Magnolia Project In NE-C Midland Fails In Ellenburger

Magnolia Petroleum Company was preparing to plug back for tests of shows in the Pennsylvanian after finding salt water in the Ellenburger at its No. 1 Klapproth, wildcat in Northeast-Central Midland County.

Latest drillstem test was taken over the interval from 12,880 to 12,965 feet. Tool was open two hours. No gas or fluid surfaced during the time the tool was left open. Recovery was 90 feet of slightly gas and salt water-cut drilling mud and 1,170 feet of slightly gas and mud-cut salt water.

The Ellenburger was topped at 12,770 feet, elevation 2,787 feet. No shows for commercial production were found in any section of the Ellenburger.

Operator will plug back and test shows found in the Pennsylvanian when that section was drilled.

Location is 690 feet from south and 467 feet from east lines of section 14, block 33, T-5-S, T&P survey.

Phillips Will Drill To Ellenburger Zone At NW Andrews Wildcat

Phillips Petroleum Company No. 1-CC University is to be a wildcat to drill to approximately 13,500 feet to explore the Ellenburger in Northeast Andrews County.

It is 11 miles northeast of the town of Andrews and two and one-half miles north and one-quarter of a mile west of Magnolia Petroleum Company No. 1 University, flowing discovery from the Devonian, which is still drilling in that formation—and which may go to the Ellenburger.

Location Listed
Phillips No. 1-CC University is 690 feet from south and 467 feet from east lines of section 42, block 5, University survey.

It has already been drilled to 6,016 feet in the San Andres-Pennsylvanian and it was temporarily abandoned at that point in November 1951.

No Shows In San Andres
When the prospector was started it was projected to 6,000 feet or a test of the San Andres at a lesser depth. It found no possibilities of production in drilling to 6,016 feet. Operator has now decided to re-enter it and deepen it to the Ellenburger. That work is to be started at once.

Mile NW Extender To Germania In Midland Completed

Hassie Hunt Trust No. 1 H. Brooks has been completed as a one mile northwest extender to the Germania field of Northeast Midland County.

The new spraberry oiler is 690 feet from south and east lines of the northeast quarter of section 48, block 37, T-1-S, T&P survey.

It was completed for a daily pumping potential of 27 barrels of 25-gravity oil and no water through a 16 5/8-inch tubing choke and from perforations at 4,995-4,985 feet.

Gas-oil ration was 1,640-1 and tubing pressure was 100 pounds. Top of the pay was picked at 4,965 feet, elevation 3,883 feet.

Location is 690 feet from south and east lines of section 15, block W, pal survey.

San Andres Opener Finaled By Mid-Co In SE Cochran

Mid-Continent Petroleum Corporation No. 1-3 Smith Ranch, has been completed as a San Andres discovery in Southeast Cochran County.

It was completed for a daily flowing potential of 23.94 barrels of 25-gravity oil and no water through a 16 5/8-inch tubing choke and from perforations at 4,995-4,985 feet.

Gas-oil ration was 1,640-1 and tubing pressure was 100 pounds. Top of the pay was picked at 4,965 feet, elevation 3,883 feet.

Location is 690 feet from south and east lines of section 15, block W, pal survey.

NE Reagan Project Is Slated To Test Higher In Spraberry

Southwest National Production Company and Lottie Glascock, Jr., No. 1 Greer-Carter, Northeast Reagan county wildcat which has indicated the opening of a new area for production from the Spraberry continues to test.

The project was last reported to be flowing by heads at the rate of 48 barrels of new oil per day. That production is coming from perforated section at 6,032-61 feet, which had been fractured with 2,000 gallons.

Unions Again Postpone Oil Strike

275 Injured As Ice Show Seats Tumble

BALTIMORE —(P)—A huge section of ice show bleachers, "not even nailed down," collapsed like a giant game of jack-straws and injured more than 275 persons Thursday night. Thirty-two of them were reported in "serious condition."

As 10 hospitals continued treating the bruised and battered victims, the city revealed it hadn't issued the Sonja Henie Show a permit for the temporary stands in Baltimore's Fifth Regiment Armory.

Though none was required by law, the show had asked for one and had been refused, according to Building Inspector Paul Cohen.

The massive sections, shuddered and gave way about 8:20 p.m., five minutes before the show was scheduled to begin.

The heavy beams and planks went down with a roar, pinning men, women and children under a mass of heavy splinters. Men tore at the tangled beams to rescue screaming children and crying women.

There was no panic among others in the crowd, and the rescue operation carried on by police, firemen and National Guardsmen was completed within 30 minutes.

Full Probe Ordered
Mayor D'Alesandro ordered a "full and complete" investigation until "every fact" is uncovered. Director of Public Works Paul Holland was placed in charge of the probe.

Brig. Gen. Harvey S. Ruhl, aide to the adjutant general, said armory rental contracts carry clauses compelling the management to take out liability insurance.

Jack Mulcahy, Miss Henie's publicity man, said the temporary bleachers were erected under the supervision of a construction firm which goes by the name of Cornati. Mulcahy said he believed the firm has offices "in New Jersey," but he didn't know exactly where.

Miss Henie said the stands were erected under the supervision of a contractor, Ed Coronati, Park Ridge, N. J. Coronati was unavailable for comment, although his wife in New Jersey confirmed her husband's firm put up the bleachers and he was at the scene.

A crowd of 7,000 persons was on hand for the show. Miss Henie canceled the performance and said ticket holders could have a refund or attend another show Monday night.

Hospitals sent out emergency calls for doctors as ambulances brought the bleeding and bruised victims in for treatment.

Mild, Fair, Dry Weather Hangs On

Clear skies, streaked by high thin clouds, covered Texas Friday and temperatures were mild.

The only measurable precipitation for the 24 hours ended at 6:30 a.m. was 11 inch at Brownsville. A trace wet Corpus Christi.

Warmer temperatures with continued mild weather Saturday was forecast with a pleasant weekend in prospect.

Temperatures early Friday ranged from minimums of 27 at Dalhart to 63 at Brownsville.

Jowell Announces For Second Term

J. Holt Jowell, independent oil operator and long-time Midland resident, said Friday he will be a candidate for reelection to a second term as a member of the Board of Education of the Midland Independent-School District in the April 5 election.

Two other board members whose terms expire this year are not seeking reelection. They are Mrs. Ernest Sidwell and Cooper Hyde.

Jowell's announcement brought the number of trustee candidates to four and assured a contest in the school election. Previously announced candidates are Thornton Hagler, Jr., Lynn D. Durham and Mrs. John J. Reifner, Jr.

Deadline for candidate filing is 30 days prior to the April 5 election date.

Jowell was reared in Midland and is a graduate of the public schools of this city. He said he has witnessed the remarkable growth of the school system and is glad to have had a part in its administration during the last three years.

"An aggressive program of expansion to meet the needs of the community now is underway, and I would like to serve another term to see it through to completion," Jowell stated.

"I always have been interested in Midland schools and I believe we have one of the finest systems in the nation. We surely want to do everything possible to keep it that way."

WELCOME TO MIDLAND—John W. House, left, West Texas-New Mexico Division superintendent of Humble Oil & Refining Company, greets Hines Baker of Houston, Humble president, as he landed at Midland Air Terminal late Thursday to attend the formal opening of the new \$1,225,000 Humble Building here Friday.

Humble Announces Huge West Texas Drilling Program

A program calling for the expenditure of \$55,000,000 during 1952 in West Texas was announced Friday as the Humble Oil & Refining Company officially threw open the doors of its magnificent new division headquarters building.

The announcement came from Hines H. Baker of Houston, president of the company, who was on hand with other top company officials for the opening ceremonies.

SPECIAL EDITION ORDERS POUR IN

Orders for extra copies of The Reporter-Telegram's 1952 Petroleum Progress Edition were pouring into the newspaper office Friday as the Sunday publishing date neared.

The regular Sunday price of 10 cents per copy will prevail. A charge of 25 cents will be made for mailing copies of the huge edition, which will be the largest ever published in the Permian Basin Empire.

