

Congress Extends Controls 10 Months

City Puts Final Touches On Multi-Million-Dollar Program

The final touches are being put on plans for a multi-million-dollar municipal improvement program for the City of Midland which probably will be submitted for consideration by the City Council within the next 10 days.

Dr. W. W. Lackey, Longtime Midland School Head, Dies

Dr. W. W. Lackey, who guided the growth of the Midland public school system for 35 years as its superintendent, died Saturday night in Fort Worth after suffering a heart seizure.

Widely known throughout the state as an educator, poet and scholar, he had retired as superintendent of schools here in 1941 and had lived in Fort Worth with a sister since that time.

W. W. Lackey

Midland Firemen Fight Oil Flames On Glasscock Lease

Four Midland firemen and two pieces of equipment from the department Saturday night rushed to a Honolulu Oil Corporation lease 17 miles south of Garden City to aid in fighting storage tank flames.

Seven Killed, Three Hurt In Road Crash

POCAHONTAS, ARK. — (AP) — Seven persons, including a bridegroom, were killed near here Saturday in a head-on collision of two cars.

Weatherman Could Miss

Members of one Midland church are optimistic, to say the least, that the weatherman will miss his mark in the church's June 28 bulletin.

Quiet, Peaceful Independence Day In Prospect Here

A quiet and peaceful Fourth of July is in prospect here Friday as Midlanders will observe the holiday without special fanfare.

School Bond Issue Approved In Ward

MONAHANS—School District No. 2 of Ward County, which includes Grandfalls and Royalty, Saturday approved 79 to 7 for issuance of \$275,000 in school bonds.

House Group Says Bad Guess On '51 Cotton Crop Cost Farmers Millions

WASHINGTON — (AP) — A House subcommittee Saturday said an overestimate of the 1951 cotton crop by the Agriculture Department caused a serious break in cotton prices and a resulting loss of millions of dollars to cotton farmers.

Water Development Program

"The water development program," he said, "will increase Midland's water production fifty per cent by next summer with a similar increase coming a year or two later as needed."

Water Has Top Priority

At one time, a new City Hall also was included in the program but was dropped out when the other improvements were determined to be more important.

Highest on the priority list is the water development program with consumption already touching the edge of the city's productive capacity.

The city already has purchased water rights on four and three-quarter sections of land northwest of the city and Harry N. Roberts, Lubbock engineer, has been working on plans for its development.

The development will begin with the drilling of 10 wells in the area, capable of producing 5,760,000 gallons of water daily.

As additional 10 wells will double that figure within two or three years.

At the site of the wells, two two-million-gallon reservoirs will be constructed and additional elevated

water tanks will be constructed.

Big Bend Streams Swirl As Showers Tease Midlanders

Midlanders heard reports Saturday night of heavy rain in the Big Bend and longed to splash in torrents which swirled through Marfa streets.

Five inches of rain in two days sent swirling water coursing down

Marfa thoroughfares over the weekend.

At the Fort Worth meeting it was decided that the disease, judging from its movement the last few years, appears to be moving toward

North and East Texas from Houston.

James Ralph Braley, four, whose father is a Hunt County sharecropper, died of polio in Dallas as three new patients were diagnosed.

The victim's father is Jim Braley, who farms near Terrell. It was the month's first polio death in Dallas.

Fort Worth reported three new patients and one possible victim.

The Fort Worth City-County Hospital also refused its first patient—a McKinney child—because there was no space for out-of-area patients.

Parkland Hospital in Dallas has been accepting only Dallas County patients for some time.

From now on the Fort Worth Hospital will accept polio patients from a 15-county trade area only.

"It may soon be that we'll just have to take care of the sickest," said Hospital Administrator Lowell Hudson.

Administrator Al Scheidt of Parkland said the meeting at Fort Worth recommended that the isolation period be shortened and home care encouraged where patients needed no specialized equipment.

In Houston, the National Foundation for Infantile Paralysis is financing the mass inoculation of children, aged one to six. Half of the children will get a shot of common blood factor (gamma globulin) and the other half will get a non-effective substitute. The inoculation starts Wednesday.

Gov. John S. Fink of Pennsylvania and Gov. Theodore Roosevelt McKeldin of Maryland sent word they did not want to risk the possibility of taking the germs back to their young children.

Early arrivals Saturday were Gov. Dan Thornton of Idaho and Gov. Norman Brunsdale of North Dakota.

Texas Gov. Allan Shivers welcomed the three Republicans and listened as they discussed Taft and Eisenhower presidential possibilities.

Not a single living fly, mosquito, cockroach or other disease-carrying insect will exist in Midland on July 18, if cooperation in a clean-up campaign promised civic leaders is as effective as they expect.

Polio is the chief villain to be stamped out.

The big clean-up drive to keep the menace out of Midland has been underway two weeks, but it will be climaxed with an all-out push during the period of July 14 through 18.

Those dates were chosen by representatives of several civic organizations conferring with the Midland Chamber of Commerce Saturday.

City health authorities have pointed out that the combined strength of their available manpower and equipment can do but 25

per cent of the job.

Individuals must do the other 75 per cent. As Dr. C. A. Pigford, health director, phrased it, "It's a personal promise proposition."

All residents in and near the city have been asked to do all they can to kill flies and to destroy insect breeding places. To get down the polio menace, trash, garbage and litter should be sprayed and disposed of as quickly as possible.

A fleet of 13 trucks patrol city streets and alleys daily to assist in that effort.

Polio has reached epidemic heights in Texas, the officials warned, and unless Midland can establish an insect-proof defense it might strike here soon and without warning.

Polio has reached epidemic heights in Texas, the officials warned, and unless Midland can establish an insect-proof defense it might strike here soon and without warning.

Polio has reached epidemic heights in Texas, the officials warned, and unless Midland can establish an insect-proof defense it might strike here soon and without warning.

STILL CAN'T BELIEVE IT—Miss Stella Kahn, of New York, prepares to count the \$855 that now is hers. Stella found \$200 on Fifth Avenue on one day, and on the next, found \$655 in a package on a taxi seat. She turned it over to police, but nobody claimed either "bundle."

Polio Victims Tax Hospital Facilities

Doctors in North and East Texas made plans Saturday for the expected spread of polio infection to their areas from the Houston epidemic.

Hospital administrators of Wichita Falls, Tyler, Dallas and Fort Worth met in Fort Worth to discuss a growing shortage of hospital facilities for expert treatment of polio.

In Houston—as six new polio cases were reported—medical authorities announced that 35,000 children will be used in a test that is hoped will prevent the crippling polio paralysis.

At the Fort Worth meeting it was decided that the disease, judging from its movement the last few years, appears to be moving toward

North and East Texas from Houston.

Bill Termed Mild Victory For Truman

WASHINGTON — (AP) — The House Saturday night passed, 194 to 142, and sped to President Truman a compromise, 10-month extension of price and wage controls due to expire at midnight Monday.

The Senate had approved the measure earlier in the day on a voice vote. The compromise had been hammered out by a Senate-House conference committee in a grueling

night session that ended early Saturday.

Although the Administration did not get all it asked, by any means, the bill was regarded as something of a victory for President Truman. The Senate-House committee knocked out a House amendment by Representative Talle (R-Iowa) to remove controls from all commodities not under rationing or allocation.

Since nothing is rationed now, and few things are allocated, this would have been a body blow to the Administration control plans.

The conference also drastically modified a provision by Representative Gole (R-Kan) to guarantee sellers their price markups based on individual, rather than industry-wide, profit margins before the outbreak of the Korean War.

The version adopted by the compromise on this point amounts to a restatement of present law.

The Administration suffered a blow when the conferees decided to retain a provision exempting processed fruits and vegetables from price controls.

In the brief House debate preceding Saturday's vote, nobody seemed happy with the new bill. Some Democrats thought it didn't go far enough and didn't give the Administration enough control authority to do the job properly.

Fredrick Truman Day, however, Administration leaders in the House called the bill workable and predicted the President would sign it.

Some Republicans thought it gave the President more control.

VA Modifies Airport Rule On GI Loans

Veterans' homes near airports should not be placed within a mile and a half of airport runway extremities if federal guaranteed loans are to be made, it was learned here Saturday.

Veterans Administration officials told Rep. Ken Regan of Midland that a space of 500 feet on either side of a straight line extending one-half mile from the end of runways, then fanning out for an additional mile to a total width of 3,000 feet would be the area in which loans for housing would be "scrutinized closely."

Representative Regan notified the Midland Chamber of Commerce of the new policy, which the VA said would be issued soon in the form of a directive.

Two major runways of the Midland Airport, situated at the city limits northwest of the city, run north-south and northeast-southwest. The southern extremities point toward residential areas.

Dimensions cited by the VA, Regan pointed out, might vary with the length of runways and type of aircraft used. Light planes and some military aircraft from the Webb Air Force Base at Big Spring are primary users of the Airport facilities. Airliners and other heavy types operate from the Midland Air Terminal, 10 miles west of the city.

It was believed, here that several new residences earmarked for GI financing might be affected by the new policy of "close scrutiny."

The injured were William M. Wilkerson, Darley Trailer Courts, driver of the car, minor cuts on face; W. E. (Pete) Shelton, Southside Trailer Park, possible skull fracture, and Kent Medell, who suffered minor injuries.

Police Officer Roy Merket said the three were in an automobile which collided with one driven by Edward E. Thomas of Odessa, who escaped injury.

Johnny Cummings of Terminal suffered back injuries Saturday afternoon when the automobile in which he and his wife were riding overturned on the main entrance road at Terminal.

Both were taken to Midland Memorial Hospital but Mrs. Cummings was released.

Weird Journey Of Vengeance Ends In Midland County Jail

A weird journey of vengeance, which started halfway around the world, ended in the Midland County jail Friday afternoon for 45-year-old Lroy Talbert.

And Talbert, instead of the husband of his former wife, faced charges of possessing 19 marijuana cigarettes.

The journey, police said Saturday, began in the Orient as Talbert, a former resident of Baton Rouge, La., sailed on a merchant ship as an engineer, bound for the United States.

He arrived several days ago on the West Coast and headed inland, arriving in Midland last week and checking in at a downtown hotel.

Police Lt. Jack Truman first heard about him shortly after Thursday midnight.

"A cab driver came into police headquarters and handed me this cigarette and wanted to know what was," Truman reported. "I told him it was marijuana and asked him where he got it."

"He had an envelope containing 19 of them."

Truman said the cab driver, whose name was not disclosed, told him a stranger met him in a cafe a short time earlier.

The stranger told him his former wife and her husband were living in Midland and that he wanted to plant some marijuana in the husband's automobile.

All the cab driver had to do was place the package of cigarettes underneath the hood, and tip off the police that the husband was carrying marijuana in his automobile.

The whole job would net the cab driver \$50.

The cab driver said he agreed but instead of driving out on Edwards Street where the husband's pickup was parked, he drove to police headquarters. Truman told him to go ahead as if he had carried out the plot.

"Friday morning about nine o'clock," said the police officer, "we spotted the two men coming out of a hotel."

"They went down to the bank, cashed a check and then drove to The Reporter-Telegram. The cab driver told me the man said he was subscribing to the paper to be sent his sister in Baton Rouge so he could read about the husband getting into trouble for carrying dope."

Tranum and Officer Herb Runyon also took part in the arrests.

All three were charged in County Court with marijuana possession.

"Then they drove out on Edwards to wait for the police to show up and search the car."

Tranum said he and Lt. Hollis, accompanied by Officers Allen Thurmond and George Ranowski, placed Talbert under arrest.

As an aftermath, the same cab driver worked with police a couple of hours later in making a marijuana "bun" in the negro section.

Two negroes, Mae Ella Maxey, 21, and her brother, Walter (Shay Baby) Jones, were arrested after 15 cigarettes were purchased with Officer Ranowski hiding in the rear trunk of the cab.

Tranum and Officer Herb Runyon also took part in the arrests.

All three were charged in County Court with marijuana possession.

LATE NEWS FLASHES

SEOUL — (AP) — Chinese Reds hurled two assaults at a pair of hills on the Western Korean front during a torrential rain Saturday night, but booming Allied artillery turned them back.

EDDYVILLE, KY. — (AP) — State police were summoned to the state prison here Saturday for the fourth time in three days to quell attempts of rebellious prisoners, plagued by the heat and angry at prison authorities, to break out of their cells.

TEHRAN, IRAN — (AP) — The government Saturday submitted a bill to the Iranian Senate extending martial law until July 31. The present law would have expired on Monday.

Youth Center Bonds Rejected In Upton

McCAMEY—Upton County taxpayers Saturday rejected a proposed \$275,000 bond issue to construct youth center buildings here and in Rankin.

The vote, with the small Benedict precinct still unreported, was 95 against for the proposal and 320 against.

The funds called for construction of a \$112,942 youth center and a \$26,500 negro neighborhood park in Rankin and an \$84,715 youth center and \$96,800 negro neighborhood park house in McCamey.

Air Force To Cancel Plans For 'Unnecessary' Barracks

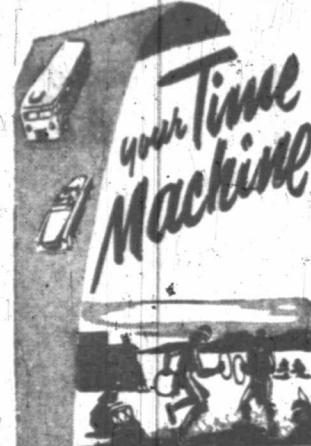

WASHINGTON—(AP)—A House subcommittee reported Saturday the Air Force has agreed to cancel plans for almost \$100,000,000 worth of "unnecessary" barracks.

An expenditures subcommittee under Representative Hardy (D-Va.) reported the projects were unnecessary after a study of 100 major air bases.

The committee said Air Force officials agreed with its analysis, and have started action to eliminate the projects.

It added that overplanning resulted from two errors in computing needs: (1) the Air Force underestimated available housing near its bases. (2) the Air Force concluded 90 per cent of its personnel was unmarried and would need dormitory housing, but statistics show only 70 per cent are unmarried.

The committee said these were among amounts which would be saved if the Air Force follows its recommendations to eliminate excess barracks projects: Altus, Okla., \$573,000; Ardmore, Okla., \$412,000; Bergstrom AFB, Austin, \$492,000; Biggs AFB, El Paso, \$778,000; Bryan, \$212,000; Carswell AFB, Fort Worth, \$1,800,000; Clinton, Okla., \$1,468,000; James Connally AFB, Waco, \$1,070,000; Foster, Victoria, \$398,000; Galveston, \$568,000; Harlingen, \$1,494,000; Holoman, Alamogordo, N. M., \$698,000; Kelly, San Antonio, \$1,148,000; Kirtland, Albuquerque, N. M., \$2,568,000; Laredo, \$598,000; Laughlin, Del Rio, \$754,000; Reese, Lubbock, \$574,000; Walker, Roswell, N. M., \$778,000; Camp Walters, \$1,700,000.

Lindley Beckworth Confident He'll Win U. S. Senate Race

Confidence that he is going to win the race for the U. S. Senate was expressed by Rep. Lindley Beckworth of Gladewater in an address Saturday afternoon on the Midland Courthouse lawn.

A sparse crowd of approximately 30 persons heard the 38-year-old congressman, who has served in that capacity 14 years, say the "work method and not the money method" is the way to run for office successfully.

Beckworth, who travels with two sound trucks and is assisted by his wife, father and twin sister, has visited 238 counties since a previous visit in Midland seven weeks ago, shortly after he announced his candidacy.

The candidate said he favored Texas retaining its Tideland and endorsed a "strong America."

He urged citizens to "not close the door to opportunity in Texas politics for a candidate not committed to big money interests."

From Midland, Beckworth went to Stanton, where he also was scheduled to speak.

Department Denies Acheson Apologized To British Critics

WASHINGTON—(AP)—A State Department spokesman denies that Secretary of State Acheson expressed regret or apology to the British for U. S. failure to inform them of plans to bomb North Korea's power plants.

The spokesman told reporters late Friday Acheson merely agreed the British should have been consulted. He said the secretary emphasized that Britain had no absolute right to be consulted or informed in advance of the bombings of the plants across the Yalu River from Manchuria.

Acheson, now on a diplomatic tour of Europe, was quoted as indignating the United States wanted to give the British advance information as a matter of courtesy to a partner in the Korean war and in the North Atlantic treaty. Due to a mixup, it was explained, this was not done.

Dallas Woman Dies As Car Hits Bridge

DALLAS—(AP)—A Dallas woman was killed and three persons injured early Saturday when an automobile in which they were riding struck a concrete bridge on Forney Road and plunged into White Rock Creek.

Mrs. Dixie Mozell Knight, 29, driver of the car, was fatally injured. A doctor said she died of head injuries or drowning.

Injured were Shirley Lou Starnes, 16, of Kilgore; Otto D. Henderson, 21, a Perrin AFB service man, and Carol W. Hawkins, 20, also of Perrin AFB. None was seriously hurt.

Midland Infant Dies In Sleep

James William Nunn, 18-month-old son of Mr. and Mrs. Thomas Nunn, 1302 South Main Street, died during his sleep early Saturday.

An autopsy revealed the child died of heart failure. He had not been ill up to the time of his death. Born March 18, 1951, he had lived with his parents in Midland since last November.

Funeral services will be held in the Kiker Funeral Chapel at Colorado City at 3 p.m. Sunday. Interment will be in the Colorado City Cemetery.

Survivors include the parents and a brother, Thomas Nunn, Jr.

ATTENDING ALBANY SHOW
Mr. and Mrs. C. B. Downing and daughter, Jan, are attending the annual Fort Griffin Fandangle at Albany. The Downings formerly resided at Albany where he was superintendent of schools.

King Talal Sails For Jordan; May Abdicate Throne

VENICE, ITALY—(AP)—King Talal of Jordan sailed for home on the liner, Eperia Saturday, faced with a decision on whether or not to abdicate because of his mental illness.

The 43-year-old desert monarch, afflicted with schizophrenia, or split personality, arrived here Friday from Switzerland where he has been vacationing for the last three weeks.

Members of the King's entourage expressed belief Talal would give up the throne when he arrives at Amman next week. In such an event, the country would be ruled by a regency until his eldest son, Crown Prince Hussein, comes of age next year. Hussein is attending an exclusive school near London.

A Regency Council already is in control over Jordan. It was set up when Talal left for Switzerland, and the government said it would rule until the king's illness was cured.

Two Die As Planes Collide In Air Over Dallas Suburb

DALLAS—(P)—A big airliner and a small, two-passenger plane collided in the air Saturday at Dallas Love Field. The airliner landed safely but the small plane crashed, killing its two passengers.

The dead: Paul Winfield Brower, 20, Golden Hoop Ranch, Denton, and Don Edward Walker, 20, employed at Texas State College for Women Golf Course at Denton.

Their plane, a Swift, landed in the middle of a street, completely demolished. The air collision had sheared off one wing.

The airliner was American Airlines' flight 918 from San Francisco, Tucson and El Paso. American said the collision caused a small dent in the propeller of the No. 4 engine and tore off the antenna wire on the top of the plane.

"We never saw the plane," said the airliner pilot, Capt. G. H. Woolweaver of Grapevine, Texas. "We just saw a quick flash of metal, and felt a slight bump. I asked the tower what hit us. Then we made a routine landing."

Insurance Firm Sets Five-State Expansion Program

Services of the General American Casualty Company are being expanded as a part of a five-state expansion program, according to an announcement issued by C. B. Erwin, president of the insurance firm.

A new claim office will be established to assist agents in speedily processing claims, and when in operation it is estimated claims will be paid within 30 to 72 hours.

As a part of its overall expansion program, General American Casualty has purchased a modern downtown office building in San Antonio for its new home offices.

The company now operates in Texas, New Mexico, Mississippi and Louisiana, with an agent force of more than 1,000, which soon will be increased.

C. C. Schuchard is special agent for the company here. His office is located at 204 South Main Street.

The 55 passengers in the four-engine plane were frightened, but not shaken.

An American Airlines spokesman said the small plane apparently was also coming in to land. The collision occurred at 6:55 a.m. (CST) one mile off the southeast runway of Love Field, which is Dallas' municipal airport.

Capt. Woolweaver, command officer of the airliner, said James R. Poe, co-pilot from Smithfield, was at the controls when the collision occurred.

"We were letting down for a landing and heard the Tower (CAA control tower) talking to the airplane that hit us," Woolweaver said. "I didn't see the other plane but I heard the tower operator tell him (pilot of the other plane) to make a turn."

Flash of Aluminum

"The first thing I knew, I saw a flash of aluminum off our right wing," the pilot continued.

The two Denton men were thrown clear of the wreckage. The silver colored plane hit head-on to the street's pavement, driving the engine back into the cockpit. Both were killed instantly.

Brower owned the plane and is believed to have been piloting it at the time of the crash. Friends at Denton said he had about 300 hours of flying time. He and Walker flew to Dallas daily. They were employed as transportation agents for Central Airlines at Love Field.

The small plane plummeted straight down to the concrete pavement of the 3400 block of Lombardy Lane.

Had the plane crashed a few feet to the south it might have struck residences. To the north of the crash site is a small shopping center.

Mr. and Mrs. Leo J. Zeock said the plane landed in the street in front of their house.

"We were just getting out of bed," Zeock said. "It sounded like a lot of cellophane being crumpled in front of a microphone. I knew it wasn't an automobile collision."

Tow H. Tillman said he was sitting near his front door when he saw the collision. "It looked like they were both coming in for a landing," he said. "The Swift looked like it was beneath and slightly behind the airliner but I couldn't tell for sure."

"Then I saw the Swift turn and an instant later saw pieces floating to the ground," he said. Tillman said he did not see the actual fall of the plane.

Texas Construction Work His Doldrums

AUSTIN—(P)—Texas construction work remained in the doldrums this week. New contracts totalled only \$9,243,606, down more than one million dollars from last week.

The Texas Contractor, a trade journal, listed totals of \$5,249,594 for non-residential work, \$2,379,899 for residential, and \$1,615,113 for engineering this week. The year's total for Texas lettings climbed to \$482,819,220.

Attorney Baskett, 'Loophole' Expert Dies At Age Of 81

DALLAS—(P)—Albert S. Baskett, 81, Dallas attorney widely recognized for his expert technical knowledge of Texas law, died Friday. He collapsed shortly after leaving his downtown office at noon.

A native of Smith County, Baskett taught school, owned a drugstore and practical pharmacy before becoming a lawyer.

He soon became known for his ability to find reversible errors and grounds for appeals. In 1902 he served as a court-appointed defense attorney for Burrell Oates, a negro charged with the murder of a grocer during a robbery. During an eight-year period Oates was tried and convicted five times. In each of the first four trials Baskett appealed and obtained a reversal. The appellate court upheld the fifth conviction and Oates was hanged in October, 1912.

In more recent years Baskett represented Chesley Gragg who was tried four times in the drowning deaths of his wife and stepson. A death sentence in the first trial was reversed. Second and third trials ended in hung juries. Gragg drew a life sentence the last time.

Survivors include a son, John Lewis Baskett of San Antonio and a daughter, Mrs. Martha G. Graham, Dallas.

Whom they set before the apostles: and when they had prayed, they laid their hands on them.—Acts 6:6.

Ever-Growing Midland

Midland continues to shatter all previous records in construction, with building permits the first six months of this year exceeding the \$10,000,000 mark.

Yes, there seems to be no let-up as Midlanders continue to build at a faster-than-ever pace in an effort to keep abreast of Midland's rapid growth and development along all lines.

Residential construction again this year is leading the way in Midland building as one new and attractive addition after another is developed by builders who are striving to relieve an ever-acute housing situation in this headquarters city of the Permian Basin Empire.

It is no wonder that Midland's commercial and residential districts are among the finest and most attractive found anywhere.

Midland continues to expand and to build, further cementing its enviable position as one of West Texas' leading cities.

Long may the city and its builders continue to shatter one construction record after another. It is progress in Progressive Midland.

Methodists Get Job Done

Congratulations are in order to two Midland Methodist Churches which have gone "over-the-top" in building fund campaigns conducted simultaneously this month.

The Asbury Methodist Church in South Midland and the St. Mark's Methodist Church in North Midland, both comparatively new churches, have announced the successful completion of their finance campaigns, each of which was for \$75,000.

That both campaigns exceeded their goals in quick order attests to the fact the new facilities are needed and that members and friends are anxious and willing to provide funds with which to keep pace in Ever-Growing Midland.

It is an encouraging sign, too, and speaks well for the progressive citizens who are interested in the growth and welfare of their churches as well as in the economic development of the community.

The successful Methodist campaigns also should be an inspiration to other Midland churches, many of which are overcrowded, to launch similar drives with which to finance needed expansion programs.

Again, congratulations to the Asbury and St. Mark's Methodist Churches on their successful campaigns.

Human Symbol Of Struggle

By now Whittaker Chambers' book "Witness" has been reviewed widely and the consensus of the leading reviewers is that this autobiography will stand as one of the great documents of our time.

It's all there: Chambers' unhappy childhood with an unhappy family, his turning to communism, his service in the cause of the Soviet Union, his disillusionment and repudiation of the party, and finally the ordeal of the Hiss case.

Also there is a great deal of political and philosophical reasoning offered for the guidance of the American people, indeed, for all free men.

Simply because he writes his own story with persuasive brilliance, we should not succumb to his broader argument. Chambers is neither statesman nor philosopher. But he is a human symbol of today's great struggle.

It would help if every speeder, after being pinched, would really wake up.

Nothing is impossible, says a writer. He must meet nothing but nice people.

The Ghost Walks

The Washington Merry-Go-Round

By Drew Pearson (Copyright, 1952, by the Bell Syndicate, Inc.)

Drew Pearson says: Doctors operate most powerful Washington lobby; old people's pensions stymied by medical scare methods; Senator Ferguson probes M-G-R news sources.

WASHINGTON — There was a time when the most powerful lobby in Washington was the prohibition lobby, directed by Bishop James Cannon from the Methodist Building just across from the capitol.

Here is what happened: 1. Dr. Joseph S. Lawrence, representative of ABA and head of the doctors' lobby in Washington, waited almost a month either because he didn't know what was in the pension bill or didn't consider it important; then he decided to label the cause requiring physical exams as "socialized medicine."

Two days later, various Republican congressmen led by Dan Reed of New York, began parroting AMA's charge — apparently not knowing that another Republican had introduced the clause.

That was followed by a barrage of telegrams from doctors across the country, protesting to their congressmen about this "back door" attempt to foist "socialized medicine" upon the nation.

Senator Warren Magnuson, Washington Democrat, started to object. But Ferguson cut him short before he could finish the sentence, snapping: "Why is it not?"

Magnuson withdrew from the colloquy. Chapman said he didn't know Ferguson's news sources, and Ferguson — somewhat frustrated — ended up demanding transcripts of all Chapman's press conferences.

How long can a whale remain submerged? Ordinarily whales do not stay down very long by choice. Fifteen minutes to half an hour is about the average dive for the baleen whales, but some of the toothed whales have remained submerged for more than an hour.

What is the color of the majority of metals? Most metals are of a grayish color, varying from blue-gray to the white color of silver. Exceptions are gold, copper, and strontium.

What countries signed the Munich Agreement in 1938? Germany, Great Britain, France, and Italy.

How great a variation exists between the hottest and coldest winter temperatures? About 230 degrees.

What happened to Aaron Burr after his trial for treason? Burr was acquitted, but his reputation was ruined. He went to Europe where he wandered for several years before returning to resume the practice of law in New York City.

Have a Laugh: "Things change," one man remarked. Said his friend, "They sure do. With me, it used to be wine, women and song. Now it's beer, mama and the radio."

There is one girl for me who must be somewhere in the world. —Fourteen-times married James X. Daniels.

Japan is firmly encamped in the free, democratic world. —Japanese ambassador to the U. S. Kichiki Araki.

Every country needs a few cowards to help bury the heroes.

JACOBY ON BRIDGE

By OSWALD JACOBY (Written for NEA Service)

When Mr. and Mrs. Lewis Fremont, who made their home in Buenos Aires, take a trip to their native United States; they always find time to visit New York's celebrated Regency Club.

The Fremonts were pioneers in introducing Canada to the United States, largely because they knew so many card enthusiasts in both countries, and the Regency Club is widely recognized as the high temple of Canada in this country.

As it happens, the Fremonts are both first-class bridge players, and more bridge than Canada at the Regency Club. The hand shown today was played in a recent duplicate by Mr. Fremont, partnered with Wingate Sixty, president of the club.

Mr. Sixty, who held the North hand, is one of the few men I know who can look at cards like that

Without turning slightly green. He avoided the temptation to keep bidding no-trump (many players went down at three no-trump against the natural spades lead from the East hand) and steered Mr. Fremont in to the far superior game at diamonds.

Bridge hand diagram showing North, South, West, and East hands with card suits and counts.

West opened the king of spades and continued the suit. South ruffed. Mr. Fremont trumped with the ace and Jack, ruffed dummy's last spade, and then cashed three top hearts. East's spade discard on the third heart was somewhat chilling.

How does declared avoid the loss of two club tricks? Mr. Fremont found the way by leading the ten of hearts from his hand and discarding a club from the dummy.

West won with the jack of hearts and had to find a return. If he led a spade, dummy would discard another club while South ruffed. If West returned a club instead of a spade, South would get a free finesse. Either way, South had the rest of the trick.

The curious feature is that this play cannot lose even if the club finesse happens to be outside. For example, even if declarer ruffs the last heart in dummy and manages to succeed with a club finesse, he still will have to lose a club trick.

The actual play gave the opponents a heart trick instead of that eventual club trick; and it assured the club finesse by throwing West into the lead.

CARD Sense

Q—The bidding has been. South West North East 1 Heart Pass 1 Spade Pass

You, South, hold: Spades K-Q-3-2 Hearts A-Q-9-8-4, Diamond 7, Clubs A-Q-J. What do you do? A—Bid three clubs. Yes, indeed

WASHINGTON COLUMN

By PETER EDSON (NEA Washington Correspondent)

Ferguson, Cut From Program, Was To Present Ike In Detroit

WASHINGTON — Original plan for Gen. Dwight Eisenhower's speech at Detroit was that he would be introduced by Michigan Senator Homer Ferguson.

The Republican senator accepted the invitation. But he made clear that in his introduction he would have to say that he himself had not yet made up his mind whom he would support for the presidency.

When Arthur Summerfield, Michigan GOP political leader, heard about this he changed the program and introduced Eisenhower himself.

Franklin D. Roosevelt, Jr., who is national chairman of the Averell Harriman-for-President Committee, made the pre-election statement that he would consider it a victory if his man were not defeated by more than two to one in the race against Senator Estes Kefauver for the District of Columbia's six delegates.

Roosevelt's reason was that Harriman had entered the race only two weeks before the Democratic primary, and this late start gave Kefauver the advantage. The way it turned out, of course, was that Harriman won, four to one. It shows how far wrong even professional politicians can be.

