Agreement Seen

MUNSAN, KOREA —(AP)—The 30-day Korean cease-fire line agreement ran out Friday on "a rather ominous note" in truce talks about Allied prisoners of war deaths.

There was no indication here of plans to extend the agreement responsible for the 30-day twilight war. The full five-man armistice committees which signed the original agreement November 27 did not even meet.

An official UN spokesman said neither side asked for an extension.

But in a subcommittee session at Panmunjom Thursday, Rear Adm. R. E. Libby said the Communists limited they may report many of the 50,000 unaccounted-for Allied prisoners of war died of exposure and disease.

Libby said it was "a rather ominous note. It might have been a forewarning that all these people died of illness."

Still Deadlocked

Subcommittees working on the problems of exchanging war prisoners and supervising a truce still were deadlocked when they adjourned their last session before the scheduled expiration hour.

Each committee scheduled another meeting at 11 a.m. Friday in Panmunjom.

Washington sources expressed belief Gen. Matthew B. Ridgway would approve a 15-day extension of the period in which the 145-mile line drawn across Korea November 27 now becomes a permanent cease-fire line.

High diplomatic officials in Washington said the supreme UN commander had been authorized to approve an extension of up to 15 days if he felt there was hope of reaching an agreement.

On November 27, negotiators drew a tentative cease-fire line and agreed it would become the center of a two and one-half mile-wide (Continued On Page Six)

TURNING CARTWHEELS FOR JOY?—No, but he had reason to. This sailor slipped on an icy runway in front of the Naval Air Station at St. Louis. He and the other enlisted men shown are part of a naval reserve squadron being returned home after combat duty aboard the U. S. Carrier Bon Homme Richard, which recently returned from Korean waters.

Texas Traffic Toll Heads Toward New All-Time High Mark

By The Associated Press

The toll of violence and accidents in Texas during the Christmas-New Year's holiday clicked off five more deaths Thursday morning—making the total 124.

Traffic accidents on the vast highway system of the state led all other reasons with 79 deaths.

The count began Friday midnight. Before the holidays are over, when January 1 has gone, the State Department of Public Safety expects 220 persons to die violently in Texas.

Three of the deaths reported Thursday were in fires.

G. R. Smith, 63, died in the blaze that destroyed three buildings at Crowell, southwest of Vernon. Arline Freeman Johnson, 36, and Judy Bishop, six, were burned to death in house fires at Fort Worth.

Thursday's traffic victims were Robert Vaughn Seale, Jr., 44, Kellots, who died from a Monday night accident in Polk County, and Dolores Fay Touchstone, about 20, struck by a city bus in Houston.

Capt. W. E. Woerner, statistician for the State Department of Public Safety, said the traffic holiday carnage would send the 1951 traffic death toll to 2,335. The 1951 loss in money, he said, would come close to \$100,000,000.

Speed, Carelessness

Before the holiday season death tabulations started last Saturday at 12:01 a.m., the Department of Public Safety estimated 220 persons would die violently—115 of them in auto mishaps. With six days of the Christmas-New Year's holiday remaining, it seemed certain the figures would be conservative.

Weather could take little blame for the butchery. Only on Christmas Eve and Christmas Day was there fog and some rain, mostly in East Texas.

Director Homer Garrison of the Public Safety Department said "too much speed and inattention to driving"—carelessness—was to blame (Continued On Page Six)

Hulcy To Speak At Banquet

D. A. Hulcy of Dallas, president of the United States Chamber of Commerce and one of the nation's outstanding civic and industrial leaders, will address the Midland Chamber of Commerce at its annual membership meeting and banquet here February 5, Chamber officials announced Thursday.

The banquet will be held in the Crystal Ballroom of Hotel Schaubauer, with a capacity attendance expected.

Robert L. Wood, vice president of the Midland Chamber, said Hulcy Wednesday accepted the invitation to speak here, and the date was confirmed in a telephone conversation early Thursday.

Hulcy visited Midland last Summer, soon after his election to the presidency of the U.S.C. of C. He previously had served as a director and vice president of the national organization, and is a past president of the Dallas Chamber of Commerce.

He is president of the Lone Star Gas Company, and long has been prominent in business circles of the Southwest.

Hulcy was the unanimous choice of the Chamber's banquet program committee as the guest speaker for the annual gathering. Members of the committee are S. M. Erskine, Jack Wicker, M. C. Ulmer, Tom Sealy and Bill Collyns.

C. of C. Manager Delbert Downing said tickets for the banquet will be placed on sale early next month. C. E. (Bud) Blissell is chairman of the ticket sale committee. Other members are John P. Butler, H. B. Schauer and Robert M. Payne.

Foes Challenge Iran Premier Mossadegh To Majlis Showdown

TEHRAN, IRAN —(AP)—Opposition deputies in Parliament Thursday formally challenged Premier Mohammed Mossadegh to come before the Majlis, the stormy lower house, and face a vote of confidence to decide whether he stays in power.

Apparently confident that it can kick him out, the opposition submitted the challenge through the Majlis president, Reza Khatami.

The document, called an Interpellation, challenges Mossadegh on four allegations: Suppression of freedom, violations of the principle laws of the country, a ruinous economic policy and lack of respect for the Majlis.

The lack of oil revenue since Mossadegh nationalized the old Anglo-Iranian holdings in this country is the basis of complaint over the economic situation.

Under Iranian law, the premier must go before the Majlis within 30 days to answer the challenge and ask a vote of confidence. But his supporters have an ace in the hole.

By staying away from the Majlis, as many have done in the last 10 days, they can prevent a quorum—two-thirds of the deputies present in Tehran—and thus prevent or stall off any possible no-confidence decision.

More Clear, Dry Weather Forecast

By The Associated Press

Another day of clear to partly cloudy skies is due in Texas Friday.

The entire state had clear skies Thursday with Wednesday's cool temperatures continuing. Only partly cloudy skies, with warmer weather, was the outlook for Friday.

Minimum temperatures reported overnight ranged from 14 at Dalhart to 50 at Brownsville.

Wednesday's highest temperature in Texas was Laredo's 75 degrees, with an early morning 17 at Dalhart the lowest. Only Houston with .01 inch and Beaumont with .02 inch reported rain Wednesday.

Fines Imposed On American Airmen Termed Blackmail, Ransom By Press

By The Associated Press

The State Department's decision to pay the fines demanded by Red Hungary for the release of four imprisoned American airmen drew varied comments and warnings from the nation's newspapers.

Words like "blackmail" and "ransom" were sprinkled through editorials denouncing the Hungarian government's action against the fliers Sunday.

Hungary then claimed the fogs violated its border and fined them a total of \$120,000. The State Department Wednesday decided to pay.

Some newspapers said the United States could take no other course, but other editorials suggested this country might have found other means of obtaining the fliers' release.

A number of newspapers expressed fears many similar troubles are yet

Red Regime Considering Offer To Pay

VIENNA —(AP)—The U. S. Embassy Thursday night said the Hungarian Communist government still is "considering" the American offer to pay a fine for the freedom of four jailed U. S. fliers.

Such a stand conflicted with announcement of Hungary's Legation in Washington Wednesday night that the offer of \$120,000 in fines—called a ransom in the West—had been accepted for prompt release of the four men.

Thursday night's development raised doubts on the status of negotiations for release of the fliers, convicted of violating Hungary's borders after their plane lost its course on a Munich-Belgrade flight. It seemed possible the Hungarians had raised some new conditions.

The ambassador here, Walter J. Donnelly, talked with George Abbott, U. S. charge d'affaires in the American Legation at Budapest.

"The Hungarians merely told Abbott our proposition was being considered," Donnelly said.

U. S. Officials Hopeful

But American officials in Budapest still hoped the fliers soon would be on their way to freedom. Abbott also expressed hope the Hungarians when their decision was made would turn to the fliers over to the U. S. Legation in Budapest rather than dump them on the Austrian border without previous notice.

A group of American officials was ready to go to the border to meet the fliers. It waited for Soviet permission to cross the Russian-occupied zone of Austria to the border town of Nickelsdorf, where Hungary in April released Robert A. Vogel, American businessman imprisoned 18 months by Hungary as a "spy."

Donnelly and his deputy, Walter A. Dowling, are the only American officials in Austria who have the right to move about the Soviet zone without prior Soviet authorization. They planned to go to the border if the Russians delayed authorization for the Nickelsdorf group to operate.

Three State Department limousines (Continued On Page Six)

Risks Cited In Payment Of 'Ransom'

By JOHN M. HIGHTOWER

WASHINGTON —(AP)—Responsible officials Thursday conceded there are dangers for the future in the U. S. decision to pay the \$120,000 in fines levied by Communist Hungary against four American airmen.

At the same time these authorities asserted there were compelling reasons for the decision and that in terms of propaganda the result will not necessarily be entirely adverse to the United States.

This government, after pondering the issue for several days, agreed to pay the fines.

Disadvantages Noted

On the negative side of the U. S. decision to pay the fines these dangers or disadvantages were noted:

1. The Communist leadership can and undoubtedly will exploit the U. S. decision in Europe and elsewhere as an evidence of American weakness, and also as evidence that the airmen were guilty. The four Air Force men on an official mission, were charged with having deliberately violated the borders of Hungary to discharge spies. The U. S. insisted they lost their way on a flight to Belgrade, Yugoslavia, and that the spy charge was baseless.
2. Aside from propagandizing, the Kremlin may be led to think there is a lack of determination in Washington in handling such matters and may be encouraged to run greater risks in the future in dealing with the U. S. and its citizens.
3. The Hungarian incident may lead to a series of similar irritating actions involving greater sums of money and more persons—either members of the armed forces, diplomats or civilians.

Midland Girl Hurt Seriously As Three Automobiles Collide

An 18-year-old Midland girl was injured seriously Wednesday night in a three-car accident east of Midland which sent one other woman to the hospital.

Joan Frances Tom, 1611 West Texas Street, suffered a fractured pelvis as well as contusions and abrasions of the body when her automobile collided with two others about seven miles east of the city on U. S. Highway 80.

Mrs. Olen Thornton Christian of Stanton, occupant of one of the other vehicles, was treated at the Martin County Memorial Hospital for less serious injuries.

Highway Patrolman Ocie Renfro said Miss Tom was driving east and was attempting to pass another vehicle when she collided with a truck driven by Christian. Her automobile then careened into one driven by Bill James Adair, 114 East Parker Street.

Miss Tom was admitted to Midland Memorial Hospital for treatment.

Fines Imposed On American Airmen Termed Blackmail, Ransom By Press

By The Associated Press

The State Department's decision to pay the fines demanded by Red Hungary for the release of four imprisoned American airmen drew varied comments and warnings from the nation's newspapers.

Words like "blackmail" and "ransom" were sprinkled through editorials denouncing the Hungarian government's action against the fliers Sunday.

Hungary then claimed the fogs violated its border and fined them a total of \$120,000. The State Department Wednesday decided to pay.

Some newspapers said the United States could take no other course, but other editorials suggested this country might have found other means of obtaining the fliers' release.

A number of newspapers expressed fears many similar troubles are yet to come. Some said the U. S. should consider retaliatory measures.

These were some of the comments:

The New York Times — "There is every reason to believe that if this ransom had not been paid x x x the three-month imprisonment which had been imposed on them (the airmen) as an alternative to redemption by ransom would have been dragged out interminably while the young men themselves were subjected to physical and mental torture for the purpose of obtaining from them 'confessions' of criminal intention."

The Washington Post — "The government of the United States has weakly made itself an accessory to future crimes, and by its weakness has permitted blackmail to win a cheap and easy triumph."

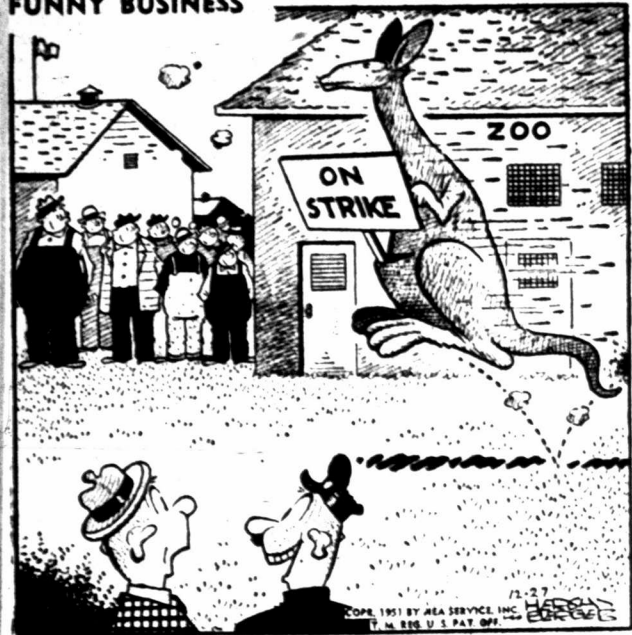

The Baltimore Sun — "If anyone has thought of any practical way for procuring freedom for these Americans other than paying the blackmail demanded, he has kept the idea to himself."

The Chicago Tribune — "More isolationism would result in fewer annoyances of the sort with which Budapest has just acquainted us."

The New York Daily News — "x x x We think majority opinion in this country since the 'convention' has favored the government's course. x x x us as we ransom these men, let us make up our minds to get our revenge some day, some way."