Officer Slain, Two Others Wounded, In 'Ambush By Mistake'

SEATTLE —(P)—A country club dishwasher, mistaking four officers for returning safecrackers, shot and killed a deputy sheriff and wounded two others early Friday in a tragedy of confusion.

Four safecrackers had tied up the dishwasher, Ralph Bishop, 62, and two watchmen two hours earlier while they looted the safe of the exclusive Inglewood Golf Club of an estimated \$8,000 to \$10,000.

Sheriff's Deputy Norman Silkworth was killed and two others wounded as they responded to the burglary call at 5:30 a.m. Sheriff's Detective Claude Dodd, 44, was wounded seriously but is expected to recover. Deputy William Randecker, 36, was not seriously wounded.

The officers were felled with blasts from an automatic pistol as they entered the clubhouse north of Seattle cautiously after the safecracking report.

Bishop told officers he had freed himself earlier by working his way to a meatblock and sawing the ropes from his arms and legs. He said he then had gone to his room, got his automatic and two extra clips and hid in the attic for "more than an hour."

Officers said the safecrackers apparently finished their job and left while Bishop was in hiding.

In the meantime, the two watchmen, Lloyd Cannon, 19, and Cyrus T. Dorsey, 48, dressed themselves, ran to a nearby house and called the sheriff's office.

The three officers were shot as they entered the clubhouse with State Patrolman James Terhar.

Cleanup Man Again Named In Ship Deal

WASHINGTON —(P)—Senators digging into oil trade with Red China developed testimony Friday that a foundation headed by Newbold Morris, now government corruption cleanup man, could have barred the oil deliveries.

Houston H. Wasson, law partner of Morris, acknowledged to the Senate Investigations subcommittee this was within the power of the China International Foundation, Inc.

Wasson also testified his and Morris' law firm has received about \$100,000 in fees for legal services from two companies which engaged in China trade.

With this testimony, the committee recessed until Monday. It announced Morris will be called to the witness chair Tuesday. Monday's witness is to be Col. Arthur G. Syran.

Dispute Goes To WSB For Wage Advice

Masked Men Hold Up Navy Credit Union

NAVAL AIR STATION, QUONSET POINT, R. I.—(P)—Two masked men carrying short, stubby revolvers held up the Quonset Point Naval Air Station Credit Union Friday and escaped with \$100,000 in cash.

Naval station officers said the bandits fled in a green sedan, racing through the air station gate at 50 miles an hour. Three Marines were on duty at the gate.

Gerald Lynch, Appomattox, R. I., the Credit Union manager, and Thomas Smith, civilian guard, were about to carry the funds—in canvas sacks—from their parked cars at the rear of the building when the bandits drove up.

Lynch said the gunmen jumped out of their car, waved the guns at them and one of them said: "We're not kidding."

Lynch said the two men grabbed the money sacks, jumped into the green sedan and fled.

One of the Marines at the gate jumped into a car and gave chase but was unable to overtake the bandits. The bandits' car later was found abandoned and ablaze about five miles from the air station.

The bandits were wearing green Navy fatigue clothes and Hawthorn masks, Lynch said.

Lynch had received the money a few minutes earlier from the Naval Disbursing Department to cash pay checks for civil service employees.

Another OWIU district director described as "unrealistic" the manner of the government's intervention, especially because only eight oil companies were named in the President's order.

"That's unrealistic," said Fred Schmidt, Dallas, District 2 director for the Oil Workers International Union, one of the largest of 22 unions banded together in demanding 25 cents an hour wage increase.

"In some industries as steel, contracts made by a few major companies set a wage pattern. That's not true in oil. We have more than 850 contracts involved in this dispute and no two are alike. Phillips Oil Company is not on the list given by the President."

Truman had specified these major oil firms: Cities Service, Deep Rock, Gulf, Shell, Sinclair, Socony Vacuum, Standard of Indiana, and The Texas Company. There were indications the government looked on those firms as representative and that a settlement reached between them and the unions would avert a strike.

Truman Forecasts Ultimate Decay Of 'Soviet Slave World' In Renewed Plea For Foreign Aid

WASHINGTON —(P)—President Truman Friday forecast the "ultimate decay of the Soviet Slave World," provided free nations stand up their military strength.

But he told Congress, the free world cannot rearm adequately without continued American help.

Submitting to Congress the first report on the \$7,900,000,000 Mutual Security Program, President Truman made his third plea in 24 hours for the plan's approval.

He told Congress, still talking about scaling down the program despite his 7,500-word special message Thursday followed by a direct radio-TV plea to the nation Thursday night.

"The ultimate decision between free world and slave world lies in the balance."

"For the nations of Western Europe, the year 1953 may well be the critical time in the defense buildup, being the period between extreme vulnerability and effective preparedness."

Friday's report went far beyond his message to Congress and the address to the nation in supporting arguments for the Mutual Security Program, the official name for the combined foreign military and economic aid programs.

The President outlined the things already accomplished in the joint rearmament drive touched off by the outbreak of the Korean war as well as itemizing how new funds will be spent, and what can be expected.

But even Administration supporters conceded the program faces a tough time in this election-year Congress.

The President said "neutrality," which he defined as "the ostrich-like disposition to ignore the reality of the Soviet threat," has declined steadily as confidence in the free world's defense has grown.

Penny Singleton Won't Mind If She Loses Blondie Role

By ERKINE JOHNSON
NEA Staff Correspondent

HOLLYWOOD—Exclusively Yours: Any other doll would be steaming, but Penny Singleton's refusal to percolate over Arthur (Dagwood) Lake's refusal to do the TV version of "Blondie," unless his wife Patricia van Cleve, replaces Penny is "Blondie." In the mob of stars at Howard Hughes' big premiere of "The Las Vegas Story" in Las Vegas, Penny told me:

"Blondie" has been my private little rut for 13 years. It's been a handicap for me. The studios wouldn't hire me for any other role because as soon as my face appeared on the screen people yell, "There's Blondie." Maybe it's time I forgot "Blondie."

Until there's a decision on a TV version of Blondie with Penny or Patricia, Penny's worked up a song-and-dance act with which she made her night club debut recently at the Thunderbird Hotel in Las Vegas. But there's no escaping "Blondie." She's billed as Penny "Blondie" Singleton.

Shelley Winters is about to battle it out with her UI bosses for a big salary raise. She won't sign her new contract until she gets it. Patricia Neal's intimates are concerned over her jangling nerves and "I'm in a foul mood" talk. Ben Blue's comedy success in TV guest spots has the movie studios bidding for his return to the screen. He's up for a big comic spot in Fox's "The Farmer Takes A Wife." MGM dangled a fat offer at Ed Wynn for the rights to his life story. The comedy star, who's sensitive about his private life, declined with, "I don't think my life story would be of any interest to anybody."

Maybe the Academy should give Lana Turner and Jane Russell a Deer Prize. Both are new members of Hollywood's Deer Club. Lana fell through a shower door and Jane claims she got hit by an automobile door.

Costello Can't Scare Her
Some glamour dolls cringe at the thought of working with Lou Costello, but Hillary Brooke is not one of them. She's the gal in the lives of Bud and Lou in their TV film comedies. Hailing Lou's spontaneity, Hillary says:
"I love working with Lou. He has the most creative mind in Hollywood. We do a scene together and it's sensational."

Sam Goldwyn's still denying the grapevine whispers about Moira ("Red Shoes") Shearer's withdrawal from the co-starring spot with Danny Kay in "Hans Christian Andersen." Sam's particularly upset over printed reports that she turned down the film because Goldwyn asked her to do things that would "upset her dignity."
"That's ridiculous," he told me. "I paid her transportation to Hollywood from London. I bought her

Butter Prices Start Tumbling Downhill

DALLAS —(AP)—A Dallas grocery chain Thursday slashed its price on top-grade butter to 86 cents. It had been selling for 97 cents per pound. Another chain said butter sales had been off since it went beyond 50 cents per pound several years ago.

Wholesale butter prices have been skidding about a week on the Chicago butter market, which largely determines prices throughout the country.

