## Brennand To Dig Deep Test In Midland

Robert S. Brennand, Jr., Midland independent oil operator has paid in excess of \$50 per acre cash for an oil and gas lease on a checker-board spread of 2,532 acres in Central-West Midland County.

In addition he has agreed to start drilling on a 10,000-foot wildcat to test the Pennsylvanian lime at some point on the spread by or before August 20.

**Taken From Tester**  
The lease was taken from H. B. (Wood) Foster, Midland County ranchman. Foster retained the lease on the parcels of land in his ranch on which Brennand did not get the oil and gas rights.

Brennand says the wildcat called for in the trade will be located in the southwest quarter of section 11, block 41, T-2-S, T&P survey.

He plans to have digging underway at that project by July 15. It is to be carried as Brennand No. 1 Foster.

**Near Warfield**  
The drillsite will be two miles west of Warfield and two and one-half miles northwest of the nearest completed oil wells in the Parks, (Pennsylvanian), field.

It is approximately one and one-half miles east of the west line of Midland County.

Brennand leases secured from Foster are all in block 41, T-1-S, T&P survey.

**Tracts Included**  
Included was the east half and the southwest quarter of section 3; all of section 10 except the north half of the northwest quarter; all of section 11, except the north half of the northeast quarter; the north 154.8 acres of section 14; an undivided two-thirds interest in the west half and the southeast quarter of sections 1 and 2 and the north 178 acres of the east half of section 12.

In addition to receiving in excess of \$50.00 per acre cash for the leases sold to Brennand, Foster also retained a 1/16th override on those leases. The override is out of seven-eighths of any and all oil which may be produced in the Brennand leases.

## Superior Finals Devonian Opener In SW Midland

The Superior Oil Company No. 4-16 Windham has been completed as a Devonian discovery in the Pegasus-multipay field of Southwest Midland County.

Operator reported a daily flowing potential of 153 barrels of 49-gravity oil through a 16/64-inch tubing choke and from perforations at 12,333-415 feet. Gas-oil ratio was 1-438-1.

This is a dual completion with the Ellenburger. No. 4-16 Windham recently was completed as a flow-producing well from that formation to extend the Pegasus field to the northeast.

Location is at the center of the northwest quarter of the northwest quarter of section 16, block 40, T-4-S, T&P survey.

## J. D. & W. Complete San Andres Opener In NW Andrews

Jackson, Douglas and Whitaker of Midland has completed a discovery from the San Andres-Permian at their No. 1 Evelyn Linsberry, Northwest Andrews County wildcat.

The new producer and new field opener is 17 miles northwest of the town of Andrews. It pumped a net of 106 barrels of oil per day on the official potential test.

An additional 26.48 barrels of water were produced on the completion test.

**From Perforated Zone**  
The production is from perforated sections at 4,587-4,635 feet and at 4,690-90 feet. The upper zone had been treated with 2,000 gallons of acid and the lower section had been washed with 500 gallons of hydrochloric acid and then treated with 200 gallons of regular acid.

Gas-oil ratio was 250-1. Gravity of the oil is 31.1 degrees. Calculated Potential

The 24-hour potential figure was calculated from an actual six-hour pumping gauge of 33.12 barrels of fluid, which was 80 per cent oil and 20 per cent salt water.

Location is 690 feet from south and east lines of section 18, block A-36, pd survey. It is five miles (Continued on Page 14)

## Blast, Blaze Raze Hotel; Fireman Hurt

Midland's Fire Chief J. M. Little was injured while fighting one of two blazes Thursday that required the services of all the department's men and equipment.

Only slight damage resulted in a blaze at the downtown Leggett Building at 5:15 p.m., but the Hotel Rambo, located outside the city limits on the Rankin Highway, was a total loss from an explosion and fire at 11:35 p.m.

Chief Little suffered a cut on the left side of his face from broken glass while combating the Leggett Building fire. Emergency treatment was given at Midland Memorial Hospital. He was reported to be suffering complications and pain from the injury Friday morning.

The injury was received while Chief Little was climbing a ladder to the third floor, where the blaze originated, and struck a neon sign. A piece of the glass embedded itself in his cheek.

Firemen said workmen were "burning" paint with a torch on window casings of a third-floor office, preparatory to repainting, and the old paint ignited.

Slight damage was confined to window casings in one office, firemen said.

**Destruction Complete**  
Dr. Waldo L. Leggett is owner of the building.

A 13-room hotel of frame construction, property of J. D. Rambo, was almost totally destroyed in an explosion and fire at 11:35 p.m.

Firemen said the hotel had been closed recently for a remodeling program. It was believed a pilot light on a butane gas water heater ignited accumulated gas in the building, resulting in the explosion.

Impact of the explosion resulted in the front door of the building being blown into the highway and glass was blown from the windows, firemen said.

People living in the neighborhood were roused from sleep by the noise of the explosion and turned in an alarm.

A temporary traffic snarl resulted on the Rankin Highway.

The fire department answered the alarm with both trucks, but the building was "a mass of flames" by the time firemen arrived.

A total of 1,000 feet of hose was laid and firemen fought the blaze three hours.

An icehouse to the north of the hotel was scorched, but saved by firemen "wetting down" the building with water.

Rambo was in Fort Worth on a business trip and could not be contacted as to estimated damage and insurance coverage, firemen said Friday noon.

## 35,000 Houston Children To Get Injections Of GG

HOUSTON—(AP)—An estimated 35,000 Houston children will participate in a giant experiment with a blood medicine researchers think may prevent paralysis due to polio.

The mass experiment was announced Friday by researchers from the University of Pittsburgh. It will be financed—at an estimated cost of \$500,000—by the National Foundation for Infantile Paralysis.

The inoculations of the children—aged one to six—will begin next Wednesday at eight clinics.

Half of the children in the experiment will be given the blood medicine and the other half will get an injection that looks like Gamma Globulin, but actually will be a shot of gelatin.

## Minister, Wife Thank God On Return Of Kidnaped Son

LEVELLAND—(AP)—While the Rev. and Mrs. Anthem Wade got re-acquainted with their young son Friday, charges of kidnaping the boy were filed in Lubbock against a young couple.

Johnny Wade, three, ran into his mother's arms a few minutes after midnight Friday. Thursday, he had cried when officers took him from the arms of the couple with whom he had lived seven weeks—since he was abducted last May 4 from the front porch of his home in Astar, N. M.

Charges of kidnaping were filed against Fred Rodgers Elrod, 25, and his wife, Mrs. Tommie Nell Elrod, 22. They were sworn to by Aubrey Elliott, resident special agent for the FBI in Lubbock and were filed before Mrs. Olive Fluitt, U. S. commissioner, Lubbock Division of the Northern Federal District of Texas.

Bonds of \$7,500 each were set in Federal Court at Lubbock when the Elrods were arraigned Friday. They entered no pleas and waived a preliminary hearing. In lieu of bond, they are being held in the Lubbock County jail.

Both have admitted in signed statements that they took the boy because Mrs. Elrod was attracted to him.

**Always Wanted One**  
"I once kept a child that put me in mind of this one," Mrs. Elrod told Editor Charles Dickey of the Hockley County Herald. "I tried to adopt it but was unable to. I always wanted a child but have been unable to have one."

Mr. and Mrs. Wade drove here Thursday. Johnny, husky, brown-haired, and blue-eyed, played at the home of his uncle, Jim Wyman, until they arrived.

Mrs. Wade approached the boy first as he walked down the steps into the grassy front yard. He wore the same red T-shirt and blue overalls as when last seen. His mother knelt before him and held out her arms.

"Hello, Johnny," she said. After a brief hesitation, Johnny walked into her embrace. He hugged her neck. And when his father came up to them, he got a hug, too. Members of the family crowded around. Talk died down and there was a prayer.

Wade, a Baptist missionary, thanked God for giving the little boy back into his keeping. He prayed that he and his wife would be worthy of the charge.