The St. Louis Globe-Democrat — "The nation that once said through Teddy Roosevelt, 'Speak softly but carry a big stick,' apparently is impotent."

Midland Couple Celebrates Golden Anniversary

Mr. and Mrs. C. W. Dodson, 506 South O Street, Wednesday night celebrated their golden wedding anniversary at their home here. Residents of Midland since 1929, the couple held open house from 8 to 10 p.m. Wednesday for their friends.

The retired contractor and his wife were married at Red Oak, Texas, Dec. 26, 1901.

Relatives of the couple who were here to celebrate the occasion include five of their children and their families, 12 grandchildren and eight great-grandchildren.

Guests included Mr. and Mrs. Kenneth E. Dodson, 1210 West Washington Street; Mr. and Mrs. Charles W. Dodson, Jr., Cotton Flats Road; Mr. and Mrs. Cecil Dodson, Clyde; Mr. and Mrs. Marcus Laytham, Hereford; Mr. and Mrs. Earle Robertson, 1408 West Washington Street, and Mr. and Mrs. Skipper Shippy of Odessa.

Party Honors Bride-Elect

The engagement and approaching marriage of Margaret Price of Pampa to Courtney Holt Cowden of Midland was announced by her parents Sunday at an open house. Miss Price is the daughter of Mr. and Mrs. W. D. Price of Pampa. Cowden is the son of Mr. and Mrs. Frank Cowden of Midland.

Guests were received by Miss Price and her mother. Others in the house party were Mrs. W. D. Price, Jr., Mrs. R. C. Paterson and Mrs. Harriett Parks of Midland and Mrs. Vester L. Smith of Higgins. The serving table was covered with a white linen cutwork cloth and centered with a Christmas arrangement with tall white Christmas bellstied with red ribbon. Under the bell arrangement was a choir boy holding a scroll with "Margaret and Courtney, January 12" inscribed on it. Approximately 75 guests called.

Maxsons Hold Open House

Mr. and Mrs. R. C. Maxson held an open house Wednesday night in honor of Mr. and Mrs. Jack Noyes of Sonora.

The table was covered with a white lace cloth over green and centered with candles and Christmas ornaments. Mrs. Russell Holster presided at the silver service.

Guests attending were Mr. and Mrs. Gerald Nobles, Mr. and Mrs. Charles Kelly, Anne Tolbert, Mr. and Mrs. Gerald Self, David Raney, Mr. and Mrs. Ronald Jarrett, Mr. and Mrs. Jack Matthews.

Mr. and Mrs. Clarence Scharbauer, Jr., Mr. and Mrs. Allen Wemple, Mr. and Mrs. Frank Repman, Mr. and Mrs. Russell Holster, Mrs. W. G. Ray, Ileta Terry, Ben Gray, Ann Mansfield of Dallas, Mrs. Ben Sevier of San Angelo, and Mr. and Mrs. Vic Chancellor.

SOCIETY

THE REPORTER-TELEGRAM, MIDLAND, TEXAS, DEC. 27, 1961-3

Cpl. and Mrs. Robert J. Webb, Jr.

Carolyn Parker, Robert Webb Wed

Carolyn Faye Parker of Albuquerque, N. M., became the bride of Cpl. Robert J. Webb, Jr., of Midland in a ceremony Sunday. The wedding took place in the Highland Baptist Church in Albuquerque, with the Rev. L. D. Mitchell officiating. The bride is the daughter of Mr.

and Mrs. Rayburn Parker of Albuquerque. Webb is the son of Mr. and Mrs. Robert J. Webb of Midland.

The church was decorated with baskets of mixed flowers and candles. Mrs. Dan Grim was soloist. She was accompanied by George Fenley, violinist, and Jane Fenley, pianist.

Betty Mitchell was maid of honor and the bridesmaids were Gail Reid and Faye Wiggin. Candles were lighted by Barbara Sanderson. Robert J. Lewis was the best man and ushers were Cpl. Tom Griener and Pfc. Jay J. Harkins.

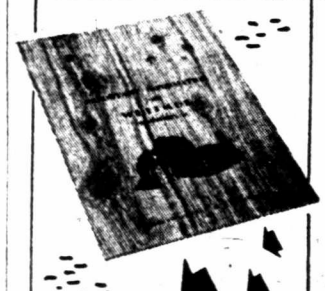

The bride wore a gown of white slipper satin. Her fingertip length veil was attached to a tiara of seed pearls and she carried an arrangement of purple orchids and pink carnations.

The maid of honor wore a gown of peach satin and net and carried a bouquet of pink carnations. The bridesmaids wore gowns similar to Miss Mitchell's and carried bouquets of carnations.

A reception was held in the home of the bride's parents.

For traveling the bride wore a black suit with black and white accessories. After a wedding trip to Midland the couple will be at home in Albuquerque where Corporal Webb is stationed at Kirtland Field with the Air Force. The bride is a senior in Highland High School.

VIRTUE'S MIDLAND, TEXAS
27 STORES SERVING THE SOUTHWEST

Coming Events

SATURDAY
Boy's Choir practice of the First Methodist Church will be held at 1 p.m. in the Children's Building.

Children's Story Hour will be held at 10:30 a.m. in the Children's room of the Midland County Library. The Dunbar Station will meet at the same time.

Midlanders To Be Wedding Guests

Mrs. Al Boring, Ann Boring and Bill Burnside left Wednesday morning for Fort Worth where they plan to attend the wedding of Mary Lou Price and Roger Coleman, both students at Texas Christian University. The wedding will be held Thursday in the University Christian Church. Miss Boring will serve as one of the bridesmaids. The bride-elect is from Midland.

RAINBOW GIRLS PLAN DANCE

The Rainbow Girls will have a holiday dance Thursday night in the City-County Auditorium.

SUFFERS COFFEE BURNS

Charles Pryor, three-year-old son of Mr. and Mrs. Worsham Pryor, 804 South Lorraine Street, received first degree burns of the face, chest and forehead Wednesday when hot coffee was accidentally spilled on him. He was given emergency treatment at Midland Memorial Hospital.

It is said that 27 singers are only twice as loud as one singer.

The Reporter-Telegram

Longhorns, Aggies Win In Tourney; Ponies, Hogs Lose

DALLAS —(P)— Vanderbilt and Texas Christian, favorites in the Southwest Conference pre-season basketball tournament, move into first round games Thursday night.

Vanderbilt, with a 6-1 record, clashes with Baylor (1-7), while Texas Christian (7-1) meets Rice (3-6).

Texas A&M and Texas already are in the semifinals. They won opening round games Wednesday night, the Aggies beating Arkansas, 49-46, while Texas was toppling home-town favorite, Southern Methodist, 58-42.

Friday night the Aggies play Texas while the Vandy-Baylor winner meets the Texas Christian-Rice winner.

Big Jim Dowies and Ted Price pushed Texas to its rather one-sided victory over Southern Methodist, the former sinking 17 points and the latter not getting 16 but doing a good job of controlling the ball off the backboards. Dowies got seven free throws to make his consecutive run 20 in three games.

Technical Foul
Texas went in front after two minutes and had little trouble licking SMU which was even stuck a technical foul for riding from the bench.

The Aggies started well but faded in the second quarter when Arkansas pushed to a three-point lead. But A&M surged back in the third period, grabbed the lead as 44-37, and although getting only five points in the fourth quarter, did a great job of stalling in the final minutes, keeping the ball virtually all the time.

Walter Davis, the 6-foot-8 center, roped 22 points and was death on the rebounds. Toar Hester, the seven-foot Arkansas center, got 14 points but missed many, many shots. He was tightly guarded by Davis.

Coach Presley Askew of Arkansas was handed a technical foul for charging onto the court to protest a foul called on Hester.

A crowd of 3,427 paid turned out for the first night's show. It was much better than anticipated and contributed almost half the \$10,000 that is needed for the tournament to pay for itself.

Vanderbilt is the "visiting" team. The Commodores, who have the top offensive record of the eight quintets—averaging 67.7 points per game—are easy favorites over downtrodden Baylor, Texas Christian, however, is due to have some trouble from a Rice outfit that has averaged 59.3 points per game. The Christians have averaged 66.2.

Semi-finals will be played Friday night and finals Saturday night.

Consolation play also starts Friday with Southern Methodist meeting Arkansas at 2 p.m. and the Vanderbilt-Baylor loser playing the Texas Christian-Rice loser at 4 p.m.

Houston Gridders Seriously Injured

HOUSTON —(P)— Jackie Golden, a left halfback for the University of Houston's Salad Bowl-bound Cougars, still was unconscious Thursday due to a head injury received in practice Wednesday.

Golden, a Houston resident, received the injury while the Cougars were scrimmaging for their New Year's Day football game against the Dayton, Ohio, Flyers at Phoenix, Ariz.

Aussies Rip Americans In Cup Action

SYDNEY, AUSTRALIA—

(P)— Australia virtually wrapped up the Davis Cup Thursday when its great doubles team of Frank Sedgman and Ken McGregor slaughtered America's best pair of Ted Schroeder and Tony Trabert, 6-2, 9-7, 6-3.

The American debacle was a sad disappointment to the capacity crowd of 15,300 at White City Stadium. They had anticipated a hard fought tennis match.

The Australians now lead, 2 to 1, in the best-of-five matches. The final two singles matches will be played Friday.

Schroeder, possibly weary from his fine stand against Sedgman Wednesday, failed his youthful partner completely. Towards the last of the one-sided tilt Schroeder was a pathetic figure.

He scored only three placements in the entire match to 17 by Trabert, 24 by Sedgman and 19 by McGregor. The way he played he will be extremely lucky to defeat Mervyn Rose in Friday's opening match.

Australia could well retain the cup by a 4-1 margin as Sedgman now is at the absolute peak of his career and will be heavily favored to trim Vic Seixas in the final singles match.

While disappointed in the failure of his pair to make a better showing, Frank Shields, captain of the U.S. team, refused to find fault with either.

"They just ran into the greatest doubles team I ever saw," he said. "Those two fellows were tremendous. It's mighty discouraging to make a perfect cutoff shot at the net and hit where no one should be and have it come back past you for a winner. That happened to our boys a dozen times Friday. I don't think Ted was especially tired, only discouraged."

Schroeder was the only player to lose his service. The Aussies broke him twice in the opening set, again in the final game of the long second set and finally in the eighth game of the third set to gain victory. Trabert never ceased to fight and he repeatedly won plaudits from the crowd by his singhanded battle with adversity. But the task was far too much for the lad from the Bainbridge (Md) Naval Station.

Bears Journey To Miami For Orange Bowl Football Test

WACO —(P)— Baylor's Golden Bears winged toward Miami, Florida, Thursday and a date with Georgia Tech in the Orange Bowl January 1.

Forty-seven players, Coaches Jim Crow, Mike Michalske, Jack Wilson and Sam Boyd, Trainer Delbert Brown, Sports Publicity Director Dub King and Student Managers Bobby Dyal, Walter Fairfield and Jimmy Bailey were in the party. Head Coach George Sauer went to Miami Wednesday.

The plane bearing the Bear gridders was due in Miami in mid-afternoon.

The Bears held their final home workout Wednesday. They will not practice at Miami Thursday but two drills are scheduled Friday.

It is Baylor's first major bowl game and Coach Sauer has forecast a great offensive duel. He has predicted his team will score at least two touchdowns on Tech—something only one team did during the regular season.

Crow, who scouted Tech in its final game of the season with Georgia Tech, has forecast a Baylor victory.

The New York football Giants of 1927 allowed 13 opponents a total of 20 points, a record that stands today.

IT'S CYCLE-LOGICAL—Austrian Goalie Gus Gartner stretches high for a save as his partner, Steve Sikory, grips handlebars, poised for action against a winning German two-man team in a cycle-ball tournament at the Festhalle Indoor Cycling Stadium in Frankfurt Germany. A Swiss world championship pair won the round-robin with a French duo second. The game might be described loosely as soccer on bicycles. (NEA)

FOOT SOLDIERS—Tailback Hank Lauricella, left, is Tennessee's climactic runner. Fullback Ed (Mighty Mo) Modelewski will hit hard for Maryland in the battle of all-conquering teams in the New Orleans Sugar Bowl, Jan. 1. (NEA)

It looks like no Golden Gloves boxing team for Midland this year.

Boys were available to fight, and three men offered their services—free of charge—as trainers and coaches. They even had equipment and a site to work out. But no sponsor is available.

We asked for a sponsor Sunday in The Reporter-Telegram but got no response. And it's probably too late to do anything about it now, as the fights in Odessa start in less than one month. That isn't much time for training.

Last year, Midland won the novice title at Odessa, with Bill Gildewell, Youth Center Director, as the coach. We would like to have seen Midland enter again, but it looks like no soap now.

A sponsor was needed to cover cost of transportation to and from Odessa and to feed the boys during the three-day district meet there.

The opening of Andrews High School's new \$225,000 gymnasium is scheduled January 4-5, when the first annual invitational basketball tournament will be played.

Seven teams have accepted invitations. They are Kermit, Monahans, Seagraves, Levelland, Tahoka, Seminole and McCamey.

A team trophy to the winning team and gold basketballs to the 10 boys chosen all-tournament will be awarded.

According to sports scribe Bill Werley at Vernon, the Dusters will field a weak entry in the Longhorn League this year.