Eleanor Graham Vance Speaks To Wednesday Club

Mrs. Eleanor Graham Vance was the guest speaker for the Woman's Wednesday Club at a meeting held Wednesday in the home of Mrs. C. R. Steinberger.

Mrs. Graham is a lecturer, poet and free-lance writer. She was graduated from Westminster College, and received her master's degree from Northwestern University's Medill School of Journalism. Graduate work was completed at the University of Pittsburg and Columbia University.

The program was titled "Poems For Every Day Living." Some poems which Vance read were "The Children," "Religion," "We Are Their Children" and "From Heart to Heart."

Four poems of emotion were "Store In Your Heart," and "For Your Love," "Love Song," and "Song of Thanks."

Eight humorous poems were read. The club voted to buy two books of the poems of Mrs. Vance titled "Store In Your Heart" and "For These Moments."

Mrs. Ernest Sidwell introduced the speaker, Mrs. C. M. Goldsmith was in charge of the program.

It was announced Mrs. Sidwell had been appointed secretary and Mrs. Goldsmith, treasurer, after the resignation of Mrs. Tom Sealy, secretary-treasurer.

Thousand Girl Scouts To Take Orders For 'Magical Cookies'

Doorbells will ring in Midland Saturday. Once again it will be Cookie Day.

A thousand Girl Scouts of Midland will take orders for the Girl Scout cookies, starting at 9 a.m. "Magical cookies" is the name the scouts have given them.

The name is explained by the fact that the sale of cookies in the past has brought furniture and equipment for the Little House and the park. Profits from the sale go into the building fund.

Cookie Day first came to Midland three years ago when the Little House and park were nearing completion. Profits from the first sale made it possible to buy furniture and equip the building.

The profit from this year's sale will go for repairs, more equipment and future enlargement. Community Chest funds allotted the Girl Scout organization are not used for the building.

Hopes Enough Ordered

"Nine thousand boxes of cookies were baked especially for Midland this year," Mrs. Paxton Howard, chairman of the sale commented. "This is one thousand boxes more than we ordered last year and we could have filled more orders. We hope that we've ordered enough cookies this year."

The cookies are famous throughout the nation. They are made from a copyrighted recipe and only a few bakers in the United States are registered to make them. The making is done under the surveillance of the national organization thereby assuring the copyrighted recipe.

The cookies are never sold over the counter, only by Scouts. The cookies are designed in the emblem of the Girl Scouts and are a vanilla shortbread type of cookie.

Each girl is to sell in her own neighborhood and surrounding area.

Cookie delivery will be made March 15. When an order is given the girl is directed to fill in the name of the person ordering in her order book and leave a window sticker with the householder.

The orders are turned into the troop cookie chairman by noon Monday. The orders must be in to the school chairman by Monday afternoon.

"The freshly baked cookies will arrive within the next few days," Mrs. Howard said, "and will remain in the warehouse until the delivery date."

Xi Theta Concludes Yearly Program

The concluding program of the Xi Theta Chapter of Beta Sigma Phi from Ethel Cotton's "Conversational Studies" was given in the Thursday meeting in the home of Mrs. Ford Fullingim.

It Just Didn't Happen

Dr. L. D. Haskew, dean of education at the University of Texas, told members of the Optimist Club here Tuesday, he doubted if Midland residents realize how fortunate they are in view of the city's rapid growth, that the public schools don't have to operate on a double schedule.

Most Midlanders probably haven't thought much about it—taking the fortunate situation for granted perhaps.

It is not just a coincidence. Neither is it a coincidence that during the last five years Midland's new school buildings have been ready for occupancy on September 1 each year to take care of the increased enrollment on a full school year basis.

It certainly is not just a miracle that our children attend school a full day in Ever-Growing Midland.

Additions to South and West Elementary and Senior High Schools (1949); David Crockett and Carver (1950), and DeZavala and Sam Houston (1951) all were ready to receive students when school opened.

It isn't uncommon in many Texas cities for moves to new buildings to be made late in the school year. And many schools over the state, we are told, have had to resort to half-day sessions at various times in recent years.

Midland, meanwhile, has continued on full-day schedules in its fine school system.

Again, this is not just a coincidence. Rather, it is a matter of planning, of looking ahead, of just plain good business on the part of members of the Board of Education of the Midland Independent School District.

It isn't an easy task. It is work and more work on a continuing basis.

Even now, the Board of Education is considering sites and planning for buildings which will be needed in 1958. When the requirements definitely are determined, Midland's Board of Education will be ready—and so will the school buildings when needed.

As the observance of Texas Public School Week draws to a close, it is fitting that thanks and appreciation for a job well done be expressed to the trustees of the Midland public schools.

We appreciate their tireless and unselfish efforts for our children, even though we often neglect to thank them for serving in their important capacities.

Hat's off to our school trustees!

The Washington Merry-Go-Round

Department several weeks ago, all hands agreed it would be a model of "non-partisan" efficiency.

WASHINGTON — Weary United Nations negotiators will make a last, desperate bid this month to end the Korean war in the big parley tent at Panmunjom.

Here are the latest, inside developments that could lead to peace or full-scale war in a matter of weeks.

1. Orders from Washington are to persuade the Communists to sign a half-truth—if other words, to nail down in writing the agreements that already have been reached orally.

2. However, the Central Intelligence Agency is convinced the Chinese will try to prolong the Korean stalemate indefinitely.

3. If the truce negotiators cannot come to terms, General Ridgway wants to blockade the Chinese coast and bomb the Chinese mainland.

4. Inside the joint chiefs of staff, General Vandenberg has warned that we don't have enough planes to waste in conventional bombing of China.

5. The danger is that bombing China might provoke war with Russia.

6. Truman On Ike: Harry Truman sounded off to an old Senate friend the other day about General Eisenhower's presidential ambitions.

7. "I don't know why in the world Ike wants the job," the President mused.

8. Q—Why are military tanks so called? A—The tank got its name from the British, who developed the weapon during World War I.

9. Q—How was the English legal rod determined in the 16th Century? A—The legal rod in the 1500's was the total length of the left feet of 16 men who lined up to be measured.

10. Q—Which general was authorized to prescribe his own insignia? A—General John J. Pershing, the only person to have held the rank of General of the Armies, was authorized to prescribe his own insignia, but never wore more than four stars.

11. Q—Where was the first automobile race held in this country? A—In Chicago in 1895. A record of 7.5 m.p.h. was established.

12. Q—What is the striking distance of a timber rattlesnake? A—About 18 inches.

So far, committee Democrats and Republicans have spent most of their time wrangling over the procedure the probe should follow.

Republicans have been hotly critical of Chairman Frank Chief of Kentucky because of the delay in naming a committee counsel and staff to direct the probe.

he needed reassurance about that suit before he could venture to slam. Since North had the ace of clubs, he could afford to carry on to slam.

West opened the three of clubs, and declarer won in dummy with the ace. He expected to draw trumps and then give up a club trick rather than risk a club finesse and a possible ruff.

Unfortunately, the second round of trumps revealed the bad news. East had five of the missing six trumps, and was bound to get a trump trick.

"I thought your suit was solid," the dummy said reproachfully, seeing declarer's discomfiture. "So did I," muttered South, as he looked for a way to recover.

Abandoning the trumps, he led his singleton spade and finessed dummy's queen. When that held, he discarded the ten of clubs on the ace of spades and ruffed a spade with the three of diamonds.

By this time East had three trumps and the king of clubs, while South had three trumps and the queen of clubs.

WASHINGTON COLUMN

Transportation Battle Seen When ICC Hears New Bills

By PETER EDSON
NEA Washington Correspondent

WASHINGTON—Another round in the apparently never-ending battle of the railroads versus the trucks, the inland waterways and the commercial airlines is about to be fought.

The arena is Colorado Senator Edwin C. Johnson's Interstate Commerce Committee, where hearings began March 3 on a score of new transportation bills.

All the bills have been introduced by Chairman Johnson "by request" of various special interests.

Nine of the new bills relate to trucking regulations. Seven are of particular interest to the railroads, in amending the present Interstate Commerce Act. One covers waterways and three would affect all forms of transportation.

