CSOC To Explore Ellenburger Zone In NE Schleicher

Cities Service Oil Company is to start drilling in the near future at its No. 1 Luke Robinson which is contracted to drill to 6,500 feet or a test of the Ellenburger at a lesser depth, in Northeast Schleicher County.

The prospector is to be 14 miles northeast of Eldorado and eight miles southeast of the Hilldale-Pennsylvanian field.

Location Selected
The drillsite is slated to be at the center of the northeast quarter of the northwest quarter of section 67, block 1, GH&SA survey.

It is on a block of 16 sections of leases which Cities Service owns in that region. Magnolia Petroleum Company, Sun Oil Company and American Republics Corporation also have leases in that area.

Stanolind To Drill Schleicher Project Through Hickory

Stanolind Oil & Gas Company No. 1 August West, Central Schleicher County wildcat, one mile west of Eldorado is to drill through the Ellenburger and go on down and penetrate the full thickness of Hickory sand of the pre-Ordovician series.

The exploration is now making hole below 7,235 feet in barren Ellenburger. That formation was entered at 7,145 feet. Elevation is 2,461 feet. Down to 7,235 feet no shows of oil or gas and no fluid of any sort has been found in the project. It was barren in the Pennsylvanian formations and in all zones above that horizon.

Location is 660 feet from east and 380 feet from north lines of section 79, block A, HE&WT survey.

Pennsylvanian Oil Is Recovered From Schleicher Wildcat

Clean oil from a Pennsylvanian sand was recovered from Delta Gulf Drilling Company No. 1 Blair M. Boyd, wildcat in Northeast Schleicher County.

The drillstem test on which the oil was made, was taken in the interval for 4,420 to 4,433 feet. Tool was open two hours. There was a strong blow of air as soon as the tool was opened, with gas surfacing in 55 minutes.

Recovery was 810 feet of clean oil and 220 feet of heavily oil and gas-cut mud. Open flowing bottom-hole pressure ranged from 625 pounds up to 750 pounds.

Operator was to core 10 feet deeper and take another drillstem test.

Location is at the center of the northeast quarter of the northwest quarter of section 9, block H, GH&SA Survey.

Humble Prospector In C-E Coke Is To Drill To 6,000 Feet

Humble Oil & Refining Company No. 1 M. A. Rawlings is to be a 6,000-foot wildcat in Central-East Coke County.

Location is 660 feet from south and east lines of section 397, block 1-A, H&TC survey. That put it three miles north of the town of Bronie.

The 6,000-foot destination is calculated to take the prospector into the Ellenburger.

Drilling is due to be started in the near future.

Superior Gauges Mississippian Oil From Borden Test

The Superior Oil Company swabbed 238.53 barrels of oil from Mississippian open hole in its No. 6-597 C. D. Jones, discovery from that formation in extreme Northeast Borden County.

The above oil was swabbed in 23 hours and was cut with 2.3 per cent water and 3.1 per cent basic sediment. The gauge was after a 4,000-foot fracture treatment. After that treatment hole was loaded with 47 barrels of oil.

Operator was continuing to swab the open hole section from 7,961 to 7,990 feet.

Location is 1,980 feet from north and 2,230 feet from west line of (Continued on Page 12)

New Hampshire Voters Choose Ike, Kefauver

Wind Whips Sand Over West Texas

Sand, whipped by gusts of wind up to 40 miles an hour, moved across the Midland sector Wednesday morning on the wings of a cold front. Wind warnings from the Weather Bureau had been received at the Midland Air Terminal with delays expected in commercial airline schedules.

Visibility was decreasing here at noon. The cold front was bulging an arc west of Del Rio at one end and Wichita Falls at the other. Abilene reported visibility was one mile at 8:30 a.m. Big Spring, Amarillo and other Panhandle and West Texas points had similar conditions.

Senator Taft, on a campaign tour of Texas in his bid for the Republican presidential nomination, was unable to land at Amarillo because of high winds. He proceeded to Lubbock.

Visibility had been reduced to little more than a mile at 3:30 a.m. Wednesday in Midland. Wind velocity reached 40 miles an hour at that time, increasing from 27 mph between 4 and 5 p.m. Tuesday. Traffic traveled at a snail's pace in a blinding sandstorm late Tuesday.

Blow To Continue
CAA observers at the Midland Air Terminal expected the blow to continue into Wednesday night.

Visibility was down at San Antonio and Victoria Wednesday morning, but for another reason—fog. It grew so heavy at San Antonio early that visibility was half a mile at one time. Victoria reported four-mile visibility at one time.

El Paso had a deluge mixture of snow and dust at 1:30 a.m. But the snow stopped at 2:30, and the situation improved rapidly.

The cold front brought no rain. The long Texas drought—denied by rains earlier this week—was far from whipped.

Wednesday's high winds followed March turbulence Tuesday that sent dust high into the air at Midland, Big Spring, Wink, El Paso and Lubbock. The Weather Bureau indicated Wednesday's disturbance would be greater.

Warmer weather was in the forecast for Thursday, but there was no hint of rain or diminishing winds.

Pre-dawn temperatures in Texas included: Austin 56, Amarillo 43, Lubbock 45, El Paso 39, Big Spring 60, Dallas 54, Brownsville 67, Laredo 63, Houston 47, Tyler 52, Lufkin 50, Beaumont 49 and Texarkana 50.

Accused Slayer Freed Under Bond

Robert Marion Boykin, accused slayer of a Midland oilfield worker early Sunday in a Wall Street restaurant, was released Wednesday under \$5,000 bond.

Sheriff Ed Darnell said Boykin's wife, Ida, appeared at his office shortly after 8 a.m. with a bond signed by two Fort Worth men.

It was Ida who was standing only a few feet from Lelden Charles "Tree-top" Smith, when her husband walked into the Steak House at 605 West Wall Street and calmly fired four bullets into Smith's body.

Ida earlier told officers her husband was "insanely jealous" over reports of an affair between her and the oilfield worker.

Darnell said the \$5,000 bond was signed by Joe Shannon and W. T. Allen.

500 Railmen Defy Court's Work Order

CLEVELAND—(AP)—Defiant railroad workers at Toledo, Ohio, and Elkhart, Ind., refused to end their strike Wednesday, blocking New York Central main line traffic from Cleveland to Chicago.

At all others points, however, the strike appeared over.

In Toledo, 500 workers shouted out against union orders to return to their jobs and said they would form a new union of their own.

Pickets still were stationed at five places at the sprawling yards in Elkhart. The walkout there idled about 1,800 employees.

Workers at both points were to meet again Wednesday afternoon on the question of whether to end the strike.

Three brotherhoods—engineers, conductors and firemen—called off the strike Tuesday on orders from a federal court judge.

The strike was directed against New York Central Lines west of Buffalo and the St. Louis Terminal Lines.

The New York Central said that except for Elkhart and Toledo, virtually full crews were reporting at all points involved in the dispute (Continued on Page Six)

Sadler To Direct Taylor Health Unit

Dr. F. E. Sadler, who resigned under fire last month as director of the Midland City-County Health Unit, will leave this weekend to take over a similar post at Abilene.

His appointment as director of the Abilene-Taylor County Unit was approved Monday by the Taylor County Commissioners Court.

Dr. Sadler submitted his resignation after the City Council here asked that he be replaced by "a more aggressive leadership."

Big Spring and Howard County joined in Midland's request while Odessa and Ector County said they were satisfied with Dr. Sadler's services. He headed a tri-county health unit covering the three counties.

Dr. Sadler's resignation becomes effective Saturday and City Manager W. H. Oswald said there was no indication from Dr. George W. Cox who will be acting director.

There probably will be no permanent director named until the City Council takes formal action on a proposal to set up a health unit concerned exclusively with Midland County problems.

Fly Campaign Pushed
Dr. Cox informed the city several weeks ago that the cost would range from \$50,000 to \$90,000 with the state participating only to the extent of approximately \$1,000 a month.

Meanwhile a fly-control program is being pushed by Grover C. Taylor, city-employed health inspector, and sanitarians of the City-County Health Unit.

Oswald said the men are following closely the laying of a new sewer line into the Latin American and negro sections and are getting "very definite results" in getting new connections made.

Chemicals to be used in spraying trouble spots, where flies might breed, have been ordered, Oswald said.

Dr. Sadler was commended formally last week by Midland physicians who sent a letter to him expressing their appreciation "for the fine work you have done in Midland."

TRUMAN TAKES TWIN BEATING

SOUTHBRIDGE, MASS.—(AP)—President Truman not only lost in the New Hampshire primary but also lost out in this Central Massachusetts town.

Voters at the annual town meeting Tuesday night changed the name of Truman Avenue to Langlois Avenue.

Accused Hijacker In Midland Jail Slashes His Ankle

An accused hijacker was rushed to Western Clinic-Hospital Tuesday afternoon for emergency treatment after slashing an ankle in his cell in the Midland County Jail.

Deputy Sheriff Ed Edwards identified the man as Larry Jackson of Odessa, charged with armed robbery in the holdup in January of the Har-Wil Motor Courts office here.

Edwards said another prisoner saw Jackson slash his ankle and immediately summoned officers. Jackson was scheduled to be returned to the jail Wednesday.

Cleanup Man Fights Back

WASHINGTON—(AP)—Newbold Morris told Senator McCarthy (R-Wis) Wednesday, "You've knocked off a lot of characters but you're not going to knock off me."

Morris, the government cleanup man, was back for the second day before the Senate Investigations

Newbold Morris

subcommittee, which is digging into his role in deals in surplus government ships.

Morris flared up when McCarthy said oil shipments to Red China helped "sign the death warrants of American boys in Korea."

Tankers owned by United Tankers Corporation of New York carried oil to Communist China until about a month before the outbreak of the Korean war. Morris' law firm has been counsel for the shipping firm and the stock of the company is wholly owned by a charitable foundation headed by Morris.

McCarthy said he wanted to find out whether Morris had been "the greatest dupe of all time" or was really the operating head of an organization which made profits so "soaked in blood."

Morris told McCarthy: "Listen, my patriotism is at stake. You've said a lot of ugly things here."

Chairman Hoey (D-NC) told Morris he could make a detailed reply to McCarthy's statements.

Morris began by declaring "Senator, I've never been a dummy or a front for any organization."

There was much rowing between the witness and the senators, and Morris at one point pulled out a note he said his wife had given him to remind him to "keep your shirt on."

The propriety of the oil trade did not come up during that time.

U. S. Sabres Kayo Four More Red Jets

SEOUL, KOREA—(AP)—American Sabre jet pilots shot down four more Red jets Wednesday, for a total of 15 destroyed in three days.

Eleven other Russian type MIG-15 jets were damaged in the three days, the U. S. Fifth Air Force reported.

Four MIG's were destroyed and two damaged in a seven-minute battle Wednesday morning over North Korea between 20 F-86 Sabres and 17 Reds.

The Reds did not show in the afternoon.

Air battle completely overshadowed ground action for the third successive day.

The Fifth Air Force reported it had mounted 500 sorties by dusk, leaving North Korean rail lines twisted and broken in 94 new places.

Eisenhower, Kefauver Wins May Alter Presidential Race

MANCHESTER, N. H.—(AP)—Gen. Dwight D. Eisenhower's primary sweep over Senator Taft (R-Ohio) and President Truman's upset defeat by Senator Kefauver (D-Tenn.) may alter the presidential race sharply.

The outcome of Tuesday's first 1952 GOP ballot test points to a bitter fight between Eisenhower and Taft forces at conventions in such states as Iowa and Michigan, climaxed by another head-on meeting of the two in the April 15 New Jersey primary.

It apparently has destroyed any chance Taft may have had for a quick nomination at the July Chicago convention, despite his lead in the national delegate race.

Kefauver's amazing sweep of the preferential (popularity) balloting and the eight-vote Democratic convention delegation could mean

Taft, Truman Go Down In Crushing Primary Defeat

MANCHESTER, N. H.—(AP)—General Eisenhower and Senator Estes Kefauver scored grand-slam victories in Tuesday's New Hampshire presidential primary, crushing Senator Robert A. Taft and President Truman and capturing every delegate race.

The results of the election, the nation's first primary, were stunning to both major parties.

Taft 'Little Disappointed' Over Beating

Eisenhower swamped Taft in the preferential vote, the "popularity contest," by 46,497 votes to the senator's 35,820. He took approximately 50 per cent of the total, and led Taft by more than twice as many ballots as his most sanguine admirers had expected.

Kefauver took on the Democratic machine in New Hampshire, apparently wrested away thousands of labor union votes, and emerged with a score of 20,147 against Truman's 16,298.