The parents shed no tears, but the eyes of those around them were moist.

The couple said they planned to remain here for several days. They said they had no other immediate plans.

Brig. Gen. Joe W. Kelly of Fort Worth, who was in command, said the trip across the Atlantic went off "very smoothly—without incident." It was described as a "routine training flight."

## Fresh State Prison Riot Is Put Down

EDDYVILLE, KY.—(AP)—Warden Jess Buchanan declared shortly before noon Friday that a second rioting at the state prison within 24 hours had been put down by prison guards.

EDDYVILLE, KY.—(AP)—A fresh riot broke out at the state prison Friday, and state police in Mayfield described it as "bloodier than yesterday" when eight convicts and a guard were injured.

Reports said several persons had been injured in the new outbreak, which came hardly 12 hours after 300 prisoners ended a day-long rebellion.

About 25 defiant convicts took over the commissary building Friday.

In announcing this at Frankfort, Deputy State Welfare Commissioner Weldon Jones said, "We don't know how serious the situation is, but we are going to settle this thing one way or the other."

State police were being recalled from Paducah.

Warden Jess Buchanan went to the commissary building after telephoning Frankfort.

Three hundred defiant prisoners, advised by a chaplain not to die in vain, had ended a one-day rebellion at the prison Thursday night.

## Planes Pile More Bombs On Korean Generating Plants

SEOUL, KOREA—(AP)—Allied fighter bombers heaped new destruction on Communist hydro-electric plants in North Korea Thursday night. Targets included two big generating stations which previously had been spared.

UN infantrymen drove two Chinese battalions off two hills on the Western Front Thursday, at times using bayonets and flame throwers to rout the Reds from their bunkers.

A Fifth Air Force spokesman called the 150-plane raid on the Communist North Korean power network a mopping up operation, but the number of planes involved and damage reported by returning pilots were impressive.

Two power plants at Changjin (Chosin) were hit for the first time. Other Air Force and Marine fighter bombers dumped bombs and rockets on a third Changjin generating station and one at Fusan which already had been smashed in raids Monday and Tuesday.

## Conferees Agree On Deficiency Bill

WASHINGTON—(AP)—House conferees reached agreement Friday on a compromise \$1,413,380,000 deficiency bill with most of that money designed to pay the costs of the Korean War.

The measure carries \$1,128,000,000 for the Army, \$285,000,000 for the Navy, and \$200,380,000 for the Air Force. The funds are needed largely to pay extra expenses in the services incurred in the Korean fighting.

## Cool Breezes Relieve Some Areas Friday

By The Associated Press  
A mass of cool air brought relief from intense heat to many northern areas Friday.

But no break was in sight for the sun-baked southern half of the nation.

The toll of deaths in three days of record-breaking heat wound to 82.

Thousands of cases of heat prostration and heat exhaustion were reported.

A cooling breeze fanned Albany, N. Y. Col. James M. Osman, Weather Bureau meteorologist in New York City, happily reported that "the cool air is coming quite steadily from Eastern Canada."

Relief also was expected in New Jersey.

Temperatures generally were around the 100-degree mark again Thursday in most of the vast area hit by June's oppressive weather. All-time high records for the date and for June were topped in many cities.

**Temperatures Drop**  
But the cool air which earlier moved across the Canadian border into the Northern Plains pushed southward across the Great Lakes region and into parts of Indiana, Illinois and Ohio. Temperatures, in the 90's three days, dropped as much as 20 degrees.

A storm swept into New England from Canada Thursday night and within minutes temperatures tumbled as much as 50 degrees from record highs which reached 102 degrees during the day.

At the same time, violent thunderstorms hit eastern parts of New York State and cooled off the walled areas. There were drops in readings from 90 to around 70 in less than 30 minutes.

New Jersey reported 10 deaths from the effects of the heat in the last two days. There were seven heat deaths each in Ohio and Pennsylvania; four each in New York and Massachusetts; three each in Maryland and Tennessee; two in Indiana and one each in Alabama, Georgia, Iowa and South Carolina.

**Hospitals Crowded**  
Hospitals in the Washington, D. C. area reported 123 persons had been treated for heat prostration in the last two days. The number included 15 firemen who were severely fighting a warehouse fire in 101-degree weather Thursday.

Thirty-five soldiers at Camp Gordon, Augusta, Ga., were treated at the post hospital Thursday for heat prostration. The mercury climbed to a scorching 107, one of the highest readings in the country.

## REDS PICK ON THE BUGS, TOO

WASHINGTON—(AP)—The Communists have revived for another summer the charge that the United States is to blame for the annual appearance of potato bugs in Czechoslovakia.

"The Colorado beetle, which is being brought into our country by the Western imperialists, has again appeared in the Karlovy Vary region," said a domestic broadcast by the Prague official radio reported Friday by U. S. government messengers.

## Rate Increase Asked On Fourth Class Mail

WASHINGTON—(AP)—Postmaster General Donaldson asked the Interstate Commerce Commission Friday to grant another general advance in parcel post rates.

The petition did not say just how much will be asked as an increase.

He said merely that fourth class mail service is not paying its way, despite a general 25 per cent increase in parcel post rates granted by the commission last year.

## Character, Not Economics, Writes Fate Of Nation, Says McCamey CC Speaker

By JIM LINDSEY  
McCAMEY—The McCamey Chamber of Commerce Thursday night reviewed a record year of achievement and pointed to an even more ambitious program.

James A. Rutherford, retiring president, reported a higher cash outlay and other accomplishments in his message at the annual barbecue banquet of the organization in the McCamey Park building.

R. E. Ruble was announced as the new president. Joining Ruble on the unanimously-approved slate of officers were T. A. Pauley, first vice president; C. C. Carl, second vice president, and Ross Smith, treasurer.

New directors elected are: Horace Carter, J. A. Rutherford, Joe Conger, Jr., W. Kletzman and Horace Slaughter. Holdover directors are Mark Hasley, George Ramer, Dr. J. M. Slaughter, and B. F. McDougal.

Mrs. Edith Ash, who has resigned as secretary-manager, received a gift of luggage in appreciation for her work during the last several months. She is to join her husband in Venezuela, where he has employment with an oil concern. He was transferred from Saudi Arabia.

At least eight neighboring cities were represented among the guests. Midland and Crane had the largest representation with others coming from Monahans, Odessa, Crane, Pecos, Fort Stockton, San Angelo and Rankin.

Oliver Jacobson introduced the out-of-town guests. They included Senator Dorsey Hardeman of San Angelo and Helen Brown of Midland.

Associate Justice of the Supreme Court Will Wilson declared a nation's fate is controlled by leadership and not the laws of economics in his featured address.

"Battles are won by the courage of the troops and general," Wilson said. "Assembly lines and supply lines do not win battles."

The fate of America will be decided by the character of leadership aimed and not by economic forces.

laws of economics, the former district attorney continued.

As an example, Wilson cited de Gaulle by the British Empire's leadership which has reduced the Kingdom to a mere shell of its former world-wide supremacy.

Calling attention to American leadership failures which changed the course of this nation, Wilson urged his audience to help elect a strong president.

His address was entitled "What the Selection of a President Means to You." County Attorney John A. Menefee introduced Wilson.

The Rev. J. W. Griffin, pastor of the First Methodist Church, gave the invocation and benediction. Mrs. J. C. Carl played flute solos and Nancy Shurley sang two numbers. Piano accompaniment was Hill Martin of Rankin.

Midlanders attending the banquet included Mr. and Mrs. W. A. Huddleston, Mr. and Mrs. Brown, School Supt. Frank Moore, and Chamber of Commerce Manager Delbert DeWitt.

## Youth Center Bond Issue Up For Rankin Decision

RANKIN—A bond issue election will be held here Saturday with funds scheduled for construction of youth center buildings and negro neighborhood houses.