The Dusters have been running into financial difficulties, and the club is in a pretty bad shape, we hear. Sweetwater also is reported to be unstable. All other clubs—including Bunting Artesia—are making plans to field their best teams in the history of the loop.

DOTS AND DASHES: Bob Boone's latest prediction is Kentucky over TCU in the Cotton Bowl. . . Midland High School meets Jefferson (El Paso) in the first day of the Odessa Invitational Basketball Tournament, January 3. . . Rotary Engineering Company will send these players against powerful Phillips 66 in a cage clash here February 14: J. B. (Tom) Collins, Sam Houston State; Bennie Ruthford, North Texas State; Don Grove, Texas Tech; Leland Huffman, Texas A&M; David Bergendahl, Syracuse U.; Charlie Kelly, H-SU; Jimmy Watson, University of Texas. . . and probably several other boys also will see action. . . End of the Row for now!

King Of Laos Is Back On The Job
VIENTIANE, LAOS, INDOCHINA —(P)— His Majesty Sisavang Vong, the King of Laos, is back in Vientiane after a long stay in France.

The King recently reviewed soldiers of the infant Laotian army and French units.

Two newly formed battalions of the Laotian army recently were outfitted with new American Army-type Garand rifles for operations against Communist-led - Vietminh guerrillas who are infiltrating into this remote Indochinese kingdom.

Laos is one of the three Associated States of Indochina which last year were granted limited independence within the French Union.

Georgia Tech's Bobby Dodd has never lost a bowl game as head coach. His Jackets will be after their third Bowl victory in the Orange Bowl in Miami on New Year's Day.

Backs For Shrine Grid Tilt Named

SAN FRANCISCO—Shrine football coaches talked probable lineups Thursday as the East and West squads breezed into their last workouts for Saturday's charity game.

The East came up with tentative offensive and defensive teams. But the West mentioned only an offensive unit.

Both were freely sprinkled with "or" . . . it's that tough for the coaches.

Six backs were listed as possible starters for the West offensive team and nine for the East.

Coach Jess Neely of Rice named Frank Gifford of USC, 190 pounds, to an end halfback spot and Glenn Lippman of Texas A&M (180) to the other.

It's between Ollie Matson of USP (203) and Hugh McElhenry of Washington (197) for fullback.

That's the West's beef, but fast beef, that will face a lighter and possibly slicker East backfield.

Coach Tuss McLaughry tentatively listed these for the East: Dick Kazmaier of Princeton (171) or John Peubon of Notre Dame (180) for one halfback spot.

Powerful Vic Janowicz of Ohio State (186) or Jim Hammond of Wisconsin (194) fullback.

QB—Al Dorow, Michigan State (175) or Bill Putich (170) Michigan.

HB—Dick Pivorotto, Princeton (187) or Charles Curtis, Dartmouth (170) or Dick Alban, Northwestern (180).

Both teams eased off in workouts as they approached game time Saturday in sold-out, 60,000 seat Kezar Stadium.

Taylor Thinks Stanford Can Whip Illinois Eleven

PASADENA, CALIF. —(P)— Stanford's football coach, young Charles A. (Chuck) Taylor, isn't junking his philosophy of winning games.

Taylor, 31, who confounded the nation's coaches by actually predicting victory week by week for his Indians, feels much the same way about Stanford's encounter with Illinois in the Rose Bowl.

Taylor, speaking before the Football Writers Association of Southern California, didn't make a flat prophecy of triumph. But he put it this way:

"We've never gone into a game believing we couldn't win. We always believe we can win. That same philosophy applies for this game."

Taylor and his Pacific Coast Conference champions are at San Bernardino, living high at Arrowhead Springs and training at the National Orange Show Stadium. The site is about 50 miles east of Pasadena and the camp of the Illini from the Big Ten.

Truman Reported One Member Short On Clean-Up Team

NEW YORK —(P)—The New York Times says President Truman is reported to have chosen two of three members for a special commission to investigate and expose wrongdoing in government.

In a story from Independence, Mo., the Times reported Truman is said to be still seeking a young and widely-known investigator to complete the inquiry team.

No immediate comment on the Times story was available from White House sources.

The Times story declared the President is said to have obtained acceptance from one Republican and one Democrat, whose names were withheld pending completion of the three-man panel.

Lawrence said the still-unsettled board members will replace Federal Judge Thomas F. Murphy of New York, who reportedly has withdrawn his acceptance to head the inquiry.

Texas Teams Ready For Eight More Grid Bowl Games

By The Associated Press

Texas teams have won five of six bowl games and play eight more by January 1.

One is scheduled this week. Brooke Medical Center of San Antonio meets Camp Lejeune, N. C., in the Cigar Bowl at Tampa, Fla., Saturday.

The seven bowls on January 1 in which Texas teams participate are: Cotton Bowl at Dallas—Texas Christian vs. Kentucky.

Orange Bowl at Miami, Fla.—Baylor vs. Georgia Tech.

Sun Bowl at El Paso—Texas Tech vs. College Of The Pacific.

Salad Bowl at Phoenix, Ariz.—University of Houston vs. Dayton.

Oleander Bowl at Galveston—San Angelo Junior College vs. Hinds Junior College (Raymond, Miss.).

Prairie View Bowl at Houston—Prairie View A&M vs. Arkansas A&M.

Steel Bowl at Birmingham, Ala.—Texas College vs. Bethune-Cookman.

The only bowl game lost by a Texas team thus far was the Junior Rose Bowl at Pasadena, Calif., where Tyler was defeated by Pasadena City College, 28-26.

Carswell Air Force Base of Fort Worth beat Fort Jackson, S. C., 32-7, in the Service Bowl at Columbia, S. C.; Del Mar Junior College of Corpus Christi beat Pearl River, Miss., 32-6 in the Memorial Bowl at Jackson, Miss.; Kilgore Junior College defeated Northeastern Oklahoma A&M 27-14 in the Texas Rose Bowl at Tyler; Sul Ross State College defeated the Mexican all-stars 41-40 in the Silver Bowl at Mexico City, and Thornale, Texas, won the milk bowl at Marlin by beating Sequoyah Indian School of Oklahoma, 33-0.

Andrews Band To Play For COP Gridders In Bowl

ANDREWS—The 100 piece Andrews High School Band, sweepstakes winner the last two years, will be the official representative of the College of the Pacific at the Sun Bowl game in El Paso New Year's Day, Director Everett Maxwell has announced.

College of the Pacific officials notified the Sun Bowl Committee their band would not be able to make the trip for the game, and asked El Paso officials to designate a band to serve in that capacity.

Director Maxwell was contacted and the assignment was accepted.

The Andrews band will be listed on the Sun Bowl program as the representative of the College of the Pacific and will play the Pacific's "Alma Mater" in a pre-game ceremony.

The Andrews group also will participate in the half-time show along with other Texas, New Mexico and Arizona bands. Brownfield and McCamey bands are among other area bands planning to attend the Sun Carnival.

The Andrews Mustang Band will march in the Sun Carnival parade Tuesday morning.

Also making the trip to El Paso to see the Texas Tech-COPE of the Pacific football game will be Coach Neil Taylor and lettermen of the Andrews Mustang football squad.

The trip will be made in school buses, leaving Andrews Monday and returning Wednesday.

OWENS TO HAWKS

MILWAUKEE, WIS. —(P)— Former Baylor Guard Jim Owens will play basketball with the Milwaukee Hawks of the National Basketball Association. He was bought from the Baltimore Bullets of the NBA Thursday.

John Mauer is in his first season as Florida's head basketball coach. A graduate of the University of Illinois, Mauer coached basketball at Kentucky, Tennessee and West Point before taking over the Gators.

World's Oldest Village Is A Family Discovery

Family affair: Archaeologist Robert Braidwood and his wife and children go back over map of route that took them on an expedition to uncover world's oldest village, in Iraq.

CHICAGO—(NEA)—The discovery of the world's oldest village was a family affair. University of Chicago Archaeologist Robert Braidwood, who led the expedition that found Jarmo, gives equal credit to his wife, Linda, and to their two children, Gretel, 10, and Douglas, seven.

The Braidwoods spent a year digging in still-primitive Northeast Iraq. They unearthed the earliest village known—Jarmo, whose 300-odd inhabitants lived in 50 mud huts and led the first organized village life some 7,000 years ago.

The children were tutored daily by their mother, whose other tasks included managing the affairs of their mud-hut household and shouldering a generous share of the expedition's work.

A former department store buyer, Mrs. Braidwood was paymaster, photographer, accountant and classifier of specimens. She catalogued more than 125,000 flints, tools and articles of pottery found at Jarmo.

Braidwood sent plans ahead for his family's adobe house to Abdullah, an Egyptian field foreman. But when the Braidwood family arrived, they found a house minus electricity and plumbing, with windows in upside down and doors working backwards.

Gretel and Douglas wanted holiday cookies for Christmas, but there was no powdered sugar. So they ground coarse Arabian sugar on milling stones dug up at Jarmo and probably not used since 5,000 B. C.

The children kept a gazelle as a pet. "Clothes were planned on a strip-tease principle," Mrs. Braidwood explained. "We'd start off wearing a lot of warm things in the morning, then shed them one by one as it got warmer."

The Kurdish people, who were their neighbors during the long months of digging, lived just about the same as the villagers of Jarmo did in 5,000 B. C.

Braidwood, who teaches old world pre-history, sums up his opinion of the value of his own job something like this: "The villagers of Jarmo entered into a revolutionary way of life by taking up farming and a crude peasant life instead of depending on hunting for an existence. Today we are barely on the threshold of the industrial revolution, even though we may seem scientifically far advanced."

"If we could grasp the meaning of such drastic social changes, much of the misunderstanding in the world today would disappear and we could peacefully concentrate on a better life for all of us for as long as this planet is habitable."

Five thousand-year-old oven: Surrounded by mud walls of a house, this oven, unearthed at Jarmo, was used 5,000 years ago.

+ Crane News +

CRANE—Mrs. T. H. Smith of Rockwell, Texas, spent the holidays here with her daughter, Mrs. Horace Hendricks.

Floyce Underhill, physical education teacher in the elementary school, spent the holidays in bed as a result of mumps.

Frank Rainey, high school English teacher and Joe Holt, high school mathematics teacher, have handed in their resignation, effective at the beginning of the last school semester.

Soviet Union Agrees To Accept Kennan As U. S. Ambassador

WASHINGTON—(AP)—Russia has agreed to accept George F. Kennan as the new U. S. ambassador to Russia, almost at the same time denouncing him as a foe of the Soviets.

President Truman announced at Kansas City Wednesday night the selection of the 47-year-old career diplomat, who is credited with being a principal author of the present American policy of containment to counter the threat of Communist aggression.

Kennan will succeed former Rear Adm. Alan G. Kirk, whose request for retirement Presidential Secretary Joseph Short said Truman accepted with reluctance.

The announcement was made after the Kremlin orally informed the White House Kennan would be acceptable. There had been attacks on him by both Pravda and radio Moscow, the latest only Wednesday.

Kennan, former State Department counselor and recently chief of Secretary of State Acheson's policy planning staff, now is on leave with the Institute for Advanced Studies at Princeton, N. J. He is expected to take over the ambassadorship probably in April.

Short said his nomination would be submitted to the Senate for confirmation soon after Congress reconvenes. There has been no indication of opposition to Kennan.

Kennan has had long experience in dealing with the Soviets, previous service in the embassy at Moscow, and speaks the Russian language fluently.

U.S. Airmen—

(Continued From Page One) sines waited outside the embassy here for orders.

Abbott told Donnelly he had seen the Hungarian undersecretary for foreign affairs Thursday afternoon. Abbott was told the Hungarians had made "no decisions on the American note which was delivered on Christmas Day." This was the note in which the U. S. government said it would pay the fine if the fliers were released promptly. The note was delivered at 7 p. m. (Budapest Time) Tuesday.

Note "Being Considered" "The Hungarians," said Donnelly, "told Abbott that the note was being considered by judicial and financial authorities and they added they could give Abbott no information when the fliers might be released."

If the Hungarian government had not decided to accept the payment, then the manner and means of its payment apparently could not have been an issue. Donnelly said he had no idea how the money might be deposited with the Hungarians, and that Budapest Legation officials did not want to discuss this matter over the telephone. They have been wary of talking over lines monitored by the Communists.

Officials in Vienna did not discount the possibility the Hungarians might take the four airmen to the Yugoslav border. The C-47 transport plane which they were flying was heading for Belgrade November 19 when it was forced down by Soviet jet planes over Hungary.

Jailed 38 Days Ago The four fliers were jailed 38 days ago when Russian fighter planes based in Hungary forced down their unarmed C-47 cargo plane.

The United States agreed to pay fines totaling \$120,000 to save the men from three months in a Hungarian prison.

A Hungarian military court secretly convicted the four airmen four days ago on an accusation they deliberately violated Hungary's border to size up the ground for later spy dropping.

The Hungarian explanation—sent to the Americans in a note which the Red regime partly rejected—is that the plane got lost on a routine flight and its crew had nothing to do with spying.

Cease-Fire—

(Continued From Page One) buffer zone if an armistice were signed within 30 days.

Otherwise the line would be redrawn just before a truce is signed to follow changes resulting from battle action.

Expiration of the cease-fire line agreement could bring an explosive end to the month-long lull on the battle front; or the twilight war could continue while negotiations go on.

