A Legislative Peak

The Senate's thumping 66 to 10 ratification of the Japanese Peace Treaty represents the "greatest deliberative body in the world" in one of its more enlightened moods. These have not been too frequent in recent times.

The treaty with Japan, already approved by five other countries, is a new departure in peace pacts. It is not vindictive and punitive. It is designed to promote among the Japanese a wholesome growth of democracy, a sound, self-sustaining economy and a friendly partnership with the free nations in the battle against communism.

Unquestionably the pact is not perfect. It represents the range of agreement that was possible among all the peace-making powers. No country will be wholly satisfied. If any were, the others would be dissatisfied,

CHRYSLER FirePower is so much more than HORSEPOWER

It's worth remembering that today's Chrysler V-8 is not a "warmed-over" engine but basically brand new . . . the first truly new type engine of modern times. It does, indeed, open new horsepower potentials, but what it can mean to you goes way beyond that...

FirePower gives your gasoline a better place to work . . . the first hemispherical combustion chamber in a stock-car engine. It makes possible more power from every drop of gas. You feel it the minute you open up a Chrysler, in greater accelerating power than you've ever had at your command . . : FirePower is also a better-built engine throughout. It doesn't require premium fuel. It runs with less waste; less heat, less wear, less carbon deposit than other type engines can do. More of your gasoline's energy is turned into actual road power, greater reserve for passing and top speeds when needed . . .

Why not drive this revolutionary new-type engine, and feel its wonderful difference for yourself? Let your Chrysler dealer show you how much more than horsepower your money can buy in the engine Chrysler has designed from scratch to do an engine's job better, longer, and more efficiently than previous engines can hope to do!

While gone, however, we did view the Midland Indians in eight exhibition games, saw them win five and, being Zeke Bonura's roommate part of the trip, we heard a lot of baseball.

Bonura, always with the diamond game on his mind, talked willingly

An example of this came one night after the Tribe had defeated Lafayette, La., 6 to 3, with the aid of a pinch-hit double by Rookie Bobby

After the game, we retired to our bunk, smoked a good-night cigarette, nched the pillow and settled down for a rice snooze Just as the sandman started to sprinkle his sleep magic on us, the

Twenty minutes and two eigarettes later we picked up a detective magazine read a few lines and sighed comfortably when Bonura turned out the light and crawled back into bed "Now," we thought, "blessed sleep."

We failed to reckon with the baseball mind of this Midland manager Suddenly Bonura boiled upright in bed and roared: "Larry, know what I'm gonna do? I'm gonna stick that kid in right field for a look one of these games."

We muttered that was quite all right with us, that Bonura could stick Gordon anywhere he wanted to. Only, we hinted, we were sleepy. ARE CLASSIFIED ADS SO LITTLE? Classified Ads are little because

they need not be big to get attention. Classified Ad readers are Interested only in what the Classified Ads offer-not their size. Besides, a small Classified Adcosts very little. A 15 word ad four days costs less than a carton of cigarettes.