The Rankin Adult Council, sponsors of the project, said that bonds would be retired from 25 cents of the permanent park fund. In 1951, about 13 cents of the 25 cents was used to retire the present park improvement bonds. If the bond issue is approved, part of the remaining 12 cents in the fund would be used to retire the bonds without raising the fund's rate, council officials said. The proposed youth center would

include a game room, a social hall and smaller social room, and a kitchen.

Also included in the proposed project is a standard size Little House for boy and girl scouts to conduct meetings. A paved patio with an outdoor fireplace would provide a place for skating and picnic parties.

No stage is planned for the youth center buildings as there are stages available in the community, but a stage is included in plans for the negro neighborhood houses.

### 88-Year-Old Man Charged In Shooting

HOUSTON—(AP)—Walter G. Patton, 88, was charged with murder Thursday in the fatal shooting of his former son-in-law, James L. Toole, 42-year-old house painter.

Patton, in a written statement, said Toole had threatened "to kill the whole bunch of us."

### Ranchland Hill Swimming Pool To Open Saturday

"Little Miss West Texas" will be crowned at formal ceremonies of the Ranchland Hill Country Club's new swimming pool Saturday afternoon.

Top age for title competition is six.

A second parade of beauties will feature adult modeling Gay Nineties beach apparel.

The program will get underway at 4:45 p.m. with a water show, swimming and diving exhibition.

Mayor Perry Pickett will speak the words formally opening events, and Delbert Downing, Chamber of Commerce manager, will serve as master of ceremonies.

A barbecue and dance are scheduled afterwards.

### Goodpastor Services Conducted In Weslaco

Funeral services for Mrs. R. W. Goodpastor, formerly of Midland, were held Sunday from the Weldon Martin Chapel in Weslaco. Friends here learned Friday. Interment was in a Weslaco cemetery.

Mrs. Goodpastor died in a Mercedes Hospital Saturday.

Survivors include her husband; one daughter, Yvonne Goodpastor, Weslaco and three sons, Charles Goodpastor, stationed at Barksdale Air Base, Shreveport, La.; Howard Goodpastor, Jr., stationed with the U. S. Navy; and Bobby Goodpastor, Weslaco.

### Lipham Services Held At Kermit

KERMIT—Funeral services were to be held at 4 p.m. Friday for Mrs. J. M. Lipham, 48, resident of Kermit for 16 years.

Mrs. Lipham died Thursday in Winkler County Hospital, after an extended illness.

Survivors include her husband, two daughters and a son.

## \* JOHNSON IN HOLLYWOOD \*

### Ex-Child Star's Illusions Gone, She Puts OK On Comedy Roles

By ERSKINE JOHNSON  
NEA Staff Correspondent

HOLLYWOOD — Guys and Dolls: Fear of how Hollywood would use her as a grownup star, Mitzi Green confessed, kept her off the screen until this year.

With roles in "Abbott and Costello Lost in Alaska" and "Bloodhounds of Broadway" to her credit now that she's over her jitters about Hollywood, the one-time child star told me:

"I had to break down some illusions about myself. I'd been a child star. And I'd been a star after that—in night clubs and on the stage. I think I saw myself as a Carole Lombard type. Now I know better. I'll be very happy just to get good comedy roles."

Mitzi to the "Did you make a fortune as a child star?" question: "I made \$400 a week at first. Then \$800. But just when I was ready to hit the big money, \$1,200 a week, they let me go. I was too old! I was all of 11 years old."

Slager Turned Actor

Keith Andes, the ladies' new heart throb—he plays Marilyn Monroe's boy friend in "Clash by Night" and just about steals the film—has shelved his singing career to manhandle movie dolls.

Swashbuckling is as the bare-chested hero with Linda Darnell as his lady fair in "Blackbeard the Pirate." Keith dismissed his warbling in a Broadway revival of "The Chocolate Soldier" and in "Kiss Me Kate" with:

"RKO hired me as a singer but I'm very happy about being turned into an actor. After I'm established as an actor maybe I'll sing, but I doubt it."

Keith spent a year under contract to David O. Selznick without facing a camera. Selznick spotted him in "Winged Victory." Then RKO signed him and another year went by before he was cast in "Clash by Night."

If Jean Simmons wins her battle to leave RKO this month, she won't sign on the dotted line with any other studio.

Not for a year or more, anyhow.

I want to free-lance," gorgeous Jean—with the shortest hairdo this side of Jerry Lewis—told me on RKO's "Beautiful, But Dangerous" set. "I've been under contract to studios since I was 14. I'd like to be free for a little bit—just to settle down and get my feet where I want to put them."

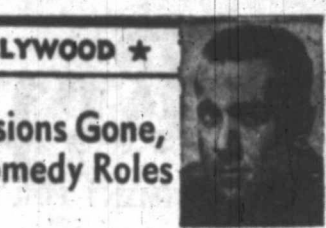

Some of his other co-stars may not have liked Bob Mitchum, but Jean's jumping for joy at the chance to work with him and even calls him "a great actor."

"Why the mug is wonderful in comedy," she gushed. "He's a kind of a Crosby actor—relaxed and casual. And that's the hardest kind of actor to be."

Shedders At Killers Role

Richard Widmark's shuddering about it, but he's Tommy Udo again. Tommy, the maniacal killer with the unholy laugh created by Wildmark for "Kiss of Death" in 1946, is back, but with another name for one of the five O'Henry stories in Fox's "Bagdad on the Subway."

Except for the name Tommy's

the same—black shirt, white tie, big teeth and that laugh.

"I didn't want to play Tommy again," Widmark confessed on the set of his new comedy-drama "Big Man," "because it's taken me so long to escape him. Repeating a character is not very effective. But the studio insisted on it and argued that it was only for a 20-minute sequence and not in a full-length feature."

"But this, I assure you, is the end of Tommy Udo. I'll never play him again."

It's getting tougher and tougher on poor Maureen O'Hara—there just aren't enough derring-do lads around to qualify as leading men in her swashbuckling flickers.

Leaping, fighting, rolling Maureen, who's at the action stuff again in "Castle Kate," makes most male stars look about as energetic as demonstrators of contour chairs.

And she's complaining: "Movies thrived on stars like Doug Fairbanks, Ronald Colman and Ty Power, who could take off their shirts, swing on ropes, leap from balcony to balcony and ride like blazes. So many actors these days can play in psychological dramas. But they can't do anything else."

"We had to hold off making 'Against All Flags' for two years until Errol Flynn was available. And do you know why? Nobody else could handle the role."

A movie kid who's crazy about submarines has named his Great Dane "Periscope." Goes around the studio all day shouting to the pooch, "Down Periscope."

Good news for Belita in Paris. Her French medicos say that her broken leg is now as good as new and that she can skate again.

## Opry Ticket Sales Brisk

Brisk sale of advance tickets continued Friday at the Midland Chamber of Commerce office for the appearance here of George Morgan and other outstanding stars of the Grand Ole Opry, who will perform at 8:30 p.m. Monday at Memorial Stadium.

The advance ticket sale will be through Monday for the two-hour show sponsored by the Civitan Club. Should weather force the show to be moved indoors, the scene will change to the Midland High School auditorium.

Morgan, famed for his "Candy Kisses," will head a troupe including the nation's leading steel guitarist, Jerry Byrd. The Callahan Brothers and their sons will provide comedy entertainment.

Jim Willis is chairman of the Civitan Club committee bringing the Grand Ole Opry stars here. He is assisted by Bob Whitehead and Harold Wallace.

Sacramento, California, was formerly called Sutter's Fort.

### Redpath Selected In Officers Club Post

Walter Beardsley has resigned as secretary-treasurer of the Midland Officers Club, effective July 1.

Beardsley had served as secretary-treasurer for the past two and one-half years. An increase in personal business was given as reason for resigning.

Vernon Redpath has been named to succeed Beardsley.