All of the state's 297 precincts had reported at 10 a.m. Eisenhower won all 14 Republican delegates.

Kefauver won all 12 Democratic delegates, who have eight convention votes.

In pre-election forecasts, Taft said the preferential vote would be close between him and Eisenhower. He called it "a horse race." As to delegates, the senator said he would be satisfied if four of his men won.

Complete unofficial tabulations in New Hampshire's presidential primaries:
Democratic—Kefauver 20,147; Truman 16,298; write-ins: Eisenhower 115; Farley 59; McCarthy 110; Dulles 1; Taft 35.

Republican—Eisenhower 46,497; Taft 35,820; Stassen 6,549; Schneider 218; write-ins: McCarthy 2,974; Warren 133; Bridges 16.

Kefauver modestly said only that he thought he had "made some friends." Many observers expected the state party organization to yield, at most, no more than 30 per cent of the total preference vote, and no delegates.

The total vote approximated 134,000 and exceeded the total in the 1948 primary by upwards of 50,000. Heavy rains, with snow at many points, apparently had little, if any, effect on the turnout.

In Frankfurt, Germany, Eisenhower said, when told the returns, "Any American who is honored by so many other Americans consider (Continued on Page Six)

Thanks, Folks, For Fine Cooperation

It was the spirit of friendly and helpful cooperation at its best—the return of hundreds of copies of the 1952 Petroleum Progress Edition to The Reporter-Telegram—and it is grateful to its friends for their interest and assistance in returning needed copies of the huge edition.

The Reporter-Telegram determined to fill all orders accepted for the 212-page edition, announced Monday it would pay \$1 for each complete copy brought to its office. The response was instantaneous, and by Tuesday evening, copies sufficient to meet the demand, which was much greater than had been anticipated, had been received.

Now, all orders for the Progress Edition have been filled and copies have been mailed and shipped as per instructions.

The Reporter-Telegram expresses sincere thanks and appreciation to all who provided copies of the Petroleum Progress Edition to meet an unprecedented demand. Thanks again and again!

Flames Destroy School Building

DALLAS—(AP)—Flames fanned by a 15-mile-an-hour wind destroyed the Mesquite High School building Wednesday, causing damage estimated at \$150,000.

Two newly-constructed wings and an auditorium at the rear of the one-story brick building were saved. The fire broke out about 7:25 a. m., shortly before classes were scheduled to start for hundreds of high school and junior high school pupils.

Supt. T. H. McDonald said the loss would run at least \$150,000. Both wings to the old building were damaged by smoke and water.

Accused Hijacker Slashes His Ankle

An accused hijacker was rushed to Western Clinic-Hospital Tuesday afternoon for emergency treatment after slashing an ankle in his cell in the Midland County Jail.

Deputy Sheriff Ed Edwards identified the man as Larry Jackson of Odessa, charged with armed robbery in the holdup in January of the Har-Wil Motor Courts office here.

Edwards said another prisoner saw Jackson slash his ankle and immediately summoned officers. Jackson was scheduled to be returned to the jail Wednesday.

DALLAS—(AP)—Secretary of Agriculture Brannan Wednesday charged that Allan B. Kline of Vinton, Iowa, president of the American Farm Bureau Federation, "has promised to deliver the farm vote to Taft."

Man-Made Moon Will Eliminate Iron Curtain, Says Young German Scientist

By HOWARD W. BLAKESLEE
Associated Press Science Editor
HUNTSVILLE, Ala.—(P)—There will be no Iron Curtain anywhere if the vision of the maker of the terrible V-2, German guided rocket that bombarded England from Holland, comes true.

The vision is a military space station, a tiny, man-made moon, 1,075 miles up, which each day will see every square mile of the earth's inhabited surface, and the people moving around as clearly as from an airplane at 5,000 feet.

The dreamer is Prof. Werner Von Braun, the youthful German genius who made the seemingly impossible V-2, and who now at 39 feels that the military satellite is possible. He lives here and is taking American citizenship papers.

The military satellite will circle the earth once every two hours, it will circle from north to south, at right angles to the earth's rotation.

Juke Box Campaign Wins Cold War Against Landlord

NEW YORK—(P)—The cold war between tenant Melvin A. Carter and landlord Clarence Cadogan has been settled. Carter won by attaching a thermostat in his fourth-floor Brooklyn apartment to a record player with a loudspeaker tuned down a dumbwaiter shaft.

It was fixed so that every time the heat dropped below 65 degrees the following recording blared down the shaft to Cadogan's apartment: "Mr. Cadogan, Under Section 225 of the Sanitary Code, a landlord who does not provide 65-degree heat when the outside temperature falls below 65 degrees is liable to a \$500 fine or a year in jail. The temperature in this apartment is now below 65 degrees."

Tuesday, Cadogan told Magistrate Paul Balsam that the recording "is driving me crazy." Carter said there would be no noise if there was heat. It was Carter's complaint that brought the landlord into court on a charge of providing insufficient heat.

The landlord promised to abide by the magistrate's order that there be heat.

Pentagon Secret Keepers Wince At Admiral's Talk Of Newest Guided Missile

WASHINGTON—(P)—The Pentagon's custodians of military secrets wince Wednesday as they read a Navy admiral's testimony before a congressional committee at a public hearing on a new and hitherto hush-hush guided missile.

A Navy spokesman, queried Wednesday about the testimony of Rear Adm. John B. Moss at a hearing of a Senate subcommittee on Small Business Tuesday, said Moss "was under the impression that he was in a closed session."

Therefore, the spokesman added to this reporter, "no disciplinary action will be taken" against the admiral, who is assistant chief for material and services in the Bureau of Aeronautics.

Boyer Gives Up 'Lover' Roles To Portray Teen-Ager's Dad

By ERSKINE JOHNSON
NEA Staff Correspondent
HOLLYWOOD—Behind The Screen: Charles Boyer has switched his romantic "Come with me to the Casbah" routine to "Come with me to the woodshed" as the father of a lovelick teen ager in Stanley Kramer's film version of the Broadway hit, "The Happy Time."

It's the third movie character role for Boyer since he gave up high-powered celluloid smooching with glamor babes, but just because he's out of circulation in the hand-kissing league he's not wagging his head in despair over Hollywood's current crop of swoon kings.

I asked him how he rated Tony Curtis, Monty Cliff, and Jeff Chandler and all the other sprouts and he grinned: "You know something—I think they're doing all right."

Glamor dolls like Rosalind Russell, Ruth Hussey and Betty Field have always snatched the Broadway stage roles created by Shirley Booth when "plays like 'My Sister Eileen,' 'Philadelphia Story' and 'Tomorrow The World' were brought to the screen.

Puzzled about Hollywood's brush-off? Not Shirley, who is the ex-wife of Ed Gardner and radio's original Miss Duffy. "Honey," she said, "I have a mirror. I know why Hollywood never wanted me."

But now it's Shirley finally making her film debut as the slattern looking for her lost youth in "Come Back, Little Sheba" for Hal Wallis and she's hailing the advent with: "The ancient marineress finally arrives in Hollywood, I always did like to eat a cake iced last. It's wonderful to play character roles. You don't have to be pretty and when you're mellow enough there's no competition."

Scripts Getting Better
Cornel Wilde's beaming over the new glitter on his career since "The Greatest Show on Earth" and his happy marriage to Jean Wallace, but he's scowling over printed reports that he was having trouble getting a job just before Cecil B. DeMille hired him for his sawdust epic.

"People in Hollywood have been exaggerating to make things more dramatic. I'd had a lot of offers before DeMille gave me the part. I just didn't like any of the scripts. But, brother, I'm sure getting better scripts now."

Working in "Condo's Nest" at Fox, Cornel told me about two hour-long sessions with DeMille before he was signed for the picture. "The first hour he mostly looked at me with gimlet eyes. The next hour he told me the plot. When he told me about that entrance, I really got excited."

Cornel's reaction to his high trapeze work in the film "I started working 25 feet off the ground with a net. The first couple of days my hands were wet and my knees were like jelly. Then I got used to it. I didn't even mind it when there was no room for the net in a couple of long shots."

Joan Crawford is sliding over the story that the Music Corporation of America struck a price tag of \$200,000, 50 per cent of the profits, on a deal for her to star in 26 TV films.

"It's untrue," said Joan, who's now queening it in "Sudden Fear," her first independent movie.

Governor Visits State Girls' School

GAINESVILLE—(P)—Gov. Allan Shivers paid a surprise visit to the State School for Girls Tuesday. He had no comment on his brief inspection.

Mrs. Maxine Burlingham, superintendent, was out of town and the assistant superintendent was off duty for hospitalization.

The governor visited the dormitories and talked to some of the girls, including one who is in confinement after being caught running away.

Mrs. Stewart's Bluing Is My Favorite—It Keeps Clothes White!

Says Mrs. Lenora Otter, 1140 Idlewild, Houston, Texas. "Mrs. Stewart's Bluing is the best I have ever used. It works so well in my automatic washer. My baby's clothes and especially the diapers are always bright and fresh looking."

Mrs. Stewart's Bluing is a laundry necessity for getting clothes really white. Add it so economical... less than a penny a wash! A bottle, too, in your bathroom keeps "hand-washables" sparkling.

Compare Mrs. Stewart's with any kind of bluing at any price. Like Mrs. Otter, you'll find it does the best job for the least cost! Buy it at your grocery store.

President Lauds Inter-Church Drive

NEW YORK—(P)—President Truman says the inter-church "One Great Hour of Sharing" campaign this month will bring "material well being and spiritual comfort to the distressed people of Korea, India, the Near East and Europe."

The President Tuesday sent a message expressing appreciation to the 21 denominations which are conducting the appeal through Church World Service, a part of the National Council of the Churches of Christ in the U. S. A.

Dr. Wynn C. Fairfield, executive director of Church World Service, said more than six million dollars is expected to be raised in the drive March 16 to 23.

Humble Unionists Snub Pay Hike Offer
BAYTOWN—(P)—A 34 per cent wage increase offered by Humble Oil & Refining Company at the Baytown Refinery was turned down yesterday by members of the Baytown Employees Federation.

Union President A. E. Oliphant said, "We'll sit pat" as more than 600 members of the independent union crowded the meeting hall.

The group is one of some 21 other unions which has joined the CIO Oil Workers International Union in asking a 25-cent hourly pay boost.

Matters of importance to members of the club will be discussed at the session, Ligon said. "Set" to a proofreader means "leave as is."

GI's In Korea Test Nylon Armored Vest

SEOUL, KOREA—(P)—American infantrymen in Korea are testing a lightweight armored vest that is all nylon. It weighs only seven or eight pounds about half the weight of metal alloy vests, the Army said Wednesday.

Last February, the Army tried nylon vests that contained protective inserts of lightweight metal. The latest vest is designed to protect against mortar, grenade and shell fragments. These normally account for 80 to 80 per cent of combat wounds.

Made of 12 layers of nylon, the vest is light and flexible. It has two breast pockets and straps for a cartridge belt. Lt. Col. Andrew A. Aines of College Park, Md., is in charge of the testing project—known as operation boar, a contraction of body armor.

Results of the Korean tests will not be announced until the Army is sure of them, Aines said. The vests were tested extensively in the United States. The nylon vest sometimes will stop a .45 caliber slug, but will not protect against high velocity rifle or machine gun fire, Aines said.

Missing Woman Professor Found
ROCK HILL, S. C.—(P)—A three-month search for Dr. Barbara Morehead, former South Dakota State College English professor, ended when she was located here Tuesday, safe and in good health.

The attractive, 39-year-old educator dropped from sight after checking out of a Marshall, Minn., hotel last December 8, the day after she disappeared from the college at Brookings, S. D. She explained her disappearance by saying, "I just wanted to get away to something different. I was very nervous and felt that I wasn't doing well with my teaching."

Dr. Morehead said she is undecided on her future plans. There are more than 50 mineral springs, with no two having the same analysis, around the Soda Springs area of southeastern Idaho.

Plant Leader Dies Of Burns

KERMIT—W. E. (Bill) Grimes, 36, of Jal, N. M., died in a Kermit hospital Tuesday from burns received in an explosion at the Jal plant of Halliburton Oil Well Cementing Company. He was superintendent of the plant.

A co-worker, James George, also of Jal, suffered third degree burns on his hands as he attempted to extinguish the flames which engulfed Grimes' body. George is in an El Paso hospital.

It is presumed that an accidental spark caused the explosion and set fire to Grimes' oil-soaked clothing. He received third degree burns over most of his body. George was burned when he rushed to Grimes, trying to tear off the burning clothes.