Georgia Senator Richard Russell's hopes of having 350 delegates from the Solid South for the first ballot at Chicago aren't materializing as rapidly nor as solidly as anticipated. Here's the line-up:

Alabama—22 split, seven Russell, seven Kefauver, eight unpledged. Arkansas—23 pledged to Senator Fulbright as favorite son. Florida—24 Russell 19, Kefauver five. Georgia—24 sure for Russell as native son.

Kentucky—26 for Vice President Alben Barkley, native son. Louisiana—30 for Russell. Maryland—18 for Kefauver. Mississippi—18 for Russell. North Carolina—Russell 19 1/2, Barkley one-half, unpledged 10 1/2. Oklahoma—24 for Senator Kerr, as native son.

South Carolina—16 for Russell. Tennessee—28 for Kefauver. Texas—52 uncommitted. Heavily counted on for Kefauver, they may go for House Speaker Sam Rayburn if his boom develops. Virginia—28 counted on for Russell.

For Russell this adds up to 151 1/2 without Texas, 203 1/2 with it. Kefauver has 58. The four favorite sons—Fulbright, Barkley, Kerr and Rayburn—would have 124 delegates who would not have to be split after three or four ballots. Likewise, the two scattered delegates and the 18 1/2 unpledged will split.

Of these 144 1/2 uncertain delegates needed by Senator Russell to give him approximately 300, he probably would get the majority, but not all.

The Kefauver-for-President Committee to raise spades at your next turn. The combination of your three bids, including a jump, will show your strength and will also indicate the single diamond. You will thus get to game and hint at slam "temporarily."

mittee of the District of Columbia threw a big whing-ding in Washington's Mayflower Hotel ballroom the other night. To make arrangements for the party and to keep the organizing going after it was over, the committee opened headquarters in suite 375.

They wanted a private telephone put in the office. But when the telephone installer came to put in the line, the only way he could get into suite 375 was through suite 376. The occupant of suite 376, of all people, happened to be the chairman of the Republican National Committee, Guy Gabrielson.

Senator Taft has been having trouble with the photographers since more. When the senator's campaign manager, David S. Ingalls, was in Washington recently, the two of them had a quiet dinner together in Ingalls' hotel suite.

Photographers got wind of it and asked permission to take a picture of the two having dinner together. Senator Taft refused to allow the picture to be made, and told the photographers to come back after dinner.

The photographers thereupon agreed among themselves not to return and not to take his picture at all.

Vote To Determine Kermit Government

KERMIT — Tuesday has been named the date for Kermit residents to vote on a proposed change in city government. The proposition is presented will determine if the present mayor and two commissioners form of government shall be changed to include five councilmen rather than two commissioners.

The election was called after the city-dads were presented with a petition signed by qualified voters, headed by W. H. Spears and 107 other signers.

No change in the tax structure or other business affairs would be made if the voters approve the proposal. Many residents believe the city has increased in tax valuation and population enough to need such a change.

What's RIGHT?

At a large party a new-comer to town meets another woman who would like to know better. The other woman has lived in the town a long time and has many friends.

WRONG: In a day or two she telephones the older resident and invites her and her husband to dinner.

RIGHT: She waits for the older resident to extend the first invitation—unless she makes her invitation a casual one, such as asking her to drop by for coffee.

"Cave Canem" means "Beware of the dog."

Death in the Sierras

By Doris Hudson Moss

XVIII The officers had taken the bodies of Rodney James and Professor Ordell to Blue Valley, and with their leaving, peace returned to the high Sierras.

David Roberts and I strolled on the porch. "Tell me some other things I want to know, David," I said.

"Well, my dear, since you've rather talk of crime than of love, here goes. Miss Martinson phoned James that she was arriving in the early evening. There was much secret conversation and while I naturally wasn't in on it, I suspected a good deal because I already knew a part of the story.

"After dinner while it was still fairly light I saw Ordell go to the stable, but of course, I had no idea what he intended to do. He had secreted his rifle in the barn or in the woods. By highway the Springs are 12 miles from the lodge. By the trail which goes straight up from the bowl of the lake meadow, it's only one and a half miles. Ordell lay in wait for Miss Martinson after he had bought shells from Loomis for his rifle. As she rounded that sharp bend past the Springs Ordell ordered Miss Martinson to pull off to the side of the road and he shot her in cold blood. He tried to remove the bullet but was frightened off by a car coming on the road across the canyon. That was the patrol car of Duncan and Margard. Ordell spurred his horse back to Horseshoe Springs, intending to silence old Jim about the rifle shells.

"It shows how irrationally Ordell's mind was working. He was both subtle and very obvious as are most criminals. When the professor saw you in the green coupe and when Jim's light shone on your hair, it must have given him a jolt. But he wasn't the type to be afraid of ghosts, so he decided to silence you for the moment and

take a shot at old Jim. Well, he missed and went into a panic. He rode wildly back to the lodge by the short trail, left his mud splattered, exhausted horse in the barn after unsaddling hurriedly, hid his rifle in the left and ran to his tent.

"MEANWHILE you had come into camp. Mrs. Ordell, believing that you were Elsie, was more than thankful to see you safe, but was in terror of what might happen. She begged Bob to phone the police, but James prevented him from doing it. James believed you to be Elsie as did all the rest. When you went to your tent that first night James placed the poisoned meat in your tent because he was sure that you were Elsie and had brought Susie along for protection.

"After breakfast the next morning the Ordells went to their tent. Ordell came back innocently enough and that misled me. I couldn't believe he stabbed me 20 minutes before we heard the scream."

"But," I interrupted, "How could Mrs. Ordell scream twenty minutes later?"

"She didn't. Officer Wallace came along in his ladies' outfit, saw James dash out of the tent and went in to see what the hurry was about. Wallace is a poor officer, but he is not a criminal. It was when he hit Ordell over the head later, of course, thinking Ordell was the killer. And it was he who pitched his voice high and gave a good loud feminine scream. He knew it would bring us."

"And the powder on the baked ham?"

"James again. James and Ordell, as I said, were cousins and their family is cursed with the taint of insanity. An uncle is in the asylum at Stockton. James was the more dangerous of the two, but neither was exactly sane."

"And you, and I, walked there

trails in the dark with the professor," I shivered. "Why, you even left me to go on alone to the lodge with him!"

"No, I didn't leave you, dear. I only pretended to. He knew you weren't Elsie and I thought that if he was the killer he would want to sneak away in the dark to wreck your car or at least to hunt for the bullet. I walked along near you, just behind those willows. He fell into my trap and went straight to the barn. As soon as you were safe at the lodge, I trailed him. But Bob had already dug out the shell.

"When Ordell pulled a .22 one. He tipped James off to follow us when we went after the treasure and to demand the money."

"Who was the ghost that Rhumba saw?"

"That was Wilmot. He smeared his face with powder and water to scare poor Rhumba. Just his idea of fun."

"And who ran away from the kitchen when I shot at him?"

"I don't know. He was shot and ran away from you."

"SAM BURDICK, incidentally, Sam was decorated for bravery in the war. Loomis told me all about him so I knew that I was taking but a small chance. Jim says that Sam acts as a sort of doctor in these parts whether the patient is a cow with a broken leg or a man with indigestion. So I just played my ace card and it worked."

"But why did you stage that dramatic scene in the cave? Why didn't you merely arrest Ordell and Wallace?"

"It's always better, Rosemary, to get a confession from a criminal. It saves the state time and money. Then, too, Ordell needed breaking down. I had caught Wallace only a short time before and Duncan and I had checked the time in which Ordell could have ridden back to camp from the Springs and we found that the whole story proved the professor guilty. And now, let's just forget the whole mess."

We sat by the fire a long time that night. We had much to plan, a lifetime ahead of us, and, when Susie could be up and about again, a honeymoon at Gold Lake Lodge.

THE END

WITH THE SERVICES

Midlander Receives Bronze Star Medal

Sgt. Burton F. Cain, son of G. H. Cain, 504 South Colorado, recently was awarded the Bronze Star medal by Brig. Gen. Joseph P. Cleland, 40th Division commander, immediately after returning from a combat patrol.

The general personally briefed Sergeant Cain and the other patrol members on their mission and waited until they returned from 80-man-land in Korea, several hours later.

Five other men in addition to Sergeant Cain received decorations prior to entering the Army, he was employed as a parts clerk at Pryor Auto Supply here and received his basic training at Camp Cooke, Calif.

Sergeant Cain, a rifle squad leader, arrived in Korea last January.

Donald C. Helm, 302 West Maiden Lane, a student at Texas Tech, is attending the Air Force ROTC Summer camp at George Air Force Base, Victorville, Calif., for a four-week course of indoctrination into the operation and functions of a typical Air Force base.

Jim Fitzgerald, son of Mrs. James Fitzgerald, Jr., 1901 Holloway Street, has arrived at Camp Gordon to participate in the six-week Military Police ROTC Summer camp training.

The Georgia camp is designed to train college and university ROTC students in the field.

Low Ground, a student at the University of Oklahoma and son of Mr. and Mrs. W. H. Ground, 1509 North D Street, is attending the Quartermaster ROTC Summer camp at Port Lee, Va.

Johnny L. Miller, SN, is a sailor aboard the aircraft carrier USS Essex and he's heard a lot of Midland.

"I even plan on setting down there when I get out of the Navy," Johnny wrote from aboard the ship bound for Korea.

He is 20 years old, five feet 10 1/2 inches, has blond hair and blue eyes, and weighs 185 pounds. He wants to start a correspondence with anyone in Midland who is interested.

His address is: "Johnny L. Miller, SN, 2nd Division USS Essex (CV 9), Fleet Post Office, San Francisco, Calif."

NO MERE MIRROR ILLUSION—Robert Werner, 21, isn't doffing his mortar board in self-congratulation, he's saluting his brother, Richard. The identical twins, sons of Mr. and Mrs. Herbert S. Werner, of Rosedale, L. I., graduated from Bessie Coleman Polytechnic Institute, in Troy, N. Y. So alike are they that even their girl friends can't tell them apart—except by the shape of their ears.

COST OF LIVING STAYS NEAR PEAK

Americans Spending Plenty For Privilege To Live Well

NEW YORK—(AP)—Americans are living well—and spending a lot for the privilege.

Consumer in general, not in all individual cases, found in the first six months of this year that the defense effort didn't affect their lives nearly as much as they had expected. They learned also that American industry could supply them with more of most things than they wanted to buy. And they found that labor disputes could cut off consumer goods more surely than the war in Korea.

Despite the many bargains around, the cost of living still stays near its peak.

At mid-year here's the average man's outlook in food, clothing, homes, house furnishings, jobs and wages, money and credit:

Food: Plenty to eat — prices may be down a little — that's the prospect. Fingers are crossed on two things, though: bad weather could still ruin the present good crop outlook and government price supports will keep some foods from dropping to their present levels.

Clothing: Prices may continue to slide a little until Fall—then the industry looks for them to firm up.

Most apparel items are cheaper than a year ago. Shoe prices are down, and production is on the upswing. Capacity to make synthetic fibers is increasing, and clothing store customers are steadily getting a wider choice of fabrics and combinations of fibers. With raw wool prices back to pre-Korean levels, wool is giving synthetics a run for their money again.

Sugar Prices Rise
A bumper wheat crop is likely to call for government price support. Sugar prices are rising, because the government which decides how much can be imported wants them higher, to protect domestic producers.

Wholesale food prices in general are nine per cent below a year ago. And in spite of rising operating costs in the grocery business, retail prices are easier on most items.

Household gadgets are being designed.
Jobs and wages: Employment is near a record high—despite the steel strike—and wages continue to climb.

Layoffs in depressed industries have been largely offset by new jobs in the booming ones. Unemployment is at what the government calls "a near minimum" of 11.2 million. Wage scales seem likely to rise this Fall, in the wake of the pay boost the steel strikers expect to get. Take-home pay, however, will be held down by two things: The highest income tax rate ever, and shorter work weeks in some industries just entering their own post-war readjustment period.

Money: Incomes continue to rise—but the pace is slower.

Pay Checks Fatter
Pay checks may get a little fatter. Dividend payments are running six per cent higher this year than last. Old age pensions are going up a little. Professional men are getting higher fees. Farmers will take in more cash this year than last—but spend even more money and end up with net income down about four per cent, the government thinks. People are expected to spend more of their money this Fall than last and say less—put savings banks report total deposits at record high levels.

Livestock
PORT WORTH—(AP)—Sharply curtailed receipts brought a more stable set of prices on cattle and calves, and lambs and ewes reflected good gains. Hogs moved in a narrow range. Comparative prices: slaughter steers and yearlings \$15-\$22.50; slaughter cows \$10-\$21; bulls \$15-\$23; slaughter calves \$15-\$21; stocker calves \$22.50 down; stocker yearlings \$27 down; stocker cows \$14-\$19; Spring lambs \$10-\$27; feeder Spring lambs \$18 down; old crop lambs and yearlings \$10-\$12.50; two-year-olds \$9 down; ewes \$5.50-\$7; old bucks \$5; closing hog top \$20-\$20.25; sows \$12-\$16.50; feeder pigs \$12-\$16.

Homes: The nation's biggest building boom shows few signs yet of running down.

Almost as many homes are being started this year as last, despite repeated predictions that the nation is over-building, and despite earlier fears of material shortages. Prices on new homes still hold firm, and builders find purchasers for most of them.

Furnishings: It takes a few less dollars to furnish a home now.

Bargains Available
Bargains can be found in most electrical appliances — and you don't need as much cash for down payments. Furniture prices are a trifle easier. New models of many

Taft Holds Hairline Margin In GOP Credentials Group

WASHINGTON—(AP)—Backers of Senator Robert Taft hold a hairline edge over followers of Gen. Dwight D. Eisenhower on the contest-deciding Credentials Committee of the Republican National Convention.

An Associated Press survey of committee members already selected — each state and territorial delegation chooses one member — showed Saturday that 19 are supporting Taft's bid for the GOP nomination, 17 favor Eisenhower and two from Michigan and Pennsylvania — call themselves neutral.

Four states where there are contests — Florida, Georgia, Mississippi and Texas — probably will present rival members. In all of them Taft's backers have chosen their man and in one of the Eisenhower camp has picked its representative.

Six other Credentials Committee members still are to be chosen by state delegations. Of these six, three will be selected in state contests which show a majority for Taft, one in contested Louisiana, one in Massachusetts will favor Eisenhower and one in California will support Gov. Earl Warren.

No information was available on credentials selections from Alaska, Hawaii, Puerto Rico and the Virgin Islands. However, Taft claimed this week the first three delegations favor him.

Of Taft won all these contests, plus the three credential committees to be selected yet in states where his followers control the delegations, he would have 27, a majority of the 52 credential members.

If Eisenhower won all five of the contests, plus one committeeman to be selected for him in Massachusetts, he would have 23. His backers would need support of the two neutrals, plus California and at least one of the territories to give him a majority.

Because of this situation, the battle for control of the Credentials Committee promises to shed some advance light on what the convention may do about the nomination. The size of delegations varies greatly, however, and while one candidate might have a majority of the state and territorial delegations, he could be outvoted on the nomination because of the size of his opponent's supporting group.

Sen. Henry Cabot Lodge of Massachusetts, Eisenhower's national campaign manager, has said a move will be made to make sure that "no delegation whose credentials are not in order may take part in resolving any contest."

This presumably would keep Texas, Georgia, Florida, Louisiana and Mississippi delegations from voting on any of the contests which may be taken to the convention floor. As the rules stand, the temporary chairman now has authority to decide whether any of these delegations can vote on the seating of others under contest, or even upon their own seating.

The temporary chairman is Walter Hallahan of West Virginia. A Taft man who has contended that his presidential preference won't influence any rulings he makes. In any event, his decisions can be appealed to the convention itself.

AIRMEN MAKE WAR ON BIRDS

MONTGOMERY, Ala. (AP)—The Air Force has declared war on pigeons at Maxwell Air Force Base.

The reason: pigeons are hazards to planes taking off or landing.

Lt. Col. Claude E. Trotter, Jr., base operations officer, has detailed members of the base skeleton to hunt the birds in a radio-equipped jeep.

The birds are spotted by observers in the control tower. They radio the direction of approaching pigeons to the extermination squads. An estimated 273 birds have been killed so far, 23 in a single day's shooting.

The Credentials Committee serves as the GOP convention's designated group to review decisions on the Republican National Committee on contests over the seating of delegations.

The National Committee has agreed to hear contests involving 38 delegates from Texas, four from Georgia, six from Louisiana, four from Mississippi, 18 from Florida, one from Missouri and one from Kansas.

Balance of Power
This total of 72 might represent the balance of power in a close ballot contest between Taft and Eisenhower for the nomination.

The National Committee told state committees to settle district contests involving two delegates in Virginia, seven in Louisiana, 13 in Georgia and one in Mississippi.

Virginia and Louisiana committees promptly gave their delegates to Taft. However, Eisenhower backers said they will contest the seven in Louisiana and it is likely that all of Georgia's 17 also will be in contest.

Under convention rules, the Credentials Committee can't take new evidence beyond that brought out before the National Committee in its first hearings. But the credentials group could reverse the National Committee's decision. And the Credentials Committee's rulings go directly to the convention itself.

However, the National Committee indirectly has something to say about the make-up of the credentials group, inasmuch as it certifies the temporary role of the convention. Thus the National Committee could decide to seat a Taft delegation from Texas, for instance, and a Taft backer thus would gain a seat on the credentials group.

Control In Question
Control of Texas, Georgia, Florida, Louisiana and Mississippi delegations rests on the outcome of contests.

Two-Car Collision Kills Four, Injures Two Near Galveston

BEAUMONT—(AP)—Four men were killed and two injured in a two-car collision early Saturday between Beaumont and Galveston.

The Highway Patrol said the collision occurred between 12:30 and 1 a.m. near Sotwell, about 20 miles south of Beaumont.

The dead: John C. Rogers, 20, and Roger C. Ducarme, 30, two sailors; John Wesley Brannan, 17, High Island, Texas, and Clifford W. Larson, about 35, Beaumont.

Marvin Smith, 18, also of High Island, was brought to a Beaumont hospital in critical condition. Carl Fountain, 22, Beaumont, was treated and dismissed. His injuries were believed not serious.

The Highway Patrol said Larson and Fountain were in one car coming toward Beaumont and the other four in a second car headed in the opposite direction, toward Galveston.

The two sailors were serving aboard the U. S. S. Marlas, a Navy tanker which docked Friday morning at Beaumont's Magnolia Docks. The Navy said the two got off Friday night at Sabine Pass on a three-day liberty and planned to visit at Rogers' home, which the Navy said was at Velasco, Texas.

Immigration Unit Curtails Activities
WASHINGTON—(AP)—The Immigration Service said Saturday it already is cutting back the Mexican border patrol activities it expanded only a couple of weeks ago.

Willard F. Kelly, head of the enforcement division, said the change was necessary because the Senate refused Thursday to appropriate enough money for stepped-up activities in the fiscal year which starts July 1.

He said contracts awarded to build an alien detention camp at Brownsville had been canceled; that a seven-day cancellation notice had been issued on an airlift flying deported aliens from Brownsville to interior Mexico, and some 250 border patrolmen who had been added to the force faced the likelihood of being released.

There are two barrels in a hog-head.

INSIDE THE REPUBLICAN PARTY: I

GOP Faces Most Critical Campaign, Banks Hopes On Desire For Change

By JOHN GUNTHER
Written for NEA Service

The first thing to say, looking into the exposed viscera of the Republican Party, is that this makes a break in its history. And for several reasons it differs strikingly from any other presidential campaign in recent years. As to why:

1. For the first time since 1928—once could even say 1924—both conventions, not just one, are as open as a sword swallower's gullet. For more than 20 years, the American people have watched the campaign go into the home stretch with the candidate of at least one party unmistakably visible. But not today. It's a fight at both conventions.

2. For the first time since 1928 neither candidate is an incumbent of the White House. For the first time in six elections, the major issue is not that of reelecting somebody. Hoover succeeded himself as candidate in 1932, Roosevelt served four terms, and Truman followed Truman in 1948.

3. For the first time since 1936 the Republicans do not know what they will be up against. When FDR and Truman were running the opposition knew exactly whom it had to attack.

4. This will be the first election fought under the full, pitiless, impartial, and terrifying-glassy eye of television.

5. Not since the McAdoo-Smith fight in 1924 has there been such intra-party bitterness on either side. The Taft and Eisenhower forces are slugging at each other, within the Republican Party, fully as much as any Democrat. The Eisenhower people say, "If you nominate Taft it means suicide." The Taft people say, "This is a struggle for survival."

The tactics of Taft supporters in picking pro-Taft men for all top convention jobs show that they take this struggle for survival in a highly personal way and are determined to win.

Intra-party battle: The Taft and Eisenhower forces are slugging at each other fully as much as any Democrat.

6. Not since Gen. Leonard Wood in 1920 has either party considered a military man for president. Not since Theodore Roosevelt in 1908 has a military man become president, and T. R. was not a regular army officer.

7. In a manner of speaking, what is at stake is not merely the presidency of the United States but the Soviets and their allies excluded—the presidency of the World. The great overriding advantage the Republicans have, as they see it, is the desire of people for a change. The Democrats have been in power for 20 uninterrupted years, and 20 years is a long, long time. The issue goes beyond such obvious items as that the GOP is avid for power or that the Democratic administration is fraying at the edges. It is not merely, the Republicans say, that Washington imperatively needs a change of face, new direction, and fresher blood. What counts, on a high level, is the survival of the American two-party system. Give the Democrats another four years, and the two-party system might be dead as Ptolemy.

Hence, many independents and some convinced Democrats are expected to vote Republican this year if the GOP candidate is somebody they can gulp down without too much pain, like Eisenhower or Warren.

The overriding Republican disadvantage is in the realm of bluntness, cold, and possibly immutable statistics. It is that the GOP, which for more than a generation was the majority party, is now the minority party. Franklin D. Roosevelt, with some assists from history, changed the prevailing political complexion to Democratic.

The GOP elephant (until the middle 30's) was automatically considered to be very much bigger than the Democratic donkey. But the elephant has shriveled, and the donkey has cardinalized grown.

A recent Gallup poll, working on the basis of an estimated electorate of 55 million, puts the Democrats at 21.5 million, the Republicans at 18.5 million, and independents at 15 million. If a candidate, to win, must get something of 27 1/2 million votes, this means that the Democrats need pick up only 6 million independents, whereas the Republicans must pick up 9 million.

Moreover, in the past five elections, the independent vote has been prevailing Democratic. No Republican can possibly win unless he makes enormous inroads on either the Democratic or the independent vote. This is not a matter of opinion, but of fact.

This, incidentally, serves to make somewhat ridiculous the recent outcries by Taft and others that Democrats have been voting for Eisenhower in Republican primaries, and that this is "immoral" and an "outrage."

If a lot of Democrats don't vote Republican in November, Eisenhower will be back at Columbia, and Taft's address will still be c/o the Senate, not Pennsylvania Avenue.

Tomorrow: The main issues before the GOP.

8. Not since Gen. Leonard Wood in 1920 has either party considered a military man for president. Not since Theodore Roosevelt in 1908 has a military man become president, and T. R. was not a regular army officer.

9. In a manner of speaking, what is at stake is not merely the presidency of the United States but the Soviets and their allies excluded—the presidency of the World. The great overriding advantage the Republicans have, as they see it, is the desire of people for a change. The Democrats have been in power for 20 uninterrupted years, and 20 years is a long, long time. The issue goes beyond such obvious items as that the GOP is avid for power or that the Democratic administration is fraying at the edges. It is not merely, the Republicans say, that Washington imperatively needs a change of face, new direction, and fresher blood. If a lot of Democrats don't vote Republican in November, Eisenhower will be back at Columbia, and Taft's address will still be c/o the Senate, not Pennsylvania Avenue.

Tomorrow: The main issues before the GOP.

Zweifel, Ex-Taft Backer Ingraham Exchange Insults

HOUSTON—(AP)—"I wasn't a bolter, but Harry Zweifel was," declared Joe Ingraham, Harris County Republican Committee chairman here Saturday.

"Furthermore, I'm not a paid henchman. All the money I make comes from my law practice and not from politics."

Ingraham's statements were in reply to charges leveled against him and Jack Porter by Republican State Chairman Zweifel in a wire to Gen. Albert C. Wedemeyer, chairman of the National Citizens for Taft Committee.

Contentious wire, were made public at New York.

"The statement of Mr. Zweifel is entirely false and I deny them categorically. I don't know what he means by the Porter group. I am a friend of Jack Porter but I know nothing of the so-called Porter group."

"I did not bolt my precinct convention, as Zweifel told. I did not bolt the county convention, as Zweifel did. I did not bolt the state convention."

Turned Back At Door

"I was not admitted to the state convention. Armed guards met me at the door and refused to allow me to enter. I did not attend the Eisenhower convention at Mineral Wells either."

"Afterwards, I read in the papers that I had been selected as a Taft delegate to the national convention—one of the five Taft delegates named at the Porter convention. I did not—with Porter or with anyone else—participate in the organization of Eisenhower clubs and I am not a member of an Eisenhower club."

Zweifel's blast was prompted by a letter Ingraham wrote to William W. Worrlow, of Lebanon, Pa., a Republican National Convention delegate, in which Ingraham said the Zweifel forces backing Taft stole the Texas convention delegation from Eisenhower.

Zweifel said Ingraham "is a member of the Porter group and does not deny his group misrepresented the Texas law to well-meaning Democrats by leading them to think that they could elect delegates to the Republican National Convention."

"Now being faced with the consequences of his own acts, he attempts to squirm off the hot seat by indirection."

Turned Back At Door

"I was not admitted to the state convention. Armed guards met me at the door and refused to allow me to enter. I did not attend the Eisenhower convention at Mineral Wells either."

"Afterwards, I read in the papers that I had been selected as a Taft delegate to the national convention—one of the five Taft delegates named at the Porter convention. I did not—with Porter or with anyone else—participate in the organization of Eisenhower clubs and I am not a member of an Eisenhower club."

Illinois Insurance Man, Realtor, Heads Lions International

MEXICO CITY—Edgar M. Elbert, Maywood, Ill., is the new president of the International Association of Lions Clubs (Lions International). He was elected by unanimous vote at the 35th annual convention of the association which closed here at the new Municipal Auditorium Saturday. Elbert succeeds Harold P. Nutter of Camden, N. J.

The convention concluded one of the most outstanding years in the history of Lions International, according to the report made by R. Roy Keaton, Chicago, director-general of the association. He reported the addition of 909 new Lions Clubs during the year and a membership increase of 31,413. He stated also that during the last 12 months Lions Clubs were established in six additional countries—Iceland, Netherlands, Germany, Japan, Belgium, and Brazil, making a total of 37 nations in which Lions Clubs are in existence. As of May 31 of this year, there were 9,570 Lions Clubs and 449,029 members.

Elbert, in accepting the presidency, said: "Such a meeting as this is our answer to those totalitarian leaders of our age who prosper and thrive on the mistakes of free men and women who have grown indolent on liberty and freedom. Such a meeting as this—like a strenuous in the night—fairly screams even beyond the iron curtains of this day, screams the fact that no free people stand alone—that our cord of friendship is at once a lifeline of courage to any weak portion of this world subject to violation."

Elbert owns and operates a real estate and insurance company in his home town of Maywood. He also is the owner and manager of Citizens Currency Exchange, Inc., in that city. He was born in Villard, Minn., in 1902.

Funeral Rites For Monahan's Crash Victim Set Sunday

MONAHAN — Funeral services for C. E. Pipkin, 56, who was injured fatally in a head-on crash near here Friday night, will be held at 2:30 p.m. Sunday in the First Methodist Church. The Rev. Joe Emanuel of Carlsbad, N. M., will officiate. Interment will be in Monahan Memorial Cemetery under direction of Farr Funeral Home.

Pipkin was occupying a 1951 Ford that was involved in a collision with a Texas-New Mexico bus on the Kermit highway north of Monahan. The driver and the eight passengers on the bus were uninjured.

Pipkin was employed as a circulation representative for a San Angelo newspaper. He was a member of the Methodist Church.

Survivors include the widow, a son, James, of Big Spring; three stepdaughters, and a sister.

LABORATORY APPROVED

WASHINGTON—(AP)—The Senate Saturday passed and sent President Truman a bill providing 10 million dollars for a foot and mouth disease laboratory. The measure would let the agriculture secretary choose the site.

RETURN TO ANGELO

Mr. and Mrs. Bill Woody of San Angelo returned home Saturday after visiting in the R. S. Brashers home, Olathe, Okla. Road and H. Street. They had arrived Friday.

LABORATORY APPROVED

WASHINGTON—(AP)—The Senate Saturday passed and sent President Truman a bill providing 10 million dollars for a foot and mouth disease laboratory. The measure would let the agriculture secretary choose the site.

Phillips To Operate Texas Plant Making Aircraft Jato Units

BARTLESVILLE, OKLA.—Phillips Petroleum Company has been designated by the U. S. Air Force as the operator of the Bluebonnet Plant located at McGregor, Texas. K. S. Adams, chairman, and Paul Endacott, president, announced Saturday at company headquarters in Bartlesville, Okla.

The plant will produce aircraft jato (jet assist takeoff) units which will provide bursts of jet power for brief periods during aircraft takeoffs. These units consume solid fuels and have no moving parts. Jato units have been produced a number of years in small quantities. Improvements and cost reductions may make them practical for use by commercial planes as well as military planes.

Phillips has created a rocket fuels division in its research and development department. This division is being staffed by key administrative and technical employees from the company and by trained solid propellant experts from the rocket industry, to conduct a full-scale development and manufacturing program.

E. F. Kindsvater, who has been project manager of the new project, formerly headed the engineering and chemical engineering departments of Phillips Petroleum Company. Emil A. Mallick, who will be assistant manager, previously served Phillips as technical consultant and as supervisor of jet development activities.

Although research and initial operations are being conducted in Bartlesville, all but the research work soon will be transferred to the plant at McGregor. This facility, formerly known as the Bluebonnet Ordnance Plant, was built by the government during World War II and operated as a bomb loading plant until 1945.

Social Security Steps Broadened

WASHINGTON—(AP)—President Truman signed a bill Saturday, giving states until Jan. 1, 1954, to make voluntary agreements with the federal government placing state employees under social security. Previously, the states had only until Jan. 1, 1953, to make such arrangements. There is a retroactive provision covering previous service back as far as Jan. 1, 1951.

Lattimore Handed Apology Of Government On Visa Ban

WASHINGTON—(AP)—The State Department apologized publicly to Owen Lattimore Saturday and revoked the order barring the Far Eastern affairs specialist from leaving the country.