Other transportation bills now are being readied for introduction later in this session of Congress. The Interstate Commerce Commission thus far has given its approval to only five of the pending measures.

In general, the purpose of all 20 of the bills is to regulate further, or remove federal regulation, subsidy and special assistance to the competing forms of transportation.

Big beef of the railroads is that the airlines now take the cream of the passenger and mail business and the motor trucks take the cream of the freight business.

Truckers get subsidy through federal and state highway construction. Waterways get subsidy through federal river and harbor flood control and navigation expenditures.

Railroads want competitive advantages stopped, or at least equalized. Ten-Mile Tax Is Possibility

Hence there are found in the commerce committee hopper such bills as one to require the Bureau of Public Roads to make an investigation of trucking revenues, highway building and upkeep costs to meet the heavier construction standards of heavy carriers.

Another bill—an old-timer—would set federal uniform standard maximum dimension and weights for trucks. Strangely enough, some railroads oppose that. They figure that present state limits keep the truck sizes and weights lower than federal regulation would set.

Another bill—which the railroads favor—would put tighter restrictions on farmers and fishermen hauling their own produce to market.

Too many commercial truckers also have found ways to operate under the present farmers' and fishermen's exemption from regulation. But agricultural and fishery

ing any strong hand in this situation. Any bid other than a double-die is real strength.

TODAY'S QUESTION
The bidding just answered. You, South, hold: Spades J-10-9-8-6-3-2, Heart 4, Diamonds Q-8-4-3, Club 6. What do you do?

Answer Tomorrow

from a pile of big soft pillows. She wore a neat white bandage around her head and her hair was a dull-brown now, the rain having washed and beaten most of the henna out of it.

Dumont and the doctor were over her. Dumont's eyes flickered with me questioning. No doubt he wondered, and with reason, why Cravath had dragged me along.

"Now this has got to be brief," Dreeves had his watch out. "I'll give you 10 minutes. No more."

Dolly shook her head, cautiously, infinitesimally. "Might as well make it five, Doctor." Her voice barely reached the strength of a whisper. "Because I haven't much to tell."

I HEARD Jack Dumont's breath expelled in a kind of disappointed sigh. I felt like raking the same sound. All of us, though perhaps we hadn't exactly banked on it, had been hoping for a clarifying story from Dolly.

"You mean," Cravath drew a chair to the bedside, "that you can't remember anything? You must have some sort of recollection."

"As if I haven't tried! I've been beating what little brain I've got. But it's no use. I just pulled a complete blank yesterday. Some time in the afternoon."

"Do you remember where you were when you—ah, pulled the blank?"

"Yes, I know that much. Right here in this room. I'd been talking to Eve downstairs, but all of a sudden I felt headachy. So I came up, took two aspirins and started to lie down. I . . . She checked it. A little late, however. From across the room Dumont said, his voice slightly sharp. "Started, Dolly?"

"That's what I tried! Her smile became rather rueful. "I . . . You all know it already, so what's the use of stalling? I was very very drunk yesterday. I'm sorry, but there it is. And after I'd taken the aspirins, I decided to have just one more. And it must have hit me. Because I don't remember another thing."

THAT afternoon Dr. Dreeves came again. He went straight up to Dolly Dumont's room and a few minutes later Marney Cravath sought me out.

"Dreeves will let us talk to her for a few minutes," he announced. "Better come along."

It was a sobered and wan-looking Dolly who smiled at us feebly

Interests back this proposed amendment of the railroads.

Among the bills which the railroads want for their own use and benefit is one which would permit them to impose special charges during periods of freight-car shortage.

This is presented as something that would improve service by encouraging faster loading or unloading. The other side of the argument is that it might be an inducement for the railroads to maintain car shortages so as to let the special charges.

Another Proposal
Still another railroad proposal is to make rate contracts between government and the roads final. Apparent purpose of this is to make impossible government suits against the railroads for overcharges and reparation.

Several of these multi-million-dollar suits for alleged overcharging on hauling World War II cargoes still are pending.

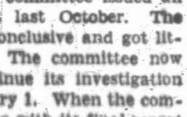

One bill in which the public interest alone seems to be at stake would give the Interstate Commerce Commission authority to order railroads to install new radio and electronic communication and safety devices.

If all these bills or none of them or only a few of them should be passed by Congress, it would not be the last word on U. S. transportation policy. Still running—since April, 1949—is a Senate Commerce transportation investigating subcommittee under Senator John W. Bricker of Ohio.

This committee was created by the 81st Congress to study all aspects of land and water transportation. But it also has taken considerable evidence on the commercial airlines. The committee's particular emphasis has been on the effect of government subsidies on transportation costs.

The Bricker committee issued an interim report last October. The report was inconclusive and got little attention. The committee now wants to continue its investigation till next January 1. When the committee comes up with its final report sometime in 1953, the whole transportation policy question may be opened up again.

The Peacock Path

THE STORY: Jim Orth, private detective, posing as a guest at Windover, knows that the killer of Ames Warburton failed in three other attempts to take human lives.

He hailed me. "How's Mrs. Dumont today?" he asked. Better, I told him. And added, "By the way, how did you happen to discover her?"

He dipped a sponge into a pail of inky water, squeezed it into a semblance of dryness, "I was just taking a walk, after my supper," he said finally. "Loading around, like. And I came across her. Honest, you could have knocked me over with a straw."

There was nothing specifically wrong with the statement. And yet, it seemed to me, Williamson kept his eyes averted and sponged the car more ardently than he had been doing when I'd first strolled up.

"You thought she was dead?" I asked. "I sure did. I never seen nobody look deader. So I didn't touch her or nothing. I just beat it up to the house and sent Manita for Mr. Cravath."

I said, conversationally: "She got a nasty crack on the back of her head. I've been trying to figure out what gave her that. Didn't see anything like a stick or a stone lying around out there, did you?"

He straightened up, looked me full in the eye then. "No, sir, I didn't see nothing. But it was kinda dark and . . . well, I was fustered all of a sudden. Didn't really think to look for anything, about that time."

THAT afternoon Dr. Dreeves came again. He went straight up to Dolly Dumont's room and a few minutes later Marney Cravath sought me out.

"Dreeves will let us talk to her for a few minutes," he announced. "Better come along."

It was a sobered and wan-looking Dolly who smiled at us feebly

DADDY RINGTAIL

Daddy Ringtail And Master Painter

Uncle Bunkum was having a little vacation there at Daddy Ringtail's monkey house. Mother Ringtail asked him please to help with a problem. It seemed that Mother

Ringtail was trying to have a flower-bed, down below on the ground between two trees. But, somehow, everyone who came along would try to jump across the flowers. Teh! Teh! Teh! Nobody ever got quite across. Everyone jumping would leave his footprints in the flower-bed. Oh, Mother Ringtail had asked them not to jump any more, but now it was sort of a game that everyone played. Everyone wanted to see just who would be first to jump across.

"Uncle Bunkum," said Mother Ringtail, "would you please paint a sign or something to stop their jumping?"
"That I will," said Uncle Bunkum. He laughed his cackly laugh. Indeed he would paint a sign that said: "DO NOT TRY TO JUMP ACROSS HERE." Why, Uncle Bunkum was a master painter. He said himself what a very fine painter he was. And then down he hurried to

By WESLEY DAVIS

the ground. He got there just in time to see the Huffen Puffen, the friendly wolf, come running to try to jump across the flowerbed.
"Stop!" shouted Uncle Bunkum, but the Huffen didn't stop at all. He jumped, but he didn't jump all the way across. Huge Huffen tracks

were left among the flowers, right where Huffen tracks should never be. Away ran the Huffen for fun, but he said he would be back soon.
"Humph!" said Uncle Bunkum to himself. And for a while he was busy with hammering and sawing and painting. Why, he had just finished painting the sign when the Huffen came running back to jump again. "Stop!" shouted Uncle Bunkum. "See the sign?"

"Oh, the Huffen saw the sign all right. The sign said: 'DO NOT TRY TO JUMP ACROSS HERE!' But the Huffen said he did not believe in signs, and so—Jump! That's what the Huffen tried to do, but oh! he shouldn't have done it.