Funeral services for Grimes were held Tuesday in the Jal First Baptist Church Interment was in a Waco cemetery.

Texas Clamps Ban On New York Nursery Selling Poor Shrubs
AUSTIN—(P)—State Agriculture Commissioner John C. White has cancelled the importation certificate of a New York nursery and has warned Texas home owners to beware of slick-talking salesmen promoting poor-quality shrubs.

He announced Tuesday cancellation of the company's right to operate in Texas, and ordered the Newark, N. Y., nursery firm to cancel all orders to Texas purchasers that have not been delivered.

White said the company had been selling cheap nursery stock at outrageous prices in Texas, and his action followed investigation of complaints.

Varied Activities Continue As Scouts Celebrate Anniversary

Meetings of the Girl Scout troops have featured varied activities all week. The cookie sale and work on badges highlighted the meetings during the fortieth anniversary week celebration.

Madeline Greenfield was a visitor to Intermediate Troop 11 when the members worked on the scrapbook.

The girls in Intermediate Troop 45 gave reports and showed pictures on nature. Mrs. F. C. Countiss instructed the members on salesmanship. Songs were sung.

Frances Carroll, Peggy Mills and Mrs. Countiss were guests.

Brownie Troop 58 made cocoa and sandwiches. During the party, Mrs. L. E. Billingsley explained the cookie sale to the girls.

Officers were elected during the meeting of Intermediate Troop 19. A report on the cookie sale was given.

Mrs. E. J. Kendrick and Mrs. D. F. Johnson were guests of Brownie Troop 47. After playing games refreshments were served.

Story Is Told

A story was told to the members of Brownie Troop 48 concerning Scouting. Mrs. Bill Woods was a visitor.

A cook-out was planned by the members of Brownie Troop 66. It was announced that Linda West won the cookie sale contest in this

troop.

Vicki Anderson is the new president of Intermediate Troop 23. Sarah Pickett is vice president, Vina Mayfield, reporter; Mimi Green, first patrol leader, and Donna St. Clair, second patrol leader.

Badge work was done after the election of officers.

Intermediate Troop 33 played for-again shopping with newspaper costumes. It was planned to be able to participate in the Court of Awards to be held in April.

Intermediate Troop 2 dyed handkerchiefs and popped popcorn.

Dianne Wossan was a visitor of Brownie Troop 54. A report on the cookie sale was given.

Brownie Troop 50 toured The Reporter-Telegram office during their meeting. Mrs. William C. Madison, leader; Mrs. W. T. Moore, assistant leader; Mrs. W. B. Roberts, Mrs. H. Bristow and G. S. House, troop committee members, accompanied the girls.

Robert Bristow and Patricia Moore visited the troop.

Members present were Frances Carroll, Blanche Cooper, Margaret Jean Hawkins, Darlene Wells, Judy Sue Morgan, Judy Bristow, Shirley Jean Christy, Janice Rowlett, Ruthie Lucille Schneider, Cinderella Ann Madison, Patty Hall and Carolyn Moore.

JUNE BRIDE—Mr. and Mrs. G. W. Blanchard of Andrews announce the engagement and approaching marriage of their daughter, Wynona, to William George Blanton, son of Mr. and Mrs. B. F. Blanton. The wedding will take place June 1 in the Fullerton Baptist Church. Miss Blanchard is a student in Andrews High School. Blanton is attending Odessa College.

Midland Girl Scouts Observe Anniversary

Midland Girl Scouts, along with Scouts all over the world, will observe the fortieth anniversary of the Girl Scouts Wednesday.

Mary Ann Searles of Senior Troop 12 will be the announcer for a radio broadcast at 6:45 p.m. over KJBC.

On March 12, 1912, in Savannah, Ga., the first troop was organized by Juliette Low. Only four years

FOUNDER

Juliette Low, who founded the U. S. Girl Scout movement 40 years ago, organized the first troop on March 12, 1912, in Savannah, Ga.

later, the first established Girl Scout camp came into being. It was called Camp Bonnie Brae.

This camp still is operated in Springfield, Mass. Camping has had much to do with the swift growth and spread of Scouting.

The first Girl Scout Handbook, written by Mrs. Low, devoted a whole section to camping and the techniques of keeping house out-of-doors.

Gov. Allan Shivers has issued a proclamation declaring March as anniversary month for the Girl Scouts. Magazines, newspapers, railroads, banks and restaurants all are saluting Girl Scouts Wednesday.

Posters are being displayed and letters and notes of congratulations are being sent to Scout headquarters, nationally and locally.

The 1,700,000 Scouts are saluting Juliette Low. Here in Midland over 1,000 Scouts are studying the activities of the Scouts, nationally, internationally and locally during the meetings this week.

Brought From England

Mrs. Low brought the idea of Scouting to this country from England where she was associated with Lord Baden-Powell, who founded the Boy Scouts in 1908 and, with his sister, the Association of Girl Scouts in 1910.

One of the first Brownie groups organized in 1916 was the Bluebell Troop. Lord Baden-Powell named the young Scouts "Brownies" after the useful "little people" of Scotland and England's North country.

A commemorative stamp was issued in 1948 with a picture of Juliette Low on it. It is no longer available as the entire stock was sold out. Stamp collectors today cherish the one in the album as it is out of print.

This year the Girl Guides of Ireland will celebrate their fortieth anniversary along with the U. S. The Pakistan Scouts organization will be five years old and the Greek Girl Guides will be twenty.

Mrs. Roy F. Layton of Chevy Chase, Md., will begin her two-year term as national president of the organization during the celebration this month.

J. Edgar Hoover, director of the Federal Bureau of Investigation, said of the Girl Scouts "There are many of us who believe that a better world can be built only by the development of human beings."

"The Troop leaders, council and committee members and consultants who are selflessly devoting time and effort to a project as significant as the Girl Scout organization are to be commended. Here is a field in which the individual desiring to advance the best interests of the country can make a positive and valuable contribution."

More than 1,700,000 girls between the ages of seven and seventeen and their adult leaders are observing the 40th anniversary of Girl Scouting in the United States under the slogan "Girl Scouts—A Growing Force for Freedom."

Midland Music Club Members In 'Mikado'

"The Mikado," a light opera by Gilbert and Sullivan, will open at 8:30 p.m. Thursday in the City-County Auditorium. Performances will be given through Tuesday night.

The opera is being given by the Midland Community Theater in cooperation with the Midland Music Club. This is the first time the music club and theater have combined efforts in a production.

The club's Silver Strings will accompany the performance. Music club members taking part in the production are Mrs. A. G. Bruton, Mrs. Sam Geffen, Mrs. Charles Henderson, Mrs. E. S. Hitchcock, Mrs. Benton Howell, Mrs. E. W. Vanderpool, Mrs. Frank Thompson, Mrs. E. F. Hall, Mrs. Howard Parker, Lillian Christopher, M. O. Gibson, W. E. Shipp and Mrs. Jimmy Nolan.

Tickets for "The Mikado" are on sale at Tailorline.

In-Service Group Schedules Workshop

The In-Service Training Group discussed plans Monday for a teachers' workshop to be held in Midland this summer.

A. C. Murphy of the University of Texas met with the group at its dinner meeting in the high school cafeteria. The workshop will be a three-weeks course, similar to one held last year, for which teachers may get university credit.

It was announced that Dr. James Knight of the University of Texas will be here to consult with the group from Wednesday until the end of the week.

The group also drew up plans for the year and discussed the closing of records.

Two Hostess Clubs Listed For Concert

The Modern Study Club and the Pyraantha Garden Club, respectively, will be hostesses at the afternoon and evening performances to be given in Midland March 21 by Percy Grainger, pianist-composer.

The announcement was made by Mrs. Leonard Thomas, general concert chairman. Grainger's performance, under the sponsorship of the Midland-Woman's Club, Inc., will be held at 4:30 p.m. for students and at 8:15 p.m. for the general public. The concert will be given in the high school auditorium.

Grainger was born in Melbourne, Australia, in 1892. He studied music under his mother's direction until he was 10 years old and at the age of 12 he went to Germany where he continued his musical studies for six years.

By the time he was 19 he had played throughout Europe, South Africa, New Zealand and Australia. In 1914 he came to America.

Concert tickets are on sale at Wemple's and Tailorline, according to Mrs. Earl Johnson, ticket chairman.

The MATURE PARENT

Parents Must Learn To Take As Well As Give

By MURIEL LAWRENCE
Within a few weeks, she will leave her home to live with a married daughter. "I dread this step," she writes, "as I have always kept my self-respect and have been independent of my children. But now financial trouble forces me to put my pride in my pocket and live in another's home. It is a terrible adjustment."

It is wrong to base one's self-respect on independence of love. We need love as we need food and water. When this reality collides with the idea that we are above needing it, we get hurt.

We Americans are far too apt to think that self-respect is financial independence. This impression which makes so much unhappiness for children and old people is due to our fear and hate of receiving. We are pretty good givers, but we receive very badly.

I think we are tragically blind in the matter of appreciating the fine discipline involved in taking well. We can't get out of childhood fast enough, and we regard old age with terror and dismay. Our contempt for takers and our exaggerated admiration of givers give us only our middle years for dignity and ease of spirit.

This immaturity in our character is responsible for a fantastic amount of family misery and conflict. Let's not be fooled. My correspondent is not afraid to change one home for another, but to change one attitude for another. She sends that her long-indulged attitude—pride in her independence of others—will be inappropriate as she is forced to take from them. She is appalled by the effort that must be made to discard that attitude.

She will not be too sad to discard it if she begins to add up what it has cost her in terms of the loneliness and chronic fear that always accompany human beings who take pride in self-sufficiency. Such pride is a cruel enemy—right now, it is trying to torment her into thinking of this natural and reasonable adjustment she is about to make as a "terrible" one.

"The secret of successful youth," writes Dr. Francis J. Braceland,

consulting psychiatrist at the famed Mayo Clinic, "is the secret of keeping things in their seasons; accepting the tide of changing events neither with passivity nor with independence, but rather with the recognition of the sharing and relatedness of interdependence."

Dr. Braceland is advising my correspondent to move her lens so that her focus widens to include two people, instead of one—a child as well as a mother—so that relationship and continuity are seen instead of aloneness. Then she will see how right it is that her seasons for giving and taking match her child's times for receiving and returning.

If this refusal to take from children were good for them, we might have some justification for our contempt for taking. It isn't good for them. If we do not expose our need for their love to them when they are little, they can grow up with the impression that it's a poor sort of love—under-valuing it like this, they are only too likely to involve themselves in humiliating experiences that increase their contempt for what they have to offer.

When the day comes that we have to break down, tell the truth and confess our need for love, they turn on us in scorn for wanting such a shoddy thing. They stand with closed, hard faces before judges in domestic relations court and say sullenly, "Why should I help this old man, this old woman? They never did anything for me."

Oh, yes, we pay quite a price for a self-respect that has not learned to take as generously as it has given.

Praise, Appreciation Go Far To Make Up For Lack Of Riches

This column is for men. If you can't afford to give your wife all the things you once planned to, or the things her friends have, the things you know she wants, you'll never be a failure in her eyes if you will be generous in a way you can afford—in praise and appreciation.

Remember this: A woman will scrimp, save, do without and work hard day after day without complaint or bitterness or real frustration. But she must be sure that the man for whom she is working hard to make a good home appreciates what she is doing.

But the appreciation has to be spoken. It isn't enough for you to think she is wonderful. A woman has to be told.

Be stingy with your praise and you are going to have an unhappy wife. Before long she will be telling herself that she made a bad bargain.

P-T-A Unit Elects Officers; Brown Leads Program

The South Elementary Parent-Teacher Association elected officers Tuesday at a meeting held in the school auditorium.

They are Mrs. Vinton Newberry, president; Mrs. W. G. Attaway, first vice president; Mrs. C. E. Craig, second vice president; Mrs. Howard Thompson, secretary; Mrs. B. G. Howard, treasurer; Mrs. Harrison Bickley, parliamentarian, and Mrs. K. C. Johnson, reporter.

Hulon Brown, Midland attorney, was the speaker on the program which was presented by the men.

Speaking on "What Makes Good Schools", Brown stressed the need for parents and teachers to become better acquainted. Vinton Newberry, husband of the president, presided. A talk on Cub Scouting was given by Don Galbreath and the devotional was given by Mrs. W. G. Attaway, D. M. Estes, principal, presented a life membership to Lucille Carroll, fifth grade teacher.

Mrs. Ruth Bedford's room won the room count. Approximately 100 persons attended.