In a formal statement, the department described as false a tip it received to the effect that Lattimore was planning a trip behind the Iron Curtain. It was on the basis of this tip that the department directed customs officials to stop the Johns Hopkins University professor from leaving the United States.

"The Department of State," today's statement said, "expresses to Mr. Lattimore its sincere regret over the embarrassment caused him."

Lattimore, expressed appreciation for the State Department's action but said assurances should be forthcoming that such a "monstrous and un-American injustice cannot happen again."

This fantastic case will make clear to the American people what I know from long and bitter experience; namely that there are both amateurs and professionals at work in our country blurring the reputation of innocent people and undermining our democratic values.

"They are today's lynch mob, operating on a grand scale supported and inspired by highly placed officials."

The public apology by the State Department followed the indictment by a federal grand jury at Seattle Friday of Harry A. Jarvinen, 32-year-old travel agency executive, on a charge that he gave a business tip to the FBI and the Central Intelligence Agency that Lattimore had arranged to buy tickets for a trip to Russia.

No Trip Intended

When issuance of the supposedly confidential State Department order was disclosed by the *Seattle Times* on June 20, and then officially confirmed, Lattimore denied categorically that he ever intended to make such a trip.

He is a professor at Johns Hopkins University and has sometimes been a consultant to the State Department. He has been a frequent target of Senator McCarthy (R-Wis.) in the senator's charges of Communist influence in government. Lattimore has vigorously denied the senator's assertions that he has been a Communist agent. He says he has never had any Red connections.

While an investigation was being made into the validity of the report, the department on June 6 had the customs service to direct its port officials to make sure Lattimore did not leave the country.

Off-Repeated Query Rankles

SPRINGFIELD, ILL.—(AP)—Gov. Adlai E. Stevenson again Saturday declined comment on the possibility of a Democratic draft for President.

He was asked at a news conference if he would accept a draft for the presidential nomination.

"I have no comment on that subject—which is getting mighty tiresome," Stevenson replied.

Drowning Victim Comes Home, Alive

DALLAS—(AP)—A Dallas man missing almost a week and believed drowned in Lake Texoma, walked into his home Saturday, and his mother said she's not asking him any questions.

Jerry Higdon, 24, married and father of two, disappeared last Sunday while swimming with friends in the lake. Searchers had dragged the lake all week, believing him drowned.

Saturday morning—nobody seemed to know the exact time—Higdon walked into his home.

Dozier, French Meet Sunday For Golf Tourney Title

TOURNAMENT GOLFERS—Red Roden of Odessa, left, and Hezzie Carson of San Angelo, top right, both were eliminated Saturday in the semi-finals of the Midland Country Club Men's Invitational Golf

Tournament. E. V. Dozier of Big Spring, lower right, shown selecting a club, gained the finals by defeating Roden, 3 and 1. Carson dropped his match to French, 1-up.

Finals To Be For 36 Holes Instead Of Scheduled 18

Defending champion Bob French of Odessa and E. B. Dozier of Big Spring will tee off at 9:30 a.m. Sunday in the finals of the 36-hole championship flight of the Midland Country Club's Men's Invitational Golf Tournament.

French advanced to the finals Saturday by eliminating Hezzie Carson of San Angelo, 1-up on the 18th hole in a match which was close all the way.

The STANDINGS

SATURDAY'S RESULTS

Langhorn League
 MIDLAND 2, ROSWELL 1.
 San Angelo 7, Artesia 5.
 Odessa 4, Vernon 3.
 Sweetwater 10, Big Spring 6.

National League
 Brooklyn 4, Boston 2.
 Philadelphia 7, New York 2.
 Cincinnati 3, Chicago 2.
 St. Louis 4, Pittsburgh 3.

American League
 Philadelphia 12, New York 0.
 Cleveland 5, Chicago 1.
 Washington 3, Boston 1.
 Detroit 5, St. Louis 2.

Texas League
 Beaumont 7, San Antonio 4.
 Tulsa 2, Dallas 2.
 Oklahoma City 7-1, Fort Worth 3-2.
 Shreveport 5, Houston 1 (15 innings).

WT-NM League
 Lamesa 4, Clovis 3, first game.
 Pampa 8-1, Borger 6-2.
 Lubbock 3, Amarillo 1, first game.
 Abilene 5, Albuquerque 4.

Finals of the championship flight originally had been scheduled to go 18 holes but tournament officials, at the last moment, changed the finals to 36-holes.

The final 18 holes of play is slated to begin at 1:30 p.m.

Hits Every Green
 In the Carson-French match, the San Angelian hit every green on the front nine in regulation except the eighth in his battle with the defending champ. Carson took a 1-up lead at the end of the first four holes but French pulled even on five by sinking a 40-foot putt.

Bob French

French and Carson remained tied at the end of the first nine. They split ten, but on the eleventh hole, Hezzie pulled out of a bad lie to get right next to the cup where he one-putted to take the hole. French missed his shot.

Carson dropped the 12th hole to French's birdie, and on the thirteenth, the San Angelian hit a tee shot into the rough where he made a bad recovery to score a bogie and lose the hole, and the match to the blond, Odessa's par.

The pair halved the fourteenth, fifteenth, sixteenth and seventeenth holes, but on the eighteenth, Carson's tee shot hit a tree and bounced back onto the fairway, 165 to 170 yards from the green.

French made a fine tee shot but had a bad lie when the ball rolled too far. Carson hit his second shot onto the green about 30 feet from the cup while French, because of his bad lie, missed his second shot, leaving him about 50 to 60 yards from the green.

The defending champion then hit his next shot onto the back side of the green. Carson three-putted the hole while French got up and in and from the back side of the green to halve it with him for a bogie five.

Other semi-final matches resulted as follows:
FIRST FLIGHT—Teddy White, Roswell, N. M. beat Mac Boring of Odessa, 7-up, 20 holes; Bill Higworth beat John Ward 2 and 1.
SECOND FLIGHT—Paul Campbell of Odessa beat Bill Craig, Odessa, 1-up, 19 holes; W. O. White, Lamesa, beat J. E. Sherrod, 1-up, 19 holes.

THIRD FLIGHT—Don Franklin beat James E. Lyles, 1-up, 19 holes; Jack Matthews beat H. W. Hamilton, 4 and 2.
FOURTH FLIGHT—W. O. Stallings beat Don Hoover, Big Spring, 4 and 3; Lloyd R. French beat Rogers Evans, 4 and 2.
FIFTH FLIGHT—Doyle Patton, Jr., beat L. Z. Brown, 1-up; Bill Marshall beat Fred Burleson, 2 and 1.
SIXTH FLIGHT—Bob Walker, Big Spring, beat Dalton Cobb, 2-up; John Pipes, Big Spring, beat Jim Brown, 2 and 1.
SEVENTH FLIGHT—Ray Andrews, Big Spring, beat Don O'Shaughnessy, 1-up, 19 holes; J. W. Baldwin beat Tommy J. Elliott, 5 and 4.
EIGHTH FLIGHT—Walter Ciesiel beat Tommy Flournoy, 5 and 3.

ARKANSAS LAD WINS
CHICAGO—(P)—James Wallace, Little Rock, Ark., Saturday won the oratorical contest at the annual convention of the Key Club International, a youth organization sponsored by Kiwanis International.

Indians Trip Rockets, 3 To 1, As Downpour Halts Contest

ROSWELL —(P)—Zeke Bonura and his Midland Indians came to town and with them brought the rain. But it is not unusual. The last two times it has rained in Roswell the Tribe from Midland has been here. And it has sprinkled, at least

the last four times Midland has been here.

The game Saturday night between the Rockets of Roswell and Midland was called at the end of the fifth inning, but that was time enough for the Indians to hand Roswell its sixth straight loss, a 3-1 nipping.

Rocket Manager Al Monchak slammed a leadoff homer for Roswell's only run and only hit off Israel Ten in the second inning.

Top Golfers Battle In Inverness

TOLEDO, OHIO —(P)—The Inverness best-ball \$18,000 Invitational tournament scripped down to a two-way tie Saturday between the Sam Sneed-Jim Ferrier and Lloyd Mangrum-Cary Middlecoff duos.

The leading pairs tangle Sunday afternoon in the final round of the 80-hole clash in which a dozen of the country's top-flight professionals are competing.

Sneed and Ferrier clung to a one-point lead with plus six, under the unique Inverness scoring system Saturday. They handed last-placers Jimmy Demaree and Jack Burke a one-down defeat. Mangrum-Middlecoff, with a four-up conquest over Doug Ford and Ed (Porky) Oliver, boosted their rating to plus five.

In third place, at plus one, were veteran Byron Nelson and Skip Riegel who manufactured a four-up win over Clayton Heafner and Marty Furgol.

Braves Dump Broncs, 10-6; Corrales Win Streak Is Snapped

SWEETWATER —(P)—The Sweetwater Braves spotted the Big Spring Broncs four runs in the top of the first inning here Saturday night then fought back with timely hitting in the 10th.

A two-run triple by Warren Siltier tied it up for the Braves 5-5 in the fifth inning. Then Ernest Cortez singled ahead Siltier to put Sweetwater ahead, 6-5. Suarez singled across two runs in the sixth to stretch the count to 8-5 and the Braves made it 10-5 in the eighth on a walk, a triple by Charlie Tuttle and Siltier's single.

The Broncs blasted Braves starter Gil Graless from the mound in the opening inning as Juan Visteur slammed a three-run homer. The Braves cut the margin to 4-2 in the home half of the first when Suarez singled in two runs.

Rolando Rodriguez baffled the Broncs for six innings before retiring in favor of Ernie Sadler in the seventh when the first two big tie and Siltier's single.

Oilers Nip Vernon In 12-Inning Tilt By 5 To 4 Score

ODESSA —(P)—Lefty Loyko singled to center to score Raul Dieppa from third with the winning run here Saturday night as Odessa nipped Vernon, 5-4, in 12 innings.

Vernon led, 4-3, going into the bottom of the 12th. With two away Evello Ortega, who gained his 13th pitching win of the year, doubled. Dieppa singled, moving Ortega to third.

Roberto Fabian hit a roller to Jerry Maladena at third and Maladena threw wild to first. Ortega scored and Dieppa moved to third. Then came Loyko's game-winning single.

The score:
 R H E
 Vernon — 100 110 001—4 14 3
 Odessa — 001 200 002—5 15 3
 Sosa and Niedson; Ortega and Castro. HR—Loyko (Odessa).

Winkler Golf Tourney Reaches Final Stages

KERMIT —Dick Martin of Dallas will meet E. H. Hall of Kermit here Sunday morning in one of the semi-final matches of the Winkler County Country Club's Invitational Golf Tournament.

The winner of a second round match between Pat C. Seaton of Snyder and Windy Green of Odessa will determine the foe for Charles Thorpe of Odessa in the other semi-final contest.

The Seaton-Green match was called because of darkness Saturday with both golfers tied up at the end of 15 holes. Thorpe had defeated Billy Walker of Hobbs, N. M., 4 and 3 Saturday to gain the semi-finals.

Winners in the first round play follow:
 Dick Martin, Dallas, defeated E. H. Hall, Kermit, 5 and 4; George Addison, Jal, N. M., defeated Roy Cryer, Denver City, 3 and 2; Charles Thorpe, Odessa, defeated J. Hubbard, Monahans, 4 and 2; Billy Walker, Hobbs, N. M., defeated Ray Bevell, Monahans, 4 and 2.

Sid Sabath Takes Billiard Crown

Sid (Judge) Sabath is champion of the first Permian Basin three-cushion billiard tournament.

He came from behind Perry Jackson for the title Thursday night after the pair had deadlocked for the lead in tournament play.

Cecil King, manager of the Recreation Club, where the tourney was staged, already is planning future tournaments.

TRUMAN PROMOTES HILL

WASHINGTON —(P)—President Truman Saturday nominated James T. Hill, Jr., to be assistant secretary of the Air Force. He has been general counsel of the Department of the Air Force since July 31, 1950.

THE MIDLAND REPORTER-TELEGRAM, SUNDAY, JUNE 29, 1952-7

Champions Repeat In Final Olympic Track, Field Tests

LOS ANGELES —(P)—Mal Whitfield, proud defending Olympic champion at 800 meters, won the 400 meter final tryout Saturday in the brilliant time of 46.9 seconds to spark a powerful American team in its quest for world honors in the games this Summer in Helsinki.

Whitfield, who won the 800 meters Friday in 1:48.6, thus joined Curtis Stone as the only double winners on the American squad. Stone, former Penn Stater, won the 5,000 and 10,000-meter runs.

Another Olympic champion from the 1948 games joined Whitfield on the team—Harrison Dillard, the veteran Baldwin-Wallace flag. But this time Dillard qualified in his specialty, the high hurdles, an event in which he failed in 1948. That was the year, however, when he surprised by winning the Olympic 100 meters.

Except in the 400 and 100-meter dashes, only the first three finishers in each event were taken.

Any Stanfield, formerly Seton Hall, won the 200-meter final in 20.6 seconds around turn, a new American record. The old mark was 20.7 by Jesse Owens.

Horace Ashenfelter, formerly Penn State, won the 3,000-meter steeplechase in 9:06.4, another American record. His brother, William, was at his heels.

In the discus, Bill Iness, the giant Southern California student, bested the world record holder, Fortune Gordien, with a toss of 170-105. Gordien had 173-53/4.

Walt Davis, Texas A&M, won the high jump and then went on up in an effort to break the world record of 6-11. On one try at a fraction over this, the bar remained poised for a moment and then wobbled gently off as the crowd groaned.

Davis' winning height was six feet, nine. Ken Wiesner, Navy, was second with 6-7-7/8.

Strong as is the 1952 American team, many champions were left behind through injury and accidents. Wilbur Thompson, the 1948 champion in the shot put, failed to qualify. Other stars who missed are Don Gehrmann, Otis Chandler, Bernard Mayer, Dick Boyle and Jim Goldiday.

Colts Tripped By JayCees

The JayCee baseballers had little trouble with the Midland Colts in Indian Park Saturday night, winning 15 to 2.

John Olson stymied the Colts bats in allowing only two hits. He helped the JayCee cause, too, with two safeties out of three hits.

THIRD FLIGHT—Don Franklin beat James E. Lyles, 1-up, 19 holes; Jack Matthews beat H. W. Hamilton, 4 and 2.
FOURTH FLIGHT—W. O. Stallings beat Don Hoover, Big Spring, 4 and 3; Lloyd R. French beat Rogers Evans, 4 and 2.
FIFTH FLIGHT—Doyle Patton, Jr., beat L. Z. Brown, 1-up; Bill Marshall beat Fred Burleson, 2 and 1.
SIXTH FLIGHT—Bob Walker, Big Spring, beat Dalton Cobb, 2-up; John Pipes, Big Spring, beat Jim Brown, 2 and 1.
SEVENTH FLIGHT—Ray Andrews, Big Spring, beat Don O'Shaughnessy, 1-up, 19 holes; J. W. Baldwin beat Tommy J. Elliott, 5 and 4.
EIGHTH FLIGHT—Walter Ciesiel beat Tommy Flournoy, 5 and 3.

Two former Indian players contributed to the JayCee hitting assault. Emil Ogden got two hits in three trips and Stan Wilcox registered one safety.

The JayCees and Colts have entered the semi-pro baseball tournament scheduled in Odessa Park at Odessa July 1-7, inclusive. A limited number of entries would reduce the tournament period.

The JayCees have a season record of two victories against one loss.

Tribe Bops Rockets 7-4, Behind Nicolls

ROSWELL —(P)—Nipping steadily at the offerings of Andy Alonso, the Midland Indians dropped the Roswell Rockets, 7-4, here Friday night to run Roswell's losing streak to five straight.

Right-hander Keith Nicolls gave up three hits in the third inning but scattered the same number of safeties the rest of the way in registering the win.

Singles by Scooter Hughes and Cahlen Dinkel, sandwiched by a double by Earl Rosenberry gave the Indians two runs in the initial frame.

Some shaky Midland fielding, three Rocket hits, a wild pitch, a walk and an error gave the Rockets three runs in the third as they went ahead 3-2.

But Pat O'Keefe put the visitors back in the game with his solo homer in the fourth.

Van Huppert, Rocket first sacker, tripled in Al Monchak, on with a walk, for Roswell's run in the fourth.

The Bonuramen went on to score a single run in each of the fifth and sixth and led the contest with two in the eighth while Nicolls set the Rockets down without trouble.

Alonso wild-pitched to allow the tying run to score. Thursday night he had heaved a wild pitch to allow the winning run to cross the plate.

In the fifth, Woody Pennington singled, was sacrificed to second, moved to third on a ground-out and scooted home on the wild toss.

Bosenberry got a leadoff single in the sixth, stole second and came in when Julio de la Torre singled off Alonso's knee.

A leadoff double by O'Keefe and singles by Deja Torre, Bill Brown, Pennington and Nicolls gave the Tribe its two runs in the eighth.

Huppert, playing his first game in a Rocket uniform, picked up half the Rockets' six hits.

The score:

Dallas Texans Sign Former LSU Gragger

DALLAS —(P)—Billy Baggett, the former Louisiana State backfield star, signed a contract with the Dallas Texans of the National Football League Saturday. Baggett was obtained from the Los Angeles Rams in a cash purchase in the deal which sent 11 Rams players to the Texans for all-America guard Les Richter.

Baggett hails from Beaumont. Advertiser or Be Forgotten.

Cash Prizes, Trophies Up In Dog Show

A number of cash prizes and trophies will be offered in the annual West Texas Kennel Club show to be held September 17 in Midland.

A \$50 cash prize and a trophy will go to the best Midland dog. Competition is open to all registered dogs within a radius of 75 miles of Midland. Trophies also will go to each local best-of-breed winner. Owners of registered dogs are urged to enter the local groups. Dogs entered in local classes cannot be handled by a licensed handler unless he also is owner of the dog.

Junior showmanship classes will consist of two age groups, 6 to 10, inclusive, and 11 to 14, inclusive. Valuable prizes will be awarded for each age group with the only requirement being that a dog to be entered in the showmanship class also must be entered in a class in the regular show. Midland youths are urged to compete in this class in which ability to handle the dog is most important.

The Midland Kennel Club is continuing with its show-training classes at 7 p.m. each Thursday in Crier Park in the 1500 block of West Main Street. Thursday evening, the different breeds of dogs were represented. C. L. Davenport set up a typical show ring and dogs were gaited and handled through the ring with club members serving as judges.

Big Spring, Odessa, Artesia Take Wins

By The Associated Press

It's not heat—nor Texas humidity—that has Big Spring hot under the collar in the Longhorn League. It's leading Odessa.

Big Spring's pace through Friday night included its eighteenth victory in 22 outings, the last five with a half-game of the first place position. But Odessa, beating Vernon 4-3, refuses to yield. Odessa's triumph was its fourth straight, compared to five straight for Big Spring. The Broncs ran over Sweetwater, 8-5.

Artesia boasts the biggest winning string at present, picking up the seventh in a row at San Angelo's expense, 10-5.

SPORTS NOTES

from the
BENCH JOCKEY

By BOB ADAMS

With this issue of the bench jockey, we are bidding a reluctant farewell to our Diamond Dust column.

However, before the dust has settled entirely, let us hasten to explain that we found nothing wrong with the title, Diamond Dust, it's just that it limited our sports comments to activities on the diamond.

And, with such a wide variety of sports going on around Midland, we had to broaden our perspective somewhat.

Now that we have bid farewell to Diamond Dust, what do we talk about? Baseball.

Vernon has sold Pitcher Audie Malone to Keswell on an outright cash deal and it's rumored the Dusters will trade Second Baseman John Fells to Amarillo for a second and third baseman.

Sweetwater scribe Bud Workham says Pitcher Ervin Armin of Artesia, who defeated Odessa on three hits recently, is the same fellow who started the 1951 season with Sweetwater.

"If we remember correctly," says Workham, "Armin won only one game for Sweetwater, and that was a neat four-hitter over Odessa."

Speaking of Artesia pitchers, hasn't everyone said all season long that the Drillers would be hard to handle if they got a couple of hurlers? Well, they've added a couple and that seven-game win streak seems to bear out some of the bench jockey's.

One thing about it, even a second rate hurler could work pretty well behind the margin the Drillers suggest usually run up.

The board of directors of Midland Indians, Inc. met in a five-hour session Saturday afternoon and voted to appropriate more money with which additional players can be purchased.

Because the Indian management has tried all season to purchase players, it is operating on a tight-rope margin. It still is operating in the black but brother, it's getting grey around the edges.

Needless to say, it costs a considerable sum to purchase good ball players.

Second Baseman Floyd Martin has about recuperated from the injuries which sidelined him recently in the Artesia game. Martin was hurt when Jim Ackers, the Driller centerfielder, played into him while the Indian second baseman was attempting to execute a double play.

He was to be in the lineup Saturday night.

In recent Longhorn player transactions, Clarence Stewart Lehmann was released outright by Rowell while Robert Lee Smith was released outright at direction of Yuma Club of the Southwestern International League.

The contract of Catcher W. E. Arbutuckle of the San Angelo Colts was assigned optionally to the Abilene club of the West Texas-New Mexico League. J. B. May of San Angelo also was reinstated from the restricted list.

Morelli Grapples Cowboy Carlson On Odessa Mat Card

ODESSA — Rugged Tony Morelli will meet muscled Cowboy Carlson in the main event of a hot grappling card here at 8:30 p.m. Monday in the Odessa Roller Rink, located at 818 East Eighth Street.

The match will be for the best two out of three falls, one-hour time limit.

In a semi-final match, Bog Gigel will grapple Massa Kimura for the best two out of three falls, 45-minute time limit.

Johnny James will wrestle Ace Abbott, for one fall, 20-minute time limit, on the first event of the card.

Tickets may be purchased at the roller rink.

SOMETHING NEW IN PROPPING UP

WIMBLEDON, ENGLAND — The orderly-minded British, who queue for the box office, buses and bread among other things, turned up something new in regimentation Saturday.

So many spectators among the 25,000 at the Wimbledon tennis matches passed out in the 90-degree heat they were propped up in a queue outside the first-aid station awaiting treatment.

Delaware Park race track is the only major mile oval in the country with the front and back stretches each 100 feet wide.

Midland Sports Fans Dig Deep To Help Fund Drive

Generous Midland sports fans reached deep into their pockets last week to contribute to the Little League fund raising campaign.

Received in the mail Saturday at the Sports Desk were checks totaling \$80, which ran the aggregate received so far to \$1,398.

In order to meet expenses for baseball equipment for the Little League, \$2,500 must be raised.

A person can contribute to the fund, by clipping the coupon below this story, filling it out and mailing it to the Sports Desk, Reporter-Telegram, with their check made out to the Midland Little League.

Money which is raised by the campaign will be used toward buying all sorts of equipment for the more than 400 Little Leaguers who are playing in the six leagues in Midland.

Contributions received so far:

Shantz Beats Yanks, 12-0, For No. 13; Redlegs Edge Cubs, End Losing Streak

NEW YORK —(AP)—Bob Shantz, the mighty mite of the Philadelphia Athletics, breezed to his thirteenth victory of the season Saturday as the A's humiliated the world champion New York Yankees, 12-0.

Shantz permitted only two safeties and also participated in the 14-hit assault against Johnny Sain and Tom Morgan, driving in two runs on a single, double and squeeze bunt.

Gus Zernial was the big man for the A's, batting in five runs on his eleventh and twelfth homers of the season. Zernial connected with one aboard in the first inning and climaxed a six-run second-inning uprising with a three-run homer.

The score: **R H E**
Philadelphia 261 200 100-12 14 1
New York 000 000 000-0 12 4
Shantz and Astroh; Sain, Morgan and Berra, Houk.

Tribe Beats Chisox To Move Up Notch

CHICAGO —(AP)—Cleveland moved from a fourth-place tie to a near second-spot deadlock Saturday with a 5-1 win over the Chicago White Sox behind Mike Garcia's canny, eight-hit pitching and a 10-blow attack, including homers by Larry Doby and Mike Easter.

The score: **R H E**
Cleveland 030 000 101-5 10 1
Chicago 010 000 000-1 8 0
Garcia and Tipton; Stobbs, Dorish and Lollar.

Red Sox Castoff Beats Old Mates

BOSTON —(AP)—Discarded by the Boston Red Sox about two weeks ago, veteran Walt Masterson staged himself against his former teammates Saturday by turning in a five-hit pitching performance that gave the Washington Senators their fifth straight victory, 5-1.

The score: **R H E**
Washington 000 004 100-5 19 0
Boston 001 000 000-1 5 2
Masterson and Orasso; DeLoach, Scarborough, Trout and White.

Gray Holds Brownies To Two Safeties As Tigers Triumph, 4-2

ST. LOUIS —(AP)—Southpaw Ted Gray held the Browns to two hits, a triple and double by Cass Michaels, Saturday night as he hurled the last-place Detroit Tigers to a 5-2 victory over St. Louis.

The score: **R H E**
Detroit 200 003 000-5 9 0
St. Louis 000 101 000-2 11 1
Gray and Swift; Harritt, Medison, Holcombe and Johnson.

Midland Softballers Beat Coahoma Girls

A two-run homer in the eighth inning broke up a 9-0 deadlock and gave the Harry Rhodes girls softball team here an 11-9 victory over a Coahoma girls team Friday night.

The Midland game had been forced into extra innings, when Coahoma, trailing by three runs, rallied to knot the score at 9-9 in the seventh frame.

Shaffer hurried for Coahoma and Rose-Hart was on the mound for Rhodes. The game marked the seventh win against only two defeats for the Midland crew.

If Dinkel Fails At Baseball, He'll Turn Towards Football

If speedster Gahlen Dinkel, Midland Indian center fielder, fails to make the grade in this, his second year in organized baseball, he'll shuck his spikes in favor of hard rubber football cleats.

Because, though few fans realize it, Dinkel gave up a highly promising football career at Southern Methodist University to play baseball.

Or rather he has given up football temporarily, until he can arrive at some decision about which crossroad leads to the most dividends for himself.

"If I have a good year in baseball this year, I'll stick with it," Dinkel said with an air of resignation, "otherwise I'll try my luck at professional football."

The 21-year-old athlete, was outstanding in both sports while playing on his Marshall, Texas, high school team.

When Marshall won the district baseball title in 1948, Dinkel was named to the all-state baseball team. He also was named to the all-state football team during his senior year. In the three preceding years, Dinkel had been selected all-conference in both sports.

When Dinkel's brother, Bill, accepted a coaching job at Louisiana State University at Baton Rouge, the Indian center fielder followed

WHO DUNNIT?—Nellie Fox, White Sox second baseman, appeared to be popping Umpire Bill Summers in the eye after taking a peg from Catcher Sherm Lollar and tagging the umpire's Ferris Fain, who was out on an attempted steal. (NEA)

Schoolboy League Looks To Highest State Court In All-Star Game Fight

AUSTIN —(AP)—The Texas Inter-scholastic League looked toward the State Supreme Court Saturday in its fight to enforce a rule forbidding all-star football games on high school property.

Losing both in the Trial Court and the Court of Civil Appeals, R. J. Kidd, will ask a rehearing and falling there will take the case to the highest court in the state.

If the opinion of the Court of Civil Appeals at Fort Worth stands,

it is indicated that all-star games will be allowed to function anywhere school boards furnish the stadium in which to play.

The ruling of the appeals court Friday at Fort Worth was that the league had no power to ban high school all-star games such as the Oil Bowl at Wichita Falls.

It was over the Oil Bowl that the league got into court. Midwestern University filed suit for injunction to prevent the league from penalizing Wichita Falls High School for allowing use of its stadium for the Oil Bowl game, a football contest in August that matches high school stars from Texas against Oklahoma. Midwestern has a lease on the stadium to stage six games a year. It has been giving over one date to the Oil Bowl.

Sawyer Gets Gate; Phils Sign O'Neill

PHILADELPHIA —(AP)—The Philadelphia Phillies, floundering in the National League's second division, changed managers in mid-season Saturday with veteran Steve O'Neill replacing one-time college professor Eddie Sawyer, "for the good of the club."

Owner Bob Carpenter announced the shift Friday night at a hastily called meeting of sportswriters in Shibe Park clubhouse following Phillies' 6 to 0 win over the New York Giants.

O'Neill ran the club when the Phillies met New York Saturday night.

Carpenter didn't say it, but it was apparent he was trying to put some whiz back in the "Whiz Kids"—the collection of youngsters who slid into the National League pennant on the final day of the 1950 season and have had to be content to rest some laurels ever since, despite some fretful goading by the usually quiet spoken, easy-going Sawyer.

Jim Vickers Takes NCAA Golf Title

LAFAYETTE, IND. —(AP)—Jim Vickers of Oklahoma, twice two holes down, came back in the afternoon round to defeat Eddie Merrens, Louisiana State, one-up, in the championship match of the National Collegiate Golf Tournament Saturday.

Dripping in 104-degree heat, Vickers stepped in a 18-foot putt for a birdie four on the thirty-sixth hole to wind up the tight match.

The smooth swinging Louisiana State boy had Vickers two down midway in the morning round and still had a one-hole advantage at noon.

Vickers caught him on the first hole of the afternoon round with a four and one-half foot birdie-three putt. The Oklahoman took the lead for the first time on the third afternoon hole with a par four. Merrens had missed the green.

Lions Edge Yanks, 3-2, In Close Tilt

Larry Parks' three-hit pitching gave the Lions their first victory in the second half of the South Little League race Friday as they trimmed the Yanks, 3-2, in an extra-inning tilt.

Joe Bailey and Herb Farris, who relieved him in the fifth, also gave up but three hits to the Lion batsmen. Wayne Kiser and Marvin Cuthbert were the catchers.

Monday afternoon, the front-running Cards will challenge the second-place Eagles on the South Little League Field.

The standings: **W L Pct.**
Cards 6 0 1.000
Eagles 3 3 .500
Yanks 2 4 .333
Lions 1 5 .167

CINCINNATI —(AP)—The Cincinnati Reds, virtually helpless against the pitching of Bob Rush for eight innings, pushed across two runs in the last of the ninth Saturday night to 2 victory over the Chicago Cubs.

The victory ended a five-game Cincinnati losing streak.

Rush had held the Reds to three widely scattered hits until the ninth.

In the ninth with Cincinnati behind 3-1, Ted Kluszewski scored Grady Hatton with a single and made second when Gene Hermanson's throw got by Bill Sewera.

Rush walked Willard Marshall intentionally and Semnick delivered his game-winning wallop after Joe Adcock had filed out. The drive brought in Bob Borokowski, who was running for Kluszewski.

The score: **R H E**
Chicago 010 100 000-2 5 2
Cincinnati 020 000 000-3 8 0
Rush and Atwell; Wehner, Smith and Semnick.

Lippy Bounced As Phils Down Giants

PHILADELPHIA —(AP)—Robin Roberts limited the New York Giants to four hits, and his Philadelphia Phillies teammates banged out 11 hits to down the Giants, 7 to 2, Saturday night before newly-named manager Steve O'Neill.