Kerplaf! The Huffen had jumped against a fence where Uncle Bunkum had built it across the flower bed. The fence was painted so it wouldn't look like a fence at all, but next time—believe me—the Huffen will believe in signs that tell him not to do "this" or "that." Happy day! Yes indeed. Suspect Held As Witness Describes Nurse's Garroting

LOS ANGELES—(AP)—Police held William Klink, 37-year-old refrigerator repairman, on suspicion of murder Friday and said they had a witness who saw him strangle a nurse to death in a downtown hotel room.

The victim was identified as Mae E. Mathis, about 40, formerly of Dragerton, Utah. She was a special duty nurse, on call by various hospitals.

Jordan Jones of Sacramento, Calif., told Lt. Bob Reed of the homicide detail: "I looked through my window and saw the couple enter their room. There was a brief period of love-making. Then, suddenly, the man looped a belt around her neck and began dragging her around the floor."

"He kept pulling the belt tighter, then started going through her handbag and clothes, hauling the body around as he did so. When he needed both hands he would take the belt in his teeth, still holding it taut."

Jones said that for a time he was dazed and unbelieving, then he telephoned the clerk, who notified police. Officers said the man still held the belt in his hands when they broke into the room.

A fire department rescue squad tried to revive the woman and a doctor gave her adrenalin injections, then pronounced her dead.

Lieutenant Reed said Klink told him he met the woman in a bar. The couple registered at the hotel about two hours before she was found dead.

Klink refused to give his address and insisted there was a quarrel because she attempted to take his money.

NATO POST GOES BEGGING

LONDON—(AP)—That NATO job still is open.

The North Atlantic Council's deputies announced Thursday night Dutch Foreign Minister D. U. Sikkink had turned down their bid to the post of secretary general created at the council's Lisbon meeting.

Canadian External Affairs Minister Lester Pearson and Sir Oliver Franks, Britain's ambassador to the United States, already had declined to head NATO's unified civilian organization.

The deputies meet again next Tuesday to survey other prospects.

U. S. Lists 401,628 Non-Battle Casualties

WASHINGTON—(AP)—U. S. forces in Korea suffered 401,628 non-battle casualties since the start of the fighting to late Jan. 1, says Secretary of Defense Lovett.

Most of them—378,814—have been returned to duty, he added.

The figures were provided Thursday to Senator Knowland (R-Calif.), who had accused Lovett and the Pentagon of giving Congress "a complete runaround" on requests for such information.

Lovett said the figures included all military personnel excused from duty for everything from a simple headache to a major operation.

He added that this included 9,900 cases of cold injury such as frostbite. Lovett said such injuries decreased from 7,500 in 1950 to 700 last winter.

Teen-Age Slayer Ruled Delinquent

SMITHTOWN, N. Y.—(AP)—A 13-year-old boy accused of killing a girl classmate has been turned over the Children's Court and a first degree murder charge has been withdrawn.

Suffolk County District Attorney Lindsey R. Henry replaced the charge with juvenile delinquency and turned the case over to County Judge D. Ormonde Ritchie Thursday.

Harold Lorentson, an honor student in junior high school, is charged with strangling Lyde Kitcher last November 29. When the 13-year-old girl fought off his advances. Authorities said he admitted it.

Under state law, children are treated as delinquents in criminal cases. If convicted, the boy would be sent to the State Agricultural and Industrial School for boys under 18. His term would depend on the judge.

Contest Looms Over Custody Of Slayer

DALLAS—(AP)—Dallas and Fort Worth may have a slight feud over Robert Hugh Barber, now in a Fort Worth jail awaiting trial for murder in the slaying of a Port Worth detective.

The district attorney's office Thursday set March 17 as the date for the trial of the ex-convict for a \$15,000 safe robbery.

Fort Worth officials aren't expected to release their hold on Barber until the murder charge is disposed of.

Detective Henry Cleveland was shot to death while trying to arrest Barber for the robbery.

Police Captain Dies Of Air Crash Injuries

DALLAS—(AP)—L. M. McKinney, police traffic captain here, died Thursday after his plane crashed near White Rock Airport.

McKinney was injured fatally when his single-engine Cessna hit a guy wire on a utility pole as he came in for a landing. He died two hours after the 9:44 p.m. crash.

TRAINING CAMP NEWS—

Cubans Finally Show; Berra Of Yanks Overweight

PASADENA, CALIF.—(P)—The Cuban problem was under control Friday and everyone in the Chicago White Sox camp calmed down.

The long overdue Minnie and his two playing friends from Havana finally reached camp.

Minnie is Orestes Minoso, the hard hitting outfielder and a prize rookie in the American League last season.

His friends are third base candidate Hector Antonio Rodriguez and Shortstop Willy Guillermo Miranda.

Rodriguez, voted the finest rookie in the International League with Montreal last year, is the No. 1 hope to plug up the Sox infield.

Miranda hit a breath-taking 444 last Spring with Washington in the seven games he played and then was sent down to Chattanooga.

The three were only six days late reaching Pasadena. The fact that fun-loving Minnie was chaperoning the adventures from the Caribbean had little or nothing to do with the long voyage.

The White Sox publicity director, Eduardo Short (no Latin, he) thought enough of their arrival to hold a formal press conference, part of it devoted to the exact way to spell Hector's correct name.

Luis Aloma, the club's best relief pitcher, interpreter and baseball ambassador to Latin-America, acted as middleman for Hector.

Minnie proved a big booster for Hector. "He fast," said Minnie, ignoring the point that the man is 31 and is looking at a major league chance for the first time.

"Good arm? Minnie cut in. "Good arm. "Trow straight. Trow down. Trow up. Trow anyway." He meant Hector can throw from any position.

As a clincher, he added, "He trow like Chico." Chico, of course, is Carrasquel, the shortstopper artist from Venezuela.

If Hector Antonio comes through, Manager Paul Richards can relax his infield worries, what with Eddie Robinson at first, Nelson Fox at second and Chico at short.

Rodriguez, who resembles footballer Buddy Young or Sugar Ray Robinson in appearance and medium build, has been playing ball since he was a kid in Alvarado, 50 miles from Havana.

He started semi-pro ball in 1942, and became a pro in 1943. He has divided his time between leagues in Cuba, Venezuela and Mexico. Aloma verified the fact he has consistently hit 300 or better over the years.

Both Washington and Brooklyn wanted him. How much longer does he expect to play? Minnie provided a quick answer. "Long as he can move," said Minnie.

ST. PETERSBURG.—(P)—Catcher Yogi Berra of the New York Yankees insists he's in shape although he tips the scales at 196, about 10 above his playing weight.

Berra, named the Yanks' cleanup hitter Thursday, believes he will shed the excess weight but Manager Casey Stengel is going to use Yogi in most of the exhibition games to bring down the weight.

PHOENIX, ARIZ.—(P)—Second string catcher Sal Yvars of the New York-Giants is having a tough time.

Yvars has a blood clot in his right shoulder, as a result of being struck by a foul ball. The previous day he was struck on the head by a swinging bat.

SARASOTA, FLA.—(P)—To get sluggers Ted Williams and Junior Stephens up to plate more often, Manager Lou Boudreau is moving them higher in the Boston Red Sox' batting order.

"My idea," says Boudreau, "is to try to get both Ted and Stephens at bat five or six times in every game. In that fifth or sixth time one or both might hit a home run."

Williams moved from third to second and Stephens from the fourth "cleanup" slot to third with Walt Dropo fourth. Second Base- man Johnny Pesky will lead off, with Clyde Volmer fifth.

LAKELAND, FLA.—(P)—The sparkling play of two rookies had

Field Moves Out In Big Border Meet

LAREDO.—(P)—The bulk of a field of 941 athletes moved out Friday in opening events of the twentieth Border Olympics. The big track and field meet—first major outdoor carnival of the year—reaches a smashing climax Saturday night when the blue ribbon university class threatens records right and left, fights it out.

The junior colleges, of which there are 10, and the high schools, entering 32 teams, go through trials Friday. The university and college classes, with nine and 14 teams respectively, hold their preliminaries Saturday morning.