Circle Eight Club Has Potluck Supper

Mr. and Mrs. R. F. Rood and Mr. and Mrs. John B. Mills were hosts to the Circle Eight Square Dance Club Tuesday at a meeting and potluck supper in the American Legion Hall.

Callers were Mills, J. R. Pool, Ed Smith, T. A. Cole, Cecil Milam, Warren Skaggs, Earl Reid, W. W. Wilkinson and Mrs. O. D. Smith.

Guests were Mrs. Fred Query of Houston; Mr. and Mrs. G. H. Steadman of Wickett; Jean Slaughter, Jack Parrott, Lenora Maybe and Mr. and Mrs. Emmitt Hull of Big Spring, and Eunice Woods, Ray Weaver, Mr. and Mrs. K. E. Boling and Mr. and Mrs. W. J. Sprecher of Midland.

She'll begin to wonder why you aren't more successful. She'll envy the women who have more than she does. She'll resent how hard she has to work.

Her life will seem dull and drab, simply because she doesn't feel that you appreciate her.

Tell Wife You Appreciate Her
Be generous with your praise, and she will feel pride in being a help to you. She won't envy other women simply because they have more material things than she has, if she has a husband who thinks she is wonderful—and lets her know it.

That's the one way any husband can be generous. Being openhanded with praise costs nothing, and yet it can make a woman content with her lot in life.

If you don't believe it, try it. You'll learn a lot about women if you do. (All rights reserved. NEA Service Inc.)

Mrs. Langdon To Head Chi Omega Alums

Mrs. Charles Langdon was named president of the Chi Omega Alumnae Association Tuesday at a meeting and Easter Party in the home of Mrs. John T. Miller.

Mrs. Herschel Ezell was co-hostess. Other officers are Mrs. Jim Nolan, vice president and rush captain; Mrs. Frank Montague, co-rush captain; Mrs. Dick Galkins, secretary; Mrs. Banks McLaurin, treasurer; Mrs. Fred Wright, Jr., reporter, and Mrs. Malcolm Powell, Panhellenic representative.

The refreshment table was centered with a wheelbarrow filled with pink, blue, yellow and white daisies and pushed by an Easter rabbit. Replicas of smaller rabbits also were used in the decorations.

Slayer Of Dallas Officer Dies Pleading For Mercy

HUNTSVILLE—(AP)—A California hillbilly musician who spent his last hours composing a song went to his death early Wednesday crying out for mercy.

Robert Lee (Uncle Robert) Johnson, 28, died in the state's electric chair at 12:14 a.m. for the slaying of Dallas Policeman Johnny Sides.

Johnson entered the death chamber at 12:05, was strapped in the chair and then received the first bolt of electricity at 12:12 a.m. while he uttered a fervent prayer for mercy.

"Oh, God, be merciful into me," he said, just as the charge coursed through his slender body.

Don Reid, Huntsville newspaperman who has watched many executions, said it was the first time anybody in the death house had heard a man cry for mercy as the lethal bolt struck him.

Sides, a rookie traffic patrolman, was shot Jan. 22, 1951, when he and another officer stopped four traveling musicians for a minor traffic offense. He died about two weeks later on February 7.

A nephew of Robert Johnson, Marvin Eugene, 21, awaits death in the electric chair April 9 for the same slaying. Two other musicians, J. W. Johnson and Billy Maxfield Pomeroy, also were convicted in the shooting and each is serving a 99-year prison term.

Admits Firing Shot

Reid said Johnson made several statements Tuesday before he went to his death. "I thank the Lord Jesus, Christ and my Father in Heaven who has accepted me," Johnson said. "I hold no bitterness nor hate for anyone. I have been forgiven for every wrong I have committed."

Reid said the condemned man admitted he had broken the commandment, "Thou shalt not kill." The Lamont, Calif., musician also expressed the wish that some day the electric chair would be abolished as a form of capital punishment in Texas.

The song Johnson worked on Tuesday as his date with death approached was entitled, "You Are My Angel." He said it was dedicated to his mother, Mrs. Pearl Ham-bright of Lamont, Calif.

He had seemed in good spirits during an interview with Reid late Tuesday. He repeated his court testimony that he, and not his nephew, shot the officer.

"Marvin didn't do anything," he said. "He didn't even have a gun."

New Humble Facilities Cost More Than Billion Dollars

HOUSTON—By mid-1952, Humble Oil & Refining Company will pass the billion-dollar mark for expenditures on new facilities since the end of World War II.

The huge postwar total became known when Hines H. Baker, Humble president, announced that the company plans to spend this year \$245,000,000 for drilling wells and other facilities, including the cost of dry holes. Since the company already has spent \$872,000,000 for similar purposes during the last six years, the plans for 1952 will raise total expenditures to more than a billion dollars about the middle of this year. The program projected for 1952 is substantially larger than in 1951.

Last year the company spent \$188,000,000 for new facilities, including \$29,000,000 in dry holes. These expenditures exceeded those of the previous record year, 1948.

Humble's large investments have been part of the \$13,000,000 capital expenditures made by the petroleum industry during six post-war years. These industry investments were necessary to meet the increasing demands for petroleum products. Total demands in 1952 will exceed those of 1949 by 25 per cent, and will be more than double the amount required by the American people in 1940. The oil industry currently is supplying about two gallons of oil products each day for every man, woman and child in the nation.

These enormous investments by the oil industry provide the additional oil wells, the new pipe lines, the added refining capacity and distribution facilities to make available the oil for normal requirements and to provide for national security.

Cost Increases

All this new capacity is being added at a much higher cost than before the war. For example, the average well drilled by Humble last year cost more than three times as much as it did ten years ago. This 1951 average was \$81,500 per well, but some dry holes cost as much as \$800,000 and one producing well cost more than a million dollars to complete.

Humble's tax payments in 1951, excluding gasoline taxes collected by the company for federal and state governments, amounted to \$85,000,000 and have added up to more than \$325,000,000 during the post-war years.

FOX TROTS TOO SLOW FOR REDS

MOSCOW—(AP)—The West's slow fox trots steam up sex impulses and tangos are "grinding and tearing," the newspaper Soviet art said Wednesday in a fiery attack on Russians who want Western popular music remade to fit the Soviet scheme.

The paper is the official journal of the Soviet Committee on Art, which previously has made vigorous declarations against jazz music and Western dances.

Soviet Art described the tango as music "without kin or tribe," and said slow fox trots are "erotic."

It asked the Russian advocates of Western tunes what there could be in common between such products and "healthy" Soviet music.

Police Capture Two Robbery Suspects, Close In On Third

MONTREAL—(AP)—Heavily armed police, who already have shot and captured two bank robbery suspects, headed Wednesday for the reported rural hideout of a third wanted man with orders to kill him unless he gives up.

Edward Alonzo Boyd is the third member of a trio accused of the recent robbery of a Toronto bank. He was believed heavily armed.

Sixteen detectives and almost 200 police fired 500 shots and a tear gas bomb into an apartment Tuesday night to capture Leonard Jackson and his girl friend. Jackson was shot in the stomach.

Steve Suchan, first suspect caught, was surprised in a nearby apartment last Friday night. He also was shot in the stomach.

In addition to the robbery, Suchan and Jackson were suspected of shooting and wounding two Toronto police officers who last week stopped them for questioning.

Jackson, being put into an ambulance Tuesday night, said he knew who tipped police about his hideout and shouted, "Boyd will be back to get them."

Civilian tips led to the capture of Suchan and Jackson. Another tip pointed to Boyd's hideout, which police said "is somewhere in the country."

Police Seek To Establish Identity Of Suicide Victim

HOUSTON—(AP)—Police Wednesday still were trying to find out the correct name of a woman found dead Tuesday in a hotel room here.

She was listed on police records as Helen Meyers. But two other names, Helen Mays and Helen Long were uncovered in the investigation that followed discovery of her body.

Justice of the Peace W. C. Ragan ruled death of the 35-year-old blonde a suicide. A .22 caliber pistol was found clutched in her hand.

PETROLEUM CLUB SETS SPECIAL ENTERTAINMENT

The Petroleum Club of Midland has announced a special entertainment and dance for members and out-of-city guests will be held Friday evening in the clubhouse.

Music for the dancing will be furnished by the Judy Peacock Trio, members of the Entertainment Committee said.

TRAININGCAMP NOTES—

Mantle, Cerv Look Good For Yankees; Cards Whip Braves

PHOENIX, ARIZ.—(P)—New York Giant Manager Leo Durocher is very high on rookie Outfielder Gail Henley.

Henley was hailed as another "Enos Slaughter" when he first came to camp in 1949 but until recently has failed to live up to his billing.

"All I can say is that he's a pretty good hitter," Durocher said Wednesday. "I'd like to bet he won't wind up with Slou City this year." Rain cancelled the Tuesday Giant-Cleveland game.

MIAMI, FLA.—(P)—Chris Van Cuyk, towering left-hander, is the current Brooklyn Dodger favorite to take up the slack caused by Pitcher Don Newcomb's induction into the Army.

"I know Van Cuyk is ready," Manager Chuck Dressen said. "He has learned to use that change of pace that I gave him last season. That's all he needed. No one has more stuff."

ST. PETERSBURG, FLA.—(P)—Mickey Mantle is running up quite a record in pinch-hitting roles for the New York Yankees.

Mantle has batted out three singles in his last three pinch-hit trips. Rookie Bob Cerv homered Tuesday as the Yanks whipped Boston's Red Sox, 7 to 6.

SARASOTA, FLA.—(P)—Three of the Boston Red Sox rookie pitchers—Jim Henry, Cliff Coggin and Hershel Freeman—will try to snap the club's three-game losing streak here Wednesday against the St. Louis Cardinals.

BRADENTON, FLA.—(P)—The Boston Braves took a 2-1 exhibition game record into Wednesday's meeting here with the Cincinnati Reds.

LAKELAND, FLA.—(P)—If Ben Taylor's batting doesn't improve, Vic Wertz will start at first base for the Detroit Tigers before the week is out.

Manager Red Louis indicated Taylor, former St. Louis Brownie, must start clouting to get the first base post. So far Taylor has rapped one base hit in 12 tries.

PASADENA, CALIF.—(P)—The Chicago White Sox will send their first stringers against the St. Louis Browns Wednesday after using their "B" team to defeat Rogers Hornsby's best, 7-6, Tuesday at Burbank. Manager Paul Richards assigned Ken Holcombe as his starting Sox pitcher.

PHOENIX, ARIZ.—(P)—Manager Phil Cavaretta of the Chicago Cubs, long noted as a hustler in his playing days, revised his lineup for a re-match with the New York Giants Wednesday and blasted his club for loafing.

"Losing that Monday game to the Giants wasn't important," said Phil. "But there is no reason to stop hustling even if you are getting licked. 15-3. They are going to hustle for me or find themselves playing somewhere else."

SAN DIEGO, CALIF.—(P)—Pitcher Bob Lemon, making his second appearance, will open for the Cleveland Indians Wednesday night in their first 1952 exhibition under lights. He faces the Pittsburgh Pirates.

Lemon looked good his first time out, and has yet to yield a run.

BRADENTON, FLA.—(P)—The rain wouldn't stop at Cincinnati's training site at Tampa Tuesday, so the trade rumors started up—with Pitcher Kenny Raffensberger and Outfielder Dick Sialer the names most often mentioned.

Redleg Manager Gabe Paul denies there is any deal pending, but the club's need for a slugging outfielder and an experienced infielder is evident.

Dayton Spills St. Louis In NIT Tourney

NEW YORK —(P)—The University of Dayton basketball team, which had its first fling at the "big time" in the finals of the National Invitation Tournament last year, wanted to meet highly-rated St. Louis this year just as a measure of satisfaction.

Dayton got its wish Tuesday night and the result was satisfactory not only to the Dayton players but to a majority of the 14,112 spectators in Madison Square Garden.

Sparked by tall Don Meineke and Chubby Leland (Junior) Norris, the Flyers whipped St. Louis, the second-seeded team in the tournament, 68-58. Top-seeded Iuguesne performed about as expected in beating Holy Cross 78-68 in the second game of the doubleheader.

As a result, Dayton will encounter St. Bonaventure and Duquesne will meet LaSalle in the semi-final games Thursday night. The finals are Saturday night.

It isn't often that Dayton gets into basketball's major leagues. Brought in last year just to round out the field, Meineke, Norris, Pete Boyle and Company captivated the fans and almost walked off with the honors. Unseeded this year, they're threatening to do the same.

A colorful, confident bunch, they wanted to take on the strongest opponent to prove to themselves that they're good. And they wanted to get away from unorthodox, dull basketball and have a real game.