The contest featured a seventh-inning rhabarb in which New York Pilot Leo Durocher and two of his players were banished from the game.

The score: **R H E**
New York 001 100 000-2 4 0
Philadelphia 100 120 118-7 11 0
Hearn, Wilhelm, Spencer and Yarns; Roberts and Burgess.

Bums Clip Braves On Hodges' Clout In Ninth Inning

BROOKLYN —(AP)—ON Hodges smashed his fifteenth home run with a man on base in the ninth inning Saturday night to give the Brooklyn Dodgers a 4-2 victory over the Boston Braves. The triumph was Brooklyn's tenth, without a loss over Boston this season, and it jacked their National League lead to five games over the New York Giants, who bowed to Philadelphia.

The score: **R H E**
Boston 000 002 000-2 5 0
Brooklyn 010 000 100-4 8 0
Spinks and Cooper; Van Cuyk, Black and Campanella.

Musial, Hemus Bat Cards To 4-3 Win

PITTSBURGH —(AP)—Stan Musial blasted a triple to run his consecutive hitting streak to 24 games and Solly Hemus smashed his eighth home run as the St. Louis Cardinals whipped the last-place Pittsburgh Pirates 4-3 Saturday.

Pitcher Johnny Tuhas, who relieved Joe Presko in the seventh inning, won his second victory in as many days.

The score: **R H E**
St. Louis 000 000 220-4 6 3
Pittsburgh 010 001 100-3 9 1
Presko, Tuhas and D. Rice, Fueselman; Dickson and Garagiola.

Jim Vickers Takes NCAA Golf Title

LAFAYETTE, IND. —(AP)—Jim Vickers of Oklahoma, twice two holes down, came back in the afternoon round to defeat Eddie Merrens, Louisiana State, one-up, in the championship match of the National Collegiate Golf Tournament Saturday.

Dripping in 104-degree heat, Vickers stepped in a 18-foot putt for a birdie four on the thirty-sixth hole to wind up the tight match.

The smooth swinging Louisiana State boy had Vickers two down midway in the morning round and still had a one-hole advantage at noon.

Vickers caught him on the first hole of the afternoon round with a four and one-half foot birdie-three putt. The Oklahoman took the lead for the first time on the third afternoon hole with a par four. Merrens had missed the green.

Lions Edge Yanks, 3-2, In Close Tilt

Larry Parks' three-hit pitching gave the Lions their first victory in the second half of the South Little League race Friday as they trimmed the Yanks, 3-2, in an extra-inning tilt.

Joe Bailey and Herb Farris, who relieved him in the fifth, also gave up but three hits to the Lion batsmen. Wayne Kiser and Marvin Cuthbert were the catchers.

Monday afternoon, the front-running Cards will challenge the second-place Eagles on the South Little League Field.

The standings: **W L Pct.**
Cards 6 0 1.000
Eagles 3 3 .500
Yanks 2 4 .333
Lions 1 5 .167

Nine Teams Land Men On All-Star Starting Lineup

CHICAGO —(AP)—Nine different teams are honored on the American and National League starting units for the all-star game, selected in a poll of almost four million fans.

The poll conducted by the Chicago Tribune was headed by Stan (The Man) Musial, brilliant St. Louis Cardinal outfielder, who bagged 1,291,532 votes.

The first-place New York Yankees and Cleveland Indians dominated the American League with three starters each, the Chicago White Sox and Boston Red Sox landing one apiece.

The National League's eight starters included two each from the Cardinals, first-place Brooklyn Dodgers and runner-up New York Giants, and one apiece from the Chicago Cubs and Philadelphia Phillies.

Here's the way the 3,981,284 voting fans ordered Managers Casey Stengel of the American and Leo Durocher of the Nationals to start the all-star teams:

American League
First base—Eddie Robinson, Chicago.
Second base—Bobby Avila, Cleveland.
Third base—Al Rosen, Cleveland.
Shortstop—Phil Rizzuto, New York.
Left field—Dale Mitchell, Cleveland.

Center field—Dom DiMaggio, Boston.
Right field—Hank Bauer, New York.
Catcher—Larry Berra, New York National League

First base—Whitney Lockman, New York.
Second base—Jackie Robinson, Brooklyn.
Third base—Bobby Thomson, New York.
Shortstop—Phil Rizzuto, New York.

Left field—Hank Sawyer, Chicago.
Center field—Stan Musial, St. Louis.
Catcher—Ray Campanella, Brooklyn.

The 18 players will start the game and play at least three innings unless injured or sick.

Stengel and Durocher, automatically rival managers when they led the Yankees and Giants to 1951 pennants, will round out their 25-player squads with their own pick of pitchers and replacements for the 18 starters.

REJOINS TRIBE — Ed Santa, limited service right-hander who appeared here briefly with the Indians before being called by the Army for a physical examination, will rejoin the Tribe Monday. The Army has deferred Santa until the season is over.

Lions Sign A&M Star

DETROIT —(AP)—Yale Lary, star halfback at Texas A&M, signed a contract Friday with the Detroit Lions professional football team. Lary was the Lions' first draft choice.

Edgar Laprade, star center of the New York Rangers, operates a hotel during the off-season.

LEGAL NOTICES
NOTICE OF HEARING
Notice is hereby given that a public hearing will be held on July 8, 1953, at 7:30 o'clock P. M. in the Council Room in the City Hall, Midland, Texas, on proposed changes in zoning classification as follows:

1. That the classification in Lots 7, 8, 9, 10, 11 and 12, Block 13, Gardens Addition, be changed from "B" to "C" zone.

2. (a) That the classification in the S 1/2 of Block 34, College Heights Addition, be changed from "B" to "C" zone.
(b) That the classification in Block 21 and the N 1/2 of 34, College Heights Addition, be changed from "B" to "C" zone.
(c) That the classification in Blocks 16, 22 and 23, College Heights Addition, be changed from "B" to "C" zone.

CITY OF MIDLAND
J. C. HUDMAN
Secretary
(June 28)

THREE CUSTOM BUILT EXTRA NICE HOMES

If you are looking for a 2-bedroom home, and want the "extra-nice" features that make all the difference, we'd like very much to show you these three residences in the 2600 block of West Delano. Double sinks, central heating, recessed lighting, sub-floors and No. 1 hardwood floors, top-quality insulation, built-up roofs and choice of interior colors are only a few of the reasons why these homes are so far above the average 2-bedroom home. Curbs, gutters and solid driveways, choice of attached garage or carport, location near school and shopping center. In addition, all materials and workmanship are of the best. FHA financing available, with 20-year, 4 1/4% loan. No better all-around value in West Texas! Let us show them to you.

FULL PRICE, \$9,250 to \$9,450 - ONLY \$2,000 DOWN
DEAN SLAVENS, Builder

REPORTING THE TOP NEWS IN REAL ESTATE

IT'S ON PRINCETON. Gradiousness predominates in this lovely 3-bedroom, 2-bath, white brick home. The master bedroom is a picture from HOME BEAUTIFUL, with a private ceramic tile bath, huge dressing room with tile vanity. Spacious living room, separate dining room, and numerous, large closets. Central heating, ducted for air-conditioning, and almost 1,800 sq. ft. of living space. High tile fence, nice lawn. Owner being transferred. By appointment only.

BEAUTIFUL HOME & 3 RENTAL UNITS located on Big Spring. The master home has 3 bedrooms, 2 baths, and large rear porch which can be made into comfortable den. Central heating, central air-conditioning, carpeting, fenced yard. The revenue houses bring in over \$270 per month. Valuable and strategic location. Excellent present and future investment. Call on this one time daily.

2 1/2 ACRE TRACT CLOSE TO CHIEF DRIVE IN THEATER WATER WELL ELECTRICITY. SENSATIONALLY PRICED AT ONLY \$2,200.

PEOPLE OFTEN TELL US that real estate prices are relatively high in Midland. When they see some of the REAL BARGAINS that we have to show them, they are invariably surprised—and end up with more than they had expected. For example: \$2,100 down will purchase a brand new 2-bedroom home located in TOWN NORTH. Assume the FHA loan and make total payments of only \$52 per month. Priced at \$8,900.

LIKE TO SEE A PRETTY SUB-DIVISION? Drive out Andrews to Michigan St., then turn WEST to the first corner. There you will find about 4 new brick homes, each having 3 bedrooms, tile bath, attached garage. Central heating, completely carpeted, ducted for air-conditioning. Area has self-imposed restrictions to brick homes. Prices range from \$14,500 to \$15,500. Give yourself a deserved treat by seeing these homes NOW—then call our office for further information. It's natural to want the best for the least amount of money—and that is precisely the aim of this development.

A LITTLE GEM which could be purchased for as little as \$1,900 down. Two bedrooms, 20-foot living room, attractive tile bath, detached garage. This home is completely carpeted and in excellent condition throughout. Owners have lived in it about six months out of the two years that they have owned it—and now they have been transferred to Wyoming! 4% G.I. loan—with payments of \$56 per month. It will cost you 30 minutes to inspect this home—and pay you big dividends—in comfortable living. Call us right NOW.

WANT A LARGE YARD with a circular drive in front of your home? 10x30 lot with water well and pump house, and in the house, two bedrooms, large living room, dining room, 2 air-conditioning units, lots of big closets. About 7,840 square feet in living space. Close to schools and transportation. ONLY \$11,500.

A BETTER HOME IS A LIFT FOR LIFE—and that is what this new, cream velvet brick home will do for you. It has 3 nicely arranged bedrooms, 2 tile baths, tan-beam garage (the rear section can easily be converted into a huge den). Central heating, ducted for air-conditioning, mahogany doors, metal kitchen cabinets, washer connection, and selectively carpeted throughout. You will appreciate the wide leaves which protect the home from Midland's summer sun. Located in the northwest part of town. Close to everything. Builder cannot duplicate at today's costs. ONLY \$19,000.

DURING THE 4th OF JULY WEEK-END, why not take stock of your assets? Do your rental payments dictate your monthly earnings? Be a smart shopper—call us and ask us to show you the 3-bedroom home that we have which is located in TOWN NORTH. You will love the cheerful color selection throughout and the floor plan which allows you to enter the house without tramping through the living room. Attached garage which can easily be made into a large den. Double closets and vanity in the master bedroom, distributed heating, tile bath, carpeting, and a honey of a kitchen. Paved street. After seeing this one, others will be but a disappointment. Priced at \$13,750.

TIRED OF WAITING FOR THE BUS? Only 9 blocks north of Wall Street is a very attractive 2-bedroom home which could be handled for as little as \$2,000 down. Never needs outside painting as it is constructed of Johns-Manville asbestos siding. Four years old. Young trees, lawn, paved street. But just in case, the bus runs in front of the house. Full price is only \$7,000.

WEST HWAY 80 BUSINESS LOT. Next door to Miller's elaborate restaurant. 50x140, facing south. Priced far below the market. Urgently suggest you call IMMEDIATELY for this unusual opportunity.

YOU PAID \$125 RENT LAST MONTH—and what have you to show for it? Stop nagging your spouse, the money is gone. But for July, you need pay only \$52 if you purchase this new 2-bedroom, tile brick home. This includes all payments. And the total price is a mere \$8,900. If you are in a hurry, this home can be yours today.

ON COMMUNITY LANE you will find some of Midland's finest homes. Among them is this new 3-bedroom, 2-bath Austin Stone dream. It has a 13x31 living room with a New England fireplace, central heating, utility room, a double attached garage, which converts into a ball-room size den if more space is needed. Unique floor plan. \$26,500.

OWNER WILL COMPLETE his plans for enclosing a breezeway at no additional cost to you so that you may have a 3-bedroom, 2-bath home on College Street for only \$9,500. One room is pine paneled. Laundry room, fenced yard, lawn, paved street. Check this home as a MUST on your list when you call us. Remember, only \$9,500.

WANT TO SEE A LOW-PRICED, MAGNIFICENT AND LUXURIOUS HOME? DRIVE TO 2414 WEST STOREY. THEN STOP. LOOK AT IT FOR A WHILE. IT WILL INVITE YOU TO COME INSIDE. IT HAS 3 BEDROOMS AND 2 BATHS. COMPLETELY CARPETED. YOU'LL LOVE THE INTERIOR. CALL US, WONT YOU?

NEWLY ARRIVED - IN MIDLAND? Start your house-hunting by calling KEY, WILSON & MAXSON first. Let our highly trained and expert sales people show you the BEST AVAILABLE. We are members of the National and Midland Real Estate Boards. Our aims far surpass just selling; we endeavor, first, to satisfy you. Helping progressive Midland grow is another of our chief aims. We want you to be happy, for the progress of a city depends upon the people in it. Call us, or stop in at the office for a look.

15-ACRE INDUSTRIAL SITE. Located just south of the RR, close in. \$850 per acre.

400 BLOCK ON NORTH COLORADO. Lot 50x140 with a 20-foot alley. Zoned for Local Retail. Priced under \$30,000.

THE HOME IMMACULATE which will please the most fastidious. It is a 2-bedroom white home surrounded by a New England white fence. The luxurious lawn in front and rear yards defies description. Central air-conditioning, central heating, and attached garage. Vent-A-Hood and Youngstown metal kitchen cabinets (and lots of 'em). Assume G.I. loan. Total monthly payments are only \$60.25. \$11,750, full price.

1406 NORTH WHITAKER. Will trade for smaller home or good building lot, plus cash difference. Tile fence, water well, some carpeting. Bendix and dishwasher connections, furnace, heating. We will convert the garage into a pine paneled den. Only \$14,750.

SLIGHTLY SUBURBAN. On North Big Spring Street. Two very nice-sized bedrooms and den. Attached carport. Water well, and large utility house, partially tile fenced. This home can be purchased for about \$2,500 down. Full price: \$9,500.

KEY, WILSON & MAXSON'S PEEP-SHOW:
305 Spruce Street—2-bedroom beautiful.
309 E. Estes—2-bedroom cute thing.
110 W. Pine—2-bedroom bargain.
304 E. Maple—2-bedroom modern.

HOUSES FOR SALE 75

GRAFALAND

To describe this residence as a 3-bedroom home would be like calling a chinchilla wrap a lady's coat... a true but hardly adequate statement. On a very large corner lot in the heart of Grafaland, this Austin Stone home is in the setting it truly deserves... and from the heavy shake roof to the solid foundation, it was built for generations of comfort and enjoyment.

The huge living room is the natural focal point, with immediate access to the large, airy family room, the beautiful, paneled den, the dining room and kitchen, and the three comfortable bedrooms. Refinements include fireplaces in the living room and den, 7 1/2-ton U. S. Airco air conditioning, 200,000-B.T.U. heating system, circulating hot water, indirect lighting with mercury switches, and innumerable others. Two full tile baths, with a half-bath off the kitchen. The carpeting and drapes are in exquisite taste, of course. And leading to the double garage is a large, tiled porch designed for outdoor living enjoyment.

This gracious home, one of the most beautiful and outstanding in Grafaland, is waiting for your inspection... just call and let us know when you would like to see it.

800 Main St. Phone 837
Kerrville, Texas

NO DUST! River Front and Cool!

Wouldn't you love to own a lovely rock home and 25 acres of land? Live in the year around. The house is a solid rock. Well insulated, cool in summer, very modern, decorated in lovely pastel shades. Wall-to-wall carpeting, real marble fireplace, includes kitchen, dinette, den, large living room, 2 bedrooms, bath, large glassed-in porch and attic. Two-car rock garage and bath, and a separate 3-room guest house. This house sets in a grove of hundreds of pecan trees, bordered by a half mile of the South Concho River, which has an abundance of fish. Turkey and deer roam the place. Almost an acre of Kentucky bluegrass encircles the buildings. Plenty of good water.

This is truly a lovely place where you can relax in complete freedom. It has all city conveniences, and no dust or close neighbors!

Priced at \$50,000 cash, or will carry \$22,000 on easy terms at 3 per cent. To make appointment, write Box 133 or phone 4304, Christoval, Texas.

A PICTURESQUE HOME

A beautiful residence overlooking the Bosque Valley. 83 acres of wooded land. Residence has tile roof, all conveniences, near the city limits of Waco. Swimming pool, water supplied from deep wells, city water nearby, servants' quarters and other buildings. The improvements would cost over \$150,000—much more than the selling price. Good homes are near this property. The most beautiful home-site in Central Texas.

This place is a good investment.

☆ High School Sponsors Summer Homemaking Course ☆

TAKING INVENTORY—Four Midland High School girls prepare the annual inventory of the homemaking department's equipment as part of their work in the Summer homemaking course now being offered in the high school. Mrs. G. E. Massey and Mrs. J. B. Cox are the directors. Girls pictured, left to right, are Bobbie Dickson, Jodie Davis, Raye McReynolds and Barbara French.

CRAFTS GROUP—Mrs. G. E. Massey demonstrates the art of textile painting to an interested group of students. Looking on, left to right, are Betty Dobson, Barbara French, Joe Reha Davis, Charlene Fussell and Shirley Pannell. The girls will receive one-half credit for the course which includes both class and home assignments, the latter to be chosen from one of the homemaking subjects which was taught during the school year.

PERSONAL IMPROVEMENT—Pat Harrell serves as a willing "guinea pig" for the home permanent being given by Shirley Pannell. Onlookers are Charlene Fussell, left, and Cherry White, a guest. The Personal Improvement Group studies good habits of health and grooming.

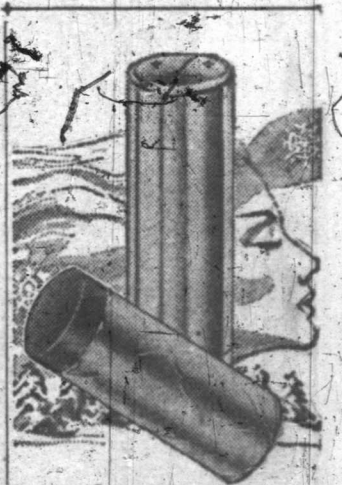

PLANNING SESSION—Members of the planning group consider a suggestion offered by Mrs. G. E. Massey, one of the group's co-sponsors. Mrs. J. B. Cox, third from left, is the other sponsor. Students pictured are Charlene Fussell, Thelma Deel, Wanda Whitmire, Bobbie Dickson, Betty Dobson, Barbara French, Raye McReynolds, Shirley Pannell and Pat Harrell.

FILES AND RECORDS—Wanda Whitmire tackles the job of keeping the filing cabinet up to date and properly alphabetized. Her assistants are Shirley Pannell, Pat Harrell and Charlene Fussell. The picture was taken in the modern suite of rooms occupied by the high school's homemaking department.

HOMEMAKERS AT WORK—Students in the sewing and consumer buying group learn to sew a fine seam. Those shown are Thelma Deel, foreground, Wanda Whitmire and Charlene Fussell. In addition to the subjects mentioned, students also may study landscaping, yard improvement, interior decoration, meal planning and preparation, recreation, safety in the home, care of the aged and sick and furniture refinishing.

Mr., Mrs. Chester To Live In Midland

Mrs. Ceell C. Chester

In a candlelight ceremony Saturday evening Ouida Jo Wilkerson of Port Neches became the bride of Ceell Carmen Chester of Midland. The wedding took place in the St. Mark's Episcopal Church in Beaumont with the Rev. Charles Wyatt-Brown and the Rev. Wayne Buchanan officiating.

The bride is the daughter of Mr. and Mrs. O. J. Wilkerson of Port Neches. Chester is the son of L. E. Chester of Texas City.

The chapel was decorated with pink flowers and pink tapers. The altar was banked with pink roses and garlands of ivy. Pink tapers formed the background for an arrangement of gladioli, peonies and asters. Small bouquets of English ivy and gardenias marked the pews.

Dr. Lawrence Meteyarde, organist, played "Jesus, Joy of Man's Destrining," "Air Tendre," "Prélude and Fugue in F Major," "The Bride's Song," "Adagio Cantabile from Sonata Op. 13, No. 8" and "Intermezzo." John Goodyear sang "O Perfect Love" and "May the Grace of Christ Our Saviour Rest Upon Them from Above."

Attendants Listed

Lorraine Hudson of Henderson was the maid of honor. Bridesmaids were Dorothy Jean Collins of Port Neches, Dorothy Straub of St. Louis, Mo., JoAnn DeLoach of Tyler and Mrs. R. C. McFarlane, Jr., of Nederland, Texas. Pat Parrish of Port Neches was the best man. Ushers were W. E. Daly, Jr., and W. Carey Williamson, Jr., of Houston. Groomsmen were Dudley Parrish and Alfred Smith of Port Neches, Phil Roberts of Tyler and R. C. McFarlane, Jr., of Nederland. Dan Weston and Arthur Storey, Jr.,

of Beaumont were the acolytes. The bride, given in marriage by her father, wore a strapless dress of pink taffeta and nylon with a three tiered skirt worn over a hoop. She wore a redingote of pink Chantilly lace over the dress. The redingote had long sleeves coming to points over the hands and a scalloped border fitting snugly over the bodice extending into a stand-up collar and buttoning to the waist. The lace skirt was in a peplum effect extending into a slight train. The lace bodice and points over the hands were embossed with seed pearls.

Her three tiered chapel length veil of pink tulle was attached to a hat of matching lace embossed with seed pearls. She carried pink Eucharis lilies and stephanotis with a cascade of blending shades of pink fleur de amour.

Attendants Wear

The bridal attendants were dressed alike in pink ankle length dresses similar to that of the bride's. Short capes with Peter Pan stand-up collars were worn over the strapless gowns. Pink lace mitts and small halos of English ivy leaves and pink flowers completed the ensembles. They carried cascade bouquets of roses with garlands of tiny ivy leaves and pink stephanotis.

For her daughter's wedding Mrs. Wilkerson wore a cocktail length dress of blue Chantilly lace and nylon tulle with a matching lace hat and an orchid corsage. Mrs. Kendall Jennings of Lovington, N. M., sister of the bridegroom, wore an ankle length dress of white organdy embossed with lilac and lilac accessories. She wore an orchid corsage.

After the wedding a reception was held in the Rose Room of Hotel Beaumont. The bride's table was covered with a white organdy cloth over pink and centered with a tiered wedding cake topped with flowers. Palms, pink gardenias and other pink flowers completed the decorations.

Reception Held

Those in the house party were Mrs. J. M. Gay, Jr., of Texas City, Betty Jim Herring of Orange, Carolyn Neal, Jo Lynn Davenport, Marilyn Thompson, Mrs. Guy Daniels, Mrs. W. P. Hebert, Mrs. A. H. Boyd of Port Neches, Mrs. D. C. Nelson of St. Albans, W. Va., Mary Morgan and Mrs. Kathleen Britigan of Beaumont, Virginia Brown of Buna, Mrs. J. H. McLaren of Corpus Christi and Mrs. L. R. Sansom of Dayton.

For the wedding trip to New Orleans and Biloxi, Miss., the bride wore a steel gray silk shantung suit with powder blue linen trim. Her accessories were blue and black. She wore a blue fleur de amour corsage.

After the wedding trip the couple will be at home in Midland where Chester is associated with American Republic Corporation.

The bride is a graduate of Port Neches High School, Stephens College in Columbia, Mo., and attended the University of Texas. Chester attended Texas A&M, University of Houston and Lamar State College of Technology.

Out-of-city guests were from Henderson, Tyler, St. Louis, Mo., Dayton, Corpus Christi, Texas City, Lovington, N. M., Birmingham, Mich., Newark, Ohio, St. Albans, W. Va., Galveston, Orange, La Marque, Hempstead, Lake Charles, La., Buna, Houston, Huntsville, Liberty and Cleveland.

Dance Studio Opening Set

Formal opening of Arthur Murray's Dance Studio in Midland will be held Monday at 120 1/2 West Wall, G. W. Roberts, manager, announced Saturday.

Roberts, who has been connected with Arthur Murray Dance Studios the last five years, was formerly manager of the Austin studio. His wife will assist him in managing the local studio.

Age limit for Arthur Murray students is from eight to 88, with weekly free "jam" sessions planned. The Midland studio marks the 312th that Arthur Murray has opened in the world. Studios now are located in Canada, Hawaii, Cuba and Australia and the United States. He plans to open studios soon in Paris, South Africa and South America.

Texas studios are located in Amarillo, Austin, Beaumont, Dallas, Fort Worth, El Paso, Galveston, Houston, Port Arthur, Corpus Christi, Wichita Falls, Port Arthur and Waco.

Among the famous graduates of Arthur Murray Dance Studios are Bob Hope, Bing Crosby, Katherine Hepburn, Mrs. Eleanor Roosevelt, Philip Wylie, Ingrid Bergman and others.

Martin Polio Leaders To Attend Workshop

STANTON—Representatives from Stanton will attend a one-day workshop Monday in Dallas on the problems of polio care and community relations.

They are Mrs. Leo Turner, chapter chairman for the National Foundation for Infantile Paralysis, and Mrs. Amy Burns, county health nurse.

Unlined draperies need only hems turned all around. Make a narrow hem on the sides, but at least a three-inch heading at the top to allow room for a stitched slot to hold the rod, or for a reinforcing tape attached to hold rings or hooks.

USED PIANO SALE

We have at least 50 Used Pianos on hand, ready to go. We don't ordinarily stock that many—but had an exceptionally good buy from a dealer in the East that is closing out... so, we're passing the savings on to you! If you don't think we'll sell you one right—just drop by and look around a little!

- Howard Grand made by Baldwin \$945⁰⁰**
Factory-refinished walnut, new keyboard, new ivories, new strings, new hammers—even the sounding board has been re-finished. New piano guarantee—should sell for \$1,150.00.
- Kimball Small Upright \$195⁰⁰**
Has been reworked and re-finished. New \$15.00 bench goes with this one. Piano was bought in a carload lot from dealer going out of business—he had it priced at \$275.00.
- Hamilton Upright made by Baldwin \$145⁰⁰**
Nice size, new keyboard, completely reworked inside. Really a tight action for a used piano—at least a \$245.00 value!
- Wellington Upright \$175⁰⁰**
Refinished, new keyboard, refelted and completely overhauled inside. Beautiful red mahogany finish. A steal at this price.
- Lyon and Healy Small Upright \$295⁰⁰**
Refinished at factory in Mahogany. New keyboard, new strings, hammers, pedals—in fact, the works! Regular \$395.00 piano.
- Jesse French Player \$375⁰⁰**
Player works perfectly. Walnut finish, new keyboard—complete factory overhaul. We will order you 20 new rolls with this piano. New bench also goes with it.
- Gulbransen Player \$375⁰⁰**
Player in perfect condition. Has new keyboard with the same factory overhaul and guarantee that nearly all these pianos have. You get to order 20 new rolls at our expense. Lots of fun and service.
- Smith and Barnes Small Upright \$225⁰⁰**
Original finish but plenty slick. New keyboard, with one of the cleanest actions you will ever find in a piano. New bench goes with it. I'll give you \$250.00 back for this one on a new piano!
- Kimball Studio Size \$345⁰⁰**
New finish, keys, felts, in perfect shape inside and since it has been re-finished is very hard to tell from a new piano. Sold two last week just about the same size and condition for \$450.00 each.

If you are not interested in a used piano, don't let that keep you from dropping by—you'll always find a large stock of the world's finest New Pianos.

Midland County Library Lists New Fiction, Non-Fiction Books

Thirty-nine new books recently were added to the shelves of the Midland County Library, according to Lucile Carroll, librarian.

The list includes the following children's books: The Leftover Elf (Stolz), Hunch, Munch and Crunch (Norman), Model Jets and Rockets for Boys (Yates), Secret of the Andes (Clark), Stepister Sally (Daringer), Do It Yourself (Carlson), Poncho and the Pink Horse (Smith), The Jim Thorpe Story (Schoor), Royal Red (O'Brien), Carol's Side of the Street (Belm), The Big Stretch (Decker), Presenting Miss Jane Austin (Becker) and The Magic Show Book (Alexander).

Novels received were: The Second Face (Ayme), Marianne (Davies), No Music for Generals (Howard), Out of the Whirlwind (Lindop), The Bengal Tiger (Hunter), The Mammo Murders (Sheridan), The Elk and the Evidence (Scherf), The Chicago Story (Morris).

Bicycle Thieves (Bartolini), Green Hills of Earth (Heinlein), House of Liars (Morante), Three Lives of Elizabeth (Selfert), The Shining Tides (Brooks), My Love Is a Cypriote (Frazier), Beat the Devil (Helm), and Aftaid in the Dark (Derby).

New non-fiction books include: Texas Sheepman (Kupper), Good Housekeeping Needlecraft Encyclopedia, The Wagner Operas (Newman), Paul Cezanne, a Biography (Rewald), Primitive Art of the Americas (D'Harcourt), My Philosophy (Croce), Fundamental Questions of Philosophy (Ewing), Second Honeymoon (Musselman), Party Odd (Bard) and Uncle Julius and the Angel with Heartburn (Rosenberg).

BRICKLAYER TREATED
M. W. Lombard, Midland bricklayer for Gepe Brewer Construction Company, was treated Friday at Western Clinic-Hospital after he got some steel in a finger of his left hand while working.

If you want a meat or fish loaf to be moist after baking, add enough milk so that the loaf barely holds its shape before you put it in the oven.

Ann Moore, W. L. Tinslar Wed

Almeda Ann Moore and William Lanktree Tinslar, both of Midland, were married in a double ring ceremony Monday in the First Presbyterian Church in Odessa. The Rev. H. G. McDonell officiated.

The bride is the daughter of Mr. and Mrs. F. L. Moore of Odessa. Tinslar is the son of Dr. and Mrs. G. W. Tinslar of Fort Worth. The church was decorated with four large baskets of pink and white gladiolus and stock arranged with orange leaves, memosa and baby breath. The pulpit table was centered with an arrangement of large pink daisies and white stock.

Mrs. Otis Hitchcock was the organist and accompanied Joyce Glazier who sang "Always" and "I Love You Truly."

Billy June Balch of Sweetwater was the maid of honor and James B. Davies, Jr., of Fort Worth was the best man. Ushers were John Wiedeman of Midland and Ken Cawston of Goldsmith.

The bride, given in marriage by her father, wore a white nylon tulle dress fashioned with a lace bodice. Her white nylon veil was attached to a crown trimmed with seed pearls. She wore white nylon mitts and carried a white Bible topped with a white orchid.

The maid of honor wore a pink nylon net dress with a full skirt and bolero cape of pink nylon lace. Her head dress was pink nylon net and velvet ribbon trimmed with tiny pink rosebuds. She carried a bouquet of white gardenias.

After the wedding a reception was held in the parlor of the church. The couple was assisted in receiving by their parents and Mrs. William L. Tinslar.

Those in the houseparty were Mrs. Tinslar, Billy June Balch and Mrs. James B. Davies, Jr. The table was centered with a bouquet of pink daisies and baby breath.