Most of the new records look in the field events of the university and college divisions with Hugh Darrow Hooper of Texas A&M the man of the moment. A shot putter who last year did 54 feet 7 1/2 inches, the Border Olympics record of 51 feet 10 1/2 inches would appear child's play for Hooper. He also has, bettered 190 feet with the discus and might erase the record of 185 feet 10 1/2 inches.

Two fellows built like greyhounds will be after the overall high jump mark of 6 feet 7 1/4 inches—a record that has stood since 1943. One is Charles Holding of East Texas State, who leaped 6 feet 9 3/4 inches in 1951, and the other is Walt Davis of Texas A&M, who soared 6 feet 9 inches.

In the running events, Val Joe Walker of Southern Methodist might beat the 130-yard high hurdles record of 14.3, and the University of Texas sprint relay team will be hot after the record of 42.1. It already has done under 42 seconds.

Entered in the university class are Texas A&M, the defending champion favored to repeat; Baylor, Texas, Oklahoma A&M, Louisiana State, University of Houston, Rice, Southern Methodist and Texas Christian.

North Texas State is picked to win the college division title. Other teams entered are Sul Ross, Abilene Christian, East Texas State, Hardin-Simmons, Howard Payne, McMurry, Southwest Texas State, Stephen F. Austin, Texas Tech, Texas Western, Trinity, Southwestern and Texas A&I.

Victoria is expected to repeat in the junior college class and Odessa in the high school division.

A golf tournament drawing seven schools also started Friday. It will be a 36-hole medal affair running through Saturday, North Texas State, Stephen F. Austin, Trinity, University of Houston, Hardin-Simmons and Baylor have players entered.

Little Leaguers Get Additional Workouts

Additional workouts for Little League hopefuls are slated on the various diamonds in Midland Saturday.

At 9 a.m., boys from South Elementary in the third and fourth grades will drill at the South Side Field, Carter and Johnson Streets.

Fifth grade students of West Elementary—and bus students who live South of Hiway 80 but who attend schools other than West Elementary—will work at 2 p.m. Saturday on the Borden field.

East of Memorial Stadium, North side residents who attend West and Sam Houston Schools will drill at 9 a.m. David Crockett, North Elementary, De Zavala, St. Ann's and Cowden Junior High boys residing North of Hiway 80—who have not had tryouts this year—will report to the same diamond at 2 p.m.

DETROIT.—(P)—Detroit Tigers veterans hustling Friday.

That was the result of the first intra-squad game Thursday in which young John Phillips at third and Alex Garbowski at shortstop batted home runs and starred in fielding.

Gerry Priddy, second baseman who ended his holdout struck out swinging as a pinch hitter. Outfielder Hoy Evers, slump-ridden last year, homered over the left field wall.

MESA, ARIZ.—(P)—Rookie Catcher Harry Chitt of the Chicago Cubs reports Friday to the Phoenix draft board for a pre-induction physical examination.

PASADENA, CALIF.—(P)—Manager Paul Richards of the Chicago White Sox has tapped three pitchers for service in the Sox' first exhibition game of the Spring training season Saturday.

Ken Holcombe, Skinny Brown and Marv Grissom will handle the mound chores in the grapefruit opener with the Chicago Cubs.

TUCSON, ARIZ.—(P)—Maybe Cleveland Manager Al Lopez was a little hasty in saying Outfielder Harry Simpson was looking bad.

Just a day after he said that, Simpson collected four hits in six trips to the plate—off the Indians' top pitchers, Lou Briesle and Steve Gromek. He got a double, two singles and a safe bank.

"I can't feel that our fellows meant to go quite that far. If there's anything we don't want to do right now it's to cut ourselves off from the big leagues. We want the Giants back out there next year and every year, and we told Horace so. The announcement, among other things, was poorly worded."

Laws and Wrigley have asked their fellow club owners to give League President Clarence Rowland authority to meet with the heads of the six major league teams which train out this way at Los Angeles on March 15 and to straighten things out to everyone's satisfaction. That is the meeting at which the big leaguers annually arrange their

IN HARNESS—Wes Westrum and Sal Yvars who handle the backstopping for the New York Giants, fasten on their shin guards and prepare to go to work at the defending National League champions' Phoenix, Ariz., Spring training camp. (NEA)

If you missed the Giant-Dodger playoff and the World Series last season, you can see them anyway Saturday—and for free.

The Eagles organization here will screen the films starting at 10:45 a.m. Saturday in the Eagle lodge. It's for the benefit of Little Leaguers and Shorthorn Leaguers, but the public is invited.

Melvin Haney, the portly Midlander who rarely misses a sporting event, may have to miss some now. Haney is in the veteran's hospital at Big Spring, awaiting an operation, and may be there for some time.

He's invited his Midland friends to visit with him in the afternoons from 2 to 4 p.m.

Coach Tugboat Jones was to send his MHS gridders into a game-condition scrimmage at 3:30 p.m. Friday in Memorial Stadium.

The Midland mentor said his squad isn't weakened to a great extent by the loss of 15 boys who were shuffled back to the classroom to make up unsatisfactory grades.

The annual Comanche Relays will be unreeled at Fort Stockton Saturday. Teams entering the track and field meet include Kermit, Marfa, Fort Davis, Big Lake, Odessa, B. Monahans, McCombs, Sonora, Imperil, Pecos, Andrews, Pyote, Sanderson, Grandfalls, Iraan, Denver City, Seminole, Crane and Ozona.

The state TAAF basketball tournament in Odessa now is under way with 22 teams entered.

Midland's Rotary Engineers were to play at 1:30 p.m. Friday against the Brownfield-Waco winner. The tourney concludes Saturday night.

Coulter To Retire From Pro Football DALLAS.—(P)—DeWitt (Tex) Coulter, tackle for the New York professional Giants, Thursday announced plans to retire from football.

The 6-foot, 5-inch, 260-pound Giant said he wanted to be closer to his family than the pro grid sport allowed.

Coulter is a sports writer and probably will enter that field. He worked for a time on the Dallas Times-Herald.

John Marshall, one of the stars on the Yale swimming team, was a member of the Australian Olympic swim squad in 1948.

Only five players in the American League batted in 100 or more runs during the '51 season. Eleven players turned the trick in 1950.

ST. AUGUSTINE, FLA.—(P)—Mary Lena Faulk, defending champion from Thomastown, Ga., and Polly Riley, two-time winner from Fort Worth, Texas, met Friday in the semi-finals of the Florida East Coast Women's Golf Tournament.

Barbara Romack, 18, Sacramento, Calif., who won the South Atlantic Tournament a week ago, tangled with Bea McWane, Birmingham, Ala., in the other semi-final.

Class AAAA favorite Berger faces a tough Waco five in the final game Friday night. Berger, loser but once this season, finished third last year after losing a narrow one-point verdict to Austin in the semifinal round.

Waco (24-8) returns to the tournament after a year's absence. It will be the eleventh time Waco has played in the annual tourney.

Ship, Plane Hunt Drifting Islanders HONOLULU.—(P)—A Coast Guard plane refueled Thursday night at Canton Island and resumed search Friday for five Gilbert Islanders adrift in a whaleboat 1,000 miles south of Hawaii.

The plane covered 1,400 square miles around Washington Island Thursday without sighting the powerless craft. The Coast Guard Cutter Newell was expected to reach the area late Friday night. Radioed reports from Fanning Island said a 23-mile wind carried the whale boat out to sea late Tuesday while the Gilbertese were fishing.

Schoolboys Go Into More Cage Action

AUSTIN.—(P)—Laneville and Big Sandy were favored to advance into the Class B finals of the state schoolboy basketball tournament Friday.

Laneville met the Slidell Greyhounds at 8:45 a.m. in the opening game of the second day of the giant tourney.

The tall Laneville quint beat a good Samnorwood five, 54-47, in first round play, while Slidell was walloping Balmorhea, 44-19.

Big Sandy, pre-tournament favorite, faced a smooth-working Hempstead five in the second semifinal tilt at 10:10 a.m.

Hempstead had to stave off a last half rally to beat Woodsboro, 40-37, Thursday.