That's just what happened. Coached by cagey Tommy Blackburn, a part-time golf professional, they jammed the area under the St. Louis basket on defense, came up with the most of the rebounds and dominated the entire game.

St. Louis, the Missouri Valley Conference champion and a candidate for the National Collegiate AO title, never was ahead.

Grisby High. Chuck Grisby, six-foot-five forward, was higher scorer with 22 points.

Duquesne's victory over Holy Cross may have been costly. Jim Tucker, the tall, spindly negro center whose leaps enabled him to grab the ball off the boards nearly every time, came out with a bruised shin. And sharpshooting little Al Bailey had a badly swollen left knee.

Holy Cross, always ready to scrap for the ball, held the lead until the middle of the second quarter, then petered out. Trailing by 11 points at the start of the final quarter, the Crusaders did the deficit to four minutes before the game ended. But Duquesne got the ball, held it and added four more.

The Buc skipper, noting Thomas tipped the scales at 210 pounds when he checked in, remarked:

"Frank is a promising major leaguer, but that weight is too much to bring to camp." Pittsburgh Monday defeated Seattle of the PCC, 4-2.

ORLANDO, FLA.—(P)—Sid Hudson, the Washington pitcher who switched to side-arm and underhand slants in deference to a sore arm, tries the overhand route against the Boston Red Sox Thursday.

"If he can throw hard without pain, we're a heap better off," said Washington Manager Bucky Harris.

Bolt Pockets Top Money In Tourney

MIAMI BEACH, FLA.—(P)—Tommy Bolt of Durham, N. C. pocketed \$500 Wednesday as first place money in the annual Pro-Member Amateur Golf Tournament at La Gorce Country Club on the strength of his three under par 68 round.

Bolt finished one stroke in front of four other pros who tied at 69 over the 6,283-yard par 71 course Tuesday. They were Al Zimmerman of Portland, Ore.; Jim Turnesa of Briarcliff, N. Y.; Jim Simpson of Fort Worth, Texas; and Lloyd Watkins of Miami.

Seven pros posted one under par 70's. They include Earl Stewart, Jr. of Dallas, Texas.

Pros divided \$1,500 for the one-day tournament. Fifty-seven teams competed.

Baylor, Isbell Lick TCU Frogs, 10 To 4

WACO.—(P)—Baylor's Bears whipped the Texas Christian Horned Frogs, 10-4 here Tuesday in a non-conference baseball game. It was Baylor's second win in three starts against three straight losses for the Frogs.

Larry Isbell clouted a homer and two singles and Harry Davis got a triple and two singles, to lead the 14-hit Bruin attack.

President George D. Stoddard of the University of Illinois regards football and baseball as the most characteristic of outdoor events.

ARKANSAS TRAVELER—Hazel Walker, 11-times All-American fem cager, will bring her Arkansas Traveler quintet here March 19 to oppose the Rotary Engineering Company team. The girl basketballers play men's teams, using men's rules, throughout the country. Game time will be 8 p. m. in the Midland High School gym.

In his quest for the National League bunting, Manager Eddie Stanky may have his St. Louis Cardinals do a lot of bunting.

The stubby, pepper-pot Card manager who always has been a bit short on the physical qualifications for baseball, is a great believer in the fundamentals of the game.

And why not? He used an unorthodox plate crouch, bunting, arm-waving and a sound set of fundamentals to propel himself to a top spot in the diamond sport.

The fact that Eddie is taking over a slugging outfit and trying to make it a bunt-and-run club shows he has confidence in his job. It also shows he didn't waste his several years under Leo Durocher at Brooklyn and with the Giants. Durocher is an advocate of the same style of play.

Stanky also has the cock-sure bearing of Durocher. He waddles around giving orders in a hoarse voice which leaves no room for questions as to who is in charge.

But he isn't just full of self-importance. If the Card manager actually can't help a player then he leaves him to his own style. However, anytime he thinks a change here or there would help the club, he doesn't mind saying so.

The "Brat"—as he was known back in his earlier days at Brooklyn—also gave signs of being a diplomat when he conversed with Red Schoendienst, long-time Card second baseman.

Stanky also is a second sacker, and speculation was that the red-tatched one had better look for another job.

But one of Stanky's first moves was to make Schoendienst a sort of "unofficial" assistant manager and give him a voice in things. Thus a very ticklish situation seems to be solved by this bit of maneuvering.

Back to the bunting angle: Some baseball experts predicted Stan Musial, Country Slaughter and the like would not take well to the soft-tapping of the ball with the bat.

They haven't complained thus far and have gone along with the scheme, but Stanky is smart enough to realize these boys must hit-away most of the time.

"I'm not going to chain power hitters like Musial and Slaughter with any steadfast bunt rules," he says. "It would be foolish. That power can help us."

But one of these days when the opposition has grown used to these boys knocking the ball against the wall, we'll ease up and fool 'em with a bunt."

Which, by the way, indicates Stanky has been doing a little thinking. And which means the Cards may be rough if their pitchers come through.

"Wives are not on the team," says Manager Eddie Sawyer of the Phillies when asked why wives are being banned from training camp at Clearwater, Fla. this Spring.

Browns' Courtney Works Up Big Mad At New York Yanks

By GAYLE TALBOT

LOS ANGELES —(P)—Young baseball players sometimes form deep-seated hatreds for clubs other than their own which they nourish throughout their big league careers and which provide them with a burning incentive to outdo themselves in games against the objects of their anger.

Such a young man is Clint Courtney, a square-jawed catcher of 25 from Hall Summit, La., who has come up from Kansas City to fight one and all for a first string job with the revitalized St. Louis Browns. The ball club he doesn't like even a little bit is the New York Yankees.

Clint, who wears glasses both on and off the field, possibly as a comelon, is an unpolished jewel who

speaks his mind at all times. We recall that just a year ago, along about now, he was beginning to burn because he knew that the Yankees, to whom he then belonged, were planning to send him back to the minors. He didn't think he was a better catcher than Yogi Berra, exactly, but he knew someone well he could outcatch their other bums.

The previous year he had been with Rogers Hornsby at Beaumont in the Texas League. He had worshiped Hornsby, and still does, and Hornsby said last Spring that Clint was ready for the big show. But the Yanks sent him to their Kansas City outfit, anyway. There he hit .294 and, we hear, assaulted an umpire. We ran into him next on the Browns' bus coming back from San Francisco Tuesday. He was back with Hornsby after a year's lapse—one of the four rookies the Rajah installed President Bill Veckel got for

him as the start of a rebuilding program. He hadn't changed any of that. "Them, big clubs with their big stars," Clint said in a hard, tight voice. "We're going to show them a few things. They'll know we're around before the season is over. Hornsby knows more baseball than they can even guess at, and we've got some good players. We won't finish any last, or anywhere near it."

"That Stach," he grinned. "He asked me to warm him up the other day. He asked did I have a home plate in my pocket. I didn't know what he was talking about. He walks over and says 'Here's one' and picks up a little piece of gum wrapper, about half a piece, and lays it on the grass."

"I never knew there was control like he showed me. He must have tossed 40 balls without missing that little piece of gum wrapper more than an inch. He's really got control, that Stach."

18 Indians In Spring Camp Site

LUTCHER, LA.—Pitcher Keith Nicolls became the eighteenth Indian in Midland's Spring training camp when he reported in late Tuesday.

The 22-year old Pennsylvanian last year notched a 13-2 record with Erie in the Class C Middle Atlantic League.

Manager Zeke Bonura said he is expecting "great things" from this right-hander whose experience prior to his Erie stint was three years in the fast semi-pro Northern League in Vermont.

The Indians took a long five-hour drill Tuesday with sliding, fungo hitting, a pepper game and shagging in the outfield highlighting the workout.

Bonura said the Indians would get their first big batting practice work Wednesday.

A Lutch merchant treated the Midland players to a spaghetti and chicken supper Monday and Manager Bonura treated the boys to 20 laps Tuesday to knock off the after-effects.

Bonura reported Bob Tanner, rookie pitcher trying out for the Midland squad, posted a 2-2 record this Winter in Mexico, playing with the Mexico City Reds.

To make the off-duty hours more enjoyable for the Texas players, a television dealer Tuesday installed a large television set in the dining hall of the Midland quarters.

Faculty Named For Annual Coaching School In Cowtown

BEAUMONT.—(P)—The faculty of the Texas High School Coaches Association's Texas Coaching School, set for Fort Worth August 4-8, was completed Wednesday.

Four new instructors were announced. Jack Patterson, University of Houston, will instruct in track; Elmer Brown, Texas Christian, in training; Amos Melton, Texas Christian, in public relations, and Clyde Gott, San Antonio, in football rules.

Previously named as instructors were Dutch Meyer, Texas Christian, and Jim Tatum, Maryland, in football; Adolph Rupp, Kentucky, and Henry Iba, Oklahoma A&M, basketball, and Alex Hooks, Southern Methodist, baseball.

Hack Henninger, Maryland, will instruct in line play and assist Tatum in coaching the North all-star football team. Abe Martin of Texas Christian will instruct in backfield play and assist Meyer in coaching the South all-stars.

Arkansas Travelers To Meet Rotary Engineers Here Soon

The so-called weaker sex will exhibit its basketball wares here March 19 in the Midland High School Gym when the famed Arkansas Travelers' fem cage outfit takes on Midland's classy Rotary Engineers, who have

made quite a name for themselves in West Texas basketball circles. But it will be nothing new for the Arkansas gals, who have played—and defeated—top male outfits from coast to coast the last few years.

Led by tall, 11-times All-American Hazel Walker, the Travelers say they'll play "anybody anywhere."

Others on the "Traveler" squad include Margie Arends, also an All-American and the squad's "beauty," Dorothy Jones, Phyllis White, six-times All-American; Pat Johnson, Georgia Mullins, Frances Garroue and the "shorty" of the team, five-foot, four-inch Betty Lou Johnson.

The Travelers average almost six feet in height and put on half-time exhibitions such as a free-throw contest by Miss Walker, who hasn't lost such a contest in more than five years.

Rotary will call on Bennie Rutherford, North Texas State; Leland Huffman, Texas A&M; Don Grove and Paul Haskins, Texas Tech; J. B. Collins, East Texas State; Dick Bergebach, Lafayette U.; Charlie Kelly, H-RU; Jim Watson, U of Texas; Everett Thiel, Missouri Mines and probably others.

Midland High School is sponsoring the game to raise money for the girl's PE classes and the Student Council.

Game time will be 8 p. m.

LOVE SET — Lovely Jean French Falot displays a dazzling smile after besting Venezuelan Champion Andreina Drew-Bear in two out of three sets to advance in the women's indoor singles play at New York's 7th-Regiment Army.

SW Texas State, New Mexico Ags Win In NAIB Cage Tourney

KANSAS CITY.—(P)—It's almost routine that the favorites survive the first round but the manner in which several of them did in the 14th national NAIB basketball tournament borders on the sensational.

New Mexico A. and M. for example, hit 58.2 percent of its shots in eliminating Mississippi Southern, 86-70, in the first round win Tuesday.

The Eastern Illinois Panthers of Charleston tied the tournament one-team scoring record by beating Huron, S. D., College, 113-78.

The second-round set of eight games opened Wednesday. Quarter-finals are scheduled Thursday night, the semifinals Friday and finals Saturday.

The champion will meet the NCAA titlist in the first-round Olympic playoffs here March 29.

In other games Tuesday, the Utah State Aggies handed Clarion (Pa.) State its first loss of the season, 85-68; Lawrence Tech of Detroit-walloped Washburn University of Topeka, 97-80; and unbeaten Southwest Texas State of San Marcos outlasted Arkansas Tech of Russellville, 97-53.

With half the field in the six-day meet—18 teams—eliminated, defending champion Hamline University, New Mexico A. and M., Eastern Illinois and Southwest Texas State appear to have the best chances of showing up Saturday night.

Southwest Texas State, led by Vernon McDonald's 20 points, scored its twenty-seventh successive victory without a setback this season in beating Arkansas Tech.

Officers for 1952-53 will be elected at the March meeting of First Presbyterian Men of Midland at 6:30 p. m. Thursday in the church's Fellowship Hall. President Ed Bittl announced Wednesday.

He said two slates of nominees will be presented by the Progressive Conservatives and the Conservative Progressives. Al Vineyard is chairman of one "party" and Sol Bunnell heads the other. Nominations also may be made from the floor.

The Rev. R. W. Jablonowski, Jr., pastor of the St. Stephen Presbyterian Church of Fort Worth, will be the guest speaker. "Only the Cross" will be the subject of his address.