After a wedding trip to San Angelo, College Station, Houston, Beaumont and New Orleans the couple will be at home in Midland. For traveling the bride chose a navy blue shantung dress trimmed with pink. Her accessories were pink and navy blue.

To Live in Midland
The bride is a receptionist for Sharp Drilling Company in Midland. Tinslar is an employee of the Gulf Oil and Refining Company. Mrs. Tinslar attended Hardin-Simmons University and Tinslar is a graduate of Texas A&M.

Out-of-city guests were Mr. and Mrs. C. S. Youngblood, Mr. and Mrs. James Davies, Jr., Mr. and Mrs. William Casburn and George Muller of Fort Worth; Mary Lanktree of Chicago, Ill.; Mrs. Phil Clark, Mrs. W. E. Terrell, Mrs. Louise Sturgeon and Beulah May of Hobbs, N. M.; Mr. and Mrs. Ken Cawston of Goldsmith.

Guests from Midland were Mr. and Mrs. Robert B. Conaway, Mr.

Auxiliary Plans Fall Projects

The Woman's Auxiliary to the Midland Memorial Hospital discussed possible fall projects Friday at the group's last meeting before September.

Frances Hardwick, new director of nurses, gave a brief talk and Burton Sears, hospital administrator, announced Hospital Day will be held July 20.

The group presented Mrs. Kate Black with a pin and uniform in recognition of her service. Mrs. Jack Riggs, delegate to the Texas Association of Hospital Auxiliaries' convention in Houston, reported on the meeting.

Guests were Mrs. V. G. Sjoite, Mrs. Joe Harkey and Mrs. Bill Banks. Mrs. Clyde Sharrer, president, presided over the business session.

Twenty-one members and guests attended.

King George V, of England, made a hobby of collecting bugle-rugars, the beautiful Australian lovebirds.

It's little concern to her now, but tiny Deborah Jean Loose is something of a record-breaker.

The baby, who was seven weeks old Saturday, was the first girl to be born in the Loose family in the last 133 years. Her parents are Mr. and Mrs. Robert C. Loose of Midland.

Religion was the subject of most English literature before the 13th century.

DEBORAH IS ONE IN 100

AUGUST BRIDE—Mrs. Elnora Charlton, 300 North Pecos Street, and W. E. Charlton, Jr., of Midland announce the engagement and approaching marriage of their daughter, Patricia Ann, to John Franklin Brown, of Odessa. Brown is the son of Mr. and Mrs. Alfred Brown of Goldsmith. The wedding will take place August 3 in the First Methodist Church in Goldsmith.

Mrs. Dickerson To Be Speaker At UCCW Meet

Mrs. M. S. Dickerson will review "The Origin of the Bible" at the meeting of the United Council of Church Women to be held at 3 p.m. Monday in the First Presbyterian Church.

The scripture and devotional will be given by Mrs. Jimmie Gimes of the Asbury Methodist Church, Mrs. W. G. Attaway, First Christian Church, and Dr. R. Matthew Lynn, pastor of the First Presbyterian Church.

A nursery will be provided and refreshments served. Women of all churches are invited to attend.

LIP LACERATED

H. H. Clay, 501 South Loraine Street, suffered a lacerated upper lip Friday. He was treated at Western Clinic-Hospital. Attaches said he was struck with a pair of brass knucks.

SURGICAL PATIENT

Mrs. John R. Williams, Terminal, is a surgical patient at Western Clinic-Hospital.

Injured Monahans Resident Improves

Bennie Washington, 30-year-old Monahans negro, who had both legs severed when struck by a freight train here June 18, Saturday was reported "doing fine" at Midland Memorial Hospital.

Washington, janitor for a number of Monahans business firms, was apparently attempting to board the Texas and Pacific train and fell under the wheels.

Nebraska today has more dairy and beef cattle than it had buffalo 75 years ago.

Veep's Daughter Married To Texan

PADUCAH, KY.—(AP)—Miss Anne Carleton Hadley, step-daughter of Vice President Alben Barkley, and Weldon Behrend of San Augustine, Texas, were married Saturday.

Mrs. Behrend, a junior of Sophie Newcomb College, New Orleans, is the elder daughter of Mrs. Barkley, the former Mrs. Carleton Hadley of St. Louis.

She is 20. Behrend is 23. He was graduated this month from Tulane University and is going into the Air Force in August.

Ceremony Read For Midlanders

Mrs. D. A. Campbell of Midland and J. Lynn Metcalfe exchanged vows at a morning ceremony Saturday in the home of the bridegroom, 712 Nobles Street.

Dr. R. Matthew Lynn, pastor of the First Presbyterian Church, officiated at the single-ring ceremony.

The bride is the daughter of Mrs. B. E. Braselton of Midland. Mrs. Herman McLaughlin, sister of the bridegroom, played a program of nuptial selections.

The bride wore a suit of bride's blue with navy accessories. Following the wedding a reception was held. Mrs. Chaeley Wilson, sister of the bridegroom, and Mrs. R. G. Boulware, sister of the bride, presided at the refreshment table.

After a wedding trip to Grand Canyon, Ariz., and Santa Fe, N. M., the couple will be at home at 712 West Nobles Street.

The bride has been employed as a teacher in Midland High School. Metcalfe is associated with the Midland Hardware and Furniture Company.

St. Mark's Methodists Top Building Fund Goal

St. Mark's Methodist Church has gone over the top by more than \$5,000 in its building fund campaign.

The successful completion of the finance drive was announced at a victory meeting held Thursday night on the church lawn, when members were told that 144 pledges, aggregating \$80,053, were in the hands of the building committee. The goal was \$75,000.

The Rev. Jordan Grooms, pastor of the First Methodist Church of Lamesa, was the guest speaker at the victory gathering of church members and friends.

H. G. (Bub) Brewer, chairman of the church's Board of Stewards, presided at the meeting. He introduced Randolph D. (Randy) Rubin, general campaign chairman, who presented division chairmen and team captains before expressing congratulations to campaign workers and church members upon the successful completion of the drive in quick order. Refreshments were served at the conclusion of the program.

Good Month For Drives
St. Mark's thus became the second Midland Methodist Church to exceed its building fund quota this month. The Asbury Methodist Church campaign, also for \$75,000, was completed last week when pledges totaling more than \$77,700 were reported.

Both campaigns were directed by the National Fund-Raising Services, Inc., of Fort Worth, which Ivan H. Wood is the executive vice president. The firm has conducted other

successful campaigns here. H. B. Harden directed the St. Mark's drive of the concern.

The funds will be used to erect a new sanctuary and to remodel and expand the present building into adequate Sunday School quarters and other facilities to better serve an ever-increasing membership.

Membership Increases
The church was organized in 1950 with 42 charter members. It now has 321 members, a number of which were added during the campaign, which opened early this month. The Rev. James B. Sharp is the pastor.

Top leaders in the campaign, in addition to Chairman Rubin, were W. O. Worley, Jr., vice chairman; Thomas B. Marcom, steering committee chairman; K. L. Pouch, big gifts chairman; Eugene E. Nearburg, special gifts chairman; H. G. Brewer, general gifts chairman; A. E. Patterson, service chairman, and Richard Venator, publicity chairman.

WTCC Convention Dates Announced

ABILENE—The 33rd annual convention of the West Texas Chamber of Commerce will be held in Wichita Falls October 19, 20, and 21. President Frank H. Kelley of Colorado City announced Saturday.

The WTCC convention program committee will be appointed shortly to plan the largest and most constructive convention since pre-war days.

Mrs. V. Erickson

Wanda Myrick And W. Erickson Wed

Before a white arch of greenery and jade in Elliott's Chapel of Memories in Abilene Wanda Myrick and William R. Erickson were married Saturday. Both are from Midland and will make their home at 3107 West Travis Street after the wedding trip. Dean W. T. Walton of Hardin-Simmons read the double ring ceremony.

The bride is the daughter of Mr. and Mrs. R. H. Myrick of Abilene. Mr. and Mrs. Chris Erickson of Ramona, Okla., are the parents of the bridegroom.

The altar was flanked on each side by fan baskets with scroll work. In front of the baskets were white columns holding candles.

The traditional pre-nuptial music was played by Mrs. R. E. Kuykendall. She accompanied Mary and Martha Curry who sang "Till We Meet Again" and "At Dawning."

Attendants Listed
Mrs. Billy Shaw was the matron of honor. Bridesmaids were Dorothy Gene Harris of Comanche and Rhama Dell Pope of Abilene. Mary and Martha Curry lit the candles.

Taylor V. Hunter of Tulsa, Okla., was the best man. Groomsmen were Otis Anderson of Tulsa and Wallace I. May of Shreveport, La.

The bride, given in marriage by her father, wore a cut-work organza ballerina length gown over taffeta. It was fashioned with a fitted bodice, high colonial neckline and collar and long sleeves extending to points over the wrists.

Her fingertip length veil of illusion was attached to two white bands of satin. She carried a bouquet of purple orchids surrounded by stephanotis on a white Bible.

The bride attendants wore dresses of aqua organza fashioned like that of the bride's. They carried hand bouquets of yellow daisies.

The bride's mother wore a navy blue crepe dress with black patent leather accessories. Her corsage was

of white daisies. Mrs. Erickson wore a black crepe dress with white accessories and a corsage of white daisies.

Reception Held
After the wedding a reception was held in the chapel. Those in the receiving line were the bride party and parents of the couple.

For the wedding trip to Mexico City the bride wore a navy blue suit with navy and pink accessories.

The bride is a graduate of Ranger High School and Hardin-Simmons University. She taught in the commercial department at H-SU and the past year was a teacher at Midland High School.

The bridegroom is a graduate of Ramona High School and attended Bartlesville Junior College. He is employed as an engineer in Midland.

Guests at the wedding were from Gorman, Ranger, Eastland, San Angelo, Midland, Eliville, Comanche, Tulsa and Shreveport.

Association Has Luncheon Meet

The Oil Scouts' Wives Association held a luncheon Thursday in the Blue Star Inn.

Mrs. M. R. Proctor, president; Mrs. W. D. Hamm, vice president, and Mrs. C. L. Tyra, secretary, were co-hostesses. Other new officers are Mrs. R. L. Noah, treasurer; Mrs. Jack Nobles, social chairman, and Mrs. J. P. Bates and Mrs. W. P. Hicks, reporters.

Prizes were won by Mrs. Noah, Mrs. Don Galtner and Mrs. Hicks. Others attending were Mrs. E. W. Adams, Mrs. Cliff Wilderspin, Mrs. Bill Pincher, Mrs. Dave Bear, Mrs. John Carmichael, Mrs. Elmer Dillard, Mrs. C. H. Ervin, Mrs. Gordon Geddes, Mrs. Ronald Gibson, Mrs. Harold E. Sanders, Mrs. Justin Newman, Mrs. Sue Stinson.

Mrs. Frank Wood, Mrs. Jerry Roberts, Mrs. Gilbert Teagarden, Mrs. Pete Montgomery, and the following guests, Mrs. W. R. Marshall, Mrs. Jack Edens, Mrs. Harriet Schmidt, Mrs. Jack Harvey, Mrs. Dewey Stokes and Lucy Ann Adams.

SERVE ON CAMP STAFF
BARSTOW — Ibez Dudley Rogers, Barstow teacher, and Mrs. Noble B. Armstrong of Alpine, are spending a week as members of the staff at Camp Sacramento in western New Mexico. Mrs. Armstrong is teaching "Christian Living" and Mrs. Rogers is serving as camp nurse. They were accompanied to camp by Mrs. Armstrong's daughter, Mildred, and Mrs. Rogers' son, Dudley.

Mrs. Searles Claims 34 Years In Scouting

By FAYTE ABBOTT

When Mrs. I. A. Searles, former secretary of the Permian Basin Girl Scout Council, moves to Rogers, Ark., Midland will have lost a good Scout in more than one sense of the word.

Mrs. Searles has been one of Midland's most active Scouters since moving here in 1944, but her actual start in the work goes back to Tulsa, Okla., and the Sunflower Troop of which she was a member.

"The Scouts were very military then," Mrs. Searles said. "Their leaders and assistant leaders were called captains and lieutenants, and they practiced a sort of military drill taken straight from the U. S. Infantry drill manual."

Mrs. Searles laughed as she remembered some of her trials with the Sunflower troop, particularly the merit badge work. None of the requirements were easy, she recalled, but the pioneer badge was a real toughie.

"For that one," she said, "I spent one of the hottest, stickiest days I ever saw chopping trees and building a lean-to big enough for four people."

"I never did see it again," she added, "so I don't know whether it was ever used or not."

One of the memories of Mrs. Searles' early Scouting days is a first edition of the Girl Scout manual.

Following her graduation from high school and troop membership, Mrs. Searles became a leader, moving up from lieutenant to Captain. Later the family moved to Kilgore, where she continued her Scout work, and then to Midland.

Her Scout activities since that time are almost too numerous to list. She took over the leadership of Troop 12 one day in 1945 when the regular leader was ill and kept it until last May.

She was active in promoting the construction of the Little House and was sent by the Midland Girl Scout Association to the first volunteer trainer course offered in this region. Also, Mrs. Searles has trained a number of women to be Scout leaders.

In recognition of her services, the Midland Scout Association designated a day in May as "Searles Day." Mrs. Searles isn't the only Scout

Joint Installation Of 20-30 Officers Conducted In Pecos

PECOS—Twenty-Three Club officers from three cities were installed in a joint ceremony here last week as about 60 persons witnessed the program.

Performing the installation for the clubs of Pecos, Monahan and Kermit was Joe M. Bonfield, international 20-30 vice president from Hobbs, N. M.

Presiding was outgoing Pecos president, Gordon Doty, who later relinquished the duties of his office to the new president, Hubert Coon.

Other new officers here are Jimmy Buchanan, vice president; Wayne McPhalen, treasurer, and McNeil Gibbs, sergeant-at-arms. Frank Black has six months remaining on his tenure as secretary.

New directors of the Pecos club are Marshall Johnson and Tommy Payne.

Officers of the Kermit 20-30 club installed here were Wayland Worley, president; Ben Dudley, vice president; and Glenn Dennis, sergeant-at-arms.

New Monahan officers include Loren Joplin, president; Bob Carroll, vice president; and Bill Putnam, sergeant-at-arms. Their directors include Ted Kocela, Willard Rutherford and Bob Zlensheim.

Girl Scouts Plan Campfire Friday At Mitre Peak

Plans for a Girl Scout campfire and a meeting of the Permian Basin Council to be held Friday at Camp Mitre Peak have been announced by camp officials.

Activities will feature a Council business meeting to be held at 4 p.m. and a supper and campfire program tentatively slated for 7 p.m. Faggots from the campfire are to be sent to the national campfire which will be held in Bethesda, Md., late in August. The fire will commemorate 40 years of Girl Scouting.

Parents, friends and Scout leaders are invited to attend the event. Guests, however, are asked not to arrive at the camp before 2 p.m. Friday.

Federal Approval Due For Telephone Co-op

STANTON—Federal approval for a rural phone system in this area is expected soon by the West Texas Telephone Cooperative, which has headquarters in Stanton.

The system, now mapped would serve some 800 patrons in Martin, Howard, Eastern Midland, and part of Glasscock counties.

St. Mark's Methodists Top Building Fund Goal

St. Mark's Methodist Church has gone over the top by more than \$5,000 in its building fund campaign.

The successful completion of the finance drive was announced at a victory meeting held Thursday night on the church lawn, when members were told that 148 pledges, aggregating \$80,953, were in the hands of the building committee. The goal was \$75,000.

The Rev. Jordan Groop, pastor of the First Methodist Church of Lamesa, was the guest speaker at the victory gathering, in which church members and friends.

H. G. (Bub) Brewer, chairman of the church's Board of Stewards, presided at the meeting. He introduced Randolph D. (Randy) Rubin, general campaign chairman, who presented division chairmen and team captains before expressing congratulations to campaign workers and church members upon the successful completion of the drive in quiet order. Refreshments were served at the conclusion of the program.

Good Month For Drives

St. Mark's that became the second Midland Methodist Church to exceed its building fund quota this month. The Asbury Methodist Church campaign, also for \$75,000, was completed last week when pledges totaling more than \$77,700 were reported.

Both campaigns were directed by the National Fund-Raising Services, Inc., of Fort Worth, of which Ivan H. Wood is the executive vice president. The firm has conducted other

successful campaigns here. H. B. Harden directed the St. Mark's drive for the church.

The funds will be used to erect a new sanctuary and to remodel and expand the present building into adequate Sunday School quarters and other facilities to better serve an ever-increasing membership.

Membership Increases

The church was organized in 1950 with 42 charter members. It now has 331 members, a number of which were added during the campaign, which opened early this month. The Rev. James B. Sharp is the pastor.

Top leaders in the campaign, in addition to Chairman Rubin, were W. O. Worley, Jr., vice chairman; Thomas B. Maroon, steering committee chairman; K. L. Pouch, big gifts chairman; Eugene E. Nearburg, special gifts chairman; H. G. Brewer, general gifts chairman; A. E. Patterson, service chairman, and Richard Venator, publicity chairman.

Mrs. V. Erickson

Wanda Myrick And W. Erickson Wed

Before a white arch of greenery and jade in Elliott's Chapel of Memories in Abilene Wanda Myrick and William R. Erickson were married Saturday. Both are from Midland and will make their home at 3107 West Travis Street after the wedding trip. Dean W. T. Walton of Hardin-Simmons read the double ring ceremony.

The bride is the daughter of Mr. and Mrs. R. H. Myrick of Abilene. Mr. and Mrs. Chris Erickson of Ramona, Okla., are the parents of the bridegroom.

The altar was flanked on each side by fan baskets with scroll work. In front of the baskets were white columns holding candles.

The traditional pre-nuptial music was played by Mrs. R. E. Kuykendall. She accompanied Mary and Martha Curry who sang "Till We Meet Again" and "At Dawning."

Attendants Listed

Mrs. Billy Shaw was the matron of honor. Bridesmaids were Dorothy Gene Harris of Comanche and Rhama Dell Pope of Abilene. Mary and Martha Curry lit the candles.

Taylor V. Hunter of Tulsa, Okla., was the best man. Groomsmen were Otis Anderson of Tulsa and Wallace I. May of Shreveport, La.

The bride, given in marriage by her father, wore a cut-work organza ballerina length gown over taffeta. It was fashioned with a fitted bodice, high colonial neckline and collar and long sleeves extending to points over the wrists.

Her fingertip length veil of illusion was attached to two white bands of satin. She carried a bouquet of purple orchids surrounded by stephanotis and a white Bible.

The bridal attendants wore dresses of aqua organza fashioned like that of the bride's. They carried hand bouquets of yellow daisies.

The bride's mother wore a navy blue crepe dress with black patent leather accessories. Her corsage was

Mrs. Searles Claims 34 Years In Scouting

By FAYE ABBOTT

When Mrs. I. A. Searles, former secretary of the Permian Basin Girl Scout Council, moves to Rogers, Ark., Midland will have lost a good Scout in more than one sense of the word.

Mrs. Searles has been one of Midland's most active Scouters since moving here in 1914, but her actual start in the work goes back to Tulsa, Okla., and the Sunflower Troop of which she was a member.

"The Scouts were very military then," Mrs. Searles said. "Their leaders and assistant leaders were called captains and lieutenants, and they practiced a sort of military drill taken straight from the U. S. infantry drill manual."

Mrs. Searles laughed as she remembered some of her trials with the Sunflower troop, particularly the merit badge work. None of the requirements were easy, she recalled, but the pioneer badge was a real toughie.

"For that one," she said, "I spent one of the hottest, stickiest days I ever saw chopping trees and building a lean-to big enough for four people."

"I never did see it again," she added, "so I don't know whether it was ever used or not."

One of the memories of Mrs. Searles' early Scouting days is a first edition of the Girl Scout manual.

Following her graduation from high school and troop membership, Mrs. Searles became a leader, moving up from lieutenant to Captain. Later the family moved to Kilgore, where she continued her Scout work, and then to Midland.

Her Scout activities since that time are almost too numerous to list, she took over the leadership of Troop 12 one day in 1945 when the regular leader was ill and kept it until last May.

She was active in promoting the construction of the Little House and was sent by the Midland Girl Scout Association to the first volunteer trainer course offered in this region. Also, Mrs. Searles has trained a number of women to be Scout leaders.

In recognition of her services, the Midland Scout Association designated a day in May as "Searles Day."

Mrs. Searles isn't the only Scout

Joint Installation Of 20-30 Officers Conducted In Pecos

PECOS—Twenty-Thirty Club officers from three cities were installed in a joint ceremony here last week as about 60 persons witnessed the program.

Performing the installation for the clubs of Pecos, Monahans and Kermit was Joe M. Bonfield, international 20-30 vice president from Hobbs, N. M.

Presiding was outgoing Pecos president, Gordon Doty, who later relinquished the duties of his office to the new president, Hubert Con. Other new officers here are Jimmy Buchanan, vice president; Wayne McFadden, treasurer; and McBuel Gibbs, sergeant-at-arms. Frank Slack has six months remaining on his tenure as secretary.

New directors of the Pecos club are Marshall Johnson and Tommy Payne.

Girl Scouts Plan Campfire Friday At Mitre Peak

Plans for a Girl Scout campfire and a meeting of the Permian Basin Council to be held Friday at Camp Mitre Peak have been announced by camp officials.

Activities will feature a Council business meeting to be held at 4 p.m. and a supper and campfire program tentatively slated for 7 p.m. Faggots from the campfire are to be sent to the national campfire which will be held in Bethesda, Md., late in August. The fire will commemorate 40 years of Girl Scouting.

Parents, friends and Scout leaders are invited to attend the event. Guests, however, are asked not to arrive at the camp before 2 p.m. Friday.

Federal Approval Due For Telephone Co-op

STANTON—Federal approval for a rural phone system in this area is expected soon by the West Texas Telephone Cooperative, which has headquarters in Stanton.

The system as now mapped would serve some 900 patrons in Martin, Howard, Eastern Midland, and part of Glasscock counties.

Mrs. Linnie Davidson Attends Regional Seal Sale Conference

Mrs. Linnie H. Davidson, executive secretary of the Midland County Tuberculosis Association has returned from a two-day conference in Lubbock on the 1952 Christmas Seal Sale which will support the work of the organization next year.

The study sessions for representatives of 22 West Texas counties were conducted by Mrs. Frances Rains of Austin, Seal Sale director for the Texas Tuberculosis Association.

Mrs. Rains told the conference that more than 2,000 Texans last year died of tuberculosis and an estimated 20,000 now have the disease.

"Community x-ray surveys in the state," she said, "have shown that on the average, one person out of 100 examined has tuberculosis."

Eighty-two cents of every dollar received in the annual Seal Sale remains in Midland County, and twelve cents goes to support the statewide battle against the disease, which is classed as one of Texas' three major health problems. Six cents is used by the National Tuberculosis Association for medical research and other TB control activities, Mrs. Davidson said.

Dr. Lex B. Smith is president of the Midland County Tuberculosis Association.

PROSPECTIVE BRIDE—Mr. and Mrs. W. E. Pigg of Midland announce the engagement and approaching marriage of their daughter, Billie La Jean Pigg, to Bill Clanton. Clanton is the son of Mr. and Mrs. J. C. Clanton of Big Spring. The wedding will take place August 16 in the North Side Church of Christ.

Announcement Fete Honors Bride-Elect

Mr. and Mrs. W. E. Pigg announced the engagement and approaching marriage of their daughter, Billie La Jean Pigg, to Bill Clanton at a coffee Saturday morning in the home of Mr. and Mrs. B. O. Golladay.

Clanton is the son of Mr. and Mrs. J. C. Clanton of Big Spring. The wedding will take place August 16 in the North Side Church of Christ.

The table was covered with all Italian cutwork cloth and centered with an arrangement of orchid and lavender gladioli and King aster in a silver wine cooler. Coming out of the arrangement was a wide satin ribbon with the inscription, "Bill and Billie, August 16." Silver candelabra and lavender candles and a silver service completed the decorations.

On the mantle was a brandy enhaler surrounded by greenery. Inside the enhaler were miniature bride and bridegroom figurines surrounded by maline and white pom-pom chrysanthemums.

Those in the receiving line were Mrs. Pigg, mother of the honoree; Mrs. Pigg, Mrs. Clanton, mother of the prospective bridegroom; Mrs. Lorene Bonanan and Christine Golladay.

Mrs. Pigg and Mrs. Clanton wore corsages of orchid carnations. The

honoree wore a corsage of white carnations.

Joy Younger poured and Margaret Dougherty presided at the guest book.

The bride-elect is a graduate of Midland High School and Abilene Christian College. She now is employed by American Republics Corporation. Clanton is a graduate of Big Spring High School, Howard County Junior College and Texas Tech. He is employed by Shell Oil Company.

EYE IS TREATED

"J. E. Clark, 1610 South Big Spring Street, plumber for Heath Plumbing Company, had a foreign body removed from an eye Friday at Western Clinic-Hospital.

DIAL 3-3344

Agnes Park Heads Altrusans; Other Officers Assume Duties

Agnes Park, manager of the Retail Merchants Association, took office Thursday as the fifth president of the Midland Altrusa Club. The meeting was held in the "Altrusa Room" in Mrs. H. N. Phillips' home. Other new officers are Mrs. Phillips, vice president; Mary Alice Tidwell, recording secretary; Lucille Johnson, corresponding secretary; Kay Williams, treasurer; Maurine Mims, Emily Atkinson, Joy McCoy, Marion Nobles and Hella Mae Williams, directors.

Reports Heard

Reports were made on committee work and the club's participation in civic projects. Altrusa projects during the year include shipping clothing and supplies to South Korean refugees, fostering international

friendship through correspondence with foreign women and the "Magazines for friendship" program, and the vocational guidance program conducted at the high school. The club scrapbook made by Lucille Carroll was displayed at the meeting. Mrs. Carroll, county librarian, thanked the club for its

assistance to the library and Laura Jesse reported the club had added 13 new members during the year. The financial report was made by Kay Williams. Maurine Mims, retiring president, made a brief speech and presented Mrs. Park with a new president's pin.

Committees Appointed

The following committees were appointed for the club year: Altrusa information—Maurine Mims, chairman, Virginia Hoffman and Iva Mae Cox; international rela-

Reports were made on committee work and the club's participation in civic projects.

Gift Tea Honors Bride-Elect

Sarah Stanley, bride-elect of Tom Koroney, was honored with a gift tea Saturday in the home of Mr. and Mrs. Ben Stanley. Susy Davis was co-hostess.

Miss Stanley is the daughter of Mr. and Mrs. Archie Stanley.

Those in the receiving line were Mrs. Stanley, the honoree, Mrs. Archie Stanley and Mrs. Davis.

Those in the house party were Mrs. Buthnor, Mrs. Jay McCoy, Mrs. Lucy McCormick, Sue Fitzgerald, Joan Stanley, Eula Furmen, Sue Wallace, Mrs. Dick Whitson, Nora Stanley, Rosemary Stanley, Mrs. Charlie Houpt and Mrs. Guy Russell.

The table was covered with a white linen cloth over pale green and centered with an arrangement of asters, daisies and lilies of the valley with miniature wedding bells tied with lavender and green ribbons. Silver and crystal appointments were used with lavender candle sticks.

Gifts were on display in the gift room. The hostess gift to the honoree was silver. Susan Stanley played musical selections during the tea. Approximately 106 guests attended.

RETURN FROM VACATION

Mr. and Mrs. H. B. McNeil have returned from a two weeks vacation in Colorado. They visited Mr. and Mrs. F. M. King and son at Sweetwater Lake Ranch in Oypsum, Colo., and other points of interest in Colorado.

John Alden, who died in 1687, was the last survivor of the Mayflower.

What Price is Quality Carpet?

There's a good question . . . and it deserves careful concentration to figure a correct or near correct answer. Quality carpeting is, in the long run, the lowest priced! Here's why: When you buy quality carpeting the difference in the price is obscured by its beauty retaining ability, its strength of fibre and many other superior points. It pays to buy QUALITY CARPETING.

Mrs. H. E. Rothrock Shows Nature Slides

Mrs. H. E. Rothrock showed slides of flowers and trees Thursday at the meeting of the Welcome Wagon Garden Club.

The pictures had been taken on trips in different parts of the United States and Canada. The group met in Mrs. Rothrock's home.

Guests were Mrs. C. A. Stroud, Mrs. P. W. Ferrin, Mrs. Trotter Adams and Mrs. C. J. Zabelk. Others attending were Mrs. F. C. Lochte, Mrs. Ernest Evinger, Mrs. K. W. Erickson, Mrs. H. R. Smith, Mrs. Margaret Frances Barber, Mrs. Jay Gist, Mrs. R. M. Nugent, Mrs. Laurence, Mrs. O. C. Griffin, Mrs. W. D. Gill, Mrs. J. B. Cornell and Mrs. J. W. Benn.

Father Of Midland Woman Is Interred

Funeral services for John R. Lowrie, 77, first mayor of Lamesa and father of Mrs. H. E. Johnson of Midland, were held at 3 p.m. Saturday at the Johnson Funeral Home chapel in San Angelo.

The Rev. Rodney Gibson and the Rev. Grady Peter's officiated. Interment was in Fairmont Cemetery.

A resident of San Angelo for 18 years, Lowrie died Friday morning at his home after a heart attack. A native of Rusk County, he was Dawson County judge and town mayor of Lamesa when the town was first incorporated before World War I. He and Miss Audrey McWhorter were married in 1911 in Lamesa. She died in 1940. He and Mrs. Effie Raven of San Angelo were married in 1948.

MEN IN AMERICA CALLED FAT, LAZY

The New York Custom Tailors Designers Club says American men are the fattest and laziest in U. S. history. The reason? Too much sleep and food, not enough exercise.

It probably is true that they are the fattest, but we doubt the laziness. Everyone is working and a great deal is being accomplished and it certainly is not being done by lazy men.

If you have decided to reduce, here is a way to do it sensibly, easily and safely. Just go to your drugist and get a four-ounce bottle of Barconstrate. Pour into a pint bottle or jar, add enough grapefruit juice to fill bottle. Then take two tablespoons twice a day. That's all there is to it. If the very first bottle does not show you the way to take off ugly fat, return the empty bottle for your money back. Barconstrate not only helps you to take off weight, but it also helps you in other ways. As Mrs. K. Phillips, 22 West Pennsylvania Street, San Angelo, Texas, writes us:

"I am 33 years of age and lost 18 pounds taking Barconstrate and it not only took off weight, but it has improved my health wonderfully."

And Mrs. C. E. Davis, Box 215, Mount Vernon, Texas, says: "When I began taking Barconstrate, I weighed 170 pounds. I now weigh 146, a loss of 24 pounds. Not wanting to lose any more weight, I cut down on dosage and continue to take it, as it helps me in other ways."