The sharp shooting Big Sandy five lost none of its luster in truncating Hawley, 61-35. Ranga Glenn Fields, the only returning all-tournament performer of last year, led their scoring with 20 points.

Mighty Dimmitt met the Plano Wildcats in the Class A finals in the last clash of the morning.

Dimmitt won its thirty-fourth game without a defeat when it shelacked Sweeney, 65-44. With the best high school record in the state, the West Texans were odds-on favorites to win the Class A championship and enter the division II (Class A and AA) playoff.

Plano had to come from behind in the last 10 seconds to beat Lovelady, 40-38. Red Braden hit a lay-up to tie the count then Ronnie Dunn got a tip-in.

Loveland's Lobos and the defending Class A Champion Bowie Jackrabbits opened fire at 1:45 in the finals of Class AA.

Loveland got to the final round when it edged classy French of Beaumont in Thursday's first round, 44-40.

Little Harold Phelan paced the Lobos, hitting seven field goals and 12 free shots for 26 points. His free toss mark wiped out a tournament record of 10 set last year.

Bowie's Jackrabbits staged a final period comeback to beat Madisonville 49-41, and got into the final round with Loveland.

Temple Tucker, 6-8 Bowie string-bean, led the Jackrabbits scoring with 19 points. Joe Lindsey was high scorer for Madisonville and for the game with 20 points.

Division I (Class AAA and AAAA) got underway at 3:10 p.m. when Brownwood (15-7) squared off against Gladewater (19-11) in a Class AAA clash.

Brownwood marked its ninth appearance in the big tournament, while Gladewater is here for the first time.

In the other Class AAA tilt, Alamo Heights, San Antonio (30-4), went up against Bryan's Broncos (19-7). Alamo Heights finished second in the city conference division in 1951. Bryan made the tournament for the eighth time.

In Tuesday night Class AAAA begins play with Poly, Fort Worth, (26-4) going against Sam Houston, Houston (25-4). Poly eliminated previously undefeated Sunset of Dallas in bi-district play, while Sam Houston was ousting Port Arthur. Berger favored.

Class AAAA favorite Berger faces a tough Waco five in the final game Friday night. Berger, loser but once this season, finished third last year after losing a narrow one-point verdict to Austin in the semifinal round.

Waco (24-8) returns to the tournament after a year's absence. It will be the eleventh time Waco has played in the annual tourney.

Midland Indians Head For Spring Baseball Workouts

Headed for the Southland, a handful of Midland Indians will depart for Litcher, La., and Spring baseball training at 6:30 a.m. Saturday.

General Manager Horace Busby will head the group which will depart from Indian Park in the new club-owned bus.

Actual workouts are to begin Monday, with other Midland players coming in from various points around the country to join the group which will depart from here.

Pitcher Emil Ogden and Outfielder Rudy Escobar will depart with the club here, while Outfielder Hayden White and Pitcher Bill Reed are to catch the bus in Fort Worth.

Two newcomers also will make the trip to Spring training. Busby said Friday. He named them as Bob Gordon, rookie shortstop, and Roxie Humberston, veteran outfielder with six years pro experience.

All-State Gordon in 1950 was an all-state semi-pro player in New Mexico and battled over 400. He is 22 years old, 5 feet, 7 inches tall and weighs 155 pounds. He formerly was owned by the St. Louis Cardinals but quit pro baseball after a brief two-week tryout.

Humberston, 26 years of age, is an inch over six feet tall and weighs 180 pounds. In six years of pro ball, he never has hit under 300. Last season he was with Tampa City, Fla.

Also expected to be on hand for the workouts in Louisiana Monday are the following boys: Catchers Gordon Tanner and Sam McKenzie; Pitchers Israel Ten, Dave Kengle, Keith Nichols and Enrique Gonzales; First Baseman Dick Werts; Second Baseman Bill Crumley; Shortstop Robert Dubiano; Third basemen Julio de la Torre and Woody Pennington; Outfielders Stan Wilcox; Catcher Bill Brown and Pitcher Bob Tanner.

Manager Zeke Bonura may have others on hand, he has informed officials here. Bruce (Gabby) Blumenthal, another Midland pitcher who stayed here after last season, has been given a five-day leave of absence. He will report to Litcher March 15.

tournaments indefinitely. Clayton Heafner, Charlotte, N. C.; Al Beselink, Chicago and Skeel Riegel, Tulsa, Okla., had come in ahead of him over a dry course with 66's.

Burke, 29, won the Texas Open, Houston Open and Baton Rouge Open in succession. He leads this year's money winners with \$6,720.

ST. PETERSBURG, FLA.—(P)—The market man of the Winter golf circuit, Jack Burke Jr., Houston, Texas, showed no signs Friday of wilting under the pressure applied by his fellow professionals.

Jack, winner of three straight tournaments and the top money-maker of the 1952 season, definitely is the man to beat in the \$10,000 St. Petersburg Open.

The Texan was right up there in the lead again, dedlocked with three other pros, at the bulky field of 151 tee off for Friday's second round. They joined him Thursday in shooting sizzling rounds of 66, six under par.

The way Burke earned his first place tie as he finished in a drizzling rain indicates the guy, instead of weakening from the red hot pace, intends to go on winning

By GAYLE TALBOT PHOENIX, ARIZ.—(P)—Well, it turns out the Coast League doesn't want to fight quite that bad—or at least not that soon. Some of its members are able to recognize an overmatch when they see it. Less than 24 hours after Horace Stoneham balled his fists about the Coasters' new rule barring Spring games between big league clubs in their parks, the president of the Giants has been assured earnestly by a pair of men who are high in the saddle that it was all a mistake and that it will be rectified hurriedly.

Permian Basin Oil And Gas Log-

(Continued From Page One) The fracturing had been swabbed and flowed out the well made a total of 53 barrels of new oil in 23 hours, flowing through open two-inch tubing.

After that period the flowing continued by heads. Operators were to test for a time longer on the perforations at 6,032-42 feet and was then planning set a retainer above 6,032 feet and then perforate and test in two higher sections in the Spraberry.

East of Seven D This prospector is 25 miles northeast of Big Lake and three and one-half miles east of the closest completed Spraberry oil wells in the Seven D area.

It is 600 feet from south and 930 feet from west lines of section 77, block 2, T&P survey. The wildcat is on acreage secured by Southwest Natural and Glasscock in a farm-out deal with the Pure Oil Company.

Potential Test For Wildcat At Stanton Has Been Reported

Ryan Consolidated Petroleum Corporation of Dallas has completed its No. 1 Willie Peters, Southeast Martin County wildcat as a small pumping producer from the Spraberry.

This project has been in process of completion for several months. Operator reported to the Railroad Commission of Texas that it pumped 8.25 barrels of 36.8 gravity oil plus one per cent formation water on the official potential test.

From Open Hole The production was from open hole in the Spraberry between the bottom of the 5 1/2-inch casing, which is cemented at 7,939 feet, and the total depth at 7,167 feet.

That section had been fractured and it had also been shot with 224 quarts of nitro glycerin.

One Mile North of Stanton Location is 600 feet from north and east lines of section 11, block 26, T-1-S, T&P survey. It is one mile north of the town of Stanton. This wildcat has been credited with having pumped as much as 40 barrels of oil per day, plus some water, on preliminary tests. Those reports were not officially verified.

Lion Oil Completes Reagan Oiler In Undeveloped Area

Lion Oil Company No. 16 Ruby Wright has been completed as a Spraberry producer in an undeveloped area of the Aldwell field of Northwest Reagan County.

It was finished for a daily flowing potential of 114 barrels 40.5 gravity oil through open two-inch tubing and from open hole at 7,633-7,665 feet.

Gas-oil ratio was 420-1 and tubing pressure was 75 pounds. Location is 660 feet from south and east lines of section 21, block C, L&SV survey.

That puts it three-quarters of one mile south of the closest producer to the north and one and one-half miles north of a recently completed two and one-half mile south extension to the field.

Fogelson Stakes Spraberry Test In NW Reagan

E. E. Fogelson and others of Dallas will drill an 8,000-foot lower Spraberry prospector two and three-quarters miles southeast of the Aldwell field of Northwest Reagan County.