Vernon Dusters Sign Three Cuban Players

VERNON.—Manager Chet Fowler of the Vernon Dusters landed only three players while on his talent search to Cuba recently.

Fowler said he signed: Second Baseman Armando Hernandez, Shortstop Pompeyo Reico Carreras and Pitcher Raul Puig.

Puig had a tryout with Big Spring last season but could not master his control and was released. The Dusters will begin Spring training here March 24.

PFC. AND MRS. MAY VISIT IN MIDLAND

Pfc. and Mrs. J. D. May of San Antonio were in Midland recently visiting Mrs. May's parents, Mr. and Mrs. W. B. Shuttuck, 903 North Weatherford Street.

May is serving with the U. S. Air Force at Lackland Field, San Antonio.

Willie Ketchum, who manages lightweight boxing champion Jim Carter, trained the late Marcel Cerdan.

section 587, block 97, H&TC survey. That puts in four miles northwest of Fluvanna.

Second Producer Is Completed In NE Runnels Pool

American Trading and Production Corporation No. 3 E. W. Bridwell has been completed as a one-location north offset to the discovery well of the Lindeman-McMillan field of Northeast Runnels County. The new well is the second for the recently opened field.

It was finished for a daily flowing potential of 254.97 barrels of 43.7-gravity oil through a one-half-inch tubing choke and from perforations in casing at 2,499-2,502 feet, opposite the lower Cisco sand.

Taken To Strawn
This well was drilled to a total depth of 4,006 feet in the lower Strawn without encountering any other possibilities of commercial production and was plugged back to 2,570 feet for the completion in the Cisco.

Gas-oil ratio was 322-1 and tubing pressure was 75 pounds. Location for the new well is 330 feet from west and 3,910 feet from north lines of J. Smith survey No. 6012.

New Project
Atapco staked location for No. 3 P. R. Dietz as a west offset to No. 2 Bridwell. It is 330 feet from east and 3,185 feet from south lines of block 15, N. Travis survey No. 653 and seven miles southwest of Crews. That puts it 993 feet north of Atapco No. 1 Dietz, now drilling below 1,200 feet.

Higher Spraberry Zone Has Some Oil In Reagan Test

Southwest Natural Production Company and Lonnie Glasscock, Jr., No. 1 Greer-Carter, Northeast Reagan County wildcat, three and one-half miles northeast of the Seven D multiphase field swabbed at the rate of two barrels of new oil per hour from perforations in the upper Spraberry at 8,478-8,510 feet.

Operator was continuing to swab the zone. It had produced at the two-barrel per hour rate on the swab for five hours at the time of the last report from the well. No formation water was being developed.

May Test Higher
It is expected that the full producing ability of that interval will be determined and then other sections higher in the Spraberry will be perforated and tested.

The wildcat previously had swabbed and flowed some oil from perforations at 6,022-62 feet. That zone had been fractured with 2,000 gallons.

After that testing a retainer was set at 5,555 feet and the 5,478-5,510 foot zone was perforated with 96 holes.

Those perforations were given a 3,000-gallon fracturing treatment. A 72-barrel oil load was used in connection with the fracturing.

Flows Out Load
After the well has been shut in overnight it was opened up and the 72 barrels of oil load and six barrels of new oil was flowed out and the flow then died.

Operators started swabbing and the two barrel per hour recovery of new oil resulted.

Location is 660 feet from south and west lines of section 77, block 2, T&P survey.

Pennsylvanian Test Set For NE Fisher

Noranda Oil Corporation, L. T. Lohman, trustee and Peeler Brothers No. 1 Barto Jamison, et al. is a new wildcat in Northeast Fisher County.

The venture is scheduled to be drilled to 5,700 feet with rotary tools. That depth will take it to the Pennsylvanian.

Drillsite is 330 feet from south and 230 feet from west lines of section 108, block 17 H&TC survey and three and one-half miles northwest of the Round Top pool.

It is eight miles northeast of Rotan.

Schleicher Venture Dry In Ellenburger

Belwin L. Cox of Dallas has plugged and abandoned his No. 1 T. H. Henderson, Southeast Schleicher County wildcat on a total depth of 6,218 feet in barren Ellenburger detrital.

This exploration failed to log any possibilities of production in any zone it penetrated.

Location was 660 feet from north and east lines of the northwest

Stanolind To Build Sulphur Unit At North Cowden

Stanolind Oil & Gas Company has announced plans for construction of a sulphur recovery unit at a second West Texas gasoline plant.

The unit will be constructed at the North Cowden plant, 15 miles northwest of Odessa.

Stanolind previously announced that a similar unit was to be constructed at the Slaughter gasoline plant, near Sundown.

When completed, the Slaughter unit will have a capacity of 49 long tons daily. The design capacity of the North Cowden unit will be 17.7 long tons daily.

Benedum-Spraberry Field Extended By Blackwood & Nichols

The undeveloped area between the Benedum-Spraberry and Pembroke-Spraberry fields of East Upson County has been shortened to three and one-half miles with the completion of The Blackwood & Nichols Company No. 3 W. E. Grisbam and others, 1,991 feet from north and 660 feet from east lines of section 2, Indianola survey.

It was finished for a daily flowing potential of 146.69 barrels of 40-gravity oil plus two per cent water. The flow was gauged through a one-half-inch tubing choke and was from perforations at 6,725-46 feet. Gas-oil ratio was 860-1 and tubing pressure was 50 pounds.

Gravity of the oil is 40 degrees. Top of pay was picked at 6,725 feet, elevation 9,707 feet.

Two Runnels Tests Plugged, Abandoned

Two wildcats have been plugged and abandoned in Runnels County. One mile northwest of Ballinger and in Central Runnels County, Artec Oil Company of San Angelo No. 1-1 Woodward Heights Unit has been plugged at 4,050 feet.

Location was 460 feet from south and 330 feet from west lines of section 266, block 10, T. Cargent survey.

In East-Central Runnels, Fox-Witherspoon Drilling Company has abandoned No. 1 Gerhart at total depth of 4,259 feet after testing through perforations from 2,260 to 2,276 feet.

It was in block 260, John S. Moors survey and eight miles southeast of Winters.

into Northeast Gaines County with the completion of its No. 1 Ray Albaugh.

The well made 78.4 barrels of 34.1-gravity oil plus 11.1 per cent water in 24 hours on the pump.

Production is coming from pay between 4,825 feet and 4,960 feet, total depth. That section was acidized with 11,000 gallons.

No. 1 Albaugh is one-half mile west of the Welch pool and two miles northeast of the Cedar Lake area in Northeast Gaines which produces from the same formation.

Location is 660 feet from south and west lines of south half of section of 116, block M, EL&RR survey.

C-S Andrews Test Dry And Abandoned

J. S. Abercrombie No. 1 Lockhart & Brown, Central-South Andrews County prospector, eight and three-quarter miles southwest of the town of Andrews has been abandoned and plugged on total depth of 10,020 feet in barren Devonian lime and chert.

A drillstem test was taken at 9,892-9,933 feet. It was open one hour. Recovery was 90 feet of drilling mud. There were no shows of oil or gas.

Top of the Devonian was at 9,890 feet. It was low on that marker to other nearby control points. Location was 660 feet from north and west lines of the northeast quarter of section 15, block A-42, psi survey.

It logged some shows of oil and gas in the Clear Fork-Permian, but none of those indications were of commercial amounts.

Sinclair Plugs Glasscock Test

Sinclair Oil & Gas Company No. 1 Henrietta Long, wildcat in South-Central Glasscock County, has been plugged and abandoned after drilling to develop production in the Clear Fork.

The prospector, which was 660 feet from south and east lines of section 15, block 33, T-4-S, T&P survey, was drilled to total depth of 10,236 feet in the Ellenburger. Sulphur water was made in that formation and hole was plugged back to 4,900 feet for tests of the Clear Fork.

N-C Crockett Gets Shallow Prospector

Anton Oil Corporation of Fort Worth has staked location for a shallow wildcat in North-Central Crockett County as its No. 1 Ed Bean.

Location is 330 feet from north and east lines of section 84, block 0P, GC&BF survey and eight miles northwest of Omsa.

Projected depth is 1,800 feet. Cable tools will be moved in and drilling will begin at once.

No. 1 Bean is three and one-half miles east of the Vaughn field which gets its production from the Grayburg and San Andres with an average pay top at 1,501 feet.

It is also three miles north of Gulf Oil Corporation No. 1 Bean, dry hole abandoned last year at total depth of 8,945 feet.

Death By Suffocation Wipes Out Family

JACOBY ON CANASTA

By OSWALD JACOBY
Written for Nea Service

"Here is a playing problem from one of our recent games," writes a Chicago reader. "The opponents started the hand with a bang by melding a canasta of kings and minor melds in queens, jacks, sevens, sixes, and fives. Each opponent had taken the pile a couple of times, and each opponent held six cards in his hand."

"By this time, my hand was: Joker K-K Q-Q J-J 7-4-4-4-2"

"We needed 90 points for the initial meld. What was the best way for me to meld? Should I meld the joker with the queens and the deuce with the jacks, or is it better to meld both wild cards with either the queens or the jacks? Or should I put down one of the wild cards with the four-spots?"

"Think it over, friend reader, and decide for yourself how you would play in this situation. Then read on and see whether or not you agree with my opinion."

"If I were playing this hand, I would not make any initial meld at all. I would discard the deuce, thus freeing the discard pile."

"This play would give me unpeaked safe discards—the seven to begin with, followed by the kings, queens, and the jacks. I could practically guarantee not to give away the pile."

"What about my partner? He has a full hand, playing against a six-card hand. Why should he have any trouble discarding—provided he has been watching the play and is an experienced player?"

"We might not win the discard pile, but we certainly wouldn't give it away. At worst, the opponents might meld out quickly, thus bringing this miserable hand to a relatively painless end."

"Now see what happens if you decide to meld with this hand instead of freezing the pack. If you meld with the picture cards, you are wasting your wild cards on melds that are most unlikely to develop into canastas. And even the four-spots are no bargain."

"What's more: a meld put you in such a position that you will have to give away the discard pile very soon. This will allow the opponents to proing the hand and run up a really big score."

City Seeks Bids On Sewer Project

Adequate sewerage for the south side of the city came nearer to reality Tuesday night.

The City Council authorized the advertisement for bids on a \$190,000 sewer line project to connect directly with the new sewage-disposal plant now under construction.

The line is scheduled for completion in late Summer to coincide with the completion of the disposal plant itself.

City Manager W. H. Oswald said the bids will be received in about 30 days.

ROUGHNECK HURT

Jack Dill, 811 West Wall Street, a roughneck for Kemp Drilling Company, suffered contusions and abrasions of the left knee Tuesday when it was caught between a clamp and rotary cable. He was treated at Western Clinic-Hospital.

Final Plans Arranged For Wage Info Clinic

Final arrangements for a wage stabilization information clinic, to be held Thursday night at 8 p.m. in the district court room, were announced Wednesday by Manager Delbert Downing, Midland Chamber of Commerce.

The meeting will be co-sponsored by the Chamber of Commerce, Personnel Association, local chapter of the Texas Manufacturers Association and the Tenth Regional Wage Stabilization Board, Dallas.

"We urge representatives of organized labor to attend this meeting," said Downing. "Normally, local labor groups participate also in a meeting of this kind but none of them have headquarters in Midland. However, we have invited R. R. Baker, a trustee of the CIO and Midland resident, to share responsibilities for the successful promotion of the meeting."

Downing said that the Regional WSB is sending four representatives for the occasion. They are: Byron R. Abernethy, regional chairman and public member of the tripartite Board; J. Carl Clamp, Jr., acting director of case analysis; Wallace C. Franklin, Jr., regional counsel and Thomas Hudson McKee, regional information director.

A special feature of the meeting will be the presence of Kenneth Duncan, wage specialist of the Regional Wage and Hour and Public Contracts Division, U. S. Department of Labor, who will be in Lubbock Friday on special assignment by WSB, to help employers prepare any proposed wage adjustment petitions they may desire to file for action. Duncan may be interviewed at the Chamber of Commerce offices where he has been assigned desk accommodations. (Wage and Hour Division is field agent for WSB.)

"Every possible opportunity will be given," said Downing, "for employers resident in the Midland-Odessa-Big Spring area to participate in this forum-type meeting and have their questions answered. Those desiring to confer with WSB staff personnel, by special appointment, should contact me at once."

Hearing On Auto Liability Rates Slated March 17

AUSTIN.—P.—Cars driven by persons under 25 years of age and used for business purposes, other than going to and from work, will be the target of a public hearing before the State Board of Insurance Commissioners here March 17.

