

Fairy

By Mrs. J. O. Richardson

Well, we have at last received that much-needed rain, and as it has been rainy for several days, we would like to see some fair weather.

Mrs. Emma Lackey is in Corpus Christi for an extended visit with her daughter and family. Mr. and Mrs. Hardy Walker and son.

Mr. and Mrs. N. S. Sellers and daughter, Joy Marie, of Lanham visited a while Sunday afternoon in the home of their son, Mr. and Mrs. Carl Ray Sellers.

Mrs. Floyd Noland and little daughter, Wanda, and Mrs. A. R. Hoover were business visitors in Hico Wednesday of last week and were dinner guests of Mr. and Mrs. John Burney.

T. L. Betts left early Friday morning for Portales, N. M., where he spent the week end with his aged father, Mr. S. S. Vaughn of Carlton, Texas, where he visited with his son, Guy Vaughn, and family, and also with his daughter, Mrs. Whit Laceywell, and family.

Mrs. Floyd Noland visited with Mrs. Horace Moore at Agee Friday of last week, and assisted her in quilting.

Mr. and Mrs. Wesley Jones and little daughter, Juanita Ruth, visited a while last Sunday night with her brother and wife, Mr. and Mrs. Carl Ray Sellers.

Despite the bad weather Friday night, the contest ball game with Evant was played. Our girls were victorious while our boys were defeated. However, they put up stiff resistance.

On one of the writer's regular strolls over the Fairy cemetery after my return home from Houston, I noted with interest that Uncle Bob Parks had had a nice double monument (Barre granite) erected at his wife's grave—a wise investment, indeed. Also a Barre granite marker for Grover C. Moore had been installed and a red granite monument for Jessie Gann. We hope to see more from time to time. A monument will be there for years to come, while a pine slab will soon rot and decay. A few years back a fellow traveler was passing through our little village town and inquired if some one could help him locate the grave of his mother who was buried here almost half a century ago. My husband went with him to the cemetery. He was just a 12-year-old child at the time of her death, and said all he could remember was that it was near the corner of the cemetery and a small tree was nearby. But since the east side fence had been removed and a new addition added to that side of the cemetery, his mother's grave was no longer in the corner of the cemetery. He was shown where the old line was and located two graves, but never was sure which one was that of his mother, as there was no mark of identification. This dear mother died while passing through our little town while traveling with her family for her health. Yes, a monument is a good investment and whenever possible, we should have them placed in honor of our loved ones.

On this Thanksgiving day, let us be thankful for all the blessings of life, and strive more and more to be worthy of these blessings by the life we live.

Seniors

The Seniors are still worrying about their play. We are all studying hard.

The Fairy Tigers played Evant Elks last Friday night in their second Conference game. The Fairy girls won with a victory of three points, but the boys were defeated.

We had a wienner roast last Wednesday night. Everyone had a grand time. There were about 20 students present.

Nelda Cunningham, Mary Jackson, and Ione Arrant were selected to go to Brownwood Thursday to help entertain the soldiers at Camp Bowie Hospital. They reported a very enjoyable time.

Wonder Why, Jack Halle and Richard Thompson are absent today. Nelda wants Thanksgiving to hurry up (can't say that we blame you, Nell).

Fifth and Sixth Grades

Frank Rowe is moving to Hico. We are sorry to lose him.

Miss Kern of Fairy spent the week end with Mr. and Mrs. Scott of Stephenville.

Denson Adams spent Sunday with Calvin Greer.

Patty Lou Noland is moving to Blue Ridge. We are sorry to lose her.

James L. Arrant spent Sunday with Garland Arrant.

Third and Fourth Grades

Betty Jo Bellon's sister and family, Cpl. Curtis Milton Martin, Mrs. Martin and Curtis Mack, are visiting in Betty Jo's home.