Location was staked 660 feet from north and east lines of section 42, block B, L&SV survey.

The new test is Fogelson, and others No. 13-42 O. F. Boyd.

Alamo Attempts To Extend Garza Field

Alamo Corporation of Lubbock No. 1 W. A. Cash is to be an exploratory project on the outside of the proven area on the northwest side of the Garza-San Andres field in Central Garza County.

It is 330 feet from south and east lines of section 1216, TIRR survey. That makes it one-half of a mile west and one-quarter of a mile north of a recently completed step-out from production in the field which was drilled by the same concern.

LITTLE MAN HAS BUSY DAY

ELYRA, OHIO—(AP)—Pearl J. Smith got married, jailed and hauled—all in the same day by the same man.

Smith paid Justice of the Peace C. C. Lord, 96, his last \$3 to perform a wedding ceremony. Then Lord remembered Smith was wanted on a paternity charge filed by one June Baber, who was not the bride.

Lord had him arrested, arranged his bail and paid a \$1 fee for it because he felt Smith should not spend the first day of his honeymoon in jail.

Louisiana Demos Replace Governor As Committeeman

BATON ROUGE, LA.—(AP)—Gov. Earl Long was kicked out Thursday as Louisiana's national Democratic committeeman and replaced with an outspoken critic of President Truman.

It was the second political setback in 16 days for the governor, whose brother, the late U. S. Senator Huey P. Long, once ruled Louisiana with an iron hand.

Ousted with Long was Mary Evelyn Dickerson, the national committeewoman. Elected to replace them were Attorney Frank Ellis, New Orleans, and Mrs. A. E. Campbell, Homer, national president of the American Legion Auxiliary.

Whether the National Democratic Committee, dominated by President Truman, will recognize the replacement is not known.

A spokesman for the national committee said in Washington the committee probably would have nothing to say about the matter until Louisiana's representatives present their credentials at the July nominating convention.

Arrests Smash Shoplifting Ring

SAN ANTONIO—(AP)—An international shoplifting ring operating in the city during the last two days was broken up Thursday night by city detectives with the arrest of six women and one man from Mexico.

Seven suitcases containing approximately \$2,000 worth of women's clothing were seized. Detectives said \$1,000 worth came from one large department store.

It is believed the merchandise was being stolen for resale during the Easter season in Mexico.

ADMITTED TO HOSPITAL

Jerry William, 1306 West Collins Street, was admitted to Western Clinic-Hospital Thursday as a medical patient.

Connally Caravan Is America Bound

HONOLULU—(AP)—A delegation of Americans consisting of one Caucasian, one Hawaiian and one Japanese—all war veterans—and a Hawaiian Gold Star mother leaves Friday night to challenge Senator Tom Connally (D-Texas) on his remarks about the Americanism of Hawaii.

Connally, in a Senate speech Monday opposing immediate consideration of the Hawaii statehood bill, said he was a better American than many persons living in Hawaii.

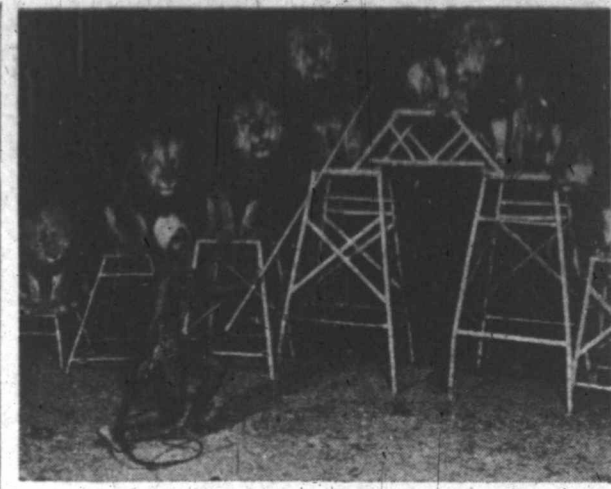

Many of the people living there, he added, "are not of American descent."

Hawaii bristled, fired a barrage of protests and poured dimes and dollars into a fund to send a delegation to Texas and Washington.

Adding fuel to the fire was the fact that during World War II Hawaii's 442nd Regiment rescued trapped elements of Texas' own 36th Division in Italy.

The 442nd suffered more casualties in the rescue than the number of trapped Texans and came out of the war the most decorated American outfit.

The delegation plans a stopover in Dallas and is due in Washington Sunday morning. It includes: Former Lt. Col. James K. Lovell, who commanded the 100th Infantry Battalion and fought in Italy and France; Matsui Takabuki, president of the 442nd Club, who fought in Italy and France as a sergeant; Daniel K. Meheula, a twice-

Technical Testimony Slows Martin County Water Trial

AUSTIN—(AP)—Technical testimony appeared likely Friday to run the rest of the week and possibly longer in the 126th District Court battle over Martin County water control.

Attorneys for both sides indicated they still have more geologists and hydraulic engineers to be heard.

RED CROSS LEADER—Woody Campbell is directing the Red Cross finance campaign at Terminal. The Midland County drive opened Monday and is in full-swing throughout the city and county. The goal is \$16,000.

One hydrologist, William F. Guyton of Austin, spent the entire day Thursday poring over maps and logs in answer to attorneys' questions.

Judge Jack Roberts said he would continue sessions this week through noon Saturday.

The Colorado River Municipal Water District seeks a permanent injunction to invalidate the Martin County Water Conservation District, contending the Board of Water Engineers authorized creation of the Martin County District without sufficient evidence to define boundaries of the underlying water field.

The Martin County District was created March 20, 1951. It subsequently set up regulations sharply curtailing use of its wells to supply water to Odessa and Big Spring under the two cities' contracts with the Colorado River District.

Death Of Wealthy Oil Man Ruled Due To Natural Causes

Justice of the Peace L. C. Stephenson said Thursday afternoon the death of W. McKinley Harris, wealthy Oklahoma City oil man and attorney in a hotel here earlier in the day was "due to natural causes."

Stephenson formally returned that verdict after talking to R. L. Harris, Oklahoma City physician and brother of the 49-year-old victim.

"I have treated my brother for several heart attacks," said Dr. Harris, who arrived here at noon Thursday, "and expected one of them to get him one of these days."

Dr. Harris attributed death to a coronary occlusion.

"There is no doubt in my mind," he said, "that my brother's death was from natural causes."

Harris died early Thursday in his room at the Hotel Scharbauer, in the presence of his wife, Neva, and two friends.

Officers were puzzled by the swollen condition of his body and Stephenson had ordered an autopsy to determine the cause of death. This order was cancelled after he talked to Dr. Harris.

Harris' body was forwarded Thursday afternoon to Oklahoma City.

REPORTED POLIO DEATH TURNS OUT TO BE BABIES

DALLAS—(AP)—A death first reported here as polio has been established by autopsy as rabies, County Health Officer J. M. Pickard said Thursday.

The victim, Cole Burk, nine, died January 8.

Painful cramps of "Monthly Periods" stopped or amazingly relieved in 3 out of 4 cases in doctors' own tests! Women and girls who suffer from those functionally-caused cramps, backaches and headaches of menstruation—who feel upset and irritable on certain "particular days"—may often be suffering quite unnecessarily! Such is the conclusion from tests by doctors in which Lydia Pinkham's Vegetable Compound gave complete or striking relief from such distress in 3 out of 4 of the cases tested! Testimonial evidence shows Lydia Pinkham's thoroughly modern in action. It gives a remarkably speedy relief on the uterus—without the use of pain-killing drugs! The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. You have about your own knowledge what it may do for you! Take Lydia Pinkham's through the month. See if you don't get the same relief from the pains and weakness of "those days" as if you don't feel better before and during your period. Get either Lydia Pinkham's Compound, or new, improved Tablets, with added iron. If you're troubled with "hot flashes" and other functional distress of "change of life" you'll find Lydia Pinkham's wonderful for this, too! Lydia Pinkham's has a guarantee effect on the uterine contractions (see chart) which often cause menstrual pain!