Commissioner J. P. Gibbs said Tuesday three new rate classifications for automobile liability insurance have been proposed to reflect either or both uses of automobiles.

Statistics will be presented at the hearing to show that as a rule cars used for business and driven by persons under 25 generally have a greater than average loss and accident record.

Proponents of the separation plan contend three rate classes will achieve a more equitable distribution of liability premium charges for owners and operators of private passenger cars.

Midland Polio Victim, Six, Doesn't Mind Limited School

By BOB ADAMS

Six-year-old Aileen Cothorn may not be like other kids in some respects (she has infantile paralysis and is completely paralyzed except for the use of her arms), but she is normal in other ways.

For example—she dislikes school. Because of the infantile paralysis, Aileen can only take 45 minutes of school two days a week.

But (she's only kidding teacher) it's not exactly her favorite pastime. Delicate little Aileen started to school in the first grade last August when Mrs. Rachel Drake, teacher of special education for exceptional children, started dropping by the Cothorn home at 1013 North Colorado Street to teach her.

Returns To Midland
That she lived to even start school was a miracle in itself. After being stricken with polio in September, 1950, Aileen was sent to Houston where she spent ten long months in the hospital there.

When doctors released her last October and sent her back to Midland, they gave her just three months to live.

Home for six months now, she has gained ten pounds and, according to her mother, "lives for the day when she can go back to Houston and 'show them'."

Aileen takes "reading, writing and arithmetic" like other school children but she only really likes writing and drawing.

And when she is not in school, Aileen spends her time coloring and putting out paper dolls.

When weather permits, she is placed outside in her special chair and the kids congregate around her to play.

Complaints Missing
She never complains about not being able to romp and play like other kids.

"You see," explained her mother, "Aileen is not in her usual mind that she will be all right some day. She thinks that her disease is like measles or something."

The frail little polio victim's progress since she came from the hospital is encouraging at least.

Irritation of Externally Caused PIMPLES
To gently cleanse broken out skin, then soothe itchy irritation, and so aid healing, use time tested RESINOL OINTMENT AND SOAP.

SCHOOL GOES ON ANYWAY—Despite the fact that she is confined to a wheel chair because of infantile paralysis, six-year-old Aileen Cothorn goes through reading exercises with her teacher, Mrs. Rachael Drake.

When she first arrived here, the polio-weakened lungs were so inadequate that she asked to be placed in the large and cumbersome iron lung which breathing became difficult.

And she spent ten and one-half to 11 hours a day in the lung. Now she spends only two hours a day in lung and sleeps in it at night.

"She fights having to be placed in it," said her mother, "which indicates to us that her lungs are doing the job all right."

Surgery Considered
The Cothorns have other encouraging news also. They received word from an outstanding polio physician recently that it may be possible soon to operate on Aileen and make it possible for her to give up the iron lung completely.

"Although one of her lungs is gone completely, they think by operating, they can tie the two lungs together, said Mrs. Cothorn, and make them function on their own."

If such an operation proved successful, Cothorn would like to take Aileen to the Gonzales Warm Springs Foundation to see if the treatment there wouldn't help her to regain at least partial use of her limbs.

Meanwhile, Aileen, with a smile that makes you overlook her physical infirmities, accepts school days as do other kids.

Andrews Delegates Named To Meeting

ANDREWS—J. B. Youngblood, primary school principal, and Mrs. Harry Douthitt, fifth grade teacher, have been named by the Andrews School faculty as delegates of the District 4 meeting of the West Texas State Teachers Association in Odessa Friday.

The Andrews schools will have a holiday on that date in order that the entire faculty may attend the meeting.

General Carlos Romulo, ambassador to the United States from the Philippine Islands, will deliver the principal address. His topic will be, "United Nations and the World."

The Andrews High School choir under the direction of Byron Baker will appear on the program.

Midland Soldier Takes Part In War Games

Pfc. Joe R. Johnson, son of Mr. and Mrs. C. E. Johnson, 1203 South Baird Street, Midland, is taking part in the around-the-clock defensive maneuvers with the battle-toughened 1st Calvary Division in Hokkaido, the northernmost of the Japanese home islands.

The division was rotated to Japan last December after 17 months of combat service in Korea.

Johnson, who was awarded the Korean Service Ribbon with one campaign star, is serving as reconnaissance scout with the 70th Tank Battalion's Headquarters Company.

He is a former employe of The Reporter-Telegram, where his father is head pressman.

Capt. W. J. Pharr, MAC, formerly of Midland, was a visitor here last week, direct from Korea and Japan.

"This country never looked better," he declared.

He was enroute to Camp Chaffee, Ark. where he will be released from active military duty to which he was called more than a year ago.

Captain Pharr represented the southwestern drug company in Midland and this section of West Texas.

Pvt. Woodard of Stanton has returned home from duty in Korea.

Sgt. Edward T. Craton, son of Mr. and Mrs. J. W. Hamilton of McCamey, has arrived at Fort Hood, Texas, to take part in Exercise Long Horn.

Pfc. Delbert D. Lott of Pecos has won the Combat Infantryman Badge, symbol of the frontline fighting man, while serving in Korea with the 45th Infantry Division.

Marine Sgt. Joe K. Zirkle, son

Pfc. Joe R. Johnson

of Mr. and Mrs. V. J. Zirkle, 1711 North Bryant Street, was recently graduated from the non-commissioned officers school at Camp Lejeune, N. C.

This school is designed to develop the qualities of individual leadership and to familiarize Marines with the latest weapons and tactics of modern warfare.

A Marine veteran of World War II, Zirkle currently is serving with the Sixth Marines, an infantry regiment of the Second Marine Division.

Pvt. Billie R. Corbett, son of Mr. and Mrs. Roy L. Corbett of Pecos, has won the Combat Infantryman Badge while serving in Korea with the 45th Division.

Serving with Anti-Submarine Squadron 23 at the U. S. Naval Air Station at San Diego, Calif., is Ensign John W. O'Brien, USN, formerly of 203 East New York Street.

Jimmy Dorsey's Famous Orchestra To Play Two Performances In Midland On April 2

Jimmy Dorsey and his orchestra, featuring the "Original Dorseyland Band," will appear in "Top Hat 'n' Spurs" in Midland High School auditorium Wednesday, April 2, at 7:30 and 9:30 p.m.

Also featured with the show will be an outstanding stage show of variety acts including Don Payne, original voice of Pop-Eye and other cartoon characters.

The Fraternal Order of Eagles of Midland is sponsoring Dorsey's appearance here. Prices are from \$1.30 to \$3.90, tax included. Earl Robertson, secretary of Midland Aerie 2982, announced.

Long a member of music's legendary "Top Ten," Dorsey is now at the peak of his career. His current aggregation has been called his

greatest edition in JD's musical history book.

Among the first name bands to play hotels and theaters ordinarily confined to vaudeville acts, Dorsey's group added another honor to its list when it became one of the first to appear on a television show. The band was heard and seen on

Jimmy Dorsey

"Cavalcade of Bands" via the DuMont Network. Video heads are still raving about the performance a rumor has it that Jimmy may soon become a steady television feature. His current "Date To Dance" presentation would in itself make pleasant television viewing and listening.

Mead's Introduces New French Bread Package In Midland

Mead's Bakery is adding a new item to its list of products—two loaves of French bread in one package.

One loaf is topped with sesame seed and the other with poppy seed for added flavor.

The loaves come half-baked, bakery officials said, and the same finishing process is required as Mead's Brown & Serve rolls.

The loaves are called French Shorties.

For a real treat in hot bread flavor, Mead's Bakery suggests that you try French Shorties—a product new in West Texas.

Church Membership Gains Faster Than U. S. Population

NEW YORK—(AP)—The National Council of the Churches of Christ in the U. S. A. has produced statistics to show that church membership, far from "dying" in America, is growing twice as fast as the population as a whole.

While the population of the country as a whole was growing only 28.6 per cent between 1926 and 1950, the council said Tuesday, the total membership of the larger church groups increased 59.8 per cent.

The figures cover 67 religious bodies having more than 50,000 members each. They represent 98 per cent of all members of some 258 religious groups in the country.

The 67 groups, the council said, have increased their membership in the 24-year period from 53,397,575 to 85,319,274.

QUAKES COST \$42,777,777

TOKYO—(AP)—The Hokkaido prefectural government Wednesday reported last Tuesday's earthquakes and tidal waves caused \$42,777,777 damage. American sources said the quakes killed 31 persons.

Proper Hygiene Is Important In Treatment Of Pinworms

By EDWIN P. JORDAN, M. D.
Written for NEA Service

So far as I know there are no statistics on how many people are afflicted with pinworms, but there are certainly many who are. Our correspondent writes that she has been bothered with them off-and-on for 18 years, and many who write me ask how to get rid of them.

Actually, pinworms are not as hard to eliminate as some other intestinal parasites, but reinfection is particularly common, and therefore careful attention to hygienic living conditions and care in association with others is particularly important to keep them from coming back. Pinworms are more common in

children than grown-ups, especially among those in large families or in children living in institutions. It is comparatively rare in families in which separate bedrooms are used.

This is because the worms get on the bed linen, pajamas and other clothing and are picked up by others who come in contact with such objects.

When children live in an institution or dormitory or when several use the same bedroom, the spreading of the worms from one person to another is easy.

The eggs from pinworms are usually laid on the skin and mucous membrane near the outlet of the bowel. This causes severe itching. In fact, the itching can be so bad that it produces nervousness, sleeplessness, and even convulsions.

The exact diagnosis must be made by taking swabs from the place where the worms are likely to be and examining the material under the microscope.

Infestation with pinworms is frequently confused with infestation of other parasites and the diagnosis must be clarified by accurate examination. Once this has been done, proper treatment can be started.

Treatment is reasonably satisfactory but should be given to all involved persons in a family or to all children in a dormitory. About nine out of 10 are cured, although the treatment may have to be repeated several times.

Once an outbreak of pinworms is discovered, treatment should be prompt and thorough. All those who are exposed as well as those who have definite signs of worms must be given information on hygienic measures.

Careful and frequent washing of the hands with soap and water is one of the most important measures.

With the improvement in knowledge of hygiene and how to take care of one's body and better methods of treatment, pinworm infestations have become less frequent.

Once established, however, pinworms rarely or never disappear without treatment, as many people have discovered for themselves.

Austin College Choir Will Appear In Big Spring

BIG SPRING—The Austin College A Cappella Choir of Sherman will be presented in concert at Big Spring Air Force Base March 22, according to an announcement by Chaplain Grant Mann.

The forty-eight-voice choir, which has been heard by thousands of persons in over 300 concerts, is currently touring 12 bases of the Air Training Command. Arrangements were made by the chief of chaplains, United States Air Force.

Members of the choir come from all ranks of the Austin College student body. They are selected after auditions and competitive try-outs.

A rigorous training schedule of three rehearsals a day trains the group.

Chaplain Mann said the concert is scheduled for the auditorium of the Academic Training Building.

Arrangements are being made to accommodate as many civilian guests as possible.

Why Dogs Bark At Newspaper Boys

By JOE STETSON
Dog Editor

It was surprising how many enthusiastic dog owners, real dog lovers who have had many dogs through the years, will tell a novice that the remedy for a particular dog problem is simple.

"Just use a newspaper," they say. I have heard this since I was old enough to pronounce the word housebroken.

They continue and it sounds logical: "Roll the paper up and hit him with it whenever he misbehaves. The paper is light, it won't hurt him and it is effective because it makes a lot of noise."

Newsletters have played an important part in the education of millions of dogs. Every one of these dogs has developed as strong an aversion to newspapers as a school-boy does to books. Is it any wonder then that many dogs bite or bark at paper boys or mail men?

When a dog is reprimanded with a newspaper he not only develops an animosity toward it, but he is either afraid or he loses face and feels embarrassed. It is quite natural then that he transfer the animosity for the newspaper to anyone carrying one. This can be broadened very easily to any delivery person.

