Soon the Korean war will be two years old. Since the truce talks began, about two weeks after the first anniversary, it is fair to say the second year largely has added up to stalemate.

Yet there is something terribly cruel in such a view of this strangest of all wars. Ie seems to imply that nothing is happening, that no blood is being shed. Still we all know this is not so, that casualty lists continue to be issued, that the total of men killed or wounded rises weekly by blocks of a hundred or more.

If you stop and think a moment, you realize that this war is no stalemate to the families of men whose names appear on those lists. It is bitter combat, with the full horror that surrounds any other war we have ever fought.

Equality of sacrifice really is impossible of attainment in war. No matter how noble the man feels who gives up a soft office job and heads for the plane factory or steel mill, he is not in the same category with the man who is living in mud and spilling his blood on the battle-

new automobile, we'll tell you this: The price on this one will open your eyes.

It's the price of the six-passenger, two-door Special—ready to roll.

When you put this price against the local delivered prices of other cars that folks usually associate with Buick-you'll have a hard time finding a single one as low.

When you put this price against what you'll pay for cars with the reputation of being "lower priced"-you'll find why this Buick gives them such keen competition.

And-if you want to go in for extras-you can still add up what goes on the bill of sale of other cars and a Buick-you'll find out that Buick's an even greater buy.

We know that price is important to a lot of folks, especially with the price of groceriesand even baby shoes-where they are today.

But you also want some fun for your moneyand that's where a Buick really shines.

Just wait till you give a gentle nudge to the

power that's under that big, broad hood and feel your shoulders sink back as this beauty takes off.

You'll feel like the million dollars it cost to perfect its ride, when you sample the steady smoothness of its gait.

It's eager, alert, alive-makes each mile a new experience.