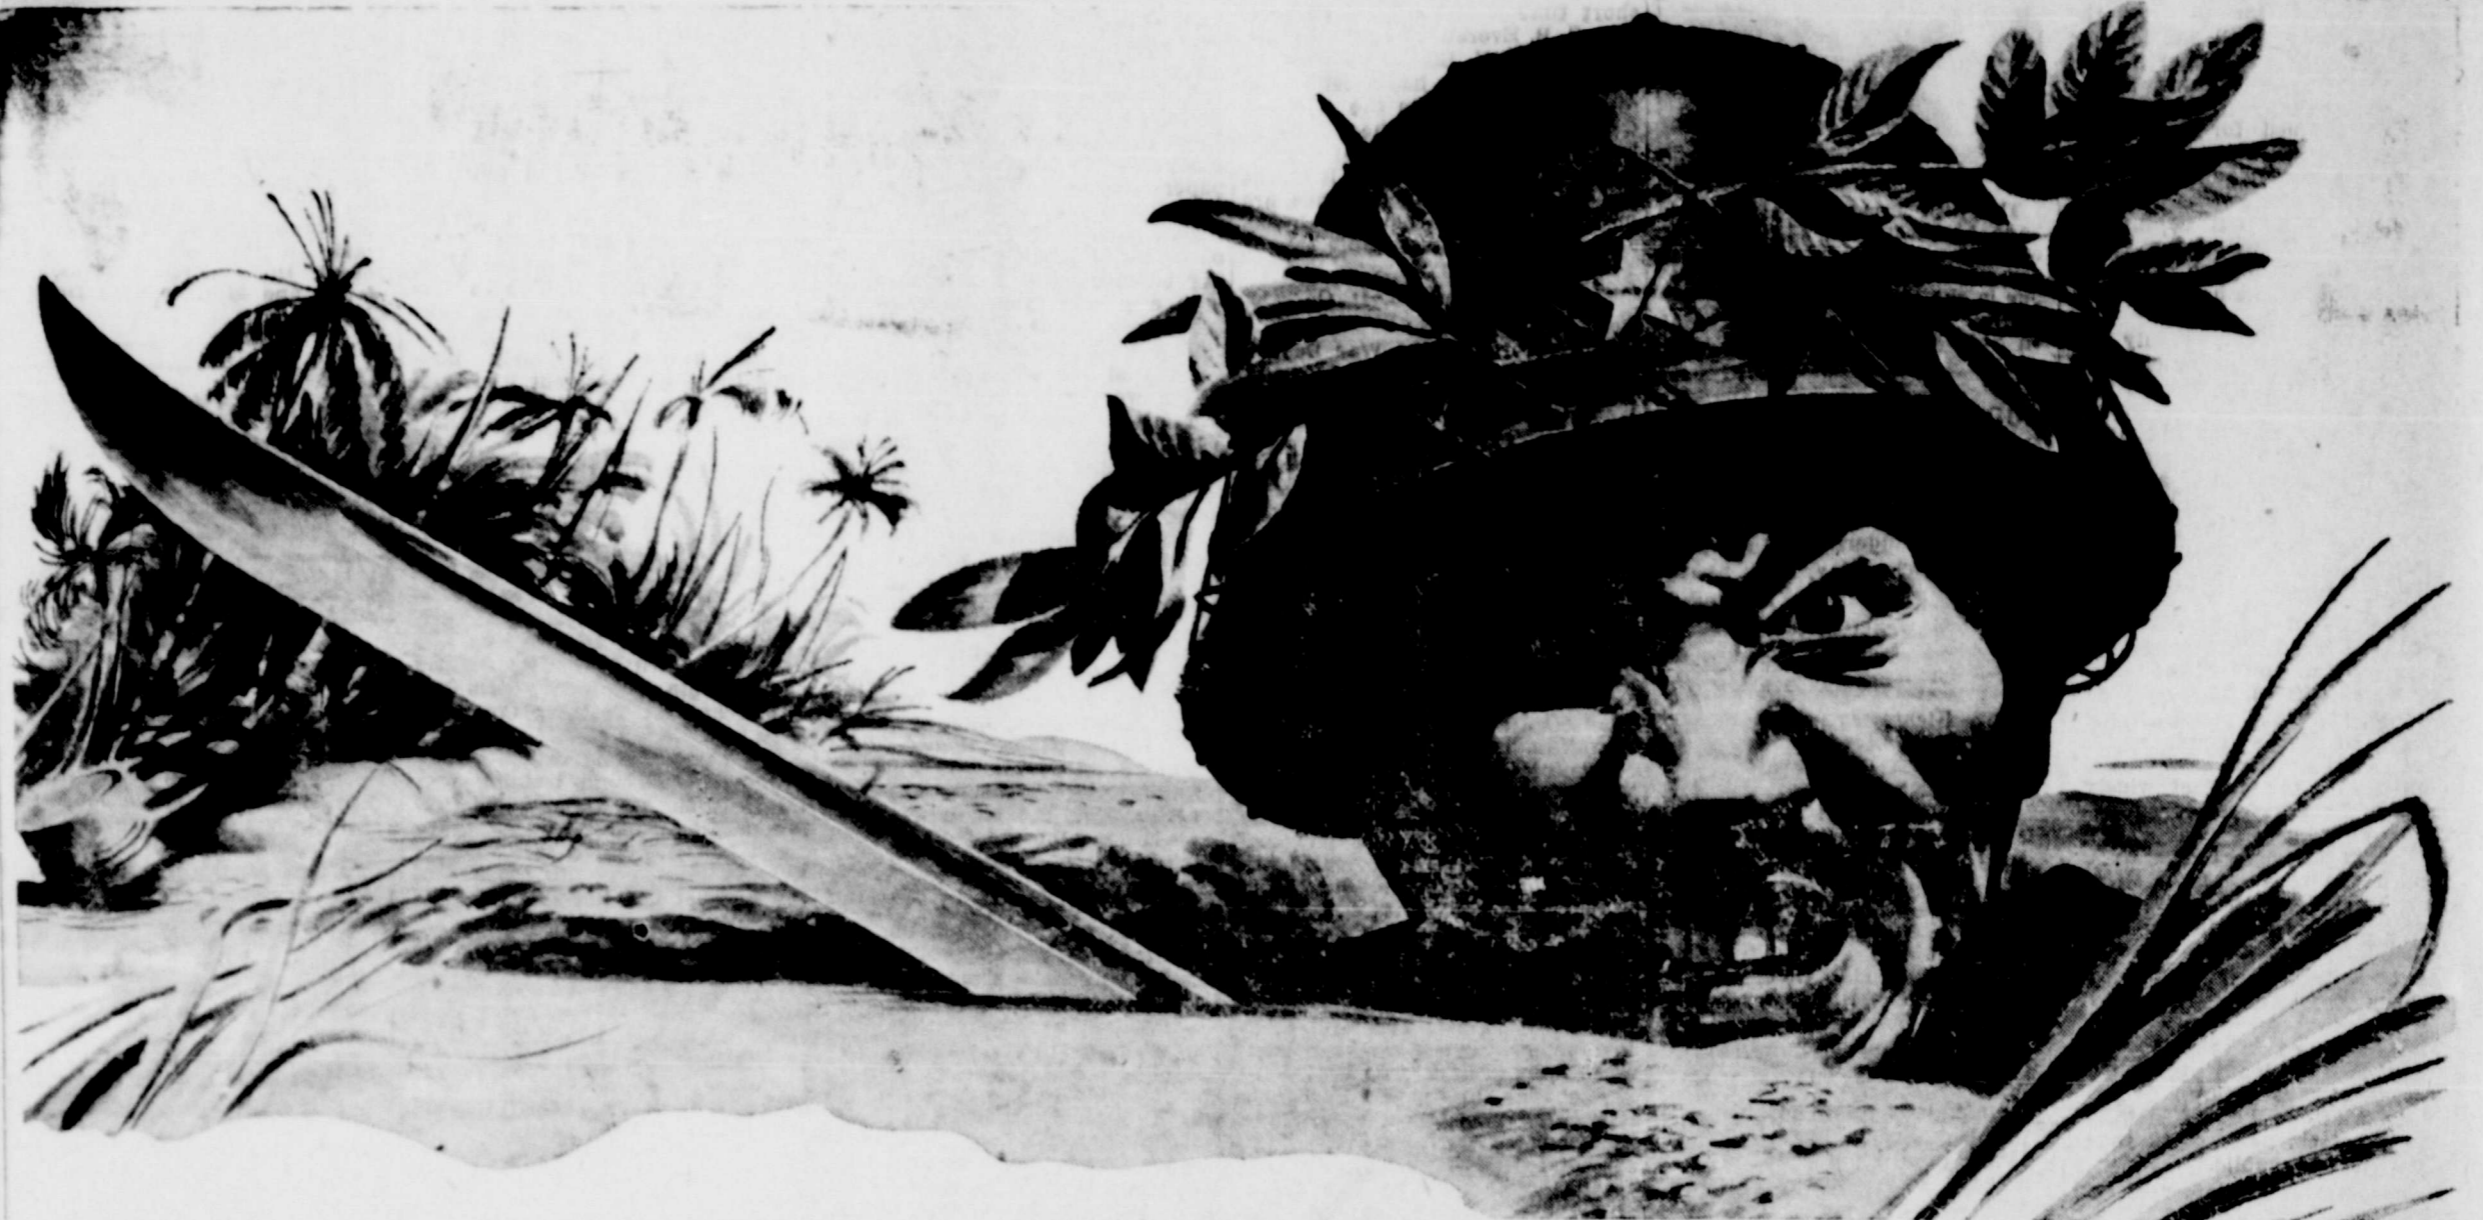

The Third and Fourth Grades entertained with a chapel program last Friday afternoon. All who were in the program were present, and did their best to make the program a success.

Don Washam is moving to El Paso this week. We are sorry to lose him, but hope he will like his new home and the school there.

Miss Jackson's brother and cousin, Mr. and Mrs. Vernon Jackson, visited in their home this past week.

PUSHOVER?

DON'T TELL PRIVATE JONES THE JAPS ARE EASY

THE JOB IN THE PACIFIC IS STILL TERRIFIC!

THERE ARE STILL MILLIONS OF TOUGH, BRUTAL JAPS TO LICK. EVERY JAP WE KILL MAKES MY CHANCES OF GETTING HOME BETTER, AND IT COSTS PLENTY TO KILL A JAP