Telephone man on the way up

THERE'S ALWAYS ROOM AT THE TOP IN THE "UP FROM THE RANKS" TELEPHONE BUSINESS

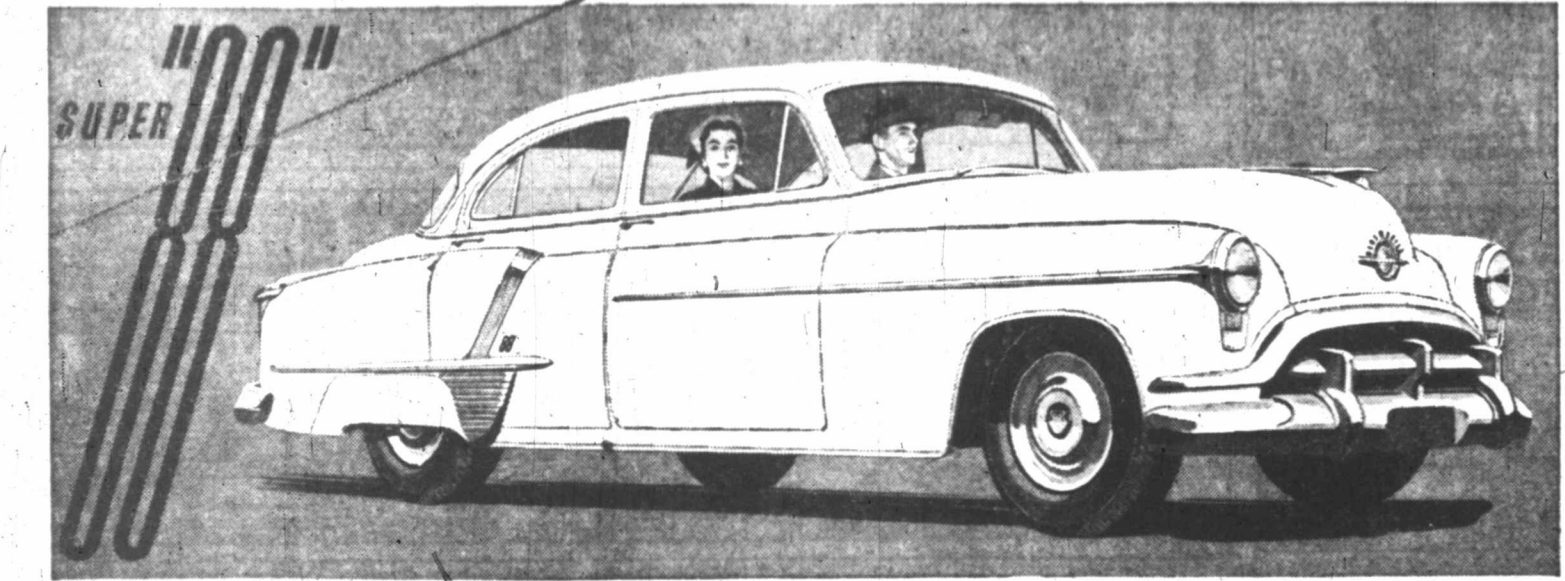

"CONGRATULATIONS ON YOUR PROMOTION"—familiar words in the telephone business. Many times, men and women have started at the bottom and reached important, responsible positions in telephone work. That's the kind of employer the telephone company is—a firm believer in promotions and advancement from within its own ranks.

THIS "UP FROM THE RANKS" PHILOSOPHY is of direct benefit to every telephone user. It helps attract and hold the many capable people we need to furnish good telephone service. It helps create a "spirit of service"—one of the biggest reasons we're able to keep your telephone service expanding and growing in value.

A TELEPHONE CAREER is many things. It's security. It's pleasant, friendly people to work with. It's a chance to get ahead. And while no one has ever made a fortune in the telephone business, it's good pay and interesting work. But above all, telephone people are your friends and neighbors, doing an important job for the community—proving that their efforts provide you with telephone service equal to the world's best.

DADDY RINGTAIL

Daddy Ringtail And The Smart Boy

Huffy Tuffy is a monkey boy, very big and very strong. "I'm bigger than

you are," said Huffy Tuffy. He said it to little Mugwump Monkey. "Sure," said Mugwump, because Huffy Tuffy was bigger and stronger than he was indeed. "I like to fight," said Huffy Tuffy. "Sure," said Mugwump, because he knew that Huffy Tuffy did like to fight, as well as some people like to stay out of trouble. "Mugwump," Huffy Tuffy said, "I think I would like to fight with you." But somebody else was listening. The somebody was Daddy Ringtail, and he hid down in the ground in a hurry. "Boys! Boys! Daddy Ringtail said, "We don't want any fighting."

SIDE GLANCES

By WESLEY DAVIS
Daddy Ringtail to sit down and wait to see what would happen. Daddy Ringtail sat down on a rock and waited. He knew that Mugwump didn't want him to do anything about Huffy Tuffy. "Mugwump," Huffy Tuffy said again, "I think I would like to fight with you." "Why?" asked Mugwump. "Because I'm the huffiest and the tuffiest somebody in the whole forest," Huffy Tuffy said. Why Huffy said he was even stronger than Mus-

cle Monkey, and that he just wished he could meet up with Muscle Monkey right then and there and then he would show Muscle Monkey and everyone else how good a fighter he was. "Oh Muscle Monkey!" Mugwump called. "Wake up and come out of the bushes. Huffy Tuffy wants to fight with you!"

When Huffy Tuffy heard this way he ran on down the Elephant Path, because Muscle Monkey was the somebody he was really afraid to fight. Mugwump and Daddy Ringtail laughed about it because Muscle Monkey wasn't there asleep in the bushes at all. But that is the way that Mugwump got out of trouble - by being smarter than Huffy Tuffy. I guess if people are smart like Mugwump, they will stay out of fights all right, because even the somebody that wins often gets hurt. Happy day!

Velvin Lumber Firm Ready For Banner Year Of Building

The J. C. Velvin Lumber Company, 204 North Fort Worth Street, has dropped the initials "J. C." from the name and the firm will be known hereafter as the "Velvin Lumber Company."

The Velvin Lumber Company now has durable redwood lumber, ideal for outdoor trimming on homes, available in large quantities.

A material that won't rot when exposed to the outside elements, the lumber was obtained by Velvin in keeping with his company's plan to obtain quality materials for his many customers.

DuPont paints for every purpose also are available. Color scheme plans, along with free job estimates, will be given by the firm to anyone desiring such information.

Wall Board Stocked

Fir wall board, a material used by many persons for interior decoration work, is stocked by Velvin Lumber Company.

A reliable Midland firm since 1937, Velvin Lumber Company formerly was known as the Velvin-Strauch Lumber Company before J. C. Velvin acquired sole interest in 1939.

Materials supplied by the firm can be used in many of Midland's newer and finer residences. Whether you need materials to build a new home or for repair of an old one, you should drop in and look over the company's stock.

With Midland apparently headed for another record year of building, Velvin Lumber Company is prepared to do its part to make the year a success.

Before you build, stop in and look over the wide selection of materials available at the company. You'll be well pleased with the quality of the materials.

Pictured with four of the concern's trucks are Morris Snider, co-owner, center; Frank Whitley, driver and service man, left, and Paul Barfield, driver. In addition to providing butane service, the firm has a large stock of plumbing supplies, including hot water heaters. The dial number is 3-3451.

Kirby Vacuum Cleaner Said To Be 'Busiest In World'

The Kirby Vacuum Cleaner, with its eight complete units, is the busiest cleaner in the world, says C. C. Sides, Midland distributor.

James B. Kirby invented the first Kirby Vacuum cleaner and has devoted his lifetime to making the Kirby superior in quality.

For example, the cleaner contains 88 exclusive patents.

And the most important feature is that Midland residents are fortunate in having a Kirby Vacuum Cleaner Company branch at 203 South Main Street, which is fully qualified to provide top-notch service and information.

Services which the new eight-unit Kirby Vacuum Cleaner provides are listed, as follows:

1. Crystallator or Demolter for furs, suits, overcoats, sweaters, caps, gowns, pillows, blankets, comforters, bathing suit, mufflers and other woollens and fabrics.
2. Spray and Suds-O-Gun for applying lacquers, paints, insecticides, floor wax, antiseptic . . . atomizes any liquid. With the Suds-O-Gun attached, extra-dry suds for the shampooing of rugs, tapestries and upholstered furniture may be provided.
3. A portable unit with reaching tubes added which makes it possible to reach the ceilings, moldings, lighting fixtures and doors.
4. Cleans mattresses, heavy thick cushions, upholstered furniture and carpeted stairways.
5. Dandy rug cleaner with the special Sani-Empitor, the Kirby way of emptying dirt.
6. Electric Floor Duster for linoleum, cement, tile, or hardwood floors.
7. Power Polisher, optional equipment which may be used on linoleum, ceramic tile, or hardwood floors, insulating covered walls, sink or table tops.
8. Sheetting buffing wheel for polishing sporting equipment and household metals.

C. C. Sides, Midland distributor for Kirby Vacuum Cleaners, says "I think the Kirby cleaner tops them all."

Sides extends a special invitation to Midland residents to telephone him at No. 4-6581 for a free demonstration or information.

Pecos Scout Drive Best In Council

PECOS—Pecos Boy Scout workers learned Tuesday that they compiled the best record in the Buffalo Trail Council during the annual fund drive.

Committeemen collected a total of \$7,237 during the 10-day period. This is \$700 above the announced quota for Pecos.

Bill Turpin, captain of the team that turned in \$437, was awarded a new hat for placing first. Clifford Johnson took individual honors with a collection of \$241. Receiving a prize along with Johnson was Mrs. Joe Ater, the only woman captain in the campaign.

Now They're Discovering Land Over Oil In Texas' Vast Areas

AUSTIN—Next best to discovering oil under land might be discovering land over the oil.

That's what they're doing in big, spacious Texas.

You might think in the 130 years since Stephen F. Austin brought his first colony to Texas all land claims would be pretty well settled.

But in the last three weeks the state has upheld claims to land vacancies turned up smack in the middle of rich oil lands.

On one claim were eight producing wells.

There is no particular trick to discovering vacant acreage—though the procedure is a far cry from the way our forefathers did it with exploring parties blazing trails through uncharted lands.

All you need to do now is to scramble through dusty old land survey records, turn up some uncorrected errors, run new surveys to prove there is more land than the old surveys covered—and you have yourself a vacancy claim.

It helps, of course, if you're a lawyer, a civil engineer, or both. But amateurs also have hit pay dirt.

It was a 78-year-old survey that gave rise to a recent claim by Fort Worth Attorney James C. Wilson Jr. to 200 acres in the heart of West Texas' Tex Harvey oil field. The old survey had run two nearly parallel lines about a 40-mile stretch in the area and then abandoned one of them. Later surveys frequently tied into the abandoned line, leaving the area between the abandoned line and the adopted line unrecorded in existing deeds.

Wilson's claim gathered up 13 strips of land along the 40-mile stretch that had been so skipped through the years. They ranged in length from a half to one mile

Andrews Man Dies In Trailer House Fire

ANDREWS—Chester W. Buck, 51, was burned fatally here Sunday night in a blaze which destroyed his trailer home. He had been a resident of Andrews five years and was employed by the Parker Drilling Company.

Funeral services were held at 2 p. m. Tuesday in the Emmanuel Baptist Church, with the Rev. H. F. James officiating. Interment was to be in the Andrews Cemetery.

Survivors include the widow; three daughters, Mrs. Jessie Lou Freeman of Lott, Texas, and Julene and Wanda Gene of Andrews; two sons, Veddie and Varner of Midland, and a brother, Sylvester of Childress.

RECEIVES MINOR SURGERY

Brenda Lu Brown, 13-month-old daughter of Mr. and Mrs. George T. Brown, was admitted to Western Clinic-Hospital Monday morning for minor surgery.

man found 200 acres bristling with eight wells in the Scurry County oil field.

The claimants don't get the vacant land just by discovering it. They do get automatically one-sixteenth mineral interest in it, however, and the state also retains a mineral interest.

State Sets Price

Once the vacancy is turned up, the state sets a price on it—exclusive of mineral value—and offers it to the adjoining land owner who likely thought he owned it in the first place. The price on the three recent discoveries ranged from \$20 to \$50 an acre. Had law permitted consideration of the oil, the price would likely have been more nearly \$500 an acre, oil men believe. The price restricting law is designed to encourage vacancy hunting, since the state benefits as well as the vacancy claimant.

Should the adjoining land owner not purchase the land, the state may then sell it to the vacancy claimant if it is not within five miles of oil production. If within the five-mile zone, the claimant may lease it only.

Though vacancies are frequently turned up—enough to keep a full-time employee busy in the Texas Land Office—the three recent ones probably attracted more attention than any since 21 wells were found on vacant acreage in the big East Texas field 10 years ago.

At one time, vacancy hunting resembled land-rushes. Whenever an oil field was discovered, many would-be hunters filed claims on every property line without bothering to find evidence of any actual vacancy. Oil operators often would then pay them off to drop their claims. The payoff would usually satisfy such claimants.

Texas laws have since been tightened, however, to discourage this type of operation and vacancy hunting continues on an entirely respectable—and often profitable—scale.