**Party Secretary Denies Taft Made Decision For GOP**  
WASHINGTON—(AP)—The secretary of the Republican National Committee said she made the decision to send Texas' GOP dispute over delegates to the National Committee before Sen. Robert Taft said that's what he wanted.

The secretary, Mrs. Charles P. Howard, told newsmen Thursday that she resents any implication that she waited for Taft's approval before she made a decision.

She said she made her decision in writing on June 16. It was released June 18.

"The release was held up," she said, "until Taft could get his statement out."

Before the release came out, Taft announced that he favored sending the Texas dispute to the National Committee.

**Evelyn Eckols, Melvin McEwen Wed In Rankin**

RANKIN—Evelyn Eckols and Melvin McEwen were married recently in the Methodist Church in Rankin. The Rev. Don Cochran officiated.

The bride is the daughter of Mr. and Mrs. J. D. Eckols of Rankin. McEwen is the son of Mr. and Mrs. D. O. McEwen of Rankin.

W. H. Martin played traditional wedding music and Mary Anderson sang "I Love You Truly" and "Because."

The church was decorated with white daisies, pastel gladioli and sweet peas and greenery.

The bride wore a white nylon crepe ballerina length dress with a portrait collar and sweetheart neckline. She carried a white Bible topped with a bouquet of white roses. She wore a white hat trimmed with seed pearls and blue shoes.

A reception was held in the Rankin Park Building. The table was centered with an arrangement of pink and purple larkspur and sweet peas and the bride cake. Arrangements of daisies decorated the reception room.

Those in the house party were June Ward, Jean Shaw, Ann Shaw, Bobby Barber and Kay McEwen.

After a wedding trip to New Mexico and Colorado the couple will be at home in Rankin.

A Down-To-Earth Step

The heralded Schuman plan, aimed at merging the coal and steel resources of Western Europe, is a reality at last. This is the first solid down-to-earth step toward the economic unification of the continent.

There is, of course, much still to be done before this program begins to work. But with ratification by the parliaments of all six participating countries, the last major political obstacle has been cleared.

Soon the foreign ministers of the six nations will meet to set up an organization and operating machinery. Then will come the grubby task of spelling out the plan in working detail—no easy chore for countries so diverse in make-up as France, West Germany, Italy, Belgium, The Netherlands and Luxembourg.

But the will and the spirit that have brought the Schuman plan this far presumably can carry it over the practical hurdles that lie ahead.

The program is a milestone in Europe's affairs because it is a frank recognition by the peoples of Western Europe that their economies closely are entwined and probably will work more effectively if actually integrated.

The Schuman plan is an admission that the artificiality of political borders in a continent so narrowly circumscribed geographically can only do harm to the living standards and security of the peoples affected.

Rare courage and far-sightedness were required of Western Europe's statesmen to push the plan to final adoption. They had to buck not only the inertia of centuries that has kept Europe divided, but the active sabotage of the Communist world.

No one pretends that this plan originated, however, through the wholly noble motives of European statesmen. French Foreign Minister Schuman, publicly credited as the program's author, had his own country's interests very much at heart when he proposed the merger.

France recognized that Germany's industrial might was reviving. It realized that unless some kind of curb was placed upon this power, the day might come once more when it would be unleashed against the French.

Hence the plan was offered not basically from altruistic motives but from France's selfish wish to protect itself. An integrated coal and steel industry under international control obviously could not be used to feed a German war machine.

The same motives underlie France's espousal of the six-nation European defense army. Fearing the rebirth of a German army, the French proposed an integrated force which would place German armed units under international safeguards.

But, actually, do these selfish motives tarnish the achievement of industrial and military unity? They do not. It is the goal that is important, not the motive that led to its attainment. Do we ask the philanthropist why he gives his millions?

With the approval of the Schuman plan, Western Europe has broken the mold of long centuries and is moving toward a unity that promises high reward.

The Washington Merry-Go-Round

By Drew Pearson

Drew Pearson says: Chicago Democratic boss promises Stevenson will be candidate; Illinois governor fears taint of machine backing; Senator Long makes tidelands deal with economy bloc.

WASHINGTON—Col. Jack Arvey, Democratic boss of Chicago, quietly is passing out word that "his man," meaning the governor of Illinois, has "consented to go" and definitely will be a candidate for the presidency.

This, if true and Arvey has the reputation of never going back on his word, is the most important development in the Democratic race since President Truman's Jefferson-Jackson dinner statement that he would not run again.

It means that with the backing of the President, and the support of such powerful Democratic wheel horses as Governor Dever in Wheeling, Mayor David Lawrence of Pittsburgh, and other big city Democrats, Stevenson undoubtedly can get the nomination.

But the thing Governor Stevenson has been worried about and one reason he has been holding off is just exactly this—the support of the President and the big city bosses. While he is a close personal friend of Jack Arvey's, and while he is on the friendliest terms with the President, he knows it would be political suicide for him to be stamped as the nominee of the big city machines.

Adlai's Dilemma: He knows that a large number of independent Democrats this year will vote with the Republicans for "change"—if the Democrats put up a candidate too close to the present Truman Administration. In other words, the Democratic candidate has got to be completely divorced from even the faintest connection with Trumanism in order to win.

That, so far, is one strength of Senator Kefauver. The public knows that Truman opposed him, and that Kefauver dazed back the big city machines. Kefauver's problem is that, while he could be elected in November more easily than any other Democrat, he can't be nominated in July without the support of the President.

Conversely, Adlai Stevenson can have the nomination for the asking but he won't be elected if he doesn't oppose the men who want to hand him the nomination.

President Truman doesn't know it, but if he will remove the big spread-eagle design at the side of his bathtub he will discover a secret inscription dedicated to him.

The answer may be that the Long family owns royalty rights on oil lands, under the water, off the Louisiana coast. When questioned regarding this, the senator said his father had left him six shares in the "Win or Lose Oil Company," each share valued at \$25,000, and a total of \$150,000, and that this includes royalty rights on 40 acres of offshore oil. His mother also owns additional shares.

He claimed, however, that no oil had been discovered on this tract and said he had notified the Senate Interior Committee of his holding so the Senate would know the extent of his personal interest.

One Man Rule: Most people don't realize how, under the Senate's outmoded seniority system, one man can delay and sometimes control vital legislation.

However, Senator McKellar of Tennessee now is pressing to bring Congress back for a summer session August 4, right after the convention—and colleagues claim that it's

—American Socialist leader Norman Thomas.

In our nation there are over 10,000,000 single men with problems of loneliness as serious as those which beset our early settlers.

—Bachelor Society of America member Jack Blatt.

I don't think that because a person is a member of Congress he should be treated any worse than other people.

We should quote to them (the Russians) not from our Washington and Lincoln, but from their Harzen and Turgenev and Gorki.

UN Armistice Offer To Reds Has Unusual, Stormy History

By PETER EDSON
NEA Washington Correspondent
WASHINGTON—A heap of controversy is piled up in two basic policy decisions which have been made by the United Nations on conduct of the Korean truce negotiations.

The first is that UN forces in Korea will continue to abide by the Geneva Convention of 1949 on the treatment of North Korean and Chinese Communist prisoners of war.

The second is the offer to permit Communist forces to build airfields in North Korea during a truce, in exchange for agreement that the United Nations will return to the Communists only those prisoners of war who wish to go back.

This is the background: In the early days of the Korean war, the guarding of captured North Koreans largely was entrusted to South Koreans. There were two main reasons. The first was that the South Koreans spoke the language of their captives and presumably knew how to handle them.

In this period there was little trouble from prisoners. But violations of the Geneva Convention with regard to humane treatment of prisoners were so numerous that Gen. Matthew B. Ridgway, then commanding the field forces, had to make a chance. The ROK's were withdrawn from guard duty and UN troops took over.