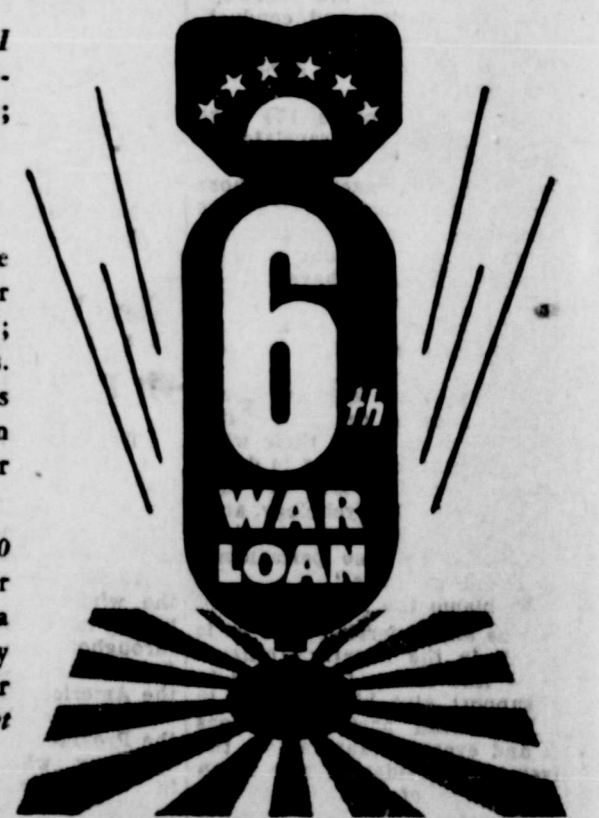

IF YOU think Japan is a pushover—you're fooling yourself, mister. Millions of fanatical Japanese are prepared to die for their country. Every American soldier, marine and sailor in the Pacific knows that he has a tough fight on his hands. You can't tell them their war is over! Even as you read these words, American men are dying in the fight against Japan.

Look into your heart and ask yourself honestly: "Have I stopped fighting? Have I stopped buying War Bonds because I think the war is about over?" You're not a quitter; your answer is "No!"

It costs billions of dollars a month to fight Japan

The fight in the Pacific calls for a highly specialized type of equipment. B-29 bombers that cost \$600,000 in War Bonds; M-4 tanks with bulldozer blades that cost \$67,417; "alligators" that cost \$30,000; millions of gallons of gas. We need more and costlier equipment than any war has ever called for. And that's the reason for the 6th War Loan Drive. Just as long as a single Japanese aims a gun at our men—we must continue to buy War Bonds.

Once again you are asked to buy at least one extra \$100 War Bond. Buy more if you possibly can. Not only is it for the final Victory—it's for your future. Sign up for extra War Bonds on the Payroll Plan. Welcome the Victory Volunteer when he or she calls at your home. Remember—the job in the Pacific is still terrific. We're out to get Japan in the 6th War Loan Drive!

YOUR COUNTRY IS STILL AT WAR—ARE YOU?

POPULARITY CONTEST RESULTS

The Popularity Contest started Monday morning but did not claim any amount of competitive interest until Thursday of last week. From then on, the ensuing struggle mounted by leaps and bounds. Students and teachers found little else to discuss and a constant crowd could be seen around the voting polls.

Jars were provided for each candidate and labeled with his or her name. A boy and a girl had been selected from every class to represent it. Friday afternoon at 4:00 o'clock, excitement reached a climax. Precisely on the ringing of the bell the voting jars were taken in the office and Mr. Lincoln and Mr. Bramlett began the count of votes.

A penny counted as one ballot. The total sum of money will go to the Annual fund. Freshman candidates were Bobbie Jean Jaggars and R. W. French. Bobbie Jean received 141 votes and R. W. took in 129. For the Sophomores, Betty McLarty polled 1205 and Charles Grant got 124. Junior representatives were Charlene Sherrard and Jack Neel. Charlene received 888 votes and Jack came out with 743. For the Seniors, Patsy Pinson got 2151 votes and Lloyd Angell polled 996.

This brought in a total sum of \$63.77.

RHYTHM REVIEW POSTPONED

Due to several conflicts and lack of time for preparation, the Rhythm Review scheduled for Wednesday, November 22, has been postponed until after the Thanksgiving holidays. This was done in order to complete plans for a big-

ger and better program. It has not been put off indefinitely. Watch this paper for date!

F. F. A. BOYS DO USEFUL WORK ON CAMPUS

Our Future Farmers have been working on the playground equipment of the grammar school children. Considerable improvement can be noticed both in the operation and appearance of these articles.

The apparatus was re-arranged to better advantage. The ocean wave and swings were repaired completely new see-saws and swings were built and everything was painted.

The F. F. A. boys are to be commended for a job well done.

LINCOLN ENTERTAIN

Tuesday night, November 14, Mr. and Mrs. J. E. Lincoln entertained the school faculty and friends with an enjoyable evening in their home. After appetizing refreshments, the guests were shown a series of interesting films on the Lincoln's movie projector. These pictures were colored ones taken in Mexico. Besides the instructive pictures, numerous relics of the Mexico trip were displayed.

The guests included Mr. and Mrs. R. B. Jackson, Mr. and Mrs. John Rainwater, Mr. and Mrs. John Appleby, Mr. and Mrs. K. C. Parker, Mr. and Mrs. E. C. Bramlett, Mr. and Mrs. Webb McEver, Mrs. Harry Pinson, Mrs. Louise Angell, and Mrs. R. O. Segrest.