In Thursday's fruitless talks in snow-swept Panmunjom, each side accused the other of delaying the truce needlessly.

North Korean Maj. Gen. Lee Sang Cho charged that the UN wasted time by refusing to agree to a Communist proposal for an all-for-all exchange of prisoners.

Rear Adm. R. E. Libby told the Reds they wasted 12 days by refusing to set up a prisoner exchange subcommittee, then delayed another eight days before agreeing to exchange prisoner lists.

The list finally submitted by the Reds was "fatally deceptive," Libby asserted.

15 Injured As Egyptian Police Fire On Rioters

CAIRO, EGYPT—(AP)—Police fired on rioting Egyptian students Thursday as protest demonstrations broke out in Cairo and Alexandria for the second day in a row over the apparent entry of the palace into power politics.

Buckshot fired from police riot guns injured 15 students at Alexandria.

Several students and police were reported injured in Cairo. The students overturned and set fire to a streetcar near the Parliament Building and police waded in with billy clubs.

Ten students were arrested and Cairo traffic piled up for blocks before several hundred police restored order.

The disturbances spread to secondary school students Thursday.

Four secondary schools in Alexandria were ordered closed, including the Abbasia School, near the Alexandria main railway station, where police fired on the students.

Steel Crisis Comes To Head Thursday

PITTSBURGH—(AP)—The steel crisis came to a head Thursday with union policy makers meeting to decide whether to strike or work.

While leaders of the CIO-United Steelworkers gave no hint what kind of action they may take, it was believed generally they would vote to delay the nation-wide strike set for New Year's Day.

The union's 36-man Executive Committee met first and then the 170-member Wage-Policy Board convened at 2 p. m.

The Executive Committee makes decisions; the wage-policy board accepts or rejects them.

As the sessions are secret, no announcement was expected before the larger group completed its session, probably late Thursday.

Risks Cited—

(Continued From Page One) lomats or private citizens. This danger is seen as most likely to materialize if the Communists decide they have hit upon a way of getting money out of the U. S.

Positive Considerations On the positive side of the decision to pay the \$30,000 fine assessed against each of the four, officials said there were these considerations:

1. Payment appeared to be the only way open to assure the prompt release and therefore the safety of the airmen. Courts behind the Iron Curtain can raise as well as lower sentences already imposed. It was feared here that if the men served the three months imposed as alternatives to paying the fines they still might not be set free when those sentences ran out.

2. The decision can be used by the U. S. and its friends in Europe as proof of American patience and restraint in dealing with Communist provocation. This is considered important because a large segment of population in Western Europe reportedly is fearful of rash Washington action which might cause war.

3. The decision shows that the U. S. stands behind members of the armed forces in such a situation as that created by Hungary. Authorities believe this is important for the morale of forces serving in positions where they might fall into Communist hands.

Traffic Toll—

(Continued From Page One) for the upsurge in traffic deaths. He urged drivers to slow down.

Meanwhile, shootings claimed 24 lives in the state. Fires killed 11 persons, stabbings three, drownings three, falls two, and others causes two.

Through Wednesday night, the worst accident of the period in point of deaths occurred 10 miles north of El Paso Saturday, when a rendering head-on collision killed seven persons.

Three died in a Christmas Day accident south of Groesbeck.

Nation's High Living Puts Strain On Agriculture, General Mills Head Says

MINNEAPOLIS—(NEA)—We need record-breaking crops to sustain our well-heeled appetites and our bigger supply of babies. Our increasing high state of high living is putting a strain on our agriculture, according to Harry A. Bullis, board chairman of General Mills.

"There is growing concern for the nation's food supply," he said. Recently, the U. S. Department of Agriculture appealed to farmers to increase their acreage devoted to grains, particularly feed grains. The rising consumption of meat, poultry, eggs and dairy products points up that anxiety, Bullis believes.

The grain needed for a pancake or cereal breakfast can be held in the palm of the hand. But a bacon and egg breakfast takes at least a bushel basket of grain to produce it.

Bullis, 60, impressively tall and vigorous, is one of the country's most progressive industrial leaders and is noted for his economic optimism. Nevertheless, he is concerned over our accelerating indirect consumption of grains.

"The 1951 crop was large according to prewar standards, although not quite up to expectations. Part of the crop was impaired by wet har-

vest and early frost. At the same time we have the largest animal population in history."

At the interview also were Donald A. Stevens, internationally quoted wheat executive and vice president of the company's largest millers in the world, and Charles H. Bell, executive vice president.

Bullis summarized their combined opinions: "The Department of Agriculture call for record breaking crops is based on the fact that during the 1951-52 period we produced less grain than we will consume domes-

tically and export," he explained. "Not short production, but our rather tremendous consumption plus a fairly large export program, was the cause."

"More money in our pockets due to rearmament encourages us to eat 'higher on the hog,'" as the mid-Westerners say. Our rapidly increasing population puts another bite in our food supplies too. However, Bullis believes the country can easily produce ample food for our entire population.

But it may not be able year after year to produce in such abundance that our per capita rations can include such generous proportions of high cost foods (in terms of cereals) as the steaks

and bacon and eggs and broiled chicken we are now eating," he cautioned.

Many people can be fed by direct feeding of cereal grains, but the acreage requirements to produce meat and poultry, for example, are four to seven times greater. "That is why our national eating habits plus our growing population, demand better than average production on a larger than average acreage," he insisted.

If we have this better than average production on more and more acres, all will be well, according to Bullis. For a dozen years we have had huge crops without failure in any year. The record is remarkable and in only one year (1946) did we approach a shortage, he added.

"However, if Mother Nature should give us just one poor crop year, something will have to give. Otherwise we might actually run out of cereal grain," he warned.

"Apparently, the American people are not in the mood to conserve the resources of our farms. That is a dangerous national attitude, particularly at this time of world crisis. Although our agricultural potential is tremendous, it is not unlimited.

"What we eat for dinner is more perilously dependent on weather than most Americans realize," he said.

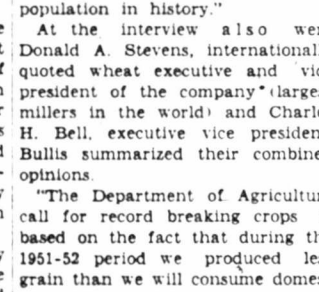

Bringing in the sheaves: U. S. farmers are being urged to increase acreage devoted to grains, like this wheat being harvested in Kansas. 1951's crop was not up to expectations.

Five thousand-year-old oven: Surrounded by mud walls of a house, this oven, unearthed at Jarmo, was used 5,000 years ago.

Harry A. Bullis: A growing concern for the food supply.

Woman, 20, Killed When Hit By Bus

HOUSTON—(AP)—A pretty, dark haired woman about 20 was killed Wednesday when struck by a city bus.

She was identified from papers in her handbag as Doloras Fay Touchstone, whose mother is Mrs. G. W. Touchstone, Denver.

Clovis M. Casey, 28, bus driver, was charged with negligent homicide.

Fort Worth Fires Claim Two Victims

FORT WORTH—(AP)—A 36-year-old widow and a six-year-old girl were fire victims Thursday.

Mrs. Arline Freeman Johnson was suffocated by smoke from a smoldering fire at her home Thursday morning. Fire Capt. A. Bice said the fire originated from a cigarette.

Judy Bishop, daughter of Mr. and Mrs. T. W. Bishop, Fort Worth, died Thursday of burns received Wednesday when a gas stove ignited her dress.

Forty persons can stand upright in the head of the Statue of Liberty.

Big Three Plan Super-Cabinet To Operate NATO

LONDON—(AP)—The Big Three Western powers are working on plans to set up a sort of super-cabinet to run the North Atlantic Treaty Organization, informed diplomats reported Thursday.

Prime Minister Churchill is expected to discuss with President Truman at Washington in early January with some definite proposals to widen the scope and power of the 12-nation alliance.

Some of the changes under study in the United States, Britain and France would:

1. Turn the London-based Council of Deputies into a permanent Council of Ministers who would consider the day-to-day economic, military and production problems of the Allies.

2. Bring all NATO agencies—presently split between the Big Three capitals—under one roof in Paris next door to General Eisenhower's Supreme Headquarters, Allied Powers in Europe (SHAPE).

3. Appoint a civilian secretary-general whose powers, prestige and role would match those of Eisenhower.

AF Plane Missing With Eight Aboard

RED BLUFF, CALIF.—(AP)—Sixty-seven planes Thursday searched for a missing Air Force C-47 with eight persons aboard.

The two-engine plane left Spokane at 1 p. m., Wednesday for Travis Air Force Base in the San Francisco Bay area. It last was heard from at 4:15 p. m., with a report it was flying in the rain over Klamath Falls, Ore. There then was no hint of danger.

Case-Histories' Applaud Come-Back Of Family Medic

'Case-Histories' Applaud Come-Back Of Family Medic

NEW YORK—(AP)—The family doctor, relegated to the back of the broom closet for a good many years now, is making what Hollywood likes to call a "comeback." And this is good news for every last one of us who would rather be a person than a case history in the eyes of a doctor.

The old-time family doctor did much more than prescribe pills. Often, he knew generations of a family so well that he was able to prevent, rather than cure, illnesses. He was friend as well as physician, and often, he filled the role of psychiatrist, too.

But though the American Medical Association is encouraging practice of family medicine and though internships for general practice are increasing rapidly, there are mighty few men who would turn down the chance to be a brain surgeon in favor of general practice in a small Nova Scotia village.

One doctor did just that. His name is Edmund Brasset and he came to his unusual decision in a very roundabout way. As a youthful graduate of the Dalhousie School of Medicine in Halifax, he knew what he wanted.

"There were," Dr. Brasset says in his recent book, *A Doctor's Pilgrimage*, "more questions than answers in the study of the brain. And those vacant spots in the diagram of the brain would give me no peace until I could fill in at least some of them."

But, familiarly enough, opportunity was slow in showing itself at the doctor's door. Instead, he found himself taking the only thing that was offered on graduation: a general practice in a bleak little fishing town called Canso. Canso offered some powerful attractions in the way of "mosts." It was the most desolate, dreary, poverty-stricken shabby place in Nova Scotia.

Nevertheless, the people of Canso needed a doctor and they got one. Dr. Brasset would, he thought, save up a nest egg there with which to study in his chosen field. Even though, at the end of his first day in Canso, he had treated a steady stream of patients and taken in exactly two dollars cash, he wasn't discouraged. Something would happen, he told himself.

It did, too. During his eighteen months stay in Canso, he went several thousand dollars into debt and most of his mail was made up of disagreeable dunning letters.

So the doctor took himself to a mining town called New Waterford, in hopes of bettering things and thus being able to coddle his creditors. He married a nurse named Sally MacNeil during his stay there and together, they went deeper into debt. They now got letters with "Final Warning" printed in red across the top.

Thus, on a lovely day in June, they moved into a hospital for the violently insane on the crest of a hill overlooking Halifax harbor. Though Sally was a bride of five months, she took the whole thing well. After all, Dr. Brasset was assistant staff physician and life was suddenly free of financial worry.

But even a lovely life in an insane asylum doesn't last forever. The doctor was no nearer his goal than ever. So the Brassetts moved, this time to Little Brook.

His first patient there proved to be a 1,400-pound ox that had been gelded. People followed but the animals, including a mink and a piglet, continued to come around for help and Dr. Brasset gave it to them gladly.

The chances at residency in the neurosurgical division of a great hospital came after two years in Little Brook. Dr. Brasset hesitated over it in much the same manner that a chorus girl ponders an offer from Hollywood.

But in the end, it was not the answer. When he found himself referring to a patient as Meningioma instead of Jones, he thought he'd had enough.

Dr. Brasset practices general medicine in a small Rhode Island town now. The dream has dissolved and in its place are the patients who know him as a close friend.

ADMITTED TO HOSPITAL George Henry Andrews, 805 South Big Spring Street, Wednesday was admitted to Midland Memorial Hospital as a medical patient.

ENTERS HOSPITAL Inez Bettis, 409 South Mincola Street, Wednesday was admitted to Midland Memorial Hospital as a medical patient.

With a mushroom basket in hand—and a couple of mushrooms in it for authenticity—he was able to fool the one guard he met on the Czech side of the border.

The minute the guard turned his back, Douba jumped the ditch that marked the border and was in East Germany.

A little later, after he had worked his way through the Grotteau border woods, his heart almost stopped. He stumbled into the "People's Police" car.

But instead of getting arrested, he got a free ride to the outskirts of Berlin.

How To Escape Through Iron Curtain: Pick Mushrooms, Ride Red Police Car

BERLIN—(NEA)—There are two very useful items to use if you want to slip through Czechoslovakia's Iron Curtain and escape to freedom in West Berlin.

One is a mushroom hunter's basket.

The other is a Soviet zone "People's Police" car.

Karel Douba, a 32-year-old Czech, used them both for a bizarre flight from Red oppression.

Douba decided to go West after Czech political police had kept him locked up in a Prague prison for a year. His politics? Ping pong.

The table tennis champ of northern Czechoslovakia, Douba was arrested last year.

"All I had done," he explained, "was to tell people in a restaurant how well our tennis stars had done when they fled West. Some eavesdropping agent reported me to the police."

When he got out of jail again last May, Douba began making plans. "I was relieved to find border-jumping much easier than I had dreamed," he said. "The woods bordering the Soviet zone weren't really closely guarded at all."