Republic of Korea forces never had heard of any Geneva Convention on the humane treatment of prisoners of war. When a Communist prisoner called some insult through the barbed wire to a South Korean guard, the South Korean simply turned around and shot him.

When the whole purpose of the Geneva Convention is humanitarian, says the U. S. State Department, it is unthinkable that governments will seek to use it as a means or justification for inflicting physical coercion or death upon prisoners who violently oppose repatriation.

The high moral ground of this decision generally has been supported by U. S. public opinion. It is, nevertheless, considered a high price to pay for allowing the Communists to rebuild airfields in North Korea during an armistice—if the Communists accept this deal.

General Ridgway is believed to have opposed this offer, even though he announced it last May 7. The reasoning is this:

At the present time Communist jet planes based in Manchuria can carry enough fuel to reach only the 38th parallel. Using reconstructed airfields in North Korea, they command all Korea.

With the buildup of Communist airpower to superiority, the Red hordes might be able to drive UN forces off the peninsula. If that should happen, Japan itself would be almost indefensible.

Beckworth To Talk Senate Race Here

Death in the Sierras

By Doris Hudson Moss
XVII
DAVID ROBERTS turned to look like the Curtis woman because I had seen her at State Headquarters in Sacramento.

"We slipped up there," David replied, as he and Duncan left the cave following the stretcher. "I bet he picked it up at the foot of that cliff where we found James and the dog. Thank goodness he didn't hurt anyone with it. He wouldn't have minded killing anybody, only he gambled that by assuming his charming and pedagogic manner he would fool us all. And he almost did."

Officer Marguard and Bob carried Mrs. Ordell to the Lodge. She was admirably calm and seemed almost relieved that the whole affair had ended as it had.

She had lived in constant fear of her husband. Behind a charming exterior and within an amiable mind the Professor's cruel self-centered, ruthless character was cleverly hidden. To his students in classrooms at the University he was a brilliant lecturer. To the world he was a charming member of the intelligentsia. But to his wife and to Bob, his brother, he was quite different.

James was Ordell's first cousin and Bob was the Professor's half brother. Mrs. Ordell tearfully confessed to me that he had beaten her.

"Then why on earth," I asked her tactlessly and almost furiously, "didn't you leave him or report him to the police?"

"I was afraid of him," she wept. "Then, too, I loved him. I knew that you can't understand that but when he was his charming self he was a kindly, intelligent, and delightful person."

David interrupted my talk with Mrs. Ordell, and took me gently by the arm and led me out onto the porch which overlooked the Lake. It was twilight, the kind that comes only at very high altitudes.

Around us the high Sierras were bathed in gold which turned to violet and deep rose on the lower slopes.

Why, I asked a weighty prominent Democratic politician, does the Democratic convention always come later than the Republican? Answer: "Because we're smarter."

As a matter of blunt fact the Republican convention has followed the Democratic only twice in history, and the last time was back in the '90s. But the reason is not that the Democrats are "smarter" or planned it that way, but the natural course of events and the fact the Republicans, for prestige purposes, like to come first.

This year, however, Guy Gabrielson, the chairman of the Republican national committee, cautiously sounded out the Democrats as to what they would think if the Republicans broke precedent and held their convention in August instead of July, i.e., later than the Democrats. The cagey reply he got was, "Then we'll hold ours in September."

The Democrats, in other words, think that there is a psychological advantage to coming second, particularly in this unprecedentedly crucial year. So they will meet in Chicago on July 21, a fortnight after the Republicans, and 1,230 shouting, steaming delegates will be there. Since the total is 1,230, the number necessary to nominate

is 616.

To analyze what will probably happen we have to start with the fact that Estes Kefauver is the strongest candidate. If Adlai Stevenson, between now and the convention, cannot be prevailed upon to run.

It may seem totally inconceivable that the coon-hatted Kefauver can be called "strongest" or even "strong," in that three different powerful groups oppose him so far—the Truman administration, the northern city machines, and the Southern regulars—any one of which would normally be crushing enough to kill any candidate leader than the Duke of Wellington.

But Kefauver has impressive voting power, he is growing in popularity all the time, and he probably will come into Chicago with around 300 delegates—more than any other Democratic candidate.

Why, then, if he is strongest, should the machine regulars want to stop him? The answer derives from one of the most piquant and crisscrossed oddities in American political life, namely that most professional politicians would rather lose with somebody they like than win with somebody they hate.

Kefauver still has a long way to go to reach 616. The problem for the bosses will be (a) to keep him from getting there, which means (b) that they will have to unite on a powerful enough opponent. Kefauver, they agree, is the man to beat. But you can't beat somebody

Three main points of focus: No matter who the Democratic candidate is, he'll pay lots of attention to women voters, left, to organized labor, center, and the farmers, right.

with nobody. Beat Kefauver with whom?

The first, obvious answer would be Stevenson. If Stevenson would not accept a draft, some would like Sen. Paul Douglas. But this presents a pungent difficulty in that, first, Douglas himself says that, first, he does not want to be president, and, second, he is one of the few prominent Democrats to have come out for — Kefauver! (Another, oddly enough, is Jimmy Roosevelt of California, who was for Eisenhower in 1948).

If Stevenson and Douglas are unavailable, if Harriman doesn't turn out to be strong enough, if Bob Kerr and Dick Russell are clearly out of the question, if Barkley (who would love to be president if he did not have to campaign) is too old, if favorite sons like Humphrey and McMahon remain mere favorite sons out in the provinces, if Chief Justice Vinson refuses to be tempted, if Speaker Sam Rayburn (who is 70) feels that he ought not run, who else is there? Who?

That is Kefauver's chief strength—not his voting power, but the grim absence of anybody else.

Truman? No, he is out, really out, and I am convinced that nothing in the world—not even the spectre of Bob Taft becoming president—will bring him in.

In conclusion we should perhaps mention three enormous pools of voters, aside from negroes, who will get particular attention from

the Democratic candidate no matter who he is. First, women. Second, labor. Third, the farmers.

There is no such thing as a rigid women's vote in this country. American women over 21 outnumber the men by roughly \$1 million to \$2 billion, but in 1948 many more men voted than women, roughly 27 million as against 23.

A higher proportion of women will, the prophets say, vote this year. Among the Democratic candidates, Kefauver will probably be the chief beneficiary of the women's

vote, because of his crusade—however ineffectual it may have been—against crime and gambling.

Labor is as hard to predict as the weather. There are about 15 million Americans in organized labor, but not all of them are voters by any means. In recent elections roughly two-thirds of the labor vote has gone Democratic; some Democratic labor leaders would claim more.

A great deal depends on who the Republican candidate is, as is only too obvious; labor (though it has criticized Eisenhower on occasion) would certainly prefer him to Taft.

Among the Democrats, labor probably would turn thumbs down brutally on Kerr and Russell, be on the fence in regard to Harriman and Kefauver, and actively, earnestly favor Stevenson or Barkley.

As to the farm vote, there has been a natural tendency for years

to think of it as always predominantly Republican; this is not necessarily true today.

Truman, be it remembered, won in 1948 partially at least by reason of the farm vote; he lost the tremendous industrial states of New York, New Jersey, Michigan and Pennsylvania, but he won Ohio, California, most of the West, Minnesota, Wisconsin, and even Iowa. Farmers, by and large, have prospered mightily under the New Deal and Fair Deal, and many of them will vote for continued price support. The ideal candidate, so far as the rural and other vote is concerned, would be one who could somehow keep prices up, and at the same time get taxes down.

In any case it is the individual voter, you and me, who is sovereign in this country, and who will finally decide. Many voters hope above all that they will get a clear choice between two good candidates, one conservative, one liberal.

## Army Deserter Who 'Hated' Officer Arrested In Texas

CROCKETT—(AP)—Wilbur Crenshaw, 46-year-old farm worker who deserted the Army nine years ago because he disliked a lieutenant, was in jail here Friday waiting to be picked up by the FBI.