HIGH SCHOOL AND GRAMMAR SCHOOL SEE MOVIES

For the first time this year the Grammar Grades were enabled to witness movies along with High School. The band room is too small for both schools, so the gymnasium served the purpose. Window shades were installed and the screen placed half-way across the building.

Two pictures released by the United States Government proved to be very educational. One pertained to the recognition of American and Japanese aircraft. Our P-40 and the Nip Zero have many characteristics alike. The other film showed the development and use of the American Flying Fortress.

SENIOR NEWS

For the information of the Seniors who are hunting ways to be sure of failing, I'm going to repeat several hints offered by the High School Faculty.

Stay in the halls until half of the class is over; then dash in breathlessly, giving no reason for tardiness. (This makes a big hit with the teachers, as they think you must be a very important person). Never attend classes regularly. If it's too early to come to school, stay in bed. You'll have plenty of time to get used to early rising when you work for the government. Above all, never get your home work. This makes people think you are smart to carry everything in your head. Last, but by no means least, never listen. If the teacher asks you to pay attention, you must ignore her entirely and go on with your talking or whistling. Popping gum and singing makes you seem very talented.

Now, classmates, you don't really mean that any of you have these habits, I just want you to think about these bad traits and never be guilty of committing any of them. You know it might not seem so bad failing your work now as long as you are having fun, but look ahead. When the time comes for graduation, then you will only realize just how much time you have wasted, how you regret to have your classmates leave you behind helplessly.

Now for those who are doing their best and will continue until the gong sounds, I would like to repeat this little verse. So with my bullet-proof vest donned properly and with my tongue in my cheek, here goes. Please treat me kindly, teachers.

When I die don't bury me at all. Just lay me down in the old front hall. Lay my English book upon my chest, Tell Mrs. Angell I did my very best. Lay my History text upon my feet, Tell Mrs. Pinson to turn off the heat. Lay my poor Math book down at my head, And tell Mrs. Segrest that's why I'm dead.

JUNIOR NEWS

The Junior Class sponsored a party for themselves at the Home Eco. cottage last Tuesday night. We played games of checkers, cards, chess, bingo and dominoes. We were served tuna fish salad, cheese crackers, olives, salted pecans, cookies, and iced lemonade. Ada Lee had a good time mopping up her salad. The rest of the class had a nice time, too.

SOPHOMORE NEWS

The Sophs think Betty McLarty and Charles Grant should have won the contest. Each member of the class worked hard.

We are proud of the Sophomore girls who took part in the Home-making assembly.

FRESHMAN NEWS

The Freshman Class had a meeting and elected our candidates for the popularity contest, and the beauty pageant. We think we made some wise choices and are behind them all the way.

We are sorry to lose a nice girl and a good student from our class. Clara Jean Thrash has moved to Clifton. Your new reporter will try to do as good a job as Clara Jean was doing as reporter.

REFLECTIONS

When! That was what is called a bitter fight to the end! H. H. S. forgot school is a place for studying. We had lessons all right but people's minds wandered to the table in front of the bulletin board. The Juniors kept saying that it was too bad they had to win. The Seniors returned with the remark, "Little Jr., your mother wants you." Then the Sophs cashed in someone's bank roll and it looked as if the two upper classes would be forced to make way for them.

It's all over now, and we hope good friends are good friends again. The Annual Staff wishes to express great appreciation for the cooperation demonstrated. That money will make a larger and more beautiful Annual. The "Tigers' Lair" extends millions of thanks to you who voted, and especially to townspeople and merchants.

This week under the head of Things in Condensed Form, we'd like to mention: An H. H. S. student who was so happy he could shout, and consequently termed them the Thanksgiving "holier-days." Virginia Stanley on a visit from Fort Worth. The new managers of our basketball teams, Mary Jane Barrow and Don Griffiths.

We of H. H. S. are grateful for so many things this Thanksgiving that no list could name them all. But to stand at the end of the hall and watch laughing faces and healthful bodies is to realize the most important advantage high school students should value—youth.

As they pass by, let's stop a few and ask them what they're thankful for. Bonnie Haley considers a great blessing that with Winter advancing, she's secure in respect to warmth and food. Elvena Giesecke is grateful for the public education which allows different social classes the same opportunity. When questioned, Billy Jackson said he was most thankful for the chance of each farmer to raise and sell his own produce.

Marlene Adams is grateful for a people who still see the necessity of giving thanks to God. Dale Rands is thankful for the loyal boys in the service. Here's a teacher who is thankful that the war has been fought beyond our shores. The editor is thankful for a high school democracy which lets its members speak.

HAMILTON SOAP WORKS

NOTICE!

During this emergency, we have been able to maintain the largest stock of building materials in this part of the country. This has been due to the untiring efforts of our purchasing department, which is always on the alert looking for the various kinds of building material to suit your requirements. We have not always been able to furnish just the kind of material you wanted, but we have in most instances been able to furnish sufficient material for you to complete your projects.