BRIDE-ELECT—Mr. and Mrs. W. Boyce Colwell of Canyon announce the engagement and approaching marriage of their daughter, Mary Frances, to Leonard O. Franklin of Midland. Franklin is the son of F. H. Franklin of Wewoka, Okla. The wedding will be held August 9 in the First Baptist Church in Canyon.

Shower Honors Bride-Elect

Barbara Conkling Harding, bride-elect of Marshall W. Bailey, was the honoree at a kitchen shower Wednesday in the home of Mrs. Reagan Legg.

The table was centered with an arrangement of shasta daisies. Gifts were decorated with kitchen utensils and bouquets of vegetables completed the decorations.

Others attending were Mrs. Joe Daniels, Mrs. J. C. Mays, Jr., Mrs. Ray Brack, Mrs. Ross Ley, Mrs. Kenneth Newton, Mrs. Larry Fields, Mrs. Bill Beckers, Mrs. George Fraser, Mrs. Connie McHood, Margaret Stewart, Joan Chapman Griffin and Mrs. W. H. Conkling.

Supercarrier Keel Goes Down July 14

WASHINGTON (AP)—The Navy announced Saturday that the keel of the 59,900-ton supercarrier Forrestal will be laid on July 14. Defense Secretary Robert Lovett will preside.

The keel laying will be at the Newport News Shipbuilding and Drydock Company in Virginia. The Navy estimated that the launching should take place in March, 1954.

SPLINTER REMOVED—Andrew Najler, 510 North Lee Street, laborer for BB&M Drilling Company, Construction Company, stuck a splinter in his left thumb while working Friday. Treatment was given at Western Clinic-Hospital.

ROUGHNECK TREATED—H. W. Oppelt, 1771 Terminal, roughneck for BB&M Drilling Company, had a foreign body removed from an eye Friday at Western Clinic-Hospital.

★ Daddy Ringtail ★

By WESLEY DAVIS

Daddy Ringtail And Big Stick-Talkum Loud

Dog-people is the name of a dog who is really people. He used to wear a policeman's suit in the Great Forest. He liked to stand on the Elephant Path and blow his whistle for all the animal-people to stop and go.

Oh, but what do you think is the good of a dog-people policeman who has no teeth? Why he can't even take a bite of anyone, if they go when he says stop—or if they stop when he says go.

But don't you worry, no sir. It didn't matter a bit that Dog-people had no teeth in his mouth. He always carried them in his pocket. If ever he had needed to take a bite of someone, he would have done it. He would have taken his teeth from his pocket, and put them into his mouth, and taken a bite real quick of whoever needed a bite taken of them.

Well sir, and so you can see that everything was happy as happy could be. Dog-people policeman did a fine job of blowing his whistle and making people stop when he said

stop—and making them go when he said go. People knew about the teeth in his pocket.

But one day, Dog-people lost his teeth! What oh what would happen now? Could Dog-people still be

legs were sticking out through the bottom to do the running.

"Teeth!" shouted Dog-people.

"Thop!"

"Huh!" said the Indian man. "Me no hear-um talkum without-um teeth."

"Bong!" on the Indian's head said a big stick that Dog-people suddenly snatched from the ground.

"Bong!" on the Indian's head said the stick. "Big stick talk-um loud," said the Indian. Now he stopped at last in a hurry. Ugh. Happy day. (Copyright 1952, General Features Corp.)

a good policeman? Would people stop and go the way the should?

"Teeth!" Dog-people Policeman said to Daddy Ringtail. "Teeth! Teeth not worry your-thef about it." Dog-people Policeman could not talk very plain without his teeth, you see.

Uh-eh, because there came a cloud of dust. The dust was an Indian man who was running fast with a little car which he held up like he was riding in it. Be! He wasn't riding in it. Oh no! His

THIS IS NEW YORK

BY NORTH CALLAHAN

The hottest day of the year so far found a lot of New Yorkers absent from office duties. They were cavorting in the suburbs. It wasn't the heat that kept them away either. It was the strike on the Long Island Railroad, that somewhat infamous local line that, by now is known even to out-of-towners as the unpredictable Toonerville Trolley of this city. The strike lasted just two days, they suddenly were settled. The commuters were glad to be home. Questioned closely, one of the conductors admitted that much of the cause of the strike was the heat.

Joan Thompson who has been designated "Universal Queen of Peaches" was in town from Kentucky, visiting this city for the first time. Her appearance heralded the opening of the ripe peach season in various parts of the country, and she looked a lot like a pretty peach herself. Anticipating graduation with honors from the University of Kentucky next year, Miss Thompson told me she liked best the Empire State Building from which she saw most of New York, and liked least the rush everybody here seems to be in, although she found local folks friendlier than she expected.

Over in neighboring New Jersey a well-to-do contractor lived for years, making good in his business and having a reputation as an honest and upright citizen of his community. Then one day, two New York detectives knocked on his door and took him into custody for a murder he had committed thirty years before. Not once during all this time had he told anyone about the crime, not even his wife or three children. In everyone's eyes he was a success—except his own. Calmly admitting his guilt, he told the police he was relieved to be arrested. No one knows, he stated, what it means to carry a thing like that around inside of one all those years.

Walter Lippman has been around quite awhile as a successful journalist, once being editor of the famous old New York World. And he still has some things to learn. Walter told a group of us when he got off a boat here the other day after a trip to Europe. "One of the things I had to watch most," he said, "was doing most of the talking myself. Lots of people over there asked me questions, and I must confess that a

large part of the time I can remember hearing almost nothing except what I was saying myself. The rest of the time I fought a brave and partially successful battle to shut myself up."

Lately I have heard considerable comment about families in the Civil War between the States who had sons fighting on both sides of that great conflict. Douglas Freeman recalls one in which two brothers were on opposite sides and both were killed. They were buried in a double grave with one headstone, and under their names the sorrowing father placed the inscriptions, "God knows which was right." To me, Freeman commented, "Both sides were right."

The debate over whether rain makers really can make rain goes on here, with law suits and hot air clouding up the forecasts on what will happen. Some say the rain makers are valuable; opposite comment may be summed up in the statement of one scientist who said that dropping a piece of dry ice into a mile-square cloud was about as effective in making rain as "spitting out the window." So the stormy debates continue. Temperatures are rising. The outlook for rain making is unsettled, with showers of words expected in the afternoon.

Karl Marx is funnier than Groucho, according to our old friend, Joe Smith. Joe says that Groucho means to be funny, while Karl did not, although the latter said a lot of funny things in view of the developments of today. For instance, Karl Marx, founder of Communism who lived in the 19th century, said that "capitalism leads to impoverishment of the people" (But look at the many people shopping today). Karl advised Communists to "seize the tools of production" (the average Russian automobile is not as good as our old Model T). Of course there is only one catch to this that we had better watch. The Russians may be putting their best materials and labor into war production, while we go on blithely doing business as usual, Joe concludes.

Bathing Beauties To Parade As Crane Observes Holiday

CRANE—Youth directors here say their Fourth of July holiday celebration will be "red, hot and blue." Bathing beauty reviews, a baseball game and surprise features are being planned for the evening by Floyce Underhill, Mrs. Harold Riley and J. P. Harrison.

The beauty parade will begin at 8 p.m. at the Crane swimming pool and will be similar to the same event last year. Junior and senior girls will participate, and businessmen will sponsor girls in both divisions. The juniors will include girls in the first through the eighth grades, and the seniors will be those of high school age. Water Show Planned Diving and swimming events will be featured in a water show to be held in connection with the bathing beauty review.

Doubleheader baseball will begin at 7:30 p.m. and will pit two all-star Little League teams. The second game is for Eppy League players. John Clark and Clark Fressley, clown, will add comedy to the event and children active in the city-wide youth program will take part in the celebration.

The program includes classes for children conducted every day except Saturday and Sunday in the Community Hall. Swimming classes are held daily.

A dragging brake on one automobile wheel may be the result of a weak brake shoe return spring.

Crane Sets Fiesta Day Celebration

CRANE — Bicycle parades, kids' shows, baseball games, political speeches, square dances and a big box supper will have their places in the July 19 "Fiesta Day" sponsored by the Crane Lions Club. Decorated bicycles, tricycles and kiddie cars will make up the major part of the 9 a.m. parade, and after that the children will be guests at a special movie at the Crane Theater. Crane merchants and businessmen are footing the bill for the show.

RURAL PASTOR — The Rev. Earl Allen, pastor of Martin Springs Baptist Church, Hopkins County, Texas, has been named Rural Minister of the Year for 1952 by The Progressive Farmer magazine. He will receive, in connection with the award, a scholarship to the Town and Country School for Ministers from Candler School of Theology, Emory University, Atlanta, Ga., July 29-August 14.

First Baptists Ask Bids On New Church

Bids for construction of the First Baptist Church will be opened at 2 p.m. July 24 in the auditorium of the present structure, Main and Illinois Streets.

Dirt, Squirt and Quirt

— FARM, DAIRY AND RANCH NEWS —

The market was considerably stronger than a week ago and active at the Midland Livestock Auction Company sale Thursday. But choice cattle offerings were sparse in total sales of 365 head.

Medium to good butcher calves and yearlings drew \$28 to \$32, commons and culls \$20 to \$28. Medium cows sold for \$18 to \$18, canners and cutters \$10 to \$16. Bulls moved at \$18 to \$23.50.

Stocker calves were too scarce to test the market. Common and mixed breed stocker steer yearlings brought \$17 to \$21. Plain to medium grade cow and calf pairs cleared at \$165 to \$190.

That story by Cope Routh on the Midland County farm and ranch situation, which appeared a few days ago on Page One of The Reporter-Telegram, was a pretty bleak yarn, wasn't it?

The facts as presented are absolutely authentic, however, as bad as we hate to admit them.

In other words, it is dry, the drought continues seemingly without end, and we are in bad shape in so far as agriculture is concerned.

Perhaps, as the old boy said, it could be worse. We wouldn't know. But DSG is far from ready to give up on the moisture possibilities. The proverbial limb still is out there and this column again is getting out on it—moisture will fall over most of the Midland territory between the time of this writing (Friday) and July 10. Maybe it's the heat!

And we are ready to go along with the belief of some that cattle prices will advance to possible new highs by cold weather time. (Cold weather time . . . sounds good, doesn't it?)

George Collins, who ranches in the Water Valley country north of San Angelo, was a Midland visitor Thursday. He says it is drier than dry in his vicinity, and the livestock population continually is decreasing.

A plea by ranchers for help in preventing grass fires has been sounded, and DSG urges everyone to be extra careful in where they toss lighted cigarettes, or matches while driving along the highways or on country roads. Let's protect what little grass there is.

Bottles also seem to constitute a fire hazard, since reflecting sun rays can ignite dry, brittle grass.

Let's do our part in preventing costly and disastrous grass fires. Thanks.

Bill Wyche, a former Midland resident who now ranches out Van Horn way, visited here a few days ago.

Jack Ellington, back from a vacation trip to Wyoming, says the grass around Saratoga is green and tall, and cattle in that community are plenty fat. A beautiful sight to behold, commented Ellington.

"Even the fish are big and fat up to that way," he added.

Something new has been added to our coffee. . . A powdered coffee cream, which needs no refrigeration but dissolves instantly when added to hot coffee, is being test-marketed. . . May have something there.

The 1953 San Antonio Livestock Exposition has been set for February 20 through March 1, according to an announcement of the executive committee of the show at a recent meeting.

Dates set will allow exhibitors to attend all three of the major Texas shows, San Antonio again following Fort Worth and Houston.

The recently elected officers of the exposition, Joe Freeman, chairman of the board; E. W. Bickett, president; Mark L. Brown, first vice-president; and Lucian T. Jones, treasurer, along with R. H. Friedrich, Perry Killisen, Fred Shield, R. Beal Pumpfrey, Jess McNeil and Joe Straus, comprise the elected members of the committee.

King Ranch Exhibit
Although not competing for premiums, a prize herd of world-famous Santa Gertrudis cattle from the King Ranch will be exhibited in the cattle barns throughout the fair.

Beef cattle classifications in the Junior Livestock Show, second week of the fair, offer a total of \$6,085 in premiums, \$3,000 for the Junior Steer Show with judging October 14, and \$3,085 for the Junior Commercial Steer Show, to be judged October 16.

In all, 27 breeds of beef and dairy cattle, horses, swine, sheep and Angora goats will be shown at the fair. Other attractions include the Dean Martin-Jerry Lewis show, Ice Circus of 1952, the Aut Swenson Thrillride, college and professional football games, a three-ring circus on the millage-dollar midway, 100,000 square feet of farm machinery displays and hundreds of new exhibits.

Dates of the fair are October 4 through 19.

Midland Gets Quota Of Four For Draft

A call for four men to report for induction August 14 has been received by Selective Service Board No. 137 of Midland, from state headquarters.

The state will furnish 1,129 men for the armed forces in August, while the national call is 29,000.

Copies of the bulletin are available at county Extension offices—county agents. Just ask for the new bulletin on building pastures.

Beef cattle will be spotlighted during the first phase of the 1952 State Fair of Texas livestock exposition, with premiums totaling \$17,200, Livestock Manager Ray W. Wilson has announced.

There'll be \$7,500 in premiums for Herefords, \$4,200 for Brahmans, \$3,000 for Aberdeen-Angus, and \$2,700 for Shorthorns.

The beef cattle show will run October 4 through 9. Judges and judging dates are: Aberdeen-Angus, A. H. Spitzer of Pleasant Plains, Ill., October 8; Herefords, A. E. Darlow of Stillwater, Okla., October 7; Brahmans, John C. Burns of Fort Worth, October 8; Shorthorns, Glenn Frank of Hums, Mo., October 9.

All beef cattle will be judged in the fair's new Livestock Pavilion, seating 3,000 spectators, Wilson said the fair's facilities for showing and judging were the best in the nation for a fall show.

The fair also offers breeders the opportunity to show before the country's largest potential audience, Wilson declared. Attendance during the 16 days of last year's fair totaled 2,320,129, largest in the nation. And on opening day this year, Wilson pointed out, beef cattle breeders will get a "bonus" attendance of more than 90,000 Four-H Club boys and girls, Future Farmers and Future Homemakers, who'll be taking in the fair on Rural Youth Day.

Pecos Promises Big Rodeo Thrills In Holiday Program

PECOS — Eight action-packed events have been lined up for the annual West of the Pecos Rodeo July 24-31, offering championship gold and silver buckles in each event in addition to a record purse of \$5,000 plus entry fees.

The contests include a wild horse race for which hand-picked mares will be provided, cowgirls' barrel race, Brahman bull riding, team roping, steer wrestling, saddle bronc riding, calf roping and bareback bronc riding.

Opening the rodeo will be a big parade at 4 p.m. July 3 followed by judging of the beard-growing contest at the Judge Roy Bean shack. A barbecue will be served on the evening of July 4 for all visiting Sheriff's Posse. Beard growers must march in the parade to be qualified for the contest.

Also expected to draw considerable interest are the horse races, scheduled July 4, 5.

Booked to make another appearance at the show is Hoyt Hefner, rodeo clown from Elk City, Okla. Hefner's is a risky job, that of luring wild and angry bulls from their fallen riders. Meanwhile, the veteran rodeo hand is pulling antics and making wisecracks to provide entertainment during the kills.

Another feature of the show will be the Hendricks family, featuring stunts climaxed by a death-defying cross-fire car jump. There'll be elaborate costumes and precision dance by the world's greatest dancing horse.

Meantime, civic groups have arranged to inaugurate the traditional Judge Roy Bean court here Monday, Tuesday and Wednesday, in a good-humored effort to encourage wearing of Western apparel. The Sheriff's Posse of Reeves County is expected to run the court Monday, the 20-30 Club Tuesday and the Lions Club Wednesday. The Lions plan to "capture" passing tourists, tell them about the rodeo and to take them to the regular Lions luncheon.

Officers of the sponsoring Pecos Rodeo and Fair Association include Walter Holcombe, president; Jess Burner, general manager; Jimmy Yancy, secretary-treasurer. Board of directors consists of Gene Kelly, Joe Rounsaville, Billie Prewitt, Glenn Stafford, Guy R. Walker and Buck Miller.

W. K. Wharton, precinct one, is unopposed for reelection, as is J. A. Scoggin of precinct two. In precinct three Tommy Mills, asking reelection, is opposed by Pruet Rash. R. E. Leese, again asking to be commissioner of precinct four, has two opponents, W. L. Jones and Homer Turner.

H. H. Jolley has no opposition for reelection as justice of the peace.

Oscar Warren, incumbent constable, has one opponent, George Smith.

The first jet fighter to be equipped with an afterburner obtained a speed increase of 100 miles an hour over earlier models without afterburners.

Could be the kid next door, or your own! Simple filter gives contrast, flash bulb eliminates face shadows.

Shoot Kids Unposed for Better Pictures

"What kind of pictures should we try to get of our children?" we asked Midland Studio and Camera Shop, well known camera experts, who have advised us many people that they really should know the answers. "Gosh," he said, "any picture of kids is wonderful because kids, themselves, are wonderful. Main thing to remember is to get them in natural, unposed positions. Then you'll have pictures that tell a story, in addition to being good record shots of your youngsters."

Here's some specific advice: First, depending on their ages, decide whether they will ignore the camera — important, because many youngsters quickly "mug" the camera worse than a Hollywood starlet.

That's why, with very young kids, especially, it's so important to use one of these little box-flash cameras that get the picture in a jiffy. Strange as it may seem, we recommend these flash cameras for outdoor shots as well as indoors for the flash overcomes bad facial shadows. Of course, with movie cameras you don't have any of these problems.

"Secondly, if your kids are old enough to go into their room without paying too much attention to the camera, have them play leap-frog or push a doll carriage or swing a baseball bat or some other action that is typical of their age group."

"Kid pictures require patience on your part, but they're worth a fortune in later years, not only to you but to the youngsters as they grow up. There's an old saying that we live in our children: If we take pictures when they're young we can enjoy their childhood after they're grown."

Midland Studio and Camera Shop proved to be philosophers as well as camera experts. —(Adv.)

GENERAL AMERICAN CASUALTY EXPANSION.

General American Agents Cover Five States

The General American Casualty Company with extensive agent force of more than one thousand people now has coverage in five states according to C. B. Erwin, president of the company.

At present General American will occupy their new home office with a staff of 155 employees and this number will be expanded as the agent force is increased.

Branch offices of the modern and progressive organization are maintained in Mississippi, Tennessee, Louisiana, New Mexico and Texas.

At present General American maintains branch offices in Hobbs, New Mexico; Chattanooga and Memphis, Tennessee; Starkville, Mississippi; Houston, Dallas, Corpus Christi, Amarillo, Midland, Abilene and Texarkana, Texas.

Policy holders in General American Casualty now have available a claim service that will cover them anywhere in the United States and Canada.

Every modern facility plus a large highly skilled staff is being utilized to prove the best maximum coverage for policy holders and agents.

According to Erwin, General American Casualty is a new company that affords people in the area an opportunity to buy insurance in a company that they or their neighbors own.

"The progressive firm is a capital stock company covering and writing all types of insurance except life. Anyone desiring thorough coverage at reasonable rates will be able to obtain it by asking his agent to obtain their policy through the General American Casualty Company," Erwin explained.

MODERN HOME OFFICE PURCHASED

NEW HOME OFFICE of General American Casualty Co.

One of San Antonio's most important downtown structures, the Gilcrease building at the corner of Crockett and North Presa will be renovated to accommodate the new home offices of General American Casualty Company.

First step in the renovation program, according to C. B. Erwin, president of the insurance firm, will be the completion of modern air-conditioning equipment.

The entire building will be redecorated and redecorated and present offices will be redesigned to accommodate the needs of the insurance firm.

General American Casualty will occupy three of the floors of the structure and additional office space will be allocated for expansion.

The entire building will be re-modeled and will offer office space for allied industries.

The main floor of the structure will be designed for use by commercial stores and a modern cafeteria.

Two modern high speed elevators will service the seven story building and the penthouse will be re-modeled to accommodate a modern company printing plant.

The foundation of the Gilcrease building was built to accommodate four additional floors if necessary and provides the necessary room for further expansion.

The home offices of the insurance firm will embody the latest in decor and will be designed for the coordination of work effort between various departments of the firm.

Customer ease will be a major factor in the design of the front office and steps will be taken to minimize all unnecessary walking by policy-holders.

All departments of the firm will be centralized for more efficient operation.

Prominent Texans To Serve On Board

Professional men, businessmen and successful executives are on the Board of General American Casualty and provide well-rounded experience in shaping the policies of the insurance firm.

The majority of investors in the largest casualty stock company in Southwest Texas are Texans and the organizations' policies are tailored to suit the needs of policy-holders of Texas.

The Board consists of C. B. Erwin, president of General American Casualty; R. B. Cowden, oil and ranching interest, Midland; George Cowden, ranching and banking, Pearsall; John J. Bugris, merchant, Brackettville; S. M. Heath, Kress and Company, San Antonio.

Other board members include N. L. Cudd, retail merchant, Corpus Christi; Bennie Sue Thomas, oil and ranching, Midland; Allen Cowden, oil and ranching, Midland; Bill O. Erwin, insurance and investments, Los Angeles, California; D. J. Schwartz, oil and real estate, Mercedes; Owen W. Stone, real estate, Mercedes; H. J. Phillips, President Blue Flame Gas Co., Midland.

Herman Grossman, attorney, San Antonio; T. R. Ware, M. D., Potot; M. C. Hurley, mortician, Potot; George Link, Sr., Link Petroleum Company, Laredo; Bill Cowden, oil and ranching, San Antonio.

Claim Service Covers 2 Nations

Policy-holders in General American Casualty Company will be provided with complete claim service in two nations according to C. B. Erwin, president of the progressive insurance firm.

The capital stock company, which covers and writes all types of insurance except life, have created a claim system which will cover their policy-holders anywhere in the United States or Canada.

Individuals, business executives or groups can insure through the facilities of the new firm.

Midland To Receive Better Insurance Facilities

C. B. ERWIN, President of General American Casualty Co.

C. C. SCHUCHARD, Local Manager of General American Casualty Co.

C. B. Erwin, Experienced Executive Administrator To Head Insurance Firm

C. B. Erwin, President General American Casualty Company, is an experienced insurance executive who has been in the business all his adult life.

A native Texan, Erwin spent his early years with his grandfather on a farm in Dilho, Texas and came to San Antonio at the age of seventeen. When eighteen, he entered the insurance field, selling life, insurance and, rapidly progressing, was made State Agent for Federal Life Insurance Company, 1943.

On December 14th, 1948, he put his dream into realization of forming his own insurance company.

He created the General Lloyd's Fire and Casualty Company which was equipped to write all lines of insurance with the exception of life insurance.

Erwin, with typical foresight chose an opportune time to launch this company as there was a definite need by agents for an outlet for specialized lines of casualty insurance.

By offering these needed services and by providing complete facilities,

C. C. Schuchard, manager of the local branch office of General American Casualty Company announced today the expansion of facilities here at 204 S. Main as part of a state-wide expansion program of the parent company.

In a wire received from C. B. Erwin, president of General American Casualty, Schuchard was informed that facilities of all branch offices of the insurance firm will be enlarged.

General American Casualty this month as part of the expansion program absorbed the assets and liabilities of Alamo Casualty Company and General Lloyd's Fire and Casualty Company to become the largest casualty stock company in Southwest Texas and one of the first ten in Texas.

Total Assets of the company are \$4,211,048.68 and the capital and surplus, including \$241,789 reserves for contingencies now stands at more than \$1,000,000.

General American is licensed to write all types of insurance with the exception of life and maintains an agent force of 1000, who operate in Mississippi, Tennessee, Louisiana, New Mexico and Texas.

As a major step in the overall expansion program, General American Casualty purchased this month a seven story office building in San Antonio which will become the home office of the firm upon completion of renovating and remodeling.

"We are happy to inform you that your office soon will be enlarged to provide you with every modern facility for complete insurance servicing in your area," Erwin stated in his wire to Schuchard.

In addition to his extensive management function as one of the most experienced insurance executives in the industry, Erwin is actively prominent in various civic and church activities.

General American Writes All Types Insurance

General American Casualty Company is a capital stock company licensed to write all types of insurance with the exception of life.

In their expansion in the five-state area they cover General American will provide every facility plus a highly skilled staff to give the public and their agents the best insurance service available.

Among the types of insurance that General American is licensed

to write are fire, lightning, wind-storm, tornado, cyclone, earthquake, hail, rain, flood, drought, frost, and snow.

They will also write employers liability, workmen's compensation, burglary, theft or house-breaking, glass, steam roller and machinery, sprinkler leakage and credit insurance.

More than 1,000 experienced insurance agents now write policies for General American Casualty in Mississippi, Tennessee, Louisiana, New Mexico and Texas.

General American Offers Health Policy

In addition to all forms of casualty insurance, the General American Casualty Company will provide a health and accident plan to meet the requirements of any insurable person.

The health and accident plans will be available to individuals, business firms with large or small staffs, fraternal organizations and other organized groups.

Under General American Casualty's health and accident program the individual can insure his entire family for benefits under the health and accident policy.

Natural Gas Supply Called 'Not Too Critical' In U. S.

WASHINGTON—(AP)—Howard E. Noyes, the top gas industry expert in the Petroleum Administration for Defense (PAD) said Saturday he does not expect the nation's natural gas supply next winter to be "too critical."

Noyes, assistant deputy administrator in charge of PAD's gas transmission and distribution operations, told a reporter this does not mean there will be as much natural gas as everybody wants.

He based his remarks on the assumption of normal winter weather. Noyes said there could be some trouble in California, for instance, unless an expansion by El Paso Natural Gas Company goes ahead as planned so additional gas can be supplied California companies.

The Michigan-Wisconsin area, he also pointed out, has a very tight situation, with supply just equal to demand.

But in the Appalachian area conditions have improved substantially, Noyes said, and the outlook there is in New England is far better than it was a year ago.

"The load growth is being controlled and that is a major factor in helping see to it that customers will get adequate supplies," Noyes said.

"Since about 1948 the industry has gone through a succession of movements in which demand built up, then the industry put on the brakes on new customers until it could expand capacity; then it took on more demand and then held down on new customers until it could increase supply again.

"Many of the state regulatory authorities have stepped in with controls on extensions to new space-heating customers which were even tighter than the PAD's order No. 2 and that has been a major factor in controlled growth which could be served by available supplies," Noyes said.

Completion of new pipe lines into the Appalachian area this year, coupled with a milder than usual winter for 1951-52, has helped the situation in the East, Noyes said.

Noyes cited as a major new pipe line the one Texas Eastern Transmission Corporation is constructing from the South into Pennsylvania, designed ultimately to supply gas for New England.

The PAD has allocated construction materials to El Paso for its expansion, Noyes said, but what effect the steel strike may have is still unknown.

The Midland Reporter-Telegram

MIDLAND, TEXAS, SUNDAY, JUNE 29, 1952

Strawn Top Called High In Midland

Bill Roden and Associates No. 1-18 Scharbauer, Central-West Midland County wildcat has found the top of the Strawn lime of the Pennsylvanian high to the nearest wells which have been drilled in the adjacent areas and is slated to run a drillstem test soon.

This prospector called tentative top of the Strawn lime to be at 10,170 feet. That is on a datum of minus 7,320 feet.

On that call the Roden wildcat is six feet high to The Texas Company No. 2-A Scharbauer, the nearest Pennsylvanian producer on the northwest side of the Paris (Pennsylvanian) field.

Topped Strawn High

On the top of the Strawn the Roden project correlates to be 28 feet high to Texaco No. 1-A Scharbauer, the discovery of the Warfield (Edenburger) field. That well is one mile south of Roden No. 1-18 Scharbauer.

The Roden wildcat was making hole below 10,317 feet in Pennsylvanian lime and shale at last report. Operators planned to drill it a little deeper and then run a drillstem test.

South Of Warfield

Location is 660 feet from south and east lines of the northwest quarter of section 18, block 40, T-4-S, T&P survey. It is one mile south of Warfield.

This project is on a lease secured by Roden and Associates in a farm-out deal with The Texas Company. It has logged some shows of possible production in the Wolfcamp section of the Permian.

Stanolind Slates New Depths For North Basin Prospectors

Stanolind Oil & Gas Company wildcat in Central-South Cochran filed application with the Railroad Commission, which showed oil and water Commission of Texas requesting an undetermined survey on a permission to continue drilling to the Devonian, is new contract depths in two Northalated to continue drilling to 12,500 Permian Basin wildcats.

The concern's No. 1-C D. C. Reed, The drillstem test, taken from 11,874 to 11,895 feet, lasted two hours. Recovery was 2,000-foot water blanket, 800 feet of clean oil and 400 feet of heavily oil and gas-cut mud and 180 feet of water. Flowing tubing pressure was 950 to 1,275 pounds and 15-minute shut-in pressure was 9,775 pounds.

The Devonian was topped at 11,874 feet, minus datum point of 8,104 feet.

Location is four miles northeast of the Lodon-multipay field and 600 feet from north and east lines of section 19, Harrison & Brown survey. It is 18 miles southwest of Whiteface.

Operator was coring below 11,895 feet.

The other prospector slated to continue drilling is Stanolind No. 1 Argo Oil Company. New drilling below 12,780 feet, operator plans to take the test to 12,500 feet.

No. 1 Argo is in Northwest York County, 2,620 feet from north line and 1,979 feet from east line of section 98, block D, John H. Gibson survey and 12 miles northwest of Plains.

Steel Strike Slows Rotary Drilling In Permian Basin

Effects of the nation-wide steel shortage were again reflected by a sharp drop in drilling activity in the Permian Basin. The semi-monthly Reed Roller Bit Company survey showed 633 rigs drilling June 25 as compared to 676 June 10.

In spite of that drop, activity in the area covered by the survey was still ahead of last year's count of 613.

Lea County was the only sector which showed an appreciable gain in rotary activity, with an increase of seven to give that area 128 units.

Largest drop was shown by the 70 rotary rigs reported in Midland County June 25. Previous tally showed 87 projects using rotary tools.

Upton County was given a slight increase. That area now has 87 as compared to 85 rigs on June 10.

Seury County reached its lowest level since the ref. ply was at its peak in 1948. Operators had only 28 rigs going in that area, a drop of three since June 10.

The Seury Trend area had 24 to bring its total down to 24.

Other counties included in the survey are:

County	June 25	June 10
Andrews	41	38
Borden	9	7
Cochran	9	14
Coke	14	14
Crane	10	11
Crockett	11	11
Dawson	8	8
Estes	25	25
Gaines	15	22
Glasscock	16	18
Howard	9	8
Kent	3	4
Martin	2	4
Midland	70	67
Pecos	14	15
Schleicher	12	13
Seury	25	28
Terry	7	8
Tom Green	9	11
Upton	87	85
Ward	14	9
Yoakum	16	17
Lea	128	121

Texaco Finals Good Well In SE Lea, Reports Flow

The Texas Company completed a good producer from the Devonian in the West Dollarhide area of Southeast Lea County, reported a good flow on a production test from a Tulk (Wolfcamp) field project and gas shows on a project in the Moore area of Northwest Lea County.