Crenshaw—who admits he's illiterate—said he left the army because the young officer called him "an ignorant a.s.b."

He never went back, although he started to 17 times after he walked away from a Rockford, Ill., bus station one night in 1943.

Each time he thought he'd return to Camp Grant, near Rockford, he thought about the lieutenant. "I knew I couldn't face that lieutenant again," he said.

"If I saw him, I knew I would have to climb him. And if I did that I knew I'd get life," Crenshaw told a newsmen after Houston County Sheriff Loyd Lovell, a boyhood friend, arrested him Thursday.

Since he deserted, Crenshaw said, he worked on farms in Texas, California and Arkansas. Many times he returned to his home, Crockett, but no one ever asked and he never told how he left the wartime service.

After he was gone only 26 days he returned to the camp, got up to the gate, but lost courage to face the lieutenant, he said. He made 16 more trips to the camp—some of them after the war was over.

Each time, he said, his courage failed him.

Crenshaw said he felt relieved to be in jail and "was sure glad Lovell saw me."

"I hope wherever they send me I can go to school," he added.

And about that lieutenant, he said: "I don't know his name. I know he's from New Jersey though, 'cause he kept talking about Mottle."

**Midlander Charged In Odessa Hijacking Released On Bond**

ODESSA—Ferry Lynn Alley, 21, is at liberty on \$1,000 bond in connection with charges of hijacking the Travelers Courts here last Saturday.

Another Midlander, William Thurman (Buck) Buchan, 32, also charged in the robbery, remains in the Ector County Jail in lieu of bond.

Alley signed a statement admitting that he and Buchan robbed the courts of \$75 in cash and a check for \$28.31.

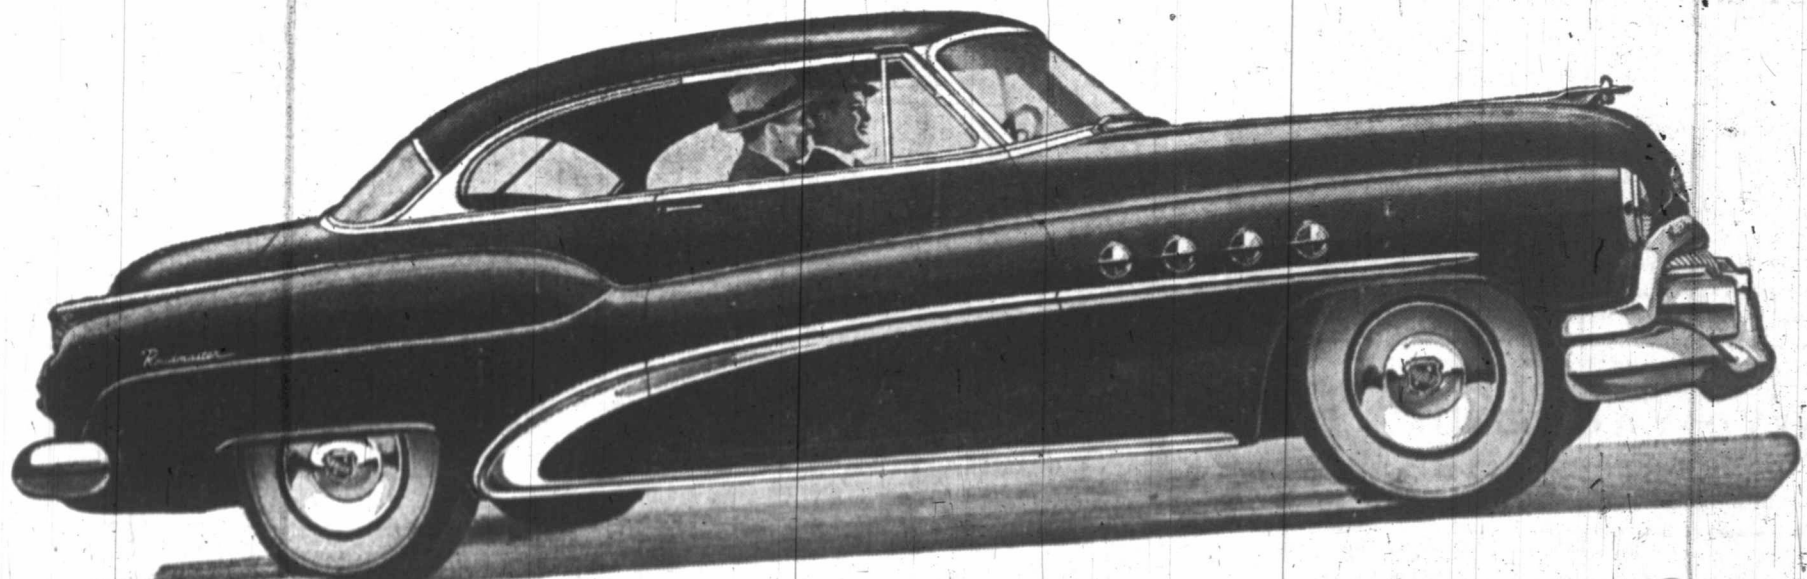

Three hours after the stick-up, they were arrested in an Odessa tavern.

## Have you tried BUICK'S POWER STEERING?

**HIGH-TAILING** down a broad straight road, you have that same sure sense of command that has always put such a thrill into piloting a great performer.

You're the boss. Your hands tell you so. It's the feel that so many folks who love to drive have come to know and enjoy.

This year, you also have at your command the highest horsepower in Buick history—and an Airpower carburetor, with two barrels in reserve to deliver an extra spurt when needed.

You have the size, the silence, the

smoothness that make this ROADMASTER so distinguished among fine cars.

Where then, you ask, does Power Steering† come in?

When you want to get into—or out of—a tight spot at the curb, Power Steering takes over the extra effort of turning the wheels, and you can forget the two-ton-plus of automobile you're handling.

When you want to turn around in a narrow space—Power Steering lets you get the last inch of benefit from Buick's short turning radius, because it makes the maneuver so easy.

When one front wheel hits a bump, a

chuckhole, loose sand or dirt at the edge of a road—Power Steering takes up the jerk—makes control of the wheel easier and therefore safer.

Many folks who have tried it tell us that Power Steering has added almost as much to the pleasure of owning a Buick as Dynaflo Drive.

When would you like to try it?

Equipment, accessories, trim and models are subject to change without notice. †Optional at extra cost on Roadmaster only.

## Daddy Ringtail And Dog-People

Many dogs are nothing but dogs. Other dogs are dog-people. They think and talk like people do. Any way, Dog-people was the name of a dog who was really people. He lived

far away in the Great Forest, there where Daddy Ringtail, your monkey friend lives up in the top of a very tall tree—in a monkey house. Now Dog-people—I mean Dog-people who lived there in the Great Forest—had always wanted to be

a policeman. He wanted to wear a policeman suit with a badge on it. He wanted to wear a policeman hat that was big and round and tall with another badge on it. How very handsome he would

There's nothing like having other people tell everybody what you're going to do, when maybe you're not too sure yourself. President Truman says Gen. Eisenhower will be so surrounded by Republican reactionaries he'll become one. Taft says Ike will make a Democrat me-too campaign because that's what Dewey will tell him to do. That leaves a big field for maneuverers.

look, he thought. I imagine you have never seen a policeman with a black ring drawn around his eye, but then you have never seen Dog-people. You won't know until I tell you that Dog-people had no teeth. Imagine! Not a single tooth grew in his mouth.

You can see, I guess, why Daddy Ringtail was very surprised to hear that Dog-people at last was wearing a policeman suit of the kind he had always wanted. Where had he got it? Daddy Ringtail asked him. Dog-people looked up and down the Elephant Path before he answered. Then he explained that a bold, bad robber had given him the policeman suit to wear.