We now have the largest stock of lumber we have had in several months, and in most instances, we would be able to sell you this material. We have plenty of lumber to do all kinds of farm and ranch building, other than residential. We also have a limited amount which we can sell for residential purposes. If you are needing any kind of building material, come in and see us and we will either be able to sell it to you without priority, or we can assist you in securing the priority necessary to buy this material.

Building material for the past three years has been one of the most critical items in our war effort, but we have been able to maintain a fair stock, and at the same time, we have been able to keep our prices down to the very minimum. Remember we are headquarters for all kinds of building materials.

Thanksgiving finds U.S. Truly Blessed

There'll be a cheery group around the Thanksgiving table—even though "your own boys" are far from home, in uniform—and Ellen and the children couldn't travel to join you. There'll be a cheery group of family, friends, neighbors—and other boys and girls in uniform to whom you extend your hospitality. And if the feast isn't as elaborate as in peacetime Thanksgivings, there'll still be plenty of good things for all to enjoy!

Ours is a bountiful, beautiful land—but its produce is now feeding our armed forces, and helping to sustain our allies around the world! Enjoy your Thanksgiving dinner in this free land all the more — by remembering not to waste a crumb or drop! Then there'll be more to spare, because we at home Share and Play Square!

**MORE OIL FOR
CIVILIANS**

The probable end of rationing
of oil for homes is one of the best
pieces of news we have heard for
some time—not because it is go-
ing to make our already comfort-
able civilian lives more comfort-
able, but because it is definite
proof that the oil industry and the
government have totally solved

the problem of supplying suffi-
cient oil for all war uses.

It is apparent that further re-
lease of oil would not be consid-
ered if there was any shortage in
supply for our war machines and
our war production factories. As it
stands now, the oil reserve seems
to take care of practically all
needs, including civilian require-
ments.

We hope that release of more
gasoline to civilians may follow
in the near future—again not be-
cause we can't get along all right
without it, but because it will
prove that every bomber, every
tank and every fighting plane on
all of our war fronts has all the
gasoline it can possibly use.

**A COURAGEOUS
THANKSGIVING**

Our observance of Thanksgiving
this year shares many likenesses
with the Pilgrims' first historic
Thanksgiving. We do not face the
crudities of living experienced by
our forefathers, but we again have
been made to realize, as they did,
the dignity and worth of human
existence. Like they did, we too are
making tremendous sacrifices for
the ideals in which we believe.

It is a strange Thanksgiving.
There will be many tables with
empty places. There will be many
tables without the accustomed tur-
key because turkeys have gone to
war too. But the nation will unite
at this season and voice a prayer
for those things we do have: the
safety of the country, the progress
we have made abroad since last
year, and the hope that the empty
places at the table soon will be
filled again.

The first Thanksgiving was a
triumphal day for the Pilgrims.
They had endured hunger, disease,
heavy loss of life and the hazards
of a New England winter. As a
second perilous winter approached,
they carried on and gave thanks.
May we face our misfortunes and
our gains with the courage and
humble gratefulness so character-
istic of those who first set aside
a day for Thanksgiving.

**Wee Bits of
JESTURE**

[Opinions expressed in this
weekly feature are the writer's,
and not necessarily those of the
News Review.—ED.]

Folks, I kinda hate to be a tattletale,
but doggoned it, someone is
"throwing mud balls" again. I
guess it's a lot of "left-overs" from
the political campaign. Yes, you
guessed it—F. D. R. is still the
target. This time he is accused of
using profane language in the pres-
ence of a voting machine. Of all
things! Just assuming that he did,
what of it? Why, the dickens, I
always thought "cussing gadgets"
was one of our oldest traditions.
Besides, what they say he said
wouldn't amount to a "Hill of
beans." You should hear some of
these fellows who fall to "woo a
slot machine, or a pair of them
hard-headed galloping dominoes."
And a Scotchman at a vending ma-
chine, oh boy! Furthermore, if the
President said the voting machine
wouldn't work, I'll bet the d--
(gosh, pardon me, my pencil
slipped) thing wouldn't work.

Well, everybody has a right to
his own opinion, you know, and
I'm not going to start an argu-
ment with those that say "lazy
folks don't have anything to cuss
about." For that might be right. It
just stands to reason that if a fel-
low keeps all the "cog-wheels" in
his belfry going, there's liable to
be a "scream" once in a while.

President Roosevelt took over the
reins of our government back
there at a time when lots and lots
of folks were going around yelling
at the top of their lungs, "There's
a nigger in the woodpile." And be-
lieve me, brother, the only reason
I didn't join in with them was that
I knew they were far too "con-
servative." It looked to me like the
"woodpile was alive with 'em." Nearly
everybody was on a "strict diet"
and what I mean, strict diet, too.
Why, I went down town wear-
ing "tights" and got all kinds of
compliments on my "peg-top trou-
sers."