Karel Douba: "It was much easier than I had dreamed."

EVERY DAY IS A GOOD DAY TO READ THE CLASSIFIED ADS

STILL IN HUBBY'S CORNER—Mrs. Mae Collins shrieked with excitement and delight as her husband, Tommy, knocked out Joey Cam in the first round in Boston. Mrs. Collins, a nurse, was licensed as a trainer and second, but officials made her sit with the paying customers the night of the fight. The kiss came with the New England featherweight championship. (NEA)

TEXANS IN WASHINGTON—Variety Features Texans' Letters To Congressmen

WASHINGTON—(P)—Texans writer their congressmen about almost everything under the sun. If they don't know where else to turn for information, they write Washington.

Mail about legislation tapered off with adjournment of Congress. But there's no let-down in variety. People ask their congressman to help get priorities for construction materials, discharges from the armed forces, old age pensions, farm bulletins and pamphlets on how to raise babies. These are the subjects of the bulk of the mail.

Here are some assorted requests that came to various Texas congressional offices in the last week: A mother who lost her son in Korean fighting inquired how she could get a Gold Star pin.

An enterprising businessman wanted information about some iron ore deposits in Mexico and how to get authority from the Mexican government to develop them?

An ambitious mother, describing her daughter as a pretty blonde with considerable wealth in her own right, asked the congressman if he couldn't arrange the girl a date with a midshipman over at the Naval Academy in Annapolis, Md. The daughter is enrolled in a finishing school in this area.

A school superintendent wrote for the annual report of the Smithsonian Institution, and a wife wrote wanting to follow her soldier husband to Japan.

Recently Rep. Walter Rogers of Pampa got a letter from an old timer in that part of Texas, writing for the Plains Historical Society and asking how to obtain a monument for the grave of a long-deceased Mexican war veteran and Indian trader.

George McLean of Friona, in the first of several letters to Rogers, said: "I owned a stage station post office and agency trading post along the Texas-New Mexico state line a long time ago. . . . A Mr. James E. Vaughan had me fix up his Mexican war pension papers every three months so he could draw his pension. When he died I buried him wrapped in his old Mexican war blanket.

After being discharged he became an Indian trader among the Apache and Comanche Indians while they were both at war with the white people which was before Gen. McKenzie had battled the Indians in Palo Duro Canyon south of Amarillo.

When the Indians were moved to the reservation (Oklahoma) his customers were gone and the large cattle companies moved in and chased the small fry out. This began in 1876. He then acted as a scout. . . . When the old warrior died, McLean added, he interred him beside his Spanish wife who was killed by the Indians many years earlier near the stockade in which they lived across the line in New Mexico.

NOTHING CORNY ABOUT HIM—"All wet" was the consensus concerning Lynn Akeman's chances in 1951 Missouri state-wide corn yield contest at Columbia, Mo. Akeman, of Saline County, Mo., salvaged 20 of 600 acres inundated by Missouri River flood waters, and came up with a yield of 143.6 bushels per acre, to win the crown for second time—his last win being in 1949.

Day Must Have Been Bad One For Backs

Wednesday must have been bad on backs. Three Midlanders in different lines of work required emergency medical treatment for back injuries in the course of a few hours. They were: Merlin Gilchrist, trucker; Sam Watson, drilling company employe; and Manuel Necla, construction company employe.

ROTARY VS. PLASTICS

Western Plastic and Rotary Engineering Company will clash at 8 p.m. Thursday in the John M. Cowden Junior High Gym in a practice cage game. It does not count in loop standings. No admission will be charged.

More Rembrandt Secrets Revealed In Restoration

AP Newsfeatures THE HAGUE—The restoration of a second great work of art by Rembrandt van Ryn, the "Anatomy Lesson" by Professor Tulp, has been completed. The first, the restoration of the famous "Nightwatch" now on view in the Amsterdam State Museum (Rijksmuseum) was completed in 1946.

JACOBY ON CANASTA

By OSWALD JACOBY Written for NEA Service So many questions have been asked recently about two-hand canasta, that today I will continue the discussion of this fascinating game. The best form of the game is that in which you draw two cards from the stock pile but discard only one card, and in which you need two canastas to meld out. In some hands your opponent manages to win the first discard pile, and you then decide to play for out instead of competing further for the pile. In other hands, you may go for the fast out without ever trying seriously for the discard pile.

TREATED FOR HAND INJURY

Joe Hollowell, 513 West Wall Street, was given emergency treatment at Midland Memorial Hospital Wednesday for a hand injury received when his hand was caught in a fan.

Air Reserve Group To Meet Thursday

The regular meeting of the 9816th Volunteer Air Reserve Training Squadron will meet at 7:30 p.m. Thursday in the district courtroom of the Midland County Courthouse. Lt. Henry Goulet will lecture on the latest in Air Force scientific advancement.

BACK TO DALLAS

Mr. and Mrs. Fred Hassell have returned to their home in Dallas after a Christmas visit with their son-in-law and daughter, Mr. and Mrs. W. G. Keeler, here.

Every Requirement For Gracious Living

Less than two years old, this gracious home of buff brick presents every value for a family who requires a large home in an exclusive area of Midland. The entrance hall leads to a large, comfortable living room, complete with wood-burning fireplace and huge picture window with a view of beautiful homes and landscaping. Sliding doors lead through the separate dining room to the perfect kitchen. Vent over the range, ample cabinet space and breakfast area are kitchen features. A unique arrangement of closets in the L-shaped hall provides enormous storage space and effectively conceals the water heater and permanent water softener. Two full tile baths with showers, and the one off the master bedroom has tile-topped dressing table. There are three large bedrooms PLUS paneled den with huge walk-in closet. The master bedroom has a tremendous walk-in closet with sliding doors and built-in drawer space. Phone jacks in master bedroom, hall and den. With more than 1,600 square feet of living area, and so many desirable features, this home would delight the most particular home-owner. Three separate exits lead to the tile-fenced back yard, complete with flower gardens and fruit trees. The double garage is of matching buff brick and includes extra storage space and a workshop. We would be delighted to escort you through this lovely home at your convenience. Shown definitely by appointment only.

Nation's Crude Oil Production Declines

TULSA, OKLA.—P—United States crude oil production dipped to 6,134,725 barrels daily during the week ended December 22, a decline of 8,855 barrels. The Oil and Gas Journal reported Thursday.

Colorado increased production to a total of 71,300 barrels, a 5,100-barrel rise; Mississippi, up 1,865 to 28,410.

Oklahoma was up almost 2,000 to 119,800 and Louisiana, up 2,150 to 603,401. California gained 600 barrels daily, raising the week's daily output to 988,900 barrels.

Texas production was down 22,400 to 305,000 barrels daily. Other losses were: Eastern area, down 500 to 57,000; Louisiana, down 1,300 to 11,200; and Montana, down 600 to 26,000.

Wyoming stepped up its crude output by 1,100 barrels to a total of 189,000.

The major producer, Texas, remained steady at 2,753,050 barrels daily.

Total U.S. crude production so far this year was 2,186,861,719 barrels, including 37,774,884 barrels of condensate.

Veteran Charged In Drowning Of Wife, Daughter

FAIRMONT, W. VA.—P—Investigators went to work Thursday on Howard Daugherty's account of a suicide pact that resulted in the drowning of his wife and one-year-old daughter. Daugherty swam to shore.

The 45-year-old Fairmont man was charged with murder Wednesday night after telling officers he drove his car into the Monongahela River in a suicide pact agreement with his wife.

Daugherty, a World War II veteran, had been hospitalized at a Veterans Administration hospital at Martinsburg, W. Va., since his discharge. He said he recently quit his job at a grocery warehouse here because he was "nervous and upset."

Police Chief John R. Austin said Daugherty told him he and his estranged wife, Mildred Bruce Daugherty, 35, and their child drove around the Fairmont area several hours Tuesday night, inspecting possible places to carry out their suicide agreement.

He finally drove the car into the stream. Austin quoted him, and as the car settled to the bottom Daugherty managed to roll down a window and swim to shore.

He then called the county jail and reported his story.

Austin said he had not had from Daugherty any reason for the suicide pact. An autopsy on his wife's body was ordered.

Boyle Gazes Into Crystal Ball For '52

By HAL BOYLE
NEW YORK—P—It is time to look into the old crystal ball for an advance view of 1952.

What lies ahead? button down the storm cellar, boys and girls—it's going to be one of the dizziest years of the century.

It is the kind of year that Rip Van Winkle would hardly choose to wake up in. You might look for these things:

The hottest national political campaign since the Bull Moose campaign of 1912. More mud will be deposited around the landscape than was left by the Midwest floods of 1951.

A man will patent a new, gigantic brain able to outthink Congress. It will be given the task of figuring a way to collect more taxes, however, and it will explode—and Congress will meet as usual.

Television will come up with a bright new star—a lady able to wrestle an alligator and a boa constrictor at one and the same time, while she signs a cigarette commercial.

Silent Cereals

The biggest food sensation of the year: a non-crunchy breakfast cereal. The children can see and taste it, but the parents don't have to listen to it.

A scandal will break out in world chess circles. Bull fighting then will be revived in Texas to give the nation an honest amateur sport.

A spiritualist at last will succeed in making contact with the ghost of Houdini. His message: Let me alone, I know when I'm well off.

The traffic problem will be solved by the creation of a national network of four-lane, no-way streets. Nobody will get anywhere but they'll do it more safely.

Dr. Kinsey finally will publish his gigantic survey on the sex life of American women; it will turn out to be a four-page pamphlet. He then will undertake his masterpiece—a study of Freudian variations in the rabbit.

No More Five Percenters

Taxes will go sideways, as they no longer can go up.

A revolutionary new discovery will be brought to the market as a substitute for nylon. It will be called silk.

A Soviet historian will announce in Pravda that a Russian scientist first invented the common cold. He will explain that is why most Russian names end with a sneeze.

Inflation will force the five percenters to become 10 percenters.

A monument will be erected to a congressman who returns from Europe without any inside information as to General Eisenhower's plans.

And who's going to be elected president in November? To this query the crystal ball replied: "I will predict flatly only that his wife will not appear at the inauguration ceremony in a mink coat."

COMBAT STYLE—Sgt. Gustave Vandeneede of Ghent, Belgium, sports a nifty set of chin whiskers, carefully trimmed to match his combat outfit. The sergeant is a member of the Belgian detachment assigned to the U. S. 3rd Division in Korea. (NEA-Acme photo by Sta? Photographer Walter Lea.)

New Frigid Blasts Hit Northern States; More Snow Forecast

By The Associated Press
Another frigid blast hit the snow-covered north central region Thursday and more snow was on the way. No relief from the wintry weather appeared imminent, U. S. forecasters said.

The cold extended across the eastern two-thirds of the nation, touching all the way to the gulf coast.

The sub-zero weather in the Midwest struck as travel and production in many cities slowed because of the heavy snowfalls in the last two weeks.

Two Midwest centers, Chicago and Detroit, appeared the hardest hit by the transportation tieup. There have been record snowfalls in both cities this month and traffic and mass transportation still was snarled in many sections.

Temperatures Tumble

The fresh icy air from Northwestern Canada sent temperatures tumbling far below zero in the Dakotas, Minnesota, Wisconsin, Iowa, and Northern Illinois early Thursday. It was minus 20 in Redwood Falls, Minn.

The cold air moved southward and eastward from Montana and sent temperatures to near freezing as far south as Mobile, Ala.

Snow was forecast for the north central region Thursday night. Snow fell early Thursday in the Northern Rockies, and snow mixed with rain hit parts of Washington and Oregon. Some rain fell in Northern Florida.

Every available piece of snow removal equipment was being utilized to help get Chicago's 3,700 miles of streets and boulevards open. The city has had a record snowfall of more than 33 inches in December. Thousands of cars—the estimates ran as high as more than 100,000—were stalled in Chicago's latest snow storm on Christmas Eve.

Full Speed Ahead On Defense Forecast

WASHINGTON—P—Representative Mahon (D-Texas) Thursday predicted the defense program "will really be going full speed ahead" in the year that starts next July 1.

Mahon, chairman of the House Appropriations subcommittee that handles funds for the armed services, told a reporter he expects the Army, Navy and Air Force will need about \$50,000,000,000 during fiscal 1952-53.

The Texan said the main part of next year's defense funds probably will go to the Air Force, expected to expand from 95 to 140 groups.

Telephone Rate Hike Rescission Is Asked

UVALDE—P—Rate increase granted December 13 to Southwestern Bell Telephone Company has been asked rescinded.

The petition asking the reduction was presented to the City Council Wednesday. The 25 per cent increase was passed by the council, three to two, after it twice was rejected.

FROSTBITE EXPERTS TO CHECK GI'S

NEW YORK—P—The Army will send a Cold Injury Team of frostbite experts to Camp Drum, formerly Pine Camp, to insure the safety of GI's under conditions of extreme cold exposure during the winter maneuver. Exercise Snowball, scheduled to start February 9.

The five-man team from the Army Medical Research Laboratory supervised treatment of frostbite victims last year in Japan. The troops will be examined beforehand and those found susceptible to frostbite will not be exposed to dangerous extremes of cold. The team also will indoctrinate troops in precautionary cold weather safety measures.