"Mercy me!" said Daddy Ringtail in a great surprise. But there was really nothing to be surprised about, Dog-people said. Dog-people explained that the bold, bad robber was going to come running down the Elephant Path in a minute. He would be trying to get away. Yes, and if you were a bold, bad robber who was trying to get away, wouldn't you want a policeman like Dog-people—who had no teeth to bite you with?

Look! There came the bold, bad robber now. He was running fast with a mask on, trying to get away. But he didn't. Oh no! Dog-people

Policeman stopped him, and how do you think he did it without a tooth in his mouth? I'll tell you. Dog-people reached in his back pocket fast. Out came a fine set of teeth he had bought at the store. Dog-people quickly yelped them into his mouth, and that is how he caught the bold bad robber, all on one very fine day. Happy day!

## THE BELL...and THE BELLS

The Liberty Bell never rings. Ever since it cracked while tolling the death of Chief Justice Marshall in 1835, it has stood motionless and silent, like the Americans—men and women, boys and girls—who come every day to behold it.

But each Sunday, in cities and hamlets across the continent, the church bells ring! They have taken up the song of their silent brother that it may echo endlessly throughout America.

Those millions of Christian worshippers for whom the bells ring are a living symbol of Freedom. But, more than that, they are the users of Freedom, preserving through practice and prayer their sacred right to believe, and to live their faith.

Small matter that The Liberty Bell does not ring. Freedom shall live as long as Church BELLS ring.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# Heavy Hitting Drillers Swat Jacome, Indians, 10-2

## Tribe Moves Into Roswell Friday For Three Games

ARTESIA—(P)—Mike Rodriguez spun a three-hitter here Thursday night to extend Artesia's winning streak to six straight as the Drillers slugged the Midland Indians, 10-2.

Artesia wrapped up the game with a four-run outburst in the first inning, picked up single runs in the third, fifth and sixth, and rapped Midland starter and loser Eddie Jacome for three more insurance tallies in the seventh.

Rodriguez was in trouble only in the sixth, when the Indians scored both their runs. Scooter Hughes stroked a leadoff triple and came home when Earl Bossenberry singled. Walks to Pat O'Keefe and Gahlen Dinkel loaded the bases.

With two down, Woody Pennington worked a base on balls to force in Bossenberry with the second tally of the frame.

The Artesia right-hander struck out seven and walked six in chalking up the win. He was in complete control all the way except his shaky sixth.

Pat O'Keefe started out playing his dual role Thursday night but that soon folded. O'Keefe, regular right fielder for the Indians, continued his Tuesday night's stunt of coming in to pitch to Joe Bauman and then retreating to the outfield.

He came on in the first inning, hit the big slugger with a slow curve and spent the rest of the night in the outer gardens.

### Oilers Take 12-4 Win To Boost Lead

ODESSA—(P)—Counting seven big runs for insurance in the eighth inning, the Odessa Oilers made a clean sweep of its three-game series with the Sweetwater Braves Thursday night with a 12-4 victory.

Little Wes Ortiz toiled on the mound for the Oilers and went the distance in capturing his sixth win of the campaign against seven losses. Ortiz had a four-hitter going until the ninth, when the Braves came up with four more base blows and two more runs.

Ortiz took off in the second inning with two runs on two hits, one a two-base blow by Charlie Weber. Sweetwater came back with two in the fourth on the Emil Carlino's home run over the left field wall.

Ortiz then counted single tallies in the fifth, sixth and seventh innings before the big, seven-tally eighth.

Dean Higgins started for the Braves and worked the first seven innings before being removed for a pinch hitter in the last half of the seventh. Tony Estrada came on in the eighth and was pounded for seven runs on seven hits, including a three run blast by Weber.

The other Oiler home run came off the bat of Lefty Loyko in the fifth inning.

Friday night the Oilers open a three game stand with the Vernon Dusters.

Many years ago when young Mills was following his father's footsteps across the country, he continually heard about the great Bambino and his famous home run call-out at Chicago. As the years progressed, he learned more about the game from Dad, Art Mills, and gradually developed into a pretty fair pitcher.

He always held the Babe's home run shot to be the greatest of all baseball legends.

Several years ago when Billy first became interested in the comedy side of the diamond game, he thought of developing this stirring moment into some kind of skit. At first he satirized the incident. But following Ruth's death, Billy decided to reverse the idea and make it a sober moment in baseball history.

His accomplishment has been highly successful. Reports from every park at which Billy has played indicate that his dramatic portrayal proved to be the high point of his act. Old-timers say that as Billy rounds third base and crosses home plate, "he couldn't look more like the Babe."

Mills' pantomime routine has thrilled thousands of spectators and will have an equally grand effect on Midland fans when he appears here.

Appeals Court Rules All-Star Game Okay

FORT WORTH—(P)—An attempt by the University of Texas Intercollegiate League to ban post-season high school all-star games was thwarted by the Second Court of Civil Appeals Friday.

The Court affirmed a permanent injunction granted Midwestern University at Wichita Falls restraining the league from enforcing a rule prohibiting participation of high school students and personnel and use of school equipment and facilities in post-season games.

The court's opinion, written by Chief Justice Earl P. Hall, held that the league is a voluntary organization, not sanctioned by statute, and is without authority to enforce the restraining provisions of this rule.

Braves Beat Cubs By 16 To 5 Score

The Braves turned back the Cubs, 16 to 5, Thursday in a North Little League game.

The Braves registered 11 hits and committed only one error. The Cubs totaled seven hits and made four miscues.

## Baseball Clown Billy Mills Will Perform Here Monday

When Midland fans trek to Indian Park Monday night, they will be treated to one of the most unique baseball comedy routines in vogue today.

Billy Mills, baseball's funniest comedian, has developed a pre-game act which has been acclaimed by prominent diamond men as sensational. Although his stunts deal primarily with comedy, the climax to his performance is as dramatic as a theater production.

Many years ago when young Mills was following his father's footsteps across the country, he continually heard about the great Bambino and his famous home run call-out at Chicago. As the years progressed, he learned more about the game from Dad, Art Mills, and gradually developed into a pretty fair pitcher.

## Rough Days For 'Barber' End At Last

By JACK HAND  
Associated Press Sports Writer

Even on the hottest day of the year, Sal Maglie is "Mr. Zero" to the Brooklyn Dodgers.

Joey Maxim cools off on watermelon. City kids romp beside an open hydrant. But those Dodgers get the chills in 93-degree weather when "The Barber" strove his razor.

These have been rough days for the 35-year-old "Barber" of the Polo Grounds. Since he last fondled a Brooklyn batter with loving care, May 27, he hadn't won a game. In fact he was knocked out five straight starts and even bounced once on relief.

With the tender solicitude of a father greeting a long-lost son he welcomed the "visiting" Dodgers Thursday night at the Polo Grounds by chilling them without a hit for six innings. Maglie finally wound up with a three-hitter, 3-0, that boosted the New York Giants within three games of Brooklyn.

No Sudden Thing  
This is no sudden thing—this deep love of Sal for his Brooklyn clients. It dates way back to the Mexican War—baseball war, that is—when he scurried south of the border for more dough. Since his return to the majors, Maglie boasts a 12-1 record over the enraptured Dodgers. The only time they beat him was in April of 1951 during the Giants' 11-game losing streak. It took a tenth-inning homer by Carl Furillo to do the trick.

In winning his seventh in a row over the Dodgers, three this year and four in the last part of the '51 season, Maglie ran his string to 27 consecutive shutout innings against the boys from Brooklyn.

So far this season the Dodgers haven't scored a run off Sal. Maglie, of course, was much too smart to attribute his sudden return to form to the sight of a Brooklyn uniform.

"I made up my mind to just throw that ball with a good follow through," he said in the clubhouse. Big globs of sweat dripped down his face. "I just decided to throw hard as long as I could and let them hit it. Then we'd see what happened."