Well, anyway, the President got

to vote, so he got what he wanted.
The election returns show that the
majority of voters got what they
wanted. And if that's not the "ear-
marks" of democracy, at least, I'll
eat my hat.

THIS AND THAT

By JOE SMITH DYER

THANKSGIVING

On Christmas day we celebrate
the coming of Christ, on New
Year's day we are happy because
we have been given an opportu-
nity to begin all over again, and
on Thanksgiving day we are
thankful for many different things
—or should be.

Naturally we are thankful for all
the good things that have come to
us the past year, but we should
be thankful also for the defeats
we have had because defeat tough-
ens our ambition and trains our
ability.

We should be thankful for the
trial—perhaps a tough one—that
we have had to follow because it
taught us to climb.

Thankful for the discouraging
days that have come to us because
they have helped to clear our vi-
sion.

Thankful for friends and neigh-
bors who have given us a helping
hand because they have shown us
how to help others and they have
made us know that there are still
good people in the world.

Thankful that we have been able
to give some service to humanity
—not merely for the reward of
money—but for that greater and
grandier reward—self expression.

And right now I am thinking of
a bigger and better word than
"thankful" and that word is Grati-
tude. I think Gratitude is the most
sincere word in the whole English
language and so this Thanksgiving
—despite pain and suffering all
over the world—we are grateful
for an endless number of things.

Thanksgiving is a day for re-
membering, also.

America is the only country in
the world that celebrates a na-
tional Thanksgiving day. Let us
remember, too, that our country—
even in these years of war—has

more to be thankful for than any
country on earth.

This typical American holiday is
made up of two words—"Thanks"
and "Giving."

That's rather a nice thought,
isn't it?

CELEBRATING V-E DAY:

The initials V-E stand for Vic-
tory in Europe.

Plans have been made several
weeks past for the celebration of
this looked-forward-to day. An
enormous wave of enthusiasm is
expected to sweep the nation when
news comes that Germany has
surrendered.

In many cities store employes
already know just what to do when
the great moment arrives. If the
news comes during a working day
stores will close immediately and
will remain closed the following
day. If the news comes at night
stores will not open the next day.
If the news is received over the
week end, stores will not open for
business on Monday morning.

Many stores have prepared barri-
cades to protect their plate-glass
windows. To discourage drinking
on V-E Day, bars, taverns, etc.,
will not open. All churches, chan-
cels and missions will be open and
they will be filled with profoundly
grateful people.

One woman says: "When victory
comes in Europe, I shall be thank-
ful and I will show that thankfulness
by saying a prayer for the
some kind of a Victory on the Pa-
cific side."

Determination is the act of
sticking right when you are right,
and getting a new hold when you
are wrong.

The tramp on the park bench is
of no benefit to society, no value
to the world—but he is a lesson.

Thanksgiving

Most Thankful indeed will be the mothers and fathers of the sons who will be able to join them in the intimacy of the family circle on Thanksgiving Day this year. But there will be many homes in which service flags hang, where vacant chairs will be mute evidence of the fact that sacrifices must continue—sacrifices that are making it possible for us to give thanks now that our cities have not been bombed, that our people have suffered no starvation, that our children are safe. Yes, there is much for which we can give thanks, this year, and especially to those who have given their lives that we may continue free.

Dressed for Unusual Action

HERE IN HICO

(Continued from Page 1)
University has been taboo since the days when Jim Ferguson got his political fingers burned there. But one can scarcely admire a "hands-off" policy on the part of higher-ups when it is intimated, contended, or admitted that shocking things are going on down there at Austin "Firing" President Rainey was not the solution. This looks like a case of "There's fire, where's Coke?"

Our great goat-raising governor has shunned his very apparent responsibility in the squabble; that in itself seems absurd when everyone knows he has the sole power to name the members of the board of regents—the body that governs the University's affairs, and has to pass on appropriations. Too late he is finding that he has done too little. His fence-straddling policies in the approaching crisis have not enabled him, nor enabled him to avoid that responsibility. Neither can he claim immunity from blame because he happened to inherit a "hot potato" (to use one of his favorite methods of expression) along with the glory and power

that go with ascendancy to gubernatorial authority.

Far-sighted, courageous action of a true statesman might have warded off a lot of unfavorable publicity, at least—if not the impasse which threatens one of our proud State institutions with loss of prestige.

On the other hand it does seem regrettable that the regents have not been of a calibre that could work out solutions to the problems of their board, which admittedly they should have done—as the Governor said—long ago, but didn't.

Justified or not, the dismissal of Dr. Rainey—the focal point of the fracas—has impaired, if not destroyed his possible future usefulness as president of the University. The united backing of students, alumni, and faculty is indeed a tribute to his tenure of that office. But it would take almost superhuman attributes to overcome the obstacles thrown in his path, even should he be reinstated.

Likewise, it might be better for the old members of the board, in view of their evident failure to function properly, to step out of the picture in the interest of harmony, at least.