Muleshoe Banker Appointed Receiver For C. M. Henderson

AMARILLO—P—Jesse B. Osborn of Muleshoe has been named receiver for the business enterprise of C. M. Henderson at Farwell and Lariat.

Federal Judge Joe Dooley appointed the Muleshoe banker Wednesday.

Henderson, mayor of Farwell, agreed in federal court last week to the appointment of a receiver pending settlement of a commodities Credit Corporation claim. The CCC claims more than a million dollars for alleged non-delivery of grain.

Henderson's attorneys will file formal answer to the specific CCC allegations this week or next. The claim is based on the alleged failure of Henderson to deliver CCC grain stored in elevators of the Henderson Grain and Seed Company.

DIMES CAMPAIGN SET JANUARY 2-31, INCLUSIVE

AUSTIN—P—The March of Dimes campaign to raise money to fight polio will be conducted in Texas January 2 through 31.

Gov. Allan Shivers official designated the period for the campaign Wednesday and urged every citizen to contribute.

Parents Charged In Near-Fatal Beating Of Child At Vernon

VERNON—P—Injuries suffered in a Christmas Eve beating kept William Thomas Yates, four, near death Wednesday night.

His mother and step-father, Mr. and Mrs. Robert Dale Simpson of Vernon, were in jail in lieu of \$5,000 bond each. They were charged in connection with the beating.

Hospital attendants said the child, paralyzed since being admitted, is suffering from bruises, scratches and a brain concussion.

Juvenile Officer Ben Woodington said the boy had been forced to sleep on the floor Sunday night.

Graham Cattleman Dies In Fort Worth

FORT WORTH—P—Fred Kennedy, 52, Graham rancher, cattle dealer and philanthropist, died in a Fort Worth hospital Wednesday night after undergoing brain surgery.

Kennedy was brought here after his illness had failed to respond to treatment at Graham.

Survivors include the widow and a son, Gary Fred Kennedy of Ivan; a father, M. O. Kennedy of Ivan; a sister, Mrs. Ellen Cox of Ivan; and three brothers, Claude of Wichita Falls, Lee of Oklahoma City and Lon of Ivan.

HERE FROM LUBBOCK
Charles Guy, Lubbock newspaper publisher, and his son, Dorrance, were Midland visitors Wednesday.

VISITS IN MIDLAND

Americans Produce, Spend, Save More

WASHINGTON—P—The American people produced more and spent more this year than in any other year in history, and the new records probably will be broken in 1952, Secretary of Labor Tobin reported Wednesday night.

In a year-end report, Tobin said Americans saved more in 1951 than ever before—\$8 out of every \$100, as compared with \$5 out of every \$100 in 1950.

Total output of goods and services this year was almost 10 per cent more than in 1950, Tobin said, and at least five per cent higher than the peak year of 1944. Tobin also said employment reached an all-time high of 62,600,000 in August.

Korean Casualties Mount To 103,418
WASHINGTON—P—Announced U.S. battle casualties in Korea have risen to 103,418, including 17,670 battle deaths and 11,048 currently listed as missing in action.

The new totals were announced by the Defense Department late Wednesday. The summary covers notifications to next of kin through last Friday.

Safety Council Predicts 350 New Deaths In Traffic

CHICAGO—P—The National Safety Council estimated Thursday that 350 persons may die in traffic accidents during the nation's New Year's holiday period.

The estimate was for the period from 6 p.m. Friday to midnight Tuesday. The total number of traffic deaths for a similar period over Christmas, as compiled by the Associated Press, was 535.

Ned H. Dearborn, council president, urged a New Year's resolution "to drive soberly and cautiously for the next four days."

"It might start a commendable habit that would last all through 1952," he said.

The two most important things a motorist can do to ensure a safe holiday, Dearborn said, are to reduce speed, especially at night and during treacherous weather, and to stay away from the steering wheel after drinking.

Argentina is second in area and population of the countries of south America, according to the Encyclopedia Britannica.

Would Tax Commies To Pay Fliers' Fines

BATON ROUGE, LA. — (AP) — The national commander of the Marine Corps League wants the U. S. to tax Communists in this country to pay the fines Hungary assessed against four American fliers.

John R. O'Brien of Passaic, N. J., Wednesday said he sent a suggestion to Representative Canfield (R-NJ) that Congress enact legislation at the next session imposing the tax on Communists.

The four fliers were forced down in a cargo plane by Russian fighters. Later Hungary accused them of subversive activity and fined the quartet a total of \$120,000.

Taxi Driver Finds Blood Will Tattle

LAUSANNE, SWITZERLAND. — (P)—The Swiss Supreme Court has ruled that a taxi driver must not drink any alcohol while at work—even outside the country.

A Zurich taxi driver recently took some customers on an all-day trip to Berne in Austria, where he had a good lunch and a good bottle of wine. He knew that in Switzerland taxi drivers were not allowed to drink while working. But this was Austria, he argued, so Swiss laws don't apply.

On his way back to Zurich, he scratched the fender of another car and a blood-test routine procedure in Switzerland, showed that his blood contained 0.1 per cent of alcohol.

The Supreme Court turned down his appeal against a five-day jail sentence on the grounds that he broke the law, not by drinking wine in Austria, but by bringing it back to Switzerland in his blood.

Plan For Unified Europe To Stymie Reds' March Faces Uphill Struggle

STRASBOURG —(NEA)— The plan for a union of Europe to resist Soviet aggression is facing an uphill struggle in the Council of Europe's Consultative Assembly.

This is the consensus of 14 U. S. Congressmen who have just concluded joint sessions here with representatives of Western parliaments. To say that a majority of the Europeans agree hardly tells the story. There is a mood of near despair in the Council's assembly halls. It is a mood underscored by the dreary Autumn in Strasbourg, with its damp streets and the misty Rhine dividing France and Germany. The city's history contradicts the Council's aims: four times since 1870 it has changed hands between the French and Germans.

The Europeans acknowledge that only a unified Europe would be in a position economically and militarily to meet the Russian threat. Yet in view of the many differences separating the Western nations, few foresee the creation of an effective union in the near future.

May Talk Unity
Prime Minister Churchill of Britain may discuss unity with President Truman in Washington during his January visit, but little hope is held for striking results.

Churchill actually was the first to advocate European union.

Sales and Service ALL TYPES FIRE EXTINGUISHERS
Midland Fire Extinguisher Co.
Dial 4-6572
911 N. Dallas

Amity, but not unity: U. S. Senator Theodore Francis Green (left) has a friendly chat in Strasbourg, France, with British Conservative Deputy Robert Boothby during the European Assembly, where hopes for unity ended in near despair.

while he was a member of the opposition in Parliament. The Labor government was against it. And now that he has regained power, he appears to have reverted to the traditional British position of isolation from the Continent.

Prospects are not much brighter in France. Few expect the French to agree to the integration of West German troops into a European defense system, or that the German Social Democrats will support a limited German rearmament.

These uncertainties were clearly expressed by Guy Mollet, French Socialist representative at Strasbourg, and Carlo Schmid, vice president of the West German parliament at Bonn.

The American delegation, headed by Senator Theodore Green, 84-year-old Rhode Island Democrat, came here at the invitation of the Council of Europe. Aim of the visit was to afford the congressmen a better understanding of European problems, and to stimulate unity.

Instead, the delegation heard Paul Reynaud, former French premier, declare that Britain "refuses to join such unity movements as the European army, now being drafted by the North Atlantic Treaty Organization, and the Schuman plan for pooling coal and steel."

He charged that Britain is the "main stumbling block to a united Europe."

Despite the good will displayed by the U. S. lawmakers, and the fervent unity pleas of Senator McMahon, Connecticut Democrat, and Senator Humphrey, Minnesota Democrat, the view here is that their mission did not produce encouraging results.

Green pointed to the Benelux union, the Schuman plan, and the European army proposal as evidence of what could be done by a unified continent. He added that many Americans feel deeply that further union is necessary and that the Western powers must somehow surmount their difficulties to achieve it.

Senator Wiley, Wisconsin Republican, ranking minority member of the Senate Foreign Relations Committee, even warned the Council delegates that failure to unite Europe might throw the United States back into isolation.

Yet these appeals are not expected to carry the day, although Britain may have softened its attitude in some degree—under pressure from Washington.

"I always thought that it was the Americans, especially the Republicans, who were isolationists," a European diplomat told me, "but at Strasbourg I have seen American internationalists, including Republicans, plead with European isolationists for a united Europe."

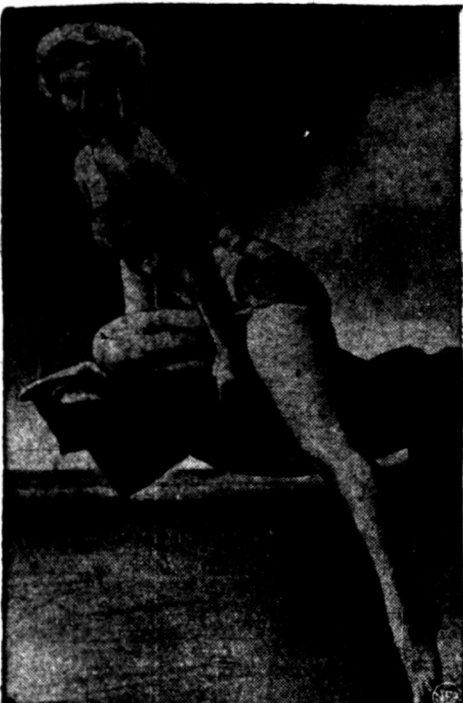

Observers Agree
Most observers would agree that Britain is the prime offender in this regard. According to Robert Boothby, Conservative member of Parliament, who is said to be close to Churchill, Britain simply could not join a "purely European political federation."

"Considerations of defense, our Commonwealth ties, and the economic implications of the ster-

Doin' What Comes Naturally

Marilyn Monroe, sometimes described as the "hottest thing in Hollywood since Jean Harlow," says she doesn't go out on dates, but doesn't mind having a few lonesome wolves howling outside her door.

"They're men and I'm a woman," she says philosophically, "and it's all part of nature."

Agriculture Department Uses Household Lamps In Development Of Better Plants

BELTSVILLE, MD.—(NEA)— In a brilliantly lighted basement room of the U. S. Department of Agriculture's research laboratories here, scientists are getting closer to the elusive secret of life itself in plants.

For the first time in the history of agricultural research they are able to measure the exact effect which light has on plant cell growth. Past research, and work in the development of better varieties of vegetables and flowers, up to now, has been hampered because natural light can never be accurately controlled.

Although the room has only been in operation a few months, it has already been used to help start development of a brand new variety of disease-resistant potato seed. In fact, use of the room for developing new varieties of all kinds of seeds now appears to be one of its most valuable by-products, according to Harry A. Borthwick and Marion W. Parker, the two plant scientists in charge of the project.

It also could be a factor in revolutionizing the world's food production if it helps in providing the answers about plants which Borthwick and Parker are seeking.

Vital Feature
The room is 20 feet long, 10 feet wide and 7 1/2 feet high. Its vital feature, the lighting equipment, was developed and installed by General Electric engineers. Eighty-eight "saline" fluorescent lamps, supplemented with 24 60-watt incandescent lamps, provide the illumination. The lamps are the same as those used in your home.

The fluorescent and incandescent lamps provide all the light nourishment—with none of the harmful elements of sunlight—which plants need for growing. They give an illumination level of over 2,000 foot candles, which is more than 40 times the level prevailing in modern stores and offices.

The thing that makes the Beltsville installation unique is a simple method of stepping up current cycle for the lamps, plus an automatic means of keeping the light intensity continually fixed.

Research being done in the controlled environment room by Borthwick and Parker will supplement work of a similar, highly practical nature already under way in the U. S. and in other parts of the world. Theirs is basic research aimed at answering all the questions of the effect of light on plant life. The other work is aimed at specific problems in the field.

In Hawaii, for instance, tests are under way to determine whether light can be used to increase the

ing area all preclude it," said Boothby. If it came to a choice between Europe and the Commonwealth, over 90 per cent of our people would choose the Commonwealth.

It is talk in this vein that has produced the dark despair of Strasbourg in the city's dismal Fall days. Unity seems lost in the mists of the historic Rhine.

Sentiment Runs High Against Chinese Labor

NEW DELHI, INDIA.—(P)—Anti-Chinese sentiment runs high in Thailand's new labor movement, an observer of the International Confederation of Free Trade Unions reported after a tour of Southeast Asia.

"The racial rivalry which is very keen in Thailand is strongly reflected in the trade union movement," Govardhan Mapara said in a report submitted to the I. C. F. T. U.

He declared that some rice mill and dock laborers among Thailand's 3,000,000 Chinese population had been organized under the banner of the Communist-controlled Central Labor Union in the early post-war period.

Employers are almost all Chinese. The whole economic life of the nation is in the hands of Chinese. Thai workers are paid much less than the Chinese workers on the plea that the former are indolent and inefficient.

Get handy KITCHEN UTENSILS IN MOTHER'S OATS

WITH ALUMINUM WARE

* ALL FINE ALUMINUM!
Made by world-famous manufacturer
* EXTRA LONG WEARING!
* RUSTPROOF! SEAMLESS!

What a thrill to open a big square package of Mother's Oats labeled "With Aluminum Ware"—and find inside one of these handsome, useful kitchen utensils!