The new oil is No. 2 Pennsylvanian, completed for a calculated daily flowing potential of 697.08 barrels of 38.1-gravity oil through a one-inch choke. Production was through perforations at 8,295-8,385 feet after the pay had been treated with 4,000 gallons of acid. Gas-oil ratio was 974-1. The well made a calculated 27,400 barrels of basic sediment and acid water in addition to the oil.

Near Production

This new well is located at the center of the northwest quarter of the southwest quarter of section 4-25-38e and one location east of a Fustelman producer.

Texaco No. 2-AS State, east offset to the discovery well of the Tulk (Wolfcamp) field of Central-West Lea County, flowed at the average rate of 38 barrels of oil hourly through perforations in casing opposite the Wolfcamp at 9,765-79 feet after 500 gallons of mud had been used.

Good Flow

Operator reversed out the acid load. After swabbing 50 barrels of oil, the well kicked off and flowed 68 barrels of oil in three hours and then flowed the 38 barrels hourly.

Operator was taking potential. Location is 660 feet from north and west lines of section 5-15-32e, Moore Area.

Texaco No. 1-BJ State, project in the Moore area, took a drillstem test in June from 10,030 to 10,110 feet. Tool was open two hours. Gas surfaced in 11 minutes at the rate of 298,000 cubic feet daily. Recovery was 300 feet of gas-cut mud with a show of distillate. Operator was coring ahead.

No. 1-BJ State is one location west of the discovery well of the field and 860 feet from north and east lines of section 26-11s-32e.

Standard Slates Potential For C-S Floyd Discovery

Standard Oil Company of California No. 1 Minnie Adams, indicated line discovery in Central-South Floyd County, was preparing to stop drilling operations for completion try.

Last depth reported from the operator was 7,777 feet.

After flowing oil, by heads, five hours during an 18 1/2-hour drillstem test of open hole from 7,602-7,680 feet, the well was deepened to 7,705 feet and a two and one-half hour drillstem test was taken from 7,688-7,705 feet. Recovery was 60 feet of mud and gas-cut oil and 110 feet of free oil. Shut-in bottomhole pressure was 2,300 pounds after 30 minutes.

A subsequent two-hour drillstem test was taken from 7,705 to 7,728 feet. Recovery was 60 feet of green oil and 120 feet of drilling mud. Shut-in bottomhole pressure after 30 minutes was 1,000 pounds.

Another drillstem test was taken from 7,728 to 7,748 feet. Recovery was 110 feet of drilling mud with a trace of oil.

No. 1 Adams is 1,980 feet from west and 700 feet from north lines of section 32, F. D. Adams survey and eight miles southeast of Floydada.

Ellenburger Well In NE Crockett Flowing To Test

Lion Oil Company No. 1 J. M. Shannon Estate, indicated Ellenburger discovery three miles southwest of the Elkhorn (Ellenburger) field of Northeast Crockett County, was being flowed to test.

After being shut-in, the well was opened on a 20/64th-inch choke. It flowed 14.27 barrels of oil in 40 minutes. The choke was then changed to 14/64th-inch. The flow then died. After being shut-in again for pressure buildup, it was opened up again on a 16/64th-inch choke. The well flowed 100.14 barrels of 38.4-gravity oil in 10 hours. Gas-oil ratio was 497-1.

Testing continued.

Location is 1,980 feet from north and 660 feet from east lines of section 45, block UV, GG&SF survey.

Muldrow Finishes Aerial Base Map Of Williston Basin

Muldrow Aerial Surveys Corporation is now distributing an aerial base map of 7,000 square miles of the Williston Basin in Montana and North and South Dakota.

In addition to this new release, Muldrow recently completed a special combination covering the entire Williston basin on one map drawn to a scale of one inch equals 16,000 feet.

Also available are area maps of North and South Dakota drawn to one inch equals 32,000 feet scale.

Currently under construction are base maps covering all of the remainder of Montana except the extreme northwest portion. This project is scheduled for completion the middle of November.

Geophysical Firms Donate \$25,000 For Quake Station

Donation of \$25,000 by four exploration companies toward establishment of an earthquake seismograph station at Rice Institute of Houston, was announced by the Society of Exploration Geophysicists.

The gift was made by General Geophysical Company, Independent Exploration Company, Robert H. Ray Company and Seismic Explorations, Inc. all of Houston.

These consulting geophysical companies, although engaged primarily in the application of seismology to the search for oil, have shown vital interest in the basic earth sciences and feel that the establishment of such a station at Rice will be of great value in fundamental research and will contribute to the solution of geophysical problems.

The money will be used to provide the equipment for a seismological station for the continuous recording of the movement of the earth and earthquakes anywhere in the world. It will be the first such station to be established in the Houston area, and in cooperation with other stations such as those at the California Institute of Technology in Pasadena and at St. Louis University will make possible the directional plotting of earth waves.

Rice Institute will thus become a part of the great scientific network which serves to gather information for peoples all over the world on the incidence, direction, and violence of earth tremors and quakes.

President Accepts

In accepting the gift, President William V. Houston of Rice, emphasized that the seismograph will serve as a most important auxiliary feature of the geological work soon to be undertaken through the Harry Carothers Weiss Chair of Geology. Decisions as to the nature of the equipment to be purchased with the gift and as to the operation of the station will be deferred pending the selection of the Harry Carothers Weiss Professor of Geology. It is believed, however, that work can be started in setting up the station at the same time as the establishment of the geological courses at the institute.

"The presentation of such gifts as these," said President Houston, "in conjunction with the funds made available by Mrs. Weiss, will make it possible to create in the Houston area a center of geophysical study of world-wide importance."

Wilkins Is Named Vice President Of Servicing Concern

LEVELLAND — E. H. (Doc) Wilkins has been named vice president of Vance Sibley & Company, oil well servicing concern with headquarters in Levelland. It has been announced by Vance Sibley, president. It was also announced that a new company, Sibley & Wilkins, Inc., Drilling Services, has been formed with Sibley as president and Wilkins as vice president.

Operations of Vance Sibley & Company include general well servicing and remedial work. The new company will specialize in completion drilling and operations will be concentrated in the Lubbock-Levelland area.

Both Sibley and Wilkins have been in the oil business in the Permian Basin for many years. Before forming Vance Sibley & Company, Sibley was district superintendent for Stanolind Oil & Gas Company for the Odessa and Levelland districts.

Wilkins had been with The Western Company since 1947 and was successively treating engineer, station manager and district manager for that company at Levelland. He later became pumping services district manager for the company's South Permian Basin district in Odessa. Immediately before joining Vance Sibley & Company, Wilkins was a sales representative for Western in Lubbock.

Headquarters for both companies will be in Levelland and their services will be offered throughout the Permian Basin.

Petroleum Horsepower Is Causing Dobbin To Retire

TULSA — (AP)—The man on the farm is the American oil industry's best customer.

He is a bigger buyer of oil and its derivatives than even the nation's military forces, the American Petroleum Institute's Oil Industry Information Committee points out.

Here are some OIIC figures on the agriculture-petroleum partnership:

Farm machines and vehicles each year use 10,000,000,000 gallons of petroleum products, more than one-eighth of the country's total oil consumption.

American farmers' 4,000,000-plus tractors alone will use around 4,000,000,000 gallons this year alone.

Oil energy put into farming totals 750,000,000 horsepower—more than is used by all other American industries.

And, speaking of horsepower, the OIIC goes on to say that in little more than 25 years petroleum power on the farm has dropped the horse and mule population to around 7,000,000 from 1924's peak to 23,000,000.

This decline, besides freeing the farmer of caring for the animals, released 65,000,000 acres on which to grow food for human consumption.

The OIIC has likened petroleum to a "portable climate" in this manner:

Hundreds of thousands of oil-powered stationary engines pump water from rivers, wells and man-made reservoirs into irrigation ditches. Oil-burning driers cure tobacco, hay and other crops. Tractor power allows the farmer to schedule his work in order to take advantage of rain and sunshine.

The farmer "now can perform work in a few weeks that used to take him all summer," according to the OIIC which adds:

"That is equivalent to lengthening Summer Heat!"

The farm output in the United States has increased more than 70 per cent since 1919 largely because of petroleum innovations, the agency says.

Hills Is Named On Committee For 1953 Meeting Of AAPG

John M. Hills of Midland has been appointed a member of the committee to arrange for technical papers to be presented at the 1953 annual meeting of the American Association of Petroleum Geologists.

His appointment was announced Saturday by L. E. (Ed) Patterson of Midland, president of the West Texas Geological Society.

Selig is Chairman

The West Texas society is the regional affiliate in this area for the AAPG.

Patterson made the appointment of Hills to the technical paper committee at the request of A. L. Selig of Houston, who is chairman of that group.

Hills is a consulting geologist with many years of experience in the Permian Basin.

Will Be In Houston

The 1953 meeting of the AAPG is to be held in Houston during the Spring of next year.

Morgan Davis of Houston, a vice president of Humble Oil & Refining Company, is currently serving as president of the national organization of petroleum geologists.

Service Pipe Line Will Build Outlet For Williston Pools

A trunk line to provide a necessary pipe line outlet from oil fields of the Williston Basin in North Dakota will be built in 1953 or 1954 by Service Pipe Line Company.

The line would tie in to gathering systems in the Beaver Lodge field as well as newly discovered fields and will include service to a new refinery in the Mandan-Bismarck area to be built by Standard Oil Company of Indiana.

Present plans call for the steel pipe line to be 12 inches in diameter with an initial capacity of 15,000 barrels daily. The original facilities would include one pump station.

A route for the line and location of the pump station will be influenced by future development of North Dakota Williston Basin fields. Present estimates indicate the line will extend about 170 miles from near Tioga.

Williston Basin's first crude oil pipe line was built by Service in North Dakota last winter. This line, originally a 14-mile gathering system now expanded to approximately 20 miles of pipe, connects producing wells in the Beaver Lodge field to a railroad tank car loading rack at Tioga.

Dickerson's Work In OIIC Program Draws High Praise

Joe T. Dickerson of Midland, chairman of the West Texas area for the Oil Industry Information Committee has drawn high praise from officials of the program for his plan of operation.

A manual which Dickerson developed is being given widespread publicity in the OIIC program. Roy Stephens of Houston, chairman of the work for Texas says he hopes the chairman in the other 14 OIIC areas in the state will use the Dickerson manual in carrying on their activities.

Manual Is Complete

The manual shows in a complete form all of the organization arrangements for county and local OIIC committees and it also gives a detailed listing of operational procedures for telling the story of the oil industry to the public.

Dickerson is vice president of Shell Oil Company in charge of that concern's Midland area organization.

Sharp Drop Shown In Well Completions During Last Week

AUSTIN — (AP)—A sharp drop in Texas oil well completions this week was reported by the Railroad Commission today.

The total was 177 compared with last week's 364. The year's total of 5,733 remained well ahead of last year's comparable 5,365.

Regular drilling applications are lagging behind last year's 10,625 to 10,687.

Wildcaters had a poor week, hitting oil in only 11 wells while reporting 92 dry holes.

Eight gas wells were completed, bringing the year's figures within 10 of the year-ago total of 454. Plugged wells totaled 184.

Two Wildcats Are Staked In Runnels; To Start At Once

Runnels County gained two wildcat locations with the aid of Paine Production Company No. 1 J. E. Talley and E. K. & E. M. Burt and Edgar Davis Drilling Company No. 1 Robert Spill.

No. 1 Talley will be drilled to 5,000 feet, one and one-eighth miles southeast of production in the Nora (Gardner) field but separated from that pool by a dry hole at 3,015 feet.

Drillsite is 330 feet from east and 19,000 feet from north lines of W. J. Smith survey No. 81/2.

No. 1 Spill will be dug up and one-eighth miles southeast of production in the Messinger (Gardner) field and one and three-eighths miles northwest of Warren Oil Corporation No. 1 Spill, recent Palo Pinto discovery.

Slated to go to 4,800 feet, the new test will be drilled 600 feet from south and 6,700 feet from east lines of J. C. McKean survey No. 5A.

New Mexico Sale Of O&G Leases Set For July 10

Oil and Gas Leases on 23 tracts of state owned land in New Mexico will be sold to the highest bidders in an oral auction in Santa Fe on July 10.

Leases on seven other tracts will be sold to makers of the highest offers in a sealed bid section of the same auction.

Lists of all tracts to be offered for lease may be secured from Guy Shepard, commissioner of public lands, State of New Mexico, at Santa Fe.

Magnolia's Kermit District Office Has New Chief Clerk

KERMIT — Dan Comfort, chief clerk for the Magnolia Petroleum Company's district office at Kermit, has been transferred to Rodeo, La., where he will be chief clerk at the Rodeo office of Magnolia.

Replacing Comfort is L. M. Hill who was promoted to chief clerk and transferred to Kermit from Holdford, Okla.

Mr. and Mrs. Hill and their two children have arrived in Kermit and are making their home in the Magnolia Camp.

Sinclair Makes Personnel Shifts In WT Division

Three personnel changes in the West Texas division of the production department of Sinclair Oil & Gas Company have been announced by J. T. Reeves of Midland, division superintendent.

John T. Hammett, intermediate petroleum engineer at Wink, has been promoted to be assistant district foreman at Big Spring.

Raymond L. Loure, assistant district foreman at Gainesville, Texas, has been transferred to the Big Spring district office.

Bill H. Rezek, for petroleum engineer at Pampa has been transferred to Odessa.

Fourth Pay Section In Roberts Test Is Found By Gulf

The fourth pay horizon, the third in a granite wash section of the Pennsylvanian, was found on a drilling test at Gulf Oil Corporation No. 1 John Haggard, nine miles (Continued on Page 13)

Texaco Test Finds More Pay On DST

The Texas Company was preparing to core ahead below 12,650 feet in its No. 1-Z State, wildcat and indicated Devonian discovery in Northeast Andrews County, after finding more possible pay on a drillstem test.

The test was taken in the interval from 12,630 to 12,650 feet. Tool was open three hours. Gas surfaced in one hour and 40 minutes. Recovery was 1,742 feet of 48-gravity oil, 80 feet of heavily oil and gas-cut mud and 100 feet of slightly oil and-gas-cut salty sulphur water.

Location is 660 feet from west and 1,980 feet from south lines of section 22, block 6, psi survey and 20 miles northeast of Andrews.

Scouts Elect Proctor New 1953 Prexy

M. R. Proctor of The Atlantic Refining Company will head the Midland Oil Scout's Association for the 1952-53 term.

Proctor was elected president at a recent election which put the following scouts in office: Harold E. Sadders of Sohio Petroleum Company, first vice president; C. L. Tyra of Mid-Continent Petroleum Corporation, second vice president; Roland Thomason of Stanolind Oil & Gas Company, secretary-treasurer; and H. L. Bryant of Phillips Petroleum Company, editor.

Proctor was elected president at a recent election which put the following scouts in office: Harold E. Sadders of Sohio Petroleum Company, first vice president; C. L. Tyra of Mid-Continent Petroleum Corporation, second vice president; Roland Thomason of Stanolind Oil & Gas Company, secretary-treasurer; and H. L. Bryant of Phillips Petroleum Company, editor.

Berg Completes New Map Of Deep Zones In Permian Basin Area

Ernest L. Berg, Midland consulting geologist, who has had wide experience in mapping sub-surface structures has completed a new regional structure map of the Permian Basin of West Texas and Southeast New Mexico.

It carries contours of the top of the Devonian and also on the top of the Ellenburger. It also locates all outstanding sub-surface geological features of the Permian Basin.

Covers The Area

It covers the area from the west line of Chavez County, New Mexico, on the west to the east line of Callahan County, Texas, on the east and from the north line of Lubbock County on the north to the south side of the Big Bend area.

The map is on a scale of one inch to ten miles. It is on a polyconic projection-base, in part from state and federal maps.

The Pennsylvanian and younger beds do not show on the Berg map. Has Been Well Received

It has been well received by geologists who have seen it. Copies are available from Berg at his office at 702 West Nobles or from the West Texas Reproduction Company of this city. The fee for single copies of the map is \$25.00.

The different geological formations which are shown on the map are colored to make possible distinguishing each of them.

Warren Petroleum Is To Liquidate Five Subsidiary Concerns

TULSA — (AP)—Five wholly-owned subsidiaries of Warren Petroleum Corporation will be liquidated on June 30.

The subsidiaries are the Warren Oil Corporation, Devonian Company, Warren Marlines Corporation, Warren Pipe Line Company and The Dry-Gas Corporation.

To Handle In Divisions

The operations formerly conducted by the subsidiaries will be handled in the future within divisions of Warren Petroleum Corporation, with the exception of Dry-Gas Company. Executive and other personnel will be retained.

Johnson Is New Scout For Sun

P. R. (Phil) Johnson is a new scout in the Midland district office of Sun Oil Company.

He came from Robert Lee where he had been working in the concern's production department handling the Jameson field.

Johnson had been stationed at Robert Lee for about two years.

Johnson Is New Scout For Sun

P. R. (Phil) Johnson is a new scout in the Midland district office of Sun Oil Company.

He came from Robert Lee where he had been working in the concern's production department handling the Jameson field.

Johnson had been stationed at Robert Lee for about two years.

Skelly Schedules Deep Exploration In NW Eddy Area

HOBBS, N. M.—Skelly Oil Company has scheduled a deep exploration prospect in Northwest Eddy County. It will be drilled 660 feet from north and west lines of section 22-17a-31e and six miles west of Buffalo Oil Company No. 12-B Baisch, recently completed Devonian discovery in West-Central Lea County.

Humble Oil Company No. 2 Gray has been completed as another producer in the Saunders field. Located 1,980 feet from south and 660 feet from west lines of section 35-14a-33e, it was completed for a daily flowing potential of 292 barrels of 41.5-gravity oil through a 20-64-inch tubing choke and from perforations at 9,797-9,823 feet. Gas-oil ratio was 1,302-1. Pay was treated with 1,750 gallons.

Humble Oil & Refining Company No. 2 Federal-Elliott is to be drilled as a 13,000-foot project offsetting its No. 1 Federal-Elliott, recently completed Pennsylvanian discovery in West-Central Lea County.

Drillite is 1,980 feet from north and west lines of section 33-15a-37e. Amerada Petroleum Corporation No. 1-A Tulk has been completed as a producer in the Tulk area of Central-West Lea County. It was completed on the pump for a daily potential of 133 barrels of 42-gravity oil from perforations at 9,730-9,758 feet. Gas-oil ratio was too small to measure. Pay had been treated with 2,500 gallons. Location is 782 feet from north and 1,980 feet from east lines of section 5-15a-32e.

H. S. Moss No. 1 D. P. Peck is to be drilled as a 9,000-foot project in the Gladiola area of Northeast Lea County. It is 660 feet from north and 1,980 feet from west lines of section 26-12a-37e.

Baker & Taylor No. 1 State, wildcat in Roosevelt County, has been plugged and abandoned on total depth of 3,335 feet in the San Andres lime topped at 2,850 feet, elevation 4,429 feet. Location was 660 feet from south and east lines of section 36-2a-30e.

Lubbock Machine Company has taken over operations at Weatherford & Barret No. 1 Colbaugh, wildcat in Terrence County. Drill-site is at the center of the southwest quarter of section 12-1a-12e. It is contracted to 3,500 feet.

O. H. Randal No. 1 Ivan Thurman, wildcat in Eddy County, has been plugged and abandoned on total depth of 595 feet in lime. It was 660 feet from north and west lines of section 9-28a-24e.

The Texas Company No. 1-AQ State, project in the Tulk area of Central-West Lea County, has been plugged and abandoned as a failure in the Wolfcamp on total depth of 9,830 feet. That formation was topped at 8,910 feet, elevation 4,356 feet. Location was 660 feet from south and east lines of section 31-14a-32e.

Gulf Oil Corporation No. 2 Saunders is a new oiler in the Saunders field of West-Central Lea County. It was completed for a daily flowing potential of 268 barrels of oil and 108 barrels of water through a one-half-inch choke and perforations at 9,770-9,886 feet. Gas-oil ratio was 1,669-1. Gravity is 41 degrees. The pay had been treated with 2,000 gallons of acid.

Location is 660 feet from south and west lines of section 34-14a-33e. Shell Oil Company No. 2 Gray has been completed as another producer in the Saunders field. Located 1,980 feet from south and 660 feet from west lines of section 35-14a-33e, it was completed for a daily flowing potential of 292 barrels of 41.5-gravity oil through a 20-64-inch tubing choke and from perforations at 9,797-9,823 feet. Gas-oil ratio was 1,302-1. Pay was treated with 1,750 gallons.

Humble Oil & Refining Company No. 2 Federal-Elliott is to be drilled as a 13,000-foot project offsetting its No. 1 Federal-Elliott, recently completed Pennsylvanian discovery in West-Central Lea County.

Drillite is 1,980 feet from north and west lines of section 33-15a-37e. Amerada Petroleum Corporation No. 1-A Tulk has been completed as a producer in the Tulk area of Central-West Lea County. It was completed on the pump for a daily potential of 133 barrels of 42-gravity oil from perforations at 9,730-9,758 feet. Gas-oil ratio was too small to measure. Pay had been treated with 2,500 gallons. Location is 782 feet from north and 1,980 feet from east lines of section 5-15a-32e.

Apex Engineering Holds Open House At New Offices

Harry E. Legendre and his associates in the Apex Engineering Company held open house at their new and enlarged offices Friday afternoon.

The Apex offices are now at 40 North Baird Street in Midland. In the new quarters the concern has a larger amount of space and more equipment than it had in its former location.

Apex does general oil field engineering service. It has expanded its personnel and its services considerably since Legendre started doing that type of work more than a year ago.

A large number of friends and clients attend the Friday affair.

Mother Of Addison Young Dies; To Be Interred Monday

Mrs. Mary Burnham Young Kwal, 84, mother of Addison Young of Midland, died at her home in Washington, D. C., Friday.

Funeral and interment will be in Washington on Monday.

Addison Young was with his mother at the time of her death. He will return to Midland after the burial.

She is survived by six children and 14 grandchildren.

Addison Young is a research geologist for Phillips Petroleum Company.

MAUNA LOA ERUPTS HONOLULU (AP)—Mauna Loa volcano erupted early Saturday, and lit the sky with a red glow. Sightheers began streaming from other parts of the island of Hawaii.

Ohio Employess In Hobbs Area Receive Awards For Service

HOBBS, N. M.—Fifteen employes of The Ohio Oil Company in the Hobbs area were honored recently in a service award banquet here.

A total of 462 years of service was represented by all workers attending the meeting, according to J. D. (Jim) Wheeler, of Houston, who served as toastmaster for the banquet.

Receiving a pin and certificate: Carthy, Lovington, E. E. Randolph, M. A. Shoemaker and I. D. Schwaback were awarded pins for 25-year service.

Others presented pins included T. A. Steele, 10 years, now with the PAD in Washington; H. L. Collins, 10 years; J. D. Weaver, 10 years, recently retired.

Loise Trout, R. R. Patterson, J. S. Livingston, M. S. Vines, A. J. Vines, A. J. Kirby, E. A. Nunley, Floyd Williams and J. B. Fore, all five years.

Officers Attend Company officials attending the special meeting included R. C. O'Connell, division manager from Houston; J. D. Wheeler, assistant division manager from Houston; O. V. Henry, production superintendent from Houston; C. S. Mills, district manager from Midland; J. A. Origen, district superintendent from Midland and W. E. Chalfant, superintendent from Midland.

Mr. and Mrs. Otto Deas and family are attending the Fort Griffin Fair at Albany. They are former residents of Albany.

BACK FROM TRIP James N. Allison and C. E. Johnson have returned from a business trip to Dallas and Houston.

personnel director from Houston. Area officials at the banquet were J. B. Reese, superintendent; Clyde Kent, foreman; J. B. Bailey, foreman; Frank Barrett, drilling foreman and Luc Burk, geological department, all of Hobbs and Don Keller, foreman from Seminole.

Stanolind Slates New Depths In North Basin

(Continued from Page 12)

west of Miami in South Roberts County of the Texas Panhandle.

Latest pay was uncovered on the 7,175 to 7,302 feet. Gas came to the surface in two minutes and fluid in 10 minutes. The prospect was cleaned into pits for 10 minutes, then turned into tanks.

It made 269.22 barrels of fluid in 12 hours, of which 73.48 barrels were 48.8-gravity oil and 187.34 barrels basic sediment and salt water. Gas volume was 7,900,000 cubic feet per day.

Showing Water

The flow at the end of the test was 23 per cent oil and 77 per cent water, with no basic sediment.

First pay in the granite wash was from 6,978 to 6,708 feet, where the well flowed four and one-quarter barrels of distillate and registered a gas volume ranging from 9,240,000 to 14,500,000 cubic feet per day.

The second was from 6,728 to 6,772 feet, where the well flowed 344.39 barrels of oil in five hours along with a heavy gas volume.

Initial pay was in the Wichita-Albany at 4,175-4,235 feet.

Location of No. 1 Haagard is 600 feet from south and west lines of section 5, block 2, 1&GN survey.

of San Angelo found a slight show of oil in a drillstem test in the top of the Strawn reef lime.

The test was at 5,9-9-27 feet. The tool was open 30 minutes. There was a blow of air for 10 minutes and it then died.

All Pressures Zero

Recovery was 10 feet of slightly oil cut drilling mud. There were no signs of gas or of formation water. All pressures were zero.

Operator plans to drill ten feet deeper and then run another drillstem test.

Top of the Strawn reef lime was picked at 5,902 feet. Elevation is not available. However, informed sources say that on the top of the Strawn lime the No. 1 Well is slightly high to the average top of the same formation in the Pulliam area which is about three miles to the north.

No Build Up Indicated

Those sources say the Phillips wildcat is not enough higher than the Pulliam area producers to indicate any considerable build up in the Willake area.

So far it has found only slight shows of oil and gas in any of the zones it has drilled through. It had salt water in the Palo Pinto lime.

Location is 1,980 feet from north and west lines of section 4, Blind Asylum survey.

that region by James B. Dunigan of Fort Worth and Frank T. Brahaney of Midland.

Ashmore and Staller turned the deal to Signal, Southern California and Vega to drill and retained an override.

Dunigan and Brahaney still own leases on a large spread of leases in the West-Central Yoakum County region adjacent to the wildcat which is to No. 1 Webb, which is contracted to 12,500 feet to test the Devonian.

Cochran Wildcat Is Preparing To Test San Andres Section

Texas & Pacific Coal & Oil Company and others No. 1 James C. Landon, wildcat in Central-West Cochran County, is at total depth of 4,335 feet and is moving in cable tools to drill plug on seven-inch casing set at 4,374 feet.

When plug is drilled out, operator will test and try to develop commercial production from the San Andres. The project may be drilled deeper if production isn't found.

Location is 600 feet from north and east lines of labor 5, league 153, Sherman County School Land survey and six miles southeast of Bladon. It is also six miles west of the Dean field and on a 2,470-acre lease.

Stanolind Is Making More Hole On Two Martin Explorers

Stanolind Oil & Gas Company is drilling deeper on two scheduled deep wildcats in West Martin County.

Neither of the prospectors has yet developed any possibilities of commercial production.

Stanolind No. 1 Cowden, in South-west Martin County, nine miles northwest of the city of Midland, had reached 11,716 feet in lime and shale.

Currently the project is penetrating rock of Mississippian age. No shows of oil.

The wildcat drilled through the entire Pennsylvanian section without logging any signs of oil or gas. It had some slight shows in the Spraberry and in the Dean but informed observers say that none of them were commercial.

The project is slated to dig to 14,000 feet to test the Ellenburger.

Location is 600 feet from south and east lines of the southwest quarter of section 30, block 46, T-1-N, T&P survey. That makes it 30 miles west of Stanton.

Stanolind No. 1 Flynn, 23 miles north of Midland and in Central-West Martin County has reached 8,972 feet in Permian lime and shale.

It has not found any possibilities of making an oil well down to the present level of operations.

Location is 600 feet from south and west lines of labor 42, league 248, Hattley County School Land survey. It is 24 miles northwest of Stanton. Slated destination of the wildcat is 14,500 feet to test the Ellenburger.

Humble Is To Test San Andres Lime In NE Crockett

Humble Oil & Refining Company No. 1-P University, shallow wildcat in Northeast Crockett County, 23 miles north of Oona and 10 miles southwest of Barnhart is preparing to acidize and test the zone at 1,750-50 feet in the San Andres-Permian lime.

This interval logged some slight shows of oil and gas when it was drilled through with cable tools. That zone had the only signs of petroleum which were encountered in this prospect.

It drilled to a bottom of 1,990 feet in lower San Andres lime and shale, a hole full of black sulphur water was developed at that point.

There were no shows of oil or gas in the section which carried the water.

Operator is to plug back to 1,750 feet and then test the zone at 1,730-50 feet, both before and after acid treatment.

Location is 1,980 feet from south and west lines of section 15, block 44, University survey. It is one mile south of the nearest production in the shallow Block-44 field.

Phillips Is To Plug Back To Wolfcamp In Sutton Tester

Phillips Petroleum Company No. 1-A Libb, South-Central Sutton County wildcat, is plugging back for completion attempt in the Wolfcamp, where gas-distillate production was indicated.

It was drilled to 5,480 feet in granite. Electrical surveys were run to total depth. Pipe will be run to test the Wolfcamp between 2,980 feet and 4,034 feet, where two drillstem tests uncovered gas ranging from 1,269,000 to 3,140,000 cubic feet per day plus some distillate.

No. 1-A Libb is at the center of the southeast quarter of the southwest quarter of section 52, block-14, T&W&NG survey and 18 miles southeast of Sonora.

Phillips Tests In Top Of Strawn Reef In Tom Green Wildcat

Phillips Petroleum Company No. 1 Willike, West-Central Tom Green County wildcat, six miles southwest of Stanton.

It has been learned that Vega acquired an interest in the wildcat before it was announced. Signal has a one-half interest in it and Southern California has a quarter interest.

Location is 1,980 feet from south and east lines of section 423, block D John H. Gibson survey. It is three and one-half miles west of the town of Plains.

The Signal, Southern California and Vega No. 1 Well is to be drilled as a result of a deal worked up by L. W. (Wayne) Ashmore and M. T. (Rosalie) Staller, Midland independent oil operators.

On Dunigan-Brahaney Block They took a checkerboarded spread of 2,600 acres out of a block held in

Vega Has Quarter Of Deep Wildcat In W-C Yoakum

The Vega Corporation of Midland and Los Angeles has a one-quarter interest in a deep wildcat to be started at once in West-Central Yoakum County.