All of which leads one to the con-

clusion that money perhaps does not always make institutions strong and upright; nor, conversely, does poverty necessarily weaken.

It is indeed a shame that an institution like the University of Texas, with fabulous riches in oil and endowments, and flexible purse strings on State support, can't smoothly discharge its duties of dispensing learning and culture when smaller proletarian neighbors are doing a commendable job under adverse circumstances.

Such conduct makes less ridiculous the old jeer that a college degree and a nickel will buy their possessor a cup of coffee almost anywhere.

Or, as Harry put it, maybe some will agree with the statement made by the Colorado Medical Society's new president, who announces that a course in dishwashing is to be added to the arts and sciences at that State. Dishwashers in restaurants are to be the recipients of this new instruction, and to emphasize the merits of the course the prexy stated: "We're going to teach them that there is no substitute for hot water and that you don't need to put your thumb in the middle of a clean bowl of soup to pick it up."

Thanksgiving Time For Consideration of Health Preservation

Austin, Texas, Nov. 20.—The first Thanksgiving Day in this country was proclaimed for the purpose of expressing thanks not only for the bountiful harvest which the colonists had reaped but for the sturdy health and endurance that had permitted them to survive the hardships and exposure, that first rigorous year in America. On the occasion of this Thanksgiving Day the State Health Officer, Dr. Geo. W. Cox, is appealing to every citizen of Texas to give serious thought to the preservation of his own health and that of his community as a contribution to the world war effort.

"We have much to be thankful for in that our national health level has remained high despite the nervous tension, the sacrifices, the deprivations of war," Dr. Cox stated. "Our people have maintained a remarkably high health level and even under existing war conditions, Texas has shown a continued decline in maternal and infant deaths.

"The people of Texas have reason to be thankful for the steadily increasing interest and co-operation being shown in matters pertaining to general sanitation and the control of communicable disease," Dr. Cox asserted. "Responsibility for the success and advancement of the public health program lies not with the State Health Department primarily but with the people who support and encourage the local community efforts exerted and who apply in their own individual lives the health rules with which they have become acquainted through public health education."

Dr. Cox pointed out that one direct result of public health efforts in this nation has been the lengthening of the normal life span by more than 15 years. "Certainly this is something to be thankful for and it should lend incentive for further efforts to promote and maintain community as well as statewide public health programs."

HANKSGIVING
SEASON'S GOOD WISHES
WE ARE THANKFUL FOR YOUR FRIENDSHIP AND PATRONAGE AND SINCERELY HOPE THAT YOU HAVE THE BEST OF EVERYTHING AT THIS SEASON OF THANKSGIVING.
In observing Thanksgiving this year, we Americans have much to be thankful for, even though war rages throughout the world. We can be most thankful for a united effort which will protect our freedom. Our strength is growing and is being felt by the powers that would destroy liberty. We can be thankful for that.
TOO, THIS IS AN APPROPRIATE TIME TO SALLUTE THE MEN WHO ARE FIGHTING THE GRIM BATTLE OF VICTORY ON LAND AND SEA. WE CAN JOIN IN GIVING THEM OUR HUMBLE THANKS FOR THEIR SACRIFICES AND OUR PRAYERS FOR THEIR PROTECTION.

INVEST IN THE NEXT RAID ON JAPAN!

IT TAKES PLENTY OF WAR BONDS TO BUILD B-29s

THE WAR in the Pacific is the most costly war America has ever engaged in. It's simple arithmetic. A mountain of special, costly equipment is needed. A B-29 Superfortress used in the bombing of Japan costs \$600,000 in War Bonds. And this is just one of the many

extra costly implements of war needed to achieve final victory in the Pacific. That's why the 6th War Loan Drive is so important. That's why you must back it as generously as you have every other war loan drive. Invest in the next raid on Japan...

Putting the Anesthetic Into the Spine

By Dr. J. B. Warren

Perhaps you do not like the idea of an anesthetic that puts you to sleep or makes you become unconscious. On the other hand you wonder what general effect upon your mind and body will result from having an injection into the spine. Your physician will reassure you as to the safety of spinal anesthesia. You are afraid before the operation which saves your strength. Also there is no shock, no gas formation, no vomiting that follows ether or chloroform. Of course there are certain conditions where spinal anesthesia is not advisable.

CHRISTIAN SCIENTISTS TO HOLD THANKSGIVING SERVICES AT MOTHER CHURCH

Thanksgiving Day services are held each year by The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, and its branches throughout the world. The order of service includes the reading of a Lesson-Sermon on the topic of "Thanksgiving," and opportunity is afforded for testimonies of gratitude to be expressed appropriate to the occasion. The public is cordially invited to attend these services.

The Golden Text is: "Thanks be unto God, which always causeth us to triumph in Christ, and maketh manifest the covous of his knowledge by us in every place" (II Corinthians 2:14).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Be careful for nothing; but in every thing by prayer and application with thanksgiving let your requests be made known unto God (Philippians 4:6).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more" (Page 3).