Yes, every package is a double value because money can't buy a finer quality, more delicious, or more nourishing oatmeal than Mother's Oats! It's the good, hot, creamy-smooth oatmeal your family loves on chilly mornings!

Start collecting a complete set of these fine kitchen utensils today! No waiting! No coupons! No money to send! Just ask your grocer for Mother's Oats "With Aluminum Ware"!

Here are the utensils you can get:

1—Measuring Cup	4—4-Pc. Cooky Cutter Set
2—Mixer & Measure	5—Egg Poacher & Baby Food Warmer
3—Egg and Vegetable Slicer	6—Cake Decorator Set

... Plus These Other Items Not Shown:

Saucepan	Child's Cup
Pudding Pan	Melon Mold
Pancake Turner	2-Pc. Heart Mold Set
Tumbler	2 Individual-Size Pie Plates
Gingerbread Man Cooky Cutter	Strainer

Mother's Oats offers you all-purpose DINNERWARE and ALUMINUM KITCHEN UTENSILS

And where is now my hope, who shall see it?—
Job 17:15.

New Set Of Problems

Even the most cheerful among our prophets concede that war between the West and the Soviet Union might happen some day in spite of all effort to prevent it.

Suppose that it should. The general assumption is that we would win it, provided, naturally, that we were able to bring to bear the full weight of our economic might.

Somehow the notion has got about that if war did come and we managed to emerge victorious, our troubles would be behind us. The theory seems simple enough.

Yet it's likely this would be only partly true. There would be certain specific gains, indeed. We would be rid of Stalin and his most effective contemporaries, together with the frightful structure of terror they call the Communist government.

But what would fill the void? What kind of government? What leaders?

It is well understood that the West, chiefly the United States, would have to occupy Russia for many years, gradually establishing a new Russian government and pointing it toward ultimate freedom and independence.

Russia is a nation of more than 200 million people, stretching 6,000 miles wide, and in all, covering a sixth of the earth's surface.

Worse than that, the people of the Soviet Union have known nothing but communism for more than 30 years, and even before the Bolshevik Revolution they had gained but the feeblest experience with democracy as the czars grudgingly gave ground.

Furthermore, it is the nature of communism to destroy systematically all competing loyalties, whether in religion, social groups, labor unions or whatever.

To build a new government upon this marshy soil would tax the imagination of the most brilliant practitioners of statecraft.

Does anyone suppose the Russians would quickly and automatically embrace democracy as they threw off the Communist fetters? Our best analysts suggest these are foolish thoughts.

More probably we would have to begin with some form of authoritarian government, and it would be sadly noted that the arrangement closely resembled the departed Communist regime than democracy in the U. S.

There would be anguished cries from statesmen asking if that was what we had fought for, merely to bring socialism back to Russia in new dress.

Congressional search parties might embark for Russia to track down good democrats capable of setting up a really free government.

Yet they almost certainly would come home convinced their journey was fruitless. You cannot make democrats out of slaves in a day or even a decade.

We would have to take the best thing we could get, and hope that time—and our example—would teach the Russians the merits of democracy.

From whatever angle you view it, the postwar management of a defeated Russia would be a problem comparable in scope and delicacy to most of those we shudder at today.

Our troubles would not be behind us. We would just have a new set.

An Ideal Choice

George F. Kennan, brilliant State Department planner and expert on the Soviet Union, is slated to go to Moscow as our next ambassador.

Kennan more than any other American official with the possible exception of Charles E. Bohlen, State Department counsellor, has troubled to learn something of the Russian mind.

He attempts to frame policy that he deems wise not alone from American and Western viewpoint, but from the viewpoint of a sound future Russia.

He knows the forces at work in and out of the Kremlin, can gauge reaction carefully in the Soviet Union, and avoid the pitfalls that trap the gullible and uninformed.

Reports are that Kennan will not take up his new duties until May. We must hope that in the meantime no congressman with over-active glands decides that Kennan's vast knowledge of Russia proves he is therefore necessarily sympathetic to the Communist cause.

For he is one of the stoutest adversaries Moscow has.

A Tennessee man stole 50 pounds of beef from a deep freeze—and police promptly found a place in the cooler for him.

Some men are homeless and others are home less than others.

Lopsided Men Just Do n't Impress This Fellow

The Washington Merry-Go-Round

By Drew Pearson

WASHINGTON — In every administration, whether Democrat or Republican, the cue for clean government is set at the top.

Today they are worse. Wilson Wyatt, the ex-mayor of Louisville, when in charge of veterans' housing, used to find his housing ideas sabotaged by Harry Vaughan, who sat in a corner of the room during staff meetings, held his nose and pulled an imaginary chain, when he didn't like one of Wyatt's policies.

The incident illustrates the power of the White House staff on a President, especially one who is weak or changeable.

Today not many new ideas come up at staff meetings. Part of the time is monopolized by General Vaughan, who takes pride in having a couple of new jokes every day for the amusement of his chief, while part of the time is spent telling Truman about the unfairness of the press.

Good Intentions
The President has started his staff conferences on what amounted to a sermon on clean government, repeated his famous quotation to Democratic Chairman Frank McNulty, "My friends have let me down," told how he never tolerated graft when he was a county judge for Tom Pendergast, and wound up with a firm statement that he intended to throw out the crooks.

Then when the conversation got around to specific ways of cleaning up influence, someone adroitly shifted it to Truman's pet target—the press. This never fails to get his dander up, and the President's original good intentions are forgotten.

Real fact, is that Matt Connelly, most astute member of the White House staff, and friend of many of the big city Democratic bosses, has not seemed too enthusiastic about a slam-bang clean-up. It was Connelly who first suggested Judge Murphy to head the corruption investigation, but after Murphy insisted on a forthright staff of his own choosing with plenty of power behind it, the original ardor for a real house cleaning seemed to cool around the White House.

One interesting thing about the charming Matt Connelly is that he has done some of the same kind of wire-pulling that others are being accused of.

Q—What are the fine arts?
A—Music, painting, sculpture and architecture.

Q—What is the difference between a cordial and a liqueur?
A—Cordial is the English word, and liqueur is the French, for spirits in which fruit, herbs and seasonings have been soaked for a time, and distilled.

Q—How large an area is embraced in the Saratoga Spa?
A—It is more than two square miles. These springs are the only naturally carbonated waters found in the United States east of the Rocky Mountains.

Q—What male bird takes his turn setting on eggs to hatch them?
A—The ostrich. The hen sits by day, and her mate by night.

What is the rainiest place on the earth?
A—Opid's Camp, California, holds a record for greatest rainfall in one minute, of 85 inch. That for rainfall in a single day, 49.99 inches, goes to Baguio, in the Philippines.

JACOBY ON BRIDGE

By OSWALD JACOBY
Written for NEA Service
Harry Fishbein, the sage of the Mayfair Bridge Club has the artist's approach to a bridge hand. It hurts him when a good hand is butchered, even when it is an opponent that wields the cleaver.

In the hand shown today, Fishbein opened the deuce of hearts from the West hand. He expected dummy to show up with strength in hearts and clubs (actually dummy had far less in clubs than was proper for a sound re-bid of two no-trump) and hoped that declarer would mis-guess the hearts because of the opening lead.

Declarer did mis-guess by playing the eight of hearts from the dummy; but it was his best chance rather than a poor guess. East also

mis-guessed by finessing the nine of hearts, which would have been correct if West's opening lead had been from the jack instead of the ace.

South won with the jack of hearts and promptly returned his singleton diamond. Fishbein took the ace of diamonds and returned another low heart. This time the maneuver bore fruit. Since declarer played the ten of hearts from dummy, and East was able to win with the queen.

East recovered from his surprise at winning this trick in time to return a heart to Fishbein's ace. Fishbein now returned a club, and declarer agonized over a choice between the queen and nine from dummy.

Since East held both the king and jack of clubs the play from dummy made no difference, but South couldn't know that. Declarer finally played low from dummy, and East's jack forced out the ace.

South had lost two hearts and a diamond, so he needed the rest of the tricks. He began the trump run by leading the deuce to South's king. This spoiled a very artistic hand and almost soured Fishbein's notoriously amiable disposition.

South should have led the four of spades to dummy's king, and should have dropped the seven of spades on dummy's ace. The deuce of spades had to be saved.

If this is done, declarer then leads high diamonds from the dummy, discarding two low clubs from his hand. The next diamond is ruffed by East and over-ruffed by South. Declarer can now lead the deuce of spades to dummy's three. And then the last diamond can be led to provide a discard for South's last low club.

The acceptance of free deep-frees by General Vaughan for Mrs. Truman and members of the Cabinet may not have seemed important to the President. But these examples set at the very top, have had immediate repercussions down below. So does the effect of a municipal judgeship to the son of a liquor dealer who sends liquor to the White House, Milton Kronheim.

So also does the effect of the free perfume which John Maragon brought in for the wives of high officials. Maragon even attempted to bribe the customs, and because he was a friend of the White House, got away with it where other men would have been prosecuted.

With these White House cues tacked on the public horizon for all the world to see, it is not hard to understand why subordinates follow suit. That is one important way corruption gets started in government.

WASHINGTON COLUMN

Visas For Last Of DP's Will Be Issued By Year's End

By PETER EDSON
NEA Washington Correspondent

WASHINGTON — Visas to admit to the United States the last of 336,000 European displaced persons will have been issued before December 31, which is the deadline under existing law.

For almost 55,000 people of German origin, expelled from their pre-war homelands, the deadline is a little later. About 20,000 of these "expellees" are in the United States now. Visas for the remainder must be issued before June 30, 1952.

By September of next year, America's biggest and most successfully-managed immigration program will be washed up.

Within this same period, the International Refugee Organization, the United Nations Agency for handling displaced persons emigrating to other countries, also will wind up its affairs.

Many Still Are Homeless
By no stretch of the imagination does this mean that the problem of displaced persons has been solved completely, says John W. Gibson, chairman of the U. S. Displaced Persons Commission.

It does mean that the European victims of World War II will have been fairly well disposed of.

More than a million World War II DP's have been resettled in other countries, a third of them in the United States. There still will remain in Western Europe an estimated 115,000 World War II DP's for whom new homes have not been found, or who are unacceptable as immigrants to other countries.

They will remain the problem of the countries in which they now have temporary residence—many in DP camps.

A new, 23-nation Provisional Inter-Governmental Committee for the Movement of Migrants from Europe has just been set up in Brussels, Belgium, as a successor to IRO.

It will try to find homes for the hard-core DP's remaining in Europe, to clean up the job by the end of 1953. The U. S. is contributing \$10 million to this new committee. The other 22 countries will be asked to raise \$24 million.

Far bigger than the DP clean-up job, however, is the problem of the expellees. They are post-war refugees from communism. There are an estimated 10 million of them in Western Germany and Austria alone.

This is an area about the size of Indiana, Illinois and Iowa, which now have a population of around 14 million people.

But in Germany and Austria there are 31 million native inhabitants, plus the 10 million expellees. Every sixth person, therefore, is a victim of Communist aggression. That gives some measure of the problem Germany and Austria now have.

MORE PRECIOUS THAN RUBIES

By Nina Wilcox Putnam
Copyright 1951 by NEA Service, Inc.

JOE DENTON had known for some time that Bright Muncie had been showing his stepmother little attentions—sending her fruit or flowers—baskets which might have contained anything. Tommy contributed the story of his "confidential" job and Alma her own experience—all except her finding of the cut-link in the office with the murdered man. Some instinct warned her against speaking of this in the heat of excitement, for they were all talking in once by now—Tommy had apparently forgotten it. But the main situation seemed clear.

"Those two are responsible for the robberies or I'll eat my hat!" Tommy declared. "They both wanted money badly—we know what Bright needed it for and Mrs. Denton—well, she just plain wanted it!"

"And so she talked me into a vacation in Mexico," said Joe, with a low whistle, "where she could dispose of the stuff quietly, divide up with Bright and then come back looking perfectly innocent and start all over again. They worked with the Higgins people, obviously, through Tommy, here."

"Yes, confound it, they did!" he agreed. "But there is no sense in our just here discussing this as though we were writing a detective story! They had a swell plan, but murder was something they didn't figure on. We've got to do something—and fast!"

"Do you think Bright bumped off Mr. Wheeler?" Joe asked. Alma and Tommy exchanged a quick look and she shook her head almost imperceptibly.

"It looks like it," Tommy began hotly, "otherwise why was he making that fast getaway?"

Alma's negative gesture grew more emphatic and she was afraid Joe would see it.

"There was another man with them!" she reminded them, "and from what I know of Bright's character, he's not the sort who does a dirty job himself if he can get anybody else to hold the bag for him."

"That's right," Tommy agreed. "Bright may have been along, but maybe the other fellow did the shooting. What did this tall, dark stranger look like, eh, Joe?"

"Tall and dark is correct," Joe seemed surprised. "How did you know what he looked like?"

SO THEY SAY

At the time of making a picture I want not to know what I'm doing; a picture should be made with feeling, not with knowing.

—Hans Hofmann, American Abstractist painter.

American food is elemental—not artistic.

—Salvatore Dali, Spanish artist.

I seriously think that my long life is due to the fact that I never overload my stomach and drink whiskey regularly. . . never drank wine resisting temptation.

—Dr. Maurice Lewi, 94-year-old president, Long Island College of Podiatry.