That prospect has been previously reported as Signal Oil & Gas Company and Southern California Petroleum Corporation No. 1 J. D. Webb.

Other Interests Listed

It has been learned that Vega acquired an interest in the wildcat before it was announced. Signal has a one-half interest in it and Southern California has a quarter interest.

Location is 1,980 feet from south and east lines of section 423, block D John H. Gibson survey. It is three and one-half miles west of the town of Plains.

The Signal, Southern California and Vega No. 1 Well is to be drilled as a result of a deal worked up by L. W. (Wayne) Ashmore and M. T. (Rosalie) Staller, Midland independent oil operators.

On Dunigan-Brahaney Block They took a checkerboarded spread of 2,600 acres out of a block held in

N-C Fisher Wildcat Plugged, Abandoned

W. T. Waggoner estate No. 1 F. J. Malouf, wildcat in North-Central Fisher County, has been plugged and abandoned at 1,097 feet.

No shows of oil or gas were found in any section drilled through.

Location was 600 feet from north and 330 feet from west lines of the southeast quarter of section 111, block 2, H&TC survey and one-half of a mile southwest of the town of Rotan.

Wildcats In Crane, Crockett Are Dry

Lloyd H. Smith, Inc. and San Juan Oil Company have plugged and abandoned their No. 1-A T. C. Barnley estate, wildcat in Central Crane County, at total depth of 4,820 feet.

Several tests taken in the wildcat developed some shows of oil and gas but not enough for commercial production.

The Yates was topped at 1,750 feet, the San Andres at 3,022 feet and the Tubb at 4,542 feet. Elevation was 2,512 feet.

West Of Crane

Location was 600 feet from south and west lines of section 34, block 32, pal survey and 10 miles west of Crane. That made it two miles southeast of production in the Sand Hills (Tubb) field.

In Northeast Crockett County

Powell McFarland has quit his No. 1 A. E. Luckett and others at total depth of 1,380 feet in shale.

It was nine miles north of Oona and 2,310 feet from south and 800 feet from east lines of section 8, block CD, BEB&C survey.

The dry hole was 11 miles east of the Vaughn field and two and one-half miles due south of Ellenburger production.

WT Counties List Abandoned Sites

Locations for three explorations in West Texas have been abandoned. H. A. Hedberg has abandoned site for his No. 1 Hedburg-University, wildcat in Northeast Pecos County. It was two miles north of Beckersfield and 1,767 feet from south and 447 feet from east lines of section 19, block 116, University survey. It was also two miles north of the Taylor-Link field.

In Santa Rosa

In North Pecos County, Milner Oil Company has abandoned location for its No. 1 Green-State, located in the Santa Rosa field and 330 feet from north and east lines of section 108, block 8, H&GN survey.

The other abandoned drillsite is in Northwest Tom Green County. It is Dalton-Waters and others No. 1 Percy W. Turner. It was nine miles south of Water Valley and 330 feet from north and east lines of section 25, block 8, H&TC survey.

C-N Kent Venture Plugged, Abandoned

General Crude Oil Company has plugged and abandoned its No. 1 C. V. O'Keefe, wildcat in Central-North Kent County, at 7,430 feet in barren Ellenburger.

Location was 800 feet from south and west lines of section 25, block 1, H&GN survey and six and one-half miles southwest of Oirard.

AWARD FOR LIFE SAVING—Paul H. Rogers, fourth from left, is shown receiving the National Safety Council's President's Medal for life saving from J. F. Madigan, safety supervisor for The Texas Company, Houston. Rogers, employed by Texaco's producing department, was awarded the medal after he had saved the life of Byrd T. Mooney of J. P. (Bum) Gibbons, Inc., by administering artificial respiration after Mooney had been overcome by hydrogen sulphide gas on the J. E. Mabee "A" lease in Andrews County. Others in the picture, left to right, are: T. P. Drew, Texaco district superintendent, Midland; J. F. Neal, Texaco division superintendent; Fort Worth; Tom Campbell, general manager for Gibbons; and J. R. McLaughlin, production foreman for the Mabee lease.

BUSY CONSTRUCTION YEAR IN MIDLAND Building Permits Flash Past \$10,000,000 Mark

Building permits flashed past the \$10,000,000 mark here Friday afternoon as one of the busiest construction years in Midland's history neared the halfway point.

Superintendent of Inspections R. S. Higgins reported Friday that the \$139,800 permits issued during the week pushed the year's total of \$10,115,647.

Higgins pointed out that the building permits for 1951 totaled only \$14,600,000.

"I predicted early this year that more than \$20,000,000 worth of permits would be issued during 1951 and it looks like we'll hit that figure without much trouble."

Permits issued during the week include:

Richard Hoekendorf, residential foundation and miscellaneous repairs for Mr. and Mrs. John Butler, 1701 West Illinois Street, \$20,000.

Roy F. Jones, addition, for D. W. St. Clair, 910 West Tennessee Street, \$7,000.

One-family dwelling, for Margaret Blanscott, 3011 West Louisiana Street, \$5,500.

C. W. Nugent, warehouse, for Midwest Electric, 2105 West South Front Street, \$6,000.

John H. Burton, garage and washroom, 1401 South Baird Street, \$800.

Henry Mitchell, one family residence, 703 East Missouri Street, \$2,000.

Claude Butler, one family residence, 504 West Liddon Street, \$2,000.

Claude Butler, one family residence, 504 East Dakota Street, \$2,000.

Webb Davis Building Company, one family residence, 3213 West Ohio Street, \$11,000.

Thomas R. Casby, one family residence, 1118 East Hickory Street, \$7,500.

Erma Jean Benson, two-family dwelling, 806 South Adam Street, \$1,000.

John H. Fress, one family residence, 2007 Princeton Street, \$23,000.

H. A. Chiam, one family residence, 1115 Lanham Street, \$18,000.

Robert Jones, one family residence, 1508 East Indiana Street, \$500.

Pat Stanford, service station, for Humble Oil and Refining Company, 801 West Missouri Street, \$25,000.

R. C. Jones, one family residence, 1307 South Loraine Street, \$6,500.

Church Of Christ Plans New Building For Pecos Members

PECOS—One of the most modern church plants in Pecos will be the new Church of Christ building, scheduled for construction soon after bids are opened July 21, announced Mardell Lynch, minister.

Located at the corner of Bolsdorf and West Fourth Street, the church has mapped an ambitious expansion program which will improve the present building, erect a fully-equipped auditorium, and will install a covered archway connecting the two buildings.

Overall appearance of the plant will offer a modernistic architectural effect not often seen in American church buildings.

The new structure will measure 67 feet by 130 feet, including the auditorium and foyer, while the auditorium proper measures 55 by 107 feet. Oak pews will seat at least 450 persons.

Entering the auditorium, the public will find glass panels flanked by entrance doors and brick veneer walls. Elaborate plans have been penned for effective use of landscaping.

Architects William A. Collier, Jr., and William C. Everett of Abilene have used effective contrasts of glass bricks in the auditorium.

The present building, Mr. Lynch related, will be divided into 12 classrooms to comprise the church's educational plant. It will be improved inside and completely remodeled outside to harmonize with the new auditorium and archway.

Mr. Lynch moved here from Oklahoma last January. Reared at Sweetwater, he received his education at Freed-Hardeman in Henderson, Tenn., and at Abilene Christian College in Abilene.

He and his wife have three children: Dudley, 11; Stanley, eight; and Marcella, six.

JayCees Vow Texas Allegiance, Close Dallas Convention

DALLAS—(AP)—The U. S. Junior Chamber of Commerce ended its boisterous convention Friday, naming Horace E. (Hunk) Henderson, 34, of Williamsburg, Va., as president.

Henderson defeated Douglas L. Hope, 31, of Cincinnati, Ohio. The vote climaxed a week of high-jinx, including a make believe six-shooter duel between the two candidates in the downtown hotel district.

The 6,000 JayCees passed this resolution about Texas: "Resolved: to believe what we hear about Texas in the future; to applaud like a Brooklynite at the mention of the Lone Star State; to always allude to it as the 'Great State of Texas,' and to always hold a spot deep in our hearts for Texas."

At a keynote dinner Friday night, Raymond M. Roberts of Grand Prairie was named one of the five outstanding JayCees national directors. Roberts is president of the Texas JayCees.

The JayCees elected 10 new national vice presidents including Robert L. Hill, Kerrville, Texas.

Midland Attorneys Go To Bar Meet

A host of Midland attorneys will attend the annual convention of the State Bar of Texas Tuesday through Saturday at Houston.

Included in the group will be Mr. and Mrs. John Culver, Perry Pickett, Len O. McCormick, Robert Turpin, Frank Stubbeman, Boyd Laughlin, Jim Marberry and P. H. Pannill.

Parley Requested On Water Supplies

SANTA FE, N. M.—(AP)—New Mexico Gov. Edwin L. Mechem has asked Texas Gov. Allan Shivers to set the time and place for a meeting to discuss the underground water supply along the Texas-New Mexico line.

Mechem said Friday that he called the meeting after residents of Fortales and McIntosh, Texas, protested plans of the City of Lubbock to drill a series of water wells that fear will lower the water table for the entire area.

Advertise or Be Forgotten

Guardsmen Merit 'Excellent' Rating

NORTH FORT HOOD—(AP)—National Guardsmen of the 49th Armored Division earned a rating of "excellent" from Fourth Army inspectors during their training here.

The Guardsmen began packing equipment for the journey home Sunday.

Col. Henry Pendleton, senior Army instructor of the Texas National Guard, was honored Friday. He is ending 42 years of military service.

Two Midland Youths Named In Burglary Attempt Charges

Two Midland youths were being held in the Ector County jail Saturday, charged with attempted burglary. Bonds were set at \$1,000 each.

The accused men are William Norris Offield, 22, and William Ray Ferguson, 19. Both had been employed as oilfield roughnecks.

They were apprehended at a Humble Service Station in Odessa before dawn Friday.

The Midlanders denied they were attempting to break into the station, stating they had driven their 1947 convertible into the station to put water in the radiator.

Officers said that when arrested, Offield was breaking out a window on the east side of the building and Ferguson was standing by the car with the hood raised.

N-C Kimble Gets Shallow Wildcat

Anzac Oil Corporation of Coleman will drill a 2,200-foot cable tool wildcat in North-Central Kimble County as its No. 2 H. H. Lawler.

It is 1,387 feet from south and 1,246 feet from west lines of section 9, block 15, T&W&NG survey, A-678 and six miles north and two miles west of Junction.

No. 2 Lawler is on a 8,892-acre lease.

C-N Kent Venture Plugged, Abandoned

General Crude Oil Company has plugged and abandoned its No. 1 C. V. O'Keefe, wildcat in Central-North Kent County, at 7,430 feet in barren Ellenburger.

Location was 800 feet from south and west lines of section 25, block 1, H&GN survey and six and one-half miles southwest of Oirard.

WASHINGTON OIL—Rising Tide Of Imports Is Foreseen In Report Of Paley Commission

By JOSEPH BUTTLINGER, Reporter-Telegram Washington, Oil Correspondent

WASHINGTON—A rising tide of oil imports to the United States over the next 25 years is foreseen in the Paley Commission report which was put out last week.

The commission, under Chairman William S. Paley of the Columbia Broadcasting Company, was named by President Truman 18 months ago to study supply demand factors over the next quarter-century of basic raw materials.

While the commission report fails to state an exact figure that imports might reach, a close study of all five volumes of the report gives some clues.

Thus, in Volume Three, the commission has a table entitled "Hypothetical Pattern of Free World Oil Supplies and Demand in 1975 Compared with 1950." This table shows U. S. demand mounting from 4,650,000 barrels daily in 1950 to 13,700,000 barrels daily by 1975. On the production side, the table sees the U. S. supply increasing from 5,910,000 barrels daily to 11,200,000 barrels daily.

The table further pegs the possible flow of oil imports, of crude oil and products, to the U. S. at 2,500,000 barrels daily, a volume which is two and a half times the present flow.

A staff official of the commission explains, in addition, that the U. S. production figure includes crude oil, natural gas liquids and oil from coal or shale.

If this level of oil imports seems high to American producers, they should dig deeper into the report. Thus Volume One contains another table giving three estimates of U. S. crude oil production by 1975. The highest is 10,000,000 barrels daily.

A second estimate is that crude oil production 25 years off may be about 8,000,000 barrels daily, which is substantially above today's rate. Assuming, as some do, that another 2,000,000 barrels daily will be coming from natural gas liquids and oil from coal or shale, the total, still in short of possible U. S. demand by 3,700,000 barrels daily. The estimates seem to be saying that imports may reach this level.

Third Estimate Cited

A third estimate puts crude oil output at 6,000,000 barrels daily, which is below today's production. Assuming another 25 per cent of 1,250,000 from natural gas liquids and oil from coal and shale, the deficit, in this case, would be 7,450,000 barrels daily.

While the commission never says that imports of oil may reach this level, the assumption could be drawn from the report. In actual fact, however, it is hardly conceivable that either the industry or the government would allow us to get into a position where we are importing more oil than we produce, if that could be avoided.

And the Paley Commission seems to believe that the processes of synthetic petroleum are well enough advanced that they could get into operation on a big scale when and if needed.

The commission report fails to spell out exactly any figure that oil imports might reach, and queries to top officials of the commission for clarification brought the answer: "The report points out: 'Domestic crude oil production is still far from the end of the road, but even under fairly optimistic assumptions, it probably cannot keep pace with rising domestic needs up to 1975.' Again, the report says:

"The petroleum industry is confident that, given a favorable economic and political environment, it can continue for a long time to meet growing demands upon it. It is generally accepted, however, that at some time in the future the job will become considerably more difficult but there is a broad difference of opinion as to when that time can be expected.

Advance Indication

"Its approach will be indicated fairly well in advance by two closely related developments: (1) failure to provide new discoveries sufficient to support the growth of production, and (2) increased cost of discovering and developing oil relative to the general price level."

In the viewpoint of the commission, the job ahead is to keep Amer-

ica's doors open for increased volume of oil imports. While foreign oil is "competitive" with domestic in price, says the commission, the report adds:

"The commission believes that present knowledge of this nation's future oil position does not warrant any discrimination against imports of crude oil from any quarter of the world.

"Every encouragement should be given, within limits of economic reasonableness to establishing greater oil reserves and production capacity in the Western Hemisphere, but not by placing penalties on oil production elsewhere."

"In view of its future needs and limited resources, this nation should welcome crude oil imports, not place obstacles in their way. Tariffs on crude oil imports should therefore be held down, reduced, or eliminated, within the limits imposed by national security considerations."

For the security of the U. S., the long range answer is an "emergency cushion" of crude oil production capacity, backed up by reserves of pipe line and refining capacity, says the report.

One hope for building such a reserve is in the Continental Shelf, it goes on, where state and federal laws might specify lower production rates against reserves, well-spacing and the like. Another is for private oil companies, perhaps in cooperation with the states, to produce less oil annually against reserves that at present, at this time, American oil fields are producing seven to eight per cent of reserves each year, but the commission believes the rate might be lowered to four or five per cent.

Guidespost For Years

Whether a policy of holding down production in this manner would mean further oil imports than otherwise estimated by the Paley Commission is not at once clear.

The White House level report, which is sure to be a guidepost for years ahead for congressmen and administration officials, is regarded as the major government document in many years.

While Cornelius J. Dwyer, head of the petroleum section of the Mutual Security Agency, did much of the spade work on the petroleum part, oil men were called in as consultants. Among them were Eugene Ayres of Gulf; Walter E. Collins of the Petroleum Administration for Defense; E. L. DeGolyer, Dallas geologist; Edward Falck, gas consultant; Serge B. Jurener, of Houston, Continental Oil; A. I. Levenson of the Independent Petroleum Association of America; and Hanina Zinder, gas consultant.

THREE DIE IN CRASH—WICHITA FALLS

WICHITA FALLS—Three persons from Midland were killed Friday in an auto smashup near Knix City. They were Jack Burdette, 23; Alrman Herman Franklin, 21; and his brother, Thomas Franklin, 19.

Operators Are Studing New 80-Acre Spacing Plan For Spraberry Producing Areas

(Editors Note: The following is reprinted from The Oil & Gas Journal. It was written by Roy F. Carlson of Midland, district editor for the publication.)

Spraberry operators are taking another look at 80-acre spacing. Shortage of oil-well casing is again influencing this second look as it did several months ago, but increasing pessimism about Spraberry payout of 40-acre spacing also is exerting a large influence.

The strike in the steel industry has forced many oil companies to reduce their casing inventory to almost nothing. Already in short supply before the strike began, casing in the hands of West Texas operators is being distributed to those points where it has to be used to meet drilling obligations. And if more of these obligations exist than casing strings Spraberry wells are the first to be cut from the drilling and casing program.

One major operator who in weeks past has been running nearly 20 rigs in the Spraberry tract areas of Midland, Upton, Big Lake, Glasscock Counties is now down to just one or two rigs. Other major operators are following suit as pipe supplies dwindle.

Of course, all drilling operations in the area are falling off due to the pipe shortage, but the Spraberry comes first in reducing operations because production estimates from wells indicate a pessimistic future for the Spraberry.

As more information becomes available about Spraberry sand behavior as a producing horizon, and as production in each well declines, recoverable-reserves estimates for the sand also are decreasing. Recent studies indicate that payout per well will be very close if not impossible on a 40-acre basis throughout a large part of the area.

Interference tests, conducted in parts of Spraberry indicate that one well will effectively drain 80 acres of the Spraberry sand, if not more. At least it will drain enough to make the well a sound economic investment.

Of course, no one will say that the 80-acre well will recover twice as much oil as a 40-acre one, but it will drain a considerably larger area than the 40 acres. And with reserves estimates as low as 10,000 barrels per acre in some parts of the trend, the problem of spacing may be illustrated rather simply.

An operator's full seven-eighths share of the oil for a 40-acre, 1,000 barrels per acre tract would be about 35,000 barrels. If, for purposes of illustration, the price of the oil is \$2.50 per barrel, the money returned to the operator from the lease would be \$87,500. Since it costs about \$90,000 to drill and complete a Spraberry well for production, this particular well would lose money.

However, if just one well is drilled on 80 acres, and does three-quarters as effective a job of draining oil as two wells in the same area, the operator would recover 32,500 barrels of oil or over \$130,000, which would make the well an economic success.

This dark picture does not apply, of course, to some of the Spraberry development, and is certainly oversimplified. The trend area is not identical in all locations with regard to producing capacity of the wells, and there are some portions of the trend that are good oil producing areas.

However, in some instances the above picture will hold true, particularly in areas where drilling of small tracts has been delayed while surrounding wells have been completed and on production for a considerable period of time. Subsequent drilling of such tracts has failed to get oil wells that have much chance of paying out.

Secondary Recovery

On the other side of the picture, the method of secondary recovery is devised for the Spraberry, the picture can be changed. However, most observers say that none of the currently used secondary means will work in the Spraberry sand.

The widely publicized fractures in the Spraberry sand afford good communication between wells and furnish a drainage system that is said to be able to drain at least three-fourths as much oil from 80 acres into one well as would two wells in the same 80 acres.

The mentioned interference tests show that while a well is producing, an offsetting well that is shut in will have an almost identical increasing-pressure history even though it is not producing any oil. In fact, some operators believe that the drainage system is good enough to drain an even larger area and are suggesting that 160-acre spacing is possible.

Production Behavior

The fractures are also believed to furnish most of the oil to the well during its early life, with later production draining into the well bore more slowly.

ICC Says Railroad Rate On Newspapers Merits No Change

WASHINGTON—(AP)—An Interstate Commerce Commission examiner has recommended dismissal of a complaint that railroad rates on shipments of newspapers west of the Mississippi River are unduly high.

The case was brought before the ICC in June, 1950, by the American Newspaper Publishers' Association on behalf of its 229 western members.

The complaint challenged the western rates for handling newspapers and newspaper supplements in baggage cars attached to passenger trains. It was specifically directed against a 20 per cent advance in charges made on March 1, 1950. The ANPA suggested that ICC step in and prescribe "reasonable rates" for this service.

The examiner, Otto A. Hanson, said in his report to the commission that the newspaper-shipment rates had not been advanced as much as the rates on other articles handled in the passenger train service, and asserted:

"Considering all the facts, no basis appears for a conclusion that the existing rates are unreasonably high. The complaint should be dismissed."

Drilling Magazine Features Story By Wilshire Engineer

A. E. Collins, petroleum engineer for The Wilshire Oil Company, Inc., in Midland, provided one of the feature articles for the June 15 issue of "The Drilling Contractor," official publication for American Association of Oilwell Drilling Contractors.

Collins presents Wilshire's foam generating system for rig fire protection on a three-page layout complete with pictures.

Wilshire's National '30' Rig No. 3, drilling in the Pembroke area of Upton County, was used to illustrate the story.

Stock Market Zooms To New 22-Year Mark In Half Year

NEW YORK—(AP)—The stock market in 1952 suffered from acute economic fears and political misgivings, but at the halfway point the bull market belied its loud-est in more than 22 years.

Fears arose from the war in Korea, from high taxes to pay for the war, from federal controls growing out of the war, from inflation that ran through the entire economy.

But these and other fears were more than offset by a long list of other factors.

Foremost was the increase in dividend payments. In the first five months this year dividend payments were six per cent ahead of the comparable 1951 period, the Commerce Department reported. Corporations issuing public reports paid out almost \$2,700,000,000.

Profits in the first half weren't so good, but there is a firmly held belief that they will rise in the second half.

A sort of international doomsday complex held a frustrating hand on the stock market most of this first half year.

Doomsday didn't come. The stock market turned to more bullish things like railroads and oil, defense spending and inflation, stock splits and deficit financing, and finally the traditional summer rally coming in an election year.

Railroads were the backbone of the advance in the stock market. Take The Associated Press average for a yardstick. The AP average of 60 stocks opened the year at \$98.80, hit a low of \$97 in the latter part of February, and Friday the average stood at \$106.90, the highest point it has reached since June 10, 1930.

Baker Is Named Manager Of D&R Work Of Conoco

PONCA CITY, OKLA.—E. R. Baker has been promoted to manager of Continental Oil Company's development and research department, with headquarters in Ponca City. He succeeds L. L. Davis, who is retiring after 25 years of service with Continental.

Davis, who has been development and research manager since 1948, will continue to serve the company in a consulting capacity.

He has been for many years a leader in the development of Continental's research program, recently implemented by the completion of Conoco's new \$2,250,000 development and research building at Ponca City which will house the company's scientific laboratory.

Has Distinguished Career

Baker has been with Continental at Ponca City in 1948, as manager of the company's central research laboratories and became assistant manager of the development and research department last year.

Prior to joining Continental, he had a distinguished career in chemical and research activities with several eastern firms.

During World War II he served with the chemical warfare branch of the Army, with the rank of colonel, and helped develop the Army's famous 4.2-inch chemical mortar.

Davis joined Continental 25 years ago at Ponca City as a refinery technologist, and became superintendent of the Ponca City refinery in 1928.

From 1930 until 1948, when he became manager of the development and research department, he served as supervisor of the company's process division.

Kritzer Appointed To Game Commission

AUSTIN—(AP)—Governor Shivers announced Saturday appointment of Shelby Kritzer to fill the unexpired term of Gene Howe on the State Game and Fish Commission.

Kritzer is Howe's son-in-law and was closely associated with him in his interest in game conservation matters, the governor's announcement said. Howe's term would have run to Sept. 1, 1953. The noted Texas editor died Wednesday.

COTTON

NEW YORK—(AP)—Cotton prices in the domestic market moved lower this week on selling influenced by Washington developments regarding the Abernethy bill.

At the close of trading on Friday active futures contracts on the New York Cotton Exchange were down 2 to \$4.15 a bale from the level of the week previous.

The sharpest net decline was reported by the nearby July delivery, while the smallest was shown by the distant December delivery. During the preceding week the market registered net advances of \$1.40 to \$3.10.

SALVESTON MAN DROWNED ON PICNIC FOR FAMILY

GALVESTON—(AP)—Sam L. Anderson, Houston negro, drowned at West Beach Friday.

Anderson and his wife were swimming with 14 children they had brought here on an annual outing.

McElroy-Wilshire Gasoline Plant Is To Be Dedicated July 19

A \$1,500,000 gasoline plant designed to conserve natural petroleum resources of Texas will be formally dedicated at special ceremonies and a barbecue to be held July 19, on the 30-acre site of the plant located in Upton County 11 miles northeast of Crane.

The property, designated at the McElroy-Wilshire Refining Plant, has been consigned to the care of the McElroy-Wilshire Oil field which brought in its discovery well on April 13, 1951.

Special invitations are being mailed to more than 2,000 persons in Texas, Oklahoma, New Mexico and California, interested in the oil and gas industry and its conservation program.

Included are Gov. Allan Shivers of Texas, according to Elmer F. Schmidt of Dallas, senior vice president of the Lone Star Producing Company which shares ownership of the plant with the Wilshire Oil Company, Inc. of Midland and Los Angeles.

Acceptances have been received from Railroad Commission Chairman Otis Culberson and Commissioners Ernest O. Thompson and William J. Murray, Jr., Schmidt said.

He pointed out that the public, particularly in and around the Midland-Odessa-Big Springs area is invited to attend the dedication ceremony.

Program Planned

Master of ceremonies for the dedication program, scheduled to start at 11 o'clock, will be C. T. Potter of Dallas, a vice president of the Lone Star Producing Company.

Speakers include Railroad Commission Chairman Culberson, D. A. Hulcy of Dallas, Lone Star president and chairman of the board and immediate past president of the Chamber of Commerce of the United States, and Maurice A. Machris of Los Angeles, director and administrative consultant of the Wilshire Oil Company.

Oil and Gas Conservation leaders of Texas have commended Lone Star and Wilshire for early construction of this plant, a field which has been in production only sixteen months.

Casualties In Korea

WASHINGTON—The Department of Defense Saturday announced the following Texas casualties in the Korean area:

KILLED IN ACTION—

ARMY:

First Lt. James E. DePrain, San Antonio.

AIR FORCE:

Second Lt. Ernest J. Reeves, Jr., Houston.

WOUNDED

ARMY:

Pfc. Carlos Balderas, San Benito; Cpl. General J. Brown, Austin; Pvt. Enrique D. Chellero, Bellmead; Cpl. Rich W. Flanagan, Alice; Pfc. Bobby D. Garrett, Amarillo; Pfc. Mar E. Lange, Jr., San Antonio; Pfc. Pedro V. Lister, Shelyville; Pfc. Pedro D. Ramirez, Del Rio; Pfc. Juan F. Saldana, Jr., Del Rio; Cpl. Armando R. Sanchez, Laredo; Pvt. L. C. Smith, Malakoff; Pfc. Baldeemar L. Vasquez, Fairburn; Pfc. Aubrey W. Wade, Cushing; Cpl. Kenneth W. Weeg, Saint Jo; Pfc. Jayvine L. Yarras, San Antonio; Pfc. Jolly R. Bradford, Pflugville; Pfc. Alberto S. Cadena, San Antonio; T/Sgt. Edward F. Huffnagle, Dallas; Pfc. William K. Turner, Fort Worth.

INJURED

ARMY:

Sgt. Billy L. Haas, Coleman; Pfc. J. D. Johnson, Friona; Cpl. Joe D. McKay, Whiteface; Sgt. Travis W. Price, Brownfield; Sgt. Ruben D. Rodriguez, Marfa; Pvt. Willis U. Tills, Houston.

Directors Of A&M To Accept \$41,122 In Grants-In-Aid

COLLEGE STATION—(AP)—A total of \$41,122 in grants-in-aid to the Texas Agricultural Experiment Station were accepted Saturday by the board of directors of the Texas A&M College system.

Donors of grants-in-aid included Texas Turf Association of Tyler.

Loans to the station including livestock and an aerifier were from Willbourn S. Dibbs of Humbleville, George Jones of Marfa, J. V. Williams of Paines Rock, Wade Reid of Ft. Davis, Alton Burke of Corsicana and the West Point Lawn Products Company of West Point, Pa.

The board also accepted two gifts of equipment for A&M College, from the Texas Cottonseed Crushers Association, Inc. of Wolfe City, and D. F. Ray Martin of Coleman.

Scholarships, fellowships and awards accepted by the board were from M. N. Davidson Foundation; Ahlene A&M Mothers' and Central West Texas A&M clubs; A. E. Burgess; Houston A&M Mothers' Club; Wofford Cain, Brazos County A&M Mothers' Club; San Antonio A&M Mothers' Club; First National Bank of Houston; Lane-Wells Company; Gifford-Hughes Line Company; L. A. Priestner, Dallas A&M Club; Robert E. Moore, Sr.; M. T. Halvouty, and Corbide, and Carbon Chemicals.

Firemen Rescue Workman Trapped In Plant Explosion

LAKE CHARLES, LA.—(AP)—Firemen worked more than five hours Saturday at the Firestone Tire and Rubber Company plant here to free a man trapped under the debris.

The man, identified as Charles W. Cain of Lake Charles, was killed and burned, and a doctor said his while after he was freed from the wreckage.

President Truman signed an initial order on recommendation of Attorney General McGrath, which appeared to have been involved with a gentleman charged with mail fraud.

Knetzer escaped from the Springfield, Ill. city jail last week and is the object of a nation-wide search.

Knetzer, of Edwardsville, Ill., was being held in jail on an indefinite sentence for contempt of court in connection with a bankruptcy case. The U. S. marshal accompanied him on several court-sanctioned trips to dig up money for creditors.

Firing Of Illinois U. S. Attorney Tied To Mail Fraud Case

PEORIA, ILL.—(AP)—Robert Grant, U. S. marshal for the Southern District of Illinois, who was fired Friday by President Truman for alleged irregularities, Saturday denied any mistand.

Grant, contacted in nearby Peoria by the Peoria Journal, said he did not know why he had been dismissed. The newspaper quoted him as denying any misconduct or "court-sanctioned" fund-raising trips with Robert L. Knetzer, a Peoria mail dealer.

President Truman signed the dismissal order on recommendation of Attorney General McGrath, which appeared to have been involved with a gentleman charged with mail fraud.

Knetzer escaped from the Springfield, Ill. city jail last week and is the object of a nation-wide search.

Knetzer, of Edwardsville, Ill., was being held in jail on an indefinite sentence for contempt of court in connection with a bankruptcy case. The U. S. marshal accompanied him on several court-sanctioned trips to dig up money for creditors.

Midlanders Attend Meeting In Dallas

Mrs. Harry Rhodes, Mrs. Hal Peck and Mrs. Ray Howard plan to fly to Dallas Sunday to attend a meeting on the current polio situation.

Mrs. Rhodes is district director of women's activities of the National Foundation for Infantile Paralysis. The Midlanders are to be the dinner guests of Mrs. Helen Pearson, state director of women's activities, Sunday night.

Among the officials expected to attend the meeting is Donald O'Connor, national foundation president.