Mostly Nothing  
What happened was mostly nothing. He threw only 45 pitches in the first six innings as he worked on a no-hitter. Jackie Robinson finally broke the spell with a lead-off single in the seventh. Billy Cox and Roy Campanella added singles in the ninth but they didn't present a threat because Robinson grounded into a double play between the hits.

That was the only game in the National League and there was only one in the American as the teams traveled.

Vic Wertz hit a tremendous, first-inning home run with two men on to start Detroit on the way to a 6-0 win over the St. Louis Browns.

Bill Wright, ex-Red Sox, made his first Detroit win a stylish, six-hit shutout. Only one man got as far as second base as he outpitched Ned Garver.

The loss dropped the Browns into seventh place, half a game behind the idle Philadelphia A's.

GAME HONORS JUNIOR RANKS  
Midland's junior baseball players will be guests of honor Friday and Saturday nights at Indian Park.

They will be admitted free when the Midland JayCees semi-pro team plays Big Spring Friday night and the Latin American Colts Saturday night.

Game time is 8 p.m.

north of the nearest completed producers in the Fullerton multiphase field.  
Operator took a two-hour drillstem test in the top of the Ellenburger from 4,182 to 4,196 feet. Gas surfaced in two minutes. The surface choke plugged after five minutes. Oil tried to flow through the plugged choke in one hour and 24 minutes. Only about 15 gallons of oil squeezed through the plugged choke during the remaining time the tool was open.

**Southern California Wildcat May Open Pool In Callahan**

Southern California Petroleum Corporation has an Ellenburger discovery in prospect at its No. 1 Andrews Johnson, wildcat in Southwest Callahan County approximately 28 miles southwest of Baird.  
Operator took a two-hour drillstem test in the top of the Ellenburger from 4,182 to 4,196 feet. Gas surfaced in two minutes. The surface choke plugged after five minutes. Oil tried to flow through the plugged choke in one hour and 24 minutes. Only about 15 gallons of oil squeezed through the plugged choke during the remaining time the tool was open.

**Union Schedules 6,000-Foot Test In C-W Tom Green**

Union Oil Company of California has assumed an obligation to drill a 6,000-foot wildcat to explore the Pennsylvanian lime in Central-West Tom Green County.  
The prospector will be Union No. 1 Dr. Edward H. Jones. Location is 600 feet from north and east lines of German Emigration survey No. 756.  
That makes it about 12 miles southwest of San Angelo and it is in the Tankersley area.  
The wildcat is to be drilled as a result of a deal worked up by Kenneth W. Brown of San Angelo.  
He secured a farmout on a spread of leases from The Ohio Oil Company and he also leased an additional 320 acres direct from the owners in that same region.  
Brown turned the leases to Union to drill the wildcat.  
Operations will start in the near future.

**New York Men To Drill Two Testers In C-S Midland Area**

Horvath Mills, Inc. and George Roche, Jr. of New York City have staked two more 8,500-foot lower Spraberry tests in Central-South Midland County.  
Location for No. 1-A Bryant is 600 feet from north and 1,980 feet from east lines of section 10, block 39, T-4-S, T&P survey. That makes it one-half mile east of the same operators' No. 1 Bryant, active operations eight miles northwest of the Midkiff (Spraberry) field.  
The other project is Horvath Mills and Roche No. 1-B Bryant. It is 1,980 feet from south and east lines of section 10, block 39, T-4-S, T&P survey and five-eighths of a mile southeast of No. 1 Bryant.  
Swabbing tests of the lower Spraberry were under way in open hole at 8,447-8,495 feet after fracturing in No. 1 Bryant.

**Atlantic Finals Ellenburger Well In Reagan Area**

The Atlantic Refining Company No. 1-C-48 University, Ellenburger discovery in Southeast Reagan County, has been completed.  
Operator reported a daily flowing potential of 357 barrels of 40-gravity oil through a 24/64-inch tubing choke and from perforations at 9,960-9,124 feet.  
The well had been washed with 500 gallons of mud acid and 2,500 gallons of regular acid.  
Gas-oil ratio was 935-1 and tubing pressure was 425 pounds.  
This new well is 600 feet from south and 1,980 feet from east lines of section 19, block 48, University survey. It is two miles south of the Barthart (Ellenburger) field.  
Atlantic No. 1-D-48 University, one-half mile northwest stepout to No. 1-C-48 University, has spudded and was drilling below 70 feet. It is at the center of the southeast quarter of the northwest quarter of section 19, block 48, University lands survey.

**Stanolind Is To Set Pipe In Ellenburger At Winkler Tester**

Stanolind Oil & Gas Company is preparing to set casing on top of the Ellenburger at 11,520 feet for completion attempt in open hole at 11,506 feet at its No. 1-B S. B. Wright, wildcat in Southeast Winkler County.  
Operator took a drillstem test from 11,561 to 11,596 feet. Gas was at the surface in 68 minutes, water blanket in two and one-quarter hours and oil in two and one-half hours.  
The well was tested to tanks for one and one-half hours and made 34 barrels of 43.5-gravity oil through a 32/64-inch choke. Gas-oil ratio was 703-1.  
Flowing pressure was from 1,875

**APCO, Forest Set 13,000-Foot Test In SE Gaines Area**

Anderson-Prichard Oil Corporation and Forest Oil Corporation No. 2-A Farmer County School Lands is to be a 13,000-foot wildcat to try for production in the Devonian in Southeast Gaines County.  
It is to be 600 feet from north

**Fusselman Well Is Completed In SW Reagan Pool**

The Big Lake (Fusselman) field of Southwest Reagan County has been given another new oiler, the third.  
It was completed as Stanolind Oil & Gas Company No. 3-BL University for a daily flowing potential of 178.71 barrels of 43-gravity oil and no water through a 5/32-inch tubing choke and perforations at 8,870-85 feet.  
No. 3-BL University marks a three-eighths mile northwest extension.  
Location is 600 feet from north and 330 feet from west lines of section 1, block 2, University Lands survey and one-quarter mile north-east of Texas.

**Snowden, Et Al Final Grayburg Well In Midland**

James H. Snowden and Associates of Fort Worth have completed the first Grayburg producer in Midland County.  
It is No. 2-12 Hale in the Germania (Spraberry) area in the northeast portion of the county.  
Operator reported a daily pumping potential of 37.40 barrels of 34-gravity oil through perforations at 3,940-3,980 feet after the pay had been acidized with 500 gallons and fractured with 1,500 gallons.  
Previously, the well was completed from the Spraberry at 7,182-7,252 feet.  
Location is at the center of the northwest quarter of the northeast quarter of section 12, block 37, T-2-S, W. Glendening survey.

**Anderson Will Drill San Andres Wildcat In SE Garza Area**

R. S. (Dick) Anderson of Midland is to drill a 2,800-foot wildcat in Southeast Garza County as a try for production in the San Andres-Permian lime. It is to be his No. 1-39 Clyde Miller.  
It will be 330 feet from 330 feet from north and west lines of the southeast quarter of section 39, block 6, H&G survey.  
That makes it two miles southwest of Justiceburg and three miles southeast of the Rucker A. (San Andres) field. Drilling with cable tools will start at once.

**Laan-Tex Sells Half Interest in Leases In Coke To SNPC**

Laan-Tex Oil Company of Dallas has sold a one-half interest in its 80-acre Russ Mathers and 160-acre Palle Phelan leases in Northwest Coke County to Southwest Natural Production Company of Shreveport.

**Superior, Intex Will Drill Deep Test In NE Borden**

The Superior Oil Company and Intex Oil Company will drill their No. 13-536 Florence Lanham as a 9,200-foot project one-half mile east of the 8,100-foot Fluvanna (Mississippi) field in Northeast Borden County.  
Drillate has been staked 600 feet from south and west lines of section 536, block 97, H&TC survey.  
The Fluvanna field produces above total depth of 8,100 feet. The 9,200-foot destination for No. 13-536 Lanham should allow for tests of the Ellenburger.  
Operations are to start at once.