Perhaps the American Revolution . . . was the beginning of the end of colonialism. . . Our country now has a policy that might be called colonialism in reverse. We are exploiting our own people and our own resources to benefit people in other countries.

—C. E. Wilson, president, General Motors Corp.

Britain . . . refused to join . . . the European army and the Schuman plan for pooling coal and steel. For the British there is Parliament, then nothing, then still nothing, then God.

—Paul Reynaud, ex-premier of France.

HAPPY NEW YEAR!! SAFEWAY

Youth Center Chatter

By NANCY LOU KLINGLER

Well, it looks like everyone had a very nice Christmas, and we mean everyone! When one teenager met another they would start right off telling what good Old St. Nick brought them. Then in a few minutes the other side of the party would begin telling what all they got. Well Christmas comes only once a year and it is the time for all to be merry, so here's hoping that "you-all" had a Merry Christmas.

Speaking of being merry, last Saturday night Graham Mackey, Bill Spence, Johnny Ward and Jimmy O'Neal all seemed to be having fun.

In the Klingler household last Friday night there was confusion galore. The writer's brother, sister-in-law, and Obie Stalcup, landed at the airport from Boston, Mass. About the time they walked up the front steps people from everywhere began to arrive to see the "long-lost" trio. Obie is a former Midland High School student and is attending M.I.T. Mrs. Klingler, Jr., is attending Boston Conservatory, and John is attending M.I.T. also. Obie journeyed on to Weatherford Saturday morning to spend the holidays with his parents who live in Denver, Colo. They are visiting relatives at Weatherford.

As we said in the last issue of Chatter, it is time for the exes, and they really came "sprouting out."

Those from Texas University include Margie Cramer, Reed Gilmore, Sue Johnson, Roane Puett and Susanne Young.

Last Saturday night the DeMolays had a semi-formal dance in the City-County Auditorium. We hear it was quite nice, and everyone had a swell time.

Texas Tech has the honor, and we do mean honor, to have some of our good old Midland High School students. They include Bill Spence, Shirley Harrison, Marjani Forrest, Alan Olson, "Doozie" Cooper, Morris Bassham, Katherine Lewis, Helen Cartwright, Sue Corser, Norma Hatfield and Guy Vanderpool.

Dick Spencer left Sunday to spend Christmas with his grandparents. **Rainbow Dance**

Say, talking of dances, the Rainbow Girls are having a semi-formal dance in the City-County Auditorium Thursday night.

The "Aggie" boys are home also. They include Johnny Ward, Roy Ripley, Dale Sice, Tommy Parker, Jackie Mobley, Norman Drake and Richard Hull.

"Myr," the new Y.C. director, wants to meet all the exes, so come on in and introduce yourself to him, or if you are "bashful" about things like that, have someone else introduce you to him. He really is a fine fellow and he wants to welcome everyone to the Youth Center.

Among the exes home from SMU are Jimmy O'Neal, Beverly Keisling, George Glass, Joann Reagan, Royce Rae McKee, Jerelen Jewell, Rosalynn Leggett, Lynn Nichols and Jimmy Allison.

"Uncle Sam" seems to be keeping a few of our boys busy over the holiday period. They are working at the Post Office. They must be having "a good time." Earl Chapman, Asa Bland, Pete English, Charles Crabtree, James "Urpy" Wallace, Bob Burks, Dwane Bush, Joe Barnett and Bill Leonard are among those working for "UNK."

We received word that Wayne "Fee Wee" Cutbirth and Keith Franklin are doing just fine in the Navy. They are stationed in San Diego, Calif. They will be in Midland in February and we sure will be glad to have them back.

Penny Jones and Retta Hazlip have a very odd habit of taking their shoes off when they play pool (or at least try to play pool).

Larry Roberson is spending the holidays with his parents. He is going to school at Tula Vista, Calif. He is classified as a "S." Glad to see you home again.

Last week, it was the ping-pong players who were getting mighty careless with those balls. Now it is

the "little children" that have to play with fire crackers. Someone was throwing them in the Youth Center and that could prove to be very dangerous, so please watch where you throw them. We know you will and that you meant no harm.

More College Students
Well now back to the college students again. Here is the list from Texas Christian University—Graham Mackey, Mary Nell and John Midkiff.

May we ask you a question, Jean Corbell? Well here it is anyway. Just where did you get that pretty sweater you were wearing the other night, the one with the Texas Tech emblem.

The other night we met another new girl at the Center. Her name is Norma Hatfield. Say there are sure a lot of Hatfields around this place. The other night when Diane Anderson, Jane Stuart, and Mary Ann McRae walked into the Youth Center, someone yelled out here come the "Do Rights." Say girls, just what's the meaning of this?

Some other students were in the Y.C. We will try to get all their names, but if we don't, please don't get mad! Here they are: Joyce Howell, June Hazlip and "Rosy" Turner from T.S.C.W.; Fred Underwood from Annapolis; Larry Hollingsworth from Nevada; David Laverty and Larry Lynn from Austin College in Sherman; Kent Miller from Colorado School of Mines; Glenda Hambleton and Jean Ferguson from Gulf Park College; Tony Chapple from Stanford; Wanda Burnside, Daffy Tabor, Lynn Griffith, Tony Dunagan and Martha Scharbauer from Baylor; Gloria Anguish, Mike Brunner and Doug Atwill from Texas University. Hope we haven't left anyone out. If we have, please let us know. We surely are glad to have all of you back and come to the Y.C. as often as you can.

Joyce Howell has a visitor. He is Don Richey from "Aggie Land." Glad to have you in Midland.

"Here You Are, Don!"
We always have someone who wants their name in the paper, and this week it is DON RODDERICK. Now are you satisfied, Don? Oh, we are very sorry. We just left out "ll Earl Chapman's name. He is attending Schreiner Institute, as is Harold Drew. Sure hope you boys will forgive us. Will ya?

The Girl Scouts gave their annual Christmas dance Tuesday night. Everyone had a real fine time.

The Triple Trio of the MHS A Cappella Choir really have been busy singing during the holidays. Members are Mary Jane Miller, Peggy Read, Ruth Ann Rhodes, Shirley Pulliam, Thelma Deal, Mona Sue Biggs, Evelyn Hejl, Elaine Johnson and Wanda Moore. Joann Bassham sang with them several times. Giffert Allstrin and Rex Wilkes also are home from school.

Jon House, Charles Farris, Teddy

Kerr, Timmy Cornwall, Charles Davis and Frank Ingham are home from N.M.M.I.

Doyle Patton is here from Bryan Institute.
Well not to much else to say except we wish a very HAPPY NEW YEAR to everyone. Oh yes, the Youth Center is having a semi-formal dance New Year's Eve, starting at 8 p.m. All Y.C. members are invited.

Well "adoles" to each and all of you! See you next year!

ITALIANS AID HOMETOWN

WINNIPEG, MAN. —(AP)—Canadian Italians in the greater Winnipeg area have organized a relief fund for victims of the disastrous floods in Northern Italy. Similar projects have also been started by Italian Canadians in Montreal and Toronto.

Chicago is the crossroads of the nation's railroads.

Town Heated Over New Air Conditioner

KUALA LUMPUR, MALAYA —(AP)—Not long ago a \$12,000 air-conditioning unit was installed in the town hall here.

Now the municipal officials don't know what to do with it. It seems they are getting complaints that the machinery makes too much noise. In fact, one complaint charged that it made so much noise that players in a stage production put on in the hall could not be heard by the audience.

FAMILY PLANNING

SINGAPORE —(AP)—Since June, 1949, when the first family-planning clinic was opened in Singapore, a total of 5,186 women have sought birth control advice. Of these 4,647 were Chinese and 347 Malays. Their family incomes range from \$7 to \$70 monthly.

HUMAN TOBOGGAN—Six happy orphans go for a "ride" on Cpl. Wallace M. Dewa, Philadelphia, Pa., as he visits the little victims of the Korean war while on rest leave from his regiment, the U. S. 27th. The famous "Wolfhounds" send monthly donations to the Holy Family Home in Osaka, each month.

Ring in the New Year with the bell-ringing values in fine foods that fill every department of our easy-to-shop market. Foods for the holiday feast... foods for the holiday parties... foods for breakfasts, lunches and dinners are all featured at low, low prices that make COLLINGS' "FIRST FOR SAVINGS IN THE NEW YEAR." And remember, you'll save right through '52 because we pledge ourselves to continue our policy of making EVERY PRICE A LOW PRICE EVERY DAY.

DADDY RINGTAIL

Daddy Ringtail And But Not Very Much

very own self a soup-eating fork for Christmas. And there came the Huffen now from the kitchen with

Mugwump Monkey, the monkey boy, and the Huffen Puffen, the friendly wolf, were sitting by the table at the Huffen's hollow tree house. Mugwump was looking at the Christmas present the Huffen had given him. Mugwump said: "I have always wanted a fork to eat my soup with, but not very much."

Oh, the Huffen was happy indeed to know that Mugwump was happy with the soup-fork Christmas present. The Huffen said that it wasn't everyone who got for Christmas a fork that was made for soup-eating purposes.

The Huffen laughed and chuckled out loud with a thought of the happy present he had given to Mugwump. Away went the Huffen to the kitchen for some bowls of soup for them to eat right then and there.

Yessir, if you have a fork to eat soup with, you can eat some soup, if you have some soup, the Huffen was thinking. But Mugwump did not know about this. Soup will pour like water, and how can you eat with a fork a thing like water?

The soup-eating fork was not a joke. Mugwump was sure of that. Why, the Huffen had even given his

two bowls of fine hot soup. The Huffen put one bowl at Mugwump's place and the other at his own place.

Said Mugwump: "Huffen, this soup you brought me sure is good." The Huffen was happy to hear it, he was, and he said that the soup was good indeed, he hoped. But how did Mugwump know it? Mugwump hadn't taken a bite with his soup-eating fork. He hadn't taken a bite at all.

"You take a bite first," said Mugwump.

"Oh no!" said the Huffen; "you do it!"

"Nossir, you do it," said Mugwump. And so there they sat at the table

By WESLEY DAVIS

hands, soup on the table in front of them, but neither had taken a bite.

The Huffen was the one who finally started the eating. He picked up his fork for eating soup. He put the end with the points down in the bowl where the soup was. He put the other end in his mouth, and up through the fork went the soup for the Huffen to drink. Yes, because the fork was hollow like a straw inside! Happy day! (Copyright 1951, General Features Corp.)

Squatters To Get Titles To Land

KUALA LUMPUR, MALAYA—(AP)—The Federation government has announced that hundreds of thousands of Chinese living in resettlement areas throughout Malaya are soon to be given permanent title to the land they now occupy.

The Chinese involved are squatters who were moved into resettlement areas to protect them from Communist terrorists and to give them the opportunity of securing employment and education.

Pork sausage patties served with mashed potatoes, sauerkraut and apples, and a green vegetable makes a hearty dinner.

Novel Sparerib Dish Adds Variety

Savory Baked Spareribs

You can barbecue them, bake them or cook them in water with sauerkraut. Here is a novel sparerib dish in which the ribs are marinated (soaked) before cooking in a sweetened soy sauce and then baked. It is an old-fashioned favorite.

Savory Baked Spareribs
Two sides spareribs, three-fourths cup bullion or consommé, 1 1/4 cup brown sugar, 1 1/2 teaspoon garlic salt, 2 tablespoons soy sauce and 1 1/4 teaspoon of ginger.

Have spareribs cut into pieces for serving. Mix above ingredients in a small bowl. Place spareribs in large bowl and over them pour the liquid. Let it stand for one hour, turning the ribs occasionally in the liquid and spooning some of it over them. Place the ribs in a large shallow roasting pan, pour liquid over them and roast, uncovered in a 350 degree F. oven for 1 1/2 hours.

Pork Hocks Make Economical Meal

Pork Hock Dinner

Pork hocks, one of today's economy buys, make a delicious "boiled dinner" with vegetables. If pork hock cookery is new to you, just follow this simple method.

Simmer the hocks in water to cover until almost tender, adding salt if fresh pork is used, then add onions, carrots, potatoes and cabbage wedges (or choice of these) and continue cooking until vegetables are tender.

Pork Hock Dinner
Four pork hocks, fresh or smoked; 4 medium onions, 4 medium carrots, 4 medium potatoes and 1 small cabbage.

Wash hocks and place in Dutch oven or other large deep pan. Cover with hot water, add 2 teaspoons salt (if fresh hocks are used), and simmer, covered, until meat is nearly tender, about 1 1/4 hours. Add whole carrots, peeled onions and pared potatoes cut in half. Cover and cook about 15 minutes. Add cabbage in wedges and cook, covered, 30 minutes longer or until vegetables are tender. Serves four.

Conference Says Food Output Short

ROME—(AP)—The sixth world conference of the Food and Agriculture Organization found that world food output "is steadily falling behind the increase in population, and the world has less food per person than before the war when more than half the world suffered from malnutrition."

The report said it was "convinced that the progress that can be achieved in the years immediately ahead will be insufficient to change this situation radically."

Read The Classifieds.

In New York's Bronx Zoo, a herd of giant Galapagos tortoises sleeps, eats and travels in cliques according to some mysterious social ranking.

Since the U.S. Mint opened in 1792 it has struck gold, silver, and minor coins valued at more than \$7 billion.

During the fashion craze for feathers during the 1880's and '90's, about 50,000 New Guinea plumes were annually shipped abroad.
